Mopar Production Figures

The Dodge and Plymouth passenger cars manufactured by the Chrysler corporation were some of the most popular and iconic vehicles produced during the Muscle Car era as shown by the production figures listed here. In an attempt to show the number of vehicles produced during these years, we have listed the specific model figures as closely as possible. The breakdown is not specific to body style or options. Other information on specific vehicles and model years and may be found in some of the literature offered by Classic Industries® in this catalog. The information provided in the chart is believed to be correct. However, the accuracy of these figures has not been verified by the factory or any other source.

	rs, we have listed the specific model figures as clo	sely as possible. The breakdown is

Service Excellence from the Restoration Leaders!

You No Longer Have To:

- × Pay excessive fees to protect your merchandise
- Contact the carrier yourself
- File a damage claim yourself to have the carrier inspect the damaged items
- 💥 Send the damaged items back at your expense

With Classic Industries® the worry is eliminated!

PROCEDURE FOR RETURNING SHIPPING DAMAGES

We handle the claim so you don't have to! If any part you receive is damaged during shipping and handling, simply contact our customer service department toll-free at 800.854.1280 within two business days.

After verifying the damage, Classic Industries[®] will issue a pickup call tag through the carrier that shipped the products. The carrier will pickup the damaged goods from your address and return them to us at no expense to you. After the product has been inspected, our customer service department will send a replacement part.

In order to ensure replacement of damaged products, please return items in their original hox and packaging. Failure to do so may result in the claim heing denied. Someone must be available at the pickup address to supply the damaged products when the carrier arrives. If the carrier in unable to pickup the products for any reason, the customer may be required to return the products at their expense.

Note: Some products are excluded from damage call tag pickup. Call a customer service representative for information about products that are not eligible.

Price Match Guarantee

If you find it for less we'll match the price!

Classic Industries* will much any competitors current advertised price for an identical product. Simply send us a copy of the competitor's current advertised price from a catalog, advertisement or website (with URL) and we! Imanch the price. The price match guarantee is available at the time the order is placed and for instock merchandise only. Price matching will be determined by a competitor's most current retail published price and is limited to competitors within the Restoration Industry.

Important: In an effort to provide our retail customers with the most competitive pricing available, we will match our current competitor's pricing. Price matching will be determined by a competitor's most current retail published price and is limited to competitors within the "Restoration Industry." Performance parts and special orders are exempt from price matching policy. Classic Industries" reserves the right to decline price matching if pricing is deemed to be a special offer, a sale or closeout price, or a non-current price. Competitors sale pricing, inventory reductions, close outs, special promotional offers, etc. may be exempt from the "price match" guarantee. The guarantee is subject to the terms and conditions of Classic Industries' current policies.

Classic Industries* will generally contact competitors to confirm that the published price is current due to market changes, demand or availability. Price matching supersedes all other promotional offers and on sale pricing. If Classic Industries* matches a price from a competitor, additional discourse on that product or products may not apply. If the standard retail price of a product is higher than the competitor's price and an applied discourt reduces the price below the competitor's pricing, the now discounted or sale pricing will prevail. We reserve the right to change or revoke this offer at any time without notice. Classic Industries* reserves the right to decline orice matchine.

Performer Intake Manifold

This Edelbrock Performer intake manifold is designed for street 253-304-308 c.i.d. Holden V8 engines. This Performer intake manifold is a dual plane design that is tuned for excellent throttle response from idle to 5500 RPM. The Performer Holden manifold has been designed to fit both cylinder head bolt hole patterns. Pilot holes have been drilled on each side of the exhaust crossover for early or late model cylinder heads and will need to be drilled out depending on application. The intake manifold will not fit EFI Heads (see #7594). It accepts both square-bore and spread-bore carbs. The manfold fits red/blue/black engines. It does not have a provision for external heat crossover. The intake manifold includes an Edelbrock square-bore carb adapter plate #2732, carb gasket, and carb studs.

Emissions Note: (3) Non-CARB compliant (not legal for emission controlled vehicles).
