Dash Pad Covers

Conceal unsightly cracks or discolored areas of your dash pad with an ABS plastic dash pad cover as an easy and economical alternative to replacing the entire dash pad. Vacuum molded from thick, durable ABS material, these dash pad covers will not crack when exposed to extreme hot or cold temperatures like the original vinyl skinned dash pads. Each dash cover will easily install right

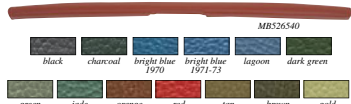

over your existing original dash without using any special tools. E-Body dash covers will cover the nameplate on the RH side of the original dash. Specify color when ordering. Made in USA.

Note: Shipped oversize.

1968-76 Woodgrain Dash Panel Insert Set

Chipped, worn, or discolored original woodgrain panels can ruin an otherwise nicely done restoration. These die-cut replacement inserts are manufactured from a pressure sensitive vinyl material in the closest grain and color available. Made in USA.

A-Body

1968-76 A-Body - Instrument Inserts

Note: *1968 Barracuda originally had a Barwood grain insert that is not currently available. The 1969 Barracuda insert will fit, but it is not a Barwood grain.

AUTHENTIC
RESTORATION

1970-74 E-Body Rallye Dash Bezel Set

Replace the Rallye Gauge face and switch plate in your 1970-74 E-Body with brand new dash bezels. The woodgrain finish on these aluminum bezels is screened on just like the originals. Stamped from a flat aluminum panel, minor bending of panel is necessary before installation to get proper curvature in corners. Available for 1970-74 Rallye dash equipped E-Body vehicles.

1967-71 A-Body Rallye Dash Gauge Parts

1967-71 A-Body Rallye dash cluster parts. Replace original indicator lenses, dash reset knobs, and gauge lenses. Original outer lenses that are scratched, cloudy, yellowed, or covered in over spray can be very difficult to see through and even more difficult to repair. Applications are available for 1967-69 Barracuda and Rallye dash equipped vehicles such as 1970 Dart Swinger 340, 1970-71 Duster 340, and 1971 Demon 340.

Note: Original lenses were accented with satin black in the chrome center. These have a chrome center, but black accent can be painted on for a more original look.

1970-74 E-Body Rallye Gauge Cluster Parts

Renew the instrumentation in your 1970-74 E-Body with brand new gauge cluster components. We offer new lenses that are replacements of the original and include the correct light tubes. New housings, gauge indicator lenses and gauge reset parts are also available. Applications are available for 1970-74 Rallye gauge equipped E-Body vehicles.

Note: Identification of gauge cluster is important. On 1970-71 models, the dash reset knobs protrude through the outer bezel of the gauge. On the 1972-74 models, the reset knobs protrude directly out of the gauge face through the clear plastic lens.

1962-76 Circuit Board

Reproduction printed circuit boards for 1962-76 Mopar muscle car applications. These boards are made from flame resistant fiberglass for strength and superior bonding with the copper traces. Nickel-plated connector pins and circuit traces prevent corrosion. Boards with voltage limiters also feature fully soldered socket connections instead of the faulty original press-on connections. Each board is fully tested for quality assurance.

1960-77 A-Body Gauge Decal Set

These decals are reproduced to duplicate the styles, fonts, and spacing of the original instrument faces. Machine cut from high-quality 3M material and designed to lie flat and wrinkle free. Made with a custom combination of printing and silk screening which results in vibrant markings against a semi-flat background finish. In fact, these are the only decals with an OE finish available on the market.

1965-76 Supplemental Gauge Face Decal and Stencil

These decals are reproduced to duplicate the styles, fonts, and spacing of the original instrument faces. Machine cut from high-quality 3M material and designed to lie flat and wrinkle free. Made with a custom combination of printing and silk screening which results in vibrant markings against a correct semi-flat background finish. These are the only decals on the market with an OE finish. Use with our premium dash decal sets for complete restoration.

Note: *Installs on lens to cover over MPH markings. **Installs on speedometer, lens must have lettering removed.

Performance Gauges

6 Gauge Custom Instrument Panels for A, B, & E-Body Models!

These panels feature 3-3/8" speedometer and tachometer, and 2-1/16" oil pressure, water temperature, fuel level and voltmeter gauges. LED turn signal, parking brake, and high beam indicators are included. See AutoMeter section for gauge details. Panels are also available without gauges to customize with the

gauges of your choice.

Important: Sending unit for electric speedometers must be purchased separately. **SPORT-COMP** gauge sets feature mechanical gauges (except tach, fuel and Volt) and do not include a wire harness. Four 1/8" holes must be drilled for LED indicators.

Classic Thunder Road 1968-70 B-Body VHX Instruments

VHX Systems fit directly into the stock Rallye gauge bezel of 1968-70 B-Body models without modification, adding a wealth of features to this iconic vehicle. Features fully lit needles, backlit faces and easy-to-read LCD message centers, the VHX series is a far cry from yesterday's traditional instrumentation. Mounts directly to the stock dash housing for simple installation. The VHX series is loaded with features including micro-controlled precision stepper motors, solid state sensors for unparalleled accuracy and user customizable display feedback. Available in black or silver alloy face, with either blue, red, or white numeration and backlighting. Please specify blue, red, or white illumination when ordering.

Note: Gauge bezel not included.

1970-74 E-Body VHX Gauge System

Dakota Digital's VHX instrumentation system will modernize your vehicle with the latest technology and styling. Available for 1970-74 Dodge Challenger, Plymouth Barracuda, *Cuda with Rallye dash. Fully lit needles, backlit faces, and highly visible LCD message centers are a few of the things that you can see which set the VHX Series apart from yesterday's traditional approach to instrumentation. A few of the features which you don't normally see are the micro-controlled precision stepper motors, solid state sensors for unparalleled accuracy, and user customizable display feedback, all supported by an unrivaled limited lifetime warranty which has become the standard for Dakota Digital instrumentation systems. Available in silver or black alloy, with either blue, red, or white display.

Note: Instrument system will fit stock Rallye bezel without modifications. Bezel not included, used for representation purposes only.

1970-74 Challenger/Barracuda Dakota Digital VHX Cluster

Upgrade your non-Rallye 1970-74 Challenger or Barracuda dash with the Dakota Digital VHX instrument cluster. VHX clusters feature twin LCD message centers and 6 analog gauges. A 160 MPH speedometer, tachometer, oil pressure, water temperature, fuel level, and voltmeter gauge are easy-to-read thanks to customizable illuminated needles and backlit faces. Bushings and sensors for water temperature, oil pressure, and a cable-driven speed sensor are included.

Note: Bezel not included.

1972-76 InVision LCD Dash & Bezel Set

Direct-fit instrumentation solution for 1972-76 Dodge and Plymouth A-Body models including Duster, Demon, Dart, Scamp, and Valiant that monitors speedometer, tachometer, water temperature, oil pressure, fuel level, and Volts all in a high resolution and colorful display. 12.3" LCD display with four user selectable screens. Integrated notifications for high beams and turn signals as well as instrument warnings and a check engine light. Includes universal wiring harness, and sending units for water temperature and oil pressure as well as a joystick for dash customization.

AM7009 1972-76 A-Body 1259.99 set

Chrono Series Electric Gauges

AutoMeter Chrono Series electric gauges with race proven digital stepper motor movement for unmatched accuracy. Electronic senders can be used for a variety of applications and keep unwanted fluids out of the driver compartment. The Chrono Series features a three dimensional concave dial design, "through-the-dial" LED lighting, and over 320 degrees of pointer movement. All gauges have both metric and imperial scalings and are 12 and 16 Volt compatible.

Super Tach II

Bosch's Super Tac II features internal dial lighting, accurate air coil meters, 250 degree dial sweep, 8000 RPM limit and adjustable red line pointer. Works on 4, 6, or 8 cylinder engines. Functions with breaker point, electronic and most aftermarket ignition systems except magnetos. Includes mounting hardware. Available in 3-3/8" or 2-5/8".

Super Tach III

Solid metal casing with a striking reflective chrome finish. Features a blue shift light. Vibration proof air core meter construction, 0-10,000 RPM. Internal settings for 2, 4, 6, and 8 cylinder engines. Pointer return to zero feature. Adjustable swivel mounting foot for mounting at any angle. Tachometer measures 5".

ST7905 black dial chrome bezel 129.99 ea

Retro Tachometer

Carefully reproduced to match original dimensions. 360 degree lighting avoids uneven spots for better night visibility. Tachometer measures 3-3/8" and has 8000 RPM limit.

Important: With adjustable red line. Tachometer operates on 1,2,4,6,8, or 10 cylinder engines with most factory or aftermarket ignition systems.

Full Sweep Electric Gauges

Powered by digital microprocessor-controlled, rugged stepper motor drives and laboratory grade sending units, Full Sweep Electric Gauges combine extreme durability and readability of 270 degree sweep mechanical gauges with the easy installation and safe operation of short sweep electrics. Track tested and race proven, these units use precision senders to keep wire installation characteristics the same whether you're in the driver compartment and perform gauge calibration and sensor diagnostics at power up for extreme accuracy, every time.

Short Sweep Electric Gauges

Advanced 90 degree air core movements and three wire installation characteristics these Short Sweep Electric Gauges. Electric sending units keep hazardous fluids in the engine compartment, sending collected data via an electrical signal to quick reacting, precise air core movements to give you all the information that you need.

SCX Pro and SCX Series Gauges

SCX Pro gauges feature one touch peak recall and programmable high and low full dial warning. There is also an external alarm output (12V, 500mA) that can be used to activate an external warning light when an alarm condition exists. Superior amber and white through-the-dial lighting and illuminated pointer. All SCX and SCX Pro fuel senders work with 0-90, 240-33, 73-10, 20-150, and 0-30 Ohm senders. SCX Series 5" tachometers feature a slimline case design (only 2" deep).

Note: *Pedestal mount. **Pedestal mount w/LED shift light.

1970-74 E-Body Indiglo Gauge Overlay

Want a new look for your gauges without replacing your working originals? Brighten up your instrument cluster with an electroluminescent indiglo gauge kit for 1970-74 E-Body models. Designed to be installed on top of the existing standard (non-Rallye) gauges. Kits feature two selectable color modes, blue or green, which are able to be changed at will thanks to the included switch. Includes: 5 gauge face overlays (speedometer, fuel, temperature, alternator, and tachometer), power/color switch with dimmer control, instructions, and mounting components.

Important: Requires modification to instrument cluster. Instructions included.

Note: Gauges not included. Requires standard in-dash tachometer. If standard tach is needed, see part #ME1316.

Prestige In-Dash Gauge

AutoMeter's new Prestige Series gauges have the precision and reliability you've come to expect from AutoMeter, but with a stunning new look. These gauges achieve their elegant style with brushed aluminum centers, fully lit vintage style needles, domed lenses, and polished chrome bezels. Antique Ivory gauges have black numerals and needles, and feature an LED fully lit gauge face when illuminated at night. The Prestige Black Diamond gauges have white numerals and needles and feature through the dial LED lighting to illuminate the numbers, markers, and needles. Mechanical gauges include the necessary fittings and feet of capillary tubing (unless otherwise specified). Electric gauges include the required sending units.

Performance Gauges

New!

Universal 3-in-1 Gauge Set

Upgrade the look and performance of your dash with a set of 3-in-1 gauges from New Vintage USA. These gauges are 4-3/8" and offer multiple designs to blend perfectly into your build. NVU's exclusive Phoenix technology features fully programmable inputs and high tech OLED screens. Each set is hand built in Detroit and includes NVU's 5-year warranty. The electronic programmable speedometer with digital odometer allows for easy calibration with any wheels and tires or rear axle. Sets include an electronic programmable speedometer displayed in MPH, with oil pressure, and water temperature gauge. The tachometer gauge includes a voltmeter, and fuel gauge. Hardware and detailed instructions also included. Made in USA.

Note: Sending unit for electronic speedometer must be purchased separately.

New!

Features Include:

- 2-1/16" diameter and 1-1/2" deep
- Automatic night-dimming and In-dash mounting hardware
- Absolute brightest LEDs available
- No sender needed
- Oil Pressure displays 0 to 80 PSI accuracy and universally adaptable. It is accurate, super bright, and intelligent all in one.

3 Gauge LED Bar Graph Set

With the absolute brightest LEDs available, this sharp looking 3 gauge bar graph panel features voltmeter, water temperature, and oil pressure showcased in a black bezel. Sending units and mounting hardware are included. Voltmeter is microprocessor controlled with 12.0 to 16.0 Volts accuracy.

Note: When ordering, please add the correct suffix: B - blue, G - green, R - red, or W - white.

B9333 199.99 set

New!

Features Include:

- Voltmeter is microprocessor controlled with 7.0 to 18.0 volts accuracy
- Oil Pressure displays 0 to 100 PSI accuracy and universally adaptable.
- Water Temperature has 18-255 Fahrenheit degree accuracy

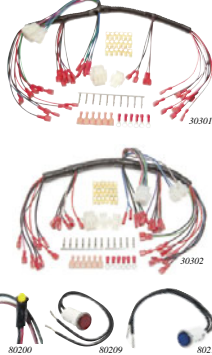

3 Gauge LED Digital Set

Inteltronix universal digital LED 2-1/16" diameter 3 gauge panel. Feature the brightest LEDs available, this sharp looking 3 gauge digital panel includes voltmeter, water temperature, and oil pressure showcased in a black bezel. Sending units and mounting hardware are included.

Gauge Accessories

Sky Drive GPS Speedometer Sender

Drive your speedometer accurately and reliably with the Sky Drive GPS Speedometer sender. This device quickly calibrates and accurately drives any electronic programmable speedometer. The Sky Drive updates 10 times per second without any transmission signals, pulse generators or signal converters and features an omnidirectional antenna that can be mounted virtually anywhere and in any position. No more guessing or recalibrating due to tire or gear changes, this unit requires a one time setup and you're done.

280667 Sky Drive sender..... 154.99 ea

AR101008

Internal Float Fuel Sending Unit

Get reliable fuel gauge readings with this internal-float fuel sending unit. This advanced design provides accurate readings without fluctuations due to fuel slosh. Because this internal float design requires no float arm, it is far more resistant to corrosion, even with racing fuels. All sending units mount to the tank with the standard 5 bolt mounting flange and are available in sizes from 4" to 24".

Important: Sending unit should not touch bottom of tank. When the fuel gauge reads empty, the area below the sending unit is reserve fuel.

Note: Sending units are sold in 1" increments. Please add the desired length to the end of the part number; eg 06 = 6", 11 = 11".

0-90 Ohm Sending Units

New!

GPS Speed Sender

New Vintage USA GPS speedometer senders are compact units that mount virtually anywhere and deliver a steady, smooth signal to any electronic programmable speedometers. So, if you need an easy way to pickup your speed signal, or have a transmission without a built-in VSS or cable output, a New Vintage USA's GPS speedometer sender may be just the part you're looking for.

NV42181 universal..... 139.99 ea

Fuel Tank Sender

This universal type fuel sender is used with gauges that require 240Ω empty and 330 Ω full and can be adjusted for tanks from 5" to 24" deep.

AM3262 54.99 ea

Speedometer Sending Unit

Speedometer sending unit for use with all AutoMeter electric speedometers. This unit is not included with the gauge packages and must be purchased separately.

AM5291 134.99 ea

New!

Electric Speedometer Sending Unit

Electric speedometer sending unit for electric, analog speedometers. Features: 16 pulse/rev output, Hall-effect, 0.104" driver key, and quick disconnect/cable wire harness included.

Note: Will not work on Muncie transmissions. Will not work with mechanical speedometers.

2001000 universal..... 69.99 ea

Distributorless Tach Adapter

This tach adapter is designed to adapt a standard ignition tachometer, Pro Shift light, or RPM activated module to be used with distributorless ignition systems.

Note: For use with distributorless ignition systems only.

AM9117 tach adapter..... 129.99 ea

New!

Tachometer Signal Filter

AutoMeter tachometer signal filter. These filters are designed to correct erratic tach function by filtering out the interference or spiky pulse signals often caused by points or noisy ignition systems.

AM9116 30.99 ea

New!

AM3218

AM3219

T1-3/4

Incandescent replacement bulb T1-3/4 Wedge, 1.3W, for 5" Monster Tach.

AM3218 bulb..... 7.99 ea

AM3219 bulb and socket..... 11.99 ea

New!

Fuel Signal Adapter

The Fuel Bridge wires in between your fuel level gauge and sending unit and allows you to use any AutoMeter fuel level gauge with any stock or aftermarket sending unit. The triple push button with LED display allows for easy setup. This unit is a compact size at 3-1/8" x 2-1/2" x 3/4". A low fuel level warning is available at 10% and off at 15%. It can turn on an LED or relay.

- 3 EQ Presets/Loudness Control
- Separate Power Antenna and Amp Leads

1967-70 Redondo Radio

The new RetroSound® Redondo radio is the only radio made specifically for late 1960's to early 1970's Mopar vehicles that originally came supplied with the distinctive "thumb roller" radio controls and the 2 knob style. The Redondo display face and push buttons are independently adjustable, making it easy-to-install into any Mopar vehicle in which a part of the dash fascia separates the original radio dial from the push buttons. Now you can enjoy all the modern conveniences with classic Mopar styling.

*Important: *SiriusXM satellite radio requires monthly subscription and radio tuner (sold separately.) For radio tuner see part #XM300.*

Stereo Accessories

Portable MP3/Media Adapter

You now have the freedom to listen to your favorite music in your classic car with the RediRad adapter, the only portable music adapter specially designed for older vehicles. The music is seamlessly routed from any portable music player such as a cassette, CD or MP3 player, even satellite radio into your AM or AM/FM radio without any vehicle modifications. Designed for simple and out-of-sight installation, it uses a standard audio plug on a 6 foot cable to connect to your portable player. When music is detected at the audio plug, the RediRad automatically switches from the radio broadcast to your personal player. The radio will return to normal operation after switching off the personal player. A great way to preserve the original appearance and maximize your vehicle's collector value while still listening to your tunes in modern style!

14923 RediRad adapter..... 128.99 ea

SiriusXM Radio Tuner Set

The SiriusXM radio tuner set connects directly to any of the RetroSound satellite ready radios to provide the signal required. No need for special adapters or cables. The compact size installs easily and discreetly behind the dash for a fully integrated look.

Drop-In Replacement Speaker

GRS AS-series car replacement speakers are economical drop-in replacements for blown, damaged, or dirt-rotted speakers used in many vehicle models. The moisture resistant polypropylene cone reduces the chance of fading and dry-rotting. Replace your damaged or aging automotive speakers, and restore the sound of your vehicle. Sold individually.

Note: 3-1/2" and 4" speakers are commonly found in the dashboard of many vehicles. Check your vehicle's manual or other references to verify compatibility.

Boom Mat Speaker Baffles

Solve the problem of rattles and vibrations caused by speakers and protect the back of speakers from damage! Boom Mat Speaker Baffles maximize speaker performance by isolating the correct frequency responses while damping reverberation in the sheet metal and panel to frame resonance. Also forms a water tight protective shell to prevent moisture intrusion. Made from a closed cell polyethylene to enhance frequency response for improved sound clarity. Easy conformably in tight spaces for a professional installation. Isolates frequency responses and prevents sound from migrating to unfavorable areas in the vehicle such as door panels.

1970-74 E-Body Defroster/Speaker Housing

Replacement rear defroster/speaker housing for 1970-74 E-Body models. Manufactured from pot metal, this housing mounts under the rear package shelf and houses the rear blower motor and passenger side speaker.

ME8135 1970-74 E-Body 255.99 ea

UNDERCOVER I Stealth Speaker

This speaker system is designed specifically for under seat or horizontal wall installations. The compact ABS housing contains one 5-1/2" woofer and Piezo tweeter in each enclosure and is only 2-7/8" x 8" x 1 1/2". This system sounds very good and can handle up to 120 watts. For a great sound combine these with one of our DVC (dual voice coil) speakers in the dash and you'll have a great system without any vehicle modifications.

S5060 6 Ohm 141.99 pr

UNDERCOVER II Upgrade Speakers

We have developed the UNDERCOVER II with an 8" woofer and 2 Piezo tweeters in each box. This system can be mounted in many of the same locations as the regular UNDERCOVER. With the 8" woofer in UNDERCOVER II you get a much fuller deeper sound. These are a great addition to our Concours series radios with their 200 watt capacity. Sold in pairs. Measures: 11" x 12-1/2" x 3".

Note: These speakers have a 4 Ohm rating. Check for compatibility with your audio system.

Hidden Antenna

The RetroSound amplified AM/FM hide away antenna is a great solution for anyone who doesn't want to install a standard fender mount antenna. This hidden antenna installs in seconds using a standard antenna plug and your radio's power antenna wire. This antenna uses magnetic field circuitry for enhanced radio reception. It can be installed almost anywhere thanks to the supplied 105 inch antenna lead and power wire.

RA010 RetroSound hidden antenna 29.99 ea

The Smart Antenna

Get great reception antenna with the Smart Antenna. The antenna is totally self-contained using printed circuit technology and miniaturized components, coupled with high-quality manufacturing methods. You don't need an external rod, no drilling to install, no removal prior to car wash, concealed mounting prevents theft and also includes a lifetime warranty! Antenna cable measures 9 feet long!

SA20 fits all years!..... 19.99 ea

Power Antenna Assembly

Universal fit, service replacement antenna for classic or late model vehicles with power antenna option. Each motor is mounted directly to the mast assembly and is designed to mount with the universal fit bracket and cable that's included. Compact design is ideal for installations where space is limited. Operation is fully automatic, mast extends when radio is turned on and retracts when radio is switched off.

4 Colors to Choose From!

Your Choice of Horn Button!

14" Padded Leather Steering Wheel Kit

Replace the outdated, uncomfortable stock steering wheel in your Mopar with a modern, padded leather grip steering wheel and a classic center spoke design! The 14" diameter wheel is easier to mount and provides your dash with a unique sporty look available in black, tan, gray, or red. Kit includes everything you need to mount the wheel including, steering wheel, mounting hardware kit, chrome or brushed mounting hub, and choice of horn button and ring with either Mopar logo, Pentastar logo or Plymouth logo.

Important: These are for use with 1967-69 and 1973 Mopar B-Body or 1970-74 E-Body models using an Ididit steering column only. Must specify logo suffix on steering wheel kit: A - Mopar logo, B - Pentastar logo, C - Plymouth logo.

15" Grant Walnut Grip Tuff Wheel

This aftermarket wheel is similar to the Tuff Wheel Chrysler offered in the 1970's. Features a matte nickel finish, an original style horn button and has a dual bolt pattern (one for the original style Tuff Wheel adapter and one for a Grant installation kit, for a non-Tuff Wheel column). The hardwood walnut finish grip has a rich one piece look without the rivets. Measures 15" in diameter with a 1-3/4" dish. Includes horn cap.

Note: OE style hub #3467186, and horn switch with horn cap retainer #2996884, are available separately.

MW774	walnut finish grip	239.99 ea
-------	--------------------	-----------

15" Grant Molded Grip Tuff Wheel

Similar to the Tuff Wheel Chrysler offered in the late 60's, this wheel is a great choice for vehicles that were not originally equipped with the Tuff Wheel. Features a matte nickel finish, an original style horn button, and includes a dual bolt pattern (one for a direct replacement on the original Tuff Wheel style spacer and one for an installation kit for a non-Tuff Wheel column). The thick foam grip wheel measures 15" in diameter with a 2-1/2" dish. Includes horn cap.

Note: OE style hub #3467186, and horn switch with horn cap retainer #2996884, are available separately.

MW775	thick molded foam grip	144.99 ea
-------	------------------------	-----------

GT3 Retro Tuff Steering Wheel

Upgrade the look and feel of your steering wheel with one of these GT3 Retro Tuff steering wheels. These modern interpretations of the classic Tuff Wheel features steel spokes that have beveled edges and are clear coated and your choice of a black leather or dark walnut stained wood grip. Wheels also feature a dual mounting pattern and can be installed as a direct replacement or installed using a GT3 installation hub. Includes OE style horn button cap. Wheel measures 15" in diameter with a 2-1/2" dish.

Note: Requires horn switch #MW979 (sold separately) when using the horn cap with a GT3 installation hub.

1962-74 Tilt Column

Get an all-new USA made Flaming River tilt steering column for your Mopar and stop the search for a used or rebuilt original. Flaming River offers keyed and non-keyed slip adjustable tilt columns that can be used for a variety of Mopar applications from 1962-74. The column is an overall length of 45 inches including an additional slip shaft extension. This allows for 1-1/2" of slip movement and includes a universal joint for direct connection to the steering box. Each column includes new turn signal/hazard switch and female adapter plug kit for connecting to original wiring harness. All Flaming River columns are made from 304 grade stainless steel.

Note: May need to reuse mounting parts from old column or use a column drop for mounting column to dash. Horn relay, hazard kit and steering wheel adapter may be required (sold separately).

1968-76 Column Shifter Eliminator

Steering column collar shifter eliminator for all 1968-76 Mopar models. This collar is needed when converting from a column style shifter to a floor shifter. Manufactured from die-cast zinc with raw finish. Fits non-tilt/telescopic steering columns.

MP14050 1968-69 A & B-Body 134.99 ea
MP14053 1970 non-tilt/telescopic 184.99 ea
MP14054 1971-76 non-tilt/telescopic 184.99 ea

1967-76 Steering Column Inserts

Reproduction set of three piece steering column inserts/spacers. These inserts slide into column mounting bracket.

MP6522 1967-76..... 22.99 set

1968-73 Lower Steering Column Bearing

Replacement lower steering column bearing for various 1968-73 models. If this bearing has not been changed, it is now about 40 to 50 years old. Replacing it will help to eliminate unnecessary play in your steering column.

1968-70 Steering Column Jacket Support

Reproduction of the nylon supports that snap into the expanded section of the outer steering column and give support to the intermediate tube (shifter tube for column shift). These are designed for centering the tube in the column to prevent possible rattles and keep it from rubbing the actual steering shaft.

2925095 1968-70 A, B, & E-Body 13.99 ea

MW764

1971-74 Lower Column Seal Retainer

Replacement seal retainers for 1971-73 B & E-Body and 1974 Challenger. These retainers may have a split with a spring for installing the retainer without removing the steering column, others will be 1 piece. Seal retainers are available in white for the new look, or yellow for an aged look.

Low-Rider Floor Console

The Low-Rider floor console is designed to fit the transmission hump. Comes complete with two king size drink holders, a storage compartment with lid, and a convenient storage pouch for items like sunglasses, pens or cell phones. The Low-Rider storage compartment is sized to hold several CDs, cassette tapes or street maps. The Low-Rider console has a unique feature that allows it to fit several different size transmission humps. Underneath the "Low-Rider console" are 2 aluminum plates that can be easily adjusted to conform to just about any transmission hump. Measures: 17" x 8-1/2" (11" at cup holders) x 6" at cup holder, 4" at rear, with a 10" x 6" x 3" storage compartment.

Note: *Carbon fiber.

Eliminator Floor Mount Gas Pedal

The Eliminator floor mount gas pedal is crafted from billet aluminum and designed to eliminate routing cables through the firewall. It includes an adjustable aluminum splined shaft and stainless steel under the floor cable mounting bracket. Can be mounted in multiple positions for various floor and toe board angles.

Important: Requires a 36" cut-to-fit Lokar throttle cable. LSI, Ranjeri and Vortec applications require a 48" throttle cable.

1967-76 A-Body Billet Throttle Assembly

These 1967-76 Barracuda, Dart, Demon, Duster, Valiant, and Scamp billet aluminum throttle pedal assemblies are made to bolt into the factory mounting location on the firewall without any drilling or modification. Designed with an internal spanner nut to maintain perfect pedal tension, this throttle assembly eliminates the possibility of excess slip in the pedal. Lokar's curved brake and clutch pedal pads are fashioned after their OEM counterparts and feature hidden screws that allow them to bolt to the steel pedal with a clean finish. Offered in brushed or black finish with rubber inserts for style and functionality.
