## 1969 Rally Gauge Cluster

Reproduction Rally gauge cluster for 1969 Pontiac Firebird and Trans Am models. Each cluster includes the housing, Rally gauge cluster, and Rally gauge style speedometer face. For converting a vehicle from warning lights to gauges, we offer one that also includes a printed circuit board for your convenience. Each cluster requires Rally gauge sending units for operation.

Note: Your vehicle's existing speedometer movement, lens, and inner bezel are required to complete the installation.

F76442 1969 without circuit board ..... 279.99 ea  
F76441 1969 with printed circuit board 349.99 ea

- Dramatically Improve Handling
- Eliminates Bind During Articulation
- Strengthens the Chassis
- True Bolt-in with No Cutting into the Floor Required
- All Heli-arc Welded for the Highest Quality and Strength
- Driveshaft Loop Provides Added Safety
- Lowered Stance and Center of Gravity

## 1967-69 Torque Arm Rear Suspension

TCI Engineering's 1967-69 Firebird torque arm assembly is engineered for Street, Autocross, and Road Course applications. The torque arm rear suspension was designed to eliminate the suspension bind that occurs when cornering using the stock conventional leaf spring suspension. The torque arm features a telescoping slider at the front of the arm that rotates as the vehicle goes through suspension travel and articulation. This allows the vehicles handling to be controlled by the coilover shocks and the rear sway bar with no suspension binding variables. The set allows for a lowered stance, greater rear axle control and dramatically improved handling. There are 3 height adjustments on the axle brackets in one inch increments. You also have the ability to fine tune the ride height further with the adjustable coilovers.

Note: Welding is required for mounting tabs and brackets to the axle housing. Set is for any axle with 3" axle tubes. Set does not include axle assembly, third member or brakes. Shipped double oversize.

5295105 1967-69 ..... 2679.99 set

## 5-3/4" Headlamp Bulb with LED Bar

5-3/4" LED headlight with white or amber LED position light bar for four headlight systems. These headlamps feature LED high and low beam along with 9 high power LEDs in the light bar. Perfect for 4 headlamp systems. Sold individually.

CP2000 white LED ..... 276.99 ea  
CP2001 amber LED ..... 307.99 ea

# Get The OER<sup>®</sup> Advantage. . . It's Almost Unfair!

Authentic Quality Reproduction Parts for Classic American Muscle

**ORIGINAL QUALITY • ORIGINAL APPEARANCE**

## Original Fit

Appearance is extremely important in reproduction parts, but just as important is the way the part fits. You will appreciate OER<sup>®</sup> reproductions. Parts are designed to fit as closely to the original as possible. Each part is checked and rechecked to ensure proper fit and function.

## Superior Quality

It's one thing to manufacture a reproduction part, it's another to duplicate the quality. OER<sup>®</sup> uses the finest quality materials and workmanship to ensure the finished part meets or exceeds original equipment specifications. In fact, many OER<sup>®</sup> products are superior to the original.

## Authentic Appearance

Each OER<sup>®</sup> part is manufactured to original specifications, down to the smallest detail. Consistent quality control methods ensure an exact duplicate every time.

## OER<sup>®</sup> Officially Licensed Products

Many OER<sup>®</sup> products are officially licensed by the original manufacturers, assuring the highest quality reproductions available.

**OER ORIGINAL

# Classic Industries® Has More To Offer!

## Service Excellence From the Restoration Leaders!

### Price Match Guarantee

*If You Find a Product for Less, We'll Match the Price!*

Classic Industries® will match any competitor's current advertised retail price for an identical product. Simply send us a copy of the competitor's current advertised price from a catalog, advertisement or website (with URL) and we'll match the price. The price match guarantee is available at the time the order is placed and for in-stock merchandise only. Price matching will be determined by a competitor's most current retail published price and is limited to competitors within the Restoration Industry.

### Money Back Guarantee

*100% Satisfaction or Your Money Back!*

We take pride in the quality of the products we offer and back it up with a 100% Money Back Guarantee. If for any reason you are not satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit or exchange.

### Online Instructional Videos

*Visit ClassicIndustries.tv to View Our Online Video Library*

Need a little guidance to help you install the restoration parts you purchased? Then cruise over to Classic Industries®' new video media website, [www.classicindustries.tv](http://www.classicindustries.tv) where you can watch a library of how-to videos created by our own expert staff, guiding you through the installation processes for upholstery, headliners and more.

### Technical Support

*Call 1-800-854-1280, extension 5390 for more information*

Our tech representatives are ready to help you with all your restoration questions regarding parts or accessories, but we don't stop there, we can help answer questions you may have concerning the detailed areas of your restoration! Our tech representatives consist of some of the most knowledgeable restoration experts in the business. We don't claim to have all the answers but we've been doing it longer than anyone. Chances are we've heard the questions you need answered before. If nothing else, we can probably steer you in the right direction. We continually train our staff in all aspects of early and late model restoration and pass the information along to you!

### California Residents — Prop 65

Prop 65 requires businesses that manufacture and/or sell products in the State of California to inform consumers which items contain chemicals known to cause cancer and/or reproductive harm.

### Earn Rewards!

## Symbols of Quality

### OER<sup>®</sup> Original Equipment Reproduction

The leader in quality reproductions is here! OER<sup>®</sup> stands for Original Equipment Reproduction<sup>®</sup>. When you see the OER<sup>®</sup> logo, you can be assured that every part is manufactured to exact factory specifications and will fit and function just like the original part. What's more, many OER<sup>®</sup> products are officially licensed and carry a full one year warranty against defects and workmanship.

### OER<sup>®</sup> Authorized Products OER AUTHORIZED

The OER<sup>®</sup> Authorized logo represents products that meet or exceed stringent OER<sup>®</sup> quality control standards. These items have been sanctioned and approved by OER<sup>®</sup>. Most of these products are prepackaged with the OER<sup>®</sup> Authorized logo.

### OER<sup>®</sup> Premier OER Premier

Count on the OER<sup>®</sup> Premier logo to denote parts that are outstanding in fit, craftsmanship, and manufacturing techniques. Each and every product displaying the Premier symbol is the best the market has to offer, and a cut above the competition. Order with confidence when you see this symbol, as OER<sup>®</sup> Premier is the true sign of originality and quality.

### The GM Restoration Parts Emblem

It's the true sign of originality and quality. You can be sure that every product you receive will look and fit exactly as the original did. Parts that display this emblem are Officially Licensed by General Motors as a genuine restoration product. Classic Industries<sup>®</sup> is currently licensed for many of the products listed in this catalog. The same products we've been manufacturing for years. We haven't changed our methods or quality and the GM Restoration Parts emblem is proof. The GM Restoration Parts emblem is a registered trademark of General Motors and used under license to Classic Industries<sup>®</sup> Inc.

### Classic Industries<sup>®</sup> The Restorer's Choice<sup>™</sup>

Count on the Classic Industries<sup>®</sup> Restorer's Choice<sup>™</sup> symbol whenever purchasing reproduction parts and accessories. You can be sure that each and every product displaying this symbol is manufactured correctly to exact specifications and fits the way the factory intended. This Classic Industries<sup>®</sup> symbol is your assurance of quality.

### Made in USA

Classic Industries is proud to offer American products for your American classic. Wherever you see this MADE IN USA symbol, you know you're receiving the highest quality parts, sourced from the skilled craftsmen of the United States of America.

## PRODUCT EMISSIONS GUIDE

**50-State Legal:** These products currently have a California Air Resource Board (C.A.R.B.) Executive Order (O.E.) number. They meet the emission standard for use on pollution controlled vehicles in all of the 50 United States for the vehicles listed on the E.O.

**For Racing Use Only:** These products are intended to be used on vehicles that are exclusively designated for racing use only. They are not legal for use on vehicles that are registered for street use.

**For Use On Pre-Pollution Controlled Vehicles (PPCV):** These products are legal for use on pre-pollution controlled vehicles. They can be used on all vehicles that were manufactured before emissions control regulations were imposed. These are considered "uncontrolled vehicles".

1965 and older U.S. manufactured California Certified vehicles  
1967 and older U.S. manufactured Federally Certified vehicles  
1967 and older Foreign manufactured vehicles

**Stock Replacement Part:** These products are manufactured to exact specifications of the Original Equipment (OE) part. They must be used on the specific year, make, and model for which it is listed.

**Engine Swaps:** These products are intended to be used with engines that have been transplanted or swapped into an uncontrolled or pre-pollution controlled vehicle, as defined above. They are not legal for use on pollution controlled vehicles.

# OER AUTHORIZED Firebird Car Covers

The Economical Way to Protect Your Investment!

**FREE**  
UP TO \$100 OFF  
ON THE PRICE OF THE COVER

**Diamond Blue™**

- ★ Indoor Use
- ★ Single Layer Material

Designed for indoor use, OER's Diamond Blue covers are manufactured using an economical single layer non-woven material that offers excellent protection from dust and dirt penetration. Each cover is sewn with double stitched seams to add strength and durability to the cover and Neoprene elastic is sewn into the front and rear hems to help secure the cover. Breathable and lightweight, Diamond Blue offers basic protection from water and guards against damage from dust, dirt, over spray and similar environmental elements. Covers feature mirror pockets on both sides of the cover when applicable and non-scratch grommets have been installed onto each side of the cover to allow the use of a tie strap or lock.

## Protecting The Things That Move You®

### Reflecter Car Cover

Covercraft custom car covers provide a custom-fit design produced against OEM standards to ensure that their car covers will fit each vehicle with precision. Reflecter® car covers provide great all-weather protection but are ideal for sunny climates. The Reflecter® vehicle covers are made from a silver urethane coated polyester fabric with a UV-reflective silver colored finish. Not only will these custom car covers keep your vehicle cooler, but they are water-resistant and designed to repel dust and dirt to keep your vehicle clean. The lightweight design allows for easy installation and compact trunk storage.

### Sunbrella Car Cover

Covercraft custom car covers provide a custom-fit design produced against OEM standards to ensure that their car covers will fit each vehicle with precision. Custom Sunbrella® car covers are best for intense sun environments like the southwestern United States. Thanks to the unique construction process Sunbrella® vehicle covers provide the ultimate protection and years of coverage in areas with intense sun climates. The acrylic fibers are solution dyed, before the fabric is woven, to assure the color goes all the way through the fabric. Using a special finish process, the heavy-duty acrylic material is then softened for use as a car cover fabric. This creates a fabric that is exceptionally strong and UV resistant that is soft on your vehicle's finish.

Note: Please add 2 digit color code when ordering.

### WeatherShield HD Car Cover

Covercraft custom car covers provide a custom-fit design produced against OEM standards to ensure that their car covers will fit each vehicle with precision. WeatherShield® HD custom car cover were developed primarily for intense sun environments and long-term storage, utilizing heavier denier thread for maximum UV opacity. Approximately 40% heavier than WeatherShield® HP, the 300 denier fiber construction results in almost double the tear and tensile strength, finished with the same great EPIC® by Nextec encapsulation process.

### 5-Layer Softback All Climate Cover

Covercraft custom car covers provide a custom-fit design produced against OEM standards to ensure that their car covers will fit each vehicle with precision. This all-climate softback car cover fabric features 5-layers of protection to provide the best defense against the elements while being smooth against your paint finish. Each custom car cover also features reinforced non-scratch grommets with a soft felt backing, durable overlapped double-stitched seams, and urethane elastic sewn into the front and rear hems for easy installation. The robust car cover layers also help add privacy to help keep prying eyes out of your vehicle while also serving as a theft deterrent. If parking in a garage this car cover works as a superior dust top to keep your vehicle looking its best. The softback lining paired with the robust multi-layer design also helps to reduce scuffs and minor dings from accidental bumps or garage accidents. Protect your vehicle with this premium softback all-climate car cover from Covercraft.

Note: \*Without mirror pockets.

### Polycotton Car Cover

Covercraft custom car covers provide a custom-fit design produced against OEM standards to ensure that their car covers will fit each vehicle with precision. Polycotton vehicle covers are ideal for the classic enthusiast that just wants basic indoor protection with no bells or whistles. Polycotton is a soft polyester cotton blend that feels and acts like a basic dress shirt. Wouldn't you want to leave your vehicle parked outside with this cover, but will help keep your vehicle protected from prying eyes while still being super breathable to allow any moisture or fumes to escape.

Note: \*Without mirror pockets.

### 3-Layer Moderate Climate Car Cover

Covercraft custom car covers provide a custom-fit design produced against OEM standards to ensure that their car covers will fit each vehicle with precision. This car cover fabric features 3-layers of protection to provide much-needed defense against the elements and is even specially treated with extra UV resistance. If you are looking for a great multi-layer car cover for your daily driver car when parking outdoors at the office, home, or store this is a great option for you. Not only will this custom car cover keep your vehicle protected, but it will help keep prying eyes out adding privacy and a theft deterrent.

Note: \*Without mirror pockets.

# 1967-75 Molded Carpet

## NEW AUTHORIZED Loop Carpet Sets

Now Available with or without Mass Backing!

Absolutely the highest quality reproduction carpet available! This Raylon is a revolutionary new carpet yarn utilizing modern textile chemistry to duplicate the appearance of original 80/20 rayon/nylon carpet used in classic vehicles. All carpet sets include a correct heel pad and dimmer switch hole grommet. Jute padding is pre-attached to the underside of all carpet sets.

### FAQ: What Exactly is Mass Backing?

As part of the manufacturing process, a special latex coating is thermo-bonded to the back of the carpet to substantially increase the insulating and sound deadening properties of the basic carpet set. Then 36 oz. jute padding is attached to the underside of the carpet. Mass backing is available as an option for molded carpets only.

## USA 1967-69 Molded Loop Carpet

All carpet sets include a correct heel pad and dimmer switch hole grommet. Jute padding is pre-attached to the underside of all carpet sets.

Note: Please add two digit color code when ordering.

## Stage 1 Dynamat® Damper Pads

## Stage 2 Heat Shield/Barrier Panels

## 1967-92 Insulation Set

This two stage insulation and sound damping system gives vehicles the "quiet riding comfort" of modern cars. AcoustiShield sets are designed on current "state-of-the-art" auto acoustic technology to insulate and control the noise, vibration and heat in the passenger cabin. Complete sets include: floor, doors, roof (exc. convertible), body, cowl, and trunk insulation, Dynamat damper pads, spray adhesive, sealing tape, and instructions. Also available in individual sets.

Note: AcoustiShield sets are shipped ground only.

## 1967-81 Firewall Insulation Pad

These reproduction firewall insulation pads install as original on the firewall area of the interior. This pad will insulate the firewall area from high temperatures emitting from the engine compartment and keep the interior at a comfortable temperature. These pads are produced to factory specifications and are manufactured with thick jute padding glued to a die-cut neoprene material as original. Includes firewall fasteners.

**Note:** The jute material side of the pad faces the firewall.

\*On vehicles equipped with air conditioning, it will be necessary to cutout the area for the heater box assembly.

### Small to Mid-Size Vehicle Set Includes:

- 25 sq. ft. of Boom Mat Damping Material
- 35 sq. ft. of Under Carpet Lite (6 ft. x 70 in.)
- One 18 oz. can of Boom Mat Spray-On

### Full Size Vehicle Set Includes:

- 41.7 sq. ft. of Boom Mat Damping Material
- 58.3 sq. ft. of Under Carpet Lite (10 ft. x 70 in.)
- One 18 oz. can of Boom Mat Spray-On

### Boom Mat All-In-One Interior Set

Take the guesswork out of thermal and acoustic control with this all-in-one part number! Introducing a simple and cost effective, universal fit, sound deadening and thermal insulation set. Each set includes enough material for your vehicle. A three step process for the best interior comfort from heat and noise.

**STEP 1:** Apply Boom Mat vibration damping material to remove structure borne vibrations, squeaks and rattles.

**STEP 2:** Apply Boom Mat Spray-On to reduce the noise and vibration in hard to reach areas such as trunk interiors, fender walls & inside doors.

**STEP 3:** Apply Under Carpet Lite over damping material on firewalls and floor boards to block up to 85% of heat and for additional noise control.

### Cool It Insulating Mat

Battle excessive heat and noise that penetrate the driver compartment through the firewall and floorboards. The highly reflective Mylar reflects heat away from surfaces, while the foil side is oriented away from the heat source to conduct any penetrating heat across its surface thus providing the ultimate in heat protection. The silica blanketing is a dual density composite and is the main sound insulator. Easy to trim and can be applied with the push-in fasteners provided or any weatherstrip adhesive. Two sizes to fit your individual needs.

TT1006	48" x 48"	74.99 ea

### Adhesive Heat Barrier™

Adhesive backed, this Heat Barrier™ protects parts and components from radiant heat. Made up of woven silica with a flexible aluminized finish. The surface of the material is capable of withstanding radiant temperatures in excess of 2000 degree F. The adhesive backed composite construction material can be easily applied to any surface or wrapped around a hose or wire to make a clean professional appearance.

### Super Sonic Acoustical Mat

This high-quality mat offers superior sound damping control to reduce road noise, rattles, engine noise, and any other noises that are bothersome. The high density polyethylene film with an aluminum foil composite is abrasion and tear resistant. The gray film provides structural integrity and strength, allowing the material to bend, move, and return to shape even under tension forces. The product is 70 mil in thickness, contains a high temperature adhesive backing, and is easy to trim and fit. The rubberized compound is applied with the high temperature adhesive to absorb all those out of control noises.

## 1967-72 Pontiac Rubber Floor Mats

If you're looking for original dealer accessory floor mats, these GM licensed reproductions are just what you're after. Featuring correct Pontiac lettering and Arrowhead or Firebird logo embossed into the mats. Each mat is die-cut to fit the original contour of the floor pan and is produced with high grade rubber in original style grains and colors. These mats also feature original style carpet grips on the bottom of each mat which prevent mat slippage. Designed for 1967-69 and 1970-72 Firebird models, these mats will also fit various 1964-73 Pontiac models. Sold in sets of 4.

# Custom Logo Carpet Floor Mats

Lloyd Mats are available in a variety of colors to match or complement your Firebird's interior color. These custom logo mats are covered by a manufacturer's limited warranty against defects in design, workmanship and materials for two years from date of purchase.

### Floor Mat Colors

### 1967-02 Embroidered Floor Mats

These custom fit Lloyd Mats for Firebird feature densely packed 2-ply 32 oz. DuPont nylon yarn for durability and long-lasting appearance. Their woven polypropylene backing, water resistant latex coating and non slip TractionBac rubber backing prevent unwanted movement and the matching nylon velour binding finishes off the edge of the mat and provides durable, long-lasting protection that will never unravel. Sold in sets of 4.

CORBEAU

## Sportline Evolution X Racing Seat

The new Sportline series of seats by Corbeau features superior comfort, style, and support, plus top of the line injection molded foam, bolsters that hold you in the right spots, and harness capability. The Evolution X is a fixed back racing seat. Inspired by the C5/C6 Corvette where seating options are limited due to the small cockpit area, the Evolution X was designed to be a bit narrower, allowing it to fit in smaller vehicles. Each seat has a base height of only 2-1/2" between the floor and where you would sit. This is ideal for minimal headroom applications or for drivers wearing helmets. Seats feature black vinyl with carbon vinyl accents and are handcrafted with your choice of red or black offset stitching. Seats will fit up to approximately a 38" waist.

**Note:** Mounting brackets with seat tracks sold separately. Shipped double oversize.

## Sportline RRB Racing Seats

The Sportline series of seats by Corbeau have a look and feel that is second to none. RRB seats feature thigh bolsters that come into contact with the back of the seat. This gives you that racing bucket look of a fixed back seat, while maintaining the convenience of a reclining seat. Each seat has a base height of only 2-1/2" between the floor and where you would sit. This is ideal for minimal headroom applications or for drivers wearing helmets. Seats will fit up to a 38" waist. Weight is 26 lbs per seat. Sold in pairs.

**Note:** Mounting brackets with seat tracks sold separately. Shipped double overize.

## 1967-81 Bucket Seat Heater

Add comfort and pleasure to your classic Firebird with these great seat heaters. They are safe and durable, heat up in seconds and will quickly provide comforting warmth through the seat cushions long before the vehicle's heater has a chance to heat the interior. These peel and stick seat heater elements fit under the seat cover without detection. This model has two temperature settings (high/low), digital electronic controller, built in 1-hour safety shut off and is compatible with remote start. Each seat heater is individually fused and safely wired into the vehicles electrical system.

## Single Perforated Material Colors

## 1973-81 Perforated Headliner Material

Foam backed perforated vinyl headliner material for 1973-81 Firebird and Trans Am models. The original headliner can now be refurbished by removing and resurfacing the old headliner board. The headliner material is removed, the old foam scraped off, then apply the new foam backed headliner material using contact cement. Trim the edges and the unit is replaced into the vehicle. Fits solid roof and T-top models.  
**Note:** For 1973 late production and all 1974-81 models with a 1 piece cardboard type headliner.

## 1974-81 One Piece Headliner

Is your 1974-81 Firebird afflicted with the dreaded headliner sag? Does it also have a warped, cracked, or even missing headliner board? We can help you put your headliner where it belongs and bring back that factory new look to your interior. Classic Industries® is pleased to offer pre-assembled replacement headliner boards complete with the correct perforated vinyl material. They can be installed in all 1974-81 Firebird models with or without T-tops. When installing these boards on T-top models, simply cut the openings out for the T-tops.

**Note:** Shipped double oversize.

## Speedometer Driven Gear

Replace your worn out, stripped, or damaged original gear or simply use a different gear for speedometer correction when changing rear axle final drive ratios or changing tire sizes.

**Note:** The color of the gear may be different than your original due to supersession of part numbers over time.

## Hall Effect Speedometer Sending Unit

The GM style Hall Effect speeder features a 7/8"-18 threaded input, .104 x .104 drive tang, wire harness pigtail, and transmits 16 pulses per revolution. C95113 Hall Effect speed sender..... 59.99 ea

## Speedometer Sending Unit

Speedometer sending unit for use with all AutoMeter electronic speedometers. This unit is not included with the gauge packages and must be purchased separately. AM5291 sending unit..... 115.99 ea

## Speed Sensor

A speed sensor is an electrical device that can sense the rotational speed of a shaft or member and transmit this information to another device, such as a readout. Sensor is 7/8"-18 thread.

60117 late TPI & early LTI - 4 pulse... 159.99 ea

## Cable-X Speedometer Drive Converter

The Cable-X universal adapter will pickup the electronic speedometer signal and operate the cable driven speedometer to the corresponding speed. It's a snap to install with only three wires: hot, ground, and signal.

1860S with snap-on cable..... 419.99 ea  
1860T with thread-on cable..... 419.99 ea

## Sky Drive GPS Speedometer Sender

The Sky Drive GPS Speedometer sender quickly calibrates and accurately drives any electronic programmable speedometer. No more guessing or recalibrating due to tire or gear changes, this unit requires a one time setup and you're done.

280665 GPS speedometer sender..... 284.99 ea

## Distributorless Tach Adapter

This tach adapter is designed to add a standard ignition tachometer. Pro Shift light, or RPM activated module to be used with distributorless ignition systems.

AM9117 distributorless tach adapter... 117.99 ea

## 1967-72 Hood Tach Dimmer Module

This option facilitates the dimming of the hood tach lamps. This allows the lamps to be kept on slightly in order to reduce condensation on the lens. This kit consists of a plug-in module that connects under the dash to the original harness.

FL111 1967-72..... 41.99 ea

## 1967-72 Hood Tach Vent Line Set

In 1968 Pontiac had a problem with their hood tachometer fogging up, so in 1970 GM came out with this set. GM's fix was connecting a vacuum hose from the bottom of the hood tach to the heater box on the firewall. All 1970-72 hood tachs had this set installed by the factory to correct this problem.

FL110 1967-72..... 41.99 set

## Universal Tachometer Filter

Eliminate tach signal noise and surges caused by your ignition system. This filter installs between the tachometer and the signal source and modifies the sharp up and down spikes into a semi-square wave signal for steady readings and faster response. This tachometer filter can be used as a direct replacement for 1975-89 GM vehicles. Measures: 2" x 3/4" x 1". Includes instructions.

**Important:** Recommended for vehicles running an HEI ignition with a tachometer designed for points style ignitions.

MG109219 ..... 36.99 ea

## Tachometer Signal Filter

AutoMeter tachometer signal filter. These filters are designed to correct erratic tach function by filtering out the interference or spiky pulse signals often caused by points or noisy ignition systems.

AM9116 tachometer signal filter..... 27.99 ea

## LS Gauge Adapter/Tach Resistor Set

The LS adapter allows the use standard 1/8"-27 NPT threaded senders in the metric LS sender ports. Includes one metric 16 x 1.5 to 1/8"-27 adapter and one metric 12 x 1 to 1/8"-27 adapter. Set also includes brass o-ring seals and a pre-wired step-up resistor for tachometers that read a signal from the PCM.

Over 30 independent RGB color options

- Over 30 independent RGB color options
- 12 preset color theme options or build your own
- Wide angle color TFT LCD Message Center(s)
- Independent day/night color selections
- Illuminated needles and LED backlighting
- "Ghosted" indicators (Turn signals, high beam check engine, cruise control engaged, parking brake, plus two that are user defined) appear only when lit.
- Bluetooth connection to tablet/smart phone. Easy to use app allows for quick setup, and diagnosis
- Available for iPhone and Android systems.

## 1967-68 HDX Series Gauge Set

The new HDX series gauge sets from Dakota Digital brings you the best in modern instrumentation, rivaling what's offered in today's modern vehicles. Each HDX system is fully customizable, allowing you to personalize your instrument panel to complement nearly any vehicle theme. Each direct fit gauge package incorporates a speedometer, tachometer, fuel level, Volts, oil pressure, and coolant temperature gauges, along with a digital message center. The gauges are integrated into your vehicle's systems using the supplied central control box. Includes necessary sensors. Gauge faces offered in black alloy or silver alloy and are available with either standard (MPH and Fahrenheit) or metric (KM/H and Celsius) displays.

Important: Gauge bezel not included. Metric display (KM/H and Celsius) gauge sets are custom built by Dakota Digital, and may require a 3-5 week build time.

## USA 1967-69 VHX Instrument Cluster

Modernizing your instrument cluster couldn't be simpler! VHX gauges from Dakota Digital feature fully lit needles, backlit faces, and vibrant LCD message centers which can display automatic gearshift location, clock, odometer, trip meter, 0-60 and 1/4 mile timers can be displayed as well as high RPM and high speed recalls. Behind the scenes, micro-controlled precision stepper motors, and solid state sensors bring your classic instrument cluster into the modern age. Available in black alloy, silver alloy, or carbon fiber style, with your choice of blue, red, or white backlighting.

**Important:** Shift indicator function requires sending unit/module DD1000. Dash bezel sold separately. White illumination not available for carbon fiber.

**Note:** Specify gauge illumination color when ordering: 1 - blue, 2 - red, 3 - white.

## USA 1970-90 Digital Instruments

Looking to get a fresh, modern look for your gauge panel? The Intellitronix digital dash gives your Firebird the precision of digital readouts under the elegance of a smoked gauge lens. This direct fit digital instrument cluster works with your factory fuel, oil pressure, and cruise control sending units and includes a printed circuit board, smoked faceplate, temperature sending unit, a speedometer sender (for vehicles without electronic transmission), and instructions. The 1970-81 gauge sets also have a clock included. Made in USA.

**Note:** When ordering, please add the correct color suffix: B - blue, G - green, R - red, or W - white.

USA630 - rear detail including USB and iPod leads

## 1967-77 USA-630 AM/FM Stereo

Custom Autound's USA-630 is designed to provide the best in audio technology wrapped in a classic car stereo look. It will fit your vehicle's stock dash without any modifications required. Modern features like a USB input for flash drives to playback MP3/WMA song files and a dock for your iPod. When connected to these devices the radio's digital display will show artist, song, album titles and allow song navigation through the radio itself. The USA-630 is compatible with our optional BLUKIT which enables bluetooth music streaming from your enabled phone as well as handsfree mobile calling through the vehicle's speakers and BLUKIT's built-in microphone. With 300 watts peak the radio provides plenty of power but additionally contains four RCA pre-outs for optional amplifiers. It also comes with Auxiliary inputs for satellite radio tuners, iPhones or any portable player you may wish to use.

**Important:** For BLUKIT see part #A910300.

## 1967-81 USA-230 AM/FM Stereo

Custom Autound's USA-230 is an excellent choice for classic truck enthusiasts looking for a more affordable radio without sacrificing quality electronics and a classic stereo look. It has been designed to fit in the stock dash without any modifications required. The USA-230 has the same appearance and all of the features offered in our USA-630 model simply without USB port, iPod dock and CD changer control. The USA-230 does provide an auxiliary input which can connect to iPods, iPhones, satellite radio tuners or any other device with a headphone jack. It also boasts 4 Channel RCA pre-outs and a digital display with electronic tuner, 16 station pre-sets and a 4 way fader. With 200 watts peak, (4 x 50).

-------	----------	--	-----------

## Play Portable MP3's or CD's on Your Factory Radio!

With the RediRad adapter music is seamlessly routed from any portable music player such as a cassette, CD or MP3 player, even satellite radio into your AM or AM/FM radio without any vehicle modifications. For simple and out-of-sight installation, it uses a standard audio plug on a six foot cable to connect to your portable player. When music is detected at the audio plug, the RediRad automatically switches from the radio broadcast to your personal player.

14923	RediRad adapter		128.99 ea
-------	-----------------	--	-----------

## Radio Off Delay

With this new device, you can listen to your radio after you remove the key from the ignition, just like many modern luxury cars! After removing they key, this unit will keep the radio power active for 15 minutes or until a door is opened. This allows you to continue listening to the radio without leaving the electric fan or other accessories running. And you're not limited to just the radio; it could be wired to control all accessory power so you still have control of the power windows after the key is off.

## Boom Mat Speaker Baffles

Solve the problem of rattles and vibrations caused by speakers and protect the back of speakers from damage. Boom Mat speaker baffles maximize speaker performance by isolating the frequency responses while damping reverberation. Also forms a water tight protective shell to prevent moisture intrusion. Made from a closed cell polyethylene to enhance frequency response for improved sound clarity. Easy conformably in tight spaces for a professional installation.

# Custom Steering Wheels

## Cherry Mahogany Wood Steering Wheel

Add a traditional look to your interior with this 6 bolt woodgrain steering wheel from NRG. Made from high-quality materials with a sophisticated design to let you feel the smooth luxurious wood and the aggressive matte finish. Mounts to any 6 bolt hub or quick release unit. Measures: 13" in diameter, 1-3/4" deep.

### Standard Woodgrain Wheels

152773B matte black center ..... 159.99 ea  
 152773C chrome center ..... 159.99 ea

## Rim Sport Style Mahogany Wood Wheel

NRG Rim Sport series wheel is manufactured from high-quality materials, providing the feel of smooth luxurious wood, polished aluminum center spokes and the old school brushed metal feel. Mounts to any 6 bolt hub or quick release unit and measures 14-1/2" in diameter, and 1-1/2" deep.

152778 6 bolt ..... 209.99 ea

## Steering Wheel Replacement Screws

Replacement mounting screw set for all NRG steering wheels. 6 piece set. Includes Hex key.  
 152775 black M5-8.0 screws ..... 13.99 set

152783B

carbon fiber - detail

## Generation 2.0 Quick Release System

These 2.0 Quick Release units feature many options that conventional ball-lock Quick Release systems do not offer, such as specially designed raised sections to prevent hub stretches and a self-locking mechanism. These units are manufactured from highest quality aircraft aluminum with style and function that are designed to last.

**Note:** Must use in conjunction with the short hub adapter.

### 5 Bolt - 2.0 Quick Release

Compatible with all 5 bolt Grant steering wheels, and others with 5 x 70mm bolt patterns.

152783B black ..... 119.99 ea

### 6 Bolt - 2.0 Quick Release

Compatible with all 6 bolt steering wheels with: 6 x 70mm or 6 x 74mm Bolt Patterns.

#### With Carbon Fiber Ring

152781C black ..... 119.99 ea

#### With Titanium Ring

152782BK black ..... 111.99 ea

152782GM gunmetal ..... 111.99 ea

152782GL silver ..... 111.99 ea

152784BK

## Generation 2.8 Quick Release System

The Gen 2.8 Quick Release provides all the benefits of the 2.0 Generation Systems ball-locking quick release system with the added benefit of an upgraded Diamond Cut flared ring. This provides leverage and grip for the pull ring allowing much easier release of the steering wheel. Perfect for race applications where gloves are required. Choose from a selection of colors.

**Note:** Must use in conjunction with the short hub adapter.

### 6 Bolt - 2.8 Quick Release

Compatible with all 6 bolt steering wheels with: 6 x 70mm or 6 x 74mm Bolt Patterns.

152784BK black ..... 144.99 ea

152784GM gunmetal ..... 144.99 ea

152784GL silver ..... 144.99 ea

## Short Hub Adapter

This short hub unit was designed to mount an aftermarket steering wheel/quick release combination close to the original orientation. Manufactured from the highest quality aluminum using a solid, 1 piece design for maximum strength and durability.

**Note:** Must use with one of our Quick Release or tilt systems.

152780 black ..... 125.99 ea

152779B

152779G

## 1/2" Steering Wheel Spacer

Bring your steering wheel closer with this 1/2" spacer. Manufactured from CNC-machined aluminum with counter sunk mounting holes to the hub and a universal 6 bolt mounting pattern.

152779B black ..... 27.99 ea

152779G silver ..... 27.99 ea

152786GL

## Quick Lock System

A perfect complement to the Quick Release Systems, these units quickly and easily disable the steering hub by preventing the placement of a steering wheel onto the hub. Manufactured from solid steel and utilizing a ball-lock design and key mechanism. Available in various color finishes.

**Note:** Must use with either the 2.0 or 2.8 quick release system.

152785GM gunmetal ..... 125.99 ea

152786GL polished ..... 125.99 ea

152786MB matte black ..... 125.99 ea

152772B

## Quick Tilt/Lock System

By allowing the steering wheel to tilt out of the way in one quick motion and combining a patented locking system to secure the wheel once the tilt is engaged, this system provides an added layer of anti-theft security without sacrificing convenience.

**Note:** Requires short hub adapter. Not compatible with quick lock or quick release units.

152772B black ..... 249.99 ea

152772G silver ..... 249.99 ea

# Custom Steering Wheels

## GT Performance Foam Grip or Retro Wood Steering Wheels

Inspired by Muscle Cars of the 60's and 70's, this GT Retro wheel is the perfect match for any project. The wheel center is manufactured from 304 stainless steel with polished edges and a fully brushed finish; the grip features a rich, thick foam for the most comfortable cushion grip on the market! Each steering wheel kit includes steering wheel, horn button assembly, hub adapter, and Grade 8 hardware. Horn buttons are secured using an exclusive o-ring design. Your choice of black anodized or polished hub and horn assembly,

**Note:** Not intended for vehicles with air bag safety systems.

### 1967-92 Classic Foam Steering Wheel

The GT Classic steering wheel design mimics that custom steering wheels from the 1960's with its soft black 14-1/2" cushion grip and three-spoke center. The 1010 cold rolled steel spokes have classic lightening holes and have been polished and chrome-plated for a perfect appearance. Horn buttons are machined from 6061 aluminum and are secured using an exclusive o-ring design that keeps it from "popping off". Each steering wheel kit includes your choice of a black anodized or polished hub with matching horn button and Grade 8 mounting hardware.

**Note:** Not intended for vehicles with air bag safety systems.

### 1967-94 Pro Touring Sport Steering Wheel

Inspired by GM's optional NK4 four-spoke sport wheel, these custom steering wheels offer a modern twist to an already classic design. The black leather steering wheel is made to original NK4 dimensions and features black anodized spokes and a premium leather "baseball" stitched grip. The wood wheel features polished spokes and a genuine mahogany outer grip with perforated leather inner. Billet horn buttons are secured using an exclusive o-ring design. Kits include: a matching billet hub, horn button, and Grade 8 mounting hardware. Wheels are approximately 14.5" with 2.375" dish.

----------	--------------	----------

**1969-78 Tilt Steering Column**

Flaming River tilt steering columns feature all new components including a 1 piece cast upper housing design with a keyed GM ignition that has the standard GM plug. These columns are manufactured using 2" stainless steel tubing and a high strength, all steel shaft with Teflon coated bearings. They include the tilt and turn signal levers and hazard knob. The shift lever with the shift indicator are included on column shift applications. Columns are 33" long, with 1"-48 spline shaft and are a direct fit for 1969-78 Firebirds or a 1"-DD shaft for rack and pinion steering. A stock steering wheel from 1969 or newer GM vehicles bolt directly to the column. Most aftermarket wheels will attach with an adapter. Available in: black powder coated, paintable stainless steel, or polished stainless steel. Made in USA.

**Important:** The reuse of the original column to dash clamp bracket is required for installation, with some modification necessary, or use part #FR20300 column strap clamp if you want to keep your old column intact. If you do not want to do that you may use FR20114K and not use the OEM mounting.

## 1967-69 Billet Aluminum Pedal Assembly

Direct replacement billet aluminum pedal assemblies for 1967-69 Firebird models. Each throttle assembly has been designed to eliminate the factory rod linkage and mount into the stock location utilizing a modern Lokar throttle cable system. The arms are splined and can be switched for right or left adjustment. The traditional flat style throttle pad is spring loaded and measures 2" x 5". Lokar's curved brake, clutch, and parking brake pedal pads add style and function to your classic car. Designed with hidden screws, these pads are curved to match and bolt directly to the factory steel pedal. Available in a brushed or black finish with rubber inserts on the pad. Made in USA.

## Pontiac Muscleder Performance 1955-1979

Comprehensive guide for the total Arrowhead! This book features "hard to find" information regarding part numbers, casting numbers, along with helpful tips for tuning and carburetion. Softbound, 8-1/2" x 11", 222 pages.

L332		34.99 ea
------	--	----------

## Pontiac Racer's & High-Performance Handbook

Ultimate performance information on 1960's and 1970's Pontiacs. Including cars to use, rod prep, intake manifolds, head prep, suspension, converters, specs, plus all special part numbers. Written for drag racers but useful for all who want high-performance. Softbound, 8-1/2" x 11", 100 pages, 82 illustrations.

L409		24.99 ea
------	--	----------

## How To Rebuild Pontiac V-8s

This Workbench series book will guide proud owners who want to rebuild these engines and give them a new lease on life. Detailed captions and photos show each crucial step of the disassembly, inspection, machine work, parts selection, assembly, and break-in process. Softbound, 8-1/2" x 11", 144 pages, 400 color photos.

L1301		29.99 ea
-------	--	----------

## 1993-02 Camaro/Firebird Portfolio

An exciting series for the Camaro/Firebird enthusiast. Each portfolio includes road tests, model introductions, comparisons, performance data, long term reports, specifications, and owner surveys. Inside you will find feature stories, road test narratives and complete specifications along with performance data. Softbound, 8" x 10-3/4", 136 pages.

L958		23.99 ea
------	--	----------

## Pontiac Heavy-Duty Parts & Specs

This is the most comprehensive book yet on Pontiac performance parts. It is primarily concerned with the 1959-74 Pontiac Ram Air, Super Duty, or High Output series. These high-performance parts will generally interchange onto any 1955-79 Pontiac V8 engine with little or no modifications. This book covers internal engine parts as well as blocks, heads, intakes, exhaust, ignition, chassis components, specifications, and engine codes.

L1893		14.99 ea
-------	--	----------

## How To Build Max-Performance Pontiac V-8s

In this book, critical components are reviewed in great detail, including honest advice on how to modify components for power and durability. The book also gives readers an assessment of the many aftermarket accessories offered for these great engines. High-performance engine builds and their results are discussed. Softbound, 8-1/2" x 11", 144 pages, 352 color photos.

## 1967-02 Custom Fit Windshield Sun Shade

Keep your interior up to 40 degrees cooler by reflecting the sun's harmful UV rays! Return to a cooler parked vehicle with both reduced ambient heat and much cooler steering wheel, shifter and seat surfaces! Custom tailored to fit the inside of your vehicle's windshield, filling every corner for maximum protection, style and ease of installation. It's high tech, incredibly effective, closed cell foam material prevents costly dash pad and steering wheel damage, while improving your comfort. Stores conveniently rolled up with a sewn-in Velcro strap.

UV10067

## 1967-02 Deluxe Windshield Heat Shield

Easy to use UVS100 ultra violet heat shield helps reduce interior temperature and protect from damaging sun rays that come through the front windshield. One side is silver reflective fabric and the other side is finished in soft Pellon felt. Both fabrics are laminated to a foam core board which acts as an insulator to help reduce heat buildup. Produced using pre-sewn panels that quickly accordion fold for handy storage. There is no hardware or hassles, simply fold and position across the windshield surface, then fold the sun visors down to hold the shield in place. Optional storage bag is available.

# Inspection Approval Stamps/Body Markers/Paints

- Achieve complete authenticity for your vehicle by applying inspection approval stamps!
- The first and only kit designed to put inspection marks on your undercarriage and hood!
- A complete set of stamps with specially formulated paint and crayons are included to truly complete your restoration!
- Basic or deluxe kits are available depending on your restoration requirements!

## It's the details that make the difference!

**Y**ou may have seen the letters P.T.B. on the firewall of your vehicle. The markings have specific meanings. We've offered a brief explanation to the most commonly asked questions concerning the replacement of these markings. The key between a good restoration and a great restoration is how much detail is put into it. Enter your restored vehicle in the show of your choice and maintain complete originality by obtaining the correct inspection markings. The judges will be impressed!

### Questions and Answers

- Q. What does P.T.B. stand for?  
 A. P.T.B. means P = Paint, T = Trim, B = Body.  
 Q. Do they go in any certain order?  
 A. No. They can be mixed up in any way you like. PTB, TBP, BTP, TPB, etc.  
 Q. The most common way is PTB.  
 Q. Where do they go?  
 A. PTB can be on either side of the firewall but the driver side is the most common. They have also been seen on the side of the cowl behind the fender but it would be useless to put them there since they can't be seen.  
 Q. What color should they be?  
 A. They can be orange, light green, or a mixture of both. For example P=orange, T=light green, B=orange, or anyway you like. If your PTB is still intact before your restoration, do your new PTB's in the same colors. Not all vehicles included PTB's but when restoring yours we suggest you put them on.

### Factory Inspection Marking Kit

Includes the correct P.T.B. stamps with specially formulated paint to give your vehicle the final inspection marks that the factory put on. Also included are the yellow and white crayons for marking your firewall with the factory inspection marks. A must for any true restoration. 2 color kit includes: green and orange, 7 color kit also includes: yellow, light blue, bright green, pink, and white.

### Frame Engine and Body Marker

Automakers use these permanent markers to write codes and numbers on frames, engines and body components. Engine suffix codes were often written on the back of the cylinder heads. Job numbers were written on the firewall, frame, engine, and other components to assure the correct vehicle was being built according to the build sheet. These permanent paint markers will help you exactly duplicate the factory original marks.

### OER® "Secret Formula" Clay Bar System

Clay pulls out all the contaminants you cannot see, but that you can definitely feel, like industrial fallout, rail dust, and brake dust. Though these contaminants are not visible, you can tell they are there because the paint will feel rough or gritty. These contaminants may cause patches of paint to appear dull, even after waxing. As these contaminants oxidize, they create rust spots within the paint. Once this happens, the oxidation is considerably harder to remove and will most likely take a good bit of paint with it. Clay bar will remove these contaminants and leave the surface silky smooth with a mirror-like smooth finish. One premium professional duty bar is enough to do 8-10 vehicles. Our clay will not break or deteriorate into small particles like inferior low quality clay bars. Super elastic to remove harmful particles quickly and effectively. Acts as a magnet to foreign particles, literally pulling the paint fouling grime away from the surface of the paint. Clay lubricant is essential to the performance and safety of clay. It provides the necessary slick surface for clay to glide on. Using low quality clay lubes or cheap detail sprays will deteriorate your bar and lead to poor clay bar performance. Also beware of soapy water as a clay lube; detergent or surfactant based soaps will cause the clay to deteriorate.

<b>Light Duty for Regular Everyday Use</b>

## DER "Secret Formula" Acryli-Shine Glaze

Glaze is a polish without any cleaning properties used primarily to improve the shine and clarity of paint. Primarily used by body shops for finishing jobs or by detail shops to bring out the brilliance of paint, glazes are also commonly used on show vehicles to achieve a "high luster or wet look". It was developed for the darker finishes, using a slightly moister formulation to enhance the difficult to wax paint finishes. The application process is forgiving, smooth, and dust free. Your moldings will not turn white. Glazes do not replace polishing. If a surface has minor swirls and imperfections, to achieve the best superior results, the surface should be polished with a polish first.

## DER Premium Carnauba Pre-Softened Wax

DER's Secret Formula Pre-Softened Carnauba Paste Wax is in a class all its own. A pre-softened paste wax with no cleaners, it leaves a deep, brilliant long-lasting shine. It protects and beads up with a glass like gloss that lasts up to 6 months. It works beautifully on all colors, even on blacks, reds, and burgundies, filling in swirl marks. It's also super easy on and off; just wipe on in a circular motion, and take off with a microfibre immediately. No need to wait for it to dry! Leaves no white haze at all, there is no white residue to clean out of the cracks, and no need to be careful around the exterior trim - it won't leave white marks! There's no trade-off here; the easiest application in the world, and the best results! Great grape smell. For the enthusiast who demands the highest and wettest level of shine, DER's Secret Formula Pre-Softened Carnauba Paste Wax is a premium blend of genuine Carnauba wax and natural oils that makes paint "drop off of your vehicle" with a high gloss shine and shimmer that is sure to impress even the toughest critics. The 5" round microfibre applicator pads make it easy to apply waxes or rubbing compounds without scratching paint or clear coat. Simply rinse and reuse. Microfibre applicators are highly absorbent, strong yet gentle and the fabric is machine washable.

## P99 HD Interior Fabric Cleaner

The beautiful thing about P99 HD: It leaves no film. After cleaning fabric, carpet, floor mats, convertible tops, vinyl tops, seat upholstery, door panels, vinyl, plastic, aluminum, you will have a clean surface free of any residue. This strong all purpose cleaner should be diluted 30:1 for light jobs, 15:1 for medium, and 5:1 for heavy dirt. Apply with a sprayer or sponge. Agitate stubborn dirt with a brush. Our P99 HD Secret Formula Interior Exterior Multi Purpose Fabric Cleaner works quickly as a spot cleaner for all color-fast fabrics. Will not stain or leave a ring around area cleaned. Apply by hand and in a matter of seconds the specially formulated cleaning agents emulsify the stain while the surfactants work to unlock the soil from the fabric and suspend the dirt within the liquid cleaner. When you blot with a clean dry cloth, the liquid containing the stain transfers to the cloth.

## Ice Super Shine

with Ice Super Shine

without

## Ice Super Shine High Gloss Dressing

The Ice Super Shine Dressing is a thick silicone rich dressing that leaves a super high gloss, long-lasting shine on tires, rubber molding, vinyl, and plastic. For the detailer who demands the very best in appearance and weather protection. Tires renewed with Ice will repel water through repeated washings.

Ice is named for its super "wet look." It looks like a coating of ice! Contains a fruitly fragrance you'll love. This dual action premium dressing leaves surfaces 100% dry to the touch and shining better than new, while protecting the surface against dirt, dust, and harmful UV rays. Surfaces treated with Ice Super Shine Dressing look shiny longer, require less cleaning. Maintains a 100% dry, never greasy or oily, fresh texture on vinyl, leather, plastic, rubber, tires, and more!

## Finishing Touch Matte Finish Protectant

Finishing Touch is an all purpose dressing that restores the "new car" look to vinyl, rubber, leather, and plastic. It cleans, beautifies, and protects. It is preferred by many detailers for interiors for its "softer" look and non-greasy look and feel.

Patented UV absorber penetrates and acts as a protective barrier against harmful rays that cause premature aging, cracking, fading and peeling. Engineered to work like a lotion to soak into new vinyl or dry vinyl to aid in prolonging and strengthening the surface. Perfect for dashboards, vinyl tops, door panels, consoles, tires, trim, bumpers, vinyl seats, moldings, and more.

# Professional Products For The Car Enthusiast!

## OER® Premium Metal Polish & Sealant

OER® Extreme Shine Metal Polish & Sealant cuts through layers of dulling oxides to restore a wet mirrorlike finish that outshines chrome. This outstanding polish makes chrome, copper, brass, aluminum, stainless steel and other metalwork gleam and look their absolute best. Spreads on with ease, buffs off with little effort. Great for oxidized metals and even light rust. Can be easily applied in the shade or sun. Leaves virtually no smear, dust, or powder. The most innovative metal polish ever. A 3 step product in one, this diminishing metal polish cuts fast, cleans like no other, shines like a mirror and protects like a sealant. Utilizing friction and heat OER® Extreme Shine Metal Polish cleans, restores, revives and polishes. Friction generates heat that allows the product to break down into a micro-fine polish that leaves the surface shining like a mirror. During the final phase, it breaks down to release the durable protective sealant that bonds to metal surfaces reducing corrosion and prolonging shine. Use by hand with a polisher or with your polish ball and drill. 

K89483 16 oz. bottle..... 17.99 ea

## OER® Secret Weapon Polish Ball

The Secret Weapon Polish Ball bends and compresses enabling it to fit into tight spaces and make the cleaning and polishing of difficult, hard to reach areas like wheels, rims, and other metal work much easier. Can be attached to any handheld drill or drill-like device for fast and superior cleaning and polishing. Great for cleaning and buffing small items like mirrors, headlight lenses and trim parts. Space age Dura-Foam and fiber soft materials make it the most durable tool of its kind. Ideal for use with your favorite wax, polish, wheel compound or compound.

## OER® "Secret Formula" Wheel and Tire Care

Over the years, OER® has become the name that you have come to trust for quality restoration products. We are dedicated to bringing our valued customers the absolute best products our industry has to offer. When it comes to car care, our "Secret Formula" products are no exception! We know you have a lot invested in your classic car, so we have formulated products that not only perform at a level unmatched by any other brand, but a formula that keeps your investment in mind. Our formulas are engineered not only to keep your pride and joy looking good, but also to protect your vehicle's delicate surfaces from the elements without the use of harsh damaging chemicals.

## OER® Acid Free Wheel and Tire Cleaner

Spray-on and rinse-off! Easily removes deposits of brake dust, grease, and road grime from wheels. Safe for clear coated, painted, and polished finishes. This strong non-acid formula is fortified with a citrus cleaning agent. This is an industrial strength 1:1 concentrate. Dilute with water as needed. Long time accumulations of brake dust may need light agitation with a soft brush. Unlike many alternative products, OER® Acid Free Wheel Cleaner dissolves grime and brake dust without damaging your chrome and alloy wheels. Non-acidic, spray-on wipe-off formula with no scrubbing necessary and no harsh scent. 

K89614 32 oz. bottle..... 16.99 ea  
K89615 1 gallon..... 24.99 ea

## OER® Secret Formula Wheel Wax

OER® Secret Formula Wheel Wax is formulated to safely and effortlessly clean, shine, protect and prolong all types of wheels and wheel finishes. Wheel Wax delivers a high gloss durable wet shine finish on all chrome, aluminum, stainless, powder coated, and even painted wheels. Clean, polish, shine, protect, and prolong in one easy step. Extremely easy to use and apply, utilizing accurate micro-size synthetic beads that gently and effortlessly lift and polish away oxidation and road film from wheels to guarantee a scratch free perfect surface. Wheel Wax not only enhances shine, it protects your investment. Harmful degreasers and acids can damage wheels reducing shine and causing premature oxidation and deterioration of wheel. Wheel Wax is an acrylic sealant that bonds instantly to protect against brake dust, heat, acid rain, water spots, airborne fallout, and road contaminants. 

K89486 8 oz. jar..... 16.99 ea

## OER® TNT Extended Life Tire & Trim Dressing

This unique formula quickly penetrates rubber trim and tires to hydrate and provide lasting protection. TNT Extended Life gel by OER® finally delivers on that promise. Simply wipe on using a pad and TNT gel restores the look of faded tires, trim, bumpers, seals and weatherstrip. What's more, OER® TNT gel lasts for many months, not days. Our exclusive, no-streak, no-run, and non-drip formula works to repel water and detergents and helps keep tire walls hydrated and supple as well as looking brand spanking new. Prepare your trim for a product unlike any other. A true premium trim restorer and protectant, that will not drip, dry out, or destroy surfaces. Provides unmatched durability, ease of application and a superior "new look" shine that lasts through numerous washes. Non-greasy, non-tacky and simply amazing.

# Professional Products For The Car Enthusiast!

Grit Guard insert keeps the wash water clean and scratch free!

## Grit Guard Wash System

This unique wash bucket provides a convenient way to store or transport all of your car cleaning supplies while doubling as an extremely effective finish protecting wash tool. The Grit Guard insert sits in the bottom of the pail to extract particles and contaminants from mits and brushes. Gravity causes sand and dirt to settle below the guard so the wash water stays clean and scratch free.

### Basic Wash System

The basic wash system includes a black pail with a yellow sealing lid and a Grit Guard insert.

K89740 3.5 gallon..... 28.99 ea  
K89741 5 gallon..... 32.99 ea

### Grit Guard Deluxe Wash Bucket Sets

This superb washing system features a Grit Guard insert, a heavy-duty bucket, a seat cushion and a dolly that turns the washing system into a rolling stool, so you can sit down and detail your car comfortably. Five heavy-duty smooth rolling casters roll over cracks without tipping. Two locking casters hold your washing system in place while working on inclines. The convenient spin-on lid creates a perfectly sealed storage compartment for all of your favorite cleaning supplies. Supports up to 250 pounds.

### Deluxe Washing System

K89742 3.5 gal. black pail/yellow top... 64.99 set  
K89743 5 gal. yellow pail/black top... 67.99 set

### Individual Components

## Buffing Pad Wash Bucket

When you hand wash pads, the backing pad gets wet, oversaturating the foam. The universal pad washer keeps the backing pads dry and extends the life of your pads. No more throwing away perfectly good pads because the backing pad has torn off. Your buffing pads, buffing bonnets, polishing tools and accessories clean up so well you'll think they're new! Condition, clean, and dry all in one system.

The universal pad washer extracts contaminants trapped deep inside your buffing pads. No cross contamination worries when switching buffing compounds. O-ring seal lid provides water tight portability. Wash and dry in under 30 seconds!

K89747..... 119.99 ea

## Pickup Layers of Dust w/One Sweep!

An easy way of keeping your vehicle clean and free of dust, looking like it was just washed. It's specially treated cotton fibers lift dust off the surface without scratching the paint, even delicate lacquers. The more you use it, the better it works! Regular use can significantly reduce the frequency of washings.

## Air Force Master Blaster Vacuum/Blower

The Air Force Master Blaster uses twin 4.0 peak HP motors (8 peak HP) to blow warm, dry, filtered air that provides safe drying without the chance of scratching your expensive paint and chrome finish. It also speeds up drying time, minimizing water spots and blowing water out of places you can't normally get to with a towel or chamois. Both feature a sturdy all steel construction, weigh 26 pounds, and are 22" x 8" x 11". The Master Blaster includes a 10 ft., 1-1/2" flexible commercial strength hose, heavy-duty neoprene blower nozzle, with 5 additional interchangeable attachments. The Master Blaster Revolution also includes swivel front wheels, a wall mount bracket, and hose hanger.

Adjustable seat provides the support, leaving your feet free to control your movement.

Floating, attached kneepads eliminate direct pressure on knees, circulation problems.

Removable tray holds tools, small.

Aluminum frame is elevated on 2" casters to eliminate pressure on toes, ankles, and knees.

## Speed and Comfort for a Demanding Job!

This seat provides support while taking pressure off knees, ankles, and toes. The casters allows you to move freely, and the attached floating kneepads allow your knees to rest. Attached to the tool is a 7" x 15" removable tray which is great for holding tools and small parts. Weighing only 8 lbs, the tool is manufactured from 1/8" thick industrial strength aluminum. The comfortable web spring seat is covered with a soft leather like cover and adjusted vertically 11-1/2" to 15-1/2" in height. Backed by a 1-year manufacturer's limited warranty.

Wall Guard

Hanging Door Guard

## 2 Ways to Prevent Costly Paint Chips

The wall guard attaches to your garage wall providing cushioned protection for both your vehicle door and your wall. Comes complete with hardware needed to attach to drywall, studs, brick or concrete. Predrilled holes are 16 and 24" apart for fastening to stud wall. Our hanging door guard is ideal for two vehicle households. This rubber-like pad hangs from the rafters or drywall ceiling of your garage providing a protective barrier between both vehicles. You in effect protect two vehicles with one product. Hardware for hanging the device is included. Measures: 25" x 6-1/2".

ACP102 wall guard..... 11.99 ea  
 ACP103 hanging door guard..... 21.99 ea

## Park Perfectly Every Time

The Park Smart Mat helps guide you into your garage space telling you know exactly when to stop. Perfect for getting your classic or collectible car into the correct position in a crowded garage. As you feel yourself driving over the first bump, the second bump tells you that you have driven far enough forward. Measures: 27-1/2" x 12" x 1-1/2". Includes a manufacturer's limited lifetime warranty. Buy one for each of your vehicles.

ACP101 Park Smart Mat..... 21.99 ea

## Trailer Ramps

Is your trailer door too steep to get your vehicle to the race track or autocross? Are you tired of busting up your nose? Race Ramps has just the solution for you: simply place the trailer door on the notch of these specially designed trailer and decrease your angle of approach to as little as 4 degrees. These hassle free, lightweight ramps work for vehicles weighing up to 6000 pounds. Trailer ramps are ideal for low ground clearance vehicles with extra wide tires.

*Note: For increased safety, use Wheel Chocks with all Race Ramp products.*

RR104 5"..... 372.99 pr  
 RR105 8"..... 371.99 pr

## Wheel Chocks

Wheel Chocks are ideal for use with all Race Ramp products, providing additional safety in the working environment. Made from solid rubber composite with an extra grip bottom, they each weigh 3 pounds. Set of 4.

*Note: For increased safety, use Wheel Chocks with all Race Ramp products.*

RR109 6" x 4" x 5"..... 67.99 set

## Wheel Cribs

Wheel Cribs are a safe, lightweight alternative to jack stands. They cradle the tire 10" off the ground, providing an obstructed access underneath the car. Each crib supports 1500 pounds (3000 pounds per set) and weighs only 5 pounds. Wheel Cribs also can be used for vehicle display.

*Note: For increased safety, use Wheel Chocks with all Race Ramp products.*

RR108 15" x 10" x 12"..... 151.99 pr

## Roll-Ups

Designed to be used in conjunction with 56" or 67" Race Ramps, Roll-Ups raise the opposite end of the vehicle up 4" allowing even more working room under the vehicle. Roll-Ups can also raise the front or rear of the vehicle to allow the use of a standard floor jack. Roll-Ups are 14" wide work with tires up to 12" wide.

*Note: For increased safety, use Wheel Chocks with all Race Ramp products.*

RR106 10.79 degree incline..... 175.99 pr

## Race Ramps

Race Ramps are ideal for vehicles with tires up to 10" wide. With an incline of only 10.75 degrees, they lift your vehicle up 8" or 10" and hold up to 3000 pounds per set while weighing only 10 pounds per ramp. Will not slide across a garage floor, dig into an asphalt driveway, or scratch or otherwise damage a cement or painted floor. They can be used on grass, dirt, or almost any other flat surface, and they will never rust. Race Ramps come complete with straps for easy carrying and storage.

*Note: For increased safety, use Wheel Chocks with all Race Ramp products. \*Shipped oversized.*

# Spray-On Insulation

 LIZARD SKIN  
SPRAY-ON INSULATION

*Buy the Complete Set and Save!*

## BEFORE APPLICATION

## AFTER APPLICATION

### Shared Benefits:

- Easy spray-on application
- Continuous protective moisture barrier
- Fast clean up with soap and water
- Environmentally friendly solution
- Applicable to interior or exterior of vehicle
- Non-toxic and class A fire rated
- Both are paintable
- Coverage is approximately 50 ft<sup>2</sup>/2 gallons

### Sound Control Benefits:

- Provides non-combustible thermal insulation
- Able to withstand temperatures up to 500 degrees F
- Interior temperature reduced by 30 degrees F
- Offers a protective, seamless membrane

### Ceramic Insulation Benefits:

- Protects surface from moisture and rust
- Dampens annoying rattles, vibrations and road noise
- Impressive dampening to weight ratio
- Coating can withstand temperatures up to 300 degrees F

## Sound Control and Ceramic Insulation

Get the comfort of premium grade insulation without the extra weight! These environmentally safe formulas from LizardSkins can be used as a one part coating or as a two stage system for a cooler, quieter driving experience. The Sound Control formula dampens unwanted engine and road noise, while the Ceramic Insulation formula cools your vehicle up to 30 degree F or more creating a more comfortable ride. Designed for floors, roofs, firewalls, fenders, transmission tunnels, door panels, trunks, and more, all at a combined cured weight of 52 lbs for four gallons. Insulating a vehicle has never been this easy, thanks to a custom designed application gun made specifically to handle the thick density of the coatings with ease. Order the individual components or buy a complete kit and save!

**Important:** For two stage applications, Sound Control coating should be used as the base. Four gallons of each coating are required to encapsulate a typical interior and trunk area of 1 vehicle, and 1 gallon of Sound Control when applied as undercoating.

## RustSeal® Corrosion Barrier Coating

OER® Authorized RustSeal is a superior one part, ready-to-use, high-solids content, rust preventive, corrosion barrier coating. RustSeal flows out to a beautiful, rock-hard, tough ceramic-like coating that is tough to chip or scratch, and will not crack or peel. RustSeal is an incredible, single component, ready-to-use, high solids content, rust preventive coating with exceptional sealing properties. RustSeal is the most permanent cost effective solution for stopping rust and corrosion anywhere where it is a problem: home, automotive, industry, fleet, farm, and more! RustSeal is an enhancement that lasts. Water and air are locked out, therefore oxidation, the precursor to rust, cannot take hold. RustSeal is not intended for use as a final finish. After removing or treating rust on floors, subframes, or other under vehicle components, RustSeal Corrosion Barrier Coating works by isolating the surface from moisture and oxygen. This single component, high solids, rust stopping coating seals out the ultimate causes of rust, creating a rock hard non-porous barrier between the metal and rust promoting elements. Will not crack, chip, flake, or peel, and no hardeners or activators are needed. RustSeal is completely unaffected by salt, gasoline, oils, battery acids, hydraulic fluids, solvents, chemicals, or corrosives.

## Nu-Metal Epoxy Putty

NuMetal Epoxy Putty is an easy to use, two part putty that mixes like clay but hardens like steel! No complicated weighing or measuring required. NuMetal bonds, seals, fills, insulates, anchors, culls, and waterproofs. It cures without shrinking or sagging and can be drilled, tapped, sanded, primed and painted. NuMetal will not only stick to damp surfaces, but it will cure underwater! Available in black.

# Rust Treatment and Chemicals

## BlackTop® Top Coat

BlackTop is a permanent, moisture cured, UV stable coating primarily used for top coating surfaces previously sealed with RustSeal or any other paint/primer application. BlackTop is a high-performance protective coating specifically formulated to withstand dulling and fading caused by prolonged sunlight exposure. BlackTop may be used alone as a resilient coating but offers the ultimate rust protection when used in combination with the RustSeal® corrosion barrier coating as step 1. For the best stop rust and ultraviolet protection, first apply RustSeal to permanently seal the surface and then top coat with BlackTop for an incredibly tough and professional looking finish. Like RustSeal, BlackTop dries to a rock hard yet flexible coating that can be readily applied to chassis, coil springs, and lightweight panels. BlackTop also has high heat resistance and can be applied to almost all automotive applications except exhaust systems. BlackTop will be intended as a final finish for parts that have been coated with RustSeal. BlackTop will retain its color and sheen even after repeated or prolonged exposure to direct UV light and will not degrade.

## Diamond Finish® Clear Coat

Diamond Finish Gloss Clear Top Coat is a permanent, moisture cured, UV stable coating primarily used for top coating surfaces previously sealed with RustSeal, for top coating direct to metal, or to coat over any other paint/primer application. The clear coat formula can be applied direct to metal or over other coatings. This high gloss clear coat remains permanently flexible and is able to perform in the toughest environments without yellowing, cracking, or peeling. Apply directly to painted surfaces with minimal surface prep. Incredibly tough and hard like no other clear coat on the market. Can be applied with a brush (without leaving any brush marks), roller and conventional spray gun. Unlike two part coatings, no hardener is needed with Diamond Finish. Just stir and go. Diamond Finish clear coat will cure without heat or UV lights in temperatures from 50 to 86 degrees Fahrenheit. Able to withstand the harshest of chemicals including fuels, solvents, battery acid, brake fluid, Ethanol, Methanol, MEK, Hydrochloric Acid, fertilizers, and Acetone. Graffiti resistant: because of its chemical resistance, graffiti just won't stick and can be removed simply with a solvent soaked rag. Great for high temperature automotive applications including the use on cylinder heads, engine blocks, brake components and even inlet manifolds, without yellowing up to 300 degree Fahrenheit.

## Frame and Chassis Coater Set

The KBS Frame Coater Set is a quart sized, 3 step set that includes enough products to Clean, Blast and Seal a full size car or truck frame, or any 50 sq. ft. area with 2 coats of paint coverage. Each set includes: 1 qt. of KBS Clean (an industrial strength water based cleaner/degreaser), 1 qt. of KBS RustBlast (a powerful rust remover/metal etch), 1 qt. of RustSeal® (chemically bonds to bare metal to form a permanent, moisture resistant finish that is flexible, yet won't crack, chip, or peel), 1 pair of gloves, 2 brushes, and a stir stick. Detailed instructions included.

### KBS Frame Coater Set

KB57001	3 step set	gloss black	65.99 set
KB57002	3 step set	satin black	65.99 set

### KBS All-In-One Chassis Coater Set

This complete set takes our popular Frame Coater set to the next level with the addition of a pint of BlackTop top coat for a permanent final finish which withstands dulling and fading caused by prolonged sunlight exposure and 8 oz. of our #1 thinner. Set includes: the KBS 3 step Frame Coater Set, plus 1 pint of BlackTop top coat, 8 oz. #1 thinner, 1 pair of gloves, 2 brushes, and 2 stir sticks.

## Water Based and Solvent Based Undercoating

Whether you choose our water based or solvent based undercoat formulas, each produces a very tough, yet flexible film with excellent adhesion, and helps prevent road salt from eating away at your vehicle's metal and/or fiberglass. Offers excellent adhesion to metal or painted surfaces. Provides economical paintable durability, plus moisture resistance and corrosion resistance, all in a matte black finish. Also provides sound deadening by reducing road noise and vibration. You can attach the quart size can directly to a Schutz applicator type spray gun or contents may be poured into a clean container pot that fits the applicator gun of your choice. Part #20018 undercoat gun is offered separately.

### Water Based Asphalt Undercoat - Non-Paintable

Being an asphalt base, it is not designed to be painted over. Dry to touch in one hour, fully cures in 24-hours. Excess coating may be removed with soap and water.

KB78400	one quart	covers up to 25 square feet	22.99 ea

# OER® Aerosol Coatings

All new quart cans  
 now available!

## OER® Premium Quality Aerosol Interior Paint

OER's revolutionary formula provides 40% more coverage than standard dyes and lacquers, and actually penetrates and molecularly bonds to the surface to permanently seal in the color. Dries to the touch in 45 seconds, forms a complete bond in just 10 minutes. UV stable and color fast, it will not crack, flake, or peel. For use on vinyl, leather, ABS plastic, polycarbonate, polypropylene, polyurethane, acrylic, lexan, fiberglass, and recycled plastics. When only the best will do, use OER's Premium Quality Interior Paint. Available in your choice of a convenient 16 oz. aerosol can (net wt. 12 oz.) or for bigger jobs where a spray gun is required, we offer quart cans.

Note: Shipped within the continental U.S. only. Shipped ground only.

## OER® Interior Surface Preparation Formulas

Before spraying, be sure to properly prepare the surface for top coat. We offer a variety of surface preparation products to ready reproduction dash pads, headrests, door panels, padded pillar moldings, plastic parts, metal components and other parts for the application of the top coat.

Note: Shipped within the continental U.S. only. Shipped ground only.

## OER® Metal Mimic FX Coating

OER® Metal Mimic FX high-performance coatings were developed to mimic the appearance of bare metal so that you can refinish and protect all of the components that were originally left unpainted by the factory. Items such as cast iron housings, aluminum housings, stainless steel parts, galvanized parts and even chrome can now be coated with a "factory correct" looking finish that is extremely durable and amazingly close to the original color.

Note: Ships ground only. No air shipment.

## OER® Factory Black Coatings

OER® factory black coatings are available in a variety of sheen levels to help you achieve the correct factory look for your restoration. Our Ultra Flat sheen is an extremely flat non-glare finish. The next level up is our low gloss formula followed by the semi-gloss and finally our exclusive high gloss formulation. Whatever you are spraying, we have the correct sheen for an original factory black look.

Note: Ships ground only. No air shipment.

### Factory Black Set - Contains All Four Formulations

Buy the complete OER® Factory Black set and you will have all the necessary sheen levels for a correct factory look no matter what component you are spraying. K89550 4 can set - all four sheens..... 59.99 set

### Ultra Flat Factory Black

Extremely flat non-glare finish that is perfect for a variety of uses including underhood items like hood hinges, latches, carburetor parts, seat adjusters, pulleys, linkage, nuts, bolts, washers, screws, clips, brackets, and more. Provides a durable flat black zinc phosphate look without the high cost of black zinc phosphate plating.

K89540	16 oz. aerosol can (net wt. 12 oz.)	19.99 ea
K89590	case of six cans	89.99 ea

### Low Gloss Factory Black

A durable low gloss coating that provides a factory fresh appearance on the frame, transmission crossmember, leaf spring shackles, control arms, firewall, coil, brake components, AC compressor, or anywhere else a low gloss, but not quite flat black finish is desired.

K89541	16 oz. aerosol can (net wt. 12 oz.)	19.99 ea
K89592	case of six cans	89.99 ea

### Semi-Gloss Factory Black

A durable low gloss coating that provides a factory fresh appearance on the underside of the hood or on inner fender skirts, battery tray, radiator support, master cylinder, front control arms, brackets, pulleys, fan blade, smog pump tail housing, starter, power steering assembly, horns, sway bars, wiper motor assembly, and suspension components or anywhere else a semi-gloss black finish is desired.

K89542	16 oz. aerosol can (net wt. 12 oz.)	19.99 ea
K89593	case of six cans	89.99 ea

### High Gloss Factory Black

A high gloss coating that is perfect for restoration of air cleaner assemblies, valve covers, radiator tanks and brackets, ignition coils, voltage regulator covers, suspension springs, wheel inserts, shock absorbers, rear axle housings, differential tubes, brake backing plates, and any other parts where a durable gloss black finish is desired.

# OER® Aerosol Coatings

## OER® Rubberized Undercoating

A black, rubberized undercoating for all automobile under surfaces. Sprays evenly and dries completely to a smooth consistency. Can be top coated with any type of automotive finish. Prevents rust, reduces road noise, seals out water, fumes, road chemicals, and dust. Special formula greatly reduces lingering odor associated with most other brands of undercoating. No "bleed through" when top coated. Use on undersides of panels, hoods and deck lids, trunk interiors, section repairs, weld joints, rust holes, or on chassis parts. 20 oz. aerosol can (net wt. 18 oz.) or buy a case and save!

**Note:** Ships ground only. No air shipment.  
K89570 20 oz. can..... 24.99 ea  
K89669 case of six..... 119.99 cs

## OER® Black Wrinkle Finish

A durable and long-lasting finish which has a unique wrinkled texture. Excellent hiding qualities provides an excellent finish for hiding surface imperfections such as pitting, scratches, or chips. Extremely durable formula resists oil, gas, and grease. Can be used where harsh conditions break down conventional coatings. Comes in 12 oz. net wt. aerosol can. Great for valve covers, air cleaners, dash components, and more. 16 oz. aerosol can (net wt. 12 oz.) or buy a case and save!

**Note:** Ships ground only. No air shipment.

## OER® Professional Grade PBE Primers

OER® is pleased to offer our professional grade primers specifically formulated to meet the performance needs of body shop personnel but conveniently packaged for the automotive enthusiast. Tough and dependable, these primers adhere extremely well, prevent rust and corrosion and enhance the quality and appearance of the finished product. Large fan spray head gives a professional looking application. Eliminates the need for a spray gun for small repairs, reduces cleanup time.

**Note:** Ships ground only. No air shipment.

### OER® Self-Etching Sanding Primers

Manufactured with a modified acrylic resin to give you excellent adhesion to all types of metal, aluminum and prepared surfaces. Dries to the touch in 10 minutes. Dry to sand or top coat in 15 minutes. Available individually in 20 oz. cans or in case of six.

<b>Individual 20 oz. Aerosol Can (Net Weight 15 oz.)</b>

### OER® Spray Galvanizing Weld-Thru™ Coating

A smooth, cold galvanizing compound that chemically fuses to bare steel and forms a extremely rust resistant barrier. Perfect for application on the inside of newly installed panels where rust prevention of new metal is important, but where the part treated will not be painted. Fast dry, sag free spray that is abrasion resistant. Stops rust creepage, resists chemicals and is rust inhibitive. Apply it to sheet metal pieces before installation, then weld as usual. The coating will not affect the quality of the weld, and will retain its rust preventative properties. Available individually in 12 oz. cans or in case of six.

**OER**

## OER® Factory Wheel Coating

OER® factory wheel coatings are available in a variety of original colors so you can achieve the correct factory look on the restoration of your wheels. Eliminates the need for expensive custom paint mixing and greatly simplifies the restoration process by providing spray gun results without the hassle and mess of a spray gun or the need for an air compressor.

**Note:** Ships ground only. No air shipment.

### Rally Wheel Argent Silver

Correct color and sheen for the restoration of Rally I, Rally II, and Super Stock wheels. Makes your wheels look like they just rolled out of the factory.

K89320	16 oz. aerosol can (net wt. 12 oz.)	19.99 ea
K89321	case of six cans	89.99 cs

### Rally Wheel Argent Silver/Green

Correct color and sheen for the restoration of 1968-74 Rally wheels that call for Argent Silver with a slight green hue.

K89325	16 oz. aerosol can (net wt. 12 oz.)	19.99 ea
K89326	case of six cans	89.99 cs

### Low Luster Gray Wheel Paint

Correct color and sheen for the restoration of Rally, Super Stock, Honeycomb and Z28 5-spoke mag wheels that call for a unique shade of gray. This gray was used on the backside and in some cases both sides of steel factory sport wheels. Can also be used on jack mechanism and jack base on some models.

K89410	16 oz. aerosol can (net wt. 12 oz.)	19.99 ea
K89411	case of six cans	89.99 cs

### Rally II Wheel Inset Paint - Charcoal Gray Metallic

Charcoal gray metallic paint for the restoration of the pie-shaped wheel insert area on Rally II wheels. Correct color, tone, and luster for a factory fresh appearance.

K89330	16 oz. aerosol can (net wt. 12 oz.)	19.99 ea
K89331	case of six cans	89.99 cs

### Z28 5-Spoke Mag Wheel Paint - Shadow Gray

Correct color, sheen and texture for the restoration of 1970-81 Z28 5-spoke mag wheels also known as "Trans Am", "high-performance" or "3-spoke Rally" wheels. Correct for 1970 Chevelle and El Camino 5-spoke factory wheels as well.

K89310	16 oz. aerosol can (net wt. 12 oz.)	19.99 ea
K89311	case of six cans	89.99 cs

### Honeycomb Wheel Paint - Daytona Gold or Simulated Magnesium

Correct color, sheen and texture for the restoration of 1970-76 Pontiac Trans Am, Firebird, GTO, Formula or Oldsmobile 1972-74 Super Stock IV wheels. Your choice of Daytona Gold or Simulated Magnesium.

## OER® Trunk Spatter Paint

MADE IN USA **OER**

Restoration grade spatter paint for the discriminating restorer who wants to accurately replicate the original texture and finish in their trunk. Produced by the original manufacturer for an authentic texture and color match. These water soluble paints are designed to be applied with a paint gun and do not require a clear coat. One quart required per vehicle. Includes instructions.

**Important:** Originally applied trunk spatter paint with a Binks 2100 gun with a 200 tip and a 66 fluid nozzle with an internal mix air cap.

K86130	quart	black and aqua	109.99 ea
K86131	quart	gray and white	109.99 ea

K86130

## OER® Underhood Detail Paint

The perfect alternative to expensive zinc phosphate plating. A variety of choices are available to correctly refinish underhood items such as hood hinges, hood latch and safety catch, carbs, pulleys, linkage, nuts, bolts, brackets, clips, screws, and more with a durable flat or non-gloss finish that mimics the appearance of zinc phosphate plating.

16 oz. aerosol can (net wt. 12 oz.)	19.99 ea
K89540	factory black..... 19.99 ea
K89520	dark gray..... 19.99 ea

**Note:** Ships ground only. No air shipment.

**Note:** Ships ground only. No air shipment.

## OER® Clear Enamel

Provide extra durability and color depth on a variety of surfaces. OER® Clear Enamel will enhance the appearance of engine components, wheels, suspension components, and other painted and unpainted surfaces where a gloss clear top coat is desired. Withstands rust, gas, oil grease, salt and intermittent temperatures up to 400 degrees F. 16 oz. aerosol can (net wt. 12 oz.).

**Note:** Ships ground only. No air shipment.

## Experience Spray Gun Control!

Transform your aerosol container into a versatile spray gun. Using its unique "lock-on" device, simply snap it on and spray! You'll experience better control for applying sticky even coats, easy handling and comfort, all adding up to reduced fatigue. Use with paints, lubricants, cleaners, craft sprays, and more! Universal fit for most aerosols.

## Firebird Emblem Location Template

Finally, there's a way to remove the guess work involved in mounting emblems and costly body work caused by misdrilled holes. The most important step is knowing the exact and correct placement of emblems before you drill holes in your new sheet metal. It's very easy. Simply apply the full size template to the corresponding panel using referenced body surfaces for exact location, and drill the holes! With these emblem templates, you can be assured that you're mounting all of your emblems in the correct factory location the first time!

## 1976-78 Formula Two-Tone Graphic Set

We offer graphic sets for Formula owners too! Finally there is a high-quality reproduction set to replace your missing or faded original decals. Each stripe is identified with body panel location, and is pre-molded to your body contour for a perfect fit. Each set includes: 2 Formula door names, 1 Formula front bumper name, 1 rear bumper name, 1 rear spoiler bird, all front bumper, front fender, door, rear quarter panel, rear bumper, rear spoiler, and hood scoop stripes, a squeeze and instructions.

**Note:** The large Formula door decals are either black or are the same color as your upper body paint color. See listing below for available colors.

## 1993-97 Firebird with 25th Anniversary Style Stripes!

These custom graphics sets will convert your 1993-97 Firebird to a stylish 25th anniversary look-alike. These sets are an excellent complement to the already stylish 4th generation Firebird. These vibrant, and colorful stripes will make your Firebird stand out from all the rest. They are identical to the original factory 25th anniversary stripes except they are one solid color instead of having a black fade with a color. All stripe sets are molded to the contours of your Firebird's body panels for correct appearance, and a perfect fit. These sets include the front header panel stripes, hood stripes, rear deck and spoiler stripes, a squeegee, and instructions.

REDLINE  
LUMTRONIX

16 color options for multi-color halos

### 5-3/4" Round Elite Diamond Headlight Enclosure Features:

- 5-3/4" steel round housing
- Crystal clear glass lens
- No parabolics in the lens to block the light; an absolute clear lens
- Includes 55/60 watt 12 Volt H4 Halogen bulb
- Plugs directly into stock harness
- Replaceable bulb assembly
- Fluted parabolic pattern on the reflector
- Housing fits both High and Low beam bucket socket
- Housing fits almost all 5-3/4" buckets

## Elite Diamond Headlamps with LED Halo

RedLine LumTronix headlamps are available with or without a halo, either single color halo (white) or multi-color halo (with 16 selectable colors plus the ability to adjust brightness), with or without turn signals and your choice of clear or blue H4 Halogen bulbs or H4 LED bulbs. The halo or "Angel Eyes" can also be wired as a daytime running lamp and features 23 low temp LEDs with a 100,000+ hour life, along with "fade", "flash", "strobe", and "smooth"

modes that you can choose with the included wireless remote. Headlamps plug directly into your stock harness for a simple and easy installation. Each pair includes: two headlights, two bulbs, boot boots, ceramic tip pigtail harness adapter, and instructions. Multi-color halo sets also include the RGB harness and wireless remote.

## Rectangular Headlamps with LED Halo

RedLine LumTronix headlamps allow 50% more light to shine through thanks to their crystal clear lenses and a special side lens that extends past the retaining ring. This side lens is a true safety innovation and was designed to provide additional side light and increase visibility. Each headlamp features a Euro style diamond cut reflective base, diamond crystal glass, and a heat resistant composite housing. Headlamps are available with either a single color halo (white) or multi-color halo (with 16 selectable colors plus the ability to adjust brightness), and blue H4 Halogen bulbs. The halo or "Angel Eyes" can also be wired as a daytime running lamp and features 23 low temp LEDs with a 100,000+ hour life, along with "fade," "flash," "strobe," and "smooth" modes that you can choose with the included wireless remote. Headlamps plug directly into your stock harness for a simple and easy installation. Each pair includes: two headlamps, two bulbs, two boots, ceramic tip pigtail harness adapter, and instructions. Multi-color halo sets also include the RGB harness and wireless remote.

**Important:** Will fit most vehicles (cars, trucks, motorcycles, and motor homes) that use a universal rectangular style headlight.

**Note:** Blue Halogen bulbs are blue in color when off, and bright white when on (no blue tint).

## H4 NovaStar LED Headlight Bulbs

Upgrade your stock Halogen bulbs with a pair of premium LED headlight bulbs from RedLine LumTronix. With a 50,000 hour lifespan, you won't have to change the bulbs as frequently, meaning you'll spend more time on the road than in the garage. Each bulb is 300% brighter than your stock Halogen bulbs as well as a direct fit, "Plug and Play" upgrade that requires no modification to your electrical wiring. LED bulbs include colored film to change the look and temperature color of your lights.

## V1 Projector Headlamps

Dapper Lighting V1 projector headlamps embody the custom look while substantially upgrading the quality and spread of light. The unique hi-low switch design provides a clean and safe light cutoff design, eliminating the issue of "headlight dazing" on the roads. Each unit features a Bi-Xenon projector (high and low beams) with either a chrome or black shroud. The housings are also available with a traditional chrome or black background. Headlamps measure 4-1/2" deep. Includes halogen parking/daytime bulbs and wiring.

## LED7 Projector Headlamps

Dapper Lighting 7" LED projector headlamps provide the classic look while substantially upgrading the quality and spread of light. These replacement bulbs feature OE style glass lenses, Bi-LED projectors, and a slim flat base design (3.2" deep without bulb). These features eliminate the extra wiring and bucket modifications associated with HID lighting. They offer a quick and clean install and a significant increase in performance, reliability, and safety. Available with chrome or black housings and with or without halos. The halos are available in solid, dashed, and HDR styles.

Note: RGB halos require a controller sold separately.

These Replacements are Officially Licensed Bulbs with Correct Markings on the Lens!

T3HBC3 - detail

## 1967-69 T-3 Headlamp Beam Set

These authentic 5-3/4" T-3 headlamp bulbs are direct from GM blueprints and features the correct T-3 markings on the lens. Perfect for 1967-69 restorations.

Note: Includes 2 low beam and 2 high beam.

T3HBC3	1967	5-3/4"	134.99 set
T3HBC4	1968-69	5-3/4"	134.99 set

## Round Crystal Headlamp

Replace your burnt out or missing headlamps with these crystal headlamps. Features reinforced multi-surfaced, aluminum reflector, rugged anti-vibration construction. Includes a 12V 65/55W Halogen bulb. Sold individually.

CP031386	5-3/4"	replaces H5001/H5006	50.99 ea
CP500126	7"	replaces H6014/H6024	38.99 ea

## Halogen Headlamp with Adjustment Knobs

Replace Halogen headlamps with adjusting knobs for various models equipped with 7" round headlamps, or 5-1/2" x 8". Manufactured to offer superior modern light distribution while providing appearance correct lamps. Both lamps feature small knobs that were used to aim the light emitted by the lamps. Bulb not included. Uses H4 style bulb.

153577	7" round	12.99 ea
153578	5-1/2 x 8" rectangular	12.99 ea

## 7" High/Low H4 Headlamp Bulb

7" headlamp with glass lens and replaceable H4 Halogen bulb replaces H6014/H6024, high and low beam function. H4 bulb included. Sold individually.

CP500127	7"	replaces H6014/H6024	25.99 ea
----------	----	----------------------	----------

## Diamond Cut Headlamp

These headlamps install much like a standard sealed beam unit, but they allow the use of an H4 Halogen bulb in your choice of color and wattage. You'll enjoy the extra brightness usually associated with high end luxury and expensive sports cars. The diamond cut reflector concentrates the beam on the road in front of you. Sold individually.

Note: For your headlamp conversion, we recommend using our wiring harness upgrade kit (sold separately).

MX09137	7" round	19.99 ea
MX09130	4" x 6" rectangular	21.99 ea
MX09124	5-1/2" x 8" rectangular	21.99 ea

## 5-3/4" Headlamp Bulb with LED Bar

5-3/4" LED headlight with white or amber LED position light bar for four headlight systems. These headlamps feature LED high and low beam along with 9 high power LEDs in the light bar. Perfect for 4 headlamp systems. Sold individually.

CP2000	white LED	276.99 ea
CP2001	amber LED	307.99 ea

## 7" High Power 11 LED Crystal Headlamp

This 7" crystal headlamp uses eleven high power LED to improve visibility, providing a white light similar to daylight. An impact resistant polycarbonate lens provides unparalleled protection from road hazards, while the solid state design resists shock and vibration. Meets SAE/DOT FMVSS108 standards. Sold individually.

CP500518	7"	335.99 ea

## HID Headlamp Bulbs

HID headlamp bulbs are much brighter than conventional Halogen bulbs, while providing tight light focus for better light distribution. They require 35 watts and use an external regulator, but will plug into the existing light plug. The H4-series bulb features a bright white HID low beam and a Halogen high beam function.

Important: Not for use on public roads.

## H4 Headlamp Wiring Harness Upgrade

Our wiring harness set upgrades the thin stock headlamp wiring on your vehicle, providing your new bulbs with maximum power and decreasing the chance of overloading (and possibly melting) your stock wiring and headlamp connectors. Power will be drawn directly from your battery, eliminating voltage drops and ensuring headlamp system reliability. Two 30 amp relays provide added protection for your headlamp switch and wiring harness.

MX01132 for 2 headlamp system ..... 24.99 set  
MX01133 for 4 headlamp system ..... 24.99 set

30816

## Halogen Headlamp Harness

Our headlamp harnesses draw power directly from the battery, through a relay, to the headlamps, providing full power to your H4 conversion headlamps or Halogen sealed beams. They are made with TXL high temp wire, weather resistant 30 amp fuse, and two 40 amp weather resistant relays capable of handling up to 150 watts.

For 9004 and 9007 Halogen Bulbs ..... 109.99 ea  
For 9005 and 9006 Halogen Bulbs ..... 149.99 ea

## 1982-02 GM Replacement Fog Lamp

Because fog lamps are mounted so low, they tend to be prone to damage from rocks, parking blocks and the like. If you drive your 1982-02 Firebird regularly, you will no doubt suffer some kind of fog lamp damage eventually. When that happens, replace the cracked or broken fog lamps with these Genuine GM replacements.

## 1985-02 Fog Lamp Relay

A relay is typically used to control a component that draws high amperage. The relay allows full power to the component without needing a switch that is heavy-duty enough to carry the amperage. Such is the case with the fog lamps on your Firebird. If your fog lamps do not come on and the bulbs are in good condition, it may be time to replace the relay.

## 1987-92 Deluxe Headlamp Repair Set

If your headlamp motors run, yet they fail to raise or lower the headlamps, this rebuild set will solve your problem. Inside the motor unit is a nylon gear that contains 3 solid gel bushings that transfer the load from the gear to a 3 lobe cast hub that is part of the actuator shaft. These bushings harden and crumble with age and will no longer turn the hub to raise and lower the headlamp assembly. This set contains enough parts to replace the bushings in two headlamps.

209280 1987-92 ..... 19.99 set

## 1993-97 Headlamp Housing

Genuine GM headlamp housing used to hold the headlamp mounting bucket on your 1993-97 Firebird models.

G4873 1993-97 LH..... 297.99 ea

## 1982-02 Headlamp Motor Gear Repair

The original plastic headlamp motor gears on 1982-02 models are easily stripped because they operate against a metal worm gear. These replacement gears are CNC-machined from bar stock brass for durability that will last the life of your vehicle. Installation requires simple hand tools and includes instructions. Sold individually, 2 required.

## 1979-99 GTS Front Lamp Covers

Front lamp covers are the answer to stylish protection for today's expensive headlamps, turn signals and driving lamps. Custom designed for your Firebird, Firebird SE, Formula, or Trans Am, you're assured of a perfect fit straight out of the box! Choose from 2 unique grades: clear or smoke for a personal look used to distinguish your vehicle from anyone else's! These headlamp covers offer simple "no holes to drill" installation and are paintable for a wild custom color! Simple removal means easy cleaning and quick changes for show or go!

*Note: These products are intended for show, competition and off-road use only. Never drive on public streets or highways with headlamp covers on your vehicle.*

### 1967-81 Sequential LED Lamps

This is the latest thing in tail lamp technology! These LED replacements for your factory tail lamps fit perfectly behind your factory lens and bezel, and are far quicker responding and much brighter than DOT requirements! These sets use very high intensity, wide angle LEDs for an exceptional way to increase visibility and add an extra aesthetic touch to your Firebird. They provide two modes of operation, standard or sequential. The sequential mode gives you a unique cascading affect that will really get you noticed!

*Note: Lamp lenses, bezels and housings sold separately. Tail lamp circuit boards only.*

### 1967-81 Multi-Pattern Sequential LED Tail Lamps

Animate your tail lamps and make your Firebird stand out! These LED panels feature a self-contained microprocessor and circuitry to enable multiple sequential lighting patterns. Make the light pattern flow at various speeds from the center of the vehicle outwards, from the center of the lens outwards, and more! Each set offers nine different patterns. Made in USA.

*Important: The examples shown above are only two of the nine patterns available on each panel set. All panels require a low current LED flasher.*

### 1969 LED Tail Lamp Upgrade

These LED tail lamp conversions are truly a safety enhancement for your classic car. They fit neatly beneath the stock lens while maintaining a stock appearance when the lights are off. Given this "invisibility," these products appeal to both modified and restored vehicles alike. Includes two LED arrays, electrical harnesses, connectors, necessary brackets, and attaching hardware. 2 pair required per vehicle.

## 1967-69 Radiator Support Filler Panels

Reproduction radiator support to bumper filler baffle panels. The 1967-68 panels do not include notches on the edge which fits against the radiator support. The 1969 version includes notches to allow access to the locating holes on the radiator support to mount the air conditioning condenser if necessary. Originally installed on Firebird models with factory air conditioning and/or 400 V8 engines. Includes LH and RH panels. Installation hardware kit includes 4 rubber bumpers and 6 mounting screws.

Note: \*Will fit 1967-68 models

## 1970-81 Factory Look Splash Guard Kit

Add a front and rear splash guard kit to your 1970-81 Firebird or Trans Am to protect against stone chips, splashing mud, and other flying debris. These aftermarket guards are designed to match the style and shape of the 1970-81 Trans Am factory front and rear side spoilers. Although these splash guards were never available from the factory, once installed, you'll swear they look like original equipment. Mounts behind the front and rear wheels with provided hardware. Each kit comes complete with front and rear splash guards, mounting hardware and a 15 foot roll of welting. Some drilling of fenders is required for installation. These look great on a base model Firebird or on Trans Am models even when the vehicle is equipped with factory style Trans Am spoilers.

## 1967-81 Billet Hood Hinges

Replace your functional but unsightly original hood hinges with a set of premium quality billet hood hinges. CNC-machined from solid 6061-T6 billet aluminum, these hinges are a direct replacement piece with no modifications necessary and feature ball bearing pivot joints and gas shocks either as a solid frame hinge or the new high tech air frame. Installation hardware and instructions included. Available in natural, black, or gray anodized aluminum finishes and for steel or fiberglass hoods.

## 1967-69 Power Reverse Opening Hood Set

This power reverse opening hood set provides the latest in technology combined with stunning styling for a truly unique ride! The handful of traditional reverse opening hood conversions are manually operated and often require major front panel clearance. This trick set utilizes power actuators and machined Delrin axial guide ways at the back of the hood with a patent pending cam lever design to move the hood out of the way of the header panel. Smooth operation is guaranteed with gas shock stabilizers. Set includes 200 lb actuators, "Flag and Chain" wiring harness, direct bolt-in bracket set, 4 channel keyless entry system, heavy-duty gas struts, manual emergency entry cable and mounting brackets.

## Adjustable Hood Prop

Constructed of high-quality aluminum and stainless steel, these adjustable hood props offer great looks as well as functionality on your ride. When the hood is raised, the hood prop will automatically lock itself into position. A quick release allows the hood to be opened to its max for easy engine access. A three position and a six position option allows the hood to be set at various levels. Each level of the 6 position prop increases the opening of the hood by approximately 6". Each level of the 3 level prop increases the opening of the hood by approximately 12". They also works great for cooling your engine in the staging lanes.

# Front Fender Components

dimension key

## Clinched Fender Flares

Add an aggressive, wide body look to your muscle car with clinched flares universal fender flare sets. These versatile flares can be installed on most makes and models with minor modifications. Flares are made from automotive grade, impact resistant 3mm ABS plastic for great looks and durability. Each set includes: one pair of flares, rubber gaskets, and type 3 installation hardware. Flares can be blended in with your fenders or left with open rivets. Available in a variety of styles and sizes to suit any virtually any build.

**Note:** Installs with rivets/bolts and will require drilling/cutting of the fender/quarter panels in order to install. Lowered suspension and wider wheels are suggested to achieve the right stance. Dimensions are approximate.

### Classic Style

Classic style features "pointy" tips and work very well not just on the classics but also on the more modern cars where the owners are going for a more subtle look.

Part#	A	B	C	D	Price
CF1090	2.25"	29.5"	18.75"	1.25"	149.99 set

Weld the firewall delete panel directly onto the firewall and get a smooth, clean appearance.

## 1967-69 Firewall Heater/AC Delete Plate

Here's a simple way to give your 1st Gen's engine bay the clean, custom look you crave! The firewall delete plate is an excellent way to smooth your firewall when installing an aftermarket AC system. This panel smooths the passenger side firewall, while retaining the stock cowl-to-firewall seam. The weld-in panel is made of 18 gauge steel and is hammer formed along the edges and comes complete with installation instructions.

# Unibody Assemblies/Frame Rails

## 1967-69 Firebird Coupe and Convertible Unibodies

If your Firebird body is rotted out and beyond replacing individual panels or if you want to build an entire replica First Gen, then these unibodies are for you! These are an accurate reproduction of a 1967-69 Firebird unibody assembly manufactured and designed just like the original. As shown here, each assembled unibody includes the firewall, upper dash panel, outer cowl panels, windshield frame and doors mounted. Inside you'll find a complete floor pan, all floor pan braces, rear seat partition as well as inner and outer rocker panels. Each body also features complete quarter panels, the trunk lid with hinges, and a tail panel. This assembly is welded and EDP coated. With so many specialty bolt-on applications for these unibodies, it's easier than ever to assemble a brand new Firebird with reproduction and aftermarket accessories and most parts needed to build a Firebird are available through Classic Industries!

## 1967-69 Firebird Unibodies

**Important:** Each unibody is crated for protection when being shipped. A \$495.00 crating fee will be added to all orders.  
**Note:** Shipped truck freight.

## 1967-81 Vinyl Top

Classic Industries' quality reproduction vinyl tops are produced for each year listed below. Manufactured using Levant grain vinyls offering the ultimate in originality and quality. The seams are sewn with Dacron bonded thread then dielectrically heat sealed which is correct in appearance and quality. Replacing your original vinyl top will help bring your Firebird back to showroom condition. Classic Industries' recommends professional installation in order to maintain the highest quality replacement.

**Important:** Each vinyl top is preset for the rear window and pillar post areas. All models used moldings to finish the lower rear edge of the vinyl top. All models will need to be cut and trimmed to fit the specific vinyl top moldings for each year. Be sure to check the design and placement of the moldings before trimming and gluing the top to ensure accuracy. Requires minor cutting and trimming.

Purchase the pre-notched floor and trunk pans,

or just the Mini-Tubs and modify your existing trunk and floor panels.

## 1967-69 Deep Tub Floor Components

Add up to 3 inches of clearance per side with our custom deep tub floor components for 1967-69 models. Manufactured to look like the original floor pans and frame rail assemblies, while providing the added clearance needed for wider tires. The floors feature correct gauge steel, factory style contours, and are properly notched and flanged for easy installation. All parts are coated for rust prevention.

Important: The upper shock mount will need to be relocated in order to accommodate the rear suspension setup.

## 1970-73 Floor Pan

USA

Just the item many early second generation Firebird owners will need to get their 1970-73 Firebird's floor back into shape. Don't let anything you're hauling around fall through those holes in your Firebird's floor, replace it today with this quality reproduction. These floor pans are correct reproductions for 1970-73 models and include the transmission hump area and foot well sections. Other replacements are designed to fit all 1970-81 models and incorporate a hump in the floor for a catalytic converter which 1970-73 models don't require. Made in USA.

*Note: Shipped track freight.*

## 1970-81 Billet Door Hinges

Ringbrothers billet door hinges are a resolution to an old problem. Designed to withstand the weight of the heavy doors, the Ringbrothers door hinges are a direct replacement for the stock hinges. They hold the bulky door in two locations with ball detents. They are machined from 6061-T6 billet aluminum for strength, durability and protected with black anodizing for surface resilience.

## 12V Exterior Door Handles

Elevate your vehicle's style with these electronic exterior door handles from Lokar! Each billet door handle utilizes a weatherproof 12 Volt pressure pad switch to supply power to an electronically actuated door latch (doorpopper). Its 2 piece design and available 0 degree or 10 degree mounting surface allows the insert to be removed, and door handle positioned for ultimate customization. The XL design provides 7/8" of clearance between the door and the switch, allowing for easier mounting and less modifications to the door. Made in the USA from 6061-T6 billet aluminum.

**Important:** Requires electronic door latch actuators, not included.

**Note:** \*Installation requires hand pocket for clearance.

08662 3 oz. tube black..... 12.99 ea

## 1967 Remote Mirror Chrome Knob

Reproduction remote mirror adjustment knob. Knob attaches to the end of the cable assembly and allows adjustment of remote mirror from inside the vehicle.  
3891495 1967..... 17.99 ea

## 1967 Remote Mirror Inner Door Bezel

Reproduction remote mirror bezel nut. This nut mounts on the interior of the door to keep the remote knob assembly in place.

3891496 1967..... 21.99 ea

## 1968-81 Remote Mirror Door Bezel

This OER® reproduction remote mirror bezel includes bracket, mounting clip, and screws as shown.

**For Custom Interior**  
3927450 1968-69 LH..... 32.99 ea

**For 1968-69 Standard Interior, 1970-81 all**  
3921833 1968-81 LH..... 32.99 ea

## 1968-81 Remote Mirror Bezel Retainer

Remote mirror bezel retainer for 1968-81 Firebird models equipped with standard interior.  
C274481 1968-81..... 10.99 ea

## 1982-82 Door Mirror Gaskets

These gaskets insulate against vibration between the mirror assemblies and the doors to prevent sheet metal damage. Sold as a pair.

C95216 1982-92 LH and RH..... 26.99 pr

## 1993-02 Outer Mirror Bracket

Genuine GM outer mirror bracket used to mount the mirrors to the door.

G4498 1993-02 RH..... 74.99 ea

## 1993-02 Power Mirror Bezels

Reproduction interior power mirror bezels for 1993-02 Firebird models. Injection molded ABS plastic as original. Made with the Genuine GM part number on the back.

A9400138 1993-02 LH and RH..... 34.99 pr

## 1967-68 Clear Shot Door Mirrors

Clear Shot Mirrors can help with the common passenger side blind spot that exists with other mirrors. The patented design eliminates the passenger side blind spot by allowing the mirror to be adjusted further in without the need of a convex mirror. They also have built in tensioning screws that lock the mirror heads into place and mounts to your vehicle like the factory intended. Mirrors feature original style ribbed bases. Includes mounting gaskets and hardware. Sold in pairs.

# Important Information Before Attempting to Install Sheet Metal!

## Regarding Minor Imperfections in Panels:

The sheet metal you receive may have scratches, dings, small dents and other minor imperfections which are considered normal sheet metal characteristics due to the nature of the product. These minor imperfections will be easily corrected during the filling, priming and sanding phase of your sheet metal installation. Classic Industries® does not consider dings, scratches, minor dents or other imperfections on the sheet metal to be defects in the panel nor are they considered damaged. All sheet metal panels will require some sort of preparation and manipulation during installation. Every panel that we sell is inspected and then carefully packaged to protect against damage that may occur during transit.

## Test Fit All Panels Prior to Paint and Installation:

Classic Industries® recommends test fitting all sheet metal panels prior to final paint and installation. Minor modifications including elongating mounting holes, adding additional shims, etc. are normal and may be necessary when installing sheet metal. It is important to note that hard driving conditions, like racing, can twist bodies and frames out of original tolerances. Poor body work from previous collisions can cause problems with the body structure that the panels are attached to. Some vehicles were manufactured with a unitized body (no frame) thus causing even the most minor accident to twist the body creating a situation that would cause sheet metal panel misalignments. Take into consideration that tolerances on classic vehicles are not nearly as exact as they are on modern vehicles. This is primarily due to the hand fitting of panels at the factory on most antique and classic cars as opposed to the robotics used in today's modern factories. All of these factors will affect the way your new reproduction sheet metal will install and fit on the car. There is really no such thing as a direct fit body panel when it comes to older vehicles.

## Returns and Defects:

Prior to returning any defective body panel or sheet metal item to Classic Industries®, please contact our customer service department. Classic Industries® will not replace a panel, nor will we be responsible for freight on returns should it be deemed that the panel is not defective. See policies for more information.

## For Best Results, Hire a Professional to Install the Panels:

Classic Industries® recommends that you hire a professional paint and body technician that has the skills, knowledge and experience necessary to install the new panels on your vehicle. A professional body technician will be able to prepare the panels for installation and repair any imperfections.

## When Welding Sheet Metal Products . . .

Save time when replacing sheet metal by using Classic Industries® new, innovative "Weld-Thru™" primed sheet metal products. Our all new coating process is designed to eliminate the unnecessary process of grinding or sanding the EDP coating off to ensure a solid and rust free weld. This "Weld-Thru™" primer requires minimal preparation and eliminates corrosion problems between overlapped panels and layered spot welds. It also minimizes heat zone problems, reduces panel distortion, and allows better penetration into the dense replacement steel to compensate for the older metal's impurities. Look for the "Weld-Thru™" logo when purchasing sheet metal products to save time during installation of weld-on sheet metal repair panels.

## Some Guidelines on EDP Coating

Many sheet metal products are delivered with a black electrophoretically deposited coating (EDP, or E-coat) for superior long-term corrosion protection, while others use a similar lacquer-based coating designed to provide protection for storage and shipping. Before panel installation, Classic Industries® recommends applying lacquer thinner with a shop towel to determine the type of coating. If the coating is removed by lacquer thinner, then it should be completely stripped from the product before any primer or paint is applied. If the lacquer thinner does not remove the EDP coating, it can simply be prepped, primed and painted without stripping.

## Classic Industries® The Restorer's Choice™

Count on the Classic Industries®  Restorer's Choice™ symbol whenever purchasing reproduction parts and accessories. You can be sure that each and every product displaying this symbol is manufactured correctly to exact specifications and fits the way the factory intended. Products denoted throughout the catalog with this symbol are officially approved by Classic Industries® as a genuine restoration product. Look for the Restorer's Choice™ logo. The Classic Industries® symbol is your assurance of quality.

## Made in USA

Look for the "Made in USA"  logo for products that are proudly manufactured in the United States.

# Quarter Panels

### EDP for Rust Prevention:

EDP rust inhibitor coating is used to prevent surface rust prior to installation. All quarter panels are ready to prep and prime to any desired color.

**Sail Panel Area:**  
Features complete sail panel just like the original GM quarter panel.

### Side Marker Lamp:

Correct side marker mounts are featured on all 1968-69 Firebird quarter panels as shown.

### Wheel Opening Contour:

Correct wheel opening contour. Ready-to-install wheel opening moldings if desired.

### Bumper Bracket Area:

Reinforced bumper bracket area. Same as original!

### Door Jamb Area:

Features crucial door jamb area eliminating unnecessary welding associated with quarter skins. Also has contour for vent lower.

### Trunk Gutter Area:

Includes complete finished trunk gutter area as shown making it easy-to-install weatherstrip and trunk gutter.

## 1967-69 Quarter Panel

When General Motors discontinued this popular item a few years back, you could either pay the high price for an original NOS panel or resort to the overseas quarter skins which were less expensive but more difficult to install. OER® changes all that by manufacturing an authentic complete quarter panel including every component found on the original item. OER® built the tooling, we control the quality.

**Note:** Shipped truck freight.

## 1967-69 Reproduction Quarter Panel Skin

Replace your original quarter panels with these reproduction skins. Each skin will install as original panel except for the roof sail panel which is not included with this reproduction panel. This is an excellent replacement if you have rust around the wheel well areas. These skins offer a good fit and will install with minimal fitting. This is a partial quarter panel skin which extends to the top crease of the original quarter panel. Each panel is manufactured to allow installation of the chrome wheel opening moldings. Will eliminate all rust located around wheel opening. These panels are exceptional for convertible use due to the elimination of the sail panel area. Manufactured with precut holes for side marker lamps. Careful attention is paid to packing and shipping to eliminate damages.

**Note:** Shipped truck freight.

## 1967-69 Wheelhouse Panel Assembly

Rear wheelhouse assemblies for 1967-69 Firebird models with stock width tires or high-performance applications requiring a Mini-tub. Fits coupe and convertible bodies. Mini-tubs add approximately 2-1/4" of clearance for wide wheel and tire combinations. Available with traditional EDP coating or in a Weld-Thru™ Primer that requires minimal preparation, eliminates corrosion between overlapped panels, and promotes superior weld characteristics.

Note: Shipped double oversize.

### Stock Width Wheelhouse Panels

## 1967-81 Inner Wheelhouse Mini-Tubs

Detroit Speed's exclusive Mini-tubs inner wheel housings are designed to accommodate tires as wide as 335mm and wheels as wide as 12". They are engineered for a perfect fit and retain a stock appearance. Mini-tubs are almost three inches wider than stock, stamped from 18 gauge steel and made in the USA. These will significantly reduce the number of hours required for a Mini-tub project.

Important: Convertible installation is the same except some convertible hinge must be relocated to the new deep tubs.

Note: Shipped double oversize.

K86131	quart	gray and white	109.99 ea

# Trunk Mats and Components

Two Houndstooth Color Options!

## 1967-81 Three Piece Vinyl Trunk Mat Kit

Although sometimes neglected, it doesn't take much to bring your trunk area back to showroom condition. The kits are made with three individual components: the trunk mat, the spare tire cover and the jack storage pack. The trunk mats are manufactured in vinyl material with a soft felt or fiberboard backing. Each form fitted trunk mat is produced from factory patterns and features the original style Houndstooth pattern. The spare tire covers can be ordered three ways: a 14"/15" spare tire cover, a space saver spare of a fiberboard spare tire cover. The fiberboard cover includes a stiff fiberglass support.

Note: \*Soft felt backing.

## OER® Trunk Refinish Kit

Restore the trunk area of your classic car to a factory original appearance and provide the ultimate protection from the elements. First prime the area to be painted. On bare metal, you should use a self-etching primer. Next, spray your base coat. Then spray your spatter coat and let dry thoroughly. Finally, coat the entire surface with our clear top coat to seal the surface. Buy the kit and save!

*Note: Ships ground only. No air shipment.*

## Trunk Refinish Kit

Contains everything you need to refinish the trunk of your classic vehicle including 2 cans of primer, 2 cans of base coat, 3 cans of spatter paint and 2 cans of clear topcoat.

### With Standard Gray Primer

## The Filler Detective

The Filler Detective will find hidden body damage and body filler on a car, truck, or motorcycle. It will tell you where body filler is and how deep it is. This simple one-button tool lights up and sounds when it detects body filler and features a visual alert with bright, daylight visible LEDs. The meter doesn't miss and it indicates exactly where the body filler is and includes a test plate to confirm accuracy. Never again wonder whether or not a vehicle has been in a wreck! The Filler Detective solves the mystery every time.

FDA0100 red ..... 79.99 ea

## EZ Rest Door Hanger

The EZ Rest door hanger enables a single person to quickly remove and/or install vehicle doors. The padded, removable side rails and plastic, ribbed base inserts allow for accurate positioning of the door. The easy-on/off design quickly adapts to most floorjacks with a removable saddle and 30mm (1.18") diameter saddle hole.

Note: Floor jack is not included.

S21870 ..... 158.99 ea

## Door Spring Tool

Compresses spring for easy safe removal. Slides safely over spring. Constructed of heat treated, high carbon steel.

S21900 ..... 23.99 ea

## Door Hinge Adjuster Tool

You can now easily adjust the hinges without the aggravation of trying to align by eyesight with this handy tool. Specifically designed to help adjust the hinges so they help to align the door.

Y65800 ..... 52.99 ea

## Door Hinge Pin Popper

The ultimate solution for removing door pins fast. Drives out even stubborn hinge pins. Works on all GM vehicles with removable hinge pins. Includes pin puller to remove loosened pins.

S21835 ..... 38.99 set

# Body Tools

## Door Bushing Tool

If you've ever tried removing a door hinge bushing with just a regular punch, you know it's a hassle. This tool makes it easy to punch out bushings and align bushings when reinstalling. Offset design allows for easy access to all door hinges.

S21825 ..... 18.99 ea

## Door Aligning Bar

Finally, a convenient door aligning tool that will fit in your tool drawer! Features a Hex stub to use with a breaker bar and socket for additional leverage.

S21845 ..... 41.99 ea

## Pro Paint Gauge

The Pro Gauge is a device which measures paint thickness. Factory paint is usually four to five mils in thickness. By using the Pro Gauge you can determine if the vehicle has been repainted. For instance, you can take measurements of about 4.5 mil around the vehicle but the hood may read seven mils on the Pro Gauge. That tells you the hood has been repainted.

FG2437 ..... 84.99 ea

## Eliminator Rust Remover

Before touching up paint, you first must remove all rust, wax, and dirt or the rust will return and the paint won't adhere. This unique tool will scrub away all dirt, rust, and wax. The results are touch up paint adheres, seals and blends smoothly into the rest of the paint.

E3437 ..... 9.99 ea

## Spot Weld Chisel

Chisel tool to separate panels after the spot weld has been drilled out. Drive the blade with a hammer from the end or the side through the panel seam. Panels are separated without damage. The blade is sharpened on three sides, and offset for clearance.

Note: The sharpened edges will wear with use. Resharpen on a grinding wheel.

Y51900 ..... 14.99 ea

## Body Dent Removal Tools

The pull rod set includes: 4 pull rods with formed shank, 2 pick pulls with straight shank, straight edge and HS split point drill bit.

S20000 pull rods ..... 44.99 set

## Cleco Sheet Metal Fastener Kit

Everything you need to secure sheet metal panels during the fit and alignment stage. The pliers can be used with all standard spring loaded fasteners and clamps. The kit contains: one pair of Cleco pliers, twenty-five 1/8" Kwik-Lok Clecos and four side grip fastener clamps. Also available are individual components so you can add to your kit as necessary.

Complete Kit

Cleco Pliers  
 X9863 Cleco pliers ..... 12.99 ea

## Plugweld Pliers

These plugweld pliers make plug welding fast and easy. Panels won't separate and copper alloy pad prevents burn through, allows higher welding temperature and better penetration.

S23230 pliers ..... 38.99 ea  
 S23231 replacement pad ..... 9.99 ea

## Visegrip Flange Pliers

Preparing panels with an offset flange will produce a clean, flush fit. Work on up to 18 gauge sheet metal without removing panels from the vehicle. The added feature of "Visegrip" locking pliers allows for better leverage. Available with your choice of 1/2" wide non-slip jaw or wider 1" clamping surface.

X9853 1 1/2" wide jaw ..... 39.99 ea  
 X9853 1" wide jaw ..... 41.99 ea

## Seam Buster HD Chisel

Easily separate spot welded or bonded panels. Save up to 15 minutes per panel replacement. Great for quarter panels, rocker panels and other pinch welded areas. Sharpened on two edges, the sharp end allows for penetration between panels and the side edge allows for side impact to drive the panels apart without damage. Made of super tough alloy steel. Cushioned handle absorbs shock.

 S20017 air hammer ..... 47.99 ea

# Tools and Adhesives

## Multi Wedge Prying and Scraping Tools

Multi Wedge is an amazing automotive restoration tool that will replace screwdrivers, pry bars and all other metal tools that can cause damage and marring to delicate surfaces! The soft, orange wedge set and the jumbo wedge are made from a high tech, specially blended polyethylene that is incredibly ductile so they won't break or snap. The hard, black wedge set is made from a high tech, specially blended polycarbonate for the heavy-duty jobs like oil pan covers, timing covers or valve covers. Each 3 piece set includes one 4" curved end, one 4" straight blade and one 3" straight blade. Buy both sets and save! The jumbo wedge is 14" in length and 2" wide, making it perfect for the big jobs.

MW01 orange wedges, soft - set of 3. 12.99 set  
 MW02 black wedges, hard - set of 3. 13.99 set  
 MW03 both wedges, soft & hard - set of 6. 19.99 set  
 MW04 jumbo wedge. 12.99 ea

**Soft Duty - Delicate prying or wedging**  
**Medium Duty - Sturdy prying or wedging**  
**Heavy-Duty - Very strong and durable**

## Prying and Scraping Tools

Available in 3 different fiberglass reinforced plastics, the soft duty tools are good for jobs where a minimum amount of force is needed to remove objects. The medium duty tools are better for the objects that require a little more force to remove, and the heavy-duty tools are for the objects that are real stubborn and just do not want to be separated from their current position. All these tools are strong enough to pry yet soft enough to do interior and exterior automotive jobs without the damage that metal tools can do.

**7 Piece Prying and Wedging Tools**  
 T2300S soft duty..... 24.99 set  
 T2300M medium duty..... 24.99 set  
 T2300H heavy-duty..... 24.99 set

**4 Piece Scraper Tools**  
 T2301M medium duty..... 17.99 set  
 T2301H heavy-duty..... 17.99 set

**Metric Gap Gauge**  
 T2302 1-15mm..... 4.99 ea

## Premium Auto Trim Removal Tool Kit

This 11 piece kit was designed for the removal of door panels, dashboard, trim strips, interior panels, and window moldings. Made of impact resistant plastic that will not mar surfaces like metal tool. Included for the tools is a heavy-duty nylon pouch.

TX2684 ..... 23.99 ea

## Lockstrip Insert Tool

The lockstrip insert tool is specifically designed for self-sealing two piece rubber weatherstripping. The eye of the tool threads locking strip into the groove and inserts it into the channel.

153818 ..... 12.99 ea

## Weatherstrip Ball End Hook Tool

This hook tool has a small, round steel ball on the end. Once the steel ball is inserted down into the rubber gasket, it is very difficult for it to come out. If it should slip out of the gasket, there is less of a chance you will scratch the paint of the vehicle.

153823 ..... 14.99 ea

## Glass Seal Rope-in Tool

Use the rope in tool when working with rubber gasket set glass. The unique counter grip plastic handle injects the rope through its stem as it is pulled around the gasket. There is plenty of enough durable rope to fit around even the largest window.

153813 ..... 19.99 ea

## Universal Molding Release Tool

The ultimate tool for cleanly releasing moldings. Slide tool left or right under the molding until it hooks a retaining clip, then just rock the tool with a twist of the wrist to release the clip. Heat treated, high carbon steel.

S21500 ..... 6.99 ea

## Glass Molding Clip Installing Tool

Reduce the risk of chipped glass and scratches by using this handy tool for replacing your front or rear window glass molding. This tool is specifically designed to fit trim clips over the studs and virtually eliminates glass breakage.

A13574 ..... 34.99 ea

## Windshield/Back Glass Molding Removal Tool

Excellent tool used to remove the molding from the retaining clips on windshield and back window glass.

A7914 ..... 16.99 ea

## Windshield/Back Glass Molding Pliers

Specialty pliers for removing door handle clips and chrome molding on most windshields and rear glass. Jaws slip under door handle without damage to panel material, and offset handle permits easy access to molding clips.

Y35200 ..... 9.99 ea

## Windshield Removal Tool

Professional windshield removal tool for all vehicle applications. Features an aluminum handle with diamond cut pattern for added grip. Heavy-duty braided wire secures the pull handle to the cutting blade.

153811 ..... 21.99 ea

## 3M Super Fast Urethane

A rapid curing adhesive/sealant intended for all flush mounted and bonded windshield or back glass replacements. Provides the necessary strength for automotive glass replacement. 10 fl. oz. cartridge.

08609 ..... 29.99 ea

## J-B Weld ClearWeld Epoxy

J-B Weld ClearWeld is a multi-purpose epoxy that provides a strong and lasting bond on most surfaces including tile, most plastics, ceramic, glass, wood, and metal. Sets in 5 minutes, cures in 1 hour. Cure color is clear. Made in USA.

JB50112 25ml syringe..... 5.49 ea

# Power Steering Parts

**CARDONE**

## 1967-94 Power Steering Pump

These economical service replacement pumps for 1967-94 Firebird models, are thoroughly reconditioned, and carefully remanufactured! The replacement reservoirs may be cosmetically different than the original. For example, a pump that was originally equipped with a "banjo style" reservoir, may include an "A-Style" reservoir due to short supply of rebuildable cores. If functionality is more important to you than original cosmetic appearance, these remanufactured units are an extremely good value. Cap, nut, and pulley are not included. These units are priced outright, meaning the core charge is built into the price. For that reason, it is not necessary to return your original core.

**NO CORE REQUIRED!**

Note: \*With one mounting hole in reservoir. \*\*With two mounting holes/studs in reservoir.

**Pump with Reservoir**

## 1967-74 OE Style Power Steering Pump

Thoroughly remanufactured, these OEER® Authorized pumps are carefully inspected and meticulously restored to OEM appearance and function! Reservoirs are reconditioned GM parts in the exact original configuration for complete authenticity! Careful attention is paid to reservoir reconditioning to ensure an authentic appearance. This is a good choice for restorations when an original appearance and superior quality is desired. These units are priced outright, meaning the core charge is built into the price. For that reason, it is not necessary to return your original core.

**NO CORE CHARGE REQUIRED!**

Note: Cap, nut, and pulley are not included.

## 1967-81 Power Steering Hose Set

Includes fittings to convert your steering gear to 6-AN fittings. Stainless steel braided hoses are Teflon lined. Hoses feature pre-primed stainless steel fittings to attach to the 6-AN fittings at the steering gear. Set includes 30" hose length that can be routed and cut to length at the pump end. Requires a pressure fitting (D91801) for a GM type II pump to complete this hose set. These fittings are included; 9/16"-18 to 6-AN pressure fitting and 5/8"-18 to 6-AN return fitting. D91302 1967-81 hose set..... 194.99 set D91801 1967-81 pressure fitting..... 38.99 ea

New!

## Set Includes:

- High pressure hose - 11/16"-18 and 5/8"-18 inverted flare type fittings
- High pressure hose - 20" long fitting to fitting and clocked 90 degrees
- Low pressure hose - 5/8"-18 and open on opposite end to trim to length (3/8" dia.)
- Low pressure hose - 28" long from fitting to end (3/8" dia.)
- Inverted flare power steering pump fitting
- All fittings for Hydro Boost
- All fittings for GM power steering gearbox

## 1967-02 Hydro-Boost Hose Set

Our power steering conversion hose set is designed to fit the GM Saginaw power steering pump with inverted flare pressure fitting. It also fits the GM 605, 800, and 600 Series power steering gearboxes. These hose sets are the same items that are required in all the popular power steering conversions using a GM type gearbox with Saginaw pump. Hose sets are a perfect way to complete your power steering conversion. These hose sets are designed to work with those running our power steering gearboxes that have inverted flare fittings.

## 1967-79 Quick Ratio Power Steering Gearbox

Quick ratio power steering boxes are all-new. They fit 1967-79 Firebird with a quick 12.7:1 ratio and a firm modern steering feel, plus they will bolt directly to the stock location and fit to the original power steering pitman arms. Power steering boxes include adapters, so you can use either o-ring or flare style hose connections.

Note: All pre-1977 vehicles will require a new rag joint flange. Please use part #7181868.

800130 1967-79 12.7:1 ratio..... 467.99 ea

## 1967-79 500 Series™ Steering Gearbox

The 500 Series power steering conversion gearbox for 1967-79 Firebird models is a key part of a modern, high-performance power steering system. These 14:1 ratio units provide superior control and feedback, thanks to low friction recirculating ball gears. Open centered rotary valve provides smooth operation while retaining excellent road feel and steering response. Works with the factory power steering pitman arm and 3/4"-30 rag joint and is a great upgrade for manual and power steering models, including those with the larger 605 power steering gearbox.

Important: \*For 1979 models must use fittings #GB50091 with inverted flare to metric o-ring hoses.

### Set Includes:

- Adapter bracket (adapts rack to chassis through A-arm bolts)
- Tie rod ends (Self-cleaning and lubricating, Teflon lined, adjustable)
- U-joint assembly
- Power steering hoses (not included with manual rack)
- Misc. fasteners (Grade 8)

## 1967-69 Rack and Pinion Set

Steeroids® rack and pinion sets were designed to make your 1967-69 Firebird steer like a new car! This set features uniquely designed adjustable tie rod ends specifically engineered to eliminate bump steer even on lowered vehicles. The system gives you greater control while driving on rough surfaces and provides a tighter and more precise feel. These bolt-on rack and pinion conversion sets do not require cutting or drilling into your frame, crossmember or its supports. Steeroids® power steering sets allow you to retain your stock power steering pump. Available in power or manual sets. Instructions included.

**Important:** If using your old pump, flush and clean it thoroughly before installing the set.

**Note:** Shipped oversized.

## 1967-81 Del-A-Lum Bushings & Offset Shaft

These bushings feature inner and outer thrust washers, inner rotating sleeve, and lube fittings. Offset shafts can take the place of stock shafts. They will allow caster to be added without losing proper camber settings.

Important: \*Most 1967-69 upper control arms shafts hold the control arm bushing in place with a 3/8" bolt. This must be replaced with a 5/8" stud and slotted Hex nut to allow for correct pinning the assembly to maintain proper torque on the Del-A-Lum bushing. If you have standard shafts with 3/8" bolts, you have two options:

- Option 1 (Recommended):** Order set #GW702, manufactured with studs and featuring a slight offset allowing more latitude for proper alignment.
- Option 2 (Welding required):** Order set #GW707, featuring a stud in each end of the 4 stock shaft. Extends the length of the upper shaft to allow the correct torque for Del-A-Lum bushings to be set.

## 1967-69 Tubular Control Arms

Enhance the handling performance of your 1967-69 Firebird with tubular control arms. These arms are not only stronger and lighter weight than factory arms, they also feature improved suspension geometry for enhanced handling performance. Sold in pairs.

### Upper Control Arms

153630 1967-69 LH and RH ..... 229.99 set

### Lower Control Arms

153631 1967-69 LH and RH ..... 252.99 set

## 1967-69 gStreet Control Arm Set

An excellent option when upgrading the OEM style coil spring suspension, Chassisworks replacement tubular control arms feature deflection free polymer bushings and billet steel pivot shafts with upper arm caster inserts. Standard caster insert orientation duplicates stock geometry. Increased caster orientation improves steering feedback with added camber for greater front end cornering traction, perfect for street performance.

Note: Shipped overweight.

### Upper and Lower Control Arm Set

K5734610 1967-69 LH and RH ..... 1596.99 set

## 1967-69 Totally Tubular Control Arms

The lower arms feature helical stamped mounts welded around the entire perimeter to 1-1/2" .120" wall DOM (Drawn Over Mandrel) tubing to positively secure the coil springs. The upper control arms are pre-assembled on billet chromoly cross shafts and pivot sleeves. The pivot barrels are made from rugged 1-1/2" .188" wall DOM tubing. Ball joints are included. Available in black powder coating.

Note: Shipped overweight.

### Upper and Lower Control Arm Set

## 1967-81 Adjustable Upper Control Arms

These front upper adjustable control arms designed for 1967-81 Firebird models will give you the most adjustability and best clearance of any arm on the market. These adjustable arms include ball joints that are 1/2" taller than stock to improve camber curve. Throw in some caster and the ability to tune camber and you will have a 'modern' feeling suspension. The ball joints are greaseable and rebuildable. Allows up to Camber ±3.0 degrees, Caster ±3.00 degrees.

SP97130 1970-81 LH and RH ..... 895.99 pr

## 1970-81 Adjustable Upper Control Arms

Adjustable upper control arm for 1970-81 Firebird models. This rugged control arm offers a wide range of adjustments to meet your exact needs. These arms provide quick and easy compensation for standard or lowered ride heights. Fine tune your handling and alignment while minimizing tire wear. Perfect for Pro-Tuning builds, as well as track or street use. Sold as individual arms. Includes a flat midsize plate, adjustable sleeves, and OE style (minimal deflection) pivots.

Note: 1970-81 use extended ball joint SP94017 or stock ball joint 10268.

SP94340 1970-81 LH or RH ..... 279.99 ea

## 1967-81 Lower Control Arms

These tubular lower control arms are a perfect fit for your 1st or 2nd Generation Firebird. On 1967-69 Firebird models, these arms lower the front end by 1" and add 1 degree positive caster for an aggressive, 'Ready-to-Run' stance. On 1970-81 Firebird models, they add 2.5 degree positive caster and may be configured for stock or lowered height. Ride height spacer plates (coilover mounts) are available separately. ## USA 1967-81 Tubular Control Arms

These bolt-on tubular upper and lower arms are state-of-the-art in both design and fabrication. The upper arms are 1-1/4" in diameter and include offset cross shafts for ease of caster adjustment for better straight line tracking and cornering feel. The lowers are a full 1-1/2" in diameter and are available for stock springs or in a version for coilover shocks. All arms are black powder coated, completely assembled, and supplied with factory ball joints. Urethane bushings prevent deflection for absolutely solid handling.

Note: \*For use with coilover shocks.

## USA 1967-81 gStreet Control Arms

The gStreet lower control arms feature a true coilover style eye mount. To keep installation simple and maximize compatibility, control arms utilize the factory chassis mounts and bolts directly to stock or aftermarket spindles. These arms require the use of VariShock coilover shocks or ShockWave air suspension, and feature a gray hammered powder coated finish, a pivot ball lower mount and ball stud upper mount that bolts directly to the factory mounting location. The exclusive greaseable ball stud mount provides more positive control of the suspension while still allowing free pivoting movement.

Important: These arms require the use of VariShock coilovers or ShockWave air suspension.

## USA 1982-92 Spherical Caster/Camber Plates

These heavy-duty caster and camber plates allow you to make alignment changes that are not permitted with the factory strut mounts. Strut mounts are fully TIG welded using 1/4" steel and feature a chromoly Teflon lined spherical bearing for noise free driving. Strut mounts feature additional adjustment on the mounting plate and the bearing housing allowing the user to make changes for the track and the strut. Mounts are built with increased height to provide additional travel for lowered vehicles. Includes new strut retainers and hardware. No drilling or welding required. Available in red or black powder coating. Made in USA.

Note: Please add color code to part number when ordering: A - a red finish, B - black finish.

# Performance Control Arms

**1993-02 Upper A-Arms**

Enhance your handling performance with BMR A-Arms. Decrease overall weight and more importantly "unsprung" weight with a set of BMR tubular front A-Arms. BMR A-Arms feature DOM (Drawn Over Mandrel) construction, laser cut mounting plates and CNC milled ball joint cups and 3 degree improved ball joint angle for lowered vehicles. These A-Arms are equally at home on the street or at the track, drag racing or autocross. Upper and lower A-Arms are compatible with all stock components and come equipped with sway bar mounts. Compatible with all stock components. Adjustable version includes QA1 rod ends.

*Note: Please add color code to part number when ordering: A = red finish, B = hammerstone gray finish.*

**1993-02 Upper A-Arms**

UMI's fabricated tubular A-Arms provide a rock solid foundation for your 4th Gen's front suspension. A-Arms are built to offer increased rigidity, smooth travel and a precise steering feel equaling a great street oriented A-Arm with race tendencies. The DOM (Drawn Over Mandrel) 1-1/4" diameter tubular sections are precision bent, CNC notched and welded in a jig to form the solid base. The thick CNC laser cut ball joint pad features improved ball joint angle for lowered cars and come assembled with premium ball joints. Greasable polyurethane bushings make for a quiet and comfortable ride.

*Note: Please add color code to part number when ordering: A = red finish, B = black finish.*

**1982-92 Tubular K-Member and A-Arm Package, Factory Springs**

This direct bolt-in replacement K-member and lower A-arm set instantly removes 25 lbs from the front of your 1982-92 Firebird, while having the strength to endure everyday driving. Factory clamsHELL and engine mounts bolt to the precision machined mounting pads while both factory and aftermarket suspension is located by strong boxed mounting points. The tubular construction provides added clearance for aftermarket exhaust. The lower A-Arms feature TIG welded tubular construction, adjustable steering stops and polyurethane bushings. Street and track testing has shown this K-member and A-arm set to be strong, reliable and a great upgrade for your high-performance ride. Features include: main center tube constructed from 1.500 in. x 0.120 in. seamless steel tubing, additional cross braces use 1.250 in. x 0.120 in. seamless steel tubing, front and rear A-arm mounts CNC-machined and fabricated from 0.188 in. thick steel, rear A-arm mounts gusseted to withstand extreme side loads and pressure. Available in red or black powder coated finish. Made in USA.

*Note: Please specify when ordering: A = red finish, B = black finish. Shipped over size.*

## 1967-81 Front Sway Bar Set

Looking for better cornering and reduced body roll? BMR sway bars are the answer. Made with cold formed steel to resist torsional fatigue better than conventional bars. Features solid core construction. Includes: mounting hardware, end links, and polyurethane bushings.

**Note:** Please add color code to part number when ordering: A = red finish, B = hammerstone gray finish.

## 1967-02 Sway Bar Set

Hellwig high-performance sway bars for 1967-02 Firebird models. Manufactured using high-quality 4140 chromoly steel, each sway bar was developed for its specific application. Easy bolt-on installation with basic hand tools (some sets may require drilling). Each sway bar set includes proper urethane bushings and mounting hardware.

**Note:** Shipped oversized.

# Suspension Sets

## 1967-81 TVS Stage 1

These exciting TVS (Total Vehicle System) sets contain engineered and tuned components that work together as a complete suspension system to maximize your vehicle's handling. Avoid the poor ride quality and disappointing handling that often results from mixing parts from multiple manufacturers. These packages have passed rigorous in-house testing procedures.

*Note: Shipped truck freight.*

## 1967-81 TVS Stage 2

The Stage II Total Vehicle System offers race proven handling and control with comfortable ride, all in one package. Subframe connectors and a rear sway bar cross member stiffen the chassis (convertible sets include the Chassis Max Brace), while massive sway bars reduce body roll. In front, tubular control arms increase caster and improve camber to create more front end grip. Heavy-duty tie rod sleeves, sport springs and performance shocks lower the vehicle to improve balance. In the rear, a multi-leaf drop spring design improves traction and reduces wheel hop. Includes heavy-duty shackles, U-bolts, pads, and hardware. Made in USA.

## 1967-69 Convertible Strengthening System

The Chassis Max System for 1967-69 Firebird convertibles. It connects the subframe to the leaf spring pickup points, making your Firebird rock solid, and the system's multi-piece design contours around the undercarriage allowing up to a 3 inch diameter dual exhaust to fit cleanly while preserving ground clearance. All three components in the Chassis Max System are CAD designed and precision CNC-machined in the USA. A durable gloss black powder coated finish means the parts won't chip or crack, and all necessary polyurethane subframe mount bushings and hardware are included.

*Note: Shipped double oversize.*

------------------------------	-----------

## 1967-81 Subframe Connectors

Stiffen your vehicle's frame with Detroit Speed and Engineering's laser cut 2" x 3" x 1/2" wall subframe connectors. Once installed, these connectors are barely visible from underneath the vehicle. The connector is tapered to attach to the rear frame rails with a laser cut slot that conforms to the rear seat floor pan without interfering with seat attachment hardware or the rear leaf spring pocket. Includes: laser cut brackets, templates, pictures, and detailed instructions. 1970-81 sets also include installation DVD.

## 1967-69 Solid Body Mount Set

These solid body mounts offer a simple solution for eliminating the chassis flex that occurs between the body and subframe connection, this will improve vehicle handling response by increasing chassis rigidity. These mounts should be used when installing subframe connectors to maximize torsional rigidity. Body mounts are CNC-machined from billet aluminum and then hard coated, not anodized. Unlike regular anodizing, the hard coating process resists corrosion that can occur between steel and aluminum surfaces. These sets include 2 core support mounts with stainless steel bevel washers and 4 body mounts with stainless steel bevel washers. A polished stainless steel flanged body bolt set is available separately.

## 1967-69 Aluminum Body Bushings

Stiffer body mount bushings will dramatically reduce body flex and are recommended when installing subframe connectors. Bushings are available in aluminum (not recommended for street applications).

K6816 1967-69 aluminum..... 138.99 set

## Super Grease

This silicone based grease will reduce squeaking and keep your polyurethane bushings quiet. This waterproof, high temperature, high pressure formula is ideal for use in grease guns.

H3101 14 oz. tube ..... 45.99 ea

## Formula Five Prelube

Energy Suspension Formula Five Prelube is a versatile, waterproof, non-melting grease containing PTFE. This forms a tough, durable, chemical resistant film of lubricant and also prevents metal to metal contact even under severe shock loads. Only small amounts are required to properly lubricate bushings and metal components and to prevent corrosion. Use this when assembling your polyurethane bushings to your suspension.

**Important:** Only small amounts of this prelude are needed when assembling components.

## 1967-69 OEM Style Subframe

Why waste money trying to repair a damaged subframe that may be compromised internally when you can replace it with one of these faithful, high-quality reproductions. Featuring factory style welds for an original appearance and extra bracing to the lower crossmembers for added strength when jacking up the vehicle. Designed for an authentic appearance, the added reinforcement is completely invisible. Features all correct holes and brackets, as original. With this much attention to detail, these subframes are virtually indistinguishable from the originals. Available without a transmission crossmember or with a TH400 transmission crossmember installed. Black EDP coated for rust prevention.

Note: Shipped truck freight.

## 1967-81 Hydroformed Subframe

Detroit Speed and Engineering's all new front subframe is a bolt-in replacement for the Detroit Speed and Engineering's front subframe. Handling and ride quality are improved by DSE's unique suspension geometry, while the hydroformed frame rails offer strength and rigidity. Main and secondary crossmembers are stamped for structural rigidity. This subframe has been designed to accept Pontiac, small block, big block, LS1, LS2, or LS7 engines as a direct bolt-in. Up to 10" wide wheels can be installed without modification to the inner wheel wells. C6 spindles and hubs require the use of a stock or aftermarket C6 Corvette brake package sold separately.

**Important:** The subframe and parts are sold in bare metal, uncoated and not assembled. If the powder coated option is purchased, assembly is included. Subframe is satin black; upper and lower control arms, and sway bar arms are glass black. 1967-69 models can use stock frame and engine mounts for small block and big block applications. Engine mounts for Pontiac and LS engine applications are available separately. Transmission crossmember on 1978-81 models must be modified because of the 1" setback of the engine.

Note: Special order, must be prepaid.

Shipped truck freight.

## 1967-81 Engine Mount Set

These engine mount sets are for the 1967-81 DSE subframe. The LS engine mount bracket set enables easy, no hassle installation of LS engine into the DSE hydroformed subframe. These mounts locate the engine in the proper location, provides the correct method of adapting the 3 bolt engine mounts to the 4 bolt LS engine, and requires no fabrication. The DSE SB/BB/LS mounts include the following: frame side engine mount stands, CNC aluminum adapter plates, polyurethane engine mounts and hardware. For 1967-69 subframes use the stock Pontiac frame and motor mounts and for the 1970-81 subframes use DSE Pontiac mounts that include brackets only.

**Important:** The 1970-81 engine mount set moves the engine 1" rearward of the stock location and lower for better hood clearance. The rearward location is required to maintain optimal steering geometry. This improves weight distribution, but also affects shafter location, driveshaft length and leader tintment.

# ridetech® Suspension Systems

## 1967-69 Tri-Turn Steering System

This Tri-Turn system resolves several issues with early Firebird front suspension geometry. With this set, bumpsteer is virtually eliminated, steering arm interference is corrected to allow wider tires, and the wheels lean into turns, rather than away. If your front suspension already uses RideTech drop spindles, the Tri-Turn upgrade set includes the remaining components to correct the issues of the factory design. Made in USA.

**Important:** 10" wide tires may require modification of the inner wheelhouse and outer fender lip. Not for use with OEM or other aftermarket spindles.

## 1967-81 Coilover Shocks

RideTech offers 2 different series of coilover shocks for StrongArm and bolt-on 4-Link systems. Single adjustable shocks feature an adjustment knob to dial in the rebound force of the shock. Triple adjustable shocks remote reservoir shocks allow rebound adjustment and a dual stage (high speed and low speed) compression adjustment, providing the ultimate solution for adjusting between daily driving and trips to the track. All coilovers are rebuildable and include springs.

## 1967-69 MUSCLEBar Sway Bar

RideTech MuscleBars are designed to greatly enhance the cornering performance of 1967-69 Firebird models. These sway bars are developed on a running, driving vehicle to properly address fitment and performance issues. Includes increased diameter sway bar, polyurethane bushings, and high-performance end links all add up to a sway bar package that works correctly with lowered vehicles and aggressive driving.

**Rear Sway Bar - 4-Link Only**

11169102 1967-69 3/4" bar.....	524.99 set
--------------------------------	------------

## 1967-69 4-Link Suspension

Experience crisp, controlled ride quality and confident performance driving with this 4-Link suspension from RideTech! This system attaches directly to your vehicle's OEM leaf spring mounts with no cutting or fabrication, just 4 small tabs to weld to the axle for your upper bars. The ride height of will be lowered approximately 2" and the ride quality and performance is dramatically improved. Use with ShockWave or RideTech coilover shocks (sold separately).

**Note:** 4 small tabs must be welded. Professional installation recommended. Shocks not included. Shipped overseas.

11167199 1967-69.....	1624.99 set

- RideTech Tall Spindles
  - Front MuscleBar
  - Upper StrongArms
  - 4-Link
  - Lower StrongArms
  - Rear Suspension
  - HQ Series Coilovers

## 1967-69 Coilover System

This coilover package includes everything you need to completely upgrade your suspension. The package contains front upper and lower control arms, tall spindles, front MuscleBar, a rear 4-Link, and 4 single adjustable coilovers for every corner of your vehicle. Buying a complete suspension system takes all of the guesswork out when upgrading your suspension. This is a tested system used to assure the improved handling of your Firebird.

**Note:** Shipped double overseas.

11162021 1967-69.....	5474.99 set
-----------------------	-------------

## 1967-81 StreetGrip System

- Features:**
- Composite leaf springs save 70 lbs of weight!
  - Tall ball joints improve OEM camber curve for a more stable feel through the corners.
  - Larger front sway bar minimizes body roll.
  - Delrin sway bar bushings eliminate movement and static friction in the sway bar to improve ride quality and handling performance.
  - RideTech HQ rebound adjustable shocks offer the ultimate in ride quality and handling.
  - Staggered rear shocks eliminate wheel hop; upper mounts are reinforced for extra strength.

## 1967-81 StreetGrip System

Includes dual rate coil springs, composite rear leaf springs, Delrin leaf spring bushings with shackles, Delrin front control arm bushings, front MuscleBar and HQ Series shocks.

**Note:** Shipped overseas.

H&R

## 1993-02 Sport Springs

H&R Sport Springs enhance the look of your vehicle with a reduced fender well gap. Sport Springs provide a lower center of gravity and reduce body roll for better handling. The progressive spring rate design provides superb ride quality and comfort. A lower wind resistance signature will make the vehicle more streamlined and improve gas mileage. If you are only looking to improve one part of your vehicle's suspension, you cannot go wrong with installing sport springs. Lowers the vehicle approximately 1-1/4".

Note: Does not fit convertibles.

CS5665

## 1982-92 Rear Coil Springs

Replacement rear coil springs for 1982-02 Firebird models. Hef-T-Coil springs are an ideal upgrade for vehicles that carry heavy loads. These variable rate springs change resistance as they compress and become progressively stiffer as the load increases. Hef-T-Coil springs automatically adjust to changing load conditions to maintain proper chassis height and smooth ride characteristics.

Note: The SMS635V is a variable rate coil spring and can be used on all 1982-91 models as an optional heavy-duty replacement. Excludes Trans Am, Formula and SE.

**1970-81 Stocker Star Shock**

QA1 offers Stocker Star Shocks in your choice of fixed, single adjustable and double adjustable configuration. The fixed, non-adjustable version is a rebuildable and replaceable shock for the budget conscious owner. The single adjustable shock lets you simultaneously change the compression and rebound with one knob, choosing 18 valving options. The double adjustable shock offers two knobs to adjust compression and rebound separately, resulting in 324 valving options to fine tune your ride for any type of driving. All shocks have polyurethane bushings and are sold individually. Two required per vehicle.

Note: Some disassembly or modification may be necessary to mount these shocks.

# Performance Shocks

## 1967-92 Drag Shock

Lakewood drag shocks feature state-of-the-art 10 stage valve design which provides excellent starting line reaction and stable high speed operation, superior to any other shock on the market today. These shocks include polyurethane bushings. The chrome-plated piston rod will resist corrosion and limit premature seal wear. Lakewood shocks are assembled using only high-quality components including specially formulated anti-foaming hydraulic fluid for precise and consistent drag strip operation regardless of temperature. All Lakewood drag shocks will mount in the stock location without modification.

**Note:** 90/10 series shocks are not designed for street use.

### Front Shocks

#### 90/10 Series - Race Only

Will let the front end rise quickly to provide as much weight transfer as possible to the rear wheels on initial launch.

LW40100	1967-69	LH or RH	76.99 ea
LW40101	1970-81	LH or RH	75.99 ea
LW40510	1982-92	LH or RH	177.99 ea

#### 70/30 Series - Street and Strip

Used for overall improved handling on the strip or when quick front end lift is not needed.

LW40120	1967-69	LH or RH	83.99 ea
LW40121	1970-81	LH or RH	75.99 ea
LW40500	1982-92	LH or RH	179.99 ea

### Rear Shocks

#### 50/50 Series - Street and Strip

Used to properly load the rear wheels and prevent over reaction and wheel hop. Use with leaf or coil springs.

LW40301	1967-69	LH or RH	85.99 ea

### CALVERT RACING Products

## CF Series Front 90/10 Shocks

Calvert Racing Suspensions offers a shock specifically designed for maximum weight transfer. Built with the softest rate on rebound on the market today, allowing the front end of your race car to come up as easy as possible! Dual stage valving on compression allows the car to settle on the top end. Due to a slightly larger diameter shock body, some slight trimming or clearance may be required on the lower control arm. Sold in pairs.

**Note:** Needs slight grinding to fit per vendor. Not for street use.

CF43093	1967-81	LH and RH	147.99 pr

### CALVERT RACING Products

**1967-01 Nine Way Adjustable - Rear Shocks**

The Calvert Racing 9 way adjustable twin tube CR series rear shocks provide the best all around performance and maximum consistency you need. Features heavy-duty industrial steel body design for durability. Shocks can be set for street driving or with a few turns of the "adjustment dial" your vehicle can be ready for the strip. Sold in pairs.

**1967-02 HQ Series Mono-Tube Shocks**

Nothing influences how your car rides and handles more than shock absorbers. These smooth body aluminum Q-Series shock absorbers with their robust mono-tube design are a durable, direct replacement performance upgrade for nearly any Firebird build. Backed by a 1,000,001 mile RideTech warranty, HQ Series shocks offer 20 settings of rebound adjustment for drivers to tune ride quality and handling quality to their specific taste. Switch between cruising in comfort or stiffen your suspension for spirited driving. Sold individually. 2 required per vehicle. Made in USA.

### 12 Page Installation and Tuning Guide included.

- SensiSet (SS) - Factory valved for street performance, autocross use.
- QuickSet 1 (QS1) - Single adjustable, 16 position knob adjusts bumps and rebound simultaneously.
- QuickSet 2 (QS2) - Double adjustable, dual 16 position knobs adjust bump and rebound.

## 1967-02 Bolt-In Shocks

VariShock™ Bolt-ins bring a more usable adjustment range and response curve, improved heat dissipation, and lightweight billet aluminum construction to production vehicles using factory mounting locations. VariShock offers the ultimate direct replacement shock absorbers for your Firebird. Precision and adjustability at an affordable price. Defective disc valving reduces spring fatigue and the short housings allow more clearance and greater travel within the shock. The non-adjustable shocks have factory preset valving for street performance applications. Single adjustable offers 16 positions and uses a knob to adjust bump and rebound simultaneously. Double adjustable sets offer 256 positions, using use two knobs to adjust bump and rebound independently. Made in USA.

# Performance Shocks/Coilover Shocks

## 1987-81 Street Performance Shock

These 1.5 Street Performance shocks are the latest in mono-tube shock technology, tuned by Hotchkis for a smooth ride and exceptional control. Features a lightweight aluminum body with 1/2" hard chrome-plated heat treated alloy shafts. Specially formulated oil and high pressure nitrogen provide consistent performance in temperatures and conditions.

## 1982-02 AGX Gas Shock and Strut

KYB's AGX adjustable gas shocks and struts allow drivers to adjust damping in seconds to match specific driving conditions for street, strip, track, or cruising. Damping is selected with an external knob on the shock body or a screwdriver slot at the top of the strut piston rod. Micro-smooth, hard chrome plated rods for reliability. Seamless cylinders and eye rings eliminate weak points created by welded seams. Multi-lip seals and self-sealing packing are used to keep the oil in and contaminants out. A patented check valve minimizes foaming of oil and gas inside the shock.

## 1993-02 Gas Shock and Spring Set

These sets use Bilstein's superior mono-tube gas shocks for greater sensitivity and precise control. The patented digressive piston head design and defective valving instantly reacts to changing road conditions. This set consists of 4 coil springs with a performance directed spring rate and Bilstein's patented mono-tube gas pressure shock absorbers, providing a lower tone, a firmer ride, and better road handling and control.

## 1970-81 Extended Coilover Mount

1970-81 Firebird models extended coilover mount is used to mount a true racing coilover. This weld-in upper coilover mount set locates a 2-1/2" racing coilover in the proper location for use with adjustable lower arm or most aftermarket coilover compatible arms. The set features strong 3/16" laser cut construction, quick-align mounting bolt, a 5-1/2" reinforcement ring and templates for trimming the frame. UMI is proud to offer UMI Afo and Viking specific shocks and springs as a direct bolt-in. Cutting and welding is required and installation by an experienced fabricator is recommended.

- True Bolt-in with No Cutting into the Floor Required
- All Heli-arc Welded for the Highest Quality and Strength
- Driveshaft Loop Provides Adequate Safety
- Lowered Stance and Center of Gravity

## 1967-69 Torque Arm Rear Suspension

TCl Engineering's 1967-69 Firebird torque arm assembly is engineered for Street, Autocross, and Road Course applications. The torque arm rear suspension was designed to eliminate the suspension bind that occurs when cornering using the stock conventional leaf spring suspension. The torque arm features a telescoping slider at the front of the arm that rotates as the vehicle goes through suspension travel and articulation. This allows the vehicles handling to be controlled by the coilover shocks and the rear sway bar with no suspension binding variables. The set allows for a lowered stance, greater rear axle control and dramatically improved handling. There are 3 height adjustments on the axle brackets in one inch increments. You also have the ability to fine tune the ride height further with the required coilovers.

*Note: Welding is required for mounting tabs and brackets to the axle housing. Set is for any axle with 3" axle tubes. Set does not include axle assembly, third member or brakes. Shipped double oversize.*

## 1967-81 QUADralink Rear Suspension

Upgrade your original rear suspension to DSE's exclusive 4-Link Geometry! The "Swivel-Link" allows the suspension to articulate with smooth, solid motion and no binding thanks to high durometer rubber bushings. The long upper links provide great pinion and U-joint angle control. Lower links are offset inboard for tire clearance and improved anti-squat geometry. The panhard rod laterally locates the rear axle under cornering and is adjustable as ride height changes for roll center control. The upper shock crossmember strengthens the rear body and frame section. Coilover shocks allow spring rate tuning and ride height adjustment. Designed to work with DSE deep tubs or stock tubs.

**Important:** Axle brackets require a 3" axle tube.  
**Note:** Special order. Shipped overweight.

## 1967-69 PRO-G Bolt-In

### Independent Rear Suspension Set

Do you really want to go fast and out-handle everyone else on the autocross or road race course in your first generation Firebird? Full independent rear suspension is the only way to go. Heids now has a high-horsepower independent rear suspension bolt-in package that will do the job just fine. It is a true high-horsepower package, with upper links and heavy-duty CV joints. The upper link produces a .5 deg of camber curve at 3/4 of total travel, especially during very high cornering loads. Forward struts, attached to the sub-frame connectors instead of the wheels stay in place during hard acceleration. Track width: 58-1/2".

Note: Special order Specify 3.00, 3.25, 3.50, 3.70, 3.90, or 4.11 final drive gears. Specify of black, red, or polished calipers. Shipped truck freight.

## 1967-81 Mini-Tub Set

Get that lowered "Pro-Touring" look while running as much tire as you need with this Mini-tub package! This set provides clearance for tires up to 335mm cross section and wheels up to 13" wide. Multi-leaf, 175 lb/in spring rate are offered in either a 2" or 3" drop configuration. The tapered leaf design and anti-friction buttons offer a smooth ride. The spring is biased to allow the front section to control spring wrap under load. The 1-3/4" offset, billet aluminum shackles are constructed with heavy-duty side bars that will eliminate unwanted flex.

Important: Requires extensive modification and welding. Rear frame rails must be notched and boxed. Requires a narrower than stock gas tank and 3" axle tube.

Note: Shipped double oversize.

## 1967-81 4-Link Coilover Rear Suspension

Designed specifically for 1st or 2nd generation Firebird models, this suspension bolts directly in place without floor modifications. Bolt-on maximum performance for your 1967-81 Firebird. Heide's 4-link kit is built to work with mini tub kits for high horsepower cars, stock applications and autocross applications. Chassis and axle brackets are included, along with the full upper coilover crossmember, panhard bar and black shocks with black coilover springs and adjustable 4-Link mounts. The 4-Link system can be outfitted with one of 3 shock setups, a 9" axle housing with a 60-1/2" track width, and 31 spline axles with 5 x 4-3/4" bolt circle.

**Important:** Maximum ride height may be several inches lower than the factory stock ride height. Welding is required to attach brackets to the axle housing when using an owner supplied housing. Kits with axle housings are shipped overseas.

## 1967-69 Superdrie Independent Rear Suspension

Finish your street rod with Heide's SUPERDRIE IRS, a complete hub to hub unit and offers the ride, handling, and suspension geometry compatible with most independent rear suspensions. This high-performance suspension features aluminum center section, iron 9" Ford third member with a standard 60" track width (custom widths available), and wheel hubs with a 5 x 4-3/4" bolt circle. Includes: all chassis brackets, coilover shocks and chrome springs, control arms and struts, rotors with calipers and brackets, and optional parking brake.

**Important:** NOT INTENDED FOR DRAG RACING. Special order. Specify 3.00, 3.25, 3.50, 3.70, 3.90 or 4.11 final drive gears. Heide's subframe connectors required for installation, sold separately.

Note: Shipped track freight.

### Standard Open IRS Systems

Open differential includes 2" half shafts. Posi differential includes 3" heavy-duty half shafts.

# Rear Suspensions

## 1967-81 Rear Leaf Springs

These reproduction rear leaf springs are designed as a direct replacement of the originals. Mono-leaf springs were originally installed on all 1967 Firebird models. 1968-81 Firebird models used either 4 or 5 leaf springs. The 4 leaf springs were offered as a performance spring and standard equipment on 400 models. The 5 leaf springs were offered as a heavy duty option originally installed on most 1968-81 standard applications and lower performance models. Front eye bushings are installed in all leaf springs. May differ cosmetically from your original springs. Sold as a pair.

**Important:** Springs may increase ride height an average of 2" higher than the old worn out sagging springs. Shipped double oversize.

### Mono Leaf Springs - Coupe

## 1967-81 Split Mono-Leaf Spring

These revolutionary split mono-leaf springs from Calvert Racing are substantially lighter than your stock springs and designed to work with the Cal Trac traction bar system. A 12" overlap at the high stress area of the spring, emulating a parabolic type spring. Aluminum bushings in the front eyes and Polyurethane in the rear eyes remove slop and control spring motion. Used by the last 5 World Champions in Stock Eliminator, Calvert split mono leaf springs are available in stock ride height, 1" drop or 1" raised. Sold as a pair.

**Important:** Some fabrication will be necessary for installation.  
**Note:** Shipped double oversize.

## 1967-89 Leaf Spring Liner Set

Full length plastic leaf spring liners promote smooth, friction free spring operation. Smooths and quicks ride, prolongs life of springs. Also features shouldered extrusion that ensures the liner will not creep out of place. Each set will complete one vehicle.

K654 1967-69 4 leaf..... 26.99 set

K655 1967-69 5 leaf..... 28.99 set

## 1967-81 Sport Leaf Springs

When you install these springs, you'll not only improve the looks of your classic, but the handling too! These sport springs will drop your 1967-81 Firebird lower than stock and, unlike mono-leaf springs, these multi-leaf springs provide a progressive spring rate for performance driving without the sacrifices of a harsh ride. The spring sets include: leaf springs, heavy-duty shackles, shackle bushings, Grade 8 hardware, U-bolts, spring pads, and eye bushings.

**Note:** Shipped triple oversize.

## 1968-69 Leaf Spring Conversion Hardware

Many Firebird models came equipped with mono-leaf springs, but changing over to a multi-leaf setup will allow better rear axle control under hard acceleration and improved handling through the corners. The comprehensive kit contains all components required to make the changeover. Includes: 4 T-bolts, 2 steel upper spring spacers, 4 axle pads, and 2 U-bolts.

Important: Use 3" U-bolts for existing multi-leaf application. May require a spacer between the upper spring pad and axle tube when using a non multi-leaf rear axle.

## 1967-81 Leaf Spring Offset Shackles

These billet aluminum offset shackles are designed to relocate the rear leaf springs inboard to accommodate larger rear tires. They relocate the rear leaf spring inboard to accommodate 335 tires (with a section of 13.5") on a F-Body. The shackle offset is 1-3/4". Use along with other Mini-tub components to complete your project. Set includes 4 offset shackles and Grade 8 fasteners. This shackle is designed for maximum suspension travel. Made in USA.

Note: The stock fuel tank will need to be narrowed or use DSE's narrowed stainless steel fuel tank when relocating the rear leaf springs.

## 1982-02 Control Arm Relocation Brackets

These brackets lower the rear trailing arm mounting point to correct the trailing arm angle for lowered vehicles. This lowers the instant center of the vehicle and reduces squat under hard acceleration. Accepts OEM and aftermarket lower trailing arms. Grade 8 hardware is included.

<b>Weld-On Brackets</b>			
E5275	1982-02	LH and RH	118.99 set

## 1982-02 Control Arm Relocation Brackets

Reposition your instant center by altering your control arm angle for increased traction. 3/16" laser cut, cold rolled steel construction. Lowers the control arms up to 3" and works with all makes of control arms.

*Note: \*Please add color code to part number when ordering: A = red finish, B = hummerstone gray finish.*

## 1982-02 Lower Control Arm Brackets

Optimize your vehicle's instant center and improve forward traction by lowering the rear of the lower control arm up to 3" and very important for lowered vehicles to correct lost geometry. These bolt-in brackets are CAD designed to accommodate factory lower control arms as well as all popular aftermarket styles. Relocation brackets are designed to work on both lowered and non-lowered vehicles and feature multiple settings to optimize vehicle handling and traction. Available in red or black powder coated. Made in USA.

*Note: \*Please add color code to part number when ordering: A = red finish, B = hummerstone gray finish.*

# Rear Suspension

UM201529 - on car adjustable detail

UM201520B

UM201529A

## 1982-02 Rear Suspension Package

This set replaces the weak, factory stamped lower control arms and panhard bar with a heavy-duty tubular setup. Minimize wheel hop, improve cornering while lowering ET's and helping track consistency. The panhard bar greatly increases rear stability, controls side movement and body flex while allowing easy on-car adjustments. The lower control arms help to reduce unwanted wheel hop and improve straight line traction. Control arms and panhard bar are constructed from mild steel tubing with CNC-machined ends and Polyurethane bushings. Available in non-adjustable or on-car adjustable. Choose between red or black powder coated. Made in USA.

Note: Please add color code to part number when ordering: A - red finish, B - black finish.

## 1982-02 Panhard Relocation Set

This set replaces and relocates the panhard rod allowing dual 3" exhaust routing over the axle. Tubular upper panhard rod support mounts in OE location. Mounts using existing holes and lower the panhard rod to maintain correct geometry. No welding or drilling required.

Note: Please add color code to part number when ordering: A - red finish, B - hammerstone gray finish.

## USA 1984-02 Torque Arm

These torque arms reduce wheel hop caused by excessive flex under hard acceleration and cornering. Fits 10 bolt equipped models with stock torque arm front locator lips facing away from the driveshaft. Strong tubular construction and a black powder coated finish offer durability. An adjustable version allows pinion angle adjustment without torque arm removal. Includes Grade 8 hardware.

Note: Shipped oversized.

# Rear Suspension

**1968-69 Rear Shock Tower Brace** 

Reduce unwanted shock tower flex and improve handling and steering response in your Firebird with a bolt-in rear shock tower brace. This precision brace is manufactured from high strength TIG welded steel and finished in gloss black powder coated. Enhances rear end stability and dampens rear vibrations. Includes all hardware and instructions. Made in USA.

H20102 1968-69 ..... 177.99 ea

**1967-69 Rear Sway Bar Mount Brace** 

The Hotchkis performance chassis max sway bar mount brace for 1967-69 Firebird is designed to add much needed rigidity to the chassis and sway bar mounting area. This upgrade to the current Hotchkis rear sway bar package is perfect for the serious track car but practical enough for the daily driver. Fabricated from 1" x 1.5" .120" wall rectangular steel, TIG welded connectors and powder coated gloss black. Made in USA.

H1415 1967-69 ..... 207.99 ea

**1967-81 Traction Bar System** 

Developed by Super Stock champion John Calvert, these traction bars are the answer to "hooking up" high horsepower with your leaf spring suspension vehicle. This simple bolt-on set requires no welding or alterations to the stock suspension. CalTracs redirect spring wrap-up force into the front pivot points, transferring weight to the rear of the car. Your car will launch harder with greatly improved 60 foot times, while maintaining correct pinion angle. Opposing threads on the transfer link make preload adjustments simple. Finished in black powder coated, CalTracs are approved by major sanctioning bodies like the NHRA, NMCA and the PSCA. Made in USA.

**Important:** Low profiles give an additional 1.5" of ground clearance with full preload adjustability.

**Note:** Shipped overize.

LW20475	yellow	.....	84.99 pr

**1982-02 Traction Bars** 

Lakewood traction action lift bars work with axle torque to lift and load the chassis. This forces the wheels downward "planting the tires", transferring power to the pavement and eliminating wheel hop for improved traction and straight line launch. These lift bars are engineered for easy bolt-on installation with no welding required. They also feature an adjustable load control strut to allow right of left side suspension pre-load for fine tuning the chassis under various track conditions. Manufactured from heavy gauge square steel tubing to prevent flex or bending and featuring an attractive and durable black powder coated finish to resist corrosion. Includes Polyurethane bushings for positive suspension control and stability, and grease fittings for easy lubrication. Made in USA.

**Note:** Shipped overize.

<b>Traction Bars</b>				
LW21700	1982-02		.....	469.99 pr

**1982-02 TracLinks** 

TracLinks bolt to the rear axle and control torque, transfer this energy to the tires to increase straight line traction and side bite for corner exit acceleration. They will also reduce brake dive and help eliminate wheel hop. Features an attachment point for a driveshaft safety loop and provides for pinion angle adjustment. Made in USA.

**1967-69 Coupe Roll Cage** 

This exclusive roll cage design beautifully follows the interior lines of the vehicle. This 4 point roll cage fits coupe models only and does not interfere with the interior comfort. It packages close to the headliner and back window glass. The set is pre-notched to save you time and includes pre-bent rocker panel floor plates, pre-bent trunk floor plates for Mini-Sub and stock trunk pan. Features a removable crossbar to access the back seat with CNC-machined stainless steel clevis and stainless steel quick release pins. Removable cross bar is 1-5/8" x 120" mild steel tubing. Does not meet NHRA/JHR requirements due to the removable cross bar. The roll cage is 1-5/8" x 134" mild steel tubing. Welding required.

**Note:** Shipped freight.

## Roto Joint Spanner Wrench

These spanner wrenches are used for adjusting and disassembling of roto joints used in all UMI Performance control arms and panhard bars. This is CNC-machined for exact tolerance and zinc-plated for resistance against corrosion. Over time if the Delrin race inside the roto joint would wear, the spanner wrench is used to tighten the adjusting ring applying more pressure to the Delrin inside. The spanner wrench is also used to disassemble the roto joint for cleaning, inspection, and rebuilding. Made in USA.

# Rear Axle Components

Features heavy-duty 1/2" bearing cap Allen bolts and new housing ends welded to heavy wall tubing.

## 1967-81 Complete 12 Bolt Axle Assembly

These extremely durable cast nodular iron 12 bolt housings from Moser Engineering are direct replacements for GM leaf spring applications featuring giant caps secured by 1/2" Allen bolts and include perches. Choose from pressed on ball bearings, or OE style C-clips. The complete package includes a 12 bolt housing, a post unit, Pro Street gears, 1310 or 1350 series pinion yoke, chrome or performance differential cover, custom alloy axles with ball bearings, studs, and retainers plates, or C-clip axles. Posi equipped pressed bearing axle is available with 30 spline axles can be upgraded to 33 spline axles. Brakes sold separately.

Note: Special order only. Shipped truck freight. Mandatory shipping charges apply.

## Moser Compatible Wilwood Disc Brakes

Classic Industries® has worked with Wilwood to design brake sets to work with the Moser 12 bolt axle assemblies that are sold through Classic Industries®. These will be setup with the correct offset and center register (the diameter of the center flange of the axle where the rotor is installed). Sets include: either Forged DYNALITE brakes (black or red calipers) and 12" rotors (standard or drilled and slotted); or Superlite 4R Big Brake 13" rotors (standard or drilled) and (black or red calipers); and have parking brakes. Offset is 2.81" except for 1409315-D-DR which has a 2.75" offset; and all have 2.78" center register.

Important: 1409215-D-DR are not designed for use with staggered shocks, factory shock mount must be moved inboard to clear caliper.

Note: Special order. Shipped overweight.

## 9" Housing and Axle Set

Currie 9" housing and axle package for 1967-92 Firebird models are built to match the vehicle's stock axle width, pinion offset, suspension mounting locations and wheel bolt pattern for a straightforward hassle-free installation. American-made housings feature 3" diameter axle tubes and CNC-machined face flange, for a flat leak-free seal. Sets include: Currie 9" housing, billet housing ends, Currie performance 31 spline 1.541 alloy axles with 5x4-3/4" bolt pattern, tapered axle bearings, bearing retainers and spring perches when applicable. Made in USA.

**Important:** Housing and Axle Packages require a 9" third member assembly and compatible brake package to complete the rear end. Requires assembly of components prior to installation.

Note: Shipped double oversize.

### All 3rd Members Include:

- Nodular Iron "Sportsman" Gear Case w/3.062" Bore
- Nodular Iron Big Bearing Pinion Support
- Nodular Iron 1.330 Series Short Yoke
- New Ring and Pinion in These Ratios: 3.00, 3.50, 3.70, or 4.11
- Timken Bearings and Performance Oil Seals
- Professionally Setup, Ready-to-Install

## TwinTrac 9" 3rd Member

These are built and ready-to-install in your 9" rear end. The Currie TwinTrac is a helical gear style performance differential that maximizes wheel traction and enhances driving and handling characteristics. The TwinTrac operates as a standard or open differential under normal driving conditions, allowing one wheel to spin faster or slower as necessary. Operation of the TwinTrac is smooth, quiet and automatic. The unit will engage without any driver knowledge or action required. It also has no wearable parts and requires no maintenance, meaning less time in the garage and more on the road.

## 1967-00 Positive Locking Differential

These new positive locking differentials are a breakthrough in differential technology that prevents wheel "spin-up" and delivers extreme traction with smooth, silent efficiency, while providing full differential operation! The Lock Right system is a rugged, simple design that replaces the existing spider gears with a pair of Lock Right driver and coupler gears in your stock open differential assembly. Requires no special tools, calibration equipment or fixtures, or extra modification because the ring and pinion gears are unaffected. Designed for fail safe operation and manufactured from ultra resilient, heat tempered steel alloys for maximum toughness.

Note: Not for use with Positraction or Limited-Slip differentials, use in stock, open differentials only.

## 1967-02 Limited-Slip Differential

Auburn Gear's High-Performance Series limited-slip differentials deliver more traction and faster engagement than OEM units for controlled power transfer and fast reaction to changing load conditions and provide smooth torque sensing operation with bias ratios to meet your performance needs. This superior performance is achieved through an innovative cone clutch design which transfers more power to the high traction wheel for quick acceleration and tight cornering. Compatible with ABS and electronic controls.

**Important:** Check your axle before ordering to be sure which one you have. There are codes stamped on the axle housing for identification.

Note: \*C Lock axle. \*\*Accepts tone ring for ABS applications.

- Chrome Prop Valve and Mounting Bracket
- 8" Chrome Power Booster (optional)

## 1967-69 Front Disc Brake Conversion Set

Looking to convert your Firebird to disc brakes? These sets include rotor, master cylinder, proportion valve and brake booster. Your choice of a basic setup with plain rotors and rubber hoses, a performance setup with cross drilled and slotted rotors and black powder coated calipers. A dress-up set is also available as an upgrade to the performance set, adding a chrome master cylinder (and chrome booster on power brake systems).

Note: Shipped oversize.

## 1967-69 Big Brake Conversion Set

This big brake system uses twin 52mm piston calipers to grab massive cross drilled and gas slotted rotors to provide a 60% increase in stopping over the popular C5 caliper. Front sets are compatible with stock drum brake spindles and include 13" rotors, calipers, hoses, bearings, seals, mounting brackets, and hardware. Rear sets include 12" rotors, calipers, mounting brackets, hoses, wheel studs, hand lines, E-brake cables, and hardware. The 4 wheel set includes a 4 wheel disc manual/power master cylinder and proportioning valve. Calipers are available with black rust inhibitive coating or powder coated red.

Note: Requires 17" or larger disc brake wheels. Shipped overweight.

## 1967-69 Pre-Assembled Disc Brake Conversion Set

Now you can bolt-on brake performance with ease! Each set includes fully assembled front disc brakes, including the spindle, hub, rotor, brackets, calipers, and pads. In addition, for sets with brake master and booster, the 11" booster, master cylinder, proportioning valve, and bracketry and lines are fully assembled so you can simply bolt it to your firewall! 2" drop sets include 2" drop spindles. Plain rotor sets include rubber hoses and the cross drilled/slotted brake sets include stainless steel braided brake hoses.

**Important:** Moves wheels out 7/16" from drum brake offset.  
 Note: Shipped overweight.

## 1967-81 C5 Spindle 13" Basic Disc Brake Conversion Set

Get the braking performance of a modern vehicle in your classic vehicle! This set maintains the drum brake offset and features bolt on spindles that allow better camber change during suspension movement. The use of C5 bearing hub assemblies with their sealed bearing packs virtually eliminate spindle pin flex. These sets include: spindles, 13" slotted/drilled rotors, loaded calipers, sealed bearing packs, and mounting hardware. Choose from black or red calipers.

**Important:** Compatible with original or CPP replacement steering arms. C5 hubs use 12 x 1.5 metric lug nuts.

Note: Shipped overweight.

# Disc Brake Conversion Sets

## Electronic Disc Brake Conversion Sets

### Remote Electric Hydraulic Pump Provides Power

#### Eliminates the Bulky Original Booster

Gain valuable clearance in the firewall area by doing away with the unsightly, inefficient vacuum power booster. Sleek billet aluminum master cylinder takes its place for an improved appearance and performance.

#### Increases Braking Pressure and Performance

This electronic system runs on brake fluid, is self-contained and consistently provides 1400-2500 psi of braking pressure at the wheel. A perfect upgrade for engines with low vacuum due to a performance cam.

#### True Bolt-On — Requires No Vacuum

Replaces your OEM brake master cylinder as a direct bolt-on (no drilling required). Adjustable pedal rod to allow for correct pedal height.

PB64744

PB65743

### 1967-69 Front Bolt-On Disc Brake System

Looking for a disc brake upgrade for the front of your 1967-69 Firebird that will bolt to your OEM spindles? This bolt-on solution from ABS Power Brake includes cross drilled and slotted rotors and all required brackets. Use 10-3/4" rotors to fit OEM style 14" wheels or upgrade to 12" or 13" rotors. Master cylinder, proportioning valve, and tubing sold separately.

**Important:** PB64744 requires 16" wheels or larger. PB65743 requires 18" wheels or larger. PB68743 includes aluminum hubs.

**Note:** Shipped overweight.

### Works with 14" OE style wheels

PB64743

### 1967-69 Zero Offset Disc Brake System

Is the big cam in your 1967-69 Firebird causing a lack of braking, or do you have valve cover clearance issues? Classic Industries® has the answer! This true bolt-on solution from ABS Power Brake mounts to the OE brake spindles and works with 14" OE style wheels. These sets feature 10-3/4" cross drilled and slotted rotors. All necessary brackets are included with the system, plus the Electric High Power Master cylinder (EHPM).

**Note:** Shipped overweight.

### Electric High Power Master Cylinder

Is your big cam causing weak valve cover and hurting brake performance? Do you have valve cover clearance issues? This bolt-on solution replaces your OEM brake booster/master cylinder with a compact billet aluminum master cylinder that does not rely on vacuum for power assist. The self-contained unit allows the master cylinder to provide between 1400 and 2500 psi. Measures: 8" x 3-1/2".

### SS4+

This set features the S4 four piston calipers, 11" two piece slot, drill, zinc-plated rotors, stainless steel brake hoses, fully assembled aluminum hubs with spindles, mounting brackets, and hardware included.

**Important:** 4301450 requires stock spindles to be modified. **Note:** 15" minimum wheel size for 11" rotor. Uses common 4 piston pad (#DR1).

**Includes Hub/No Spindle**  
4301450 1982-92 ..... 1394.99 set

**Includes Modified Stock Spindles**  
4301463 1982-92 ..... 1794.99 set

### Track 4

This set features the T4 four piston calipers, 13" one piece slot, drill, zinc-plated rotors, stainless steel brake hoses, fully assembled aluminum hubs with spindles, mounting brackets, and hardware included.

**Important:** 4301403 increase track width by .400 a side over stock.

**Note:** 17" minimum wheel size. Uses Camaro 4th gen. front pads (#D0749).

**Includes Modified Stock Spindles**  
4301403 1982-92 ..... 2494.99 set

**Requires Use of 1998-02 Spindle/Hub**  
4301396 1993-02 ..... 1694.99 set

### Pro+

This set features the 6P six piston calipers, 13" or 14" two piece slot, drill, zinc-plated rotors, stainless steel brake hoses, fully assembled aluminum hubs with spindles, mounting brackets, and hardware included.

**Note:** 17" minimum wheel size for 13" rotor. 18" minimum wheel size for 14" rotor. Uses Corvette C5/C6 front pads (#D0731).

**Includes Modified Stock Spindle**  
4301334 1982-92 13" ..... 3194.99 set  
4301335 1982-92 14" ..... 3194.99 set

**Requires Use of 1998-02 Spindle/Hub**  
4301332 1993-02 13" ..... 2294.99 set  
4301333 1993-02 14" ..... 2394.99 set

### Extreme+

This set features the 6S six piston forged mono-blocked calipers, 14" two piece slot, drill, zinc-plated rotors, stainless steel brake hoses, fully assembled aluminum hubs with spindles, mounting brackets, and hardware included.

**Note:** 18" minimum wheel size. Uses common race pad (#D1247).

**Includes Modified Stock Spindle**  
4301089 1982-92 ..... 4394.99 set

**Requires Use of 1998-02 Spindle/Hub**  
4301002 1993-02 ..... 3594.99 set

# Baer Rear Disc Brake Sets

Baer Brakes also offers rear disc brake sets with the same quality and performance as the front. Baer rear systems include a unique billet backing plate that not only act as a caliper mount, but also

houses the banksia (1 piece) park shoe setup.

Note: Shipped overweight.

14010996BD assembled

14010510DR

## 1967-87 Front Brake Set

Wilwood disc brake sets for 1967-87 models. Each set features rotors, calipers, pads, and all hardware necessary to mount them onto stock spindles. Available with plain or drilled and slotted rotors and red or black calipers.

Notes: 1/2" 20 wheel studs. Shipped overweight.

### Dynalite Pro Series - 4 Piston

Includes: 10.75" plain or drilled and slotted rotors, forged billet Dynalite 4 piston calipers, and low dust, low noise brake pads for big brake stopping power. Provides plenty of clearance for popular 15" wheels. These sets can be used with manual or power assisted master cylinders.

## 1967-02 Front Big Brake Set

Wilwood big disc brake sets for 1967-02 models. Each set features rotors, calipers, pads, and all hardware necessary to mount them onto stock spindles. Available with drilled or slotted and slotted rotors and red or black calipers.

Important: \*These sets are hub sets, all other sets are hub sets. Some sets may require modifications to the original spindle.

Notes: 1/2" 20 wheel studs. Shipped overweight.

### Superlite 6 Series - 6 Piston

Includes: 13" or 14" rotors for non-ABS spindles, billet caliper with 6 pistons and low dust, low noise brake pads for superior stopping power. Minimum wheel diameter: 17".

# Wilwood Disc Brake Sets

## Rear Brake Set for 10/12 Bolt Axles

These FDL Pro-Series rear disc sets provide a solution for rear axles that require a parking brake. Forged billet Dynalite four piston calipers, 12.19" one piece drum/rotors, and high friction pads provide optimized and balanced braking for all types of builds. The nearly hidden internal shoe system provides a clean installation with superior static holding for parking. **Important:** May fit some 15" wheels, check wheel clearance diagram in installation instructions before purchase at www.wilwood.com. \*\*Calipers are staggered opposite of factory shock location for f1ment on 1968-69 models.

Notes: Shipped overweight.

### Dynalite Pro Series - 4 Piston

Includes: 12.19" one piece rotors with internal parking brake drum, forged billet 4 piston calipers, high friction pads, and brackets and hardware.

## W4AR Rear Big Brake Set

W4AR rear brakes are the perfect match for a W6AR front set. The W4AR calipers feature a same rigid body design as the front 6 piston caliper, with smaller pistons to balance the vehicle's braking. The 14" rotors are slightly thinner than the fronts to reduce rotating mass while providing cooling. **Important:** \*This set is not designed to fit with staggered shock suspension.

Notes: 1/2" - 20 wheel studs. Shipped overweight.

## BP-10 Brake Pads

Wilwood's exclusive BP-10 is an all new type of metallic composite friction pad compound. BP-10 exhibits the medium to high temperature friction characteristics of a semi-metallic based race compound with the low temperature response, quiet engagement, and towed stud dust levels normally associated with ceramic based street performance pads. The combination of these characteristics make it the perfect choice for your street machine, auto cruiser, or drag racer.

## Stainless Steel Braided Flexlines

Wilwood's stainless steel braided flexline sets are manufactured to high-quality standards and are available in various styles. These premium grade flexline sets have been designed for application specific sets. They are available as an optional item when ordering your disc brake sets and include all the required fittings. Wilwood highly recommends using these high-quality flexlines as replacement for the OE rubber hoses.

## Remaster Master Cylinder

BAER Brakes introduces the Remaster master cylinder. The Remaster is a direct replacement for GM bolt patterns. Left or right hand port configurations and compact design to make fitment easier. Master cylinders are available in these bore sizes: 15/16" for manual, 1" for power, 1-1/8" for hydroboost brakes. Provides the best balance between pressure and volume for great braking performance with reasonable brake pedal effort. A mount is machined into the bottom of the master cylinder for a Baer billet bracket/adjustable proportioning valve (sold separately).

## Combo Dual Bowl Master Cylinder

This high-performance chrome aluminum master cylinder has an integrated adjustable proportioning valve and can be used with front disc, 4 wheel disc, and drum brake applications. It's built to strict tolerances to be a top performer and is lighter than a cast iron unit (only weighs 5 lbs). It has optional 1" or 1-1/8" bore and can be used on manual or power brake applications. Beautifully chrome-plated, it is dual ported on the bottom with 3/16" threads so that the lines can be routed on the right, left, or straight down.

## 1967-69 Brake Pressure Regulator Valve

Reproduction rear brake pressure regulator valve for 1967-69 models equipped with factory air conditioning, big block models or models with a factory 12 bolt axle. This brass valve features the correct mounting bracket and controls the hydraulic pressure to the rear brakes to evenly distribute front to rear braking force to keep the vehicle's heavy front end level under hard braking.

RE104D 1967-69..... 54.99 ea

## 1967-69 Disc Brake Metering Valve

Cosmetically correct reproduction valve for all 1967-69 models with disc brakes. The metering valve prevents the front brakes from locking up before the rear brakes have had a chance to activate. A bad metering valve can cause severe nose-diving during braking and excessive front brake pad wear. Mounts remotely to the master cylinder, including original style mounting bracket.

F68691 1967-69 with disc brakes..... 52.99 ea

## 1967-72 Brake Combination Valve Set

The brake combination valve provides proper front to rear brake force balance. This set includes fluid metering and distribution block and system failure light switch. Includes a custom bracket to mount to master cylinder, avoiding frame/header clearance problems. Also includes pre-bent master cylinder to combination valve lines.

**USA**

## Residual Pressure Valve

A 2 pound valve is used in disc brake systems where the master cylinder is mounted below the horizontal plane of the calipers and fluid drain back occurs from gravity and vibration, thereby causing excessive caliper piston retraction and a longer brake pedal stroke. A 10 pound valve is used with drum brake vehicles to compensate for return spring tension in the drums. Fittings are included.

## Low Pressure Hydraulic Brake Switch

This unit requires 20-50 pounds pressure, instead of stock units that need 60-120 pounds pressure to engage. Standard 1/8" pipe thread (9/16"-18). DOT compliant and features silicone fluid compatibility.

TF900650 universal..... 32.99 ea

# Brake Components

## Adjustable Proportioning Valve

Precision proportioning from 100 to 1000 psi. At full release, valve is capable of up to 57% reduction in line pressure. The new smaller body accommodates easy mounting in a variety of locations in conjunction with two 1/4" diameter holes on 1.00" centers. Along with standard 1/8" NPT inlet and outlet ports and two 1/8" NPT to 3/8-24 inverted flare brake line adapters included with each valve makes installation simple.

2608419 ..... 48.99 ea

New!

## Universal Proportion Valve Block

Universal proportion valve and distribution block all in one. Features a rotary adjustment to regulate rear brake pressure and help maintain correct brake bias between front and rear. Distribution block connects to master cylinder and distributes brake fluid to all 4 wheels. Includes 5 stainless steel fittings for 3/16" brake line, brake light switch, and wiring pigtail.

PB1107 without lines and bracket ..... 70.99 ea  
PB1108 with pre-bent lines & bracket.. 115.99 ea

APVDB

## Adjustable Proportioning Valve

The PROP-BLOCK is a precision machined combination distribution block and adjustable proportioning valve in one. The valve connects to the master cylinder and distributes brake fluid to all 4 wheels, while the adjustable proportioning valve regulates rear brake pressure, maintaining correct brake bias between front and rear brakes. A built-in switch activates brake lights when brake pedal is depressed.

**Important:** This is not a direct factory replacement for original blocks and some line modifications may be necessary.  
APVDB black anodized finish..... 94.99 ea  
APVDBC chrome finish..... 104.99 ea

## Universal Adjustable Combination Valve

Universal adjustable brake combination valve. Features a rotary adjustment to regulate brake pressure. Includes: rotary adjustment to regulate pressure, five 3/8" ports, two front ports, one rear port, two ports feed master cylinder, five 3/8"-24 brake line fittings, and brake light sensor wiring pigtail.

PB1109 valve only ..... 70.99 ea

# Brake Hoses and Components

## 1967-02 Hydraulic Brake Hose

These high-quality reproduction brake flex hoses are just what you need to complete your brake system rebuild! All hoses are produced with the original style fittings and are plated in the correct gold cadmium finish. These hoses are extra durable and produced using DOT approved brake fluid resistant ribbed hoses. Also includes the correct flex hose clip attached directly to the hose. These reproductions are by far the most original available!

Note: \*20th anniversary edition. \*\*With traction control.

## 1967-69 Armor Spring Brake Line Shield

Correct shielding used on original brake lines for OEM restorers who want exact originality. Includes enough footage to allow you to replace or install shields on your original or replacement brake lines.

BSA13 1967-69 3/16" dia., 10 feet ... 19.99 ea  
BSA14 1967-69 1/4" dia., 10 feet ... 21.99 ea

## 1968-69 Park Brake Adjusting Pull Spring

Original adjusting spring for use with 1968-69 Firebird models with 4 wheel disc brakes. 2 required per vehicle.

1256664 1968-69 ..... 5.99 ea

## 1967-88 Park Brake Guide Bar Springs

Reproduction park brake guide bar springs for 1967-88 Firebird models.

A9500101 1967-88 ..... 11.99 pr

## 1967-81 Rear Parking Brake Levers

Reproduction of the original rear parking brake levers designed for use on 1967-81 Firebird models. Designed for models with 9-1/2" rear drums. This is the lever that gets pulled by the parking brake cable and holds the shoes to the drum. Sold as a pair.

RE650 1967-81 9-1/2" rear drums .... 39.99 pr

## E-STOP® Push Button Parking Brake

The perfect E-brake for stock or custom vehicles that can accept an E-brake cable. It frees up room on the chassis and in the cab and doubles as an anti-theft device when the button is hidden. It replaces hand, pedal, or lever brake and mounts conveniently under the vehicle's carriage. The E-STOP® attaches directly to your current e-brake cable and has a micro-computer that regulates the proper amount of pressure to your braking system - it will only pull up to 600 lbs before its locked down. The detachable head button allows for an easy install and for visual and audible recognition. For safety, the brake is inoperable while the ignition is on. It can be hooked up to the parking brake warning light. Includes the actuator, the control box with switch, and wire connectors. Made in USA.

*Important: If your brake cables are old, we recommend purchasing Lokar's Universal Rear Parking Brake Cables. You have a choice of a black housing BC80B or a Stainless Steel Housing BC80. It will make the installation easier and cleaner.*

A9507801 standard set ..... 519.99 set  
A9507807 replacement controller ..... 159.99 ea  
A9507808 replacement actuator ..... 449.99 ea

## Universal Rear Parking Brake Cable

Lokar universal rear brake cables are designed to work with the Lokar under dash foot operated brake cables. The outer housing is designed with a specially extruded liner for extended life of the cable, and the stainless cable resists moisture. Features adjustable cable lock and clevis and come complete with two 8" cut-to-fit housings, cables, cable bracket and spacers. Available with either a black or stainless steel housing.

EC80 stainless steel housing ..... 303.99 ea  
EC80B black housing ..... 211.99 ea

## 1967-68 4 Piston Style Rotor

Originally equipped with a two piece rotor, the 1967-68 model 4 piston calipers require a special rotor that hasn't been available for a long time. This all new reproduction will do the same job that the original two piece units provided. You can continue to use your original 4 piston calipers with these special rotors.

## 1969-02 Replacement Brake Rotor

These premium, high-quality rotors feature 67 distinct vane configurations, to ensure your replacement part matches OE design. The rotors have an ultra smooth braking surface to reduce noise, dust and maximize disc pad life. Compared to economy rotors, these rotors are three times quieter, can stop your vehicle 22-1/2 feet sooner and provide up to 30% more pad life. They are designed to provide the highest levels of dependability, safety and superior performance.

**Note:** \*With high-performance package. \*\*Without high-performance package.

## 1967-69 Brake Rotors

These brake rotors provide great stopping power at a reasonable price. Stock style rotors are CNC precision machined and non-directional crosshatched for better break-in. Performance drilled and slotted brake rotors are designed for maximum pad bite and to minimize brake fade, these rotors are CNC precision cross drilled, mill slotted and silver zinc coated. Non-directional crosshatched for better break-in. Both meet SAE J431 specifications.

**Important:** Not for use with original 1967-68 four piston calipers. \*Rotor functions as either LH or RH.

## 1969-02 Sport Rotor

Performance wheels and tires are best complemented with direct replacement Sport Rotors drilled and slotted rotors. Sport Rotors resist cracking under stress, prevent glazing of the pads, add bite, and improve wet and dry braking performance. Every rotor is produced from a high-quality casting and finished in a durable corrosion resistant coating.

**Important:** Specify: L for left or R for right.  
**Note:** \*With high performance package. \*\*Without high performance package.

## 1969-02 Sport Rotor

Sport rotors are 1 piece, slotted discs for your factory brake system. Sport Slot Rotors feature a signature "short slot" design, which improves performance by wiping away the debris of used friction material that otherwise accumulates between the rotor and pad. This keeps fresh pad material exposed to the rotor surface and helps prevent pad glazing. Power Slot Cryo High-Performance slotted rotors are given a cryogenic treatment. Deep cryogenic treatment is a one-time process that permanently improves the performance and service life of metal components. The rotor is cooled to -300 degrees, then gradually heated to +300 degrees before being slowly returned to room temperature. The cryogenic treatment process redistributes residual stress in the rotor giving it extra protection against thermal distortion, extending the wear life of the brake disc.

**Important:** Specify: L for left or R for right.  
**Note:** \*With high performance package. \*\*Without high performance package.

## 1969-81 Two Piston Brake Caliper

Direct bolt-on replacement for all 1969-81 Firebird models originally equipped with the big single piston D52 pad calipers. Built to mount in the stock location with stock dimension rotors, using regular OE type or aftermarket compound replacement brake pads and fitting anywhere OE calipers were used. Forged billet aluminum caliper body reduces weight. Stainless steel pistons with high temperature bore seals minimize heat transfer and provide maximum durability. Features a 2.00" bore for 1.00" disc width.

**Important:** Sold individually. Will work with any factory disc brake pads, which are sold separately.

## 1982-81 Front Caliper Set

Wilwood's D52 front caliper set is a direct bolt-on 2 piston replacement for the factory original single calipers on 1969-81 Firebird models. Forged billet aluminum bodies, stainless steel pistons, and competition style high temperature seals put an end to the rust, bore pitting, and seal failures that plague the OE caliper design. Vehicles 1978 and up (with M10-1.5 banjo bolts) will require new brake lines.

**Notes:** For use on vehicles with 1.04" wide (thick) x maximum 12.19" diameter rotors. Requires flex hose set 22011371.

## 1982-92 Front Caliper Set

Wilwood's D154 Front Caliper set is a bolt-on one 2.50" piston or two 1.62" piston replacement for the factory original single calipers on 1982-92 Firebird models. Forged billet aluminum bodies, stainless steel pistons, and competition style high temperature seals put an end to the rust, bore pitting, and seal failures that plague the OE caliper design. Uses the factory style brake pads and M-10-1.5 banjo bolt brake line mounting.

**Note:** For use on vehicles with 1.04" thick x maximum 12.19" diameter rotors. Requires flex hose set 22011371.

## 1969-02 HPS Ferro-Carbon Brake Pads

Hawk Performance High-Performance street brake pads for 1969-02 Firebird models. HPS disc brake pads are world renowned for their smooth braking feel, consistent release characteristics, and increased stopping power. These pads are excellent for spirited street driving providing a 20-40% increase stopping power and higher resistance to brake fade than standard replacement pads. Hawk's unique Ferro-Carbon compound achieves a higher friction coefficient than conventional materials but are gentle on rotors, low dust, and virtually noise free. Made in USA.

**Note:** \*With four wheel disc brakes.

## 1967-02 Semi-Metallic Brake Pads

These semi-metallic brake friction offers exceptional stopping power and is available for most vehicles on the road. They feature: low dust, shimmed to eliminate noise and vibration, formulated for reduced noise, semi-metallic compounds, and 100% Asbestos and copper free formula.

### Features:

- Low dust
- Formulated for reduced noise
- Semi-Metallic compounds
- Brake pads comply to current brake friction material legislation

## 1969-02 Brake Pads

These brake pads are manufactured using the same positive molding process utilized by OE suppliers. Positive molding uses extreme pressure to compress the friction material and bond it to the backing plate. This process assures consistent friction material density throughout the pad, resulting in even wear and performance characteristics throughout the life of the brake pad.

Note: \*With performance package.

### Features:

- Long wearing Semi-Metallic friction formula
- Low brake rotor wear
- 100% scorched for easy bed-in
- 100% shimmed to eliminate noise and vibration
- Positive Molding for even wear characteristics
- Stable friction performance across a wide temperature range particularly high temperatures
- Excellent for heavy-duty applications
- 100% Asbestos-free formulas

## 1969-02 Brake Pads

These brake pads are manufactured using the same positive molding process utilized by OE suppliers. Positive molding uses extreme pressure to compress the friction material and bond it to the backing plate. This process assures consistent friction material density throughout the pad, resulting in even wear and performance characteristics throughout the life of the brake pad. Extended Wear brake pads feature stable friction levels across a wide temperature range. These pads are formulated for longer pad life with reduced brake rotor wear. Hardware included where applicable.

Note: \*With performance package.

## 1967-97 Brake Caliper Piston

Rebuilding your disc brake calipers? Don't forget to replace the pistons! Moisture is drawn in as brake system cools, causing hidden problems that can only be eliminated with a complete caliper rebuild. For this reason, we recommend replacing the piston along with rubber parts when doing a caliper rebuild.

K6151 1967-69 disc brakes..... 69.99 ea

New!

OER AUTHORIZED

## 1967-69 2" Drop Disc Brake Spindles

OER® Authorized 2" drop spindles will replace OE single piston disc brake spindles. The stock steering arms bolt to the same location as on the stock spindle, maintaining the steering geometry.

Note: Not for use with drum-to-disc brake conversions kits.

153636 1967-69..... 185.99 pr

## 1967-69 2" Forged Drop Spindles

These spindles drops ride height by 2" and allow you to use the stock steering arm and the factory 11" single piston disc brakes, or aftermarket 12"-13" brakes without modification. Forged from 1045 steel alloy and precision machined to perfection.

Note: Factory disc brake requires minor modification and eliminates dust shields. Disc only.

CP30100 1967-69..... 248.99 pr

## 1967-69 2" Drop Spindles for 12" Rotors

These drop spindles let you run 15" or 16" wheels and larger brakes while you lower your Firebird. Works with 1970-78 calipers (RC4059 and RC4060) and 1988-92 Firebird ILE 12" rotors (CB2157A), bearings and seals. Works with most 16" or larger wheels.

Note: Not to be used with wheels with more than 4-3/8" backspacing.

DS677412 1967-69..... 228.99 pr

HEIDT'S

## 1967-69 Improved Camber 2" Drop Spindle

These spindles raise the upper ball joint 1-1/2" for superior camber change! Use with Heidt's caliper brackets for stock 11" rotors to 13" big brake setups.

Important: Not for drum brakes or OE dual piston calipers.  
HS013 1967-69 tall 2" drop spindles.... 469.99 pr

## 1969 2" Drop Spindles Set

Lower your 1969 Firebird the right way with a factory style 2" drop spindle set. This set includes caliper mounting brackets and backing plates for a complete installation.

Note: Will work with 1967-68 models if using 1969 style single piston DS2 style calipers.

RS900119 1969 LH and RH..... 264.99 set

## 1970-81 2" Machined Drop Spindles

Lower your Firebird 2" without affecting steering or suspension geometry. Spindles are cast from the highest quality Ductile Iron with CNC-machined 4130 chromoly pins. Attaches to stock ball joints and tie rod ends. Moves wheels out an 1/8" on each side and works with most 14" disc brake wheels. No need for bolt-on caliper brackets. Disc brake applications only.

Note: 7078DS and 7981DS spindles work with factory brake components.

7078DS 1970-78..... 278.99 pr

7981DS 1979-81..... 278.99 pr

## C5 Upright Spindles for 1967-81

These bolt on spindles for 1967-81 Firebird models use C5 bearing hubs with sealed bearing packs to eliminate spindle pin flex. The design maintains the drum brake offset while improving geometry to allow better camber change during suspension movement. Works with C5 brake components.

CP30013 1967-69..... 318.99 set  
CP30014 1970-81..... 318.99 set

## 1967-69 Billet Aluminum Spindles

These rigid and lightweight billet aluminum spindles and steering arms are direct replacement components for 1967-69 Firebird models. Overall height of both upright versions is 1-1/2" taller than stock, resulting in more aggressive camber gain with increasing cornering performance. Spindles feature a black anodized finish and heat treated, corrosion resistant, slotted flange nuts. For use with calipers that attach to OEM style disc brake locations.

Note: Taller spindle height requires Chassisworks billet steering arms and tubular upper 3-arms to properly position ball joint range of alignment. Minimum rim size is 15" to 18" diameter, depending upon width and brake kit.

## 1967-72 Brake Rotor/Drum Nut Set

This 18 piece hardware set includes the front rotor and spindle nuts, washers, pins necessary to hold the rotor or drum to the spindle and the spindle to the upper and lower control arm and the spindle to the end link. For models with disc or drum brakes.

1253510 1967-72 18 piece..... 15.99 set

# Brake Tools

## Brake System Power Bleeder

Bleed your hydraulic brake system like the pros with this high capacity brake bleeder system. This is a simple, one person operation with no external power source needed. Includes a precision pressure gauge for safe operation and you can flush the entire hydraulic system without frequently refilling the reservoir. This unit features a large reservoir that holds up to 2 quarts of brake fluid. Complete system includes: reservoir with gauge, hoses, fittings, instructions as well as two adapters that will fit most master cylinders from 1947-91.

### Brake System Power Bleeder

14227 bleeder w/universal adapters.... 89.99 ea

## Mityvac Brake Bleeder

The Mityvac Brake Bleeding Set can be used on virtually all hydraulic systems including most ABS systems. It's a rugged, low cost professional tool which enables one person to efficiently bleed brakes, clutches or other hydraulic systems. Choose from our sturdy polymer plastic bleeder, designed for occasional use, or step up to the heavy-duty model designed for the professional mechanic.

04000 "professional" model..... 139.99 set  
06820 "do-it-yourselfer" model..... 54.99 set

## One Man Brake Bleeder

Loosen the bleeder screw and fill with brake fluid. Pump the brakes until the hose is free of bubbles. Everything is included to quickly bleed brakes with no mess. Plastic bottle collects discharged fluids. Complete instructions included.

Y19200..... 9.99 set

## Brake Bleeder Wrench

These will ensure that you don't strip the bleeder nuts on your callipers or cylinders. Check size before ordering.

Y10950 1/4" x 3/8"..... 10.99 ea  
Y10900 5/16" x 3/8"..... 8.99 ea

## Handy Packer Bearing Grease

The Handy Packer works on bearings up to 3 1/2" o.d. The grease stays in the tool cavity, not on your hands. To pack a bearing, place the bearing on the piston. Press down on the cap until the old grease is forced out and the new grease shows on top of the bearing with less mess.

Y34550..... 23.99 ea

## Hi-Temp Wheel Bearing Grease

When replacing or just repacking your wheel bearings, don't use ordinary grease. Protect those bearings with a high-quality, high temperature bearing grease. This is a very stable aluminized complex thickened grease used for the lubrication of wheel bearings, chassis ball joints and other bearing applications operating under severe conditions. This product assures high temperature protection from excessive heat generated by disc brakes. And... a special tool designed to pack the bearings so they stay where they belong. Works on most cars and trucks.

SL3161 bearing grease 14 oz. can..... 7.99 ea  
Y65250 universal bearing packer..... 10.99 ea

## Brake Adjustment Tool

Speed up star wheel adjusting on drum brakes by simply inserting the tool through the slot in drum backing plate. A different angle at each end adapts to many various models.

Y50700..... 4.99 ea

## Disc Brake Hone

Special abrasive pads polish the cylinder without cutting. Controlled pressure, three abrasives, and flexible driver give good stability and speed. Stones are 1" long. Range 1-1/2" to 3-1/8".

Y10400 hone..... 18.99 ea  
Y10490 set of replacement abrasives..... 6.99 set

## Brake Spring Removal Tool

This heavy-duty brake spring tool will remove springs installed through a hole.

Y44800 heavy-duty (lg. brake springs).... 14.99 ea

## Brake Spring Removal Tool

The standard tool will remove springs that are set over a post.

Y46750 standard tool..... 15.99 ea

## Brake Spring Pliers

Removes and installs shoe return springs on most drum brakes. Socket end removes spring from anchor stud. Notched end installs spring on anchor. Pliers remove and install the return spring to outside of brake shoe.

X298..... 29.99 ea

## Brake Cylinder Hone

Hones drum brake wheel cylinders and disc brake callipers from 13/16" to 2-3/4" in diameter. Sleeve makes insertion in cylinder easy and protects stones when not in use. Use with variable speed drill.

X265 3/8" Hex..... 16.99 ea

## 1967-68 Rally I Wheel Kit

We offer a wide selection of kits including same size or mixed sizes. The original 1967-68 Rally I wheels included a black base center cap, however due to popular demand the polished stainless base cap is also offered. The original type trim rings are not available and we have chosen a similar trim ring which looks and fits as closely as possible to the original. Kits include: four Rally I wheels, black or polished center caps with ornaments, trim rings and twenty acorn lug nuts.

Note: Shipped overweight.

## 1967-72 15" x 7" Rally II Wheel Kit

OER® 15" x 7" Rally II wheel and component kit for various 1967-72 Pontiac models. The original 1967-69 Pontiac Rally II wheels usually featured a red center cap. Some early 1970 models may have also included the red caps. The 1971-72 models were usually equipped with the black center caps. The original type trim rings are not available and we have chosen a similar trim ring which looks and fits as closely as possible to the original. Kits include: four Rally II wheels, red or black center caps, trim rings, and 20 red or black lug nuts. Bolt pattern is 5 x 4-3/4".

**Important:** The trim rings supplied are aftermarket and although they will fit the wheels, they may vary in appearance from originals.

Note: Shipped overweight.

## 1967-92 Firebird Hi-Tech Deep Dish 16" x 8" Aluminum Turbo Wheel

OER® Hi-tech deep dish Turbo aluminum wheels for 1982-92 Pontiac Formula models. RPO code PEO on 1988-92 models. They will also fit 1967-81 models. 1967-81 Firebird models use a zero offset on all 4 wheels. 1982-92 models use zero offset in the front and 16mm offset rear wheels. Features rivets around the edge to give the wheel the appearance of a 2 piece wheel like the original. Accepts original style center caps and lug nuts. Caps, emblems and lug nuts are sold separately. Wheels measure 16" x 8" and have a ball pattern of 5 x 4-3/4". Sold individually or as a set of 4.

*Note: Spacers may be needed on some applications to ensure proper wheel and tire clearance.*

## Secret Weapon Polish Ball

The Secret Weapon Polish Ball bends and compresses enabling it to fit into tight spaces and make the cleaning and polishing of difficult, hard to reach areas like wheels, rims, and other metal work much easier. Can be attached to any handheld drill or drill-like device for fast and superior cleaning and polishing. Great for cleaning and buffing small items like mirrors, headlight lenses and trim parts. Space age Dura-foam and fiber soft materials make it the most durable tool of its kind. Ideal for use with your favorite wax, polish, wheel product or compound.

## 1967-81 Firebird

### 15" x 8" Aluminum Turbine Wheel

OER® Turbine aluminum wheels originally installed on 1979-81 Firebird SE, 10th Anniversary, 1980 Indy Pace Car and 1981 NASCAR Pace Car. The 1979 10th anniversary and SE had the natural wheels. The 1980 Indy Pace Car and 1981 NASCAR Pace Car had the white wheels. The gold wheel was a N89 option. These wheels will fit 1967-69 Firebird models. Caps, emblems, and lug nuts are sold separately. Wheels are 15" x 8" with a zero offset. Bolt pattern is 5 x 4-3/4".

### 1967-92 Firebird GTA Style 16" x 8" Alloy Wheel

Classic Industries® offers the GTA wheel with black or gold color spokes. Each cast aluminum wheel features a machine finished outer lip and gold or black gloss spokes as original. The GTA wheel was originally installed on 1987-92 Trans Am GTA and Trans Am models, but will fit 1967-81 Firebirds too! 1967-81 models require a zero offset wheel on all 4 wheels while 1982-92 models used 0 offset wheels for the front and 16mm offset rear wheels. Accepts original style center caps and lug nuts. Bolt pattern is: 5 x 4-3/4".

**Important:** Wheels with zero offset have 4-3/8" backspace, while wheels with 16mm offset have 5" backspace. Low profile tires may be required for clearance on early model applications.

### 1982-02 Firebird 17" x 9.5" R15, 5-Spoke Aluminum Wheel Kit

OER® 5-spoke cast aluminum R15 style 5-spoke wheels originally installed on 1991-92 Pontiac Firehawk models. Also a popular aftermarket wheel choice for third and fourth generation GM F-Body vehicles. Each wheel includes: center cap, center cap key retaining bolt and key tool. Center cap emblem inserts not included. Most 2-15/16" adhesive center cap emblems will fit, or you may choose from our selection of specially designed center cap emblems sold separately. Wheels measure 17" x 9-1/2" and have a bolt pattern of 5 x 4-3/4" with a 5-3/8" backspace.

**Important:** Due to brake caliper clearance, special lug nuts and spacers may be required for installation on the front of certain 1982-02 Firebirds and are sold separately.

## 17" Cast Aluminum Honeycomb Wheel

OER® cast aluminum version of the Pontiac "Honeycomb" wheel originally offered on 1971-76 Firebird Trans Am models. Wheel features a silver powder coating with machined edges and accepts original style center cap (sold separately). If installing on earlier Firebird models (1967-70) or later models (1977-81); you must check clearances of brakes, wheel openings and backspacing to ensure proper wheel and tire clearance. Wheel size is 17" x 9" with a 5" backspace and 5 x 4-3/4" bolt pattern. Not compatible with factory lug nuts, uses #716201 7/16" - 20 lug nuts sold separately.

**Important:** Use part #716201 lug nuts with these wheels.

**Note:** Shipped overweight.

OL4761

## American Racing Outlaw

In the 1980's the modular wheel became the hot ticket on any late 70's or 80's muscle car. The wheels were called modular because they consisted of 3 elements... an aluminum wheel center, an inner rim, and an outer rim. The combination of these "modules" allowed for an unlimited range of possibilities when it came to wheel specifications. This modular style wheel is manufactured by American Racing. It is a 1 piece machined alloy wheel with a modular look. It comes clear coated and includes center cap. It's a good choice if you're looking for a period correct wheel design at a great price. 5 x 4-3/4" bolt pattern.

**Note:** Shipped overweight.

## 1967-92 "Injector" Wheel

As soon as Rocket released the Launcher Series "front runner" wheels, Rocket was overwhelmed by enthusiast demand for a hardcore traditional hot rod wheel that could be matched with the Launcher for the perfect staggered combo. Rocket's Scientists accepted the challenge and created this wheel to revive this classic design from drag racing's golden age. Reminiscent of the testosterone pumping Fuelie wheels of the 1960's absolutely complete the big and little combo look. Rocket "Injector" wheels are sculpted to perfection and hold true to the greatest era of Detroit automotive performance. Available fully polished or in its natural "As Cast" finish. 5 x 4-3/4" bolt pattern.

## Knockoff Wheel Spinners

These wheel spinners fit all Rocket Racing wheels from the Fuel, Booster, Igniter, Launcher, Velocity, Strike, and Injector wheel series. Supplied with threaded adapters and sold in pairs (1 left and 1 right hand thread), allowing you to mix and match according to offset. For vehicles that run staggered wheels, order one pair of flat and one pair of deep angle spinners. High offset wheels and wheels 15" x 6" or narrower should run flat angle spinners.

## 1967-92 "Igniter" Wheel

Back in the glory days of vintage racing, these style 5 window kidney bean wheels could be from the strip street to the salt flats. Those lake beds eventually became test sites for top secret rocket planes that set world speed records. Now you can prepare your ride for launch with the style that started it all with the Rocket "Igniter". This painted Salt Flats style wheel which was inspired by Vintage Drags and Bonneville Dry Lakes Land Speed Racing. 5 x 4-3/4" bolt pattern. Available fully polished, "As Cast" and painted gray centers with machined lip.

## S/S Super Sport Wheel

By 1974 the Cragar S/S had become one of the most popular wheels of the muscle car era. Because it was chrome-plated rather than polished aluminum, it held its shine and was easier to keep clean. Instead of requiring time consuming polishing, the Cragar S/S was ready to show with a simple hosing off and wiping down. Chrome aluminum center cap is included with each wheel. Lug nuts sold separately.

Note: Shipped overweight.

## Cragar 32 Series Keystone Classics

If your vehicle is a 1960-70's model, chances are it came with narrow wheels and tiny bias ply tires. By the mid-1960's, aftermarket wheel swaps were commonplace among car enthusiasts. One of the most widely chosen aftermarket wheels available during the muscle car era was the Cragar Keystone Classic. Popular for their composite design, the chrome-plating on the Keystone Classics made them much easier to clean than aluminum or mag wheels because they required no polishing. Cleaning them was a breeze by just hosing them down and wiping them off. These wheels are now back in vogue with muscle car enthusiasts who prefer a custom look, but wish to keep their car "period correct". Chrome center cap is included with each wheel. Lug nuts sold separately.

Note: Shipped overweight.

# Era Correct Custom Wheels

**Cragar 390 Street Pro**

The style of the Cragar Street Pro is reminiscent of the Halibrand Sprint which was made famous on the circle track cars of the 60's. The similarities stop there, however. Unlike the Halibrand which was made of magnesium and required constant polishing to retain its shine, the Cragar street pro is manufactured of a chrome-plated steel rim with a chrome-plated aluminum center. They clean up easily and retain their shine with a simple hosing off and wiping down. The price of original 60's era Halibrands has been pushed up by collectors and the new Halibrands which are also very pricey. So, if you'd like the look of a legend at about 1/4 of the price, the Cragar Street Pro is definitely the way to go. Chrome center cap is included with each wheel. Lug nuts sold separately.

Note: Shipped overweight.

## OE® TNT Extended Life Tire & Trim Dressing

This unique formula quickly penetrates rubber trim and tires to hydrate and provide lasting protection. TNT Extended Life gel by OE® finally delivers on that promise. Simply wipe on using a pad and TNT gel restores the look of faded tires, trim, bumpers, seals and weatherstrip. What's more, OE® TNT gel lasts for many months, not days. Our exclusive no-streak, no-run, and non-drip formula works to repel water and detergents and helps keep tire walls hydrated and supple as well as looking brand spanking new. A true premium trim restorer and protectant, that will not drip, dry out, or destroy surfaces. Provides unmatched durability, ease of application and a superior "new look" shine that lasts through numerous washes.

## Get Goodyear Quality with a Nostalgic Appearance!

- Perfect for your Firebird!
- The Goodyear® name means quality and dependability!
- Increase the value of your project while maintaining originality!

These Goodyear tires are produced with exact specifications offering the highest quality while maintaining complete originality! Now you can own the original Polyglas Goodyear tires, and because they are made from the same molds as the originals, you can count on the quality. Perfect for classic wheel types such as Rally I or Rally II wheels!

Important: QW-1 Speedway Wide Tread.

Note: Tires must be prepaid. Shipped overweight.

# Tire and Wheel Combos

When you buy a tire and wheel package from us you can rest assured that you are getting the best. These complete sets include four tires of your choice, Pontiac Rally II wheels, black/red PMD center caps, trim rings, valve stems, and lug nuts... fully mounted and balanced! Your tire and wheel package will be mounted and balanced by a professional with the latest state-of-the-art Hunter balancing equipment. For maximum ride quality our Hunter SmartWeight balancing system analyzes the entire assembly for non-conformity issues, the result is improved

ride quality, performance and wear. You'll also receive FREE nitrogen inflation that will give your combo longer life and better performance.

**Important:** Choose tire brand from below. Please specify B - black or R - red lug nuts when ordering.

**Note:** Tire sets must be prepaid. Special shipping rate applies.

- Complete Sets Include: 4 Tires, Pontiac Rally II Wheels, Black PMD Center Caps, Trim Rings, Chrome Valve Stems, and Lug Nuts (Black or Red).
- Hand Mounted and Computer Balanced to Precise Quality Control Standards for a Guaranteed True and Round Assembly.
- Scratch Less Mounting, No Need to Worry About a Scratched Rim.
- Lug Centric Balancing for the Best Balance and Truest Ride.
- Static Balanced with the Unsightly Weights on the Inside of the Combo.

**FREE** MOUNT AND BALANCE  
 NITROGEN INFLATION  
**WHEN YOU PURCHASE**  
 TIRES AND WHEELS TOGETHER  
 OVER A \$100 VALUE

## BFGoodrich Silvertown Radial Tire

Classic Industries® offers these reproduction BFGoodrich Radial tires for various classic American cars. Each tire is manufactured to original specifications, is S-Speed rated and U.S. DOT approved for use on all U.S. highways. With its grippy all-season tread design and original style raised white letters, these tires will give both authenticity and safety to your classic car.

- ✓ 14 and 15 inch rim diameters available
- ✓ 70 series available
- ✓ S-Speed rated (112 MPH)
- ✓ All season tread
- ✓ High tech tread design
- ✓ Backed by our life of the tread warranty
- ✓ U.S. DOT - approved for all U.S. highways
- ✓ ECE approved - meets or exceeds all requirements for the European community

**Note:** Wheel not included. Tires must be prepaid.

# Radiators

## 1967-92 Performance Aluminum Radiator

MISHIMOTO

Mishimoto performance radiators for 1967-92 models offer 100% aluminum construction which provides greater heat and pressure tolerance, better heat dissipation, increased durability, improved cooling efficiency, and improved structural rigidity. All radiators feature a 2 or 3 row brazed aluminum core with an internal transmission cooler to provide optimal fluid temperatures for automatic transmissions. Each radiator includes a Mishimoto radiator cap, magnetic drain plug, and is backed by a manufacturer's lifetime warranty.

detail of radiator cap

**Important:** Radiators will work with automatic or manual transmission vehicles.

**Note:** Shipped oversize.

## 1967-99 Polished Aluminum Radiator

Champion

These polished high-performance radiators are manufactured from TIG welded aircraft grade aluminum with brazed aluminum cores and billet filler necks. Each radiator offers high capacity cooling with louvered fins and 3/8" spacing between core tubes. Designed for direct fit installation. Radiator cap is included.

**Important:** All radiators have built in automatic transmission coolers and can be used in both AT and MT applications. Core size dimensions listed below.

**Note:** Shipped oversize.

## 1967-99 Aluminum LS Radiator

Northern

These aluminum radiators are designed as a direct fit for 1967-69 models with LS engines. Northern aluminum radiators are lighter than copper/brass radiators with up to 75% more cooling capacity. Features thick hose connectors, reinforced die-stamped tanks, a machined filler neck and all welded construction. Northern fans and fan shrouds are available separately.

205141

**Important:** Dimensions listed are overall dimensions of the radiator including the tanks.

**Note:** Double pass radiator. Shipped oversize.

## 1967-92 Polished Aluminum Radiator

All aluminum racing radiator. Constructed of 100% aluminum, using no epoxy for trouble-free service, this beautiful radiator is just what your high-performance Firebird needs. Aluminum radiators have shown to be 15% more efficient than factory copper brass type radiators. These beautifully polished radiators fit in the factory mounting location with predrilled brackets for easy installation. The factory fan shroud can be reused without modifications while the inlet and outlet are in the stock locations so the factory style radiator hoses can be used. As with most radiators these are available with a built-in transmission cooler with the correct dimensions to use the factory transmission lines.

**Note:** Shipped oversize.

## "Liquid Chill" Engine Coolant and Additive

Mishimoto's Liquid Chill is a universal, synthetic coolant that will provide premium cooling and protection for your vehicle. Liquid Chill protects from boil over to 265 degrees F and from freezing down to -26 degrees F. Inhibits corrosion, and reduces operating temps. Made with propylene glycol base and unique poly organic additives to allow for extended life of 2+ years or 250,000 miles before needing service in gasoline applications. One gallon jugs are available in full strength formula or 50/50 blend. For up to 30 degrees F cooler over just coolant alone, the universal Liquid Chill additive is available in 4 oz. bottles.

MM13066	50/50 mix coolant	47.99 ea
MM13067	additive	17.99 ea

## J-B Weld Cold Weld

J-B Weld is a great alternative to welding, soldering and brazing. This two part system is mixed at a ratio of 1:1; it forms a permanent bond and can be shaped, tapped, filed, sanded, painted and drilled after curing. Cold weld will bond to most clean and dry surfaces and sets in 1-2 hours and will fully cure in 16-24 hours. Waterproof, petroleum, chemical, and acid resistant when fully cured. Non-toxic and temperature resistant up to 600 degrees F. Cure color is dark gray. Made in USA.

JB8265	2 x 1 oz. tubes	9.99 ea
JB8280	2 x 5 oz. tubes	15.99 ea

## Super Coolant

Purple Ice is a high-performance, synthetic, radiator coolant additive. It reduces engine heat by reducing the surface tension of the radiator fluids for improved heat transfer. Purple Ice fosters optimum coolant flow by helping to prevent formation of scale deposits in the radiator. Purple Ice is recommended for any water/glycol pressurized cooling system, including those using the traditional green, silicate based glycols or the newer OAT or HOAT based glycols.

RP01600	12 oz. bottle	11.99 ea
RP12600	case of 12 - 12 oz. bottles	129.99 ea

## Coolant System Protector

Impurities in well water can cause rust and corrosion inside the radiator, water pump, and cylinder heads. Over time, this can lead to a loss of cooling efficiency. GIBBS Driven Coolant System Protector stops the adverse effect of hard water to help prevent cooling system damage.

## 1967-69 OE Style Radiator Cap Hollow Rivet

Authentic reproduction of the original radiator cap designed for the enthusiast who wants total originality in a reproduction cap. Features the correct cap rating along with all the correct markings as original. Long discontinued, the current GM replacement and other reproduction caps do not accurately represent the original cap. One of the features that sets OER's reproduction cap apart is the correct divot in the brass rivet in the center of the cap, just like the original. OER's reproduction is an exact replica of the original featuring correct markings as well as an accurate cosmetic appearance of the rivet in the center of the cap.

## Fan Spacer and Bolts

Whenever you convert to a flex fan, you need to add a spacer to bring your new fan back into the "sweet spot" in the fan shroud opening. Flex-a-lite fan spacer kits include the bolts you'll need to install the fan and fan spacer.

MISHIMOTO

## 1967-69 Fan Shroud Assembly

Keep your 1967-69 Firebird cool with the Mishimoto performance fan shroud assembly! This unique electric fan shroud setup completely eliminates the stock, failure prone mechanical fan. The shroud mounts exclusively to Mishimoto's performance radiators and include a single 16" high flow electric fan that produces over 1300 cfm of airflow.

Note: Shipped overize.  
153554 1967-69 single 16" fan ..... 311.99 ea

Flex-a-lite

## Sycloane Electric Fan

The amazing Flex-a-lite Sycloane electric fan is the most efficient S-Blade fan blade on the market! This quiet fan mounts to the core and can be used to push or pull air through the radiator. The higher torque (17 amp) motor produces 2500 cfm of air flow, making these fans strong enough to replace your belt driven fan and fan clutch to gain more horsepower and torque. The sweep style blades squeeze out the maximum air flow possible: 16-5/8" x 15-3/4" x 4" mount. Universal mounting brackets are included.

FL398 16" fan ..... 172.99 ea

## Black Magic S-Blade

If your vehicle is still running the factory engine driven fan, you're losing vital horsepower and not even getting the full cooling effect you should! By replacing your engine driven fan with an efficient electric unit, you can reduce unneeded drag on your engine to free up horsepower and improve your fuel economy. An engine driven fan can cost up to 17 HP to operate! This universal fit Flex-a-lite electric fan features computer engineered blades that are extremely quiet and efficient, and moves 3000 cfm of air to provide consistent cooling, regardless of engine RPM. Ring fans like this provide better blade support for impact resistance. This electric fan fits vehicles with 16" or wider radiator cores, and requires a mounting surface of 18" x 16" x 4-1/4" for an easy, bolt-in installation. Universal mounting brackets are included.

FL160 ..... 334.99 ea

SPAL

## Fan Switch

SPAL replacement temperature fan switch. Manufactured from stainless steel, hermetically sealed and feature a 3/8" NPT. Operating switch range 35 degrees F to 480 degrees F and max current/voltage 3 amp, 32 VDC and grounded case only.

# Electric Fan Components

## 16" Fan Mounting Gasket

SPAL fan gasket is a specifically designed rubber gasket for use exclusively with the 16" fan line. The gasket provides an additional 1/4" clearance from the cooler core and is ideal for mounting our pusher style fans.

Note: Will not fit SP2036 and SP2071.

SP2070 16" ..... 16.99 ea

## Cooling System Zinc Anode

Used in heavy-duty and marine applications to protect the cooling systems and its many components from damage due to electrolysis or coolant additive failure/breakdown. The introduction of the zinc anode will protect your cooling system from galvanic action as it "eats" the zinc rather than your cooling system. To be installed in the radiator as a replacement for the drain petcock in radiators that are equipped with a 1/4" NPT hole or any 1/4" NPT hole that is available in the cooling system.

FL32060 ..... 14.99 ea

MF109

## Fan Temperature Sending Unit

The temperature sending unit screws into the side of the cylinder head or on the intake manifold to operate the Champion or Challenger Series fans.

MF108 185° for carbureted engines..... 24.99 ea

MF109 195° for fuel injection engines 24.99 ea

## Temperature Sending Wire Cloth Insulator

This 3/16" i.d., 5/16" o.d. replacement cloth insulator, keeps your temperature sender harness well insulated from engine heat. Sold per foot. 2-3 feet required per vehicle.

KO163 ..... 2.49 ft

## Rubber Fan Spacers

Rubber spacers are used with Champion Series electric fans for proper spacing from the radiator.

MF112 ..... 5.99 set

## Universal Fan Mounting Bracket

SPAL universal fan mounting bracket. It can be used with most aftermarket and OEM radiator types. It is adjustable and features a black powder coated finish. Includes 1 metal strap bracket and 1 plastic foot. Requires 4 for proper installation.

SP2072 ..... 2.99 ea

## Universal Fan Mounting Rod

SPAL universal mounting rod brackets attach directly to the fan shroud. Manufactured from lightweight steel and plastic. Includes mounting clip. 4 required for proper installation.

SP2071 ..... 5.99 ea

## Plastic Mounting Bracket

SPAL plastic fan mounting foot bracket. Four mounting brackets are required to complete proper installation. Sold individually. Available in either flat or raised design.

SP2074

SP2073 flat ..... 99 ea

SP2074 raised..... 99 ea

## Billet Aluminum Fan Brackets

Use this premium billet aluminum bracket set to mount your 14" or 16" Champion or Challenger Series fan. The set features 4 adjustable side angle brackets that attach to the side flange of the radiator. Mounting hardware is included.

MF105 billet aluminum fan brackets... 55.99 set

## Universal Fan Bracket Strip Set

This bracket set is used to mount your Champion or Challenger Series fan. Install the fan's 90 degree mounting feet (included with fan) to these four 7-1/4" long strips for solid support. Mounting hardware is included.

MF104 universal fan bracket strips..... 23.99 set

19842

## 1983-97 Coolant Fan Relay

A relay is typically used to control a component that draws high amperage. This is a coolant fan relay for 1983-97 Firebird models. If your coolant fan is not operating, check your relay, it may be burnt out.

19842 1983 307 -7..... 9.99 ea

19842 1984-86 305 -H..... 9.99 ea

## Adjustable Fan Temperature Sensor

Turn your electric fan on at whatever your desired temperature is with this adjustable temperature sensor. Sensor adjusts from 180-240 degrees F and helps prevent overheating in performance vehicles when driving at low speeds or when idling for long periods.

346932 180-240 degrees F..... 109.99 ea

## Fan Harness Set

SPAL wiring harness sets are a must-have when installing an electric fan. Designed to safely integrate with OEM wiring harness. Feature a waterproof 40 amp relay, stainless steel switch with optional switched override capability along with printed wires which aid in installation. Thermo switch, fuse holder, connectors 1/2" adapter, and instructions are included.

SP2068

SP2068 185 degrees harness..... 118.99 set

SP2069 195 degrees harness..... 125.99 set

## Dual Fan Wire Harness with Relay

When installing an electric engine cooling fan, a wire harness with a relay is required. This dual fan wire harness with relay will allow safe control of two fans while using either an on-off switch or an adjustable temperature sensor. Switch and sensor not included.

40080 wire harness with relay..... 54.99 ea

## Delayed Cooling System Shutdown

Timed cooling system shutdown features adjustable relays that keep power to the cooling fan and electric water pump (if equipped) when the key is shut off. This reduces the block temperature as much as possible without the risk of killing the battery. This is a timed circuit and does not use a thermostat or other fan control to operate.

TF900632 ..... 159.99 ea

AC, HEATER & COOLING SYSTEM

# Electric Fan Relays

## Cooling Fan Shutdown

This cooling fan shutdown set shuts down your electric cooling fan above 50-60 MPH to improve engine cooling by preventing the electric fan from fighting airflow through the radiator at highway speeds. The unit is adjustable and may be overridden by using the supplied dash mounted toggle switch. This set is designed to be used with the supplied signal generator which must be installed into the speedometer cable.

TF900627 ..... 204.99 set

**PAINLESS**

## Dual Fan — Dual Activation Fan Relay Set

The dual activation cooling fan relay set by Painless Performance is exactly what you need to run dual fans off of a thermostatic switch and when your AC is on. Installation takes just a few minutes and your cooling fan will come on when the engine reaches the preset temperature of the thermostatic switch or when the AC is turned on. Set includes: three 40 amp relays with mounting bases, one fuse holder with 70 amp fuse, pre-terminated and printed wire harness, and your choice of thermostatic switch on/off temperatures (three choice: 3/8" - 18 NPT), 1/2" NPT to 3/8" NPT adapter, mounting hardware and insulated terminals and detailed instructions.

## Adjustable Electric Fan Thermostat Set

This set is designed to allow a wide range of temperature adjustments for your electric fan. The adjustment knob may be used to set a precise temperature desired for fan activation. The mounting bracket is made of brushed stainless steel for good looks and durability. The complete set includes the thermostat with bracket, a 30 amp relay, a 30 amp circuit breaker for overall protection, wiring, terminals, and mounting hardware.

### Specs on Adjustable Fan Thermostat:

Temp range - 32 degrees F to 248 degrees F

Accuracy: +/- 7.3 degrees F

Differential: 7.3 degrees F +/- 3.6 degrees F

**Important:** Temperature refers to the temp of the capillary tube, not the coolant temp.

30104 standard ..... 86.99 set

30112 without relay ..... 54.99 set

## "Ice Box" Cooling Fan Control

Available as a dual fan 2-speed fan control unit. The sensor is simply tightened under an intake or water pump bolt. It can then be adjusted to your exact preference for on and off temperature. It is equipped with an AC Request system to turn the cooling fan on whenever the AC Compressor engages (this feature does not have to be used). The dual fan control can operate two fans at different temperatures or a single 2-speed fan at different temperatures. Each unit has a fully adjustable operating range of 140-230 degrees F.

**Note:** With Walker 2-speed fans.

TF900635 dual control ..... 160.99 ea

## Electric Fan Controller

Includes a 70 amp relay and will work with your existing water temperature gauge, operating from the temperature sending unit already installed. A dedicated sending unit can be installed for applications without a water temperature gauge. Operating range of 150-250 degrees F and features fully programmable "fan on" and "fan off" temperature functions to suit any application. This also gives you the capability to leave the electric fan operating after the engine has been shut down for a user adjustable period of time. High-quality LED readout displays current temperature readings.

**Important:** Must use second relay, either part #DD2701 30 amp relay or DD2702 70 amp relay for dual fan or 2-speed fan operation.

## 1967-92 High Flow Water Pump

For over 20 years, Stewart Components has focused on the development and production of high-performance water pumps, resulting in innovations like special high strength castings, larger flow passages, more efficient impellers, and stronger bearings. These pumps deliver up to 180 gpm (gallons per minute) of coolant flow at 8000 RPM, yet consume just 2.26 horsepower at 4000 RPM! Each Stewart pump is hand assembled and tested at 10,000 RPM. These Stage 1 pumps use brand new, original equipment iron castings are internally engineered for performance and reliability. This water pump features a 3/4" heavy-duty bearing and a 5/8" shaft.

Edelbrock

## 1969-79 Aluminum Water Pump

Edelbrock Victor Series water pumps provide maximum cooling for the street and race track. They are ideal for preventing overheating in "hot" street machines. Using state-of-the-art technology, Edelbrock has designed the "super cooling" water pumps to provide maximum flow, maximum pressure and equal distribution to both sides of the block within 1%. These high-performance pumps flow in only one direction for optimum efficiency. The casting's computer designed internal passages and precision powdered metal impeller produce the maximum flow rate possible. Includes backing plate and gaskets.

**Important:** This pump is designed for the 1969-79 Pontiac 389-455. It features a 5/8" pilot shaft with 3/4" ball bearing and 11 bolt housing with back plate. Dimension from the block surface to hub face is 4-1/2".

Pfison

## 1969-81 High Volume Water Pump

Increase Coolant Flow up to 30%! This high-performance, high volume water pump features balanced distribution and improved efficiency, close tolerance impellers that increase coolant flow up to 30% over stock pumps. This increases the pressure within the block to help prevent hot spots and steam pockets. Pumps are made with high-quality aluminum castings, heavy-duty bearings and large diameter shafts making these pumps the top of the line in performance water pumps. Direct factory replacement with eleven bolt mounting and 4-1/2" hub height.

**Note:** Not for short water pump applications.

## 1977-87 Performance Water Pump

These "super cooling" pumps are computer designed to deliver more flow at a higher velocity. They're the ideal choice to prevent overheating in any performance vehicle. Precision cast metal impellers have extra large vanes for the maximum flow rate possible, ensuring adequate pressure and volume even at lower engine speeds. They feature a 5/8" pilot shaft. Choose from three popular finishes.

## Chevrolet Electric Water Pump

Eliminates unnecessary weight and impeller drag experienced at high RPM, pumps up to 35+ gallons of water per minute, and delivers the cooling that can make the difference between a win and second place! Durable, but lightweight die-cast aluminum, epoxy powder coated for corrosion resistance in the color of your choice. Race or street. Draws 6 amps. Mounting hardware and fitting for water pump is included.

## The Original Electric Water Pump Drive Set

The electric water pump drive set was designed to alleviate the power drag produced by conventional pulley drive units. A heavy-duty electric motor, turning at approximately 1500 RPM, is more than adequate to fulfill cooling needs without draining precious horsepower from the engine. This unit can be turned on and off manually, during a run, or before and afterwards, even with engine off. The set is complete with motor mounting bracket, extra long bolts, spline pulleys, drive belt, wiring, and switch. You supply the fan of your choice.

JT10170

JT10170 - underside

## 1967-02 Thermostat

Reduced engine temperatures add life to your engine and provide a denser air/fuel mixture which helps produce more horsepower. Consistent control of engine temperature allows and engine to operate at its peak efficiency no matter what the driving conditions. The factory 195 degree thermostat simply cycles open and closed, this reduces cooling efficiency in any engine. With the JET 180 degree thermostat you get consistent engine cooling and a precise metering of water throughout the engine. Constructed of stainless steel.

HYPERTECH

HT1014

## 1982-02 Low Temp Thermostat

The Hypertech PowerStat™ low temperature thermostat can improve performance by increasing the mass flow rate volume of intake air, and reducing the engine's tendency to detonate. Used in an engine controlled by a computer to ensure consistent performance.

16400

## High Flow Thermostat

These high flow thermostats are engineered to warm the engine to a proper operating temperature without making it run hot enough to lose power. The "balance sleeve" design equalizes the pressures exerted on the thermostat, which counters the tendency of high volume water pumps to hold a thermostat closed. Fits 1967-92 Pontiac or Chevrolet engines.

## Glass Thermostat Assembly

This unique thermostat assembly allows you to see your coolant when the thermostat opens and how far it opens on a unique gradient scale without ever removing the radiator cap! Made from billet aluminum and the same specialized heavy borosilicate glass used in steam boilers. Use with any Chevrolet water outlet. Available for Oldsmobile 330-455 V8 engines as well as 1957 and newer Pontiac V8 engines except for tri-power models. Made in USA.

**Important:** Index pointer and gradient scale only included in sets with thermostat. Bolts and water neck not included.

MOROSO

## Water Outlet Restrictors

If coolant travels too fast, it doesn't absorb enough heat inside the engine to properly cool down as it passes through the radiator. That's why it is still important to restrict coolant flow in applications where a thermostat isn't desired. These restrictors come in a set of three with a 5/8", 3/4", and 1" hole to allow adjustment for optimum cooling. Each 2-1/8" plate is made from anodized aluminum and fits under the water outlet in place of the thermostat.

## Keep Your Firebird COOL

with Vintage Air Gen-IV "Fly-by-Wire"  
"No Cable/Vacuum Hose" AC Systems

The Gen-IV systems feature all electronic controls requiring no cables, capillary tube or vacuum connections. They are truly "fly-by-wire" systems that use separate heating and cooling coils for superior performance. The internal air control doors are servo operated to provide infinite dash, floor and defrost blending.

R964468

### Sets Include:

- Evaporator/Heater/Defroster Assembly
- Electronic Heater Control Conversion
- All Ducts and Vents
- Super Flow Condenser
- Sanden Compressor
- Compressor Mounting Brackets
- All Hoses, Lines, Brackets, & Hardware
- Dryer
- Stamped Steel Fresh Air Cover
- Complete Set of Instructions

## Sure Fit Climate Control Set

Make your hot ride a lot cooler with modern climate control! This comprehensive set features fully electronic "fly-by-wire" controls, high capacity plate and fin cooling coil, brass parallel flow heater coil, and an evaporator assembly that mounts behind the stock dash. If you own a 1967-81 Firebird, you can replace or install a behind the dash air conditioning system that will have an original appearance as well as a fully functioning heater and defroster. Feel the comfort of cool air without sacrificing the original look of your dash! Evaporator sets, hose sets, and condenser sets with dryer are available for applications where AC compressors and bracket sets are not needed.

**Important:** May require additional engine pulleys not included with sets. V-belts and refrigerant not included. 1967-68 AC center dash panel is not included.

**Note:** Special order, must be prepaid.

## 1967-81 Aluminum AC Compressor

This 10 cylinder "bolt-in" direct replacement for the GM Frigidaire/Harrison A6 compressor is specifically designed to fit the A6 mounting brackets and AC hose assemblies. Smoother, quieter operation, less vibration and engine drag, increased fuel mileage, and cooling system performance. 52% lighter than the original A6. Designed to accept both superheat and high pressure safety switches. This compressor is supplied with a single groove clutch and has a 112cc displacement. Pre-oiled and compatible with R12 or R134A. Includes hardware and instructions. **AP2201 1967-81 A6 w/single pulley 389.99 ea**

### ACDelco

## 1993-02 AC Compressor Hose

Genuine ACDelco air compressor hose connects to the rear of the air conditioning compressor.

66897 V6 and V8 ..... 29.99 ea

## Flywheel Turner

This tool hooks into the flywheel teeth to rotate the crankshaft. Use when working on clutches, transmissions, installing rings, or other jobs which require the crankshaft to be in a specific position. Spring tension aids tool engagement on the flywheel.  
X2270 ..... 37.99 ea

## Mechanic's Stethoscope

Locates the source of engine noise quickly. Listen for trouble by tracing the sound of flowing water, oil, gas, or steam. Identify piston slap, worn gears, faulty valves, water pump failure, and more! The handle is completely shock resistant. Disassembles for storage.

Note: Keep this tool away from moving, rotating and electrical components.

X835 ..... 19.99 ea

## 1964-79 Engine Lift Hook

This original style lift hook is designed for 1964-79 Pontiac V8 engines. The hook mounts to the front of the timing chain cover on the right hand upper bolt. Manufactured from heavy gauge silver zinc-plated steel.

A8700177 1964-79 ..... 7.99 ea

## Chevrolet Engine Lift Brackets

Lift brackets were installed on the intake manifold for quick/easy access on the production line. Installing these engine lift brackets will help make removing and installing the engine easier by providing strong lift points. Available for small block (SB) Chevrolet V8 engines. 1 pair required per engine. 1256601 1976-79 SB... 26.99 pr

## The Engine Tilter

Works with standard engine hoists to provide an additional axis to maneuver adjust the angle of the engine with a turn of the handle! The engine tilter is rated for 1200 pounds, made from steel, weighs only 14 pounds, and comes fully assembled. Includes an upper lap link and four 20" chains. Made in USA.  
MN2087 ..... 179.99 ea

# Engine Mounts

## 1967-81 Engine Mount Set

These engine mount sets are for the 1967-81 DSE subframe. The LS engine mount bracket set enables easy, no hassle installation of LS engine into the DSE hydroformed subframe. These mounts locate the engine in the proper location, provides the correct method of adapting the 3 bolt engine mounts to the 4 bolt LS engine, and requires no fabrication. The DSE SB/BB/LS mounts include the following: frame side engine mount stands, CNC aluminum adapter plates, polyurethane engine mounts and hardware. For 1967-69 subframes use the stock Pontiac frame and motor mounts and for the 1970-81 subframes use DSE Pontiac mounts that include brackets only.

**Important:** The 1970-81 engine mount set moves the engine 1" rearward of the stock location and lower for better hood clearance. The rearward location is required to maintain optimal steering geometry. This improves weight distribution, but also affects shifter location, driveshaft length and header fitment.

<b>LS Engines</b>

## Adjustable LS Motor Mount Adapter Set

Adapter allows the installation of LS engines into 1967-72 Firebird models using a standard 3 bolt motor mount. Position the engine in either the original location or 1"-2" forward to allow for transmission bellhousing clearance. Mounting locations allow proper driveline alignment and an additional 1/2" of adjustment. Includes: engine mounting plates, adjuster plates, hardware, and instructions.

**Note:** Some aftermarket motor mounts may require mounting holes enlarged to 7/16". Some OEM style mounts may require additional clearance of the cast rubber portion to allow full front to back adjustment of the adapter. Not for use with "clamshell" type mounts.

A9750010 adapter ..... 170.99 set

LS700200

LS700201

## FitRite™ LS Engine Mount Set

Set assists with swapping an LS series engine into your 1967-97 Firebird. The long adapter set allows the engine to move from 1/2" rearward (great for oil pan to crossmember clearance) or up to 3" forward for a full 3-1/2" of travel with a completely custom range of positions. Short adapter set moves the engine from 2-1/4" forward to 3-3/4" forward for a total of 1-1/2" of travel. These exclusive design, no-weld brackets are CNC laser cut steel and feature a durable black powder coated finish. Includes POLYPLUS™ engine mounts.

**Note:** The short adapter works well with the low mounted air compressor.

<b>Long Adapter</b>	2" rear - 3" forward.....	158.99 set
<b>Short Adapter</b>	2-1/4" fwd - 3-3/4" fwd	158.99 set

## LS1/LS6/Vortec Engine Mount Plates

These engine mount plates are needed when installing an LS1, LS6, or Vortec engine into a vehicle that was originally equipped with a small block engine. Available in a 4 piece set that includes the plates and motor mount pads or the plates can be purchased separately. Includes Grade 8 hardware.

4592	2 plates with 2 pads	94.99 set

## 1967-82 LS Conversion Set

This unique conversion system takes the guesswork out of installing an LS engine into a 1967-92 Firebird. The 1967-69 sets are designed to use the LH8 oil pan, the 1970-81 sets are designed to use the CTS-V or 1998-02 Firebird oil pan, and the 1982-92 sets are designed to use the 1998-02 Firebird oil pan, positioning the engine and transmission with room for necessary drives, heater boxes, power steering and brakes, and exhaust systems. The motor mounts and transmission crossmember bolt directly to the factory mounting locations. Sets are available for T56, 4L60E, and 4L80E transmissions with your choice of red or black urethane transmission and motor mounts. Each set includes: a transmission crossmember, engine and frame mounts, detailed instructions, and mounting hardware. All mounts are protected by a manufacturer's lifetime replacement warranty. Made in USA.

**Important:** Transmission tunnel modification may be required for T56 applications. Vehicles that did not originally have a V8 engine may require drilling new frame bracket mount locations.

**Note:** Nothing the frame is required when using 1998-02 Camaro accessory drive with low mount AC compressor. Some modification may be required.

## Motor Coater Engine Refinishing Set

KBS Motor Coater engine paint set has everything you need to do a superior job when you paint your engine, and even includes the step-by-step instructions needed to help you do it right. Motor Coater is easy to apply, offers superb coverage and yields a self-leveling professional looking finish brushed or sprayed. These engine enamels provide deep, rich pigmented colors for excellent coverage. Your engine will be a show stopper at this DIY price... too bad it's kept under the hood! First, KBS special engine cleaner and degreaser eliminates all dirt, grease, and oil. Next, use the RustBlast to dissolve rust and prep the metal. Then, rustproof and top coat your engine with KBS Motor Coater. All of this comes in one convenient set with thinner, gloves, a brush, and a stir stick.

# March Performance Pulleys

## Pontiac V8 Serpentine Conversion 1967-up 326, 350, 389, 400, 455CI

Customize your engine compartment and virtually eliminate the risk of thrown belts with this one belt serpentine system. Each part is machined from solid 6061-T6 aluminum and finished with a maintenance-free clear powder coated to eliminate the need for polishing. Features stainless steel rods with chromoly ends to keep belt tension perfect. Made in USA.

**Important:** Sets requires a 1968 or newer balancer (without V-groove), and a 1969 or newer standard rotation water pump (4-1/2") and an 11 bolt timing cover. Keyway type Saginaw ps pumps were used on 1971-74 Firebirds, press fit type Saginaw ps pumps were used on 1975-79 Firebird models.

**Note:** Serpentine belt not included.

### Alternator Only Sets Include:

- Crank pulley
- Water pump pulley and nose cover
- Alternator pulley with fan and nose cover
- Alternator bracket with stainless steel tensioner

### Power Steering Sets Include:

- Power steering bracket and pulley
- Power steering front and rear mounting brackets
- Idler pulley with cover

### Air Conditioning Sets Include:

- AC clutch cover
- AC front and rear mounting brackets
- Stainless steel tensioning rod
- Dual idlers with covers
- All necessary hardware

### All Inclusive Sets Include:

- Chrome Tuff Stuff or billet alternator
- Chrome Tuff Stuff AC compressor
- Natural finish Edelbrock water pump
- Chrome Tuff Stuff or billet ps pump

### Billet Remote Reservoir

This billet aluminum power steering reservoir is designed for March Performance Pulley sets that use GM type 2 power steering pumps. Includes cap and billet aluminum mounting bracket.

MP4500	billet remote reservoir.....	236.99 ea
--------	------------------------------	-----------

### Pantec V-Groove Pulley

Performance Series pulleys increase horsepower by reducing accessory drag. 12.5-15 additional HP at the rear wheels is typical. Designed for normal street driving, these CNC-machined pulleys run perfectly true which eliminates belt throwing. Made of 6061-16 aluminum for extra strength and wear resistance. Crank and water pump pulleys measure 6-1/8" in diameter and alternator pulleys measure 2-11/16" in diameter. Finished with a "No Polishing" clear powder coated.

**Important:** Set requires 1968 or newer damper, 1969 or newer water pump (4-1/2" long) and an 11 bolt timing cover. Optional power steering pulley, overdrive crank pulley and alternator fan sold separately.

## 1977-87 Performance V-Belt Pulley Set

March performance under drive V-Belt pulleys can free up 12-15 horsepower at the rear wheels. March performance pulleys eliminate belt twisting and reduce accessory drag. They also aid in cooling by increasing water pump speed. Designed with "no polishing needed" clear powder coated. All sets include: crank pulley, water pump pulley, and alternator pulley with cover. Fits 1977-87 Chevrolet style 267ci, 305ci, 350ci small block engines.

**Important:** \*May require change to aftermarket water pump for clearance.

## Warning Concerning Crankshaft Pulleys

Stock replacement, aftermarket stamped steel or cast iron pulleys are not designed to exceed 400 horsepower or 6000 RPM. Using reproduction pulleys on engines in excess of these limits may result in catastrophic disintegration of the pulley causing severe damage to the engine, cooling system and body parts. Classic Industries® assumes no liability for damages caused by improper usage of pulleys. Please be sure to install the pulley properly to avoid damages that could occur from improper installation or exceeding the recommended RPM limitations.

66511\* 350 ..... 80.99 ea

## 1977-87 Chevrolet SB Harmonic Balancer

Pro/Race high-performance harmonic dampers are direct replacements for factory cast iron units which may fracture or disintegrate at high RPM. Pro/Race dampers are ideal for the additional torque loads from belt driven superchargers. The STREET damper features special spines to enhance bonding between the elastomer, inner hub, and outer ring to prevent any outer ring radial movement, perfect for engines making between 350 to 400 horsepower. On the RACE damper, the elastomer is bonded to the steel hub and ring to endure sustained high RPM conditions. Externally balanced balancers feature weights bolted in place which may be removed for neutral or internally balanced application. Internally balanced balancers can be used on an external application simply by ordering the correct engine specific weights and bolting them in place.

Note: \*HD100016 and HD100019 are NOT drilled to accept counterweights.

### 1977-87 Chevrolet 267-350ci SB Engine

# Engine Timing Components

## 1967-87 Accu-Drive® Camshaft Gear Drive

The Accu-Drive® gear system transmits power from the crankshaft gear to a full floating main idler gear which drives the camshaft gear. A unique feature of the Edelbrock Accu-Drive® system is the ability of the main idler gear to float to an optimum position between the crankshaft and camshaft gears.

**Important:** Not for use on stock Chevy hydraulic roller lifter cam equipped engines. Accu-Drive® gears are not recommended for use above 7000 RPM or on computer controlled vehicles with knock sensors. On some late model small block engines, it will be necessary to grind or machine the block for clearance.

# Timing Components

Edelbrock

## 1977-86 Aluminum Timing Cover

Edelbrock die-cast polished timing covers include pan seal, Allen head bolts, gaskets, and washers. These timing covers are a great way to dress-up any Chevy engine. Complete the look with Edelbrock valve covers, and air cleaners.

E4240 1977-86 Chevy small block... 75.99 ea

## LS Engine 2 Piece Timing Chain Cover

This 2 piece aluminum timing chain cover with fit any LS1, LS2, LS3, LS6 engine. This has the sensor hole where applicable. With 2 pieces you can change cams without taking off the harmonic balancer. Includes mounting hardware. You can reuse the cover gasket. Sold as a set. Available in polished or black.

**Important:** Set does not include the crankshaft seal. Use G13214 LS front crankshaft seal - all LS engines.

**Note:** Covers will not fit the LS7 engines.

### 2 Piece Timing Chain Cover

**Without Sensor Hole**

### High Energy Cam and Lifter Set

COMP CAMS' High Energy designs are totally streetable cams. They will produce 10 to 30% more power than a stock cam throughout the RPM range. Each cam has a particular RPM range in which it works best. By selecting the cam that best suits your driving needs, exceptional power increases can be expected. High Energy™ Cams will not affect any vacuum or power accessories such as power brakes, air conditioning or steering. This full set includes camshaft, lifters, chain set, valve springs, valve spring retainers, valve locks, valve stem seals, assembly lube, instructions, and decals.

#### 1967-81 Pontiac 301-455ci Engines

**Mid Street 301-400ci Pontiac**  
Operating range between 800 to 4800 RPM. Features: .425 valve lift, 252 degree duration. For the daily driver.  
222060D ..... 498.99 set

**Highway Hauler 326-455ci Pontiac**  
Operating range between 1200 to 5200 RPM. Features: .440 valve lift, 260 degree duration. Great on the highway.  
222061D ..... 498.99 set

**Hot Street 326-455ci Pontiac**  
Operating range between 1500 to 5500 RPM. Features: .454 valve lift, 268 degree duration. Great on the highway.  
222062D ..... 498.99 set

**1977-86 Chevrolet 267-350ci engines**  
**Mid Street 267-350ci Chevy**  
Operating range between 800 to 4800 RPM. Features: .425 valve lift, 252 degree duration. For the daily driver.  
222002D ..... 459.99 set

**Highway Hauler 305-350ci Chevy**  
Operating range between 1200 to 5200 RPM. Features: .440 valve lift, 260 degree duration. Great on the highway.  
222003D ..... 459.99 set

**Hot Street 305-350ci Chevy**  
Operating range between 1500 to 5500 RPM. Features: .454 valve lift, 268 degree duration. Great on the highway.  
222004D ..... 459.99 set

### Magnum Cam and Lifter Set

COMP CAMS' Magnum cam is a great cam for high-performance driving in street machines. Provides 30-70% more horsepower and a rough and ready to rumble idle. This is the largest cam you can use with a stock torque converter. The Magnum™ will not affect power accessories, but should be used with headers and a 4 barrel carburetor. This is the perfect cam for cruising. In order to protect your camshaft warranty and for maximum performance benefit, we recommend replacing lifters with a matched set manufactured by Comp Cams.

#### 1967-81 Pontiac 301-455ci Engines

**Pro Street 326-400ci Pontiac**  
Operating range between 1800 to 5800 RPM. Features: .470 valve lift, 270 degree duration. High-Performance.  
222063D ..... 579.99 set

**1977-86 Chevrolet 305-350ci Engines**  
**Pro Street 305-350ci Chevy**  
Operating range between 1800 to 5800 RPM. Features: .470 valve lift, 270 degree duration. High-performance.  
222005D ..... 459.99 set

### High Energy Cam and Lifter Set

COMP CAMS' Xtreme Energy cams can be used in any street or strip application where both throttle response and top end horsepower are desired. Hydraulic lift tappet cam has an operating range of between 1300 to 5500 RPM. Good mid-range with noticeable idle. Features: .462 intake valve lift, .470 exhaust valve lift, 262 degree intake duration, 270 degree exhaust duration. This full set includes camshaft, lifters, chain set, valve springs, valve spring retainers, valve locks, valve stem seals, assembly lube, instructions, and decals.

#### 1967-81 Pontiac 326-455ci Engines

**Street/Strip 326-455ci Pontiac**  
Operating range between 1300 to 5500 RPM. Features: .462 degree intake/.470 degree exhaust valve lift, and 262 degree intake/.270 degree exhaust duration. Great for any street/strip application.  
222064D ..... 498.99 set

**Xtreme Street/Strip 326-455ci Pontiac**  
Operating range between 1600 to 5800 RPM. Features: .477 degree intake/.480 degree exhaust valve lift, and 268 degree intake/.280 degree exhaust duration. Great for street/strip application where both throttle response and top end power are desired.  
222065D ..... 579.99 set

**1977-86 Chevrolet 305-350ci engines**  
**Street/Strip 305-350ci Chevy**  
Operating range between 1300 to 5600 RPM. Features: .462 degree intake/.469 degree exhaust valve lift, and 262 degree intake/.270 degree exhaust duration. Great for any street/strip application.  
222006D ..... 459.99 set

**Xtreme Street/Strip 305-350ci Chevy**  
Operating range between 1600 to 5800 RPM. Features: .477 degree intake/.480 degree exhaust valve lift, and 268 degree intake/.280 degree exhaust duration. Great for street/strip application where both throttle response and top end power are desired.  
222007D ..... 459.99 set

### Pontiac Factory 400 or 455ci

Known to GM as part #9794041, this is COMP CAMS version of the hydraulic cam that provided 366HP to the 400 in 1968. It was also used in the 400ci in 1969, providing 345/370HP and the 1970 455/370HP. Fits 326-455ci engines. Features: 516 lift with 230 degree intake and 240 degree exhaust duration.

#### Camshaft Only

222070A ..... 229.99 ea  
**Cam and Lifters** - includes camshaft, lifters, instructions, and decals.

222070B ..... 297.99 kit  
**Full Set** - includes camshaft, lifters, chain set, valve springs, valve spring retainers, valve locks, valve stem seals, assembly lube, instructions, and decals.  
222070D ..... 594.99 kit

### Performer Plus Camshaft Set

Performer® Plus camshaft packages are designed for optimum torque from the low end to the mid-range. Performer® Plus camshaft packages match with Performer® manifolds for vehicles operating from idle to 5500 RPM. All camshafts include hydraulic lifters, assembly lube, and instructions.

Note: \*These cams are 50 state legal.

#### 1967-81 Pontiac 326-455ci Engines

**Performer Plus 326-455ci Pontiac**  
Operating range from off-idle to 5500 RPM. Features: .420 degree intake/.442 degree exhaust valve lift, and 204 degree intake/.214 degree exhaust duration.  
E2157 ..... 366.99 set

#### 1967-84 Oldsmobile 350-403ci Engines

**Performer Plus 350-403ci Oldsmobile**  
Operating range from off-idle to 5500 RPM. Features: .448 degree intake/.472 degree exhaust valve lift, and 204 degree intake/.214 degree exhaust duration.  
E3712 ..... 389.99 set

#### 1977-86 Chevrolet 305-350ci engines

**Performer Plus 305-350ci Chevy**  
Operating range from off-idle to 5500 RPM. Features: .420 degree intake/.442 degree exhaust valve lift, and 204 degree intake/.214 degree exhaust duration.  
E2102\* ..... 228.99 set

### Performer RPM Camshaft Set

Performer RPM cams provide power from 1500 to 6500 RPM. These hydraulic lift camshafts are dyno-matched to Performer RPM manifolds for high RPM horsepower while maintaining acceptable low end torque. With 10-12 inches of manifold vacuum at idle, Performer® RPM cams have more lift and duration than most street camshafts.

#### 1967-81 Pontiac 326-455ci Engines

**Performer RPM 326-455ci Pontiac**  
Operating range between 1500 to 6500 RPM. Features: .470 degree intake/.470 degree exhaust valve lift, and 231 degree intake/.240 degree exhaust duration.  
E1757 ..... 366.99 set

#### 1967-84 Oldsmobile 350-403ci Engines

**Performer RPM 350-403ci Oldsmobile**  
Operating range from off-idle to 5500 RPM. Features: .496 degree intake/.520 degree exhaust valve lift, and 224 degree intake/.234 degree exhaust duration.  
E17112 ..... 389.99 set

#### 1977-86 Chevrolet 305-350ci Engines

**Performer RPM 305-350ci Chevy**  
Operating range between 1500 to 6500 RPM. Features: .488 degree intake/.510 degree exhaust valve lift, and 234 degree intake/.244 degree exhaust duration.  
E17102 ..... 309.99 set

ENGINE & COMPONENTS

# Chevy Engine Components

**Each Set Contains 12 Groups of Fasteners:**

- intake manifold bolts
- valve cover bolts
- thermostat housing bolts
- alternator bracket bolts
- distributor bracket bolts
- motor mount bolts
- oil pan bolts
- coil bracket bolts
- header bolts
- front cover bolts
- water pump bolts
- fuel pump bolts

## 1977-95 Engine and Accessory Fasteners

It's easy to assemble a show quality engine when you use ARP's handy engine and accessory fastener set. Virtually everything you need comes organized in one convenient package! More importantly, each and every fastener is superior in strength to the OEM bolts. Choose from heat treated 8740 chromoly steel with black oxide finish or corrosion resistant polished stainless steel. Both materials are rated at 170,000 psi tensile strength and come in both Hex and 12 point heads.

*Note: Sets are designed for carbureted engines. 1987 and newer EFI applications may require the purchase of additional fasteners. Each set contains 12 groups of fasteners.*

**1977-86 Chevrolet Small Block**

- AR5981 black oxide Hex head..... 116.99 set
- AR5971 black oxide 12 point..... 116.99 set
- AR5961 stainless Hex head..... 148.99 set
- AR5951 stainless 12 point..... 148.99 set

**1987-95 Chevrolet SB w/Headers exc. LSI & LS6**

- AR5982 black oxide Hex head..... 147.99 set
- AR5972 black oxide 12 point..... 156.99 set
- AR5962 stainless Hex head..... 221.99 set
- AR5952 stainless 12 point..... 238.99 set

**Chevrolet Small Block LTI/LT4 with Headers**

- AR5983 black oxide Hex head..... 169.99 set
- AR5973 black oxide 12 point..... 178.99 set
- AR5963 stainless Hex head..... 257.99 set
- AR5953 stainless 12 point..... 270.99 set

**1996-02 Vortec with Headers exc. LSI and LS6**

- AR5984 black oxide Hex head..... 149.99 set
- AR5974 black oxide 12 point..... 178.99 set
- AR5964 stainless Hex head..... 222.99 set
- AR5954 stainless 12 point..... 234.99 set

**Pontiac 350-400-455**

- AR5998 black oxide Hex head..... 140.99 set
- AR5997 black oxide 12 point..... 140.99 set
- AR5996 stainless Hex head..... 173.99 set
- AR5995 stainless 12 point..... 179.99 set

## Head Bolts

High-performance head bolts are available with a reduced wrenching Hex or 12 point and wide area flanged head retuning. All high-performance series bolts are 180,000 psi (which is 15% stronger than Grade 8) and sets include hardened parallel ground washers.

- Hex Cast Iron Head Bolts**
- Chevy Small Block  
AR134361 23 degree..... 85.99 set
- 12 Point Cast Iron Head Bolts**
- Chevy Small Block  
AR134371 23 degree..... 92.99 set

## Replacement Lifter

These lifters will fit 1977-92 small block Chevrolet engines and are offered in your choice of hydraulic or mechanical depending on your particular application.

TVL817 hydraulic.....	5.99 ea
TVL43 mechanical.....	6.99 ea

## Poly Locks for Roller Rockers

Poly locks are designed for use specifically with full roller rockers featuring a set screw locking device to ensure they remain secure. Set of 16.

66935 for 3/8" studs.....	28.99 set
66936 for 7/16" studs.....	25.99 set

## Lifter Valley Oil Baffle

This aluminum lifter valley baffle simply snaps into place in the lifter valley, shielding the bottom of the intake manifold from hot oil to keep incoming air cool and dense. It also keeps excess oil out of the valve covers and holds lifters in their bores in case of pushrod or rocker arm failure.

*Note: Due to minor variations in block castings minor trimming may be required. Not for use with roller lifters.*

22500 small block Chevy baffle.....	50.99 ea
225100 big block Chevy baffle.....	50.99 ea

## Valvetrain Oil Deflector

Use this lightweight aluminum deflector to redirect oil from your small block Chevy pushrods directly to the rocker arm fulcrum balls for better lubrication, less wear and longer valvetrain life. Mounts easily to stock rocker arm studs with the supplied hardware. Sold in pairs.

*Note: Installation requires poly locks and tall valve covers.*

267700 small block oil deflectors.....	47.99 pr
--	----------

## Aluminum Roller Rockers

The needle bearing fulcrum and roller tip design unleashes power while lengthening valvetrain life and reducing valve stem tip wear. Small block sets are available for engines with stock 1.5:1 ratio arms, or performance enhancing 1.6:1 arms. For small blocks through 1986, a combination of eight 1.5:1 arms and eight 1.6:1 arms is available to allow greater air flow on either the intake or exhaust ports. Sets include 16 rockers with poly locks.

- Note: \*1987 and later. Check pushrod clearance and alignment, spring coil bind, piston to valve clearance and valve timing when modifying the valvetrain.*

## Early HD Roller Rockers

Set of 16 full roller rockers designed for up to 10,000 RPM. This heavy-duty design features an oversized body and fulcrum with a triangulated profile for additional rigidity and strength. Will accommodate most oversized valve springs. American made roller bearing are in self-contained bearing cups for extra low friction wear. Available in the stock 1.5:1 pivot ratio, or, 1.6:1 ratio for increased horsepower and torque. Fits small blocks through 1986 with 3/8" or 7/16" rocker studs.

*Note: Check for pushrod clearance and alignment, spring coil bind, piston to valve clearance and valve timing when modifying the valvetrain to exceed factory specs.*

# Gaskets & Engine Hardware

## Performance Head Gaskets for Chevrolet Engines

Mr. Gasket head gaskets are one of the most advanced, tested and proven in the performance market today and earned the respect of many professional engine builders. A variety of gasket materials are available to meet your specific needs.

### Mr. Gasket Ultra-Seal

The Ultra-Seal head gasket has a five layer composite construction and is coated with high temperature silicone to ensure seal of engine fluids. It's graphite core has excellent thermo-conductivity, transfers heat away from hot spots in head to coolant passages, preventing gasket burn out. The Ultra-Seal head gasket provides excellent stability, compressibility, high temperature endurance and will not Brinell (indent) aluminum cylinder heads.

**.028" Comp. Thickness**  
71134 1977-91 305-350, 4.130" bore... 51.99 ea

**Mr. Gasket MLS (Multi-Layered Steel)**  
The MLS head gasket is manufactured from Viton rubber coated stainless steel layers and is stress formed embossments seal extreme cylinder pressure. The MLS head gasket provides excellent stability and reduces cylinder bore distortion. Ideal for supercharged, turbo charged, nitrous, and extreme compression ratios.

**.040" Comp. Thickness**

### Mr. Gasket Steel Shim

The Steel Shim head gasket is manufactured from .020" steel shim stock and is stress formed embossments seal extreme cylinder pressure. Make thinner than OE head gasket, increases engine compression and coated with high temperature silicone to ensure seal of engine fluids.

**Note: Do not use with lightweight 305 heads.**

**.020" Comp. Thickness**

## Stamped Roller Rocker Set

Stamped steel rocker arms feature roller tips for reduced friction, and long slots for use with cams that have lift specs higher than stock for additional clearance at the rocker stud. Available in the stock 1.5:1 pivot ratio, or a performance enhancing 1.6:1 ratio for increased horsepower and torque. Easy installation requiring no special tools and will fit under stock valve covers. Fits small block Chevrolet engines through 1986 with 3/8" rocker studs. Set of 16 rockers with pivot balls and nuts.

**Note: Check for pushrod clearance and alignment, spring coil bind, piston to valve clearance and valve timing when modifying the valvetrain to exceed factory specs.**

## 1967-79 Pontiac V8 Performer RPM Heads

Patterned after the 1969-70 Ram Air IV Pontiac cylinder head. Produces outstanding horsepower with excellent low speed torque and throttle response. 87cc combustion chambers are designed to maximize performance with low octane fuel and streetable compression ratios. The 72cc version is for higher compression engines. 5/8" deck for durability and head gasket retention.

**Important:** Bolt set #E8556 fits Edelbrock heads manufactured before 3/15/02. #E8549 fits Edelbrock heads manufactured after 3/15/02. '50 state legal (E.O. #D-215-33).

## 1967-79 Performer Heads with D-Port Exhaust

Designed for 1967-79 389, 400, 421, 428, and 455 cid V8 Pontiac engines with a 4.060" or larger bore. Available in three dual quench combustion chamber sizes, including 65cc, 72cc, and 87cc; the 72cc combustion chambers provide a 9.5:1 compression ratio when used in conjunction with flat top pistons. Features: 2.11" intake and 1.66" Exhaust valve sizes, 1.77" valve will fit in the exhaust seat insert. Fully CNC Ported 72cc or 87cc Combustion Chamber, or "As Cast" 65cc Chamber. Heads sold individually.

**Important:** These heads are for 4.060" and larger bore sizes: 350 cid engine may require notching the block for valve clearance. Three head bolt bosses are raised higher than the standard D port heights and will require head bolt set #E8561 to install these heads.

**Note:** Shipped overweight.

## 1977-86 Small Block Performer Heads

Designed for 1977-86 small block Chevys, these heads have the same powerful design and combustion chambers as the straight plug Performer RPM heads plus an exhaust crossover passage for emissions equipment compatibility. These are 50 state street legal heads. Performer heads with 64cc combustion chambers improve performance and retain stock compression ratio on 1970 and earlier small blocks. Hardened pushrods required.

**Important:** When using hot air choke carburetors and Performer manifolds with these heads, choke set E1932 is required. When using stock rockers on these heads, 100" longer pushrods are required. These heads may not be used on engines with less than 4" bore except with cams having less than 450° valve lift.

**Note:** Shipped overweight.

## 1977-86 SB Performer RPM Head

Designed for non-emissions 1977-86 small block Chevys. Performer RPM heads with 64cc combustion chambers improve performance and retain stock compression ratio on 1970 and earlier small blocks. Available in straight plug configuration to clear all types of exhaust headers or in angled plug configuration. Hardened pushrods required.

**Important:** When using stock rockers on these heads, 100" longer pushrods are required. These heads may not be used on engines with less than 4" bore except with cams having less than 450° valve lift.

## 1987-95 SB Performer Centerbolt Heads

Designed for 1987-95 5.7L Chevy engines (except LT-1, LT-4, and LT-5) originally equipped with center bolt valve covers and the 1987 and later intake manifold bolt pattern. The high velocity intake runner is designed to work with either T.B.I. or T.P.I. systems. The 60cc combustion chambers maintain stock compression ratio when used with the recommended gaskets. These are 50 state street legal heads. Hardened pushrods required Available in straight plug configuration only.

**Important:** When using stock rockers on these heads, 100" longer pushrods are required. These heads may not be used on engines with less than 4" bore except with cams having less than 450° valve lift.

**Note:** Shipped overweight.

# PERFORMANCE FILTERS

601290

601310

## 14" Low Profile Chrome Air Cleaner

This air cleaner provides a low profile fit by dropping the filter 7/8" or 1-1/4" below the carburetor flange. 5-1/8" flange fits all popular 4 barrel carburetors. Your choice of 4 element heights are offered to fit a wide variety of applications. Note that the 7/8" drop will fit carburetors with electric choke mechanisms. Optional vent kit, item #851190 is available and sold separately. Total height listed below is the minimum clearance needed above the carburetor flange.

**Important:** \*Items marked with asterisk will not fit Edelbrock carbs with electric choke.

## Air Filter Oil & Clean/Degreaser Set!

K&N Air Filter Oil and Cleaner/Degreaser is the only oil and cleaner/degreaser specially formulated to work in combination with the cotton fabric in the K&N filter. The use of any other could void the filter's warranty and potentially harm the air filter's cotton material. The cleaner/degreaser works to dissolve the dirt buildup and old oil filter oil and can be washed away with water. It is environmentally friendly, and when used as directed, is safe on paint, chrome, cast aluminum, plastic, rubber and vinyl. Each set includes oil, cleaner/degreaser, and service decal. Your choice of 6-1/2 oz. aerosol spray or 8 oz. squeeze oil bottle is offered.  
995000 kit w/6-1/2 oz. aerosol oil..... 24.99 set  
995050 kit with 8 oz. squeeze oil..... 16.99 set

## Air Filter Sealing Grease

K&N Air Filter Sealing Grease seals the air cleaner assembly, eliminating the possibility of dirt, dust, and other particles from entering your carburetor from between the air filter element and air cleaner assembly. This is especially important if you will be operating your vehicle off-road or in extremely dusty conditions such as construction sites, etc. K&N Air Filter Sealing Grease resists heat and will not melt or run off.  
990704 6 ounce tube..... 19.99 ea

# Air Cleaner Products

**Air Cleaner Element**

A K&N air filter element can be washed up to 25 times before it is considered no longer serviceable. Even though the filter may not show outward signs of deterioration, it should be replaced after 25 washings. Excessive washings will deplete the tiny cotton hairs that crisscross the openings. The resulting damage will allow tiny dust particles to pass through. The elements listed below are designed for use with our K&N chrome and stainless steel air cleaner assemblies.

**XSTREAM** 663060 - complete assembly

polished rim blue rim red rim

**XStream Air Flow Top and Assembly**

If your engine still has its stock style filter element and air cleaner assembly, it most likely is not realizing its full horsepower potential. Restrictive elements combined with the turbulence inside a stock filter housing tend to choke off critical airflow. Put an end to this dilemma with K&N's XSTREAM air flow top or the XSTREAM air flow assembly and feed your engine all the air it can use. The result will be maximum horsepower! Choose from the complete assembly or just add the top to your existing round filter. Either way, you'll enjoy the benefits of a high flow element that cuts turbulence. Cleanable and reusable just like our other filters. Total height listed below is the minimum clearance needed above the carburetor flange.

---------	--------------------------------	---------

**Rubber Air Cleaner Base Gasket**

This Buna rubber air cleaner base gasket forms a positive seal between the air cleaner and the top of carburetors with a 5-1/8" neck. Designed for air cleaners with a straight lip, the gasket has a groove that fits over the lip for a superior seal against dust and debris. It can also be flipped and used on air cleaners with a rolled lip.

A9701350 2000-02..... 119.99 ea

## 1998-02 Cool Air Intake

Volant cool air intakes are all about providing performance while adding a look of style and attitude to your fuel injected Firebird. This is the only intake that draws cool air from outside the HOT engine compartment! This is accomplished by concealing the high flow gauze cone filter inside a roto-molded cool air box, forcing the intake to draw air through the fender and grill areas. This provides the coolest air charge to your fuel injection and creates the most horsepower possible. By isolating the air filter, it prevents excessive engine noise while still providing the optimum performance. Volant manufactures each cool air box with a stylish look and connects the components using high-performance silicone couplers.

## Valve Cover Bolt Set

These 8 piece bolt sets are offered for Chevrolet small block engines in a choice of chromoly steel with a black oxide finish or corrosion proof polished stainless steel. Choose between conventional Hex head bolts and washers or compact, easy access 12 point designs. The heads feature a wide base for better load distribution and sealing (helps prevent those pesky gasket leaks), while the compact head is easily accessed. All sets are shipped with the required flat washers and come with 1/4"-20 bolts except for the center bolted valve covers.

## 1977-86 Chevy Finned Valve Covers

Vintage Series valve covers are designed to fit all 1977-86 small block Chevrolet engines with perimeter bolt patterns. The die-cast aluminum construction ensures superb detail and reduces the chance of warped valve cover flanges and oil leaks. The valve covers stand 3-1/2" tall with pre-installed internal oil baffles on emission compliant models. The oil fill and PCV grommets are also included.

**Note:** If your engine has non-standard valvetrain components, such as a high lift camshaft, roller tip rocker arm, high lift ratio rocker arms, stud girdles, etc., there may be insufficient clearance.

# PCV Valves & Components

## 1967-92 PCV Valve

A PCV valve is a vacuum controlled metering device that regulates the flow of crankcase fumes in the positive crankcase ventilation system by allowing more flow at high speed than at low speed, and acts as a system shutoff in case of engine backfire to prevent an explosion in the crankcase. It is recommended to replace your PCV valves every tune-up. Fits 1967-92 six and eight cylinder Firebird models.

## Keep Your Oil Cleaner with an Adjustable PCV Valve!

## Dual Flow Adjustable PCV Valve

Stock PCV valves are not designed to work with modified high-performance engines due to their altered vacuum profiles. A mismatched PCV valve can cause oil to push out of your breathers, cause oil leaks, or contaminate your oil with piston blow by gasses. Now you can manage your crankcase pressure with this fully adjustable 6061-T6 billet aluminum dual-flow PCV valve. Once adjusted, the valve will provide sufficient crankcase ventilation during both idle and cruise. Valve fits 3/4" i.d. valve cover grommets and 3/8" i.d. PCV lines. An available adapter allows for installation on 3/8" i.d. inline applications. PCV valve set includes valve, vacuum gauge fitting, Allen wrench, and detailed instructions. Made in USA.

*Note: Not intended for use on pollution controlled vehicles.*

## Universal Crankcase Evacuation System

This universal crankcase evacuation system is designed for high-performance and racing applications. It replaces the standard PCV to air cleaner system by connecting to the exhaust system allowing exhaust pressure to pull the gasses from the crankcase. Includes two simple pipes with one way valves that weld to the header collectors and are connected to dual valve cover breathers.

*Note: Not for use on pollution controlled vehicles. For valve covers with 1-1/4" holes. Hoses are not included.*

## 1977-79 Trans Am Oil Filter Housing Bolts

Oil filter housing to engine block for 1977-79 Trans Am with 403ci Oldsmobile V8 engine. These bolts hold the oil filter housing to engine block and feature correct TR head markings. Sold as a 3 piece set.

TA4028 1977-79 Olds 403 ..... 6.99 ea

# Oil Pans and Components

## 1982-02 Genuine GM Oil Pan

Production Pontiac V8 engines were redesigned in 1986 with a leak resistant one piece rear seal. This change required a revised oil pan design to fit a new rear seal retainer which is bolted to the back of the engine block. As a result of these changes, oil pans and gaskets are not interchangeable between 1955-85 and 1986-up engines. If you have installed a crankshaft seal adapter on a block which is machined for a one piece rear seal, you must use an oil pan and gasket designed for 1986 and newer engines.

**Note:** Gaskets not included with oil pans and must be purchased separately.

## 1967-79 Pontiac 326-455 Oil Pans

Milodon stock replacement oil pans feature a distinctive gold-plating that is not only cosmetic, but also provides long-lasting protection against corrosion, inside and out. Every pan is 100% leak checked and block checked to assure the high standard of quality that Milodon is famous for. The low profile Street/Strip pan features oil control baffles designed to provide consistent oil pressure by subduing unwanted, power robbing oil movement. Fits Pontiac 326, 350, 389, 400, 421, 428, and 455.

## 1955-87 Retrofit LS Oil Pan

Holley's Retro LS oil pans are designed for maximum chassis and ground clearance on 1955-87 GM rear wheel drive V8 applications originally equipped with a rear sump oil pan. Each pan is made from machined cast aluminum and uses an original style oil filter and gasket. Features provisions for a factory style oil cooler and attachment points for the factory bellhousing. Set includes: sump baffle, pickup tube, sump plug, oil filter stud, and oil passage cover. H3022 LS Retrofit oil pan is designed for LS engine retrofit installation in a variety of GM muscle/classic car and truck models. H3022 LS Gen I F-Body Retrofit oil pan is designed specifically for LS engine installation in 1967-69 Firebird models. The H3022 oil pan may also fit other muscle/classic car and truck chassis where more engine to chassis clearance is required near the front half of the oil pan.

**Note:** Requires the use of LS3 dipstick and dipstick tube.

15503	1955-92	Chevrolet V8	107.99 ea

## 1986-91 V8 Engine Oil Cooler Lines

Reproduction V8 305/350 engine oil cooler lines for 1986-91 Firebird models. Made from aluminum. The original lines were steel which tend to rust and deteriorate.

A9701352	1986-91	124.99 pr
----------	---------	-----------

## 1976-92 Engine Saver Prefilter Screen

Add life to your engine with a prefilter screen for your oil filter. This stainless steel screen installs on top of conventional spin-on oil filters and traps debris down to the 280 micron range without restriction or loss in oil pressure, letting you examine particles from failing bearings that would normally be trapped in a filter, unseen.

223845	1976-92	SB Chevrolet	26.99 ea
--------	---------	--------------	----------

## 1976-92 Oil Bypass Eliminator

An oil bypass valve lets oil bypass the filter if pressure gets too high or the filter becomes plugged. For performance engines that often see increased oil pressure at high RPM, this can cause more damage than it prevents, due to the frequent circulation of unfiltered oil. This anodized billet aluminum adapter eliminates the bypass valve, preserving your expensive engine. For small block applications.

223775	1976-92	46.99 ea
--------	---------	----------

## 1976-92 Oil Return Screen Set

This oil return screen set is inexpensive insurance on any modified small block Chevy engine. The screens install in and over the oil drain holes in the lifter valley, trapping debris from valvetrain failure, keeping it out of the oil pan. Includes: galley plugs, screens, and a special epoxy for installation.

## FilterMag

FilterMag's powerful rare earth magnets trap and hold wear inducing metal particles smaller than 40-microns down to 1-micron that the filter cannot stop. The super strong magnetic force holds FilterMag to the canister. FilterMags are reusable and will reduce maintenance costs by extending the life of your oil. Fits steel oil filter canisters from 2.9" to 5.5" in diameter. The heavy-duty/racing FilterMags have a larger curve surface that allows for a stronger magnetic field and a stronger magnetic pull force, designed for more demanding situations. Flat style FilterMags are also available for automatic transmission pans and differential covers.

One Pour Boy Fits All These Containers!

## Pour Boy All Purpose Filler Spout

Pour Boy all purpose filler spout takes the place of funnels. With its unique multiple thread design, Pour Boy fits a variety of containers from oil bottles to antifreeze, windshield washer fluid to gas treatments, all with an airtight seal! Flow of the fluid is easily controlled by simply bending the spout. No more mess! No more fuss...and...no more funnels! 3 per package. RM1003 ..... 7.99 kit

## Engine Oil Coolers

Engine oil is designed to act as a coolant as well as a lubricant for your motor. If the engine oil is allowed to get too hot, horsepower drops, varnishes form, and the oil starts to break down, which can lead to premature engine wear. Flex-a-lite heavy-duty oil coolers can help prevent this by keeping oil temperatures down, helping to ensure longer life to engines and components, and reduce the stress created by high-performance engine modifications. Also suitable as a heavy-duty transmission fluid cooler. Includes -8, -10, and -12 interchangeable AN fittings with o-rings.

Important: Depending on application and setup, additional fittings or adapters may be required.

Note: Dimensions: width = 11"; depth without fan = 1-3/4", with fan = 4-1/4"; variable height, see height below in the line listings. \*Dual 6-1/2" fans.

# Oil and Oil Filters

## Synthetic Oil

Delivers superior protection and improves performance in four cycle gasoline and diesel engines. Increase horsepower and torque, save fuel and reduce heat, wear and emissions! It has unsurpassed oxidation stability that allows for extended oil drains and fewer oil changes, which saves time, money and reduces the impact on the environment. Royal Purple's motor oils for passenger cars and trucks are API licensed. Performance advantages come from a blend of synthetic oils plus Royal Purple's proprietary Synrelec technology. Compatible with other mineral and synthetic motor oils.

## Engine Break-In Oil

Royal Purple has developed an engine break-in oil formulated to allow optimal ring seal and protect rotating assembly components from initial start up wear. Contains highly refined mineral oil, preferred for engine break-in, with advanced additives containing high levels of zinc and phosphorus to optimize protection in flat-tappet and roller engines. Does not require the use of any other chemical additives. Royal Purple recommends using their high-performance motor oils after the engine is broken in for maximum engine performance.

## Break-In Oil

BR is 2+ petroleum based oil with superior break-in properties for flat-tappet engines. The special additive package promotes ring seal and provides maximum protection for cams and lifters during initial break-in. BR can also be used to break in roller cam engines, and as a general purpose dyno oil.

## Hot Rod Vintage Car Oil

Joe Gibbs Driven Hot Rod Oil is designed specifically for hot rods, street rods, and vintage cars. This formulation is used by thousands of racers while adding critical additives to protect engines. Designed specifically for older style historic car and hot rod engines. Joe Gibbs Driven Hot Rod Oil features high levels of zinc for wear protection as well as U.S. Military grade rust and corrosion inhibitors for storage protection.

## LS30 Synthetic Oil

This LS30 synthetic 5W-30 oil is specifically formulated for high-performance LS series engines such as the 6.2L LS3 or the 6.2L supercharged LSA. Using advanced synthetic-based oils, LS30 delivers high temperature and high shear protection, making it ideal for high-performance LS engines, especially those that have been turbocharged or supercharged.

## ACDelco Oil Filter

Genuine ACDelco oil filters for Pontiac Firebird engines. Designed with a steel core and a traditional mounting plate, each filter offers enhanced efficiency and consistent flow management to provide exceptional filtering performance for classic vehicles. The Professional Series is the modern day, blue ACDelco filter currently being offered by GM. Both styles feature a anti-drain back valve to keep the oil cooler full of oil (on cooler equipped vehicles). Fits 6 cylinders as well as V8 engines as indicated.

## Vintage Style Oil Filter with AC Logo

Genuine ACDelco original style oil filters for Pontiac Firebird engines. Vintage style filters feature original filter specs and sizes along with a anti-drain back valve to keep the oil cooler full of oil (on cooler equipped vehicles). Reproduction filters feature a modern PF24 ACDelco filter repainted to provide a period correct replacement. Each filter is white in color, with a vintage style AC bulls eye logo design and classic double blue stripes to help restore the original look of your classic vehicle. Fits 6 cylinder and V8 engines as indicated.

**Note:** Without anti-drain back valve.

Provides Up to 550 psi Hydrostatic Burst and Traps Contaminants as Small as 10 to 20-Microns!

## Oil Filter

The K&N Performance Gold® oil filter has been constructed from the ground up to satisfy the vehicle owner who wants the very best oil filter available. The heavy-duty construction provides up to 550 psi hydrostatic burst, and helps reduce the risk of rock or stone damage. But the real quality isn't just on the outside, the inner filter element traps contaminants as small as 10 to 20 microns in size. Metal top end caps are used instead of paper to ensure that no unfiltered oil can get back into the system. High volume positive oil flow with low restriction coupled with exacting engineering standards results in the right balance between engine protection and low oil pump drag. Simply put, the K&N oil filter is the very best filter money can buy.

# Distributors

## 1967-97 Remanufactured Distributor

Classic Industries® offers a full line of distributors for your Firebird. If your Firebird is having problems starting, has a rough idle or the performance is not what it use to be, it could be time to change your distributor. Each distributor is remanufactured and tested to guarantee you get the best quality distributor your money can buy.

Note: Distributor cap and rotor not included.

## Pontiac HEI Distributor

This HEI distributor offers calibrated advance curves that are optimized for maximum combustion efficiency. Offers longer term durability and a higher voltage spark that permits a bigger spark plug gap, resulting in more power and reduced plug fouling. Each unit includes a high power coil, a premium dielectric red cap with brass terminals and a rotor cap.

1967-79 Pontiac 326-455ci	170.99 ea
66953	

## 1977-86 Chevy HEI Distributor — Natural

This ACDelco distributor is specifically designed for 5.7L high output engines but may be used for most high-performance small block Chevy Gen I V8 applications. Each distributor features a natural cast aluminum finish and includes a black cap, rotor, coil and coil cover.

1977-86 Chevrolet Small Block	257.99 ea
G6000	black cap, natural cast housing.

## 1967-86 Pro-Billet Distributor

Our standard series distributors feature a flawless lightweight CNC-machined 6061-T6 billet aluminum housing and a polished steel shaft that receives a PQP, or Tufride coating. To accurately guide this shaft, MSD uses a sealed ball bearing located at the top of the housing. At the bottom of the housing, an extra long sintered bushing controls the shaft. This combination keeps the shaft spinning smooth and accurately throughout 10,000+ RPM. Other features include an iron drive gear, Rynite® distributor cap with brass terminals and a high output magnetic pickup to trigger the ignition. The standard Pro-Billet distributors utilize the MSD 6, 7, 8, or 10 series ignition control box.

### Standard Pro-Billet Distributors

## 1977-86 Chevy HEI Distributor — Polished

If your HEI equipped Chevy V8 is having problems starting, has a rough idle or the performance is not what it use to be, it could be time to change your distributor. This distributor is specifically designed for 5.7L high output engines. This distributor may be used for most high-performance applications. Several distributor cap colors are available including black, blue, red or tan. Features a polished cast aluminum housing. Also available without cap or rotor so you can use the cap and rotor of your choice. Coil is not included.

## 1967-97 Pro-Billet Distributor

Our "Ready-to-Run" distributors feature a flawless lightweight CNC-machined 6061-T6 billet aluminum housing and a polished steel shaft that receives a PQP, or Tufride coating. To accurately guide this shaft, MSD uses a sealed ball bearing located at the top of the housing. At the bottom of the housing, an extra long sintered bushing controls the shaft. This combination keeps the shaft spinning smooth and accurately throughout 10,000+ RPM. Other features include an iron drive gear, Rynite® distributor cap with brass terminals and a high output magnetic pickup to trigger the ignition. Our "Ready-to-Run" distributors are internally controlled, do not require an external controller and are the "Plug and Play" alternative to more expensive computer controlled systems.

### "Ready-to-Run" Pro-Billet Distributors

"Ready-to-Run" distributors are designed as a "Plug and Play" distributor. No external ignition control box is needed.

## 1977-79 Trans Am Distributor Hold Down

Reproduction distributor hold down clamp for 1977-79 Trans Am models with Olds 403. Secures the distributor to the engine block.

TA4046 1977-79 Olds 403..... 12.99 ea

## 1977-86 Chevy SB Distributor Clamp

Ideal to hold distributor in place for accurate timing. This extra bright chrome-plated bracket replaces the original unit. For all models with Chevy small block.

T4116 1977-86 Chevy V8..... 3.99 ea

## Oil Pump to Distributor Shaft

Genuine GM oil pump intermediate shaft for small block Chevy engines. Measures 5.770" in length and 0.482" in diameter. Replaces OE # 3998287

Note: Not for use with front sump oil pump.

G6003 1977-92 Chevy V8..... 38.99 ea

## 1978-89 Distributor Gear

Replacement distributor gear assembly for 1978-89 models with Chevy V8 engines.

D6008 1978-89 w/o roller cam or FI 44.99 ea

## 1977-92 Distributor Gear

Iron distributor gear for MSD Chevy distributor, .500 I.D. Fits 1977-92 models with MSD billet distributor.

8531 1977-92 Chevy V8..... 39.99 ea

## 1967-74 Distributor Wire Grommet

This grommet is used to insulate and hold the wire lead coming out of the distributor in place and help to seal out the elements.

TF700623 1967-74..... 2.99 ea

## 1967-74 Distributor Lead

Replacement distributor lead for 1967-74 V8 engines.

12388662 1967-74..... 8.99 ea

## Distributor Stud

These premium grade studs, which are equipped with vibration resistant J-form threads, in your choice of black oxide finished chromoly or rustproof stainless steel. Select from conventional Hex or space saving 12 point nuts. Washers included.

## HyperSpark CD Ignition Box

Sniper EFI HyperSpark ignition box from Holley Performance. This box features a sealed and powder coated housing, and an external LED to verify 12V cranking RPM, and low battery voltage. Its powerful 135MJ of spark ensure complete combustion and improved performance. Like the rest of the HyperSpark line of ignition products, this coil is designed to be "Plug and Play" with Sniper EFI Systems.

H556151 all V8 ..... 315.99 ea

## Digital 6A/6AL Ignition Control

MSD's new Digital 6A features the same footprint as the traditional 6A and 6AL, but with a lower profile for a sleek look. Like all MSD 6 Series Ignitions, the 6A will work with virtually any vehicle as long as it has a 12-18 Volt electrical system. It can be triggered using breaker points, a magnetic pickup or the output of an electronic amplifier. All necessary parts and wiring instructions are included. Will work on 4, 6, and 8 cylinder engines. The new Digital 6AL shares the same proven circuitry of the Digital 6A with the addition of a built-in adjustable rev limiter with two top mounted rotary dials. The combination of powerful sparks with the safety of a rev control is what makes the Digital 6AL the most popular ignition control in the world.

## New! Power Grid System

The Power Grid System is the next evolution of programmable ignition controls. The grid incorporates an efficient 32 bit micro-controller and an all new software program, called MSD View, and is USB compatible. The Power Grid Controller is the brains behind the entire system and can be used with any MSD ignition or the Pro Mag to provide advance ignition tuning capabilities. While it is compatible with all MSD boxes, the new Power Grid System Controller has been specially designed to mount to the Power Grid-7 ignition box sold separately. Includes: View software, wiring harness, micro-SD card and mounting hardware.

Note: To use any modules with the Power Grid Ignition System, (7720 and 7730), users MUST plug the modules into a 4 Connector CAN-Bus Hub (7740) to be attached to the Power Grid System Controller.

## Ignition System Coil

Upgrade your stock coil or complement the performance of your MSD 6 Series ignition, these coils are the right choice! The following Blaster coils share the same special windings and high voltage output as the other Blaster 2 coils, but do not include a ballast resistor. When you are using an MSD ignition control, the ignition is responsible for delivering the voltage to the coil so a ballast is not necessary. The Blaster 3 coil features an extra tall tower design to improve the coil wire attachment and spark insulation and is supplied with a 90 degree terminal and boot. Made in USA.

8202	Blaster 2	..... 59.99 ea
8223	Blaster 3	..... 60.99 ea

## Blaster Performance Coil

With a stock points style ignition, a ballast resistor must be placed in-line with the positive terminal of the coil. The following Blaster coils are supplied with a 0.8 Ohm ballast resistor plus a terminal and boot to fit most applications. Mallory Ultima applications also require the ballast resistor. Available in chrome or red. Made in USA.

**Important:** The ballast is not necessary if an MSD 6 or 7 series ignition control is being used with the points distributor.

## 8.5mm Super Conductor Coil Wire

If you're changing a coil or cap to a new design, you could find yourself searching for different terminals for the coil wire. MSD offers these 2 style coil wires to make the change easy. Also, remember that the coil wire sees 8 times the use of each plug wire so changing the coil wire as maintenance is recommended.

**Important:** \*18" long, female socket style, both ends.  
\*\*18" long, 90 degree male coil terminals and boots are installed on both sides to connect to an HEI style terminal. A terminal adapter is also supplied to adapt to a female socket style distributor cap.

## HV 60,000 Volt Coil

The Flame-Thrower HV (high voltage) coil have an E-Core design which is rated at a sizzling 60,000 Volts and operates with no degradation of energy throughout the temperature ranges. Made from 6063-T5 aluminum, it efficiently transfers heat to optimize energy output, and the housing is black anodized for increased corrosion resistance. Available in 3 different resistances for compatibility with most points and electronic ignition systems. Standard threaded connections and mounting hardware are included.

PX60130	3.0 Ohm.....	85.99 ea

## HC 60,000 Volt Coil

The Flame-Thrower HC (high current) coils have an E-Core design which is rated at 60,000 Volts with an ultra low .32 primary resistance and has a high current design for a rapid charge rate. Made from 6063-T5 aluminum, it efficiently transfers heat to optimize energy output. The housing is black anodized for increased corrosion resistance and has a precision machined male high tension terminal and brass primary terminals. It is compatible with Ignitor II and Ignitor III systems as well as most capacitive discharge boxes. Standard threaded connections and mounting hardware are included.

PX60103	0.32 Ohm.....	71.99 ea
---------	---------------	----------

## HyperSpark Ignition Coil

Sniper EFI HyperSpark ignition coil from Holley Performance. This coil features an innovative connector and integrated bracket for a secure connection and simplified mounting. Its powerful 135MJ of spark ensure complete combustion and improved performance. Like the rest of the HyperSpark line of ignition products, this coil is designed to be "Plug and Play" with Sniper EFI Systems.

H55612	1986-01.....	42.99 ea
--------	--------------	----------

## Power Coil

The TSP power coil is capable of delivering a longer and hotter spark with up to 70% more spark energy than stock ignition coils. Its convenient design easily mounts to fire walls, core supports and fender wells. It features an aluminum heat sink keeping it cooler for more efficient energy output at lower temperatures. Coils have an HEI style output tower and are rated at 50 kV maximum voltage with 260 mA peak current with 0.35 Ohm primary resistance. Coils include installation hardware, a coil wire boot with terminal and a wiring harness.

A770202	black coil.....	45.99 ea

## Blaster SS Coil

Don't let the compact size of the Blaster SS coil fool you because it is packed with performance. The efficient E-core windings are designed to produce high amounts of current without sacrificing the voltage output. In fact, when used with an MSD 6 Series Ignition, the Blaster SS produces 300 milliamps with a maximum voltage output of 40,000 Volts. The secondary windings are wound on a segmented bobbin which reduces the chance of voltage breakdown between the primary and secondary windings. For more protection, these windings are encased in a polyurethane compound for complete protection against vibration. The Blaster SS features brass terminals and a sturdy Rynite housing. It is supplied with a 90 degree boot, terminal and vibration mounts. A great addition to CD ignitions and some stock applications. Made in USA.

## LS Engine Cover Kit

Take your engine bay to the next level with this customizable LS engine cover kit. Made in the USA from special temperature resistant automotive polycarbonate and features 6061 aluminum inserts. This kit is compatible with any automotive paint or hydro dipping for endless customizing options. The LS engine cover kit is engineered to fit LS1, LS2, and LS3 passenger car intakes and coil packs only. Kit includes: valve covers, intake cover, cover inserts, ARP mounting hardware, billet oil filter, and aluminum stand-offs.

Note: Some trimming may be required. Must install aftermarket fuel rail HC2123.

## LS Engine Coil Pack Shield

LS engine coil pack shield. Prevents premature coil failure due to overheating, eliminating the need to relocate. Semi-rigid construction made from double sided aluminum and high temperature foam core. They easily install under the coil brackets and work with factory and aftermarket coils. Fits LS1, 2, 3, and 7.

DE011001 LS coil shields..... 39.99 ea

## Holley LS Coil Covers - Big-Block Style

These coil covers from Holley Performance give modern LS engines a classic big block appearance. Made from a lightweight, durable composite that can be painted to match any color scheme and designed to fit on LS2, LS3, LS7, and other LS family engines using LS1 style valve covers and coils. Set includes: covers, OE style ball mount snap on studs, oil cap, coil adaptor, and detailed installation instructions.

Important: Covers are a universal fit and require trimming for proper installation.

## LS Coil Covers

No need to relocate your coil packs with these beautiful covers machined from 6063 aluminum. Fit GM engines using existing mounting locations, available in black finish. Made in USA.

PL30 black finish..... 309.99 pr

## 1967-82 Spark Plugs

Accel's patented race proven spark plugs are now available in a "shorty" configuration. The overall length of each plug has been reduced 1/4" to 3/8" (depending on the specific spark plug) to gain critical air gap space between the spark plug boot and the exhaust manifold or header tube. This helps eliminate burning the spark plug boot or dimpling the header tube. The shorter spark plug length also can make it easier to install and remove the spark plugs in certain applications where there is not a lot of room to work with a socket or wrench.

Note: Standard header plugs are sold in sets of 8. P526S double platinum plugs are sold individually.

## 1967-82 Spark Plugs

Want to unlock more power from your engine and actually burn less gas? Through an intensive R&D process, E3 has created a spectacular new spark plug that creates the industry's fastest spark growth and fastest combustion pressure rise, meaning it burns fuel more efficiently to give you more power and increased fuel economy. E3's patented design forces the spark discharge from one sharpened edge to another, and projects the spark forward into the combustion chamber, unlike traditional spark plugs, for the most consistent, powerful and efficient burn possible! Sold individually.

- TV R Suppression markings
- Officially Licensed by General Motors

## 1967-74 Date Coded Spark Plug Wire Set

Classic Industries' stocks reproductions of the original style Delco Packard plug wires used with 1967-74 Firebird models. Each wire includes the original style lettering with the wording Packard TV R Suppression. All wires are date coded based on the production quarter of the vehicle. "1Q" indicates the first half of the production model year and "3Q" indicates the 2nd half of the production year. Wiring sets are produced for Firebird models with original exhaust manifolds.

**Note:** These are not for use after market type headers or aftermarket manifolds. Wiring may be applicable for use with other manifolds or headers but are not guaranteed to fit. 3Q dated plug wires may be correct for use on vehicles manufactured in the first months of the succeeding years production. \*Without unitized distributor.

## 1974-92 Spark Plug Wires

Spark plug wires are a major component in the vehicles ignition system. Electrical failure can be greatly hastened by loose connections at the ignition coil(s), distributor, or spark plugs causing telltale corrosion at connectors. Over time this loosening can develop from quality variations in the wires themselves, or through normal engine vibration. Other causes include retainer failure, fluid leakage onto the wires causing the wires to swell and soften, or even poor original routing (too close to exhaust components or components with sharp edges). When these conditions exist, and they may or may not cause a noticeable misfire, the wires must be replaced immediately, or they will wreak havoc on other components such as ignition coils and nearby electronics, or exhaust system components such as oxygen sensors and catalytic converters. These replacement wires are tailored to fit your specific application.

## 8.5mm Super Conductor Spark Plug Wires

These wires have extremely low resistance combined with the ability to suppress electro-magnetic interference. The super conductor uses a copper alloy conductor resulting in less than 50 Ohms per foot of wire. This ensures that the most energy possible makes it to the spark plug. This combination is encased in a heavy-duty sleeve that will withstand abrasion and high temperatures.

**Important:** \*With wires over valve covers. \*\*Without turbo.

## 8mm Superstock Plug Wires

ACCEL's SuperStock 4000 series 8mm spark plug wire sets are designed to upgrade an OE ignition system for high spark delivery levels for street driven applications. The 450 degree F rated high gloss silicone jacket is extruded over a tightly woven, rugged fiberglass braid. RFI suppression for street driven applications. Universal wire sets include standard socket and HEI boots with the appropriate terminals. Made in USA.

**Core:** Carbon/graphite conductive material, high temperature suppression, fiberglass/Kevlar, 3000-7000 Ohms per foot resistance.

**Note:** Universal fit 8 cylinder wire sets can be used for 6 cylinder applications.

## 8mm Superstock Spiral Plug Wires

ACCEL's SuperStock Spiral Core 5000 Series wire sets. With only 500 Ohms per foot of resistance, more ignition energy can reach the spark plug, producing a longer-lasting, hotter spark flame kernel. This 8mm wire's double silicone construction is rated to 550 degrees F. The high gloss wire jacket resists moisture, chemicals, and heat extremes for longer life and great looks. Stainless steel plug terminals. High RFI suppression for street and strip use. Universal wire sets include standard socket and HEI boots with the appropriate terminals. Made in USA.

**Core:** Spiral wound stainless steel alloy conductor, magnetic suppression and semi-reactive material, fiberglass/Kevlar core, 500 Ohms per foot resistance.

**Note:** Universal fit 8 cylinder wire sets can be used for 6 cylinder applications.

## 8.8mm Spiral Suppression Plug Wires

These ACCEL 8.8mm wires feature a carbon/graphite core that virtually eliminates RFI noise while providing maximum conductivity for ultimate performance in any race or street application. Double silicon insulation eliminates leakage and misfire. Wire set includes standard socket boots with the appropriate terminals for points style distributor cap. Made in USA.

**Core:** Spiral wound stainless steel alloy conductor, magnetic suppression, semi-reactive material, fiberglass/Kevlar core, 500 Ohms per foot resistance.

**Note:** Universal fit 8 cylinder wire sets can be used for 6 cylinder applications.

## EXTREME 9000 Ceramic Wires

These 8mm wires are designed for forced induction and racing applications. These wires can withstand up to 600 degrees F while offering a mere 500 Ohm/ft of resistance and complete EMI/RFI suppression. The ceramic plug boots and stainless steel terminals withstand temperatures up to 2000 degrees F. Compatible with both pre- and post-HEI systems.

**Important:** Small block sets can be used for V6 applications. Available in black.

## 7mm Spark Plug Wire Set

These Flame-Thrower high-performance spark plug wires are manufactured in original 7mm size jackets to fit stock wiring looms. With no markings or script of any kind on the wire, they maintain a stock appearance yet give you all the benefits of a high-performance wire set. They have EPDM rubber inner insulation for superior heat resistance and prevention of arcing and voltage leaks. Made in USA.

## Pro-Crimp Tool

If you make numbers of plug wires or do a lot of custom wiring,

the new Pro-Crimp tool is a must for your toolbox. The Pro-Crimp features interchangeable jaws allowing for a variety of different style crimps with any heavy-duty tool. The Pro-Crimp features a hardened steel frame with comfortable molded hand grips. The slick ratchet action provides secure, factory quality crimps every time. The tool is supplied with precision crimping/stripping jaws for MSD's spark plug wire terminals.

## Spark Guard

MSD's spark guard is a dielectric grease that stops voltage leaks, eases boot removal, prevents moisture buildup inside the spark plug wire boots, and even helps protect against radio noise (EMI). It also simplifies the installation of MSD universal spark plug wire sets. Will not dry up or harden so it retains spark isolating capabilities. Made in USA.

## Thunder Volt 8.2mm Ignition Wires

Taylor Thunder Volt 8.2mm ignition wires are dyno-tested and proven to increase horsepower and torque. Designed with a ferrite spark wound core coated with a blend of copper/nickel bonded with a conductive acrylic cover for only 40 Ohms per foot of resistance with optimum RFI and EMI suppression. A 2 layer 100% Zimpex silicone outer jacket for heat protection up to 600 degrees. Available in black, red, or blue with grey silicone spark plug boots. Universal wire sets include both standard socket and HEI boots with the appropriate terminals. Made in USA.

**Important:** Sets will require cutting to fit, terminating, and booting the distributor end.

## 10.4mm "409-Series" Pro Race Wire Set

Taylor 409 Pro Race 10.4mm high-performance ignition wires are designed for street and track performance. Featuring tightly woven heat treated fiberglass braid over a 100% silicone Spiro-Pro ignition wire providing a 3 layer jacket these wires have a 102,000 Volt dielectric strength and thermal protection to 600 degrees. The spiral wound core with 350 Ohm resistance per foot has excellent EMI and RFI suppression making them perfect for extreme electronic ignition systems. Available in black, red, and blue with low profile silicone Pro Boot spark plug boots. Universal wire sets include both standard socket and HEI boots with the appropriate terminals. Made in USA.

90 degree boot multi-angle boots

## 2-in-1 Universal Plug Wire Set

These universal spark plug wires sets are made from MSD's 8.5mm super conductor performance wire. Universal wire sets have only the spark plug boot and terminal installed. These boots and terminals are available in your choice of a 90 degree boot or a multi-angle boot. The distributor end boots and terminals are supplied, but not crimped on. Both sets include terminals for engines with either the early style (socket) and late style (HEI) distributor caps. The wires are extra long so they can be cut-to-fit any application. Each set includes a MSD mini-stripper crimper for easy installation.

## Tachometer Adapter

MSD tach adapters will correct the operation of most voltage triggered tachometers or fuel injection systems that do not work directly off the tach output terminal of the MSD ignition unit. If you are triggering an MSD Blaster, 5, 6, SCL, or 7 series ignition with its white wire or points terminal, you will need item #8910 or #910E. For applications using green and violet wires for magnetic pickup input, use item #8920.

**Important:** \*For use on non-current limiting ignitions, originally equipped with a ballast resistor. \*\*For use on current limiting ignitions, not originally equipped with a ballast resistor.

8910E**	points or amplifier..... 67.99 ea
8920	magnetic pickup..... 83.99 ea

## Noise Filter

If you experience radio noise after installing the MSD Ignition, you may need to install an MSD Noise Filter. Electro Magnetic Interference (EMI) is occasionally generated from the MSD power cables and can be easily eliminated by installing the Noise Filter on the heavy power supply wires coming from the MSD. It is recommended that the noise filter be used on installations with the MSD 7 and 8 Series Ignitions to prevent this interference. Includes noise filter cover.

## Pro-Clamp Spark Plug Wire Separators

The MSD Pro-Clamp will keep the plug wires in a tidy order and away from engine heat sources. Each separator features secure grooves for each wire and a top bracket snaps in place to sandwich the wires in place. Each base has a hole for a retaining screw if desired and a tab that will help hold it in position. The set is supplied with: two 4 wire separators, two 3 wire separators, and four 2 wire separators.

8843 ..... 26.99 set

## Spark Plug Wire Separator Set

This set of spark plug wire separators is made from high grade plastic which helps insulate the plug wires and reduce shorts and cross talk. Includes: two 4 wire separators, two 3 wire separators, and two 2 wire separators.

MN2417 V8 ..... 3.99 set

# Ignition Wire Accessories

## Spark Plug Wire Support and Separator Set

These high grade chrome-plated plastic support brackets attach to the valve cover bolts or studs to route the plug wires neatly from the distributor, over the valve covers, and to the plugs. Keeps wires away from hot underhood parts, insulates the plug wires, and reduces shorts and crosstalk. Includes: four chrome support brackets, two 3 wire separators, and four 2 wire separators, as shown above.

MN2418 V8 ..... 8.99 set

## Heat Sleeves

Silicone coated fiberglass heat sleeving protects wires, cables and hoses from intense heat exposure, liquid spills and even occasional flame exposure. Withstands continuous 500 degrees F temperatures and short term exposure up to 2200 degrees F. Available in either silver or black, and diameters of 1/2", 3/4", and 1". Made in USA.

## Thermo-Sleeve

Thermo-Sleeve is the combination of a high temperature fabric laminated to a highly reflective Mylar foil. It provides protection from radiant heat for hoses and wires. Thermo-Sleeve's ultra lightweight construction provides more insulation than traditional bulky rubber coated fiberglass. The aluminized sleeve reflects more than 90% of radiant heat, plus it is fireproof and oil resistant! Thermo-Sleeve is available in 3' or 12' lengths.

## 1967-81 Genuine GM Remanufactured Starter

Genuine ACDelco remanufactured starter motor. Replace your original worn out starter with a ACDelco starter. We offer these original style rebuilt starters for 1st or 2nd generation models. Maintain originality along with the reliability of a factory replacement. Aftermarket starters are good but they don't offer a cosmetically correct appearance. Each starter is completely remanufactured and tested before leaving the factory.

Note: \*Pontiac V8 except 326-350.

## DynaForce Starter

These MSD DynaForce starters are designed for severe duty, high compression applications. The 3.4 HP motors use a 4:1 gear reduction to easily start even an 18:1 engine with a lower current draw than traditional starters. Features a red powder coated finish and nickel-plated solenoid with a three position adjustable mounting block so they can be clocked for easier installation. Small block Chevy models have a straight mount bolt pattern and work with 153 and 168 tooth flywheels. Made in USA.

Note:	LS1/LS7 starter not compatible with GTO LS engines.

5097	326, 455CI Pontiac starter 462.99 ea

## 1988-02 Firebird LS1, LS2, and LS6 Starter

Bench tested to meet or exceed standard specifications, these high torque starters for use with LS1, LS2, and LS6 engines feature a 1.9 HP motor to easily crank high compression engines. Available in your choice of chrome or gold zinc finish, these starters offer easy bolt-in installation. Made in the USA with 100% new components.

FC2014	1998-02	chrome	192.99 ea
FC2015	1998-02	gold zinc	150.99 ea

## 1987-92 OEM High Torque Starter

Classic offers high torque starters that will replace your original with upgraded performance and OEM appearance. A Mounting method described below. Made in USA.

## Starter Heat Shield Set

In today's high heat environment, starters take in a lot of damaging heat that destroys the windings of the starter and solenoid. To combat this problem, we offer a non-conductive strap-on heat shield with a highly reflective mylar surface. The Starter Heat Shield will reflect over 90% of radiant heat, adding life to the starter and assuring reliable starts. The Starter Heat Shield is a universal set that fits all starters.

TT1002	set with straps set	30.99 set

## 1977-81 Starter Motor Brace

Over a period of years, the starter motor braces are usually lost or discarded when the starter is replaced. Without this brace, under strain will occur to the starter motor body causing wear or damage. When this happens you will need to replace the starter.

G5111 1977-81 Chevy small block ..... 6.99 ea

## 1967-74 Pontiac Starter Brace

Reproduction starter brace for 1967-74 Firebird/Trans Am models with Pontiac V8 engines. Make sure that you have the correct Pontiac starter brace that helps relieve the pressure that is put on the starter when being engaged or while driving.

F12393 1967-74 326-455 ..... 21.99 ea

## 1970-77 Pontiac Starter Brace

Reproduction starter brace for 1970-77 models. This bolts to the end of the motor mount and the back of the starter for additional support. Identical to factory original.

1253520 1970-77 ..... 16.99 ea

## 1970-77 Starter Wire Clamp

Reproduction of Pontiac coated starter wire clamp bolts to the end of the motor mount to keep the starter wires away from the manifold on all Ram Air vehicles.

1253521 1970-77 ..... 14.99 ea

## Starter Motor Replacement Brushes

When rebuilding your original starter motor, it is usually necessary to replace the brushes. The brushes are the most commonly worn out part of the starter which can cause failure. These brushes have a 13/64" diameter hole. 4 required per starter motor. Each set includes 4 brushes.

RX6004 1967-81 ..... 4.99 set

## 1967-79 Starter Shims

5 piece starter shim set for various Pontiac models. Set includes: one 1/16" shim, two 1/32" shims, and two 1/64" shims. Used to shim the starter to the engine block.

TA4021 1967-79 5 piece set ..... 8.99 set

## 1967-87 Starter Solenoid

The starter motor solenoid commonly needs replacing due to heavy use and heat which is generated from the engine and exhaust manifolds.

## Hot Shot Starter Solution

The solution for vehicles with starters that are hard to start when hot or vehicles with old or worn out electrical systems. The "Hot Shot" Plus model includes an engine bump switch which allows you to turn over the engine while working in the engine compartment.

30201 with engine bump switch ..... 44.99 ea  
30202 without bump switch ..... 28.99 ea

# Alternators

## Internal and External Regulator Alternator Identification Guide

External Regulator	Internal Regulator "SI" Type	Internal Regulator "CS" Type
Connector Socket	Connector Socket	Connector Socket
Battery Terminal	Battery Terminal	Battery Terminal
<b>1963-74</b>	<b>1969-85</b>	<b>1986-Present</b>

## Clocking Position Identification Guide

The Delco SI series alternator is manufactured so that the rear half of the alternator case can be assembled to the front half of the case in any one of four positions. These positions are referred to as the "clock" positions. Clock positions are determined by viewing the alternator from the rear with the threaded mounting hole (adjusting ear) straight up. With this view, the terminal socket for the two wire plug-in connector will point to any one of the four available "clock" positions. Straight up is 12 o'clock, to the right is 3 o'clock, straight down is 6 o'clock and to the left is 9 o'clock. Having the different clock positions allows for the alternator to be mounted on the left side or right side of the engine. It can also be mounted right side up or upside down depending on the clock position. This allowed for the SI series alternator to be used on many different applications.

## Alternator Conversion Adapter

Easy to use conversion plugs are designed to adapt your wire harness to upgrade your charging system with a later model, internally regulated alternator.

- CA27555 external regulator to 1985 and earlier "SI" type alternator..... 22.99 ea
- CA37787 external reg. harness to 1986 and later "CS130" type alternator.... 30.99 ea
- CA37796 1985 and earlier "SI" harness to "CS130" type alternator..... 26.99 ea

## 1967-89 Quality Remanufactured Alternator

We offer a huge selection of remanufactured alternators, but sometimes it's more cost effective on late model vehicles to replace with a brand new unit. For this reason, we have chosen not to list remanufactured units on these late model vehicles. If your late model is not listed here, check our listings for brand new alternators. Remanufactured and tested to OE specifications! No core charge!

Note: For proper identification, you may need to check your VIN code on listings with suffixes after the size.

## 1969-76 Small Block Alternator Brackets

Aluminum alternator bracket set is designed for small block Chevy engines with a long water pump. Mounts the alternator on the RH (passenger side) of the vehicle using original holes in the water pump. Will work on engines that have the power steering pump on the LH (driver side) of the vehicle. Hardware is included.

*Note: Use with a long water pump.*

153663 1969-76 Chevy SB ..... 55.99 set

## 1969-70 Alternator Mounting Set

Complete mounting set includes mounting bracket, bolt and spacer. Can be used with all Pontiac V8s with 1969 and up style timing covers. Popular with Ram Air and race cars. For use on Pontiacs without power steering.

PY11 1969-70 ..... 51.99 set

# Replacement Fuel Tanks

These reproduction fuel tanks are manufactured to factory specifications from stamped steel and are available in a variety of finishes to suit your build. Basic zinc coated steel tanks are a great value, offering strong corrosion resistance at a reasonable price. Ni-terne steel tanks provide an OE quality appearance for discerning restorers. For show quality builds, stainless steel tanks offer superior corrosion resistance with a spectacular polished finish.

## Zinc-Coated Fuel Tanks ★★☆☆

- Quality Replacement Tank
- Standard Corrosion Resistance
- Manufactured to Factory Specifications

## Ni-Terne Steel Fuel Tanks ★★★★★

- OE Quality Replacement Tank
- Exceptional Corrosion Resistance
- Manufactured to Factory Specifications

## Stainless Steel Fuel Tanks ★★★★★

- Show Quality Replacement Tank
- Superior Corrosion Resistance
- Stainless Steel Polished Finish
- Manufactured to Factory Specifications

## 1967-97 Firebird Fuel Tank

Correct reproduction fuel tanks for 1967-97 Firebird models. These reproduction gas tanks are manufactured to exact specifications and are available in zinc coated steel, ni-terne steel or stainless steel.

## 1967-73 Aeromotive Fuel Tank

These tanks bring modern fuel system technology to your classic muscle car. By placing the fuel pump inside the tank, hot fuel issues such as vapor lock and cavitation are eliminated. We have all heard the stories of hot rodders being stuck on the side of the road with a fuel system or an engine that stumbles under braking, acceleration or hard cornering. These issues are related to fuel pump location, plumbing and lack of proper baffling. You can now have an in-tank fuel pump that is properly vented and submerged in fuel at all times. These new reproduction steel tanks feature a durable silver powder coated finish. In addition, they feature an internally baffled system with an in-tank performance fuel pump capable of supporting up to 1000 HP. Deep sump tanks include new fuel tank straps. Choose the bypass regulator that best serves your vehicle application.

Note: Shipped oversize.

## Sniper EFI Fuel Tank System

Holley Sniper EFI conversion fuel tank systems for 1967-81 Firebird models. Each tank is galvanized and then powder coated to maximize corrosion resistance. They feature OEM style internal baffling, including an extra large internal fuel tray to promote optimal fuel pump performance. These tanks are a direct, bolt-in install for most applications and capable of supporting 750 HP. The system includes the tank, a 255 or 400 lph fuel pump, a fuel level sender, and the filler neck. Sender operates at the same 0-90 Ohms as the factory GM fuel level gauge.

Note: Shipped overzeig.

## Gold Standard Fuel Tank Sealer Set

Our 3 step fuel tank sealer set contains almost everything you might need to seal a tank of up to 25 gallons. The Gold Standard Tank Sealer is specifically formulated to stop rust and corrosion by forming a tough, fuel impervious coating while simultaneously sealing small pinholes and weld seams. The prep products are formulated to extend storage times by leaving a zinc phosphate film that prevents rust until you have a chance to seal the tank with the sealer. Complete set and individual items available.

### 3 Step Fuel Tank Sealer Set

Buy our fuel tank sealer set and save! Each fuel tank sealer set includes: 2 quarts of Klean (a water based, heavy-duty, cleaner/degreaser), 1 quart RustBlast (a powerful rust remover/metal etch), 1 quart Gold Standard Tank Sealer, gloves, instructions, and a stir stick.

L 14987 1968-70..... 29.99 ea

## Driven Carb Defender

Driven Carb Defender Fuel Additive has been formulated to protect against harmful ethanol deposits and corrosion in fuel and the induction system. Special inhibitors resist expensive damage and reduced performance from moisture accumulation from modern ethanol blended gasoline. This additive controls combustion chamber residue, cleaning and protecting fuel system and intake tract surfaces to keep carburetors functioning properly. Carb Defender is ideal for everyday drivers or classics that spend time in storage between cruises and special events. One bottle treats up to 25 gallons of ethanol blended fuel.

## Fuel System Cleaner

Max-Clean targets and cleans deposit buildup in the intake system and combustion chamber and is effective on the entire spectrum of engines on the road. Deposit buildup is a natural consequence of fuel combustion, but can have significant effects on the performance and reliability of your engine. Royal Purple's Max-Clean can restore internal engine surfaces, recovering lost fuel economy and performance.

## Driven Defender+Booster

Raises the octane in unleaded fuels, reduces valve seat wear and protects against the corrosion deposits common with today's gasoline. This product features corrosion inhibitors that control combustion chamber residue, as well as clean and preserve surfaces of the fuel system. By cleaning and controlling combustion chamber and intake valve deposits, Defender + Booster Fuel Additive protects against detonation and improves fuel economy. The additive is ideal for all carbureted and fuel injection vehicles, including motorcycles and marine engines. Each 10 ounce bottle treats up to 25 gallons of gasoline, and regular use has been proven to lower emissions.

# Fuel Tank Components

## Fuel Tank Sender

This universal type fuel sender is used with gauges that require 240Ω empty and 330Ω full and can be adjusted for tanks from 5" to 24" deep. Modification to fuel tank required.

AM3262 fuel sender ..... 49.99 ea

A8101008

## Internal Float Fuel Sending Unit

Get reliable fuel gauge readings with this internal float fuel sending unit. This advanced design provides accurate readings without fluctuations due to fuel slosh. Because this internal float design requires no float arm, it is far more resistant to corrosion, even with racing fuels. All sending units mount to the tank with the standard 5 bolt mounting flange and are available in sizes from 4" to 24".

**Important:** Sending unit should not touch bottom of tank. When the fuel gauge reads empty, the area below the sending unit is reserve fuel.

**Note:** Sending units are available in lengths from 4" to 24" and are sold in 1" increments. Please add the desired length to the end of the part number, eg. 06 = 6", 11 = 11".

## 1985-92 Fuel Tank Sending Unit

After years of use, your fuel sending unit can corrode, its float can flood and it can simply stop working, causing your fuel gauge to read incorrectly or even not at all. This Delco service replacement will replace your original in both fit and function though it may differ cosmetically. Fits vehicle models with an in-tank fuel pump.

**Holley**

## 1967-81 EFI Fuel Pump/Sender Modules

Holley 255 lph OEM style in-tank fuel pump conversion modules are designed as a direct replacement for the factory pickups and sending units in 1967-81 Firebird models. These modules will install exactly like the factory assembly with no modifications required. This system is hands down the simplest way to convert a fuel tank for electronic fuel injection. They are internally regulated to 58 psi and capable of supporting engines up to 550 horsepower.

## In-Tank Fuel Pump Retrofit Kit

Holley 450 lph universal in-tank return less retrofit fuel module. Use this module to convert to an in-tank EFI fuel system with no welding or fabrication. Installs in any fuel tank from 7" to 12" deep. Includes a low profile die-cast pump hanger bracket to control pump vibration low profile and an integrated fuel pump capable of supporting up to 875 EFI or 1100 carb HP. This is the easiest way to convert your vehicle to an in-tank EFI fuel system, ideal for Terminator EFI, Sniper EFI, MSD Atomic EFI, any TBI of EFI conversion.

## Pontiac Fuel Pump

Designed for use with all Edelbrock carburetors used on Performer or Performer RPM applications. These high-performance street fuel pumps feature a high-quality three stage polished finish. The unique valve design improves flow quantity and quality, and will support engines up to 600 HP. High volume, 3/8" NPT inlet and outlet surpasses the capacity of conventional models. Produces 6 psi and does not require a regulator.

E1713	Pontiac V8, 326-455	175.99 ea
-------	---------------------	-----------

## 1977-78 Chrome Fuel Pump

Replace your original fuel pump with genuine Holley chrome fuel pumps. Each mechanical fuel pump is triple chrome-plated and flows 60 gallons per hour at 7-12 psi. Includes an adjustable lower housing allowing 360 degree rotation of fuel inlet-outlet fittings for custom installation. For Pontiacs with a Chevrolet small block engine.

**Important:** Inlet and outlet are tapped for 1/4" NPT. Fuel line fittings are not included.

12634	1977-78	small block	115.99 ea

## 1967-87 Replacement Mechanical Fuel Pump

Chosen from a wide range of fuel pumps specifically designed for each year and engine size. Some fuel pumps may differ slightly in appearance from original but will fit and function correctly offering years of satisfactory service. These mechanical fuel pumps will replace the original worn out fuel pump. Manufactured by an OEM GM supplier.

## 1967-80 Single Line Fuel Hose Set

Correct replacement fuel hose for all models equipped with 4 barrel carburetors. Not for models with vapor return line. Includes correct 3/8" hose with 2 mounting clamps.

K0061 1967-80..... 5.99 set

## 1969-74 Double Line Fuel Hose Set

Correct replacement fuel hose for all models equipped with 4 barrel carburetors. For models equipped with vapor return lines. Includes correct 3/8" fuel line and 1/4" vapor return line hose with 4 mounting clamps.

K0096 1969-74..... 10.99 set

## 1977-79 Trans Am Carburetor Fuel Fitting

Reproduction carburetor fuel inlet fitting for the fuel pump to carburetor line of 1977-79 Trans Am 403ci Olds 403 engines. Mounts on the front of the carburetor.

TA4043 1977-79..... 24.99 ea

## 1967-69 Fuel Line Support Bracket

Reproduction fuel line support bracket for all 1967-69 Firebird models.

C125381 1967-69..... 12.99 ea

## 1967-81 Fuel Pump Eccentrics

Reproduction of the fuel pump eccentric used on 1967-81 Pontiac V8 and Olds 403 engines. The eccentric mounts to the camshaft in front of the camshaft gear and activates the fuel pump lever. Manufactured to the exact dimensions of the original part.

N536 1967-81 Pontiac V8..... 44.99 set

TA4005 1977-79 Olds 403..... 19.99 ea

## In-line Fuel Pressure Gauge

Set and monitor fuel pressure with these easy to use gauges! Simply splice into the existing carburetor line to with the anodized aluminum fuel block and 3/8" nipples. Each gauge measures 1-1/2" in diameter with a 0-15 psi range in 1/2 lb increments. Gauges are available in standard form or liquid filled for better vibration resistance and readability.

71564 liquid filled..... 51.99 ea

## Professional Fuel Pressure Tester

Use this professional fuel pressure tester to diagnose drivability problems caused by poor fuel pressure. Features a 40 inch hose, 2-1/2" gauge face with 0-100 psi/0-700 kPa scales, and a pressure relief button and 6 foot hose for safe gasoline disposal of gasoline and repeat tests. Includes: test adaptors for GM/Chrysler, GM TBI, M12 x 1.25 banjo bolt, and dual Manifold Test Adapter, as well as a handy storage pouch and a manual with step-by-step test procedures.

AC7838..... 51.99 ea

# Fuel Pump Components

## 1982-02 Electric Fuel Pump

Electric fuel pumps will require additional components for installation. Please read the notes carefully to determine the correct style pump for your year and model. You may contact our technical department for more information.

**Note:** New strainers must be used on electric pumps for warranty compliance. Fuel pump strainers are included on electric pumps without notation. If a strainer is listed in the pump description, you must order it separately. Due to electrical requirements on certain fuel pumps, models denoted with one or two asterisks (\* or \*\*) require a strainer and wire harness adapter for installation. \*Use S20194 strainer and S88536 wire harness. \*\*Use S20197 strainer and S88536 wire harness.

## 1982-02 Fuel Pump Relay

A bad fuel pump relay can be the cause of a hard starting problem in your 1982-02 Firebird. If you turn the key into the on position, you should hear the fuel pump "whirr" for a few moments as it pressurizes the system. If not, (and the pump is good) that may be an indication that you have a bad fuel pump relay. **⚠**

# Electric Fuel Pumps

H12801

H12802

H128151

H12803

## Electric Fuel Pump

We offer externally mounted Holley electric fuel pumps. They all feature the proven rotor and vane design and are available in ratings from 97 gph to 140 gph. The 97 gph "red" pump is set at 7 psi and does not require a regulator. The 110 gph "blue" pump is set at 14 psi and includes a regulator. The 140 gph "black" pump is also set at 14 psi and can be used for gas or alcohol fuel.

62541C

62531

## Electric Fuel Pump

These externally mounted electric fuel pumps are ideal for most street and strip applications. Proven rotor vane technology provides high flow and stable pressures with minimal vibration and sound. Each pump features 3/8" NPT inlets and outlets along with an externally accessible pressure relief valve.

**Note:** Not for fuel injected engines. Pumps that produce more than 7 psi should be used with a pressure regulator.

E1791

## Quiet-Flo Electric Fuel Pump

State-of-the-art electric fuel pumps offer maximum performance in a compact package for carbureted applications. Anodized aluminum housing and high-quality internals make it both strong and extremely durable. The E1791 electric fuel pump is factory set to 6.5 psi does not require a regulator, 3/8" inlet/outlet, 120 gph free flow, up to 600 HP. The E1792 electric fuel pump is preset to 12 psi and requires an external regulator, 1/2" inlet-outlet, 160 gph free flow, up to 1000 HP.

**Important:** For proper installation and voltage requirements, use fuel pump relay E1795.

E1791	6.5 psi.....	271.99 ea
E1792	12 psi.....	275.99 ea

## Quiet-Flo Electric Fuel Pump

This anodized aluminum EFI fuel pump offers maximum performance in a compact package. The in-line design keeps the pump motor and components cool even under harsh conditions. Features -10AN inlet/outlet with a flow rate of up to 80 gph at 45 psi for high HP fuel injected applications. This fuel pump supports 835 HP at 12 Volts with a current draw of 12 amps at 45 psi. 10AN inlet/outlet 80 gph at 45 psi.

**Important:** Dimensions: 6-7/8" x 3-1/4".

E1790	.....	774.99 ea
-------	-------	-----------

## In-Line Electric Fuel Pump

This in-line electric fuel pump is continuous duty rated and is ideal for EFI applications that require additional pumping capabilities for upgraded modifications.

Works superbly as either an in-line booster pump or as a stand alone unit. Use with EFI regulator part #E1728 for adjustability from 35 to 90 psi. 57 gph, 3/8" hose barb fittings. Includes mounting bracket and 3/8" hose barb fittings.

E3594	.....	298.99 ea
-------	-------	-----------

### Features:

- Solid-state worry free electronics
- Internal pressure regulating
- Universal design allows for easy installation
- No diaphragms or mechanical parts to wear out
- Hose barbs fit 5/16" hose hose

## Micro Electric Fuel Pump

This compact electric fuel pump features a solid state design that has a low current draw of around one amp and makes a good stand alone pump or booster pump. Designed for carbureted vehicles with a 12 Volt negative ground electrical system, this pump supports 4-7 psi at up to 35 gph. Includes: fittings, mounting hardware and instructions.

**Note:** Not for diesel applications.

71211	.....	48.99 ea
-------	-------	----------

# Electric Fuel Components

## 1982-95 Delco Electric Fuel Pump

Checking an electric fuel pump is a pretty straightforward operation. If you apply 12 Volts to the pump's contacts and it makes a "whirring" sound, it's a pretty good sign that the fuel pump itself is ok. If there is no sound coming from the unit while hooked up to 12 Volts, you have a bad pump. This is an original Delco in-tank electric fuel pump that mounts to the sending unit.

## Fuel Pump Safety Switch

This safety feature is a must have for any electric fuel pump vehicle. This safety switch monitors the tach signal to limit when an electric pump can operate. When the key is first turned on, the fuel pump is allowed to run for three seconds, priming the fuel system. After that, it only operates if the engine is running. If the engine stops, so does the fuel pump. No plumbing into the oil lines or no extra priming button under the dash is required.

RE12003	64.99 ea
---------	----------

## Fuel Pump Safety Switch

This fuel pump safety switch shuts off fuel flow whenever oil pressure drops below 15 psi. This adds a safety factor in case of an accident or engine stall. Designed for 12 Volt electrical systems and can be used into the oil pressure sending unit with an 1/8" NPT tee.

77872	28.99 ea
-------	----------

## Fuel Pressure Regulator

These fuel pressure regulators are machined from aircraft quality aluminum and have fluorosilicone diaphragm material for high temperature protection and extended life. Fully adjustable.

H12880	6AN inlet/outlet.....	156.99 ea

## EFI Bypass Regulator

Performance EFI regulator designed for medium to high horsepower applications. This regulator features Aeromotive's high flow design, superb pressure control and legendary durability. Features base pressure adjustable from 40-75 psi, gasoline and alcohol compatible, fuel pressure rises on a 1:1 ratio with boost, 1/8" National Pipe Thread taper (NPT) gauge port. Includes two o-ring boss fittings (ORB-06) inlet ports and one o-ring boss fitting (ORB-06) return port.

A9713109	adj. with EFI.....	209.99 ea
----------	--------------------	-----------

## Universal Bypass Regulator

A dual purpose, universal regulator for EFI or for carbureted street/strip applications. Features pressure adjustable from 3 to 20 psi with standard spring, (installed) or from 20 to 60 psi with high pressure spring (included). Offers the full flow and rock steady fuel pressure that only a dynamic, Aeromotive bypass regulator provides. Capable of regulating any fuel pump between 100 and 250 gph, fuel pressure rises on a 1:1 ratio when referencing boost. All ports are 3/8" National Pipe Thread taper (NPT), with one inlet and three outlets on the main body and one return port on the bottom. Bypass design provides the ultimate, dynamic fuel pressure control.

Note: Requires a return line to be installed from the bottom of the regulator to the top of the tank.

A9713301	3 Port 3/8" NPT.....	209.99 ea
----------	----------------------	-----------

## Carbureted Bypass Regulator

For use when converting from fuel injection to carburetion using the EFI pump in a carbureted application. Perfect for naturally aspirated or "blow-through" supercharged engines. Features base fuel pressure adjustable from 3-15 psi, 1-o-ring boss fitting (ORB-10) inlet port and 1-o-ring boss fitting (ORB-08) return port, fuel pressure rises on a 1:1 ratio when referencing boost, bypass design provides the ultimate, dynamic fuel delivery system, ideal for converting from fuel injection to carburetion using the stock, in-tank pump. EFI conversions will require a larger than stock return line for proper low pressure control. Includes two o-ring boss fittings (ORB-06) outlet ports and 1/8" National Pipe Thread taper (NPT) gauge port.

Note: Requires Army/Navvy fitting (AN-08) return line from bottom of regulator back to top of the tank.

## Performer Series Carburetor

By design, Performer Series square bore carburetors are refined to provide the widest possible torque range when matched with Edelbrock Performer, Performer RPM, RPM Air Gap, or Torker II manifold and camshaft combinations. However, these carburetors are not limited to these applications, they also match well with most stock and other manifolds of similar design. Performer Series square bore carburetors are all aluminum, ball burnished and lightweight. There are no power valves to blow out or plastic parts to break. The two piece construction resists warping and the metering rods can be changed in seconds without removing the carburetor. All Edelbrock carburetors include an installation kit and owners manual.

Note: \*50 state legal for all 1980 and earlier GM V8 engines.

# Performance Carburetors

## Street Series Carb

Street carburetors are constructed of lightweight aluminum, including provisions for a choke assembly and changeable idle air bleeds for easy, non-permanent calibration changes if necessary. Fine tuning is accomplished by simply changing air bleeds, not opening up calibration restrictions with a drill bit! These dual fuel inlet carburetors are hand assembled in the U.S. using the PROFORM high flow carburetor main body, durable billet metering blocks, aluminum fuel bowls, and a high-performance billet throttle base plate.

67208

### Carburetor Main Body Features:

- Lightweight Aluminum - Not Heavy Zinc High Flow Center Section Design
- Flat Surfaces: CNC Precision Finish
- Changeable Screw-in Idle Air Bleeds
- Changeable Screw-in High Speed Bleeds
- High-Performance Down Leg Boosters except 600 cfm
- Electric Choke on Mechanical Secondary and Vacuum Secondary Models

### Billet Throttle Base Plate Features:

- Adjustable Secondary Housing on Vacuum Secondary Models
- Easy Access Secondary Idle Air Flow Adjustment
- Strong, Lightweight Billet Aluminum
- Corrosion Resistant Black Anodized Appearance
- Button Torx Head Throttle Plate Screws
- Power Valve Blow Out Protection
- Slip Link Linkage on Mechanical Secondary Models

### Fuel Bowl Features:

- Lightweight Die-Cast Aluminum
- Fuel Level Sight Windows
- Externally Adjustable Needle and Seat
- Dual Fuel Inlet
- Notched Secondary Float

### Billet Metering Block Features:

- Strong, Lightweight Billet Aluminum
- Four Corner Idle System on Mechanical Secondary Models
- Changeable Idle Feed Restrictions
- Durable, No Warping or Porosity Problems
- Secondary Jet Extensions on Mechanical Secondary Models
- Non-stick Gaskets

## Slayer Series Carburetor

The 600 and 750 cfm Slayer Series carburetors are designed with the same engineering and innovations featured on all QFT products. These affordable, vacuum secondary street carburetors feature all aluminum construction and hand built quality. They are designed with a secondary metering plate with changeable jets, eliminating the need for a costly secondary metering block. Get QFT race winning innovation for your vehicle at a great price.

CB710600

*Note: This product is not CARB exempt. Products that are not CARB exempt are legal in most states, but may not be used in California or states with similar emissions laws except on pre-1976 vehicles.*

- Changeable idle air and high speed bleeds
- 3 Stage emulsion circuits in primary metering block
- Changeable primary idle feed restrictions and power valve channel restrictions
- QFT QuickSet adjustment on the vacuum secondary housing that provides external adjustment of the diaphragm without changing springs
- Notched secondary float for use with jet extensions
- Secondary metering plate with changeable jets
- Fully adjustable electric choke
- Polished finish for superior good looks

CB710750	750 cfm	electric choke	414.99 ea

## Hot Rod Series Carburetor

The Hot Rod Series of carburetors is designed for street applications. Made from lightweight aluminum castings and packed full of features, these carburetors are sure to make your hot rod run its best! Hand assembled and engine tested in the USA! Available in both vacuum and mechanical secondary configurations.

CB711650

*Note: This product is not CARB exempt. Products that are not CARB exempt are legal in most states, but may not be used in California or states with similar emissions laws except on pre-1976 vehicles.*

- Quick Set electric choke with one wire hookup for years of trouble-free starting.
- Dual inlet fuel bowls with Quick Set sight windows on both fuel bowls for safe and easy float level adjustment.
- Vacuum secondary carburetors have a Quick Set housing that is adjustable by simply turning a screw - no more spring adjustments to keep up with or torn diaphragms.
- 4 corner idle for smooth and efficient idle quality.
- Screw-in air bleeds for quick and unsurpassed tuning capability.
- Screw-in idle feed restrictions.
- Non-stick gaskets throughout for easy service.
- The QFT 4 door™ power valve with a strong diaphragm and blow-out protection in the throttle body.
- Universal throttle lever with sealed throttle shafts for years of smooth operation.
- Full vacuum accessory ports for PCV, power brakes and timed spark advance.

## Street Series Carburetor

These Quick Fuel Super Street carburetors offer race performance in a lightweight, street friendly package.

These carburetors are manufactured from aluminum and designed for maximum tunability through idle feed adjustment and power valve channel restrictions, as well as idle and high RPM air bleeds. Available with vacuum secondaries, which use fuel bowls with single sight glass windows, or a mechanical secondary design featuring dual inlet, dual sight glass 4500 style fuel bowls with links to tune the secondary opening rate.

CB712651

*Note: This product is not CARB exempt. Products that are not CARB exempt are legal in most states, but may not be used in California or states with similar emissions laws except on pre-1976 vehicles.*

- Changeable air bleeds idle and high speed for ultimate tuneability
- Aluminum fuel bowls with dual sight glass windows
- Billet metering blocks with changeable idle feed and power valve channel restrictions
- 4 corner idle system
- Notched secondary floats
- Secondary jet extensions
- Slabbed throttle shafts with Teflon bearing ribbons with stainless steel plates
- Billet aluminum throttle body
- Dog leg boosters/annular boosters mechanical secondary

MG1932 square bore to spread bore ..... 23.99 set

## Spread Bore Sealing Plate

Holley EFI spread bore sealing plate. This plate adapts a dual bolt pattern square bore carburetor or throttle body to a spread bore manifold and seal properly. Includes a 1/16" thick plate and 2 gaskets.

H90060 ..... 28.99 ea

## Carburetor Heat Shield

Heat shield for all GM models with Holley carburetors. This heat shield will help cool the intake charge for better performance. Excellent reproduction of the original 1970 GM Holley heat shield.

3969835 Holley 4 barrel carb ..... 43.99 ea

# Carburetor Components

## 1974-75 Rochester Carburetor Heat Shield

Reproduction carburetor to intake manifold heat shield. This shield when applied to intake manifold, will keep fuel in carburetor from reaching high temperatures due to engine block heat. Excellent for use on high-performance engines. For use with 4 barrel with Rochester bolt pattern.

354310 1974-75 Rochester..... 5.99 ea

## Carburetor Spacers

Carburetor spacer sets are now available for Holley carburetors. Each set includes mounting hardware and gaskets.

### Open Center

## Carburetor Spacer Set

Easily optimize the flow rates of air and fuel in your car with this modular 1" carb spacer set! Since various engine combinations have different fuel and air delivery requirements for maximum performance, each spacer set includes 1 frame and 2 popular inserts: open, 4 hole, and tapered 4 hole. This way, you can dial in exactly the right flow to get the most from your motor. 67160 carburetor spacer ..... 31.99 set

## 5-1/8" Diameter Carburetor Cover

Keep dirt and contaminants out of your carburetor while working on your engine with the air cleaner removed.

Produced using tough plastic construction. For use on all 4 barrel carburetors. 5-1/8" diameter.

T2012 1967-86 4 barrel..... 6.99 ea

## Carburetor Wedge Plate

During hard acceleration the float bowls in a carburetor become uneven, causing moderate fuel starvation. This aluminum spacer tilts the carburetor forward 5 degrees to help keep it level. This spacer measures .830" at its thickest point and has a dual bolt pattern for standard Holley, Carter AFB, and Edelbrock carburetors.

Note: Not legal for use on pollution controlled vehicles.

265030 ..... 48.99 ea

## Carburetor Linkage Plate

Each plate is triple chrome-plated for a beautiful finish. For GM cables. Can be used with part #T2334.

T2333 Holley/AFB..... 30.99 ea

## Carburetor Rod Clip

Reproduction carburetor rod to accelerator rod clip. Manufactured to original specifications for a correct replacement. Fits 5/32" rod diameter, LH and RH, 11/64" I.D.

J00937 LH ..... 2.99 ea  
3962782 RH ..... 2.99 ea

## 1967-69 Servo Mounting Bracket

Correct reproduction servo mounting bracket for 1967-69 models with cruise control. Authentic reproduction of original.

HC87 1967-69 ..... 79.99 ea

## Morse Cable Bracket

Chrome-plated bracket for Holley or Quadraject carburetor linkage plates. Can be used with part #T2333.

T2334 ..... 7.99 ea

## TH700-R4 Trans. Cable Bracket

This bracket is designed to be used on Holley 4150 and 4160 square bore carburetors only. It bolts onto the carburetor flange ear and provides a convenient mounting point for transmission and throttle cable.

H2095 ..... 32.99 ea

## Transfer Tube O-Ring Seals

These fuel resistant o-rings will help prevent dangerous fuel leaks at your carburetors fuel transfer tube. Both old and new style o-rings are available.

H2637 old style..... 7.99 pr  
H10897 new style..... 9.99 pr

## Carburetor Needle and Seat

We offer several needle and seat assemblies for Holley carburetors. The seat size determines how much fuel can flow at a certain pressure. Larger sizes flow more fuel. Tune your Holley carburetor to flow the right amount of fuel at the proper pressure with a new Vion-tipped needle and seat.

H6506 .97 adjustable..... 17.99 ea  
H6504 .110 adjustable..... 20.99 ea

## 1975 Carburetor Float

Genuine ACDelco replacement Rochester carburetor floats. Replace the original float when rebuilding your carburetor and assure you get the quality you deserve. G9661 1975 4 barrel..... 16.99 ea

## Carburetor Float Bowl Screws

These are reproductions of the screws for Holley dual float carburetor bowls. This is a set of eight 2-1/2" flat blade screws. A must when rebuilding your Holley dual float carburetor.

14305 ..... 14.99 set

## Float Adjustment Tool

No more slight-of-hand tricks! Easily adjust your carburetor float level with this hand float adjustment tool. 5/8" socket and built-in screwdriver blade protects your engine and hands from fuel spray.

67443 ..... 32.99 ea

# Carburetor Components

## Accelerator Pump Cam Set

**Holley**

This set will allow you to "tailor" accelerator pump performance to the engine's actual requirements. Each cam has a different shape to give different results. The shape of each cam directly affects the accelerator pump stroke and pump capacity. A steeply rising cam shape will give a fast, heavy fuel shot right off idle. Conversely, a gentle sloping ramp will spread the pump action over a longer period of time.

H2012 includes 8 pump cams..... 33.99 set

**Holley**

H2059

H2013

## Secondary Spring Set & Housing

Make changing your vacuum secondary spring a simple job with this quick change housing and set of adjusting springs. It is simple to install on any vacuum secondary Holley carburetor. The seven color coded spring set from light to heavy will allow you to adjust the opening of your secondaries.

H2059 housing..... 25.99 set

## 1970-72 Rochester 4 Barrel Choke Pull Off

Reproduction choke pull off for 1970-72 Pontiac motors equipped with a Rochester 4 barrel carburetor. The main purpose of the choke pull off is to keep the choke from closing too much when the engine speeds up, or vacuum drops down. This allows the motor to get the proper amount of fuel to get going, especially when the engine is cold. Features the correct style metal body with gold cadmium finish like original. Available in single or dual port designs.

**Note:** \* Fits all 1970 Firebird models except Ram Air. † Fits all 1971-72 Firebird models except Ram Air and HD.

## 1971-72 Idle Stop Solenoid Bracket

This bracket mounts the idle stop solenoid to the carburetor on 4 barrel Firebird and Trans Am models. Manufactured from heavy gauge plated steel for a lasting appearance and performance.

A8700104 1971-72 ..... 14.99 ea

## 1967-72 Idle Solenoid Bolts

This is the correct hardware for mounting the idle solenoid to the carburetor bracket on 1967-72 Pontiac engines. Set contains two TR marked bolts and two correctly marked locking nuts.

A8700194 1967-72 ..... 6.99 set

## 1967-70 Remote Choke Thermostat Cover

Reproduction remote choke thermostat covers for 1967-70 GM models with Rochester 4 barrel carburetors with the choke thermostat mounted to the intake manifold.

**Note:** For vehicles with Chevrolet engine conversions.  
3864866 1967-70 ..... 6.99 ea

## 1967 Thermostatic Choke Coil

Over many years of driving, the choke coil winding can suffer undue distortion causing incorrect operation. Will install as original and will ensure countless hours trouble-free driving.

**Note:** For vehicles with Chevrolet engine conversions.  
1256604 1967 396 ..... 25.99 ea

## 1968-69 Choke Set

Reproduction of the original carburetor choke set designed for use with 1968-69 Firebird small block, and big block (396) models with Holley carburetor. Includes all the necessary components to replace an old or damaged choke setup. Set includes: the cover, rod, choke spring, screw, and clip. 5 piece set.

**Note:** For vehicles with Chevrolet engine conversions.  
K0062 1968-69 all with Holley carb 27.99 set

# Carburetor Components

## 1968-71 Throttle Shaft and Choke Set

Reproduction of the original quadrajet throttle shaft and choke set designed for use with various 1968-71 Pontiac models including Firebird and Trans Am models. This show quality set contains the key components to repair or restore a 1968-71 Pontiac Quadrajet carburetor with bad throttle shafts. Includes front and rear shafts and a choke assembly featuring correctly stamped GM numbers. This set can also convert later model carburetors to work with an earlier application.

A8700127 1968-71 ..... 74.99 ea

## 1967-70 Choke Rod

During a multitude of years and mechanics modifications, these choke rods can become damaged or missing. Replacing this choke rod will allow your carburetor to function correctly and keep your engine running smooth. Also includes correct attachment clip.

*Note: For vehicles with Chevrolet engine conversions.*

BK1710 1998-02 85mm ..... 399.99 ea

## 1992-97 Performance Throttle Body

With larger ports in the throttle body your engine will receive a greater volume of air which will allow it to make more potential horsepower and less likely to be a restriction in the system. This is why we offer the 52mm and 58mm high flow throttle bodies. Designed for outstanding throttle response and wheel spinning torque, these throttle bodies have been meticulously cast and flow bench tested for optimum airflow. It provides supreme power when mated with high flow intake systems, exhaust systems, headers, or superchargers, 50 state legal.

D1953	31.99 set

**Holley**

## Throttle Cable Bracket

This chrome throttle cable bracket can be used with all 4150 and 4160 model square bore Holley carburetors. It includes dual stainless steel return springs.

H2088	with springs	33.99 ea
-------	--------------	----------

## 1968-71 Four Barrel Throttle Cable Bracket

Reproduction die-stamped throttle cable bracket for 1968-71 Firebird/Trans Am models with TH400 or manual transmission. 1968-69 bracket has original style F-4 and 9797415 markings stamped on it. 1970-71 bracket has original style F-4 and 480589 markings stamped on it.

K7971	1968-69	49.99 ea
K7969	1970-71	44.99 ea

## 1970-72 Throttle Cable Bracket

Reproduction throttle cable bracket for use on 1970-72 Firebird models. This quality bracket is for high-performance cars with a Holley carburetor. Replaces OE # 6261814.

14876	1970-72	19.99 ea
-------	---------	----------

## Throttle Spring Return Set

Mounts to intake manifold on driver side. Required by many race sanctioning bodies and a great idea for any high-performance vehicle, these intake manifold mounted throttle return spring and bracket sets provide positive throttle return. Includes: chrome brackets, springs, bushings, and fastener.

Holley 2 Barrel		
DC2083	2300, 2305	13.99 set

Holley 4 Barrel

# Electronic Fuel Injection

## Atomic EFI Set

The MSD Atomic EFI set fits all engines making up to 525 horsepower at the crankshaft. The annular ring charge injection design produces a better air/fuel mixture and distributes it evenly among the cylinders. As a result, engines idle, start, and drive better with the Atomic EFI set. Throttle bodies feature 80 lb injectors and a self-calibrating throttle position sensor. They also feature an internal fuel rail for no-leak, no-hassle fuel delivery. The master set is complete and ready to use out of the box. It includes the EFI throttle body, electric fuel pump, fuel line and filter with hardware, power module with wide band O2 sensor, and handheld controller. Also available are the throttle body set which includes everything except for the fuel system components. Or purchase the fuel components separately.

*Note: Atomic EFI sets are California emissions approved for carbureted General Motors vehicles 1987 and older. E.O number D-722.*

## Sniper Returnless EFI Master Set

Sniper EFI master sets, with a returnless retrofit fuel module. This contains combines the Sniper EFI self-learning throttle body, with an easy to install in-tank retrofit returnless module, 20 ft of Earl's vapor guard fuel hose, and the required fittings. The included fuel system places a 340LPH fuel pump in the tank, which can easily be accomplished with basic hand tools. The drop-in master sets make plumbing your Sniper EFI installation as hassle free as possible, simply cap the regulator on the Sniper EFI throttle body with the provided -6an cap, safely route the vapor guard fuel line along the chassis back to the die-cast fuel hat, and the job is finished.

## Sniper EFI Air Cleaner Base

Holley Sniper EFI air cleaner 1" drop base for 14" air cleaners. This base was specifically designed for use with the Sniper EFI 4 barrel throttle body. It features 2 reliefs stamped into the steel to clear the Snipers dual fuel inlets. Compatible with -6AN to 3/8" 90 degree fittings and available in chrome or black.

H120510 .....	all V8 chrome.....	28.99 ea
H120511 .....	all V8 black.....	23.99 ea

## Fuel Return Adapter

This adapter creates a return system simply by cutting a 2-3/4" section out of any standard 2" fuel filler tube. Made from aluminum with a 3/8" fitting that points 90 degrees downward to direct fuel back to the bottom of the tank. Each set includes the adapter with 2 Buna rubber sleeves and 4 stainless steel clamps for a leakproof seal.

## Sniper EFI Fuel Injection Conversion Set

Holley Sniper EFI universal self-tuning fuel injection conversion sets. Converting to EFI will put an end to the cold start issues, hesitations, vapor lock, and flooding associated with most carbureted engines. Sniper sets feature numerous styles of throttle body and are available in polished, black ceramic, and classic gold finishes. Master sets include the most complete fuel system on the market. Holley just brought EFI within range and Classic Industries® carries the complete Sniper line with sets for nearly any application.

### Sniper EFI Features:

- Easy 4 Wire Hoop Up
- Throttle Body Mounted ECU
- Supports Up to 650 HP
- Integrated Ignition Timing Control & Coil Driver
- High Resolution Full Color Touchscreen
- Simple Calibration Wizard — No Laptop Needed
- OEM Style Sensors
- Clamp-on Oxygen Sensor Bung

### 4150 Four Barrel Set

Holley 4150 four barrel sets feature dual bolt patterns (square and spread bore), an internal fuel pressure regulator, and four 100 lb injectors capable of supporting up to 650 horsepower.

Note: Spread bore/Rochester Q-jet applications require sealing plate part #H990060.

#### Standard Sets

## TERMINATOR EFI

### Terminator TBI Set

Holley Terminator EFI 4 barrel throttle body fuel injection system with transmission control. High-performance system includes a 950 cfm 4150 flanged throttle body based on Holley's Nascar TBI with four 80lb/hr injectors. The Terminator ECU is virtually maintenance-free and fully self-tuning — no laptop required. The base sets include a 4150 style square bore throttle body, a Terminator ECU, a handheld EFI monitor, and with or without transmission control. Master sets include the most complete fuel system on the market.

# Exhaust Headers

## 1967-02 Hedman Hedders

Classic Industries® stocks Hedman Hedders™ for 1967-02 Firebird models. These units are designed to replace the heavy, and restrictive factory manifolds with tubular steel manifolds. These Hedders are not only lighter, but will also increase your Firebird's performance. Tork-Step Hedders feature an innovative design that allows for an increased overall torque curve. Sets are complete and ready to bolt-on. Includes collector and header to head gaskets, collectors, and bolts. We offer Hedman Hedders™ for use with or without air injection (smog tubes). Get more performance from your Firebird without breaking the bank, and do it with a name you can trust in the header business... "Hedman".

**Important:** Be sure to read the important notes listed on the bottom of this page pertaining to each header system for correct application.

**Note:** These headers are intended for off highway use only and are not designed for use on California vehicles with pollution control devices. Shipped oversize.

### Hedman Hedder Notes

- Without smog injection or injection heads.
- Three tube design.
- Includes parts necessary to retain emission devices. (50 state).
- With A.R. system.
- Modification to stock exhaust required to retain catalytic converter.
- Except round ports.
- Shortie Header (Max. ground clearance).
- Check non-Tork Step listings for same part number replacing last digit with a zero. Pay special attention to emission footnotes.
- Some heads require drilling and tapping of end holes.
- 16 gauge tubing.
- Not legal for sale or use in California on pollution controlled motor vehicles.
- Will not fit Saginaw cross ratio psi with 825 power steering box.

### Hedman Hedder Notes - Continued

- Will fit with angle plug heads (Chevy aluminum only).
- Dual exhaust only. Limited ground clearance.
- Must modify rotary AC bracket.
- Chevrolet engine.
- Transmissions limited to TH700R4 and TH350.
- Complete with Y-Pipe to single catalytic converter.
- Complete with dual Y-pipe to dual catalytic converters.
- Must use part #21107 oxygen sensor reducers, not supplied with Hedder.

### Hedman Hedder Emissions Notes

- \* Not applicable or intended for street or highway use. Legal only for racing vehicles which may never be used upon a street or highway.
- C) For vehicles 1964 through 1974 without A.R. system, considered as OE replacement parts when existing emission controls are not removed from vehicle.
- D) Not legal for sale or use in California.
- I) 1975-79 only, 50 state legal for these years only.
- T.E.M.S. (Tubular Exhaust Manifold Systems) are 50 state legal for years listed in catalog only.
- X) Not applicable or intended for street or highway use. Legal only for racing vehicles which may never be used upon a street or highway.

## 1970-81 Competition Headers

Hooker Competition headers offer the best value in the high performance header market. Designed for the value conscious buyer who is running either a "stock" or "mildly modified" engine, Hooker Competition headers offer premium features at a very competitive price. Made of durable 16 gauge mild steel tubing, the Hooker Competition header design utilizes a long transition collector to reduce back pressure and increase exhaust flow. A perfect sealing surface is assured with the 5/16" machined flanges, with welded o-ring seals. Experience has proven that this flange size is ideal to maintain header integrity and be pliable enough to seal each exhaust port. Tubing is mandrel bent to maintain metal strength and provide consistent tube diameter at radii to maximize performance.

**Note:** Shipped overweight.

### Painted Headers

These Competition headers have a standard finish that features a heat-cured, high heat resistant paint.

4901	1970-79	Pontiac engines	305.99 pr
2451	1978-81	Chevy small block	238.99 pr

### Ceramic Coated Headers

These Hooker Competition headers have the famous Hooker Ceramic Thermal Barrier Coating.

49011	1970-79	Pontiac engines	579.99 pr
24511	1978-81	Chevy small block	521.99 pr

# Exhaust Headers

## 1967-81 Doug's Headers

Doug's headers are carefully developed to fit each specific vehicle application. Doug's headers are available for 1967-81 Firebird models with small block or big block V8 engines, with and without air injection ports, and with console or column shifters. Heavy-duty machined and finished header flanges, the smooth mandrel bent tubes, and a protective Metallic Ceramic Thermal Barrier Coating (MCTBC) make Doug's Headers an excellent choice for exhaust system performance.

8304

**Important:** These headers are intended for off-highway use only and are not designed for California vehicles with pollution control devices. Be sure to read the important notes listed on the bottom of this page pertaining to each header system for correct application. Note: Shipped overze.

## 1967-81 Full Length Stainless Steel Racing Headers

ARH full length stainless steel headers for 1967-81 Pontiac Firebird. They are fabricated from aircraft quality T304 stainless steel and feature 3/8" thick round port flanges with hand ported inlets and fully welded custom sized merge collectors with scavenger with spikes standard. American Racing Headers will provide excellent ground clearance and are a direct bolt-in installation for Firebird models.

Note: \*Stepped headers.

## Ram's Horn Exhaust Manifolds

These exhaust manifolds are based on the famous high-performance small block Chevy Ram's Horn manifolds from the 1950's and 60's. Manufactured from heavy cast iron without air injection ports or alternator/generator bracket provisions. Available in raw cast iron, black ceramic, silver ceramic or with a heavy chrome finish. Includes mounting hardware and gaskets. Sold in pairs.

*Note: Not legal for use on pollution controlled vehicles.*

## 1967-68 Ram Air I Exhaust Manifold

Reproduction 1967-68 Ram Air I D-port long branch exhaust manifolds were originally installed on 1967-68 Pontiac Firebird Ram Air models with Pontiac engines and D-port heads. These high-performance reproductions are designed and manufactured from high grade cast iron in the USA. Manifolds have 6 bolt holes and a 2 bolt flange each, and require 2-1/2" head pipes. Flanges sold separately. Gaskets not included.

**Important:** When using these manifolds on 1967-68 Firebird models with a 1970 or newer engine, a different oil filter mounting plate is needed for clearance of the oil filter. Part #5379457 (currently unavailable from GM or as a reproduction) from a 1966 GTO has the proper offset of approximately 120 degrees which allows for the clearance needed.

**Note:** To properly mount the RH manifold on a non-Ram Air motor, the special Ram Air oil filter adapter must be used for the RH manifold to clear the oil filter.

## LS Cast Iron Exhaust Manifolds

These Hooker cast iron exhaust manifolds are designed to hug the engine block closely so they will work with a variety of LS engine swaps or as a replacement. The contoured shape increases flow and performance over stock manifolds with a traditional look. Fits all LS engines up to 500 horsepower except L57 and L59. Made from hi-silicon ductile iron for years of durability and corrosion resistance. Available in a range of different finishes.

**Important:** Not C.A.R.B. certified and may not be legal for use in some states on pollution controlled vehicles.

17973 3/8"-16 x 1" ..... 10.99 set

## Wedge Locking Header Bolts

PROFORM Grade 8 (12.9 steel), Hex type header bolts were designed to keep bolts from backing off. These permanently assembled bolts feature special washers with super hardened serrated teeth that, when sufficiently torqued, the washers bite into and grab the bottom of the bolt head and the top surface of the header. After being self-locked in this manner, any bolt loosening rotation is blocked by a wedge locking action created by the washers interfacing, matching cams. Engine vibration increases the tension, making them even more secure! They are reusable and you can count on them to not fail. Available in different sizes.

## 1985-02 Oxygen Sensor

This often overlooked item is a very important component in your late model Firebird. Controlling both the fuel and ignition systems, a bad oxygen sensor can lead to problems such as poor fuel economy, increased emissions, failed catalytic converters and poor drivability. The ease of which these sensors can be replaced is frequently misunderstood. It is highly recommended that you test and/or replace your sensor at every tune-up and before submitting your vehicle for emissions testing.

Note: \*Front.

## 1967-81 Manifold Down Pipes

Not all performance enthusiasts use collector style headers, so Pypes has designed 2-1/2" down pipes for log style, rear exit exhaust manifolds to fit your Pypes header back systems. These down pipes are made from 409 stainless steel and mandrel bent 16 gauge tube that fit directly onto factory cast iron manifolds, and slip into the header back systems. Manifold flanges are already installed.

Note: Shipped double oversize.

P1065

## 1967-81 Tunnel X-Crossover

Since a V8 fires alternately, exhaust exits in pulses rather than a steady flow. While one pipe is filled with pressure the other pipe is relatively pressureless, but connecting the two pipes in a Siamese pattern allows pressure to be equalized between the two tailpipes. This action allows the exhaust to pass through quicker for better breathing that increases horsepower. The Pypes crossover product line is defined by a high-quality, exceptionally versatile design. They are a proven winner when it comes to bumping up the horsepower of your daily driver or race car. Pypes tunnel X-Crossover fits a variety of 1967-81 Firebird models with easy installation. All crossovers are made of 409 stainless steel which are needed most. All pipes are mandrel bent to allow for the maximum flow of exhaust gasses, which boosts acceleration. Limited lifetime warranty.

**Important:** Modification to the body pan brace is required on 1967-69 convertible models. In order to utilize this X-pipe, it is necessary to either add a body pan designed to allow clearance for the X-pipe assembly, or remove the body pan and install subframe connectors. If using stock, cast iron manifolds, add a set of down pipes to connect your original manifolds to the header back system.

Note: Shipped oversize.

P1077

## 1967-81 X-Crossover Dump Legs

These dump legs replace the front legs of the X-pipe crossover. Strategically located for maximum ground clearance. All dump legs include block-off plates and hardware. Manufactured in 409 stainless steel with mandrel bends to allow for the m maximum flow of exhaust gasses. Add the optional electric exhaust cutouts (sold separately) and make uncorking your exhaust as easy as flipping a switch.

Note: \*Connects to any 2-1/2" exhaust with an approximately 12" straight section and enough clearance for the motor valve assemblies.

FLOWMASTER

## 1967-69 3" Firebird Tailpipe Set

Flowmaster's 3" mandrel bent tailpipe set covers 1967-69 Firebird models. This tailpipe set is designed so you can create a mandrel bent custom high-performance exhaust for any Firebird including convertibles. Flowmaster designed these one piece tailpipes with three things in mind: performance, fit and easy installation. The tailpipes are designed to exit between the tires and rear bumper on either side of the vehicle.

Important: No hardware or hangers are included.

## 1982-90 Genuine GM Exhaust Clamp

Factory replacement exhaust pipe clamps which are superior to aftermarket clamps. These clamps include the U-bolt, clamp closure and two attachment nuts. Excellent choice for the "hard core" restorer.

G9627	1982-90	2" clamp	22.99 ea
-------	---------	----------	----------

## Tailpipe Expander

Use to remove clamp grooves and round out crushed or bent exhaust pipes to ensure a tight fit, eliminating exhaust leaks. The Hex end allows the use of a combination wrench to remove clamp grooves or small imperfections, or an impact wrench to expand pipes. Imperfections are forced outward rather than forward, eliminating possible damage to component parts. No holding fixture is necessary.

X3442	1-13/16" to 2-1/2" pipes	44.99 ea
-------	--------------------------	----------

## Exhaust and Tailpipe Cutter

Cuts pipes 3/4" to 3 1/8" (19mm to 76mm) in diameter. 15 blades effectively cut pipe so only 1/4" turn is needed for complete cut. Works great in hard to reach areas.

X2031		59.99 ea

## Universal Super Turbo Muffler

Exclusive patented flow directors channel exhaust flow and eliminate turbulence. Larger diameter internal tubes for maximum flow, along with fiberglass matting that delivers a mellow, true performance sound. All aluminumized materials, double wrapped and arc welded for longer life and sharper appearance. All universal mufflers are reversible for custom installation.

Important: Sport model from 2" to 2-1/2" measures: 4" x 9-3/4" x 18-1/2" and 3" measures: 4" x 9-3/4" x 20". Street model measures: 4" x 9-3/4" x 25-1/2".

## F304 SS Ultra Flo Muffler

Uses a unique straight through design that maximizes flow and power. Made from all stainless steel materials for corrosion resistance. Includes high chromium content, high luster T-304 cover and heads. Continuous perf design maximizes sound absorption, minimizes turbulence and gives a deep powerful true performance sound. All universal mufflers are reversible for custom installation.

Important: This muffler comes in two styles: Sport model measures: 4" x 9-3/4" x 18-1/2". Street model measures: 4" x 9-3/4" x 25-1/2".

## 409 Stainless Muffler

Pypes Street Pro mufflers are chambered to maintain rich sound without resonance. Race Pro have a straight through design, while Violator mufflers have an internal louvered tube with mini sound deflector chambers, making it flow like a straight through muffler but with the sound of a chambered muffler. Each muffler measures: 4" x 9" x 14".

# FLOWMASTER Performance Mufflers

## FLOWMASTER Performance Mufflers

Flowmaster's technology uses the pressure and sound energy released from an engine's combustion chamber into the exhaust system to create a low pressure

area between exhaust pulses. Their design uses this energy to pull spent gases out of each cylinder more efficiently. This improved removal of exhaust gases out of the cylinders promotes a more efficient charge of unburned fuel and air to fill the cylinder for the next cycle. The result is more power as the engine has a purer mixture to burn.

## FLOWMASTER 40 Series Performance Muffler

AMERICAN THUNDER

- Aluminized Steel
- Original Flowmaster Tone
- Deep Tone Inside Vehicle
- Street or Strip

## Super 40 American Thunder

The Super 40 5" x 10" case design gives you a deeper tone that retains our classic 40 Series sound and feel. Increased flow path radius for optimum internal flow using the latest in Delta Flow technology. Flowmaster state-of-the-art robot assembly technology assures a product that exceeds OEM auto manufacturers' specifications.

To achieve such critical quality, Flowmaster performs extensive R&D at the track and in-house with our own engine and chassis dyno facilities. Flowmaster Super 40 is aluminized, black in color and is the most aggressive, deepest sounding street two chamber muffler they've ever built. Enjoy some American Thunder today!

## Super 10 Series — Stainless Steel Muffler

Looking for the most aggressive sound available? Flowmaster's new Super 10 series mufflers

are so aggressive, they aren't recommended for street driven vehicles. Best suited to racing applications, these feature the same Delta Flow performance technology used in the highly popular Super 40 and Super 44 series Flowmaster mufflers. Manufactured from durable 409S stainless steel for long-life and offered in a variety of configurations. Backed by a limited lifetime manufacturer's warranty, these short, single chamber mufflers deliver the closest thing to open pipe sound possible. If you want high impact sound, the Super 10 series mufflers are the answer. Measures: 6-1/2" x 9-1/2" x 4".

Note: These mufflers are recommended for off-highway use, not for street driven vehicles.

F8430152	3-1/2"/2-1/2"	center inlet/dual outlet.....	89.99 ea

## 40 Series — Original Flowmaster Tone

This is the most "aggressive" sounding street/strip muffler that Flowmaster offers. If you're looking for attention, this one will get you noticed. The standard 40 series has an "aggressive rumble" and will generally resonate inside the vehicle around 1800-2000 RPM's, and again at 2400-2600 RPM's. Constructed of 16 gauge aluminized steel and fully MIG welded for maximum durability.

## FLOWMASTER Delta Flow 40 Performance Muffler

FLOWMASTER DELTA FLOW TECHNOLOGY

- T409 Stainless Steel
- Powerful Aggressive Tone
- Lower Interior Resonance
- Street or Strip

## Delta Flow 40 Series — Reduced Interior Resonance

This two chamber design incorporates Flowmaster's patented "Delta Flow" technology. The "Delta" deflectors result in increased scavenging for better performance and reduced interior resonance over the standard 40 series with a nice growl outside the vehicle. Sounds great on late model performance cars with catalytic converters. Constructed of 16 gauge steel and fully MIG welded for maximum durability.

## FLOWMASTER 80 Series Performance Muffler

- Aluminumized Steel
- Aggressive Performance Sound
- Higher Interior Resonance
- Transverse Mounting

### Cross Flow 80 Series — Transverse Mounting

The 80 Series is designed for applications where the muffler must be mounted transversely (cross flow) behind the rear end. It provides an aggressive muscle car sound both inside and outside the vehicle. A replacement for early and late model Firebirds. Constructed of 16 gauge aluminumized steel and fully MIG welded for maximum durability.

P1069S

## 1967-69 Header Back Dual System with X-Pipe

Pipes has designed a header back dual exhaust system for 1967-69 V8 models that incorporates a 16 gauge, mandrel bent stainless steel X-pipe to maximize exhaust gas flow and boost horsepower. This system features a Siamese designed X-pipe, a pair of Street Pro, Race Pro or Violator mufflers, tailpipes, cal-plated clamps, and hangers. The combination of the crossover and the mufflers deliver a perfect balance of sound and performance. Features 409 stainless steel X-pipe, mufflers, intermediate pipes, and tailpipes. Limited lifetime warranty.

**Important:** Modification to the body pan brace is required on 1967-69 convertible models. In order to utilize this X-pipe, it is necessary to either add a body pan designed to allow clearance for the X-pipe assembly, or remove the body pan and install subframe connectors. If using stock, cast iron manifolds, add a set of down pipes to connect your original manifolds to the header back system.

Note: Shipped double oversize.

## 1967-81 Header Back Crossflow System

Pypes has designed a 2-1/2" crossflow system for use on 1967-81 Firebird models needing maximum ground clearance. The Race Pro muffler is the first maximum flow, straight through, transverse mounted Crossflow Muffler System that doesn't need to sacrifice any performance or aggressive growl to give you clearance. This system also features a horsepower freeing X-pipe designed to fit into the driveshaft tunnel, which contributes to it's ability to glide over the nastiest speed bumps. Available in 409 stainless steel or 304 polished stainless, including X-pipe, muffler, intermediate pipes, and tailpipes. Limited lifetime warranty.

**Important:** Modification to the body pan brace is required on 1967-69 convertible models. In order to utilize this X-pipe, it is necessary to either add a body pan designed to allow clearance for the X-pipe assembly, or remove the body pan and install subframe connectors. If using stock, cast iron manifolds, add a set of down pipes to connect your original manifolds to the header back system.

## 1970-81 Firebird Performance Exhaust System

From the makers of Holley performance products comes this great Super Street exhaust system. Get more power and sound! Made from 2-1/4" 16 gauge, heavy-duty steel, this is a high-quality, dual exhaust system that offers the maximum in versatility. All Flowtech Super Street dual kits are designed to locate all components above the frame and feature OEM exit locations. This kit includes your choice of the Terminator muffler or the Raptor muffler. Flowtech's Terminator is constructed entirely of superthick, black aluminumized steel, fully welded for strength and durability with 3" inner pass tubes that reduce back pressure and increase horsepower like no other muffler can. Terminator Dimensions are 15" x 11" x 5". The Raptor muffler features a unique sound rib case design and aluminumized, lock seal construction. The Raptor has low restriction, reduces back pressure and increases performance. It offers gigantic, high output flow tubes to provide more horsepower, better mileage, and a sound of pure performance. Dimensions 13" x 10" x 4-1/2" with offset-inlet/center outlet. All kits come complete with installation hardware and instructions. Kits must be used in conjunction with headers sold separately. For second generation Firebirds with small block Chevrolet engines.

**Note:** No provision for catalytic converter. Shipped double oversize.

## 1970-89 Performance Exhaust System

Made from 2-1/4" 16 gauge steel, these high-quality, dual exhaust systems will increase horsepower in Firebird models with small block Chevrolet, Pontiac, or Oldsmobile engines. Choose between Ultra Flo SS or Super Turbo mufflers. The Dynamax Ultra Flo mufflers are made from aluminumized steel for longer life and use a straight through design to maximize flow. The Dynamax Super Turbo muffler features patented flow directors to channel exhaust and reduce turbulence for maximum flow and a mellow performance sound. Super Turbos are made from double wrapped aluminumized material for longer life. Kits include hardware and instructions. All systems must be used with Dynamax headers sold separately.

**Important:** Will not fit manual trans in years 1971-76.

**Note:** Shipped double oversize.

### Exhaust System with Ultra Flo Muffler

11108	1970-79	with Pontiac engine	410.99 kit

DF110

## 1983-91 Direct Fit Exhaust System

Installing a high-performance exhaust system for your later model Firebird has never been easier! This 2-1/2" direct fit system follows the OEM routing and mounting points exactly so you don't have to cut and weld brackets and pipes. Now you can bolt-on a complete high-performance system featuring your choice of the power boosting Super Turbo muffler or the Ultra Flo SS muffler.

**Important:** \*Except dual catalyist converter models.

**Note:** Engine is the 8th digit of the VIN. Shipped oversize.

## 1984-02 Cat-Back Dual Exhaust Systems

Get a deep, bold growl from your 3rd or 4th Gen with a Borla high flow Cat-Back exhaust system! Features 3" mandrel bent tubing to reduce back pressure and improve performance. Includes: muffler, connection pipes, tailpipes, chrome exhaust tips, and mounting hardware. Manufactured from high-quality stainless steel and backed by a 1,000,000-mile warranty.

**Note:** \*Features 5 adjustable sound settings. AT/MT. Shipped oversize.

## 1983-02 Cat-Back Exhaust Systems

These systems are built with fast flowing mandrel bent stainless steel tubing and include long 3-1/2" diameter polished stainless steel tips. The Camaro V6 system is designed to look just like the V8 with split dual out tips. Magnaflow's wide open performance mufflers outflow OEM chamber style mufflers by as much as 167%. This reduces engine heat and back pressure and improves exhaust scavenging from the combustion chamber. Made in USA.

**Note:** Shipped truck freight.

## USA Universal Dual Electric Cutout Set

The optional electric exhaust cutouts make unhooking your exhaust as easy as flipping a switch. Electric cutout set includes: 2 valves, wire harness, switch, mounting hardware, and 2 gaskets. Limited lifetime warranty. Available with or without Y-pipes. Made in USA.

**Note:** \*Connects to any 2-1/2" exhaust with a straight section of approximately 12" in length and enough clearance for the motor/valve assemblies.

**For use with 2-1/2" or 3" Y-Pipes (Dump Legs)**  
P1074 cutout set only ..... 428.99 set  
**Includes 2-1/2" Y-Pipes (Dump Legs)**  
P1074K\* cutout set with Y-pipes ..... 550.99 set

## USA Stainless Steel Electric Cutout

These cutouts feature a rugged 12 Volt DC motor and rotating gate for a leak proof seal every time the cutout is opened and closed. When fully opened, these cutouts do not create exhaust flow obstructions that can create a leaky gasket sound, unlike butterfly style cutouts. A pre-wired harness with an illuminated rocker switch is supplied for easy installation. Unhook your exhaust with the flip of a switch from your dash. The cutouts are ideal for race tracks that don't require mufflers. Available individually, in pairs, or in complete kits with Y-Pipes for easy installation. Made in USA.

**Important:** Not recommended for vehicles equipped with catalytic converters.  
**Note:** May not be legal for highway use or use on emission controlled vehicles.

## USA Stainless Steel Cutout Turndown

Easily route your cutout exhaust flow in any direction with these easily installed 304 stainless steel turndowns. These turndowns are made specifically for Doug's electric cutouts and included stainless band clamps for weld free attachment. Made in USA.

25058 2-1/2" turndown pipe ..... 40.99 ea  
25059 3" turndown pipe ..... 39.99 ea

## Electric Exhaust Cutout

Don't crawl under your vehicle to unhook your exhaust ever again by switching to electric cutouts. Keep them closed and quiet for the street, wide open for the strip, or anywhere in between with the flip of a switch. You control the volume and the power! Available in sizes 2-1/4" to 4" and a low profile oval design for applications with limited ground clearance. Fits 2-1/4" to 3" round exhaust pipe. Built with high-quality materials CNC 6061 aluminum body and motor plate, stainless steel shaft and butterfly plate, high torque DC gear driven motor, weather tight wiring connectors, and custom illuminated toggle switch.

**Note:** Match valve size with cutout size for optimal fit and performance.

## J-B Weld SteelStik

J-B Weld SteelStik is a steel reinforced epoxy putty stick. This hand knead able epoxy adhesive will plug holes and make permanent repairs on wet and dry surfaces. Cures completely submerged in gasoline or under water in 60 minutes. Can be drilled, sanded, filed, tapped, machined, and painted. Works on multiple surfaces: aluminum, brass, bronze, copper, iron, and stainless steel. Cure color is dark gray. Made in USA.

## Xtreme Temperature Coating

XTC is a high temperature/heat resistant coating formulated specifically to protect metal surfaces operating at temperatures from 500 to 1500 degrees F. With proper preparation, XTC provides outstanding adhesion, film integrity, weathering, and thermal shock resistance throughout this entire temperature range, and is guaranteed not to burn off! Available in your choice of a wide variety of colors and sizes.

**Note:** 8 oz. will coat approximately 3 sets of automotive exhaust manifolds with 2 coats or coat a set of shorty headers with 2 coats. Pints will coat a set of full size headers with 2 coats or coat a complete automotive exhaust system with 2 coats.

### Xtreme Temperature Coating

**Important:** When ordering, select the part number for the size of the can you need, then add the two digit numerical color code to the end of the part number to specify your desired color.

## Hi-Heat Coatings

ThermoTec exhaust insulating products work excellent as a paint directly on metal surfaces and can handle continuous temperatures up to 1200°F. It is also recommended for coating exhaust insulating wrap. The coating will protect the wrap from abrasion and harmful liquid spills. Extra resins and binders toughen the surface and extend the life of the wrap.

**Note:** Shipped within the continental U.S. only. Shipped ground only.

# Exhaust Components

## Reduce Underhood Temperatures!

Increased exhaust scavenging is produced, along with lower intake temperatures. Exhaust Insulating Wrap™ withstands continuous heat up to 2000 degrees F., and contains no asbestos. Will not over insulate a system when properly installed due to a proprietary coating developed by Thermo-Tec® Thermal Conduction Technology (TCT) that conducts heat across the wrap's surface. The 1/16" thick wrap is available in 1 inch or 2 inch widths in 15' or 50' rolls. Choose from off-white or black.

### Off-White Exhaust Wrap

## Reduce Underhood Temps Up to 70%!

The new quick wrap, high velocity Exhaust Jackets™ are an innovative way to insulate and block radiant heat. The jackets cover the header tubes vertically allowing for a consistent fit. The fit allows the exhaust system to expand as it comes up to operating temperatures without restrictions and provides air space for added insulation. This product uses Thermal Conduction Technology (TCT), developed by Thermo-Tec®, and can be applied with the headers in the vehicle.

TT1015	4-6 cylinder.....	76.99 ea
TT1016	8 cylinder.....	91.99 ea

## This Flexible Heat Shield Clips Into Place!

The Header Manifold Blanket provides excellent heat retention for exhaust headers and manifolds. This flexible heat shield simply clips into place on the upper portion of the header. The fabric side of the material should be facing the heat source, and the aluminumized side facing away – offering protection from abrasion and harmful liquid spills. The Header Manifold Blanket is available in 2 sizes: two 20" by 24" blankets for V6 and V8 applications, and one 36" by 40" blanket for straight 6 and 4 cylinder engines.

TT1017	V6-V8 applications.....	82.99 pr
TT1018	straight 6 or 4 cyl models.....	78.99 ea

## Vermiculite Coated Header Wrap

Insultherm Header Wrap is an extremely high temperature resistant wrap used to insulate hot gases in automotive exhausts. Manufactured from texturized fiberglass yarns that are woven into a strong, flexible wrap with vermiculite coating. Resists gasoline and engine chemicals and withstands temperatures up to 1200 degrees F. (maximum continuous temperature of 1000 degrees F). Available in black or natural in 50' or 25' rolls.

## Shield Plastic or Rubber Hoses and Wiring from Radiant Heat!

Thermo-Shield™ protects hoses and wires from radiant heat. Unprotected, rubber hoses and plastic or rubber insulated wiring can dry out, melt or crack over time. Thermo-Shield™ is used in applications where it is difficult or not practical to disconnect one end of the hose or wire. The adhesive backed composite construction tape can easily be wrapped around the hose or wire to make a clean, professional appearance. Reflects radiant heat up to 2000 degrees F. Provides a barrier against the extreme conditions that underhood components are exposed to. Wrap your fuel lines and say good-bye to vapor lock.

## Floor and Tunnel Shield II

Ten mil aluminum bonded to woven glass fiber with a hi-temp adhesive backing. Designed to withstand temperatures up to 1750 degrees F. The adhesive backing adheres to almost anything while withstanding temperatures over 450 degrees F. Ideal for firewalls, floor pans, transmission tunnels, and under hoods.

**Note:** Cool-Tape recommended for seams and edges.

## An Extremely Versatile Heat Barrier™!

The Aluminumized Heat Barrier™ is made up of woven silica with a flexible aluminumized finish. The highly reflective surface of the material is capable of withstanding radiant temperatures in excess of 2000 degrees F. Installed using standard rivets with a backup washer, or with weather strip adhesive. The Snap Straps (sold separately) can be used to hold the blanket in place for manifolds or exhaust systems.

- High-performance hand/servo pack
- High-performance 10 vane pump
- Larger booster valve
- Valve body shift package

## TH200-4R and 700R4 Street Smart System Transmission

Performance Automatic Racing's Street Smart transmissions aren't your run of the mill gearboxes. Street Smart transmissions are remanufactured from the best parts available. Each is Dyno-tested for function, performance, and calibration. Includes: torque converter, dipstick with filler tube, transmission mount, TV cable, inspection cover, and bolt package. Backed by a manufacturer's lifetime warranty.

*Note: Special order, must be prepaid. Shipped truck freight.*

- Street Strip Valve Body
- Aluminum Pan with Drain

## TH350 and TH400 Street Smart System Transmission

Performance Automatic Racing offers heavy-duty TH350 and TH400 performance transmissions. Street Smart 3-speed automatic transmissions are built from the best cores and highest quality parts available on the market today. Every transmission is Dyno-tested for function, performance, and calibration. Includes: a converter, dipstick with filler tube, transmission mount, inspection cover, and bolt package along with a manufacturer's lifetime warranty.

*Note: Special order, must be prepaid. Shipped truck freight.*

**Includes:**

- TCI 6X Transmission
- Transmission Cooler
- Max Shift Transmission Fluid
- EZ-TCU Controller and Harness
- Handheld Programmer
- Outlaw Shifter (optional)
- Paddle Shifter (optional)
- Dipstick and Tube

## 6X Transmission Package

The innovative TCI 6X six-speed automatic transmission, based on the 4L80E, is designed for Chevy small block, big block, and LS engines to handle both everyday driving and race vehicles up to 850 HP. Six forward gears allow breakneck acceleration as well as fuel efficient low RPM cruising, while a handheld programmer allows shift point adjustment. Each transmission is Dyno-tested and supplied with a serial numbered spec sheet with performance test scores.

*Important: 4-speed automatic shifter is required for standard operation. Electronic manual shifting requires the optional paddle shifter or TCI Outlaw Shifter. Paddle shifter is designed for 5 or 6 bolt steering wheel adapters.*

*Note: Some modification may be required. Special order, must be prepaid. Shipped truck freight.*

**Includes:**

27161	6X package without shifter	7475.99	set
27162	6X package with Outlaw shifter	8197.99	set
27163	6X package with paddle shifter	8498.99	set

A9800100

- 1-year warranty
- New clutches, seals, and gaskets
- Updated boost valve system
- New overdrive & lower roller sprag
- Updated servo piston
- Hardened forward clutch hub
- 300M billet input shaft
- Updated shift valve springs
- Wide kick down band
- Electronic speed sensor
- New valve body separator plate
- Improved lubrication system
- All new Torrington bearings
- All new thrust washers
- New fill tube and indicator
- Energy suspension
- Transmission mount
- Custom billet internals
- stall converter
- Bowler dependability and durability

## 4L80E 4-Speed Automatic Transmission

If your GM produces 650 to 1000 ft lbs of torque, you need a Bowler custom 4L80E performance transmission. Bowler transmissions are built to order, tailored to your specifications, and unlike assembly built transmissions, every Bowler unit is built by an individual technician start to finish and dyno-tested before shipping. Includes flange plate, converter, computer, and accessories. Modifications may be needed for fitment. Please allow 4 to 6 weeks for your custom transmission to be built.

*Important: Does not come with driveshaft or crossmember.*

*Note: Special order, must be prepaid. Shipped truck freight.*

# Torque Converters

223050

## 1965-86 Tork Master™ Torque Converter

Similar in performance characteristics to the HoleShot™ series, the Tork Master™ is B&M's lowest cost performance torque converter. The Tork Master™ is an excellent all-around performance street converter for small block Chevy. The Tork Master™ torque converter is not recommended for big block or supercharged applications.

Note: \* = 30 spline version.

## 1985-86 HoleShot™ Torque Converter

A higher than stock stall speed as delivered by the HoleShot™ converter will provide several advantages and benefits in vehicles with modified engines. Big cams tend to reduce low end power and torque. The high stall converter allows the engine to launch the car at higher RPM where more torque is available. The HoleShot™ is a very good choice for the typical street Camaro that is looking for better launch capability. Not recommended for N2O equipped engines. Stall speed listings are based on engines producing 230 ft lb of torque at 2500 RPM. More torque at 2500 RPM will give you a higher stall speed, less torque at 2500 RPM will give you a lower stall speed than the stall speed ratings indicated.

Note: \*Requires 10-3/4" or dual pattern flexplate. \*\*30 spline version.

## 1967-82 Flexplate

B&M SFI spec 29.1 approved flexplates ensure that the ring gear or flexplate center will not fail (explode) at high RPMs. Dual bolt patterns accommodate a variety of Nova transmission applications. 153 tooth flexplates feature 10-3/4" bolt circle. 168 tooth flexplates feature both 10-3/4" and 11-1/2" bolt circles. Ideal for street applications to extreme duty racing and high RPM use, above 6000 RPM.

Note: \*Externally balanced.

## Switch-On High-Performance Driving Fun!

ShiftPlus™ simply recalibrates your transmission's hydraulic system electronically. The ShiftPlus™ shift firmness not only makes driving more fun and pleasurable, but slippage and heat are reduced – extending the life of your transmission! Anyone can install a B&M ShiftPlus™ in minutes with a few simple hand tools. This new design allows you to improve the transmission's shifting performance without removing the transmission pan or valve body. The B&M ShiftPlus™ electronically enhances shift quality and is adjustable. A simple flip of the switch allows the transmission to operate in the performance mode. Flip it back and you are back to stock!

223095

## 1965-01 Transpak

The next step-up from the Shift Improver Kit™ is the Transpak™. It has all the features in the Shift Improver Kit™, plus it provides additional driver manual control (TH400, TH350 only). With the Transpak™, you can downshift at any speed, and you can hold the transmission in first gear to any speed that you want!

### Stage 1 – Heavy-Duty

For street rods, normal passenger vehicles or other heavy-duty use. Firmer shift feel but not harsh. Improves transmission performance and life dramatically without loss of comfort. Normal automatic operation when in "Drive".

### Stage 2 – Hi-Performance Street

For full performance street use. Essentially the same as Heavy-Duty mode except shift is much quicker. Retain full automatic features and standard shift pointer with selector in "Drive".

### Key Features:

- Select the mode that best suits your application.
- Improves transmission life.
- Transmission removal not required.

# Transmission Components

## 1965-01 Shift Improver Kit

The B&M Shift Improver Kit™ is the easiest way to get the stout performance you've always wanted out of your automatic transmission - and you get two modes of performance to select from: Heavy-Duty, or Street/Strip.

### Stage 1 - Heavy-Duty

Firm positive shifts without loss of driver comfort for improved performance in all street vehicles. Recommended for regular passenger vehicles.

### Stage 2 - Street/Strip

Provides very positive shifts for high-performance street use or for competitive events. This model is for the enthusiast who wants the hardest, quickest possible shift.

#### Key Features:

- Provides crisp shifts on any stock AT.
- Elimination of soft sluggish shifts, shift overlap, and excess wear on clutches and bands due to slippage.
- Improves transmission life.
- Transmission removal not required.

223070

## 1965-93 Transmission in a Box!

This is the most comprehensive set available. Provides parts or necessary part numbers to upgrade your transmission into a true performance transmission. Sets available for TH350, TH400, 375, 375B, M40, M38 and TH700R4. The TH700 is a desirable transmission due to its extra low ratio first gear (for better off the line performance) and overdrive fourth gear for better fuel economy. Includes instruction sheets that provide the do-it-yourself with all the information needed to completely overhaul a TH700R4 to B&M specs. Easy to understand even if you have no experience in this area!

#### Key Features:

- Same quality and components used in a B&M Street/Strip Transmission in a do-it-yourself set.
- Transap modification components including special replacement valves and springs.
- Improved shift feel, retains full automatic features.
- Complete overhaul gasket set and Drain plug.

A9800116

#### Sets Include:

- Single wire lockup control module
- 4th gear pressure switch
- New internal wiring harness with lockup solenoid for 700-4 and 200-4r
- Brake switch.
- Pan gasket and filter with detailed instructions.

## 2004R/700R4 Torque Converter Lockup

The Bowler Lockup set uses a pressure switch, not vacuum like Painless or a speed sensor like B&M. Their set allows engine to regain proper RPM before allowing the converter to lockup. Usually lockup occurs immediately after shifting into 4th gear, which can lug down the engine and cause poor performance. Module works off of pressure to allow a 8-12 second delay after shifting into 4th gear before the converter locks up. Converter locks up with adequate RPM gain after 4th gear and unlocks automatically with down shift or touch of brake. It will not allow lockup in any gear except 4th.

## Cast Aluminum Transmission Oil Pan

High transmission temperatures with these specially cast transmission oil pans. The sand cast aluminum construction features raised heat sink fins for improved cooling, its 3/16" thick wall construction to add strength to the transmission case, and it includes a special 3/8" thick gasket flange that will not bend as the bolts are tightened. The gasket surface is also machined for a secure seal, and the transmission pan is designed with a magnetic drain plug for easy maintenance. Available in either standard capacity or deep sump for added capacity and powder coated black "As Cast" or polished, there is a pan to suit every need. Each transmission pan includes all necessary mounting hardware.

*Note: Gaskets and filter not included.*

TA4062	1979.....	9.99 ea

## Max ATF

Max ATF is a synthetic, high-performance, automatic transmission fluid. Its low co-efficient of friction and high film strength help to dramatically reduce heat and wear. Reduces heat to extend the life of your transmission.

Max ATF is fully compatible and can be mixed with other automatic transmission fluids, however, for the best results drain or flush the current oil and then fill with Max ATF.

## No More Messy Oil Splash!

End the messy job of draining transmission fluid forever with a Transmission Drain Plug Kit from B&M. Only a few automatic transmissions are equipped with drain plugs from the factory. If you're not one of the lucky few, then you can install one yourself very easily. Simply remove the pan once, drill a hole, bolt the B&M Drain Plug Kit in, and eliminate messy oil splash forever. Non-magnetic. Universal fit.

## Transmission Pan FilterMag

FilterMag's powerful rare earth magnets trap and hold wear inducing metal particles smaller than 40-microns down to 1-micron that the filter cannot stop. The super strong magnetic force holds FilterMag to a steel trans pan, is reusable, and will reduce maintenance costs by extending the life of your oil. The super strong automatic transmission FilterMag mounts to the outside bottom of the pan and will keep metal particles from harming your transmission.

## Hi-Tech Flexible Braided Stainless Transmission Dipstick

Lokar flexible transmission dipsticks offer versatility for custom applications. Designed for "push-in" style transmissions, these dipsticks feature braided stainless outer housings, double o-ring seals, Teflon lining, and heat resistant, easy-to-read inner dipstick cable. Includes dipstick funnel adapter to assist in filling. Firewall mount measures 24" in length. Transmission mount versions mount to the bellhousing and the length varies according to the transmission application. Installation instructions included.

## Transmission Fluid Cooler

Transmission fluid is designed to act as a coolant as well as a lubricant for your transmission. If the transmission fluid is allowed to get too hot, performance drops, varnishes form, and the fluid starts to break down, which can lead to premature wear. Flex-a-lite heavy-duty coolers can help prevent this by keeping the temperatures down, helping to ensure longer life to transmissions and components, and reduce the stress created by high-performance transmissions. Also suitable as a power steering cooler.

**Important:** Depending on application and setup, additional fittings or adapters may be required.

**Note:** Dimensions: width = 11"; depth without fan = 3/4", with fan = 3-1/4"; height varies.

## Hi-Tek Transmission Cooler

The Hi-Tek automatic transmission cooler is perfect for demanding street/strip and even towing applications. At 175 degrees, a thermal switch activates the high-flow 12 Volt 7" electric fan. Durable, oven brazed aluminum construction promises years of performance. The 1/2" NPT fittings are easily adaptable to AN fittings and steel braided cooler lines, or can be used with standard rubber or steel lines. Measures 10" x 7-1/2" x 4" and includes electrical connectors and detailed instructions.

70298 transmission cooler..... 371.99 ea

## Transmission Oil Cooler/Filter

This automatic transmission oil cooler and filter combination assembly uses a flanged aluminum heat sink design to dissipate heat in racing applications. It can also be used as an inline auxiliary cooler in conjunction with the stock cooler. It's compact one pound 3" x 12" aluminum body gives it excellent heat transfer capabilities. An internal filter with magnet traps particles over 5 microns to reduce transmission wear. Includes filter cartridge and two 1/4" NPT to 3/8" line fittings.

## 1967-81 Automatic Transmission Cooler Lines

Replace your original transmission cooler lines with these reproductions which are pre-bent to the correct configurations. These lines will replace originals which are commonly cut when doing engine or transmission repairs. Each line features the correct flare nut fitting and original thread sizes. For a "show quality" look, choose from either the original galvanized material or the new longer lasting stainless steel material. For use with V8 engines only.

## TH350 Kick Down Bracket and Cable

Standard adjustable GM detent with Lokar's stainless mounting bracket mounts onto the two back manifold bolts. Designed for small block Chevrolet engines with 4 barrel carburetors. Includes extender for more versatility in adjusting cable length where needed.

Note: Cable housing cannot be cut-to-fit.

KD2350 ..... 69.99 ea

KD400

## Hi-Tech TH400 Electric Kick Down

Cable operated and the electric switch is housed in a billet aluminum or black box that mounts with transmission pan bolts. Includes "U-Cut-to-Fit" stainless steel outer housing designed with a specially extruded liner for extended life of the cable, aluminum fittings, stainless steel inner wire and stainless steel mounting bracket. Outer housing available in stainless steel, black stainless steel, or black nylon. Eliminates mounting electrical switches on the carburetor, manifold, or near throttle pedal. Can be mounted in a variety of locations within 48" of the carburetor. Installation instructions are included. Mount the throttle end of the kick down with the stainless steel carburetor bracket and return spring set.

Important: Throttle cable bracket/spring set #SR400 or SR4003 is required for installation.

### Mechanical Speedometer Conversion Set

Retrofit a late model GM overdrive transmission and keep your mechanical speedometer! Each set will convert your overdrive automatic transmission to a factory mechanical speedometer while retaining a functional VSS capability. Includes the correct length tail housing, new GM speedometer sleeve with new gear, new GM VSS sensor, new GM reactor/driver gear bushing, and bolts.

**Important:** Specify rear axle ratio and tire size for correct speedometer gears.

**Note:** Special order, must be prepaid.

## Pour In Performance!

Trick Shift™ was originally developed by B&M for racing applications. It's become so successful that it's the most popular high-performance fluid on the street also! Not an additive, this is the best performance ATF available! Trick Shift™ is the easiest way to measurably improve the transmission performance of your vehicle. Trick Shift™ works with all automatic transmissions when a firmer shift is desired.

"Pour in Performance" isn't just a catchy phrase - it's reality! It can be mixed with stock type transmission fluids, however to attain maximum improvement you should use Trick Shift™ exclusively. Ideal for towing, light trucks and RV applications as well as racing.

**Important:** Not recommended for electronically controlled automatic transmissions.

## 700-R4/200-4R Throttle Bracket System

This throttle bracket system provides precise cable adjustment for 700-R4 and 200-4R transmissions. When properly adjusted this system allows proper shifting in city traffic and during full throttle operation. Includes: auto adjusting detent cable, cable arm, cable bracket, and throttle cable brackets. All sets include throttle brackets for Lokar and GM throttle cables. Can also be used with factory rod style throttle linkage. Available for Holley, Edelbrock and Demon Carburetors and MSD Atomic EFI.

## 1967-81 Transmission Crossmember

The G-Force Firebird Performance Racing Crossmember is a heavy-duty, double hump transmission crossmember that was designed and fabricated exclusively for 1967-81 Firebird models. It is manufactured new from 2" x 3" (1/8" wall) rectangular and 1/2" plate steel and black powder coated. It is designed to bolt-in, have clearance for dual exhaust, and be able stiffen your frame for big block horsepower. No floor pan modifications are necessary. Includes mounting hardware. Made in USA.

TRANSMISSION, SHIFTERS & CLUTCH

# Automatic Shifters

### Key Features:

- Unique multi-positioned trigger for user comfort in various shifter positions.
- Base can be trimmed to custom fit any floor.
- Reverse lockout feature meets NHRA and IHRA requirements.
- Neutral safety switch, back-up light switch, lighted gear indicator, polished aluminum T-handle and cable.
- Can be used with a reverse pattern valve body.

## The Most Comfortable Shifter We Offer!

The B&M Hammer™ shifter may just be the most comfortably operated automatic shifter you can buy. Grab the handle of a Hammer™ shifter and it feels like it was molded to your hand. The unique design easily fits small to large hands and provides the appropriate wrist angle. The multi-position trigger is spoon shaped for easy finger operation in a multitude of grip positions. Ratchet shifter for TH400, 350, 250, 200, 700R4, 200-4R, 3- and 4-speed automatic transmissions.

*Important: Not for original consoles.*

223016 Hammer™ shifter ..... 282.99 ea

### Key Features:

- Universal floor mount application. Base can be trimmed to custom fit any floor.
- Cable operated for quick installation and accurate shifting.
- Neutral safety switch, back-up light switch, lighted gear indicator, polished aluminum T-handle, and cable.
- Can be used with a reverse pattern valve body.

## High-Performance Ratchet Action!

The Megashifter™ is one of B&M's all-time classic designs due to its timeless good looks and high-performance ratchet action. And, it's ideally suited for most popular automotive applications. For TH400, 350, 250, 200, 700R4, 200-4R, 3- and 4-speed automatic transmissions.

*Important: Not for original consoles.*

223017 Megashifter™ shifter ..... 410.99 ea

### Key Features:

- Universal floor mount application. Base can be trimmed to custom fit any floor.
- Cable operated for quick installation and accurate shifting. You can't miss a gear.
- Neutral safety switch, back-up light switch, lighted gear indicator, chrome knob and cable.
- Can be used with a reverse pattern valve body.

## Classic Style and Stout Performance!

You want style and stout performance wrapped up in a classic package? The B&M QuickSilver™ shifter is your answer! This top of the line ratchet action shifter provides performance shifting without a trigger. To get into park or reverse from drive, just lift the knob/stick assembly and move it forward into position! And it's cable operated for easy installation and precise shifting. For TH400, 350, 250, 200, 700R4, 200-4R 3- and 4-speed automatic transmissions.

*Important: Not for original consoles.*

223018 QuickSilver™ shifter ..... 371.99 ea

### Key Features:

- Base can be trimmed to custom fit any floor.
- Neutral safety switch, back-up light switch, lighted gear indicator, black T-handle and cable.

## The Perfect Shifter for Your Daily Driver!

The Sport Shifter™ may be a low cost alternative to B&M's top of the line MegaShifter™ – but it performs as if it was twice the price! The Sport Shifter™ is not a ratchet shifter and not intended for racing applications, but it makes a perfect addition to any street machine – making daily driving something to look forward to. Utilizing a simple detent action between first, second, high, and neutral, it features a lighted gear indicator, black plastic T-handle, neutral safety switch, back-up light switch, and flat aluminum stick. For TH400, 350, 250, 200, 700-4R, 200-4R, 3- and 4-speed automatic transmissions.

*Important: Not for original consoles.*

223019 Sport Shifter™ shifter ..... 274.99 ea

### Key Features:

- Base can be trimmed to custom fit any floor.
- Cable operated for quick installation and accurate shifting.
- Reverse lockout feature meets NHRA and IHRA requirements.
- Neutral safety switch and polished aluminum T-handle and cable.

## Straight Line Detent Shifter

The B&M StarShifter™ is one versatile 3- speed automatic shifter – wrapped up in a clean, timeless styled package! In the normal mode the StarShifter is a straight line detent shifter. When the lever is in low, lift the trigger all the way and pull the stick back to convert to ratchet action. Move the stick forward for the 1-2 and 2-3 shifts. Cannot be used with reverse pattern valve body. For TH400, 350, 250, 200 automatic transmissions.

*Important: Not for original consoles.*

223020 StarShifter™ shifter ..... 255.99 ea

### Key Features:

- Base can be trimmed to custom NHRA and IHRA requirements.
- Neutral safety switch, back-up light switch, black T-handle and cable.

## More Bang for the Buck!

The B&M Z-Gate™ shifter combines classic styling, performance and a popular price. If you're building a project on a budget, or just want to upgrade your automatic shifter, the Z-Gate™ is the only choice! Great for most 3-speed automatics, the patented 'Z' shaped architecture eliminates the possibility of over shifting and missing a gear. Even more, this easy to operate shifter has many of the features found in our top of the line units, and it includes a T-handle and T-trigger – so you get the most bang for your buck! For TH400, 350, 250, 200 automatic transmissions.

*Important: Not for original consoles.*

223021 Z-Gate™ shifter ..... 238.99 ea

# AT Shifters and Knobs

## Ratchet Action for the Console!

## 1967 Universal Floor Shifter

This replacement universal shifter has the look of the factory shifter, but with functionality for modern transmissions. Mounts to the floor with much of the body below the floor to clear factory consoles. Comes complete with neutral safety/back-up switch, all rod linkage components and factory like reverse lockout and detents for each gear. Functions exactly like a 60's era factory shifter, not intended for use as a racing shifter. Setup for 3-speed TH350/TH400 or GM overdrive transmissions (700-R4, 200-4R, 4L60, 4L65 or 4L80).

## 1967-68 Trans. Gear Selector Lever

Reproduction transmission gear selector lever for 1967-68 Firebird models with floor shift TH400 transmission. Lever mounts to the transmission and the shift cable is attached to it.

FI2381 1967-68 TH400 ..... 21.99 ea

## 1967 Firebird Shift Rod Linkage

Whether you're converting your classic 1967 Firebird to a more modern Turbo-Hydrumatic transmission, or you're just replacing bent or missing linkage, we offer the correct shift rod for your application. This is a standard replacement of your original rod, but will fit all Powerglide and Turbo-Hydrumatic applications.

SW433 1967 all AT ..... 74.99 ea

## 1967 Flexi-Rod Shift Actuator

This is the Flexi-Rod shift actuator that will replace the Genuine GM stamped spring steel actuator found in the 1967 Firebird automatic transmission console shifters. The original actuators are prone to break, rendering the shifter useless. The barbed top end that mates to the black plastic button, and the bottom tang are both hardened for long use. Replace your original with this high-quality reproduction for long use.

13958 1967 ..... 64.99 ea

## 1967 Shifter Conversion Set

An updated conversion set for the 1967 Camaro style Powerglide factory shifter. This conversion is good for the TH350/400, TH200-4R, TH700-R4, 4L60, and all overdrive transmissions. The conversion now incorporates parts, versatility and functionality previously only available with the SW280. Optional offset and shorter arms, improved handle travel, new rotating shaft and bearings, a new neutral safety/back-up switch, and rod linkage with ball joint ends for improved ease of alignment with different transmissions, are all included.

*Note: Requires use of factory original shifter body and handle in working order.*

TH350 and 400

All Overdrives  
SCK105D 1967 ..... 189.99 set

## 1967-69 Kick Down Switch Bracket

The original kick down switch bracket used on Firebirds with 400 engines are sometimes missing or broken due to engine, carb, or transmission swaps. This bracket is used to secure the kick down switch. Mounts behind the carburetor accelerator lever.

C859061 1967-69 ..... 21.99 ea

NEW AUTHORIZED

## 1967-69 Powerglide Kick Down Rod Clip

This is a reproduction of the clip which is used to attach the upper kick down rod to the bellcrank assembly.

C133 1967-69 ..... 1.99 ea

## 1967 Powerglide Shifter Conversion Rod

Classic Industries® offers a 1967 shifter rod designed to transfer column shift to floor shift on the Powerglide models.

CC952689 1967 ..... 57.99 ea

## 1967 Shifter Conversion Rod

Classic Industries® offers this shifter rod that is designed to allow the use of Powerglide shifter linkage with a Turbo-Hydrumatic transmission. Can be used for column to floor or floor shift conversion.

*Note: Use with SCK105 shifter conversion set to convert a Powerglide floor shifter to use with a TH350 or a TH400.*

K159 1967 TH350 ..... 49.99 set  
CCK126149 1967 TH400 ..... 49.99 set

## 1973-81 AT Overdrive Detent Conversion

This unique set allows conversion from a factory 3-speed automatic to usage on the new turbo 700-R4 or the 200-R44-speed overdrive automatic. Includes: new detent, instructions, and all cable installation hardware.

SC226 1973-81 ..... 109.99 set

## 1968-81 Auto Trans. Control Cable Bracket

Reproduction auto trans. control cable bracket for use with the various applications below.

9795915 1973-81 AT TH350 ..... 10.99 ea

## 1968-78 Control Cable Bracket Bolt

Correct bolt used to hold the cable bracket on all 1968-78 auto trans with floor console.

G6025 1968-78 TH350 ..... 6.99 ea

## 1968-74 Shift Cable Clip

Reproduction of the shift cable retainer clips that are used to hold the shifter cable to bracket and shifter assembly. These retainer clips will keep the cable from moving and causing possible damage to the transmission or shifter assembly.

C349611 1968-74 ..... 3.99 ea

# Transmission Parts

## 1969 Shifter Selector Lever

This L shaped bracket was designed for use on 1969 Firebirds with automatic transmissions (Powerglide or Turbo-Hydramatic) with consoles. Although originally designed for use on 1969 models, this lever may be used on 1968 models as well.

C953281 1969..... 22.99 ea

A8800125 - 1 prong

A8800126 - 2 prong

A8800127

## 1967-77 TH400 Kick Down Switch Connector

Reproduction 1967-77 TH400 kick down switch case connectors. Used to connect the vehicle wiring harness to the electronic kick down solenoid located inside the transmission. Choose between 1 or 2 prong style connectors. O-ring seal sold separately.

A8800125 1967-77 1 prong..... 10.99 ea

## 1970-74 Kick Down Switch

Correct replacement of the original kick down (downshift) switch for Firebirds with TH400 transmissions. May also be used on models equipped with Ram Air hoods.

L242101 1970-74..... 38.99 ea

## 1967 Transmission Shift Actuator Lever

Reproduction of the actuator lever for 1967 Firebird models with a Powerglide transmission. For all models with floor shifter, with or without console.

C420901 1967..... 34.99 ea

## Shift Cable Bracket

When installing a B&M shifter on vehicles with a PRNDL switch it may be necessary to replace the shift cable bracket. This bracket is designed to work with 4L60E, 4L65E, 4L80E, and 4L85E transmissions.

223312 B&M cable bracket..... 22.99 ea

## Transmission Shift Lever

This universal shift lever replaces the original detent on the side of GM transmissions to allow installation of B&M shifters. Compatible with TH200, TH250, TH350, TH400, TH200-4R, TH700R4, 4L60E, and 4L80E transmissions.

223313 B&M shift lever..... 17.99 ea

H2095

H20100

## Throttle Valve Cable Bracket

The throttle valve cable bracket is designed for specific carb and transmission setups to mount the cable to the carburetor for proper upshifts and downshifts. For 200-4R/700-R4 transmissions.

H2095 for Holley 4150 and 4160..... 32.99 ea  
 H20100 for Holley 4011..... 46.99 ea  
 H20100 for Edelbrock spread bore..... 46.99 ea

## 1967 Swivel Set

Correct reproduction of the original swivel assembly for use with rod linkage in 1967 Firebirds with automatic floor shifters. Includes: a swivel, grommet, 2 washers, and retainer. Use with Turbo 350, 400, 200-4R, 700-R4.

SW404 1967 swivel..... 17.99 set  
 SW429 1967 with linkage rod..... 74.99 set

## 1992-02 Skip Shift Eliminator

The JET skip shift eliminator bypasses the computer aided gear selector feature on the newer GM 6-speed transmissions. The CAGS feature causes the unwanted 1st to 4th gear shift. Installation is a simple plug in and the unit is OBD-2 compatible.

JT61610 1992-02 all with 6-speed... 31.99 ea

## 1969-81 Back-Up Switch

Replacement back-up lamp switch for various 1969-81 GM models with MT floor shift and steering column interlock linkage. Replaces GM part #3943657, #6270695.

3943657 1969-81..... 44.99 ea

## 1973-81 Shift Knob Snap Ring

Correct snap ring which holds the control knob to the shift lever. Use when replacing 1973-81 shift knobs.

A1022 1973-81..... 1.29 ea

## Premium Lokar Floor Mounted Shifters for Bucket or Bench Seats!

### Floor Mount Shifter

Upgrade your classic with one of these premium Lokar floor mounted shifters. All shifters include a neutral safety switch with positive safety lockout in park and neutral, while the shift knobs feature a Teflon lined button for smooth operation. Designed to operate on solid adjustable linkage, each shifter also includes gold plated brackets. For models with bucket seats we offer the 8" handle. For bench seat models the 16" bench bend shifter is available and includes all the same features listed above. The bench bend shifters have been manufactured and shaped to clear most bench seat applications. Shifter levers are available in chrome or black and the mushroom shift knob in either brushed aluminum or a black anodized finish. All shifters include mounting hardware and instructions.

# Transmission Parts

## Hurst Equipped Emblem

Based on original Hurst blueprints, this Hurst Equipped emblem is an authentic reproduction of the one used on the late 60's muscle cars. Equipped with a factory Hurst shifter. Made of durable ABS plastic with 3M adhesive tape backing for permanent mounting. Measures: 1-1/4" x 5-1/4".

1361000 Hurst Equipped emblem..... 23.99 ea

New!

## Nitro Stick Shift Handle

Hurst Nitro Stick brushed billet aluminum pistol grip shift handle. The Nitro stick provides a positive grip for quick, solid shift action from any Hurst shifter using the 2 bolt handle attachment. It features a built-in 12 Volt momentary switch to control your line lock or nitrous system. Can be used with any Hurst shifter with a 2 bolt handle attachment.

5381000 brushed..... 294.99 ea  
5381001 black..... 302.99 ea

## Competition Knobs/T-Handles with Switch

The Hurst competition knob and T-Handle features a heavy-duty, quick release 12Volt normally open switch with 24" long wire lead. Ideal for Roll Control, trans brake, nitrous, or other 12Volt accessory. Choose round solid plastic black knob or brushed finish aluminum T-Handle with embossed Hurst logo.

## Style One - Plastic Cover Set:

- Adds a "factory option" look to your Hurst shifter.
- Textured black plastic can be trimmed to fit any floor contour.
- Mounting plate and button head screws are included.

## Style Two - Aluminum Cover Set:

- Adds a "trace car" look to your Hurst shifter.
- Attaches to shifter with 2 quick release pins.

## Quarter Stick Shifter Cover

One of the nice features of the Hurst Quarter Stick Shifter is the ability for you to choose the finished look you want through the availability of 2 distinctive cover set designs.

*Important: For vehicles without factory consoles.*

1300055 plastic cover..... 108.99 set  
1300041 aluminum cover..... 91.99 set

## Key Features:

- Forged aluminum stick.
- CNC-Machined Billet Pistol-Grip handle.
- Spring loaded thumb switch for operating roll control, nitrous or trans brake.
- One hand operated, spring loaded reverse lockout mechanism.
- Factory installed neutral safety switch.
- Cable operated.
- Optional cover kits sold separately.

## Pistol Grip Quarter Stick Shifter!

The Hurst pistol grip quarter stick automatic shifter is designed for a firm comfortable natural grip, providing a positive feel when shifting. The pistol grip handle is CNC-machined from billet aluminum and features a precision snap action thumb switch that is ideal for operating a Hurst Roll Control, nitrous system or trans brake. Optional shifter cover can be trimmed to fit any floor pan. For a stock console look, choose the distinctive black textured plastic cover kit. Or, for a racier look, order the aluminum cover kit that attaches to the shifter with 2 quick release pins. Both are sold separately. The Hurst pistol grip quarter stick fits TH250, 350, 375, 400 transmissions.

*Important: For vehicles without factory consoles.*

# Transmission Conversions

## EXTERNAL FEATURES

### SuperCase

We began with the strongest 356T6 aluminum alloy. We thickened the case walls, added additional material to support a stronger, full width 307 main drive bearing and a countershaft sealing soft plug, and we reinforced and thickened the mounting ears. As a final touch, user-friendly straight thread fill and magnetic drain plugs with sealing o-rings were added. Despite these improvements, we preserved the look of a 1960's design so our new case won't look out of place under your classic muscle car. No flex, no leaks, no broken ears.

### Roller Side Cover

We noticed that we sell more side cover oil seals for Muncies than synchronizer rings, and although the oil seals are inexpensive and easy to replace, this bothered us. When we investigated we discovered that the shifter shafts in many high mile side covers are running in deep grooves, causing new oil seals to fail prematurely. Obviously, a new side cover with round bores would solve the problem temporarily, but we wanted a permanent solution, so we made our shifter shafts a true .750" and supported the shaft with new bearings. It's standard on our new transmissions.

### Extension Housing

If you've been looking, you know that good extensions for thirty-year old Muncies are hard to come by. When we set out to eliminate that little problem, we also thought about what you're planning to do with it. We added a backbone rib, stiffened the reverse shift tower, and enlarged the oil seal shroud. This housing is produced with a passenger side speedometer drive housing. So whether all you need is an oil seal or a better than yours or you're thinking your monster motor might need the big output to handle all that torque, you can stop looking. We've got you covered.

## INTERNAL FEATURES

### Gearsets

For over fifty years Auto Gear has delivered the highest quality manual transmission gears. Our Muncie M22 gearset is typical. Some vendors purchase the "unimportant" gears in India or China. They will be smarter than we are - we think they're all important, so all six of our gears are manufactured for us in Italy by Antonio Masiero S.p.A. For General Motors cars from 1963-74, we offer the most complete range of Muncie gearing available. Every piece meets our standards before we put our name on it. You can buy cheaper gears elsewhere, but you can't buy better gears anywhere.

### Roller 1st Gear Option

When you're not in low (and how much time is that?) your gearbox is spinning your 1st gear on the shaft. That's horsepower that's not going to your tires, and for years racers have minimized that loss by squeezing a bearing between modified 1st gears and sleeves, an expensive, one piece at a time solution. Our roller 1st upgrade uses a specially cut gear and sleeve for the ultimate in accuracy, coolest running, and lowest cost. It's standard in our new transmissions.

**Note:** Not for use in drag racing applications, or street use when hard launches will be the normal, or even occasional, driving style.

### Ducille Iron Midplate

Every time you shift your Muncie's heavy main shaft assembly is thrown back and forth, restrained only by two snap rings and your mid-plate. Think about it: a slide hammer or it'll be no surprise that many aluminum mid-plates are distorted at the snap ring groove. We make the mid-plate you should be hammering on... our mid-plate is made from steel resistant ductile iron. It's standard in our new transmissions.

## 1967-74 The Ultimate SuperCase 4-Speed

There are exotic transmissions designed for quarter miles or circle tracks, but if your Muscle Car sees city streets or country lanes you need a heavy-duty, synchronized, close ratio gearbox with a helical gearsset and, to be honest, until now you haven't had too many good options. Each new Auto Gear transmission is built from genuine Auto Gear parts - the highest quality available - and includes all the goodies: SuperCase ductile iron mid-plate, your choice of three heavy-duty gearssets (each with roller 1st) and a roller side cover. Best of all, it's ready-to-install and it's available at a less than exotic price. No core required!

**Note:** All transmissions are special order and must be prepaid. Special shipping rates apply.

### SuperCase with M22 Gearset with 2.20 1st

If your only concern is taming the biggest, meanest motor on the block, you want an M22-based gearsset. All three of ours feature the legendary "Rock-Crusher" gear geometry and run with the signature white. And, while they cost a little more, most owners find that they raise the value of their automobile by the difference or more. The M22 is as GM intended and was originally paired with a 4.11 axle. Street cars used only in the wide open flat places may successfully run something faster. This approach off loads more of the 1st gear stress onto the axle and makes the gearbox more durable, but the fuel economy is frightening.

TR1014	1970-74	26/32 spl	bolt levers	2999.99 ea

### SuperCase with M22W Wide Ratio Gearset with 2.56 1st

The M22W is our answer to the price of gas. Pair it with a faster axle, say a 3.54 for street or a 4.11 for the strip, and you'll have a competitive combo that'll show your wallet a little mercy. It's a little less strong, but it's far from weak.

### SuperCase with M22X Road Racing Gearset with 2.20 1st

The M22X is for road racing and tracks where second and third gears need to be just a bit tighter. If you don't road race and know why this would be advantageous, you don't need this purpose designed gearset for road racing only.

## 1967-75 Remanufactured 4-Speed Transmission

Finding an original transmission in good condition is next to impossible. Even when you find one, you don't always know what you're getting. We offer these replacement Muncie and Saginaw transmissions, which are completely remanufactured and ready-to-install! Each transmission is fully rebuilt with OEM quality parts. Classic Industries® offers these quality transmissions for your Firebird, which are guaranteed against defects in workmanship and materials for a full 90 days. Speedo driven gear and housing adapters are not included. No cores are required!

**Important:** All transmissions are special order and must be prepaid. An additional \$100.00 fee is charged for crating and shipping within the contiguous 48 United States. Shipping to Alaska, Hawaii, Canada, or foreign countries must be rated. Please contact our sales department for additional information.

## Transmission Conversions

## 1967-81 Five-Speed Driveline Conversion

American Powertrain ProFit Conversion combo sets included the components required to convert your vehicles manual driveline to a modern Tremec TKO 5-speed manual overdrive transmission. Each combo includes a TKO-500/600 5-speed transmission rated at 500/600 lb lbs, with 3 available editions (Quick Launch, Road Race and Street/Strip) offset shifter mechanism, bolt-in crossmember, slip yoke, speedometer solution (mechanical or electronic), transmission mount, conversion pilot bearing, weather seal reverse light and VSS wiring harness, tunnel patch and template, shift knob, hardware, and instructions. Compatible with OE console or no console applications.

**Important:** Compatible with 4-speed bellhousing. Requires 26 spline clutch disc (not included).

**Note:** Transmission set contents vary by model. Special order, must be prepaid. Shipped truck freight. Some modifications may be necessary. Photos for illustration purposes only.

## 5-Speed Tremec Transmission

These American Powertrain Tremec TKO 5-speed series overdrive high-performance transmissions. Come in 3 available editions (Quick Launch, Road Race, Street/Strip) and offers a variety of flexibility features and is rated at 500/600 lb lbs, includes a unique internal shaft rail system, 26 spline 1-1/8" input and 31 spline output shafts, upgraded internals for stronger, longer-lasting transmission, multiple shifter locations, mounting configurations, gearing options, and speedometer pickups (mechanical and electrical). Design to fit most Firebird applications.

**Important:** Some modifications may be required.

**Note:** Special order, must be prepaid. Photos for illustration purposes only.

## 1967-81 Six-Speed Conversion Set

Each American Powertrain Conversion sets include the components required to convert your vehicles manual driveline to a high-performance Tremec T56 Magnum 6-speed overdrive transmission. Magnum T56 offers two different gear ratios to choose from and is rated at 700 lb lbs torque. Combo includes T56 Magnum transmission, offset shifter mechanism, bolt-in crossmember, slip yoke, reverse light/lockout and VSS wiring harnesses, transmission mount, conversion pilot bearing, shift knob, hardware, and instructions. Compatible with OE console or no-console applications.

**Important:** Requires engine specific bellhousing or bell adapter, 26 spline clutch disc (not included).

**Note:** Transmission set contents vary by model. Special order, must be prepaid. Shipped truck freight. Some modifications may be necessary. Photos for illustration purposes only.

## 6-Speed Tremec Transmission

New high-performance Tremec Magnum 6-speed for most Firebird models. These premier T-56 transmissions offers two different setup gear ratio and double overdrive ratio, rated at 700 lb lb torque capacity and for up to 700HP applications. With multiple shifter locations for various console applications. Bolts directly to most LS style T-56 bellhousing, wide alloy gears, 26 spline input and 31 spline output shafts, upgraded internals for stronger, longer-lasting transmission, electric and mechanical speedometer pickups. Modern technology for much greater performance capabilities.

**Important:** Some modifications may be required.

**Note:** Special order, must be prepaid. Photos for illustration purposes only.

## 1967-69 Modular Trans. Crossmember

Swap nearly any GM transmission into your 1967-69 Firebird with a conversion crossmember from BMR! These modular crossmembers provide 9-3/4" of adjustment to accommodate Powerglide, TH350, Muncie 4-speed, TH400, TH700R4, 4L60E, T-56, TR6060, Magnum, and 4L80E transmissions. Manufactured from 1-1/4" diameter heavy wall tubing and 1/4" laser cut mounting plates. These crossmembers provide a bolt-in solution to upgrading your transmission for modern fuel economy and gear ratios. Includes Polyurethane transmission mount and Grade 8 hardware. Choose from red or black powder coated finishes. Made in USA.

## 1967-69 Six-Speed Crossmember Conversion

Install nearly any 6-speed transmission into a 1967-69 Firebird with minimal effort. This crossmember uses bolt-in brackets with a wide range of adjustments to allow the installation of T-56, TR-600 or Magnum transmissions in both big block and small block cars. Each crossmember is manufactured from 1-1/4" diameter thick wall tubing with laser cut mounting plates. Includes: a Polyurethane transmission mount, a bolt-in clutch master cylinder mounting plate for the firewall, a weld-on mounting tab for the clutch pedal linkage, and all Grade 8 hardware. Available in red or black hammertone finish.

## 1967-74 T56 Installation Kit

This T56 installation kit is the perfect solution to installing most LS1 or LT1 style T56 into your 1967-74 Firebird model. Each kit is comprised of all the custom fabricated pieces needed to bolt most small block, big block and LSX engines. These kits feature a 3 piece tubular crossmember kit, a firewall mounted hydraulic bracket, modified GM hydraulics, and if needed block to bellhousing adapter plates, also instructions are included.

## 1982-02 Trans Conversion Crossmember

BMR transmission conversion crossmembers allow you to swap your choice of transmissions into your Firebird. Bolts to OE frame points using existing mounting holes. This crossmember only mounts the transmission and eliminates the factory torque arm mount, requiring a short torque arm conversion such as the BMR Trak Pak torque arm. If a full length torque arm is desired, use the BMR torque arm relocation crossmembers.

*Note: Add suffix: A = red, B = hammertone finish.*

## 1967-79 11" HD Aluminum Bellhousing

Looking to replace a cracked or damaged original 1/2" bellhousing, or converting to a 4-speed? This reproduction bellhousing is a permanent mold, low pressure casting from A356.2 aluminum that is thicker, weighting 3 pounds heavier than the original, while maintaining a factory appearance. CNC-machined and heat treated to T6 specifications, this bellhousing features extensive reinforced webbing, clutch fork opening, threaded pivot bolt hole and GM casting number. Accepts Saginaw, Muncie, BorgWarner and Tremec TKO/T56 transmissions with a 4-5/8" pilot bore. Fits up to 11" clutch on a 168 tooth flywheel. Also fits 153 tooth flywheel when used in conjunction with the proper starter. Made in USA.

**Important:** Pivot ball sold separately.

MADE IN USA

## 1967-79 LS Aluminum Bellhousing

This bellhousing is modeled after the famous "621" model and designed to bolt to Gen III LS engines. This bellhousing, along with a 168 tooth flywheel and 11" clutch, allows the use of an original 4-speed Saginaw, Muncie, or BorgWarner transmission, including the original clutch linkage and starter. Made from CNC-machined heavy cast aluminum, heat treated to and reinforced with extensive thick webbing. This is one of the strongest cast aluminum bellhousings available. Made in USA.

**Important:** Pivot ball sold separately.

HAYS

## Install a Steel Bellhousing!

Designed to replace the stock aluminum bellhousing, this bellhousing/transmission adapter is made from 1/4" thick hydro-formed steel for extra strength and is perfect for engine swaps. Fits most Chevrolet V8 and 90 degree V6 applications with block mounted starters and conventional clutch linkage. Accepts the standard GM Muncie, Saginaw, and BorgWarner T-10 transmissions.

**Important:** Not for use as a safety bellhousing. Does not meet SFI specifications.

HY717150 ..... 570.99 ea

## 1967-81 Muncie/Saginaw Safety Bellhousing

Fits 1967-81 Chevrolet, most V8 and 90 degree V6 engines with block mounted starter. Designed for mechanical clutch linkage and includes special pilot bearing. Fits Muncie/Saginaw, BorgWarner T-10 transmissions. Bore diameter 4.684". Depth with block plate 6.45". Fork opening 2.125" x 3.300".

LW15000 1967-81 Muncie/Saginaw 590.99 ea

MADE IN USA

## Quick Time Bellhousing

Designed for circle track, strip, and street applications. Quick Time bellhousings are built from high grade steel, with a spun cone, not rolled or stamped. This allows Quick Time bellhousings to be the most dimensionally stable and accurate for today's high-performance vehicles. Made in USA.

## 1961-85 Steel Flywheel

The McLeod steel 13.420", 166 tooth flywheel is perfect for street applications where easy stoplight acceleration is desired. These units are ideal for helping to launch a heavy vehicle with a smaller engine with less torque and horsepower. An added bonus is if you have more than one engine and they each require a different balance on the flywheel, you can just add or remove weights as required, without buying another flywheel. 462102

## 1967-02 Billet Aluminum Flywheel

Aluminum flywheels are CNC-machined from certified materials and exceed SFI specifications. The Ram true balance aluminum flywheel has a 1/4" steel friction insert to give it enough mass to absorb the heat generated by slippage without distortion, ensuring maximum clutch life and consistent performance. Each flywheel is precision ground after the steel insert is installed to ensure the friction surface is parallel with the crankshaft flange for minimum run out and to provide the optimum mating surface for your choice of clutch disc.

**Important:** For use with Ram clutch sets only.  
**Note:** \*With 1 piece rear main seal. \*\*With 2.750" crank pilot diameter (center hole opening).

## 1967-02 Billet Steel Flywheel

Ram True Balance billet steel flywheels are the ideal replacement for factory cast flywheels in high-performance and racing vehicles. Cast flywheels are not explosion proof and can be dangerous when used in high-performance applications at higher RPMs. Ram billet steel flywheels are CNC-machined from certified materials and exceed SFI specifications. After machining, the flywheels are Blanchard ground parallel to the crankshaft mounting surface, ensuring minimum run out and an optimum mating surface for the variety of friction materials offered. Use steel flywheels in heavier drag race cars or for the best drivability in street driven vehicles.

**Important:** For use with Ram Clutch Sets only.  
**Note:** \*With 1 piece rear main seal. \*\*With 2.750" crank pilot diameter (center hole opening).

## 1967-02 Powergrip Performance Clutch

As engine power and torque increase you need a powerful clutch set to stand up strong. Powergrip utilizes a unique blend of friction materials and increased clamp loads to give you the holding power you need for aggressive street driving and occasional drag strip use. With up to an 80% increase in holding power, Ram's powergrip series is a natural for the aggressive driver.

**Note:** \*With 2.750" crank pilot diameter (flywheel center hole opening).

## Hydraulic Release Bearing

This hydraulic release bearing for stock style clutch applications is designed for GM applications utilizing the 1.375" transmission collar size. The bearing is a floating design, and installation is simple and quick. Use this bearing in any project car in which fitting a mechanical linkage is not possible. The bearing requires a minimum 7/8" bore master cylinder and a 4AN feed line to run from the master to the bearing. A remote bleeder system is available to make bleeding simple from the outside of the bellhousing.

HY91102-2 details

**Includes:**

- Alignment Tool
- Disc Material: Organic
- Disc Style: Spring Hub
- Input Shaft Diameter: 1-1/8"
- Pressure Plate Style: Diaphragm
- Throwout Bearing
- Max Horsepower Rating: 450 HP
- Instructions
- Pilot Bushing is NOT included

## 1987-85 Street 450 Clutch Set

The Street 450 single disc set is an excellent upgrade from your stock clutch and designed handle mildly modified engines up to 450 horsepower. It is a great clutch where drivability is the most important factor. Our clutch features 30% greater clamping force than a stock clutch allowing you to put more power to the ground and high-quality disc material allows for smooth, no-chatter engagement.

**Important:** Stock clutch linkage may require reinforcement. Check the number of splines on the input shaft of the transmission you are using before ordering.

## 1998-02 LS1 Adjustable Master/Slave

An adjustable master cylinder is required for installation of the RAM Street Dual on any LS application so you can limit your clutch travel and avoid shifting problems. When installing the new clutch hydraulics, it is essential to flush the system of old fluid and re-bleed with new fluid. Bleeding MUST be done by vacuum method or using a power bleeder such as a Mityvac.

## 1967-02 OEM Replacement Clutch Set

RAM replacement clutches are manufactured to meet or exceed OEM specifications. They are designed with the same strict production standards as RAM performance clutches. Clutch sets include: clutch disc, pressure plate, throwout bearing, and clutch alignment tool.

**Important:** Clutch sets are designed as service replacements and are not meant for racing or high-performance applications.

**Note:** \*With 2.750" crank pilot diameter (flywheel center hole opening).

## 1967-81 Street Clutch

An excellent upgrade from the stock unit, the Hays Street Clutch is engineered specifically for high horsepower street vehicles in addition to occasional dragstrip use. Manufactured with premium quality, high burst strength woven lining to withstand heat and higher engine RPM and riveted to a Marcel backing which acts as a shock absorbing material. The sprung center hub absorbs driveline torque, eliminating shock and vibration to ensure chatter free engagement. The Hays high-performance throwout bearing has been developed to withstand the high spring pressure and high RPM operation common to performance clutches. Each bearing face is heat treated and Blanchard ground to ensure trueness. The collars are heat treated for strength and machined to close tolerances for secure bearing fork attachment. The ball bearing race is packed with heat resistant moly-based grease for better lubrication and longer life. A nylon liner and bearing retainer is also featured for cooler and quieter operation. Hays Street Clutch sets include a Hays performance pressure plate, Hays performance clutch disc, Hays performance throwout bearing, bolt kit, and a handy splined clutch pilot tool to aid in installation of part.

**Important:** Stock clutch linkage may require reinforcements. Part #HY85125 does not include bolt kit. Part #HY85105 does not include bolt kit or throwout bearing, must use factory throwout bearing.

## 540 CLUTCHES

## Street Dual Disc System

The RAM Street Dual Disc clutch system makes use of 30 years of drag racing experience to become the ultimate clutch system for your high horsepower muscle car. Wrap your bellhousing around super strong dual clutch discs with an aluminum flywheel, easy pedal effort diaphragm pressure plate, 500 series friction material, and a special floater plate and retainer that virtually eliminate floater plate rattle. Even though the capacity for this clutch system is 1000 HP and 900 ft lbs of torque, the engagement is silky smooth thanks to the 300 series friction material.

**Important:** The dual disc system works with mechanical linkage on older cars and hydraulic and cable systems on late models. It is recommended an adjustable master cylinder and/or hydraulic bearing be used for LS applications. A safety bellhousing is strongly advised, and some modifications may be required to pivot ball configurations in cable and mechanical release applications, as well as hydraulics.

Note: \*With 2.750" crank pilot diameter (flywheel center hole opening).

## Hydramax Hydraulic Clutch Set

The American Powertrain Hydramax hydraulic clutch sets include the components required to convert your vehicles mechanical linkage system to smooth hydraulic system. Sets are design to work with OE or custom pedals. Includes adjustable firewall mount, pre-bled 3/4" bore master cylinder, plastic reservoir kit remote or local mount (billet upgrade available), steel braided lines, concentric slave bearing, pedal rod (specific by model), fittings, hardware and instructions. Available for most OE 4-speed, Muncie, T10, Saginaw, Richmond, Tremec TKO 5/6-speed series, GM/Mopar Magnum T56 or Viper/LS 6-speed manual transmissions.

Note: Set contents vary by model. Some modifications may be necessary. Photos for illustration purposes.

## Hydraulic Bearing Pedal Adjustment System

With the RAM HSA system, you can adjust the pedal position lower to the floor and also eliminate over travel of the release bearing which can cause damage to the hydraulic bearing, or cause higher RPM shifting problems due to over centering of the diaphragm spring. The RAM HSA valve plumbs inline between your master cylinder and release bearing, whether factory or aftermarket. Once in place, simply re-bleed the system and adjust the screw position to achieve the optimum pedal position and travel. The kit includes: the HSA valve, tee fitting for installation, and a 12 inch Teflon braided line. For factory bearing installations, an adapter fitting is available to enable connection.

## 1967-81 Throwout Bearing

Hays high-performance throwout bearings withstand the high spring pressure and high RPM operation common to racing clutches. Each bearing face is heat treated and Blanchard ground to ensure trueness. The collars are heat treated for strength and machined to close tolerances for secure bearing fork attachment. The ball bearing race is packed with heat resistant moly-based grease for better lubrication and longer life. A nylon liner and bearing retainer is also featured for cooler and quieter operation.

## Adjustable Throwout Bearing

This adjustable throwout bearing is the perfect replacement for any bearing. Replaces all of GM's three different bearing by simply removing one of the rings. With all three rings on the bearing you have the long bearing. Remove one ring and you will have the mid-length bearing and if you remove all three rings you will have the short bearing.

This Fidanza performance 1993-02 Firebird short throw shifter is a direct factory replacement and reduces shift throws by up to 40%. Fidanza's short throw shifters are made precisely with 6061 aluminum and hardened steel.

F891848 1993-02..... 126.99 ea

## 1967-81 Indy SSA 3-Speed Shifter

This economically priced shifter is of universal design, so it will fit a wide variety of applications. It is ideal for converting column shift 3-speeds to floor shift. Features a spring loaded gate for ease of operation and short precise throws for less stick travel. Chrome-plated stick with black knob. All components are plated for protection. Comes complete with shifter boot, hardware and installation guide. Some modification may be necessary during installation.

Not for use with floor console.

5010002 1967-81..... 339.99 ea

## 1967-82 Competition/Plus Shifter

Linkage rods and arms are heat treated for strength and durability. Adjustable gear stops prevent over shifts to help prolong transmission life. Bolt-on chrome-plated stick with attractive white knob for a classic Hurst look. Shifter assembly and installation sets are sold separately. Optional Hurst Super Boot and plate is recommended for a finished appearance and also sold separately.

**Note:** \* With console.

# Battery Cables

## 1967-79 Spring Ring Battery Cable

If you want to restore your Firebird to exact factory specifications, these OEM type cables are what you need! Each 1967-69 cable is reproduced exactly as original using the same OEM type spring terminals and connectors. The terminal end includes the word "Spring Ring" in the correct type style and size. Each cable is produced for authenticity and includes the original wire markings. Positive and negative cables are sold separately, due to the variety of cables which were used for different applications. Each reproduction includes the correct length cable and spring ring terminal end. 1970-79 side terminal cables feature the same correct details with original style threaded terminal ends.

Note: \*Side mount.

# Battery Cable Components

New!

PAINTLESS

## Remote-Mount Battery Cable Set

Perfect for trunk mounted batteries. Both positive and negative cables are 1 gauge and 16 feet in length which allows for them to be attached to the engine for maximum starting current. Helps prevent voltage drop to the engine. Eliminates the need for heavy cable connections between the engine and frame. Set includes side post adapters and high amp crimp ring terminals with heat shrink.

40105 universal ..... 132.99 set

New!

PAINTLESS

## Battery Cable Set

This set has only the highest quality components. Set comes complete with 16 feet of red #1 gauge positive cable and 3 feet of black #1 gauge cable, both with heavy-duty battery terminals already installed capable of handling over 250 amps. Set includes side post adapters and high amp crimp ring terminals.

40101 universal ..... 90.99 set

BA227

BA275

G6848

## Battery Cable Bolts

Reproduction battery cable and clamp bolts for Firebird models. Battery bolts can strip or corrode and should be replaced to provide a tight fit for the cable clamp to the battery post. Bolts are manufactured to duplicate the original exactly.

## Side Post-to-Top Post Adapter Set

Set of positive and negative side terminal adapters that enables you to convert side terminal style cables to be used with top post style battery without changing the cables or cable ends. Includes: 1 positive and 1 negative terminal adapter, 2 terminal bolts, and 2 terminal nuts.  
500779 ..... 4.99 set

10626

SBT1

## Battery Cable Terminal

Due to the corrosive nature of battery electrolyte, the original lead cast positive and negative terminal ends usually require replacement every few years. We offer these replacement style late model OEM type terminals for top or side post batteries.

10626 top post terminal ..... 2.99 ea  
SBT1 side post terminal with bolt ..... 2.99 ea

## Side Terminal Adapter Set

If you are converting a side terminal battery to top post cable usage, we offer this convenient set which allows you to install and operate your replacement battery without unnecessary cutting of your cables.

RCF3L positive and negative ..... 4.99 set

## Quick Release Battery Cable Bolts

These handy quick release bolts replace standard 5/16" battery clamp bolts used for most top post batteries. The cam lever action tightens and loosens the bolts without tools. They're constructed from anti-corrosive stainless steel and padded with color coded red and black polypropylene.

W20251 top post 5/16" bolts ..... 9.99 pr

## Battery Terminal Protectors

Prevent corrosion buildup on the battery terminals with these color coded black and red anti-corrosion battery terminal protectors. Made of chemically treated polyester fiber.

W215007 ..... 1.99 pr

## 1967-70 Felt Battery Post Washer

This felt washer is designed to go on the positive battery post under the battery cable as recommended by GM. The washer helps to prevent corrosion of the positive battery post and cable.

# Battery Accessories & Tools

## Priority Start Battery Protector

The Priority Start! 12 Volt ProMax has a surge "spike" protection circuit that adds additional protection to the electrical system. Transient voltage "spikes" can cause damage to computers, 2 way radios, MDT equipment, cameras, and a host of other electrical equipment. The ProMax can be used on all 12 Volt vehicles including those with such aftermarket accessories.

PS1002 ..... 104.99 ea

## Deluxe Relay Tester

No need to pierce wires or connect multiple jumper wires with this relay test kit. Features jumpers that have tabs for clamping and flat pads to place test leads on. Includes test lead kit for easy and securely connecting relay test jumpers to a multimeter.

Jumper wire may be used between common and open to close the relay circuit for testing and has a test port to easily check voltage. Also provides access for a clamp-on amp meter. Relay puller pliers easily remove electrical relays without damage to the relay or electrical box.

- 0.8 amps
- 4-Stage Charging Program
- Automatic Intelligent Charging
- Adjusts Amperage as Needed
- Switches to Float Mode When Fully Charged
- For 12V Applications

## OER® Smart Charger 800

The OER® Smart Charger 800 battery charger and maintainer for classic cars and trucks provides high frequency automatic intelligent charging for 12V lead acid, flooded, or sealed maintenance-free (AGM and Gell Cell) batteries. Microprocessor controlled unit plugs into 120V AC current and provides 0.8 amp output through a 4 stage charging program. Features 4 safety functions: over load, over heat, short circuit and reverse polarity, and is spark proof. Designed to be used with ring terminal output or with the optional clamp set as a portable unit. Has GS/CEC/ETL/CEC Certifications. Ideal for cold weather battery maintenance, or vehicle storage.

21026 Smart Charger 800 ..... 39.99 ea

- 1.25 amps
- 7 Stage Charging Program
- Automatic Intelligent Charging

T70781

## Battery Topper

Now you can turn any modern style battery into a vintage looking one by adding one of these battery toppers featuring correct special grain just as original. Battery toppers are designed to be used with any maintenance-free flat top battery, and will work on any 24/60 series battery as long as the post location is original.

T70781 top post ..... 59.99 ea

T70782 side post ..... 59.99 ea

## Battery Carrying Strap

This handy tool is a must for your tool box. Allows you to easily carry bulky automotive batteries without getting acid on your clothes and hands. Each end is marked and sized to fit the positive or negative terminals allowing a secure, tight fit onto the post. Battery acid won't harm the strap! For top post batteries only.

X205 carries top mount ..... 7.99 ea

BM2427

BM2428

## Battery Mat — Acid Neutralizer

The Battery Mat offers protection against undetected battery acid leaks. Once installed, the mat will trap and neutralize any battery acid that leaks from the terminals or top side of the battery, preventing corrosion and expensive damage. Each mat is made of super absorbent polypropylene needle punch felt, with one side heat treated to give it additional strength. The mat is inserted under the battery between the battery and the battery tray. It can easily be installed at any time either when replacing the battery tray or battery.

BM2427 yellow mat ..... 6.99 ea

BM2428 black mat ..... 7.99 ea

## Battery Lifesaver — Corrosion Remover

Lead acid batteries will discharge, deteriorate and die without regular use or recharging because of corrosion and sulfates on the plates. This module, developed specifically for vehicles that are not driven on a regular basis to keep their battery fully charged, will actually recover lost battery capacity by removing plate corrosion, and in turn, extend battery life up to double or triple the normal life span!

BLS1 ..... 29.99 ea

## Acid-Neutralizing Battery Heat Barrier

Prolong battery life and protect your vehicle's battery tray, underhood and radiator support area with the world's only acid-neutralizing heat barrier mat. It reflects over 90% of radiant heat, traps and neutralizes battery acid, protects against corrosion, is recyclable, and is inexpensive and easy-to-install. Set consists of: one 8" x 40" acid absorbing/neutralizing felt and one adhesive backed 8" x 40" aluminumized thermal barrier to wrap around the battery, plus an 8" x 12" acid absorbing/neutralizing pad to put beneath the battery. Install one on your vehicle NOW, before it's too late.

TT1001 battery heat shield ..... 31.99 set

# Battery Accessories & Tools

## Battery Switch

These battery switches are easy-to-install on the negative battery post and disconnect the battery by simply loosening the knob a few turns. To reconnect just tighten the knob. The knob can be removed completely to deter theft. Rated at 500 amps surge and 125 continuous at 12 Volts. Available with a 15 amp fused bypass that maintains computer settings, radio, clock etc., while the battery is disconnected.

W20309 top post with fused bypass 13.99 ea  
W20308 top post w/o fused bypass... 11.99 ea

## Lifetime Memory Retention System

The Lifetime enables users of a Master Disconnect Switch to retain a small amount of power for memory circuits common in fuel injection computers, radio presets and clocks. The Lifetime is a memory circuit retainer that will automatically reset after the electrical load is significantly reduced or if the Master Disconnect Switch has been switched to the on position. Available for standard or remote battery disconnects.

500778 standard disconnect ..... 26.99 ea  
500837 remote disconnect ..... 34.99 ea

## Quick-Disconnect Battery Terminal

This brass, quick-disconnect battery terminal isolates the vehicle's battery, allowing the clock, radio etc., to remain functional when combined with a fused bypass. Designed for both round and square battery lugs.

W203507 ..... 9.99 ea

## Master Disconnect Battery Switch

Taylor's 2 post battery disconnect switch completely shuts off all of the current from the battery in the event of an accident or electrical short. The switch is rated at 180 amps continuous capacity and is especially useful when charging the battery. Includes vinyl on/off decal.

TP1032 180 amps ..... 38.99 ea

## Master Disconnect Position Ring

For disconnect switches to identify the correct position of the switch (ON or OFF). Eliminates the question of which direction is the safe one.

BC900705 ..... 4.99 ea

## Battery Disconnect Switch

Make sure your battery maintains the precious power you need by disconnecting the battery from the vehicle during storage. Your choice of an inexpensive standard duty cutout or a heavy-duty unit. Works on any 12 Volt system or vehicle. Splices into positive battery cable to provide a switch for turning power on or off.

W203047 standard duty ..... 26.99 ea  
T4988 heavy-duty ..... 96.99 ea

## Water Resistant Master Switch

This water resistant master switch is rated to 1000 amps continuous, 1000 amps surge at 12 Volts, and 500 amps surge at 24 Volts. 2-1/4" dia. x 2-1/2" deep and 1-1/4" deep behind panel. Features two 3/16" dia. mounting holes. Includes 2 keys and a water resistant cover.

## Side Terminal Battery Wrench

Make life easier with this reverse able ratchet. Fits standard 5/16" side mount battery bolt.

W21020 5/16" ..... 6.99 ea

## Battery Terminal Spreader & Cleaner

Clean and spread battery cable terminals with this pliers type tool. Sharp teeth effectively clean corrosion from clamp. Squeeze handle to spread clamp.

X204 ..... 24.99 ea

## Battery Nut Pliers

Easily loosen and tighten nuts on battery terminal clamps. Handles are offset for working in cramped areas. Serrated jaws are designed for sure grip.

X203 ..... 19.99 ea

## Battery Cable Crimping Tool

No matter what the size of your battery cable job, this is the tool that will make quick work of it. By simply selecting the proper size to match your crimp and aligning the star with the battery lug in your vise, you will gain a professionally strong and conductive crimp every time!

500665 ..... 12.99 ea

## Battery Terminal Puller

This handy tool is used to remove battery terminal clamps without damage to the battery posts. By simply placing the jaws of the puller under the battery cable clamp, tighten the screw until the clamp is removed. Great for removing corroded battery terminals.

Y54000 professional level puller ..... 21.99 ea

X2173 - post and terminal tool

X206 - steel

X201 - plastic

## Battery Post Cleaning Tools

This handy little device will help keep your battery posts clean and free of corrosion. Won't corrode or soften in cleaning solutions. Includes external brush for cable clamps and an internal brush for battery terminal posts.

X201 high impact plastic ..... 4.99 ea  
X206 heavy-duty steel ..... 4.99 ea  
X2173 post and terminal tool ..... 9.99 ea

# Wiring Harnesses

## OE Style Reproduction Wiring Harnesses

Reproduced using the original General Motors schematics and feature the correct attachment connectors and wire in the correct gauge sizes and coloration (when available) to match your original and maintain authenticity.

1967-81 Front Lamp Harness

This OE Style reproduction front lamp harness is one of two front harnesses located in the engine compartment. It provides wiring for the main battery power lead, headlights, parking lights, side marker lights, horn relay, alternator, voltage regulator, temperature sensor, brake warning, and ammeter gauge. These harnesses are produced as closely as possible to original specifications including correct colored wire.

**Note:** \*Without discolor taped into windshield wiper. The parking lamp socket assembly for the 1970-72 FB04358 is not part of the harness. The FB38931 1972-73 harness includes the parking lamp socket assembly.

1967-81 Engine Harness

Replacing your original wiring harness doesn't have to be a puzzle of wires! Classic makes it easy by supplying wiring harnesses which are ready-to-install and include the correct color wires and connectors making installation as easy as possible. The listings include exact reproduction of the original engine harnesses located in the engine compartment.

**Important:** CA28002 and CA28006 require CA28033 extension harness. CA31990 and CA31986 requires CA1750 extension harness.

**Note:** \*After 3-15-73. \*\*With torque converter clutch. \*Canada and export only. UI = Uninticed Ignition. HEI = High Energy Ignition.

### 1967-81 MT Under Dash Harness

Each OE style reproduction under dash wiring harness is manufactured specifically to your Firebird's specifications. This includes the model year with each and every option covered to ensure the harness is exactly what you need. Get exactly what you need without the guess work.

**Important:** These harnesses are designed for use with factory installed electrical options. Aftermarket gauges, tachometers, ignitions systems, air conditioning assemblies, radios, etc. may require additional or custom wiring.

**Models with Manual Transmission**  
**Important:** HRG = heater rear glass, PDL = power door locks, DCR = digital clock radio.

Note: †With Rally gauges in RH dash pod. ††With LH tach and RH speedometer. \*Without seat belt ignition interlock. \*\*With seat belt warning. \*Models before 3/24/1975. \*\*Models after 3/24/1975.

**Models with Automatic Transmission**  
**Important:** HRG = heater rear glass, PDL = power door locks, DCR = digital clock radio.

Note: †With Rally gauges in RH dash pod. ††With LH tach and RH speedometer. \*Without seat belt ignition interlock. \*\*With seat belt warning. \*Models before 3/24/1975. \*\*Models after 3/24/1975.

## 1967 Back-Up Switch Heat Shield

Heat shield for the back-up and neutral safety switch for 1967 models with a manual transmission.

14585 1967 heat shield... 11.99 ea

## Neutral Safety Switch Relocation Set

On the 1969-81 Firebird the neutral safety back-up switch was originally mounted to the steering column and controlled by a rod from the transmission instead of the floor shifter. Installation of headers and overdrive transmissions often leads to malfunctioning reverse lamps and even accidental starting of the engine with the transmission in gear. With these relocation sets the switch can be moved to the floor shifter, resolving these issues.

Important: \*Requires the use of a 1968 Firebird column switch. Switch not included. \*\*For correct operation shifter must be converted for overdrive use.

SW652 \* TH350/TH400... 64.99 set  
 SW653 \*\* all o.d. transmissions... 81.99 set

## 1969-72 Neutral Safety Switch Harness

Correct replacement safety switch harness for use on Firebird models. The harness runs from the dash to the clutch switch.

## Tremec T-56 All-In-One Harness

The All-In-One harness solution for the Tremec T-56 Magnum transmission comes equipped with all the connections pre-wired into one harness for a simple installation and ease of use. The small epoxy sealed controller is mounted to the VSS output using the existing bolt, and once the unit is powered up you will be able to connect via Bluetooth to your Apple or Android smartphone using (Bowler Transmissions) free APP. The APP will give you the ability to customize the input and output settings for each feature to ensure proper operation in your vehicle. This harness eliminates the need for any additional equipment to operate the reverse lockout or generate the correct speedometer signals coming from your Tremec T-56 Magnum.

# Universal Wiring Harnesses

## Universal Chassis Wiring Harnesses ⚠️

Starting from a blank slate is a daunting task, especially with wiring. Trying to keep your electrical systems running smoothly on a patchwork of old wiring can be a troubleshooting hassle and possibly even a fire hazard. Whether you are planning a series of electrical upgrades or simply need to replace aging, brittle wiring, build your electrical system on a fresh foundation with a quality universal harness. For basic builds, start with a simple kit with wiring provisions for all lamps, horn, fan, wiper, gauges, and all lamps. For more elaborate builds, choose from a selection of advanced wiring solutions. Need to integrate your aftermarket air conditioning? Need extra circuits for a multitude of electronic accessories? With Classic Industries®, there's no limit to what you can do with your wiring.

**Fuse Styles:**  
**A:** ATO Fuses  
**M:** Mini Fuses

#### 18 Circuit Wiring Harness

Includes 25 feet of wire from the dash back and 16 feet forward.

10308 ..... 229.99 ea

#### 10 Circuit Wiring Harness

Includes headlamp switch, printed/color-coded fire resistant wire and color coded instructions. Setup for one wire alternators up to 140 amps and above. Accepts GM fuel injection easily.

TF900214 ..... 442.99 set

#### 10 Circuit Wiring Harness

Small fuse block can be mounted in any position under the dash or seat. Harness includes built-in relay as well as extra wire. Includes dimmer switch, ignition switch, and headlamp switch where noted.

AL701205 without switches ..... 139.99 set  
 AL701206 with switches ..... 184.99 set  
 AL701207 without switches ..... 194.99 set  
 AL701208 with switches ..... 328.99 set

#### 21 Circuit Wiring Harness

Choose from harnesses for models with or without column mounted ignition switch. Included are pre-wired plugs for headlamps and the dimmer switch.

10102 without column ignition ..... 249.99 ea  
 10101 with column ignition ..... 284.99 ea

#### 19 Circuit Wiring Harness

The Builder 19 features a slim integrated fuse panel to get into those tight wiring spots, gauge cluster disconnect for easy maintenance. Includes: ignition, headlight, and dimmer switches.

510006 ..... 512.99 set

#### 15 Circuit Wiring

The Route 9 wiring system. American Autowire has developed an entry level kit that provides a complete vehicle electrical solution in a compact package.

510625 ..... 296.99 ea

#### 22 Circuit Wiring Harness

The Highway Series features gauge cluster disconnect for easy maintenance. Includes ignition, headlight, and dimmer switches, as well as 40 amp fan relay.

510760 ..... 557.99 ea

#### 24 Circuit Wiring Harness

Features compact fuse block and extra long leads. Includes dimmer, headlamp, and ignition switch where noted.

AL701209 without switches ..... 284.99 set  
 AL701210 with switches ..... 334.99 set

#### 24 Circuit Wiring Harness

Additional wires simply plug into labeled connectors in the fuse panel. No hard wiring is necessary to add accessories or other circuits to the fuse panel.

TF900215 ..... 607.99 set

# Universal Wiring Harnesses

Classic Update kits are designed for projects that require more circuits than would have been available in an original chassis harness. Each kit includes all the basics needed to rewire a vehicle, from headlight to taillight, and will accommodate popular add-on items such as electronic fuel injection, aftermarket gauges and common supporting modifications.

500887

510683

- An updated ATC fuse panel and fuses, along with modern GXL wire throughout. Wire functions are labeled every 3 to 5 inches.
- Pre-built dash harness and our exclusive gauge cluster disconnect system for use with stock or aftermarket instruments.
- Engine and front light harness with extra long leads for custom routing and updated engine and transmission combinations. Original style bulkhead connectors included.
- Six wire power accessory plug can be used as a convenient power source for aftermarket accessories.
- 175 amp mega fuse kit with 6 gauge charge cable to support a high output charging system and internally regulated alternator.
- Original replacement connectors, terminals, and lamp sockets.
- Headlight switch with 26 amp internal circuit breaker and new floor dimmer switch included.
- Dash harness connector for the 1969 and later GM steering column connector. A mating connector and terminals are included for easy adaptation to popular late model columns.

## 1967-78 Classic Update Wiring Harness

Bring your classic Firebird into the 21st Century with a complete wiring harness update set! This set accommodates all the popular accessories you may desire including, aftermarket AC, custom gauges, HEI ignition, tilt steering columns, modern charging systems, and also allows for complete flexibility in the engine compartment... such as V8 engine swap! With this amazing set, popular accessories, creature comforts or high-performance modifications are made very easy! Includes replacement headlight switch.

*Note: 1969 and later does not include an ignition switch because it is a keyed column. All harnesses require a one wire 51 type alternator, will not support stock alternator. All harnesses will require the use of the stock AC wiring harness when stock AC is used.*

Classic Update Kit

### 15 Circuit Harness Includes:

- Composite Panel Base
- Nylon Panel Components
- Color Coded Wire
- Easy-to-Read Wire Labeling
- Self-Locking Screw Clamp Interface
- 8 Gauge Alternator Feed
- 175 Amp MegaFuse
- Full Color, Step-by-Step Instructions

## Highway 15 Modular Fuse Panel System

This universal fuse panel is constructed in heat resistant nylon and features anti-push back locks and single side wire access with self-locking, screw down connections. Includes a starter/alternator 175 amp mega fuse for extra protection. Features 15 power outputs in 8 fuses, and 1 circuit breaker. Gauge cluster disconnect for easy maintenance. Includes: ignition, headlight, and dimmer switches.

510825 15 panel connections ..... 503.99 ea

- Horn relay, floor dimmer, courtesy light connections.
- Standard brake light connections w/ third brake light.
- Heavy gauge main fuse panel feed wire.
- Complete engine compartment wiring for lighting and engine management.
- Complete rear body wiring for lighting & fuel tank.
- Heavy gauge alternator, main power, and starter solenoid wires.
- Heat and air conditioning lead wires as well as accessory radio and battery clock leads.
- Long ignition, accessory, and battery leads for the ignition switch. A separate alternator exciter lead wire is wired in.
- Plug-in steering column connector for 1969 and later GM columns. Original columns can also be wired by using the supplied mating connector and terminals.

## 1967-02 20-Circuit Chassis Harness

The Power Plus series is a complete deluxe integrated fuse box wiring system utilizing a complete factory style pre-wired fuse box. Power Plus series wiring kits are designed to offer an economical and convenient wiring solution. By eliminating the disconnects and sub-harness assemblies and implementing direct run technology to the switches, fuse panel, and end locations, these sets offer a more streamlined installation and less work for you!

510008 1967-02 20-circuit ..... 359.99 ea

- AC and Heat
- Charging
- Electric Choke
- Electric Fuel Pump
- Fused Power Source
- Horn (Relay)
- Ignition Coil
- Power Door Locks
- Power Windows
- Wipers/Washer Pump

## 1969-74 25-Circuit Chassis Harness

The Painless Pro Series gives you everything you need to wire up your Pro-Touring or custom ride right the first time! Ample length is provided for each circuit, providing you the freedom to route and hide your wiring how you choose. Included is over 25 GM factory style connectors found on most '60s to early '90s GM switches, allowing you to turn the Pro Series harness into a direct-fit harness for your application. LED ATC bladed fuses get you away from the old hard-to-find glass fuses, and will light up if blown making troubleshooting a painless task. The 6 gauge charge wire and midi fuse will keep up with today's high amperage alternators, and the provided front and rear ground harness making grounding your lighting circuits a breeze!

10413 1969-74 25-circuit ..... 589.99 ea

## Trunk Mount Chassis Harness

In many street rods and custom cars there is little or no room to mount the fuse block under the dash, forcing modifications to either the vehicle or the harness. Our 12 circuit trunk mount wiring harness provides additional wire from the fuse block to the dash and from the fuse block to the front end, allowing the remote installation of the fuse block in the trunk or behind the rear seat. Includes GM column mounted ignition and turn signal plugs.

10120 21 circuit ..... 474.99 ea  
10220 18 circuit ..... 529.99 ea

## 6.0L LS2 EFI Harness

You have to thank GM for making the great LS2 motor available at a reasonable price. Now, PAINLESS has developed a harness to bring it to life. This harness is designed to work with an OEM LS1 computer and keep the throttle by wire feature. This harness has no emissions provisions.

*Important: Requires use of factory 2002-03 Corvette L56 ECM, accelerator pedal, and TAC module.*  
60520 standard length ..... 634.99 ea

# Universal Wiring

## Circuit Breaker — 30 Amp

Reproduction 30 amp circuit breaker for various GM applications. Used for many applications that require a 30 amp circuit breaker including power seats, power windows, power door locks, power convertible tops, and the body wire harness extension.

4849847 30 amp ..... 21.99 ea

## 1998-02 Fuse Panel Covers

Reproduction fuse panel covers for 1998-02 Firebird models equipped with LS1 engine. Manufactured to factory specifications with the fuse and relay location decals included.

152952 1998-02 with LS1 engine ..... 46.99 pr

## 14 and 20 Circuit Universal Fuse Block

Use these 14 or 20 circuit OEM style pre-wired fuse blocks to replace your existing fuse block or as a starting point for custom wiring. All you have to do is terminate your circuit wire and attach it to the fuse block. Pre-wired and labeled for the following circuits: Air conditioning/heat, gauges/dash instruments, brake lamps, headlamps, coil, horn, dome lamp, radio, electric fan, turn signals, emergency flashers, wipers, and alternator. The 20 circuit fuse block also includes circuits for power windows, door locks and other optional accessories. Kits include: mounting bracket, fuses, flashers, horn relay, terminals, and full instructions.

**Important:** No wire included with this kit.

30001 14 circuit ..... 149.99 ea  
30003 20 circuit ..... 224.99 ea

## Fuse Block Screws

Replace fuse block screws used on various GM vehicles. Black phosphate with wax sealer.

B11093K #10-16 x 2-1/2" ..... 3.99 pr

## Accessory Connector Pack

Add power accessories without cutting or splicing. This 24 piece connector set includes a variety of power tap and connector types to connect any power accessory. Includes: 2 taps for ATO fuses, 2 taps for ATM mini fuse blocks, 2 taps for AGS fuses, 2 taps for chassis or top post battery, 2 taps for chassis or side terminal battery, 4 red terminals for 18-22 gauge wire, 4 blue terminals for 14-16 gauge wire, 2 yellow terminals for 10-12 gauge wire, 2 top post accessory bolts, and 2 side terminal accessory bolts.

W30995 connector set 24 piece ..... 18.99 set

## Add Fused Circuits with the Cir-Kit Boss!

Add electrical accessories the safe way with a CirKit Boss! This sets allow you to add three fused circuits to your existing fuse block. Simply mount the fuse block and relay, route the 10 gauge wire to the battery, route the ignition wire, then route the accessory circuits. Main power wire is 8 feet long from fuse block. Each accessory circuit has 8 feet of wire length from fuse block. Includes: one 70 amp SPST relay, relay base/fuse block with harness, crimp-on terminals, and mounting hardware.

70114 3 circuit ..... 90.99 set

## Circuit Add-On Isolator

The circuit add-on isolator provides a solution when additional circuits are needed, or accessories/equipment requires ignition hot and constant hot capabilities. This is the only add on device available with ignition hot capabilities. Now center in three or seven circuit models depending on your application.

70103 three circuit ..... 67.99 ea  
70107 seven circuit ..... 80.99 ea

## Fuse Tap/Fuse Holder

You can now add circuits without cutting or splicing into your wire harness with this Tap-A-Circuit fuse holder. These will work with ATO and mini blade style fuses. This is a fast and easy way to add additional accessories such as CD players, car phones, radar detectors, 2 way radios and more.

**Note:** Accessory must not exceed 10 amps.

14490 for ATO fuses ..... 5.99 ea  
14491 for mini fuses ..... 6.99 ea

## Light Up Smart Fuses

These are blade style "Smart" fuses that light up when the circuit overloads and the fuse breaks. The 5 piece set contains: one 10 amp, one 15 amp, one 20 amp, one 25 amp, and one 30 amp fuse. The 10 piece set contains 2 each of the fuses listed above.

244001 ATO 5 pack ..... 8.99 set  
244031 ATO 10 pack ..... 18.99 set  
241013 mini 10 pack ..... 18.99 set

## Remote Battery Disconnect

With this setup, one click of the key fully completely shuts down your vehicle's entire electrical system. It's accomplished by routing your main battery cable through a remote cutoff solenoid that you've stashed in a place inaccessible to a thief. For even more security, the 4 channel "Safe-n-Sound" system not only shuts off all power from the battery, but will also control 3 other items, like closing the windows, triggering the power door locks, and interrupting electrical power to the fuel pump, all separate from the main battery cutoff. The 4 channel package can handle up to 30 amps worth of electrical equipment.

TF900629 single channel ..... 163.99 ea  
TF900628 4 channel ..... 236.99 ea

## Remote Master Disconnect

We offer two Master Disconnect sets with 250 amp continuous duty solenoids designed for use with high amperage alternators. Remote Master Disconnect set 30204 uses a small toggle switch to activate the solenoid. This switch can be hidden anywhere in the vehicle as a theft deterrent. Remote master disconnect with mechanical latching solenoid is ideal for everyday vehicle applications and is a simple and effective anti theft deterrent. It uses a 10 amp continuous duty solenoid which is activated by an easy to hide momentary push button.

30204 with toggle switch ..... 94.99 set  
30206 w/mechanical latching solenoid 109.99 set

## 250 Amp Dual Battery Control System

Includes a 3 position switch to control the second battery through the operation of the solenoid. Switch position 1 isolates the second battery. Position 2 connects the battery while the ignition is on. Position 3 connects the second battery at all times. Set includes: solenoid, switch, pre-terminated wire/connectors, fuse holder, fuse, and mounting hardware.

**PAINLESS**

30102

30131

## Universal Fuel Pump Relay Set

A relay will prevent voltage drops at the pump thus maintaining constant fuel pump pressure, and will prevent fuel pump amperage overloads from damaging the electrical system. It's a good idea to relay your fuel pump for the street and a must when you're racing. Choose from a regular fuel pump relay or a weatherproof fuel pump relay which is perfect for the harsh weather conditions, this relay set provides complete protection from the elements and ensure reliable and dependable performance. These sets utilize heavy-duty waterproof relays, weatherproof circuit breaker covers, and extreme condition weatherproof shrinkable crimp-on terminals.

50102 standard ..... 31.99 set

30131 weatherproof ..... 47.99 set

## Brake Lamp Relay

When upgrading tail lamps to the new higher wattage Halogens, always use a relay. The Painless set gives you everything you need to protect your wiring and switches.

30105 ..... 22.99 ea

**PAINLESS**

## Electric Water Pump Relay

These relays provide maximum battery voltage to maximize cooling efficiency and to protect the main electrical system from damaging amperage overloads. Choose from a regular water pump relay or a weatherproof water pump relay which is perfect for the harsh weather conditions, this relay set provides complete protection from the elements and ensure reliable and dependable performance. These sets utilize heavy-duty waterproof relays, weatherproof circuit breaker covers and extreme condition weatherproof shrinkable crimp-on terminals.

50106 standard ..... 25.99 ea

30132 weatherproof ..... 33.99 ea

**PAINLESS**

## Auxiliary Lamp Relay Set

Install extra driving or fog lamps easily and properly with our auxiliary lamp relay set. Switch can be wired to turn lights on per state law requirements: low beams and auxiliary lamps, high beams and auxiliary lamps, auxiliary lamp operation only. Complete set includes: lighted switch, wiring harness, 30 amp relay, and terminals.

30803 ..... 76.99 set

**PAINLESS**

## Universal Integrated Turn Signal Set

A common problem faced by rodders and kit car builders is where to mount turn signals since many aftermarket steering columns are not designed to accommodate the necessary wiring and switches. Problem solved, with this new integrated turn signal set from Painless. The toggle switches for both turn signals and flashers can be mounted anywhere. Because the set is designed to be an integrated system, turn signals will work in conjunction with brake lamps.

## Thermo-Flex Hose and Wiring Covering

The combination of aluminum, silica, and stainless steel is combined to produce a sleeve that is flexible, lightweight, and strong. The aluminum-silica combination can be slit for applications such as wire looms or hose covering, without disconnecting the ends of the wire or hoses. Thermo-Flex aluminum can withstand extreme temperatures up to 750 degrees F.

## Express Sleeve

Express sleeving is a combination of a high temperature insulation material and a highly reflective Mylar foil with a Velcro closure.

The sleeving is designed to simply and effectively protect wire, hoses, and cables from harmful effects of radiant heat. Just pull apart the Velcro, wrap around the wire, and re-close the sleeve. Express Sleeves reflect over 90% of radiant heat bursts up to 2000 degrees F, and can easily withstand direct temperatures up to 750 degrees F.

## Shrinkflex

## Fabric Heat Shrink Tubing

Shrinkflex fabric tubing is the only product of its kind. The unique weave of poly olefin and polyester easily installs over wiring harness bundles, connectors and splices, as well as rubber hoses and plastic pipes. When heated to 176 degrees, it shrinks to 1/2 the original diameter while remaining flexible, even at high temperatures!

## X-Treme Tape

X-Treme Tape was developed for the military and has some very unusual properties. The silicone based tape will stick only to itself, and only when placed under tension. Once wrapped around an object, it forms a non-conductive, air and watertight, insulating seal that remains flexible within a temperature range of -60 degrees to 500 degrees F. Insulates to 8000 Volts. Stretches to 3X's its length. Conforms to irregular shapes. When wrapped upon itself, it bonds together immediately and becomes completely fused after 24 hours at room temperature.

# Four Ways to Order!

## ORDERING BY PHONE TOLL FREE 800-854-1280

In the continental United States, Hawaii and Alaska.  
Outside the U.S. call 714.847.6887.

Mon-Fri 8:00-5:00 Sat 10:00-3:00, P.S.T.  
(Closed Sundays and holidays)

### Information you'll need when ordering by Phone:

#### Customer Number

Found on back cover of your catalog above your name, this number allows Classic Industries® to quickly access your information. If you do not have a customer number, a new one will be given to you when placing your order.

#### Billing and Shipping Address

Please have the billing and shipping address available. Credit card orders are verified by name and address before shipping. Your order can be shipped to a different address, provided the cardholder's name and address match the credit card used. You may be asked to contact your credit card company to have the shipping address added to your account.

#### Year and Model of Vehicle

To provide the best possible service, we may require the year and model of your vehicle. This helps verify that the parts you order are correct for your car.

#### Part Numbers

All Classic Industries® products are listed with a part number. If possible, please have the part numbers of the products you're ordering available before calling to make the ordering process faster and more convenient.

## ON-LINE ORDERING

[www.classicindustries.com](http://www.classicindustries.com)

Classic Industries® offers on-line ordering directly through our website. Log on to [classicindustries.com](http://classicindustries.com) and order on-line. On-line ordering is available 24 hours a day 7 days a week for your convenience.

## ORDERING BY MAIL

Mail Your Completed Order Form to:

Classic Industries®  
18460 Gothard St.  
Huntington Beach, CA 92648  
Attention: Order Dept.

## ORDERING BY FAX

TOLL FREE 800-300-3081

In the continental United States, Hawaii and Alaska.  
Outside the U.S call 714.847.6887.

Important: For assistance with your order form, see page entitled "How To Fill Out Your Order Form".

## Service Excellence from the Restoration Leaders!

## You No Longer Have To:

- ✗ Pay excessive fees to protect your merchandise
- ✗ Contact the carrier yourself
- ✗ File a damage claim yourself to have the carrier inspect the damaged items
- ✗ Send the damaged items back at your expense

With Classic Industries® the worry is eliminated!

## PROCEDURE FOR RETURNING SHIPPING DAMAGES

We handle the claim so you don't have to! If any part you receive is damaged during shipping and handling, simply contact our customer service department toll-free at 800.854.1280 within two business days.

After verifying the damage, Classic Industries® will issue a pickup call tag through the carrier that shipped the products. The carrier will pickup the damaged goods from your address and return them to us at no expense to you. After the product has been inspected, our customer service department will send a replacement part.

In order to ensure replacement of damaged products, please return items in their original box and packaging. Failure to do so may result in the claim being denied. Someone must be available at the pickup address to supply the damaged products when the carrier arrives. If the carrier is unable to pickup the products for any reason, the customer may be required to return the products at their expense.

Note: Some products are excluded from damage call tag pickup. Call a customer service representative for information about products that are not eligible.

# ENJOY THE BENEFITS!

## Money Back Guarantee

*At Classic Industries®, we take pride in the quality of the products we offer and back it up with a 100% Money Back Guarantee. If for any reason you are not satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit or exchange.*

Not all restoration parts are created equal. But at Classic Industries®, we research each and every product we sell to make sure our customers are getting the highest quality products in the market. We have decades of experience in product selection and we painstakingly scrutinize every product we offer for quality manufacturing, materials, and craftsmanship before we will offer it in any of our catalogs. Many of our employees are automotive enthusiasts themselves. In fact, many were customers prior to becoming employees, so we understand the needs of the modern classic car enthusiast. Our product procurement specialists have made it their goal to select restoration products that have been manufactured using modern technology and materials with an emphasis on originality, longevity, and attention to detail. What else would you expect from the company that started it all? Classic Industries® is the name you can trust, and we'd like for you to consider us as your partner in restoration. When a company

continually offers a quality product for a reasonable price and backs up every sale with the best customer service in the industry, people come back! That's why Classic Industries® has been the leader in restoration for almost four decades. So, if you haven't already decided for yourself that Classic Industries® is the most logical choice as your restoration parts supplier, then check out our Money Back Guarantee. If for any reason you are not 100% satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit, or exchange.

- ✓ **Lowest Prices Guaranteed!**
- ✓ **The Finest Quality Reproductions!**
- ✓ **No Fault Product Protection Offer!**
- ✓ **100% Satisfaction or Your Money Back!**

## Price Match Guarantee

### If you find it for less we'll match the price!

Classic Industries® will match any competitor's current advertised price for an identical product. Simply send us a copy of the competitor's current advertised price from a catalog, advertisement or website (with URL) and we'll match the price. The price match guarantee is available at the time the order is placed and for in-stock merchandise only. Price matching will be determined by a competitor's most current retail published price and is limited to competitors within the Restoration Industry.

**Important:** In an effort to provide our retail customers with the most competitive pricing available, we will match our current competitor's pricing. Price matching will be determined by a competitor's most current retail published price and is limited to competitors within the "Restoration Industry". Performance parts and special orders are exempt from price matching policy. Classic Industries® reserves the right to decline price matching if

pricing is deemed to be a special offer, a sale or closeout price, or a non-current price. Competitors sale pricing, inventory reductions, close outs, special promotional offers, etc. may be exempt from the "price match" guarantee. The guarantee is subject to the terms and conditions of Classic Industries® current policies.

Classic Industries® will generally contact competitors to confirm that the published price is current due to market changes, demand or availability. Price matching supersedes all other promotional offers and on sale pricing. If Classic Industries® matches a price from a competitor, additional discounts on that product or products may not apply. If the standard retail price of a product is higher than the competitor's price and an applied discount reduces the price below the competitor's pricing, the now discounted or sale pricing will prevail. We reserve the right to change or revoke this offer at any time without notice. Classic Industries® reserves the right to decline price matching.

## Think Of Us As Your Partner In Restoration!

A restoration can take years! We understand the complications and problems that can occur when ordering precious parts for your project car. If you are like most people, you want perfection. The many different elements that make up a restoration isn't just limited to the parts you install. You sometimes need to rely on other outside elements such as body shops, painters, upholstery specialists and parts suppliers. That's where we come in. We offer the quality parts you want without all the guesswork. We carry one of the largest inventories of restoration products and accessories the market has to offer. What's more, you can rely on our nearly

40 years of experience to help you through the rough spots when you need it. Our tech advisors are always ready and willing to discuss any problem you may have concerning the parts for your vehicle and your restoration. Unlike other companies, we give you knowledgeable sales representatives, one of the largest inventories in the business, quick and efficient delivery, Toll Free ordering, and the experience to back it up. If you're not absolutely 100% satisfied with the products you receive, We'll refund 100% of your money! Classic Industries® - your partner in restoration!

# Form of Payment

# How to Order

## CREDIT CARDS

Classic Industries® accepts Visa, MasterCard, American Express, Optima, and Discover for your convenience. When placing your order, be sure to indicate the card holder's name, address, home phone, business phone, credit card number and expiration date and billing address (if different from person placing order). A security code is required for credit card purchases. Please have your credit card readily available when placing your order. Minimum order is \$20.00. New or 1st time customers who are paying by credit card must have the order shipped to the cardholders billing address for the first order. Invalid or non-matching billing addresses could delay your shipment.

## CERTIFIED CHECKS

Classic Industries® will accept certified checks for your mail order. Be sure to include customer number and/or reference invoice number. Contact your bank to issue a certified check in the amount due for your order. All orders paid by certified check are held up to 15 days pending clearance.

## PERSONAL CHECKS

To use personal checks or business checks on prepaid orders, the name, address, and check number must be preprinted on the check. Be sure to include customer number and/or reference invoice number. Only first party checks will be accepted. All orders paid by personal check are held up to 15 days pending clearance.

## MONEY ORDERS/CASHIERS CHECKS

To use money orders or cashiers checks on prepaid orders be sure to include customer number and/or reference invoice number. All orders paid by money order are held up to 15 days pending clearance. Once released the order will leave within 24 hours of clearance.

Make Personal Checks or Money Orders payable to:  
**Classic Industries®**

## PAYPAL

Classic Industries® now accepts payments via PayPal! Simply complete your order over the phone with a customer service representative, get your invoice number and then send your payment to paypal@classicindustries.com through PayPal's "Send Money" feature and select "Goods and Services" for payment reason. Be sure to include your invoice number in the "Special Instructions" tab at checkout for fastest service. Orders are generally shipped within 72 hours or less of payment receipt. Contact our customer service department for additional details.

## MAIL ORDERS

Fill out the order form located in the back section of this catalog. For quick service use your credit card, money order, or cashiers check. Personal checks are held for 15 days from date of receipt pending clearance. All mail orders must be prepaid including freight (when applicable). COD orders through the mail will not be accepted. If you have any questions regarding product information or availability, contact our sales representatives during regular business hours at 800.854.1280.

## ORDER BY PHONE

Classic Industries® employs knowledgeable sales representatives to assist you when placing your order. Our sales representatives are trained to answer your questions regarding restoration and the parts listed in this catalog. Call during regular business hours Mon-Fri 8:00-5:00, Sat 10:00-3:00, P.S.T. Closed Sundays and holidays. Our convenient Toll Free number allows you to place your order with confidence to assure you get exactly what you want when you want it! Inter-continental US 800.854.1280. Outside US: country code + 1.714.847.6887

**TOLL-FREE 800-854-1280**

## FAX YOUR ORDER

Classic Industries® offers a convenient FAX line for customers who have access to a FAX machine. Our FAX is available 24 hours a day 7 days a week for your convenience. Fill out the order form completely and FAX your order. Within US: 800.300.3081. Outside US: country code + 1.714.848.9501

**TOLL-FREE 800-300-3081**

## ONLINE ORDERING

Classic Industries® offers online ordering directly through our website. Log on to classicindustries.com and order online. Online ordering is available 24 hours a day 7 days a week for your convenience.

**WWW.CLASSICINDUSTRIES.COM**

## FOREIGN ORDERS

All foreign orders must be prepaid before the products can be shipped. The Classic Industries® staff will check with the various freight companies that deliver to your country and area to determine the best possible rates available for your order. Once your order is rated, you will be contacted by e-mail or phone to approve the rate. After approval and payment is received, the order will be shipped. The Shipping & Handling fee for foreign orders will state "TBD" (To Be Determined). Rates are subject to change once the order has been packed and is ready to ship. Rates are calculated based on estimations of weight, dimensions and other factors. Should changes in freight costs occur once the order is packed and ready to ship, Classic Industries® will notify the customer immediately before the shipment is sent. If you have any questions or concerns, please direct your inquiries to info@classicindustries.com

## Color Matches

Due to multiple manufacturers of products Classic Industries® provides, color variations may occur. Slight color variations are common especially amongst interior products and does not constitute a defect. These products are not eligible for return for this reason.

## Pricing

Current product pricing and our pricing policy can be found by visiting our website. Prices in this catalog were in effect at the time of printing and supersede all prices in any previous publication. Classic Industries® makes every effort to honor the prices contained herein. Due to constantly changing costs in raw materials, supply chain issues, and other unforeseen circumstances, pricing on products are subject to change. We reserve the right to change prices without notice. For current pricing, please go to ClassicIndustries.com, or contact a Classic Industries® sales representative during normal business hours. Eligibility of products for discounts are subject to change without notice.

## Trademark and Copyright

Classic Industries® Parts and Accessories catalog is copyrighted. No part of this publication including text, photos or illustrations may be reproduced without the prior written permission of Classic Industries®. The following names and/or symbols: Mopar, Dodge, Plymouth, Barracuda, Belvedere, Coronet, Challenger, Charger, Cadet, Dart, Durango, Fury, GTX, Hemi, Polara, Road Runner, Six Pack, Super Bee, Scamp, Valiant are registered trademarks of Chrysler Group, LLC and are used for reference purposes only unless specified otherwise.

## Product Availability

Availability of all items in this catalog are subject to change without notice. We reserve the right to discontinue products, services or accessories without notice.

## Shortages

Always check the contents of your delivery to assure of the parts ordered were received. If you are missing any item(s) be sure to check for back orders noted on your invoice before calling our customer service department (see back orders). If a shortage has occurred, contact our customer service department within 2 working days of delivery to assure a prompt replacement. Classic Industries® assumes no liability after this period.

# General Information

## Sales Tax Information

Orders shipped outside of California may be exempt from sales tax. California residents are required to add the appropriate current sales tax. Due to regular variations in California sales tax rates are subject to change without notice. California orders are subject to tax on handling fees, COD fees and rush fees. This additional tax will be applied to the invoice. As of the printed date of this catalog, the current rate is 8%.

## Accuracy of Descriptions

Classic Industries® makes every effort to verify the accuracy of all information published in this catalog. Each item is represented with information that is accurate to the best of our knowledge at the time the catalog is printed. Classic Industries® is not responsible or liable for mistakes, print errors or inaccurate information that may lead to, or result in labor costs or damages to any vehicle under any circumstances.

## Kit Products

All Classic Industries® Parts and Accessories catalogs include kits which contain a variety of products. On occasion we may run out of an item supplied with a kit. If this happens we will generally ship what is in stock and back order the item(s) which are not in stock. You may contact our sales department by phone to verify which items are not in stock at the time the order is placed. The customer may decide whether to accept the partial kit or have the entire kit back ordered until the kit is completed and all the items can be shipped at the same time. If the customer decides to accept partial delivery of the kit, then the full price of the kit will be charged to the customer and the back ordered items will be shipped to charge when they arrive at our warehouse. Customers will be charged the appropriate freight fees when applicable. Cancellation of products from a kit will be accepted at 25% below the actual current retail price of the item. On COD orders the price of the kit is charged in full and the back ordered items are shipped on a COD freight only basis.

## Rights and Lefts

Some items in this catalog are presented as right or left hand products. (right side-passenger) (left side-driver). Left hand or right hand sides are determined by sitting in the vehicle, not standing in front of the vehicle.

## ALASKA, HAWAII, GUAM & PUERTO RICO

Orders being shipped to Alaska, Hawaii, Guam or Puerto Rico, are shipped via Ground, Overnight or 2-Day Delivery whenever possible. All orders must be prepaid with credit card, money order, or check. No COD orders are accepted. Rates depend on the items being shipped.

Contact our sales department for exact rates.

*Important: Promotional shipping offers do not apply to Alaska, Hawaii, Guam, Puerto Rico, Canada or any foreign destinations.*

## APO/FPO

Parcel post is the only means of shipping to an APO or FPO address. Due to size restrictions the maximum shipping box can be no larger than 72" width and girth combined. All military personnel must write or call to determine what size box will be used for the shipment. Once this is determined, Classic Industries® will call or write to let you know if the order can be shipped by Parcel Post, and the correct amount required. All orders that exceed these limitations will be shipped in accordance with customer approval.

## INSURANCE

Each order is charged an insurance fee of \$3.50. This fee will insure the entire order and protect you completely from damages or loss. The order forms located in the rear of this catalog include this fee in the indicated column when your order is being totaled.

## COD ORDERS

COD orders are packed accepted on all normal ground shipments, excluding truck freight orders. COD orders are received cash only upon delivery of your order. All COD orders are shipped by FedEx. Personal checks, business checks, money orders and certified checks are not accepted. COD orders are not accepted through the mail. COD orders must be placed by phone during regular business hours. The appropriate shipping fees will be added. COD orders are exempt from discounts and free shipping promotion. The customer will pay all appropriate fees in accordance with current policies and freight rates. A fee of \$11.95 per box will be added to all COD orders. Oversize and/or overweight boxes will be charged in accordance with the rate chart located on the order blank. Classic Industries® reserves the right to change shipping rates in accordance with rate increases by freight companies. COD orders are limited to \$999.00. If the COD order should be returned to Classic Industries® for non-acceptance/non payment, the customer will be responsible to reimburse Classic Industries® for any and all freight charges related to the order. In addition, a 25% restocking fee will be applied to the returned products. All outstanding charges must be paid before any additional orders will be accepted.

## SPECIAL RATE SHIPPING FEES/DROP SHIP FEES

Some items we offer may require a mandatory shipping or drop ship fee. This fee may also apply to products sold over the counter at Classic Industries® Showroom location. Contact our sales department for actual additional shipping fees.

*Important: Products with special rate shipping fees or drop ship fees are excluded from promotional shipping offers.*

# General Information

## Back Orders

The invoice located in the packing slip of your order will notify any items that were out of stock at the time of shipping. The unavailable items will be back ordered unless otherwise specified on your order form or verbally to a sales representative when placing your order by phone. Back orders are usually shipped when the products arrive at our warehouse without prior notification. Classic Industries® will make an effort to contact the customer if the backorder is more than 90 days old. If you wish to cancel a back order, please notify our customer service department immediately. The customer will be responsible for a 25% restocking fee and freight charges if the back order is cancelled or returned after the items are shipped.

## Damage Claims

Always check the contents of your shipment in the presence of the person delivering the merchandise. Should any damage occur, immediately notify Classic Industries® customer service dept. so that all steps necessary will be taken to ensure a prompt replacement of any damaged goods. Accurate instructions will be given on damaged goods replacement. Classic Industries® is not responsible if no notification is given within 2 working days of receipt of goods (excluding Sundays and Holidays). Classic Industries® will file a claim with the carrier in most cases. If the customer files a claim with the carrier, Classic Industries® will not be responsible for replacing damaged products and the customer will be responsible to pay for any replacements until the carrier pays the claim. Any replacement parts due to sales errors or customer errors in ordering will be sent using the same shipping method as the original order when possible. Please follow these instructions to avoid any problems or misunderstandings associated with damaged products and freight claims.

## Refusals

All refused COD orders will be subject to a 25% restocking fee. Classic Industries® will consider the entire order cancelled and void with no notification to the customer. The customer will be billed 25% plus all freight charges to a sales and from the destination. Contact our customer service department for more information.

## Policies

All policies in Classic Industries® current catalog supersede any and all policies in any previous catalog or publication.

## EXPRESS SHIPPING

Classic Industries® offers Overnight and 2-Day air delivery service in the Continental U.S., Alaska, Hawaii, Guam and Puerto Rico. Pre-payment with a credit card is required before shipments can be sent. Simply call in your order before 2:00 p.m. Pacific Time, Monday-Friday during regular business hours and your Overnight order will arrive the following business day (pending availability). Saturday delivery is available only on Overseas service, i.e. \$16.95 fee will be added to Overnight and Saturday delivery. 2-Day orders will arrive within 2 business days (pending availability). 3-Day service is available within the contiguous 48 states. Your order will usually leave within 24 hours and will arrive within 3 business days of ship date (pending availability). A \$9.95 service fee for any of these options will be added in addition to shipping fees. Contact our sales department for rates regarding air service delivery. Rates depend on the items being shipped. Some products are charged at dimensional weight as opposed to actual weight.

*Important: Air service does not guarantee your order will arrive on the expected date of delivery. Under normal circumstances, air service is guaranteed. However, due to adverse weather conditions, natural disasters or unforeseen circumstances, there may be delays. Classic Industries® is not responsible for deliveries that are delayed. Air service orders are excluded from promotional shipping offers.*

## TRUCK FREIGHT

Products in this catalog that require truck freight are typically indicated with a "Truck Freight" icon. This indicates that the product is too large for ground delivery and must be shipped by motor freight. There may be items listed herein that are not indicated as truck freight. These items must be prepaid, including freight charges, before the shipment can be sent. Truck freight rates may vary depending on products being ordered, fuel surcharges, and the shipping destination. Residential deliveries require an additional fee assessed by the carrier due to the additional coordination and transit outside of normal routes. Some Truck Freight shipments may require special handling (e.g., lift gate service, re-touring, additional freight charges, etc.). Acceptance of truck freight shipment, rate and applicable fees is acknowledged at time of order. For additional information visit us online at [help.classicindustries.com](http://help.classicindustries.com) or contact our customer service department during regular business hours.

## OVERSIZE-OVERWEIGHT

These are the designations for Ground or Standard packages that meet one of the following specifications for billing purposes: Oversize 1 (OS1) designates a combined length and girth exceeding 84", but less than 108". Actual weight is less than 30 lbs. and is billed at 30 lbs. Oversize 2 (OS2) designates a combined length and girth exceeding 108" but less than 130". Actual weight is less than 70 lbs. and is billed at 70 lbs. Oversize 3 (OS3) designates a combined length and girth exceeding 130" but less than 165". A handling fee will be added to all (OS3) orders. Overweight 1, 2, and 3 designates actual weight is less than 90 lbs. and is billed at >90 lbs. as appropriate. We reserve the right to charge Oversize and Overweight fees on any order containing oversize and overweight products, even if it is not indicated in the catalog. For additional information visit us online at [help.classicindustries.com](http://help.classicindustries.com) or contact our customer service department during regular business hours.

## Sales Errors/Ordering Errors

Classic Industries® is not responsible for customer errors or employee sales errors. Every effort is made to insure that the products you are ordering are accurate. Should an error occur, we will make every effort to resolve the issue. Replacement products will be shipped the same method as the original order whenever possible. Classic Industries® assumes no responsibility or liability for damages, fees, storage charges, or any other inconvenience that may be associated with sales errors or customer ordering errors.

## Returns

Products may be returned for a full refund on the product, credit or exchange within 30 days of receipt. All returns are subject to a 25% restocking fee after 30 days. Should you need to return a product for refund, exchange or credit, please contact customer service department for return authorization number and instructions. Classic Industries® will not accept returned goods without prior authorization. Customer will pay freight on all return orders. Allow up to 3 weeks to process refund or credit.

*Important: Gift certificates have no cash value and must be redeemed for merchandise only. Literature, CDs, videos, printed materials, stencil kits, stripes, electrical parts, gauges, wiring harnesses, switches, etc. are non-returnable. All special order products must be pre-paid in full and are non-returnable. Replacement products will be shipped the same method as the original order whenever possible. There is no guarantee on moving parts such as engines, transmissions, rear ends, steering gears, water pumps, distributors, wiper motors, etc. If any product is modified, altered, painted, installed or disassembled in any way without Classic Industries® expressed written permission, the item is non-returnable. Classic Industries® always recommends professional installation on all products. Any item which has been altered, painted, installed or deemed non-resalable by Classic Industries® will be returned to the customer at the customer's expense. Classic Industries® is not responsible or liable for labor fees associated with the installation, removal, modification, painting or repair of any product purchased regardless of the circumstances. Classic Industries® is not responsible for any damage or discoloration incurred in relation to chemical products being used including cleaners, waxes, polishes, paints, etc.*

AMERICA'S FIRST CHOICE IN RESTORATION AND PERFORMANCE PARTS AND ACCESSORIES

### Conveniently Located in Huntington Beach, CA!

- 10 minutes from the beach
- 20 minutes from Knott's Berry Farm
- 20 minutes from John Wayne Airport
- 30 minutes from World-Famous Disneyland

Automotive enthusiasts seeking personal service have always been invited and encouraged to visit our location in Huntington Beach, California. We have recently expanded our showroom facility to make the experience worth the trip for our customers and their families.

More than mere parts counter, our new showroom has something for everyone. A rotation of show cars is on display, including award-winning Classic Industries restorations such as the "TWISTED" Duster, "CAMOTION" Camaro, and "INNOVATION" Nova. Information kiosks let you browse electronically while our entertainment center keeps spouses and younger enthusiasts occupied. Naturally, the latest gift and apparel items are presented along with the newest reproduction parts. Our friendly, knowledgeable staff is ready and able to help with questions and ideas to make your restoration project smooth and easy.

# NEW SHOWROOM!

## ***Bring the Family!***

Step past the featured display car and take a seat in front of our entertainment center, designed to create a comfortable atmosphere for enthusiasts, their children, and their significant others. Let the stream of interesting automotive content hold their attention while you check out our unparalleled product line.

## ***Discover Our Products***

Browse our unparalleled selection of restoration and performance parts and accessories at these convenient computer terminals. Discover more about the latest great products available for your automotive project from Classic Industries®.

## ***Save on Shipping with WMI Call***

Want to pick up your order at the showroom and save the shipping costs? We'll be happy to have your order ready for pickup. After all, with our immense inventory of parts, we are SoCal's biggest parts store for classic GM and Mopar models.

# Product Index

Battery Cable Clip.....	551	Bezel, Trunk Lock.....	172, 284	Bolt, Rear Shock.....	321
Battery Cable Cloth Insulator.....	551	Bezel/Retainer, Light Switch.....	105	Bolt, Rear Sway Bar Bracket.....	309
Battery Cable Crimping Tool.....	553	Bleeder Screw Dust Caps.....	355	Bolt, Seat Belt Anchor.....	38
Battery Cable Insulation.....	551	Blower Cut Out Relay.....	411	Bolt, Starter Motor Mounting.....	467
Battery Cable Terminal.....	551	Blower Fan Switch.....	411	Bolt, Steering Box Mounting.....	299
Battery Cables.....	550	Blower Motor Fan.....	410	Bolt, Steering Coupler.....	300
Battery Carrying Strap.....	552	Blower Motor Mounting Screw Set.....	410	Bolt, Thermostat Housing Water Neck.....	407
<b>Battery Charger.....</b>	552	Blower Motor Resistor.....	411	<b>Bolt, Throttle Lever Arm.....</b>	495
Battery Cleaning Set.....	553	Blower Motor Resistor Pigtail.....	411	Bolt, Tie Rod Sleeve.....	302
Battery Cover.....	552	Blower Motor, AC/Heater.....	410	Bolt, Timing Cover.....	426
Battery Cutout Switch.....	553	Blower Switch.....	411	Bolt, Torque Arm.....	435
Battery Disconnect Switch.....	553	<b>Blue Dot Lamp Lens.....</b>	227	Bolt, Valve Pan.....	333
Battery Heat Barrier.....	552	<b>Blue Dot Lens, Tail Lamp.....</b>	227	<b>Bolt, Washer Nozzle.....</b>	292
<b>Battery Hold Down.....</b>	549	Bluetooth Interface.....	97	Bolt, Water Neck.....	406
Battery Hold Down Bracket.....	549	Board, Headliner.....	70, 703	Bolt, Water Pump.....	405
Battery Hold Down Rod.....	549	<b>Body Alignment Shim.....</b>	247, 305	Bolt, Windshield Wiper Transmission.....	290
Battery Mat.....	553	Body Dent Removal Tools.....	294	<b>Bolts and Fasteners.....</b>	246-247
Battery Nut Pliers.....	553	Body Marker Paint.....	153	<b>Bolts Mounting, Kick Panel Actuator.....</b>	41
Battery Post Cleaning Tools.....	553	Body Moldling Cup Screws.....	210	<b>Bolts, Battery Cable.....</b>	551
Battery Post Washer.....	551	Body Mount Hardware.....	314-315	<b>Bolts, Head.....</b>	428-429
Battery Relay Tester.....	552	Body Pan, Convertible.....	264	<b>Bolts, Ignition Coil Brackets.....</b>	458
<b>Battery Relocation Cable Set.....</b>	548	Body Panel, Rear.....	288	<b>Bolts, Oil Pan.....</b>	448
Battery Side Terminal Wrench.....	553	Body Tools.....	294	<b>Bolts, Quick Release Battery Cable.....</b>	551
Battery Surge Protector.....	552	Bodywork Manual.....	151	<b>Booster, Power Brake.....</b>	353
<b>Battery Terminal Protector Boots.....</b>	551	Bolt Eye, Rear Leaf Spring.....	329	<b>Boot and Ring, Floor Shifter.....</b>	302
Battery Terminal Protectors.....	553	Bolt Ring and Pinion Installation Set.....	340	<b>Boot Cup, Convertible Top.....</b>	255
Battery Terminal Puller.....	553	Bolt Ring and Pinion Set.....	340	<b>Boot Snaps, Convertible Top.....</b>	255
Battery Terminal Spreader.....	553	Bolt Set, A-Arm Upper.....	304	<b>Boot, Alternator.....</b>	470
<b>Battery Tray.....</b>	549	Bolt Set, Bellhousing.....	536	<b>Boot, Clutch Fork.....</b>	542
<b>Battery Tray Bolt.....</b>	549	Bolt Set, Bumper.....	236	<b>Boot, Inner Tie Rod.....</b>	302
Battery Tray Clamp Bolt.....	549	Bolt Set, Chassis.....	330	<b>Boot, Rear View Mirror Bracket.....</b>	63
Battery Tray Clamps.....	549	Bolt Set, Door Hinge.....	302	<b>Boot, Shift.....</b>	129
<b>Battery Tray Hold Down Pads.....</b>	549	Bolt Set, Front End Indented Head.....	246	<b>Boot, Steering Column to Floor.....</b>	302
Battery Tray Retainer.....	549	Bolt Set, Intake Manifold.....	433	<b>Boot, Tie Rod End.....</b>	302-303
Bearing Race and Seal Driver.....	367	Bolt Set, Trunk Latch.....	284	<b>Bows, Headliner.....</b>	66
<b>Bearing Ring, 4-Speed Drive Gear.....</b>	537	Bolt Set, Valve Cover.....	441	<b>Brace, Alternator.....</b>	471
Bearing Set, Rear Axle.....	340	<b>Bolt Sleeve, Disc Brake Caliper.....</b>	364	<b>Brace, Back Seat.....</b>	278
Bearing, Clutch Throwout.....	548	Bolt Washer, Door Striker Bolt.....	265	<b>Brace, Convertible Floor Pan.....</b>	263
Bearing, Hydraulic Release.....	538	Bolt, Alternator Housing.....	470	<b>Brace, Convertible Upper Quarter Panel.....</b>	277
Bearing, Lower Steering Shaft.....	367	Bolt, Automatic Transmission Pan.....	301	<b>Brace, Crossmember.....</b>	249
Bearing, Packer.....	368	Bolt, Ball Joint Rivet.....	301	<b>Brace, Fender Skirt to Firewall.....</b>	249
Bearing, Rear Axle.....	340	<b>Bolt, Battery Tray.....</b>	549	<b>Brace, Frame.....</b>	313
Bearing, Roller Pilot.....	536	Bolt, Bellhousing.....	523	<b>Brace, Front Floor.....</b>	263
Bearing, Steering Column.....	120	Bolt, Brake Caliper Bracket.....	364	<b>Brace, Front Steering.....</b>	313
Bearing, Wheel.....	367	Bolt, Brake Caliper Hose.....	356	<b>Brace, Fuel Tank Mounting.....</b>	473
Bellerank Felt Seal.....	543	Bolt, Brake Hold-Off Valve Mounting.....	354	<b>Brace, Leaf Spring Bracket.....</b>	286
Bellerank Pivot Ball.....	543	Bolt, Brake Line Clamp.....	359	<b>Brace, Rear Shock Tower.....</b>	336
Bellerank Pivot Ball Mount Bracket.....	543	Bolt, Brake Line Hose.....	356	<b>Brace, Starter Motor.....</b>	467
Bellerank, Clutch.....	543	Bolt, Camshaft Gear.....	426	<b>Brace, Strut Tower.....</b>	314
Bellhousing Bolt.....	523	Bolt, Carburetor.....	491	<b>Brace, Sway Bar Mount.....</b>	336
Bellhousing Bolt Set.....	536	Bolt, Clutch Pressure Plate.....	541	<b>Brace, Tail Panel.....</b>	284
Bellhousing Dowel Pin, Offset.....	537	Bolt, Control Arm Upper.....	305	<b>Brace, Trunk Floor To Tail Pan.....</b>	283
Bellhousing To Clutch Fork Boot.....	542	Bolt, Control Cable Bracket.....	530	<b>Brace, Tunnel.....</b>	312
Bellhousing, Transmission.....	537	<b>Bolt, Convertible Hinge.....</b>	257	<b>Brace, Under Front Seat.....</b>	263
Bellows, Cruise Control Servo.....	121	Bolt, Convertible Manual Latch Mounting.....	257	<b>Brace, Under Rear Seat.....</b>	263
Belt Conversion Set, Serpentine.....	422	Bolt, Convertible Rear Control Link.....	257	<b>Brace/Torque Box, Under Rear Seat.....</b>	263
Belt, AC.....	400-401, 416	<b>Bolt, Convertible Top Piston Rod.....</b>	257	<b>Braes, Fender.....</b>	245
Belt, Accessory Drive.....	400-401	Bolt, Convertible Top Pivot.....	257	<b>Braes, Inner Roof Panel.....</b>	253
Belt, Alternator.....	400-401	Bolt, Coolant Crossover Pipe.....	404	<b>Bracket Set, Throttle.....</b>	526
Belt, Fan.....	400-401	Bolt, Differential Cover.....	341	<b>Bracket, AC Compressor.....</b>	416
Belt, Power Steering.....	400-401	Bolt, Door Glass Track.....	305	<b>Bracket, AC Condenser Mounting.....</b>	417
Belt, Water Pump.....	400-401	Bolt, Fan Clutch Mounting.....	295	<b>Bracket, AC Hose.....</b>	417
Bezel, Seat Back Stopper.....	37	Bolt, Flexplate to Crankshaft.....	519, 523	<b>Bracket, Accelerator Cable.....</b>	532
Bezel, 8-Track Fender.....	96	Bolt, Flywheel to Crankshaft.....	538	<b>Bracket, Alternator.....</b>	471
Bezel, Antenna Fender Ground.....	102	Bolt, Fuel Pump.....	479	<b>Bracket, Ashtray.....</b>	107
Bezel, Assist Handle.....	76	Bolt, Fuel Tank Mounting Strap.....	473	<b>Bracket, Auto Trans Control Cable.....</b>	530
Bezel, Cigarette Lighter.....	106	Bolt, Header.....	502	<b>Bracket, Battery Hold Down.....</b>	549
Bezel, Console Switch.....	125	<b>Bolt, Hood Hinge.....</b>	544	<b>Bracket, Bellerank Pivot Ball Mount.....</b>	543
Bezel, Dash.....	103	<b>Bolt, Hood Latch.....</b>	244	<b>Bracket, Brake Caliper.....</b>	364
Bezel, Dash Vent.....	413	Bolt, Horn Mounting.....	123	<b>Bracket, Brake Hose.....</b>	357
Bezel, Headlamp.....	219	Bolt, Intake Crossover.....	433	<b>Bracket, Brake Line Mounting.....</b>	357
Bezel, Headlamp Dimmer Switch.....	104	Bolt, Lower A-Arm.....	304	<b>Bracket, Brake Proportioning Valve.....</b>	354
Bezel, Instrument Cluster.....	76-77	Bolt, Lower Control Arm.....	305	<b>Bracket, Bullet Mirror.....</b>	272
Bezel, Park Lamp.....	222	Bolt, Manifold.....	502	<b>Bracket, Bumper Cover.....</b>	235
Bezel, Radio.....	96	Bolt, Motor Mount.....	420	<b>Bracket, Carburetor Mount Linkage.....</b>	491
Bezel, Remote Mirror.....	273	Bolt, Oil Filter Housing.....	446	<b>Bracket, Carburetor Return Spring.....</b>	491
Bezel, Remote Mirror Inner Door.....	273	Bolt, Oil Filter Housing.....	446	<b>Bracket, Clutch Fork Return Spring.....</b>	542
Bezel, Side Marker Lamp.....	223	Bolt, Pressure Plate.....	541	<b>Bracket, Clutch Reservoir.....</b>	542
Bezel, Switch.....	55	Bolt, Rear Brake Hose Mounting.....	357	<b>Bracket, Console Mounting.....</b>	125
Bezel, Tail Lamp.....	225	Bolt, Rear Hatch Window Hinge.....	285	<b>Bracket, Console To Floor Mounting.....</b>	125

Bracket, Fan Shroud	391	<b>Brake Hold-Off Valve</b>	354	Bumper Braces, Rear Panel	236
Bracket, Fold Down Rear Seat	37	Brake Hold-Off Valve Mounting Bolt	354	Bumper Bracket Bolt Set, Front	236
Bracket, Front License Plate	339	Brake Hose	356	Bumper Cover Bracket	235
Bracket, Front Sway Bar Sleeve	239	Brake Hose Bracket	357	Bumper Cover Fastener	236
Bracket, Fuel Filter	479	Brake Hose Strap	357	Bumper Cover, Front	234
Bracket, Grill Support	231	Brake Hose Tee Fitting	357	Bumper Cover, Rear	235
Bracket, Headlamp Support	219	Brake Hose, Stainless Steel	356	Bumper Emblem	170
Bracket, Heater Hose	409	Brake Lamp Relay	357	Bumper Filler Panel	238
Bracket, Idle Solenoid	499	<b>Brake Hold-Up Valve</b>	354	Bumper Filler Panel, Front	234
Bracket, Ignition Coil	458	Brake Lamp Switch	106	Bumper Filler Panel, Rear	235
Bracket, Igniter Cable Support Ram Air	435	Brake Lamp Switch Retaining Clip	106	Bumper Impact Bar, Front	235
Bracket, Interior Rear View Mirror	63	Brake Lamp, LED	227	Bumper Jack Assembly	286
Bracket, Jack Mast	286	Brake Light, Third	226	Bumper Panel, Front	234
Bracket, Jack Mounting	286	Brake Line	358	Bumper Rear, Brackets	236
Bracket, Kick Down Switch	530	Brake Line Bracket	357	Bumper, Clutch Pedal Return	133
Bracket, Morse Cable	490	Brake Line Clamp Bolt	359	Bumper, Console Door	126
Bracket, Motor Mount	420	Brake Line Clip	359	Bumper, Control Arm	305
Bracket, Oil Pressure Wiring	446	Brake Line Fitting	349	Bumper, Door Glass Guide	207
Bracket, Outer Mirror	273	Brake Line Hose Bolt	356	Bumper, Door Handle	268
Bracket, Parking Brake Cable	360	Brake Line Shield	359	<b>Bumper, Door Window Stop</b>	206
Bracket, Power Steering	297	Brake Line, Pre-Bent Steel	316	Bumper, Front	233
Bracket, Radiator Overflow Jar	390	Brake Lines	356	Bumper, Front Brackets	236
Bracket, Radiator Support	232	<b>Brake Manual, Cylinder</b>	345, 350, 351, 352	Bumper, Front Door	201
Bracket, Rear License Plate	239	Brake Master Cylinder Cover Bail	352	Bumper, Glove Box Door	201
Bracket, Remote Mirror	272	Brake Master Cylinder Pushrod	353	Bumper, Header Bow Stop	256
Bracket, Rocker Panel	238	<b>Brake Master Cylinder to Firewall Gasket</b>	353	Bumper, Hood	201
Bracket, Seat Shelf Panel Extension	278	Brake Metering Valve	354	Bumper, Hood Panel	201
Bracket, Shift Cable	531	Brake Pad Retainer Spring	363	<b>Bumper, License Plate</b>	239
Bracket, Shoulder Belt	41	Brake Pad Trim Plate	134	Bumper, Nose Panel	234
Bracket, Spacer Saver Tire Inflator	286	Brake Pads	349, 362-363	Bumper, Radiator Fan Guard	391
Bracket, Spoiler	239	Brake Pedal	134	Bumper, Radiator Support	201
Bracket, Steering Column	119	Brake Pedal Clevis	133, 353	Bumper, Rear	235
Bracket, Stop Lamp	106	Brake Pedal Rod Extensions	133	Bumper, Rear Axle	332
Bracket, Stop Lamp Switch	133	Brake Proportioning Valve	355	Bumper, Trunk Lid	201, 279
Bracket, Throttle Cable	494-495	Brake Proportioning Valve Bleed Tool	355	Bushing Front Eye, Leaf Spring	331
<b>Bracket, Throttle Kick Down Cable</b>	495	Brake Proportioning Valve Bracket	354	Bushing Grease	315
Bracket, Throttle Valve Cable	531	Brake Rotor	361	Bushing Installation/Removal Tool	305
Bracket, Timing Mark	426	Brake Rotor/Drum Nut Set	367	Bushing Kit, Control Arm	304
Bracket, Transmission Cable	490	Brake Shoe Guide Plate	365	Bushing, Accelerator Pedal	131
Bracket, Windshield Washer Jar	292	Brake Shoe Retaining Pin	365	Bushing, Body Mount	314-315
Bracket, Wiring Harness	464	Brake Shoe Spacer Bar, Rear Drum	365	Bushing, Carburetor & Throttle Arm Linkage	494
Bracket/Cover, 8-Track	96	Brake Shoes	365	Bushing, Clutch Pedal Pivot	543
Brackets, Caliper Conversion	362	<b>Brake Spring Pliers</b>	368	Bushing, Clutch Pedal Pushrod	542
Brackets, Coilover Conversion	324	Brake Spring Removal Tool	368	Bushing, Clutch/Brake Pedal	133
Brackets, Control Arm Relocation	332	Brake Warning Lamp Socket	355	Bushing, Console Gearshift	545
Brackets, Front Bumper	236	Brake, Release Pliers	369	Bushing, Control Arm	305
Brackets, Leaf Spring Mounting	331	Brake/Clutch Pedal Assembly	132	Bushing, Convertible Rear Control Link	257
Brackets, Oil Pan	447	Brake/Clutch Pedal Pin	132	Bushing, Convertible Top Hinge	257
Brackets, Power Brake Booster	353	Brake/Clutch Pedal Support	132	Bushing, Convertible Top Pivot	257
Brackets, Rear Armrest Panel	46	Brake/Fuel Line Clip	359	Bushing, Door Glass Roller	207
Brackets, Rear Bumper	236	Brakes, Disc	338, 348-349	Bushing, Door Hinge	266
Brackets, Seat	32	Breaker, Circuit 30 amp	560	Bushing, Front Caliper O-Ring	364
Brake Adjustment Tool	368	<b>Breather, Valve Cover</b>	445	Bushing, Leaf Spring	352
Brake and Parts Cleaner	369	Brakes, Starter Motor	467	Bushing, Manual Transmission Pilot	536
Brake Backplate Gasket	369	Bucket Seat Back Panel	36	Bushing, Mirror Mounting	305
<b>Brake Bleeder Screws</b>	355	Bucket Seat Extender	35	Bushing, Radiator Support	232
Brake Bleeder Tool	368	Bucket Seat Frame	34	Bushing, Rear Control Arm	332
Brake Bleeder Valve	355	Bucket Seat Heater	35	<b>Bushing, Suspension</b>	305
Brake Booster Nut	353	<b>Bucket Seat Hinge Cover</b>	35	Bushing, Sway Bar	309
Brake Booster Rod	353	Bucket Seat Side Springs	35	Bushing, Torque Arm Mount	335
Brake Booster Sleeve	353	Bucket Seat Support Springs	24	Bushing/Offset Shaft, Steering	305
Brake Booster Vacuum Line	352	<b>Bucket Seat Set</b>	21, 30-33	Bushing, Sway Bar	311
Brake Cable Clip	360	Buckle Cover, Seat Belt	38	Button, Auto Floor Shift Release	545
Brake Cable Tension Spring	360	Buckle, Seat Belt	39	Button, Steering Wheel Horn	111, 113
Brake Caliper	362	Bulb Covers, Light	87		
Brake Caliper Bolts	364	Bulb, Ashray Lamp	107		
Brake Caliper Brackets	364	Bulb, Console Auto Trans Indicator	128		
Brake Caliper Conversion Brackets	362	Bulb, Dome Lamp	62		
Brake Caliper Hose Bolt	356	Bulb, Fog Lamp	729		
Brake Caliper Mounting Pins	364	Bulb, Gauge Lamp	87		
Brake Caliper Piston	364	Bulb, Headlamp	229		
Brake Caliper/Drum Paint System	369

Clip, Windshield Molding	207	Compression Tester	418	Convertible Cover Retaining Pin	255
Clips, Firewall J-Strap	562	Compressor, AC	416	Convertible Door Alignment Wedge	256
Clips, Headliner Molding	67	Compressor, AC Upgrade	415	Convertible Floor Pan Brace	263
Clips, Wire Retainer	563	Condenser, AC	417	Convertible Header Weatherstrip	198
Clock Knob	77	Condenser, Ignition	457	Convertible Hinge Bolt	257
Clock Lens	125	Connecting Rod, Convertible Bow	258	Convertible Inner Header Molding	211, 256
Clock Wiring Harness	125	Connector Tee, Washer Hose Spray	292	Convertible Latch Knuckle	257
Clock Console	125	Connector, AC Compressor Lead	416	Convertible Latch Knuckle Hook	257
Clock Dash	81	Connector, Kick Down Switch	531	Convertible Manual Latch Mounting Bolt	257
Clock, Digital	86	Connector, Knuck Sensor	557	Convertible Pillar Post Weatherstrip	197
Clock, Wall Neon	142	Connector, PCV Hose	444	Convertible Rain Gutter	256
Clock/Gauge Delete Plate	77	Connector, Printed Circuit Board	78	Convertible Rear Control Link Bolt	257
Clutch Adjustment Rod	542	Connector, Radio Power Feed	97	Convertible Rear Control Link Bushing	257
Clutch Alignment Tool	543	Connector, Vent Duct	412	Convertible Rear Quarter Access Cover	257
Clutch Assembly	538-540	Console	124	Convertible Rear Seat/Trunk Divider	278
Clutch Bellcrank	543	Console Amnesia/Drink Holder	127	Convertible Rear Speaker Housing	99
Clutch Bellcrank Pivot	543	Console Ashtray Cover	127	Convertible Roof Rail Weatherstrip	198
Clutch Bellcrank Seal	543	Console Ashtray Lid	127	Convertible Side Well Panel, Rear	46
Clutch Fluid Reservoir	540	Console Ashtray Lid Hinge Pin	127	Convertible Sun Visor Bracket	65, 256
Clutch Fork Bolt	542	Console Ashtray Lid Spring	127	Convertible Tack Strip	259
Clutch Fork Pivot Ball, Adjustable	541	Console Assembly	124	Convertible Tonneau Cover	256
Clutch Fork Pivot Stud	541	Console Coin Holder	125	Convertible Top	254
Clutch Fork Pushrod Swivel	542	Console Cover Plate, Rear	124	Convertible Top Actuator Cylinder	258
Clutch Fork Return Spring	542	Console Door Bumper	126	Convertible Top Binding End Clip	258
Clutch Fork Return Spring Bracket	542	Console Door Latch	126	Convertible Top Boot	255
Clutch Linkage	541-542	Console Gauge Assembly	125	Convertible Top Boot Clip	255
Clutch Master Cylinder	541	Console Gauge Oil Line	125	Convertible Top Boot Snaps	255
Clutch Master/Slave Cylinder, Adjustable	539	Console Gear Shift Spring	545	Convertible Top Boot Storage Bag	255
Clutch Pedal	134	Console Gearshift Bushing	545	Convertible Top Trim Panel	256
Clutch Pedal Pad Trim Plate	534	Console Glove Box Assembly	126	Convertible Top Frame Stopper	257
Clutch Pedal Pivot Bushing	543	Console Hardware Set	126	Convertible Top Header Bow	256
Clutch Pedal Pivot Nut	543	Console Lid Arm	126	Convertible Top Header Lacing	259
Clutch Pedal Pushrod Bushing	542	Console Lid Button Retaining Spring	126	Convertible Top Hinge Bushing	257
Clutch Pedal Return Bumper	133	Console Lid Hinge	126	Convertible Top Hold Down Cable	258
Clutch Pressure Plate Bolt	541	Console Lid Spring	126	Convertible Top Hose Clip	258
Clutch Pushrod Bolt	542	Console Map Pocket	125	Convertible Top Hydraulic Bleeder	258
Clutch Pushrod Retainer Clip	542	Console Mounting Bracket	125	Convertible Top Hydraulic Hose Assembly	258
Clutch Release Fork	540	Console Mounting Template	125	Convertible Top Latch	257-258
Clutch Reservoir	541	Console Seal	120	Convertible Top Manual	147
Clutch Reservoir Bracket	541	Console Seal Belt Clip	125	Convertible Top Motor Grommet	258
Clutch Rod Cover/Seal	542	Console Shift Plate	128	Convertible Top Motor/Pump Assembly	258
Clutch Switch, AC	416	Console Shift Plate Screw	128	Convertible Top Motor/Pump Cover	258
Clutch Throwout Bearing	541	Console Shift Plate Slider	129	Convertible Top Pad	259
Clutch, AC Compressor	416	Console Shift Tunnel	129	Convertible Top Bolt	257
Clutch, Fan	395	Console Storage Tray	125	Convertible Top Pivot Bushing	257
Clutch, Hydraulic	541	Console Switch Bezel	125	Convertible Top Release Cable	258
Clutch/Break Pedal Assembly	322	Console Switch Mounting Bracket	126	Convertible Top Seal	105, 259
Clutch/Break Pedal Bushing	133	Console Trim Plate	124	Convertible Top Switch	105, 259
Coat Hanger Hook	72	Console Wiring Harness	125	Convertible Top Switch Retainer	259
Coil Cover	459	Console, Cup Holder	127	Convertible Top Wiring Harness	259
Coil Pack Shield	460	Contact, Horn Plate	110	Convertible Upper Quarter Panel Brace	277
Coil Spring Insulator, Front	321	Control Arm	304, 306-308, 318, 333	Convertible Weatherstrip Kit	198
Coil Spring Mount	321	Control Arm Bolt Set	305	Convertible Well Liner	255
Coil Spring Spacer, Front	321	Control Arm Bump Stop Set	305	Convertible Well Molding	211, 256
Coil Springs	319-320	Control Arm Bumper	305	Convertible Windshield Header Molding	256
Coil Wires	459	Control Arm Bushing	305	Coolant Additive	388
Coil, Ignition	458-459	Control Arm Bushing Kit	304	Coolant Bypass Hose	394
Coilover Conversion Brackets	324	Control Arm Bushing, Rear	332	Coolant Bypass Kit, Throttle Body	404
Cooler Mount	324	Control Arm Relocation Bracket	332	Coolant Crossover Pipe	404
Cooler Shock Conversion	325	Control Arm Shaft Set	304	Coolant Crossover Pipe Bolt	404
Cooler Shock Conversion, Front	326	Control Assembly, Heater	414	Coolant Filter Adapter	398
Cooler Shock Conversion, Rear	326	Control Cable, Brake	530	Coolant Level Module	388
Cooler Shocks	318, 324-325	Control Cable, Heater	414	Coolant Level Sensor	388
Cooler Struts	325	Control Switch, Heater/AC	411	Cooler, Power Steering	298
Cooler System	318	Control, Carburetor Vacuum Break	489	Cooling Fan Blade	395
Coolover, Front	325	Controller, Electric Fan	399	Cooling Fan Shutdown	399
Coil Holder, Console	125	Conversion Rod, Shifter	530	Cooling Fan Switch	411
Cold Air Intake	440	Conversion Set, AT Overdrive Detent	530	Cooling Fan, Electric	396-397
Cold Start Delete Set	502	Conversion Set, LS Engine	421	Cooling Shutdown	398
Cold Weld	388	Conversion Set, Manual Brake Pushrod	353	Cooling System Caution Decal	177
Collar, Horn and Cap	110	Conversion Set, Mechanical Speedometer	526	Cooling System Zinc Anode	398
Collar, Steering Wheel	110	Conversion, Disc Brakes	342-349	Cooling System Zinc Anode	398
Collar Bar, Radio	99	Conversion, Leaf Spring	331	Core Support Bushing	232
Column Lock Plate Retainer	121	Conversion, Manual Steering Rack	300	Core Support Seal, AC	233
Column Shift Indicator Lens	122	Conversion, Power Door Lock	566	Core Support To Radiator Seal	232
Column Shift Linkage	532	Conversion, Torque	566	Corner Stiffener, Quarter Panel Trunk Opening	279
Column Steering	118, 119	Convertible Body Pan	264	Coupling Link, Steering	300
Combination Valve	355	Convertible Body Pan	264	Courtesy Lamp	109
Combination Valve, Brake	354	Convertible Bow Connecting Rod	258	Courtesy Lamp Wiring Harness	62, 109, 556
Complete Floor Pan, Full	260	Convertible Chassis Reinforcement	312	Cover Bracket, Bumper	235

Door Lock Pawl.....	270	Drop Spindles.....	343	Engine Assembly Grease.....	418
Door Lock Pillar Seal.....	196	Drum Brake Adjuster.....	365	Engine Block Locating Pin.....	429
Door Lock Rod Retainer.....	268	Drum Brake Adjusting Hole Cover.....	365	Engine Block Plug.....	429
				Engine Callout Decals.....	173, 181

ORDER FORMS & INDEX

## Product Index

Engine Check Valve.....	433	Fan Shroud Mounting Hardware, Radiator.....	391	Firewall Relay Cover.....	562
Engine Conversion Bracket.....	420	Fan Spacer.....	395	Firewall Rubber Boot.....	562
Engine Dress Up Set.....	443	Fan Switch.....	396	Firewall Wire Post.....	562
Engine Frame Mount.....	420	Fan Switch, AC.....	411	Firewall Wiring Clip.....	562
Engine ID Decal.....	175	Fan Temperature Sending Unit.....	398	Fitting, Brake Line.....	349
Engine Lift Bracket.....	419, 433	Fan Temperature Sensor.....	398	Fitting, Carburetor Vacuum.....	480
Engine Lift Hook.....	419	Fan Temperature Switch.....	399	Fitting, Carburetor Fuel.....	489
Engine Manual.....	148-149	Fan Thermostat, Electric.....	399	Fitting, Heater Hose to Cylinder Head.....	404
Engine Mount.....	317, 420-421	Fan, Electric Cooling.....	396-397	Fitting, Intake Manifold Vacuum.....	409
Engine Mount Plates, LSI/LS6/Vortec.....	421	Fan, Harness.....	398	Fitting, Power Steering Hose.....	297
Engine Oil.....	451	Fan, Mounting Bolt.....	398	Fitting, Power Steering Pump.....	297
Engine Oil Cooler.....	450	Fan, Mounting Bracket.....	398	Fitting, Water Pump Bypass Hose Outlet.....	405
Engine Oil Cooler Lines.....	450	Fan, Mounting Gasket.....	398	Fitting, Water Pump Hose Outlet.....	405
Engine Oil Dipstick.....	449	Fast Idle Cut-Off Relay.....	481	Fittings, Zerk.....	301
Engine Oil Dipstick Tube.....	449	Fastener Set, Exterior.....	231, 246	Flange, Exhaust Manifold.....	501
Engine Oil Recommendation Card.....	177	Fastener Set, Under Hood.....	241	Flapper Door, Ram Air.....	242
Engine Oil Slinger.....	426	Fastener Set, Underhood/Trunk.....	246	Flasher.....	227
Engine Pushrod.....	428	Fastener, Bumper Cover.....	236	Flasher, Hazard Lamp.....	227
Engine Refinishing.....	421	Fastener, Door Weatherstrip.....	200	Flat Nuts, Push-On.....	414
Engine Rotation Adapter Tool.....	419	Fastener, Engine and Accessory.....	428	Flexlines, Stainless Steel Brake.....	349
Engine Temperature Sending Unit.....	388	Fasteners and Bolts.....	246-247	Flexplate.....	519
Engine Tilter Tool (Hoist).....	419	Fasteners and Plumbing Manual.....	151	Flexplate to Crankshaft Bolt.....	519, 523
Engine Wiring Harness.....	554	Fasteners, License Plate.....	145	Float Adjustment Tool.....	490
Epoxy Putty.....	164	Fasteners, Thread Cutting Nut.....	174	Float, Carburetor.....	490
Epoxy, Metal Weld.....	295, 474, 515	Feeler Gauge.....	427	Floor Floor Shield.....	517
Epoxy, Plastic Weld.....	164	Fender Bib.....	152	Floor Insulation.....	517
Escutcheon, Door Handle.....	55	Fender Braces.....	245	Floor Mats.....	16
Esprit Decal Set.....	187	Fender Covers.....	152	Floor Mount Shifter, Quarter Stick.....	533
Esprit Stripe Decal Set.....	188	Fender Decal.....	183	Floor Mount, Steering Column.....	119
Evaporator Box Decal.....	176	Fender Emblem.....	170	Floor Pan.....	260-262
Evaporator Box Seal.....	417	Fender Extension.....	248	Floor Pan Braces, Convertible.....	263
Evaporator Case Drain Hose.....	409	Fender Flare.....	238	Floor Pan Hatch Panels.....	262
Evaporator Core.....	417	Fender Flare Welding.....	238	Floor Pan Plug.....	261, 283
Evaporator Core Expansion Tube.....	417	Fender Flares.....	249	Floor Pan Repair Set.....	164
Exhaust Balance Pipe.....	504	Fender Grill.....	248	Floor Pan To Firewall Extension Panel.....	263
Exhaust Bracket.....	511	Fender Louver Vent.....	248	Floor Panel, Under Rear Seat.....	262
Exhaust Clamp.....	505	Fender Shields.....	249	Floor Storage Lock.....	270
Exhaust Crossover.....	504	Fender Side Scoop.....	248	Floor Support, Seat Frame.....	263
Exhaust Cutout.....	514	Fender Side Split A-Bracket.....	249	Fluid, Transmission.....	52
Exhaust Cutout Controller.....	511	Fender Skirt to Firewall Braces.....	249	Flash Mount Glass.....	202
Exhaust Hanger.....	511	Fender Skirt, Front.....	249	Flywheel.....	538
Exhaust Hanger Mount Plate.....	511	Fender to Cow Bow.....	247	Flywheel Cover.....	521
Exhaust Headers.....	498-499	Fender to Side Cowl Seal.....	249	Flywheel Gear.....	538
Exhaust Insulator.....	511	Fender Wiring Harness Strap.....	563	Flywheel to Crankshaft Bolt.....	533
Exhaust Manifold.....	500	Fender, Front.....	248	Flywheel Turner.....	419
Exhaust Manifold Bolt.....	502	Ferrule, Dash Vent Knob.....	413	Flywheel/Clutch Housing Cover.....	537
Exhaust Manifold Bolt Lock.....	501	Ferrule, Door Lock Knob.....	53	Fog Lamp.....	218
Exhaust Manifold Down Pipe.....	504	Fiberglass Manual.....	151	Fog Lamp Bulb.....	229
Exhaust Manifold Dressing.....	500	Filler Detective.....	294	Fog Lamp Relay.....	218
Exhaust Manifold Flange.....	501	Filler Panel, Bumper.....	238	Fog Lamp Wiring Harness.....	218
Exhaust Manifold Heat Shield.....	501	Filler Panel, Front Bumper.....	234	Fold Down Rear Seat Bracket.....	37
Exhaust Manifold Lock.....	501	Filler Panel, Inner Fender.....	249	Fold Down Rear Seat Latch.....	37
Exhaust Manual.....	149	Filler Panel, Lower Deck.....	253	Fold Down Rear Seat Latch Catch.....	37
Exhaust Paint.....	168	Filler Panel, Park Lamp.....	222	Fold Down Rear Seat Partition.....	37
Exhaust Pipe Packing Gasket.....	501	Filler Panel, Radiator Support to Bumper.....	231	Fold Down Seat Back Stopper.....	37
Exhaust Repair Kit.....	501	Filler Panel, Rear Bumper.....	233	Fold Down Seat Carpet.....	9
Exhaust Systems.....	510-513	Filler Panel, Header Panel.....	235	Fold Down Seat Partition Holder.....	37, 73
Exhaust Tip.....	515	Filler, Front Bumper.....	238	Footrest.....	136
Exhaust Turndown.....	514	Filler, Rear Body To Quarter.....	283	Fork, Clutch Release.....	540
Exhaust Wrap.....	516	Filter, Automatic Transmission.....	522	Formula Bumper Decal.....	183
Exhaust X-Pipe.....	504	Filter, Fuel.....	479	Formula Decal Set.....	185
Extended Wheel Well Opening.....	277	Filter, Fuel Tank Pickup Tube.....	474	Formula Door Name Decals.....	185
Extender, Bucket Seat.....	35	Filter, Oil.....	451	Formula Five Prelube Grease.....	315
Extension, Fender.....	238, 248	Filter, Power Steering Fluid.....	301	Formula Graphics Decal Set.....	188
Extension, Quarter Panel.....	238	Filter, Tachometer Noise.....	79	Formula Stripe Set.....	190
Extension, Trunk Floor.....	283	Fire Extinguisher Mounts.....	161	Frame Braces.....	313
Exterior Fastener Set.....	231, 246	Fire Extinguishers.....	161	Frame Mount, Engine.....	420
Extinguisher Mounts.....	161	Fire Hose Nozzle.....	159	Frame Rail Rear Extensions.....	252
		Firebird Emblem Location Template.....	173	Frame Rails.....	252
		Firebird Formula Stripe Decal Set.....	186-187	Frame, Bucket Seat.....	34
		Firebird Graphic Set.....	186	Frame, Door and Quarter Panel.....	276
		Firewall Body Mount Patch Panel.....	251	Frame, Inner Door/Quarter Panel.....	276
		Firewall Cowl Rubber Seal Set.....	123, 200	Frame, License Plate.....	144-145
		Firewall Delete Plate.....	251	Frame, Rear Seat.....	35
		Firewall Guard, Carpet.....	9, 123	Frame, Vent Window Glass.....	204
		Firewall Insulation Pad.....	11, 13	Freeze Plug.....	429
		Firewall J-Trap Clips.....	562	Front Air Dam.....	237
		Firewall Panel Retainer Clip.....	13	Front Bolt-On Disc Brake System.....	345
		Firewall Panel.....	251	Front Brake Set.....	348

## F

False Alarm.....	152
Fan Belt.....	400-401
Fan Blade.....	395
Fan Blade, Electric Radiator.....	395
Fan Clutch.....	395
Fan Clutch Mounting Bolt.....	395
Fan Shroud Bracket.....	391
Fan Shroud Clip.....	391

# Product Index

Front Bumper.....	233	Fuel Tank.....	472-473	Gauge Panel, Custom.....	87	
Front Bumper Bird Decal.....	181	Fuel Tank Anti-Squeak Insert.....	473	Gauge Pillar Pod.....	87	
Front Bumper Cover Support.....	235	Fuel Tank Filler Neck Sleeve.....	474	Gauge Set.....	86	
Front Bumper Decal.....	181	Fuel Tank Mounting Brace.....	473	Gauge, Ammeter.....	86	
Front Bumper Filler.....	233	Fuel Tank Mounting Strap.....	473	Gauge, Amp.....	81	
Front Bumper Filler Panel/Seal.....	233-234	Fuel Tank Mounting Strap Bolt.....	473	Gauge, Fuel.....	80-81	
Front Bumper Impact Absorber.....	235	Fuel Tank Neck.....	474	Gauge, Fuel Pressure.....	480	
Front Bumper Impact Bar.....	235	Fuel Tank Neck/Sleeve.....	474	Gauge, Instrument Cluster.....	80	
Front Bumper Reinforcement Panel.....	233	Fuel Tank Neck/Sleeve Clamp.....	474	Gauge, Instrument Panel.....	84	
Front Bumper Stabilizer.....	236	Fuel Tank Pickup Tube Filter.....	474	Gauge, Oil Pressure.....	86	
Front Coilover.....	325	Fuel Tank Sealer.....	473	Gauge, Oil/Temp.....	81	
Front Disc Brake Conversion.....	342-344, 346	Fuel Tank Sending Unit.....	477	Gauge, Speedometer.....	80	
Front Door Bumper.....	201	Fuel Tank Sending Unit Lock Ring Tool.....	477	Gauge, Tachometer.....	81	
Front End Emblem.....	170	Fuel Tank Vent Valve.....	474	Gauge, Water Temperature.....	86	
Front End Indented Head Bolt Set.....	246	Fuel Tank, Mini-Tub.....	327	Gauges.....	80-86, 88-93	
Front End Rebuild Kit.....	302	Fuel Vapor Charcoal Canister.....	478	Gauges, Console Assembly.....	125	
Front End Sheet Metal Hardware Kit.....	246	Fuel Vapor Line.....	476	Gear Indicator, Sending Unit.....	86	
Front Fender.....	248	Fuel Vapor Line Return Hose Clamp.....	476	Gear Indicator, Transmission.....	532	
Front Fender Emblem.....	171	Fuel Length Floor Pan.....	262	Gear Oil.....	337	
Front Fender Patch Panel.....	248	Full Trunk Floor Pan.....	282	Gear Pellet, Headlamp Motor.....	221	
Front Fender Skirt.....	249	Fuse Block.....	560	Gear Selector Lever.....	531	
Front Floor Brace.....	263	<b>Fuse Block Screws.....</b>	560	Gear Shifter, Transmission.....	532	
Front Lamp Wiring Harness.....	554	Fuse Holder.....	560	<b>Gear, Distributor.....</b>	454	
Front License Plate Bracket.....	239	Fuse Panel Cover.....	75, 560	<b>Gear, Power Window Motor.....</b>	566	
Front License Support.....	239	Fuse Panel Wiring Harness.....	559	Gear, Speedometer Driven.....	79	
Front Lower Door Jamb Patch Panel.....	265	Fuses.....	560	<b>Gearbox.....</b>	299	
Front Shock Mount, Upper.....	321	Fuzzy Dice.....	142	Glass Molding Clip Installation Tool.....	295	
Front Spoiler.....	237	<b>G</b>			Glass Seal Rope Tool.....	295
Front Spoiler Connectors.....	239	Gas Cap.....	475	Glass Setting Tape.....	203	
Front Steering Brace.....	313	Gas Cap Anti-Squeak Decal.....	475	Glass Stops.....	206	
Front Strut Mount, Upper.....	321	Gas Cap CA Caution Decal.....	475	Glass Support, Windshield.....	202	
Front Sway Bar Sleeve Bracket.....	309	Gas Cap Anti-Squeak Insert.....	473	Glass, Back Window.....	202	
Front Toe Board.....	261, 263	Gasket Maker Silicone.....	429	Glass, Door Window.....	202	
Front Valve Panel.....	233	Gasket Maker, Silicone.....	404	<b>Glass, Flush Mount.....</b>	202	
Fuel Additive.....	474	Gasket Set, Manual Transmission.....	536	Glass, Outer Door Mirror.....	273	
<b>Fuel Bypass Regulator.....</b>	483	Gasket, Air Cleaner Base.....	439	Glass, Quarter Window.....	203	
Fuel Door.....	475	Gasket, Brake Backing Plate.....	364	Glass, Replacement.....	202	
Fuel Door Bumper.....	201, 475	Gasket, Bucket Mirror.....	272	Glass, Vent Window.....	202	
Fuel Door Emblem.....	172	<b>Gasket, Carburetor.....</b>	487	Glass, Windshield.....	203	
Fuel Door Lock.....	475	Gasket, Choke Tube Heater.....	492	Glove Box Assembly, Console.....	126	
Fuel Door Spring.....	475	Gasket, Differential Cover.....	341	Glove Box Catch Plate.....	109	
Fuel Evaporation Relay.....	440, 481	<b>Gasket, Distributor.....</b>	454	Glove Box Clip.....	109	
Fuel Feed Line.....	476	Gasket, Door Handle.....	267	<b>Glove Box Door.....</b>	108	
Fuel Filter.....	479	Gasket, Door Lock Cylinder.....	270	Glove Box Door Bumper.....	201	
<b>Fuel Filter Assembly.....</b>	479	Gasket, Door Mirror.....	271, 273	Glove Box Door Emblem.....	76, 109, 173	
Fuel Filter Bracket.....	479	Gasket, Door Window Plate.....	206	Glove Box Hinge.....	109	
Fuel Filter Mount.....	479	Gasket, Exhaust Pipe Packing.....	501	Glove Box Lamp Wiring Harness.....	109	
Fuel Filter Spring.....	479	Gasket, Fan.....	398	Glove Box Lock.....	108	
Fuel Gauge.....	80-81	Gasket, Fuel Sender.....	477	<b>Glove Box Lock Nut.....</b>	108	
Fuel Gauge, Console.....	125	Gasket, Head.....	429	Glove Box Screw.....	109	
Fuel Hose.....	480	Gasket, Header.....	501	Glove Box Stopper.....	109	
Fuel Hose Clamp.....	476	Gasket, Header Collector.....	501	Glove Box, Inner.....	109	
<b>Fuel Hose Clamps.....</b>	394	Gasket, Intake Manifold.....	432	Glove Box/Trunk Lock Set.....	269	
<b>Fuel Injection Manuals.....</b>	150	Gasket, License Lamp.....	227	Glue, Headliner Installation.....	67	
Fuel Injection System.....	496	<b>Gasket, Master Cylinder to Firewall.....</b>	353	GM Mark Of Excellence Decal.....	178	
Fuel Inlet Nut.....	489	Gasket, Oil Filter Housing.....	446	Grab Handle, Interior Door.....	57	
Fuel Level Gauge, Custom.....	86	Gasket, Oil Pan.....	448	Grease Cap, Wheel Bearing.....	367	
Fuel Line.....	476	Gasket, Oil Pan Drain Plug.....	448	Grease, Air Filter Sealing.....	438	
Fuel Line Clip.....	476	Gasket, Park Lamp Lens.....	222	Grease, Engine Assembly.....	418	
Fuel Line Support Bracket.....	480	Gasket, Radio Antenna Mounting.....	102	Grease, Formula Five Prelub.....	315	
Fuel Line, Carburetor.....	480	Gasket, Remote Door Mirror.....	472	Grease, Polyurethane Bushing.....	315	
Fuel Line, Dual Feed.....	489	Gasket, Side Marker Lamp.....	403	Grease, Wheel Bearing.....	368	
Fuel Pressure Gauge.....	483	Gasket, Tail Lamp Lens.....	225	Grill.....	230	
<b>Fuel Pressure Regulator.....</b>	483	Gasket, Tail Lamp Stud.....	224	<b>Grill Attaching Rivet/Nut.....</b>	231	
Fuel Pressure Tester.....	480	<b>Gasket, Timing Cover.....</b>	426	Grill Dash, Speaker.....	75	
Fuel Pump.....	478	Gasket, Transmission Pan.....	522	Grill Emblem.....	170	
Fuel Pump Bolt.....	479	Gasket, Trunk Lock Cylinder.....	270	Grill Insert.....	231	
Fuel Pump Eccentric.....	480	Gasket, Valve Cover.....	441	Grill Molding.....	231	
Fuel Pump Mounting Plate.....	479	Gauge Lens.....	125	Grill Molding Covers.....	231	
Fuel Pump Pressure Tester.....	479	Gauge Lenses, Pump To Block.....	87	Grill Opening Covers.....	231	
Fuel Pump Pushrod.....	479	Gauge Adapter.....	87	Grill Support Bracket.....	231	
Fuel Pump Relay.....	481, 561	<b>Gauge Adapter/Tack Resistor.....</b>	79	Grill, Door Jamb Vent.....	276	
Fuel Pump Safety Switch.....	483	<b>Gauge Cluster, Rally.....</b>	81	Grill, Fender.....	248	
Fuel Pump To Carburetor Line.....	480	Gauge Copper Tubing.....	87	Grill, Kick Panel Speaker.....	99	
Fuel Pump, Electric.....	481-483	Gauge Harness.....	87	Grommet, Accelerator Rod.....	151	
Fuel Recommendation Decal.....	176	Gauge Lamp Bulbs.....	87	Grommet, Convertible Top Motor.....	238	
Fuel Return Line.....	476	Gauge Lens, Dash.....	125	Grommet, Core Support (Electrical).....	562	
Fuel Sender Gasket.....	477	Gauge Lenses.....	125	Grommet, Distributor Wire.....	454	
Fuel Sender Lock Ring.....	477	Gauge Mount Angle Ring.....	86	Grommet, Heater Core Outlet.....	408	
Fuel Sender Wiring Harness.....	477	Gauge Mount Pedestal.....	86	Grommet, Heater Core Pipe.....	408

## 1967-81 Tubular Control Arms

Improve your suspension geometry with Detroit Speed's robust tubular control arms, featuring Delrin bushings and a durable black powder coated finish. Upper arms, are designed to increase camber gain and improve roll camber. Features greasable aluminum Delrin bushings and stainless steel cross shafts with DSE's "Caster Tuner Bushings" for shim free adjustment. Fully assembled with ball joints. Lower arms are designed for positive caster and a lower spring pocket. Features Delrin bushings with steel housings and crush tubes and a black powder coated finish. Includes: lower ball joints, steering stops, and jounce bumpers.

Upper Control Arms

## 1967-69 Black Rear View Mirror

Reproduction black day/night interior rear view mirrors for 1967-69 Firebird models. These service replacement mirrors are manufactured to OE specifications and feature a textured black finish, a matching black day or night switch, and polished mounting bushing. Refer to part #565842 for chrome mounting screw.

## 1967-81 FAB9TM Rear End Housing For Torque Arm Rear Suspension

Superior handling, adjustable geometry, first rate engineering and construction. Mild steel FAB9 Ford 9" housing for Torque Arm g-Link Suspension with late big Ford seal style housing ends. Direct fit for 1967-81 Firebird with Mini wheel tub conversion. Includes mounts for optional housing-mounted billet arm anti-roll bar and Watts link. 60" wheel to wheel width with 1/4" thick hats, 1/2" offset pinion, late big ford seal ends, lower torque arm, and Watts link attachments installed, bolts into stock cars with torque arm Watts link conversion. Optional billet arm splined end anti-roll bar sold separately.

<i>Note: Special order part, NOT returnable for any reason.</i>

## Aluminum Battery Box Relocation Set

Taylor's aluminum relocation battery box is constructed from .040" thick aluminum and features a removable top to allow easy access to the battery. Battery mounts to the frame of the box with the supplied 3/8" bolts and includes a heavy-duty 1 piece battery hold down along with mounting hardware. Measures: 13-1/2" x 9-1/2" x 10".

*Note: Complies with NHRA rule 8:1 for installations where there is no firewall between the driver and the battery.*

★ Indoor Use  
★ Single Layer Material

Diamond Blue fabric

Designed for indoor use, OER's Diamond Blue covers are manufactured using an economical single layer non-woven material that offers excellent protection from dust and dirt penetration. Each cover is sewn with double stitched seams to add strength and durability to the cover and Neoprene elastic is sewn into the front and rear hems to help secure the cover. Breathable and lightweight, Diamond Blue offers basic protection from water and guards against damage from dust, dirt, over spray and similar environmental elements. Covers feature mirror pockets on both sides of the cover when applicable and non-scratch grommets have been installed onto each side of the cover to allow the use of a tie strap or lock.

**Pickup Layers of Dust with One Sweep!**

An easy way of keeping your vehicle clean and free of dust, looking like it was just washed. It's specially treated cotton fibers lift dust off the surface without scratching the paint, even delicate lacquers. The more you use it, the better it works! Regular use can significantly reduce the frequency of washings.
