## 1967-69 Torque Arm Rear Suspension

TCl Engineering's 1967-69 Firebird torque arm assembly is engineered for Street, Autocross, and Road Course applications. The torque arm rear suspension was designed to eliminate the suspension bind that occurs when cornering using the stock conventional leaf spring suspension. The torque arm features a telescoping slider at the front of the arm that rotates as the vehicle goes through suspension travel and articulation. This allows the vehicles handling to be controlled by the coilover shocks and the rear sway bar with no suspension binding variables. The set allows for a lowered stance, greater rear axle control and dramatically improved handling. There are 3 height adjustments on the axle brackets in one inch increments. You also have the ability to fine tune the ride height further with the adjustable coilovers.

Note: Welding is required for mounting tabs and brackets to the axle housing. Set is for any axle with 3" axle tubes. Set does not include axle assembly, third member or brakes. Shipped double oversize.

### Sunbrella Car Cover

Covercraft custom car covers provide a custom-fit design produced against OEM standards to ensure that their car covers will fit each vehicle with precision. Custom Sunbrella® car covers are best for intense sun environments like the southwestern United States. Thanks to the unique construction process Sunbrella® vehicle covers provide the ultimate protection and years of coverage in areas with intense sun climates. The acrylic fibers are solution dyed, before the fabric is woven, to assure the color goes all the way through the fabric. Using a special finish process, the heavy-duty acrylic material is then softened for use as a car cover fabric. This creates a fabric that is exceptionally strong and UV resistant that is soft on your vehicle's finish.

Note: Please add 2 digit color code when ordering.

### 5-Layer Softback All Climate Cover

Covercraft custom car covers provide a custom-fit design produced against OEM standards to ensure that their car covers will fit each vehicle with precision. This all-climate softback car cover fabric features 5-layers of protection to provide the best defense against the elements while being smooth against your paint finish. Each custom car cover also features reinforced non-scratch grommets with a soft felt backing, durable overlapped double-stitched seams, and urethane elastic sewn into the front and rear hems for easy installation. The robust car cover layers also help add privacy to help keep prying eyes out of your vehicle while also serving as a theft deterrent. If parking in a garage this car cover works as a superior dust top to keep your vehicle looking its best. The softback lining paired with the robust multi-layer design also helps to reduce scuffs and minor dings from accidental bumps or garage accidents. Protect your vehicle with this premium softback all-climate car cover from Covercraft.

### Polycotton Car Cover

Covercraft custom car covers provide a custom-fit design produced against OEM standards to ensure that their car covers will fit each vehicle with precision. Polycotton vehicle covers are ideal for the classic enthusiast that just wants basic indoor protection with no bells or whistles. Polycotton is a soft polyester cotton blend that feels and acts like a basic dress shirt. Wouldn't you want to leave your vehicle parked outside with this cover, but will help keep your vehicle protected from prying eyes while still being super breathable to allow any moisture or fumes to escape.
