1970-77 OEM Style Vinyl Wrapped Dash Pad and Fascia

All new OEM style dash pad for 1970-77 Firebird and Trans Am models. Each OER® dash pad is designed to look and fit exactly as original. Unlike the urethane dash pad, these feature an injected molded ABS skeleton with a molded vinyl skin in the correct grain over a foam core, just like Genuine GM dash pads, making it the most superb reproduction available. Installs as original and mounts to the dash panel using existing hardware. Available in black, may be painted to the desired color with OER® Premium Interior Paints sold separately.

Important: 1970-77 models featured a 2" tall radio opening.

Note: Shipped double oversize.

Hall Effect Speedometer Sending Unit

The GM style Hall Effect speeder features a 7/8"-18 threaded input, .104 x .104 drive tang, wire harness pigtail, and transmits 16 pulses per revolution. C95113 Hall Effect speed sender..... 59.99 ea

Speedometer Sending Unit

Speedometer sending unit for use with all AutoMeter electronic speedometers. This unit is not included with the gauge packages and must be purchased separately. AM5291 sending unit..... 115.99 ea

Speed Sensor

A speed sensor is an electrical device that can sense the rotational speed of a shaft or member and transmit this information to another device, such as a readout. Sensor is 7/8"-18 thread. 60117 late TPI & early LTI - 4 pulse... 159.99 ea

Cable-X Speedometer Drive Converter

The Cable-X universal adapter will pickup the electronic speedometer signal and operate the cable driven speedometer to the corresponding speed. It's a snap to install with only three wires: hot, ground, and signal.

18605 with snap-on cable..... 419.99 ea
18607 with thread-on cable..... 419.99 ea

Sky Drive GPS Speedometer Sender

The Sky Drive GPS Speedometer sender quickly calibrates and accurately drives any electronic programmable speedometer. No more guessing or recalibrating due to tire or gear changes, this unit requires a one time setup and you're done. 280665 GPS speedometer sender..... 284.99 ea

Distributorless Tach Adapter

This tach adapter is designed to add a standard ignition tachometer. Pro Shift light, or RPM activated module to be used with distributorless ignition systems. AM9117 distributorless tach adapter... 117.99 ea

1967-72 Hood Tach Dimmer Module

This option facilitates the dimming of the hood tach lamps. This allows the lamps to be kept on slightly in order to reduce condensation on the lens. This kit consists of a plug-in module that connects under the dash to the original harness. FL111 1967-72..... 41.99 ea

1967-72 Hood Tach Vent Line Set

In 1968 Pontiac had a problem with their hood tachometer fogging up, so in 1970 GM came out with this set. GM's fix was connecting a vacuum hose from the bottom of the hood tach to the heater box on the firewall. All 1970-72 hood tachs had this set installed by the factory to correct this problem. FL110 1967-72..... 41.99 set

Universal Tachometer Filter

Eliminate tach signal noise and surges caused by your ignition system. This filter installs between the tachometer and the signal source and modifies the sharp up and down spikes into a semi-square wave signal for steady readings and faster response. This tachometer filter can be used as a direct replacement for 1975-89 GM vehicles. Measures: 2" x 3/4" x 1". Includes instructions. **Important:** Recommended for vehicles running an HEI ignition with a tachometer designed for points style ignitions. MG109219 36.99 ea

Tachometer Signal Filter

AutoMeter tachometer signal filter. These filters are designed to correct erratic tach function by filtering out the interference or spiky pulse signals often caused by points or noisy ignition systems. AM9116 tachometer signal filter..... 27.99 ea

LS Gauge Adapter/Tach Resistor Set

The LS adapter allows the use standard 1/8"-27 NPT threaded senders in the metric LS sender ports. Includes one metric 16 x 1.5 to 1/8"-27 adapter and one metric 12 x 1 to 1/8"-27 adapter. Set also includes brass-o-ring seals and a pre-wired step-up resistor for tachometers that read a signal from the PCM. C95114 LS adapter/step..... 65.99 set

USA 1970-81 VHX Instrument Cluster

VHX gauges from Dakota Digital feature fully lit needles, backlit faces, and vibrant LCD message centers which can display automatic gearshift location, clock, odometer, trip meter, 0-60 and 1/4 mile timers can be displayed as well as high RPM and high speed recalls. Behind the scenes, micro-controlled precision stepper motors, and solid state sensors bring your classic instrument cluster into the modern age. Available in black alloy or silver alloy, with your choice of blue, red, or white backlighting.

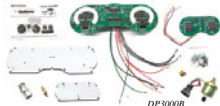

Important: Shift indicator function requires sending unit/module DD1000. Dash bezel sold separately.

Note: Specify gauge illumination color when ordering: 1 - blue, 2 - red, 3 - white.

USA 1970-90 Digital Instruments

Looking to get a fresh, modern look for your gauge panel? The Intellitronix digital dash gives your Firebird the precision of digital readouts under the elegance of a smoked gauge lens. This direct fit digital instrument cluster works with your factory fuel, oil pressure, and cruise control sending units and includes a printed circuit board, smoked faceplate, temperature sending unit, a speedometer sender (for vehicles without electronic transmission), and instructions. The 1970-81 gauge sets also have a clock included. Made in USA.

Note: When ordering, please add the correct color suffix: B - blue, G - green, R - red, or W - white.

AutoMeter

In-Dash Speedometers and Tachs

Our In-Dash Speedometers and Tachometers feature our famous high-performance movements and are designed with seamless dashboard mount or stand for the ultimate driver information center. Available in a variety of configurations and sizes.

Important: Electric speedometers operate on 500-200,000 pulses/mile sending units. Use existing sending unit of vehicle is originally equipped with an electric speedometer. Use AM5291 to convert from mechanical drive to electric. Tachometers operate on 6, 8, or 30-circuit engine ignition most factory or aftermarket ignitions. Some fuel gauges use the vehicle's stock sending unit. Measure resistance using an ohmmeter with the sending unit fuse in the empty and full position to determine the correct fuel gauge.

Performance Gauges

COBALT

COBALT gauges feature bright anodized Super Bezels and black dials with blue accents, white numbering and increments, cobalt blue "through-the-dial" patented LED lighting technology and glowing orange pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent of your OE dash lighting.

Full Sweep Electric Gauges

Powered by digital microprocessor-controlled, rugged stepper motor drives and laboratory grade sending units, Full Sweep Electric Gauges combine extreme durability and readability of 270 degree sweep mechanical gauges with the easy installation and safe operation of short sweep electrics. Track tested and race proven, these units use precision senders to keep hazardous fluids out of the driver compartment and perform gauge calibration and sensor diagnostics at power up for extreme accuracy, every time.

Short Sweep Electric Gauges

Advanced 90 degree air core movements and three wire installation characterize these Short Sweep Electric Gauges. Electric sending units keep hazardous fluids in the engine compartment, sending collected data via an electrical signal to quick reacting, precise air core movements to give you all the information that you need.

Performance Gauges

Prestige In-Dash Gauge

These gauges have the precision and reliability with brushed aluminum centers, fully lit vintage style needles, domed lenses, and polished chrome bezels. Antique Ivory gauges have black numerals and needles, and feature an LED fully lit gauge face when illuminated at night. The Prestige Black Diamond gauges have white numerals and needles and feature through-the-dial LED lighting to illuminate the numbers, markers, and needles. Mechanical gauges include the necessary fittings and 6 feet of capillary tubing (unless otherwise specified). Electric gauges include the required sending units. 2-1/16" not needed.

Note: *3-3/8".

Retro Tachometer

Carefully reproduced to match original dimensions, 360 degree lighting avoids uneven spots for better night visibility. These tachometers will put the finishing touches on your restoration project. Tachometer measures 3-3/8" and has 8000 RPM limit.

Important: *With adjustable red line. Tachometers operate on 1.2, 4, 6, 8, or 10 cylinder engines with most factory or aftermarket ignition systems.

ST802*	full sweep	154.99 ea
ST888*	short sweep	144.99 ea

Super Tach II

Super Tach II features internal dial lighting, accurate air coil meters, 250 degree dial sweep, 8000 RPM limit and adjustable red line pointer. Works on 4, 6, or 8 cylinder engines. Functions with breaker point, electronic and most aftermarket ignition systems except magnetos. Includes mounting hardware. Available in 3-3/8" or 2-5/8".

3-3/8" Super Tach II

1967-81 Long Beach Radio

The new Long Beach radio is SiriusXM-Ready® and the only Apple®-licensed Made-For-iPod® radio for your classic car! Play and charge your iPod®, iTunes® or iPhone® through your audio system. The Long Beach also has built-in Bluetooth® for handsfree calling as well as wireless audio streaming from any Android®-based phone or iPhone®. Featuring push button styling and a new 32,000 color display, the Long Beach looks like the original radio but offers the most modern technology available for your classic ride.

Important: *SiriusXM satellite radio requires monthly subscription and radio tuner (sold separately.) For radio tuner see part #XM300.

USA630 - rear detail including USB and iPod leads

1967-77 USA-630 AM/FM Stereo

Custom Autound's USA-630 is designed to provide the best in audio technology wrapped in a classic car stereo look. It will fit your vehicle's stock dash without any modifications required. Modern features like a USB input for flash drives to playback MP3/WMA song files and a dock for your iPod. When connected to these devices the radio's digital display will show artist, song, album titles and allow song navigation through the radio itself. The USA-630 is compatible with our optional BLUKIT which enables bluetooth music streaming from your enabled phone as well as handsfree mobile calling through the vehicle's speakers and BLUKIT's built-in microphone. With 300 watts peak the radio provides plenty of power but additionally contains four RCA pre-outs for optional amplifiers. It also comes with Auxiliary inputs for satellite radio tuners, iPhones or any portable player you may wish to use.

Important: For BLUKIT see part #A910300.

1967-81 USA-230 AM/FM Stereo

Custom Autound's USA-230 is an excellent choice for classic truck enthusiasts looking for a more affordable radio without sacrificing quality electronics and a classic stereo look. It has been designed to fit in the stock dash without any modifications required. The USA-230 has the same appearance and all of the features offered in our USA-630 model simply without USB port, iPod dock and CD changer control. The USA-230 does provide an auxiliary input which can connect to iPods, iPhones, satellite radio tuners or any other device with a headphone jack. It also boasts 4 Channel RCA pre-outs and a digital display with electronic tuner, 16 station pre-sets and a 4 way fader. With 200 watts peak, (4 x 50).

R3110BK

1967-81 14" Steering Wheel Kit Black Spokes with Black Leather Grip

Replace the outdated, uncomfortable stock steering wheel in your Firebird with a modern, padded leather grip steering wheel and a classic center spoke design! The 14" diameter wheel is easier to manage and provides your dash with a unique sporty look reminiscent of the optional factory GM 3-spoke steering wheels of the 1960's. Kit includes: steering wheel, mounting hardware kit, and matching mounting hub adapter. Features a comfortable black padded leather grip and black brushed finish center spokes. Horn cap is sold separately available in brushed black with a wide array of logos to choose from.

Generation 2.0 Quick Release System

These 2.0 Quick Release units feature many options that conventional ball-lock Quick Release systems do not offer, such as specially designed raised sections to prevent hub stretches and a self-locking mechanism. These units are manufactured from highest quality aircraft aluminum with style and function that are designed to last.

Note: Must use in conjunction with the short hub adapter.

5 Bolt - 2.0 Quick Release

Compatible with all 5 bolt Grant steering wheels, and others with 5 x 70mm bolt patterns.

152783B black..... 119.99 ea

6 Bolt - 2.0 Quick Release

Compatible with all 6 bolt steering wheels with: 6 x 70mm or 6 x 74mm Bolt Patterns.

With Carbon Fiber Ring

152781C black..... 119.99 ea

With Titanium Ring

152782BK black..... 111.99 ea

152782GM gunmetal..... 111.99 ea

152784BK

Generation 2.8 Quick Release System

The Gen 2.8 Quick Release provides all the benefits of the 2.0 Generation Systems ball-locking quick release system with the added benefit of an upgraded Diamond Cut flared ring. This provides leverage and grip for the pull ring allowing much easier release of the steering wheel. Perfect for race applications where gloves are required. Choose from a selection of colors.

Note: Must use in conjunction with the short hub adapter.

6 Bolt - 2.8 Quick Release

Compatible with all 6 bolt steering wheels with: 6 x 70mm or 6 x 74mm Bolt Patterns.

152784BK black..... 144.99 ea

152784GM gunmetal..... 144.99 ea

152784GL silver..... 144.99 ea

Short Hub Adapter

This short hub unit was designed to mount an aftermarket steering wheel/quick release combination close to the original orientation. Manufactured from the highest quality aluminum using a solid, 1 piece design for maximum strength and durability.

Note: Must use with one of our Quick Release or tilt systems.

152780 black..... 125.99 ea

1/2" Steering Wheel Spacer

Bring your steering wheel closer with this 1/2" spacer. Manufactured from CNC-machined aluminum with counter sunk mounting holes to the hub and a universal 6 bolt mounting pattern.

152779B black..... 27.99 ea

152779G silver..... 27.99 ea

Quick Lock System

A perfect complement to the Quick Release Systems, these units quickly and easily disable the steering hub by preventing the placement of a steering wheel onto the hub. Manufactured from solid steel and utilizing a ball-lock design and key mechanism. Available in various color finishes.

Note: Must use with either the 2.0 or 2.8 quick release system.

152785GM gunmetal..... 125.99 ea

152786GL polished..... 125.99 ea

152786MB matte black..... 125.99 ea

Quick Tilt/Lock System

By allowing the steering wheel to tilt out of the way in one quick motion and combining a patented locking system to secure the wheel once the tilt is engaged, this system provides an added layer of anti-theft security without sacrificing convenience.

Note: Requires short hub adapter. Not compatible with quick lock or quick release units.

152772B black..... 249.99 ea

152772G silver..... 249.99 ea

Custom Steering Wheels

GT Performance Foam Grip or Retro Wood Steering Wheels

Inspired by Muscle Cars of the 60's and 70's, this GT Retro wheel is the perfect match for any project. The wheel center is manufactured from 304 stainless steel with polished edges and a fully brushed finish; the grip features a rich, thick foam for the most comfortable cushion grip on the market! Each steering wheel kit includes steering wheel, horn button assembly, hub adapter, and Grade 8 hardware. Horn buttons are secured using an exclusive o-ring design. Your choice of black anodized or polished hub and horn assembly.

Note: Not intended for vehicles with air bag safety systems.

1967-92 Classic Foam Steering Wheel

The GT Classic steering wheel design mimics the custom steering wheels from the 1960's with its soft black 14-1/2" cushion grip and three-spoke center. The 1010 cold rolled steel spokes have classic lightning holes and have been polished and chrome-plated for a perfect appearance. Horn buttons are machined from 6061 aluminum and are secured using an exclusive o-ring design that keeps it from "popping off". Each steering wheel kit includes your choice of a black anodized or polished hub with matching horn button and Grade 8 mounting hardware.

Note: Not intended for vehicles with air bag safety systems.

1967-94 Pro Touring Sport Steering Wheel

Inspired by GM's optional NK4 four-spoke sport wheel, these custom steering wheels offer a modern twist to an already classic design. The black leather steering wheel is made to original NK4 dimensions and features black anodized spokes and a premium leather "baseball" stitched grip. The wood wheel features polished spokes and a genuine mahogany outer grip with perforated leather inner. Billet horn buttons are secured using an exclusive o-ring design. Kits include: a matching billet hub, horn button, and Grade 8 mounting hardware. Wheels are approximately 14.5" with 2.375" dish.

Important: Use 1969-94 kits for Flaming River and idikit steering columns.

Note: Not intended for vehicles with air bag safety systems.

Classic Deep Style Mahogany Wheel

Forever Sharps' deep style, dark mahogany wood steering wheel is manufactured from real mahogany wood and features aluminum rivets, brushed aluminum spokes, as well as finger indentations on the backside for comfort and grip. A urethane coating has also been applied to give the wheel a longer life and improved heat resistance for those hot summer days. Features a 3 hole bolt pattern, 15" (14-3/4") diameter with a 4" dish depth and decorative rivets.

Note: Chrome horn button/cap FS120302 and 3 bolt mounting adapter, sold separately.

Steering Column Parts

ID IDIT

1967-75 Tilt Steering Column

Brand new, ididit premium tilt steering columns that include all levers and knobs and are completely wired for self-canceling turn signals, 4-way flashers, and horn. A neutral safety switch is included with all column-shift columns. The correct wiring adapter to plug into your Firebird's 3 stock wiring harness is included when required. For 1967-68 models the original under dash mounting hardware and floor mount can be used. 1969 models require a new rag joint, offered separately. A stock steering wheel from 1969 or newer GM vehicles bolt directly to the column. Most aftermarket wheels will attach with an adapter. Most columns available in black powder coated, paintable steel, chrome steel, polished, or brushed billet aluminum.

Important: 1967-68 original steering wheels require steering wheel adapter set # 2612100040. 1967-69 ididit "column shift" tilt steering columns do not have a provision for the original dash shift indicator. An aftermarket indicator is required.
Note: * Will not work on 1969-75 Pontiac models with original stock ignition wire. Will only work if rewiring ignition with replacement wiring.

These universal joints are used for installation of ididit tilt steering columns when an adjustment of geometry is necessary.

SC1017	3/4"-36 spline x 3/4" DD	79.99 ea
--------	--------------------------	----------

The slip shaft is a cut-to-fit design to allow three inches of movement, eliminating binding caused by body flex. Each slip shaft includes a 30 inch 1" DD shaft (which can be cut to size) and a protective bellows.

Note: Shaft requires universal joints to be ordered separately.
450036 30" x 1" DD..... 78.99 ea

1967-68 Aluminum Steering Column

Pro-Lite lightweight aluminum steering column built to fit the 1967-68 Firebird. At under 6 lbs, the Pro-Lite still packs all the features of a standard column including self-canceling turn signals, 4 way flashers, horn wiring, 3-7/8" wiring plug, and a 1" 48 lower shaft. It also collapses a full five inches for enhanced driver safety and is designed to work with most quick release steering wheel hubs. Installs easily using your original dash mount and ididit's plug-in wiring connectors.

A9100212	1967-69.....	19.99 ea
----------	--------------	----------

1969-78 Tilt Steering Column

Flaming River tilt steering columns feature all new components including a 1 piece cast upper housing design with a keyed GM ignition that has the standard GM plug. These columns are manufactured using 2" stainless steel tubing and a high strength, all steel shaft with Teflon coated bearings. They include the tilt and turn signal levers and hazard knob. The shift lever with the shift indicator are included on column shift applications. Columns are 33" long, with 1"-48 spline shaft and are a direct fit for 1969-78 Firebirds or a 1"-DD shaft for rack and pinion steering. A stock steering wheel from 1969 or newer GM vehicles bolt directly to the column. Most aftermarket wheels will attach with an adapter. Available in: black powder coated, paintable stainless steel, or polished stainless steel. Made in USA.

Important: The reuse of the original column to dash clamp bracket is required for installation, with some modification necessary, or use part #FR20300 column strap clamp if you want to keep your old column intact. If you do not want to do that you may use FR20114K and not use the OEM mounting.

Pedal Components

1967-69 Billet Accelerator Pedal Assembly

Add a touch of class to the interior of your Firebird with one of these CNC-machined cable style accelerator pedal assemblies from Billet Specialties. These pedals convert your old linkage to a more modern cable style linkage giving you additional firewall clearance and smoother operation. They install in the factory location with the existing hardware.

Note: Throttle cable not included.

1967-69 Billet Aluminum Pedal Assembly

Direct replacement billet aluminum pedal assemblies for 1967-69 Firebird models. Each throttle assembly has been designed to eliminate the factory rod linkage and mount into the stock location utilizing a modern Lokar throttle cable system. The arms are splined and can be switched for right or left adjustment. The traditional flat style throttle pad is spring loaded and measures 2" x 5". Lokar's curved brake, clutch, and parking brake pedal pads add style and function to your classic car. Designed with hidden screws, these pads are curved to match and bolt directly to the factory steel pedal. Available in a brushed or black finish with rubber inserts on the pad. Made in USA.

Pedal Components

Eliminator Floor Mount Gas Pedal

The Eliminator floor mount gas pedal is crafted from billet aluminum and designed to eliminate routing cables through the firewall. It includes an adjustable aluminum splined shaft and stainless steel under the floor cable mounting bracket. Can be mounted in multiple positions for various floor and toe board angles.

Important: Requires a 36" cut-to-fit Lokar throttle cable, LSI, Ramjet and Vortec applications require a 48" throttle cable.

Chromed Steel Throttle Assembly

The first spring loaded pedals in the industry! These chromed steel throttle assemblies are spring loaded like the OE design, and feature a removable, splined lower arm for versatile mounting to the right or left of the bracket mount. Matching chromed steel brake pedal pad mounts with a 1/2"-20 stud built into the back of it. Available in standard or extra large pedal sizes. A matching dimmer switch pad also available. Pedal floor spacers are recommended when installing on vehicles with thick carpet or carpet padding.
