Delco Delgo Case

Textured Case

## Reproduction Delco® Energizer Battery

Authentic reproduction Delco® Energizer batteries give you true "tar-top" appearance while eliminating the sticky hot weather disadvantages. Each battery is correct in every detail including acid resistant, push-in type caps featuring Delco full or half circles and are finished in the proper trim. Also includes the assembly line battery decal featuring a white label with red text attached to the battery posts. All batteries feature 780 cold cranking amps.

**CAUTION:** Maintenance-free batteries are Gel-Cell type batteries and do not require adding electrolyte (battery acid). Don't forget to check the battery tray for rust or corrosion, replacement now will ensure cleaner battery installation.

**Note:** Batteries carry a 48-Month manufacturer's warranty. Shipped overweight.

## RedTop Battery

The OPTIMA RedTop high-performance AGM battery is the ultimate high-CCA starting battery designed to deliver the strongest 5 second ignition power for a reliable start up every time. The RedTop outperforms and outlasts traditional batteries in demanding cranking/starting applications. With ultimate power delivery and durability, the RedTop is ideal for luxury cars, hot rods, off-road vehicles and other applications that require a leakproof starting battery.

## YellowTop Battery

With premium cranking power, low internal resistance, and unparalleled cycling capability (rechargeability), the YellowTop AGM battery is a true dual purpose automotive battery. It handles deep power drains and recharges to full capacity so it can power plenty of electronics and still start the engine time after time. Perfect for vehicles with multiple electronic systems or high demand audio.

# Battery Cables

## 1967-79 Spring Ring Battery Cable

If you want to restore your Firebird to exact factory specifications, these OEM type cables are what you need! Each 1967-69 cable is reproduced exactly as original using the same OEM type spring terminals and connectors. The terminal end includes the word "Spring Ring" in the correct type style and size. Each cable is produced for authenticity and includes the original wire markings. Positive and negative cables are sold separately, due to the variety of cables which were used for different applications. Each reproduction includes the correct length cable and spring ring terminal end. 1970-79 side terminal cables feature the same correct details with original style threaded terminal ends.  
**Note:** \*Side mount.

## Universal Battery Cables

Underhood or trunk mount battery cable sets. Each cable is 1 gauge and features lead die-cast top post terminals with a steel ring insert. This feature prevents cracking or breaking the terminal due to tightening. Each version comes in either top post or side post sets. Trunk mount sets measure 18" while underhood sets measure 6" in length. Negative cables feature pre-assembled 36" long 6 gauge secondary lead. Each set includes: crimping tool, extra lugs and shrink tubing.

T70782 side post ..... 59.99 ea

## Battery Carrying Strap

This handy tool is a must for your tool box. Allows you to easily carry bulky automotive batteries without getting acid on your clothes and hands. Each end is marked and sized to fit the positive or negative terminals allowing a secure, tight fit onto the post. Battery acid won't harm the strap! For top post batteries only.

X205 carries top mount ..... 7.99 ea

BM2427

BM2428

## Battery Mat — Acid Neutralizer

The Battery Mat offers protection against undetected battery acid leaks. Once installed, the mat will trap and neutralize any battery acid that leaks from the terminals or top side of the battery, preventing corrosion and expensive damage. Each mat is made of super absorbent polypropylene needle punch felt, with one side heat treated to give it additional strength. The mat is inserted under the battery between the battery and the battery tray. It can easily be installed at any time either when replacing the battery tray or battery.

BM2427 yellow mat ..... 6.99 ea

BM2428 black mat ..... 7.99 ea

## Battery Lifesaver — Corrosion Remover

Lead acid batteries will discharge, deteriorate and die without regular use or recharging because of corrosion and sulfates on the plates. This module, developed specifically for vehicles that are not driven on a regular basis to keep their battery fully charged, will actually recover lost battery capacity by removing plate corrosion, and in turn, extend battery life up to double or triple the normal life span!

BLS1 ..... 29.99 ea

## Acid-Neutralizing Battery Heat Barrier

Prolong battery life and protect your vehicle's battery tray, underhood and radiator support area with the world's only acid-neutralizing heat barrier mat. It reflects over 90% of radiant heat, traps and neutralizes battery acid, protects against corrosion, is recyclable, and is inexpensive and easy-to-install. Set consists of: one 8" x 40" acid absorbing/neutralizing felt and one adhesive backed 8" x 40" aluminumized thermal barrier to wrap around the battery, plus an 8" x 12" acid absorbing/neutralizing pad to put beneath the battery. Install one on your vehicle NOW, before it's too late.

TT1001 battery heat shield ..... 31.99 set

# Battery Accessories & Tools

## Battery Switch

These battery switches are easy-to-install on the negative battery post and disconnect the battery by simply loosening the knob a few turns. To reconnect just tighten the knob. The knob can be removed completely to deter theft. Rated at 500 amps surge and 125 continuous at 12 Volts. Available with a 15 amp fused bypass that maintains computer settings, radio, clock etc., while the battery is disconnected.

W20309 top post with fused bypass 13.99 ea  
W20308 top post w/o fused bypass... 11.99 ea

## Lifetime Memory Retention System

The Lifetime enables users of a Master Disconnect Switch to retain a small amount of power for memory circuits common in fuel injection computers, radio presets and clocks. The Lifetime is a memory circuit retainer that will automatically reset after the electrical load is significantly reduced or if the Master Disconnect Switch has been switched to the on position. Available for standard or remote battery disconnects.

500778 standard disconnect ..... 26.99 ea  
500837 remote disconnect ..... 34.99 ea

## Quick-Disconnect Battery Terminal

This brass, quick-disconnect battery terminal isolates the vehicle's battery, allowing the clock, radio etc., to remain functional when combined with a fused bypass. Designed for both round and square battery lugs.

W203507 ..... 9.99 ea

## Master Disconnect Battery Switch

Taylor's 2 post battery disconnect switch completely shuts off all of the current from the battery in the event of an accident or electrical short. The switch is rated at 180 amps continuous capacity and is especially useful when charging the battery. Includes vinyl on/off decal.

TP1032 180 amps ..... 38.99 ea

## Master Disconnect Position Ring

For disconnect switches to identify the correct position of the switch (ON or OFF). Eliminates the question of which direction is the safe one.

BC900705 ..... 4.99 ea

## Battery Disconnect Switch

Make sure your battery maintains the precious power you need by disconnecting the battery from the vehicle during storage. Your choice of an inexpensive standard duty cutout or a heavy-duty unit. Works on any 12 Volt system or vehicle. Splices into positive battery cable to provide a switch for turning power on or off.

W203047 standard duty ..... 26.99 ea  
T4988 heavy-duty ..... 96.99 ea

## Water Resistant Master Switch

This water resistant master switch is rated to 1000 amps continuous, 1000 amps surge at 12 Volts, and 500 amps surge at 24 Volts. 2-1/4" dia. x 2-1/2" deep and 1-1/4" deep behind panel. Features two 3/16" dia. mounting holes. Includes 2 keys and a water resistant cover.

**Master Switch**  
W20314 water resistant master switch 17.99 set  
**Individual Replacement Components**  
W203167 1 key ..... 2.99 ea  
W203127 water resistant cover ..... 2.99 ea

## Side Terminal Battery Wrench

Make life easier with this reverse able ratchet. Fits standard 5/16" side mount battery bolt.

W21020 5/16" ..... 6.99 ea

## Battery Terminal Spreader & Cleaner

Clean and spread battery cable terminals with this pliers type tool. Sharp teeth effectively clean corrosion from clamp. Squeeze handle to spread clamp.

X204 ..... 24.99 ea

## Battery Nut Pliers

Easily loosen and tighten nuts on battery terminal clamps. Handles are offset for working in cramped areas. Serrated jaws are designed for sure grip.

X203 ..... 19.99 ea

## Battery Cable Crimping Tool

No matter what the size of your battery cable job, this is the tool that will make quick work of it. By simply selecting the proper size to match your crimp and aligning the star with the battery lug in your vise, you will gain a professionally strong and conductive crimp every time!

500665 ..... 12.99 ea

## Battery Terminal Puller

This handy tool is used to remove battery terminal clamps without damage to the battery posts. By simply placing the jaws of the puller under the battery cable clamp, tighten the screw until the clamp is removed. Great for removing corroded battery terminals.

Y54000 professional level puller ..... 21.99 ea

X2173 - post and terminal tool

X206 - steel

X201 - plastic

## Battery Post Cleaning Tools

This handy little device will help keep your battery posts clean and free of corrosion. Won't corrode or soften in cleaning solutions. Includes external brush for cable clamps and an internal brush for battery terminal posts.

X201 high impact plastic ..... 4.99 ea  
X206 heavy-duty steel ..... 4.99 ea  
X2173 post and terminal tool ..... 9.99 ea

# Wiring Harnesses

## OE Style Reproduction Wiring Harnesses

Reproduced using the original General Motors schematics and feature the correct attachment connectors and wire in the correct gauge sizes and coloration (when available) to match your original and maintain authenticity.

### 1967-81 Front Lamp Harness

This OE Style reproduction front lamp harness is one of two front harnesses located in the engine compartment. It provides wiring for the main battery power lead, headlights, parking lights, side marker lights, horn relay, alternator, voltage regulator, temperature sensor, brake warning, and ammeter gauge. These harnesses are produced as closely as possible to original specifications including correct colored wire.

**Note:** \*Without discoloring into windshield wiper. The parking lamp socket assembly for the 1970-72 FB04358 is not part of the harness. The FB38931 1972-73 harness includes the parking lamp socket assembly.

### 1967-81 Engine Harness

Replacing your original wiring harness doesn't have to be a puzzle of wires! Classic makes it easy by supplying wiring harnesses which are ready-to-install and include the correct color wires and connectors making installation as easy as possible. The listings include exact reproduction of the original engine harnesses located in the engine compartment.

**Important:** CA28002 and CA28006 require CA28033 extension harness. CA31990 and CA31986 requires CA1750 extension harness.

**Note:** \*After 3-15-73. \*\*With torque converter clutch. \*Canada and export only. UI = Uninticed Ignition. HEI = High Energy Ignition.

# Wiring Harnesses

FB99028

## 1967-81 MT Under Dash Harness

Each OE style reproduction under dash wiring harness is manufactured specifically to your Firebird's specifications. This includes the model year with each and every option covered to ensure the harness is exactly what you need. Get exactly what you need without the guess work.

**Important:** These harnesses are designed for use with factory installed electrical options. Aftermarket gauges, tachometers, ignitions systems, air conditioning assemblies, radios, etc. may require additional or custom wiring.

### Models with Manual Transmission

**Important:** HRG = heater rear glass, PDL = power door locks, DCR = digital clock radio.

Note: †With Rally gauges in RH dash pod. ‡With LH tach and RH speedometer. \*Without seat belt ignition interlock. \*\*With seat belt warning. -Models before 3/24/1975. \*\*Models after 3/24/1975.

## 1967 Back-Up Switch Heat Shield

Heat shield for the back-up and neutral safety switch for 1967 models with a manual transmission.

14585 1967 heat shield... 11.99 ea

## Neutral Safety Switch Relocation Set

On the 1969-81 Firebird the neutral safety back-up switch was originally mounted to the steering column and controlled by a rod from the transmission instead of the floor shifter. Installation of headers and overdrive transmissions often leads to malfunctioning reverse lamps and even accidental starting of the engine with the transmission in gear. With these relocation sets the switch can be moved to the floor shifter, resolving these issues.

Important: \*Requires the use of a 1968 Firebird column switch. Switch not included. \*\*For correct operation shifter must be converted for overdrive use.

SW652 \* TH350/TH400... 64.99 set  
 SW653 \*\* all o.d. transmissions... 81.99 set

## 1969-72 Neutral Safety Switch Harness

Correct replacement safety switch harness for use on Firebird models. The harness runs from the dash to the clutch switch.

## Tremec T-56 All-In-One Harness

The All-In-One harness solution for the Tremec T-56 Magnum transmission comes equipped with all the connections pre-wired into one harness for a simple installation and ease of use. The small epoxy sealed controller is mounted to the VSS output using the existing bolt, and once the unit is powered up you will be able to connect via Bluetooth to your Apple or Android smartphone using (Bowler Transmissions) free APP. The APP will give you the ability to customize the input and output settings for each feature to ensure proper operation in your vehicle. This harness eliminates the need for any additional equipment to operate the reverse lockout or generate the correct speedometer signals coming from your Tremec T-56 Magnum.

# Universal Wiring Harnesses

## Universal Chassis Wiring Harnesses ⚠️

Starting from a blank slate is a daunting task, especially with wiring. Trying to keep your electrical systems running smoothly on a patchwork of old wiring can be a troubleshooting hassle and possibly even a fire hazard. Whether you are planning a series of electrical upgrades or simply need to replace aging, brittle wiring, build your electrical system on a fresh foundation with a quality universal harness. For basic builds, start with a simple kit with wiring provisions for all lamps, horn, fan, wiper, gauges, and all lamps. For more elaborate builds, choose from a selection of advanced wiring solutions. Need to integrate your aftermarket air conditioning? Need extra circuits for a multitude of electronic accessories? With Classic Industries®, there's no limit to what you can do with your wiring.

#### 24 Circuit Wiring Harness

Additional wires simply plug into labeled connectors in the fuse panel. No hard wiring is necessary to add accessories or other circuits to the fuse panel.

TF900215 ..... 607.99 set

# Universal Wiring Harnesses

Classic Update kits are designed for projects that require more circuits than would have been available in an original chassis harness. Each kit includes all the basics needed to rewire a vehicle, from headlight to taillight, and will accommodate popular add-on items such as electronic fuel injection, aftermarket gauges and common supporting modifications.

500887

510683

- An updated ATC fuse panel and fuses, along with modern GXL wire throughout. Wire functions are labeled every 3 to 5 inches.
- Pre-built dash harness and our exclusive gauge cluster disconnect system for use with stock or aftermarket instruments.
- Engine and front light harness with extra long leads for custom routing and updated engine and transmission combinations. Original style bulkhead connectors included.
- Six wire power accessory plug can be used as a convenient power source for aftermarket accessories.
- 175 amp mega fuse kit with 6 gauge charge cable to support a high output charging system and internally regulated alternator.
- Original replacement connectors, terminals, and lamp sockets.
- Headlight switch with 26 amp internal circuit breaker and new floor dimmer switch included.
- Dash harness connector for the 1969 and later GM steering column connector. A mating connector and terminals are included for easy adaptation to popular late model columns.

## 1967-78 Classic Update Wiring Harness

Bring your classic Firebird into the 21st Century with a complete wiring harness update set! This set accommodates all the popular accessories you may desire including, aftermarket AC, custom gauges, HEI ignition, tilt steering columns, modern charging systems, and also allows for complete flexibility in the engine compartment... such as V8 engine swap! With this amazing set, popular accessories, creature comforts or high-performance modifications are made very easy! Includes replacement headlight switch.

*Note: 1969 and later does not include an ignition switch because it is a keyed column. All harnesses require a one wire 51 type alternator, will not support stock alternator. All harnesses will require the use of the stock AC wiring harness when stock AC is used.*

- Nylon Panel Components
- Color Coded Wire
- Easy-to-Read Wire Labeling
- Self-Locking Screw Clamp Interface
- 8 Gauge Alternator Feed
- 175 Amp MegaFuse
- Full Color, Step-by-Step Instructions

## Highway 15 Modular Fuse Panel System

This universal fuse panel is constructed in heat resistant nylon and features anti-push back locks and single side wire access with self-locking, screw down connections. Includes a starter/alternator 175 amp mega fuse for extra protection. Features 15 power outputs in 8 fuses, and 1 circuit breaker. Gauge cluster disconnect for easy maintenance. Includes: ignition, headlight, and dimmer switches.

510825 15 panel connections ..... 503.99 ea

- Horn relay, floor dimmer, courtesy light connections.
- Standard brake light connections w/ third brake light.
- Heavy gauge main fuse panel feed wire.
- Complete engine compartment wiring for lighting and engine management.
- Complete rear body wiring for lighting & fuel tank.
- Heavy gauge alternator, main power, and starter solenoid wires.
- Heat and air conditioning lead wires as well as accessory radio and battery clock leads.
- Long ignition, accessory, and battery leads for the ignition switch. A separate alternator exciter lead wire is wired in.
- Plug-in steering column connector for 1969 and later GM columns. Original columns can also be wired by using the supplied mating connector and terminals.

## 1967-02 20-Circuit Chassis Harness

The Power Plus series is a complete deluxe integrated fuse box wiring system utilizing a complete factory style pre-wired fuse box. Power Plus series wiring kits are designed to offer an economical and convenient wiring solution. By eliminating the disconnects and sub-harness assemblies and implementing direct run technology to the switches, fuse panel, and end locations, these sets offer a more streamlined installation and less work for you!

## 1969-74 25-Circuit Chassis Harness

The Painless Pro Series gives you everything you need to wire up your Pro-Touring or custom ride right the first time! Ample length is provided for each circuit, providing you the freedom to route and hide your wiring how you choose. Included is over 25 GM factory style connectors found on most '60s to early '90s GM switches, allowing you to turn the Pro Series harness into a direct-fit harness for your application. LED ATC bladed fuses get you away from the old hard-to-find glass fuses, and will light up if blown making troubleshooting a painless task. The 6 gauge charge wire and midi fuse will keep up with today's high amperage alternators, and the provided front and rear ground harness making grounding your lighting circuits a breeze!

10413 1969-74 25-circuit ..... 589.99 ea

## Trunk Mount Chassis Harness

In many street rods and custom cars there is little or no room to mount the fuse block under the dash, forcing modifications to either the vehicle or the harness. Our 12 circuit trunk mount wiring harness provides additional wire from the fuse block to the dash and from the fuse block to the front end, allowing the remote installation of the fuse block in the trunk or behind the rear seat. Includes GM column mounted ignition and turn signal plugs.

## 6.0L LS2 EFI Harness

You have to thank GM for making the great LS2 motor available at a reasonable price. Now, PAINLESS has developed a harness to bring it to life. This harness is designed to work with an OEM LS1 computer and keep the throttle by wire feature. This harness has no emissions provisions.

*Important: Requires use of factory 2002-03 Corvette L56 ECM, accelerator pedal, and TAC module.*  
60520 standard length ..... 634.99 ea

# Universal Wiring

## Circuit Breaker — 30 Amp

Reproduction 30 amp circuit breaker for various GM applications. Used for many applications that require a 30 amp circuit breaker including power seats, power windows, power door locks, power convertible tops, and the body wire harness extension.

4849847 30 amp ..... 21.99 ea

## 1998-02 Fuse Panel Covers

Reproduction fuse panel covers for 1998-02 Firebird models equipped with LS1 engine. Manufactured to factory specifications with the fuse and relay location decals included.

152952 1998-02 with LS1 engine ..... 46.99 pr

## 14 and 20 Circuit Universal Fuse Block

Use these 14 or 20 circuit OEM style pre-wired fuse blocks to replace your existing fuse block or as a starting point for custom wiring. All you have to do is terminate your circuit wire and attach it to the fuse block. Pre-wired and labeled for the following circuits: Air conditioning/heat, gauges/dash instruments, brake lamps, headlamps, coil, horn, dome lamp, radio, electric fan, turn signals, emergency flashers, wipers, and alternator. The 20 circuit fuse block also includes circuits for power windows, door locks and other optional accessories. Kits include: mounting bracket, fuses, flashers, horn relay, terminals, and full instructions.

**Important:** No wire included with this kit.

30001 14 circuit ..... 149.99 ea  
30003 20 circuit ..... 224.99 ea

## Fuse Block Screws

Replace fuse block screws used on various GM vehicles. Black phosphate with wax sealer.

## Add Fused Circuits with the Cir-Kit Boss!

Add electrical accessories the safe way with a CirKit Boss! This sets allow you to add three fused circuits to your existing fuse block. Simply mount the fuse block and relay, route the 10 gauge wire to the battery, route the ignition wire, then route the accessory circuits. Main power wire is 8 feet long from fuse block. Each accessory circuit has 8 feet of wire length from fuse block. Includes: one 70 amp SPST relay, relay base/fuse block with harness, crimp-on terminals, and mounting hardware.

70114 3 circuit ..... 90.99 set

## Circuit Add-On Isolator

The circuit add-on isolator provides a solution when additional circuits are needed, or accessories/equipment requires ignition hot and constant hot capabilities. This is the only add on device available with ignition hot capabilities. Now center in three or seven circuit models depending on your application.

70103 three circuit ..... 67.99 ea  
70107 seven circuit ..... 80.99 ea

## Fuse Tap/Fuse Holder

You can now add circuits without cutting or splicing into your wire harness with this Tap-A-Circuit fuse holder. These will work with ATO and mini blade style fuses. This is a fast and easy way to add additional accessories such as CD players, car phones, radar detectors, 2 way radios and more.

**Note:** Accessory must not exceed 10 amps.

14490 for ATO fuses ..... 5.99 ea  
14491 for mini fuses ..... 6.99 ea

## Light Up Smart Fuses

These are blade style "Smart" fuses that light up when the circuit overloads and the fuse breaks. The 5 piece set contains: one 10 amp, one 15 amp, one 20 amp, one 25 amp, and one 30 amp fuse. The 10 piece set contains 2 each of the fuses listed above.

## Remote Battery Disconnect

With this setup, one click of the key bob completely shuts down your vehicle's entire electrical system. It's accomplished by routing your main battery cable through a remote cutoff solenoid that you've stashed in a place inaccessible to a thief. For even more security, the 4 channel "Safe-n-Sound" system not only shuts off all power from the battery, but will also control 3 other items, like closing the windows, triggering the power door locks, and interrupting electrical power to the fuel pump, all separate from the main battery cutoff. The 4 channel package can handle up to 30 amps worth of electrical equipment.

TF900629 single channel ..... 163.99 ea  
TF900628 4 channel ..... 236.99 ea

## Remote Master Disconnect

We offer two Master Disconnect set with 250 amp continuous duty solenoids designed for use with high amperage alternators. Remote Master Disconnect set 30204 uses a small toggle switch to activate the solenoid. This switch can be hidden anywhere in the vehicle as a theft deterrent. Remote master disconnect with mechanical latching solenoid is ideal for everyday vehicle applications and is a simple and effective anti theft deterrent. It uses a 10 amp continuous duty solenoid which is activated by an easy to hide momentary push button.

30204 with toggle switch ..... 94.99 set  
30206 w/mechanical latching solenoid 109.99 set

## 250 Amp Dual Battery Control System

Includes a 3 position switch to control the second battery through the operation of the solenoid. Switch position 1 isolates the second battery. Position 2 connects the battery while the ignition is on. Position 3 connects the second battery at all times. Set includes: solenoid, switch, pre-terminated wire/connectors, fuse holder, fuse, and mounting hardware.

## Express Sleeve

Express sleeving is a combination of a high temperature insulation material and a highly reflective Mylar foil with a Velcro closure.

The sleeving is designed to simply and effectively protect wire, hoses, and cables from harmful effects of radiant heat. Just pull apart the Velcro, wrap around the wire, and re-close the sleeve. Express Sleeves reflect over 90% of radiant heat bursts up to 2000 degrees F, and can easily withstand direct temperatures up to 750 degrees F.

## Shrinkflex

## Fabric Heat Shrink Tubing

Shrinkflex fabric tubing is the only product of its kind. The unique weave of poly olefin and polyester easily installs over wiring harness bundles, connectors and splices, as well as rubber hoses and plastic pipes. When heated to 176 degrees, it shrinks to 1/2 the original diameter while remaining flexible, even at high temperatures!

## X-Treme Tape

X-Treme Tape was developed for the military and has some very unusual properties. The silicone based tape will stick only to itself, and only when placed under tension. Once wrapped around an object, it forms a non-conductive, air and watertight, insulating seal that remains flexible within a temperature range of -60 degrees to 500 degrees F. Insulates to 8000 Volts. Stretches to 3X's its length. Conforms to irregular shapes. When wrapped upon itself, it bonds together immediately and becomes completely fused after 24 hours at room temperature.

## Accessory Wire

Create custom wiring harnesses yourself, to your own particular specifications! Coils of 12, 14, 16, and 18 gauge wire in 25 foot increments are available for installers to make wiring their power accessories much easier than ever before. This wiring is well marked for location source, featuring the clearest wire printing in the industry.

## 1967-81 Power Window Conversions

No-Relics power window sets for 1967-81 Pontiac Firebird models. These model specific sets bolt directly into the factory mounting holes and can use the original glass channels. They are available with a number of switch options to suit your interior. The regulators feature 1018 cold roll steel construction with bronze oilite thrust bearings at all the pivot points and treated metal for all gears. The all new ACI motors are some of the strongest, most dependable on the market.

Note: Also available with console/dash mount switch configurations. Call or visit website for details.
