## Reproduction Delco® Energizer Battery

Authentic reproduction Delco® Energizer batteries give you true "tar-top" appearance while eliminating the sticky hot weather disadvantages. Each battery is correct in every detail including acid resistant, screw or push-in type caps featuring Delco full or half circles and are finished in the proper trim. Also includes the assembly line battery decal featuring a white label with red text attached to the battery posts. All batteries feature 780 cold cranking amps.

**CAUTION:** Maintenance-free batteries are Gel-Cell type batteries and do not require adding electrolyte (battery acid). Don't forget to check the battery tray for rust or corrosion. replacement now will ensure cleaner battery installation.

**Note:** Batteries carry a 48-month manufacturer's warranty. Shipped overweight.

## Yellow Top Battery

With premium cranking power, low internal resistance, and unparalleled cycling capability (rechargeability), the Yellow Top AGM battery is a true dual purpose automotive battery. It handles deep power drains and recharges to full capacity so it can power plenty of electronics and still start the engine time after time. Perfect for vehicles with multiple electronic systems or high demand audio.

**Note:** Shipped overweight.

## Red Top Battery

The OPTIMA Red Top high-performance AGM battery is the ultimate high CCA starting battery designed to deliver the strongest 5 second ignition power for a reliable start-up every time. The Red Top outperforms and outlasts traditional batteries in demanding cranking/starting applications. With ultimate power delivery and durability, the Red Top is ideal for luxury cars, hot rods, off-road vehicles and other applications that require a leakproof starting battery.

# Battery Trays & Hardware

New!

TAYLOR

## Aluminum Relocation Battery Box

Taylor's aluminum relocation battery box is constructed from .040" thick aluminum and features a removable top to allow easy access to the battery. Battery mounts to the frame of the box with the supplied 3/8" bolts and includes a heavy-duty 1 piece battery hold down along with mounting hardware. Measures: 13-1/2" x 9-1/2" x 10".

Note: Complies with NHRA rule 8:1 for installations where there is no firewall between the driver and the battery.

# Battery Cables

## 1961-70 Spring Ring Battery Cable

Restore your full size Chevrolet to exact factory specifications, with these OEM type cables! Each cable is reproduced exactly as original using the same OEM type spring terminals and connectors. The terminal end includes the word "SPRING RING" in the correct type style and size. Positive and negative cables are sold separately, due to the various variety of cables which were used for different applications. Each reproduction includes the correct length cable and spring ring terminal end.

## Universal Battery Cable

Underhood or trunk mount battery cable sets. Each cable is 1 gauge and features lead die-cast top terminals with a steel ring insert. This feature prevents cracking or breaking the terminal due to tightening. Each version comes in either top post or side post sets. Trunk mount sets measure 18" while underhood sets measure 6" in length. Negative cables feature pre-assembled 36" long 6 gauge secondary lead. Each set includes: crimping tool, extra lugs, and shrink tubing.

# Battery Cable Components

## Remote Mount Battery Cable Set

Perfect for trunk mounted batteries. Both positive and negative cables are 1 gauge and 16 feet in length which allows for them to be attached to the engine for maximum starting current. Helps prevent voltage drop to the engine. Eliminates the need for heavy cable connections between the engine and frame. Set includes side post adapters and high amp crimp ring terminals with heat shrink.

40105 universal ..... 159.99 set

## Battery Cable Set

This set has only the highest quality components. Set comes complete with 16 feet of red #1 gauge positive cable and 3 feet of black #1 gauge cable, both with heavy-duty battery terminals already installed capable of handling over 250 amps. Set includes side post adapters and high amp crimp ring terminals.

40101 universal ..... 109.99 set

## Battery Cable Hardware

If your cables need to be replaced, you are probably going to need to replace your battery cable bolts as well. We offer early or late model cable bolts to give your engine compartment a detailed look.

## Side Post to Top Post Adapters

Set of positive and negative side terminal adapters that enables you to convert side terminal style cables to be used with top post style battery without changing the cables or cable ends. Includes: 1 positive and 1 negative terminal adapter, 2 terminal bolts, and 2 terminal nuts.

500779 ..... 5.99 set

## Battery Cable Terminal

Due to the corrosive nature of battery electrolyte, the original lead cast positive and negative terminal ends usually require replacement every few years. We offer these replacement style late model OEM type terminals for top or side post batteries.

10626 top post terminal ..... 4.99 ea  
SBT1 side post terminal with bolt ..... 2.99 ea

## Side Terminal Adapters

If you are converting a side terminal battery to top post cable usage, we offer this convenient set which allows you to install and operate your replacement battery without unnecessary cutting of your cables.

RCP3L positive and negative ..... 4.99 set

## Quick Release Battery Cable Bolts

These handy quick release bolts replace standard 5/16" battery clamp bolts used for most top post batteries. The cam lever action tightens and loosens the bolts without tools. They're constructed from anti-corrosive stainless steel and padded with color coded red and black polypropylene.

W20251 top post 5/16" bolts ..... 11.99 pr

## Battery Terminal Protectors

Prevent corrosion buildup on the battery terminals with these color coded black and red anti-corrosion battery terminal protectors. Made of chemically treated polyester fiber.

W215007 ..... 1.99 pr

## 1958-70 Felt Battery Post Washer

This felt washer is designed to go on the positive battery post under the battery cable as recommended by GM. The washer helps to prevent corrosion of the positive battery post and cable.

TF900723 1958-70 ..... .99 ea

## Battery Terminal Protector Boot

Non-conductive insulator caps protect your electrical system from short circuits and corrosion. These reproduction caps were found in many early model GM vehicles and can be used on today's modern vehicles for reliable protection.

## UltraSafe Lithium Jump Starter

Portable lithium-ion battery jump starter packs that deliver 500 to 3000 amps for jump starting a dead battery in seconds. It features a patented safety technology that provides spark-proof connections and reverse polarity protection making safe and easy for anyone to use. It's a powerful battery booster that doubles as a portable power source for recharging USB devices, like a smartphone, tablet and more, or powering 12 Volt devices, like a tire inflator, power inverter and much more. Designed for a car, boat, RV, truck and more with both gas engines up to 9.0L and diesel engines up to 7.0L.

- Adjusts Amperage as Needed
- Switches to Float Mode When Fully Charged
- For 12V Applications

## Smart Charger 800

The OER® Authorized Smart Charger 800 battery charger and maintainer for classic cars and trucks provides high frequency automatic intelligent charging for 12V lead acid, flooded, or sealed maintenance-free (AGM and Gell Cell) batteries. Microprocessor controlled unit plugs into 120V AC current and provides 0.8 amp output through a 4 stage charging program. Features 4 safety functions: over load, over heat, short circuit and reverse polarity, and is spark proof. Designed to be used with ring terminal output or with the optional clamp set as a portable unit. Has GS/ETL/CEC Certifications. Ideal for cold weather battery maintenance, or vehicle storage.

## Priority Start Battery Protector

The PriorityStart! 12 Volt ProMax has a surge "spike" protection circuit that adds additional protection to the electrical system. Transient voltage "spikes" can cause damage to computers, 2 way radios, MDT equipment, cameras, and a host of other electrical equipment. The ProMax can be used on all 12 Volt vehicles including those with such aftermarket accessories.

## Battery Carrying Strap

This handy tool is a must for your tool box. Allows you to easily carry bulky automotive batteries without getting acid on your clothes and hands. Each end is marked and sized to fit the positive or negative terminals allowing a secure, tight fit onto the post. Battery acid won't harm the strap! For top post batteries only.

X205	carries top mount.....	7.99 ea
------	------------------------	---------

## Battery Mat — Acid Neutralizer

The Battery Mat offers protection against undetected battery acid leaks. Once installed, the mat will trap and neutralize any battery acid that leaks from the terminals or top side of the battery, preventing corrosion and expensive damage. Each mat is made of super absorbent polypropylene needle punch felt, with one side heat treated to give it additional strength. The mat is inserted under the battery between the battery and the battery tray. It can easily be installed at any time either when replacing the battery tray or battery.

## Cell Saver Battery Insulation Kit

DEI cell saver battery insulation kit is designed to solve the problem of heat soak into batteries preventing premature failure due to heat. Batteries are very susceptible to heat and vibration that could cause premature failure and hazardous leaks. Cell Saver is very capable of damping vibration and will absorb and neutralize any damaging/leaky battery acids. Cell Saver is easy-to-install and excess material can be trimmed to accommodate batteries of most sizes and shapes.

# Battery Accessories & Tools

## Protect Your Vehicle from Corrosive Battery Acid!

Prolong battery life and protect your vehicle's battery tray, underhood and radiator support area with the world's only acid-neutralizing heat barrier mat. It reflects over 90% of radiant heat, traps and neutralizes battery acid, protects against corrosion, is recyclable, protects the environment, and is inexpensive and easy-to-install. The Battery Heat Barrier™ set is completely safe to handle before and during installation. So effective, it is used by all branches of the United States military. Set consists of: one 8" x 40" acid absorbing/neutralizing felt and one adhesive backed 8" x 40" aluminumized thermal barrier to wrap around the battery, plus an 8" x 12" acid absorbing/neutralizing pad to put beneath the battery. Install one on your vehicle NOW, before it's too late.

TT1001 battery heat shield..... 29.99 set

## Battery Switch

These battery switches are easy-to-install on the negative battery post and disconnect the battery by simply loosening the knob a few turns. To reconnect, just tighten the knob. The knob can be removed completely to deter theft. Rated at 500 amp surge and 125 continuous at 12 Volts. Available with a 15 amp fused bypass that maintains computer settings, radio, clock etc., while the battery is disconnected.

W20309 top post w/ fused bypass 15.99 ea  
W20308 top post w/o fused bypass 11.99 ea  
W20307 side post w/o fused bypass 10.99 ea

## Lifeline Memory Retention System

The Lifeline enables users of a Master Disconnect Switch to retain a small amount of power for memory circuits common in fuel injection computers, radio presets and clocks. The Lifeline is a memory circuit retainer that will automatically reset after the electrical load is significantly reduced or if the Master Disconnect Switch has been switched to the on position. Available for standard or remote battery disconnects.

500778 standard disconnect ..... 27.99 ea  
500837 remote disconnect ..... 36.99 ea

## Quick-Disconnect Battery Terminal

This brass, quick-disconnect battery terminal isolates the vehicle's battery, allowing the clock, radio etc., to remain functional when combined with a fused bypass. Designed for both round and square battery lugs.

W203507 ..... 6.99 ea

## Master Disconnect Battery Switch

Taylor's 2 post battery disconnect switch completely shuts off all of the current from the battery in the event of an accident or electrical short. The 2 post switch is rated at 180 amps continuous capacity and is especially useful when charging the battery. Includes vinyl on/off decal.

Note: The NHRA requires a master battery disconnect switch on all modified and super stock class vehicles to comply with their rule 8-4.

TP1032 180 amps..... 44.99 ea

## Battery Cutout Switch

Make sure your battery maintains the precious power you need by disconnecting the battery from the vehicle during storage. Your choice of an inexpensive standard duty cutout or a heavy-duty unit. Works on any 12 Volt system or vehicle. Splices into positive battery cable to provide a switch for turning power on or off.

W203047 standard duty ..... 31.99 ea  
T4988 heavy-duty ..... 92.99 ea

## Disconnect Position Ring

For disconnect switches to identify the correct position of the switch (ON or OFF). Eliminates the question of which direction is the safe one.

BC900705 ..... 5.99 ea

## Water Resistant Master Switch

This water resistant master switch is rated to 100 amps continuous, 1000 amps surge at 12 Volts, and 50 amps surge at 24 Volts. 2-1/4" dia. x 2-1/2" deep and 1-1/4" deep behind panel. Features two 3/16" dia. mounting holes. Includes 2 keys and a water resistant cover.

# Wiring Harnesses

## 1958-74 Front Lamp Harness

Classic Industries® offers the largest selection of "in stock" replacement wiring harnesses available anywhere for your 1958-74 passenger car! Our harnesses are reproduced using the original General Motors schematics and feature the correct attachment connectors and wires in the correct gauge sizes and coloration (when available) to match your original and maintain authenticity. This harness is one of two main harnesses located in the engine compartment. It provides wiring for the main battery power lead, headlamps, parking lamps, side marker lamps, horn relay, alternator, voltage regulator, temperature sensor, brake warning, and ammeter gauges. These harnesses are produced as closely as possible to original specifications including correct colored wire.

BATTERIES & WIRING

# 1958-76 Engine Harness

CF40150H

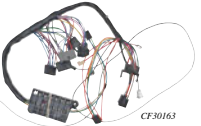

Replacing your original wiring harness doesn't have to be a puzzle of wires! Classic makes it easy by supplying wiring harnesses which are ready-to-install and include all the necessary color wires and connectors making installation as easy as possible. The listing includes exact reproductions of the original engine harnesses located in the engine compartment. When ordering engine harnesses is essential to supply as much information as possible regarding your Chevrolet's optional equipment including the year, engine size, transmission type, or any and all factory options. This will ensure you are getting the correct harness for your particular application!

# Wiring Harnesses

## 1958-64 Under Dash Harness

Each under dash wiring harness is manufactured specifically to your own model's specifications. This includes the model year with each and every option covered to ensure the harness is exactly what you need. No more searching the wrecking yards for a harness that might or might not work! Get exactly what you need without the guess work.

Note: \*Under dash wiring harnesses must be connected to a dash instrument cluster harness for proper use (sold separately).

## 1965-71 Under Dash Harness

Replacing your original dash harness doesn't have to be a confusing experience! The most essential wiring on the vehicle is located in the under dash harness. Virtually every other wiring harness is connected to this one. When you replace it, you don't want problems! Each under dash wiring harness is manufactured specifically to your own model's specifications. This includes the model year with each and every option covered to ensure the harness is exactly what you need. No more searching the wrecking yards for a harness that might or might not work! Get exactly what you need without the guess work.

Note: \*Under dash wiring harnesses must be connected to a dash instrument cluster harness for proper use (sold separately). \*Caprice only.

## 1965-65 Dash Instrument Cluster Harness

These instrument cluster harnesses are sold separately from the under dash harnesses. This harness is required to allow proper installation of the under dash harness. Each harness is an extension of the under dash harness and will help to properly operate the instrument cluster gauges. If your original harness is in good working order, you may install the under dash harness directly to your existing instrument cluster harness. This cluster harness will finish your under dash connections and allow your gauges to work properly. Be sure to order the correct harness for your year and model.

## Biscayne Cigarette Lighter Wiring Harness

Reproduction cigarette lighter wiring harness. Wires in to accessory harness of 1959-60 Biscayne models equipped with cigarette lighters. Can also be used to install a factory cigarette lighter/ashtray assembly in a vehicle not originally equipped with one.

CF92407	1959-60	.....	.....	19.99 ea
---------	---------	-------	-------	----------

## 1962-67 Cigarette Lighter Harness

The cigarette lighter fuse adapter includes a pre-assembled pigtail with factory connectors for both types of GM lighter sockets. Our adapter uses connectors and terminals that would have been available in 1967, so it makes for a "period correct" modification. Includes 10 amp glass fuse and installation instructions.

## 1958-62 Rear Body Lamp Harness Front Section

These reproduction rear body lamp harnesses are produced to exact factory specifications including the correct color wiring and factory connectors. Each harness will replace the original exactly and bring your rear lighting section including the taillamps and side marker lamps (where required) back to showroom condition. We offer a comprehensive selection of harnesses for most full size Chevrolet models.

Note: These harnesses are not for use on 1968-69 Chevrolet models equipped with the fiber optic lamp monitoring system.

## T56 Magnum All-In-One Harness

The Bowler Performance All-In-One harness solution for the Tremec T-56 Magnum transmission comes equipped with all the connections pre-wired into one harness for a simple installation and ease of use. The small epoxy sealed controller is mounted to the VSS output using the existing bolt, and once the unit is powered up you will be able to connect via Bluetooth to your Apple or Android smartphone using (Bowler Transmissions) free APP. The app will give you the ability to customize their input and output settings for each feature to ensure proper operation in your vehicle. This harness eliminates the need for any additional equipment to operate the reverse lock out or generate the correct speedometer signals coming from your Tremec T-56 Magnum.

**For Borg Warner GM Non-Magnum T-56 (1993-02)**

## 1963-70 Speaker Wire Harness

For the purists, Classic Industries® Restoration Professionals have assembled a vast array of correct GM speaker harnesses built by one of the nations leading experts! Correct in every aspect, down to the last detail, these full size Chevrolet setups are for original type radios or speakers. On vehicles using an aftermarket radio or speakers, some modifications may be necessary.

# Universal Wiring Harnesses

## Universal Chassis Wiring Harness

Starting from a blank slate is a daunting task, especially with wiring. Trying to keep your electrical systems running smoothly on a patchwork of old wiring can be a troubleshooting hassle and possibly even a fire hazard. Whether you are planning a series of electrical upgrades or simply need to replace aging, brittle wiring, build your electrical system on a fresh foundation with a quality universal harness. For basic builds, start with a simple kit with wiring provisions for all lamps, horn, fan, wiper, gauges, and all lamps. For more elaborate builds, choose from a selection of advanced wiring solutions. Need to integrate your aftermarket air conditioning? Need extra circuits for a multitude of electronic accessories? With Classic Industries®, there's no limit to what you can do with your wiring.

BATTERIES & WIRING

# Universal Wiring Harnesses

Instrument cluster wiring is designed with a "cluster harness disconnect" system for easy service and removal. All original terminals, connectors, and light sockets are included and supplied for original cluster gauges. Any aftermarket gauge system can be easily and neatly wired in.

Engine wiring includes starter and gauge sender leads for water temp, oil pressure, and tach. Heavy 8 gauge alternator leads are supplied. Power for GM "SI" series interval regulator alternators.

Engine wiring includes starter and gauge sender leads for water temp, oil pressure, and tach. Heavy 8 gauge alternator leads are supplied. Power for GM "SI" series interval regulator alternators.

Fuse box and custom mounting plate are included and designed for a bolt-in under dash installation. Standard fuses and horn relay are mounted on fuse panel.

Steering column connectors will plug directly into most aftermarket columns or work well as 1969 and later GM columns which utilize stock GM turn signal switches. The original column can also be used with the supplied master connectors and terminals.

Along with wiring for your original dome/interior lighting, we have also included separate under dash light sockets. DOES NOT INCLUDE DOOR JAMB SWITCHES.

New ignition switch is provided with indexed connector. Additional connectors and instructions are provided to use the original switch.

Note: Photo representation not actual harness.

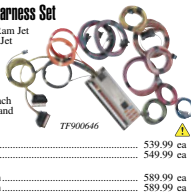

## 1959-68 Classic Update Wiring Harness

Bring your classic Impala into the 21st Century with a complete wiring harness update set! This set accommodates all the popular accessories you may desire including, AC, custom gauges, HEI ignition, tilt steering columns, modern charging systems, and also allows for complete flexibility in the engine compartment. With this versatile harness, popular accessories, creature comforts or high-performance modifications are made very easy! Includes replacement headlight switch with internal 30 amp circuit breaker included. Retention collar nut, adjustable length shaft, and custom knob are also included.

## Ram Jet Crate Motor Wiring Harness Set

Replacement harnesses for the GM Ram Jet 350 small block MEFI 3 and 4, Ram Jet 502 big block MEFI 3 and 4 factory crate motors. Move the controller and other components off the intake with this Telovex style replacement harness. Can be used with any non-computer controlled transmission. Each harness includes optional O2 sensor and speed sensor wiring.

## 1958-72 — 16 Fuse, 20 Circuit Wire Harness

These wiring harnesses are built specifically for 1958-72 passenger car models. They feature wiring for the entire car and will work with most stock GM steering columns, as well as aftermarket columns such as ididit and Flaming River. Will wire full gauge sets including tach and will address HEI, points and aftermarket distributors, neutral safety switches. Also includes wiring for high and low beams, indicator lights, parking lamps, turn signals, and brake lamps. Will readily accept fuel injection. The wiring is high temperature, fire resistant and color coded. Features the circuit printed on each wire. All sets include a headlight switch, isolated cooling fan relay and color coded instructions. A unique serial number for each harness enables Ron Francis to technically support the installation to you or any subsequent owner.

## 1994-02 Fuel Injection Engine Swap Wiring Harness Set

For maximum power with exceptional fuel efficiency nothing beats electronic fuel injection. And the easiest way to install a modern fuel injected engine is with one of these proven FI engine wiring harnesses. These harness sets are designed to allow you to properly wire your engine swap from a donor car or crate motor.

A variety of harnesses are available to suit 1994-up LTI, L51 and GM crate engine applications. Each of these sets include detailed instructions and illustrations.

### The Detail Zone Wiring

Each set includes the sensor connectors installed on 20 foot lengths of wire for custom installations, connectors for the sensor wires, and a Telovex panel with installed wiring and connectors to plug into the factory computer. Designed to work with a specific transmission, so be sure to select the correct application from the listing below. Other non-computer controlled automatic and manual transmissions can be used but typically requires ECM reprogramming for best results. 1998-02 ECMs require use of all emissions sensors or a trouble code will occur unless the ECM is reprogrammed.

Note: \*Corvette engines must use the Camaro/Firebird ECM in order to use this wiring kit. Also requires use of the 1998 Camaro throttle body for accelerator cable control. This engine utilizes the GM IEC diagnostic system and all emissions sensors are not used. trouble codes will set in a factory programmed ECM.

### Painless Wiring

The engineers at Painless have worked out all of the connection and routing problems so all you have to do is follow the straight forward instructions for a painless installation. Feature TXL high temp wire that is color coded and labeled with each application for ease of installation. Harnesses for the LS1 applications require 1998 Camaro computer GM806 and a mechanical throttle body.

Important: \*Includes a module to bypass the vehicle anti theft system (VATS) incorporated in the computer. Does not include any emissions related connections.

## PAINLESS

## Trunk Mount Chassis Harness

In many street rods and custom cars there is little or no room to mount the fuse block under the dash, forcing modifications to either the car or the harness. Our 12 circuit trunk mount wiring harness provides additional wire from the fuse block to the dash and from the fuse block to the front end, allowing the remote installation of the fuse block in the trunk or behind the rear seat. Like all Painless kits, these fuse blocks come completely pre-wired and terminated for a simple, painless installation. Includes GM column mounted ignition and turn signal plugs.

10120	12 circuit	474.99 ea
10220	18 circuit	529.99 ea

## 6.0L LS2 EFI Harness

You have to thank GM for making the great LS2 motor available at a reasonable price. Now, PAINLESS has developed a harness to bring it to life. This harness is designed to work with an OEM LS1 computer and keep the throttle by wire feature. This harness has no emissions provisions.

Important: Requires use of factory 2002, 03 Corvette LS6 ECM, accelerator pedal, and TAC module.

60520	standard length	634.99 ea

# Universal Wiring Harnesses

## Highway Series Modular Fuse Panel Systems

Each universal fuse panel is constructed in heat resistant nylon and features anti-push back locks and single side wire access with self-locking, screw down connections. Includes a starter/alternator 175 amp mega fuse for extra protection. The panel is fed through an 8 gauge power feed wire and features a battery and accessory stud connection. Includes: color coded wiring for ignition, alternator, headlight, steering column, accessories and gauges, relays, fuses, flashers, circuit breakers, and all necessary power connections and terminals. Also includes a full color schematic and step-by-step instructions.

New!

- Composite Panel Base
- Nylon Panel Components
- Color Coded Wire
- Easy-to-Read Wire Labeling
- Self-Locking Screw Clamp Interface
- 8 Gauge Alternator Feed
- 175 Amp MegaFuse
- Full Color, Step-by-Step Instructions

## Highway 15 Modular Fuse Panel System

Features 15 power outputs in 8 fuses and 1 circuit breaker. Gauge cluster disconnect for easy maintenance. Includes: ignition, headlight, and dimmer switches.

## Highway 22 Modular Fuse Panel System

Features 22 power outputs in 16 fuses and up to 4 circuit breakers. Gauge cluster disconnect for easy maintenance. Includes: ignition, headlight, and dimmer switches, as well as 40 amp fan relay.

510760 22 panel connections ..... 588.99 ea

PAINLESS

- Horn relay, floor dimmer, courtesy light connections.
- Standard brake light connections w/brake light.
- Heavy gauge main fuse panel feed wire.
- Complete engine compartment wiring for lighting and engine management.
- Complete rear body wiring for lighting & fuel tank.
- Heavy gauge alternator, main power, and starter solenoid wires.
- Heat and air conditioning lead wires as well as accessory radio and battery clock leads.
- Long ignition, accessory, and battery leads for the ignition switch. A separate alternator exciter lead wire is wired in.
- Plug-in steering column connector for 1969 and later GM columns. Original columns can also be wired by using the supplied mating connector and terminals.

## 1958-06 20-Circuit Chassis Harness

The Power Plus series is a complete deluxe integrated fuse box wiring system utilizing a complete factory style pre-wired fuse box. Power Plus series wiring kits are designed to offer an economical and convenient wiring solution. By eliminating the disconnects and sub-harness assemblies and implementing direct run technology to the switches, fuse panel, and end locations, this set offers a more streamlined installation and less work for you!

- Emergency Flashers
- Fused Power Source
- Headlights
- Horn (Relay)
- Ignition Coil
- Park/Marker Lights
- Power Door Locks
- Power Windows
- Radio/Clock (Constant and Switched)
- Tail Lights/ License Plate Light
- Third Brake Light
- Turn Signals
- Wipers / Washer Pump

## 1968, 1975 25-Circuit Chassis Harness

The Painless Pro Series gives you everything you need to wire up your Pro-Touring or custom ride right the first time! Ample length is provided for each circuit, providing you the freedom to route and hide your wiring how you choose. Once you've got the harness fit how you like it, included are over 25 GM factory style connectors found on most '60s to early '90s GM switches, allowing you to turn the Pro Series harness into a direct fit harness for your application. LED ATC bladed fuses get you away from the old hard-to-find glass fuses, and will light up if blown making troubleshooting a painless task. The 6-gauge charge wire and mid-fuse (no more problematic fusible link!) will keep up with today's high ampere alternators, and the provided front and rear ground harnesses making grounding your lighting circuits a breeze! Provided with many GM connectors and terminal, insulated and non-insulated butt splices, heat shrink, grommets, cable ties, ground straps, and cable tie clips, the Pro Series brings a new meaning to truly Painless wiring and includes our lifetime guarantee.

# Power Door Components

### Set Includes:

- Two 4 button keyless remotes
- Two 15 lbs actuators for the door locks
- Wire harness
- Mounting hardware
- Installation instructions

## 1958-70 Power Door Lock Conversion Set

Looking to convert your manual door locks to a full power remote system? The combination power door lock and keyless entry system will convert your old manual locks to power, and activate them from up to 100 feet away!

PDL5120 1958-70 ..... 182.99 set

### Set Includes

- Two 4 button keyless remotes
- Two 15 lbs actuators for the door locks
- 45 lb Trunk lock actuator
- 120 dB 6 tone siren alarm
- Wire harness
- Mounting hardware
- Installation instructions

## 1958-70 Power Door Lock and Trunk Lock Conversion Set with Alarm

This power conversion system has everything! It includes all you need to add remote power door locks, remote power trunk release, and a high security alarm. This fully integrated system allows you to control door locks, trunk release and alarm, and activate them from up to 100 feet through a single 4 button remote. PDL5165 1958-70 with alarm ... 210.99 set

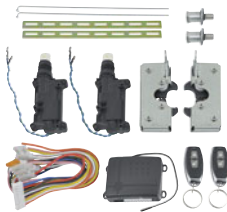

### Set includes:

- Two 4 button keyless remotes
- Two 15 lbs actuators for the door locks
- Trunk lock actuator
- Wire harness
- Mounting hardware
- Installation instructions

## 1958-70 Power Door Lock and Trunk Lock Conversion Set

Convert your manual door locks and trunk release to a full power remote system. The combination power door lock and trunk release provides everything necessary to convert your manual door locks to power, plus pop your trunk. You can activate them from up to 100 feet with the same remote!

PDL5170 1958-70 ..... 202.99 set

## Remote Door Opener

Give your vehicle a sleek, custom look by eliminating the door handles and the door and trunk locks. Install the super trick, Made in USA remote door and trunk opener systems to enter your vehicle. These are available in your choice of either a 2 way or 3 way system. The 2 way system features two door actuators, two door latches and one 2 way remote transmitter. The 3 way remote system features two door actuators, two door latches, one trunk actuator, one trunk latch and one 3 way remote transmitter. Both sets include all necessary connections and instructions.

Note: Will work on 1958-72 full size Chevrolet models.

## 1961-68 Keyless Entry System

The Klassic Keyless system is a do-it-yourself keyless entry set designed specifically to fit your 1961-68 Chevrolet Impala full size model. This comprehensive, vehicle specific system is engineered with the do-it-yourself in mind. Each set includes everything needed to install power door locks and remote keyless entry using common hand tools. Or choose a new system that allows you to open your trunk without a key. Simply press one button to lock, the other button to unlock, then hold down the trunk button to open the trunk. Includes an easy-to-follow full color step-by-step guide and instruction manual that walks you through the installation.

Note: Trunk release may require some minor trimming on some vehicles for installation.

## Electronic Exterior Door Handles

Elevate your vehicle's style with these electronic exterior door handles from Lokar! Each billet door handle utilizes a weatherproof 12 Volt pressure pad switch to supply power to an electronically actuated door latch (door popper). Its 2 piece design and available 0 degree or 10 degree mounting surface allows the insert to be removed, and door handle positioned for ultimate customization. The XL design provides 7/8" of clearance between the door and the switch, allowing for easier mounting and less modifications to the door. Made in the USA from 6061-T6 billet aluminum.

**Important:** This requires electronic door latch actuators, which are not included.

**Note:** Installation requires hand pocket for clearance.

## Shaved Doors — Emergency Entry

Installing shaved doors? You'll need a way to get into your ride if the power fails. Electric-Life Billet emergency kit are just what you need. Just connect the end of the cable to the door lock, pass the cable through the door, through the post, and exit through the fender well or the floorboard. Then attach the billet pull knob and you've got a way to enter your vehicle no matter what.

# Power Window Components

## 1958-68 Power Window Harness

Replacement wiring harnesses for original windows include power seat feed wires when required. Each power window harness will duplicate the original in features and functionality when installed. Although the harnesses are not being cosmetically correct in every detail, they are designed to function and install just like originals.

## Billet Power Window Wiring Set

Universal polished billet aluminum power window systems for 1, 2, or 4 switches. Billet switches include "Plug and Play" harness and rear illumination. Great for center console installations, one switch controls each window. Switches can be mounted directly over the crank hole, no additional holes necessary. GM style switches give you ride that original factory look.

*Note: These window switches are not designed to replace the OE style switches. Modifications required to do panels and wiring for correct integration when installing. Sets include mounting retainers for the switches.*

## 14 and 20 Circuit Universal Fuse Block

Use these 14 or 20 circuit OEM style pre-wired fuse blocks to replace your existing fuse block or as a starting point for custom wiring. All you have to do is terminate your circuit wire and attach it to the fuse block. Pre-wired and labeled for the following circuits: Air conditioning/heat, gauges/dash instruments, brake lamps, headlamps, coil, horn, dome lamp, radio, electric fan, turn signals, emergency flashers, wipers, and alternator. The 20 circuit fuse block also includes circuits for power windows, door locks and other optional accessories. Kits include: mounting bracket, fuses, flashers, horn relay, terminals, and full instructions.

**Important:** No wire included with these kits.

## Remote Battery Disconnect

With this setup, one click of the key fob completely shuts down your vehicle's entire electrical system. It's accomplished by routing your main battery cable through a remote cutoff solenoid that you've stashed in a place inaccessible to a thief. For even more security, the 4 channel "Safe-n-Sound" system not only shuts off all power from the battery, but will also control 3 other items, like closing the windows, triggering the power door locks, and interrupting electrical power to the fuel pump, all separate from the main battery cutoff. The 4 channel package can handle up to 30 amps worth of electrical equipment.

## X-Treme Tape

X-Treme Tape was developed for the military and has some very unusual properties. The silicone based tape will stick only to itself, and only when placed under tension. Once wrapped around an object, it forms a non-conductive, air and watertight, insulating seal that remains flexible within a temperature range of -60 degrees to 500 degrees F. Insulates to 8000 Volts. Stretches to 3X's its length. Conforms to irregular shapes. When wrapped upon itself, it bonds together immediately and becomes completely fused after 24 hours at room temperature.

## 1965-70 Plastic Wire Gutter

This OER® reproduction wire gutter is used to hold the engine harness as it passes against the firewall area and protects your wiring from falling into the distributor area. Each wire gutter is precut to the original length assuring originality. Also includes pre-punched mounting holes for easy installation. This extremely durable item replaces your original painted over, heat warped, or missing wire gutter.
