LED False Alarm

Deter auto theft with a "flashing red LED" that gives the appearance of a sophisticated alarm system at a fraction of the cost. In minutes the battery operated Guardian 3000 can be installed anywhere on the dashboard. G3000 false alarm..... 19.99 ea

Start-Stop Anti-Theft Device

The Start-Stop is a low cost theft protection device that disables the vehicles ignition. This works with virtually all 12V vehicles. Simply wire it into any on/off switch in your vehicle and that will become your personal kill switch. If automatically arms when the ignition is turned off. There are no batteries to wear out, no annoying siren and no transmitters to lose. 14070 theft protection..... 21.99 ea

Protection from Moisture During Storage

Sta-Dri pouches significantly reduce humidity and moisture inside of your vehicle safely and conveniently. Pouches can be regenerated up to 3 times. Use 1-2 pouches per vehicle. Depending on humidity level, one pouch can last up to a year of continuous storage, though it is recommended that you check every month and regenerate as necessary. Non-toxic and non-corrosive, remains dry to the touch even when fully saturated.

Grit Guard Wash System

This unique wash bucket provides a convenient way to store or transport all of your car cleaning supplies while doubling as an extremely effective finish protecting wash tool. The Grit Guard insert sits in the bottom of the pail to extract particles and contaminants from mits and brushes. Gravity causes sand and dirt to settle below the guard so the wash water stays clean and scratch free.

Basic Wash System

The basic wash system includes a black pail with a yellow sealing lid and a Grit Guard insert.

Portable Fire Extinguisher

Amex portable fire extinguishers have been the industry standard for more than 50 years. ABC Dry Chemical is rated to extinguish: (A) paper, wood, and textiles, (B) flammable liquids and, (C) energized electrical hazards. Purple-K dry agent is superior for flammable liquid fires over ABC units. Halotron "clean agent" units are also effective for Class B and C fires but leaves no residue after discharge.

Professional Products For The Car Enthusiast!

New!

Fantastic Finish Carnauba Pre-Softened Wax

For the enthusiast who demands the highest and wettest level of shine, our PDP PW1 Fantastic Finish Pre-Softened Carnauba Paste Wax is a premium blend of genuine carnauba wax and natural oils that makes paint "drip off of your vehicle" with a high gloss shine and shimmer that insure to impress even the toughest of critics. PW1 Fantastic Finish Pre-Softened Carnauba Paste Wax is in a class all its own: Pre-softened paste wax with no cleaners, it leaves a deep, brilliant long-lasting shine. Protects and beads up with a glass like gloss that lasts up to 6 months. Works beautifully on all colors, even on blacks, reds, and burgundies, filling in swirl marks. Super easy on and off: just wipe-up in a circular motion, and take off with a microfibre towel immediately. No need to wait for it to dry. Leaves no white haze at all - there is no white residue to clean out of the cracks, and no need to be careful around the exterior trim- it won't leave white marks.

K89623 20 oz. can 39.99 kit

Super Suds High Foaming Car Wash

This super sud's thick, high foaming shampoo is formulated for extra duty cleaning. Chelating agents counteract hard water mineral deposits while foam stabilizers provide longer lasting sudsing action than regular duty shampoos. Its pH balanced to gently clean surface, but not remove existing wax or polymer coatings. Concentrated 100:1 for economy. Biodegradable, phosphate-free, NPE-free, VOC compliant.

K89535 16 oz. bottle 12.99 ea
K89536 1 gallon 46.99 ea

OER® "Secret Formula" Clay Bar System

Clay pulls out all the contaminants you cannot see, but that you can definitely feel, like industrial fallout, rail dust, and brake dust. These contaminants may cause patches of paint to appear dull, even after waxing. As these contaminants oxidize, they create rust spots within the paint. Clay bar will remove these contaminants and leave the surface silky smooth with a mirrorlike smooth finish. Our clay will not break or deteriorate into small particles like inferior low quality clay bars. Acts as a magnet for foreign particles, literally pulling the paint fouling grime away from the surface of the paint. Clay lubricant is essential to the performance and safety of clay. It provides the necessary slick surface for clay to glide on.

200 Grams - Package of 4-50 Gram Bars per Package

OER® Premium Metal Polish & Sealant

OER® Extreme Shine Metal Polish & Sealant cuts through layers of dulling oxides to restore a wet mirrorlike finish that outshines chrome. This outstanding polish makes chrome, copper, brass, aluminum, stainless steel and other metalwork gleam and look their absolute best. Spreads on with ease, buffs off with little effort. Great for oxidized metals and even light rust. Can be easily applied in the shade or sun. Leaves virtually no smear, dust, or powder. Utilizing friction and heat OER® Extreme Shine Metal Polish cleans, restores, revives and polishes. Friction generates heat that allows the product to break down into a micro-fine polish that leaves the surface shining like a mirror. During the final phase, it breaks down to release the durable protective sealant that bonds to metal surfaces, reducing corrosion and prolonging shine. Use by hand with a polisher or with your polish ball and drill.

K89483	16 oz. bottle	17.99	ea
--------	---------------	-------	----

OER® "Secret Formula" Acrylic Shine Glaze

Glaze is a polish without any cleaning properties used primarily to improve the shine and clarity of paint. Primarily used by body shops for finishing jobs or by detail shops to bring out the brilliance of paint, glazes are also commonly used on show vehicles to achieve a "high luster or wet look." Your moldings will not turn white. Glazes do not replace polishing. If a surface has minor swirls and imperfections, to achieve the best superior results, the surface should be polished with a polish first.

Finishing Touch Matte Finish Protectant

Finishing Touch is an all purpose dressing that restores the "new car look" to vinyl, rubber, leather, and plastic. It cleans, beautifies, and protects. It is preferred by many detailers for interiors for its "softer" look and non-greasy banana fragrance. Patented UV absorber penetrates and acts as a protective barrier against harmful rays that cause premature aging, cracking, fading, and peeling. Perfect for dashboards, vinyl tops, door panels, consoles, tires, trim, bumpers, vinyl seats, moldings, and more.

Secret Weapon Polish Ball

The Secret Weapon Polish Ball bends and compresses enabling it to fit into tight spaces and make the cleaning and polishing of difficult, hard to reach areas like wheels, rims, and other metal work much easier. Can be attached to any handheld drill or drill-like device for fast and superior cleaning and polishing. Great for cleaning and buffing small items like mirrors, headlight lenses and trim parts. Space age Dura-foam and fiber soft materials make it the most durable tool of its kind. Ideal for use with your favorite wax, polish, wheel product, or compound.

Rust Removal and Prevention

OER® Rust Treatments

OER® Chemical Restoration Dissolve Rust returns rusted surfaces to bare metal without harming the integrity of the metal. OER® Etc Metal inhibits rust and promotes paint adhesion for bare metal surfaces. OER® Convert Rust instantly neutralizes rust and converts the rusted surface, leaving a protective dark polymer coating.

DiamondFinish® Clear Coat

DiamondFinish Gloss Clear Top Coat is a permanent, moisture cured, UV stable coating primarily used for top coating surfaces previously sealed with RustSeal®, for top coating direct to metal, or to coat over any other paint/primer application. The clear coat formula can be applied direct to metal or over other coatings. This high gloss clear coat remains permanently flexible and is able to perform in the toughest environments without yellowing, cracking, or peeling. Apply directly to painted surfaces with minimal surface prep. Incredibly tough and hard like no other clear coat on the market. Can be applied with a brush (without leaving any brush marks), roller and conventional spray gun. Unlike two part coatings, no hardener is needed with DiamondFinish. Just stir and go. DiamondFinish clear coat will cure without heat or UV lights in temperatures from 50 to 86 degrees Fahrenheit. Able to withstand the harshest of chemicals including fuels, solvents, battery acid, brake fluid, Ethanol, Methanol, MEK, Hydrochloric Acid, fertilizers, and Acetone. Graffiti resistant: because of its chemical resistance, graffiti just won't stick and can be removed simply with a solvent soaked rag. Great for high temperature automotive applications including the use on cylinder heads, engine blocks, brake components and even inlet manifolds, without yellowing up to 300 degree Fahrenheit.

RustSeal® Corrosion Barrier Coating

RustSeal is a superior one part, ready-to-use, high solids content, rust preventive, corrosion barrier coating. RustSeal flows out to a beautiful, rock-hard, tough ceramic-like coating that is tough to chip or scratch, and will not crack or peel. RustSeal is an incredible, single component, ready-to-use, high solids content, rust preventive coating with exceptional sealing properties. RustSeal is the most permanent cost effective solution for stopping rust and corrosion anywhere where it is a problem: home, automotive, industry, fleet, farm, and more! RustSeal is an enhancement that lasts. Water and air are locked out, therefore oxidation, the precursor to rust, cannot take hold. RustSeal is not intended for use as a final finish. After removing or treating rust on floors, subframes, or other under vehicle components, RustSeal Corrosion Barrier Coating works by isolating the surface from moisture and oxygen. This single component, high solids, rust stopping coating seals out the ultimate causes of rust, creating a rock hard non-porous barrier between the metal and rust promoting elements. Will not crack, chip, flake, or peel, and no hardeners or activators are needed. RustSeal is completely unaffected by salt, gasoline, oils, battery acids, hydraulic fluids, solvents, chemicals, or corrosives.

BEFORE APPLICATION AFTER APPLICATION

Shovel Benefits:

- Easy spray-on application
- Continuous protective moisture barrier
- Fast clean up with soap and water
- Environmentally friendly solution
- Applicable to interior or exterior of vehicle
- Non-toxic and class A fire rated
- Both are paintable
- Coverage is approximately 50 ft² gallons

Sound Control Benefits:

- Provides non-combustible thermal insulation
- Able to withstand temperatures up to 500 degrees F
- Interior temperature reduced by 30 degrees F
- Offers a protective, seamless membrane

Ceramic Insulation Benefits:

- Protects surface from moisture and rust
- Dampens annoying rattles and road noise
- Impressive damping to weight ratio
- Coating can withstand temperatures up to 300 degrees F

Sound Control and Ceramic Insulation

Get the comfort of premium grade insulation without the extra weight! These environmentally safe formulas from LizardSkin can be used as a one part coating or as a two stage system for a cooler, quieter driving experience. The Sound Control formula dampens unwanted engine and road noise, while the Ceramic Insulation formula cools your vehicle up to 30 degree F or more creating a more comfortable ride. Designed for floors, roofs, firewalls, fenders, transmission tunnels, door panels, trunks, and more, all at a combined curb weight of 52 lbs for four gallons. Insulating a vehicle has never been this easy, thanks to a custom designed application gun made specifically to handle the thick density of the coatings with ease. Order the individual components or buy a complete kit and save!

Important: For two stage applications, Sound Control coating should be used as the base. Four gallons of each coating are required to encapsulate a typical interior and trunk area of 1 vehicle, and 1 gallon of Sound Control when applied as undercoating.

Firewall and Frame Marking Crayons

These are the correct "grease pencil style" crayons used for marking the factory inspection marks on your firewall, subframe, and other various sheet metal areas. Included are a yellow and a white marking crayon.
 K0084 2 piece 8.99 pr

Frame, Engine, and Body Marker

Auto makers use these permanent markers to write codes and numbers on frames, engines and body components. Engine suffix codes were often written on the back of the cylinder heads. Job numbers were written on the firewall, frame, engine and other components to assure the correct vehicle was being built according to the build sheet. These permanent paint markers will help you exactly duplicate the factory original marks.

OER® Aerosol Coatings

OER® Rubberized Undercoating

A black, rubberized undercoating for all automobile under-surfaces. Sprays evenly and dries completely to a smooth consistency. Can be top coated with any type of automotive finish. Prevents rust, reduces road noise, seals out water, fumes, road chemicals, and dust. Special formula greatly reduces lingering odor associated with most other brands of undercoating. No "bleed through" when top coated. Use on undersides of panels, hoods and deck lids, trunk interiors, section repairs, weld joints, rust holes, or on chassis parts. 20 oz. aerosol can (net wt. 18 oz.) or buy a case and save!

Note: Ships ground only. No air shipment.

OER® Spray Galvanizing Weld-Thru™ Coating

A smooth, cold galvanizing compound that chemically fuses to bare steel and forms a extremely rust resistant barrier. Perfect for application on the inside of newly installed panels where rust prevention of new metal is important, but where the part treated will not be painted. Fast dry, spray free spray that is abrasion resistant. Stops rust creepage, resists chemicals and is rust inhibitive. Apply it to sheet metal pieces before installation, then weld as usual. The coating will not affect the quality of the weld, and will retain its rust preventative properties. Available individually in 12 oz. cans or in case of six.

Individual 16 oz. Aerosol Can (Net Weight 12 oz.)

OER® Aerosol Coatings

OER® Factory Wheel Coating

OER® factory wheel coatings are available in a variety of original colors so you can achieve the correct factory look on the restoration of your wheels. Eliminates the need for expensive custom paint mixing and greatly simplifies the restoration process by providing spray gun results without the hassle and mess of a spray gun or the need for an air compressor.

Note: Ships ground only. No air shipment.

Rally Wheel Argent Silver

Correct color and sheen for the restoration of Rally I, Rally II, and Super Sport wheels. Makes your wheels look like they just rolled out of the factory.

K89320 16 oz. aerosol can (net wt. 12 oz.) 19.99 ea
K89321 case of six cans 89.99 cs

Rally Wheel Argent Silver/Green

Correct color and sheen for the restoration of 1968-74 Rally wheels that call for Argent Silver with a slight green hue.

K89325 16 oz. aerosol can (net wt. 12 oz.) 19.99 ea
K89326 case of six cans 89.99 cs

Low Luster Gray Wheel Paint

Correct color and sheen for the restoration of Rally, Super Sport, Honeycomb and Z28 5-spoke mag wheels that call for a unique shade of gray. This gray was used on the backside and in some cases both sides of steel factory sport wheels. Can also be used on jack mechanism and jack base on some models.

K89410 16 oz. aerosol can (net wt. 12 oz.) 19.99 ea
K89411 case of six cans 89.99 cs

Rally II Wheel Insert Paint - Charcoal Gray Metallic

Charcoal gray metallic paint for the restoration of the pie-shaped wheel insert area on Rally II wheels. Correct color, tone, and luster for a factory fresh appearance.

OER® Trunk Splat Paint

Restoration grade splatter paint for the discriminating restorer who wants to accurately replicate the original texture and finish in their trunk. Produced by the original manufacturer for an authentic texture and color match. These water soluble paints are designed to be applied with a paint gun and do not require a clear coat. One quart required per vehicle. Includes instructions.

Important: Originally applied trunk splatter paint with a Binks 2100 gun with a 200 tip and a 66 fluid nozzle with an internal mix air cap.

K86131 quart gray and white 109.99 ea

OER® Underhood Detail Paint

The perfect alternative to expensive zinc phosphate plating. A variety of choices are available to correctly refinish underhood items such as hood hinges, hood latch and safety catch, carbs, pulleys, linkage, nuts, bolts, brackets, clips, screws, and more with a durable flat or non-gloss finish that mimics the appearance of zinc phosphate plating.

16 oz. aerosol can (net wt. 12 oz.) 19.99 ea

Note: Ships ground only. No air shipment.

K89540 factory black 19.99 ea
K89520 dark gray 19.99 ea

OER® Clear Enamel

Provide extra durability and color depth on a variety of surfaces. OER® Clear Enamel will enhance the appearance of engine components, wheels, suspension components, and other painted and unpainted surfaces where a gloss clear top coat is desired. Withstands rust, gas, oil, grease, salt and intermittent temperatures up to 400 degrees F. 16 oz. aerosol can (net wt. 12 oz.) 19.99 ea

Note: Ships ground only. No air shipment.

K89265 gloss clear 19.99 ea

Binks 2100 Spray Gun

This is the style gun that was used at the factory to apply the trunk splatter paint in the correct consistency and pattern. Includes the correct fluid nozzle, needle, and air nozzle. Will spray all conventional coatings, including those with high solids. Features a forged aluminum body that has been precision machined, and brass air nozzles and knobs that are nickel-plated.

Note: Pressure pot required & not included.
