CRD3373S

## USA 1967-92 Reproduction Radiator

Reproduction radiators install exactly like original. Each radiator is equipped with a new tank and core. Not rebuilt! Features original style mounting brackets attached and installs as original to the radiator support. All radiators feature a 6-month limited warranty.

**Important:** Fan shrouds are not interchangeable between air conditioned models and non-air conditioned models. AT = Automatic Transmission, MT = Manual Transmission.

**Note:** These are all-metal replacements. \*Radiator has 2-3/4" wide LH side mount and 3-1/2" wide RH side mount. \*\*Radiator has 2-3/4" wide side mounts. †Radiator has 3-1/2" wide side mounts. Shipped overseas. **831**

## USA 1967-69 Aluminum Radiator

Replacement aluminum radiator for 1967-69 Firebird models designed to meet the cooling needs of high-performance small and big block engines. It will bolt-in without modifying your radiator support or support top panel, offers better heat transfer, and is considerably lighter than standard replacement radiators. This is a 2 row core with 1" rows unlike standard 3/8" radiators. Will cool approximately 30% more than a standard 3 row core. Made in USA.

**Important:** Factory fan shroud will need modification. **Note:** Shipped overseas. **831**

## 1967-02 Aluminum Radiator

Improve the cooling capacity of your engine with Cold-Case performance radiators for 1967-02 Firebird models. Feature an all aluminum construction that is good at dissipating heat and saving energy, with 2 oversized cooling rows, and polished original style stamped tanks. All Cold-Case radiators are 100% TIG welded, pressure tested, and includes OE style fittings for both automatic and manual applications. All radiators manufactured by Cold Case are guaranteed to be free from material and workmanship defects for the life of your installation.

**Note:** Shipped overseas. **831**

## 1967-92 Performance Aluminum Radiator

MISHIMOTO

Mishimoto performance radiators for 1967-92 models offer 100% aluminum construction which provides greater heat and pressure tolerance, better heat dissipation, increased durability, improved cooling efficiency, and improved structural rigidity. All radiators feature a 2 or 3 row brazed aluminum core with an internal transmission cooler to provide optimal fluid temperatures for automatic transmissions. Each radiator includes a Mishimoto radiator cap, magnetic drain plug, and is backed by a manufacturer's lifetime warranty.

## 1967-99 Polished Aluminum Radiator

Champion

These polished high-performance radiators are manufactured from TIG welded aircraft grade aluminum with brazed aluminum cores and billet filler necks. Each radiator offers high capacity cooling with louvered fins and 3/8" spacing between core tubes. Designed for direct fit installation. Radiator cap is included.

**Important:** All radiators have built in automatic transmission coolers and can be used in both AT and MT applications. Core size dimensions listed below.

**Note:** Shipped oversize.

## 1967-99 Aluminum LS Radiator

Northern

These aluminum radiators are designed as a direct fit for 1967-69 models with LS engines. Northern aluminum radiators are lighter than copper/brass radiators with up to 75% more cooling capacity. Features thick hose connectors, reinforced die-stamped tanks, a machined filler neck and all welded construction. Northern fans and fan shrouds are available separately.

ACC

## 1967-92 Polished Aluminum Radiator

All aluminum racing radiator. Constructed of 100% aluminum, using no epoxy for trouble-free service, this beautiful radiator is just what your high-performance Firebird needs. Aluminum radiators have shown to be 15% more efficient than factory copper brass type radiators. These beautifully polished radiators fit in the factory mounting location with predrilled brackets for easy installation. The factory fan shroud can be reused without modifications while the inlet and outlet are in the stock locations so the factory style radiator hoses can be used. As with most radiators these are available with a built-in transmission cooler with the correct dimensions to use the factory transmission lines.

**Note:** Shipped oversize.

## "Liquid Chill" Engine Coolant and Additive

Mishimoto's Liquid Chill is a universal, synthetic coolant that will provide premium cooling and protection for your vehicle. Liquid Chill protects from boil over to 265 degrees F and from freezing down to -26 degrees F. Inhibits corrosion, and reduces operating temps. Made with propylene glycol base and unique poly organic additives to allow for extended life of 2+ years or 250,000 miles before needing service in gasoline applications. One gallon jugs are available in full strength formula or 50/50 blend. For up to 30 degrees F cooler over just coolant alone, the universal Liquid Chill additive is available in 4 oz. bottles.

MM13065	full strength coolant	73.99 ea
MM13066	50/50 mix coolant	47.99 ea
MM13067	additive	17.99 ea

## J-B Weld Cold Weld

J-B Weld is a great alternative to welding, soldering and brazing. This two part system is mixed at a ratio of 1:1; it forms a permanent bond and can be shaped, tapped, filed, sanded, painted and drilled after curing. Cold weld will bond to most clean and dry surfaces and sets in 1-2 hours and will fully cure in 16-24 hours. Waterproof, petroleum, chemical, and acid resistant when fully cured. Non-toxic and temperature resistant up to 600 degrees F. Cure color is dark gray. Made in USA.

JB8265	2 x 1 oz. tubes	9.99 ea
JB8280	2 x 5 oz. tubes	15.99 ea

## Super Coolant

Purple Ice is a high-performance, synthetic, radiator coolant additive. It reduces engine heat by reducing the surface tension of the radiator fluids for improved heat transfer. Purple Ice fosters optimum coolant flow by helping to prevent formation of scale deposits in the radiator. Purple Ice is recommended for any water/glycol pressurized cooling system, including those using the traditional green silicate based glycols or the newer OAT or HOAT based glycols.

RP01600	12 oz. bottle	11.99 ea
RP12600	case of 12 - 12 oz. bottles	129.99 ea

## Coolant System Protector

Impurities in well water can cause rust and corrosion inside the radiator, water pump, and cylinder heads. Over time, this can lead to a loss of cooling efficiency. Joe Gibbs Driven Coolant System Protector stops the adverse effect of hard water to help prevent cooling system damage.

## 1967-69 OE Style Radiator Cap Hollow Rivet

Authentic reproduction of the original radiator cap designed for the enthusiast who wants total originality in a reproduction cap. Features the correct cap rating along with all the correct markings as original. Long discontinued, the current GM replacement and other reproduction caps do not accurately represent the original cap. One of the features that sets OER's reproduction cap apart is the correct divot in the brass rivet in the center of the cap, just like the original. OER's reproduction is an exact replica of the original featuring correct markings as well as an accurate cosmetic appearance of the rivet in the center of the cap.

# Cooling System Hoses

## Silicone Engine Coolant Plumbing Set

Get the durability of silicone coolant hoses for your custom engine install with these basic universal sets. Each set contains a 90 degree, a 45 degree angled, and a straight 1-1/2" reinforced black silicone hose along with a 1-1/2" 45 degree mandrel bent and one straight aluminum steel tube each featuring beaded ends for a positive seal. Individual components also available for building your own system or adding onto the radiator hose set here.

Radiator Hose Set	
Z1051	1-1/2" silicone hose set ..... \$1.99 set

### Individual Components

Aluminized Steel Coolant Tubes	
Z1000	1-1/4" x 4' x 6' 90° bend ..... 39.99 ea
Z1001	1-1/2" x 4' x 6' 90° bend ..... 39.99 ea
Z1002	1-3/4" x 4' x 6' 90° bend ..... 39.99 ea
Z1003	1-1/4" x 4' x 6' 75° bend ..... 39.99 ea
Z1004	1-1/2" x 4' x 6' 75° bend ..... 39.99 ea

Reinforced Black Silicone Hoses	
Z1031	1-1/4" x 5' x 5' 90° bend ..... 29.99 ea
Z1032	1-1/2" x 5' x 5' 90° bend ..... 29.99 ea
Z1033	1-3/4" x 5' x 5' 90° bend ..... 29.99 ea
Z1028	1-1/4" x 4' x 4' 45° bend ..... 29.99 ea
Z1029	1-1/2" x 4' x 4' 45° bend ..... 29.99 ea
Z1030	1-3/4" x 4' x 4' 45° bend ..... 29.99 ea
Z1025	1-1/4" x 6' straight hose 19.99 ea
Z1026	1-1/2" x 6' straight hose 19.99 ea
Z1027	1-3/4" x 6' straight hose 24.99 ea

Step Up/Down Hose Connectors	
Z1035	1-1/4" to 1-1/2" x 8" ..... 29.99 ea
Z1036	1-1/2" to 1-3/4" x 8" ..... 29.99 ea

## Flexible Stainless Steel Radiator Hose Set

Rated for high temperatures and high pressure. Set includes: 1 length of 1-3/4" diameter stainless steel tubing, 2 rubber sleeves, 4 reducer inserts, 4 stainless steel hose clamps, and 2 chrome or polished aluminum end covers. Easily cuts to custom lengths. Choose from chrome or polished aluminum ends.

**Notes:** 48" set has double quantity of end caps, sleeves, reducers, and clamps.

Polished Ends	
S7301	12" ..... 44.99 set
S7304	24" ..... 57.99 set
S7307	36" ..... 71.99 set
S7310	48" ..... 91.99 set

Chrome Ends	
S7302	12" ..... 47.99 set
S7305	24" ..... 61.99 set
S7308	36" ..... 75.99 set
S7311	48" ..... 104.99 set

## Flexible Stainless Heater Hose Set

This is an ideal replacement for your worn or rotted heater hoses. Non-corrosive construction conforms to tight bends and holds shape indefinitely. Rated for high temperatures and high pressure, this ultimate set comes complete with 2 lengths of 44" (3/4" diameter) stainless steel tubing, 4 rubber sleeves, 4 reducer inserts, 8 stainless steel hose clamps, and 4 chrome or polished aluminum end covers. Easily cuts to custom lengths, this high-quality set will enhance any engine compartment.

S7313	polished ends ..... 80.99 set
S7314	chrome ends ..... 82.99 set

## 1967-73 Heater Hose Set

Reproduction of the correct 3/4" and 5/8" hoses which will completely replace the essential hoses required for your heater assembly to work properly.

409042 1980-81 350R, 350N	10.99 ea
409042 1981 260F	10.99 ea

## Hose Adapter Set

AutoMeter coolant hose adapter sets for mounting gauge senders or probes directly into your heater or radiator hose. Ideal for vehicles with limited access to water passage ports on the engine. They are manufactured from solid brass or aluminum with male hose barb ends for an easy and secure installation.

AM2280 5/8" brass	43.99 set
AM2281 3/4" brass	45.99 set
AM2282 1-1/4" aluminum	58.99 set
AM2283 1-1/2" aluminum	60.99 set

## Hose Clamp Pliers

Removes and installs spring tension hose clamps used on heater and radiator hoses. Adjustable tips screw in and out to fit clamps of all sizes. Ratcheting lock mechanism holds the clamp in an open position for easy removal and installation. Offset jaws allow access in hard to reach areas.

Y17100 hose clamp pliers	30.99 ea
--------------------------	----------

## Heat Shrink Hose Clamp

Heat shrink hose clamps for Firebird models. This new technology advanced heat sensitive thermoplastic clamps that seal better in all conditions and temperature extremes. Easy-to-install with an ordinary heat gun.

## Side Screw T-Bolt Hose Clamp

Replacement stainless steel heavy-duty T-bolt hose clamps. High-quality clamp with extra strength construction. 3/4" band and bolt housing.

332752 #28, range: 1-3/4"-2"	4.99 ea
332753 #32, range: 1-7/8"-2-1/16"	4.99 ea
332755 #40, range: 2-1/8"-2-7/16"	5.99 ea

# Cooling Fans

**OE Style Fan Blade**

Service replacement fan blade for various 1967-68 Firebird models. This fan blade is manufactured in stamped steel to the original configuration for a bolt-on replacement. This 17" diameter blade features 5 blades and designed to be used in conjunction with a fan clutch on a short water pump. Replaces OE #3789562.

*Note: For a fan clutch for this fan blade with the 3" bolt pattern use 916141.*

**Non-Date Coded Fan - 5 Blade**

51800 1967-68..... 116.99 ea

**Rigid Race Fan**

Derale high-performance replacement fans feature durable construction with excellent balance and are rated for up to 8000 RPM. Manufactured with a universal heavy-duty steel hub with a 5/8" pilot hole. Available with riveted steel or aluminum blades.

*Note: Not for use with a fan clutch.*

**Steel Blade Standard Rotation**

**Stainless Steel Flex Fan**

Flex-a-lite fan blades are designed to flex or flatten out as the RPM's climb, helping to reduce engine drag for better performance and improved fuel economy. Fan features a premium, high tech silver coating that won't degrade or lose its luster in the harsh environment of an engine compartment. Available in standard or reverse rotation along with four different diameters and six or seven blades.

*Important: Must be used with a Flex-a-lite spacer or warranty will be voided. Fans feature 5/8" pilot hole with a 3/4" or 2-1/2" stud bolt pattern.*

MISHIMOTO

## 1967-69 Fan Shroud Assembly

Keep your 1967-69 Firebird cool with the Mishimoto performance fan shroud assembly! This unique electric fan shroud setup completely eliminates the stock, failure prone mechanical fan. The shroud mounts exclusively to Mishimoto's performance radiators and include a single 16" high flow electric fan that produces over 1300 cfm of airflow.

Note: Shipped overize.  
153554 1967-69 single 16" fan ..... 311.99 ea

Flex-a-lite

## Sycloane Electric Fan

The amazing Flex-a-lite Sycloane electric fan is the most efficient S-Blade fan blade on the market! This quiet fan mounts to the core and can be used to push or pull air through the radiator. The higher torque (17 amp) motor produces 2500 cfm of air flow, making these fans strong enough to replace your belt driven fan and fan clutch to gain more horsepower and torque. The sweep style blades squeeze out the maximum air flow possible: 16-5/8" x 15-3/4" x 4" mount. Universal mounting brackets are included.

FL398 16" fan ..... 172.99 ea

## Black Magic S-Blade

If your vehicle is still running the factory engine driven fan, you're losing vital horsepower and not even getting the full cooling effect you should! By replacing your engine driven fan with an efficient electric unit, you can reduce unneeded drag on your engine to free up horsepower and improve your fuel economy. An engine driven fan can cost up to 17 HP to operate! This universal fit Flex-a-lite electric fan features computer engineered blades that are extremely quiet and efficient, and moves 3000 cfm of air to provide consistent cooling, regardless of engine RPM. Ring fans like this provide better blade support for impact resistance. This electric fan fits vehicles with 16" or wider radiator cores, and requires a mounting surface of 18" x 16" x 4-1/4" for an easy, bolt-in installation. Universal mounting brackets are included.

FL160 ..... 334.99 ea

SPAL

## Fan Switch

SPAL replacement temperature fan switch. Manufactured from stainless steel, hermetically sealed and feature a 3/8" NPT. Operating switch range 35 degrees F to 480 degrees F and max current/voltage 3 amp, 32 VDC and grounded case only.

PROFORM

67010

## High-Performance Electric Fan

These reversible fans help prevent overheating in stop-and-go traffic, designed to fit the most popular models, increases gas mileage, improves engine performance, frees the water pump pulley for more RPM. Installs in minutes with simple hand tools. 10", 12", 14", and 16" fans mount in front or back of radiator. Ultra thin design with or without a red Bow Tie on the top of the shroud. Reinforced glass filled polypropylene blade and plastic housing for minimized weight. Nylon tie mounting set included. Nominal fan size is based upon approximate overall assembly diameter.

## Champion Series Low Profile Performance Fan

These Champion Series performance fans are the lowest profile of high and medium performance fans on the market. Quiet, reversible S-blade design gives you the choice of using it as a puller or a pusher fan. Manufactured from glass filled nylon. Includes: powerful sealed motor, four 90 degree mounting feet, mating locking pigtail, and rubber spacers. Recommended wire harness, temperature switch, and adjustable thermostat sold separately.

# Electric Fan Components

## 16" Fan Mounting Gasket

SPAL fan gasket is a specifically designed rubber gasket for use exclusively with the 16" fan line. The gasket provides an additional 1/4" clearance from the cooler core and is ideal for mounting our pusher style fans.

Note: Will not fit SP2036 and SP2071.

SP2070 16" ..... 16.99 ea

## Cooling System Zinc Anode

Used in heavy-duty and marine applications to protect the cooling systems and its many components from damage due to electrolysis or coolant additive failure/breakdown. The introduction of the zinc anode will protect your cooling system from galvanic action as it "eats" the zinc rather than your cooling system. To be installed in the radiator as a replacement for the drain petcock in radiators that are equipped with a 1/4" NPT hole or any 1/4" NPT hole that is available in the cooling system.

FL32060 ..... 14.99 ea

MF109

## Fan Temperature Sending Unit

The temperature sending unit screws into the side of the cylinder head or on the intake manifold to operate the Champion or Challenger Series fans.

MF108 185° for carbureted engines..... 24.99 ea

MF109 195° for fuel injection engines 24.99 ea

## Temperature Sending Wire Cloth Insulator

This 3/16" i.d., 5/16" o.d. replacement cloth insulator, keeps your temperature sender harness well insulated from engine heat. Sold per foot. 2-3 feet required per vehicle.

K0163 ..... 2.49 ft

## Rubber Fan Spacers

Rubber spacers are used with Champion Series electric fans for proper spacing from the radiator.

MF112 ..... 5.99 set

## Universal Fan Mounting Bracket

SPAL universal fan mounting bracket. It can be used with most aftermarket and OEM radiator types. It is adjustable and features a black powder coated finish. Includes 1 metal strap bracket and 1 plastic foot. Requires 4 for proper installation.

SP2072 ..... 2.99 ea

## Universal Fan Mounting Rod

SPAL universal mounting rod brackets attach directly to the fan shroud. Manufactured from lightweight steel and plastic. Includes mounting clip. 4 required for proper installation.

SP2071 ..... 5.99 ea

## Plastic Mounting Bracket

SPAL plastic fan mounting foot bracket. Four mounting brackets are required to complete proper installation. Sold individually. Available in either flat or raised design.

SP2073 flat ..... 99 ea

SP2074 raised..... 99 ea

SP2074

## Billet Aluminum Fan Brackets

Use this premium billet aluminum bracket set to mount your 14" or 16" Champion or Challenger Series fan. The set features 4 adjustable side angle brackets that attach to the side flange of the radiator. Mounting hardware is included.

MF105 billet aluminum fan brackets... 55.99 set

## Universal Fan Bracket Strip Set

This bracket set is used to mount your Champion or Challenger Series fan. Install the fan's 90 degree mounting feet (included with fan) to these four 7-1/4" long strips for solid support. Mounting hardware is included.

MF104 universal fan bracket strips..... 23.99 set

19842

## 1983-97 Coolant Fan Relay

A relay is typically used to control a component that draws high amperage. This is a coolant fan relay for 1983-97 Firebird models. If your coolant fan is not operating, check your relay, it may be burnt out.

19842 1983 307 -7..... 9.99 ea

## Adjustable Fan Temperature Sensor

Turn your electric fan on at whatever your desired temperature is with this adjustable temperature sensor. Sensor adjusts from 180-240 degrees F and helps prevent overheating in performance vehicles when driving at low speeds or when idling for long periods.

346932 180-240 degrees F..... 109.99 ea

## Fan Harness Set

SPAL wiring harness sets are a must-have when installing an electric fan. Designed to safely integrate with OEM wiring harness. Feature a waterproof 40 amp relay, stainless steel switch with optional switched override capability along with printed wires which aid in installation. Thermo switch, fuse holder, connectors 1/2" adapter, and instructions are included.

SP2068 185 degrees harness..... 118.99 set

SP2069 195 degrees harness..... 125.99 set

SP2068

## Dual Fan Wire Harness with Relay

When installing an electric engine cooling fan, a wire harness with a relay is required. This dual fan wire harness with relay will allow safe control of two fans while using either an on-off switch or an adjustable temperature sensor. Switch and sensor not included.

40080 wire harness with relay..... 54.99 ea

## Delayed Cooling System Shutdown

Timed cooling system shutdown features adjustable relays that keep power to the cooling fan and electric water pump (if equipped) when the key is shut off. This reduces the block temperature as much as possible without the risk of killing the battery. This is a timed circuit and does not use a thermostat or other fan control to operate.

TF900632 ..... 159.99 ea

# Electric Fan Relays

## Cooling Fan Shutdown

This cooling fan shutdown set shuts down your electric cooling fan above 50-60 MPH to improve engine cooling by preventing the electric fan from fighting airflow through the radiator at highway speeds. The unit is adjustable and may be overridden by using the supplied dash mounted toggle switch. This set is designed to be used with the supplied signal generator which must be installed into the speedometer cable.

TF900627 ..... 204.99 set

**PAINTLESS**

## Dual Fan — Dual Activation Fan Relay Set

The dual activation cooling fan relay set by Paintless Performance is exactly what you need to run dual fans off of a thermostatic switch and when your AC is on. Installation takes just a few minutes and your cooling fan will come on when the engine reaches the preset temperature of the thermostatic switch or when the AC is turned on. Set includes: three-40 amp relays with mounting bases, one fuse holder with 70 amp fuse, pre-terminated and printed wire harness, and your choice of thermostatic switch on/off temperatures (three choice: 3/8" - 18 NPT), 1/2" NPT to 3/8" NPT adapter, mounting hardware and insulated terminals and detailed instructions.

30118 205° on/190° off ..... 149.99 set

**PAINTLESS**

## Electric Fan Relay

Designed as inexpensive protection for your electric fan. Provides constant voltage, protects from voltage and amperage spikes. Choose from the regular fan relay or the weatherproof relay which are for the harsh weather conditions, these relays provide complete protection from the elements and ensure reliable and dependable performance. These sets utilize heavy-duty waterproof relays, weatherproof circuit breaker covers and extreme condition weatherproof shrinkable crimp-on terminals.

30101 standard ..... 25.99 set

30130 weatherproof ..... 38.99 set

30128 weatherproof w/195°/185° switch 66.99 set

30129 weatherproof w/185°/175° switch 55.99 set

## Electric Fan Relay with Thermostat

The Fan-Thom II includes a threaded thermostat that screws into the engine block or manifold for a professional installation. Thermostat thread size: 3/8" - 18 NPT fitting.

### Electric Fan Relay

30102 195° on/185° off ..... 46.99 set

30111 185° on/175° off ..... 28.99 ea

**PAINTLESS**

## Adjustable Electric Fan Thermostat Set

This set is designed to allow a wide range of temperature adjustments for your electric fan. The adjustment knob may be used to set a precise temperature desired for fan activation. The mounting bracket is made of brushed stainless steel for good looks and durability. The complete set includes the thermostat with bracket, a 30 amp relay, a 30 amp circuit breaker for overall protection, wiring, terminals, and mounting hardware.

### Specs on Adjustable Fan Thermostat:

Temp range - 32 degrees F to 248 degrees F

Accuracy: +/- 7.3 degrees F

Differential: 7.3 degrees F +/- 3.6 degrees F

**Important:** Temperature refers to the temp of the capillary tube, not the coolant temp.

30104 standard ..... 86.99 set

30112 without relay ..... 54.99 set

## "Ice Box" Cooling Fan Control

Available as a dual fan-2-speed fan control unit. The sensor is simply tightened under an intake or water pump bolt. It can then be adjusted to your exact preference for on and off temperature. It is equipped with an AC Request system to turn the cooling fan on whenever the AC Compressor engages (this feature does not have to be used). The dual fan control can operate two fans at different temperatures or a single 2-speed fan at different temperatures. Each unit has a fully adjustable operating range of 140-230 degrees F.

**Note:** With Walker 2-speed fans.

TF900635 dual control ..... 160.99 set

## Electric Fan Controller

Includes a 70 amp relay and will work with your existing water temperature gauge, operating from the temperature sending unit already installed. A dedicated sending unit can be installed for applications without a water temperature gauge. Operating range of 150-250 degrees F and features fully programmable "fan on" and "fan off" temperature functions to suit any application. This also gives you the capability to leave the electric fan operating after the engine has been shut down for a user adjustable period of time. High-quality LED readout displays current temperature readings.

**Important:** Must use second relay, either part DD2701 30 amp relay or DD2702 70 amp relay for dual fan or 2-speed fan operation.

**MISHIMOTO**

## Fan Controller Set

The Mishimoto fan controller set is applicable to any 12V electric fan and includes all necessary components for installation. Features adjustable activation from 150 degrees F to 240 degrees F and deactivates once temperatures are reduced by 10 degrees F. This controller includes a built-in AC override feature and is designed for use with 1-2 electric fans drawing a combined 25 amps or less.

153522 probe style ..... 75.99 set

# Goodyear Belts

## How Long Has it Been Since You Changed Your Belts? ⚠️

Make sure your belts are in top condition before starting off on your next road trip. Belts are so inexpensive, yet they are an often overlooked component of a restoration or daily driver, that until something goes wrong, Don't risk your life and longevity of your engine for the sake of a few bucks. Replace your weathered belts before you get left stranded due to overheating, dead battery, etc. Better yet, buy a new set to install and keep a spare, just in case you should have a broken belt while on the road with your classic vehicle.

# Water Pumps

55145

## 1967-02 New OE Style Water Pump

With these new water pumps, the tedious search for a correct remanufactured pump is over. Each water pump is made to OE specifications with quality bearings, seals, and brand new precision machined housings.

## 1967-92 High Flow Water Pump

For over 20 years, Stewart Components has focused on the development and production of high-performance water pumps, resulting in innovations like special high strength castings, larger flow passages, more efficient impellers, and stronger bearings. These pumps deliver up to 180 gpm (gallons per minute) of coolant flow at 8000 RPM, yet consume just 2.26 horsepower at 4000 RPM! Each Stewart pump is hand assembled and tested at 10,000 RPM. These Stage 1 pumps use brand new, original equipment iron castings are internally engineered for performance and reliability. This water pump features a 3/4" heavy-duty bearing and a 5/8" shaft.

## 1969-79 Aluminum Water Pump

Edelbrock Victor Series water pumps provide maximum cooling for the street and race track. They are ideal for preventing overheating in "hot" street machines. Using state-of-the-art technology, Edelbrock has designed the "super cooling" water pumps to provide maximum flow, maximum pressure and equal distribution to both sides of the block within 1%. These high-performance pumps flow in only one direction for optimum efficiency. The casting's computer designed internal passages and precision powdered metal impeller produce the maximum flow rate possible. Includes backing plate and gaskets.

**Important:** This pump is designed for the 1969-79 Pontiac 389-455. It features a 5/8" pilot shaft with 3/4" ball bearing and 11 bolt housing with back plate. Dimension from the block surface to hub face is 4-1/2".

EE8856	1969-79	389-455.....	374.99 ea
--------	---------	--------------	-----------

## 1969-81 High Volume Water Pump

Increase Coolant Flow up to 30%! This high-performance, high volume water pump features balanced distribution and improved efficiency, close tolerance impellers that increase coolant flow up to 30% over stock pumps. This increases the pressure within the block to help prevent hot spots and steam pockets. Pumps are made with high-quality aluminum castings, heavy-duty bearings and large diameter shafts making these pumps the top of the line in performance water pumps. Direct factory replacement with eleven bolt mounting and 4-1/2" hub height.

**Note:** Not for short water pump applications.

## 1977-87 Performance Water Pump

These "super cooling" pumps are computer designed to deliver more flow at a higher velocity. They're the ideal choice to prevent overheating in any performance vehicle. Precision cast metal impellers have extra large vanes for the maximum flow rate possible, ensuring adequate pressure and volume even at lower engine speeds. They feature a 5/8" pilot shaft. Choose from three popular finishes.

## Chevrolet Electric Water Pump

Eliminates unnecessary weight and impeller drag experienced at high RPM, pumps up to 35+ gallons of water per minute, and delivers the cooling that can make the difference between a win and second place! Durable, but lightweight die-cast aluminum, epoxy powder coated for corrosion resistance in the color of your choice. Race or street. Draws 6 amps. Mounting hardware and fitting for water pump is included.

## The Original Electric Water Pump Drive Set

The electric water pump drive set was designed to alleviate the power drag produced by conventional pulley drive units. A heavy-duty electric motor, turning at approximately 1500 RPM, is more than adequate to fulfill cooling needs without draining precious horsepower from the engine. This unit can be turned on and off manually, during a run, or before and afterwards, even with engine off. The set is complete with motor mounting bracket, extra long bolts, spline pulleys, drive belt, wiring, and switch. You supply the fan of your choice.

## Electric Water Pump Relay

These relays provide maximum battery voltage to maximize cooling efficiency and to protect the main electrical system from damaging amperage overloads. Choose from a regular water pump relay or a weatherproof water pump relay which is perfect for the harsh weather conditions, this relay set provides complete protection from the elements and ensure reliable and dependable performance. These sets utilize heavy-duty waterproof relays, weatherproof circuit breaker covers and extreme condition weatherproof shrinkable crimp-on terminals.

## Aluminum Swivel Water Neck

Swivel water necks rotate 360 degrees and are great for applications where the upper radiator hose is routed different than stock applications. These aluminum water necks are available polished or chrome-plated. Available in 15, 45, or 90 degree angles. They will fit most 1967-92 Pontiac or Chevrolet engines. Includes o-ring and mounting bolts.

<b>Polished Aluminum</b>		
6015	15 degree	26.99 ea
6003	45 degree	26.99 ea

JT10170

JT10170 - underside

## 1967-02 Thermostat

Reduced engine temperatures add life to your engine and provide a denser air/fuel mixture which helps produce more horsepower. Consistent control of engine temperature allows and engine to operate at its peak efficiency no matter what the driving conditions. The factory 195 degree thermostat simply cycles open and closed, this reduces cooling efficiency in any engine. With the JET 180 degree thermostat you get consistent engine cooling and a precise metering of water throughout the engine. Constructed of stainless steel.

HYPERTECH

HT1014

## 1982-02 Low Temp Thermostat

The Hypertech PowerStat™ low temperature thermostat can improve performance by increasing the mass flow rate volume of intake air, and reducing the engine's tendency to detonate. Used in an engine controlled by a computer to ensure consistent performance.

## High Flow Thermostat

These high flow thermostats are engineered to warm the engine to a proper operating temperature without making it run hot enough to lose power. The "balance sleeve" design equalizes the pressures exerted on the thermostat, which counters the tendency of high volume water pumps to hold a thermostat closed. Fits 1967-92 Pontiac or Chevrolet engines.

## Glass Thermostat Assembly

This unique thermostat assembly allows you to see your coolant when the thermostat opens and how far it opens on a unique gradient scale without ever removing the radiator cap! Made from billet aluminum and the same specialized heavy borosilicate glass used in steam boilers. Use with any Chevrolet water outlet. Available for Oldsmobile 330-455 V8 engines as well as 1957 and newer Pontiac V8 engines except for tri-power models. Made in USA.

**Important:** Index pointer and gradient scale only included in sets with thermostat. Bolts and water neck not included.

MOROSO

## Water Outlet Restrictors

If coolant travels too fast, it doesn't absorb enough heat inside the engine to properly cool down as it passes through the radiator. That's why it is still important to restrict coolant flow in applications where a thermostat isn't desired. These restrictors come in a set of three with a 5/8", 3/4", and 1" hole to allow adjustment for optimum cooling. Each 2-1/8" plate is made from anodized aluminum and fits under the water outlet in place of the thermostat.

## Keep Your Firebird COOL

with Vintage Air Gen-IV "Fly-by-Wire"  
"No Cable/Vacuum Hose" AC Systems

The Gen-IV systems feature all electronic controls requiring no cables, capillary tube or vacuum connections. They are truly "fly-by-wire" systems that use separate heating and cooling coils for superior performance. The internal air control doors are servo operated to provide infinite dash, floor and defrost blending.

R964468

### Sets Include:

- Evaporator/Heater/Defroster Assembly
- Electronic Heater Control Conversion
- All Ducts and Vents
- Super Flow Condenser
- Sanden Compressor
- Compressor Mounting Brackets
- All Hoses, Lines, Brackets, & Hardware
- Dryer
- Stamped Steel Fresh Air Cover
- Complete Set of Instructions

## Sure Fit Climate Control Set

Make your hot ride a lot cooler with modern climate control! This comprehensive set features fully electronic "fly-by-wire" controls, high capacity plate and fin cooling coil, brass parallel flow heater coil, and an evaporator assembly that mounts behind the stock dash. If you own a 1967-81 Firebird, you can replace or install a behind the dash air conditioning system that will have an original appearance as well as a fully functioning heater and defroster. Feel the comfort of cool air without sacrificing the original look of your dash! Evaporator sets, hose sets, and condenser sets with dryer are available for applications where AC compressors and bracket sets are not needed.

**Important:** May require additional engine pulleys not included with sets. V-belts and refrigerant not included. 1967-68 AC center dash panel is not included.

**Note:** Special order, must be prepaid.

## 1967-81 Aluminum AC Compressor

This 10 cylinder "bolt-in" direct replacement for the GM Frigidaire/Harrison A6 compressor is specifically designed to fit the A6 mounting brackets and AC hose assemblies. Smoother, quieter operation, less vibration and engine drag, increased fuel mileage, and cooling system performance. 52% lighter than the original A6. Designed to accept both superheat and high pressure safety switches. This compressor is supplied with a single groove clutch and has a 110cc displacement. Pre-oiled and compatible with R12 or R134A. Includes hardware and instructions.

AP2201 1967-81 A6 w/single pulley 389.99 ea

### ACDelco

## 1993-02 AC Compressor Hose

Genuine ACDelco air compressor hose connects to the rear of the air conditioning compressor.
