

## OE AUTHORIZED Fuel Tanks

### Dodge and Plymouth Fuel Tanks

These reproduction fuel tanks are manufactured to factory specifications from stamped steel and are available in a variety of finishes to suit your build. Basic zinc coated steel tanks are a great value, offering strong corrosion resistance at a reasonable price. Ni-Terne steel tanks provide an OE quality appearance for discerning restorers. For show quality builds, stainless steel tanks offer superior corrosion resistance with a spectacular polished finish.

# Fuel Tanks

## 1968-74 Stainless Steel Gas Tank

Each tank is hand formed from 304 grade stainless steel and TIG welded. This tank features a unique baffles system running front to rear, side to side, and surrounding the fuel pickups to eliminate fuel starvation during acceleration, hard braking and to control fuel tank slosh. All fittings and mounting flanges for fuel sending units and fuel pumps are CNC-machined from 304 stainless steel stock to a thickness of 3/8" to ensure a proper seal. Tank includes an installed fuel pump and stainless steel mounting straps with hardware. All tanks have a brushed finish for easy up-keep.

**Important:** Sending unit is not included with tank. A 0-90 Ohm sending unit is required and available separately or any standard universal 5 screw mount 90 Ohm sender (Auto Meter, Stewart Warner etc.)  Image of item is a representation only. Actual part may differ slightly in cosmetics.

## Sniper EFI Fuel Tank System

Holley Sniper EFI conversion fuel tank system for 1963-76 Mopar A, B, & E-Body models. Each tank is galvanized and then powder coated to maximize corrosion resistance. Fuel pump and sender are recessed in the tank to provide an easy installation with no modification to your car. These tanks are a direct, bolt-in install for select most applications, capable of supporting 55 HP. The system includes the fuel tank, tank straps, a 255 lph fuel pump, internal baffling and a fuel level sender. Sender operates at the same 73-10 Ohms as the factory Mopar fuel level gauge.

**Note:** Shipped oversize.

**Exemptions Note:**  Non-CARB compliant (not legal for emission controlled vehicles).

## Gold Standard Fuel Tank Sealer Set

Our 3 step fuel tank sealer set contains almost everything you might need to seal a tank up to 25 gallons. The Gold Standard Tank Sealer is specifically formulated to stop rust and corrosion by forming a tough, fuel impervious coating while simultaneously sealing small pinholes and weld seams. The prep products are formulated to extend storage times by leaving a zinc phosphate film that prevents rust until you have a chance to seal the tank with the sealer. Complete set and individual items available.

<b>KBS 3 Step Fuel Tank Prep &amp; Sealer - Complete Set</b>				
Includes: 2 quarts of Clean (a water based, heavy-duty, cleaner/degreaser), 1 quart RustBlast (a powerful rust remover/metal etch), 1 quart Gold Standard Tank Sealer, gloves, instructions, and a stir stick.				
KBS3000	prep/sealer kit	for tanks up to 25 gallons	75.99	set

KBS Clean - Cleaner/Degreaser Only				
KBS Clean is a concentrated, water based, biodegradable formula that is an excellent alternative to flammable solvents and hazardous chemicals for preparing your paint job with a clean surface. KBS Clean is step #1 in the KBS 3 Step Tank Sealing System. KBS Clean is a powerful cleaner that deeply penetrates and removes stubborn soil from most surfaces without leaving harmful residues or emitting noxious fumes.				
KB2200	half pint (8 oz.)	cleaner/degreaser only	6.99	ea
KB2400	one quart	cleaner/degreaser only	13.99	ea
KB2500	one gallon	cleaner/degreaser only	25.99	ea

KBS RustBlast Rust Remover/Metal Etch Only				
KBS RustBlast is a powerful rust remover, zinc phosphate pre-primmer, and metal etch. RustBlast effectively dissolves rust, corrosion, metal oxides, and tarnishing from most metal surfaces. RustBlast will gently etch the surface and leave a zinc phosphate coating to extend a strong bond with any paint. KBS RustBlast is Step #2 in the KBS 3 Step Tank Sealing System.				
KB3200	half pint (8 oz.)	rust remover/metal etch only	9.99	ea
KB3400	one quart	rust remover/metal etch only	19.99	ea
KB3500	one gallon	rust remover/metal etch only	37.99	ea

KBS Gold Standard Fuel Tank Sealer Only				
KBS Gold Standard Fuel Tank Sealer is a superior, one part, ready to use fuel tank sealer that is specifically formulated to form a super tough, fuel and alcohol impervious coating, while simultaneously sealing small pinholes and weld seams. KBS Fuel Tank Sealer is Step #3 in the KBS 3 Step Tank Sealing System. May be used on steel, aluminum, and fiberglass tanks.				
KB5200	half pint (8 oz.)	sealer only	15.99	ea
KB5300	one quart	sealer only	24.99	ea
KB5400	one quart	sealer only	44.99	ea

## Driven Carb Defender

Driven Carb Defender Fuel Additive has been formulated to protect against harmful ethanol deposits and corrosion in fuel and the induction system. Special inhibitors resist expensive damage and reduced performance from moisture accumulation from modern ethanol blended gasoline. This additive controls combustion chamber residue, cleaning and protecting fuel system and intake tract surfaces to keep carburetors functioning properly. Carb Defender is ideal for everyday drivers or classics that spend time in storage between cruises and special events. One bottle treats up to 25 gallons of ethanol blended fuel.

## Fuel System Cleaner

Max-Clean targets and cleans deposit buildup in the intake system and combustion chamber and is effective on the entire spectrum of engines on the road. Deposit buildup is a natural consequence of fuel combustion, but can have significant effects on the performance and reliability of your engine. Royal Purple's Max-Clean can restore internal engine surfaces, recovering lost fuel economy and performance.

## 1968-74 Fuel Filter/Vapor Separator

Help prevent vapor lock by using the correct fuel filter/vapor separator on your 426 Hemi or 440 equipped vehicle the way the factory intended. This part mounts near the fuel pump and is designed to filter the fuel while simultaneously routing fuel vapor back to the fuel tank. Correct size, shape, mounting bracket, color and lettering make this a must for any serious Mopar project. Applications are available for a variety of 426 Hemi or 440 equipped 1968-74 B-Body and E-Body vehicles.

## 1963-74 Concours Fuel Hose Set

When authenticity is a top priority, you will want to be sure to install correctly marked fuel hose and clamps on your A, B, or E-Body vehicle. These concurs quality fuel hose sets feature "KV" and/or "KV-" marked hoses with crimp clamps and spring clamps. Front sets, rear sets or vehicle sets are available and come with a diagram outlining the proper placement of hoses. Rear and complete sets also include the correct 3-3/4" long ground strap for the fuel tank sending unit in stainless steel.

Note: Sets are only available with a 3-3/4" ground strap. Verify ground strap length before ordering.

# Fuel Lines

**Replace Your Fuel Lines with OEM Material for Originality or High-Quality, Long-Lasting, Stainless Steel Material!**

Each line is manufactured using a precision manufacturing process that creates the correct bends to match the factory original equipment. Couple these manufacturing techniques with your choice of material selection and you can be assured that you are installing the best fuel lines on the market. These lines are available for many A, B, or E-Body applications, saving you the hassle of having to bend up your own fuel lines.

*Note: All fuel lines are shipped double oversize.*

## 1963-75 A-Body Front to Rear Fuel Line

Applications are available for 1963-75 A-Body vehicles including 1964-69 Barracuda, 1963-75 Dart, Valiant, 1971-74 Demon/Dart Sport, Duster, and Scamp.

## 1968-70 Fuel Tank Vent Line

Correct replacement fuel tank vent tubes which extend from the fuel tank across the trunk. Each line is designed to OE specifications and is guaranteed to fit each specific application perfectly! Replacing your vent lines can improve your fuel system while retaining originality. Choose from OEM material lines which match the factory originals or stainless steel lines which resist rust.

## Electric Fuel Pump

We offer externally mounted Holley electric fuel pumps. They all feature the proven rotor and vane design and are available in ratings from 97 gph to 140 gph. The 97 gph "red" pump is set at 7 psi and does not require a regulator. The 110 gph "blue" pump is set at 14 psi and includes a regulator. The 140 gph "black" pump is also set at 14 psi and can be used for gas or alcohol fuel.

62541C

62531

## Electric Fuel Pump

These externally mounted electric fuel pumps are ideal for most street and strip applications. Proven rotary vane technology provides high flow and stable pressures with minimal vibration and sound. Each pump features 3/8" NPT inlets and outlets along with an externally accessible pressure relief valve.

**Note:** Not for fuel injected engines. Pumps that produce more than 7 psi should be used with a pressure regulator.  
**Emissions Note:** \* (C) Non-CARB compliant (not legal for emission controlled vehicles).

## Quiet-Flo Electric Fuel Pump

This anodized aluminum EFI fuel pump offers maximum performance in a compact package. Its rugged housing and high-quality internals make it both strong and durable.

The in-line design keeps the pump motor and components cool even under harsh conditions. Flow rate of up to 80 gph at 45 psi for use with high HP fuel injected applications. This fuel pump supports 835HP at 12 Volts with a current draw of 12 amps at 45 psi. 10AN inlet/outlet 80 gph at 45 psi.

E1790	6-7/8" x 3-1/4"	798.99 ea
-------	-----------------	-----------

## Fuel Pump Vacuum/Pressure Tester

Tests for fuel line pressure and vacuum leaks. Check for leaky valves, timing, fuel pump, vacuum, pressure and gas line leakage. Easy-to-read gauge with 3 foot hose and vacuum hose adapter fitting. Gauge measures vacuum from 0 to 28" HG in 1" increments. (0 to 700mm HG in 50mm increments). Measures pressure from 0 to 15 psi in 1/2 psi increments (0-1Kg/cm2 in .1 Kg/cm2 increments).

Y2300		27.99 ea
-------	--	----------

## Quiet-Flo Electric Fuel Pump

State-of-the-art electric fuel pumps offer maximum performance in a compact package for carbureted applications. Anodized aluminum housing and high-quality internals make it both strong and extremely durable. The E1791 electric fuel pump is factory set to 6.5 psi does not require a regulator.

3/8" inlet/outlet, 120 gph free flow, up to 600 HP. The E1792 electric fuel pump is preset to 12 psi and requires an external regulator. 1/2" inlet-outlet, 160 gph free flow, up to 1000 HP.

**Important:** For proper installation and voltage requirements, use fuel pump relay E1795.

E1791	6.5 psi	280.99 ea
E1792	12 psi	284.99 ea

E1791

## In-Line Electric Fuel Pump

This in-line electric fuel pump is continuous duty rated and is ideal for EFI applications that require additional pumping capabilities for upgraded modifications. Works superbly as either an in-line booster pump or as a stand alone unit. Use with EFI regulator part #E1728 for adjustability from 35 to 90 psi. 57 gph, 3/8" hose barb fittings. Includes mounting bracket and 3/8" hose barb fittings.

E3594		307.99 ea
-------	--	-----------

### Features:

- Solid-state worry free electronics
- Internal pressure regulating
- Universal design allows for easy installation
- No diaphragms or mechanical parts to wear out
- Hose barbs fit 5/16" fuel hose

## Micro Electric Fuel Pump

This compact electric fuel pump features a solid state design that has a low current draw of around one amp and makes a good stand alone pump or booster pump. Designed for carbureted vehicles with a 12 Volt negative ground electrical system, this pump supports 4-7 psi at up to 35 gph. Includes: fittings, mounting hardware, and instructions.

**Note:** Not for diesel applications.

71211		59.99 ea

# Electric Fuel Components

## Fuel Pressure Regulator

This fuel pressure regulator is machined from aircraft quality aluminum with fluoroelastomer diaphragm material for high temperature protection and extended life. This fuel pressure regulator has a single 3/8" NPT inlet and dual 3/8" NPT outlets for carbureted applications and is adjustable from 5 psi to 10 psi, providing extremely consistent pressure regulation. Compatible with all grades of gasoline and methanol, and has a 1/8" NPT gauge port. Includes mounting brackets and hardware. 160 gph.

E1727 ..... 181.99 ea

Edelbrock

E1728

E1729

## Fuel Pressure Regulator

For those who want the best! These fuel pressure regulators are machined from aircraft quality aluminum and have fluoroelastomer diaphragm material for high temperature protection and extended life. The E1728 features dual -6AN inlet ports, a single -6AN outlet and a -6AN external bypass. The E1729 has a longer body and dual -10AN inlet ports, a single -10AN outlet and a -6AN external bypass. Compatible with all grades of gasoline and methanol fuels. Adjustable from 35 psi to 90 psi and has 1/8" NPT gauge ports. 180 gph.

E1728 ..... 199.99 ea

E1729 ..... 204.99 ea

Holley

H12886

## EFI Fuel Pressure Regulator

Holley 3/8" die-cast aluminum EFI bypass fuel pressure regulators. These regulators are fully adjustable between 15-60 psi. They feature an EFI return port, an 1/8" gauge port and an 1/8" 1:1 boost reference port perfect for fuel injection conversions with or without power adders. 1/8" hose barb fitting included.

H12882 polished ..... 85.99 ea

H12886 black ..... 85.99 ea

## Billet Fuel Pressure Regulator

Holley

Holley billet aluminum bypass fuel pressure regulators. Each one is precision machined from 6061-T6 billet aluminum with a black anodized base and a clear anodized top. These regulators are fully adjustable between 4-60 psi for either carbureted or fuel injected applications. They feature a dedicated bypass/return port, an 1/8" gauge port and an 1/8" 1:1 boost reference port perfect for fuel injection conversions with or without power adders. 1/8" hose barb fitting included.

H12879 3/8" inlet/outlet ..... 179.99 ea

H12880 6AN inlet/outlet ..... 179.99 ea

H12880

## New! Universal Bypass Regulator

A dual purpose, universal regulator for EFI or for Carbureted street applications. Features pressure adjustable from 3 to 20 psi with standard spring, (installed) or from 20 to 60 psi with high pressure spring (included). Offers the full flow and rock steady fuel pressure that only a dynamic, Aeromotive bypass regulator provides. Capable of regulating any fuel pump between 100 and 250 gph, fuel pressure rises on a 1:1 ratio when referencing boost. All ports are 3/8" National Pipe Thread taper (NPT), with one inlet and three outlets on the main body and one return port on the bottom. Bypass design provides the ultimate, dynamic fuel pressure control.

Note: Requires a return line to be installed from the bottom of the regulator to the top of the tank.

Emissions Note: Non-CARB compliant (not legal for emission controlled vehicles).

3 Port 3/8" NPT  
A9713301 ..... 209.99 ea

## New! Carbureted Bypass Regulator

For use when converting from fuel injection to carburetion using the EFI pump in a carbureted application. Perfect for naturally aspirated or "blow-through" supercharged engines. Features base fuel pressure adjustable from 3-15 psi. 1 o-ring boss fitting (ORB-10) inlet port and 1 o-ring boss fitting (ORB-08) return port, fuel pressure rises on a 1:1 ratio when referencing boost, bypass design provides the ultimate, dynamic fuel delivery system, ideal for converting from fuel injection to carburetion using the stock, in-tank pump. EFI conversions will require a larger than stock return line for proper low pressure control. Includes two o-ring boss fittings (ORB-06) outlet ports and 1/8" National Pipe Thread taper (NPT) gauge port.

Note: Requires Army/Navy fitting (AN-08) return line from bottom of regulator back to top of the tank.

Emissions Note: Non-CARB compliant (not legal for emission controlled vehicles).

A9713204 2 port ..... 219.99 ea

## New! EFI Bypass Regulator

Performance EFI regulator designed for medium to high horsepower applications. This regulator features Aeromotive's high flow design, superb pressure control and legendary durability. Features base pressure adjustable from 40-75 psi, gasoline and alcohol compatible, fuel pressure rises on a 1:1 ratio with boost. 1/8" National Pipe Thread taper (NPT) gauge port. Includes 2 o-ring boss fittings (ORB-06) inlet ports and 1 o-ring boss fitting (ORB-06) return port.

Emissions Note: Non-CARB compliant (not legal for emission controlled vehicles).

A9713109 adjustable with EFI ..... 209.99 ea

## Fuel Pump Safety Switch

This safety feature is a must have for any electric fuel pump vehicle. This safety switch monitors the tach signal to limit when an electric pump can operate. When the key is first turned on, the fuel pump is allowed to run for three seconds, priming the fuel system. After that, it only operates if the engine is running. If the engine stops, so does the fuel pump. No plumbing into the oil lines or no extra priming button under the dash is required.

RE12003 ..... 64.99 ea

## Fuel Pump Safety Switch

This fuel pump safety switch shuts off fuel flow whenever oil pressure drops below 15 psi. This adds a safety factor in case of an accident or engine stall. Designed for 12 Volt electrical systems and can be teed into the oil pressure sending unit with an 1/8" NPT tee.

77872 ..... 29.99 ea

PAINLESS

## Universal Fuel Pump Relay Set

Choose from a standard fuel pump relay or a weatherproof fuel pump relay which is perfect for the harsh weather conditions. Weatherproof relay set provides complete protection from the elements and ensures reliable, dependable performance utilizing a heavy-duty weatherproof relay, weatherproof circuit breaker covers and extreme condition weatherproof shrinkable crimp-on terminals.

50102 standard ..... 31.99 set

30131 weatherproof ..... 47.99 set

## Fuel Pump Relay

Edelbrock

This universal fuel pump relay will ensure proper wiring which reduces the risk of damaging the fuel pump, and offers consistent fuel pressure. This relay is used with fuel pump part #E1791 or #E1792.

## 1962-76 Remanufactured Carburetor

Highest quality remanufactured carburetor for 1962-76 Mopar models with for 8 cylinder engines. Carburetors are available for Slant Six, LA V8, B series V8 and RB series V8 and available for a variety of applications. Choose from Holley, Carter, Stromberg, or Rochester carbs. Each carburetor is thoroughly remanufactured with the highest quality components and tested to ensure optimum performance and fuel economy.

Note: \*Features solenoid lever opposite the throttle arm.  
\*\*Does not feature solenoid opposite the throttle arm.

## Thunder Series Carburetor

Edelbrock Thunder Series carburetors share all the performance advantages of the popular Performer Series but with innovative new features. These carburetors include all of the performance features of the Performer Series carburetors and also include distinctive black hardware, dual fuel inlets (shipped with left side plugged), lightweight ball burnished and CNC profiled body, and the Quick-Tune secondary. They're available in 650 cfm and 800 cfm sizes with manual or electric choke. There's even a 650 cfm version specifically designed for off-road vehicles. These Edelbrock carburetors bolt-on and run right out of the box! Simply dependable, proven performance for almost any carbureted vehicle. All Edelbrock carburetors include an installation kit and owners manual.

**Emissions Note:** Ⓢ Non-CARB compliant (not legal for emission controlled vehicles). ⓈⓈ Non-emissions (50 states legal).

## Performer Series Carburetor

By design, Performer Series square bore carburetors are refined to provide the widest possible torque range when matched with Edelbrock Performer, Performer RPM, RPM Air Gap, or Torker II manifold and camshaft combinations. However, these carburetors are not limited to these applications, they also match well with most stock and other manifolds of similar design. Performer Series square bore carburetors are all aluminum, ball burnished and lightweight. There are no power valves to blow out or plastic parts to break. The 2 piece construction resists warping and the metering rods can be changed in seconds without removing the carburetor. All Edelbrock carburetors come with an installation kit and owners manual.

**Emissions Note:** Ⓢ CARB EO compliant (50 states legal). ⓈⓈ Non-CARB compliant (not legal for emission controlled vehicles).

# Performance Carburetors

## Street Series Carburetor

Street carburetors are constructed of lightweight aluminum, including provisions for a choke assembly and changeable idle air bleeds for easy, non-permanent calibration changes if necessary. Fine tuning is accomplished by simply changing air bleeds, not opening up calibration restrictions with a drill bit! These dual fuel feed inlet carburetors are hand assembled in the U.S. using the PROFORM high flow carburetor main body, durable billet metering blocks, aluminum fuel bowls, and a high-performance billet throttle base plate.

**Emissions Note:** Non-CARB compliant (not legal for emission controlled vehicles).

### ● Carburetor Main Body Features:

- Lightweight Aluminum – Not Heavy Zinc High Flow Center Section Design
- Flat Surfaces: CNC Precision Finish
- Changeable Screw-in Idle Air Bleeds
- Changeable Screw-in High Speed Bleeds
- High-Performance Down Leg Boosters exceed 650 cfm
- Electric Choke on Mechanical Secondary and Vacuum Secondary Models

### ● Fuel Bowl Features:

- Lightweight Die-Cast Aluminum
- Fuel Level Sight Windows
- Externally Adjustable Needle and Seat
- Dual Feed Fuel Inlet
- Notched Secondary Float

### Mechanical Secondaries

## Slayer Series Carburetor

The 600 and 750 cfm Slayer Series carburetors are designed with the same engineering and innovations featured on all QFT™ products. These affordable, vacuum secondary street carburetors feature all aluminum construction and hand built quality. They are designed with a secondary metering plate with changeable jets, eliminating the need for a costly secondary metering block. Get QFT™ race winning innovation for your vehicle at a great price.

**Emissions Note:** Non-CARB compliant (not legal for emission controlled vehicles).

- Changeable idle air and high speed bleeds
- 3 Stage emulsion circuits in primary metering block
- Changeable primary idle feed restrictions and power valve channel restrictions
- QFT™ QuickSet™ adjustment on the vacuum secondary housing that provides external adjustment of the diaphragm without changing springs
- Notched secondary float for use with jet extensions
- Secondary metering plate with changeable jets
- Fully adjustable electric choke
- Polished finish for superior good looks

## Hot Rod Series Carburetor

The Hot Rod Series of carburetors is designed for street applications. Made from lightweight aluminum castings and packed full of features, these carburetors are sure to make your hot rod run its best! Hand assembled and engine tested in the USA! Available in both vacuum and mechanical secondary configurations.

**Emissions Note:** Non-CARB compliant (not legal for emission controlled vehicles).

- Quick Set electric choke with one wire hookup for years of trouble-free starting.
- Dual inlet fuel bowls with Quick Set sight windows on both fuel bowls for easy and easy float level adjustment.
- Vacuum secondary carburetors have a Quick Set housing that is adjustable by simply turning a screw – no more spring assortments to keep up with torn diaphragms.
- 4 corner idle for smooth and efficient idle quality.
- Screw-in air bleeds for quick and unsurpassed tuning capability.
- Screw-in idle feed restrictions.
- Non-stick gaskets throughout for easy service.
- The QFT 4 door™ power valve with a strong diaphragm and blow-out protection in the throttle body.
- Universal throat lever with sealed throttle shafts for years of smooth operation.
- Full vacuum accessory ports for PCV, power brakes and timed spark advance.

## Street Series Carburetor

These Quick Fuel Super Street carburetors offer race performance in a lightweight, street friendly package. These carburetors are manufactured from aluminum and designed for maximum tunability through idle feed adjustment and power valve channel restrictions, as well as idle and high RPM air bleeds. Available with vacuum secondaries, which use fuel bowls with single sight glass windows, or a mechanical secondary design featuring dual inlet, dual sight glass 4500 style fuel bowls with links to tune the secondary opening rate.

**Emissions Note:** Non-CARB compliant (not legal for emission controlled vehicles).

- Changeable air bleeds idle and high speed for ultimate tuneability
- Aluminum fuel bowls with dual sight glass windows
- Billet metering blocks with changeable idle feed and power valve channel restrictions
- 4 corner idle system
- Notched secondary floats
- Secondary jet extensions
- Slabbed throttle shafts with Teflon bearing ribbons with stainless steel plates
- Billet aluminum throttle body
- Dog leg boosters/annular boosters mechanical secondary

# Carburetor Parts

## Carburetor Set

### Standard Rebuild Sets

These sets are just what you need to make your Holley carburetor perform like new again. They include: new gaskets, o-rings, pumps, diaphragms, needles and seats, power valves, and detailed instructions to help you step-by-step through the rebuilding process.

Note: Visit website for specific carburetor number applications of each set.

### With Vacuum Secondaries

**Holley**

## Accelerator Pump Cam Set

This set will allow you to "tailor" accelerator pump performance to the engine's actual requirements. Each cam has a different shape to give different results. The shape of each cam directly affects the accelerator pump stroke and pump capacity. A steeply rising cam shape will give a fast, heavy fuel shot right off idle. Conversely, a gentle sloping ramp will spread the pump action over a longer period of time.

H2012	includes 8 pump cams	39.99 set
-------	----------------------	-----------

H121135

H12140

## Accelerator Pump Squirters

We offer several sizes and styles of accelerator pump squirters. Choose from straight type or tube style to fit 4150, 4160, and 4500 series carburetors. All include 2 gaskets.

# Carburetor Parts

## Carter AVS Bracket and Dashpot Assembly

Excellent reproductions of the Carter AVS bracket, lever, and carburetor dashpot assembly used on all 1968-69 340, 383, and 440 four-speed applications. The kit includes: the formed mounting bracket, primary throttle shaft lever, 2 correct bracket mounting screws, and the dashpot assembly with jam nut. Parts are formed from correct gauge material and are cadmium-plated like originals. Dashpot includes correct manufacturing markings and all the details of an original part. These parts are almost always missing and actually help keep your car from stumbling when you suddenly lift the throttle! Reference Chrysler part #2933 141 for the mounting bracket. Used on Carter AVS carburetor #4424S, 4426S, 4428S, 4611S, 4615S, 4711S, and 4617S.

## 1966-73 Throttle Return Spring

Not only can incorrect throttle return springs take away from the appearance of your Mopar, they can also be downright dangerous if they do not have the tension and strength specifications for your application. Don't risk using incorrect universal springs that can cause unsafe or engine damaging conditions. These throttle return springs feature the correct number of windings for proper tension and are powder coated in correct colors for a long-lasting authentic appearance.

# Electronic Fuel Injection

MSD

## Atomic EFI Set

The MSD Atomic EFI set fits all engines making up to 525 horsepower at the crankshaft. The annular ring charge injection design produces a better air/fuel mixture and distributes it evenly among the cylinders. As a result, engines idle, start and drive better with the Atomic EFI set. Throttle bodies feature 80 lb injectors and a self-calibrating throttle position sensor. They also feature an internal fuel rail for no-leak, no-hassle fuel delivery. The master set is complete and ready to use out of the box. It includes the EFI throttle body, electric fuel pump, fuel line and filter with hardware, power module with wide band O2 sensor and handheld controller. Also available are the throttle body set which includes everything except for the fuel system components. Or purchase the fuel components separately.

**Note:** Atomic EFI sets are California emissions approved for carbureted General Motors vehicles 1987 and older. E.O. number D-722.  
**Emissions Note:** \* CARB EO compliant (50 states legal), \*\* Non-CARB compliant (not legal for emission controlled vehicles).

## HP ECU and Harness Set

Holley HP EFI ECU and harness sets are a "Plug and Play" alternative for stock or high-performance GM TPI and LS engines. This set includes: HP ECU, harnesses, communication cable, software, and a wide band O2 sensor designed to be used with GM engines with factory GM coils. The HP ECU is equipped with 4 programmable inputs and 4 programmable outputs allowing the user to configure the system to support a wide range of controls including boost control, progressive nitrous, water/mechanical injection, speed inputs, fuel pump control, AC inputs, timing retard inputs, and various other uses.

Emissions Note: Ⓢ Non-CARB compliant (not legal for emission controlled vehicles).

## EFI Fuel System Set

Holley EFI fuel system sets are available in a number of configurations, with and without fuel pumps or return lines. Every set includes 20 feet of 3/8" Earl's Vapor Guard fuel hose, a post filter, and the necessary fittings for installation. Sets with fuel pump include pre-filters and return style sets include an extra 20 feet of hose and a fuel tank bulkhead fitting.

Note: Additional components may be necessary for some applications.

# Hedman Hedders

## 1966-76 Hedman Hedders

Hedman Hedders™ for 1966-76 Mopar models. These headers are designed to replace the heavy and restrictive factory manifolds with lightweight, free flowing tubular steel manifolds. Each set of headers comes complete and is ready to bolt-on. Includes: collector and header to head gaskets, collectors and bolts. Will fit models with AC, power steering and either manual or automatic floor or column shift mechanisms. Get more performance from your Mopar without breaking the bank and do it with a name you can trust in the header business: "Hedman".

**Important:** Be sure to read the important notes listed on the bottom of this page pertaining to each header system for correct application.

Note: Shipped oversize.

Exemptions Note: Ⓢ Non-CARB compliant (not legal for emission controlled vehicles).

## 1967-74 Full-Length Stainless Steel Racing Headers

ARH full length stainless steel headers for 1967-74 Mopar B & E-Body vehicles. They are fabricated from aircraft quality T304 stainless steel and feature 3/8" thick round port flanges with hand ported inlets and fully welded custom sized merge collectors with scavenger with spikes standard. American Racing headers will provide excellent ground clearance and are a direct bolt-in installation for Challengers, Barracudas, Road Runners, and any other B or E-Body vehicle.

Note: \*With 2-1/2" Collector. \*\*With 3" Collector. †With 3-1/2" Collector.  
Emissions Note: † Non-CARB compliant (not legal for emission controlled vehicles).

## USA 1962-72 A & B-Body Long Tube Headers

Doug's Headers are carefully developed to fit each specific vehicle and engine application. They are tuned with the proper tube size and length to efficiently remove all the exhaust from each cylinder resulting in increased horsepower and torque. Every set features heavy-duty machined and finished flanges, smooth CNC mandrel bent tubing, and precision formed long transition collectors. Available in plain/uncoated Metallic Ceramic Thermal Barrier Coating (MCTBC), or Hi-Temp black coating.

Important: These headers are intended for off-highway use only and are not designed for California vehicles with pollution control devices. Be sure to read the important notes listed on the bottom of this page pertaining to each header system for correct application.

Note: \*For Reilly Motorsports Alter-K-Tion K-Member. Shipped overseas.

Emissions Note: †† Legal in U.S. (excludes California). † Non-CARB compliant (not legal for emission controlled vehicles).

## Socket Assist

Essential tool for bolts with tight clearance like spark plugs and header bolts! 12 point for maximum finger traction. Set of 3 including: 1/4" x 1/4", 1/4" x 3/8", 3/8" x 3/8" (12 point x socket drive size). These belong in every tool box.

67575 3 piece ..... 11.99 set

## Wedge Locking Header Bolts

PROFORM Grade 8 (12.9 steel), Hex type header bolts were designed to keep bolts from backing off. These permanently assembled bolts feature special washers with super hardened serrated teeth that, when torqued to 28 ft lbs, bite into and grab the bottom of the bolt head and the top surface of the header. After being self-locked in this manner, any bolt loosening rotation is blocked by a wedge locking action created by the washers interfacing, matching cams. Engine vibration increases the tension, making them even more secure! They are reusable and you can count on them to not fail. Available in different sizes.

Note: Image for illustration purposes.

## 1972 OE Style Air Pump Belt

Are your belts showing signs of deterioration? If so, it's time to replace them with our original style reproduction belts. Officially Licensed by Mopar, they feature indented imprinting of the correct Mopar part numbers, manufacturer's code, date code, Chrysler Pentastar logo and cloth wrapped. These authentic looking reproductions are the finishing touch to any restoration and a great way to gain points over your car show competitors. Available for 400 and 440 vehicles.

## Oxygen Sensor Plug

This plug seals the oxygen sensor bulb on headers and exhaust manifolds. Made from trivalent chromium-plated steel with a M-18 thread size to fit most stainless steels.

222734	M-18 thread.....	16.99 ea
--------	------------------	----------

## Oxygen Sensor Fitting

Weld-in oxygen sensor fitting for all fuel injection systems. Fits TBI, TPI, CMFI, LFI, LSX, 5.0L, and most other oxygen sensors.

**Important:** This part requires welding for installation. Professional installation is recommended.

60406	.....	7.99 ea
-------	-------	---------

## Dual Drive Oxygen Sensor Wrench

Tool includes both 1/2" and 3/8" drive. Attach a 1/2" breaker bar on the end of the tool to initially loosen stuck sensors. Use a 3/8" ratchet on the top for fast removal and installation. Fits oxygen sensor applications with a heat shield. Slotted body allows clearance for wire harness. Forged, heat treated steel with six point design will withstand high torque removal applications.

## 1967-71 B & E-Body H-Pipes

Replacement H-pipes for various 1967-71 B & E-Body models are engineered to fit and perform as original with nipple tubes welded in place but not drilled out. Features all factory flat spots, torsion bar clearance dents for an accurate appearance and are constructed from heavy 14 gauge aluminumized tubing for long-life and proper sound control.

**Important:** All of the exhaust pipes are manufactured to bolt-up to the original exhaust manifold. Modifications may be necessary for vehicles with aftermarket headers or engine transplants.

**Note:** Shipped truck freight.

## 1962-74 A & B-Body OE Style Replacement Muffler

Our OE style mufflers feature a long-lasting double wrapped aluminized finish that's effective against salt road winters. Manufactured to perform exactly as original and produce the correct sound tone, these mufflers are also the closest to the original in appearance available. High-performance mufflers feature a two pass three chamber design that allows for improved exhaust flow and a slightly more aggressive tone. Correct for 340, 383, and 440 (M code) applications and feature flat corner dents that the factory added for clearance.

**Note:** Any engine modifications will alter the sound of the muffler. \*18" Case, Replacement. \*\*Max Wedge, Replacement. †Replacement. ††Hemi, Replacement. †††Hemi, Performance.

## MWA High Performance Mufflers

The Gibson MWA mufflers delivers maximum sound and the best muffler flow period! This straight-thru design promotes exhaust gases to flow at the highest rates flowing only 3 cfm less than a 3" straight pipe, improving power potential while keeping interior drone to a minimum. The MWA muffler has no internal packing or weak baffles, allowing it to maintain a lightweight design with a unique and powerful sound. The MWA muffler is made in the USA and is constructed of high-quality stainless steel. When its time to make your Hot Rod or Sport Truck sound and perform as good as it looks, there is no other choice than Gibson's MWA, "Muffler With Attitude".

## CFT Superflow Mufflers

Gibson's CFT Superflow mufflers with Convergent Flow Technology actually tunes your exhaust by using resonance chambers, directional louvered tuning ports and angular induction to draw exhaust gases into the muffler and expel it at a higher velocity. The result is a muffler that doesn't have packing to wear out, yet delivers more power and a performance sound. This muffler features a chambered and louvered core, to ensure no sound degradation overtime, and fully welded solid internal construction. This result delivers more power with a deep tone.

# Mufflers

## Pypes Performance Stainless Steel Mufflers

Through extensive research and feedback from customers, Pypes has learned that no one muffler design is best. Every car is different, and everyone has different requirements. Different performance modifications change the sound and functionality of a muffler, so it's nice to have several different proven designs to choose from! One thing that is consistent with all Pypes mufflers is that they are high-quality, precision engineered and constructed which allow us to include a lifetime warranty!

**Street Pro**

409 - polished stainless

### Street Pro Muffler

Don't let the looks of this muffler fool you. At idle, you may cause passengers to grab for their seat belts, but upon acceleration, the smooth, authoritative tone turns apprehension into reassured confidence. This is a great street/strip muffler that will maintain its rich sound qualities for the life of the muffler because there is no filler to burn off. Recommended for stock to medium modified vehicles where an aggressive sound is appreciated without demanding undesirable attention. Muffler shell measures 4" x 9" x 14". Limited lifetime warranty.

#### 409 Stainless Steel

P1022	2-1/2"	inlet/outlet	offset/center	95.99 ea
P1023	3"	inlet/outlet	offset/offset	95.99 ea

**Race Pro**

304 - polished stainless

### Race Pro Muffler

Sometimes you just have to have the best of everything. When it comes to flow, you just can't get anything better than our Race Pro Muffler. This baby features a 'straight through' path with throughput that can flow 95% as efficiently as a straight pipe! The throaty sound is surprisingly tame considering the absence of any impedance when you look down its barrel. At idle and low RPM cruising, you will not draw much attention, but upon acceleration, bystanders lookout! The Race Pro's aggressive sound is the result of applying a layer of stainless mesh around a unique internal perforated tube, accompanied by a healthy stuffing of basalt insulation before the unit is sealed. Highly recommended for the track where every tenth counts. Of course, there are plenty of these mufflers hidden under some fine street machines, too! Muffler shell measures 4" x 9" x 14". Limited lifetime warranty.

P1034	2-1/2"	inlet/outlet	offset/center	117.99 ea

**Violator**

409 - polished stainless

### Violator Muffler

The Pypes Violator muffler has quickly gained acceptance and praise in the marketplace. It flows as much air as the Race-Pro muffler but has an incredibly distinctive chambered sound! The Violator's aggressive sound is the result of a unique internal louvered tube with mini sound deflector chambers. Finally, a muffler that flows like a straight through muffler but sounds like a chambered muffler. If you want to be noticed, then this is your muffler! Muffler shell measures 4" x 9" x 14". Limited lifetime warranty.

## Super HP-2 Muffler

Designed for street rods, customs and vehicles where undercarriage space is tight, the Flowmaster Super HP-2 provides the exhaust performance you need in a compact package that fits wherever you need it. The Super HP-2 has a moderate tone with the appearance, durability, and sound control to suit daily drivers, weekend cruisers, and world-class show vehicles. Available with a 409S stainless steel case or polishable 304S stainless steel case in sizes from 2", 2-1/4", and 2-1/2". Made in USA.

## Super 10 Series Stainless Steel Muffler

Looking for the most aggressive sound available?

Flowmaster's new Super 10 series mufflers are so aggressive, they aren't recommended for street driven vehicles. Best suited to racing applications, these feature the same performance technology used in the Super 40 and Super 44 series Flowmaster mufflers. These short, single chamber mufflers deliver the closest thing to open pipe sound possible. If you want high impact sound, the Super 10 series mufflers are the answer. Measures: 6-1/2" x 9-1/2" x 4".

*Note: These mufflers are recommended for off highway use, not for street driven vehicles.*

## FLOWMASTER 40 Series Performance Mufflers

**AMERICAN THUNDER**

- Aluminumized Steel
- Deep Flowmaster Tone
- Street Tone Inside Vehicle
- Street or Strip

### 40 Series — Original Flowmaster Tone

This is the most "aggressive" sounding street/strip muffler that Flowmaster offers. If you're looking for attention, this one will get you noticed. The standard 40 series has an "aggressive rumble" and will generally resonate inside the vehicle around 1800-2000 RPM's, and again at 2400-2600 RPM's. Constructed of 16 gauge aluminumized steel and fully MIG welded for maximum durability.

*Note: \* = 409S Stainless Steel.*

## FLOWMASTER Delta Flow 40 Performance Mufflers

**FLOWMASTER DELTA FLOW TECHNOLOGY**

- 209 Stainless Steel
- Powerful Aggressive Tone
- Lower Interior Resonance
- Street or Strip

### Delta Flow 40 Series — Reduced Interior Resonance

This two chamber design incorporates Flowmaster's patented "Delta Flow" technology. The "Delta" deflectors result in increased scavenging for better performance and reduced interior resonance over the standard 40 series with a nice growl outside the vehicle. Sounds great on late model performance cars with catalytic converters. Constructed of 16 gauge steel and fully MIG welded for maximum durability.

## FLOWMASTER Super 44 Delta Flow Mufflers

### Super 44 Delta Flow

The Super 44 is the most aggressive, deepest toned street and strip muffler Flowmaster has ever made! The Super 44's offer maximum performance, an improved flow path radius, and generates more power and more power than ever before! If you really want to hear your exhaust system inside as well as outside, the Super 44 is for you!

Note: \* = 4095 Stainless Steel.

## Flowmaster 50 Series SUV-Performance Mufflers

- Large Displacement Street Cars
- Early Era Muscle Cars
- Deep Tone Outside of Vehicle

### 50 Series — SUV-Performance

The SUV-Performance muffler is a larger version of Flowmasters 50 Series Delta Flow muffler and is specially designed for trucks, light SUV's and high horsepower vehicles. The larger H-chamber reduces interior resonance to a minimum. Constructed of 16 gauge aluminumized steel and fully MIG welded for maximum durability.

## FLOWMASTER 50 Series Performance Mufflers

- T400 Stainless Steel
- Milder Performance Sound
- Lower Interior Resonance
- Performance Street

### Delta Flow 50 Series-Milder Interior & Exterior Tone

This is the latest design of the 50 series muffler that utilizes Flowmasters patented "Delta Flow" technology along with an "H-Chamber" to eliminate most all interior resonance and still have that famous Flowmaster sound outside the vehicle. Constructed of 16 gauge steel and fully MIG welded for maximum durability.

## FLOWMASTER 80 Series Performance Mufflers

- Aluminumized Steel
- Aggressive Performance Sound
- Higher Interior Resonance
- Transverse Mounting

### Cross Flow 80 Series — Transverse Mounting

The 80 Series is designed for applications where the muffler must be mounted transversely (cross flow) behind the rear end. It provides an aggressive muscle car sound both inside and outside the vehicle. A replacement for early and late model vehicles. Constructed of 16 gauge aluminumized steel and fully MIG welded for maximum durability.

## Stainless Performance Exhaust System

Pipes exhaust systems deliver enhanced performance, provide extra punch in the passing lane, and improve gas mileage. Fabricated using the highest quality materials, 16 gauge, mandrel bent, stainless steel pipe ensures maximum exhaust gas flow, which can significantly boost horsepower. The stainless pipe and muffler construction resists corrosion and extends the life of their system. Pipes mufflers, X-pipes, and OEM style stainless tailpipes, are precision matched to deliver the ultimate in sound as well as performance. Cadmium-plated or stainless hardware and hangers are included. These systems can be installed without any special tools. Some cutting may be required. 2-1/2" crossmember back system.

**Note:** Shipped double oversize.

# Exhaust Cutouts

P1074K

## USA Universal Dual Electric Cutout Set

The optional electric exhaust cutouts and make uncorking your exhaust as easy as flipping a switch. Electric cutout set includes: 2 valves, wire harness, switch, mounting hardware, and 2 gaskets. Limited lifetime warranty. Available with or without Y-pipes. Made in USA.

**Note:** Connects to any 2-1/2" exhaust with a straight section of approximately 12" in length and enough clearance for the motor/valve assemblies.

**Includes 2-1/2" Y-Pipes (Dump Legs)**  
P1074K cutout set with Y-pipes..... 550.99 set

25057

## USA Stainless Steel Electric Cutout

These cutouts feature a rugged 12 Volt DC motor and rotating gate for a leak proof seal every time the cutout is opened and closed. When fully opened, these cutouts do not create exhaust flow obstructions that can create a leaky gasket sound, unlike butterfly style cutouts. A pre-wired harness with an illuminated rocker switch is supplied for easy installation. Uncork your exhaust with the flip of a switch from your dash. The cutouts are ideal for race tracks that don't require mufflers. Available individually, in pairs, or in complete kits with Y-Pipes for easy installation. Made in USA.

**Important:** Not recommended for vehicles equipped with catalytic converters.

**Emissions Note:** Non-CARB compliant (not legal for emission controlled vehicles).

## USA Stainless Steel Cutout Turndown

Easily route your cutout exhaust flow in any direction with these easily installed 304 stainless steel turndowns. These turndowns are made specifically for Doug's electric cutouts and included stainless band clamps for weld free attachment. Made in USA.

- 25058 2-1/2" turndown pipe ..... 54.99 ea
- 25059 3" turndown pipe ..... 54.99 ea

## Electric Exhaust Cutout

Don't crawl under your vehicle to uncork your exhaust ever again by switching to electric cutouts. Keep them closed and quiet for the street, wide open for the strip, or anywhere in between with the flip of a switch. You control the volume and the power! Available in sizes 2-1/4" to 4" and a low profile oval design for applications with limited ground clearance. Fits 2-1/4" to 3" round exhaust pipe. Built with high-quality materials CNC 6061 aluminum body and motor plate, stainless steel shaft and butterfly plate, high torque DC gear driven motor, weather tight wiring connectors, and custom illuminated toggle switch.

**Note:** Match valve size with cutout size for optimal fit and performance.

**Emissions Note:** Non-CARB compliant (not legal for emission controlled vehicles).

## Xtreme Temperature Coating

XTC is a high temperature/heat resistant coating formulated specifically to protect metal surfaces operating at temperatures from 500 to 1500 degrees F. With proper preparation, XTC provides outstanding adhesion, film integrity, weathering, and thermal shock resistance throughout this entire temperature range, and is guaranteed not to burn off. Available in your choice of a wide variety of colors and sizes.

**Important:** 8 oz. will coat approximately 3 sets of automotive exhaust manifolds with 2 coats or coat a set of shory headers with 2 coats. Pints will coat a set of full size headers with 2 coats or coat a complete automotive exhaust system with 2 coats.

**Note:** When ordering, select the part number for the size of the can you need, then add the two digit numerical color code to the end of the part number to specify your desired color.

## Hi-Heat Coatings

Thermo Tec exhaust insulating products work excellent as a paint directly on metal surfaces and can handle continuous temperatures up to 1200 degrees F. It is also recommended for coating exhaust insulating wrap. The coating will protect the wrap from abrasion and harmful liquid spills. Extra resins and binders toughen the surface and extend the life of the wrap.

**Note:** Shipped within the continental U.S. only. Shipped ground only.

# Exhaust Components

## Reduce Underhood Temperatures!

Increased exhaust scavenging is produced, along with lower intake temperatures. Exhaust insulating wrap withstands continuous heat up to 2000 degrees F., and contains no asbestos. Will not over insulate a system when properly installed due to a proprietary coating developed by Thermo-Tec® Thermal Conduction Technology (TCT) that conducts heat across the wrap's surface. The 1/16" thick wrap is available in 1 inch or 2 inch widths in 15' or 50' rolls. Choose from off-white or graphite black.

### Off-White Exhaust Wrap

## Reduce Underhood Temps Up to 70%!

The new quick wrap, high velocity exhaust jackets are an innovative way to insulate and block radiant heat. The jackets cover the header tubes vertically allowing for a consistent fit. The fit allows the exhaust system to expand as it comes up to operating temperatures without restrictions and provides air space for added insulation. This product uses Thermal Conduction Technology (TCT), developed by Thermo-Tec™, and can be applied with the headers in the vehicle.

TT1015	4-6 cylinder.....	74.99 ea
TT1016	8 cylinder.....	99.99 ea

## This Flexible Heat Shield Clips Into Place!

The header manifold blanket provides excellent heat retention for exhaust headers and manifolds. This flexible heat shield simply clips into place on the upper portion of the header. The fabric side of the material should be facing the heat source, and the aluminumized side facing away – offering protection from abrasion and harmful liquid spills. The header manifold blanket is available in 2 sizes: two 20" by 24" blankets for V6 and V8 applications, and one 36" by 40" blanket for straight 6 and 4 cylinder engines.

TT1017	V6-V8 applications.....	87.99 pr
TT1018	straight 6 or 4 cyl models.....	84.99 ea

## Vermiculite Coated Header Wrap

Insultherm header wrap is an extremely high temperature resistant wrap used to insulate hot gases in automotive exhausts. Manufactured from texturized fiberglass yarns that are woven into a strong, flexible wrap with vermiculite coating. Resists gasoline and engine chemicals and withstands temperatures up to 1200 degrees F (maximum continuous temperature of 1000 degrees F). Available in black or natural in 50' or 25' rolls.

## Turbo Insulating Set

The turbo insulating set is designed to protect and improve performance of the turbo. This universal set will help reduce turbo lag. The cut-to-fit set includes a substantial amount of material to cover turbos from the smallest automotive application to heavy-duty truck applications.

TT15002	6 or 8 cylinder set.....	139.99 set
TT15003	turbo insulation cover only	47.99 ea

## Shield Plastic or Rubber Hoses and Wiring from Radiant Heat!

Thermo-Shield protects hoses and wires from radiant heat. Unprotected, rubber hoses and plastic or rubber insulated wiring can dry out, melt or crack over time. Thermo-Shield is used in applications where it is difficult or not practical to disconnect one end of the hose or wire. The adhesive backed composite construction tape can easily be wrapped around the hose or wire to make a clean, professional appearance. Reflects radiant heat up to 2000 degrees F. Provides a barrier against the extreme conditions that underhood components are exposed to. Wrap your fuel lines and say good-bye to vapor lock.

TT1019	1-1/2" x 15' feet.....	18.99 ea
TT1051	2" x 50' feet.....	45.99 ea

## Floor and Tunnel Shield II

Ten mil aluminum bonded to woven glass fiber with a hi-temp adhesive backing. Designed to withstand temperatures up to 1750 degrees F. The adhesive backing adheres to almost anything white withstanding temperatures over 450 degrees F. Ideal for firewalls, floor pans, transmission tunnels, and under hoods.

**Note:** Cool-Tape recommended for seams and edges.

## An Extremely Versatile Heat Barrier™!

The Aluminumized Heat Barrier is made up of woven silica with a flexible aluminumized finish. The highly reflective surface of the material is capable of withstanding radiant temperatures in excess of 2000 degrees F. Installed using standard rivets with a backup washer, or with weather strip adhesive. The Snap Straps (sold separately) can be used to hold the blanket in place for manifolds or exhaust systems.

TT1008	36" x 40", 10 sq. ft.....	81.99 ea
--------	---------------------------	----------

## Keep Cool! Reflect Radiant Heat!

The Muffler/Catalytic Converter Heat Shield is made up of woven silica with a flexible Mylar finish. The highly reflective heat shield can be installed between the catalytic converter, muffler, or any other component to reflect radiant heat away from the undercarriage of the vehicle. Kit includes one 24" x 40" Mylar heat shield and all necessary fasteners.

TT1007	muffler heat shield.....	70.99 ea
--------	--------------------------	----------

## Clamp-On Heat Shield

The flexible Clamp-On Heat Shield blocks more than 90% of damaging radiant heat from the exhaust. Silica based clamp-on shields are available in 1', 2', and 3' lengths. Clamp-On Shields are available in 1', 2', and 3' lengths. Sets include all clamps and install easily in minutes.
