Nylon Loop

1964-68 Mustang carpets sets are available in original 80/20 style loop and the less expensive 100% nylon style loop, which was original for 1969-73 models. We now offer our customers a lower priced alternative 100% nylon loop carpet, or for the restorer wanting originality, an original style 80/20 rayon loop carpet.

Note: 1964 Mustang carpet sets do not extend over the door sill area, this area was originally covered with vinyl. If you would like a carpet with sill area coverage order a 1965-68 carpet set.

- Molded to Fit Factory Floor Pan
- Available in Original Factory Colors
- Available with or without Mass Backing

FAQ: What Exactly is Mass Backing?

As part of the manufacturing process, a special latex coating is thermobonded to the back of the carpet to substantially increase the insulating and sound deadening properties of the basic carpet set. Then 36 oz. jute padding is attached to the underside of the carpet.

1964-68 Rayon Loop Floor Carpet

This Rayon is a revolutionary new carpet yarn utilizing modern textile chemistry that duplicate the appearance of original carpet used on classic cars. This carpet eliminates the problems of poor abrasion resistance and shedding of fibers, while providing excellent protection against color fading, offering a level of durability previously unavailable. All carpet sets include a correct reproduction heel pad and dimmer switch hole grommet. Jute padding is pre-attached to the underside of the carpet and optional mass backing.

Note: Please add two digit color code when ordering. Fastback models include the rear seat fold down carpet pieces when indicated.

1974-78 Cut Pile Carpet Colors

1974-78 Mustang II Cut Pile Floor Carpet

Manufactured to replicate the original style cut pile, this OER® Authorized premium, 100% nylon carpet is made using 40% more high-quality nylon than standard cut pile and is 50% heavier in weight for greater durability and a more luxurious feel. Like the original OE carpet, thick 36 ounce jute padding is also bonded to the underside, along with the correct color keyed heel pad. Each set is molded to fit your floor pan just like the original. This all new carpet eliminates the problems of poor abrasion resistance, shedding fibers and "fuzzing", while providing excellent protection against color fading, offering a level of durability previously unavailable. Simply looks better and lasts longer than the original! Made in USA.

Important: Due to variations in factory interior options minor trimming may be required.

OER AUTHORIZED Cargo Area & Door Carpet

FAQ: What Exactly is Mass Backing?

As part of the manufacturing process, a special latex coating is thermo-bonded to the back of the carpet to substantially increase the insulating and sound deadening properties of the basic carpet set. Then 36 oz. jute padding is attached to the underside of the carpet.

Ultra-Lite Insulating Mat

Ultra-Lite insulating mat was designed with the racer in mind. The new Heat Terminator is made of the highest quality insulating materials available today. The material is made of a highly textured aluminum composite surface on the one side, with a high temp silica felt center and a durable Mylar composite facing. The Heat Terminator uses Thermal Conduction Technology (TCT), developed by Thermo-Tec, and is available in six popular sizes.

Insulating Mat by THERMO-TEC

Battle excessive heat and noise that penetrate the driver compartment through the firewall and floorboards. The highly reflective Mylar reflects heat away from surfaces, while the foil side is orientated away from the heat source to conduct any penetrating heat across its surface thus providing the ultimate in heat protection. The silica blanketing is a dual density composite and is the main sound insulator. Easy to trim and can be applied with the push-in fasteners provided or any weatherstrip adhesive. Two sizes to fit your individual needs.

Adhesive Heat Barrier™

Adhesive backed, this Heat Barrier™ protects parts and components from radiant heat. Made up of woven silica with a flexible aluminized finish. The surface of the material is capable of withstanding radiant temperatures in excess of 2000 degree F. The adhesive backed composite construction material can easily be applied to any surface or wrapped around a hose or wire to make a clean professional appearance.

Super Sonic Acoustical Mat

This high-quality mat offers superior sound dampening control to reduce road noise, rattles, engine noise, and any other noises that are bothersome. The high density polyethylene film with an aluminum foil composite is abrasion and tear resistant. The gray film provides structural integrity and strength, allowing the material to bend, move, and return to shape even under tension forces. The product is 70 mil in thickness, contains a high temperature adhesive backing, and is easy to trim and fit. The rubberized compound is applied with the high temperature adhesive to absorb all those out of control noises.

Thermo-Guard FR

Thermo-Guard FR is a lightweight, durable shield that does everything: reduces sound, absorbs vibration, protects from radiant heat and provides an extra layer of insulated padding. The product features 100% polyester fiber felt that provides sound and comfort control and a high tech foil heat barrier that blocks more than 90% of radiant heat. Easy to apply and can be trimmed to fit anywhere. Available in two sizes with one or two foil sides. Designed to be applied with Thermo-Tec's Heavy-Duty Spray Adhesive.

Sportline Evolution X Racing Seat

The new Sportline series of seats by Corbeau features superior comfort, style, and support, plus top of the line injection molded foam, bolsters that hold you in the right spots, and harness capability. The Evolution X is a fixed back racing seat. Inspired by the C5/C6 Corvette where seating options are limited due to the small cockpit area, the Evolution X was designed to be a bit narrower, allowing it to fit in smaller vehicles. Each seat has a base height of only 2-1/2" between the floor and where you would sit. This is ideal for minimal headroom applications or for drivers wearing helmets. Seats feature black vinyl with carbon vinyl accents and are handcrafted with your choice of red or black offset stitching. Seats will fit up to approximately a 38" waist.

Note: Mounting brackets with seat tracks sold separately. Shipped double oversize.

Sportline RRB Racing Seats

The Sportline series of seats by Corbeau have a look and feel that is second to none. RRB seats feature thigh bolsters that come into contact with the back of the seat. This gives you that racing bucket look of a fixed back seat, while maintaining the convenience of a reclining seat. Each seat has a base height of only 2-1/2" between the floor and where you would sit. This is ideal for minimal headroom applications or for drivers wearing helmets. Seats will fit up to a 38" waist. Weight is 26 lbs per seat. Sold in pairs.

1964-04 Seat Mounting Adapter

Seat adapters are designed to make the transition from original seats to Procar seats easy by replacing the original seat track. The Procar adapter attaches to the seat track sliders which are bolted on the base of the Procar seat. Once the adapters are attached to the sliders, you can bolt them to the floor. Each adapter is designed to allow the seat to be installed for each year listed.

1964-73 Touring II Seats

The support, detail, and value that the Touring II seats offer is simply unmatched by any other seat. Touring II seats are manufactured using the proven Procar® seat assembly and covered in high-quality, restoration grade upholstery that mimics the original designs and details. The steel seat frame is TIG welded and EDP coated

for strength and durability. The seat back offers 20 reclining positions and includes an 18 position sliding seat track for a whole new level of adjustability and comfort. Seats include optional headrests (not pre-installed on seats). Rear seat upholstery sold separately. **Important:** Requires Procar mounting adapters, sold separately.

1964-73 Seat Mounting Adapter

Seat adapters are designed to make the transition from original seats to Procar seats easy by replacing the original seat track. The Procar adapter attaches to the seat track sliders which are bolted on the base of the Procar seat. Once the adapters are attached to the sliders, you can bolt them to the floor. Each adapter is designed to allow the seat to be installed for each year listed.

Dome Lamp Dimmer

Soften the interior lighting of your muscle car. The standard dome lamp dimmer keeps the lamp on an extra three seconds then slowly fades off, instead of simply switching off. The dimmer fades when the doors shut, if the ignition power is off, the lamp delay is 10 seconds, but if the power is on, the lamp fades when the doors shut. The deluxe dome lamp dimmer can also be installed in a way that the lamp softly brightens when the doors open. These devices easily install on most applications and can be mounted in any location where electrical connections are easily accessible.
