YellowTop Battery

With premium cranking power, low internal resistance, and unparalleled cycling capability (rechargeability), the YellowTop AGM battery is a true dual purpose automotive battery. It handles deep power drains and recharges to full capacity so it can power plenty of electronics and still start the engine time after time. Perfect for vehicles with multiple electronic systems or high demand audio.

Battery Cables

14302K

14302A

14302A - detail

1964-67 Reproduction Battery Cable Set

Includes: battery to relay, battery to ground, and relay to starter cables. Features original coloring, boots, and markings. All cables are marked with line printing as originally done, correct font, and lettering styles are used. The cables are identical to what would have been on your vehicle when it was delivered to the dealer. Cables are made right from the original factory blueprints, where appropriate, brass or lead heads are used. The insulating material used is the correct SAE spec non-flammable material.

Note: Do not clean cables with *Armor-All* or other products that contain solvents. We recommend cleaning by using very diluted soapy water solution on a damp cloth with very light pressure.

BM2428

BM2427

Battery Mat — Acid Neutralizer

The Battery Mat offers protection against undetected battery acid leaks. Once installed, the mat will trap and neutralize any battery acid that leaks from the terminals or top side of the battery, preventing corrosion and expensive damage. Each mat is made of super absorbent polypropylene needle punch felt, with one side heat treated to give it additional strength. The mat is inserted under the battery between the battery and the battery tray. It can easily be installed at any time either when replacing the battery tray or battery.

BM2427 yellow mat 6.99 ea
BM2428 black mat 7.99 ea

Battery Carrying Strap

This handy tool is a must for your tool box. Allows you to easily carry bulky automotive batteries without getting acid on your clothes and hands. Each end is marked and sized fit to the positive or negative terminals allowing a secure, tight fit onto the post. Battery acid won't harm the strap! For top post batteries only.

X205 carries top mount 7.99 ea

Acid-Neutralizing Battery Heat Barrier

Prolong battery life and protect your vehicle's battery tray, underhood and radiator support area with the world's only acid-neutralizing heat barrier mat. It reflects over 90% of radiant heat, traps and neutralizes battery acid, protects against corrosion, is recyclable, and is inexpensive and easy-to-install. The Battery Heat Barrier™ set is completely safe to handle before and during installation. So effective, it is used by all branches of the United States military. Set consists of: one 8" x 40" acid absorbing/neutralizing felt and one adhesive backed 8" x 40" aluminum thermal barrier to wrap around the battery, plus an 8" x 12" acid absorbing/neutralizing pad to put beneath the battery. Install one on your vehicle NOW, before it's too late.

TT1001 battery heat shield 31.99 set

Battery Lifesaver — Corrosion Remover

Lead acid batteries will discharge, deteriorate and die without regular use or recharging because of corrosion and sulfates on the plates. This module, developed specifically for vehicles that are not driven on a regular basis to keep their battery fully charged, will actually recover lost battery capacity by removing plate corrosion, and in turn, extend battery life up to double or triple the normal life span!

New!

Side Terminal Battery Wrench

Make life easier with this reverse able ratchet. Fits standard 5/16" side mount battery bolt.

W21020 5/16" 5.99 ea

Battery Terminal Spreader & Cleaner

Clean and spread battery cable terminals with this pliers type tool. Sharp teeth effectively clean corrosion from clamp. Squeeze handle to spread clamp.

X204 24.99 ea

Battery Nut Pliers

Easily loosen and tighten nuts on battery terminal clamps. Handles are offset for working in cramped areas. Serrated jaws are designed for sure grip.

X203 19.99 ea

Battery Cable Crimping Tool

No matter what the size of your battery cable job, this is the tool that will make quick work of it. By simply selecting the proper size to match your crimp and aligning the star with the battery lug in your vise, you will gain a professionally strong and conductive crimp every time!

500665 10.99 ea

Battery Terminal Puller

This handy tool is used to remove battery terminal clamps without damage to the battery posts. By simply placing the jaws of the puller under the battery cable clamp, tighten the screw until the clamp is removed. Great for removing corroded battery terminals.

Y54000 professional level puller..... 21.99 ea

post and terminal tool

X201 - plastic

Battery Post Cleaning Tools

This handy little device will help keep your battery posts clean and free of corrosion. Won't corrode or soften in cleaning solutions. Includes external brush for cable clamps and an internal brush for battery terminal posts.

X201 high impact plastic..... 4.99 ea
X206 heavy-duty steel..... 4.99 ea
X2173 post and terminal tool..... 9.99 ea

Wiring Harnesses

RON FRANCIS
FORDALIA

Features:

- For V8 or 6 cylinder engines
- Ford alternators (ext. regulator)
- Adds turn signals and third brake light
- Factory or aftermarket columns
- Accepts electronic fuel injection or carbts (EFI separate harness)
- Includes firewall connector cover
- Electronic, Dura Spark, or points distributors
- New headlight switch included
- Freedom of panel installation locations
- Back-up light wiring included for upgraded Mustang models

detail

1964-73 Mustang Wiring System

Upgrade your vehicle's wiring with Ron Francis Ford Series EXPRESS wiring system for 1964-73 Mustang models. The EXPRESS is a small fuse panel. Includes all of the wiring needed to pass most state inspections, fire the engine, gauges, third brake lights, room for air conditioning, power windows, and power locks. Stereo radio memory for digital systems and all the toys you might want to add.

Note: If you are using the factory Ford alternator, you will need part #V888 voltage regulator. Not compatible for one wire or newer alternator models.

A49038 1964-73..... 530.99 set

1986-95 Engine Wiring Harness

Painless Performance EFI engine harness for the 1986-95 Ford 5.0 HO engines with mass air. Included with this harness is an 8 circuit modular fuse block and Ford color coded wires with labels for easy installation. The standard length harness allows 4 feet from the back of the intake manifold to where the fuse block and ECM mount, the extra length set allows 8 feet. Only compatible with 1989-93 MAF and Distributor, 1986-88 Mustang models must convert to MAF. 1994-95 Mustang models have to modify TPS wiring and charge distributor. Harnesses do not include all the original connections for the original emissions.

| | | | |
|-------|---------|-----------------|------------|
| 60510 | 1986-95 | standard length | 514.99 set |
| 60511 | 1986-95 | extra length | 599.99 set |

1965-70 Chassis Wiring Harness

Painless Performance chassis wiring harness for 1965-70 Mustang models. This 22 circuit direct fit harness is ready-to-install right out of the box with many of the factory connector pre-installed. This harness uses our unique covered micro-fuse block. It features a modern micro-fuse block with an auxiliary circuit with 20 amp relay for accessories such as fog lights, or an electric fuel pump. Each wire is custom printed with the circuit identification as well as using Ford color codes for easy installation. Set is intended for vehicles without EFI or electronically controlled transmissions.

Important: Will not fit 1964 Mustang models.

Tremec T-56 All-In-One Harness

The All-in-One harness solution for the Tremec T-56 Magnum transmission comes equipped with all the connections pre-wired into one harness. The small epoxy sealed controller is mounted to the VSS output using the existing bolt, and once the unit is powered up you will be able to connect via Bluetooth to your Apple or Android smartphone using (Bowler Transmissions) free APP. The APP will give you the ability to customize the input and output settings for each feature to ensure proper operation in your vehicle. This harness eliminates the need for any additional equipment to operate the reverse lockout or generate the correct speedometer signals coming from your Tremec T-56 Magnum.

A9800226 294.99 ea

1965-73 Neutral Safety Switch

Also known as the back-up lamp switch, the neutral safety switch disables the starter operation when the transmission is not in neutral or park.

Wiring Harnesses

PAINLESS

30816

Aftermarket Halogen Headlamp Harness

Some factory headlamp wiring is not designed to handle high power Halogen headlamps, especially when upgrading to a higher wattage. Our headlamp harnesses draw power directly from the battery, through a relay, to the headlamps, providing full power to your H4 conversion headlamps or Halogen sealed beams. They are made with TXL high temp wire, weather resistant 30 amp fuse, and two 40 amp weather resistant relays capable of handling up to 150 watts. #30815 and #30816 are for use on vehicles with a 2 headlamp system using dual filament sealed beams or H4 headlamp conversions. 30817 is for use on vehicles with a 9005 and 9006 bulb on each side.

Universal Wiring

Modular Fuse Panel Systems

Each universal fuse panel is constructed in heat resistant nylon and features anti-push back locks and single side wire access with self-locking, screw down connections. Includes a starter/alternator 175 amp mega fuse for extra protection. The panel is fed through an 8 gauge power feed wire and features a battery and accessory stud connection. Includes: color coded wiring for ignition, alternator, headlight, steering column, accessories and gauges, relays, fuses, flashers, circuit breakers, and all necessary power connections and terminals. Also includes a full color schematic and step-by-step instructions.

15 Circuit Harness Includes:

- Composite Panel Base
- Nylon Panel Components
- Color Coded Wire
- Easy-to-Read Wire Labeling
- Self-Locking Screw Clamp Interface
- 8 Gauge Alternator Feed
- 175 Amp MegaFuse
- Full Color, Step-by-Step Instructions

Highway 15 Modular Fuse Panel System

Features 15 power outputs in 8 fuses and 1 circuit breaker. Gauge cluster disconnect for easy maintenance. Includes: ignition, headlight, and dimmer switches. 510825 15 panel connections 434.99 ea

10/20

10220

Universal Trunk Mounted Chassis Wiring Harness

In many street rods and custom cars there is little or no room to mount the fuse block under the dash, forcing modifications to either the vehicle or the harness. Our 12 circuit trunk mount wiring harness provides additional wire from the fuse block to the dash and from the fuse block to the front end, allowing the remote installation of the fuse block in the trunk or behind the rear seat. Like all Painless kits, these fuse blocks come completely pre-wired and terminated for a simple, painless installation. Includes GM column mounted ignition and turn signal plugs.

14 and 20 Circuit Universal Fuse Block

Use these 14 or 20 circuit OEM style pre-wired fuse blocks to replace your existing fuse block or as a starting point for custom wiring. All you have to do is terminate your circuit wire and attach it to the fuse block. Pre-wired and labeled for the following circuits: Air conditioning/heat, gauges/dash instruments, brake lamps, headlamps, coil, horn, dome lamp, radio, electric fan, turn signals, emergency flashers, wipers, and alternator. The 20 circuit fuse block also includes circuits for power windows, door locks and other optional accessories. Kits include: mounting bracket, fuses, flashers, horn relay, terminals, and full instructions.

Important: No wire included with these kits.

Express Sleeve

Express sleeving is a combination of a high temperature insulation material and a highly reflective Mylar foil with a Velcro closure. The sleeving is designed to simply and effectively protect wire, hoses, and cables from harmful effects of radiant heat. Just pull apart the Velcro, wrap around the wire, and re-close the sleeve. Express Sleeves reflect over 90% of radiant heat bursts up to 2000 degrees F, and can easily withstand direct temperatures up to 750 degrees F.

shrinkflex

Fabric Heat Shrink Tubing

Shrinkflex fabric tubing is the only product of its kind. The unique weave of poly olefin and polyester easily installs over wiring harness bundles, connectors and splices, as well as rubber hoses and plastic pipes. When heated to 176 degrees, it shrinks to 1/2 the original diameter while remaining flexible, even at high temperatures!

Semi-Rigid Wrappable Split Braided Tube

Clean up and protect any wiring harness with this black braided wire wrap. The semi-rigid tube opens along a lateral split to accommodate a variety of harness configurations, then simply closes without any need for fasteners. A 25% overlap ensures complete coverage. Retains shape and rigidity from -94 degrees to 257 degrees F. For 18-14 gauge wire.

XT100

XT101

XT102

XT103

X-Treme Tape

X-Treme Tape was developed for the military and has some very unusual properties. The silicone based tape will stick only to itself, and only when placed under tension. Once wrapped around an object, it forms a non-conductive, air and watertight, insulating seal that remains flexible within a temperature range of -60 degrees to 500 degrees F. Insulates to 8000 Volts. Stretches to 3X's its length. Conforms to irregular shapes. When wrapped upon itself, it bonds together immediately and becomes completely fused after 24 hours at room temperature.
