Get The OER® Advantage. . . It's Almost Unfair!

Authentic Quality Reproduction Parts for Classic American Muscle

ORIGINAL QUALITY • ORIGINAL APPEARANCE

Original Fit

Appearance is extremely important in reproduction parts, but just as important is the way the part fits. You will appreciate OER® reproductions. Parts are designed to fit as closely to the original as possible. Each part is checked and rechecked to ensure proper fit and function.

Superior Quality

It's one thing to manufacture a reproduction part, it's another to duplicate the quality. OER® uses the finest quality materials and workmanship to ensure the finished part meets or exceeds original equipment specifications. In fact, many OER® products are superior to the original.

Authentic Appearance

Each OER® part is manufactured to original specifications, down to the smallest detail. Consistent quality control methods ensure an exact duplicate every time.

OER® Officially Licensed Products

Many OER® products are officially licensed by the original manufacturers, assuring the highest quality reproductions available.

Classic Industries® Has More To Offer!

**Service Excellence
From the Restoration Leaders!**

Price Match Guarantee

If You Find a Product for Less, We'll Match the Price!

Classic Industries® will match any competitor's current advertised retail price for an identical product. Simply send us a copy of the competitor's current advertised price from a catalog, advertisement or website (with URL) and we'll match the price. The price match guarantee is available at the time the order is placed and for in-stock merchandise only. Price matching will be determined by a competitor's most current retail published price and is limited to competitors within the Restoration Industry.

Money Back Guarantee

100% Satisfaction or Your Money Back!

We take pride in the quality of the products we offer and back it up with a 100% Money Back Guarantee. If for any reason you are not satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit, or exchange.

Online Instructional Videos

Visit ClassicIndustries.tv to View Our Online Video Library

Need a little guidance to help you install the restoration parts you purchased? Then cruise over to Classic Industries® new video media website, www.classicindustries.tv where you can watch a library of how-to videos created by our own expert staff, guiding you through the installation processes for upholstery, headliners, and more.

Technical Support

Call 1-800-854-1280, extension 5390 for more information

Our tech representatives are ready to help you with all your restoration questions regarding parts or accessories, but we don't stop there, we can help answer questions you may have concerning the detailed areas of your restoration! Our tech representatives consist of some of the most knowledgeable restoration experts in the business. We don't claim to have all the answers but we've been doing it longer than anyone. Chances are we've heard the questions you need answered before. If nothing else, we can probably steer you in the right direction. We continually train our staff in all aspects of early and late model restoration and pass the information along to you!

California Residents — Prop 65

Prop 65 requires businesses that manufacture and/or sell products in the State of California to inform consumers which items contain chemicals known to cause cancer and/or reproductive harm.

Symbols of Quality

OER® Original Equipment Reproduction

The leader in quality reproductions is here! OER® stands for Original Equipment Reproduction®. When you see the OER® logo, you can be assured that every part is manufactured to exact factory specifications and will fit and function just like the original part. What's more, many OER® products are officially licensed and carry a full one year warranty against defects and workmanship.

OER® Authorized Products

The OER® Authorized logo represents products that meet or exceed stringent OER® quality control standards. These items have been sanctioned and approved by OER®. Most of these products are prepackaged with the OER® Authorized logo.

OER® Premier

Count on the OER® Premier logo to denote parts that are outstanding in fit, craftsmanship, and manufacturing techniques. Each and every product displaying the Premier symbol is the best the market has to offer, and a cut above the competition. Order with confidence when you see this symbol, as OER® Premier is the true sign of originality and quality.

The GM Restoration Parts Emblem

It's the true sign of originality and quality. You can be sure that every product you receive will look and fit exactly as the original did. Parts that display this emblem are Officially Licensed by General Motors as a genuine restoration product. Classic Industries® is currently licensed for many of the products listed in this catalog. The same products we've been manufacturing for years. We haven't changed our methods or quality and the GM Restoration Parts emblem is proof. The GM Restoration Parts emblem is a registered trademark of General Motors and used under license to Classic Industries® Inc.

Classic Industries® The Restorer's Choice™

Count on the Classic Industries® Restorer's Choice™ symbol whenever purchasing reproduction parts and accessories. You can be sure that each and every product displaying this symbol is manufactured correctly to exact specifications and fits the way the factory intended. This Classic Industries® symbol is your assurance of quality.

Made in USA

Classic Industries is proud to offer American products for your American classic. Wherever you see this MADE IN USA symbol, you know you're receiving the highest quality parts, sourced from the skilled craftsmen of the United States of America.

PRODUCT EMISSIONS GUIDE

50-State Legal: These products currently have a California Air Resource Board (C.A.R.B.) Executive Order (O.E.) number. They meet the emission standard for use on pollution controlled vehicles in all of the 50 United States for the vehicles listed on the E.O.

For Racing Use Only: These products are intended to be used on vehicles that are exclusively designated for racing use only. They are not legal for use on vehicles that are registered for street use.

For Use On Pre-Pollution Controlled Vehicles (PPCV): These products are legal for use on pre-pollution controlled vehicles. They can be used on all vehicles that were manufactured before emissions control regulations were imposed. These are considered "uncontrolled vehicles".

1965 and older U.S. manufactured California Certified vehicles
1967 and older U.S. manufactured Federally Certified vehicles
1967 and older Foreign manufactured vehicles

Stock Replacement Part: These products are manufactured to exact specifications of the Original Equipment (OE) part. They must be used on the specific year, make, and model for which it is listed.

Engine Swaps: These products are intended to be used with engines that have been transplanted or swapped into an uncontrolled or pre-pollution controlled vehicle, as defined above. They are not legal for use on pollution controlled vehicles.

The Economical Way to Protect Your Investment!

Diamond Blue™

- ★ Indoor Use
- ★ Single Layer Material

Designed for indoor use, OER's Diamond blue covers are manufactured using an economical single layer non-woven material that offers excellent protection from dust and dirt penetration. Each cover is sewn with double stitched seams to add strength and durability to the cover and Neoprene elastic is sewn into the front and rear hems to help secure the cover. Breathable and lightweight, Diamond Blue offers basic protection from water and guards against damage from dust, dirt, overspray and similar environmental elements. Mirror pockets are featured on both sides of the cover when applicable, for vehicle originally equipped with dual sport mirrors. Covers feature non-scratch grommets installed onto each side of the cover to allow the use of a tie strap or lock.

Diamond Fleece™

- ★ Indoor/Outdoor Use
- ★ Triple Layer Material

Designed for indoor and occasional outdoor use, OER's Diamond Fleece cover is manufactured using a durable 3 layer non-woven material that provides excellent protection from dust and dirt penetration. Each cover is sewn with double stitched seams to add strength and durability to the cover and Neoprene elastic is sewn into the front and rear hems to help secure the cover. Breathable and lightweight, Diamond Fleece offers water resistance and prevents damage caused by the sun's UV rays. Mirror pockets are featured on both sides of the cover when applicable, for vehicle originally equipped with dual sport mirrors. Covers feature non-scratch grommets installed onto each side of the cover to allow the use of a tie strap or lock.

OER AUTHORIZED Nova Car Covers**FREE**Look Kit and Storage Bag
With Car Cover Purchase!
A \$20.00 Value!*The Ultimate in Outdoor Protection for Your Vehicle***Gust Guard™ Cover Clamps**

The Gust Guard™ is the easy solution for keeping your car cover in place in windy conditions! If you need to leave your vehicle covered for extended periods of time (airport, vacation, etc.) in locations where wind gust could be a problem, this set is the answer. Includes: four adjustable hem clamps, two "Quick Grip" friction locks and two 7' long white cords. These components clamp to the hem in front of the front tires and behind the rear tires. When wind gets under the car cover, the Gust Guard™ helps reduce the possibility of the cover coming loose.

CV7001 14.99 set

cotton flannel

Cotton flannel car covers pamper the vehicle's finish with a soft nap underside

- ★ Indoor Use
- ★ Cotton Flannel Material
- ★ Soft Nap Underside

Favored by classic car collectors that garage their vehicles, OER's SoftShield cotton flannel car covers pamper the vehicle's finish with a soft nap underside that protects even the most delicate surfaces. Designed exclusively for indoor use, the SoftShield cover is soft on paint while providing a barrier against dust and protection against nicks and dings while the vehicle is being stored. Each cover is sewn with double stitched seams to add strength and durability to the cover and Neoprene elastic is sewn into the front and rear hems to help secure the cover. Mirror pockets are featured on both sides of the cover when applicable, for vehicle originally equipped with dual sport mirrors. Covers feature non-scratch grommets installed onto each side of the cover to allow the use of a tie strap or lock. Your choice of gray or tan flannel.

Note: Please add 2 digit color code when ordering.

1962-79 Molded Carpet Sets

AUTHORIZED

**Now Available
 with or without
 Mass Backing!**

FAQ: What Exactly is Mass Backing?

As part of the manufacturing process, a special latex coating is thermo-bonded to the back of the carpet to substantially increase the insulating and sound deadening properties of the basic carpet set. Then 36 oz. Jute padding is attached to the underside of the carpet. Mass backing is available as an option for molded carpets only.

1962-73 Nova Superior Loop Carpet

Now Available with or without Optional Mass Backing!

This 80/20 rayon is a revolutionary new carpet yarn utilizing modern textile chemistry to duplicate the appearance of original 80/20 rayon/nylon carpet used on classic cars. All carpet sets include a correct reproduction heel pad and dimmer switch hole grommet. Jute padding is pre-attached to the underside of all carpet sets.

Interior Insulation

Insulating Mat by THERMO-TEC

Battle excessive heat and noise that penetrate the driver compartment through the firewall and floorboards. The highly reflective Mylar reflects heat away from surfaces, while the foil side is orientated away from the heat source to conduct any penetrating heat across its surface thus providing the ultimate in heat protection. The silica blanketing is a dual density composite and is the main sound insulator. Easy to trim and can be applied with the push-in fasteners provided or any weatherstrip adhesive. Two sizes to fit your individual needs.

TT1005	24" x 48"	38.99 ea
TT1006	48" x 48"	70.99 ea

Adhesive Heat Barrier™

Adhesive backed, this Heat Barrier™ protects parts and components from radiant heat. Made up of woven silica with a flexible aluminumized finish. The surface of the material is capable of withstanding radiant temperatures in excess of 2000 degree F. The adhesive backed composite construction material can easily be applied to any surface or wrapped around a hose or wire to make a clean professional appearance.

TT1003	12" x 12"	13.99 ea

TT1049	24" x 36"	52.99 ea
TT1050	24" x 48"	74.99 ea

Super Sonic Acoustic Mat

This high-quality mat offers superior sound dampening control to reduce road noise, rattles, engine noise, and any other noises that are bothersome. The high density polyethylene film with an aluminum foil composite is abrasion and tear resistant. The gray film provides structural integrity and strength, allowing the material to bend, move, and return to shape even under tension forces. The product is 70 mil in thickness, contains a high temperature adhesive backing, and is easy to trim and fit. The rubberized compound is applied with the high temperature adhesive to absorb all those out of control noises.

TT14720	36" x 60"	64.99 ea

Thermo-Guard FR

Thermo-Guard FR is a lightweight, durable shield that does everything: reduces sound, absorbs vibration, protects from radiant heat and provides an extra layer of insulated padding. The product features 100% polyester fiber felt that provides sound and comfort control and a high tech foil heat barrier that blocks more than 90% of radiant heat. Easy to apply and can be trimmed to fit anywhere. Available in two sizes with one or two foil sides. Designed to be applied with Thermo-Tec's Heavy-Duty Spray Adhesive.

TT1055	24" x 48"	1 side.....	27.99 ea
TT1056	48" x 72"	1 side.....	55.99 ea
TT1057	48" x 72"	2 side.....	70.99 ea

Suppressor Acoustical and Heat Control Mat

The Suppressor is ideal when both sound and radiant heat control is needed. In addition to the polyethylene film, the foil surface provides direct protection from radiant heat. Great for areas like firewalls, floorboards or doors. The Suppressor is also 70 mil in thickness, contains a high temperature adhesive backing, and is easy to trim and fit.

Xtreme Bulk Pack

Dynamat Xtreme is the highest efficiency energy conversion sound deadener available. Xtreme unique chemistry uses a space age self-adhesive synthetic rubber with a heavy 4 mil aluminum constraining layer to absorb noise energy. At only 1/16" thick, the super sticky rubber and foil stretches and contours to fit your vehicle like a glove. Dynamat Xtreme can be also used for trunk lids, roofs, quarter panels and under the hood. The Xtreme bulk pack contains 9 sheets (18" x 32") or 36 square feet of 1/16" insulation. Made in USA.

- One 18 oz. can of Boom Mat Spray-On

Full Size Vehicle Set Includes:

- 41.7 sq. ft. of Boom Mat Dampening Material
- 58.3 sq. ft. of Under Carpet Lite (10 ft. x 70 in.)
- One 18 oz. can of Boom Mat Spray-On

Boom Mat All-In-One Interior Sets

Take the guesswork out of thermal and acoustic control with this all-in-one part number! Introducing a simple and cost effective, universal fit, sound deadening and thermal insulation set. Each set includes enough material for your vehicle. A three step process for the best interior comfort from heat and noise.

STEP 1: Apply Boom Mat vibration dampening material to remove structure borne vibrations, squeaks & rattles.

STEP 2: Apply Boom Mat Spray-On to reduce the noise and vibration in hard to reach areas such as trunk interiors, fender walls & inside doors.

STEP 3: Apply Under Carpet Lite over dampening material on firewall and floor boards to block up to 85% of heat and for additional noise control.

1962-72 Custom Cut Interior Insulation

With the new Dynamat Custom Cut sets, you'll never be left scratching your head. Each set contains specially cut sections of Dynamat in the proper amounts to fit your vehicle exactly. Each piece is precision cut by CNC-machine to exact specifications for a perfect fit. That means no guesswork when cutting and you'll receive the right amount of Dynamat for a quick and easy install. Custom cut sets feature Dynamat Xtreme material with patented elastomeric VECTOR chemistry for great sound deadening. With a .060" butyl layer and a .004" thick aluminum face, Xtreme has the highest efficiency sound deadening properties on the market and is self-adhesive.

LLOYD MATS Logo Custom Carpet Floor Mats

Custom fit Lloyd Mats for Nova feature densely packed 2-ply 32 oz. DuPont nylon yarn for durability and long-lasting appearance. Their woven polypropylene backing, water resistant lacquer coating and non-slip TractionBac rubber backing prevent unwanted movement and the matching nylon velour binding finishes off the edge of the mat and provides durable, long-lasting protection that will never unravel. Lloyd Mats are available in a variety of colors to match or complement your Nova's interior color. These custom logo mats are covered by a manufacturer's limited warranty against defects in design, workmanship and materials for two years from date of purchase. Please be sure before placing your order that you are sure of your color selection as each mat set is manufactured to your specifications. For that reason mats cannot be accepted for return due to incorrect, mismatching color, etc.

Note: GM Trademarks licensed to Lloyd Design Corporation. All mats are special order only.

Your choice of officially licensed logo, mat color, and embroider color. Specify embroidery color when ordering.

Bucket Seats **PROCAR**

Sold in Pairs

Sportsman Pro Bucket Seats

The TIG welded steel frames and injection molded foam offer maximum durability and comfort. Features pass through for 5 point harnesses and large bolsters to stand up to hard cornering. A fixed headrest and a micro recliner mechanism provide maximum comfort, while a lever release allows easy access behind the seat. The new Procar Sportsman Pro XL seat has the same dimensions as the Sportsman Pro but features a redesigned bottom seat foam that is 2" wider for maximum comfort. Available in vinyl with black vinyl side trim or black vinyl with colored velour insert. Includes seat sliders. Fits left or right side. Sold as a pair. Mounting adapters sold separately.

Note: Please add the two or four letter color code when ordering. Shipped double oversize.

New! Sportline RRB, RRX, and RRS Racing Seats

The new Sportline series of seats by Corbeau have a look and feel that is second to none. Each seat features superior comfort, style and support, plus top of the line injection molded foam, bolsters that hold you in the right spots, and harness capability. RRB seats feature thigh bolsters that come into contact with the back of the seat. This gives you that racing bucket look of a fixed back seat, while maintaining the convenience of a reclining seat. The RRX and RRS seats feature a perfect blend of aggressive lateral bolster support but with the comfort of a daily driver. Whether you are on the street, the track, or off-road, you can't go wrong with the RRB and RRS seats. Each seat has a base height of only 2-1/2" between the floor and where you would sit. This is ideal for minimal headroom applications or for drivers wearing helmets. Choose between cloth, vinyl, carbon vinyl, and diamond stitched patterns. Seats will fit up to a 38" waist. Sold in pairs.

Note: Mounting brackets with seat tracks sold separately. Shipped double oversize.

Sportline Evolution Racing Seat

The new Sportline series of seats by Corbeau features superior comfort, style, and support, plus top of the line injection molded foam, bolsters that hold you in the right spots, and harness capability. The Evolution being a reclining racing seat and the Evolution X being a fixed back racing seat. Inspired by the C5/C6 Corvette where seating options are limited due to the small cockpit area, the Evolution X was designed to be a bit narrower, allowing it to fit in smaller vehicles. Each seat has a base height of only 2-1/2" between the floor and where you would sit. This is ideal for minimal headroom applications or for drivers wearing helmets. Seats feature black vinyl with carbon vinyl accents and are handcrafted with your choice of red or black offset stitching. Seats will fit up to approximately a 38" waist.

Note: Mounting brackets with seat tracks sold separately.
Shipped double oversize.

1966-72 Headliner/Sail Panel/Visor Sets

Replacement pre-cut and sewn factory style headliner with pre-assembled sail panels and sun visors cut from the same roll of material for an exact match in color and material. Each headliner is produced from factory patterns and will install as original.

Important: Due to variations in mounting hole locations on sail panels, these reproductions are supplied with Velcro pads for mounting. If mounting clips are desired to attach sail panels, provisions for mounting clip holes must be cut out. It is recommended to keep original sail panels in order to use as a template for correct mounting hole locations specific to the vehicle.

1962-72 Basketweave Vinyl Headliner

After years of neglect or to complete your restoration properly, you'll want to replace your headliner with a pre-cut and sewn factory style headliner. Each headliner is produced from factory patterns and will install as originals.

Note: 1962-65 and early 1966 Nova models do not require separate sail panels. The material continues from the roof area to cover the inner sail panel area. Includes additional material to re-cover the sun visors.

1962-72 Basketweave Vinyl Sun Visor

Replace the torn, broken or discolored sun visor on your Chevy II/Nova with our complete single pin reproduction visors. Original grain materials perfectly match our reproduction headliners. Sun visors are sold in pairs ready-to-install. Installation is very simple, just unscrew 1 screw on the support bracket, remove old visor, install new visor in its place and retighten.

Note: All sun visors are single pin design. 1962-64 visors do not fit convertible models. Please specify 2 digit color code when ordering.

1966-72 Basketweave Vinyl Sail Panels

Reproduction of the inner rear sail panels for use in conjunction with the headliner on the inner rear side section between the side quarter window and the back window. These die-stamped panels include the cardboard portion with the correct headliner material attached. Produced in the original vinyl coverings. Simply remove the original sail panels and install the new panels. Sold as a pair only. Attaching clips are not included and must be purchased separately.

Important: Due to variations in mounting hole locations on sail panels, these reproductions are supplied with Velcro pads for mounting. If mounting clips are desired to attach sail panels, provisions for mounting clip holes must be cut out. It is recommended to keep original sail panels in order to use as a template for correct mounting hole locations specific to the vehicle.

Headliners/Sun Visors/Sail Panels

1968-72 Premier Non-Perforated Headliners

After years of neglect, or to complete your restoration properly, you'll want to replace your headliner with a pre-cut and sewn factory style headliner. This headliner is manufactured with non-perforated Premier grain vinyl as original from factory patterns, will install as original and includes material to re-cover the sail panels and sun visors.

1968-72 Headliner/Sail Panel/Visor Set

Replacement pre-cut and sewn factory style headliner with sun visors cut from the same roll of material for an exact match in color and material. Each headliner is produced from factory patterns and will install as original.

Important: Due to variations in mounting hole locations on sail panels, these reproductions are supplied with Velcro pads for mounting. If mounting clips are desired to attach sail panels, provisions for mounting clip holes must be cut out. It is recommended to keep original sail panels in order to use as a template for correct mounting hole locations specific to the vehicle.

Dome Lamp Dimmer

The standard dome lamp dimmer keeps the lamp on an extra three seconds then slowly fades off, instead of simply switching off. The deluxe dome lamp dimmer, if the ignition power is off, the lamp delay is 10 seconds, but if the power is on, the lamp fades when the doors shut. The deluxe dome lamp dimmer can also be installed in a way that the lamp softly brightens when the doors open. These devices easily install on most applications and can be mounted in any location where electrical connections are easily accessible.

1975-79 Rear Package Tray

Formed from high impact ABS, these package trays have the same texture and appearance as the original part. Because its an ABS material, it is not prone to warping from humidity like the pressed hardboard originals. They are CNC-machine trimmed and include the same speaker hole pattern as the originals.

Important: Must reuse original felt mat or similar substitute under the package tray.

Note: Shipped double oversized.

Dixco Style Hood Tachometer

These Dixco style 8000 RPM tachometers were installed by builders for super car vehicles such as Yenko, Baldwin Motion, and Big Daddy Garlits. Fits all cars. This tachometer works with factory points and GM HEI distributors.

Note: Tachometer adaptor required for aftermarket ignitions.

1963-76 Digital Gauge Conversion

These vacuum fluorescent digital conversion sets include gauges for oil pressure, water temperature, fuel level, Volts charging as well as a speedometer, odometer, and tachometer. All sets are backed by a manufacturer's lifetime warranty. These sets are designed to install directly into your original dash bezel for an easy installation. Bezel not included. Your choice of blue or teal digital display. Made in USA.

Important: An optional wire harness for 1963-65 models is available to wire gauge set directly into factory wire harness without any modifications to the original wire harness.

1969-76 black alloy face shown with "Ice & Fire" color theme

- Over 30 independent RGB color options for needle and TFT Message Center
- 12 pre-set color theme options or build your own
- Wide angle color TFT LCD Message Center(s)
- Independent day/night color selections
- Illuminated needles and LED backlighting for the numbers and tick marks
- "Ghosted" indicators (Turn signals, high beam, check engine, cruise control engaged, parking brake, plus two that are user-definable) appear only when lit.
- Bluetooth connection to tablet/smart phone
- Easy-to-use app allows for quick setup, modifications and sensor diagnosis
- Available for iPhone and Android systems.

1963-76 HDX-Series Gauge Sets

The new HDX series gauge sets from Dakota Digital brings you the best in modern instrumentation, rivaling what's offered in today's modern vehicles. Each HDX system is fully customizable, allowing you to personalize your instrument panel to complement nearly any vehicle theme. Each direct-fit gauge package incorporates a speedometer, tachometer, fuel level, Volts, oil pressure, and coolant temperature gauges, along with a digital message center. The gauges are integrated into your vehicle's systems using the supplied central control box. Includes necessary sensors. Gauge faces offered in black alloy or silver alloy and are available with either standard (MPH and Fahrenheit) or metric (KMH and Celsius) displays.

Important: Gauge bezel not included. Metric display (KMH and Celsius) gauge sets are custom built by Dakota Digital, and may require a 3-5 week build time.

Note: Please specify option codes when ordering: 1 = standard (MPH and Fahrenheit); 2 = metric (KMH and Celsius) and then either A = silver alloy gauge face, or B = black alloy gauge face.

Example: DD15941A = 1963-65 with standard display and silver alloy gauge face.

1963-76 VHX Instruments

Featuring fully lit needles, backlit faces and easy-to-read LCD message centers, the VHX series is a far cry from yesterday's traditional instrumentation. Mounts directly to the stock dash housing for simple installation. The VHX series are loaded with features including micro-controlled precision stepper motors, solid state sensors for unparalleled accuracy and user customizable display feedback. Available with three gauge face styles - carbon fiber, silver alloy, or black alloy - with either blue, red, or white numeration and backlighting. Made in USA.

Note: Dash bezel not included. Please specify illumination color when ordering: "B" for blue, "R" for red, or "W" for white. Available with blue or red illumination only.

Performance Gauges

New!

AutoMeter

Chrono Series Electric Gauges

AutoMeter Chrono Series electric gauges with race proven digital stepper motor movement for unmatched accuracy. Electronic senders can be used for a variety of applications and keep unwanted fluids out of the driver compartment. The Chrono Series features a three dimensional concave dial design, "through-the-dial" LED lighting, and over 320 degrees of pointer movement. All gauges have both metric and imperial scalings and are 12 and 16 Volt compatible.

1963-65 Dash Gauge Sets

This electronic programmable speedometer is setup to read 140 MPH (Velocity Series 160 MPH) and the quad cluster is programmed for a stock fuel sender reading 0-30 Ohms, water temperature, oil pressure, and Volts. Cluster is designed with integrated turn signals and a halo high beam indicator. All sets come equipped with water temp sender, oil pressure sender, pulse signal generator for the programmable electronic speedometer, and lens. The cluster will mount into a stock or aftermarket bezel and will use the original light diffuser. A new lens is included with each set of gauges.

- 18-255 Degree Temp Gauge
- 0-99 psi Oil Pressure Gauge
- 7.0-25.5 Volt Voltmeter
- 0-99% Fuel Gauge

1962-65 Digital Instruments

Looking to get a fresh, modern look for your gauge panel? The IntelliTronix digital dash gives you Nova the precision of digital readouts under the elegance of a smoked gauge lens. Each set includes: a printed circuit board and smoked faceplate, along with sending units for the speedometer, oil pressure and coolant temperature. This set also works with your factory fuel level sending unit. Features one button calibration regardless of tire size, gear ratio or transmission, along with 0-60 time, 1/4 mile ET and high speed recall, all with the push of a button. Dash bezel not included. Made in USA.

Note: When ordering, please add the correct suffix: "B" for blue, "G" for green, "R" for red, or "W" for white.
DP8001 1962-65 specify color. 414.99 set

Marshall

SCX and SCX Series Gauges

SCX Pro gauges feature one touch peak recall and programmable high and low full dial warning. There is also an external alarm output (12V, 500mA) that can be used to activate an external warning light when an alarm condition exists. Superior amber and white through-the-dial lighting and illuminated pointer. All SCX and SCX Pro fuel senders work with 0-90, 240-33, 73-10, 20-150, and 0-30 Ohm senders. SCX Series 5" tachometers feature a slimline case design (only 2" deep).

Note: **Pedestal mount. **Pedestal mount w/LED shift light.

In-Dash Speedos and Tachs

Our In-Dash Speedometers and Tachometers feature our famous high-performance movements and are designed with seamless dashboard mounting in mind for the ultimate driver information center. Available in a variety of configurations and sizes to accommodate diverse applications.

Pedestal Mount Tachometers

Mountable in every conceivable position, the versatility and durability of our Pedestal Mount Tachometers have made them a race proven favorite for over 30 years. These tachometers offer a variety of performance oriented options from shift lights to memory recall functions, coupled with a trademarked aluminum and rubber shock strap design for the best vibration protection available.

Full Sweep Mechanical Gauges

Bronze bourdon tube 270 degree sweep movements and durable nylon gearing have made these rugged and long lasting gauges proven high-performance favorite for over 25 years. These mechanical gauges require no electrical power for operation making them an ideal choice for vehicles with no or low powered electrical systems.

Full Sweep Electric Gauges

Powered by digital microprocessor-controlled, rugged stepper motor drives and laboratory grade sending units, Full Sweep Electric Gauges are the best gauges available. They combine extreme durability and readability of 270 degree sweep mechanical gauges with the easy installation and safe operation of short sweep electrics. Track tested and race proven, these units use precision senders to keep hazardous fluids out of the driver compartment and perform gauge calibration and sensor diagnostics at power up for extreme accuracy, every time.

Short Sweep Electric Gauges

Advanced 90 degree air core movements and three wire installation characterize these Short Sweep Electric Gauges. Electric sending units keep hazardous fluids in the engine compartment, sending collected data via an electrical signal to quick reacting, precise air core movements to give you all the information that you need.

Important: Electric speedometers operate on 500-200,000 pulse/mile sending units. Use existing sender if vehicle is originally equipped with an electric speedometer. Use AM5291 to convert from mechanical drive to electric. Tachometers operate on 4, 6, or 8 cylinder engines with most factory or aftermarket ignitions. Some fuel gauges use the vehicle's stock sending unit. Measure resistance using an ohmmeter with the sending unit float in the empty and full position to determine the correct fuel gauge.

ULTRA-LITE

ULTRA-LITE gauges feature aluminum construction that greatly reduces weight while satin anodized Super Bezels and dials with black numbering and increments. Perimeter incandescent white lighting and bright red fluorescent pointers make them easy-to-read.

Z-Series gauges feature race quality mechanisms, a black Super Bezel with black dial, white numbers and increments, bright orange pointers and perimeter incandescent lighting that make this line easy-to-read.

Phantom II gauges feature black Super Bezels and white dials with black outlined, white numbering and black increments, "through-the-dial" patented LED lighting technology and glowing red pointers for superior visibility. When illuminated, the gauges display in a reverse configuration (black dial with white numbers and markings).

NV gauges feature bright anodized Super Bezels and white dials with black numbering and increments, intense green "full dial" patented LED lighting technology and glowing orange pointers for superior visibility.

Phantom gauges are race quality mechanisms featuring a subtle black bezel with stark white dials, bright orange pointers and perimeter incandescent lighting that make this extensive high-performance line easy to read with a crisp, no-nonsense modern appearance.

C₂ gauges feature bright anodized Super Bezels and white dials with black numbering and increments, intense blue "full-dial" patented LED lighting technology and glowing orange pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent of your OE dash lighting.

ULTRA-LITE II gauges feature satin anodized Super Bezels and dials with black numbering and increments, white "through-the-dial" patented LED lighting technology and glowing red pointers for superior visibility. When illuminated, the gauges display in a reverse configuration (black dial with white numbers and amber accents).

ES gauges feature black satin Super Bezels and black dials with white numbering and increments, intense red "through-the-dial" patented LED lighting technology and glowing red pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent of your OE dash lighting.

COBALT

COBALT gauges feature bright anodized Super Bezels and black dials with blue accents, white numbering and increments, cobalt blue "through-the-dial" patented LED lighting technology and glowing orange pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent of your OE dash lighting.

Carbon Fiber

Carbon Fiber gauges give your interior the complete look of rapid acceleration even when the car isn't moving. The clean, racy look of a crisp anodized aluminum bezel, an actual carbon fiber dial face, silver pointer and yellow accents with perimeter incandescent lighting give these gauges high visibility and style for any application.

SPORT-COMP II gauges feature a satin anodized Super Bezel and black dials with white numbering and increments, "through-the-dial" patented LED lighting technology and glowing red pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent of your OE dash lighting.

AMERICAN MUSCLE

THE AMERICAN MUSCLE Street Rod Series features advanced hybrid dial technology combining AutoMeter's signature white Hi-Def LED illumination and fluorescent red pointers for maximum readability. The light intensity can be controlled through the optional LED Lighting Dimmer independently of your OE dash lighting (available separately).

SPORT-COMP

SPORT-COMP gauges feature the trademarked competition appearance and rugged, reliable performance of a satin anodized Super Bezel with black dials with white numbers and increments, bright orange pointers and perimeter incandescent lighting that make this extensive high-performance line easy-to-read with a crisp, no-nonsense modern appearance.

TRADITIONAL CHROME™

TRADITIONAL CHROME gauges feature the trademarked competition appearance and rugged, reliable performance of a chrome bezel with black dial, white numbers and increments, bright orange pointers and perimeter incandescent lighting that make this line easy-to-read with a crisp, no-nonsense nostalgic appearance.

Speedometer Components

1962-74 Speedometer Cable

Reproduction thread-on design speedometer cable for 1962-74 Chevy II/Novo models. This complete speedometer cable assembly is manufactured to correct factory specifications featuring correct fittings, crimped ends, casing, and cable. Measure your original cable housing and select the correct length needed.

Note: Firewall grommet available separately.

6478128	1962-68	thread-on	73"	29.99 ea

6454481	1967-74	thread-on	24"	29.99 ea

1969-79 Push-On Speedometer Cable

This speedometer cable is manufactured as original. It is a push-on design and measures 69" in length. This complete speedometer cable assembly is manufactured to correct factory specifications featuring correct fittings, crimped ends, casing, and cable.

Note: Firewall grommet not included.

6478176	1969-79	push-on	69"	29.99 ea
---------	---------	---------	-----	----------

1962-79 Speedometer Cable

Replace your original speedometer cable with these genuine AC Delco replacements. Originality in all aspects of your restoration is important. Why replace your original cables with aftermarket generic cables that may or may not fit your application when the OEM cables are available. You'll be glad you did once you install it.

1968-69 Speed Warning Control Cable

Reproduction control cable for all 1968-69 Chevy II/Novo models with the desirable and highly sought after RPO code U15 (Speed Warning Indicator).

6454484	1968-69	29.99 ea
---------	---------	----------

"U-Cut-To-Fit" Speedometer Cables

High-quality speedometer cables feature machined aluminum fittings and a premium housing with a specially extruded liner to extend the life of the cable. These cut-to-fit 7' speedometer cables are designed to work with factory speedometers with a 5/8"-18 male thread, or any cable driven aftermarket speedometers such as AutoMeter, Stewart Warner or VDO. The transmission end is designed to fit most transmission driven gear adaptors (not included), and the inner cable and outer housing of these cables can be cut-to-fit most GM transmissions.

SP1501	stainless steel housing	151.99 ea
SP1500	black housing	95.99 ea

1962-70 Speedo Cable Grommet

OER® reproduction firewall grommet installed where the speedometer cable runs through the firewall on 1962-70 Nova models. Measures 1-1/2" o.d. with a 5/16" center hole.

3792008	1962-70	3.99 ea
---------	---------	---------

1968-69 Speed Warning Cable Bracket

A high-quality reproduction of the control cable bracket for 1968-69 Chevy II/Novo models with the desirable and highly sought after RPO code U15 (Speed Warning Indicator).

3954257	1968-69	bracket	23.99 ea
---------	---------	---------	----------

1966-74 Four-Speed Speedo Cable Clip

Originally used on vehicles with factory installed 4-speed transmissions, this unique retainer clip is used to hold the speedometer cable onto the firewall transmission tunnel.

HC74	1966-74	4-speed	9.99 ea
------	---------	---------	---------

1969-79 Speedo Cable Retainer Clip

Reproduction of the speedometer cable retainer clip for 1969-79 models. This metal clip secures the speedometer cable to the back of the speedometer.

6491006	1969-79	6.99 ea
---------	---------	---------

1968-79 Speedo Drive Gear Clip

For use with manual or automatic transmissions.

G7612	1968-79	6.99 ea
-------	---------	---------

Speedometer Sending Unit

Speedometer sending unit for use with all AutoMeter electric speedometers. This unit is not included with the gauge packages and must be purchased separately.

AM5291	sending unit	69.99 ea
--------	--------------	----------

Speedometer Gear Housings

Reproduction speedometer gear housings for Powerglide, TH350 and TH400 transmissions. Each housing is manufactured as original in either steel or aluminum. Includes the speedometer gear shaft seals.

Important: Please verify speedometer gear housing diameter prior to ordering.

Speedometer Components

Speedometer Driven Gear

Classic Industries® offers these speedometer driven gears for the sizes listed below. Replace your worn out, stripped, or damaged original gear or simply use a different gear for speedometer correction when changing rear axle final drive ratios or changing tire sizes.

Note: The color of the speedometer gear may not be the same as your original due to additions or deletions of GM part numbers and/or the consolidation of these numbers.

Sky Drive GPS Speedometer Sender

This device quickly calibrates and accurately drives any electronic programmable speedometer. The Sky Drive updates 10 times per second without any transmission signals, pulse generators, or signal converters and features an omnidirectional antenna that can be mounted virtually anywhere and in any position. No more guessing or re-calibrating due to tire or gear changes. This unit requires a one time setup and you're done.

280665 249.99 ea

Cable-X Speedometer Drive Converter

The Cable-X is the easy, cost efficient way to operate your stock mechanical speedometer with a transmission equipped with vehicle speed sensor for an electronic speedometer. This universal adapter will pickup the electronic speedometer signal and operate the cable drive speedometer to the corresponding speed. It's a snap to install with only three wires: hot, ground, and signal. The Cable-X is a one-of-a-kind solution to your speedometer drive problem.

18605 with snap-on cable 419.99 ea

1860T with thread-on cable 419.99 ea

Speed Sensor

A speed sensor is an electrical device that can sense the rotational speed of a shaft or member and transmit this information to another device, such as a readout. Sensor is 1/8" - 1/8 thread.

60117 late TPI & early LTI - 4 pulse 159.99 ea

1967-74 Low Fuel Warning Module

Originally installed on 1967-69 models with optional console gauges. This indicator helped the driver to make sure he had fuel in the tank. May be used for replacement of existing defective modules or when converting vehicles from no gauges to factory gauges.

Note: Original plugs into backing plate, this reproduction does not.

Fuel Tank Sender

This universal type fuel sender is used with gauges that require 2400 empty and 330 full and can be adjusted for tanks from 5" to 24" deep. Universal 5 bolt fuel sending unit for use with Auto Meter universal fuel gauges. This unit is not included with the gauge packages and must be purchased separately. Made in USA.

Important: As this is a universal-fit product, some modification to the tank may be necessary for installation.

AM3262 fuel sender 46.99 ea

Internal Float Fuel Sending Unit

This advanced design provides accurate readings without fluctuations due to fuel slosh. Because this internal float design requires no float arm, it is far more resistant to corrosion, even with racing fuels. All sending units mount to the tank with the standard 5 bolt mounting flange and are available in sizes from 4" to 24".

Important: Sending unit should not touch bottom of tank. When the fuel gauge reads empty, the area below the sending unit is reserve fuel.

Note: Sending units are available in lengths from 4" to 24" and are sold in 1" increments. Please add the desired length to the end of the part number, eg. 06" = 6", 11" = 11".

Distributorless Tach Adapter

This tach adapter is designed to adapt a standard ignition tachometer, Pro Shift light, or RPM activated module to be used with distributorless ignition systems.

AM9117	tach adapter	109.99 ea
--------	--------------------	-----------

Tachometer Signal Filter

AutoMeter tachometer signal filter. These filters are designed to correct erratic tach function by filtering out the interference or spiky pulse signals often caused by points or noisy ignition systems.

AM9116	31.99 ea
--------	-------	----------

Universal Tachometer Filter

Eliminate tach signal noise and surges caused by your ignition system with this compact and easy-to-install tachometer filter. This filter installs between the tachometer and the signal source and modifies the sharp up and down spikes into a semi-square wave signal for steady readings and faster response. This tachometer filter can be used as a direct replacement for 1975-89 GM vehicles. Measures: 2" x 3/4" x 1". Includes instructions.

Important: Recommended for vehicles running an HEI ignition with a tachometer designed for points style ignitions.

MG019219	34.99 ea
----------	-------	----------

1969-79 Quartz Clock Conversion

Rebuild your non-working original dash or console mounted clock movement with state-of-the-art components. Clocks with a vintage "factory" style movement are a thing of the past. This unique clock designed for the do-it-yourselfer makes it a simple task requiring a few ordinary hand tools. Each clock contains a quartz conversion movement, mounting hardware, several wheels and detailed instructions. For clocks manufactured by Borg.

Radio Off Delay

With this new device, you can listen to your radio after you remove the key from the ignition, just like many modern luxury cars! After removing they key, this unit will keep the radio power active for 15 minutes or until a door is opened. This allows you to continue listening to the radio without leaving the electric fan or other accessories running. And you're not limited to just the radio; it could be wired to control all accessory power so you still have control of the power windows after the key is off.

Undercover Stealth Speakers

These speakers were designed and manufactured specifically for "under seat" on most pre '78 cars and trucks or horizontal "wall" installations. If you've got the space we have the solution! The 120 watt capacity compact units include a 5-1/2" woofer and Piezo tweeter in each enclosure and are only 3" x 8-1/4" x 11-1/4". For a great sound combine these with one of our DVC (dual voice coil) speakers in the dash and you'll have a great system without any vehicle modifications.

Note: These speakers have a 6 Ohm rating, check for compatibility with your audio system. Sold only as a pair.
S5060 128.99 pr

Undercover II Upgrade Speakers

These Undercover II speakers feature an 8" woofer and 2 Piezo tweeters in each box. This system can be mounted in many of the same locations as the regular Undercover speaker set. With the 8" woofer in Undercover II you get a much fuller deeper sound. The Undercover II speakers each measure 11" x 12-1/2" x 3" and are sold only as a pair.

Note: Speakers have a 4 Ohm rating, check for compatibility with your audio system.
S5064 164.99 pr

1973-77 Rear Radio Speaker Cover

Covers speaker used with rear seat shelf panel on 1973-77 models. This highly insulated cover features a jute padded material that keeps the speaker generating sound inside the passenger compartment instead of the trunk.

Boom Mat Speaker Baffles

Solve the problem of rattles and vibrations caused by speakers and protect the back of speakers from damage! Boom Mat Speaker Baffles maximize speaker performance by isolating the correct frequency responses while damping reverberation in the sheet metal and panel to frame resonance. Also forms a water tight protective shell to prevent moisture intrusion. Made from a closed cell polyethylene to enhance frequency response for improved sound clarity. Easy conformably in tight spaces for a professional installation. Isolates frequency responses and prevents sound from migrating to unfavorable areas in the vehicle such as door panels.

Note: *Peel and stick vibration reduction material.

1962-72 Antenna Location Templates

When mounting an antenna on new sheet metal, the most important step is knowing the exact and correct placement of the antenna before you drill. No more worrying about costly body work caused by misdrilled holes. Simply apply the template to the corresponding panel using referenced body surfaces for exact location, and drill the holes. With these antenna templates, you can be sure that you're mounting your antenna in the correct factory location the first time.

1962-79 Pro-Touring Sport Steering Wheel

The GT Pro-Touring Sport steering wheel was inspired by GM's optional NK4 four spoke Sport wheel installed in various models during the 1970s. This custom steering wheel offers a modern flair to an already classic design. The black anodized spoke design features a leather wrapped grip with "baseball" stitched seam. The polished spoke design features genuine mahogany wood outer grip and perforated leather inner. Horn buttons are machined from 6061 aluminum and are secured using an exclusive o-ring design that keeps it from "popping off". Each steering wheel kit includes your choice of a black anodized or polished hub with matching horn button and Grade 8 mounting hardware.

Important: For Flaming River and ididit steering columns use the 1969 and later kits.
Note: Not intended for vehicles with air bag safety systems.

Polished 4-Spoke

This kit includes: a 14-1/2" diameter, 2-3/4" dish, polished 4-spoke wheel with a polished adapter and your choice of an engraved or red Bow Tie horn button. The horn buttons cover the wheel mounting bolts for a clean, custom look.

Black Anodized 4-Spoke

This kit includes: a 14-1/2" x 14-1/4" diameter, 2-3/4" dish, black anodized 4-spoke wheel with black anodized adapter and a red Bow Tie horn button. The horn button exposes the bolts that mount the wheel for a high-performance look.

Note: The dimensions of this wheel replicate the original NK4 Sport Wheel.

152782BK

Generation 2.0 Quick Release System

These 2.0 Quick Release units feature many options that conventional ball-lock Quick Release systems do not offer, such as specially designed raised sections to prevent hub stretches and a self-locking mechanism. These units are manufactured from highest quality aircraft aluminum with style and function that are designed to last.

Note: Must use in conjunction with the short hub adapter.

5 Bolt - 2.0 Quick Release

Compatible with all 5 bolt Grant steering wheels, and others with 5 x 70mm bolt pattern.

Wood Series Steering Wheel

Forever Sharp's popular wood steering wheels offer outstanding quality and sleek designs to match your vehicle and style! Each wheel is crafted from real mahogany wood with finger grooves on the back and steel spokes finished in smooth chrome or textured black. A urethane coating has also been applied to give the wheel a longer life and improved heat resistance on hot summer days. Wheels feature a 6 hole bolt pattern with a 1-3/4" dish depth and are available in 14" and 15" diameters. Finishes include either a light or dark hand stained finish, or either black or gray wheels painted with high-quality automotive paint.

Important: Steering wheels require mounting adapter and your choice of interchangeable horn button/cap. For use with 6 hole adapters and horn caps. Each sold separately.

Note: Please add two digit finish code to part number when ordering.

14" Billet "Muscle" Half Wrap Series Billet Steering Wheel **▲**

Forever Sharp's popular billet "muscle" steering wheel features a interchangeable half wrap allowing you to match or change your vehicles style at any time. Half wraps are easy-to-install and interchangeable, mounting from the backside of the steering wheel with the five included screws. Choose between leather grain vinyl or wood half wraps made from real wood. The wood half wraps have been urethane coated to give the wheel a longer life and improved heat resistance. Each billet wheel is 14" in diameter and forged from aircraft standard 6061 aluminum. Wheels feature finger indentations on the backside, a 1-3/4" dish depth and 5 hole bolt pattern. Includes half wrap and billet wheel in either a polished or matte black (powder coated) finish. Replacement half wraps also available separately.

Important: Steering wheels require mounting adapter and your choice of interchangeable horn button/cap. For use with 5 hole adapters and horn caps. Each sold separately.

Note: *Please add two digit color code to part number when ordering.

Steering Column Parts

1969-74 Tilt Steering Column

These Flaming River tilt steering columns feature all-new components including a one piece cast upper housing design with a keyed GM ignition switch that has the standard GM plug. The ignition switch is located in the 3 o'clock position for added comfort and convenience. These columns are manufactured using 2" stainless steel tubing and a high strength, all steel shaft with Teflon coated bearings. They include the tilt lever, turn signal lever, and hazard knob. The shift lever with the shift indicator are included on column shift applications. These stainless steel columns are available in unfinished paintable stainless, powder coated black, or a beautiful polished stainless finish. Columns are 33" long, with 1"-48 spline shaft and are a direct fit for 1969-74 Nova and/or a column 33" long with a 1"-DD No. 1 shaft which is good for rack and pinion steering. A stock GM steering wheel from a 1969 and newer GM passenger car will bolt to these steering columns.

Important: Reuse of original column to dash clamp is required for installation, with some modification necessary. Use part FR20300 column strap clamp if you want to save your old column. If you do not want to do that you may use FR20114K and not use the OEM mounting.

1969-73 Steering Column

Flaming River direct fit tilt steering columns with an original **FR30000B** look are for 1969-73 Nova models. These FR30000B columns are made with 2" stainless steel tubing and are designed to fit the original dash models. Each column comes complete with a billet dress-up kit (tilt/turn signal levers and hazard knob), GM wiring (4-1/4 inch connector) and an all new canceling cam. 1969-73 columns include keyed ignition switch. Your choice of paintable mill finish, black powder coated, or polished. Made in USA.

1969-79 Steering Column Strap Clamp

The steering column strap clamp is used to OEM mount features rubber mount for vibration absorption.

FR20300 1969-79 56.99 ea

1962-73 Tilt Column

These all new tilt steering columns include all levers and knobs and come completely wired for self-canceling turn signals, 4 way flashers, and horn. A neutral safety switch is included with all column shift columns. For 1967 models the original mounting hardware and a coupler can be used. A stock steering wheel from a 1969 and newer GM passenger car will bolt to the top of the column. Most aftermarket wheels will attach with an adapter. Columns can be ordered in paintable steel, chrome steel, black powder coated, polished, or brushed billet aluminum.

Important: Column shift units do not include a gear selector indicator. The shift pattern on column shift units can be used for a 3- or 4-speed automatic transmission, but will not match the detent pattern of a Powerslide.

1962-66 Pro-Lite Lightweight Performance Steering Column

Pro-Lite light weight aluminum steering column built to fit the 1962-66 Nova. At under 6 lbs, the Pro-Lite still packs all the features of a standard column including self-canceling turn signals, 4 way flashers, horn wiring, 3-7/8" wiring plug, and a 1" 48 lower shaft. It also collapses a full 5" for enhanced driver safety and is designed to work with most quick release steering wheel hubs. Installs easily using your original dash mount and ididit's plug-in wiring connectors.

shown with gauges (sold separately)

1968-76 Console Gauge Pod

This gauge pod is the easiest way of adding additional gauges to your interior and maintaining a factory look. This gauge pod features mounting holes to allow you to mount for four 2-1/16" gauges on your existing factory console in place of Rally gauges and angles them slightly toward driver. This pod replaces the factory Rally gauge cluster or block-off plate. Console pod is manufactured in black ABS and can be painted to match your interior. Made in USA.

Important: Gauges and shift plate not included, shown painted for illustration purposes only.

3906192	1968-76	6.99
---------	---------	------

1968-74 Console Gauge Harness

This console gauge harness is a correct duplication of the original, including the correct color and gauge wires. Perfect for replacing damaged originals or as part of a console gauge conversion for a Nova not originally equipped with gauges.

Important: In order to correctly convert your Nova to console gauges, you must also replace your under dash, engine and front light harnesses.

NV85172	1968-74	43.99
---------	---------	-------

1968-74 Low Fuel Warning Module

The 1968-74 console fuel gauge was one of the first of its kind to offer a warning indicator when the fuel was low. This indicator was mounted behind the fuel gauge and activated a light in the dash board warning the driver that the fuel was low. This reproduction is superior in design and construction compared to the original.

1962-79 Clutch Pedal Return Bumper

Replace your worn out or missing clutch pedal bumper with this quality reproduction. This bumper is correct for all 1962-79 Nova models with a manual transmission.

G9296	1962-79	3.99 ea
-------	---------	-------	---------

Universal 3/8"-24 Brake Pedal Clevis

Universal fit clevis for many potential uses, including connecting a brake master cylinder or power brake booster pushed to the brake pedal arm. Measures approximately 2" long, is tapped for 3/8"-24 fine thread, and is zinc-plated for superior corrosion resistance.

153660Z	universal	7.99 ea
---------	-----------	-------	---------

Brake Pedal Rod Extensions

Universal fit pedal rod extensions are ideal for firewall mounted brake boosters or under floor linkage when you need a longer rod to reach the pedal. Rod measures 1-1/2" or 2-1/2" overall, hole size is 3/8" on the end. Zinc-plated for corrosion resistance.

153661	1-1/2"	7.99 ea
153662	2-1/2"	7.99 ea

Brake Pedal Rod Extension

Universal fit pedal rod extension is ideal for firewall mounted brake boosters or under floor linkage when you need a longer rod to reach the pedal. Rod can be cut to your desired length if necessary. Rod measures 4-3/4" overall, 3" on the threaded portion, and thread size is 3/8"-24 on the female end, and 3/8"-24 on the male end. Includes nut. Zinc-plated for corrosion resistance.

153651	4-3/4"	9.99 ea
--------	--------	-------	---------

1968-72 Master Cylinder Clevis Pin

Reproduction master cylinder clevis pin for 1968-72 Chevy II/Nova models. This pin attaches the master cylinder pushed to the brake pedal assembly. Can be used on vehicles with manual or power brakes. Includes retainer clip. Made in USA.

HC452	1968-72	6.99 ea
-------	---------	-------	---------

1962-74 Brake/Clutch Pedal Clip

Reproduction brake/clutch pedal shaft clip for 1968-74 Chevy II/Nova models. This pin holds the clutch and brake pedals to the housing under the dash.

PT10	1962-74	clip	3.99 ea
------	---------	------	---------

1968-79 Park Brake Release Grommet

OER® reproduction of the park brake release rod grommet. This grommet installs into the park brake assembly housing and the park brake pull slides thru it. 1 required per vehicle.

A Classic Industries Tribute To

MR. CHEVROLET

Dick Harrell, Drag Racing Legend

Classic Industries® is proud to salute Dick Harrell, drag racing pioneer and all-around good guy who earned the title of "Mr. Chevrolet," for his profound contributions to the classic car hobby and muscle car culture.

Dick Harrell was born in Phoenix, Arizona and lived there until he was 5 years old. He and his family then moved to Carlsbad, New Mexico, where he resided until 1965. Cars were very much a part of Dick Harrell's early life. Dick first gained racing acclaim in the Carlsbad area at the tender age of 14 where he became deeply involved with sprint cars. He began tuning and later proved to be a capable driver, racing throughout the Southwest. At age 17, Dick started driving jalopies on a dirt track near Carlsbad. By the early 1960's, Dick Harrell was a racing champion, setting records left and right in Chevrolet cars that he had re-engineered himself. When General Motors discontinued its racing program in the mid 1960's, most racers abandoned Chevrolet in favor of Ford and Chrysler models. Undaunted by GM's decision, Dick Harrell continued racing Chevrolets even without factory support. During this period of time, if a Chevy was competing in a professional drag race, you could bet that Dick Harrell was probably involved. He was relentless against the bandwagon of factory backed racers, forging his reputation and earning the nickname "Mr. Reflexes" among others, but no nickname was more appropriate than "Mr. Chevrolet".

When the Camaro was newly introduced as a 1967 model, Dick Harrell teamed up with dealers such as Yenko Chevrolet to exploit the Central Office Production Order (COPO) process. Together, these early pioneers built the first COPO Camaro models, some of the most highly sought after cars of the era. Dick Harrell then used his business skill and outstanding reputation to convince the American Hot Rod Association (AHRA) to create a special Pro-Stock racing class for these COPO models and they agreed, providing that 50 of each model were sold to the public. In 1969, Chevrolet took notice and enlisted Dick Harrell's help with the development of the now famous aluminum 427ci big block V8 for Can Am racing. This very powerful, extremely lightweight engine was conservatively rated at 430 HP and would make the 1969 ZL-1 the quickest production Camaro to leave the factory for decades.

Dick Harrell solidified and built upon his reputation in the business world, but his passion for racing would never subside. As he continued his affair with the drag strip, he was always willing to share his love and knowledge of Chevrolet and drag racing with anyone and everyone who was interested. Unfortunately, on September 12, 1971, he lost his life in a crash during a race in Toronto, Canada, when a front tire explosion at 220 MPH sent Harrell into a light pole. In the aftermath of the tragic crash, speed-proven front tires were developed for funny cars to prevent similar accidents. Even in death, Dick Harrell advanced the course of drag racing.

On that unfortunate day, Dick Harrell left behind a wife, Elaine, and two daughters, Valerie and Kim. Valerie continues to keep the legacy of her father's incredible career alive by operating a forum and website dedicated to her father's memory. She has also been involved in projects that match the spirit of her father's efforts such as the 427 powered Dick Harrell Camaro tribute cars built by GMMG of Marietta, Georgia in 2003.

Dick Harrell was recently inducted into the Don Garlits International Drag Racing Hall of Fame, finally getting the recognition he deserves 39 years after that fateful day in Toronto. Today, we salute him as a true innovator, enthusiast and hero in the world of high-performance racing and the automotive hobby.

Dick Harrell, the loving husband and father, is forever lost except in the private memories of his family and friends. "Mr. Chevrolet", the racing legend behind everything that made Chevy the major force that enthusiasts know and cherish today, will live on in our hearts and minds forever.

Visit www.dickharrell.com for more information on "Mr. Chevrolet".

Custom License Plate Frame

Flaunt your GM pride with a custom license plate frame that shows off your vehicle year and Chevrolet or vehicle year and model. Frames feature top mounting holes to fit any year. All license plate frames are manufactured in the USA and are produced in die-cast zinc with an elegant, rust preventive triple chrome-plating. Choose from a black, blue, or red background with bright white lettering.

Note: Available in a variety of years and models.

How To Order Year/Model Frame:

Please select model from the part numbers listed below. Add the two digit year to the part number followed by two digit style from above for that model and finally the alpha color code A - Black, B - Blue, C - Red.

Automotive Manuals

**An absolute must
for the serious restorer!**

**One of the hottest selling Chevrolet
books of all time!**

Chevrolet Service and Shop Manual

Factory manuals that give all the information you'll need for servicing your Chevy II or Nova. Each shop manual includes procedures for maintenance and adjustments, minor service operations, removal and installation of components (excluding the body) and a wealth of General Motors service operation techniques. If there is one book devoted to the care of your Nova, this is the one! Includes information on other models in the Chevrolet line (excluding Corvette). Whether you own a Nova or another Chevrolet model, these manuals have the important and pertinent information for correct maintenance procedures. Written by General Motors. A must for any Chevy II or Nova owner.

Note: Books listed as sets include additional titles covering overhaul, electrical and Fisher body information. See listing for availability.

Fisher Body Manuals

All Fisher body manuals have complete information on the essential removal, installation and adjustment procedures for servicing each year Nova. Information includes interior trim cleaning, headlining, stationary glass, door panels, rear seat shelf, convertible top, electrical and more. This manual covers the most essential information pertaining to the body. Unlike the shop manual, you'll find unique information, illustrations, and other information

found nowhere else. We recommend this manual for any Chevrolet owner who intends to keep and maintain their vehicle.

Note: This book covers the body aspect of the vehicle. For mechanical operations, see the Chevrolet ServiceShop Manual.

Service/Fisher Body/Assembly Manual Kits

Due to popular demand, Classic Industries® has put together this easy to use restoration/reference kit. This three volume kit includes the most desirable manuals required to completely rebuild, assemble or restore your 1966-72 Chevy X-Body. Both enthusiasts and professionals will find answers to just about any technical question in one or all of these manuals. The service manual contains information regarding maintenance and adjustment, minor service operations and the removal and installation of the mechanical parts of the car. The Fisher Body Manual includes information on body panels, electrical, stationary glass, convertible tops, headlining and much more! The assembly manual is a duplicate of the original technical assistance reference guide which was used by the original GM assembly line personnel when the cars were being built. The information is extremely detailed and includes exploded views of many different areas of the vehicle including original part numbers (which may have changed due to replacement numerical assignments). This kit is an absolute must for all 1966-72 Nova owners! Each manual also available separately.

Chevy II/Nova Assembly Manuals

The most informative and comprehensive book available on early Chevy II and Nova assembly! Each manual contains detailed information on complete assembly of each component, exploded views of each part and where it fits, corresponding part numbers for each part and factory notations on assembly. No restorer should be without this manual! Manuals vary in page numbers according to year.

Factory Shop Manuals On CD-ROM

The information provided on each CD-ROM includes virtually all the information you'll find in a factory shop manual. Each CD-ROM gives you the ability to view complete factory technical

information on the make and model of your vehicle. You can print out just that portion of the manual that's needed, or go to the index and type in the part that you're trying to locate. If several manuals are required for a particular make and model, all are supplied on a single CD for your convenience.

1962-74 Wiring Diagrams

If you are tired of trying to read and decipher black and white wiring diagrams of your old shop manual, we have a solution! These include two, 8-1/2" x 11" full color drawings with the dash to rear lights on one side and the dash to headlamps on the other. They are laminated back to back in heavy plastic for durability (no more grease smudges) and ease of use. Redo the wiring on your classic Chevy the easy way... in color!

Note: A second wire diagram is required for vehicles equipped with the optional console gauge package.

1968-79 Chevy Nova Interchange Manual

Want to keep your Nova running in mint condition but can't find original replacement parts? This Nova Interchange Manual: 1968-1979 solves the problem. Designed for collectors, repairers and restorers, this specialized manual lists

interchangeable part information on every Nova made between 1968-1979. It puts a stop to dead end part searches and high priced replacements. This book saves you time, hassle and money. Use this manual to make part identifications a snap with enhanced images of wheels, wheel covers and front ends. It includes a handy part type chart for quick reference. It even shows you how to use the Interchange Manual to identify the full range of original replacement parts. Softbound, 298 pages, 8-1/2" x 11".

The Interchange Manual gives you more choices. It will tell you that:

- The engine from a 1975 Buick Apollo interchanges with a 1973 Nova.
- The intake manifold from a 1985 GMC Van fits a 1976 Nova.
- The steering gear from a 1980 Skyhawk interchanges with a 1968 Nova.

Use the manual to:

- Save time and money on replacement parts by knowing all the interchangeable options available.
- Track down hard-to-find original wheels and wheel covers.
- Verify bumpers, grilles, hoods and lamps, using front end images.
- Check part specifications on any Nova made between 1968-1979.
- Identify exactly the right part to keep your car in original condition - by accessing detail-rich listings and Interchange numbers.

The Nova Interchange Manual: 1968-79 is standard equipment for every Nova owner. Use it to identify exactly the parts you need, at a price you can afford, in a fraction of the time. It's a small investment with a big payoff.

Rochester Carburetor Manual

This manual includes detailed information on carburetor identification, basic trouble shooting, diagnostic checks for computer controlled carburetors, on-vehicle tuning and adjustments, step-by-step repair and overhaul, performance and economy modifications, professional tips and tricks along with over 340 photos. 200 pages.

L561 29.99 ea

Carter/Edelbrock Carburetors

Contains photos, illustrations and diagrams, covering rebuilding, tuning and modifying Carter and Edelbrock carburetors. Also features history on the Carter company as well as the development of the AFB and the AVS since the purchase by Edelbrock. Softbound, 136 pgs, 8-1/2" x 11".

L1433 26.99 ea

Transmission Manuals

GM Turbo 400 Transmissions

Automotive technical author Cliff Ruggles guides you through the complex rebuild procedure of GM's popular rear wheel drive automatic transmission. With his proven style, Ruggles goes through the step-by-step rebuild and performance upgrade procedures in a series of full color photos. He includes instruction on removal and installation, tear down procedures, parts inspection and replacement, as well as performance mods and shift kit installation. Time saving tips are part of every build-up as well. Paperback, 8-1/2" x 11", 144 pages with 563 color photos.

L1322 29.99 ea

Muncie 4-Speed Transmissions

This is an indispensable reference to Muncie 4-speeds that guides you through each crucial stage of the rebuild process. Comprehensive ID information is provided, so you can positively identify the cases, shafts, and related parts. It discusses available models, parts options, and gearbox cases. Most important, it shows how to completely disassemble the gearbox, identify wear and damage, select the best parts, and complete the rebuild. Various high-performance and racing setups are also shown, including essential modifications, gun drilling the shafts, cutting down the gears to remove weight, and achieving race-specific clearances. Paperback, 8-1/2" x 11", 144 pages.

L1291 29.99 ea

How to Rebuild & Modify GM TH400 Transmissions

Millions of GM cars and trucks have been built with Turbo 400 automatic transmissions. This book takes readers step-by-step through the complex transmission rebuild procedure as an performance upgrade procedures with a series of full color photos for each of these models. Softbound, 144 pages, 8-1/2" x 11".

L1413 29.99 ea

Powerglide Transmission

This complete guide to the Powerglide covers it all from a stock rebuild to an all-out race unit. Subjects covered include general transmission service, basic operation, in-car service and repairs, final assembly and much more. Includes 500 photos. 8-1/2" x 11".

L242 29.99 ea

GM Automatic Transmission Overhaul Manual

The TH200R4, 350, 400 and 700R4 automatic transmissions are covered with complete overhaul photo sequences. Also covered are theory of operation, in-vehicle repairs and performance modifications. Softbound, 8-1/4" x 10-3/4", 240 pages, 576 black and white illustrations.

L743 29.99 ea

Turbo Hydra-Matic 350

Clear, concise text leads you through every step of the rebuild, from transmission removal, tear down and inspection to assembly and installation. Also covers transmission identification, principles of operation and maintenance, troubleshooting and in car repairs. 8-1/2" x 11", 256 pages.

L160 29.99 ea

GM Automatic Overdrive Transmission Builders and Swapper's Guide

This book includes information about high-performance modifications, both from the factory and the aftermarket. It also covers common installation issues such as mounting, shifters and linkages, wiring harnesses and more. 128 pages, softbound.

L1906 29.99 ea

Drivetrain Manuals

High-Perf Differentials, Axles & Drivelines

Everything you need to know about selecting the most desirable gear ratio, rebuilding differentials and other driveline components and most importantly, matching the correct driveline components to engine power output. Learn how to setup a limited-slip differential, install high-performance axle shafts, swap out differential gears and select the best available products for the driveline. Explains rear differential basics, rear differential housings, rebuilding open rear differentials, limited slip differentials and factory differentials. 576bd, 8-1/2" x 11", 144 pages.

L1063 29.99 ea

Chevy Differentials: How To Build The 10 and 12 Bolt

Maybe you have found a salvage yard unit and want to rebuild it to upgrade your existing vehicle or would like to install an aftermarket 12 bolt assembly for extreme performance or racing. This is the only book dedicated solely to rebuilding, setting up, and modifying these axle assemblies for long service life and maximum performance. If you're going to rebuild a Chevy 10- or 12 bolt axle, this book delivers the essential information to get the job done right. Softcover, 8-1/2" x 11", 144 pages.

L1287 29.99 ea

Brake Guides

Muscle Car Brake Upgrades: How To Design, Select and Install

Arguably the only book dedicated exclusively to muscle car brake performance, veteran author Todd Ryden shows readers how to select brake systems for various applications and different budgets. The book covers system design, operation, and component function so you have a clear understanding of all this principles. You'll learn how to assess brake system requirements and select brake system kits for many popular muscle car applications from aftermarket brake leaders including Baer, Wilwood, and CPP. Paperback, 144 pages, 8-1/2" x 11".

L1574 29.99 ea

High-Perf Brake Systems: Design, Selection, & Installation

A great deal of time, effort, and money can be invested in raising the horsepower level, thus increasing the speed potential, and very little invested in bringing all of that power under control in the form of an upgraded braking system. Granted, brakes can be intimidating, however, *High-Performance Brake Systems: Design, Selection, and Installation* gives you the knowledge to upgrade your brakes the right way the first time. You'll learn how to choose and install the most effective rotors, calipers, pads, and tires for your muscle car or classic vehicle. Paperback, 144 pages, 8-1/2" x 11".

L1580 26.99 ea

Exhaust Guides

Performance Exhaust Systems

To extract maximum performance, an engine needs an efficient, well-designed, and properly tuned exhaust system. This book explains exhaust system principles, function, and components. Includes how to design, fabricate, and fit exhaust systems to classic street cars as well as for special and racing applications. Air/exhaust gas flow dynamics, cam duration and overlap are analyzed to determine how an engine breathes in air/fuel, as the exhaust must efficiently manage this burned mixture. Paperback, 8-1/2" x 11", 144 pages with 577 color photos.

Give the Gift of Knowledge, KNOWLEDGE IS HORSEPOWER!

A few words from professional engine and car builder, Arron Johnson: "My 'Power Building Video Series' will teach you how to get a combination of carefully matched, properly tuned, horsepower pumping parts that all work together to turn your ride into a mean machine! I explain everything in simple to understand, plain English so just about everyone can understand what I'm talking about. Topics such as engine blocks, machining, cranks, rods, pistons, compression ratios, camshafts, lifters, rocker arms, heads, porting, intake manifolds, headers, carburetion, superchargers, nitrous systems, ignition systems, tuning, gearing, transmissions, torque converters and even down to which oil works the best are covered!"

Six DVD "Power Pack"

430100 Power Building Power Pack – 6 episodes included in set 159.99 set
Individual "Power Pack" Episodes

These are included in part #430100

43006 Engine Building – 3 DVDs, 5 hours 34.99 set
DCARB Performance Carburetor – 2 DVDs, 3.5 hours 29.99 set
DSUPR Superchargers – 2 DVDs, 3 hours 29.99 set
DNIT Nitrous Oxide – 2 DVDs, 3.5 hours 29.99 set
DRTAS Rotating Assemblies – 2 DVDs, 4 hours 29.99 set
DHVP Heads, Porting and Valvetrains – 3 DVDs, 5 hours 34.99 set

Additional episode not included in the "Power Pack"

43007 Performance Engines & Strokers – 5 DVDs, 10 hours 44.99 set

Fuel Injection Manuals

Performance Fuel Injection Systems

This practical guide walks you through the process of modifying and tuning modern electronic fuel injection systems. Presenting plenty of foundational information, you're taken on a journey that includes wiring, fuel systems, sensors, and different types of ignition systems — all geared towards building a basic understanding of fuel injection systems. The book also covers configuring a stand-alone engine management system and tuning for maximum power and drivability, and much more. Paperback, 160 pages, 8-1/2" x 10-7/8".

L1569 29.99 ea

Designing And Tuning High-Perf Fuel Injection Systems

This book goes in-depth on the combustion basics of fuel injection as well as benefits and limitations of stand-alone. Includes glossary and a special resources guide with stand-alone manufacturers and test equipment manufacturers. Softbound, 128 pages, 8-1/2" x 11".

L1062 29.99 ea

Street Supercharging

This book will give information regarding all facts of supercharging, including how to install blowers, buying a kit, rebuilding manifolds, blower drives, carburetion and accessories. Softbound, 8-1/2" x 11", 128 pages.

L211 26.99 ea

Turbocharging

A detailed, comprehensive handbook on the theory and application of turbocharging for street and high-performance use. Covers all types of domestic, import cars, trucks and RVs. Includes detailed sections on theory, types of turbocharging components, engine considerations and aftermarket applications. Softbound, 8-1/2" x 10-7/8", 192 pages.

L317 29.99 ea

Turbochargers

How to select and install the correct turbo for big or small horsepower gains, turbo design, sizing and matching. Improve the performance of your engine by simply getting the right information. Covers all aspects of turbocharging and includes turbo suppliers list. Softbound, 8-1/2" x 11", 160 pages.

L185 29.99 ea

TURBO Real World High-Performance Turbocharger Systems

Author Jay Miller uses more than 300 photos and the perfect blend of technical and common sense information to help you build boost fast and make more horsepower and torque. He discusses the various components of a turbocharger and explains how to decode complicated turbocharger model numbers, compressor maps, and other specs. If you run into problems with your turbo system, there's also a detailed chapter on failure analysis to help you figure out what went wrong and how to fix it. Softbound, 8-1/2" x 11", 160 pages.

L978 29.99 ea

Wiring Manuals

Automotive Electrical Manual

The manual features comprehensive information which covers basic electrical fundamentals, trouble shooting and repair for both foreign and domestic vehicles. Includes engine starting and charging systems, lights, gauges and more! Softbound, 242 pages.

L575 29.99 ea

Auto Electrical Handbook

Learn about basic electrical theory, how various electrical works and drawing circuit diagrams. Includes tips on electrical test equipment and troubleshooting electrical circuits. 350 photos, drawings and diagrams. Softbound, 157 pages.

L187 29.99 ea

How To Diagnose and Repair Automotive Electrical Systems

Details the various tools, such as multi-meters and test lights, that can be used to evaluate and troubleshoot any vehicle's electrical system. Several hands-on projects take readers on a guided tour of their vehicle's electrical system and demonstrate how to fix specific problems. Paperback, 160 pages, 8-5/16" x 10-5/8".

L2090 27.99 ea

Automotive Wiring & Electrical

The basics of electrical principles, including voltage, amperage, resistance and Ohm's law, are revealed in clear and concise detail, so the enthusiast understands what these mean in the construction and repair of automotive electrical circuits. 8-1/2" x 11", 144 pages, 350 photos.

L1019 29.99 ea

Automotive Wiring A Practical Guide to Wiring Your Hot Rod or Custom Car

The book includes numerous charts showing typical configurations and suggested installation. A troubleshooting section lends a hand in tracking down the inevitable problems that can arise. Paperback, 144 pages, 8-1/4" x 10-5/8".

L39923 26.99 ea

Custom Auto Wiring & Electrical

This indispensable guide to high performance and OEM automotive electrical systems covers electrical theory, wiring techniques and equipment, custom wiring harnesses for racing, hot rods and restorations, premade wiring harnesses, special electrical systems (navigational, audio, video), troubleshooting common electrical problems, dashboards and instrument and trailer wiring. Softbound, 8-1/4" x 5-1/4", 192 pages.

L1056 29.99 ea

Automotive Wiring & Electrical

Countless collector car owners are skilled at performing mechanical work, but for many of them, electrical work seems like a mystery, too complicated and too confusing. However, electrical upgrades are absolutely essential for a high-performance classic car or a modified car to perform at its best. In this revised edition brilliant color photos and explanatory step-by-step captions detail the installation of the most popular, functional, and beneficial upgrades for enthusiasts of varying skill levels. Just a few of the projects included are: maximizing performance of electric fans; installing electronic gauges; upgrading charging systems; and installing a complete aftermarket wiring harness, which is no small task. Each face is covered in amazing detail. Paperback, 8-1/2" x 11", 144 pages with 394 color photos.

Media Blasting & Metal Preparation: A Complete Guide

!
When it comes to bodywork and painting, one aspect that's overlooked is proper metal preparation. However, there's more to a great paint job than sanding and shooting. Without proper metal preparation, the paint finish can end up full of imperfections; bubbles from underneath, or simply won't last, no matter how expensive the materials were. In Media Blasting & Metal Preparation: A Complete Guide, restoration expert and veteran author Matt Joseph gives you all the tools you need to expertly prepare your vehicle for the next stages of restoration. Short cutting the process will only cost you precious time. This book provides all you need to know for a successful and long-lasting restoration. Paperback, 144 pages, 8-1/2" x 11".

L1575 29.99 ea

Metal Fabricator's Handbook

!
This excellent how-to guide concentrates on race and custom cars. Covers everything from adding a hood scoop or fender flares, to building complete cars. Includes a tremendous amount of useful information. 8-1/2" x 11", 176 pages, paperback, 560 illustrations. **!**

L142 29.99 ea

Sheet Metal Handbook

Detailed information on how to form and shape metal for competition, custom or restoration use. Chapters include hammer forming tools, terms and equipment, riveting techniques, layout, design and pattern making. Softbound, 192 pages, 8-1/2" x 11". **!**

L243 29.99 ea

Professional Sheet Metal Fabrication

New!
Professional Sheet Metal Fabrication is the number one resource for sheet metal workers old and new. Dent repair and automotive patch panels fabrication are covered in detail. This is truly the most detailed enthusiast focused sheet metal how-to book on the market. Paperback, 304 pages, 8-1/4" x 10-5/8". **!**

L44927 39.99 ea

Automotive Bodywork And Rust Repair

New!
Whether you want to tackle a full restoration, or just want to save money by doing minor repairs yourself, Automotive Bodywork and Rust Repair is the book to get you through it. Softbound, 8-1/2" x 11", 160 pages. **!**

L1086 29.99 ea

Fiberglass & Composite Materials

!
This informative guide covers FRP materials, fibers and fiber forms, resins, gel coats, advanced techniques, building molds and plugs, structures and materials, health and safety, tools and shop equipment. Softbound, 154 pages, b/w illustrations. 8-1/2" x 11". **!**

L652 29.99 ea

Fabricate Automotive Fiberglass & Carbon Fiber Parts

New!
Learn to fabricate and repair body and engine parts fabricated from fiberglass and composite materials (plastic molded or carbon fiber), in your own garage. Use glass mat, woven fiberglass cloth, carbon fiber cloth, and hybrid fabrics, correctly mix the typical resins (polyester, epoxy), hardeners, and gels. Use core materials, such as wood, foam, and honeycomb Nomex, are to add strength to various parts. All the relevant tools, patterns, and materials are covered in detail. This book guides the reader through each critical stage. Softbound, 160 pages, 8-1/2" x 11". **!**

L1096 29.99 ea

High Performance Fasteners & Plumbing

New!
High Performance Fasteners & Plumbing is a comprehensive guide that offers useful, practical information to help you choose the best fastener or plumbing solution for your project. Included are sections on types of fasteners, hose sizes, fittings, thread types and sizes, fuel shielding, brake, oil, coolant and fuel lines, routing techniques, clamping loads, stress, bolt stretch, and many other tips. Softbound, 8-1/4" x 5-1/4", 176 pages. **!**

L1053 24.99 ea

Drag Race Chassis & Suspension

Detailed information and photos on basic chassis design, how to set ride height, tubing construction, steering and axle housings, choosing gear ratios, transmission choices, bolt-on traction bars, 4-Link setups, ladder bars, anti-roll bars, steering, shocks, springs, brakes, wheels, tires, safety equipment and so much more! Softbound, 5-1/4" x 8-1/4", 160 pages. **!**

L1052 29.99 ea

Chassis & Suspension Handbook

First in a series of custom techniques and tips on all areas of building a street rod. Features designing and how-to procedures on building the chassis and suspension for all types of street rods. Paperback, 8-1/2" x 11", 192 pages. **!**

L248 29.99 ea

How To Make Your Muscle Car Handle

This book defines, explores, and reviews the complete suspension system, and teaches you how to choose your upgrades for maximum effectiveness. Softbound, 8-1/2" x 11", 144 pages, 328 color photos. **!**

Tales Of A Motion Performance Muscle Car Builder

It was a driver's dream: Along with the full factory warranty, your car came with a guarantee of 11.5 second quarter mile times. It was Joel Rosen's dream, and in 1964, he set out to make it a reality. First he built fast cars. Then, taking a page from Ford's "win on Sunday, sell on Monday" strategy, he built a reputation by beating all comers on drag strips and in street races. Brilliantly illustrated with period pictures and modern color photos, the book takes readers along as Cobras, Chevrolets, Oldsmobiles, even Volkswagen Beetles roll into the shop to get torn down and rebuilt into cars unbeatable on the streets and drag strips. Marty Schorr gives a first hand account of seven years of high-performance life and of how it all came to a screeching halt at the hands of the U.S. Department of Transportation and the Environmental Protection Agency. Paperback, 176 pages, 11" x 9".

L2725 24.99 ea

1001 Muscle Car Facts

There are 1001 well researched muscle car facts in this book that even some of the most esteemed experts would be surprised to learn. Covered are all the popular GM makes including Chevy, Buick, Oldsmobile and Pontiac, Ford and Mercury cars, Chrysler, Plymouth and Dodge cars, and even facts about AMC and Studebaker as well. Fans of these collectible cars will appreciate the technical and entertaining information shared on every page about all of the great American muscle cars. Paperback, 6" x 9", 416 pages, 110 b/w photos.

L1310 26.99 ea

1955-75 Chevrolet by the numbers

Chevrolet by the numbers is the only authoritative reference for identifying and verifying the correct Chevrolet parts by casting number, for your exact model. Author Alan Colvin documented every casting number for every V8 Chevrolet engine and drivetrain part from 1955 through 1975, using original source material from Chevrolet's archives, including engineering blueprints, technical service bulletins and build sheets. Every engine is covered from the ultra-rare, high-performance aluminum 427 for the ZL-1, to the common 283 found in Impala station wagons. All engine blocks, cylinder heads, pistons, connecting rods, crankshafts, camshafts, manifolds and more, are listed. If you want to know the original parts for your Chevrolet drivetrain, not what will interchange or fit, but the correct part that came with your car when it rolled off the assembly line, Chevrolet by the numbers has the answer. Softbound, 8-3/8" x 11".

L508 1955-59 230 pages, 700 b/w illustrations 49.99 ea

The Yenko Era

This book by Yenko family friend Mark Gillespie sheds new light on the life and times of legendary racer, car dealer and car builder, Don Yenko. The small buildings that stand today where the Yenko plant once built cars so proud that a small operation can have a huge impact with Yenko changing the business of cars and racing forever. Family photos, invoices and letters paint a picture of the man who created the Yenko sports cars and follow his exploits as a businessman and a racer until his tragic demise in 1987. A must have for any Yenko enthusiast.

L976 29.99 ea

Selling The American Muscle Car

As the muscle car wars developed in the early 1960s, auto manufacturers scrambled to find catchy marketing campaigns to entice the buying public into their dealerships. General Motors, Ford, and Chrysler, with all their divisions, as well as AMC and Studebaker, inevitably sank billions of dollars into one-upmanship in an effort to vie for the consumer's last dollar. Manufacturers poured millions into racing programs, operating under the principle of "Win on Sunday, Sell on Monday." Cars were given catchy nicknames, such as The GTJ Judge, Plymouth Roadrunner, Cobra, and Dodge Super Bee. Selling The American Muscle Car: Marketing Detroit Iron in the 60's and 70's takes you back to an era when options were plentiful and performance was cheap. You will relive or be introduced to some of the cleverest marketing campaigns created during a time when America was changing every day. Hardback, 10 1/2" x 10", 192 pages, 290 color, 145 b/w photos.

Chevy Nova 1968-74 — How to Build and Modify

In Chevy Nova 1968-1974: How to Build and Modify, it shows you all you need to know to build a killer street or strip Nova. Included is detailed information on drive line upgrades, rear suspension options for the ultimate hook, front end suspension and chassis components for good handling and weight transfer, excellent brake upgrades, engine swap options, cooling system upgrades, and more. Focusing on quarter mile performance it covers all of your options for a strong running street Nova, a street strip combo package, or all-out drag racing options. If you want to build your Nova into a quarter mile warrior, this book is an essential tool for success. Paperback, 8-1/2" x 11", 144 pages.

L1281 29.99 ea

Detroit Muscle

The muscle car era, and the era that immediately preceded it, are a unique window in time; it is one that we will not likely see again. Post-war USA was a place where people wanted to move on from the horrors of conflict, to embrace an era of peace, and to pursue, well, all sorts of things. It started in the 1950's, when automakers realized that if they made their cars more powerful than brand X and won races on the weekends as well, sales would follow those victories into the dealership. Detroit Muscle: Factory Lightweight and Purpose-Built Muscle Cars follows the evolution of the fastest, most powerful, and exciting vehicles of the era, in both drag racing and NASCAR. From early Hudson Hornets, to the birth of the Hemi, to aluminum and fiberglass panel sedans, to lightweight special-order muscle cars ready to race from the factory. Hardcover, 10" x 10", 192 pages.

L1283 44.99 ea

COPO Camaro, Chevelle & Nova

Few Chevrolet cars have captured the imagination of enthusiasts quite like the COPO Camaros, Chevelles, and Novas from the 1960's and 1970's. They were the ultimate muscle cars GM had to offer, being built through back door channels to avoid a stern government crackdown on performance, racing and speed. The key to unlock the magic of the Central Office process was discovered by racing enthusiast, Don Yenko, who uses his Canonsburg, PA dealership to open the doors to getting vehicles made that officially Chevrolet was never going to build. Author and automotive historian Matt Avery has captured this wild and high powered story. Along the way, he's spotlighted original owners, interviews with pro-drivers, sales staff and dealership technicians who were there to see it firsthand and witness it all. Features archived images, advertisements, sketches, and 10 x 10 full color hardcover with 204 pages.

1973-74 Deluxe Windshield Heat Shield

The UVS100 Ultra-Violet Heat Shield helps reduce interior temperature and protect from damaging sun rays that come through the front windshield. One side is colored reflective fabric and the other side is finished in soft pelt felt. Both fabrics are laminated to a foam core board which acts as an insulator to help reduce heat buildup. Heat shields are easy to use. Produced using pre-sewn panels that quickly accordion fold for handy storage. There is no hardware or hassles, simply fold and position across the windshield surface, then fold the sun visors down to hold the shield in place. Optional heat shield storage bag is available in correct size for each.

Note: Specify color when ordering.

1962-79 Windshield Sun Shade

Keep your interior up to 40 degrees cooler by reflecting the sun's harmful UV rays, so you can return to a cooler parked vehicle with both reduced ambient heat and much cooler steering wheel, shifter and seat surfaces. This windshield sun shade is custom tailored to fit the inside your vehicle's windshield. It's high tech, incredibly reflective, closed cell foam material prevents costly dash pad and steering wheel damage, while improving your comfort. Stores conveniently rolled up with a sewn-in Velcro strap.

Hidden Car Tracker Pro Plus

Track your car easily with the BrickHouse Hidden Car Tracker Pro Plus, a completely covert GPS tracker. This powerful tracker puts you in total control of individual vehicles or fleets, and drivers will never know it's there unless you tell them. Enjoy an unlimited power supply while the vehicle is running and, when the vehicle is off, the internal back-up battery continues to provide location data for up to 12 hours - ideal for recovering stolen or lost vehicles.

- Hard wired, no batteries required
- Location updates every 10 seconds
- External antenna for superb accuracy
- 12 hour continuous back-up battery

Through BrickHouse Security's easy to use GPS platform, you can receive instant speed or location based alerts via text or e-mail, based on custom parameters. View the tracker's location in real time on three customizable map views, or access detailed location history reports. All of these features can be accessed from any smartphone, tablet, or computer with an internet connection; no special apps or software are necessary. This device requires a \$29.99 per month fee for unlimited GPS tracking, billed every 30 days (billing starts 7 days after purchase).

Note: If service is inactive for 60 days or more reactivation will require a new SIM card for your device and may take up to 3 business days.

TrackPort GPS Vehicle Tracker

The TrackPort is the easiest way to track a car or truck, and protect it against thieves. Just plug the device into your vehicle's OBD-II (On Board Diagnostic) port. Normally located under the driver side dash, this port has been standard on all vehicles sold in the United States since 1996. Use your vehicle's existing port to supply uninterrupted power to your tracking device. Unlike traditional hard-wired tracking devices, an OBD GPS tracker can be easily moved from one vehicle to another with no tools and little effort. It's completely "Plug and Play".

- No installation required, just plug in and go
- Move TrackPort instantly from vehicle to vehicle
- Location updates every 30 seconds
- Powered by your vehicle - no batteries needed
- U.S. tracking only

Know where the TrackPort is at any time, view where it's been, and run reports on the vehicle's behavior from any computer, tablet, or smartphone with a web connection. Receive customizable location or speed based alerts via text message or e-mail. Purchase of this device constitutes agreeing to the monthly service fees chosen upon sale. The TrackPort requires a \$29.99 per month fee for unlimited GPS tracking, billed every 30 days (billing starts 7 days after purchase).

Note: If service is inactive for 60 days or more, reactivation will require a new SIM card for your device and may take up to 3 business days.

Micro GPS Hidden Car Tracker

The BrickHouse Livewire Micro is a high-performance GPS tracker that's completely invisible in any car or truck - and it's one of the most affordable GPS devices available. This completely covert GPS tracker is hard wired behind your dashboard, so the driver will only know it's there if you choose to tell him. And since it gets its power from your vehicle's electrical system, you never have to worry about running out of battery life. When the vehicle is turned off, the Micro provides location updates every hour. Detailed reports of a vehicle's travel history are also available. For the most accurate tracking available, the Livewire reports location on the Verizon network, which offers the best cellular coverage in the United States. Device supports rapid tracking, Geofence alerts, and speed alerts with select service plans.

Note: This device requires a no contract service plan, available from \$9.99 to \$39.99 per month.

Inspection Approval Stamps

- Achieve complete authenticity for your vehicle by applying inspection approval stamps!
- The first and only kit designed to put inspection marks on your undercarriage and hood!
- A complete set of stamps with specially formulated paint and crayons are included to truly complete your restoration!
- Basic or deluxe kits are available depending on your restoration requirements!

It's the details that make the difference!

You may have seen the letters P.T.B. on the firewall of your vehicle. The markings have specific meanings. We've offered a brief explanation to the most commonly asked questions concerning the replacement of these markings. The key between a good restoration and a great restoration is how much detail is put into it. Enter your restored vehicle in the show of your choice and maintain complete originality by obtaining the correct inspection markings. The judges will be impressed!

Questions and Answers

- Q What does P.T.B. stand for?
A P.T.B. means P = Paint, T = Trim, B = Body.
 Q Do they go in any certain order?
A No. They can be mixed up in any way you like. PTB, TBP, BTP, TPB, etc.
 Q The most common way is PTB.
 Q Where do they go?
A PTB can be on either side of the firewall but the driver side is the most common. They have also been seen on the side of the cowl behind the fender but it would be useless to put them there since they can't be seen.
 Q What color should they be?
A They can be orange, light green, or a mixture of both. For example P=orange, T=light green, B=orange, or anyway you like. If your PTB is still intact before your restoration, do your new PTB's in the same colors. Not all vehicles included PTB's but when restoring yours we suggest you put them on.

Factory Inspection Marking Kits

Includes the correct P.T.B. stamps with specially formulated paint to give your vehicle the final inspection marks that the factory put on. Also included are the yellow and white crayons for marking your firewall with the factory inspection marks. A must for any true restoration.

Firewall and Frame Marking Crayons

These are the correct "grease pencil style" crayons used for marking the factory inspection marks on your firewall, subframe, and other various sheet metal areas. Included are a yellow and a white marking crayon.

K0084	5.99 pr
-------	-------	---------

Frame Engine and Body Marker

Automakers use these permanent markers to write codes and numbers on frames, engines and body components. Engine suffix codes were often written on the back of the cylinder heads. Job numbers were written on the firewall, frame, engine, and other components to assure the correct vehicle was being built according to the build sheet. These permanent paint markers will help you exactly duplicate the factory original marks.

MOTHERS® – High-Performance Car Care Products

California Gold Clay Bar Set

The clay bar system has been a closely guarded secret of professional detailers for many years. Until now they have had nearly exclusive access to this technology. Now Mothers® makes it available to you so you can gain the benefits of the system, saving time and money. Everything you need is included in this box: one 80 gram Mothers® California Gold Clay Bar (enough to save at least three average sized cars), one 16 oz. bottle of California Gold® Showtime® Instant Detailer (clay bar lubricant) and one 4 ounce bottle of California Gold® Original Formula Liquid Carnauba Wax to provide long-lasting protection.

M07240 24.99 set

California Gold Original Formula

Paste Wax

Genuine Brazilian Carnauba wax combined with cleaners is the secret to a superb shine and incredible protection. Original formula is created with Carnauba wax, top of the line cleaners, the highest quality polishes, and finish restorers. Works great on cars, trucks, motorcycles, and airplanes. Is safe for clear coats. Gives the shine you would expect from a paste wax and is easy to use.

M05500 12 fl. oz. 12.99 ea

California Gold Natural Formula

Paste Wax

This natural formula wax contains Carnauba wax and just enough modern chemistry to let you easily apply it, remove the light haze and enjoy the most spectacular shine you will ever experience. For a truly brilliant shine, accept no substitute.

M05550 12 oz. paste 19.99 ea

Mothers® Mag & Aluminum Polish

Mothers® secret formula is world renowned for providing the easiest, brightest shine for aluminum wheels, manifolds, valve covers, brass trim, all alloy parts, and accessories. Tough enough to tackle the most neglected metals, yet gentle enough to use every day.

M05100 5 oz. 7.99 ea

M05101 10 oz. size 10.99 ea

California Gold Car Wash

Cleans and shines like only Mothers® can. This ultra sudsy car wash contains detergent strong enough to wash away dirt, road film, bugs, bird droppings, and other contaminants, yet its exclusive PH balanced formula will not remove wax and resists water spotting.

M05600 16 oz. 4.99 ea

M05632 32 oz. economy size 8.99 ea

California Gold Pre-Wax Cleaner

Cleans like only Mothers® can. See incredible results on clear coat paints, lacquers, enamels, pearls, candies, urethanes, and all other paint types. Prepares paint for waxing or glazing by removing oxidation, dirt, stains, and old wax. Restores color and luster to your paint with Mothers® Pre-Wax Cleaner.

M07100 16 fl. oz. 8.99 ea

California Gold Sealer & Glaze

Enjoy the ultimate brilliance of a show car shine on all paint types and colors including clear coats, blacks, reds, and candies. Fills and hides scratches, swirl marks, and spider webbing. Formulated to achieve spectacular, professional results by hand or with a buffer. Will not streak, smear or fingerprint and may be used over existing wax.

M08100 16 fl. oz. 8.99 ea

California Gold Natural Formula Liquid Wax

This natural formula wax contains Carnauba wax and just enough modern chemistry to let you easily apply it, remove the light haze and enjoy the most spectacular shine you will ever experience. For a truly brilliant shine, accept no substitute.

M05750 16 fl. oz. 11.99 ea

California Gold Carnauba Cleaner Wax

The alternative to paste wax is this terrific liquid wax with cleaner. It contains Brazilian Carnauba for spectacular shine and state-of-the-art chemical film formers to lock in durable protection. Great for all paints. Restores color, removes oxidation and is detergent resistant. Safe for clear coats too.

M05701 16 fl. oz. 7.99 ea

Carpet & Upholstery Cleaner

Carpet & Upholstery Cleaner is a must for removing stubborn dirt and stains from velvet, vinyl, cloth, carpets, and sheepskin covers. Safe and effective on all automotive fabrics, yet works great for home use too. This special formula is designed to get out some of the toughest dirt you'll find. Even works great on grease, gum and stains caused from mud.

M05422 22 fl. oz. 9.99 ea

Preserves Protectant

Provides preservation and protection for 30 days. This unique formula penetrates and bonds to block out the harmful effects of ultraviolet rays, ozone, smog, and contaminants and to protect, rubber, vinyl, plastic, and fiberglass. It beautifies and protects tires, bumpers, vinyl tops, dash boards, window trim, seats, household items, sporting goods, and just about everything else.

M05316 16 fl. oz. 8.99 ea

Regular Formula Wheel Mist

Rusty rims? Oxidized bumpers? Don't worry Mothers® will clean it up for you. The original, one step wire and mag wheel cleaner, formulated for chrome and rough cast aluminum. No scrubbing or elbow grease needed. Simply spray on and hose off dirt, oxidation, rust, and brake dust for the best shine and the ultimate sparkle. Works great on chrome bumpers, side pipes or any hard to clean bright metal surface.

M05824 24 fl. oz. 8.99 ea

Mothers® PowerBall

Mothers® PowerBall is the first foam polishing tool designed to revitalize billet, diamond plate, polished aluminum, stainless steel, chrome lenses, convertible top windows, and much more. When used with Mothers® PowerMetal polish, the power ball is ideal for any uncoated, polishable metal finish. Its unique and durable construction compresses to fit tight spaces, so polishing difficult, intricate metal work to a mirrorlike finish is fast and easy.

M05140 PowerBall 28.99 ea

Chrome & Glass

Cleaner/Protector

Ideal for cleaning and protecting windows, mirrors, bumpers, wheel wells, and chrome trim. Leaves surfaces clean and streak free. Unique protecting agents resist smears and fingerprints.

M05208 12 fl. oz. 6.99 ea

Mothers® Back-to-Black

Renews and protects all exterior trim. Perfect for all vinyl, rubber, wheel wells, yet surfaces need not be black to achieve superior results. Works incredibly well on both smooth and textured surfaces, bumpers, protective and decorative moldings, lowers, wheel wells, window trim, and wiper arms. After applying, surfaces look new again and will be protected against further oxidation or deterioration caused by harsh elements. To get back to beauty, get Back-to-Black.

M06108 8 fl. oz. 6.99 ea

OER® "Secret Formula" Clay Bar System

Heavy-duty for heavy oxidation clay pulls out all the contaminants you cannot see, but that you can definitely feel, like industrial fallout, rail dust, and brake dust. Though these contaminants are not visible, you can tell they are there because the paint will feel rough or gritty. These contaminants can cause patches of paint to appear dull, even after waxing. As these contaminants oxidize, they create rust spots within the paint. Once this happens, the oxidation is considerably harder to remove and will most likely take a good bit of paint with it. Clay will remove these contaminants and leave the surface silky smooth with a mirrorlike smooth finish. This clay will not break down or deteriorate like inferior low quality clay bars are prone to do. It is super elastic and will act as a magnet for foreign particles, literally pulling paint fouling from the paint. Clay lubricant is essential to the performance and lifespan of the clay. It provides the necessary slick surface for clay to glide on. Using low quality lubes or cheap detail sprays will deteriorate the bar faster and lead to poor performance.

DER® Premium Carnauba Pre-Softened Wax

DER® Secret Formula Pre-Softened Carnauba Paste Wax is in a class all its own. A pre-softened paste wax with no cleaners, it leaves a deep, brilliant long-lasting shine. It protects and beads up with a glass like gloss that lasts up to 6 months. It works beautifully on all colors, even on blacks, reds, and burgundies, filling in swirl marks. It's also super easy on and off; just wipe on in a circular motion, and take off with a microfibre immediately. No need to wait for it to dry! Leaves no white haze at all, there is no white residue to clean out of the cracks, and no need to be careful around the exterior trim - it won't leave white marks! There's no trade-off here; the easiest application in the world, and the best results! Great grape smell. For the enthusiast who demands the highest and wettest level of shine. DER® Secret Formula Pre-Softened Carnauba Paste Wax is a premium blend of genuine carnauba wax and natural oils that makes paint "drip off of your vehicle" with a high gloss shine and shimmer that is sure to impress even the toughest critics. The 5" round microfibre applicator pads make it easy to apply waxes or rubbing compounds without scratching paint or clear coat. Simply rinse and reuse. Microfibre applicators are highly absorbent, strong yet gentle and the fabric is machine washable.

DER® "Secret Formula" Acryli-Shine Glaze ⚠️

Glaze is a polish without any cleaning properties used primarily to improve the shine and clarity of paint. Primarily used by body shops for finishing jobs or by detail shops to bring out the brilliance of paint, glazes are also commonly used on show vehicles to achieve a "high luster or wet look". It was developed for the darker finishes, using a slightly moisture formulation to enhance the difficult to wax paint finishes. The application process is forgiving, smooth, and dust free. Your moldings will not turn white. Glazes do not replace polishing. If a surface has minor swirls and imperfections, to achieve the best superior results, the surface should be polished with a polish first.

P99 HD Interior Fabric Cleaner

The beautiful thing about P99 HD: It leaves no film. After cleaning fabric, carpet, floor mats, convertible tops, vinyl tops, seat upholstery, door panels, vinyl, plastic, aluminum, you will have a clean surface free of any residue. This strong all purpose cleaner should be diluted 30:1 for light jobs, 15:1 for medium, and 5:1 for heavy dirt. Apply with a sprayer or sponge. Agitate stubborn dirt with a brush. Our P99 HD Secret Formula Interior Exterior Multi Purpose Fabric Cleaner works just as a spot cleaner for all color-fast fabrics. Will not stain or leave a ring around area cleaned. Apply by hand and in a matter of seconds the specially formulated cleaning agents emulsify the stain while the surfactants work to unlock the soil from the fabric and suspend the dirt within the liquid containing the stain trappers to the cloth.

Ice Super Shine High Gloss Dressing

The Ice Super Shine Dressing is a thick silicone rich dressing that leaves a super high gloss, long-lasting shine on tires, rubber molding, vinyl, and plastic. For the detailer who demands the very best in appearance and weather protection. Tires renewed with Ice will repel water through repeated washings. Ice is named for its super "wet look." It looks like a coating of ice! Contains a fruity fragrance you'll love. This dual action premium dressing leaves surfaces 100% dry to the touch and shining better than new, while protecting the surface against dirt, dust and harmful UV rays. Surfaces treated with Ice Super Shine Dressing look shiny longer, require less cleaning. Maintains a 100% dry, never greasy or oily, fresh texture on vinyl, leather, plastic, rubber, tires, and more!

K89522 1 gallon..... 36.99 ea

Finishing Touch Matte Finish Protectant

Finishing Touch is an all purpose dressing that restores the "wet car look" to vinyl, rubber, leather, and plastic. It cleans, beautifies, and protects. It is preferred by many detailers for interiors for its "softer" look and non-greasy look and feel. Pleasant banana fragrance. Spray or wipe-on ready to use. Cleans, protects and beautifies in one easy step. Gently wipes away light traces of dirt while you apply. Patented UV absorber penetrates and acts as a protective barrier against harmful rays that cause premature aging, cracking, fading, and peeling. Engineered to work like a lotion to soak into new vinyl or dry vinyl to aid in prolonging and strengthening the surface. Perfect for dashboards, vinyl tops, door panels, consoles, tires, trim, bumpers, vinyl seats, moldings, and more.

Professional Car Care Products for the Enthusiast

OER® Premium Metal Polish & Sealant

OER® Extreme Shine Metal Polish & Sealant cuts through layers of dulling oxides to restore a wet mirrorlike finish that outshines chrome. This outstanding polish makes chrome, copper, brass, aluminum, stainless steel and other metalwork gleam and look their absolute best. Spreads on with ease, buffs off with little effort. Great for oxidized metals and even light rust. Can be easily applied in the shade or sun. Leaves virtually no smear, dust, or powder. The most innovative metal polish ever. A 3 step product in one, this diminishing metal polish cuts fast, cleans like no other, shines like a mirror and protects like a sealant. Utilizing friction and heat OER® Extreme Shine Metal Polish cleans, restores, revives and polishes. Friction generates heat that allows the product to break down into a micro-fine polish that leaves the surface shining like a mirror. During the final phase, it breaks down to release the durable protective sealant that bonds to metal surfaces reducing corrosion and prolonging shine. Use by hand with a polisher or with your polish ball and drill. 

K89483 16 oz. bottle..... 17.99 ea

Secret Weapon Polish Ball

The Secret Weapon Polish Ball bends and compresses enabling it to fit into tight spaces and make the cleaning and polishing of difficult, hard to reach areas like wheels, rims, and other metal work much easier. Can be attached to any handheld drill or drill-like device for fast and superior cleaning and polishing. Great for cleaning and buffing small items like mirrors, headlight lenses and trim parts. Space age Dura-foam and fiber soft materials make it the most durable tool of its kind. Comes in your choice of 2 sizes: a 2.5 inch or 3.5 inch ball. Ideal for use with your favorite wax, polish, wheel product or compound.

OER® "Secret Formula" Wheel and Tire Care

Over the years, OER® has become the name that you have come to trust for quality restoration products. We are dedicated to bringing our valued customers the absolute best products our industry has to offer. When it comes to car care, our "Secret Formula" products are no exception! We know you have a lot invested in your classic car, so we have formulated products that not only perform at a level unmatched by any other brand, but a formula that keeps your investment in mind. Our formulas are engineered not only to keep your pride and joy looking good, but also to protect your vehicle's delicate surfaces from the elements without the use of harsh damaging chemicals.

OER® Acid Free Wheel and Tire Cleaner

Spray-on and rinse-off! Easily removes deposits of brake dust, grease, and road grime from wheels. Safe for clear coated, painted, and polished finishes. This strong non-acid formula is fortified with a citrus cleaning agent. This is an industrial strength 1:1 concentrate. Dilute with water as needed. Long time accumulations of brake dust may need light agitation with a soft brush. Unlike many alternative products, OER® Acid Free Wheel Cleaner dissolves grime and brake dust without damaging your chrome and alloy wheels. Non-acidic, spray-on wipe-off formula with no scrubbing necessary and no harsh scent. 

K89614 32 oz. bottle..... 9.99 ea
K89615 1 gallon..... 17.99 ea

OER® Secret Formula Wheel Wax

OER® Secret Formula Wheel Wax is formulated to safely and effortlessly clean, shine, protect and prolong all types of wheels and wheel finishes. Wheel Wax delivers a high gloss, durable wet shine finish on all chrome, aluminum, stainless, powder coated, and even painted wheels. Clean, polish, shine, protect, and prolong in one easy step. Extremely easy to use and apply, utilizing accurate micro-size synthetic beads that gently and effortlessly lift and polish away oxidation and road film from wheels to guarantee a scratch free perfect surface. Wheel Wax not only enhances shine, it protects your investment. Harmful degreasers and acids can damage wheels reducing shine and causing premature oxidation and deterioration of wheel. Wheel Wax is an acrylic sealant that bonds instantly to protect against brake dust, heat, acid rain, water spots, airborne fallout, and road contaminants. 

K89486 8 oz. jar..... 16.99 ea

OER® TNT Extended Life Tire & Trim Dressing

This unique formula quickly penetrates rubber trim and tires to hydrate and provide lasting protection. TNT Extended Life gel by OER® finally delivers on that promise. Simply wipe on using a pad and TNT gel restores the look of faded tires, trim, bumpers, seals and weatherstrip. What's more, OER® TNT gel lasts for many months, not days. Our exclusive, no-streak, no-run, and non-drip formula works to repel water and detergents and helps keep tire walls hydrated and supple as well as looking brand spanking new. Prepare your trim for a product unlike any other. A true premium trim restorer and protectant, that will not drip, dry out, or destroy surfaces. Provides unmatched durability, ease of application and a superior "new look" shine that lasts through numerous washes. Non-greasy, non-tacky and simply amazing.

Professional Car Care Products For The Enthusiast!

Grit Guard insert
Keeps the wash water clean and scratch free!

Grit Guard Wash Systems

This unique wash bucket provides a convenient way to store or transport all of your car cleaning supplies while doubling as an extremely effective finish protecting wash tool. The Grit Guard insert sits in the bottom of the pail to extract particles and contaminants from mitts and brushes. Gravity causes sand and dirt to settle below the guard so the wash water stays clean and scratch free.

Basic Wash System

The basic wash system includes a black pail with a yellow sealing lid and a Grit Guard insert.

K89740	3.5 gallon.....	28.99 ea
K89741	5 gallon.....	32.99 ea

Grit Guard Deluxe Wash Bucket Sets

This superb washing system features a Grit Guard insert, a heavy-duty bucket, a seat cushion and a dolly that turns the washing system into a rolling stool, so you can sit down and detail your car comfortably. Five heavy-duty smooth rolling casters roll over cracks without tipping. Two locking casters hold your washing system in place while working on inclines. The convenient spin-on lid creates a perfectly sealed storage compartment for all of your favorite cleaning supplies. Supports up to 250 pounds.

Deluxe Washing System

Protection from Moisture During Storage

Sta-Dri pouches significantly reduce humidity and moisture inside of your vehicle safely and conveniently. Pouches can be regenerated up to 3 times. Use 1-2 pouches per vehicle. Depending on humidity level, one pouch can last up to a year of continuous storage, though it is recommended that you check every month and regenerate as necessary. Non-toxic and non-corrosive, remains dry to the touch even when fully saturated.

Buffing Pad Wash Bucket

When you hand wash pads, the backing pad gets wet, oversaturating the foam. The universal pad washer keeps the backing pads dry and extends the life of your pads. No more throwing away perfectly good pads because the backing pad has torn off. Your buffing pads, buffing bonnets, polishing tools and accessories clean up so well you'll think they're new! Condition, clean, and dry all in one system. The universal pad washer extracts contaminants trapped deep inside your buffing pads. No cross contamination worries when switching buffing compounds. O-ring seal lid provides water tight portability. Wash and dry in under 30 seconds!

Protect Your Wheels from Harmful Over Spray

The RIM PRO™ wheel protector is foldable and includes a handy pouch lending itself to easy storage and accessibility in your vehicle or out. The perfect product to help shield your wheels from tire shine over spray, allowing your wheels to stay clean and free of damage from harsh chemicals. Using this device will help you to save time by virtually eliminating the need to wipe the wheels after applying tire shine products to your tires. Not only that, but it will also prevent the buildup of dust and dirt on your wheels created by the over spray from these grime collecting chemicals. Hand washable. Available in 13", 14", 16", 18", and 20" sizes, buy one for each of your vehicles.

Air Force Master Blaster Vacuum/Blower

The Air Force Master Blaster uses twin 4.0 peak HP motors (8 peak HP) to blow warm, dry, filtered air that provides safe drying without the chance of scratching your expensive paint and chrome finish. It also speeds up drying time, minimizing water spots and blowing water out of places you can't normally get to with a towel or chamois. Both feature a sturdy all steel construction, weigh 26 pounds, and are 22" x 8" x 11". The Master Blaster comes with a 10 ft. 1-1/2" flexible commercial strength hose, heavy-duty neoprene blower nozzle, with 5 additional interchangeable attachments. The Master Blaster Revolution also includes swivel front wheels, a wall mount bracket, and a dust bucket.

Adjustable seat provides the support, leaving your feet free to control your movement.

Floating, attached kneepads eliminate direct pressure on knees, circulation problems.

Removable tray holds tools, small.

Aluminum frame is elevated on 2" casters to eliminate pressure on toes, ankles, and knees.

Speed and Comfort for a Demanding Job!

This seat provides support while taking pressure off knees, ankles, and toes. The caster wheels allow you to move freely, and the attached floating kneepads allow your knees to rest. Attached to the tool is a 7" x 15" removable tray which is great for holding tools and small parts. Weighing only 8 lbs, the tool is manufactured from 1/8" thick industrial strength aluminum. The comfortable web spring seat is covered with a soft leather like cover and adjusts vertically 11-1/2" to 15-1/2" in height. Backed by a 1-year manufacturer's limited warranty.

Park Perfectly Every Time

The Park Smart Mat helps guide you into your garage space letting you know exactly when to stop. Perfect for getting your classic or collectible car into the correct position in a crowded garage. As you feel yourself driving over the first bump, the second bump tells you that you have driven far enough forward. Measures: 27-1/2" x 12" x 1-1/2". Includes a manufacturer's limited lifetime warranty. Buy one for each of your vehicles.

ACP101 Park Smart Mat..... 19.99 ea

Trailer Ramps

Is your trailer door too steep to get your vehicle to the race track or autocross? Are you tired of busting up your nose? Race Ramps has just the solution for you: simply place the trailer door on the notch of these specially designed trailer and decrease your angle of approach to as little as 4 degrees. These hassle free, lightweight ramps work for vehicles weighing up to 6000 pounds. Trailer ramps are ideal for low ground clearance vehicles with extra wide tires.

Note: For increased safety, use Wheel Chocks with all Race Ramp products.

RR104 5"..... 299.99 pr
RR105 8"..... 299.99 pr

Wheel Chocks

Wheel Chocks are ideal for use with all Race Ramp products, providing additional safety in the working environment. Made from solid rubber composite with an extra grip bottom, they each weigh 3 pounds. Set of 4.

Note: For increased safety, use Wheel Chocks with all Race Ramp products.

RR109 6" x 4" x 5"..... 64.99 set

Wheel Cribs

Wheel Cribs are a safe, lightweight alternative to jack stands. They cradle the tire 10" off the ground, providing unobstructed access underneath the vehicle. Each crib supports 1500 pounds (3000 pounds per set) and weighs only 5 pounds. Wheel Cribs also can be used for vehicle display.

Note: For increased safety, use Wheel Chocks with all Race Ramp products.

RR108 15" x 10" x 12"..... 132.99 pr

Roll-Ups

Designed to be used in conjunction with 56" or 67" Race Ramps, Roll-Ups raise the opposite end of the vehicle up 4", allowing even more working room under the vehicle. Roll-Ups can also raise the front or rear of the vehicle to allow the use of a standard floor jack. Roll-Ups are 14" wide work with tires up to 12" wide.

Note: For increased safety, use Wheel Chocks with all Race Ramp products.

RR106 10.79 degree incline..... 149.99 pr

Race Ramps

Race Ramps are ideal for vehicles with tires up to 10" wide. With an incline of only 10.75 degrees, they lift your vehicle up 8" or 10" and hold up to 3000 pounds per set while weighing only 10 pounds per ramp. Will not slide across a garage floor, dig into an asphalt driveway, or scratch or otherwise damage a cement or painted floor. They can be used on grass, dirt, or almost any other flat surface, and they will never rust. Race Ramps come complete with straps for easy carrying and storage.

Note: For increased safety, use Wheel Chocks with all Race Ramp products. *Shipped oversized.

Spray-On Insulation

LIZARD SKIN
SPRAY-ON INSULATION

Buy the Complete Set & Save!

BEFORE APPLICATION

AFTER APPLICATION

Shared Benefits:

- Easy spray-on application
- Continuous protective moisture barrier
- Fast clean up with soap and water
- Environmentally friendly solution
- Applicable to interior or exterior of vehicle
- Non-toxic and class A fire rated
- Both are paintable
- Coverage is approximately 50 ft²/2 gallons

Sound Control Benefits:

- Provides non-combustible thermal insulation
- Able to withstand temperatures up to 500 degrees F
- Interior temperature reduced by 30 degrees F
- Offers a protective, seamless membrane

Ceramic Insulation Benefits:

- Protects surface from moisture and rust
- Dampens annoying rattles, vibrations and road noise
- Impressive dampening to weight ratio
- Coating can withstand temperatures up to 300 degrees F

Sound Control and Ceramic Insulation

Get the comfort of premium grade insulation without the extra weight! These environmentally safe formulas from LizardSkins can be used as a one part coating or as a two stage system for a cooler, quieter driving experience. The Sound Control formula dampens unwanted engine and road noise, while the Ceramic Insulation formula cools your vehicle up to 30 degree F or more creating a more comfortable ride. Designed for floors, roofs, firewalls, fenders, transmission tunnels, door panels, trunks, and more, all at a combined cured weight of 52 lbs for four gallons. Insulating a vehicle has never been this easy, thanks to a custom designed application gun made specifically to handle the thick density of the coatings with ease. Order the individual components or buy a complete kit and save!

Important: For two stage applications, Sound Control coating should be used as the base. Four gallons of each coating are required to encapsulate a typical interior and trunk area of 1 vehicle, and 1 gallon of Sound Control when applied as undercoating.

OER® Rust Removal & Prevention

Remove Rust

OER® Dissolve Rust

OER® Chemical Restoration Dissolve Rust returns rusted surfaces to bare metal without harming the integrity of the metal. The viscous formula is reusable and will not harm plastic, rubber, seal, soft metals, or non-oxide coatings such as paint and chrome. OER® Chemical Restoration Dissolve Rust works like an acid, but is safe for you and the environment. OER® Chemical Restoration Dissolve Rust is ideal for removing rust from any part or surface that can remain damp with the product until the rust is gone!

Dissolve

■ **OER® Dissolve Rust** removes rust leaving a bare metal surface.

K86110 quart..... 16.99 ea

Treat Rust

OER® Etch Metal

OER® Chemical Restoration Etch Metal inhibits rust and promotes paint adhesion for bare metal surfaces. This specially formulated liquid gently etches the metal, then leaves a zinc coating that helps chemically bind paint to the surface. OER® Chemical Restoration Etch Metal is non-toxic, non-flammable, and reusable. Ideal for application on bare metal parts after sandblasting or using OER® Chemical Restoration Dissolve Rust.

Etch

■ **OER® Etch Metal** removes light surface rust and leaves a coating that bonds paint to the metal surface.

K86114 quart..... 16.99 ea

Convert Rust

OER® Convert Rust

OER® Chemical Restoration Convert Rust instantly neutralizes rust and converts the rusted surface, leaving a protective dark polymer coating. The inert coating provides an excellent primer base that seals out moisture to prevent future rust and corrosion. Protected surface can then be top coated with most paints. OER® Chemical Restoration Convert Rust can be applied with a brush, trigger bottle, or a spray gun. Brush - A common household paint brush or foam applicator. Spray Gun - HVLP or conventional spray gun using a 1.0-1.4 nozzle at low pressure. Available in quart bottles.

Convert

■ **OER® Convert Rust** turns rust into a black, paintable polymeric coating that's ready for primer or top coat.

RustSeal® Corrosion Barrier Coating

OER® Authorized RustSeal is a superior one part, ready to use, high solids content, rust preventive, corrosion barrier coating, that is actually hardened by exposure to moisture. It is impervious to road salts and most every chemical. RustSeal flows out to a beautiful, rock hard, tough ceramic-like coating that is tough to chip or scratch, and will not crack or peel. RustSeal is an incredible, single component, ready-to-use, high solids content, rust preventive coating with exceptional sealing properties. RustSeal is the most permanent cost effective solution for treating rust and corrosion anywhere where it is a problem: home, automotive, industry, fleet, farm, and more! RustSeal is an enhancement that lasts. Water and air are locked out, therefore oxidation, the precursor to rust, cannot take hold. RustSeal is not intended for use as a final finish. To protect against unwanted cosmetic changes, top coat RustSeal with any opaque (solid color) paint system. After removing or treating rust on floors, subframes, or other under vehicle components, RustSeal® Corrosion Barrier Coating works by isolating the surface from moisture and oxygen. This single component, high solids, rust stopping coating seals out the ultimate causes of rust, creating a rock hard non-porous barrier between the metal and rust promoting elements. Will not crack, chip, flake, or peel, and no hardeners or activators are needed. RustSeal® is completely unaffected by salt, gasoline, oils, battery acids, hydraulic fluids, solvents, chemicals, or corrosives.

RustSeal® Coating

Available in your choice of a wide variety of colors and sizes. Select the part number for the size of the can you need, then add the 2-digit numerical color code to the end of the part number to specify your desired color when ordering.

Rust Removal & Prevention

BlackTop® Top Coat

BlackTop is a permanent, moisture cured, UV stable coating primarily used for top coating surfaces previously sealed with RustSeal® or any other paint/primer application. BlackTop is a high-performance protective coating specifically formulated to withstand dulling and fading caused by prolonged sunlight exposure. BlackTop may be used alone as a resilient coating or better the ultimate rust protection when used in combination with the RustSeal® corrosion barrier coating as step 1. For the best top rust and ultraviolet protection, first apply RustSeal to permanently seal the surface and then top coat with BlackTop for an incredibly tough and professional looking finish. Like RustSeal®, BlackTop dries to a rock hard yet flexible coating that can be readily applied to chassis, coil springs, and lightweight panels. BlackTop also has high heat resistance and can be applied to almost all automotive applications except exhaust systems. BlackTop is intended as a final finish for parts that have been coated with RustSeal®. BlackTop will retain its color and sheen even after repeated or prolonged exposure to direct UV light and will not degrade.

DiamondFinish® Clear Coat

DiamondFinish® Gloss Clear Top Coat is a permanent, moisture cured, UV stable coating primarily used for top coating surfaces previously sealed with RustSeal® for top coating direct to metal, or to coat over any other paint/primer application. The clear coat formula can be applied direct to metal or over other coatings. This high gloss clear coat remains permanently flexible and is able to perform in the toughest environments without yellowing, cracking, or peeling. Apply directly to painted surfaces with minimal surface prep. Incredibly tough and hard like no other clear coat on the market. Can be applied with a brush (without leaving any brush marks), roller and conventional spray gun. Unlike two part coatings, no hardener is needed with DiamondFinish®. Just stir and go. DiamondFinish® clear coat will cure without heat or UV lights in temperatures from 50 to 86 degrees Fahrenheit. Able to withstand the harshest of chemicals including fuels, solvents, battery acid, brake fluid, Ethanol, Methanol, MEK, Hydrochloric Acid, fertilizers, and Acetone. Graffiti resistant: because of its chemical resistance, graffiti just won't stick and can be removed simply with a solvent soaked rag. Great for high temperature automotive applications including the use on cylinder heads, engine blocks, brake components and even inlet manifolds, without yellowing up to 300 degree Fahrenheit.

Water Based and Solvent Based Undercoating

Whether you choose our water based or solvent based undercoat formulas, each produces a very tough, yet flexible film with excellent adhesion, and helps prevent road salt from eating away at your vehicle's metal and/or fiberglass. Offers excellent adhesion to metal or painted surfaces. Provides economical paintable durability, plus moisture resistance and corrosion resistance, all in a matte black finish. Also provides sound deadening by reducing road noise and vibration. You can attach the quart size can directly to a Schuitz applicator type spray gun or contents may be poured into a clean container pot that fits the applicator gun of your choice. Part #20018 undercoat gun is offered separately.

Water Based Asphalt Undercoat - Non-Paintable

Our VOC friendly water based undercoating provides protection in wheel wells, gas tanks, frames, and floor pans. Being an asphalt base, it is not designed to be painted over. Dry to touch in one hour, fully cures in 24 hours. Excess coating may be removed with soap and water.

KB78400	one quart	covers up to 25 square feet	20.99 ea

OER® Aerosol Coatings

All new quart cans
 now available!

OER® Premium Quality Aerosol Interior Paint

OER's revolutionary formula provides 40% more coverage than standard dyes and lacquers, and actually penetrates and molecularly bonds to the surface to permanently seal in the color. Dries to the touch in 45 seconds, forms a complete bond in just 10 minutes. UV stable and color fast, it will not crack, flake or peel. For use on vinyl, leather, ABS plastic, polycarbonate, polypropylene, polyurethane, acrylic, lexan, fiberglass, and recycled plastics. When only the best will do, use OER® Premium Quality Interior Paint. Available in your choice of convenient 12 oz. aerosol cans or for bigger jobs where a spray gun is required, we offer quart cans.

Note: Shipped within the continental U.S. only. Shipped ground only.

OER® OER® Interior Surface Preparation Formulas

Before spraying, be sure to properly prepare the surface for top coat. We offer a variety of surface preparation products to ready reproduction dash pads, headrests, door panels, padded pillar moldings, plastic parts, metal components and other parts for the application of the top coat.

Note: Shipped within the continental U.S. only. Shipped ground only.

OER® Metal Mimic FX Coating

OER® Metal Mimic FX high-performance coatings were developed to mimic the appearance of bare metal so that you can refinish and protect all of the components that were originally left unpainted by the factory. Items such as cast iron housings, aluminum housings, stainless steel parts, galvanized parts and even chrome can now be coated with a "factory correct" looking finish that is extremely durable and amazingly close to the original color.

Note: Ships ground only. No air shipment.

OER® Factory Black Coatings

OER® factory black coatings are available in a variety of sheen levels to help you achieve the correct factory look for your restoration. Our Ultra Flat sheen is an extremely flat non-glare finish. The next level up is our low gloss formula followed by the semi-gloss and finally our exclusive high gloss formula. Whatever you are spraying, we have the correct sheen for an original factory black look.

Note: Ships ground only. No air shipment.

Factory Black Set - Contains All Four Formulations

Buy the complete OER® Factory Black set and you will have all the necessary sheen levels for a correct factory look no matter what component you are spraying.

K89550 4 can set, all four sheens..... 59.99 set

Ultra Flat Factory Black

Extremely flat non-glare finish that is perfect for a variety of uses including underhood items like hood hinges, latches, carburetor parts, seat adjusters, pulleys, linkage, nuts, bolts, washers, screws, clips, brackets, and more. Provides a durable flat black zinc phosphate look without the high cost of black zinc phosphate plating.

K89540 12 oz. can 16.99 ea
K89590 case of six 12 oz. cans 89.99 cs

Low Gloss Factory Black

A durable low gloss coating that provides a factory fresh appearance on the frame, transmission crossmember, leaf spring shackles, control arms, firewall, coil, brake components, AC compressor or anywhere else a low gloss, but not quite flat black finish is desired.

K89541 12 oz. can 16.99 ea
K89592 case of six 12 oz. cans 89.99 cs

Semi-Gloss Factory Black

A durable low gloss coating that provides a factory fresh appearance on the underside of the hood or on inner fender skirts, battery tray, radiator support, master cylinder, front control arms, brackets, pulleys, fan blade, steam pump tail housing, starter, power steering assembly, horns, sway bars, wiper motor assembly, suspension components, or anywhere else a semi-gloss black finish is desired.

OER® Aerosol Coatings

OER® Rubberized Undercoating

A black, rubberized undercoating for all automobile under surfaces. Sprays evenly and dries completely to a smooth consistency. Can be top coated with any type of automotive finish. Prevents rust, reduces road noise, seals out water, fumes, road chemicals, and dust. Special formula greatly reduces lingering odor associated with most other brands of undercoating. No bleed through when top coated. Use on undersides of panels, hoods and deck lids, trunk interiors, section repairs, weld joints, rust holes, or on chassis parts. Buy the case and save!

Note: Ships ground only. No air shipment.

OER® Professional Grade PBE Primer

OER® is pleased to offer our professional grade primers specifically formulated to meet the performance needs of body shop personnel but conveniently packaged for the automotive enthusiast. Tough and dependable, these primers adhere extremely well, prevent rust and corrosion and enhance the quality and appearance of the finished product. Large fan spray head gives a professional looking application. Eliminates the need for a spray gun for small repairs, reduces cleanup time. One 20 oz. can will cover as much area as four 16 oz. cans of a conventional low solids formulation.

OER® Self-Etching Sanding Primers

Manufactured with a modified acrylic resin to give you excellent adhesion to all types of metal, aluminum and prepared surfaces. Dries to the touch in 10 minutes. Dry to sand or top coat in 15 minutes. Available individually in 20 oz. cans.

KR89560	gray	14.99 ea
KR89561	black	14.99 ea
KR89562	red oxide	14.99 ea

OER® High Solids Sanding Primers

A superior professional grade primer formulated with 40% solids to provide twice the coverage of conventional aerosol primers. Fewer cans needed to complete the job to save you time and money. Protects against rust and corrosion. Provides excellent adhesion with single coat hiding capability and minimum over spray. Available individually in 12 oz. cans.

Note: Shipped within the continental U.S. only. Shipped ground only.
 KR89575 red oxide..... 14.99 ea
 KR89576 gray..... 14.99 ea

OER® Zinc Phosphate Primers

Specially formulated primer that is chromate free and chemically bonds with iron, steel and aluminum to form a hard, highly adherent coating. It has exceptional corrosion resistance. Ideal for spot repair of damaged coatings. Exceptional protection against rust and corrosion. Compatible under two component coatings. Forms a hard, highly adherent, water resistant coating that can be painted, or left as is. Dries to the touch in 10 minutes. Available individually in 12 oz. cans.

Note: Shipped within the continental U.S. only. Shipped ground only.
 KR89565 green..... 14.99 ea
 KR89566 yellow..... 14.99 ea

OER® Spray Galvanized Weld-Thru™ Coating

A smooth, cold galvanizing compound that chemically fuses to bare steel and forms a extremely rust resistant barrier. Perfect for application on the inside of newly installed panels where rust prevention of new metal is important, but where the part treated will not be painted. Fast dry, sag free spray that is abrasion resistant. Stops rust creeps, resists chemicals, and is rust inhibitive. Apply to sheet metal pieces before installation, then weld as usual. The coating will not affect the quality of the weld, and will retain its rust preventative properties. Available individually in 12 oz. cans.

Note: Shipped within the continental U.S. only. Shipped ground only.
 KR89567 gray..... 17.99 ea

OER® Black Wrinkle Finish

A durable and long-lasting finish which has a unique wrinkled texture. Excellent hiding qualities provides an excellent finish for hiding surface imperfections such as pitting, scratches, or chips. Extremely durable formula resists oil, gas, and grease. Can be used where harsh conditions break down conventional coatings. Comes in 12 oz. aerosol can. Great for valve covers, air cleaners, dash components, and more. Buy the case and save!

Note: Ships ground only. No air shipment.
 KR8948 12 oz. can..... 14.99 ea
 KR8949 case of six..... 69.99 cs

OER® High Solids Detail Coatings

A superior professional grade coating formulated for restorations where maximum performance is required. These high solid paints do not run or sag, and provide twice the coverage of conventional aerosol enamels. Each 20 oz. can offers the highest solid content (40%) of any aerosol paint on the market for maximum coverage. One 20 oz. can of OER® High Solids is equal to four 16 oz. cans of competing brands.

Note: Ships ground only. No air shipment.

Install these beautiful chrome-plated die-cast emblems for an upscale custom look for your big block Nova! These emblems capture the appearance of the air cleaner decals originally installed on big block vehicles of the era. Manufactured from die-cast metal, these colorful triple chrome-plated emblems are specifically designed to fit the contours of the stock 1967-73 big block 14" diameter open element air cleaner lid. Installation is simple! Each emblem is adhesive backed for simple "peel-and-stick" application.

DEF Restoration Parts

Die-Cast Crossed Flags Air Cleaner Emblem

These quality die-cast air cleaner emblems are similar in shape and size to the crossed flag decals used on the air cleaners of various big block equipped vehicles of the era. Designed with modern adhesive backing for simple, secure application to your open element air cleaner lid.

Note: This emblem is designed to fit 1967-73 open element air cleaner for big block engines. May not fit other air cleaner lids.

Air Cleaner Decals

Restore your Chevy II or Nova back to it's original condition with Classic Industries® reproduction air cleaner decals. Each decal is reproduced to exact dimensions including the correct Mylar chrome edging utilizing pressure sensitive crack and peel backing for easy installation. Always be sure to clean the entire surface before applying the decal to air cleaner. Early Nova models equipped with "396" engines require 2 decals on the air cleaner, a Cross Flags decal and a Turbo-Jet decal with the appropriate horsepower rating.

1968-79 Emission Decal

These decals were applied to the radiator support and denoted the engine tuning specifications and instructions as well as emission information (when applicable). These decals are pressure sensitive with a "peel and stick" backing. On vehicles equipped with air conditioning, the decal is applied to the radiator shroud. On vehicles without air conditioning, the decal applies to the radiator support between the center of the radiator support and the driver side radiator support brace.

Important: The location of the decal may vary depending on the year.

DC397

Here is your **GENERAL MOTORS** PLATE book. For your protection, keep it with your NEW GM car at all times. **SEE WARRANTY SERVICE WITHOUT THIS BOOK.**

This is your guarantee of future driving enjoyment for the next 24 months or 20,000 miles. Your new car is fully guaranteed as stated in the booklet. Certain maintenance items are explained also in the booklet and listed here under will be at your expense when and if needed.

ITEMS NOT COVERED BY WARRANTY!

1. Repairs done up and/or engine timing due to incorrect adjustment of work done adjusting or replacement of substitute parts. Adjusting or cleaning of carburetor. Adjusting valves and/or engine timing.
2. Lubrication and oil and fuel changes.
3. Substitution and use of non-GM parts.
4. Rust and subsequent corrosion caused by manufacturer (GM).
5. Rust and subsequent corrosion caused by owner.
6. Tire and wheel damage due to driving on curbed streets.
7. Adjustment for body, interior and exterior due to driving and control road bumps.
8. Engine or clutch damage due to misuse or use of unsafe loads.
9. Theft, fire, rain, hail, etc. to wear and tear on car.
10. Any modifications other than those recommended in any GM or in use for competitive racing will void the warranty.
11. Driving against stopping or racing.

1962-79 New Car Window Sticker

If your Chevy II or Nova is restored, what's the last thing you need to complete it? A new car window sticker! These new stickers include the preprinted information about GM and Chevrolet. All you have to do is fill in the correct information about the vehicle. You can do that by obtaining information to help you decode your VIN number. There are various books available in this catalog to help you do it.

Decal Application Cleaner Gel and UV Protectant

Don't make an expensive mistake by trying to put on your decals the hard way! Help ensure a safe application by a proper preparation of the vehicles painted surface with Pre App[®] surface cleaner. The Slide-on[®] Application Gel is specially formulated for applying automotive stripe kits by eliminating air bubbles and helps temporarily overcome the tack of pressure sensitive materials during installation. Slide-over[®] UV Protectant was designed to give an optically enhanced appearance by repelling dirt, oils, tree sap, smudges, and stains.

Note: Applicator is not included.

Weatherstrip Kits

Bring your weatherstrip back to original factory condition and improve the overall look of the vehicle while maintaining originality with Classic Industries® replacement sets. After many years of use your original weatherstrip can deteriorate or simply rip in the most crucial areas. When this happens, small leaks will begin to enter the interior compartment or trunk area causing rust and the need for expensive sheet metal replacement.

Although each item in this kit can be purchased separately, we recommend replacing all the weatherstrip on the vehicle at one time. If you are painting the vehicle or simply replacing worn out parts, the weatherstrip is one of the first places to check. Each weatherstrip product is manufactured to factory specifications and will fit properly and function exactly as designed.

Note: Image is for illustration purposes only and does not indicate completeness of kits.

Note: Images are for illustration purposes only and does not indicate completeness of kits.

2 Door Hardtop Kit:

- LH and RH door weatherstrip

1962-79 Replacement Style
Window Felt/Anti-Rattle Set

Replacement window felt/anti-rattle sets for various 1962-79 Chevy II/Nova models. Replacement sets feature the newer style wipe/felt in place of the more expensive mohair style outer belt line window felt in some applications. 1968-72 sets include a flat outer stainless bead unlike the more original round stainless bead with rubber lip. Although they are not exactly as original, they're a great replacement because they fit great and are much less expensive than the original style sets. We recommend this style to restorers who want functionality and are not looking for complete originality. Includes inner and outer belt line weatherstrip for front and rear side windows, sold in 8 piece sets.

Wheel Opening Molding Screw Set

This OER® quality reproduction wheel opening molding screw set is for 1962-72 Chevy II/Nova models and can be used as replacements for various other vehicles. Each set includes 36 of the correct chrome-plated Phillips round washer head screws.

K606 1962-72 36 piece 4.99 set

Exterior Moldings

1967 SS Trunk Lid Molding

Reproduction of the original trunk lid rear zinc die-cast molding originally installed on 1967 Nova Super Sport models. Installs on the trunk lid between the tail lamps. This complete die-cast panel has the correct paint scheme and features the Bow Tie emblem in the center with Nova SS to the right.

4229497 1967 499.99 ea

1968-72 Rear Body Panel Moldings

Reproduction rear body panel molding used with all Custom and SS Nova models. Installs on the rear body panel between the tail lamps. The SS model features the SS emblem attached to the molding and is finished in the correct black painted details. The custom moldings feature the correct paint scheme without the SS emblem. These moldings are manufactured in 2 different materials, die-cast metal like original or a less expensive injection molded ABS plastic version.

Note: 1968-69 moldings are 40" long, 1970-72 are 36" long.

1968-67 Nova Molding Location Template

When mounting your exterior molding, the most important step is knowing the correct placement of the moldings before you drill into your sheet metal. You can eliminate the guesswork involved with mounting your moldings with these templates that provide the correct molding mounting locations. No more worrying about costly body work caused by misdrilled holes, or uncertainty over whether you're drilling in the right spot. Simply apply the template to the corresponding panel using reference body surfaces for exact location and drill the holes. With these templates, you can be sure that you're mounting your moldings in the correct factory location the first time.

Emblem and Trim Adhesive

Applying metal and plastic emblems and trim requires an adhesive that creates a permanent bond that won't loosen over time. 3M Plastic Emblem and Trim Adhesive creates a strong adhesion that resists environmental exposures such as water and heat. Quick-acting adhesive sets in about 15 minutes and fully cures in 24 hours. Adhesive dries clear and can also be used for bonding transparent or translucent plastics

Tools and Adhesives

Multi Wedge Prying and Scraping Tools

Multi Wedge is an amazing automotive restoration tool that will replace screwdrivers, pry bars and all other metal tools that can cause damage and marring to delicate surfaces! The soft, orange wedge set and the jumbo wedge are made from a high tech, specially blended polyethylene that is incredibly ductile so they won't break or snap. The hard, black wedge set is made from a high tech, specially blended polycarbonate for the heavy-duty jobs like oil pan covers, timing covers or valve covers. Each 3 piece set includes: one 4" curved end, one 4" straight blade and one 3" straight blade. Buy both sets and save! The jumbo wedge is 14" in length and 2" wide, making it perfect for the big jobs.

T2300M (7 piece)

T2302

Soft Duty - Delicate prying or wedging
Medium Duty - Sturdy prying or wedging
Heavy-Duty - Very strong and durable

Prying and Scraping Tools

Available in 3 different fibreglass reinforced plastics, the soft duty tools are good for jobs where a minimum amount of force is needed to remove objects. The medium duty tools are better for the objects that require a little more force to remove, and the heavy-duty tools are for the objects that are real stubborn and just do not want to be separated from their current position. All these tools are strong enough to pry yet soft enough to do interior and exterior automotive jobs without the damage that metal tools can do.

Premium Auto Trim Removal Tool Kit

This 11 piece kit was designed for the removal of door panels, dashboard, trim strips, interior panels, and window moldings. Made of impact resistant plastic that will not mar surfaces like metal tool will. Included for the tools is a heavy-duty nylon pouch.

TX2684 23.99 ea

Glass Molding Clip Installing Tool

Reduce the risk of chipped glass and scratches by using this handy tool for replacing your front or rear window glass molding. This tool is specifically designed to fit trim clips over the studs and virtually eliminates glass breakage.

A13574 29.99 ea

Weatherstrip Ball End Hook Tool

This hook tool has a small, round steel ball on the end. Once the steel ball is inserted down into the rubber gasket, it is very difficult for it to come out. If it should slip out of the gasket, there is less of a chance you will scratch the paint of the vehicle.

153823 11.99 ea

Glass Seal Rope-in Tool

Use the rope in tool when working with rubber gasket set glass. The unique counter grip plastic handle injects the rope through its stem as it is pulled around the gasket. There is plenty of enough durable rope to fit around even the largest truck window.

153813 12.99 ea

Universal Molding Release Tool

The ultimate tool for cleanly releasing moldings. Slide tool left or right under the molding until it hooks a retaining clip, then just rock the tool with a twist of the wrist to release the clip. Heat treated, high carbon steel.

S21500 6.99 ea

Windshield/Back Glass Molding Removal Tool

Excellent tool used to remove the molding from the retaining clips on windshield and back window glass.

A7914 14.99 ea

Windshield/Back Glass Molding Pliers

Specialty pliers for removing door handle clips and chrome molding on most windshields and rear glass. Jaws slip under door handle without damage to panel material, and offset handle permits easy access to molding clips.

Y35200 8.99 ea

Windshield Removal Tool

Professional windshield removal tool for all vehicle applications. Features an aluminum handle with diamond cut pattern for added grip. Heavy-duty braided wire secures the pull handle to the cutting blade.

153811 17.99 ea

3M Super Fast Urethane

A rapid curing adhesive/sealant intended for all flush mounted and bonded windshield or back glass replacements. Provides the necessary strength for automotive glass replacement. 10 fl. oz. cartridge.

Headlamp Components

Round Headlamps with LED Halo

RedLine LumTriXon headlamps allow 50% more light to shine through thanks to their crystal clear lenses and a special side lens that extends past the retaining ring. This side lens is a true safety innovation and was designed to provide additional side light and increase visibility. Each headlamp features a Euro style diamond cut reflective base, diamond crystal glass, and a heat resistant composite housing. Even though no paint or tint is applied to the glass or reflector, the Black Illusion headlamps look blacked out when off thanks to the halo and lamp shields that are painted black. Headlamps are available with or without a halo, either single color halo (white) or multi-color halo (with 16 selectable colors plus the ability to adjust brightness), with or without turn signals and your choice of clear or blue H4 halogen bulbs or H4 LED bulbs. The halo or "Angel Eyes" can also be wired as a daytime running lamp and features 23 low temp LEDs with a 100,000+ hour life, along with "fade", "flash", "strobe", and "smooth" modes that you can choose with the included wireless remote. Headlamps plug directly into your stock harness for a simple and easy installation. Each pair includes: 2 headlights, 2 bulbs, dust boots, ceramic tip pigtail harness adapter, and instructions. Multi-color halo sets also include the RGB harness and wireless remote.

Important: Will fit most vehicles (cars, trucks, motorcycles and motor homes) made from 1936 to 1979, as well as many vehicles made after 1979 that use a universal round style headlight.

Note: Black Halogen bulbs are blue in color when off, and bright white when on (two blue tints). Clear Halogen bulbs are clear in color when off and bright white when on. LED bulbs include colored film to change the look and temperature color of your lights.

HID HeadLamp Bulbs

HID headlamp bulbs are much brighter than conventional Halogen bulbs, while providing tight light focus for better light distribution. They require 35 watts and use an external regulator, but will plug into the existing light plug. The H4 series bulb features a bright white HID low beam and a Halogen high beam function.

Important: Not for use on public roads.

L.HH4 H4 6000k - white..... 49.99 set

PAINLESS

Headlamp Harness

To get maximum power from your headlights, it is recommended to have the shortest possible distance between the power source and the bulbs. Resistance in small gauge wire or in the switch will lower the output at the lamp. Our headlamp harnesses draw power directly from the battery, through a relay, to the headlamps, providing full power to your H4 conversion headlamps or Halogen sealed beams. They are made with TXL high temp wire, weather resistant 30 amp fuse, and two 40 amp weather resistant relays capable of handling up to 150 watts.

1968-69 Vigilite Fiber Optic Lamp Bezel

While most of today's vehicles have a lamp monitoring system, during the late 60's and early 70's Chevrolet offered this system as optional accessory. This system included a chrome bezel, which was attached to the top of each front fender. This chrome bezel housed a fiber optic cable with a lens that indicated whether or not your headlamps or turn signals were lit and operating properly. This ultra rare option was found on very few 1968-69 models. This is the outer chrome bezel assembly that was used with this system, which can be used on either fender.

Note: The Vigilite system was also used on some other 1968-70 GM passenger cars, including Buicks and Olds.
C172391 1968-69..... 37.99 ea

Park Lamp Components

1966-72 LED Park Lamps

This is the latest in park lamp technology! These direct replacement LEDs for your factory park lamps exceed the requirements for brightness using very high intensity, wide angle LEDs. An exceptional way to increase visibility and add a cool aesthetic touch to your Nova! The LEDs are arranged to compliment the original lens facets and provide the best light output. Diffusion material is added for an even distribution of light and to help eliminate or minimize the spottiness that happens with LED lighting to give you a smoother, more natural look.

Note: Lens and housing are not included.

CL6037

CL6044

1968-69 LED Tail Lamp Upgrade

Update your 1966-69 Chevy II/Nova's taillights with new LED technology. LEDs are far brighter than incandescent bulbs, light up in less than .05 seconds, use less energy and last much, much longer. Since they are brighter, illuminate instantly and are visible from farther away, LED tail lamps are not only a significant safety upgrade for your vehicle, but also give your car a clean, modern look when the brake lights are lit. These LED circuit boards are easy-to-install. Simply splice into the factory wire harness and the LED arrays fit neatly beneath the stock lens, providing a stock look when the tail lamps are off. Because this upgrade is "invisible", it appeals to owners of both modified and restored cars. Each set includes: two LED arrays, electrical harnesses, connectors, and all necessary brackets and mounting hardware.

DIGITALS

example of a 1968-72
tail lamp lens

S00875

1968-72 Sequential LED Tail Lamps

This is the latest in tail lamp technology! These LED replacements for your factory tail lamps fit perfectly behind your factory lens and bezel, and are far quicker responding and much brighter than DOT requirements! These sets use very high intensity, wide angle LEDs for an exceptional way to increase visibility and add an extra aesthetic touch to your Nova. They provide two modes of operation, standard or sequential. The sequential mode gives you a unique cascading affect that will really get you noticed! Changing modes is as easy as flipping a switch on the back of the circuit board. Every light circuit board is specifically designed to use the maximum area of the housing. The LEDs are arranged to compliment the original lens facets and provide the best light output. Diffusion material is added for an even distribution of light and to minimize the spottiness associated with LED lighting for a smoother, more natural look. These are to be spliced into the rear wire harness. Includes everything needed for a perfect installation. Each set will convert both LH and RH tail lamps. Tail lamp lenses and housings are not included and can be purchased separately if necessary.

Note: This is the tail lamp circuit boards only.

Hood Insulation

STEP 1
Hood Damper Pads/Heat ShieldSTEP 2
High Temp ABS Finishing Panel

Logo Design Options

1962-77 Insulator and Cover Set

Precut, ready-to-install insulation panels, and cover! AcoustiHOOD insulator and cover sets by Quiet Ride are designed to help stop the vibration of the hood skin, thus reducing the transfer of airborne noise into the passenger cabin by 20-25%, or 3 decibels. It also covers the hood structure with a high temperature ABS panel to finish off the engine bay. These panels will regularly tolerate temperatures up to 250 degrees F.

Important: Does not fit cow hoods. For best results and air flow, maintain at least one inch or more of clearance between the surface of the hood cover, and the engine components. Hood not included and is available separately. Kit also includes a drill stop sleeve and drilling instructions in case drilling is required. Quiet Ride Solutions attempts to use existing hood pad mounting holes. Drilling may be required if never equipped. For non-metallic hoods (such as fiberglass or carbon fiber), hood magnets will be used to retain the hood cover, and will need to be glued into place.

Note: Please specify 2 digit logo code when ordering. Shipped double oversize and ground only (no air shipments) due to aerosol spray adhesive.

Universal Hood Insulation

Dynatool hoodliners will protect your vehicle's paint and reduce irritating underhood noise. Made from 3/4" acoustic sound soaker foam with a reinforced, aluminumized skin that is oil and water resistant. The hoodliner has a high tack pressure sensitive adhesive for easy peel and stick application. For those who prefer black, there is also Dynaliner, which boasts the highest heat blocking properties available in a single layer synthetic foam. Dynaliner is available in 1/4" and 1/2" thick. Use the thickest one your space will allow. All hood insulation sheets measure 32" x 54".

1975-79 Hood Insulation Retainer

Reproduction hood insulation retainers are just what your Nova needs! Keep your original hood insulation where it belongs... attached to the hood. These retainers are secure replacements for most models. They may differ cosmetically from the original retainer but will fit and function properly. Black nylon. Measurements: head diameter: 1-3/4", stem diameter: 5/16", stem length 3/4". Sold Individually. Use as required.

A1015	1975-79	.99 ea
-------	---------	--------

Underhood Thermal Acoustic Lining

DEI underhood thermal acoustic lining. Designed specifically for underhood applications, this lining will greatly reduce the heat, noise, and vibration coming from your engine compartment. Self-adhesive, 3/4" thick industrial acoustical grade foam with a reinforced reflective aluminum covering. 12 square feet of material is enough to insulate your entire hood.

DE050130	32" x 54"	65.99 ea
----------	-----------	----------

Underhood Black Thermal Acoustic Lining

DEI black underhood thermal acoustic lining. Designed specifically for underhood applications, this lining will greatly reduce the heat, noise, and vibration coming from your engine compartment. This black self-adhesive carbon fiber look material measures 32" x 59" (13.1 sq. ft.), enough to insulate your entire hood.

DE050129	32" x 59"	85.99 ea
----------	-----------	----------

Jute Padding Insulation

This insulation is just what you need to completely insulate the interior of your vehicle against cold or heat. Developed from 99.5% pure industrial grade aluminum, the insulation gives 97% reflectivity against heat radiation. Jute padding will insulate your interior for noise while helping to maintain an even temperature. Use on firewalls, floor pans, trunks, doors, and roof panels or other areas of the vehicle.

Adjustable Hood Prop

Constructed of high-quality aluminum and stainless steel, these adjustable hood props offer great looks as well as functionality on your ride. When the hood is raised, the hood prop will automatically lock itself into position. A quick release allows the hood to be opened to its max for easy engine access. A three position and a six position option allows the hood to be set at various levels. Each level of the 6 position prop increases the opening of the hood by approximately 6". Each level of the 3 level prop increases the opening of the hood by approximately 12". They also work great for cooling your engine in the staging lanes.

Body Panels

1969-72 Firewall Panel

Reproduction firewall panel for 1969-72 Nova models. Most original panels have either been drilled, cut, or have simply rusted out. This piece solves the rust problem and features correctly formed and punched openings for the heater box, hoses, throttle, and speedometer cables for simple installation. All panels are EDP coated for rust prevention.

Note: Shipped truck freight.

152625 1969-72 without AC..... 274.99 ea

1966-67 Firewall

Repairing and patching a dented, rusted out or over drilled firewall can be tedious, but now you can skip the headache and replace your 1966-67 Chevy II/Nova model's entire firewall with this reproduction firewall panel. Firewall to floor braces are not included with this panel, and sold separately. Available with traditional EDP coating or in a Weld-Thru™ Primer that requires minimal preparation, eliminates corrosion between overlapped panels, and promotes superior weld characteristics.

Note: Shipped truck freight.

OFFICIAL AUTHORIZED

1968-72 Upper Dash Panel

One of the most commonly rusted areas of your Nova is the upper dash panel. This "weld-in" upper dash panel unit replaces the dash pad mounting areas, VIN plate, speed, and foot vent cutout areas, but will require fabrication at the windshield/cowl panel area. Some modifications are required. Finished in EDP black coating.

Note: Shipped double oversize.

1966-67 Floor and Trunk Pan

Don't mess around with patching your floor and trunk section one at a time. If the floor pan in your Chevy II/Nova is damaged or cancerous in multiple places, simply replace the whole pan at once. Superb, all-new reproduction of the entire original floor pan assembly and trunk pan offers less hassle of installation and no patched seams for a cleaner restoration and greater strength and durability than a patchwork of sheet metal pieces can offer. Plus, save hours of costly body shop labor when welding in one panel instead of many. This unique reproduction is designed to offer the restoration enthusiast the finest in OE quality. Available with traditional EDP coating or in a Weld-Thru™ Primer that requires minimal preparation, eliminates corrosion between overlapped panels, and promotes superior weld characteristics.

1966-67 Front Pillar Drip Rail Support

These supports are essential when installing a roof panel because they reinforce the front pillar section of the roof. Installs on the front pillar section of the roof panel and extends downward vertically between the roof panel and fender. Available with traditional EDP coating or in a Weld-Thru™ Primer that requires minimal preparation, eliminates corrosion between overlapped panels, and promotes superior weld characteristics.

Vinyl Tops

1962-79 Nova/Chevy II Vinyl Top

Reproduction vinyl tops for 1962-79 Chevy II/Nova models are manufactured using the finest quality Levant grain vinyls for the ultimate in originality. The seams are sewn with Dacron bonded thread and then dielectrically heat sealed as original for a truly authentic appearance. There are two types of seams were used for certain years; 1) Heat sealed seams which are stitched seams then folded over (stitching is not exposed) 2) French stitched seams which are double stitched on the top (stitched seams are exposed). French seams go down the center of the roof and the heat sealed seams go along the sides. Replacing your original vinyl top will make your Nova look showroom new once again. Classic Industries® recommends professional installation for best results.

Important: Each vinyl top is pre-cut for the rear window and pillar post areas. All models used moldings to finish the lower rear edge of the vinyl top and will need to be cut and trimmed to fit the specific vinyl top moldings for each year. Be sure to check the design and placement of the moldings before trimming and gluing the top to ensure accuracy.

Note: Tops are full tops, must be trimmed to fit for vehicles with half tops. Can be used on hatchback models.

Finishing Touch Matte Finish Protectant

Finishing Touch is an all purpose dressing that restores the "new car look" to vinyl, rubber, leather, and plastic. It cleans, beautifies, and protects. It is preferred by many detailers for interiors for its "softer" look and non-greasy look and feel. Finishing Touch fragrance. Spray or wipe-on ready to use. Cleans, protects and beautifies in one easy step. Gently wipes away light traces of dirt while you apply. Patented UV absorber penetrates and acts as a protective barrier against harmful rays that cause premature aging, cracking, fading and peeling. Engineered to work like a lotion to soak into new vinyl or to lay vinyl to aid in prolonging and strengthening the surface. Perfect for dashboards, vinyl tops, door panels, consoles, tires, trim, bumpers, vinyl seats, moldings, and more.

Lock Assemblies

Make it easy on yourself by installing lock sets that already include the lock assembly and coded keys! Original replacement lock assemblies usually need to be coded to your original keys.

This process is eliminated when purchasing these sets. Choose from individual lock assemblies or complete sets which are guaranteed to make installation easier.

Set Includes:

- ✓ Door ✓ Ignition ✓ Glove Box ✓ Trunk

1962-78 Lock Cylinder Sets

Lock set designed to replace your ignition, door, glove box and trunk lock assemblies. Each set is supplied with "coded" cylinders and 2 precut keys which will fit the new door, ignition, glove box and trunk lock cylinders. Early locks are available with original style keys, or later style square or oval keys.

12V Exterior Door Handles

Elevate your vehicle's style with these electronic exterior door handles from Lokar! Each billet door handle utilizes a weatherproof 12 Volt pressure pad switch to supply power to an electronically actuated door latch (door popper). Its 2 piece design and available 0 degree or 10 degree mounting surface allows the insert to be removed, and door handle positioned for ultimate customization. The XL design provides 7/8" of clearance between the door and the switch, allowing for easier mounting and less modifications to the door. Made in the USA from 6061-T6 billet aluminum.

Important: This requires electronic door latch actuators, which are not included.

Note: Installation requires hand pocket for clearance.

Important Information Before Attempting to Install Sheet Metal!

Regarding Minor Imperfections in Panels:

The sheet metal you receive may have scratches, dings, small dents and other minor imperfections which are considered normal sheet metal characteristics due to the nature of the product. These minor imperfections will be easily corrected during the filling, priming and sanding phase of your sheet metal installation. Classic Industries® does not consider dings, scratches, minor dents or other imperfections on the sheet metal to be defects in the panel nor are they considered damaged. All sheet metal panels will require some sort of preparation and manipulation during installation. Every panel that we sell is inspected and then carefully packaged to protect against damage that may occur during transit.

Test Fit All Panels Prior to Paint and Installation:

Classic Industries® recommends test fitting all sheet metal panels prior to final paint and installation. Minor modifications including elongating mounting holes, adding additional shims, etc. are normal and may be necessary when installing sheet metal. It is important to note that hard driving conditions, like racing, can twist bodies and frames out of original tolerances. Poor body work from previous collisions can cause problems with the body structure that the panels are attached to. Some vehicles were manufactured with a unitized body (no frame) thus causing even the most minor accident to twist the body creating a situation that would cause sheet metal panel misalignments. Take into consideration that tolerances on classic vehicles are not nearly as exact as they are on modern vehicles. This is primarily due to the hand fitting of panels at the factory on most antique and classic cars as opposed to the robotics used in today's modern factories. All of these factors will affect the way your new reproduction sheet metal will install and fit on the car. There is really no such thing as a direct fit body panel when it comes to older vehicles.

Returns and Defects:

Prior to returning any defective body panel or sheet metal item to Classic Industries®, please contact our customer service department. Classic Industries® will not replace a panel, nor will we be responsible for freight on returns should it be deemed that the panel is not defective. See policies for more information.

For Best Results, Hire a Professional to Install the Panels:

Classic Industries® recommends that you hire a professional paint and body technician that has the skills, knowledge and experience necessary to install the new panels on your vehicle. A professional body technician will be able to prepare the panels for installation and repair any imperfections.

When Welding Sheet Metal Products . . .

Save time when replacing sheet metal by using Classic Industries® new, innovative "Weld-Thru™" primed sheet metal products. Our all new coating process is designed to eliminate the unnecessary process of grinding or sanding the EDP coating off to ensure a solid and rust-free weld. This "Weld-Thru™" primer requires minimal preparation and eliminates corrosion problems between overlapped panels and layered spot welds. It also minimizes heat zone problems, reduces panel distortion, and allows better penetration into the dense replacement steel to compensate for the older metal's impurities. Look for the "Weld-Thru™" logo when purchasing sheet metal products to save time during installation of weld-on sheet metal repair panels.

Some Guidelines on EDP Coating

Many sheet metal products are delivered with a black electrophoretically deposited coating (EDP, or E-coat) for superior long-term corrosion protection, while others use a similar lacquer-based coating designed to provide protection for storage and shipping. Before panel installation, Classic Industries® recommends applying lacquer thinner with a shop towel to determine the type of coating. If the coating is removed by lacquer thinner, then it should be completely stripped from the product before any primer or paint is applied. If the lacquer thinner does not remove the EDP coating, it can simply be prepped, primed and painted without stripping.

Classic Industries® The Restorer's Choice™

Count on the Classic Industries® Restorer's Choice™ symbol

whenever purchasing reproduction parts and accessories. You can be sure that each and every product displaying this symbol is manufactured correctly to exact specifications and fits the way the factory intended. Products denoted throughout the catalog with this symbol are officially approved by Classic Industries® as a genuine restoration product. Look for the Restorer's Choice™ logo. The Classic Industries® symbol is your assurance of quality.

Made in USA

Look for the "Made in USA" logo for products that are proudly manufactured in the United States.

Quarter Panels and Skins

4409685

1962-65 Full Quarter Panel

Reproduction of the original rear quarter panel designed for use with 1962-65 Chevy II/Nova 2 door hardtop models. Manufactured in stamped steel to original factory specifications for an authentic appearance and fit. This replacement is perfect for vehicles that have rust around the wheel well or rear lower section of the quarter panel. Does not include the upper sail panel area or complete door jamb area. Small portion of metal near the top of door jamb must be removed from original panel and re-welded to new panel.

Note: Shipped track freight.

1962-65 Quarter Skin

Replace your original quarter panels with these reproduction skins. Each skin will install as original. This is an excellent replacement if you have rust around the wheel well areas. This panel offers a good fit and will install with minimal refitting. This is a partial quarter panel skin which extends to the center body line. Will eliminate all rust located around wheel opening. Each panel is manufactured to allow application of the chrome wheel opening moldings. These panels are excellent for convertibles due to the elimination of the sail panel area. Careful attention is paid to packing and shipping to prevent damages!

Note: Shipped track freight.

1966-72 Nova Quarter Panels

Reproduction of the original complete quarter panel specifically designed for 1966-72 Chevy II/Nova models. Each quarter panel is manufactured in quality stamped steel and matches the original in quality and fitment. Not just a replacement skin, this panel replaces the entire quarter panel section including the door jamb, trunk gutter, upper sail panel, and more. Will attach at the original factory seams. Panel features a black electrophoretically deposited coating (EDP, or E-coat) for superior long-term corrosion protection. Ready to be prepped, primed, and painted without stripping. The quarter panel is complete and ready-to-install. These quarter panels are designed to fit 2 door models.

F13700

1966-74 Fiberglass Extended Wheel Well Openings

Factory Nova models featured fairly small tires by today's standards. These cars cry out for bigger tire and wheel combinations which will not fit in stock form. The 1966-67 units increase to a 36" opening. The 1968-74 units increase the factory opening to 37" without altering the original width or height.

Note: Shipped oversize.

OER® Complete Trunk Refinish Kit

Restore the trunk area of your classic car to a factory original appearance and provide the ultimate protection from the elements. First prime the area to be painted. On bare metal, you should use a self-etching primer. Next, spray your base coat. Then spray your spatter coat and let dry thoroughly. Finally, coat the entire surface with our clear top coat to seal the surface. Contains everything you need to refinish the trunk of your classic vehicle including 2 cans of primer, 3 cans of spatter paint and 2 cans of clear top coat.

Note: Ships ground only. No air shipment.

Wiper Blades

Trico wiper blades offer superior wiping in the harshest of weather conditions! Change out your blades, and when the rain begins to fall, you will have confidence that your blades will be ready. Available in 3 different options: Our Classic Series is designed to imitate the look of classic wiper blades featuring a bright silver finish. The Standard Series is a basic black metal construction blade. Finally our Premium Force Series wiper arm was designed to use the down force of the wind to contour to the shape of the windshield and create maximum contact.

121401

1962-72 Selecta-Speed Wiper Motor

Classic Industries® offers this great upgraded wiper motor for 1962-72 Chevy II/Novas models. The Selecta-Speed wiper system contains a low profile, 7-speed wiper motor (with five different delays, a low and a high speed), rotary switch (complete with a billet knob), adapter plate and wire harness. The CNC aluminum adapter plate mounts the wiper motor to the stock firewall bolt pattern.

Note: This set includes a rotary wiper switch to replace the original slider switch. The dash must be modified for new switch to fit, and there is no provision to operate the windshield washer function.

152820

1968-74 Two-Speed Hidden Wiper

Our wiper system is a modern, high-quality replacement for the old system. It is the only replacement wiper system that is completely hidden, fitting entirely within the airbox in the cowl! This allows you to remove the stock wiper motor. The wiper motor hole in the firewall can be covered up with the cover plate supplied in the set or you can weld in a patch panel to eliminate the hole entirely. Perfect for Pro Street cars or if you just desire a clean looking firewall. For models with concealed wipers.

Important: Very minor modification is required to run the wiring through the firewall.

Premium Spotweld Cutters

When you have a lot of spotwelds to remove, step up to the premium spotweld cutters for longer life in today's high strength body steels. These cutters have a heavier wall (.090") for extreme durability and two step geometry that splits the chips and helps clear them. Premium spotweld cutters have a fast cutting action and lasts for hundreds of spotwelds. They are for use in 3/8" or larger drill chucks. The spotweld cutters are available individually or in sets containing arbor, 3 cutters, your choice of 2 skip proof or 2 standard pilots.

Stick Lubricant

Ideal for all Blair hole cutters. Softer than standard stick lubricants, it provides superior adhesion to the tool and can be used in place of cutting fluids on ferrous and non-ferrous metals to increase tool life, improve cutting performance and easier slug removal.

11750 1.68 oz..... 5.99 ea

Double-End Spotweld Cutter

Double-end spotweld cutters makes removing body panels fast and easy. Their hollow design cuts around the spotweld so weld hardness does not affect tool sharpness. When one end becomes dull, simply unscrew the cutter and flip it over using the new teeth on the other end. An adjustable depth rod sets the tool so only the outer panel is cut, leaving the underlying panel undamaged.

Holecutter

Produce holes three times faster and cleaner than hole saws in sheet metal up to 1/8" thick and have dramatically extended tool life. Holecutters produce holes from 1/16" up to 3" diameter in sheet metal, rubber, gasket or fiber materials, and some plastics. Ideal for aftermarket installations, custom fabrication, trim, etc.

Customize your holecutters with a new, patented Quad-Lead Thread System for quick cutter changes. Buy the set and save! Holecutter set includes: arbor, hex washer, extra pilot and the following sizes of cutters, 7/8", 1-1/8", 1-1/4", 1-3/8", 1-3/4", 2", and 2-1/2".

Note: D.O.C. = depth of cut. Arbors and cutters sold separately.

Rotabroach Cutters Sets

Rotabroach annular cutters are ideal for sheet metal fabrication, paintless dent removal and for cutting rustproofing access holes without clogging. Unlike hole saws and twist drills that push and tear through materials, these cutters will make hundreds of holes in steel, sheet metal or plastics up to 1/2" thick with no deforming of stock, jagged edges or out-of-round holes. Arbors for Rotabroach cutters fit 3/8" and 1/2" hand held drill chucks and use either spring loaded pilots or skip proof pilots which eliminate predrilling operations. Each set includes: arbor, hex wrench, center punch, extra pilot and a variety of cutters as listed.

Note: D.O.C. = depth of cut. Arbors and cutters sold separately.

Body Tools

The Filler Detective!

The Filler Detective will find hidden body damage and body filler on a car, truck, or motorcycle. It will tell you where body filler is and how deep it is. This simple one-button tool lights up and sounds when it detects body filler and features a visual alert with bright, daylight visible LEDs. The meter doesn't miss and it indicates exactly where the body filler is and includes a test plate to confirm accuracy. Never again wonder whether or not a vehicle has been in a wreck! The Filler Detective solves the mystery every time.

FDA0100 red..... 79.99 ea

EZ Rest Door Hanger

The EZ Rest door hanger enables a single person to quickly remove and/or install vehicle doors. The padded, removable side rails and plastic, ribbed base inserts allow for accurate positioning of the door. The easy-on/off design quickly adapts to most floorjacks with a removable saddle and 30mm (1.18") diameter saddle hole.

Note: Floor jack is not included.

S21870 145.99 ea

Door Spring Tool

Compresses spring for easy safe removal. Slides safely over spring. Constructed of heat treated, high carbon steel.

S21900 22.99 ea

Door Hinge Adjuster Tool

You can now easily adjust the hinges without the aggravation of trying to align by eyesight with this handy tool. Specifically designed to help adjust the hinges so they help to align the door.

Y65800 45.99 ea

Door Bushing Tool

If you've ever tried removing a door hinge bushing with just a regular punch, you know it's a hassle. Luckily, now there's the specially designed door bushing tool. Its special design makes it easy to punch out bushings and align bushings when reinstalling. Offset design allows for easy access to all door hinges. Super tough alloy steel construction.

S21825 19.99 ea

Door Aligning Bar

Finally, a convenient door aligning tool that will fit in your tool drawer! Features a Hex stub to use with a breaker bar and socket for additional leverage.

S21845 38.99 ea

Pro Paint Gauge

The Pro Gauge is a device which measures paint thickness. Factory paint is usually four to five mils in thickness. By using the Pro Gauge you can determine if the vehicle has been repainted. For instance, you can take measurements of about 4.5 mil under the vehicle but the hood may read seven mils on the Pro Gauge. That tells you the hood has been repainted.

PG2437 84.99 ea

Eliminator Rust Remover

Before touching up paint, you first must remove all rust, wax, and dirt or the rust will return and the paint won't adhere. This unique tool will scrub away all dirt, rust, and wax. The results are touch up paint adheres, seals and blends smoothly into the rest of the paint.

E3437 9.99 ea

Body Dent Removal Tools

Pulls dented sheet metal back into place with our convenient tools. 13" long shaft with 1/2" - 13UNC thread screw on our slide hammer permits high pulling force.

X2290 slide hammer set 44.99 set

X2290-76 replacement nose nut 8.99 ea

New!

Spot Weld Chisel

Chisel tool to separate panels after the spot weld has been drilled out. Drive the blade with a hammer from the end or the side through the panel seam. Panels are separated without damage. The blade is sharpened on three sides, and offset for clearance.

Note: The sharpened edges will wear with use. Resharpen on a grinding wheel.

Y51900 14.99 ea

Body Dent Removal Tools

The pull rod set includes: 4 pull rods with formed shank, 2 pick pulls with straight shank, straight edge and HS split point drill bit.

S20000 pull rods 47.99 set

Cleco Sheet Metal Fastener Kit

Everything you need to secure sheet metal panels during the fit and alignment stage. The pliers can be used with all standard spring loaded fasteners and clamps. The kit contains one pair of Cleco pliers, twenty-five 1/8" Kwik-Lok clecos and four side grip fastener clamps. Also available are individual components so you can add to your kit as necessary.

Complete Kit

 X9863 Cleco pliers 12.99 ea

Plugweld Pliers

These plugweld pliers make plug welding fast and easy. Panels won't separate and copper alloy pad prevents burn through, allows higher welding temperature and better penetration.

S23230 pliers 36.99 ea

S23231 replacement pad 9.99 ea

Vise Grip Flange Pliers

Preparing panels with an offset flange will produce a clean, flush fit. Work on up to 18 gauge sheet metal without removing panels from the vehicle. The added feature of "Vise-Grip" locking pliers allows for better leverage. Available with your choice of 1/2" wide non-slip jaw or wider 1" clamping surface.

13229 1/2" wide jaw 39.99 ea

X9853 1" wide jaw 41.99 ea

Seam Buster HD Chisel

Easily separate spot welded or bonded panels. Save up to 15 minutes per panel replacement. Great for quarter panels, rocker panels and other pinch welded areas. Sharpened on two edges, the sharp end allows for penetration between panels and the side edge allows for side impact to drive the panels apart without damage. Made of super tough alloy steel. Cushioned handle absorbs shock.

TRUNK & FLOOR PAN REPAIR KIT

New!

Trunk and Floor Pan Repair Set

The KBS trunk and floor pan repair set allows you to restore your floor pan, trunk pan, or pickup truck bed back to new without producing any ugly weld seams. Our included step-by-step instructions make it easy and simple to use. After cleaning the area with KBS Klean (an industrial strength water based cleaner/degreaser), and KBS RustBlast (a powerful rust remover/metal etch), simply use the included BackBone reinforcing mesh and NuMetal epoxy putty to fill any small pin holes. Last, finish it off with a coat of RustSeal® for a restored finish without any weld seams. Each set includes: 1 gal. KBS Klean, 1 gal. RustBlast, 1 qt. RustSeal®, 1 lb NuMetal epoxy putty, 1 sq. yard BackBone Reinforcing Mesh, 8 oz. #1 Thinner, KBS paint sprayer, Nitrile gloves, mask, two brushes, stir stick and complete and detailed instructions.

Power Steering Parts

1962-79 Replacement Steering Pump

Remanufactured Units

If you're in the market to replace the worn out, damaged or missing original power steering pump in your 1962-79 Chevy II/Nova, choosing from our comprehensive selection of replacement style power steering pumps. Thoroughly reconditioned, these pumps are carefully inspected and remanufactured to provide years of trouble-free service! Reservoirs for the 1961-74 pumps may differ in appearance than the original, but all pumps will fit and function like new.

NO CORE CHARGE REQUIRED!

Note: Cap, nut, and pulley are not included. *Refers to bolt holes on reservoir.

Chrome Power Steering Pulley Nut

This chrome-plated self-locking nut is designed for aluminum performance power steering pulleys. It can also be used with OE and aftermarket pulleys on Saginaw power steering pumps with a 9/16"-18 threaded shaft.

MP645 1.99 ea

Warning: Concerning Steering Pump Pulleys

Stock replacement, aftermarket stamped steel or cast iron pulleys are not designed to exceed 400 horsepower or 6000 RPM. Using reproduction pulleys on engines in excess of these limits may result in catastrophic disintegration of the pulley causing severe damage to the engine, cooling system, and body parts. Classic Industries® assumes no liability for damages caused by improper use of pulleys. Please be sure to install the pulley properly to avoid damages that could occur from improper installation or exceeding the recommended RPM limitations.

Power Steering Parts

1962-79 Power Steering Hose

A leak in your power steering system can lead to a very serious and possibly dangerous situation. Leaking hoses can cause a loss of steering. Replace your worn out or cracked power steering hoses before big problems occur. The pressure hose connects from the power steering pump to the control valve/gear inlet. The return hose connects from the control valve/gear outlet to the power steering pump.

1968-79 Quick Ratio Power Steering Box

Quick ratio power steering boxes are all-new. They fit 1968-79 Chevy II/Nova models with a quick 12.7:1 ratio and a firm modern steering feel, plus they will bolt directly to the stock location and fit to the original power steering pitman arms. Power steering boxes include adapters, so you can use either o-ring or flare style hose connections.

Note: All pre-1977 vehicles will require a new rag joint flange part #7818568.

GB57004

1968-79 500 Series Steering Gearbox

The 500 Series power steering conversion gearbox for 1968-79 Nova models is a key part of a modern, high-performance power steering system. These 14:1 ratio units provide superior control and feedback, thanks to low friction recirculating ball gears. An open centered rotary valve provides smooth operation while retaining excellent road feel and steering response. This gearbox is a great upgrade for manual steering and power steering models and works with the factory power steering pitman arm and 3/4"-30 rag joint and is a great upgrade for manual and power steering models, including those with the larger 605 power steering gearbox.

1962-66 Steering Gearbox Conversion

Eliminate your leaky control valve and enhance the feel of your steering with this modern quick ratio power steering conversion for 1962-66 Chevy II/Nova models. This conversion kit features a remanufactured modern integral power steering gearbox which has been heavily modified for direct bolt-on installation in the Nova's factory mounting location and clear the stock steering linkage without interference or the need to modify the frame or shock tower. The integral power steering gearbox provides true modern power steering feel, feedback and a quick 16:1 ratio. For use with floor shift applications only, the factory column must be shortened to clear the power steering box. Models with factory power steering will require either a drag link adapter or a manual steering center link. For more direct bolt-on installation, we recommend ordering the steering column shaft with vibration isolator (part #990041) designed for this application.

Important: You may use a steering column with a column shift; you will have to eliminate all of the parts pertaining to the column shifter and would have to change to a floor shifter. This conversion is intended for use with a stock column.

Note: *These adaptors are for those who want to make their own. Adaptors are included with the hose set. Converts 16MM x 1.5 inverted flare fitting to a -6AN.

Rack and Pinion Steering

Manual or Power Rack and Pinion Steering System with Tilt Steering Column

FR3051

FR3052

Rack and cradle are shown painted for illustration purposes only. Supplied in a black painted finish.

1962-67 Rack and Pinion with Tilt Steering Column

This unique new style of steering system utilizes the original inner and outer tie rod ends. This makes for simple installation and maintains original pivot position as well as turning radius. No cutting, welding, or drilling to the chassis. It bolts into the existing steering box and idler arm holes. Available in power or quick ratio manual, they easily convert the steering box application to rack and pinion steering without any chassis modification. Complete sets include: the rack and pinion cradle system, a tilt steering column, universal joints, wire connectors and all mounting hardware. Power steering sets also include: the pump with pulley and a polished aluminum reservoir.

Important: Power steering pump brackets, hoses and column to dash clamp bracket are not included. Reuse of original column to dash clamp is required for installation, with some modification necessary. Power rack and pinion and cradle bracket are painted black, manual rack and pinion has a chrome finish. Must use 1968-69 Camaro outer tie rod ends.

Note: Shipped double oversize.

1962-67 Power Steering Hoses

Braided stainless steel power steering hoses for Flaming River power rack and pinion steering systems on 1962-67 Chevy II/Nova models.

FR1625 1962-67... 308.99 set

1962-74 Rack and Pinion

These rack and pinion systems are designed for 1962-74 Chevy II/Nova models. 1962-67 works with small block engines while the 1968-74 will work with small block or big block Chevrolet engines. The 1968-74 rack and pinion will work with the factory power steering pump, but will require the hose set sold separately. The 1962-67 sets include: a new pump, hoses, and remote reservoir. New steering arms are included and must be used on the power steering rack. The manual rack will mount to your stock steering arms. This system is not compatible with aftermarket spindles with steering arms cast as a single unit. This system also requires a new steering shaft between the steering column and the rack and pinion, sold separately.

Note: Factory exhaust manifolds are recommended on big block engines, as headers may cause interference with steering shaft. Shipped double oversize.

Steeroids

1968-74 Rack and Pinion

Steeroids rack and pinion sets were designed to make your 1968-74 Nova steer like a new car! This set features uniquely designed adjustable tie rod ends specifically engineered to eliminate bump steer - even on lowered vehicles. The system gives you greater control while driving on rough surfaces and provides a tighter and more precise feel. These bolt-on rack and pinion conversion sets do not require cutting or drilling into your frame, crossmember or its supports. Steeroids power steering kits allow you to retain your stock power steering pump. Available in power or manual sets. Instructions included.

Important: If using your old pump, flush and clean it thoroughly before installing the set.

Note: Shipped oversize.

-------	---------	----------

1969-79 Polyurethane Bushing Sets

It doesn't take long before soft suspension rubber begins to deteriorate. Polyurethane is impervious to deterioration caused by oil, grease, and the elements, giving you firm, confident handling that lasts. These bushings are formulated and designed to reduce the noise, vibration, and harshness that other Polyurethane bushings may have and include "squeak proof" Super Grease. All of the dynamic bushings feature grooves to hold grease for superior performance. Available in black or red.

OEM AUTHORIZED

1962-67 Disc Brake Spindle

Use these spindles when converting your 1962-67 drum brake car to factory single piston caliper disc brakes that were used on 1969-74 Nova models.

Note: Requires SA01 five lug steering arms.

DBS02 1962-67 84.99 ea

CP30100

1968-72 2" Forged Drop Spindles

Lowers your vehicle 2" and allows the use of the stock steering arm and factory 11" single piston disc brakes. This is the only drop spindle on the market that is designed to work with 12" or 13" big brake sets without modifying the spindle.

Note: Factory caliper brackets requires minor modification and the dust shields will be eliminated. Will not work with drum brakes. Fits most 15" disc brake wheels that do not exceed a 4" backspace.

CP30100 1968-72 224.99 pr

Chassisworks

New!

K5754162

1968-72 Billet Aluminum Spindles

These rigid and lightweight billet aluminum spindles and steering arms are direct replacement components for 1968-72 Chevy II/Nova models. Overall height of both upright versions is 1-1/2" taller than stock, resulting in more aggressive camber gain with increased cornering performance. Spindles feature a black anodized finish and heat treated, corrosion resistant, slotted flange nuts. Optional flange nuts for oversized stud lower ball joints are sold separately. For use with calipers that attach to OEM style disc brake locations.

Note: Taller spindle height requires Chassisworks billet steering arms and tubular upper A-arms to properly position ball joint range of alignment. Minimum rim size is 15" to 18" diameter, depending upon width and brake kit.

Hi-Temp Wheel Bearing Grease

When replacing or just repacking your wheel bearings, don't use ordinary grease. Protect those bearings with a high-quality, high temperature bearing grease. This is a very stable aluminum complex thickened grease used for the lubrication of wheel bearings, chassis ball joints and other bearing applications operating under severe conditions. This product assures high temperature protection from excessive heat generated by disc brakes. And... a special tool designed to pack the bearings so they stay where they belong. Works on most cars and trucks.

11162899	1968-74	lower	754.99 pr

1968-79 Tubular Control Arms

A great performance upgrade for your front suspension. Provides increased straight line stability, reduced wander, and quicker cornering response. They're ideal for drag racing, autocross/road racing and performance street. No modifications required, replaces stock upper control arms. Control arms have positive caster built into them so no need to require offset shafts. Upper arms reduce factory bump steer by cutting it in half (beneficial for drag, street, and road racing applications). Standard ball joints are used so they can be serviced anywhere. Shipped fully assembled with billet shafts, Del-A-Lum bushings, ball joints, and bump stops. Powder coated black. New alignment specifications are included. Can be used with lowered frame mounting holes. Will work with coilover kits Made in USA.

1968-79 Tubular Control Arms

These standard width upper and lower arms for all 1968-74 and 1975-79 models are state-of-the-art in both design and fabrication. The upper arms are 1-1/4" dia. tube, and the lowers are a full 1-1/2" dia. tube. They are narrowed 1" per side, pulling the tires in. The arms are black powder coated and supplied with factory ball joints. High-performance urethane bushings are standard. Upper arms include offset cross shafts for ease of alignment. These are full ball-on-arms, requiring no modifications to the frame.

1968-74 Upper & Lower A-Arms

Enhance your handling performance with BMR A-Arms. Fabricated from heavy-duty 1-1/4" DOM (Drawn Over Mandrel) tubing, BMR's upper A-Arms feature a billet, nickel-plated cross shaft and HD stainless bushing retainers. BMR uses high diameter, fluted externally greasable Polyurethane bushings. The compact design provides additional header clearance and come pre-assembled with Polyurethane bump stops and upper ball joints. Lower A-Arms feature sway bar mounting provisions and work with all stock springs and shocks or with the popular QA1 Pro Coil kit.

Note: Please add suffix A for red, B for black hammer-tone.

1968-79 gStreet Control Arms

The gStreet line of front suspension components is an excellent choice for improving the performance and stance of your Nova. You can get the bolt-on gStreet control arms used on the complete subframe by Chris Alston for your stock subframe Chevy II or Nova. The gStreet lower control arm feature a true coilover style eye mount. To keep installation simple and maximize compatibility, control arms utilize the factory chassis mounts and bolts directly to stock or aftermarket spindles. These arms require the use of VariShock coilover shocks or ShockWave air suspension, and feature a gray hammered powder coat finish, a pivot ball lower mount and ball stud upper mount that bolts directly to the factory mounting location. The exclusive greasable ball stud mount provides more positive control of the suspension while still allowing free pivoting movement.

Important: These arms require the use of VariShock coilovers or ShockWave air suspension.

1962-79 Poly Sway Bar Bushing Sets

High tech Polyurethane bushings designed for use in place of originals while giving a stiffer, tighter, and more superior ride. When changing sway bar bushings to Polyurethane bushings it is advisable to replace all your front end bushings with Polyurethane bushings.

Important: Do not mix and match Polyurethane and OEM type bushings together. All bushings should either be rubber or Polyurethane. Mixing and matching could cause problems for your suspension and your bushings to wear out much faster.

1968-74 Total Vehicle System (TVS) ⚠️

These exciting TVS kits contain engineered and tuned components that work together as a complete suspension system to maximize your vehicle's handling. Avoid the poor ride quality and disappointing handling that often results from combining a hodge-podge of mixed components from multiple manufacturers. Designed for the driving enthusiast who demands the ultimate in vehicle handling and performance without sacrificing ride comfort! Includes: sport coils, sport sway bars, heavy-duty tie rod sleeves, sport leaf springs and all necessary hardware.

Important: The TVS will lower your Nova approximately 2" in front and 1-1/2" in rear.

Note: Shipped truck freight.

1968-72 OEM Style Subframe ⚠️

Repairing the corroded or damaged subframe on your Nova used to mean hours of days of hard work. Now, you can simply replace it with a new complete reproduction subframe designed specifically for 1968-72 models. These reproduction subframes feature the correct contours, openings, and welds for an OEM appearance. In addition, these subframes have been internally reinforced in the lower crossmember, greatly improving strength and rigidity. Manufactured in heavy gauge steel. Available without a crossmember or with a TH400 transmission crossmember installed.

Note: Shipped truck freight.

1962-67 Mini Subframe Set ⚠️

Improve stability and steering response and gain ground clearance for your 1962-67 Nova with these mini subframe sets. This mini subframe helps maintain proper alignment without the use of a lockout plate for a free motion in the lower control arm. The results are better ride quality. Because the bulky factory strut rods and strut rod mounts are replaced, this set adds only 2 lbs to the vehicle. The 1 piece crossmember ties both frame rails together by bolting into the factory strut rod mounting location. The lower control arms add a forward cast adjustment and utilize the original camber adjustments. For use with the factory and aftermarket sway bars up to 1" in diameter.

Important: For steering stops use C14636.

Standard Set

Standard sets include: tubular upper and lower control arms, simple, bolt-in 1/4" thick steel cross member with forward mounting, 4 alignment cam kits, Grade 8 hardware, low friction, long life bushings with premium upper and lower ball joints.

Note: Shipped overseas.

Formula Five Prelube

Energy Suspension Formula Five Prelube is a versatile, waterproof, non-melting grease containing PTFE. This forms a tough, durable, chemical resistant film of lubricant.

This lube also prevents metal-to-metal contact even under severe shock loads. Only small amounts are required to properly lubricate bushings and metal components and to prevent corrosion. Use this when assembling your Polyurethane bushings to your suspension.

Important: Only small amounts of this prelube are needed when assembling components.

CLASSIC INDUSTRIES

D10201

1968-74 Solid Body Mount Set

These solid body mounts offer a simple solution for eliminating the chassis flex that occurs between the body and subframe connection, this will improve vehicle handling response by increasing chassis rigidity. These mounts should be used when installing subframe connectors to maximize torsional rigidity. These uniquely designed body mounts are CNC-machined from billet aluminum and then hard coated, not bright anodized. Unlike regular bright anodizing, the hard coating process resists corrosion that can occur between steel and aluminum surfaces. This set includes 2 core support mounts with stainless steel bevel washers and 4 body mounts with stainless steel bevel washers CNC-machined stainless steel bevel washers: available either 1/2" or stock height. A polished stainless steel flanged body bolt set is available separately.

TCI 1962-67 Coilover Street IFS

Get a Lowered Look and Improve Handling for Your Nova with No Welding Needed!

Total Cost Involved coilover Street IFS with coilover springs is a complete subframe that features the front suspension clip with engine motor mounts and suspension brackets installed. A narrowed rail design will give 1-1/2" of space per side for wider tires. A vertical metal plate is now used for mounting the upper control arms. This design allows easy camber and caster adjustments via shims instead of alignment slots. This will keep your Nova in alignment for a longer time. Frame is engineered with U.S. steel. Made in USA.

Important: No welding necessary. Assembly is required. Rotors, spindles, and brake units are assembled with bearings packed with high temp grease. Shown painted for illustration purposes only. Components are supplied unfinished.

Note: Shipped double oversize.

Coilover Street IFS Set Includes:

- Narrowed tubular upper A-arms
- Narrowed tubular lower A-arms
- 2" drop spindles
- New manual rack and pinion gear
- Custom steel inner front fender panels
- Big bore calipers
- 11" drilled and slotted zinc-plated rotors
- 1" anti-roll bar
- Black powder coated springs
- Painted coilover shocks
- Hood hinge brackets
- Upper and lower ball joints
- Greasable urethane bushings
- Small block engine brackets

TCI 1962-67 Pro-Touring IFS Subframe

Give Your Nova a Pro-Touring Look That Won't Break the Bank!

If you're looking to add distinctive Pro-Touring style to your Nova. These TCI subframes have a narrowed rail design which will tuck in the wheels, yielding an aggressive stance and tenacious cornering grip. They bolt on using factory bolt holes and will greatly improve handling on the street, strip, and autocross track. This assembly features the front suspension clip with engine mounts and suspension brackets installed. Also includes a full front suspension, and a high-performance braking package. These subframes are engineered with U.S. steel and proudly made in USA.

Important: No welding necessary. Assembly is required. Rotors, spindles, and brake units are assembled with bearings packed with hi-temp grease. Shown painted but components are supplied unfinished.

Note: Shipped double oversize.

Pro-Touring IFS Set Includes:

- RideTech single adjustable shocks
- Black powder coated springs
- Tubular upper and lower A-arms
- 2" drop spindles
- 1" anti-roll bar
- Adjustable Heim 1-1/4" down bar tubes
- 11" drilled and slotted zinc-plated rotors
- Custom steel inner front fender panels
- New manual rack and pinion gear
- Greasable urethane bushings
- Big bore calipers
- Stainless brake lines
- Mounting hardware

TCI 1962-67 Rear Torque Arm Suspension

A lowered stance and superior handling built for the track

The 1962-67 Chevy Nova torque arm assembly is engineered for street, autocross and road course applications and is ideal for enthusiasts who want modern, corner carving handling for their classic Nova. The set gives a lowered stance, greater rear axle control and dramatically improved handling. The set is bolt-on except for minor welding. Optional sway bar, rear end and transmission crossmember sold separately. Engineered with U.S. steel. Made in USA.

Important: Some welding necessary. An installation tool is included for bracket positioning. Shows painted for illustration purposes only. Supplied unfinished.

Note: TCI housing comes with all brackets installed and heli-arc'd. Shipped double oversize.

Product image shown with optional crossmember, complete rear end and anti-sway bar.

Torque Arm Suspension Kit Includes:

- All American coilover shocks
- 1-3/4" subframe connectors
- Floor reinforcing plates and hardware
- Adjustable pinion support tubes with rod ends
- Axle housing brackets with torque arm tabs
- 1-1/2" coilover crossmember with chag brackets
- 1" adjustable panhard bar with LH & RH rod ends
- 1-3/4" torque arm w/slider & reinforcing flanges
- 1-1/4" link bars with stainless adjusters
- Bolt-on trailing arm channel brackets
- 1-3/4" crossmember with drive shaft loop

Mustang II Style 1962-67 Bolt-On Subframe

A Lowered Look and Superior Handling for Your Chevy II/Nova in 3 Easy Steps!

1 Get The Mustang II Subframe

Now you can give your 1962-67 Chevy II/Nova the lowered look and superior handling the street rods have enjoyed for years. Install a Heidt's IFS with no welding. Simply unbolt your complete front clip and bolt in the Heidt's complete subframe. Install the firewall supports, bolt on the suspension components and you are all set. The stock radiator support also bolts right up.

Important: 15" wheel or larger required. Brake lines not included. Subframe and components are supplied unpainted and unassembled.

Note: Special order. Shipped overweight.

Subframe Set Includes:

- Crossmember/Subframe Assembly
- Steel Tubular Control Arms
- 11" Iron Rotors with 5 on 4-3/4" BP
- 275-375 Spring Rates Available
- Rebuilt GM Metric Calipers
- Stock or 2" Drop Spindles
- Manual Rack and Pinion
- Shock absorbers
- Tie Rod Ends and Ball Joints
- All Mounting Hardware and Bushings
- Firewall Supports

SUSPENSION PARTS 313

Detroit Speed & Engineering Subframe & Suspension

D32001

The Subframe is Complete Including the Following Components:

- Tubular upper and lower control arms
- Coilover shocks and springs
- Power rack and pinion steering
- Splined sway bar
- C6 Corvette steering knuckles with hubs

Information Regarding Wheel Fitment:

- 17" wheels - up to 10" wide
- 18" and 19" wheels - up to 10" wide

Both pattern 5 on 4-3/4", Stud Size M12 x 1.5, 17" wheels require a minimum inside diameter of 16.250". Some brake applications will not work with 17" wheels. Flush mount valve stems may also be required on wheels with a behind center valve stem location. 10" wide wheels will not fit on 1968 Nova models.

1968-74 Hydroformed Subframe

Detroit Speed and Engineering's all-new front subframe is a bolt-in replacement for the original stock subframe. Utilizing DSE's industry exclusive hydroformed frame rails and unique suspension geometry, it improves ride quality and handling. Hydroformed frame rails offer strength, stiffness, precise quality and repeatability. Both the main and secondary crossmembers are stamped for structural rigidity. DSE's front subframe can accommodate a 10" wide wheel package with up to 335-series tires without modifying the inner wheel wells, but you must check the fender lip for turning clearance. You can use any C6 Corvette brake package from stock to aftermarket. DSE subframes will accommodate small block, big block, LS1, LS2, and LS7 engines as direct bolt-ins. Brake hoses will need to be custom made because they will require a metric fitting on one end but a standard fitting on the other.

Important: The subframe and parts are sold in bare metal, uncoated and not assembled. If the powder coated option is purchased, assembly is included. The assembled subframe is finished in satin black. Upper and lower control arms, and sway bar arms are gloss black. 1968-72 use stock frame and engine mounts; 1973-74 use 1968-72 frame and engine mounts for small or big blocks.

Note: Special order, must be prepaid. Shipped truck freight.

1968-74 LS Engine Mount Set

These engine mount sets are for use with the 1968-74 Detroit Speed and Engineering subframe. The LS engine mount bracket set enables easy, no hassle installation of an LS engine into the DSE hydroformed subframe. This set locates the engine in the proper location, provides the correct method of adapting the 3 bolt engine mounts to the 4 bolt LS engine mounts and requires no fabrication.

D60401 1968-74 LS engine 324.99 set

D32031

1962-67 Chevy II Front Frame

Detroit Speed's front frame is a bolt-in replacement for the stock subframe. It improves handling and ride quality by utilizing DSE's unique suspension geometry. The bay bars feature rigid integral hood hinge mounting and are hidden when used with DSE's Chevy II Inner Fenders package to allow up to a 9" wide wheel without modification. SBC and LS engines have been designed as a direct bolt-in to this frame. Each set includes: tubular control arms, coilover shocks/springs, power rack and pinion, splined sway bar, and C6 Corvette uprights. The frame is sold in bare metal, uncoated and unassembled. If the powder coated option is purchased, assembly is included.

Note: Special order, must be prepaid. Shipped truck freight.

1962-74 Subframe Connectors

These weld-in subframe connectors are fabricated from 2" x 3" x 0.095" wall rectangular tubing for 1962-67 Nova or 2" x 3" x 0.120" wall rectangular tubing for 1968-74 Nova. These connectors are barely visible from underneath the vehicle. The rear of the connector is tapered to attach to the rear frame rails and has a laser cut slot that conforms to the rear seat floor pan. The connectors are bent and TIG welded in a fixture for accuracy and repeatability. These do not interfere with seat attachment hardware, installation or removal of the rear leaf spring pocket, and the molded factory carpet will fit over the connectors. Includes: laser cut brackets, templates, pictures and detailed instructions for installation.

Note: If not installing the 1962-67 Chevy II QUADRALink™ you will need to purchase D934115 DSE torque boxes.

These 1962-67 Chevy II torque box assemblies are for use with Detroit Speed subframe connectors D10104 when not installing a QUADRALink™ suspension. Sold in pairs.
D934115 1962-67 124.99 pr

1968-74 Leaf Spring Offset Shackles

These billet aluminum offset shackles are designed to relocate the rear leaf springs inboard to accommodate larger rear tires. They relocate the rear leaf spring inboard to accommodate 335 tires (with a section of 13.5" on a F-Body) on a F-Body. The shackle offset is 1-3/4". Use along with other Mini-Tub components to complete your project. Set includes: 4 offset shackles and Grade 8 fasteners. This shackle is designed for maximum suspension travel. Made in USA.

Note: The stock fuel tank will need to be narrowed or use DSE's narrowed stainless steel fuel tank when relocating the rear leaf springs.

D40901 1968-74 295.99 set

Detroit Speed & Engineering Rear Suspension

The Mini-Tub Set Includes:

- Extra Wide, Deep Tubs
- Upper Shock Crossmember
- Upper Shock Mounts
- Offset Shackles
- Heavy-Duty Leaf Springs
- Adjustable Leaf Spring Pads
- Lower Shock Plates
- Heavy-Duty U-Bolts
- Detailed Installation Video CD
- Templates

1968-74 Mini-Tub Set

Now you can run all the tire you need, and drop the rear for the "Pro-Touring" look on your 1968-74 Chevy II/Nova with this complete Mini-Tub package. This set is designed to fit tires up to 315mm wide and wheels up to 11" wide without any clearance problems. Installation is a snap with the installation video-CD that is provided. The American-made, multi-leaf, 175lb/in. rate springs are tested to meet exacting specifications and matched to provide a level stance available in either a 2" or 3" drop configuration.

Important: The installation of these components requires extensive modifications and welding skills. The rear frame rails will need to be notched and boxed to clear the offset shackles and leaf springs. A narrower than stock gas tank is required with these repositioned shackles and leaf springs. Requires 3" axle tube for installation of spring pads. Shocks sold separately.

Note: Special order, must be prepaid.
Shipped double oversize.

1968-74 Mini-Tub Rear Shocks

These AFPO rear shocks are essential for 1968-74 Chevy II/Nova models that have been mini tubbed. The mono-tube, high pressure gas shocks have a 1/2" bearing mount on each end, and are rebound adjustable. The Mini-Tub set is designed around this shock for proper mount height, as well as jounce and rebound travel.

--------	---------	-----------	-------	------------

1968-74 Deep Tubs

Detroit Speed's exclusive Deep Tubs are inner wheel housings designed to accommodate wide tire and wheel packages. They are engineered for an excellent fit and allows you to maintain a "stock" look. Much wider than the stock wheel housings, allowing for tires as wide as 335mm and wheels as wide as 12". Deep Tubs are stamped from 18 gauge steel here in the USA. They will significantly reduce the number of hours required for a Mini-Tub project. Included is a CD containing printable templates and a full instructional video that guides you through the install process from start to finish.

Note: Shipped double oversize.

9" rear end not included

1962-74 QUADRALink Rear Suspension

Upgrade from original leaf spring suspension with DSE's Quadralink rear suspension. The DSE "Swivel-Link™" allows the suspension to fully articulate with smooth solid motion on a no binding. The Swivel-Link design utilizes tuned, high durometer rubber bushings (instead of Heim joints or squeaky urethane bushings) and the long upper links provide great pinion and U-joint angle control. Utilizes a panhard rod that provides precise and effective rear axle lateral location during hard cornering. The panhard rod is adjustable as ride height changes for roll center control.

Important: *Axle brackets require a 3" axle tube. Moser 12 bolt or Ford 9" axle assemblies are a good choice for this setup and are available in this catalog.

Note: Special order, must be prepaid.
Shipped double oversize.

1968-74 Mini-Tub Fuel Tank Set

These stainless steel, narrowed, 17 gallon fuel tanks are designed specifically for use with our Mini-Tub set. These are a direct bolt-in replacement using the original mounting location, and the stainless steel fuel tank straps are provided. All carbureted tanks have a 1/2" NPT fuel pickup fitting compatible with either -8 AN or -10 AN fuel line. The fuel injection tanks are supplied with Walbro electric in-tank pumps that deliver plenty of fuel for your late model injected engine. All tanks are baffled and pressure tested.

Important: A universal 5 bolt single wire 0-90 Ohm fuel sending unit is required and is available separately.

Note: Special order, must be prepaid.

Ridetech Suspension Systems

ridetech 
Air Ride Technologies

Looking to add some performance to your suspension? Ridetech has what you need!

ridetech 
StreetGRIP

11265010

Features:

- Direct replacement for factory suspension
- Radical improvement to ride quality and handling performance
- Dual rate front coil springs offer ride quality and crisp handling
- Delrin front control arm bushings eliminate movement and static friction in front suspension
- Composite rear leaf springs save 70 lbs of unsprung weight!
- Delrin leaf spring bushings regain lateral stability missing with rubber or poly bushings
- Tall ball joints improve OEM camber curve for a more stable feel through the corners
- Larger front and rear sway bar minimizes body roll
- Delrin sway bar bushings eliminate movement and static friction in the sway bar to improve ride quality and handling performance
- RideTech HQ series rebound adjustable shocks offer the ultimate in ride quality and handling performance
- Staggered rear shocks eliminate wheel hop; upper mounts are reinforced for extra strength

1968-74 StreetGRIP 

Arguably one of the most famous generations of the popular Nova, this radically new body design held on to its popularity despite being plagued by the era's oil crisis. Nova models that have made it through to modern times have also been plagued... by worn out suspensions! Bring your X-Body into the 21st century with Delrin bushings, composite leafs, and more in this incredible new suspension solution... the RideTech StreetGRIP!

Important: Recommend the RideTech Bushing Installation/Removal tool - 85000009 for those who do not have a press to remove and install bushings.

Note: Shipped overseas.

11169525

11169500

Upgrades:

- **Spindles** - Taller for camber gain and a raised spindle pin to lower your vehicle 2".
- **Steering Arms** - Corrects bumpsteer and allows for 10" wide wheel with 5.75" backspacing.
- **Drag Link Bracket** - Bolts onto OEM unit to relocate the inner tie rod end to minimize bumpsteer.
- **Tie Rod Assemblies** - Integrate with your new steering arms and center link to provide a true bolt-on steering system.

1968-74 TruTurn Steering System 

This TruTurn system resolves several issues with early Nova front suspension geometry. With this set, bumpsteer is virtually eliminated, steering arm interference is corrected to allow wider tires, and the wheels lean into turns, rather than away. If your front suspension already uses RideTech drop spindles, the TruTurn Upgrade Set includes the remaining components to correct the issues of the factory design. Made in USA.

Note: 10" wide tires may require modification of the inner wheelhouse and outer fender lip. Not for use with OEM or other aftermarket spindles.

RidePRO 4 Way Compressor/Controller System

Looking for an analog solution to your air suspension system? Skip the computers and use this manual RidePRO set! Includes: one compressor, one 3 gallon tank, analog control panel, 4 way solenoids, wiring harness, air hose, and fittings. This set will raise and lower your vehicle in approximately 3-5 seconds.

Note: Shipped overweight.

30154000 RidePRO 1124.99 set 

Ridepro X Air Suspension Level Control System

Adjust vehicle height at the push of a button while maintaining balanced air springs. RidePro-X tunes air suspension for proper handling and world-class ride quality by way of sophisticated pressure and height algorithms. Each time you turn the ignition key, RidePro-X self-adjusts to ride height and compensates for changes in load. Whether you are driving alone to work or on your way to a show with a car or truck load of friends, RidePro-X will calculate proper air spring rate and balance, then work diligently in the background to maintain proper spring pressures and vehicle height. Most enthusiasts will utilize the included 3-position Power Port Module. Sleek and stealthy, the Power Port Module simply plugs into your car or truck's 12V power port (cigarette lighter) and talks to the ECM via RF. Includes: ECU, 3 preset controller, smartphone control module, air pressure sensors, wiring harness, and instructions.

Suspension Sets

1968-74 Three Stage Steering and Suspension Sets

STERIODS™

Included in all the preconfigured sets:

- Steroids Rack and Pinion Conversion Kit for Power Steering
- Performance 1.5" Drop Rear Leaf Spring Kit
- Performance Front and Rear Sway Bars
- All Necessary Hardware, Fasteners (Grade 8), Brackets and Detailed Installation Instructions

These preconfigured Stage Steering and Suspension sets for 1968-74 Nova models take the guess work out of improving your suspension. The foundation of these suspension packages a complete front coilover conversion and rear Suspension Upgrade and the legendary Steroids Rack and Pinion conversion kit. The front coilover conversion allows either factory or aftermarket control arms, featuring fully adjustable ride height. The included Steroids Power Steering Rack and Pinion conversion kits are lighter weight and much quicker ratio – saving up to 25 lbs when compared to the stock steering system. Make your classic X-Body handle like never before. These sets will reuse the existing power steering pump. Designed for ease of installation, these kits are entirely bolt-on with no welding, cutting or drilling required. Installs with hand tools. Proudly made in the USA.

Note: Shipped in multiple boxes. Shipped overseas.

LW40301

1962-79 Lakewood Drag Shock

Lakewood drag shocks feature state-of-the-art 10 stage valve design which provides excellent steering line reaction and stable high speed operation, superior to any other shock on the market today. These shocks feature multiple valve stages, as the vehicles speed increases, the characteristics of the shock change. All Lakewood drag shocks will mount in the stock locations without modification.

90/10 Series Front - Race Only

Will let the front end rise quickly to provide as much weight transfer as possible to the rear wheels on initial launch.

Important: These shocks are not designed for street use.

70/30 Series Front or Rear - Street & Strip

Use for overall improved handling on the strip or when quick front end lift is not needed. Works best on medium to high horsepower vehicles with wide tires and low to medium horsepower vehicles with slicks.

50/50 Series Rear - Street & Strip

Use to properly load the rear wheels and prevent over reaction and wheel hop. This shock is the best overall choice for vehicles that are driven both on the street and the strip. Use with leaf or coil springs.

ridetech

22149846 22189874

Features:

- Large piston mono-tube design for superior oil control - increases ride quality
- 1/2" hardened shaft is precision ground and straightened to a .001" tolerance
- Billet end cap with integrated Teflon debris wiper prevents seal damage
- Oversized rod guide improves piston rod stability
- Wear resistant cathodic anodized mono-tube bore
- Composite gas separator cup ensures proper nitrogen/oil separation

1962-79 HQ Series Mono-Tube Shock

These smooth body aluminum Q-Series shock absorbers with their robust mono-tube design are a durable, direct replacement performance upgrade for nearly any Nova build. Backed by a 1,000,001 mile Ride Tech warranty, HQ Series shocks offer 20 settings of rebound adjustment for drivers to tune ride quality and handling quality to their specific taste. Switch between cruising in comfort or stiffen your suspension for spirited driving.

CALVERT RACING Products

CF Series Front 90-10 Shocks

Calvert Racing Suspensions offers a shock specifically designed for maximum weight transfer. Built with the softest rate on rebound on the market today, allowing the front end of your race car to come up as easy as possible! Dual stage valving on compression allows the car to settle on the top end. Due to a slightly larger diameter shock body, some slight trimming or clearingance may be required on the lower control arm. Sold in pairs.

Note: *Needs slight grinding to fit per vendor. Not for street use.

1968-74 Pro Springs

Pro springs offer immediate handling enhancement and give your muscle car an aggressive stance! Front springs provide approximately a 1.3" drop. High-quality construction and design ensures springs will retain optimum rates for unsurpassed performance. Springs are epoxy coated with a diamond black color and have a lifetime warranty. If you're using these springs with tubular lower arms, and need to fine-tune your ride height, use ride height spacers.

SP94393	1968-74		184.99 pr
---------	---------	--	-----------

1962-79 Front Coil Spring Insulator

Molded rubber coil spring insulators that mount between the coil springs and the frame. These insulators will keep the springs from riding on the frame metal to metal and will give you a better ride. Coil spring insulators were not original on all vehicles. Measures: 5-5/16" o.d., 3-3/4" i.d., 1/4" thick.

Note: These insulators will increase ride height equal to the thickness of the insulator.

Traction Bar Rubber Snubbers

Replace your worn out or missing traction bar rubber snubbers with these quality units manufactured by Lakewood traction bars.

LW20530			20.99 pr
---------	--	--	----------

1962-78 Traction Bar System

Developed by Super Stock winner John Calvert, these traction bars are the answer to "hooking up" high horsepower with your leaf spring suspension vehicle. This built-on-set set requires no welding or modification of the stock suspension. CalTracs redirect spring wrap-up force into the front pivot points, transferring weight to the rear of the vehicle. Your vehicle will launch harder with greatly improved 60 foot times, while maintaining correct pinion angle. Opposing threads on the transfer link make pre-load adjustments simple. Low profiles are designed for lowered street driven vehicles and give an additional 1.5" of ground clearance with full pre-load adjustability. Finished in black powder coated, CalTracs are approved by major sanctioning bodies like the NHRA, NMCA and the PSCA.

Note: Shipped oversize.

1962-79 Traction Bars

These rugged suspension bars are designed for leaf spring suspensions and can be used for street or strip. Traction is greatly increased, wheel hop is eliminated, and the rubber snubbers provide a better ride. Adding these bars is the simplest way to increase traction on your pavement stomping Nova!

Important: Not for use with mono-leaf springs.			
Note: Shipped oversize.			
LW21606	1962-79	black	199.99 pr

Universal Traction Bars

Designed to fit most leaf springs, these bars strengthen rear suspension and reduce wheel hop. They are constructed from heavy gauge rectangular steel and feature MIG welded brackets for extra strength. Rubber snubbers, U-bolts, and installation hardware is included.

144711

1982-78 Split Leaf Mono Spring

New from Calvert Racing, these revolutionary split leaf springs allow you to have both the proper spring rate and the desired ride height for your high horsepower hotrod. The split mono-leaf is designed to work with Calvert Racings CalTrac traction bar system. They overlap 12" at the high stress area of the spring, emulating a parabolic type spring. Aluminum bushings in the front eyes and polyurethane in the rear eyes remove slop and help control the spring's motion. You'll also find them substantially lighter than your stock springs. Calvert springs are manufactured to exacting standards and were used by the last 5 World Champions in Stock Eliminator.

Important: Some fabrication will be necessary for installation. Requires steel blocks to replace the 2 upper and 2 lower rubber leaf spring pads.

Note: Shipped double oversize.

K580011

K580061

1962-74 g-Bar Rear Suspension System

The g-Bar rear suspension system dramatically improves ride quality and performance over the stock leaf spring suspension. Four individual arms precisely position the rear axle, better defining the axle's correct path of travel. A panhard bar is not required with this style of suspension, meaning that you can easily change spring rates without altering suspension geometry or allowing changes in pinion angle and lateral movement. In turn, this means that lighter spring rates can be used to improve ride quality without causing leaf spring wrap-up, a common source of wheel hop. A combination of premium urethane and high diameter rubber bushings creates controlled ride quality that inspires confidence under performance driving conditions and during high-performance maneuvers. The g-Bar system includes VariShock QuickSet 1 single adjustment coilover shocks with spring rates compatible with your Nova's rear weight. VariShock features 16 position valve adjustment within a specifically designed range from soft to harsh. This system is for anyone who wants a nice ride but also wants to be able to carve corners.

Note: Shipped overweight.

1962-79 Rear Leaf Spring Pads

Replace your rear leaf spring upper or lower pads when installing a new rear leaf spring! These original quality pads are manufactured to specifically fit the applications listed below. Each pad is used to insulate the area between the rear leaf spring and the axle tube mounting plate. 2 upper and 2 lower pads are required per vehicle.

Note: When converting mono to multi-leaf applications it will be necessary to install RLS spring pads.

1968-74 Hyper-Flex Bushing Sets

Replacing bushings just got easier, especially if you're replacing all the bushings on your Nova. These sets contain the major suspension bushing components required for a complete job. Mixing standard rubber bushings with Polyurethane bushings is not recommended, so, if you are going to replace any of the suspension bushings, then replace them all.

Note: 1968-74 sets do not include sway bar bushings due to the various bar sizes. Subframe mounting hardware is not included. These items are available separately.

- Eaton or Detroit Truetrac Differential
- Pro/Street Gears from 3.08 to 5.38

1962-76 Complete 12 Bolt Axle Assembly

Moser Engineering offers the best aftermarket 12 bolt on the market. The 12 bolt housings are newly cast nodular iron housing units that are direct replacements for leaf spring General Motors OE applications. The extremely durable housing units have giant caps utilizing 1/2" Allen bolts, and include perches. You have a choice of axles with pressed on ball bearings, or OE style C-clip axles. The units can be set up to work with many OE GM brake setups. Utilizing new housing ends adds to the simplicity and ease of installation, which is unparalleled in the industry. The complete package includes a Moser 12 bolt housing, custom alloy axles with ball bearings, studs and retainer plates, or C-clip axles. Also includes a posi-unit, Pro Street gears, 1310 or 1350 series pinion yoke, chrome or Performance differential cover, and assembly. Brakes are not included. When ordering pressed bearing axles with a posi unit, you have the option of 30 spline axles or upgrade to our 33 spline axles, which carry a 10-year replacement warranty. However, if you are ordering the package with C-clip axles you can only order 30 spline axles.

Note: Special order, must be prepaid. Shipped truck freight.

Universal Driveshaft Safety Loop

Required and approved by all major racing sanctioning bodies. This universal driveshaft safety loop is fully adjustable to fit most vehicles. The 4 piece design is manufactured from 1/4" thick, 2" wide mild steel, bright zinc-plated and comes with all necessary hardware.

LW18000	all models	zinc-plated	46.99 ea
---------	------------	-------------------	----------

1962-79 Driveshaft U-Joint

If you have annoying vibrations and noise, you may need to replace your driveshaft universal joints. Restore smooth operation of your drivetrain with high-quality replacement U-Joints, complete with clips or snap rings for installation. Greaseable joints include the grease fitting. 2 required per vehicle.

534G	front or rear	with inside snap rings	9.99 ea
369	front or rear	with outside snap rings	7.99 ea

1962-75 U-Joint U-Bolt Kit

Replace faulty U-joint bolts with these reproduction bolts. 1-3/16" center to center stud with a 5/16" - 18 thread.

R6046	1962-75	4 piece 12.99 kit
-------	---------	-------------------

Handy Packer Bearing Packer

The Handy Packer works on bearings up to 2-1/2" o.d. To pack a bearing, place the packer on the piston, bring up the cap until the old grease is forced out and the new grease shows on top of the bearing with less mess.

Rear Axle Components

Made in USA

CE931A

All 3" Members Include:

- Nodular Iron "Sportsman" Gear Case with 3.062" Caps
- Nodular Iron Big Bearing Pinion Support
- Nodular Iron 1330 Series Short Yoke
- Nodular Iron Traction Lock, TruTrac, or Detroit Locker
- New Ring and Pinion in These Ratios:
 - 3.00, 3.25, 3.50, 3.70, 3.89, 4.11, or 4.30
- Timken Bearings and Performance Oil Seals
- Professionally Setup, Ready-to-Install

9-Plus 31 Spline 3" Members

These are built and ready-to-install in your 9" rear end. Choices of carriers are: Traction Lock, TruTrac, and Detroit Locker.

Important: For ratio choices add a letter to the end of the part number. Ratios are: A = 3.00, B = 3.25, C = 3.50, D = 3.70, E = 3.89, F = 4.11, G = 4.30.

Traction Lock

Traction Lock is the same as Posi Traction or limited-slip. It uses heavy plate style clutches to help your traction and put power to the ground.

CE931 31 spline 1641.99 ea

TrueTrac

The Detroit TrueTrac is a helical gear style performance differential that maximizes wheel traction and enhances driving and handling characteristics. The TrueTrac operates as a standard or open differential under normal driving conditions, allowing one wheel to spin faster or slower as necessary. Operation of the TrueTrac is smooth, quiet and automatic. The unit will engage without any driver knowledge or action required. It also has no wear parts and requires no maintenance, meaning less time in the garage and more on the road.

CE932 31 spline 1715.99 ea

Detroit Locker

Detroit Lockers is a 100% automatic locked differential that provides ultimate traction for mild to extreme vehicle applications. During straight line driving, the Detroit Locker captures 100% of available torque and sends it equally to both wheels. In turns and maneuvers, the internal components unlock to allow one wheel to spin faster or slower as necessary (free wheel). When the vehicle returns to a straight line driving path, the components re-engage and provide power to both wheel ends. Parts are maintenance free.

Note: Tires will chirp when making turns as the locker unlocks and locks.

CE933 31 spline 1741.99 ea

A7592311

9" Housing and Axle Set

These housings are designed and built to go into your muscle car with a minimal amount of effort. It is setup with the Aftermarket Brake Configuration Standard which is: 2-1/2" brake space with late model big Ford housing ends, and a 2.80 center hole in the drum or rotor. Axles include 5 x 4-3/4" bolt pattern with installed 7/16" wheel studs 1/4" thick heavy-duty bearing retainer plates, and tapered Timken Set 20 wheel bearings pressed on. Set includes the Currie "9-Plus" Housing (3" x .188 wall tubing) with brackets and 31 spline performance axle kit. These are made from USA steel in the USA.

Note: Shipped double over-size.

A7592312 1968-72 multi-leaf 1329.99 set

No-Slip Traction System

Positive Locking Differential

The Lock Right system offers a revolutionary design that is exceptionally rugged and yet ingeniously simple! Just replace the existing spider gears with a pair of Lock Right driver and coupler gears in your existing stock, open differential assembly. Installs in 1-2 hours. No extra modification or setup since the ring and pinion gears are unaffected and no special tools, calibration equipment or fixtures are needed! Made in USA.

Important: Not for use with Posi Traction or Limited-Slip differentials. See us for more information only.

High-Performance Limited-Slip Differential

Auburn Gear's high-performance series limited-slip differentials outperform standard OEM differentials delivering more traction and faster engagement for controlled power transfer and lightning fast reaction to changing load conditions. Superior performance is achieved through an innovative cone clutch design which transfers more power to the high traction wheel for quick acceleration and tight cornering. Compatible with ABS and electronic controls. Differentials are C-lock axle, Made in USA.

545003

1968-79 ECTED Max

The ECTED Max is a revolutionary traction technology product that switches between limited-slip and locker mode on the fly. When "off", the ECTED Max functions as a performance limited-slip differential. When "on", current is sent to an electromagnetic coil on a non-rotational bearing cap bolts, pulling a pilot cone into engagement with the differential case, ultimately compressing the clutch pack and creating locker solid axle assembly. ECTED gives you the advantage at the drag strip and on twisty tracks, all in 1 package.

Note: The bearing sets include: 2 Timken cones and 2 Timken cups.

Performance Differential Cover

Strengthen your 10 or 12 bolt Chevrolet rear end with a Moser Performance Cover. These 356-T6 aluminum covers are designed to reduce gear deflection to increase ring and pinion gear life as well as improve the appearance of your vehicle. The whole cover weighs only 6 lbs and includes all bolts, washers, and gaskets needed.

Aluminum Differential Cover

B&M cast aluminum rear end cover was designed to strengthen the rear end by preventing case distortion. Constructed of A356.0-T6 aluminum, this rugged unit also dissipates heat much faster than the stock factory unit to prolong the life of your ring and pinion gears. Features an engraved B&M logo, added fluid capacity for better cooling, magnetic drain plug for catching ferrous metal particles, and complete hardware.

Disc Brake Conversion Sets

Save Time with our No Hassle Assembled Brake Sets!

Busted knuckles and missing bolts are a thing of the past with CPP's new, pre-assembled brake conversion sets. With just a few tools, you can bolt on disc brake performance!

6264CBK

New! 1962-67 Disc Brake Conversion Set

1962-67 Chevrolet Chevy II/Novra 5 lug zero offset disc brake setup ready to bolt-on to your factory ball joints and tie rod ends! Sets come pre-assembled, greased and ready to go. Unlike other sets that move the front wheel position out 5/8" per side, these sets remain at the stock drum track width allowing for the most amount of fender clearance available. It takes an extreme amount of effort to stop four wheel drum brake vehicles especially in rainy conditions. This disc brake conversion will drastically reduce the braking effort needed to stop your vehicle quickly and safely in all weather and road conditions.

Important: Will not fit 4 lug Chevy II/Novra models.

Note: Shipped overweight.

6264CBK	1962-64	5 lug	699.99	set
6566CBK	1965-66	5 lug	699.00	set
67CBK	1967	5 lug	699.99	set

BK03

1968-74 Pre-Assembled Brake Conversion Set

Now you can bolt on brake performance with ease! Each set includes: fully assembled front disc brakes, including the spindle, hub, rotor, brackets, calipers, and pads. In addition, for sets with brake master and booster, the 11" booster, master cylinder, proportioning valve, and bracketry and lines are fully assembled so you can simply bolt it to your firewall! 2" drop sets include 2" drop spindles.

Important: Moves wheels out 7/16" from drum brake offset.

Note: Shipped overweight.

RB1012D

1968-74 Rear Disc Brake Conversion Set

Replace the original rear drums in your Nova with disc brakes! These rear end disc brake wheel sets are designed to bolt directly to 10 or 12 bolt rear ends and include 11" rotors, loaded calipers with built-in emergency brake, emergency brake cable, brake lines, axle hard lines, 10 and 12 bolt gaskets, and all mounting hardware. Available with plain or drilled rotors.

Important: Some modification may be required when used with C-clip eliminators.

Note: Shipped overweight.

Disc Brake Conversion Sets

BK2032D

1968-74 Stock Spindle Disc Brake Conversion Set

Improve the stopping power of your vehicle while retaining your vehicle's stock ride height! Moves the wheels out 7/16" and works with most 15" disc brake wheels. Includes: disc brake bracket set, 11" rotors, loaded calipers, spindles, dust shields, bearings, seals, dust caps, spindle nuts, hoses, and all mounting hardware. Choose from sets with or without steering arms or power brake kit, which includes proportioning valve, master cylinder, and a 9" or 11" power brake booster.

Important: Factory steering arms may need to be drilled from 7/16" to 1/2".

Note: Shipped overweight.

BB4016B

1968-74 C5 Upright Wheel Brake Set — 13" Rotors

Get the braking performance of a modern Corvette in your classic Nova! This set maintains the drum brake offset and features bolt on spindles that allow better camber change during suspension movement. The use of C5 bearing hub assemblies with their sealed bearing packs virtually eliminate spindle pin flex. These sets include: spindles, 13" slotted and drilled rotors, loaded calipers, sealed bearing packs, and mounting hardware. Choose from black or red calipers.

Important: 1968-74 Nova set uses original or CPP replacement steering arms. C5 hubs use 12 x 1.5 metric lug nuts.

Note: Shipped overweight.

BB4004R

1968-74 Big Brake Conversion Set

This big brake system uses twin 52mm piston calipers to grab massive cross drilled and gas slotted rotors to provide a 60% increase in stopping over the popular C5 caliper. Front sets are compatible with stock disc brake spindles and include 13" rotors, calipers, hoses, bearings, seals, mounting brackets, and hardware. Rear sets include 12" rotors, calipers, mounting brackets, hoses, wheel studs, hard lines, E-brake cables, and hardware. The 4 wheel set includes a 4 wheel disc manual/power master cylinder and proportioning valve. Calipers are available with a black rust inhibitive coating or powder coated red.

Important: Requires 17" or larger disc brake wheels. SOS sets contain zero offset front brake sets.

Note: Shipped overweight.

Electronic Disc Brake Conversion Sets

Remote Electric Hydraulic Pump Provides Power

- Eliminates the Bulky Original Booster**
 Gain valuable clearance in the firewall area by doing away with the unsightly, inefficient vacuum power booster. Sleek billet aluminum master cylinder takes it's place for a better appearance and performance.
- Increases Braking Pressure and Performance**
 This electronic system consistently provides 1400-2500 psi of braking pressure at the wheel, is self-contained and runs on brake fluid. Perfect upgrade for engines with low vacuum due to performance cam.
- True Bolt-on - Requires No Vacuum**
 Replaces your OEM brake master cylinder as a direct bolt on (no drilling required). Adjustable pedal rod allow for correct pedal height.

Hi-tech remote electronic pump eliminates outdated and unsightly original vacuum booster.

True bolt-on solution requires no change in spindles. Perfect setup for owners of early Chevy II models.

Eliminates firewall clutter and provides significant gains in clearance.

Sleek billet aluminum master cylinder provides for a better appearance and high-performance braking.

Electric High Power Master Cylinder

Is the big cam in your Nova causing a lack of braking, or do you have valve cover clearance issues? Classic Industries® has the answer – the most innovative system on the market today. This is a bolt-on solution that replaces your OEM brake booster/master cylinder with a compact billet aluminum master cylinder that does not rely on vacuum for power assist, and a remotely mounted power supply. The fully self-contained unit allows the master cylinder to provide between 1400 and 2500 psi. Measures: 8" long and 3-1/2" wide.

PB68741

1962-74 Electronic Disc Brake Systems

Looking for a disc brake upgrade for your 1962-63 Chevy II/Nova or a big brake system for your 1964-74 Chevy II/Nova? Classic Industries® has the answer. These solutions from ABS Power Brake are true bolt-ons and mount to your OEM brake spindles (some require 16" or larger wheels). The 1962-63 set provides an OEM size disc brake upgrade. The 1964-74 set features either 12" or 13" cross drilled and slotted rotors. The complete system includes all needed brackets and an ABS Power Brake Electric High Power Master cylinder (EHPM – provides braking capacity for cars with big cams, and additional valve cover clearance).

Chevy II/Nova Disc Brake Conversion Sets

1962-74 True Bolt-On Disc Brake Conversion Sets

- No Need for Front End Alignment**
 True bolt-on front disc brake conversion set eliminates the need for front end alignment due to spindle change.

- Easier and Quicker to Install**
 Because these sets bolt-on to your existing OEM spindles, installation time is greatly reduced.

- Greater Flexibility in Wheel Options**
 Sets for 1962-63 models are available with stock 4 lug configuration or you may upgrade to 5 lug. Later model sets have a variety of rotor sizes available for use with stock 14" diameter OE style wheels or for larger diameter custom wheels of your choice.

PB62633

1962-63 Front Disc Brake System with Booster

Looking for a bolt on front disc brake solution for your 1962-63 Chevy II/Nova? Classic Industries® has the answer. This is a true bolt-on solution from ABS Power Brake bolts to your OEM spindles. Included with the system: are all brackets needed, a new power brake booster, master cylinder, and proportioning valve so you can select the correct combination (disc/drum or disc/disc). Available as a 4 lug system (uses 14" wheel), or as an upgrade to the Chevy 5 x 4-3/4" pattern.

Wilwood Disc Brake Sets

14010996BD

14010510DR - assembled

1962-79 Ford Pro Series Front Brake Set

Wilwood disc brake sets for 1962-79 models. Each set features rotors, calipers, pads, and all hardware necessary to mount them onto stock spindles. Available with plain or drilled and slotted rotors and red or black calipers. Set features 1/2" - 20 wheel studs.

Notes: Skipped overweight.

Forged Dynalite Pro Series - 4 Piston

Includes: 11" plain or drilled and slotted rotors, forged billet Dynalite 4 piston calipers, and low dust, low noise brake pads for big brake stopping power. Provides plenty of clearance for popular 15" wheels. These sets can be used with manual or power assisted master cylinders.

Important: May fit some 14" wheels, check wheel clearance diagram in installation instructions before purchase at www.wilwood.com. Must use 1964 or later spindle on 1962 and 1963 models.

1962-78 Six Piston Big Front Brake Set

Wilwood big disc brake sets for 1962-78 models. Each set features rotors, calipers, pads, and all hardware necessary to mount them onto stock spindles. Available with slotted or drilled and slotted rotors and red or black calipers. Set features 1/2" - 20 wheel studs.

Forged Narrow Superlite 6 Series - 6 Piston

Includes: 13" or 14" rotors for non-ABS spindles, billet calipers with 6 pistons and low dust, low noise brake pads for superior stopping power. Minimum wheel diameter: 17".

Important: Some sets may require modifications to the original spindle. Must use 1964 or later spindle on 1962 and 1963 models.

Note: Skipped overweight.

AER06 Series - 6 Piston

Includes: 14" rotors, 11" tall calipers with 6 pistons, 5 bolt, triple bridge and low dust, low noise brake pads for superior stopping power. Minimum wheel diameter: 17"

Important: Must use 1964 or later spindle on 1962 and 1963 models.

Note: Skipped overweight.

Disc or Drum Spindle

14010920	1962-74	slotted rotor	2084.99	set
14010920D	1962-74	drilled rotors	2181.99	set
14010920DR	1962-74	drilled rotors - red caliper	2181.99	set

AER04 Big Rear Brake Set

AER04 Big Rear brake sets offer the perfect match for an AER06 front set. The AER04 calipers feature the same 5 bolt, triple bridge body design as the front 6 piston caliper, with smaller pistons to balance the vehicle's braking. The 14" rotors are slightly thinner than the fronts to reduce rotating mass, while providing more than adequate cooling for the rear brakes. For the ultimate in style and performance look no further than Wilwood's state-of-the-art AER04 rear big brake sets to compliment Wilwood's AER06 front big brake sets.

Important: Will not fit models with staggered shocks.

Note: Skipped overweight.

Wilwood Disc Brake Sets

Forged Pro Series Rear Brake w/ Parking Brake Set

These FDL Pro-Series Rear Disc sets provides a complete solution for rear axles that require a parking brake. Forged billet DYNALITE 4 piston calipers, 12.19" one piece drum/rotors, and high friction pads provide optimized and balanced braking for all types of custom performance street/strip and show machines. The neatly hidden internal shoe system provides a clean installation with superior static holding power for parking. Set features 1/2" - 20 wheel studs.

Forged DYNALITE Pro-Series - 4 Piston

Includes: 12.19" one piece rotors with internal parking brake drum, forged billet 4 piston calipers, high friction pads and brackets, and hardware.

Important: May fit some 15" wheels, check wheel clearance diagram in installation instructions before purchase at www.wilwood.com.

Notes: Shipped overweight.

Know Your Rear End! — Deciphering the Chevy 12 Bolt

12 BOLT CHEVY

1993-2002 CAMARO 12 BOLT-LATE

AXLE FLANGE CROSS-SECTION

Moser Compatible Wilwood Disc Brakes

Classic Industries® has worked with Wilwood to design brake sets to work with the Moser 12 bolt axle assemblies that are sold through Classic Industries®. These will be set up with the correct offset and center register (the diameter of the center flange of the axle where the rotor is installed). Sets include: either Forged DYNALITE brakes (black or red calipers) and 12" rotors (standard or drilled and slotted) or Superlite 4R Big Brake 13" rotors (standard or drilled) and (black or red calipers) and have parking brackets. Offset is 2.81" except for 1409315-D-DR which have a 2.75" offset and all have 2.78" center register.

Important: 1409215-D-DR are not designed for use with staggered shocks, factory shock mount must be moved inbound to clear caliper.

Note: Special order. Shipped overweight.

Disc Brake Conversions

Braking Performance without Breaking Your Budget? Better Get The Right Stuff!

1968-74 Four Wheel Disc Brake Conversion

Upgrade all four wheels with disc brakes in one convenient set! Choose from standard set with plain rotors and rubber hoses or a performance setup with cross drilled/slotted rotors, braided stainless steel flex lines and black powder coated calipers. A dress-up set is also available as an upgrade to the performance set, adding a chrome master cylinder and chrome booster on power brake systems.

*Note: *Booster only included in power brake sets. Shipped overweight.*

RS900114

Standard Sets Include:

- ✓ Master Cylinder
- ✓ Spindles
- ✓ Plain 11" Rotors
- ✓ Cast Iron Plain Calipers and Pads
- ✓ 2.85" Front Single Piston
- ✓ Rubber Flex Hoses
- ✓ Splash Shields
- ✓ Brackets
- ✓ Hardware and Lines
- ✓ Power Booster*
- ✓ 15" Minimum Wheel Diameter

Performance Set Adds:

- ✓ Drilled/Slotted 11" Rotors
- ✓ Cast Iron Black Calipers and Pads
- ✓ Braided Stainless Flex Hoses

Dress-Up Set Adds:

- ✓ Drilled/Slotted 11" Rotors
- ✓ Cast Iron Black Calipers and Pads
- ✓ Braided Stainless Flex Hoses
- ✓ Chrome Master Cylinder
- ✓ Chrome Power Booster*

Baer Disc Brake Sets

Baer Brakes are known for exceptional braking performance and outstanding quality. Offering many upgrade and conversion brake sets that far exceed OE equipment performance. Baer Brakes have several sets available to choose from for your specific Nova/Chevy II models, SS4+, Track 4, Pro+, Extreme+, stock GM 10/12 bolt rear end SS4 with a variety of performance levels to fit your driving conditions and

requirements. Baer Brakes also offers rear disc brake sets with the same quality and performance as the front. Baer rear systems include a unique billet backing plate that not only act as a caliper mount, but also houses the banks (1 piece) park shoe setup.

Note: Shipped overseas.

1968-74 Brake Front Disc Set

Important: *Design to be used with stock GM disc/drum spindles. Also fit DSE, Heid's, Fatman, Ridetech and LH custom drop spindles. 4301432 and 4301336 widens track 200" a side on stock drum brakes.

Note: R=Red, B=Black, S=Silver. Photo for illustration purposes only, set contents may vary. Additional parts may be needed for installation.

SS4+

This set features the S4 four piston calipers, 11" slot, drill, zinc-plated rotors, stainless steel brake hoses, fully assembled aluminum hubs, mounting brackets and hardware included. 11" 2 piece rotor SS4+.

Note: 15" minimum wheel size for 11" rotor, 17" minimum wheel size for 13" rotor. Uses common 4 piston pad (#DR1).

Stock Spindles

4301432* 1968-74 1295.99 set

Track 4

This set features the T4 four piston calipers, 13" 1 piece slot, drill, zinc-plated rotors, stainless steel brake hoses, fully assembled aluminum hubs, mounting brackets, and hardware included.

Note: 17" minimum wheel size. Uses Camaro 4th gen. front pads (#D0749).

Stock Spindles

4301381* 1968-74 1795.99 set

Pro+

This set features the 6P six piston calipers, 13" or 14" 2 piece slot, drill, zinc-plated rotors, stainless steel brake hoses, fully assembled aluminum hubs, mounting brackets, and hardware included.

Note: 17" minimum wheel size for 13" rotor, 18" minimum wheel size for 14" rotor. Uses Corvette C5/C6 front pads (#D0731).

Stock Spindles - Rotor with Hub

4301336* 1968-74 13" 2445.99 set

1967-74 Brake Combo Valves

If you need a new disc brake metering valve or want the more updated look of a brake combination valve in your 1967-70 Nova, or need a replacement for a 1971-74, these carefully machined reproduction brass combination valves are the perfect replacement solution. Will fit and function for all 1967-74 models with either factory disc/drum, disc/drum or disc/disc brake conversions. Available as a valve only or as a set including: valve, bracket and hardware or as a set including: valve, bracket, hardware, and lines.

Remaster Master Cylinder

Baer Brakes introduces the Remaster master cylinder. The Remaster is a direct replacement for GM bolt patterns. Left or right hand port configurations and compact design to make fitment easier. Master cylinders are available in these bore sizes: 1 5/16" for manual, 1" for power, 1-1/8" for hydroboost brakes. Provides the best balance between pressure and volume for great braking performance with reasonable brake pedal effort. A mount is machined into the bottom of the master cylinder for a Baer billet bracket/adjustable proportioning valve (sold separately).

STEERING, SUSPENSION, REAR END & BRAKES

Proportioning Valves

Adjustable Proportioning Valve

The next generation adjustable proportioning valve from Wilwood combines the latest refinements in manufacturing processes and materials to deliver precise pressure metering and unyielding strength from its compact and lightweight, forged billet design. Precision proportioning from 100 to 1000 psi. At full release, valve is capable of up to 57% reduction in line pressure. The new, smaller body accommodates easy mounting in a variety of locations in conjunction with two .25" diameter holes on 1.60" centers. Along with standard 1/8" NPT inlet and outlet ports and two 1/8" NPT to 3/8-24 inverted flare brake line adapters included with each valve makes installation simple.

This reproduction 1967-74 distribution block set bolts below the master cylinder. If there is ever a loss of pressure in either the front or the rear brake systems, then the distribution block seals off the non-functioning end and activates the brake warning lamp on the dash. Set includes the distribution block, mounting bolt, and mounting bracket. RE109 1967-69 front disc or drum 75.99 set RE110A 1970-74 front drum only.... 84.99 ea

1962-79 Hydraulic Brake Switch

This low pressure hydraulic brake pressure switch has a much longer life than previous models available anywhere. This unit fits most vehicles and requires 20-50 pounds pressure, instead of stock units that need 60-120 pounds pressure to engage. Standard 1/8" pipe thread (9/16"-18). This switch is DOT compliant and is compatible with silicone-based brake fluid. TF900650 1962-79..... 31.99 ea

Brake Warning Switch Socket and Wire

This socket and wire pigtail is spliced into your wire harness to provide the proper connector when using a combination valve with a plastic warning switch housing on 1977 and earlier vehicles that were originally equipped with a metal housing switch. PV1530 8.99 ea

1967-69 Brake Pressure Regulator Valve

Reproduction rear brake pressure regulator valve for 1967-69 models equipped with factory air conditioning. big block models or models with a factory 12 bolt axle. This brass valve features the correct mounting bracket and controls the hydraulic pressure to the rear brakes to evenly distribute front to rear braking force to keep the vehicle's heavy front end level under hard braking. RE104D 1967-69..... 54.99 ea

1969-71 Brake Check Valve

Reproduction of the original style hold-off brake check valve designed for use with 1969-71 Nova models with rear drum brake systems. This valve mounts on the side of the master cylinder. The proportioning valve goes in line with the front to the rear brake line. Will replace the old or worn out original valve exactly. Includes mounting bracket. 14409 1969-71 disc/drum..... 59.99 ea

1967-70 Brake Hold-Off Valve

Reproduction of original reproduction hold-off valves for 1967-70 Chevy II/Nova models with front disc and rear drum brake systems. Includes mounting bracket. RE114 1967-68 disc/drum..... 84.99 ea RE106 1969 disc/drum..... 84.99 ea RE115 1970 disc/drum..... 84.99 ea

Brake Line Sets

- Available in stainless steel or original material.
- All lines have the correct color coded fittings.
- All lines have been pre-bent for easy installation.

- Each line is machine double flared for a safe, no leak fit.
- All lines are clearly labeled for your convenience.
- Spiral wire gravel guard where required as original.

Reproduction brake lines for your early model Nova are now available in OEM material for a stock look or stainless steel material which offers a longer life span and custom look! Each set includes all the necessary components from the distribution block/proportioning valve forward. We keep a large inventory on hand for quick delivery!

Note: Some brake line sets are shipped oversize.

1968-74 Flexible Brake Lines ⚠️
 These braided steel flexible brake lines are designed to work with the Wilwood calipers on the Chris Alston subframe. Frame side fitting is 3/16" inverted flare. K6329 1968-74 flexlines..... 109.99 pr

1967-79 Stainless Steel Brake Line Sets ⚠️
 Increased stopping power, better pedal feel, and improved safety are some of the qualities you can expect with stainless steel brake lines. Eliminate "mushy brake" feel caused by rubber lines that swell under pedal pressure. These quality brake lines are subjected to a 9 step quality assurance testing process including pressure testing each line up to 3000 psi. All lines are DOT certified and T.U.V. (Germany) approved. Sets include 3 lines.

Parking Brake Cable

These cables will complete the installation of your Wilwood parking brake set. These cable sets are compatible with all of Wilwood's internal drum parking brake sets including the Dynalite, Superlite, and WAR sets. This cable will connect Wilwood's parking brake mechanism to your vehicle's OE equalizer assembly. The cables are simple to install and adjust, and the cable housing's black finish disappears under the vehicle for a clean looking undercarriage.

E-STOPP® Push Button Parking Brake

The E-Stopp® is the perfect E-brake for stock or custom vehicles. It not only frees up room on the chassis and in the cab but doubles as an anti-theft device when the button is hidden. It works with any kind of brake system that can accept an E-brake cable. Includes the actuator, the control box with switch and wire connectors. It replaces hand, pedal or lever brake and mounts conveniently under the vehicle's carriage. The E-Stopp® attaches directly to your current E-brake cable and has a micro-computer that regulates the proper amount of pressure to your braking system - it will only pull up to 600 lbs before its locked down. The detachable head button allows for an easy install and for visual and audible recognition. For safety, the brake is inoperable while the ignition is on. It can be hooked up to the parking brake warning light. Made in USA.

Recommendation: If your brake cables are old, we recommend purchasing Lokar's Universal Rear Parking Brake Cables. You have a choice of a black housing BC80B or a Stainless Steel Housing BC80. It will make the installation easier and cleaner.

Replacement Brake Parts

CB2099A

1969-79 Brake Rotor

Replacement brake rotors feature machined non-friction surfaces for better balancing, creating a cleaner, more finished looking rotor that dissipates heat effectively to provide better stopping power, especially in repeated stopping situations. Each rotor features a double disc ground finish to virtually eliminate run out thickness variations, producing a non-directional finish for better pad and rotor break-in. The 1969-70 rotors were originally a two piece design, now replaced with a 1 piece design.

Front Rotors		
CB2097A	1969-74	39.99 ea
CB2099A	1970-78	40.99 ea
CB2091A	1979	40.99 ea

CB2097DL

1969-79 Drilled/Slotted Rotor

Performance wheels and tires are best complemented with direct replacement drilled and slotted rotors. Rotors resist cracking under stress, prevent glazing of the pads, add bite, and improve wet and dry braking performance. Every rotor is produced from a high-quality casting and finished in a durable corrosion resistant coating. Specify L for left or R for right.

Front Rotors

CB2099D	1975-78	89.99 ea
CB2091D	1979	92.99 ea

RS5200

1967-74 Performance Brake Rotors

These drilled and slotted brake rotors offer great stopping power at an reasonable price. Designed for maximum pad bite and to minimize brake fade, these rotors are CNC precision cross drilled, mill slotted and silver zinc coated. Non-directional crosshatched for better break-in. Meets SAE J431 specifications. Sold in pairs.

RS5201	1969-72	rear	107.99 pr

1967-68 Four Piston Caliper Rotor

Originally equipped with a two piece rotor, the 1967-68 model 4 piston calipers require a special rotor that hasn't been available for a long time. This all new reproduction will do the same job that the original two piece units. You can continue to use your original 4 piston calipers with these special rotors. For use with 1967-68 models with disc brake. Hub outside diameter measures 6-1/2".

E231 1967-68..... 64.99 ea

1969-74

Standard Brake Rotors

These brake rotors provide great stopping power at a reasonable price. These stock style rotors are CNC precision machined and non-directional crosshatched for better break-in, Meets SAE J431 specifications. Sold individually. Fits left or right.

RS5100 1969-74..... 43.99 ea

1969-79 Slotted Rotor

Direct replacement rotors are 1 piece, slotted discs for your factory brake system. They offer improved cooling as well as a signature "short slot" design which wipes away the debris of used friction material that otherwise accumulates between the rotor and pad, keeping fresh pad material exposed to the rotor and reducing pad glazing. The edges sweeping the pad slightly increase the effective coefficient of friction, or "bite", amplifying brake system response. By providing an escape path for water, slotted rotors can also improve initial brake response under wet conditions. Choose from standard high-performance slotted or cryo high-performance slotted rotors. Specify L for left or R for right.

Standard High-Performance Slotted

Replacement Brake Parts

1969-79 Ceramic Front Disc Brake Pads

These ceramic disc brake pads are an exclusive blend of ingredients that provide the quietest and cleanest brake capabilities while delivering increased stopping power and the highest level of safety. Designed for today's drivers who want ultra quiet braking, ultra low dusting on their wheels, and exceptional durability.

CB2299C 1969-79..... 44.99 set

1969-79 Premium Brake Pads

These premium brake pads are manufactured using the same positive molding process utilized by OE suppliers. Positive molding uses extreme pressure to compress the friction material and bond it to the backing plate. This process assures consistent friction material density throughout the pad, resulting in even wear and performance characteristics throughout the life of the brake pad. These are available in 3 specialized formulas suited for varied applications and driving styles. Semi-metallic, extended wear and ceramic.

1968-79 Two Piston Brake Caliper

Direct bolt-on replacement for all 1968-79 Nova models originally equipped with the big single piston D52 pad caliper. Built to mount in the stock location with stock dimension rotors, using regular OE type or aftermarket compound replacement brake pads and fitment anywhere OE calipers were used. Forged billet aluminum caliper body reduces weight. Stainless steel pistons with high temperature bore seals minimize heat transfer and provide maximum durability. Features a 2.00" bore for 1.00" disc width.

Important: Sold individually. Will work with any factory disc brake pads, which are sold separately.

1969-79 Front Caliper Set

Wilwood's D52 Front Caliper set is a direct bolt-on 2 piston replacement for the factory original single caliper on 1969-79 Nova models. Forged billet aluminum bodies, stainless steel pistons, and competition style high temperature seals put an end to the rust, bore pitting, and seal failures that plague the OE caliper design. Vehicles 1978 and up (with M10-1.5 banjo bolts) will require new brake lines.

Note: For use on vehicles with 1.04" (width/thickness) x maximum 12.19" diameter rotors. Requires flex hose set 22011371.

Note: Fits both 10 or 12 bolt rear ends. Requires 15" or larger wheel with 5 x 4-3/4" bolt pattern.

With Splash Shields			
RE648	1968-74	424.99 set

Without Splash Shields			
RE647	1968-74	394.99 set

Features and Benefits:

- Lighter weight that make stops quicker.
- Modern metallurgy speeds up heat dissipation while using the OE cooling fin design.
- Reduced friction buildup on drum liner surface -- decreases brake fade and potential damage to the shoes.
- Aluminum composition resists corrosion and prevents rust from forming.

1964-79 Aluminum Rear Brake Drums

These aluminum brake drums are brand new units designed to outperform traditional OE cast iron brake drums. Since aluminum is a lighter material than cast iron, these brake drums provide better fuel economy as well as shorter stopping distances. These aluminum brake drums guarantee reliable performance for years to come. These replace the optional aluminum brake drums. Sold in pairs.

Important: Not for use with metallic linings. If you are replacing a cast iron drum with an aluminum drum, you must replace them in pairs.

DOT 5 Silicone Brake Fluid

Wilwood FIVE is a high-performance silicone brake fluid that features a non-hygroscopic blend that blocks the absorption of moisture from the air, preventing internal brake system corrosion. FIVE is paint friendly and will not harm finishes should a spill or leak occur. It is a fully DOT 5 compliant fluid meeting or exceeding FMVSS 116 and MIL-PRF-46176B-DOT specifications, and can be used in any vehicle that requires DOT 5 brake fluid.

29011084 12 ounce bottle 14.99 ea

Brake And Parts Cleaner

This powerful Brake And Parts cleaner quickly cuts through grease and grime, but it does not leave an oily film. This fast drying formula gets the job done while using less spray compared to watered down cleaners. Non-chlorinated.

New!

Hydraulic Assembly Fluid

Use this hydraulic brake assembly fluid to keep brake seals and o-ring properly lubricated when assembling wheel cylinders, calipers, master cylinders, and other hydraulic components. Compatible with all DOT 3 and DOT 4 brake fluids.

Important: Not for use with mineral oil systems.

CB2568 8 oz. bottle 12.99 ea

Brake Caliper/Brake Drum Paint System

Available in 11 colors, this system is the most complete brake caliper paint set available with brush-on application, high gloss finish, and the heat resistance of up to 950 degrees F! Includes: two component paint system, caliper cleaner, brush and mixing stick. Seals and protects from oils and corrosion. Choose from red, yellow, blue, silver, black, purple, green, white, gold, orange, or pink. Contains enough paint for 4 large calipers or 2 brake drums.

GM

1967-79 Stainless Rally Wheel Trim Ring

Genuine GM trim rings for Rally wheels. Each ring is produced with bright chrome finish. Due to changes in Federal Safety Regulations, attachment clips may vary in location from original stock trim rings but does not effect appearance once installed.

Important: Not for use on SS, Turbine, 5-spoke Rally wheels or Poly Cast wheels. GM offered Rally Wheels as an option on passenger cars from 1968-81 but may fit other years.

High Crown Chrome Lug Nut Set

OER® Authorized correct reproduction of the original early design 7/16" high crown acorn lug nuts used with all 1967-81 Pontiac Rally I wheels, Rally II or Honeycomb wheels. The design of the nut has been improved for longevity. Rather than having a chrome or stainless steel cap as originally designed, this nut is solid in design to prevent splitting or damaging the nut when using an impact wrench to tighten lugs.

Cast Aluminum Rally Style Wheel

The Rally is a clean, traditional hot rod wheel design. This 1 piece cast aluminum design offers better durability and weight savings over traditional steel alternatives. Features a silver powder coated face with a machined lip and 5 x 5" dual lug patterns. Fits most modern brake upgrades while accommodating to original equipment backspacing. Includes economy plastic derby center cap. Wheels also accepts alternative design caps. Sold separately.

Important: Do not use chrome aftermarket style lug nuts, they will not clear the center cap. Note: Shipped overweight.

"Launcher" Wheel

Blast down the strip with the Rocket "Launcher"! This is a front runner 10-spoke gasser wheel. The 1950's and 1960's, was the Golden Age of Drag Racing, the 10- and 12-spoke Gasser front runners could be found on everything from "run-what-you-bring" roadsters to full blown and supercharged Altered and Gassers. Back then, the 15" x 4" size fronts were only available as spindle mounts on straight axles. The Rocket "Launcher" preserves the original nostalgic Gasser design and perfects it with a much safer 5 lug bolt-on design. The Rocket Launcher is precision-crafted, designed and is tested to meet or exceed U.S. DOT Requirements and SAE Standards. Available with gray painted center and machined lip, fully polished or "As Cast".

RG156350G

RG156350P

"Igniter" Wheel

At the dawn of the hot rod age, a handful of gear heads in hopped up roadsters streaked across Southern California dry lake beds in a quest for speed and glory. Back in the glory days of vintage racing, these style 5 window kidney bean wheels could be found from the strip/street to the salt flats. Those lake beds eventually became test sites for top secret rocket planes that set world speed records. Now you can prepare your ride for launch with the style that started it all with the Rocket Igniter. This painted Salt Flats style wheel which was inspired by Vintage Drag and Bonneville Dry Lakes Land Speed Racing. Available fully polished, "As Cast" and painted gray centers with machined lip.

RN1510375P

"Injector" Wheel

As soon as Rocket released the Launcher Series "front runner" wheels, Rocket was overwhelmed by enthusiast demand for a hardcore traditional hot rod wheel that could be matched with the Launcher for the perfect staggered combo. Rocket's Scientists accepted the challenge and created this wheel to revive this classic design from drag racing's golden age. Reminiscent of the testosterone pumping Fuelie wheels of the 1960's absolutely complete the big and little combo look. Rocket Injector wheels are sculpted to perfection and hold true to the greatest era of Detroit automotive performance. Available fully polished or in its natural "As Cast" finish.

Rocket Racing Wheels

"Strike" Wheels

Fire first with the Rocket Strike! Rocket's Scientists have done it again and brought this great looking classic single rib style 5-spoke wheel from the 60's into the 21st century! The Strike offers timeless traditional styling that's sure to complement any hot rod or muscle car, whether you're planning to cruise Van Nuys boulevard or hit the drag strip. Precision-crafted from A356 aluminum and topped off with a vintage style aluminum o-ring center cap, the Rocket Strike creates an awesome vintage drag look. Available fully polished for a boulevard cruiser look or "As Cast" with a machined outer lip for a more hard core drag look.

0-100 PSI Digital Tire Pressure Gauge

PROFORM's programmable, accurate Digital Tire Pressure Gauge measures from 0-100 psi in increments of .01 psi on a backlit LCD screen. When you remove the gauge from the valve stem in NORMAL mode, the gauge will slowly count back to zero. In PEAK mode, the reading will display after removal. Features unit conversion (psi, bars and kgf/cm²), automatic OFF, and dual air bleed buttons to allow controlled pressure release. Instructions included.

Knockoff Wheel Center Caps

Rocket vintage style Knockoff fits on all on all NEW Rocket Racing Wheels from the Rocket Fuel, Booster, Igniter, Launcher, Velocity, Strike, and Injector Series wheels and are just the thing to finish off your set of Rocket wheels. Choose from polished or chrome finishes according to your wheel finish. For muscle car applications that run staggered wheels, order a pair of flat and a pair of deep angle spinners. Modern muscle booster high offset wheels and wheels 15" x 6" or narrower should run flat angle spinners.

CRAGAR

Classic Wheels

S/S Super Sport Wheel

The Cragar S/S wheel was first introduced in 1964. By 1974 the Cragar S/S had become one of the most popular wheels of the muscle car era. Because it was chrome-plated rather than polished aluminum, it held its shine and was easier to keep clean. Instead of requiring time consuming polishing, the Cragar S/S was ready to show with a simple hosing off and wiping down. Available in a variety of sizes and configurations, these wheels are now back in vogue with muscle car enthusiasts who prefer a custom look, but wish to keep their vehicle "period correct". Chrome aluminum center cap is included with each wheel. Lug nuts sold separately.

Classic Wheels

32 Series Keystone Classics

By the mid 1960's, aftermarket wheel swaps were commonplace among car enthusiasts. One of the most widely chosen aftermarket wheels available during the muscle car era was the Cragar Keystone Classic. Popular for their composite design, the chrome-plating on the Keystone Classics made them much easier to clean than aluminum or mag wheels because they required no polishing. Cleaning them was a breeze by just hosing them down and wiping them off. These wheels are now back in vogue with muscle car enthusiasts who prefer a custom look, but wish to keep their car "period correct". Brush aluminum center cap is included with each wheel. Lug nuts sold separately.

Note: Shipped overweight.

Cragar
Classic Wheels

Classic Wheels

390 Street Pro

The style of the Cragar Street Pro is reminiscent of the Halibrand Sprint which was made famous on the circle track cars of the 60's. The similarities stop there, however. Unlike the Halibrand which was made of magnesium and required constant polishing to retain its shine, the Cragar street pro is manufactured of a chrome-plated steel rim with a chrome-plated aluminum center. They clean up easily and retain their shine with a simple hosing off and wiping down. The price of original 60's era Halibrands has been pushed up by collectors and the new Halibrand wheels are also very pricey. So, if you'd like the look of a legend at about 1/4 of the price, the Cragar Street Pro is definitely the way to go. Chrome aluminum center cap is included with each wheel. Lug nuts sold separately.

Classic 200S — Daisy Wheel

One of the most popular wheels ever made by American Racing Equipment was the 200S, also known as the "Daisy Wheel". These wheels were originally cast at a foundry in Portland, Oregon until the late 1970's. The Daisy Wheel is a great alternative to the more common Torque Thrust wheel. Includes center cap.

Note: Special order, must be prepaid.

Alloy Salt Flat Special Polished

This 2 piece wheel will give your vehicle a vintage look reminiscent of the old Halibrand "kidney bean" wheels that first gained popularity with racers in the 1960's. Available in many different sizes. This wheel's center is polished with a polished outer rim. Includes center cap.

Note: Special order, must be prepaid.

Classic 200S Polished Daisy

One of the most popular wheels ever made by American Racing Equipment was the 200S, also known as the "Daisy Wheel". These wheels were originally cast at a foundry in Portland, Oregon until the late 1970's. The Daisy Wheel is a great alternative to the more common Torque Thrust wheel. Includes center cap.

Note: Special order, must be prepaid.

Custom Wheels

The Outlaw

In the 1980's the modular wheel became the hot ticket on any late 70's or 80's muscle car. The wheels were called modular because they consisted of three elements... an aluminum wheel center (in various styles), an inner rim and an outer rim. The combination of these "modules" allowed for an unlimited range of possibilities when it came to wheel specifications. The true modulares, however, were a bit pricey for the average Joe. This soon led to an influx of modular copies and 1 piece wheels built with a modular look. This modular style wheel is manufactured by American Racing. It is a 1 piece machined alloy wheel with a modular look. It comes clear coated and includes center cap. It's a good choice if you're looking for a period correct wheel design at a great price.

1 STEERING, SUSPENSION, REAR END & BRAKES

Tire & Wheel Combos

Bolt them on and go! What could be easier?

When you buy a tire and wheel package from us, you can rest assured that you are getting the best. These complete sets include 4 tires of your choice, Chevrolet Rally Wheels, tall "Derby" style Rally center caps, trim rings and valve stems... fully mounted and balanced! Your tire and wheel package will be mounted and balanced by a professional with the latest state of the art Hunter balancing equipment. For maximum ride quality, our Hunter SmartWeight balancing system analyzes the entire assembly for non-conformity issues and the result is improved ride quality.

- Complete Sets Include 4 Tires, Chevrolet Rally Wheels, Tall "Derby" Style Rally Center Caps,
- Trim Rings and Chrome Valve Stems.
- Hand Mounted and Computer Balanced to Precise Quality Control Standards for a Guaranteed True and Round Assembly.
- Scratchless Mounting, No Need to Worry About a Scratched Rim.
- Lug Centric Balancing for the Best Balance and Truest Ride.
- Static Balanced with the Unsightly Weights on the Inside of the Combo.

RADIATORS

OEER AUTHORIZED

1962-79 Restoration Radiator

CRD1423A

Made in USA

OEER[®] Authorized radiators install exactly like original. Each radiator is equipped with a new tank and core. No rebuilt! Features original style mounting brackets attached and installs as original to the radiator support. The fan shroud must be replaced if you are installing a radiator for air conditioned models on a vehicle which did not include factory air. This helps to maintain a correct fit and sufficient air flow to the engine. All radiators include a 6-month limited warranty. Made in USA.

No Exchange Required! No Core Charge!

Important: Fan shrouds, fan shroud brackets, radiator petcock, radiator cap and shroud mounting clips are available separately. Due to dimensional differences, fan shrouds are not interchangeable between air conditioned models and non-air conditioned models.

AT=Automatic Transmission, MT=Manual Transmission, AC=Air Conditioning.

Note: These are all-metal replacements for original plastic tank composite GM radiators. *Recessed side brackets. Shipped overweight.

1962-79 Aluminum Cooling System

These all-aluminum radiators are up to 40% lighter than traditional copper/brass radiators and feature high-quality aluminum welds to enhance the appearance of your car. Complete mobile cooling systems that include an aluminum radiator, aluminum radiator cap, electric fans with black shroud, aluminum vented coolant reservoir tank, aluminum fan mounting brackets, electric fan wiring harness, and all necessary installation hardware. Available in a beautiful polished finish or a non-polished finish. Dimensions listed below are the core size of the radiator.

Note: Special shipping charges apply. Shipped overweight.

Radiators

1962-79 Nova Aluminum Radiator

Constructed of 100% aluminum, these racing radiators are built using no epoxy for trouble free service. Aluminum radiators have shown to be 15% more efficient than factory copper brass type radiators. This radiator fits in the factory mounting location with predrilled brackets for easy installation. The factory fan shroud can be reused without modifications while the inlet and outlet are in the stock locations so the factory style radiator hoses can be used. As with most radiators, automatics are available with a built-in transmission cooler with the correct dimensions to use the factory transmission lines.

Important: 1962-67 crossflow radiators require modifications to mount. Transmission cooler lines must be rerouted and factory fan shroud will not fit.

Note: *SB, **SB/BB, †With automatic transmission. Shipped oversize.

1962-79 Polished Aluminum Performance Radiator

Keep your engine cool with one of these polished high-performance aluminum radiators. Manufactured from TIG welded aircraft grade aluminum with brazed aluminum cores and billet filler necks, each radiator offers high capacity cooling with lowered fins and 3/8" spacing between core tubes. Designed for direct fit installation. Radiator cap is included.

Important: All radiators have built in automatic transmission coolers and can be used in both automatic and manual transmission applications.

Note: Shipped oversize.

1962-79 Aluminum Radiators

Improve the cooling capacity of your engine with Cold-Case performance radiators for 1962-79 Nova models.

Feature an all aluminum construction that is good at dissipating heat and saving energy, with 2 oversized cooling rows, and polished stamped tanks. All Cold-Case radiators are 100% TIG welded, pressure tested, and includes OE style fittings for both automatic and manual applications. All radiators manufactured by Cold Case are guaranteed to be free from material and workmanship defects for the life of your installation. Does not include the cap, sold separate.

"Liquid Chill" Engine Coolant and Additive

Mishimoto's Liquid Chill is a universal, synthetic coolant that will provide premium cooling and protection for your vehicle. Liquid Chill protects from boil over to 265 degrees F and from freezing down to -26 degrees F, inhibits corrosion, and reduces operating temps. Made with propylene glycol base and unique poly organic additives to allow for extended life of 2+ years or 250,000 miles before needing service in gasoline applications. One gallon jugs are available in full strength formula or 50/50 blend. For up to 30 degrees F cooler over just coolant alone, the universal Liquid Chill additive is available in 4 oz. bottles.

MM13065	full strength coolant.....	67.99 ea
MM13066	50/50 mix coolant.....	43.99 ea
MM13067	additive.....	16.99 ea

J-B Weld Cold Weld

J-B Weld is a great alternative to welding, soldering and brazing. This two part system is mixed at a ratio of 1:1; it forms a permanent bond and can be shaped, tapped, filed, sanded, painted and drilled after curing. Cold weld will bond to most clean and dry surfaces and sets in 1-2 hours and will fully cure in 16-24 hours. Waterproof, petroleum, chemical, and acid resistant when fully cured. Non-toxic and temperature resistant up to 600 degrees F. Cure color is dark gray. Made in USA.

JB8265	2 x 1 oz. tubes.....	5.49 ea
JB8280	2 x 5 oz. tubes.....	15.99 ea

Super Coolant

Purple Ice is a high-performance, synthetic, radiator coolant additive. It reduces engine heat by reducing the surface tension of the radiator fluids for improved heat transfer. Purple Ice fosters optimum coolant flow by helping to prevent formation of scale deposits in the radiator. Purple Ice is recommended for any water/glycol pressurized cooling system, including those using the traditional green silicate based glycols or the newer OAT or HOAT based glycols.

RP01600	12 oz. bottle.....	11.99 ea
RP12600	case of 12 - 12 oz. bottles.....	129.99 ea

Coolant System Protector

Impurities in well water can cause rust and corrosion inside the radiator, water pump, and cylinder heads. Over time, this can lead to a loss of cooling efficiency. Joe Gibbs Driven Coolant System Protector stops the adverse effect of hard water to help prevent cooling system damage.

JG1330	12 oz. bottle.....	8.99 ea

1962-67 OE Style Radiator Cap Hollow Rivet

Authentic reproduction of the original radiator cap designed for the enthusiast who wants total originality in a reproduction cap. Features the correct cap rating along with all the correct markings as original. Long discontinued, the current GM replacement and other reproduction caps do not accurately represent the original cap. One of the features that sets OER's reproduction cap apart is the correct divot in the brass rivet in the center of the cap, just like the original. OER's reproduction is an exact replica of the original featuring correct markings as well as an accurate cosmetic appearance of the rivet in the center of the cap.

S-Blade Electric Fan

These quiet fans mount to the core and can be used to push or pull air through the radiator. The high torque motor makes these fans strong enough to replace your belt driven fan and fan clutch. The sweep style blades squeeze out the maximum air flow possible.

12-5/8" x 11-3/4" x 2-5/8" Mount
FL392 12" fan 7.7 amp, 925 cfm... 99.99 ea

FL396 16" fan 13.5 amp, 1980 cfm 158.99 ea

Sycloone Electric Fan

The amazing Flex-a-lite Sycloone electric fan is the most efficient S-Blade fan blade on the market! This quiet fan mounts to the core and can be used to push or pull air through the radiator. The higher torque (17 amp) motor produces 2500 cfm of air flow, making these fans strong enough to replace your belt driven fan and fan clutch to gain more horsepower and torque. The sweep style blades squeeze out the maximum air flow possible. 16-5/8" x 15-3/4" x 4" mount. Universal mounting brackets are included.

FL398 16" fan 131.99 ea

Black Magic S-Blade

If your vehicle is still running the factory engine driven fan, you're losing vital horsepower and not even getting the full cooling effect you should! By replacing your engine driven fan with an efficient electric unit, you can reduce unneeded drag on your engine to free up horsepower and improve your fuel economy. An engine driven fan can cost up to 17 HP to operate! This universal fit Flex-a-lite electric fan features computer engineered blades that are extremely quiet and efficient, and moves 3000 cfm of air to provide consistent cooling, regardless of engine RPM. Ring fans like this provide better blade support for impact resistance. This electric fan fits vehicles with 16" or wider radiator cores, and requires a mounting surface of 18" x 16" x 4-1/4" for an easy, bolt-in installation. Universal mounting brackets are included.

FL160 259.99 ea

Fan Switch

SPAL replacement temperature fan switch. Manufactured from stainless steel, hermetically sealed and feature a 3/8" NPT. Operating switch range 35 degrees F to 480 degrees F and max current/voltage 3 amp, 32 VDC and grounded case only.

FL210

Improves Horsepower, Extends Water Pump Life and Cools Faster!

Used as a primary fan, this unit frees up wasted horsepower and increases fuel mileage by eliminating drag caused by your standard engine mounted fan. Also increases water pump life by reducing strain on the water pump bearing assembly. When mounted in front of the radiator and used as an auxiliary fan in addition to your stock belt driven fan, this electric fan provides better cooling in any engine prone to overheating.

Single Fan - Mounted in Front of Radiator

Cooling Fan Components

New!

16" Fan Mounting Gasket

SPAL fan gasket is a specifically designed rubber gasket for use exclusively with the 16" fan line. The gasket provides an additional 1/4" clearance from the cooler core and is ideal for mounting SPAL pusher style fans.

Note: Will not fit SP2056 and SP2057.

SP2070 16" 16.99 ea

Cooling System Zinc Anode

Used in heavy-duty and marine applications to protect the cooling systems and its many components from damage due to electrolysis or coolant additive failure/breakdown. The introduction of the zinc anode will protect your cooling system from galvanic action as it "eats" the zinc rather than your cooling system. To be installed in the radiator as a replacement for the drain petcock in radiators that are equipped with a 1/4" NPT hole or any 1/4" NPT hole that is available in the cooling system.

FL32060 12.99 ea

Fan Temperature Sending Unit

The temperature sending unit screws into the side of the cylinder head or on the intake manifold to operate the Champion or Challenger Series fans.

PAINLESS

Adjustable Electric Fan Thermostat Set

This set is designed to allow a wide range of temperature adjustments for your electric fan. The adjustment knob may be used to set a precise temperature desired for fan activation. The mounting bracket is made of brushed stainless steel for good looks and durability. The complete set includes the thermostat with bracket, a 30 amp relay, a 30 amp circuit breaker for overall protection, wiring, terminals, and mounting hardware.

Specs on Adjustable Fan Thermostat:

Temp range - 32 degrees F to 248 degrees F
Accuracy: +/- 7.3 degrees F
Differential: 7.3 degrees F +/- 3.6 degrees F

Important: Temperature refers to the temp of the capillary tube, not the coolant temp.

30104	standard	86.99 set
30112	without relay	54.99 set

Electric Fan Controller

Includes a 70 amp relay and will work with your existing water temperature gauge, operating from the temperature sending unit already installed. A dedicated sending unit can be installed for applications without a water temperature gauge. Operating range of 150-250 degrees F and features fully programmable "fan on" and "fan off" temperature functions to suit any application. This also gives you the capability to leave the electric fan operating after the engine has been shut down for a user adjustable period of time. High-quality LED readout displays current temperature readings.

Important: Must use second relay, either part #DD2701 30 amp relay or DD2702 70 amp relay for dual fan or 2-speed fan operation.

DD2705	1/2" NPT sensor	14.99 ea

"Ice Box" Cooling Fan Control

Available as a dual fan 2-speed fan control unit. The sensor is simply tightened under an intake or water pump bolt. It can then be adjusted to your exact preference for on and off temperature. It is equipped with an AC Request system to turn the cooling fan on whenever the AC compressor engages (this feature does not have to be used). The dual fan control can operate two fans at different temperatures or a single 2-speed fan at different temperatures. Each unit has a fully adjustable operating range of 140-230 degrees F.

Note: With Walker 2-speed fans.

TF900635	dual control	151.99 ea
----------	--------------	-----------

Delayed Cooling System Shutdown

Timed cooling system shutdown features adjustable relays that keep power to the cooling fan and electric water pump (if equipped) when the key is shut off. This reduces the block temperature as much as possible without the risk of killing the battery. This is a timed circuit and does not use a thermostat or other fan control to operate.

TF900632	151.99 ea
----------	-----------

Cooling Fan Shutdown

This cooling fan shutdown kit shuts down your electric cooling fan above 50-60 MPH to improve engine cooling by preventing the electric fan from fighting airflow through the radiator at highway speeds. The unit is adjustable and may be overridden by using the supplied dash mounted toggle switch. This kit is designed to be installed with the supplied signal generator which must be installed into the speedometer cable.

TF900627	193.99 ea
----------	-----------

MISHIMOTO

Fan Controller Set

The Mishimoto fan controller set is applicable to any 12V electric fan and includes all necessary components for installation. Features adjustable activation from 150 to 240 degrees F and deactivates once temperatures are reduced by 10 degrees F. This controller includes a built-in AC override feature and is designed for use with 1-2 electric fans drawing a combined 25 amps or less.

Silicone Engine Coolant Plumbing Set

Build your own custom silicon radiator hose system or add onto the basic set (ZF1051) with these components! Coolant tubes are available in aluminum steel and stainless steel. Mandrel bent tubes feature beaded ends for a positive seal with the available high-quality reinforced black silicone hoses. Hoses and tubes are available in 1-1/4" to 1-3/4" diameters.

ZF1036	1-1/2" to 1-3/4" x 8"	21.99	ea

Flexible Hose Set

Ideal replacements for worn or rotted radiator and heater hoses. Non-corrosive stainless steel construction conforms to tight bends and holds shape indefinitely. Rated for high temperatures and high pressure, these ultimate radiator hose sets come complete with 1 length of stainless tubing, 2 rubber sleeves, 4 reducer inserts, 4 stainless steel hose clamps, and 2 chrome or polished aluminum end covers. Heater hose sets come with 2 (44") hoses, 4 sleeves, 4 reducers, 8 hose clamps and 4 polished or chrome end caps. Easily cuts to custom lengths, these high-quality sets will enhance any engine compartment. Choose from polished aluminum or chrome finished ends.

Note: 48" radiator hose set have double quantity of end caps, sleeves, reducers, and clamps.

1962-79 Heater Hoses

Reproduction heater hoses are available in both required lengths. These hoses can be used for nearly all applications from 1962-79.

Note: C1A, K0057, YE5210 and YE5215 may be used with small block or big block applications.

Heater Hoses - Reproduction			
C1A	1962-79	with GM markings	18.99 set
K0057	1962-79	with ribbed hose	29.99 set

Heater Hoses - Replacement			
C1	1962-79	SB (set)	20.99 set
C2	1968-72	BB (set)	17.99 set
YE5210	1962-79	5/8" x 5 feet	5.99 ea
YE5215	1962-79	3/4" x 5 feet	4.99 ea

1962-89 Radiator Overflow Hose

This is a correct replacement hose for the radiator overflow. It is produced with correct OEM style thin walled hose as original. This is an often overlooked hose which is notorious for deterioration.

B0056	1962-69	3 feet of hose	4.99 ea

Hose Clamp Pliers

This handy tool removes and installs spring tension hose clamps used on heater and radiator hoses. Adjustable tips screw in and out to fit clamps of all sizes. Ratcheting lock mechanism holds the clamp in an open position for easy removal and installation. Tips can be switched to accommodate different applications. Offset jaws allow access in hard to reach areas.

Y17100 hose clamp pliers 23.99 ea

Goodyear Belts

1962-79 Goodyear Belt

Make sure your belts are in top condition before starting off on your next road trip. Belts are inexpensive, yet they are an often overlooked component of a car's engine or daily driver... that is until something goes wrong. Don't risk the life and longevity of your engine for the sake of a few bucks. Replace your weathered belts before you are stranded due to overheating, dead battery, etc. Better yet, buy a new set to install and keep a spare set just in case you should have a broken belt while on the road with your classic vehicle.

E88513

1964-79 Performance Water Pump

These "super cooling" pumps are computer designed to deliver more flow at a higher velocity. They're the ideal choice to prevent overheating in any performance vehicle. Precision cast powdered metal impellers have extra large vanes for the maximum flow rate possible, ensuring adequate pressure and volume even at lower engine speeds. They feature a 5/8" pilot shaft. Choose from 3 popular finishes.

153654C

1964-68 High Volume Small Block Short Water Pump

High-performance, high volume aluminum water pump features balanced distribution and improved efficiency with close tolerance impellers that increase coolant flow over stock pumps. This increases the pressure within the block to help prevent hot spots and steam pockets, as well as improves coolant flow through the radiator. When used with a non-restrictive, high flow thermostat (sold separately) this pump to work to its highest capability. Available in natural aluminum, polished aluminum, or chrome.

WP12203

WP21104

1962-79 Cast Iron High Flow Water Pump

For over 20 years, Stewart Components has focused on the development and production of high-performance water pumps, resulting in innovations like special high strength castings, larger flow passages, more efficient impellers, and stronger bearings. Every pump is designed to exacting tolerances for reliable, long-term performance, offering maximum flow with minimum power consumption. These pumps deliver up to 180 gpm (gallons per minute) of coolant flow at 8000 RPM, yet consume just 2.26 horsepower at 4000 RPM! Each Stewart pump is hand assembled and tested at 10,000 RPM.

Stage 1 Cast Iron Water Pumps

These Stage 1 pumps use brand new, original equipment iron castings are internally engineered for performance and reliability. These water pumps feature a 3/4" heavy-duty bearing. Available for V-belt or serpentine belt systems.

Stage 2 Aluminum Water Pumps

These Stage 2 pumps use brand new, 356-T6 heat treated aluminum castings that are precision machined to be compatible with stock lines and brackets. These water pumps feature a 3/4" heavy-duty bearing. Available for V-belt or serpentine belt systems.

Important: These small block water pumps require the use of a high flow, modified thermostat due to the elimination of the factory bypass holes in the Stage 2 pumps. See listings below for available temperatures.

16210

1964-79 Water Pump

These high-performance, high volume water pumps feature close tolerance impellers with balanced distribution and improved efficiency that increase coolant flow up to 30% over stock pumps. This increases the pressure within the block to help prevent hot spots and steam pockets, as well as improves coolant flow through the radiator. Use in conjunction with a non-restrictive, high flow thermostat to enable the pump to work to its highest capability. High-quality steel casings, heavy-duty bearings and large diameter shafts make these pumps the top of the line in performance water pumps. Direct factory replacements equipped with all hose connections and bosses.

These components are required when trying to rebuild an original water pump designed for 1964-68 models.

WPK402 1964-68 283, 327 66.99 set

The Original Electric Water Pump Drive Set

The electric water pump drive set was designed to alleviate the power drag produced by conventional pulley drive units. A heavy-duty electric motor, turning at approximately 1500 RPM, is more than adequate to fulfill cooling needs without draining precious horsepower from the engine. This unit can be turned on and off manually, during a run, or before and afterwards, even with engine off. The set is complete with motor mounting bracket, extra long bolts, spline pulleys, drive belt, wiring, and switch. You supply the fan of your choice.

--------------------	----------

1969-78 Water Pump Pulley

Reproduction of the factory water pump pulley for 1969-78 small block and 1969-72 big block models, with air conditioning. This single groove pulley measures approximately 6-1/4" in diameter.

14546 1969-78.....	44.99 ea
--------------------	----------

Warning: concerning water pump pulleys

Stock replacement, aftermarket stamped steel or cast iron pulleys are not designed to exceed 400 horsepower or 6000 RPM. Using reproduction pulleys on engines in excess of these limits may result in catastrophic disintegration of the pulley causing severe damage to the engine, cooling system and body parts. Classic Industries assumes no liability for damages caused by improper usage of pulleys. Please be sure to install the pulley properly to avoid damages that could occur from improper installation or exceeding the recommended RPM limitations.

Water Necks

Thermostats

1966-73 Water Outlet Mounting Bolts

Correct original style water outlet attachment bolt kit featuring "WB" and "TR" head marks. Includes: one 3/8"-16 x 2-1/8" bolt with "WB" head mark, and one 3/8"-16 x 1-1/8" bolt with "TR" head mark.

1256605 1966-73 6.99 pr

1968-74 Water Outlet Attaching Stud

Originally found on 1968-74 327 and 350 engines. After years of use, the attachment stud on the water outlet can corrode or break off. Simply replace the stud by threading it into your intake manifold. 3/8"-16 threading on both ends.

1256606 1968-74 7.99 ea

High Flow Thermostat

The "Balanced Sleeve" design of these High Flow Thermostats equals out the pressure exerted on it by a high flow water pump allowing it to be solely regulated by coolant temperature. Stock thermostats tend to be held closed by the pressure of performance water pumps causing the engine to run hot and lose power. With the addition of a high-performance water pump and high flow thermostat, you can expect a temperature drop of up to 25 degrees F on drives around town.

16400 160 degrees F 27.99 ea

16401 180 degrees F 27.99 ea

Glass Thermostat Assembly

This 2" thermostat assembly allows you to see when and how far the thermostat opens on a unique gradient scale without ever removing the radiator cap. Made from billet aluminum and the same specialized heavy borosilicate glass used in steam boiler systems. Fits all small and big block Chevrolet engines that use a non-bypass type thermostat, 1955 and up. Also fits all 216-292 straight 6 engines from 1937-90. Made in USA.

Important: Index pointer and gradient scale are only included in sets with thermostat.

Note: Bolts not included.

AR13741 12 point 11.99 set

AR13742 Hex head 11.99 set

Stainless

AR43741 12 point 10.99 set

AR43742 Hex head 9.99 set

Water Outlet Restrictors

If coolant travels too fast, it doesn't absorb enough heat inside the engine or properly cool down as it passes through the radiator. That's why it is still important to restrict coolant flow in applications where a thermostat isn't desired. These restrictors come in a set of three with a 5/8", 3/4", and 1" hole to allow adjustment for optimum cooling. Each 2-1/8" plate is made from anodized aluminum and fits under the water outlet in place of the thermostat.

Keep Your Nova COOL

with Vintage Air Gen-IV "Fly-by-Wire"
"No Cable/Vacuum Hose" AC Systems

The Gen-IV systems feature all electronic controls requiring no cables, capillary tube or vacuum connections. They are truly "fly-by-wire" systems that use separate heating and cooling coils for superior performance. The internal air control doors are servo operated to provide infinite dash, floor and defrost blending.

961166

Gen-IV SureFit Climate Control Features:

- Evaporator/Heater/Defroster Assembly
- Electronic Heater Control Conversion
- All Ducts and Vents
- Super Flow Condenser
- Sanden Compressor
- Compressor Mounting Brackets
- All Hoses, Lines, Brackets, and Hardware
- Dryer
- Stamped Steel Fresh Air Cover
- Complete Set of Instructions

New!

1962-74 Gen-IV™ System

The Gen IV is Vintage Air's most powerful and intelligent climate control system, engineered specifically for each vehicle to install with minimal modification. Gen IV even lets you use factory controls to operate its fully electronic microprocessor system that eliminates unnecessary cables, capillary tubes, and vacuum connections. This system offers infinitely variable dash/floor/defrost blend and uses separate heat and cooling coils provide great performance and instant adjustment. Includes: Super Flow condenser, compressor, mounting brackets, dryer, safety switch, preformed aluminum lines, firewall cover plate and all mounting hardware, everything you need to give your 1962-74 Chevy II/Nova a modern AC and heating system. The Gen-IV is offered as a complete set or an evaporator set with everything needed for the inside of your vehicle. These units are made for your specific vehicle and are non returnable. Allow 3-4 weeks for delivery.

Important: R134A refrigerant only. Some installations may require additional engine pulleys not included with sets. V-halts not included.

Note: Shipped overweight.

- Dehumidified defrost with dash/floor blend
- Infinite blower speed

1962-74 Sure Fit Climate Control Kits for Serpentine Drive

This Sure Fit Climate Control kit includes everything you need, and nothing you don't! It was designed specifically for those who have upgraded their motor with a serpentine belt drive system and do not need a compressor and mounting brackets. You still get the same evaporator assembly, fly-by-wire controls, condenser, dryer, safety switch, firewall plate, and preformed aluminum lines as in the complete set. These kits are designed to install with minimal drilling and no fabrication required. Be sure to order the adapter kit required for your compressor.

Important: Refrigerant is not included.

Note: Special order.

Air Conditioning

1962-79 Aluminum AC Compressor

This is a 10 cylinder "bolt-in" direct replacement for the GM Fridgidaire/Harrison A6 compressor. This new design is specifically engineered to fit the A6 mounting brackets and AC hose assemblies. This highly efficient compressor offers a smoother, quieter operation, creating less vibration and engine drag, increased fuel mileage, improved engine and cooling system performance. The aluminum body is 52% lighter than the original A6. Designed to accept both superheat and high pressure safety switches. This compressor is supplied with a single groove clutch and has a 210cc displacement. Compressor is pre-oiled and compatible with R12 or R134a. Fits 1962-79 Chevy II Nova models with the A6 Compressor. Includes hardware and instructions.

Quality reproduction of the inner half of the air conditioning outlet case core box. A commonly broken item due to the replacement of an engine or the installation of headers. If your Nova was originally equipped with AC, you can almost count on the fact that your case assembly is either missing or damaged. Be sure to check the original for cracks or damage when replacing or repairing your air conditioning system. This item is more commonly known as the air conditioning suitcase assembly.

Note: Outer half currently not available.

CHEVROLET PERFORMANCE
VEHICLES / PARTS / ACCESSORIES

Levels of Assembly
to Choose from . . .

Partial:

Partial engine assemblies typically include, block, crank, connecting rods and pistons allowing the builder to add their own end and manifold of their choice to complete the build the way they want it!

Base and Base+:

Base engine assemblies typically include, block, crank, pistons, cam, heads, and valve covers, but allows the builder to pick the carburetor/injection system and intake manifold they desire. Base+ engines include an intake manifold and on select models, a distributor as well.

Deluxe:

The deluxe crate engines are essentially ready to fire up, as they ship with the distributor installed, harmonic balancer bolted on and the carburetor in the crate. All you need to do is put the parts together and go!

Turn-Key:

We told our engineers to have some fun and assemble engines the way they think it should be done. . . we then took their combinations, built them up and put them in a crate that ships right to your dealer. The Turn-Key engines represent an outstanding value, and they are perfect for enthusiasts who have built a chassis and need reliable power to get it down the road.

Chevrolet Performance Crate Engines

Chevrolet Performance, the pioneer in factory-engineered crate engines offers approximately 50 crate engines, including small block, big block, LS, LT, LSX, and E-Rod engines, offer nearly limitless possibilities for new-school and old-school projects, as well as race cars. Additionally, our engine accessories, transmission components, and controllers help take the guesswork out of powering your project. Our E-ROD emissions compliant systems make several of our crate engines legal for installation in millions of pre-1996 vehicles in California. More than choice, Chevrolet Performance are factory designed and engineered to the same standards as production vehicle components, while additional supplied parts and accessories meet the same rigorous standards. That means you can trust the parts will fit and perform like they were factory installed.

Important: Not for use in pollution controlled vehicles. Computer controlled vehicles may need updated chips or other modifications.

Note: For a limited time, this item ships only \$0.01 (one cent) to any address within the contiguous USA! Add item # LG65 for liftgate service. An additional fee is required for liftgate service on a residential delivery.

Features a 24-Month / 50,000 Mile Limited Warranty!

383ci Stroker Crate Engines

When it comes to cranking series torque from the classic small block, it's hard to beat the 383 stroker combination, which uses a long 3,800 inch stroke with 4,005 inch bores to generate exceptional low end pulling power and high RPM horsepower. Chevrolet Performance's stroker crate engine is designed for optimal performance where more torque and power are what you are looking for. It features Vortec iron heads with 64cc chambers, and 1.940 intake valves - over 1,500 inch exhaust valves. Your choice of partial engine without heads, or Base+ engine with intake manifold. Has right side dipstick.

383/435HP w/Aluminum Heads

The 383's stroker crate engine is designed for optimal performance where more torque and power are what you are looking for. It features lightweight aluminum cylinder heads based on the proven Fast Burn design, with large intake runners and 2.001.55 inch valves. Revvie style valve springs enable great high RPM performance and durability, allowing the SP383 to rev higher and build more horsepower. The result is 435 exhilarating horsepower and 445 ft lb of seat tugging torque. Like all of our 350 based crate engines, it is built with a cast iron block with four bolt mains. It also features a forged steel crankshaft, an aggressive hydraulic roller camshaft and a high flow aluminum intake manifold. Use the Holley 770 cfm 4 barrel carburetor (part #19170093) to achieve the listed horsepower and torque ratings.

The Ultimate ZZ 350-based Crate Engine from Chevrolet Performance!

Chevrolet Performance's ZZ6 is one of the most powerful 350 based crate engines in the more than 25 year history of the ZZ crate engine lineup. It uses aluminum Fast Burn cylinder heads equipped with LS style breathe valve springs for great high RPM performance. Choose from our carbureted designs rated at 405HP and 406 ft lb of torque, or our EFI equipped engines that are rated at 420HP and 408 ft lb of torque. . . more than any Gen I small block engine ever offered in a production Chevrolet muscle car or Corvette! Chevrolet Performance's ZZ6 EFI crate engine blends the timeless style of the classic 350 small block with modern, electronically controlled port fuel injection. The key is the unique induction system, which features port injectors mounted on an aluminum intake manifold that has the appearance of a carbureted intake. A fuel injection throat body mounted in place of the carburetor allows a traditional air cleaner to be installed on the engine. The ZZ6 uses an aggressive hydraulic roller camshaft that supports the engine's high RPM airflow capability while maintaining excellent low speed drivability. A simple "Plug and Play" control system rounds out the EFI package to get the engine running in your production without the need for third party tuning.

LSX454

A 454 with the latest technology! Lighter and more compact than an original big block 454, delivers an output of 627HP and 586 ft lb, but requires no more space under the hood than a production LS engine. All-forged, super tough rotating assembly and features a pair of our deep breathing LSX 6 bolt heads, includes orange powder coated valve covers with engraved "LSX454" logos.

G13172 LSX454..... 12,148.99 ea

LT Series Performance Engines

LT1 6.2L Crate Engines

Introduced on the seventh generation Corvette Stingray, the LT1 6.2L opened the next chapter in the long, historic legacy of the small block engine – and gives your project vehicle a high tech fiber transplant with an unprecedented balance of performance and efficiency! The LT1 is architecturally similar to the LS family of engines, but with a unique block casting, cylinder head design, oiling system and more. It also combines advanced technologies including direct injection, Active Fuel Management (cylinder deactivation) and continuously variable valve timing to support an advanced combustion system. Our LT1 6.2L crate engine is rated at 455-460 horsepower and 455-465 ft lb of torque, and it is offered with a wet sump oiling system. A controller specially designed for retrofit application using an automatic transmission is available.

Note: Chevrolet Performance control kits do not utilize the AFM components on this crate engine.

Installation Notes:

- Engines shipped with high-pressure direct-injection fuel pump installed
- Assembly does not include any electronics
- Use LT1 Controller Kit, P/N 19303137 for engine operation. Kit includes electronic throttle pedal, which is required for throttle input to the ECU
- Intended for pre-1976 street vehicles, or any off-road vehicle
- Not intended for marine applications
- Front-End Accessory Drive Kit, P/N 19329900, can be ordered separately
- For LT1 G13165 (GM P/N 19355405) use P/N 12678595 FEAD w/o air and P/N 12678596 AC add-on kit
- 8 bolt crankshaft flange
- Shipped with 14" flexplate

LT4/650HP Crate Engines

As the heart of the Corvette Z06, the supercharged LT4 6.2L SC is the most powerful engine ever offered in a regular production Chevrolet. It features a more efficient, more compact 1.7L Eaton R1740 TVS supercharger, which spins at up to 20,000 RPM. That's enough to generate more than 9 pounds of boost and help produce 650 horsepower and 650 ft lb of torque. The LT4 is based on the same Gen 5 small block architecture as the LT1 engine, with several unique features designed to support its higher output and the greater cylinder pressures created by forced induction. They include Rotocast A356T6 aluminum cylinder heads that are stronger and handle heat better than conventional castings, lightweight titanium intake valves and stronger forged aluminum pistons. Your choice of dry sump or wet sump versions.

Remanufactured Engines

All of ATK's manufacturing facilities have achieved both QS-9000 and ISO 9001 certification levels, one of the few engine manufacturers in the world to have done so. In addition,

ATK's parent company VEGE Motoren has also achieved ISO 9001 certification. This is particularly significant as it represents both an engineering and a manufacturing certification.

There are over 150 processes involved in remanufacturing an ATK engine. Featured procedures include:

- Engine blocks magnafluxed, bored, precision honed and mains line honed
- Camshaft bearings line-bored for accurate center-to-center clearance
- Engine blocks and cylinder heads precision surfaced.
- Cylinder heads magnafluxed and machined for three angle valve seats
- Crankshafts stress relieved, precision ground and micro-polished
- Camshafts precision ground or replaced with new
- Each engine tested (most hot run tested) for compression, oil pressure, oil leaks, engine noise and general operating condition before shipment.

ATK Remanufactured Engine Warranty Information:

At Classic Industries®, we know that supplying a great product is only part of the job. The staff at ATK is made up of dedicated professionals whose only job is to support you, the Classic Industries® customer. From the moment you call on ATK, whether to request technical assistance, or inquire about their warranty, they are dedicated to providing solutions and support. That's the ATK promise. Classic Industries® and ATK have always been leaders in innovation, offering products, warranties and programs that have redefined the industry. That leadership is evident in our products and our support. ATK warrants to the original purchaser that each engine sold by Classic Industries® shall be free of defects in material and workmanship under normal use and with periodical maintenance as set forth by the original manufacturer subject to the following terms and conditions.

Definitions:

Engine: As used in this warranty refers to the remanufactured assembly (basic block, cylinder head and internal components) as supplied by ATK.

Term: Standard Warranty: This warranty shall exist for 3 years and unlimited miles. Warranty term begins on date of installation.

The Standard Warranty applies to all ATK products with the following exceptions: Diesel Engines carry a warranty term of 12-months or 12,000-miles whichever occurs first. Trucks Over 11,000 GVW (Gross Vehicle Weight) carry a warranty term of 12-months or 12,000-miles whichever occurs first.

Motorhomes: Class A or Motorhomes over 11,000 GVW are NOT COVERED by the ATK Warranty. ATK expressly does not offer engines for these applications. Please be aware that only engines designed expressly for large motorhomes should ever be used in such an application. ATK does not catalog nor prepare engines for these applications and therefore takes no responsibility when an ATK engine is used in this manner.

Product Replaced Under Warranty:

Product replaced under warranty carries the remainder of the original product's warranty term.

Standards:

Subject to the limitations listed herein, ATK, at its option, shall repair or replace a product within the warranty term after determination by ATK that the product is defective. All products are to be returned to ATK for inspection. Products not returned to ATK will not be warranted. All repairs and/or replacements covered by this warranty must be authorized by ATK. Unauthorized repairs will not be paid.

Limitations:

This warranty applies to products originally supplied by ATK. This warranty does not apply to or include any of the following:

- A. Damage as a result of OVERHEATING, LACK OF LUBRICATION or CONTAMINATION.
- B. Damage resulting from PRE-IGNITION or DETONATION. This includes but is not limited to: melted or broken pistons, broken piston rings, damaged cylinder heads, leaking head gaskets, etc. For more information regarding pre-ignition and detonation please contact our Customer Service Department.
- C. Repair or replacement required as a result of any accident or misuse.
- D. Repair or replacement of any accessory or service item, including specifically but not limited to: all components of the cooling, fuel, electrical and ignition systems in addition to all belts, hoses, and filters.
- E. Any product used for competition racing or related purposes.
- F. Any product to which a device or accessory not conforming to original manufacturer's specifications has been installed.
- G. Any product on which periodic maintenance services required by the original manufacturer have not been performed.

Limited Liability:

ATK's liability under this warranty is limited solely to the repair or replacement of defective product. ATK shall not be liable for any incidental, special, consequential or exemplary damages, including but not limited to rental cars, towing fees or for any service not expressly provided for herein, relating to or arising from the ATK product.

Limited Warranty:

This warranty is given in lieu of all other warranties, expressed or implied, including any warranty of merchantability, or fitness for a particular purpose, on the part of ATK or the dealer installing the engine. No dealer nor any agent or employee thereof, is authorized to extend or modify this warranty.

Labor Payments:

ATK authorized repairs will be compensated at a rate not to exceed 100% of the applicable flat rate schedule as published by Chilton, Mitchell or Motors Repair Manuals. Hourly rates for all authorized labor claims will be paid in accordance with the original installation rate, not to exceed \$42.00 per flat rate hour. Do-it-yourself repairs, and repairs performed by unlicensed repair facilities, will be paid at a rate not to exceed \$15.00 per flat rate hour.

Additional Owner/User Obligations:

Initial Startup: Valves must be readjusted to manufacturer's specifications. Due to various component designs, cylinder head torque may or may not be required in your particular application. Refer to factory shop manual for the proper procedure for your engine type. If for any reason you are unsure what action to take please contact our Customer Service Department via our Toll Free telephone number. First Service Between 600-1000 Miles After Installation: Oil and oil filter must be changed, valves readjusted and cylinder head retorque (refer to initial startup instructions). Failure to perform these basic operations may result in a voided warranty.

Classic Industries® & ATK Team up to Bring You The Best Remanufactured Engine in the Industry!

ATK is dedicated to continual improvement in the processes and procedures for every engine that they manufacture. This insures our ability to offer the very latest products and the highest quality remanufactured units in the industry. Their manufacturing techniques have been perfected to the point where they now offer us increased capacity, thus resulting in lower pricing on many applications. With an industry leading warranty, ATK is now our

top engine supplier. We are dedicated to distributing the highest quality engines in the market. We're also dedicated to setting the industry standard in customer service. We believe that once you've experienced the quality of ATK products, you'll agree there is no better engine source than ATK from Classic Industries®. Call today for complete details.

Note: All engines come without valve covers, timing cover and oil pan unless otherwise noted. Shipped anywhere in the Continental United States for a nominal fee of just \$50.00.

Introducing ATK's No Fault Gold Warranty Program.

An added protection program that covers car rental, towing, an increased labor rate and fluids on all approved claims.

The No Fault Gold Warranty Program Includes:

Rental Car up to \$150!

Rental car expense reimbursed for 5 days/\$30 per day up to \$150

Towing up to \$100!

Towing reimbursed on approved claims up to \$100 per occurrence.

Increased Labor Rate Up to \$95 per hour

Increase labor rates to cover approved repairs up to \$95 per hour

Fluids Up to \$25!

Cost of fluids is reimbursed on approved claims up to \$25

ATK now offers the No Fault Gold Warranty Program for you to purchase in addition to the Industry Leading standard ATK warranty already included with our remanufactured engines. This added protection policy covers expenses not included in ATK's standard warranty. Coverage is based on hourly rates established by Chilton, Motor and Mitchell manuals.

Note: All engines listed with an asterisk () are subjected to the POWERTEST standards of ATK thru engine specifications, including compression, oil pressure, temperature, power, leaks, engine noise and general operating conditions before shipment.*

ATK No Fault Gold Warranty Program is an additional \$225.00

	Rental	Towing	Max. Hourly Labor Rate
 NO Fault Gold Warranty Program	YES	YES	Up to \$95
 Standard ATK Warranty	NO	NO	Up to \$50

How does the core charge work?

Upon ordering, you will be charged the retail price of the engine plus the core charge. When your engine arrives, you will save the crating that it is shipped in, so that you can use it to package your core. Once the core is ready to ship, you will call ATK for core pickup. ATK will then inspect the core to make sure it meets the following criteria. Providing the core meets all of the criteria, you will be refunded the core price.

Core Policy:

- All fluids must be drained prior to core return.
- Cores must be complete and in rebuildable condition.
- Core returned must be identical to the engine purchased in size and application.
- ATK reserves the right to refuse any core that has been modified or altered.

Note: Core prices can fluctuate according to supply, demand and availability. If you plan to return a core for credit, please confirm the core price with your salesperson prior to ordering.

Hi Performance Crate Engines from ATK

ATK has been building engines for over 75 years and has assembled a line of dyno-proven crate engine packages to power up your car. Classic Industries' dedication to bringing the highest quality products on the market, combined with ATK's industry leading warranty make these Chevy ATK crate engines an obvious choice. Available in various configurations including a complete, "Ready-to-Run" package for those who want to bolt their engine into their GM muscle car and hit the road. For the ultimate in Chevy crate engines, there's no better source than ATK from Classic Industries®.

Important: Not for use in pollution controlled vehicles. Computer controlled vehicles may need updated chips or other modifications
Note: Special order, prepaid only. Not eligible for No Fault Gold Warranty Program.

Features a 24-Month/Unlimited-Mile Warranty!

Three Stages of Performance!

From Tried-and-True ...

Stage 1:

The ATK Stage 1 package is the basic building block of performance. Each Stage 1 motor comes with oil pump, oil pan, timing cover, and valve covers installed. Choose your own intake, fuel system, and ignition components.

Stage 2:

The ATK Stage 2 package builds on the basics of the Stage 1, adding the distributor, a performance intake manifold, water pump, flexplate, and harmonic balancer. Add the carburetor and spark plugs and ignition wires of your choice.

Stage 3:

The ATK Stage 3 package is high-performance in a crate, with oil pan and pump, spark plugs and wires, timing and valve covers, distributor, performance intake manifold, carburetor, fuel pump, water pump, flexplate, and balancer all preinstalled.

Stage 1 Performance Engines

350/292HP TBI

The 350ci TBI engine produces 292 HP and 373 lbs of torque in a late style hydraulic roller block. Includes: oil pump, black painted oil pan and chrome timing cover and valve covers installed. Just add your own fuel and ignition components.

Note: Price includes a core charge of \$310.00.

Specifications:
HP: 292
Torque: 373
Engine Type: Chevy small block V8
Displacement: 350ci
Block: 4 bolt main
Crankshaft: OE 1 piece seal
Bore/Stroke: up to 4.030 x 3.480
Rods: powder metal
Pistons: hypereutectic
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: .435 in x .462 ex
Duration @ .50: 198 in x 210 ex
Cylinder Heads: OE cast iron TBI
Chamber Size: 67cc
Valve Size: 1.94 in x 1.50 ex
Intake Runner Volume: OE
Compression Ratio: 9.6:1
Rocker Arms: 1.5:1 stamped steel
Recommended Fuel: 92 octane
Ign. Timing: 36 degrees total advance
Max RPM: 5800
HP31 350/292HP..... 3236.99 ea

350/351HP

Vortec

The 350ci Vortec engine produces 351 HP and 400 lbs of torque when used with a performance carburetor and manifold combination. Includes: oil pump, black painted oil pan and chrome timing cover and valve covers installed. Just add your own fuel and ignition components.

Important: Not intended for EFI.

Note: Price includes a core charge of \$310.00.
Specifications:
HP: 351
Torque: 400
Engine Type: Chevy small block V8
Displacement: 350ci
Block: 4 bolt main/roller
Crankshaft: OE 1 piece seal
Bore/Stroke: 4.030 x 3.480
Rods: powder metal
Pistons: hypereutectic
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: .495 in x .502 ex
Duration @ .50: 220 in x 224 ex
Cylinder Heads: OE cast iron Vortec
Chamber Size: 64cc
Valve Size: 1.94 in x 1.50 ex
Intake Runner Volume: OE
Compression Ratio: 9.6:1
Rocker Arms: 1.5:1 stamped steel
Recommended Fuel: 92 octane
Ign. Timing: 36 degrees total advance
Max RPM: 5800
HP32 350/351HP..... 3343.99 ea

383/320HP TBI Stroker

This 383ci TBI stroker engine produces 320 HP and 395 lbs of torque with an upgraded hydraulic roller cam. Includes: oil pump, black painted oil pan and chrome timing cover, and valve covers installed. Just add your own fuel and ignition components.

Note: Price includes a core charge of \$310.00.

Specifications:
HP: 320
Torque: 395
Engine Type: Chevy small block V8
Displacement: 383ci
Block: 4 bolt main
Crankshaft: 4 bolt modular steel 1 piece seal
Bore/Stroke: 4.030 x 3.750
Rods: 4340 I-beam
Pistons: hypereutectic
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: .435 in x .462 ex
Duration @ .50: 198 in x 210 ex
Cylinder Heads: OE cast iron TBI
Chamber Size: 67cc
Valve Size: 1.94 in x 1.50 ex
Intake Runner Volume: OE
Compression Ratio: 9.5:1
Rocker Arms: 1.5:1 stamped steel
Recommended Fuel: 92 octane
Ign. Timing: 30 degrees total advance
Max RPM: 5800
HP05 383/320HP..... 4318.99 ea

350/375HP with Alum. Heads

Produces 375 HP and 415 lbs of torque with the help of Pro-Fliter aluminum heads and a hydraulic roller cam. Includes: oil pump, black painted oil pan and chrome timing cover, and valve covers installed. Just add your own fuel and ignition components.

Note: Price includes a core charge of \$310.00.

Specifications:
HP: 375
Torque: 415
Engine Type: Chevy small block V8
Displacement: 350ci
Block: 4 bolt main/roller
Crankshaft: OE 1 piece seal
Bore/Stroke: 4.040 x 3.480
Rods: powder metal
Pistons: hypereutectic
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: .528 in x .536 ex
Duration @ .50: 220 in x 224 ex
Cylinder Heads: Pro-Fliter aluminum
Chamber Size: 64cc
Valve Size: 2.02 in x 1.60 ex
Intake Runner Volume: 195cc
Compression Ratio: 10.0:1
Rocker Arms: 1.6:1 steel
Recommended Fuel: 91 octane
Ign. Timing: 36 degrees total advance
Max RPM: 5800
HP89 350/375HP..... 3860.99 ea

383/378HP Vortec Stroker

This 383ci Vortec stroker performance engine produces 379 HP and 461 lbs of torque when used with a performance carburetor and manifold combination. Includes: oil pump, black painted oil pan and chrome timing cover and valve covers installed. Just add your own fuel and ignition components.

Note: Price includes a core charge of \$310.00.

Specifications:
HP: 379
Torque: 461
Engine Type: Chevy small block V8
Displacement: 383ci
Block: 4 bolt main/roller
Crankshaft: 4 bolt modular steel 1 piece seal
Bore/Stroke: 4.030 x 3.750
Rods: Cast 4340 I-beam
Pistons: hypereutectic
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: .495 in x .500 ex
HP33 383/379HP..... 4572.99 ea

Duration @ .50: 220 in x 224 ex
Cylinder Heads: OE cast iron Vortec
Chamber Size: 64cc
Valve Size: 1.94 in x 1.50 ex
Intake Runner Volume: OE
Compression Ratio: 9.5:1
Rocker Arms: 1.5:1 stamped steel
Recommended Fuel: 92 octane
Ign. Timing: 36 degrees total advance
Max RPM: 5800

ENGINES & COMPONENTS

Hi Performance Crate Engines from ATK

Stage 2 Performance Engines

Stage 3

350/408HP with Alum. Heads

This 350ci engine produces 408HP and 414 lbs of torque on pump gas with the help of Edelbrock Performer intake manifold and aluminum heads. Includes: an oil pan, valve covers, timing cover, distributor, intake manifold, water pump, flexplate, and balancer installed.

Note: Price includes a core charge of \$310.00.

Specifications:
HP: 408
Torque: 414
Engine Type: Chevy small block V8
Displacement: 350ci
Block: 4 bolt main/roller
Crankshaft: Scat nodular steel 1 piece seal
Bore/Stroke: 4.030 x 3.480
Rods: Scat 4340 I-beam
Pistons: hypereutectic
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: 528 in x .536 ex
Duration @ .50: 220 in x 224 ex
Heads: Edelbrock aluminum
Chamber Size: 119cc
Valve Size: 2.02 in x 1.60 ex
Intake Runner Volume: 185 cc
Compression Ratio: 10:1.1
Induction: carbureted
Recommended Fuel: 92 octane
Ignition Timing: 36 degrees total advance
Max RPM: 5800
HP34M 350/408HP... 5772.99 ea

383/429HP Alum. Head Stroker

This 383ci stroker engine produces 429 HP and 459 lbs of torque on pump gas with the help of an Edelbrock Performer manifold and aluminum heads. Includes: an oil pan, valve covers, timing cover, distributor, intake manifold, water pump, flexplate, and balancer installed.

Note: Price includes a core charge of \$310.00.

Specifications:
HP: 429
Torque: 459
Engine Type: Chevy small block V8
Displacement: 383ci
Block: 4 bolt main/roller
Crankshaft: Scat nodular steel 1 piece seal
Bore/Stroke: 4.030 x 3.750
Rods: Scat 4340 I-beam
Pistons: KB forged
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: 528 in x .536 ex
Duration @ .50: 220 in x 224 ex
Heads: Edelbrock RPM aluminum
Chamber Size: 70cc
Valve Size: 2.02 in x 1.60 ex
Intake Runner Volume: 185cc
Compression Ratio: 10:0.1
Rockers Arms: 1.6:1 roller tip
Recommended Fuel: 92 octane
Ign. Timing: 36 degrees total advance
Max RPM: 5800
HP36M 383/429HP... 5772.99 ea

454/525HP Big Block

This 454ci engine with performance aluminum heads produces 525 HP and 550 lbs of torque on pump gas. Includes: an oil pan, valve covers, timing cover, distributor, intake manifold, water pump, flexplate, and balancer installed.

Note: No mechanical fuel pump provision. Price includes a core charge of \$450.00.

Specifications:
HP: 525
Torque: 550
Engine Type: Chevy big block V8
Displacement: 454ci
Block: OE/Block 1991-95 GenV 4 bolt main
Crankshaft: OE ext externally balanced
Bore/Stroke: 4.310 x 4.000
Rods: OE steel 6.135" stock bolts
Pistons: hypereutectic
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: 595 in x .601 ex
Duration @ .50: 225 in x 235 ex
Heads: Edelbrock aluminum E-Street
Chamber Size: 110cc
Valve Size: 2.19 in x 1.88 ex
Intake Runner Volume: 290cc
Compression Ratio: 10:1.1
Rockers Arms: 1.7:1 full roller
Recommended Fuel: 92 octane
Ignition Timing: 34-36° total advance
Max RPM: 5800
HP451PM 454/525HP 7462.99 ea

383/480HP Stroker

This 383ci street/strip stroker engine with 480+ HP and 470+ lbs of torque in a "Ready-to-Run" pump gas package. Includes: oil pan, timing cover, valve covers, distributor with spark plugs and wires, a performance intake manifold, performance carburetor, fuel pump, water pump, flexplate, and balancer all preinstalled.

Note: Price includes a core charge of \$310.00.

Specifications:
HP: 480+
Torque: 470+
Engine Type: Chevy small block V8
Displacement: 383ci
Block: 4 bolt main/roller
Crankshaft: Scat 4340 forged
Bore/Stroke: 4.040 x 3.750
Rods: Scat 4340 H-beam
Pistons: forged
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: custom
Duration @ .50: custom
Cylinder Heads: Pro-Filer aluminum
Chamber Size: 61cc
Valve Size: 2.02 in x 1.60 ex
Intake Runner Volume: 195 cc
Compression Ratio: 10:1.1
Rockers Arms: 1.6:1 full roller
Induction: carbureted
Recommended Fuel: 92 octane
Ignition Timing: 36 degrees total advance
Max RPM: 5800
HP55C 383/480HP... 8289.99 ea

Stage 3 Performance Engines

540/600HP Dart Big Block

This ATK Monster Stage Three 540ci Dart Big "M" engine produces over 600 HP and 600 lbs of torque in a dyno tested and tuned package. All Stage Three motors are now proven, built from top quality parts and come with oil pan, timing cover, valve covers, distributor with spark plugs and wires, a performance intake manifold, performance carburetor, fuel pump, water pump, flexplate, and balancer all preinstalled.

Specifications:
HP: 600+
Torque: 600+
Engine Type: Dart Big "M" Block V8
Displacement: 540ci
Block: Dart 9.8" deck height
Crankshaft: Scat 4340 forged steel
Bore/Stroke: 4.500 x 4.250
Rods: Scat H-beam
Pistons: forged
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: custom
Duration @ .50: custom
Heads: Dart Pro Series 1
Chamber Size: 119cc
Valve Size: 2.23 in x 1.88 ex
Intake Runner Volume: 325cc
Compression Ratio: 10:1.1
Rockers Arms: 1.7:1 full roller
Induction: carbureted
Recommended Fuel: 92 octane
Ignition Timing: 36 degrees total advance
Max RPM: 5800
HP42C 540/600HP... 12,998.99 ea

Supercharged 350/500HP

This 350ci supercharged engine produces 500+ HP and 494 lbs of torque in a "Ready-to-Run" package. Includes: oil pan, timing cover, valve covers, distributor with spark plugs and wires, a performance intake manifold, performance carburetor, fuel pump, water pump, flexplate, and balancer all preinstalled.

Note: Price includes a core charge of \$310.00.

Specifications:
HP: 500+
Torque: 494
Engine Type: Chevy small block V8
Displacement: 350ci
Block: 4 bolt main/roller
Crankshaft: 4340 forged steel
Bore/Stroke: 4.030 x 3.480
Rods: H-beam
Pistons: forged
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: 535 in x .560 ex
Duration @ .50: 231 in x 239 ex
Cylinder Heads: aluminum
Chamber Size: 70cc
Valve Size: 2.02 in x 1.60 ex
Intake Runner Volume: 170cc
Compression Ratio: 8.5:1
Rockers Arms: 1.7:1 full roller
Induction: Weiland 171 supercharger/carb
Recommended Fuel: 92 octane
Ignition Timing: 36 degrees total advance
Max RPM: 5800
HP38C 350/500HP... 10,708.99 ea

489/565HP Stroker

This 489ci stroker big block engine produces 565 HP and 595 lbs of torque in a "Ready-to-Run" package. Includes: oil pan, timing cover, valve covers, distributor with spark plugs and wires, a performance intake manifold, performance carburetor, fuel pump, water pump, flexplate, and balancer all preinstalled.

Note: No mechanical fuel pump provision. Price includes a core charge of \$450.00.

Specifications:
HP: 565
Torque: 595
Engine Type: Chevy big block V8
Displacement: 489ci
Block: OE/Block 1991-95 GenV 4 bolt main
Crankshaft: Scat nodular steel
Bore/Stroke: 4.310 x 4.250
Rods: Scat 4340 Forged I Beam ARP bolts
Pistons: Forged Small Dome
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: 635 in x 640ex
Duration @ .50: 231 in x 245 ex
Heads: Edelbrock aluminum E-Street
Chamber Size: 110cc
Valve Size: 2.19 in x 1.88 ex
Intake Runner Volume: 290cc
Compression Ratio: 10:1.1
Rockers Arms: 1.7:1 Full roller
Recommended Fuel: 92 octane
Ignition Timing: 34-36° total advance
Max RPM: 5800
HP411PC 489/565HP 10,010.99 ea

496/600HP Stroker

This 496ci street/strip stroker engine produces 600 HP and 605 lbs of torque. Includes: oil pan, timing cover, valve covers, distributor with spark plugs and wires, a performance intake manifold, performance carburetor, fuel pump, water pump, flexplate, and balancer all preinstalled.

Note: No mechanical fuel pump provision. Price includes a core charge of \$450.00.

Specifications:
HP: 600
Torque: 605
Engine Type: Chevy big block V8
Displacement: 496ci
Block: OE/Block 1991-95 GenV 4 bolt main
Crankshaft: Scat 4340 forged steel
Bore/Stroke: 4.310 x 4.250
Rods: 4340 H-beam
Pistons: forged
Rings: moly
Camshaft Type: HYD roller
Camshaft Lift: custom
Duration @ .50: custom
Heads: Edelbrock aluminum
Chamber Size: 118cc
Valve Size: 2.19 in x 1.88 ex
Intake Runner Volume: 315cc
Compression Ratio: 10:1.1
Rockers Arms: 1.7:1 Full roller
Recommended Fuel: 92 octane
Ignition Timing: 34-36° total advance
Max RPM: 5800

1968-74 Motor and Mid-Mounting Plate

When installing a high-performance engine into your new Chassisworks subframe, secure it with the corresponding mounting plates. These specially designed aluminum bolt-in motor plate and steel transmission mid-plate for automatic transmissions or manual transmissions are constructed to provide a much more solid perch for your motor than OE style pedestal motor mounts. All manual transmission applications require the use of a Lakewood bellhousing.

1969-81 Genuine GM Motor Mount

A "fan scallop" or excess movement are a telltale sign of a broken motor mount. This can be a dangerous condition as the engine can shift, causing the accelerator to stick in a full throttle position. If your vehicle has 50-60,000 miles or more or the motor mounts have been soaked with oil over a period of time, chances are they have grown weak and are in need of replacement. Our Genuine GM motor mounts are the cure for this dangerous condition.

Specialty Engine Tools

Power Programmer

This CARB-approved power programmer can give your 2007-12 gas or diesel vehicle an extra 10 to 40 horsepower. The Max Energy GM power programmer allows countless adjustments from shift points to speedometer calibrations for a wide range of gear ratios and tire sizes. It allows up to 1000 RPM adjustments of the rev limiter, the ability to change the top speed limiter and can be used to read and clear DTC's. It updates via internet and can easily return the vehicle to stock tune, if necessary.

32501 2007-12 384.99 ea

Speedometer Calibrator

The Hypertech GM Speedometer Calibrator allows speedometer and odometer correction for on 2007-12 cars and trucks when changing to 2.56, 2.73, 3.08, 3.23, 3.42, 3.73, 4.10, 4.56, 4.88, or 5.13 gears. It can also clear DTC's and make corrections for tires 24" to 54" in 1/4" increments. Completely user friendly and easy to use! It updates via internet and can easily return the vehicle to stock tune!

732501 2007-12 229.99 ea

Vacuum Switch Socket

Removes and installs ported vacuum switches on most domestic and some foreign vehicles as well. Includes special 7/8" socket with cutaway slot to provide clearance for parts. Provides adequate depth to fit over switch. Heat treated alloy steel. Use with 3/8" square drive.

Y12000 12.99 ea

Max-Tuff Assembly Lube

Ultra tough, synthetic lubricant designed for use in reassembling repaired equipment. Utilizes durable synthetic molecules that adhere to metal surfaces and create an extremely strong barrier between surfaces minimizing the possibility of metal-to-metal contact while providing excellent protection against rust and corrosion to both ferrous and non-ferrous metals. Formulated with Royal Purple's proprietary Synslide additive technology.

Auto Troubleshooter

This ingenious tool features automatic reverse polarity indication, automatic zero adjustment for Volts and amps for accurate measurements and overload protection on all ranges. Performs all standard electrical tests for on-car and bench troubleshooting. Locate faulty wiring, test electrical components, engine sensors, ignition and fuel systems and your starting/charging system.

AC7677 55.99 ea

AutoAnalyzer Digital Multimeter

Pinpoint problem area and determine which components are faulty! Performs standard electrical tests for on-car and pin bench to locate faulty wiring, test electrical components, engine sensors, ignition and fuel systems and starting/charging system voltage. Features 19 ranges and automatic zero adjustment for Volts, amps, and battery tests, as well as an easy-to-read backlit LCD. Includes: color coded detachable test leads, alligator clips, and a comprehensive user manual.

AC7665 35.99 ea

Advance Timing Light

This advance timing light features an all metal inductive pickup, bright Xenon flash, and one touch control. Available with a degree dial knob for easy timing adjustments or a digitally controlled with LED display and tachometer functions. Detailed instructions included.

AC7528 adjustable knob 65.99 ea
 AC7529 LED display 91.99 ea

Infrared Thermometer with Laser Pointer

Aim this IR thermometer at the target, press a button, and read the temperature display. Verify the temperature in your AC system or find an overcharge in your electrical systems. System On-Chip technology creates a compact, lightweight design with a measurement range of -58 degree F to +932 degree F (-50 degree C to +500 degree C). Includes two AAA batteries and belt holster.

AC7876 65.99 ea

Remote Starter Switch

Allows one person to start or crank engine from under the hood. Ideal for compression test or bumping engine onto TDC (top dead center) timing marks for valve, distributor or camshaft adjustment. Power tool type trigger switch for regular use with medium currents. Heavy-duty Neoprene leads. 10 amp, medium current clips open to 1/2". Protective rubber boots prevent electrical shorts. Ergonomic handle. One-year warranty. Made in USA.

AC7853 12.99 ea

Heavy-Duty Remote Starter Switch

Start and crank engine from under the hood or from either side of the vehicle. Ideal for compression test or bumping engine onto TDC (top dead center) timing marks for valve, distributor or camshaft adjustment. Convenient but circuit red indicator light glows when starter switch is ready, light goes off when switch is depressed. Heavy-duty push button trigger switch, 5 foot heavy-duty leads, 12 gauge conductors, 20 amp, high current clips open to an extra wide 5/8" for easy hook up. Protective rubber boots prevent electrical shorts. Soft, non-slip rubber grip. Made in USA.

AC7854 52.99 ea

Remote Starting Switch

Excellent tool allowing easy engine starting from under the hood. Features heavy gauge, rubber covered power wire. Simply depress the button to jog or start the engine. Made in USA.

Y20750 17.99 ea

Engine Assembly Grease

Used by Joe Gibbs Racing during the assembly of every NASCAR Sprint Cup and Nationwide Series engine. Unique formula dissolves in oil. Can be applied to ring lands in order to prevent micro welding during initial break-in. Combine with the Joe Gibbs BR break-in oil (part #BR106 or #BR107) for proven protection during break-in.

Specialty Engine Tools

1993-02 Programmable Module

JET Performance modules offer the most horsepower available for your car when using a donor engine and computer system from a crate engine! Add up to 23 horsepower instantly with simple, plug-in installation! Only JET Performance programming provides exclusive, full range dynamic spectrum tuning of the air/fuel ratio, ignition advance, transmission and various other parameters. Each program is track and dyno-tested to ensure the most possible horsepower and drivability from each application. 50 state smog legal!

Stage 1

Is for stock or mildly modified vehicles. Fuel and timing curves are modified for optimal performance and mileage using less expensive, lower octane fuels. Programming is designed to burn fuel at peak efficiency, which results in improved performance and mileage.

Daily drivers can use lower cost regular fuel for potential mileage gains, but for optimal performance gains use of mid-grade or better is recommended.

Stage 2

Is designed for the performance enthusiast, the Stage 2 features more aggressive programming to make the most horsepower and torque available. Fuel and timing curves are extensively modified for peak performance and drivability. Requires use of 91 octane fuel, 180 degree thermostat and free flow exhaust. Also works well with aftermarket intake systems, mass air sensors, TBI spacers, etc.

1999-02 LS1 Performance Programmer

The JET Performance Programmer lets you take control and program your own vehicle computer just the way you like it. Modify air and fuel ratios, ignition timing, shift points, shift firmness, speed limiter, and rev limiter settings. Exclusive JET Tri-Power tuning technology lets you tune for economy using lower cost regular fuel, or tune for performance using mid-grade or premium fuels. All three modes are designed to operate the engine at peak efficiency to maximize horsepower and mileage for the given octane level. The programmer will also correct your speedometer and turn off the ABS system trouble light if you change tire size or gear ratios, modify the temperature that the cooling fan turns on and bypasses the skip shift mechanism on manual transmissions. A built-in scan tool reads and clears diagnostic codes when your check engine light comes on, saving you a trip to the dealer.

LS3 6.2L/376ci

The LS3's aluminum block is filled with a sturdy reciprocating assembly that combines with L92 type rectangular port heads to deliver 10.7:1 compression. A high lift, hydraulic roller cam complements the LS3's tremendous airflow capability and enhances its broad torque curve. Out of the crate, our LS3 includes 430HP. If that's not enough, our LS376/480 includes a hot cam and bigger valves to dial up 495HP and 473 ft lb torque. Last, but not least, the most powerful naturally aspirated LS3 we offer is the third choice on the list, our LS375/525 that comes out of the crate with 525HP and 486 ft lb of torque!

DR525 LSX Racing Engine

The DR525 is designed as the spec engine for NMCA's LS Stock racing class in the LSX Showdown Challenge Series. The 6.2L (376 cubic inches) naturally aspirated engine is rated at 525 horsepower with 498 ft lb torque, and features several tamper-proof seals to ensure class compliance. And while it is the spec engine for the LS Stock class, it is legal in other NMCA/LSX Showdown Challenge classes and other drag racing series. It is offered with 2 part #s: G13176 includes Chevrolet Performance's fourth generation F-Body oil pan while G13177 includes the muscle car oil pan for earlier models... your choice!

Important: This Chevrolet Performance racing crate engine is purpose built for racing only, and has no warranty.

E-Rod Crate Engine Systems

Chevrolet Performance's lineup of E-Rod high-performance crate engine systems are eligible for installation in millions of 1995 and earlier smog controlled vehicles. E-Rod crate engines have been granted an official California Air Resources Board (CARB) E.O. number. That means you can build the car or truck of your dreams with 50 state street legal power! E-Rod crate engines include complete emissions equipment, engine controller and harness needed to get your engine running.

Important: Additional components necessary to complete assembly and get vehicle running.

ZL1 Supercharger

Each Supercharger Assembly Features:

- Two Eaton Twin Vortex High Helix Rotors
- Built-in Water-to-Air Intercooler with Front Facing Lines
- Intake with Injectors
- Throttle Body
- Front Pulley
- Ribbed Cast Cover
- Gasket Set

Get more power out of your LS engine with a 1.9L supercharger lifted straight from the ZL1 production line! This supercharger is original equipment for the 6.2L LSA powered 2012-13 Camaro Z1 and will bolt onto any LS engine using rectangular L92 heads. Produces approximately 9 pounds of boost on a 6.2L engine.

Important: Requires a liquid cooling system with heat exchanger, coolant pump, and coolant tank, as well as a high pressure high volume fuel pump, and reprogramming or replacing the engine management system. Not legal for highway use on pollution controlled vehicles in all 50 States.

Note: Special order, must be prepaid.

LSA Supercharger

Add horsepower to any LS engine with rectangular port L92 style heads! This is the same 1.9L supercharger found on the 6.2L LSA, in the CTS-V and Camaro ZL1 with a slightly different intercooler cover. A pair of Eaton four lobe high helix rotors makes this unit extremely efficient at lower RPM but sustains the output into high RPM. On a 6.2L engine it produces about 9 lbs of boost but boost pressure may vary with engine displacement and compression ratio. Set includes intake, fuel injectors, cast cover, intercooler, front pulley, throttle body, and gaskets. Installation requires proper tuning of the vehicle computer system along and a high pressure, high volume fuel pump. Intercooler requires a liquid cooling system consisting of a heat exchanger, a coolant tank and a coolant pump.

Important: May not be legal for highway use in all 50 states.

LS Engine Controller Sets

The LS crate engines are some of the most advanced crate motors available, and if you're installing one of these supercharged 6.2 liter beasts, you'll need the electronics to keep these formidable engines under control. These sets include the hardware needed to wire and run LS crate engines. Each set includes engine specific ECM, wiring harness and fuse box, as well as MAF sensor with mounting boss, a pair of oxygen sensors with weld-in sensor bungs, an electronic accelerator assembly, and instructions.

Important: This engine controller is a stand-alone retrofit system for pre-1976 vehicles. Not for use with pollution controlled vehicles.

Front Runner Drive

Vintage Air's front runner drive features include a black mounted truss CNC-machined from T-6061 billet aluminum available in a bright finish with machined finished truss or black hard coat finish. The black hard coat sets include black hard coated pulleys and black anodized bracket, clutch and tensioner covers. Exclusive Front Runner spring tensioner provides continuous SAE-spec static and dynamic belt tensioning for OEM quality belt life. Hard coated aluminum pulleys are precision machined, reduce weight and wear like steel. Pulley sizes are engineered and matched for optimum component speeds. This is a very compact package that does not have any of the accessories hanging way past the engine. Each drive uses the compact GM Type II power steering pump (if applicable), high-performance water pump and GM 140 amp alternator. The Vintage Air Fite-Fit line/compact compressor package is perfect for that nice tight and clean look.

Important: Not compatible with any LT1 engine.

Note: Shipped oversize.

LS Conversion Components

LS Valve Cover Conversion Kit

Billit Specialties LS valve cover conversion kit. This kit allows the use of perimeter style small block Chevrolet valve covers on an LS motor. The coils, harnesses, and plug wires are all concealed underneath for a clean classic look. Precision machined from 6061-T6 billet aluminum to accommodate the large LS3 coils (AC Delco DS14A). It retains the factory LS gasket for a leak free seal and feature a hidden oil fill cap on both sides. Stainless hardware included. Made in USA.

Important: Will not work on 1997 LS1 heads casting numbers 806 or 933.

B95037 LS Chevrolet Script..... 496.99 set

LS Valve Cover Adapters

Billit Specialties LS valve cover adapters. This kit allows the use of perimeter style small block Chevrolet valve covers on an LS motor. This kit requires the relocation of the coil packs. Machined from 6061-T6 aluminum to utilize an OEM LS valve cover gasket on bottom and cork gasket on the top. Stainless hardware included. Made in USA.

Important: Will not work on 1997 LS1 heads casting numbers 806 or 933.

B95030 LS Chevrolet Script 168.99 set

Billet Aluminum LS Valley Cover

Clean up the engine compartment of your carbureted LS powered Nova with this billet aluminum valley cover from **Billit Specialties**. The highly polished ribbed design is a perfect complement to **Billit Specialties** valve covers. They are engineered to fit LS2, LS3, LS7, and LSX blocks and accepts the OEM breather and gasket. Made in USA.

Note: Will not work with D.O.D. blocks.

LS Coil Covers - Big Block Style

These coil covers from **Holley Performance** give modern LS engines a classic big block appearance. Made from a lightweight, durable composite that can be painted to match any color scheme and designed to fit on LS2, LS3, LS7, and other LS family engines using LS3 style valve covers and coils. Set includes: covers, OE style ball mount snap on studs, oil cap, oil fill adaptor, and detailed installation instructions.

Important: Covers are a universal fit and require trimming for proper installation.

H2421 LS coil covers..... 228.99 pr

LS Coil Covers

Elegantly hides LS coil packs. Fits GM LS engines utilizing existing coil bracket mounting points. Has a cutout for the oil filler. Designed to fit LS crate motors and will not clear factory high mount alternators (such as those found on Corvettes) unless a cutout is fabricated or aftermarket alternator and brackets are used. Best suited for aftermarket serpentine pulley systems. Machined from 6063-T6 aluminum. Can be used with relocated coil packs for a lower profile appearance. Dimensions 19-1/2" x 5", available in black or mill finish. Made in USA.

P130 black finish..... 238.99 pr

Holley

1955-87 Retrofit LS Oil Pans

Holley's Retro LS oil pans are designed for maximum chassis and ground clearance on 1955-87 GM rear wheel drive V8 applications originally equipped with a rear sump oil pan. Each pan is made from machined cast aluminum and uses an original style oil filter and gasket. Features provisions for a factory style oil cooler and attachment points for the factory bellhousing. Set includes sump baffle, pickup tube, sump plug, oil filter stud, and oil passage cover. H3021 LS Retrofit oil pan is designed for LS engine retrofit installation in a variety of GM muscle/classic car and truck models. H3022 LS Gen 1 F-Body Retrofit oil pan is designed specifically for LS engine installation in 1967-69 Camaro/Firebird, 1968-1974 Nova/Apollo/Omega/Ventura models. The H3022 oil pan may also fit other muscle/classic car and truck chassis where more engine to chassis clearance is required near the front half of the oil pan.

Note: Requires the use of LS3 dipstick and dipstick tube.

1962-74 Chevy II Nova LS Conversion

Made in USA

These sets take the guesswork out of installing an LS engine into a 1962-74 Chevy II/ Nova model. Designed to position the engine and transmission with room for most accessory drives, exhaust systems, heater boxes, steering and power brakes. Available for use with T56, 4L60E or 4L80E transmissions. Includes: motor mounts, frame brackets, transmission crossmember with a poly mount, installation hardware and detailed instructions. Ceramic coated headers specifically designed for these kits are also available. Features a lifetime replacement manufacturer's warranty. Made in USA.

Important: Modification to the firewall or transmission tunnel may be required.

Note: 1968-74 models require notching of the frame when using a 1998-02 F-Body accessory drive system with low mount AC compressor.

Alternator Conversion Adaptor

This easy to use alternator conversion harness is designed to adapt your wire harness to upgrade your charging system with a later model, internally regulated alternator. This harness adapts external regulator harnesses to 1985 and earlier "SI" type alternators.

Adjustable LS Motor Mount Adapter Set

Adapter allows the installation of LS engines into 1958-72 models using a standard 3 bolt motor mount. Position the engine in either the original location or 1"-2" forward to allow for transmission bellhousing clearance. Mounting locations allow proper driveline alignment and an additional 1/2" of adjustment. Includes: engine mounting plates, adjuster plates, hardware, and instructions.

Note: Some aftermarket motor mounts may require mounting holes enlarged to 7/16". Some OEM style mounts may require additional clearance of the cast rubber portion to allow full front to back adjustment of the adapter. Not for use with "clamshell" type mounts.

A9750010	adapter	171.99 set
----------	---------	------------

Fitrite™ LS Engine Mount Set

This set is made to assist you with swapping a LS series engine into your 1962-79 Chevy II/Novo. These mounts are designed to move the engine forward and backward for ease of fitment. The long adapter set allows the engine to move from 1/2" rearward (great for oil pan to crossmember clearance) up to 3-1/2" forward for a full 3-1/2" of travel with a completely custom range of positions. The short adapter set is a smaller, more compact version, moving the engine from 2-1/4" forward to 3-3/4" forward for a total of 1-1/2" of travel. This exclusive design no-weld brackets are CNC laser cut steel and features a durable black powder coated finish. Fitrite™ sets include POLYPUUS™ engine mounts.

Note: The short adapter works well with the low mounted air compressor.

Long Adapter

LS700200	1/2" rear - 3-1/2" forward	129.99 set
----------	----------------------------	------------

LS1/LS6/Vortec Engine Mount Plates

These engine mount plates are needed when installing an LS1, LS6, or Vortec engine into a vehicle that was originally equipped with a small block engine. Available in a 4 piece set that includes the plates and motor mount pads or the plates can be purchased separately. Includes Grade 8 hardware.

4592	2 plates with 2 pads	70.99 set
4572	2 plates only	51.99 set

March Performance Pulleys

"Ultra Drive" Front Mount Serpentine Sets

This system has been designed to mount accessories below the valve covers and between the width of the heads. Precision CNC-machined from 6061-T6 aluminum for strength and perfect fit, hard coated on high wear areas and clear coated to eliminate polishing in those hard to reach places to look great for years to come. Set is designed to fit Ram Jet, TPI, Single and multi-carb engines and includes an oversize crank pulley that aids in driving your alternator, AC and water pump at idle, where it counts.

Note: Serpentine belts are not included in any of the sets, however the belt length is included below for information purposes. All sets include short reverse water pump.

Serpentine Belt Custom Sets

Includes non-polished AC compressor, non-polished 140 amp alternator, aluminum reverse rotation water pump, GM type 2 power steering pump (sets without power steering available. Hoses and reservoir not included), spring loaded tensioner, AC, alternator, and power steering brackets, crankshaft pulley, water pump pulley, power steering pulley, alternator pulley with standard steel bladed fan, wing cross emblem, AC line fittings, and Grade 8 mounting hardware.

Small Block Custom Sets

"Revolver" Serpentine Sets for Short Water Pump

This serpentine conversion offers the same combination of style and low price as the popular Style Track alternator, AC and power steering set, but cool Revolver styling. The highly styled 1 piece bracket provides a rigid support for the alternator and AC compressor. A separate bracket allows the option of power steering or no power steering. The Revolver uses a unique, easy to use belt tension adjustment tool. Once the belt tension has been set, the adjustment tool is easily removed and stowed away until the next time the belt requires adjustment. The Revolver offers a much cleaner appearance as a result. Includes all instructions and hardware. Features maintenance-free clear, black or black onyx powder coated or chromed. Includes chrome AC compressor, chrome 105 amp alternator, aluminum reverse rotation water pump, GM type 2 power steering pump (hoses and reservoir not included) or chrome Saginaw pump, AC, alternator and power steering brackets, crankshaft pulley, water pump pulley, AC compressor nose cover, alternator pulley with machined fan and nose cover, power steering pulley and cover, belt tensioning tool, and Grade 8 mounting hardware.

Note: No cylinder head accessory holes needed for mounting. Serpentine belt is not included with any set. Length of belts is listed below, and is also included in the instructions.

Small Block Revolver Serpentine Sets

Sets w/Alternator and AC Only

Note: Small Block Revolver sets without power steering are for 59" serpentine belts.

March Performance Pulleys

"Mid Mount" Alternator and Power Steering Serpentine Conversion Ultra Sets for Long Water Pump

Simple yet exceptionally styled, this new "Mid Mount" Alternator and Power Steering serpentine set from March Performance offers an exciting new look. A new higher mounted power steering pump bracket helps clear the steering gearbox in some vehicles. Retains your standard rotation water pump. Available with performance pulleys which increase horsepower or high water flow ratio pulleys for increased cooling. CNC-machined from solid billet 6061-T6 aluminum for a spectacular machined finish with perfect fit and extra high strength. Designed for a great appearance from any angle, these brackets are even machined on the engine facing side. All billet pulleys and brackets have a "No Polishing" maintenance-free clear powder coating. Also available black powder coated.

Note: Serpentine belts are not included with sets. Length of belt is listed below, and is listed in the instructions also. All alternator belts are 6 rib. Shipped overweight.

MP211251

"Pro-Track" Serpentine Systems

March Performance's new billet aluminum Pro-Track serpentine system features a 1" thick one piece alternator and air conditioning bracket. A separate bracket allows the option of remote or canister style power steering. Adjustment tool is removable and included. Available powder coated in clear, black, black onyx or chromed. Includes chrome AC compressor, chrome 105 amp alternator, aluminum reverse rotation water pump, GM type 2 power steering pump (hoses and reservoir not included) or chrome Saginaw pump, AC, alternator and power steering brackets, crankshaft pulley, water pump pulley, AC compressor nose cover, alternator pulley with machined fan and nose cover, power steering pulley and cover, and Grade 8 mounting hardware.

Note: Serpentine belt is not included with any set, however length of belt is listed below and included in the instructions. Belt tensioning tool included.

Front Runner Drive

Vintage Air's Front Runner Drive provides the ease of a modern serpentine belt system. This engineered package solves issues with premature belt failures caused by mechanical tensioning, excessive belt length runs, awkward component placement, and cylinder head mount bolt variations. Features include a black mounted truss CNC-machined from T-6061 billet aluminum available in a bright finish with machined finished truss or black hard coat finish. The black hard coat sets include black hard coated pulleys and black anodized bracket, clutch and tensioner covers. Exclusive Front Runner spring tensioner provides continuous SAE-spec static and dynamic belt tensioning for OEM quality belt life. Hard coated aluminum pulleys are precision machined, reduce weight and wear like steel. Pulley sizes are engineered and matched for optimum component speeds. This is a very compact package that does not have any of the accessories hanging way to the engine. Each drive uses the compact GM Type II power steering pump (if applicable), high-performance water pump and GM 170 amp alternator. The Vintage Air Tie Fit Line/compact compressor package is perfect for that nice tight and clean look.

Important: On Chevy Z24 engine, composite timing cover mounting bolt must be modified or timing cover may be replaced with steel cover (GM part #1252317 or equivalent), for standard short water pump clearance. Not compatible with any LT1 engine.

Note: Shipped oversize.

Warning Concerning Crankshaft Pulleys

Stock replacement, aftermarket stamped steel or cast iron pulleys are not designed to exceed 400 horsepower or 6000 RPM. Using any reproduction pulleys on engines in excess of these limits may result in catastrophic disintegration of the pulley causing severe damage to the engine, cooling system and body parts. Classic Industries' assumes no liability for damages caused by improper usage of pulleys. Please be sure to install the pulley properly to avoid damages that could occur from improper installation or exceeding the recommended RPM limitations.

Performance V-Belt Pulley Sets

March Performance underdrive V-belt pulleys can free up 12-15 horsepower at the rear wheels. March performance pulleys eliminate belt throwing and reduce accessory drag. They also aid in cooling by increasing water pump speed. Designed with "no polishing needed" clear powder coated. All sets include: crank pulley, water pump pulley, and alternator pulley with cover.

Important: Requires 1980's style water pump for clearance or any aftermarket water pump.

V Drive Pulley System

Complete V Drive systems for small block Chevrolets with power steering pump with attached billet aluminum reservoir or attached plastic reservoir or power steering for remote reservoir, with or without AC, and alternator. Includes all new components: Tuff Stuff short water pump, Maval power steering pump, Sanden style SD7 AC compressor, Powermaster 140 amp alternator, Gates V-belts, and all necessary stainless steel fasteners. Polished sets include a polished finish AC compressor and alternator. Colored sets come with natural cast finished components. Specify finish wanted, the finishes offered are in bright polished, gloss black anodized, gloss black powder coated, clear anodized, clear coat and matte black powder coated finish. All brackets and pulleys are made of CNC-machined billet aluminum.

Note: Please specify finish when ordering: A - polished, B - gloss black anodized, C - gloss black powder coated, D - clear anodized, E - clear coat, F - matte black. Shipped overweight.

1985-95 Underdrive Pulley Set

The JET Underdrive Pulley Set reclaims lost horsepower and mileage by reducing the drag placed on the engine to drive the accessories such as the air conditioning, power steering and water pump. The JET Pulley set down these accessories to allow the engine to turn with less effort without any adverse effect on the operation of AC, power steering, charging or cooling systems. Installation consists of simple bolt-on replacement of the stock pulleys. Sets include: 2 pulleys, hardware, complete instructions and part number for new serpentine belt (most sets will require use of smaller size belt).

Important: Applications are based on Camaro model engines. Belt is not included with sets.

Note: *305-350 engines with 4 barrel.

Harmonic Balancers

Performance Harmonic Damper

Fluidamp performance harmonic balancers and dampers contain no rubber or elastomers. Instead, they are filled with a viscous silicone based liquid that doesn't wear out after time. The liquid absorbs virtually all torsional harmonic vibrations at almost any frequency and constantly adjusts itself for optimum performance at all RPM ranges. Fluidamp products are made from CNC-machined and balanced steel with a black zinc chromate finish. All dampers are SFI 18.1 certified and are designed to last a lifetime without being rebuilt. Made in USA.

Note: Small block dampers are not for use with 1992 and later LTI engines.

K5011

Chevrolet Harmonic Damper

Pro/Race high-performance harmonic dampers are direct replacements for factory cast iron units which may fracture or disintegrate at high RPM. Pro/Race dampers are ideal for the additional torque loads from belt driven superchargers. The STREET damper features special splines to enhance bonding between the elastomer, inner hub, and outer ring to prevent any outer ring radial movement, perfect for engines making between 350 to 400 horsepower. On the RACE damper, the elastomer is bonded to the steel hub and ring to endure sustained high RPM conditions. Externally balanced balancers feature weights bolted in place which may be removed for neutral or internally balanced application. Internally balanced balancers can be used on an external application simply by ordering the correct engine specific weights and bolting them in place.

Important: Pro/Street or Pro/Sport Counterweights are not interchangeable with Pro/Race Counterweights.

Note: *HD100016 and HD10019 are NOT drilled to accept counterweights.

HARMONIC BALANCERS 427

Timing Components

1955-86 Two Piece Billet Timing Cover

The sturdy 2 piece billet timing cover allows the camshaft to be serviced without disturbing the oil pan seal. The cover is machined from high grade billet aluminum and is compatible with almost all water pumps and gear drives. Includes: roller cam button, cam plate, shims, a timing pointer, hardware, and instructions.

Accu-Drive® Camshaft Gear Drives

Replace Your Stock Timing Chain with a Precision Gear Drive System from Edelbrock! The Accu-Drive® camshaft gear drive set replaces a stock timing chain with a precision gear drive system. The gear drive can be easily installed. Just replace the stock crank and camshaft sprockets with Accu-Drive® gears and slip in the idler assembly. Most Accu-Drives require no modifications to the engine block, although some fitting of the axles and front cover may be required. The Accu-Drive® gear system transmits power from the crankshaft gear to a full floating main idler gear which drives the camshaft gear. A unique feature of the Edelbrock Accu-Drive® system is the ability of the main idler gear to float to an optimum position between the crankshaft and camshaft gears.

Important: Not for stock Chevy hydraulic roller lifter cam equipped engines. Accu-Drive® gears are not recommended for use above 7000 RPM or on computer controlled vehicles with knock sensors. On some late model small block engines, it will be necessary to check clearance behind the cam gear at the engine block at the 12 o'clock position. Make sure gear clears oil gallery bosses on block when in the most rearward position. Grind or machine block for clearance.

E7890 1957-95 small block	250.99 set
E7891 1965-90 big block	265.99 set

Small Block Chevy Timing Belt System

Get more performance out of your small block with these Magnum timing belt systems! These systems absorb crankshaft harmonics. The Magnum belt drive system is ideal for street performance and budget minded race applications.

Note: Minor block modification may be required.

Dry Timing Belt System

This system is more durable and more accurate than traditional timing chains or aftermarket gear drive systems, especially at high RPM. Make quick timing modifications at the track without the hassle of removing a timing chain cover! Includes: main plate, gears, belt, shims, mounting hardware, and instructions. 61100 dry timing belt system..... 600.99 set
61100B replacement timing belt..... 68.99 set

Wet Timing Belt System

This system keeps the timing accurate with virtually no fluctuation. It is also more durable than traditional timing chains or aftermarket gear drive systems, especially at high RPM. Designed to work with billet timing cover #21101 but works with most late model flat covers. Includes: upper and lower timing gears, belt, cam timing bushings, shims, cam button, mounting hardware, and instructions.

Make a Big Statement with Die-Cast Air Cleaner Emblems!

Install these beautiful chrome-plated die-cast emblems for an upscale custom look for your big block! These emblems capture the appearance of the air cleaner decals originally installed on big block vehicles of the era. Manufactured from die-cast metal, these colorful triple chrome-plated emblems are specifically designed to fit the contours of the stock 1967-73 big block 14" diameter open element air cleaner lid. Installation is simple! Each emblem is adhesive backed for easy peel-and-stick application.

Crossed Flags Die-Cast Air Cleaner Emblems

These quality die-cast air cleaner emblems are similar in shape and size to the crossed flag decals used on the air cleaners of various big block equipped vehicles of the era. Designed with modern adhesive backing for simple, secure application to our open element air cleaner lid.

Air Filter Oil & Clean/Degreaser Set!

K&N Air Filter Oil and

Cleaner/Degreaser is

the only oil and cleaner/

degreaser specially

formulated to work

in combination with

the cotton fabric in the

K&N filter. The use of

any other could void

the filter's warranty and

potentially harm the air

filter's cotton material.

The cleaner/degreaser works

to dissolve the dirt buildup and old

oil filter oil and can be washed away with water. It is

environmentally friendly, and when used as directed, is

safe on paint, chrome, cast aluminum, plastic, rubber

and vinyl. Each set includes oil, cleaner/degreaser,

and service decal. Your choice of 6-1/2 oz. aerosol

spray or 8 oz. squeeze oil bottle is offered.

K&N**PERFORMANCE FILTERS**

E3690

Air Cleaner Assembly

A K&N air filter element can be washed up to 25 times before it is considered no longer serviceable. Even though the filter may not show outward signs of deterioration, it should be replaced after 25 washings. Excessive washings will deplete the tiny cotton hairs that crisscross the openings. The resulting damage will allow tiny dust particles to pass through. The elements listed below are designed for use with our K&N Chrome and stainless steel air cleaner assemblies.

14" Round Elements

New!**PRECHARGER Filter Wrap**

The K&N PRECHARGER is a specially designed filter wrap made to extend the length of time between cleanings. A great idea when operating off-road or in very dusty conditions. They are made from a durable polyester material containing uniform micron openings. The PRECHARGER will stop small particles, yet add little restriction to the airflow of the filter. The PRECHARGER is designed to be run dry and can be cleaned with K&N Filter Cleaner. Double stitched elastic openings keep the PRECHARGER securely in place. Each comes silk screened with the K&N logo. Choose from black, blue, red, or yellow.

Important: Please specify black, blue, red, or yellow when you place your order.

**XStream Air Flow Top and Assembly**

If your engine still has its stock style filter element and air cleaner assembly, it most likely is not realizing its full horsepower potential. Restrictive elements combined with the turbulence inside a stock filter housing tend to choke off critical airflow. Put an end to this dilemma with K&N's XSTREAM air flow top or the XSTREAM air flow assembly and feed your engine all the air it can use. The result will be maximum horsepower. Choose from the complete assembly or just add the top to your existing round filter. Either way, you'll enjoy the benefits of a high flow element that cuts turbulence. Cleanable and reusable just like our other filters. Total height listed below is the minimum clearance needed above the carburetor flange.

**Carburetor Cover**

Damage to pistons, rings, and other components can be caused by accidentally dropping something into your carb while the air cleaner assembly is off. The K&N carburetor cover is used on 5-1/8" carburetors eliminating the risk of dropping bolts, nuts, screws, or other items down the throat and into the intake manifold. Also works well in keeping dirt, dust, and other elements out of your carburetor during times you must store your engine or vehicle with the air cleaner assembly removed. Choose from black, red, or orange.

5-1/8" Carburetor Cover
858913C specify black, red, or orange 38.99 ea

**Air Filter Sealing Grease**

K&N Air Filter Sealing Grease seals the air cleaner assembly, eliminating the possibility of dirt, dust and other particles from entering your carburetor from between the air filter element and air cleaner assembly. This is especially important if you will be operating your vehicle off-road or in extremely dusty conditions such as construction sites, etc. K&N Air Filter Sealing Grease resists heat and will not melt or run off.

Signature Series Valve Covers

These quality baffled valve covers accept all emissions equipment including PCV valve. Rubber grommets for the breather and PCV holes are included. Matching breathers are sold separately. Applications are available in chrome or black powder coated finish.

Important: Tall valve covers are 1-1/4" taller than stock, and clear most roller rockers and valvetrain components except stud girdles. Low profile valve covers clear AC and alternator brackets.

1958-90 Clear Vue Valve Covers

Clear Vue valve covers show off your valvetrain to make any custom motor unique. These covers are manufactured from a heat resistant clear material that will not warp, haze, or become yellow over time. Oil sheets off after high RPM in about 30 seconds. These valve covers are NHRA certified for Sportsman Gas Class vehicles. Sets include: two clear valve covers, two stainless steel deflector plates, and two chrome breather caps with grommets. Made in USA.

Important: Spreader bars are recommended for installation.

Note: Bolts and spreader bars are not included.

Vintage Series SB Valve Covers

Vintage Series valve covers are designed to fit all 1977-86 small block Chevrolet engines with perimeter bolt patterns. The die-cast aluminum construction ensures superb detail and reduces the chance of warped valve cover flanges and oil leaks. The valve covers stand 3-1/2" tall with pre-installed internal oil baffles on emission compliant models. The oil fill and PCV grommets are also included.

Note: If your engine has non-standard valvetrain components, such as a high lift camshaft, roller-tip rocker arms, higher lift ratio rocker arms, stud guides, etc., there may be insufficient clearance.

LS Aluminum Slant Edge Valve Covers

Cast aluminum slant edge valve covers for GM LS V8 motors. PROFORM has developed a full lineup of valve covers that will give your stock LS a totally personalized look. These valve covers are taller than stock valve covers, and can accommodate a wide variety of large valvetrain applications. The covers are available in different styles, including raised and recessed emblems. Unique mounting studs and oil restricting baffles are included. Threaded mounting holes for integrated ignition coil brackets are included. The passenger side valve cover has an oil filler hole (we suggest oil filler cap part #D141630). PROFORM also suggests using Fel-Pro valve cover gaskets for best seal, our part #A9700110. Valve covers are sold in pairs.

Important: LSX DR owners will need to purchase a LSX-DR mounting bolt kit part #M66330.
Note: The following rocker configurations will require the valve cover to be slightly modified: Jetel part #KSS-317070, KSS-317575, and KSS-318080.

PCV Valves & Components

Aluminum PCV Valve

This aluminum housed PCV valve is just what you need to finish your engine bay detailing project. Manufactured with a 3/4" neck for 3/4" i.d. grommets.

Note: Rubber grommet not included.

T6068	polished PCV valve.....	19.99 ea
T6067	chrome PCV valve.....	21.99 ea

Dual Flow Adjustable PCV Valve

Does your PCV valve match your engine? Stock PCV valves are not designed to work with modified high-performance engines due to their altered vacuum profiles. A mismatched PCV valve can cause oil to splash out of your breathers, cause oil leaks, or contaminate your oil with piston blow-by gasses. Now you can manage your crankcase pressure with this fully 6061-T6 billet aluminum dual flow PCV valve. Once adjusted, the valve will provide sufficient crankcase ventilation during both idle and cruise. Valve fits 3/4" i.d. valve cover grommets and 3/8" i.d. PCV lines. An available adapter allows for installation on 3/8" i.d. inline applications. PCV valve set includes valve, vacuum gauge fitting, Allen wrench, and detailed instructions. Made in USA.

Note: Not intended for use on pollution controlled vehicles.

DF1700	adjustable PCV valve.....	128.99 ea
DF1701	billet inline adapter.....	24.99 ea
DF1702	PCV valve rebuild set.....	15.99 set

Universal Crankcase Evacuation System

This universal crankcase evacuation system is designed for high-performance and racing applications. It replaces the standard PCV to air cleaner system by connecting to the exhaust system allowing exhaust pressure to pull the from the crankcase. Includes two simple pipes with one way valves that weld to the header collectors and are connected to dual valve cover breathers.

Note: Not for use on pollution controlled vehicles. For valve covers with 1-1/4" holes. Hoses are not included.

20501	crankcase evacuation system.....	39.99 set
-------	----------------------------------	-----------

PCV Hose Retainer Clip

Reproduction of the late 60's-70's PCV hose retainer clip which holds the PCV hose in place on models with Holley carburetors. Mounts on RH forward carburetor stud.

Note: Holley only.

Specialty Grommet

This is a rubber oil baffle and breather grommet all in one! The angled slots on the bottom and foam insert stop oil seepage and act as a baffle. Installs on all steel valve covers with 1-1/4" diameter breather holes. Utility plug manufactured in rubber for valve covers with 1-1/4" diameter holes. Will plug up the opening hole when not using PCV or oil filler cap applications.

Valve Cover Hardware

1969-74 Valve Cover Bolt Set

This set includes reproductions of the original "M" bolts which were stock on all 1969-74 models that used the black powder coated aluminum or the polished aluminum valve covers. These bolts were slightly longer than the standard valve cover hold down bolts which allowed correct installation onto the cylinder heads. Each retaining bolt features the original "M" in circle markings for an authentic appearance. Set of 8.

K0070 for alum covers... 15.99 set

Valve Cover Hardware

Replace rusty, missing or damaged valve cover hardware with the correct replacement hardware. A variety of sets are available for small block or big block applications depending on your specific needs. These sets feature authentic looking hardware with correct markings as original.

Intake Manifold Stainless Washer Set

1962-79 aluminum intake manifold stainless steel washer set for small block engines. Though not originally so equipped, these special washers are very helpful in protecting the aluminum which is directly in contact with head of intake bolt. The washers have a small o.d. and cannot be noticed easily by judges. 12 piece stainless steel flat washers zinc-plated.

154215 1962-79 small block 4.99 set

ENGINE & COMPONENTS

Intake Manifolds

1968-69 396/375HP Intake Manifold

Reproduction rectangular port big block intake manifold for models with the 396/375HP engine. This high rise, dual plane factory style aluminum manifold features the correct Winters Foundry "W" snowflake logo and correct GM casting #3933163. This gives you the original look of the 396/375HP engine in your prized restoration. Will fit big blocks with the high-performance cast iron or aluminum rectangular intake port heads.

14964 396/375HP aluminum..... 329.99 ea

396 Aluminum Intake Manifold

Reproduction aluminum intake manifold originally used on 1970 models that came with the optional RPO LS6, L78, or L89 396 big block engines. This is a low profile, factory style manifold that features the correct "W" snowflake logo which was used by Winters Foundry and features the correct GM casting #5963569.

14438 396..... 317.99 ea

Performer EPS Vortec Manifold

Available for small block Chevrolet with Vortec or Edelbrock E-Tec cylinder heads, the performer EPS dual plane manifold is optimized to deliver superior performance with Edelbrock square bore Performer Series or Thunder Series AVS carburetors. The runner design is "tuned" for peak torque around 3500 RPM on a 350 inch engine and it's ideal for off idle through 5500 RPM. Dyno-tests showed gains averaging 5+ lbs of torque from 3000 to 4500 RPM for more performance where you need it most.

H8150

1955-86 Black Ceramic Coated Intake

This carbon black ceramic coated intake provides the added benefits of corrosion protection, heat resistance and ease of cleaning. These dual plane, square bore, non-EGR manifolds fit 262-400 small block Chevrolet engines. The Street Warrior manifold is 3-1/2" in the front and 4-1/2" in the rear and has a power band from idle - 5500 RPM. The Speed Warrior manifold is a high rise that is 4.19" in the front and 5.27" in the rear and has a power band from 1500-6700 RPM.

Intake Manifold Heat Plate

Installing aftermarket exhaust manifolds or headers on 194-292ci 6 cylinder engines requires an intake manifold heating system for proper performance. The original intake and exhaust manifolds were connected with a heater riser system to keep fuel at ideal atomization temperature. Without this, fuel puddles at idle, causing poor performance, hesitation under acceleration, and fouled spark plugs. This manifold heater plate solves this issue using temperature regulated coolant circulated through the cooling system, rather than extremely hot exhaust gas. CNC-machined from 3/8" heavy gauge aluminum and includes barbed brass fittings and instructions. Made in USA.

Note: Gaskets and mounting hardware not included.

Intake Manifolds

E5419

Three-Deuce Intake Manifold

Designed for 1955-86 262-400ci small block Chevrolet engines, this manifold features a balanced 180 degree firing order port runner arrangement, an exhaust gas heat riser, and offers excellent performance potential. Carb center to center: 5-1/2". Accepts E4803 oil fill tube and breather. Made in USA.

Important: Carb. Recommendations: Rochester 2GC (small 1-7/16" bore) for E5419, Stromberg, Holley, Demco 3 bolt (with 1-1/4" bore) for E5418. Not for HEL.

E2104

Performer Manifolds

Edelbrock Performer manifolds are dual plane, low rise intake manifolds with a patented runner design that you won't find on other brands. This patented design greatly improves throttle response and torque over a wide RPM range, especially from idle through the mid-range. Manifolds are offered in EGR and non-EGR versions for most GM V8s, and most Performer intakes are 50 state street legal when used with the correct carb and application. Made in USA.

1955-86 Small Block

Important: Will also fit 1987 and later stock aluminum cylinder heads. Will not fit Chevrolet Bow Tie cast iron cylinder heads.

Natural Finish

E2101	262-400ci	non-EGR	197.99 ea
E3701	262-400ci	with EGR	272.99 ea

1987-95 Small Block with Cast Iron Heads

-------	-----------	----------------	-----------

E7101

Performer RPM Manifolds

Performer RPM manifolds are dual plane, high rise intake manifolds with a 180 degree firing order to produce incredible top end horsepower while retaining good throttle response. Their larger plenums and runners match the free flowing exhaust, and high lift cams and other modifications of a high output engine. Intended for high-performance street or competition engines that run up to 6500 RPM. Not intended for emissions controlled vehicles. Made in USA.

Engine Components

Small Block Heads

E60719

1955-86 Small Block Performer Heads

Designed for 1955-86 small block Chevys, these heads have the same powerful design and combustion chambers as the straight plug Performer RPM heads plus an exhaust crossover passage for emissions equipment compatibility. These are 50 state street legal heads. Performer heads with 64cc combustion chambers improve performance and retain stock compression ratio on 1970 and earlier small blocks. Hardened pushrods required. Made in USA.

Important: When using hot air choke carburetors and Performer manifolds with these heads, choke kit E1932 is required. When using stock rockers on these heads, 100" longer pushrods are required. These heads may not be used on engines with less than 4" bore except with cams having less than .450" valve lift.

Note: Shipped overweight.

1987-95 Small Block Performer Center Bolt Heads

Designed for 1987-95 5.7L Chevy engines (except LT-1, LT-4, and LT-5) originally equipped with center bolt valve covers and the 1987 and later intake manifold pattern. The high velocity intake runner is designed to work with either TBI or TPI systems. The 60cc combustion chambers maintain stock compression ratio when used with the recommended gaskets. These are 50 state street legal heads. Hardened pushrods required. Available in straight plug configuration only. Made in USA.

Important: When using stock rockers on these heads, 100" longer pushrods are required. These heads may not be used on engines with less than 4" bore except with cams having less than .450" valve lift.

Note: Shipped overweight.

1955-86 Small Block Performer RPM Heads

Designed for non-emissions 1955-86 small block Chevys. Performer RPM heads with 64cc combustion chambers improve performance and retain stock compression ratio on 1970 and earlier small blocks. Available in straight plug configuration to clear all types of exhaust headers or in angled plug configuration. Hardened pushrods required. Made in USA.

Important: When using stock rockers on these heads, 100" longer pushrods are required. These heads may not be used on engines with less than 4" bore except with cams having less than .450" valve lift.

Note: Shipped overweight.

E5087

E-210 Small Block Cylinder Heads

The new E-210 cylinder head for small block Chevy engines features larger runners for increased airflow, revised exhaust ports and larger diameter springs for higher lift camshafts, making them ideal for a spec series racer and larger displacement engines. The exhaust port flange is in the stock location to allow for the use of off-the-shelf headers and hardware, while the enlarged valves and ports support the power needed to compete at engine speeds up to 6500 RPM. The E-210 cylinder head is capable of supporting more than 500 naturally aspirated horsepower, and even more in forced induction applications. Made in USA.

Big Block Heads

60459

1965-90 Big Block Performer RPM Oval Port Heads

Designed for non-emissions oval port big block Chevys. The unique intake port design produces flow close to rectangular port heads, but with the smaller port size and velocity of an oval port for excellent seat-of-the-pants performance and crisp throttle response. The semi-open chamber design maximizes combustion efficiency with streetable compression ratios. The stainless steel 2.19" intake and 1.88" exhaust valves have smaller than stock 11/32" valve stems to promote excellent flow and lighter valve weight. The deck surface and water jackets were specially designed to work with all big block Chevy engines. Heads include high-quality ARP rocker studs, bronze guides, and hardened ductile iron valve seats. Hardened pushrods required. Made in USA.

Note: Shipped overweight.

E8551	1965-90	BB head bolt set (for Edelbrock heads only)		249.99 set

1965-90 Big Block Performer RPM Rectangular Port Heads

Performer RPM rectangular port heads have specially designed intake and exhaust ports for increased flow and velocity over stock big block heads. These heads feature a highly efficient 118cc open style combustion chamber and high velocity 315cc long 500cc short intake ports. Designed for street/high-performance big blocks operating from 2500 to 7000 RPM. Stainless steel hardened tip 2.19" intake/1.88" exhaust valves have 11/32" valve stems for excellent flow and lighter weight. Heads include top quality ARP rocker studs, bronze guides, and hardened ductile iron valve seats. Hardened pushrods required. Made in USA.

Important: The spark plug has been moved closer to the center of the bore and will interfere with high dome pistons designed for stock Chevy open chamber heads.

Note: Shipped overweight.

KWP631

1967-68 Z28 302 Hypereutectic High-Performance Pistons

Precision machined high-performance pistons with original dome design and floating wrist pin for 2nd design 1968 and 1969 stock compression 302 engines (1:1:1 with 64cc heads). These hypereutectic pistons will also fit 1967 and 1st design 1968 engines with no modifications, and are available in standard, .030", .040", and .060" overbore sizes. Cast with 16-18% silicon alloy, and T-6 hardened for performance applications, new tooling was specifically made for these pistons featuring an exclusive computer designed under structure allowing dome machining (0.143") to safely reduce the compression ratio to 10:1 while maintaining balance. Wrist pin and spiro-lock retainers are included. Individually plastic sleeved after factory sorting in sets of eight by size and weight to balance and blueprint tolerances (+/- .0004" and 1.5 grams or better). Warranted for 2 full years in street cars. Set of 8 pistons with pins and locks.

Note: Piston rings not included. Not recommended for extreme performance engines.

Your Choice of Four Convenient Sets to Meet Your Specific Needs!

Important: On small block applications, High Energy™ Cams may be used with stock valve springs and lifters. However these components must be in good operating condition. In order to protect your camshaft warranty and for maximum performance benefit, we recommend replacing stock valve springs and lifters with a high-performance set from Classic Industries.

A — Camshaft Only

The camshaft only set includes camshaft, instructions, assembly lube and decal.

B — Cam and Lifters

Order the cam and lifter set to add a matched set of lifters to your camshaft.

C — Small Set

Order the small set for cam and lifter set plus timing chain and gear.

D — Full Set

Full set includes cam, lifters, timing chain and gear valve springs and retainers, valve locks, valve stem seals.

High Energy™ Cams for Your Daily Driver!

All High Energy™ designs are totally streetable cams. They will produce 10 to 30% more power than a stock cam throughout the RPM range. Each cam has a particular RPM range in which it works best. By selecting the cam that best suits your driving needs, exceptional power increases can be expected. High Energy™ Cams work great for everyday driving without the "bad" side effects normally

found with other cams. High Energy™ cams produce more power, are more efficient, and do not affect the engine's idle characteristics to the point of making your car undrivable. High Energy™ Cams will not affect any vacuum or power accessories such as power brakes, air conditioning or steering.

CAMS for your High-Performance Street Machine!

The Magnum™ Cam is a great cam for high-performance driving in street machines. Provides 30-70% more horsepower and a rough and ready to rumble idle in small block or big block Chevy applications. The Magnum™ will not affect power accessories, but should be used with headers. This is the perfect cam for cruising.

Xtreme Energy™ Cams are Comp Cams' series of hydraulic cams.

They are designed to take advantage of the latest improvements in valve train components and the newest developments in camshaft design. Xtreme Cams can be used in any street or street/strip application where both throttle response and top end horsepower are desired. Increases horsepower from 20-70% over stock.

Full Set — includes camshaft, lifters, chain set, valve springs, valve spring retainers, valve locks, valve stem seals, assembly lube, instructions and decals.

For Computer Controlled Engines!

If you have a late model computer controlled engine, you have to be VERY CAREFUL when selecting a high-performance aftermarket cam! The wrong cam could "throw off" the computer, spelling real trouble for your vehicle's drivability and performance.

Comp Cams® has engineered this line of camshafts specifically for these engines, ensuring that you get a camshaft that works WITH your computer, providing exceptional performance and drivability out of your late model Chevy engine!

Camshaft Only

The camshaft only set includes camshaft, instructions, assembly lube and decals.

Cam and Lifters

Order the cam and lifter set to add a matched set of lifters to your camshaft.

Full Set

Full set includes cam, lifters, timing chain and gear valve springs and retainers, valve locks, valve stem seals.

Cams for Your TBI/Crossfire or Carbureted Late Model!

Designed for use with throttle body, or crossfire injected and carbureted 305ci engines. Your choice of 3 sets to suit your specific needs. Camshaft only, Cam and lifters or full set. The full set includes: camshaft, lifters, chain set, valve springs, valve spring retainers, valve locks, valve stem seals, assembly lube, instructions and decals.

Cams for Your 1987-98 Tuned Port Injection Engine!

Designed for use with TPI 305, 350ci engines (except LTI and LTI4). This cam is designed for 1987-98 engines originally equipped with hydraulic roller camshaft. Your choice of 3 sets to suit your specific needs, camshaft only, cam and lifters or full set. The full set includes: camshaft, lifters, chain set, valve springs, valve spring retainers, valve locks, valve stem seals, assembly lube, instructions, and decals. Applications are available for use with stock computer or modified computer.

Important: This cam will not work with stock valvetrain components. To retain your camshaft warranty and prevent damage to your engine, you must replace the stock components with a matched set from COMP CAMS®.

Performer Plus Camshaft Sets

Designed for optimum torque from the low end to the mid-range, Performer® Plus camshaft packages match with Performer® manifolds for vehicles operating from idle to 5500 RPM. They are smooth idling cams that provide for a major improvement in throttle response and torque. All camshafts come with hydraulic lifters, assembly lube and instructions. Most Performer® cams are 50 state street legal. Made in U.S.A.

Note: *These cams are 50 state legal. **Not for use on 1965-66 396 or 427 Chevy's requiring a ground rear cam journal.

Performer RPM Camshaft Kit

Designed for street high-performance applications, Performer® RPM cams provide power from 1500 to 6500 RPM. These hydraulic lifter camshafts are dyno-matched to Performer® RPM manifolds for high RPM horsepower while maintaining acceptable low end torque. With 10-12 inches manifold vacuum at idle, Performer® RPM cams have more lift and duration than most street camshafts.

Gasket Sets

Replacement Engine Gaskets

If you have a Chevy engine to reassemble, you will need new gaskets. Made from durable materials that meet or exceed OE specifications, these gaskets are perfect for stock or mild performance vehicles. Sets include gaskets for cylinder heads, intake, exhaust, valve covers, oil pan, timing cover, and water pump. Valve seals, rear main seals and front timing cover seals are also included, along with all necessary gaskets and seals for their listed applications. Individual gaskets are also available. Sets do not include carburetor or FI intake plenum gaskets.

1958-90 Intake Manifold Gaskets

These gaskets are matched to Edelbrock Performer, Performer RPM and Victor Jr. cylinder heads and manifolds and designed to optimize performance and flow. New micro-pore synthetic fiber composite construction makes these gaskets impervious to most chemicals with high recovery under compression. They will conform to imperfections on sealing surfaces at lower flange pressures and include a nitrile bead around each port opening for a durable seal. Made in USA.

Performance Head Gaskets for Chevrolet Engines

Mr. Gasket head gaskets are one of the most advanced, tested and proven in the performance market today and earned the respect of many professional engine builders. A variety of gasket materials are available to meet your specific needs.

Mr. Gasket Ultra-Seal
 The Ultra-Seal head gasket has a five layer composite construction and is coated with high temperature silicone to ensure seal of engine fluids. It's graphite core has excellent thermo-conductivity; transfers heat away from hot spots in head to coolant passages, preventing gasket burn out. The Ultra-Seal head gasket provides excellent stability, compressibility, high temperature endurance and will not Brinell (indent) aluminum cylinder heads.

.028" Comp. Thickness	
71134 1955-91 205-350, 4.130" bore	46.99 ea
.038" with Steam Holes	
75801 1970-80 400, 4.190" bore	48.99 ea

.038" Comp. Thickness	
75804 1991-99 454-502, 4.520" bore	55.99 ea

Mr. Gasket MLS (Multi-Layered Steel)
 The MLS head gasket is manufactured from Viton rubber coated stainless steel layers and is stress formed embossment seal to ensure cylinder pressure. The MLS head gasket provides excellent stability and reduces cylinder bore distortion. Ideal for supercharged, turbo charged, nitrous and extreme compression ratios.

.040" Comp. Thickness	
73130 1955-91 283-350, 4.060" bore	88.99 ea
73131 1955-91 283-350, 4.125" bore	88.99 ea
73132 1955-91 283-350, 4.165" bore	83.99 ea
73133 1955-91 283-350, 4.200" bore	85.99 ea
73140 1992-97 350 LTI, 4.040" bore	88.99 ea
73141 1992-97 350 LTI, 4.100" bore	88.99 ea

.054" Comp. Thickness	
73146 1997-03 346 LS1, 4.125" bore	88.99 ea
73144 1997-03 346 LS1, 4.160" bore	88.99 ea

Mr. Gasket Steel Shim
 The Steel Shim head gasket is manufactured from .020" steel shim stock and is stress formed embossment seal extreme cylinder pressure. Made thinner than OE head gasket, increases engine compression and coated with high temperature silicone to ensure seal of engine fluids.

Note: Do not use with lightweight 305 heads.	
.020" Comp. Thickness	
71130 1955-91 283-350, 4.100" bore	25.99 ea
71131 1965-90 396-454, 4.370" bore	25.99 ea

Mr. Gasket Copper (Dead Soft)
 The Copper head gasket is manufactured from dead soft solid copper. Provides excellent stability and reduces cylinder bore distortion and can be used with or without stainless steel o-rings. The Copper head gasket is ideal for supercharged, turbo-charged, nitrous and extreme compression ratios.

Note: Do not use with lightweight 305 heads.	
.020" Comp. Thickness	
71052 1955-91 283-350, 4.140" bore	63.99 ea

RTV Gasket Maker

Makes reliable formed in place gaskets that resist cracking, shrinking and migrating. Coats prep gaskets to increase reliability. Resists auto and shop fluids. Great for use on valve covers, intake manifold end seals, timing covers, water pumps, and thermostat housings. 3 oz. tube.

S80022	blue #6B	3.99 ea
S81160	red #2B	4.99 ea

Ultra Copper Gasket Maker

For use with turbo-charged engines or high-performance models. The most advanced, hi-temperature silicone gasket available. Sensor safe, low odor, non-corrosive. Outstanding oil resistance and joint movement values. Temperature range -75 to 700 degrees F. Intermitent. Recommended for pre-1980 six cylinder and V8 engines. Great for use on: exhaust manifolds/headers, valve covers, intake manifold end seals, oil pans, timing covers, water pumps, thermostat housings. 3 oz. tube.

S81878	copper #10B	5.99 ea
--------	-------------	---------

Form-a-gasket Sealant

Slow drying, non-hardening sealant designed for sealing cut gaskets and stamped parts. Allows for easy disassembly if required. Has a temperature range of -65 to 400 degrees F. Use where sealing is more important than adhesion. Resists shop fluids and fuels. Great for valve cover gaskets and oil pan gaskets.

S80016	3 oz.	3.99 ea
--------	-------	---------

Super Silicone Sealant

Excellent for use with all types of gaskets. A rapid curing adhesive/sealant can also be used as a sealant between flanges, hose connectors, and similar close fitting parts.

08661	clear	3 oz. tube	10.99 ea
08662	black	3 oz. tube	11.99 ea

Valvetrain Components

Small Block Pushrods

Heat treated 5/16" diameter pushrods with welded ball ends for small block applications through 1986. Includes: 16 pushrods in a clamshell package.

TVL43 mechanical..... 6.99 ea

Stamped Rocker Arm Set

Stamped steel rocker arms featuring long slots for cams that have lift specs higher than stock for additional clearance at the rocker stud. Easy installation requiring no special tools and no fill under stock valve covers. Fits small blocks through 1986 with stock 1.5:1 pivot ratio and 3/8" rocker studs. Set of 16 rockers with pivot balls and nuts, or, add a set of 16 stock length, high-performance 5/16" pushrods with welded ball ends and save.

Note: Check for pushrod clearance and alignment, spring coil bind, piston to valve clearance and valve timing when modifying the valvetrain to exceed factory specs.

66922C 1.6:1 ratio..... 113.99 set

66907C

Early Aluminum Rocker Rockers

The race proven needle bearing fulcrum and roller tip not only unleashes horsepower, they also lengthen valve train component life and reduce wear and tear on valve stem tips. Small block sets include your choice of sixteen 1.5:1 stock ratio arms, sixteen performance enhancing 1.6:1 ratio arms or a mixture of eight 1.5:1 stock ratio arms and eight 1.6:1 ratio arms to allow greater air flow on the intake or exhaust ports, depending on your needs. Big block sets include sixteen 1.7:1 ratio arms. Easy installation requiring no special tools. Applications are available to fit small blocks through 1986 with 3/8" or 7/16" rocker studs and big blocks through 1984.

Note: Check for pushrod clearance and alignment, spring coil bind, piston to valve clearance and valve timing when modifying the valvetrain to exceed factory specs.

66936 for 7/16" studs 25.99 set

225050

Lifter Valley Oil Baffle

This aluminum lifter valley baffle simply snaps into place in the lifter valley, shielding the bottom of the intake manifold from hot oil to keep incoming air cool and dense. It also keeps excess oil out of the valve covers and holds lifters in their bores in case of pushrod or rocker arm failure.

Note: Due to minor variations in block castings minor trimming may be required. Not for use with roller lifters.

225050 SB baffle 50.99 ea
225100 BB baffle 50.99 ea

Valvetrain Oil Deflectors

Use this lightweight aluminum deflector to redirect oil from your small block Chevy pushrods directly to the rocker arm fulcrum balls for better lubrication, less wear and longer valvetrain life. Mounts easily to stock rocker arm studs with the supplied hardware. Sold in pairs.

Note: Installation requires polylocks and tall valve covers.

267700 SB oil deflectors 40.99 pr

Aluminum Stud Girdles

Aluminum stud girdles are designed to reduce flexing of the rocker arm studs and help reduce part breakage under high stress. For use on small blocks through 1986 with full roller rockers. Includes 2 girdles and 16 specially designed poly locks.

66950 for 3/8" studs 119.99 set
66951 for 7/16" studs 112.99 set

ARI35711

Rocker Arm Studs

ARP high-performance rocker arm studs for Chevrolet small block and big block engines. Made of 8740 chromoly forgings and heat treated to 180,000 psi. Excellent for E-T bracket racing, limited rule oval track competition and street use. Tip ground flush for optimum adjuster seating. Available in 3/8"-24 and 7/16"-20 with an effective length of 1.750". Set contains 16 rocker arm studs. Made in USA.

Attach Your Oil Pan Like a Pro!

Undoubtedly the most professional method of attaching an oil pan is through the use of Milodon's pan stud and nut set which includes heat treated studs with rolled threads and special nuts with built in serrated wash face. The set provides easy pan installation, prolongs gasket life and the special serrated nuts guard against pan loosening during operation.

1968-79 Stroker Replacement Oil Pan

These stock replacement oil pans feature a distinctive gold-plating that is not only cosmetic, but also provides long lasting protection against corrosion, inside and out. Every pan is 100% leak checked and block checked to assure the high standard of quality that Milodon is famous for. Flat, unwarp pan rails and proper bolt hole alignment provide for a fit and function that is unmatched in the industry. All pans are specifically designed for use only with Milodon gaskets, sold separately. Sold separately is Milodon's "crushproof" gasket seal set, item #40100 for 1955-85 small block or item #40200 for 1964-90 big block. Also offered is Milodon's new 1 piece gasket item #41000 for 1955-85 small block or item #41001 for 1986-02 small block. For use with original stock oil pickup screen also sold separately.

Street/Strip Dipstick

This dipstick assembly has unique sleek design, as well as many functional benefits. All dipstick hardware is CNC-machined from billet stainless steel. Fittings, stick, and hose are all stainless steel so they will stay bright and rust-free even with the use in an everyday driver. It uses an o-ring sealed top to positively seal against water or dirt and provides a very efficient seal for race cars running an internal vacuum pump or vac-up-pan system. Made in USA.

MOROSO

Small Block Rear Seal Adapter

Planning to use an older style crankshaft in a small block Chevy engine newer than 1986? You'll need this billet aluminum adapter to convert to the original two piece rear seal design. Available for 1986 or newer style oil pans with the driver side dipstick or for pre-1980 oil pans with the passenger side dipstick. Includes installation hardware.

238315 adapter for 1986 or newer 224.99 ea
238415 adapter for pre-1980..... 250.99 ea

Chevrolet V8 Oil Pump Primer

Don't start your engine after a rebuild or major engine disassembly without first making sure there is oil at all the critical friction points such as main, rod and cam bearings, rings and cylinders, as well as the lifters and camshaft. Starting your engine without any oil in these places can create the need for another engine rebuild. This oil pump primer can help get oil to all of these crucial areas before you start your fresh engine. Simply drop the oil pump primer down your distributor opening into the oil pump drive, attach a drill motor, and spin up the oil pump. It's that simple!

66896 with bushing 229.99 ea

1964-75 Small Block Oil Pan Baffle

This semi-circular oil splash shield (windage tray) separates the oil in the pan sump from the rapidly spinning crank assembly. It reduces aeration of the oil, aids in oil control and minimizes oil slosh under hard braking or quick turns.

G7287 1964-75 small block 40.99 ea

1968-92 Oil Filter Adapter

Genuine GM replacement oil filter adapter for all 1968-92 small block and big block models. The adapter is essential because the oil filter attaches directly to this item. The adapter also includes the filter bypass valve.

G7300 1968-92 V8 62.99 ea

1964-72 Oil Filter Connector

Correct replacement of the connector that installs on the engine block which the oil filter cartridge attaches to. Improperly fitted oil filters can cause engine problems and make for a nasty cleanup. 13/16"-16 x 1/2" on one end, 1"-12 x 7/16" on the other.

G9147 1964-72 10.99 ea

Oil Pan Battery Cable Clip

OER® reproduction of the original oil pan battery cable clip designed for 1965-74 Chevy II/Novas models. Manufactured in stamped steel with a plastic coating that protects the cable. Installs between the oil pan bolt and the oil pan to guide the battery cable to the starter. Helps to keep the battery cable in place.

C2555 6.99 ea

Magnetic Oil Pan Drain Plug

A magnetic drain plug is cheap insurance for a high-performance engine. This plug will catch and hold small pieces of metal before they cause damage. Fits all V8 engines. 1/2"-20 magnetic.

ML17000 Milodon 5.99 ea

No-Mess Drain Plug

Replacement oil pan drain plug designed to help eliminate the messy aspects of draining your oil. Includes a special gasket on the end of the plug to help keep the oil where it belongs while draining.

66960 1/2"-20 5.99 ea

Oil Pan Drain Plug Gasket

This is a correct GM replacement gasket which is used to seal the oil pan drain plug and keep it from leaking.

1963-64 Road Draft Tube Mounting Set

Hardware and gaskets to mount the road draft tube on your early pre-smog classic, or to plug that hole in the back of your block when switching to a PCV system. Includes: bolt, washer, 2 gaskets as pictured. DMK001 1963-64 all V8..... 10.99 set

Oil System Components

New!

Engine Oil Coolers

Engine oil is designed to act as a coolant as well as a lubricant for your motor. If the engine oil is allowed to get too hot, horsepower drops, varnishes form, and the oil starts to break down, which can lead to premature engine wear. Flex-a-lite heavy-duty oil coolers can help prevent this by keeping oil temperatures down, helping to ensure longer-life to engines and components, and reduce the stress created by high-performance engine modifications. Also suitable as a heavy-duty transmission fluid cooler. Includes -8, -10, and -12 interchangeable AN fittings with o-rings.

Important: Depending on application and setup, additional fittings or adapters may be required.

Note: Dimensions: width = 11"; depth without fan = 1-3/4", with fan = 4-1/4"; variable height, see height below in the line listings. *Dual 6-1/2" fans.

7/8" - 14 Fine Thread Fitting

15503	1962-79	V8	92.99 ea

Oil Bypass Eliminator

An oil bypass valve lets oil bypass the filter if pressure gets too high or the filter becomes plugged. For performance engines that often see increased oil pressure at high RPM, this can cause more damage than it prevents, due to the frequent circulation of unfiltered oil. This anodized billet aluminum adaptor eliminates the bypass valve, preserving your expensive engine. For small block applications.

New!

Oil Catch Can

Protect your muscle car or truck from potentially harmful oil blow-by with this oil catch can by Mishimoto. Internal baffles within the catch can trap the oil and moisture in the gases coming from the PVC valve while recycling the gases back into your engine thus preventing sludge build-up. The 16 oz. catch can is made from aluminum and can be mounted virtually anywhere under your hood with the included hardware.

MISHIMOTO

FilterMag Oil Filter Magnet

FilterMag's powerful rare earth magnets trap and hold wear inducing metal particles smaller than 40-microns down to 1-micron that the filter cannot stop. The super strong magnetic force holds FilterMag to the canister. FilterMags are reusable and will reduce maintenance costs by extending the life of your oil. Fits steel oil filter canisters from 2.9" to 5.8" in diameter. Flat style FilterMags are also available for automatic transmission pans and differential covers.

Oil and Oil Filters

New!

PF454CL

AC Delco Oil Filters

Genuine AC Delco oil filters for Chevrolet engines. Designed with a steel core and a traditional mounting plate, each filter offers enhanced efficiency and consistent flow management to provide exceptional filtering performance for classic vehicles. Features a anti-drain back valve to keep the oil cooler full of oil (on cooler equipped vehicles). This way oil is in the cooler upon start up without waiting for the cooler to refill and pressurize. The Classic Series filters offer you the original size and specifications of the original filter, but with a modern day, blue AC Delco canister. The Professional Series is the modern day, blue AC Delco filter currently being offered by GM. Fits 6 cylinders as well as small block and big block engines as indicated.

HR Conventional High-Performance Oil

From the leader in racing lubricants, now comes a oil designed specifically for high-performance engines. Joe Gibbs Driven HR Oils build on our original formula while adding critical additives to protect engines when they are not running. Our formula uses the same additive technology developed for the U.S. Military for storing and shipping. It protects against rust and corrosion so your engine is protected even when it's not running. It features higher levels of Zinc than regular passenger car oils to deliver proper anti-wear protection for older style pushrod and flat tappet engines.

Break-In Oil

BR is used by Joe Gibbs Racing to break-in and dyno all their NASCAR Nextel Cup and Busch Series engines. This petroleum based oil provides superior break-in properties for flat-tappet engines. The special additive package promotes ring seal and provides maximum protection for cams and lifters during initial break-in. BR can also be used to break in roller cam engines, and as a general purpose dyno oil. Available in 5W30 or 15W50 weights.

Hot Rod Vintage Car Oil

Joe Gibbs Driven Hot Rod Oil is designed specifically for hot rods, street rods, and vintage cars. This formulation is used by thousands of racers while adding critical additives to protect engines. Designed specifically for older style historic car and hot rod engines, Joe Gibbs Driven Hot Rod Oil features high levels of zinc for wear protection as well as U.S. Military grade rust and corrosion inhibitors for storage protection.

Synthetic Oil

Delivers superior protection and improves performance in four cycle gasoline and diesel engines. Increase horsepower and torque, save fuel and reduce heat, wear and emissions. It has unsurpassed oxidation stability that allows for extended oil drains and fewer oil changes, which saves time, money and reduces the impact on the environment. Royal Purple's motor oils for passenger cars and trucks are API licensed.

Performance advantages come from a blend of synthetic oils plus Royal Purple's proprietary Synerlec technology. Compatible with other mineral and synthetic motor oils.

Engine Break-In Oil

Royal Purple has developed an engine break-in oil formulated to allow optimal ring seal and protect rotating assembly components from initial start up wear. Combines highly refined mineral oil, preferred for engine break-in, with advanced additives containing high levels of zinc and phosphorus to optimize protection in flat-tappet and roller engines. Does not require the use of any other chemical additives. Royal Purple recommends using their high-performance motor oils after the engine is broken in for maximum engine performance.

Ignition Products

Pro-Billet Distributor

These distributors feature a flawless lightweight CNC-machined 6061-T6 billet aluminum housing and a polished steel shaft that receives a QPO, or Tuffride coating. This process produces a durable finish that reduces friction and resists corrosion. To accurately guide this shaft, MSD uses a sealed ball bearing located at the top of the housing. At the bottom of the housing, an extra long sintered bushing controls the shaft. This combination keeps the shaft spinning smooth and accurately throughout 10,000+ RPM. Other features include an iron drive gear, Rynite™ distributor cap with brass terminals and a high output magnetic pickup to trigger the ignition. Choose from the "standard" Pro-Billet distributors that utilize the MSD 6, 7, 8, or 10 series ignition control box or from our "Ready-to-Run" distributors that are internally controlled. "Ready-to-Run" distributors do not require an external controller and are the "Plug and Play" alternative to more expensive computer controlled systems. Made in USA.

6A/6AL Ignition Control

MSD's new Digital 6A is the base model of the capacitive discharge multiple spark 6 Series design. Features the same footprint as the traditional 6A and 6AL, but with a lower profile for a sleek look. Like all MSD 6 Series Ignitions, the 6A will work with virtually any vehicle as long as it has a 12-18 Volt electrical system. It can be triggered using breaker points, a magnetic pickup or the output of an electronic amplifier. All necessary parts and wiring instructions are included. Will work on 4, 6, and 8 cylinder engines. The new Digital 6AL shares the same proven circuitry of the Digital 6A with the addition of a built-in adjustable rev limiter with two top mounted rotary dials. The combination of powerful sparks with the safety of a rev control is what makes the Digital 6AL the most popular ignition control in the world.

64253 Digital 6AL black.....	305.99 ea

Ignition System Coil

The following Blaster coils share the same special windings and high voltage output as the other Blaster 2 coils, but do not include a ballast resistor. When you are using an MSD Ignition Control, the ignition is responsible for delivering the voltage to the coil so a ballast is not necessary. The Blaster 3 coil features an extra tall tower design to improve the coil wire attachment and spark isolation and is supplied with a 90 degree terminal and boot.

8202 Blaster 2.....	59.99 ea
8223 Blaster 3.....	61.99 ea

Blaster Performance Coil

With a stock points style ignition, a ballast resistor must be placed in-line with the positive terminal of the coil. The following Blaster coils are supplied with a 0.8 Ohm ballast resistor plus a terminal and boot to fit most applications. Mallory Unitek applications also require the ballast resistor. Available in chrome or red.

Important: The ballast is not necessary if an MSD 6 or 7 series ignition control is being used with the points distributor.	
8200 Blaster 2 chrome.....	62.99 set
8203 Blaster 2 red.....	67.99 set

Features:

- Timing based on engine RPM and gear value
- Aided individual cylinder timing based on gear or lime
- Five retard stages for nitrous
- Four steps of RPM limits for burnout, spool, launch and over rev
- Output switch set on RPM, pressure or time
- Shift light settings for each gear
- Ignition data acquisition accepts multiple runs
- Crank trigger system highly recommended

New! Power Grid Systems

The Power Grid System is the next evolution of programmable ignition controls. The grid incorporates an efficient 32 bit micro-controller and an all new software program, called MSD View, and is USB compatible. The Power Grid Controller is the brains behind the entire system and can be used with any MSD ignition or the Pro Mag to provide advance ignition tuning capabilities. While it is compatible with all MSD boxes, the new Power Grid System Controller has been specially designed to mount to the Power Grid-7 ignition box sold separately. Includes: View software, wiring harness, micro-SD card and mounting hardware.

Note: To use any modules with the Power Grid Ignition System (7720 and 7730), users MUST plug the modules into a 4 Connector CAN-Bus Hub (7740) to be attached to the Power Grid System Controller.

Blaster SS Coil

The high efficient E-core windings are designed to produce high amounts of current without sacrificing the voltage output. In fact, when used with an MSD 6 Series Ignition, the Blaster SS produces 300 milliamperes with a maximum voltage output of 40,000 Volts. The secondary windings are wound on a segmented bobbin which reduces the chance of voltage breakdown between the primary and secondary windings. For more protection, these windings are encased in a polyurethane compound for complete protection against vibration. The Blaster SS features brass terminals and a sturdy Rynite housing. It is supplied with a 90 degree boot, terminal and vibration mounts.

Coil Wire

If you're changing a coil or cap to a new design, you could find yourself searching for different terminals for the coil wire. MSD offers these 2 style coil wires to make the change easy. Also, remember that the coil wire sees 8 times the use of each plug wire so changing the coil wire as a maintenance through the race season is recommended.

Important: *18" long, straight female socket coil terminal and boot on one side with a straight female socket distributor cap socket terminal and boot on the other.
**18" long, 90 degree male coil terminal and boots are installed on both sides to connect to an HEI style terminal. A terminal adapter is also supplied to adapt to a female socket distributor cap.

Noise Filter

If you experience radio noise after installing the MSD Ignition, you may need to install an MSD Noise Filter. Electro Magnetic Interference (EMI) is occasionally generated from the MSD power cables and can be easily eliminated by installing the Noise Filter on the heavy power supply wires coming from the MSD. It is recommended that the Noise Filter be used on installations with the MSD 7 and 8 Series Ignitions to prevent this interference. Includes noise filter cover. Made in USA.

8830 MSD noise filter with cover..... 51.99 ea

2-in-1 Universal Wire Set

These universal spark plug wires sets are made from MSDs super conductor performance wire. Universal wire sets have only the spark plug boot and terminal installed. These boots and terminals are available in your choice of a 90 degree boot or a multi-angle boot. The distributor caps and terminals are supplied, but not crimped on. Both sets include terminals for engines with either the early style (socket) and late style (HEI) distributor caps. The wires are extra long so they can be cut-to-fit any application. Each set includes a MSD mini-stripper crimper for easy installation. Available with wires in either black or red.

90 Degree Angle
31233 black..... 129.99 set
31239 red..... 129.99 set

Multi-Angle
31193 black..... 129.99 set
31199 red..... 129.99 set

6 Series Vibration Mounts

In performance applications such as off-road, racing, and marine applications, strong vibrations can be transmitted through the chassis to the MSD unit. To protect the MSD from excessive vibration, we recommend this vibration mount set.

8823..... 19.99 set

Spark Guard

MSD's spark guard is a dielectric grease that solves many common ignition troubles. It stops voltage leaks, causes boot removal, prevents moisture buildup inside the spark plug wire boots, and even helps protect against radio noise (EMI). It also simplifies the installation of MSD universal spark plug wire sets. Spark guard will not dry up or harden so it will retain its spark isolating capabilities indefinitely.

8804..... 22.99 ea

Tachometer Adapter

MSD tach adapters will correct the operation of most voltage triggered tachometers or fuel injection systems that do not work directly off the tach output terminal of the MSD ignition unit. If you are triggering an MSD Blaster, 5, 6, SCL, or 7 series ignition with its white wire or points terminal, you will need item #8910 or #8910E. For applications using green and violet wires for magnetic pickup input, use item #8920.

Important: *For non-current limiting ignitions, originally equipped with a ballast resistor. **For use on current limiting ignitions, not originally equipped with a ballast resistor.

Digital Shift Light

MSD universal and easy to use programmable shift light. Can be installed with distributors, coil packs or on 1 cylinder engines up through 12 cylinders on stock ignitions or high power aftermarket systems. Programmable from 100-15,900 RPM down to 10 RPM increments and features six bright LEDs for easy to view animation. Includes GMR pickup.

89631 all models..... 219.99 ea

Timing Lights

These timing lights are designed and built for superior accuracy and ease of use. Solid state circuitry provides stable and accurate timing signals up to 8000 RPM. A battery powered version, accurate up to 5000 RPM, is also available. Each durable lightweight timing assembly has a super bright strobe that makes timing adjustments simple, even in direct sunlight. Both include a detachable inductive pickup for easy storage.

Power Pack Ignition System

This ignition system includes everything needed for a dependable high-performance ignition in one package. The system included a Pro Billet distributor which features a billet aluminum housing with adjustable collar, sealed ball bearings, mechanical advance with extra springs for multiple curves and a multi-polymer distributor cap with brass contacts. The system also includes a 50 kV power coil and a high output digital 6AL multiple spark capacitive discharge power box with adjustable rev limiter.

Note: Not for use with 348-427 W-series engines.

1957-74 E-Spark Conversion Set

Are you tired of constantly having to adjust and replace points in your distributor? Eliminate those pesky points altogether with Mallory's new, low cost E-Spark conversion sets. This self-contained conversion set fits neatly within a stock GM or Mallory distributor cap, so it looks like original from the outside. Thanks to specialized electronic circuitry and an infrared signal, you'll never again have moving parts to wear out, and you gain better performance, drivability, and throttle response, plus improved fuel efficiency!

Unilite Conversion for GM Distributors

Unilite conversion sets for point distributors put an end to high maintenance point ignition systems by installing a proven Mallory Unilite ignition conversion set. By utilizing specialized electronic circuitry and an infrared signal, ignition timing is stable from 1 RPM through 10,000! Features include more accurate ignition timing than any other type of system, improves performance and fuel efficiency, easy-to-install with simple hand tools, reduced maintenance (never change points again) and latest thermal clad based surface mount construction for maximum dependability and long-life.

Power Coil

The TSP power coil is capable of delivering a longer and hotter spark with up to 70% more spark energy than stock ignition coils. Its convenient design easily mounts to fire walls, core supports and fender wells. It features an aluminum heat sink keeping it cooler for more efficient energy output at lower temperatures. Coils have an HEI style output tower and are rated at 50 kV maximum voltage with 260 mA peak current with 0.35 Ohm primary resistance. Coils include installation hardware, a coil wire boot with terminal, and a wiring harness.

Performance Ignition

Superstock

Applications: Performance upgrade to OE type/replacement type.

Features: Silicone spark plug boots, yellow, blue, red, and black silicone wire, zinc-plated steel spark plug terminals.

Benefits: Efficient transmitter of ignition energy, popular priced performance, oversized upgrade where OE is 7mm.

Construction: 8mm, 450 degree F silicone and EPDM rubber construction with a fiberglass braid.

Core: Carbon/graphite conductive material, high resistance suppression, fiberglass/Kevlar, 3000-7000 Ohms per foot resistance.

Note: Available in yellow, blue, black, or red. Specify color when ordering.

8mm Superstock Spiral

Applications: Late model coverage.

Features: Color matched silicone spark plug boots, high gloss blue, black, red and yellow wire, stainless steel spark plug terminals.

Benefits: Increased ignition energy due to lower resistance, oversized upgrade where OE is 7mm.

Construction: 8mm, 550 degrees F double silicone construction with a fiberglass braid.

Core: Spiral wound stainless steel alloy conductor, magnetic suppression and semi-reactive material, fiberglass/Kevlar core, 500 Ohms per foot resistance.

Note: Available in yellow, blue, black, or red. Specify color when ordering.

300+ Race Wire

Applications: Race engine configurations.

Features: Silicone spark plug boots, black wire, stainless steel spark plug terminal.

Benefits: Maximum energy to spark plug, heaviest gauge conductor in the industry, 8.8mm oversized racing wire, complete suppression of EMI/RFI (radio noise).

Construction: 8.8 mm, 600 degrees F double silicone construction with a fiberglass braid.

Core: HD gauge spiral wound copper/nickel alloy conductor, magnetic suppression and fully reactive ferrite material, all Kevlar core, 150 Ohms per foot resistance.

EXTREME 9000 Ceramic Wires

Increase ignition energy with these incredibly low resistance severe duty spark plug wires! These 8mm wires are designed for forced induction, HD truck, and racing applications. These wires can withstand up to 600 degrees F while offering a mere 500 Ohm/ft of resistance and complete EMI/RFI suppression. The ceramic plug boots and stainless steel terminals withstand temperatures up to 2000 degrees F. Compatible with both pre- and post-HEI systems.

Important: Universal 8 cylinder sets can be used for 6 cylinder applications.

8.8mm Wire

This ACCEL 8.8mm wire set feature a carbon/graphite element that virtually eliminate RFI noise while providing maximum conductivity for ultimate performance in any race or street application. Double silicon insulation eliminates leakage and misfire.

Applications: Performance street/strip.
Features: 8.8mm oversized wire, oversized 8.8mm silicone spark plug boots, high gloss yellow wire, stainless steel spark plug terminals.

Benefits: True performance upgrade, increased ignition energy due to lower resistance.

Construction: 8.8mm, 550 degrees F double silicone construction with a fiberglass braid.

Core: Spiral wound stainless steel alloy conductor, magnetic suppression, semi-reactive material, fiberglass/Kevlar core, 500 Ohms per foot resistance.

PERFORMANCE IGNITION

467

Performance Ignition

NEVER CHANGE POINTS AGAIN!

by Pertronix

30-Month Limited Warranty

IGNITOR II

Eliminates points and moving parts that wear out, while delivering twice the voltage to the spark plugs over stock to increase horsepower, fuel economy and plug life! Optimal performance can be achieved when used with the Flame-Thrower 40,000 Volt coil. Ignitor is concealed entirely within the distributor so you have no unsightly black box to clutter up your engine compartment. Easily installs in minutes with no complex wiring, is compatible with 12 Volt negative ground systems, and it's smog legal in all 50 states and Canada! Includes a 30-month warranty.

6 Cylinder

PX1181	1957-74	8 cylinder.....	76.99 set

Ignitor II

The Ignitor II electronic ignition goes an extra step beyond for even more power and efficiency! It senses levels of current in the coil, and uses a powerful micro controller to adjust the dwell to maintain peak energy throughout the entire RPM range. As engine RPM and operating conditions change, dwell time is increased or decreased to provide more energy at higher RPM, reducing misfires while improving engine performance. Ignitor II develops nearly 4 times more available energy between 3000 and 5000 RPM, and double the available plug voltage! The Ignitor II's higher RPM performance is maximized when used with the new Flame-Thrower II super low resistance (0.6 Ohms) 45,000 Volt coil, but the system is compatible with any induction coil. It comes with a 30-month warranty and is emissions legal in all 50 states and Canada!

PX91181	1957-74	8 cylinder.....	110.99 set

Ignitor III

Ignitor box performance without the box. The Ignitor III is the most advanced points replacement set. It is literally an ignition box inside your distributor. It features multiple sparks throughout the entire RPM range and a REV limiter accurate to +/- 50 RPM which is set by you with an LED user feedback for rev limit confirmation. The Ignitor III module generates 5 times more spark than points. This means more spark energy creating more horsepower and better mileage. The Ignitor III features include: adaptive dwell which maintains peak energy throughout the entire RPM range, reducing misfires while improving engine performance. Peak current level is reached just prior to spark for maximum energy without the heat buildup, increasing coil performance and module reliability. Legal in all 50 states and Canada. Fits GM V8 single point style distributors.

Note: Not available for 6 cylinder.			
PX71181	1957-74	146.99 ea

50,000 Volt HEI Coil

Pertronix Flame-Thrower 50,000 Volt E-Core coils feature an optimized winding design to maximize spark gap current and available voltage. When treated with the Flame-Thrower module they produce 100% more energy across the spark plug gap compared to the OEM coil. Select the matching Flame-Thrower module for your application to create a proven performance combo!

Note: Replaces OEM coils with the same color wires listed.

- Officially Licensed by General Motors

1962-74 Date Coded Spark Plug Wire Sets

Reproduction Delco Packard plug wires for 1962-74 Nova models. Each wire includes the original style lettering with the working Packard TVR Suppression. All wires are date coded based on the production quarter of the production year. "1-Q" indicates the first half of the production model year and "3-Q" indicates the 2nd half of the production year. Wiring sets are produced for Novas with original exhaust manifolds.

Note: These are not for use with aftermarket type headers or aftermarket manifolds. Wiring may be applicable for use with other manifolds or headers but are not guaranteed to fit. 3-Q dated plug wires may be correct for use on vehicles manufactured in the first months of the succeeding years production.

1965-74 7mm Spark Plug Wires

These Flame-Thrower high-performance spark plug wires were created with the classic car in mind. They are manufactured in original 7mm size jackets to fit stock wiring looms. With no markings or script of any kind on the wire, they maintain a stock appearance yet give you all the benefits of a high-performance wire set including: 2 current paths spiral wound stainless steel alloy winding and carbon impregnated fiberglass center core, low 500 Ohm per foot resistance, silicone jackets to resist high temperatures, moisture, oil and chemicals. They also have EPDM rubber inner insulation for superior heat resistance and prevention of arcing and voltage leaks. Fiberglass reinforcing braid is added for strength and flexibility. Lifetime Warranty. Made in USA.

TAYLOR

Thunder Volt 5.0 Ignition Wires

TAYLOR

Taylor Thunder Volt 10.4mm ignition wires are dyno-tested and proven with increases up to 5 horsepower and 7 pounds of torque. Designed with a Ferrite spiral wound core coated with a blend of copper/nickel bonded with a conductive acrylic coating to provide low resistance at only 40 Ohms per foot with optimum RFI and EMI suppression.

A9720015

TAYLOR

Features a tightly woven heat treated fiberglass braid and a 3 layer 100% Zimplex silicone outer jacket for heat protection up to 600 degrees with a 102,000 Volt dielectric strength. Available in black with gold lettering and low profile color coordinated silicone boots. Universal wire sets include both standard socket and HEI boots with the appropriate terminals. Made in USA.

8.5mm Super

MSD

TAYLOR

Conductor Spark Plug Wires

The MSD 8.5mm Super Conductor is the ultimate performance wire. It's extremely low resistance combined with the ability to suppress electro magnetic interference is a combination that defies the common laws of physics. Less resistance means more energy is going to make it to the spark plug to ignite the air/fuel mixture.

The Super Conductor uses a copper alloy conductor resulting in less than 50 Ohms per foot of wire. This ensures that the most energy possible makes it to the spark plug. This combination is enclosed in a heavy-duty sleeve that will withstand abrasion and high temperatures. Cap off each end with our dual crimp terminals. Made in USA.

Important: *With wires over valve covers.

Ignition Wire Accessories

TT14200

Spark Plug Wire Heat Shield

This heat shield offers spark plug wires and boots the ultimate protection from conductive and radiant heat. The dual purpose sleeving has an aluminized outer surface that reflects 90% of radiant heat, up to 2000 degrees F, with a formulated silica based fabric inside that prevents conductive heat from penetrating.

TT14200 two 6" x 1-1/2" 17.99 pr
TT14250 four 6" x 1-1/2" 39.99 set

TT14263

Plug Wire Sleeves

This unique spark plug and ignition wire protector comes in four colors: red, blue, black, and silver. These dual purpose sleeves enhance performance, reduce misfires, extend plug wire life and will not react with petroleum products. The double wall construction keeps the wire and boot cooler in a high temperature engine. Its universal size fits most boots, is easy-to-install and – most importantly – is non-flammable. Cool It plug wire sleeves can be used in any temperature environment from street vehicles to race cars. Sold in sets of 6.

Street Fire HEI Distributor

Introducing the Street Fire valve line brand of MSD Ignition. Street Fire components will offer a quality designed alternative to the bottom bargain parts that are springing up all over. We're so assured with the quality of our new Street Fire HEI Distributor that we provide a one-year warranty with it! We know the importance of a centrifugal advance in a distributor so our engineers made sure that the Street Fire received an advance assembly with coated weights and welded weight pins (not just pressed in like other models). Another area that you can not afford to scrimp on is with a distributor gear. The Street Fire is fit with the same gear that is used on our Pro-Billet models. The metallurgy of this gear has been refined for years to perform through the harshest conditions. Inside, the ignition module and coil work together to produce a stout spark to light the fuel mixture for great performance. The high voltage is transferred through a new rotor to the brass terminals of the distributor cap and out to the plugs. The Street Fire Distributor is the first product to come from our new value branded ignition line. Made in USA.

Sniper EFI HyperSpark Distributor

Do you need to upgrade your ignition system due to a recent Sniper EFI installation, but have no idea which option is best? This Sniper EFI HyperSpark distributor from Holley Performance is a high-performance billet aluminum distributor that features a unique "noise free" Hall Effect crank trigger with a welded shutter wheel for years of reliable, accurate service. Hall Effect triggers provide a clean RPM signal required for EFI systems like the Sniper EFI. This distributor makes adding timing control to a Sniper EFI system a "Plug and Play" procedure. Includes wire retainer and a patented clear installation cap for an easy installation.

H565300	SBC/BBC	277.99 ea
---------	---------	-----------

Dual Sync Distributor

Holley EFI Dual Sync distributor for small and big block Chevrolet engines. These high-quality "Plug and Play" distributors are constructed of CNC-machined billet aluminum and come with a hardened steel distributor gear. They feature Hall Effect sensors for cam and crankshaft position for sequential fueling operation. The precision machined shutter wheel ensures an accurate RPM signal well beyond 8000 RPM. Designed for simple "Plug and Play" installation with Holley EFI systems.

Note: When utilized with Sniper EFI, ignition adapter H558493 is required.

Distributor Components

Chevy V8 HEI Electronic Distributor

If your HEI equipped Chevy V8 is having problems starting, has a rough idle or the performance is not what it used to be, it could be time to change your distributor. This Genuine GM distributor is specifically designed for 5.7L high output engines. This distributor may be used for most high-performance applications.

With Cap and Rotor

G6000 GM Chevy V8 (black cap) 226.99 ea
66940C Proform brown cap..... 113.99 ea

Without Cap and Rotor

66940WO Proform 78.99 ea

Chevy V8 HEI Electronic Distributor

Aftermarket distributors in your choice of any high-performance color. Each distributor includes a coil and colored cap. For use with HEI V8 engines.

66941BC polished blue cap... 109.99 ea
66941BKC polished black cap 109.99 ea

1964-79 Distributor Hold Down Clamp

Reproduction of the distributor clamps used on GM small and big block engines from 1964-79. Correct replacement for this commonly bent or worn clamp.
K1665 1964-79 SB/BB..... 10.99 ea

Distributor Hold Down Clamp

Ideal to hold distributor in place for accurate timing. This extra bright chrome-plated bracket replaces the original unit. For all small block models.
T4116 1964-79 4.99 ea

Distributor Housing Shims

When an engine block has been decked or heads have been resurfaced, shims are needed under the distributor to maintain correct clearance. If the distributor sits too low, it can cause damage to the oil pump or camshaft. These shims are made to exact GM gasket specs from high impact nylon to ensure a leak free fit. Set contains .030", .060", and .100" thick shims.
226150 Chevrolet distributor shims 7.99 set

Distributor Washer and Gasket

The distributor washer and gasket are an integral part in maintaining proper clearance between the gear and housing assembly. Helps keep the shaft from shifting when properly installed.

G6009 all washer 1.99 ea
3932344 all gasket 1.99 ea

1968-75 Oil Pump to Distributor Shaft

If you are rebuilding your original distributor, then stay with Genuine GM parts.

1962-79 Spark Plugs

E3 has created a spectacular new spark plug that creates the industry's fastest spark growth and fastest combustion pressure rise, meaning it burns fuel more efficiently to give you more power and increased fuel economy. E3's patented design forces the spark discharge from one sharpened edge to another, and projects the spark forward into the combustion chamber, unlike traditional spark plugs, for the most consistent, powerful and efficient burn possible! Sold individually.

1/4" to 3/8" shorter

1962-79 Shortly Spark Plugs

Accel's patented race proven spark plugs are now available in a "shorty" configuration. The overall length of each plug has been reduced 1/4" to 3/8" (depending on the specific spark plug) to gain critical air gap space between the spark plug boot and the exhaust manifold or header tube. The shorter spark plug length also can make it easier to install and remove the spark plugs in certain applications where there is not a lot of room to work with a socket or wrench. Available as a set of 8.

1962-79 Vacuum Advance

A primary component of your vehicle's ignition system is the vacuum advance. The vacuum advance is a mechanism attached to the distributor which moves the breaker point or pickup coil plate when it receives vacuum generated by the engine. Over time, the vacuum advance can become worn or the diaphragm can become brittle and crack causing the vehicle to run poorly.

-------	-------------------	---------

1966 Transistor Ignition Amplifier

Ignition system trouble, one of the most frustrating problems any classic GM owner can experience? Take it to three different mechanics, get three different answers. If you're experiencing strange ignition problems that no one can seem to diagnose, don't rule out the transistor ignition amplifier. This unit heats up your spark to allow your classic to run more efficiently enhancing performance. This is a correct reproduction of the transistor ignition amplifier module. Replaces the original circuit board in amplifier. Fits all models.

32270	1966.....	134.99 ea
-------	-----------	-----------

1964-67 Transistor Ignition Amp Extension

If your transistor ignition amplifier is fine, your harness is intact, and the system still isn't working, the problem may be the ignition amplifier extension. This integral extension runs from the internal circuit board to your amplifier housing connection.

33225	1964-67	35.99 ea
-------	---------------	----------

NV69371

NV67903

1966 Transistor Ignition Harnesses

If replacing your expensive module, be sure to order the new wiring to protect your investment! Fits all models with transistor ignition.

Amplifier Harness

While trouble shooting your ignition system, a more common problem may be the transistor amplifier wiring harness.

NV69371	1966.....	62.99 ea
---------	-----------	----------

Extension Harness

This harness is correctly reproduced with original style GM fasteners as are those listed above. This particular harness connects the ignition switch to the ignition amplifier extension harness listed above, be sure to order in conjunction when replacing your entire system.

CH47102	1966.....	16.99 ea
---------	-----------	----------

Ignition Amp Harness

This harness runs from the starter to the ignition amplifier as described above. A "must have" if you are investing in a new amplifier as well!

NV67903	1966.....	76.99 ea
---------	-----------	----------

Conduit Clip Mounting Bracket

Keep the installation clean and professional looking. The clips can be combined in installation with the universal chrome-plated mounting brackets that allow spacing from fender wells, fire walls or can even be used on the engine. The universal mounting brackets include stainless steel mounting hardware and can be used in many applications.

42555	universal mounting bracket	5.99 ea
-------	----------------------------------	---------

Conduit T-Fitting

Organize your stainless steel conduit with these chrome-plated terminators! These connectors and terminators accent your engine bay while protecting wires and hoses from engine heat, dirt, and debris. Available in three diameters with a common thread size for each to fit the end caps and tees.

42558	T-fitting	7.99 ea
-------	-----------------	---------

Calibrated Ignition Tester

Accurately check for spark in ignition systems without removing the spark plugs from the engine. Attach the spark plug wire to tester end, clamp tester to engine as ground, then crank the engine and test for spark.

1968-80 Genuine GM Rebuilt Starter

AC Delco remanufactured starter motor. Replace your original worn out starter with a Genuine AC Delco starter. Maintain originality along with the reliability of a factory replacement. Aftermarket starters are good but they don't offer a cosmetically correct appearance. Each starter is completely remanufactured and tested before leaving the factory.

Note: Offset bolt pattern for 168 tooth flywheel.

No exchange required

Starter Heat Shield Set

In today's high heat environment, starters take in a lot of damaging heat that destroys the windings of the starter and solenoid. To combat this problem, we offer a non-conductive Mylar surface. The Starter Heat Shield™ will reflect over 90% of radiant heat, adding life to the starter and assuring reliable starts. The Starter Heat Shield™ is a universal set that fits all starters. TT1002 with straps..... 27.99 set

DynaForce Starter

MSD DynaForce starters are designed for severe duty, high compression applications. The 3.4HP motors use a 4.4:1 gear reduction to easily start even an 18:1 engine with a lower current draw than traditional starters. Features a red powder coated finish and nickel-plated solenoids with a three position adjustable mounting block so they can be clocked for easier installation. Small and big block models have a straight mount bolt pattern and work with 153 and 168 tooth flywheels. Made in USA.

Note: LSI/LS7 starter not compatible with GTO LS engines.

Alternators

Internal and External Regulator Alternator Identification Guide

External Regulator	Internal Regulator "SI" Type	Internal Regulator "CS" Type
		
connector socket	connector socket	connector socket
battery terminal	battery terminal	battery terminal
1963-74	1969-85	1986-Present

Clocking Position Identification Guide

The Delco SI series alternators are manufactured so that the rear half of the alternator case can be assembled to the front half of the case in any one of four positions. These positions are referred to as the "clock" positions. Clock positions are determined by viewing the alternator from the rear with the threaded mounting hole (adjusting ear) straight up. With this view, the terminal socket for the two wire, plug-in connector will point to any one of the four available "clock" positions. Straight up is 12 o'clock, to the right is 3 o'clock, straight down is 6 o'clock and to the left is 9 o'clock. Having the different clock positions allows for the alternator to be mounted on the left side or right side of the engine. It can also be mounted right side up or upside down depending on the clock position. This allows for the SI series alternator to be used on many different applications.

Smooth Look Alternator

This is a beautiful new look in alternators. The sharp lines on the back of most alternators have been replaced with a smooth domed surface. The sharp lines around the side have been eliminated and the air vents have been reworked to optimize cooling and surface finish. This chrome alternator is sure to brighten up your engine compartment. This all new alternator will add a custom appearance to your Nova while maintaining a high degree of dependability and performance.

Restore Your Charging System with a Quality Remanufactured Alternator from Classic Industries®!

There are a couple of simple tests you can perform to check your alternator. With your battery fully charged, start your vehicle. Turn on your lights and heater fan. Perform a voltage test from the positive to the negative battery post. The voltage reading should be between 13.0 and 15.3 Volts. If less than 13.0 Volts and your battery connections and alternator belt are good, chances are your alternator needs to be replaced. If the reading is above 15.3 Volts, you probably have a bad voltage regulator.

1962-68 Alternator Brackets for Headers

Exhaust headers often use extra thick flanges and tight bends making it difficult to mount an alternator bracket. These ceramic coated steel alternator brackets mount to the left or right side of the engine using header bolts that surround the front cylinder to allow the alternator to be attached without interference. These brackets close mount the alternator toward the vehicle center line. For those who want to retain the existing alternator position, a matched billet aluminum spacer, offered separately, allows you to retain the original belt. Three spacer styles are offered with either a polished or satin finish.

Note: For 1967-68 models with small block V8 and short water pump.

1962-72 Stainless Steel Fuel Injection Fuel Tank ⚠️

Each tank is hand formed from 304 grade Stainless Steel and TIG welded. All tanks feature a unique baffle system to control fuel tank slosh. Each tank has baffles running front to rear, side to side, and surrounding the fuel pickups to eliminate fuel starvation during acceleration and hard braking. All fittings and mounting flanges for fuel sending units and fuel pumps are CNC-machined from 304 Stainless steel stock to a thickness of 3/8" to ensure a proper seal. All tanks include an installed fuel pump and stainless steel mounting straps with hardware. All tanks have a brushed finish for easy up keep.

Important: Fuel sending unit is not included with tank. A 0-90 Ohm sending unit is required and available separately or any standard universal 5 screw mount 90 Ohm sender (AutoMeter, Stewart Warner etc.)

Note: Shipped double oversize.

1962-72 Fuel Tank ⚠️

These tanks bring modern fuel system technology to your classic muscle car. By placing the fuel pump inside the tank, hot fuel issues such as vapor lock and cavitation are eliminated. We have all heard the horror stories of hot rodders being stuck on the side of the road with a fuel system or an engine that stumbles under braking, acceleration or hard cornering. These are issues related to fuel pump location, plumbing, and lack of proper baffling. You can now have an in-tank fuel pump that is properly vented and submerged in fuel at all times. These new reproduction steel tanks feature a durable silver powder coat finish. In addition, they feature an internally baffled system with an in-tank performance fuel pump capable of supporting up to 1000 HP. Deep sump tanks include new fuel tank straps. Choose the bypass regulator that best serves your vehicle application below.

Replacement Fuel Tanks

Holley

Features/Benefits:

- Tanks are coated galvanized steel then powder coated silver for total corrosion protection
- 255 lph fuel pump with hanger assembly gives you the fuel you need with in-tank quietness. Tank holds 20 gallons of fuel. Sender has NPT Supply and Return line parts for easy fuel line connection and a barbed vent fitting
- NPT Supply and Return line ports for easy fuel line connection and a barbed vent fitting
- Fuel level sender included with the correct Ohm range for your factory gauges
- Fuel pump and sender are recessed in the tank to provide an easy installation with no modification to your car
- EFI style tank baffling includes a large 4.3 liter internal fuel tray to prevent fuel pump starvation
- Fits and looks like an OE tank when installed. Complete bolt in solution for your EFI conversion
- Complete EFI Fuel Tank Solution in One Box!

EFI Conversion Fuel Tanks with Fuel Pump

Holley and Sniper are here to help you to complete your EFI swap with new EFI conversion fuel tanks. Each tank is a direct fit for your application no modifications necessary. The kit includes: the tank, a 255 lph fuel pump, internal baffling, a correct Ohm range fuel level sender, and the filler neck. The tank is powder coated for corrosion resistance and great looks. These tank kits are a complete solution for your EFI project!

Note: Shipped double oversize.

Gold Standard Fuel Tank Sealer Set

Our 3 step fuel tank sealer set contains almost everything you might need to seal a tank of up to 25 gallons. The Gold Standard Tank Sealer is specifically formulated to stop rust and corrosion by forming a tough, fuel impervious coating while simultaneously sealing small pinholes and weld seams. The prep products are formulated to extend storage times by leaving a zinc phosphate film that prevents rust until you have a chance to seal the tank with the sealer. Complete set and individual items available.

3 Step Fuel Tank Sealer Set

Buy our fuel tank sealer set and save! Each fuel tank sealer set includes: 2 quarts of Klean (a water based, heavy-duty, cleaner/degreaser), 1 quart RustBlast (a powerful rust remover/metal etch), 1 quart Gold Standard Tank Sealer, gloves, instructions, and a stir stick.

Driven Carb Defender

Driven Carb Defender Fuel Additive has been formulated to protect against harmful ethanol deposits and corrosion in fuel and the induction system. Special inhibitors resist expensive damage and reduced performance from moisture accumulation from modern ethanol blended gasoline. This additive controls combustion chamber residue, cleaning and protecting fuel system and intake tract surfaces to keep carburetors functioning properly. Carb Defender is ideal for everyday drivers or classics that spend time in storage between cruises and special events. One bottle treats up to 25 gallons of ethanol blended fuel.

JG1340	4.5 oz. bottle	9.99 ea
JG1341	case of 6 - 4.5 oz. bottles	53.99 cs

Fuel System Cleaner

Max-Clean targets and cleans deposit buildup in the intake system and combustion chamber and is effective on the entire spectrum of engines on the road. Deposit buildup is a natural consequence of fuel combustion, but can have significant effects on the performance and reliability of your engine. Royal Purple's Max-Clean can restore internal engine surfaces, recovering lost fuel economy and performance.

RP11722	20 oz. can	15.99 ea
RP11723	case of 6 - 20 oz. cans	86.99 cs

Defender+Booster Fuel Additive

Raises the octane in unleaded fuels, reduces valve seat wear and protects against the corrosion deposits common with today's gasoline. Like Driven Carb Defender and Injector Defender Fuel Additive, this product features corrosion inhibitors that control combustion chamber residue, as well as clean and preserve surfaces of the fuel system. By cleaning and controlling combustion chamber and intake valve deposits, Defender + Booster Fuel Additive protects against detonation and improves fuel economy. The additive is ideal for all carbureted and fuel injection vehicles, including motorcycles and marine engines. Each 10 ounce bottle treats up to 25 gallons of gasoline, and regular use has been proven to lower emissions.

Gas Cap w/Polished Finned Top

Gas caps are usually just a way to cover the fuel filler hole. Why not make a statement with this gas cap and polished custom finned top. The U.S. made casting is of A-356 aluminum alloy and polished to a show quality finish. Each gas cap and top is shipped as two parts so that you can align the fins properly during installation. Features a non-vented gas cap. Polished top is cast in the U.S.A.

Note: We recommend the use of metal to metal adhesive for installation (not included).

AU5356 1962-79 3/8" 1.49 ea

Fuel Pump Vacuum/Pressure Tester

Tests for fuel line pressure and vacuum leaks. Check for leaky valves, timing, fuel pump, vacuum, pressure and gas line leakage.

Easy-to-read gauge with 3 foot hose and vacuum hose adapter fitting. Gauge measures vacuum from 0 to 28" HG in 1" increments. (0 to 700mm HG in 50mm increments). Measures pressure from 0 to 15 psi in 1/2 psi increments (0-1 kg/cm2 in .1 kg/cm2 increments).
Y20300 25.99 ea

Inline Fuel Pressure Gauge

Set and monitor fuel pressure with these easy to use gauges! Simply splice into the existing carburetor line to with the anodized aluminum fuel block and 3/8" nipples. Each gauge measures 1-1/2" in diameter with a 0-15 psi range in 1/2 lb increments. Gauges are available in standard form or liquid filled for better vibration resistance.

71560 standard gauge 48.99 ea
71564 liquid filled gauge 51.99 ea

Electric Fuel Pumps

H128011

Electric Fuel Pump

We offer externally mounted Holley electric fuel pumps. They all feature the proven rotor and vane design and are available in ratings from 97 gph to 140 gph. The 97 gph "red" pump is set at 7 psi and does not require a regulator. The 110 gph "blue" pump is set at 14 psi and includes a regulator. The 140 gph "black" pump is also set at 14 psi and can be used for gas or alcohol fuel.

Red Pump

Blue Pump		
H128021	110 gph.....	180.99 ea
Black Pump		
H128151	140 gph.....	228.99 ea
Regulator		
H12803	4-1/2 to 9 psi.....	37.99 ea

Electric Fuel Pump

These externally mounted electric fuel pumps are ideal for most street and strip applications. Proven rotary vane technology provides high flow and stable pressures with minimal vibration and sound. Each pump features 3/8" NPT inlets and outlets along with an externally accessible pressure relief valve.

Note: Not for fuel injected engines. Pumps that produce more than 7 psi should be used with a pressure regulator.

E1791

Quiet-Flo Electric Fuel Pump

State-of-the-art electric fuel pumps offer maximum performance in a compact package for carbureted applications. Anodized aluminum housing and high-quality internals make it both strong and extremely durable. The E1791 electric fuel pump is factory set to 6.5 psi and does not require a regulator. 3/8" inlet/outlet, 120 gph free flow, up to 600 HP. The E1792 electric fuel pump is preset to 12 psi and requires an external regulator. 1/2" inlet-outlet, 160 gph free flow, up to 1000 HP.

Important: For proper installation and voltage requirements, use fuel pump relay E1795.

E1791	6.5 psi.....	233.99 ea
E1792	12 psi.....	236.99 ea

Quiet-Flo Electric Fuel Pump

This anodized aluminum EFI fuel pump offers maximum performance in a compact package. The in-line design keeps the pump motor and components cool even under harsh conditions. Features -10AN inlet/outlet with a flow rate up to 80 gph at 45 psi for high HP fuel injected applications. This fuel pump supports 835 HP at 12 Volts with a current draw of 12 amps at 45 psi. 10AN inlet/outlet 80 gph at 45 psi.

Important: Dimensions: 6-7/8" x 3-1/4".

E1790	667.99 ea
-------	-------	-----------

In-Line Electric Fuel Pump

This in-line electric fuel pump is continuous duty rated and is ideal for EFI applications that require additional pumping capabilities for upgraded modifications. Works superbly as either an in-line booster pump or as a stand alone unit. Use with EFI regulator part #E1728 for adjustability from 35 to 90 psi. 57 gph, 3/8" hose barb fittings. Includes mounting bracket and 3/8" hose barb fittings.

E3594	256.99 ea
-------	-------	-----------

Features:

- Solid-state worry free electronics
- Internal pressure regulating
- Universal design allows for easy installation
- No diaphragms or mechanical parts to wear out
- Hose barbs fit 5/16" fuel hose

Micro Electric Fuel Pump

This compact electric fuel pump features a solid state design that has a low current draw of around one amp and makes a good stand alone pump or booster pump. Designed for carbureted vehicles with a 12 Volt negative ground electrical system, this pump supports 4-7 psi at up to 35 gph. Includes: fittings, mounting hardware and instructions.

Note: Not for diesel applications.

71211	48.99 ea
-------	-------	----------

Perfect Flow Fuel Delivery System

The Perfect Flow fuel delivery system is a fuel pump system designed to support up to 1000 horsepower in naturally aspirated engines. It can also be configured as a main and secondary pump to support up to 500 horse power in situations where a redundant fuel delivery system is needed, such as off-road or racing. Set includes: 2 sealed and fused 40 amp relays, terminals, and mounting hardware.

Important: Due to the many possible plumbing options no fittings are included with this set.

65100	649.99 set
-------	-------	------------

Electric Fuel Components

Fuel Pressure Regulator

These fuel pressure regulators are machined from aircraft quality aluminum and have fluorosilicone diaphragm material for high temperature protection and extended life. Fully adjustable.

E1729 35-90 psi..... 170.99 ea

EFI Fuel Pressure Regulators

Holley 3/8" die-cast aluminum EFI bypass fuel pressure regulators. These regulators are fully adjustable between 15-60 psi. They feature an EFI return port, an 1/8" gauge port and an 1/8" 1:1 boost reference port perfect for fuel injection conversions with or without power adders. 1/8" hose barb fitting included.

H12882 polished..... 71.99 ea
H12886 black..... 71.99 ea

Billet Fuel Pressure Regulators

Holley billet aluminum bypass fuel pressure regulators. Each one is precision machined from 6061-T6 billet aluminum with a black anodized base and a clear anodized top. These regulators are fully adjustable between 4-60 psi for either carbureted or fuel injected applications. They feature a dedicated bypass/return port, an 1/8" gauge port and an 1/8" 1:1 boost reference port perfect for fuel injection conversions with or without power adders. 1/8" hose barb fitting included.

H12879 3/8" inlet/outlet..... 156.99 ea
H12880 6AN inlet/outlet..... 156.99 ea

EFI Bypass Regulator

Performance EFI regulator designed for medium to high horsepower applications. This regulator features Aeromotive's high flow design, superb pressure control and legendary durability. Features base pressure adjustable from 40-75 psi, gasoline and alcohol compatible, fuel pressure rises on a 1:1 ratio with boost, 1/8" National Pipe Thread taper (NPT) gauge port. Includes two o-ring boss fittings (ORB-06) inlet ports and one o-ring boss fitting (ORB-06) return port.

A9713109 adj. w/EFI..... 198.99 ea

Universal Bypass Regulator

A dual purpose, universal regulator for EFI or for Carbureted street/strip applications. Features pressure adjustable from 3 to 20 psi with standard spring, (installed) or from 20 to 60 psi with high pressure spring (included). Offers the full flow and rock steady fuel pressure that only a dynamic, Aeromotive bypass regulator provides. Capable of regulating any fuel pump between 100 and 250 gph, fuel pressure rises on a 1:1 ratio when referencing boost. All ports are 3/8" National Pipe Thread taper (NPT), with one inlet and three outlets on the main body and one return port on the bottom. Bypass design provides the ultimate, dynamic fuel pressure control.

Note: Requires a return line to be installed from the bottom of the regulator to the top of the tank.

A9713301 3 Port 3/8" NPT..... 191.99 ea

Carbureted Bypass Regulator

For use when converting from fuel injection to carburetion using the EFI pump in a carbureted application. Perfect for naturally aspirated or "blow-through" supercharged engines. Features base fuel pressure adjustable from 3-15 psi, 1 o-ring boss fitting (ORB-10) inlet port and 1 o-ring boss fitting (ORB-08) return port, fuel pressure rises on a 1:1 ratio when referencing boost, bypass design provides the ultimate, dynamic fuel delivery system, ideal for converting from fuel injection to carburetion using the stock, in-tank pump, EFI conversions will require a larger than stock return line for proper low pressure control. Includes two o-ring boss fittings (ORB-06) outlet ports and 1/8" National Pipe Thread taper (NPT) gauge port.

Note: Requires Army/Navy fitting (AN-08) return line from bottom of regulator back to top of the tank.

A9713204 2 port..... 206.99 ea

1974-77 Fuel Vapor Charcoal Canister

Genuine GM fuel vapor charcoal canister used to help cut down or eliminate fuel vapors. Essential part of the fuel and emissions system.

G6991 1974-77 350..... 119.99 ea
G6991 1975 262..... 119.99 ea
G6991 1976-77 305..... 119.99 ea

Fuel Pump Safety Switch

This safety feature is a must have for any electric fuel pump vehicle. This safety switch monitors the tach signal to limit when an electric pump can operate. When the key is first turned on, the fuel pump is allowed to run for three seconds, priming the fuel system. After that, it only operates if the engine is running. If the engine stops, so does the fuel pump. No plumbing into the oil lines or no extra priming button under the dash is required.

RE12003..... 69.99 ea

Fuel Pump Safety Switch

This fuel pump safety switch shuts off fuel flow whenever oil pressure drops below 15 psi. This adds a safety factor in case of an accident or engine stall. Designed for 12 Volt electrical systems and can be used into the oil pressure sending unit with an 1/8" NPT tee.

77872..... 25.99 ea

Fuel Pump Relay

This universal fuel pump relay will ensure proper wiring which reduces the risk of damaging the fuel pump, and offers consistent fuel pressure. This relay is used with fuel pump part #E1791 or #E1792.

E1795 universal relay..... 64.99 ea

Full Length Fuel Lines

XGL6202

1962-78 Front to Rear Line

Correct reproduction fuel lines which extend from the fuel pump to the fuel tank. You can choose between OEM material lines which were factory original or stainless steel reproduction fuel lines which add a custom look. Each is quality produced and guaranteed to fit perfectly! Replacing your fuel lines can improve your fuel system while retaining originality. 2 piece sets unless noted.

Performance Carburetors

Street Series Carb

Street carburetors are constructed of lightweight aluminum, including provisions for a choke assembly and changeable idle air bleeds for easy, non-permanent calibration changes if necessary. Fine tuning is accomplished by simply changing air bleeds, not opening up calibration restrictions with a drill bit! These dual fuel feed inlet carburetors are hand assembled in the U.S. using the PROFORM high flow carburetor main body, durable billet metering blocks, aluminum fuel bowls, and a high-performance billet throttle base plate.

Slayer Series Carburetor

The 600 and 750 cfm Slayer Series carburetors are designed with the same engineering and innovations featured on all QFT™ products. These affordable, vacuum secondary street carburetors feature all aluminum construction and hand built quality. They are designed with a secondary metering plate with changeable jets, eliminating the need for a costly secondary metering block. Get QFT™ race winning innovation for your vehicle at a great price.

CB710600

Note This product is not CARB exempt. Products that are not CARB exempt are legal in most states, but may not be used in California or states with similar emissions laws except on pre-1976 vehicles.

- Changeable idle air and high speed bleeds
- 3 Stage emulsion circuits in primary metering block
- Changeable primary idle feed restrictions and power valve channel restrictions
- QFT™ QuickSet™ adjustment on the vacuum secondary housing that provides external adjustment of the diaphragm without changing springs
- Notched secondary flow for use with jet extensions
- Secondary metering plate with changeable jets
- Fully adjustable electric choke
- Polished finish for superior good looks

CB710750	750 cfm – electric choke	417.99 ea

Hot Rod Series Carburetor

The Hot Rod Series of carburetors is designed for street applications. Made from lightweight aluminum castings and packed full of features, these carburetors are sure to make your hot rod run its best! Hand assembled and engine tested in the USA. Available in both vacuum and mechanical secondary configurations.

CB711650

Note This product is not CARB exempt.

Products that are not CARB exempt are legal in most states, but may not be used in California or states with similar emissions laws except on pre-1976 vehicles.

- Quick Set electric choke with one wire hookup for years of trouble-free starting.
- Dual inlet fuel bowls with Quick Set sight windows on both fuel bowls for safe and easy float level adjustment.
- Vacuum secondary carburetors have a Quick Set housing that is adjustable by simply turning a screw – no more spring assortments to keep up with or torn diaphragms.
- 4 corner idle for smooth and efficient idle quality.
- Screw-in air bleeds for quick and unsurpassed tuning capability.
- Screw-in idle feed restrictions.
- Non-stick gaskets throughout for easy service.
- The QFT 4 door™ power valve with a strong diaphragm and blow-out protection in the throttle body.
- Universal throttle lever with sealed throttle shafts for years of smooth operation.
- Full vacuum accessory ports for PCV, power brakes and timed spark advance.

Street Demon Carburetor

The Street Demon redefines the street carburetor with clean looks, brisk performance, and universal design. Available in 625 and 750 cfm, the Street Demon supports stock and mildly modified V8's with smooth, crisp throttle response. A dual bolt pattern works with most four barrel spread bore and square flange intake manifolds. Includes integrated 700R-4/200R-4 transmission kick down location and electric choke. Choice from all-aluminum construction or a polymer main body design. Made in USA.

Performance Carburetors

Thunder Carburetors

Edelbrock

The Thunder Series carburetors share all the performance advantages of the popular Performer Series but with innovative new features. The Quick-Tune secondary air valve can be easily adjusted to match your needs. Whether you want the secondaries to "kick in" early or late, you can set the air valve using standard tools, with no extra springs. It's a quick and simple process. These carburetors include all of the performance features of the Performer Series carburetors and also include distinctive black hardware, dual fuel inlets (shipped with left side plugged), lightweight ball burnished and CNC profiled body, and the Quick-Tune secondary. They're available in 650 cfm and 800 cfm sizes with manual or electric choke. There's even an 800 cfm version specifically designed for off-road vehicles. These Edelbrock carburetors bolt-on and run right out of the box! Simply dependable, proven performance for almost any carbureted vehicle. All Edelbrock carburetors include an installation kit and owners manual.

E19054

E1812

E1913

650 CFM Carburetor

This carburetor is recommended for most Performer applications and small cubic inch Torquer II applications.

E1913 800 cfm electric choke 420.99 ea

Performer Carburetors

Edelbrock

Performer Series carburetors complete the Edelbrock Power Package System for a smooth running and great performing "no guesswork" parts combination. By design, Performer Series square bore carburetors are refined to provide the widest possible torque range when matched with Edelbrock Performer, Performer RPM, RPM Air Gap or Torquer II manifold and camshaft combinations. However, these carburetors are not limited to these applications, they also match well with most stock and other manifolds of similar design. Performer Series square bore carburetors are all aluminum, ball burnished and lightweight. There are no power valves to blow out or plastic parts to break. The two piece construction resists warping and the metering rods can be changed in seconds without removing the carburetor. These Edelbrock carburetors bolt-on and run right out of the box! Simply dependable, proven performance for almost any carbureted vehicle. All Edelbrock carburetors include an installation kit and owners manual.

E1405

500 CFM Carburetor

Recommended for small cubic inch Performer and dual quad applications. Includes both timed and full vacuum ports for ignition advance.

- E1404 500 cfm manual choke 373.99 ea
E1403 500 cfm electric choke 424.99 ea

600 CFM Electric Choke Carburetor

50 state street legal for all 1980 and earlier GM V8s (E.O. #D-215-10). Calibrated for maximum fuel economy. Includes timed vacuum ports, EGR and fuel vapor outlet.

- E1400 600 cfm electric choke 429.99 ea

600 CFM Carburetor

Recommended for most Performer applications and small cubic inch Torquer II applications. Includes both timed and full vacuum ports for ignition advance.

Holley

1955-86 Chevrolet Tri-Power

Holley Tri-Power intake manifold and carburetor system for small block Chevy engines. It was factory equipment under the hood of the legendary big block L71 and L89 Corvettes. With a Tri-Power system you can cruise around economically on the 350 cfm center carburetor or unleash all 1000 cfm at wide open throttle to truly have the best of both worlds. Systems include a dual plane medium rise 3 x 2 Wicand intake manifold, three Holley 2 barrel carburetors (one 350 cfm center carb with electric choke and two 325 cfm outboard carbs) in either a dichromate or cast shiny finish, steel fuel lines, progressive throttle linkage and reusable air filters with polished housings.

Note: Carburetors do not have a provision to connect an automatic transmission kick down cable or linkage. Overall height is 11-1/2" front and 12-1/2" rear with air cleaners installed. HEI distributors will need to use a standard cap style small body distributor; the large caps with coils on top are too large to fit.

Street Demon TPS Set

When using an electronic overdrive transmission, such as a 4L60E, with a carbureted engine, the transmission control unit requires a throttle position signal. This sensor bolts on to the carburetor and sends the proper signal to the computer. The simple design allows for easy calibration and voltage adjustments. Includes all necessary installation hardware. Made in USA.

D1951 Street Demon TPS 196.99 set

Throttle Solenoid

Some vehicles require a throttle solenoid to be used with Holley carburetors. This is a replacement unit manufactured by Holley. Also available are the solenoid bracket #H209, and nut #H2657.

Street Demon Throttle Solenoid Set

Some vehicles, especially vehicles with air conditioning, require a throttle solenoid to automatically increase engine RPM. This throttle solenoid set from Demon Fuel systems includes the solenoid, bracket, and mounting nut. Made in USA.

D1950 Street Demon 133.99 set

Street Demon Calibration Set

This calibration set allows fine tuning of Street Demon carburetors. Although the carburetors are already fine tuned other adjustments and modifications may be necessary for optimal performance in built engines with large cams. This set includes an assortment of primary jets, metering rods and step-up springs along with secondary jets all in a convenient plastic storage case.

D1921 97.99 set

Carburetor Calibration Set

These sets include a selection of metering rods, jets, and step up springs that allow fine tuning and calibration of Edelbrock Performer and Thunder Series carburetors for mildly to extremely built motors, especially motors with performance camshafts that cause low intake manifold vacuum. Made in USA.

Note: Not legal for pollution controlled vehicles.

Carburetor Parts

Accelerator Pump Cam Set

Holley

This set will allow you to "tailor" accelerator pump performance to the engine's actual requirements. Each cam has a different shape to give different results. The shape of each cam directly affects the accelerator pump stroke and pump capacity. A steeply rising cam shape will give a fast, heavy fuel shot right off idle. Conversely, a gentle sloping ramp will spread the pump action over a longer period of time.

H2012 includes 8 pump cams 33.99 set

Carburetor Float Bowl Screws

These are reproductions of the screws for Holley dual float carburetor bowls. This is a set of eight 2-1/2" flat blade screws. A must when rebuilding your Holley dual float carburetor.

14305 14.99 set

Float Adjustment Tool

No more slight-of-hand tricks! Easily adjust your carburetor float level with this hand float adjustment tool. 5/8" socket and built-in screwdriver blade protects your engine and hands from fuel spray.

67443 29.99 ea

Universal Throttle Cable

All Lokar throttle cables are designed with a specially extruded liner to extend the life of the cable. Cables are equipped with aluminum fittings and aluminum ferrule to eliminate fraying. These cut-to-fit cables are available in 24", 36", or 48" lengths with a stainless steel inner wire, and your choice of a stainless steel, black stainless steel, or black nylon housing. Clevis is designed to eliminate cotter pins and set screws. Includes installation instructions.

Important: Remember to pull inner wire out before cutting outer housing.

Note: For 1986-93 EFI use TC1002A.

Throttle Cable Brackets

Lokar throttle cable brackets are available for a variety of different motors including carbureted setups, LS1, Ram Jet 350, 502, and more. Finishes include stainless steel, black stainless steel, and billet aluminum were available. Carburetor brackets only fit Holley, Edelbrock, AFB, Quadrajot, Demon, and In-Line Dual Quad carbs and mounts to the rear. Brackets for Tuned Port Injection are available with a single hole stud for throttle only, a dual hole stud for throttle and kick down, and a triple hole stud for a throttle, kick down and cruise control cables. Made in USA.

Important: Ram Jet 350 uses LS1 throttle cable TC30036 or TC30045.

Note: *Cruise control bracket set only.

Electronic Fuel Injection

MSD

Atomic EFI Set

The MSD Atomic EFI set fits all engines making up to 525 horsepower at the crankshaft. The annular ring charge injection design produces a better air/fuel mixture and distributes it evenly among the cylinders. As a result, engines idle, start and drive better with the Atomic EFI set. Throttle bodies feature 80 lb injectors and self-calibrating throttle position sensor. They also feature an internal fuel rail for no-leak, no-hassle fuel delivery. The master set is complete and ready to use out of the box. It includes the EFI throttle body, electric fuel pump, fuel line and filter with hardware, power module with wide band O2 sensor and handheld controller. Also available are the throttle body set which includes everything except for the fuel system components. Or purchase the fuel components separately.

Note: Atomic EFI sets are California emissions approved for carbureted General Motors vehicles 1987 and older. E.O. number D-772.

H55016

Sniper EFI Fuel Injection Conversion Sets

Holley Sniper EFI universal self-tuning fuel injection conversion sets. Converting to EFI will put an end to the cold start issues, hesitations, vapor lock, and flooding associated with most carbureted engines. Sniper sets feature numerous styles of throttle body and are available in polished, black ceramic, and classic gold finishes. Master sets include the most complete fuel system on the market. Holley just brought EFI within range and Classic Industries® carries the complete Sniper line with sets for nearly any application.

Sniper EFI Features:

- Easy 4 Wire Hoop Up
- Throttle Body Mounted ECU
- Supports Up to 650 HP
- Integrated Ignition Timing Control & Coil Driver
- High Resolution Full Color Touchscreen
- Simple Calibration Wizard – No Laptop Needed
- OEM Style Sensors
- Clamp-on Oxygen Sensor Bung

4150 Four Barrel Sets

Holley 4150 four barrel sets feature dual bolt patterns (square and spread bore), an internal fuel pressure regulator, and four 100 lb injectors capable of supporting up to 650 horsepower.

Note: Spread bore/Rochester Q-jet applications require sealing plate part #H990060.

Chevy II/Nova Headers

1964-79 Hedman Hedders

Classic Industries® stocks a full line of Hedman Hedders for 1964-79 Chevy II/Nova models. These units are designed to replace the heavy restrictive factory manifolds with tubular steel manifolds to increase horsepower and torque. Includes collector and header to head gaskets, collectors, and bolts. We offer Hedman Hedders™ for or without air injection (smog tubes). Get more performance from your Nova without breaking the bank and do it with a name you can trust in the header business "Hedman".

Important: Available in black. Be sure to read the important notes listed on the bottom of this page pertaining to each header system for correct application.

Note: Shipped oversize.

Hedman Hedder Notes

- 1) Without smog injection or injection heads.
- 2) Includes parts necessary to retain emission devices. (50 state).
- 3) With A.I.R. system.
- 6) Modification to stock exhaust required to retain catalytic converter.
- 15) Shortie Hedder (Max. ground clearance).
- 20) Not recommended for use with aluminum heads.
- 26) AC equipped vehicles require bracket #201110 for A6 compressor.
- 42) Square port Hedder.
- 45) Not legal for sale or use in California on pollution controlled motor vehicles.
- 49) Will not fit Saginaw close ratio PS with 825 power steering box.
- 103) Will fit with angle plug heads (Chevy alum only).
- 128) Fits factory stock transmissions only 1964-67.
- 208) Due to aluminum cylinder heads on GEN VI engines, 502 BB Chevy will have clearance problems on some applications. Bottom of Hedder flanges may hit head bolts. Notching may be necessary.

Hedman Hedder Emissions Notes

- A) Not applicable or intended for street or highway use. Legal only for racing vehicles which may never be used upon a street or highway.
- C) For vehicles 1964 through 1974 without A.I.R. system, considered as OE replacement parts when existing emission controls are not removed from vehicle.
- D) Not legal for sale or use in California.
- F) For vehicles 1964 through 1974 with A.I.R. system, considered as OE replacement parts and do not require an EO R, when existing emission controls are not removed from vehicle.
- J) 1975-79, 50 state legal for these years only.
- J) 1975-79, including vehicles with production date up to 12-31-79, registered as 1980, non-feedback systems only are 50 state legal.

1968-74 Nova Big Block Headers

Pypes big block headers feature large 2" primary tubes and 3-1/2" collectors with power spikes. Constructed of 304 mandrel bent stainless steel and fully TIG welded they include stainless collector reducers, premium hardware, and gaskets. Big block frame mounts and motor mounts must be used to ensure proper engine location and header fitment. Fits 6-speedZF transmission and standard 5-speed Chevy 502 big block generation 6 engines with aluminum cylinder heads will have clearance problems on some applications. Bottom of header flanges may hit head bolts requiring notching to clear the bolts.

Note: Will not fit Saginaw close ratio power steering with 825 power steering box.

Chevy II/Nova Headers

1962-79 Doug's Headers

Doug's headers are carefully developed to fit each specific vehicle application. Doug's headers are available for 1962-79 Chevy II/Nova models with small block or big block V8 engines, and with and without air injection ports, and with console or column shifters. Heavy-duty machined and finished header flanges, the smooth mandrel bends tubes, and a protective Metallic Ceramic Thermal Barrier Coating (MCTBC) make Doug's Headers an excellent choice for exhaust system performance.

Important: These headers are intended for off-highway use only and are not designed for California vehicles with pollution control devices. Be sure to read the important notes listed on the bottom of this page pertaining to each header system for correct application.

Note: Shipped oversize.

Doug's Header Notes

- Fenderwell exit.
- Shorry design for maximum ground clearance.
- Fits D-Port cylinder heads including ZZ4 crate engines.
- Will not fit Saguino close ratio with 825 power steering box.
- Will not work with 168 tooth flywheel or kick out aftermarket starters.
- Big block frame stands and motor mounts must be used to insure proper engine location and header fit.
- Will fit most angle plug heads including factory Chevrolet "Bow Tie" heads.
- Vehicles with locking steering columns require linkage removal.
- May require AC bracket 201110.
- Double flange design (inner and outer).
- Y indicates Tri-Y design.
- Will not fit with Powerglide transmission.

180) Requires LS1 adapter plate set SK100

181) Includes 3" to 2 1/2" reducers with O2 fittings.

187) Will fit 572 tall deck (10.2") crate engine or equivalent.

205) Will fit 168 tooth flywheel if used with Powermaster mini starter part #S9500.

206) Will not fit with heater.

207) Will not fit convertible models

Doug's Emission Notes

- The product accompanying this document is legal only for off-highway use (except in California or states that have adopted California emission standards), racing use or for use on pre-emission controlled motor vehicles/motor vehicle engines (pre-1974 domestic vehicles certified to California standards, pre-1974 domestic vehicles certified to federal standards and all pre-1974 foreign vehicles), per the manufacturer's application guide.

1962-72 Full-Length Stainless Steel Racing Headers

ARH full-length stainless steel headers for 1962-72 Chevrolet Chevy II/Nova. They are fabricated from aircraft quality T304 stainless steel and feature 3/8" thick round port flanges with hand ported inlets and fully welded custom sized merge collectors with scavenger with spikes standard. American Racing Headers will provide excellent ground clearance and are a direct bolt-in installation for General Motors X-Body vehicles.

Note: *Stepped Headers.

New!

Wedge Locking Header Bolt Set

PROFORM Grade 8 (12.9 steel), Hex type header bolts were designed to keep bolts from backing off. These permanently assembled bolts feature special washers with super hardened serrated teeth that, when sufficiently torqued, the washers bite into and grab the bottom of the bolt head and the top surface of the header. After being self-locked in this manner, any bolt loosening rotation is blocked by a wedge locking action created by the washers interfacing, matching cams. Engine vibration increases the tension, making them even more secure! They are reusable and you can count on them to not fail. Available in different sizes.

Note: Image for illustration purposes. *1979-earlier, small block 265-400. **Big block 396-502/exc 348, 409.

1968-72 Big Block Exhaust Manifold Bolts ▲

Reproduction of the exhaust manifold bolts for big block engines from 1968-72. These are black, hardened bolts that feature the correct flanged head, just like original. Set of 16 bolts.

14312 1968-72 big block..... 24.99 set

PAINLESS

Oxygen Sensor Fitting ▲

Weld-in oxygen sensor fitting for all fuel injection systems. Fits TBI, TPI, CMFI, LTI, LSX, 5.0L and most other oxygen sensors.

Important: This part requires welding for installation. Professional installation is recommended.

60406..... 7.99 ea

MORSO

Oxygen Sensor Plug ▲

Many headers for late model engines are equipped with an oxygen sensor bung in each header. When retrofitting a carburetor on late model engines, an oxygen sensor is not necessary. This plug seals the oxygen sensor bung on headers and exhaust manifolds. Made from trivalent chromium-plated steel with a M-18 thread size to fit most stainless headers.

222734 M-18 thread oxygen sensor plug 11.99 ea

New!

Oxygen Sensor Socket ▲

Removes and installs oxygen sensors on most domestic and some foreign vehicles as well. Includes special 7/8" socket with cutaway slot to provide clearance for wire harness. Provides adequate depth to fit over sensor. Heat treated alloy steel. Use with 3/8" square drive or 1" wrench.

Y12000..... 12.99 ea

Dual Drive Oxygen Sensor Wrench ▲

Tool includes both 1/2" and 3/8" drive. Attach a 1/2" breaker bar on the end of the tool to initially loosen stuck sensors. Use a 3/8" ratchet on the top for fast removal and installation. Fits oxygen sensor applications with a heat shield. Slotted body allows clearance for wire harness. Forged, heat treated steel with six point design will withstand high torque removal applications.

1969 Reproduction Smog Tubes

We offer reproduction smog tubes also known as air injection reactor tubes (A.I.R. tubes) which are manufactured exactly as originals! These tubes are cosmetically correct in every detail! Each tube is manufactured to exact factory specifications with correct bends and outlets for installation onto the exhaust manifold. A correct threaded outlet head is installed for easy installation of the smog pump check valves. These tubes are produced in steel and are zinc-plated including a semi-gloss black finish.

Note: *Will not work with AC.

Warning Concerning Smog Pump Pulleys

Stock replacement, aftermarket stamped steel or cast iron pulleys are not designed to exceed 4000 horsepower or 6000 RPM. Using reproduction pulleys on engines in excess of these limits may result in catastrophic disintegration of the pulley causing severe damage to the engine, cooling system and body parts. Classic Industries* assumes no liability for damages caused by improper usage of pulleys.

Exhaust Components

Tru-X and Y-Pipes

The more gentle radius of these X- and Y-pipes allow for better exhaust gas scavenging, noise cancellation and better balance between cylinder banks. The result is a significant increase in power and torque, but a reduction in dB sound levels.

F15920	2-1/2"	90.99 set
--------	--------	-----------

Pyres

1962-77 Manifold Down Pipes

Not all performance enthusiasts use collector style headers, so Pyres has designed 2-1/2" down pipes for log style, rear exit exhaust manifolds to fit your Pyres header back systems. These down pipes are made from 409 stainless steel and mandrel bent 16 gauge tube that fit directly onto factory cast iron manifolds, and slip into the header back systems. Manifold flanges are installed.

Important: P1086 are for use on vehicles with "Ram Horn" style manifolds only.

Note: Shipped oversize.

2-1/2" System, 3 Bolt			681
P1086	1962-67	small block	159.99 pr
P1011	1968-77	big block	141.99 pr

1968-74 Tunnel X-Crossover

Since a V8 fires alternately, exhaust exits in pulses rather than a steady flow. While one pipe is filled with pressure the other pipe is relatively pressureless, but connecting the two pipes in a Siamese pattern allows pressure to be equalized between the two tailpipes. This action allows the exhaust to pass through quicker for better breathing that increases horsepower. The Pyres crossover product line is defined by a high-quality, exceptionally versatile design. They are a proven winner when it comes to bumping up the horsepower of your daily driver or race car. Pyres tunnel X-crossover fits 1968-74 Nova models with easy installation. All crossovers are made of 409 stainless steel with dual reinforcement plates at the welds where they are needed most. All pipes are mandrel bent to allow for the maximum flow of exhaust gasses, which boosts acceleration. Limited lifetime warranty.

Important: If using stock, cast iron manifolds, add a set of down pipes to connect your original manifolds to the header back system.

Note: Shipped oversize.

LEETON
EXHAUST

Pyres

1968-74 X-Crossover Dump Legs

Pyres dump legs are made to replace the front legs of the X-pipe crossover on 1968-74 Chevy II/Nova models, making installation of electric exhaust cutouts simpler. Each dump leg is strategically located for maximum ground clearance and includes blocked-off plates and hardware, and is manufactured from 409 stainless steel with mandrel bends to allow maximum exhaust flow. Add the optional electric exhaust cutouts and make unhooking your exhaust as easy as flipping a switch, sold separately. Made in USA.

Mufflers

Pypes Performance Stainless Steel Mufflers

Through extensive research and feedback from customers, Pypes has learned that no one muffler design is best. Every car is different, and everyone has different requirements. Different performance modifications change the sound and functionality of a muffler, so it's nice to have several different proven designs to choose from! One thing that is consistent with all Pypes mufflers is that they are high-quality, precision engineered and constructed which allow us to include a lifetime warranty!

Street Pro

409 - polished stainless

Street Pro Muffler

Don't let the looks of this muffler fool you. At idle, you may cause passengers to grab for their seat belts, but upon acceleration, the smooth, authoritative tone turns apprehension into reassured confidence. This is a great street/strip muffler that will maintain its rich sound qualities for the life of the muffler because there is no filler to burn off. Recommended for stock to medium modified vehicles where an aggressive sound is appreciated without demanding undesirable attention. Muffler shell measures 4" x 9" x 14". Limited lifetime warranty.

P1023	3"	inlet/outlet	offset/offset	89.99 ea

Race Pro

304 - polished stainless

Race Pro Muffler

Sometimes you just have to have the best of everything. When it comes to flow, you just can't get anything better than our Race Pro Muffler. This baby features a 'straight through' path with throughput that can flow 95% as efficiently as a straight pipe! The throaty sound is surprisingly tame considering the absence of any impedance when you look down its barrel. At idle and low RPM cruising, you will not draw much attention, but upon acceleration, bystanders look out! The Race Pro's aggressive sound is the result of applying a layer of stainless mesh around a unique internal perforated tube, accompanied by a healthy stuffing of basalt insulation before the unit is sealed. Highly recommended for the track where every tenth counts. Of course, there are plenty of these mufflers hidden under some fine street machines, too! Muffler shell measures 4" x 9" x 14". Limited lifetime warranty.

Violator

PYPES

409 - polished stainless

Violator Muffler

The Pypes Violator muffler has quickly gained acceptance and praise in the marketplace. It flows as much air as the Race-Pro muffler but has an incredibly distinctive chambered sound! The Violator's aggressive sound is the result of a unique internal louvered tube with mini sound deflector chambers. Finally, a muffler that flows like a straight through muffler but sounds like a chambered muffler. If you want to be noticed, then this is your muffler! Muffler shell measures 4" x 9" x 14". Limited lifetime warranty.

 Performance Exhaust

17519

Universal Fit Ultra Flo SS Muffler

The Dynomax Ultra Flo muffler uses a unique straight through design that maximizes flow and power. Made from all stainless steel materials for optimum appearance, corrosion resistance and longer life. Includes high chromium content, high luster T-304 cover and heads. Continuous perf design maximizes sound absorption, minimizes turbulence and gives a deep powerful true performance sound. All universal mufflers are reversible for custom installation.

Important: This muffler comes in two styles: Sport model measures 4" x 9-3/4" x 18-1/2". Street model measures: 4" x 9-3/4" x 25-1/2".

Thrusk

Glasspack Muffler

Thrusk has long been the industry leader in glasspack mufflers. They have a straight through, smooth flowing, perforated center tube design for maximum flow and power. All Thrusk mufflers are made of a heavy-duty gauge shell for durability. Thrusk mufflers include expandable bushings for custom applications. Enjoy the unmistakable sound of a Thrusk glasspack muffler today. Dimensions: overall length x shell length x shell diameter.

New!

H3010

The Sound of the Fabulous Fifties!

The world's oldest performance muffler, a Smithy's glasspack is now available for your Chevrolet models! Get the muffler you dad used to impress his friends, and yes, it's still guaranteed not to blow out or leak. Double end cap construction and 3-1/2" hammer tone finished cases assure the original Smithy look. A great tone for your fifties or sixties sled.

FLOWMASTER

Performance Mufflers

Super 40 American Thunder

The Super 40 5" x 10" case design gives you a deeper tone that retains our classic 40 Series sound and feel. Increased flow path radius for optimum internal flow using the latest in Delta Flow technology. Flowmaster state-of-the-art robot assembly technology assures a product that exceeds OEM auto manufacturers' specifications. To achieve such critical quality, Flowmaster performs extensive R&D at the track and in-house with our own engine and chassis dyno facilities. Flowmaster Super 40 is aluminumized, black in color and is the most aggressive, deepest sounding street two chamber muffler they've ever built. Enjoy some American Thunder today!

Super HP-2 Muffler

Designed for street rods, customs and vehicles where undercarriage space is tight, the Flowmaster Super HP-2 provides the exhaust performance you need in a compact package that fits wherever you need it. The Super HP-2 has a moderate tone with the appearance, durability, and sound control to suit daily drivers, weekend cruisers, and world-class show vehicles. Available with a 409S stainless steel case or polishable 304S stainless steel case in sizes from 2", 2-1/4", and 2-1/2". Made in USA.

Super 10 Series Stainless Steel Muffler

Looking for the most aggressive sound available? Flowmaster's new Super 10 series mufflers are so aggressive, they aren't recommended for street driven vehicles. Best suited to racing applications, these feature the same performance technology used in the Super 40 and Super 44 series Flowmaster mufflers. These short, single chamber mufflers deliver the closest thing to open pipe sound possible. If you want high impact sound, the Super 10 series mufflers are the answer. Measures: 6-1/2" x 9-1/2" x 4".

Note: These mufflers are recommended for off highway use, not for street driven vehicles.

FLOWMASTER 40 Series Performance Mufflers

- Aluminumized Steel
- Original Flowmaster Tone
- Deep Tone Inside Vehicle
- Street or Strip

40 Series — Original Flowmaster Tone

This is the most "aggressive" sounding street/strip muffler that Flowmaster offers. If you're looking for attention, this one will get you noticed. The standard 40 series has an "aggressive rumble" and will generally resonate inside the vehicle around 1800-2000 RPM's, and again at 2400-2600 RPM's. Constructed of 16 gauge aluminumized steel and fully MIG welded for maximum durability.

F430402	3"/2-1/2"	center inlet/dual outlet	89.99 ea

FLOWMASTER Delta Flow 40 Performance Mufflers

- T409 Stainless Steel
- Powerful Aggressive Tone
- Lower Interior Resonance
- Street or Strip

Delta Flow 40 Series — Reduced Interior Resonance

This two chamber design incorporates Flowmaster's patented "Delta Flow" technology. The "Delta" deflectors result in increased scavenging for better performance and reduced interior resonance over the standard 40 series with a nice growl outside the vehicle. Sounds great on late model performance cars with catalytic converters. Constructed of 16 gauge steel and fully MIG welded for maximum durability.

FLOWMASTER 50 Series SUV-Performance Mufflers**FLOWMASTER**
DELTA FLOW
TECHNOLOGY

- Large Displacement Street Cars
- Early Era Muscle Cars
- Deep Tone Outside of Vehicle

**50 Series SUV - Performance**

The SUV/Performance muffler is a larger version of Flowmaster's 50 Series Delta Flow muffler and is specially designed for trucks, light SUVs and high horsepower vehicles. The larger H-chamber reduces interior resonance to a minimum. Constructed of 16 gauge aluminum steel and fully MIG welded for maximum durability.

1962-77 Crossmember Back Dual System with X-Pipe

Pipes has designed a crossmember back dual exhaust system for 1962-77 V8 models that incorporates a 16 gauge, mandrel bent stainless steel X-pipe to maximize exhaust gas flow and boost horsepower. This system features a Siamese designed X-pipe, a pair of Street Pro, Race Pro or Violator mufflers, tailpipes, cad-plated clamps and hangers. The combination of the crossover and the mufflers deliver a perfect balance of sound and performance. Features 409 stainless steel X-pipe, mufflers, intermediate pipes and tail pipes. Limited lifetime warranty.

Important: If using stock, cast iron manifolds, add a set of down pipes to connect your original manifolds to the header back system.

Note: Shipped double oversize.

New Pypes Cross Flow System for Maximum Flow, PLUS Maximum Ground Clearance

P1060

1968-78 Header Back Crossflow System

Pypes has designed a 2-1/2" crossflow system for 1968-78 Chevy II/Nova models needing maximum ground clearance. The Race Pro muffler is the first maximum flow, straight through, transverse mounted crossflow muffler system that doesn't need to sacrifice any performance or aggressive growl to give you clearance. This system also features a horsepower freeing X-pipe designed to fit into the driveshaft tunnel, which contributes to it's ability to glide over the nastiest speed bumps. Available in 409 stainless steel or 304 polished stainless, including X-pipe, muffler, intermediate pipes and tailpipes. Limited lifetime warranty.

Important: Modification to the body pan brace is required on 1967-69 convertible models. In order to utilize this X-pipe, it is necessary to either add a body pan designed to allow clearance for the X-pipe assembly, or remove the body pan and install subframe connectors. If using stock, cast iron manifolds, add a set of down pipes to connect your original manifolds to the header back system.

Note: Shipped double oversize.

- Mid Pipes
- Rear Pipes
- Side Exit Pipes
- Corner Exit Pipes
- Over-Axle Pipes
- H-Pipe Stubs
- Straight Crossover Pipe
- Bent Crossover Pipe

U-Fit Dual Pipe Set

These sets come complete with all the pipes you need to build a custom dual exhaust system in 2-1/4", 2-1/2", or 3" pipe diameters. These U-Fit sets include the front adapter pipes, intermediate pipes, H-pipe assembly and over the axle pipes. Each piece has a slip fit connection, for easy assembly and built from mandrel bent, 16 gauge aluminum steel tubing. Hardware not included.

Note: Shipped over size.

Performance Exhaust

P1074K

Universal Dual Electric Cutout Set

The optional electric exhaust cutouts and make unhooking your exhaust as easy as flipping a switch. Electric cutout set includes: 2 valves, wire harness, switch, mounting hardware, and 2 gaskets. Limited lifetime warranty. Available with or without Y-pipes. Made in USA.

Note: *Connects to any 2-1/2" exhaust with a straight section of approximately 12" in length and enough clearance for the motor/valve assemblies.

For use with 2-1/2" or 3" Y-Pipes (Dump Legs)
P1074 cutout set only..... 379.99 set

Includes 2-1/2" Y-Pipes (Dump Legs)
P1074K* cutout set with Y-pipes..... 499.99 set

25057

Stainless Steel Electric Cutout

These cutouts feature a rugged 12 Volt DC motor and rotating gate for a leak proof seal every time the cutout is opened and closed. When fully opened, these cutouts do not create exhaust flow obstructions that can create a leaky gasket sound, unlike butterfly style cutouts. A pre-wired harness with an illuminated rocker switch is supplied for easy installation. Unhook your exhaust with the flip of a switch from your dash. The cutouts are ideal for race tracks that don't require mufflers. Available individually, in pairs, or in complete kits with Y-Pipes for easy installation. Made in USA.

Important: Not recommended for vehicles equipped with catalytic converters.

Note: May not be legal for highway use or use on emission controlled vehicles.

Electric Exhaust Cutout

Don't crawl under your vehicle to unhook your exhaust ever again by switching to electric cutouts. Keep them closed and quiet for the street, wide open for the strip, or anywhere in between with the flip of a switch. You control the volume and the power! Available in sizes 2-1/4" to 4" and a low profile oval design for applications with limited ground clearance. Fits 2-1/4" to 3" round exhaust pipe. Built with high-quality materials CNC 6061 aluminum body and motor plate, stainless steel shaft and butterfly plate, high torque DC gear driven motor, weather tight wiring connectors, and custom illuminated toggle switch.

Note: Match valve size with cutout size for optimal fit and performance.

New!

J-B Weld SteelStik

J-B Weld SteelStik is a steel reinforced epoxy putty stick. This long kneadable epoxy adhesive will plug holes and make permanent repairs on wet and dry surfaces. Cures completely submerged in gasoline or under water in 60 minutes. Can be drilled, sand, filed, tapped, machined and painted. Works on multiple surfaces: aluminum, brass, bronze, copper, iron, and stainless steel. Cure color is dark gray. Made in USA.

JB2867 2 oz. 5.99 ea

WARNING: Cancer and Reproductive Harm - www.P65Warnings.ca.gov

Exhaust Components

12 oz aerosol can half pint (8 oz) pint quart gallon XTC primer 12 oz aerosol can

02 - jet black 05 - cast iron gray 08 - off-white 28 - pure white 10 - flame blue
03 - aluminum 06 - rocket red 07 - Pontiac metallic blue 23 - stainless steel 25 - charcoal metallic

Xtreme Temperature Coating

XTC is a high temperature/heat resistant coating formulated specifically to protect metal surfaces operating at temperatures from 500 to 1500 degrees F. With proper preparation, XTC provides outstanding adhesion, film integrity, weathering, and thermal shock resistance throughout this entire temperature range, and is guaranteed not to burn off! Available in your choice of a wide variety of colors and sizes.

Note: 8 oz. will coat approximately 3 sets of automotive exhaust manifold with 2 coats or coat a set of short headers with 2 coats. Pints will coat a set of full size headers with 2 coats or coat a complete automotive exhaust system with 2 coats.

Xtreme Temperature Coating

Important: When ordering, select the part number for the size of the can you need, then add the two digit numerical color code to the end of the part number to specify your desired color.

Jet Black, Charcoal Metallic, Flame Blue, Cast Iron Gray, or Off-White

KB655	one gallon	specify color	249.99 ea

Xtreme Temperature Primer

XTC Silicone Zinc Primer prevents corrosion of metal surfaces exposed to high heat, high humidity, condensation, and salt air. It functions much like galvanizing as it locks itself to bare metal surfaces leaving a perfect primed surface for top coating. Available in a wide variety of sizes.

KB65100	12 oz. aerosol can	primer	19.99 ea
KB65400	one quart	primer	113.99 ea
KB65500	one gallon	primer	389.99 ea

Hi-Heat Coating

The coating will protect the wrap from abrasion and harmful liquid spills. Extra resins and binders toughen the surface, extend the life of wrap by protecting it from friction, and seal the pores to minimize the penetration of harmful liquids. The coating also works excellent as a paint directly on metal surfaces.

Note: Shipped within the continental U.S. only. Shipped ground only.

Thermo-Sleeve

Thermo-Sleeve is the combination of a high temperature fabric laminated to a highly reflective Mylar foil. It provides protection from radiant heat for hoses and wires. Thermo-Sleeve's ultra lightweight construction provides more insulation than traditional bulky rubber coated fiberglass. The aluminumized sleeve reflects more than 90% of radiant heat, plus it is fireproof and oil resistant! Thermo-Sleeve is available in 3' or 12' lengths.

Exhaust Components

Reduce Underhood Temperatures!

Increased exhaust scavenging is produced, along with lower intake temperatures. Exhaust Insulating Wrap™ withstands continuous heat up to 2000 degrees F., and contains no asbestos. Will not over insulate a system when properly installed due to a proprietary coating developed by Thermo-Tec® Thermal Conduction Technology (TCT) that conducts heat across the wrap's surface. The 1/16" thick wrap is available in 1 inch or 2 inch widths in 15' or 50' rolls. Choose from off-white or graphite black.

Reduce Underhood Temps Up to 70%!

The new quick wrap, high velocity Exhaust Jackets™ are an innovative way to insulate and block radiant heat. The jackets cover the header tubes vertically allowing for a consistent fit. The fit allows the exhaust system to expand as it comes up to operating temperatures without restrictions and provides air space for added insulation. This product uses Thermal Conduction Technology (TCT), developed by Thermo-Tec®, and can be applied with the headers in the vehicle.

TT1015	4-6 cylinder.....	70.99 ea
TT1016	8 cylinder.....	84.99 ea

This Flexible Heat Shield Clips Into Place!

The Header Manifold Blanket™ provides excellent heat retention for exhaust headers and manifolds. This flexible heat shield simply clips into place on the upper portion of the header. The fabric side of the material should be facing the heat source, and the aluminumized side facing away—offering protection from abrasion and harmful liquid spills. The Header Manifold Blanket™ is available in 2 sizes: two 20" by 24" blankets for V6 and V8 applications, and one 36" by 40" blanket for straight 6 and 4 cylinder engines.

TT1017	V6-V8 applications.....	78.99 pr
TT1018	straight 6 or 4 cyl models.....	73.99 ea

Vermiculite Coated Header Wrap

Insulating Header Wrap is an extremely high temperature resistant wrap used to insulate hot gases in automotive exhausts. Manufactured from texturized fiberglass yarns that are woven into a strong, flexible wrap with vermiculite coating. Resists gasoline and engine chemicals and withstands temperatures up to 1200 degrees F (maximum continuous temperature of 1000 degrees F). Available in black or natural in 50' or 25' rolls.

Shield Plastic or Rubber Hoses and Wiring from Radiant Heat!

Thermo-Shield™ protects hoses and wires from radiant heat. Unprotected, rubber hoses and plastic or rubber insulated wiring can dry out, melt or crack over time. Thermo-Shield™ is used in applications where it is difficult or not practical to disconnect one end of the hose or wire. The adhesive backed composite construction tape can easily be wrapped around the hose or wire to make a clean, professional appearance. Reflects radiant heat up to 2000 degrees F. Provides a barrier against the extreme conditions that underhood components are exposed to. Wrap your fuel lines and say good-bye to vapor lock.

An Extremely Versatile Heat Barrier!

The Aluminumized Heat Barrier™ is made up of woven silica with a flexible aluminumized finish. The highly reflective surface of the material is capable of withstanding radiant temperatures in excess of 2000 degrees F. Installed using standard rivets with a backup washer, or with weather strip adhesive. The Snap Straps (sold separately) can be used to hold the blanket in place for manifolds or exhaust systems.

Fifty Years of Expertise!

B&M has been building transmissions for extreme duty use for almost 5 decades. From the famous B&M Hydromatic of the 50's to the Torkmasters and Clutchlifts of the 60's, B&M has been the yardstick to which all other performance automatics have been measured. Transmissions unequalled in quality, features and durability.

Note: All transmissions are special order, must be prepaid.

Street/Strip TH350 & TH400

B&M's Street/Strip Transmission is a complete "Ready-to-Run" unit (less converter) for high-performance street and mild strip use. The transmission provides firm shifts and features a standard shift pattern. These are the finest available for street/strip use.

Street TH-700-R4/4L60

This transmission is suitable for use behind engines producing up to 450 lb of torque, which covers most small blocks and mild big blocks. A low first gear ratio and overdrive 4th make these very desirable units.

Note: Will not replace 4L60E applications (post 1993).

Traveler Transmissions

This is a rugged model and has a medium/firm shift compared to the hard shift of the Street/Strip model. The Traveler features increased oil flow which provides for cooler operation under heavy-duty use. The Traveler would be a good selection for towing applications.

GM TH350 Key Features:

- 2.52:1 first gear ratio, 1.52:1 second gear.
- Extra wide direct drum bushing.
- Machined forward and direct pistons.
- All new B&M high-performance friction plates.
- New intermediate roller clutch.
- New kick down band with welded anchors.
- All new thrust bearings and races.
- New adjustable modulator.
- New detent control link w/new breather & filter.
- Recalibrated valve body.

Note: Shipped truck freight.

223030A	Street/Strip with 6" tail shaft	1427.99	ea
---------	---------------------------------	-------	---------	----

GM TH400 Key Features:

- 2.48:1 first gear ratio, 1.48:1 second gear.
- Rebuilt front pump utilizes B&M pressure regulator spring and shims.
- All new B&M high-performance friction plates.
- New intermediate roller clutch.
- New kick down band with welded anchors.
- Machined center support w/new case saver ring.
- All new thrust bearings and races.
- New adjustable modulator and silencer ring.
- New external electric connector and kick down solenoid.
- Recalibrated valve body.

Note: Shipped truck freight.

223031A	Street/Strip with large diameter bushing, for use with large 1-7/8" diameter yoke	1469.99	ea
---------	---	-------	---------	----

GM TH700-R4/4L60 Key Features:

- 4-speed GM transmission.
- 3.06:1 first gear ratio, 1.63:1 second, 1:1 third and 70:1 overdrive ratio.
- Rebuilt front pump and governor with new gear.
- New thrust washer kit, races, thrust bearings bushings, and 2-4 band.
- All new B&M high-performance friction plates.
- New overdrive spring assembly.
- High-performance reaction carrier assembly.
- Corvette 2-4 servo assembly.
- New external electric connector.
- Recalibrated valve body.

Note: Shipped truck freight.

Torque Converters

Chevrolet Performance SuperMatic Torque Converter

PERFORMANCE
VEHICLES / PARTS / RACING

Performance SuperMatic Torque Converters from Chevrolet Performance are designed to provide long life when matched with a SuperMatic Transmission. Each converter incorporates the following features: steel billet front cover, custom stator, forged furnace brazed pump and turbine, heavy-duty lockup clutch, all internal components stator balanced, fully vector balanced as an assembly, designed for Chevrolet Performance crate engines and automatic transmissions, no external adapters needed to fit Chevrolet Performance crate engines.

Note: * Will not fit 153 tooth flexplate.

Includes:

- New alloy steel pump drive tube
- Needle thrust bearing when factory equipped
- New thrust washer between turbine and cover when required

B&M 1985-96 Tork Master Torque Converter

Similar in performance characteristics to the HoleShot series, the Tork Master is B&M's lowest cost performance torque converter. The Tork Master is an excellent all-around performance street converter for small block Chevy. The Tork Master torque converter is not recommended for big block or supercharged applications.

Tork Master 2000 - 1900-2100 RPM Stall Speed

B&M 1985-96 HoleShot Torque Converter

A higher than stock stall speed as delivered by the HoleShot converter will provide several advantages and benefits in vehicles with modified engines. Big gains tend to reduce low end power and torque. The high stall converter allows the engine to launch the car at higher RPM where more torque is available. The HoleShot is a very good choice for the typical street car that is looking for better launch capability. Not recommended for NZO equipped engines. Stall speed listings are based on engines producing 230 lb ft of torque at 2500 RPM. More torque at 2500 RPM will give you a higher stall speed, less torque at 2500 RPM will give you a lower stall speed than the stall speed ratings indicated.

Note: * Items denoted with asterisk require small 10-3/4" bolt circle flexplate or dual pattern flexplate.

Transmission Torque Converter

These converters offer a slightly higher stall speed that will allow greater torque bands at medium and high speeds, and increased lockup at higher RPM ranges. The 10" converter is recommended for vehicles in excess of 450HP. Thus, named Heavy-Duty Super Torque Converter. You'll get 52 extra horsepower over stock converters with the HD Super Torque converter.

Torque Converter Lockup

For 700R4 transmissions with square 4 pin connectors. Can be used without the factory computer (ECM). This unit is electronic, NOT vacuum controlled. It reads speed of the vehicle through a sensor that attaches to the speedometer cable. Transmissions with factory internal speed generators must be converted to lockup to use this unit. This system locks up the converter at a set speed and unlocks it when the signal generator senses the vehicle speed is below lock up speed or when the brakes are applied. This unit is set to lock the converter at 42-47 MPH and can be adjusted if necessary.

TF900630			219.99 ea
----------	--	--	-----------

Torque Converter Lockup Controls

These units provide control over torque converter lockup through vehicle speed on GM transmissions with a lockup converter. These are designed for use on carbureted engines. Eliminate converter lock cycling and unwanted converter lockup avoiding engine lugging and spark knock. Allows lockup at highway speeds for fuel economy. Can be used with converting a non-lockup equipped vehicle to a lockup style transmission and converter.

B&M

The B&M set provides a dash mounted control to govern converter lockup at any speed between 30 and 90 MPH. LED dash indicator displays when converter is locked or unlocked. Set includes: an adjustable control box with locked and unlock indication, speed sensor with cable adaptor for mechanical speedometer, wiring, and complete instructions.

223308	TH200, TH350		255.99 set
223308	700R4, 4L60, 200R4		255.99 set

Painless

The Painless set uses a vacuum controlled switch and a 4th gear lockup switch to control the torque converter lockup solenoid, locking it into 4th gear. Includes: vacuum switch, 4th gear pressure switch, brake switch, torque converter lockup solenoid, wire harness, new transmission pan gasket, mounting hardware, and instructions.

60110	TH200-4R		209.99 set
60109	TH700-R4		209.99 set

Bowler

The Bowler lockup set uses a pressure switch, not vacuum like Painless or a speed sensor like B&M. Their set allows engine to regain proper RPM before allowing the converter to lockup. Usually lockup occurs immediately after shifting into 4th gear, which can lug down the engine and cause poor performance. Module works off of pressure to allow a 8-12 second delay after shifting into 4th gear before the converter locks up. Converter locks up with adequate RPM gain after 4th gear and unlocks automatically with down shift or touch of brake. It will not allow lockup in any gear except 4th. Set includes: single wire lockup control module, 4th gear pressure switch, new internal wiring harness with lockup solenoid for 700-R4 and 200-4R, brake switch, pan gasket and filter with detailed instructions.

Transmission Components

1955-97 Flexplate

B&M SFI spec 29.1 approved flexplates ensure that the ring gear or flexplate center will not fail (explode) at high RPMs. Dual bolt patterns accommodate a variety of transmission applications. 153 tooth flexplates feature 10-3/4" bolt circle. 168 tooth flexplates feature both 10-3/4" and 11-1/2" bolt circles. Ideal for street applications to extreme duty racing and high RPM use, above 6000 RPM.

1965-93 Transmission in a Box!

This is the most comprehensive kit available. Provides parts or necessary part numbers to upgrade your transmission into a true performance transmission. Kits available for TH350, TH400, 375, 375B, M40, M38 and TH700R4. The TH700R4 is a desirable transmission due to it's extra low ratio first gear (for better off the line performance) and overdrive fourth gear for better fuel economy. Includes instruction sheets that provide the do-it-yourselfer with all the information needed to completely overhaul a TH700R4 to B&M specs.

Switch-On High-Performance Driving Fun!

Adjustable with a simple flip of a switch, ShiftPlus™ simply recalibrates your transmission's hydraulic system electronically. The shift firmness not only makes driving more fun and pleasurable, but slippage and heat are reduced - extending the life of your transmission!

Installs in minutes with a few simple hand tools and without removing the transmission pan or valve body. Fits 4L60E GM rear wheel drive and 4 wheel drive w/trans code MT1 or M30 (RPO code found in glove box).

223101 4L60E transmissions..... 62.99 ea

223071

Key Features:

- Provides crisp shifts on any stock AT.
- Eliminates soft sluggish shifts, shift overlap, and excess wear on clutches and bands up to slippage.
- Improves transmission life.
- Transmission removal not required.

1965-01 Shift Improver Kit

The B&M Shift Improver Kit™ is the easiest way to get the stout performance you've always wanted out of your automatic transmission and you get two modes of performance to select from: Heavy-Duty, or Street/Strip.

Stage 1 Heavy-Duty - Firm positive shifts without loss of driver comfort for improved performance in all street vehicles. Recommended for regular passenger vehicles.

Stage 2 Street/Strip - Provides very positive shifts for high-performance street use or for competitive events. This model is for the enthusiast who wants the hardest, quickest possible shift.

223077 1993-01 4L60E... 60.99 ea

223095

Key Features:

- Select the mode that best suits your application.
- Improves transmission life.
- Transmission removal not required.

1965-01 Transpak

The next step up from the Shift Improver Kit™ is the Transpak™. It has all the features in the Shift Improver Kit™, plus it provides additional driver manual control (TH400, TH350 only). With the Transpak™, you can downshift at any speed, and you can hold the transmission in first gear to any speed that you want!

Stage 1 Heavy-Duty - For street rods, normal passenger vehicles or other heavy-duty use. Firmer shift feel but not harsh. Improves transmission performance and life dramatically without loss of comfort. Normal automatic operation when in "Drive".

Stage 2 High-Performance Street - For full performance street use. Essentially the same as Heavy-Duty mode except shift is much quicker. Retain full automatic features and standard shift points with selector in "Drive".

Max ATF

Max ATF is a synthetic, high-performance, automatic transmission fluid. Its low co-efficient of friction and high film strength help to dramatically reduce heat and wear. Reduces heat to extend the life of your transmission. Max ATF is fully compatible and can be mixed with other automatic transmission fluids, however, for the best results drain or flush the current oil and then fill with Max ATF.

Pour-In Performance!

Trick Shift™ was originally developed by B&M for racing applications. It's become so successful that it's the most popular high-performance fluid on the street also! Not an additive, this is the best performance ATF available! A scientific blend of foam inhibitors, pressure agents and shift modifiers that will provide extended transmission life and drastically improved shift feel. Trick Shift™ is the easiest way to measurably improve the transmission performance of your vehicle. Trick Shift™ works with all automatic transmissions when a firmer shift is desired. "Pour in Performance" isn't just a catchy phrase - it's reality! It can be mixed with stock type transmission fluids, however to attain maximum improvement you should use Trick Shift™ exclusively. Ideal for towing, light trucks and RV applications as well as racing.

Important: Not recommended for electronically controlled automatic transmissions.

No More Messy Oil Splash!

End the messy job of draining transmission fluid forever with a Transmission Drain Plug Kit from B&M. Only a few automatic transmissions are equipped with drain plugs from the factory. If you're not one of the lucky few, then you can install one yourself very easily. Simply remove the pan once, drill a hole, bolt the B&M Drain Plug Kit in, and eliminate messy oil splash forever. Non magnetic. Universal fit.

Cast Aluminum Transmission Oil Pan **▲**

Fight high transmission temperatures with these specially cast transmission oil pans. The sand cast aluminum construction features raised heat sink fins for improved cooling, its 3/16" thick wall construction to add strength to the transmission case, and it includes a special 3/8" thick gasket flange that will not bend as the bolts are tightened. The gasket surface is also machined for a secure seal, and the transmission pan is designed with a magnetic drain plug for easy maintenance. Available in either standard capacity or deep sump for added capacity and powder coated black, "As Cast" or polished, there is a pan to suit every need. Each transmission pan includes all necessary mounting hardware.

Note: Gasket and filter not included.

Transmission Parts

New!

Transmission Fluid Coolers

Transmission fluid is designed to act as a coolant as well as a lubricant for your transmission. If the transmission fluid is allowed to get too hot, performance drops, varnishes form, and the fluid starts to break down, which can lead to premature wear. Flex-a-lite heavy-duty coolers can help prevent this by keeping the temperatures down, helping to ensure longer life to transmissions and components, and reduce the stress created by high-performance transmissions. Also suitable as a heavy-duty engine oil cooler.

Important: Products shown in photos may be a different size and have different details than what is described on this page. Picture is from the same product line and is for reference purposes only. Depending on application and setup, additional fittings or adapters may be required.

Note: Dimensions: width = 11"; depth = 3/4"; height varies. See below for more options.

AT Aluminum Cooler

Keep your transmission temperatures down with this universal cooler from Mishimoto. Cooler temperatures means less fluid breakdown to keep your transmission working the way it should, longer. Another benefit of using this transmission cooler is that you can use any Mishimoto radiators, with or without a built in trans cooler.

MM13061 aluminum cooler 90.99 set

Hi-Tek Transmission Cooler

The Hi-Tek automatic transmission cooler is perfect for demanding street/strip and even towing applications. At 175 degrees, a thermal switch activates the high flow 12 Volt 7" electric fan. The 1/2" NPT fittings are easily adaptable to AN fittings and standard braided copper lines, or can be used with standard rubber or steel lines. Measures 10" x 7-1/2" x 4" and includes electrical connectors and detailed instructions.

70298 transmission cooler 373.99 ea

Transmission Oil Cooler/Filter

Moroso automatic transmission oil cooler and filter combination with a finned aluminum heat sink design to dissipate heat in racing applications. It can also be used as an inline auxiliary cooler in conjunction with the stock cooler. It's compact one pound 3" x 12" aluminum body gives it excellent heat transfer capabilities. An internal filter with magnet traps particles over 5 microns to reduce transmission wear. Includes filter cartridge and two 1/4" NPT to 3/8" line fittings.

241200 transmission filter cooler 129.99 ea

1962-78 AT Cooler Line

These reproduction lines will replace originals which are commonly cut when doing engine or transmission repairs. Each line features the correct flare nut fitting and original thread sizes. For a "show quality" look, choose from either the original galvanized material or the new longer lasting stainless steel material. For V8 engines only.

Important: *Without spacer at radiator

Note: Shipped double overcase.

1969-79 Polyurethane Transmission Mount

Chemicals, excessive movement and overall time in general can take its toll on one of the most crucial components of your driveline, the transmission mount! Once available only in degradable rubber compound, these mounts are now available in a longer-lasting and very durable polyurethane material.

A980104

1962-79 Transmission Crossmember

The G-Force Nova Performance Racing Crossmember is a heavy-duty, double hung transmission crossmember that was designed and fabricated exclusively for 1967-1981 Camaro models. It is manufactured new from 2" x 3" (1/8" wall) rectangular and 1/2" plate steel and black powder coated. It is designed to bolt-in, have clearance for dual exhaust, and be able stiffen your frame for big block horsepower. No floor pan modifications are necessary. Includes mounting hardware.

K6067

1968-74 Transmission Crossmember

For maximum exhaust clearance, use a bolt in transmission crossmember which bolts to mounts welded to the frame assembly. These crossmembers are finished in black powder coated and are available for TH350, TH400, TH700-R4, Powerglide, and manual 4- or 6-speed transmissions. These crossmembers can be used with a stock subframe and require an additional set of adaptor brackets, see part #K6073 for SBC OR BBC or K6074 for LSX engines.

700-R4/200-4R Throttle Bracket System

This throttle bracket system provides precise cable adjustment for 700-R4 and 200-4R transmissions. When properly adjusted this system allows proper shifting in city traffic and during full throttle operation. Includes: auto adjusting detent cable, detent cable arm, detent cable bracket, and throttle cable brackets. All sets also include throttle brackets for Lokar and GM throttle cables. Can also be used with factory rod style throttle linkage. Available for Holley, Edelbrock, Demon Carburetors, and MSD Atomic EFL.

1968-72 Universal Floor Shifter

This replacement universal shifter that has the look of the factory shifter with the functionality for modern transmissions. Mounts to the floor with much of the body below the floor to clear factory consoles.

Includes the neutral safety/back-up switch, rod linkage components, and factory like reverse lockout and detents for each gear.

Functions exactly like a 60's era factory shifter, not intended to be used as a racing shifter. Setup for both the 3-speed TH350/400 or GM overdrive transmissions (700-R4, 200-4R, 4L60, 4L65 or 4L80).

SW280	1968-72	349.99	ea
-------	---------	--------	----

Automatic Shifters

**Key Features:**

- Unique multi-positioned trigger for user comfort in various shifter positions.
- Base can be trimmed to custom fit any floor.
- Reverse lockout feature meets NHRA and IHRA requirements.
- Neutral safety switch, back-up light switch, lighted gear indicator, polished aluminum T-handle and cable.
- Can be used with a reverse pattern valve body.

The Most Comfortable Shifter We Offer!

The B&M Hammer™ shifter may just be the most comfortably operated automatic shifter you can buy. Grab the handle of a Hammer™ shifter and it feels like it was molded to your hand. The unique design easily fits small to large hands and provides the appropriate wrist angle. The multi-position trigger is spoon shaped for easy finger operation in a multitude of grip positions. Ratchet shifter for TH400, 350, 250, 200, 700R4, 200-4R, 3- and 4-speed automatic transmissions.

Important: Not for original consoles.

223016 Hammer™ shifter 283.99 ea

**Key Features:**

- Universal floor mount application. Base can be trimmed to custom fit any floor.
- Cable operated for quick installation and accurate shifting.
- Neutral safety switch, back-up light switch, lighted gear indicator, polished aluminum T-handle, and cable.
- Can be used with a reverse pattern valve body.

High-Performance Ratchet Action!

The Megashifter™ is one of B&M's all-time classic designs due to its timeless good looks and high-performance ratchet action. And, it's ideally suited for most popular universal applications. For TH400, 350, 250, 200, 700R4, 200-4R, 3- and 4-speed automatic transmissions.

Important: Not for original consoles.

223017 Megashifter™ shifter 412.99 ea

**Key Features:**

- Universal floor mount application. Base can be trimmed to custom fit any floor.
- Cable operated for quick installation and accurate shifting. You can't miss a gear.
- Neutral safety switch, back-up light switch, lighted gear indicator, chrome knob and cable.
- Can be used with a reverse pattern valve body.

Classic Style and Stout Performance!

You want style and stout performance wrapped up in a classic package? The B&M QuickSilver™ shifter is your answer! This top of the line ratchet action shifter provides performance shifting without a trigger. To get into park or reverse from drive, just lift the knob/stick assembly and move it forward into position! And it's cable operated for easy installation and precise shifting. For TH400, 350, 250, 200, 700R4, 200-4R 3- and 4-speed automatic transmissions.

Important: Not for original consoles.

223018 QuickSilver™ shifter 373.99 ea

**Key Features:**

- Base can be trimmed to custom fit any floor.
- Neutral safety switch, back-up light switch, lighted gear indicator, black T-handle and cable.

The Perfect Shifter for Your Daily Driver!

The Sport Shifter™ may be a low cost alternative to B&M's top of the line MegaShifter™ – but it performs as if it was twice the price! The Sport Shifter™ is not a ratchet shifter and not intended for racing applications, but it makes a perfect addition to any street machine – making daily driving something to look forward to. Utilizing a simple detent action between first, second, high, and neutral, it features a lighted gear indicator, black plastic T-handle, neutral safety switch, back-up light switch, and flat aluminum stick. For TH400, 350, 250, 200, 700-R4, 200-4R, 3- and 4-speed automatic transmissions.

Important: Not for original consoles.

223019 Sport Shifter™ shifter 275.99 ea

**Key Features:**

- Base can be trimmed to custom fit any floor.
- Cable operated for quick installation and accurate shifting.
- Reverse lockout feature meets NHRA and IHRA requirements.
- Neutral safety switch and polished aluminum T-handle and cable.

Straight Line Detent Shifter

The B&M StarShifter™ is one versatile 3- speed automatic shifter – wrapped up in a clean, timeless styled package! In the normal mode the StarShifter is a straight line detent shifter. When the lever is in low, lift the trigger all the way and pull the stick back to convert to ratchet action. Move the stick forward for the 1-2 and 2-3 shifts. Cannot be used with reverse pattern valve body. For TH400, 350, 250, 200 automatic transmissions.

Important: Not for original consoles.

223020 StarShifter™ shifter 256.99 ea

**Key Features:**

- Base can be trimmed to custom NHRA and IHRA requirements.
- Neutral safety switch, back-up light switch, black T-handle and cable.

More Bang for the Buck!

The B&M Z-Gate™ shifter combines classic styling, performance and a popular price. If you're building a project on a budget, or just want to upgrade your automatic shifter, the Z-Gate™ is the only choice! Great for most 3-speed automatics, the patented "Z" shaped architecture eliminates the possibility of over shifting and missing a gear. Even more, this easy to operate shifter has many of the features found in our top of the line units, and it includes a T-handle and T-trigger – so you get the most bang for your buck! For TH400, 350, 250, 200 automatic transmissions.

Important: Not for original consoles.

223021 Z-Gate™ shifter 239.99 ea

Premium Lokar Floor Mounted Shifters for Bucket or Bench Seats!

Floor Mount Shifter

Upgrade your classic with one of these premium Lokar floor mounted shifters. All shifters include a neutral safety switch with positive safety lockout in park and neutral, while the shift knobs feature a Teflon lined button for smooth operation. Designed to operate on solid adjustable linkage, each shifter also includes gold irradiated brackets. For models with bucket seats we offer the 8" handle. For bench seat models the 16" bench beam shifter is available and includes all the same features listed above. The bench beam shifters have been manufactured and shaped to clear most bench seat applications. Shifter levers are available in chrome or black and the mushroom shift knob in either brushed aluminum or a black anodized finish. All shifters include mounting hardware and instructions.

MADE IN USA

Column Shift Cable Linkage

This column cable shift linkage allows you to route the cable around numerous transmission types, exhaust, crossmember, and brake pedals. Billet aluminum mounting arm can be mounted on either side of the column. Hardware and brackets included. Fits factory or aftermarket GM style columns and TH350, TH400, TH200, 200R4, 700R4 transmissions.

Hi-Tech TH400 Electric Kick Down

Cable operated and the electric switch is housed in a billet aluminum or black box that mounts with transmission pan bolts. Includes "U-Cut-to-Fit" stainless steel outer housing designed with a specially extruded liner for extended life of the cable, aluminum fittings, stainless steel inner wire and stainless steel mounting bracket. Outer housing available in stainless steel, black stainless steel, or black nylon. Eliminates mounting electrical switches on the carburetor, manifold, or near throttle pedal. Can be mounted in a variety of locations within 48" of the carburetor. Complete installation instructions are included. Mount the throttle end of the kick down with the stainless steel carburetor bracket and return spring set.

Important: Throttle cable bracket/spring set #SR4000 or SR4003 is required for installation.

LED Gear Indicator

MADE IN USA

Features a billet aluminum bezel or boot ring with LED illumination. Available with a brushed aluminum or black powder coated finish, in a vertical or horizontal orientation. Sending unit can be mounted in a variety of locations such as on the transmission, frame rail, floor pan, firewall, under the hood, or the inner fender well. A remote mounting kit is included for those out of the way locations inside the vehicle such as under the dash, behind the seat or in the trunk. Compatible with all Lokar automatic shifters and many other aftermarket shifters.

1300041 aluminum cover 91.99 set

Key Features:

- Forged aluminum stick.
- CNC-Machined Billet Pistol-Grip handle.
- Snap-on thumb switch for operating roll control, nitrous or trans brake.
- One hand operated, spring loaded reverse lockout mechanism.
- Factory installed neutral safety switch.
- Cable operated.
- Optional cover kits sold separately.

3162001

Pistol Grip Quarter Stick Shifter!

The Hurst pistol grip quarter stick automatic shifter is designed for a firm comfortable natural grip, providing a positive feel when shifting. The pistol grip handle is CNC-machined from billet aluminum and features a precision snap action thumb switch that is ideal for operating a Hurst Roll Control, nitrous system or trans brake. Optional shifter cover can be trimmed to fit any floor plan. For a stock console look, choose the distinctive black textured plastic cover kit. Or, for a racier look, order the aluminum cover kit that attaches to the shifter with 2 quick release pins. Both are sold separately. The Hurst pistol grip quarter stick fits TH250, 350, 375, 400 transmissions.

Important: For vehicles without factory consoles.

Transmission Conversions

EXTERNAL FEATURES

SuperCase

We began with the strongest 356T6 aluminum alloy. We thickened the case walls, added additional material to support a stronger, full width 307 main drive bearing and a countershaft sealing soft plug, and we reinforced and thickened the mounting ears. As a final touch, user-friendly straight thread fill and magnetic drain plugs with sealing o-rings were added. Despite these improvements, we preserved the look of a 1960's design so our new case won't look out of place under your classic muscle car. No flex, no leaks, no broken ears.

Roller Side Cover

We noticed that we sell more side cover oil seals for Muncies than synchronizer rings, and although the oil seals are inexpensive and easy to replace, this bothered us. When we investigated we discovered that the shafts in many high mile side covers are running in elongated bores, causing new oil seals to fail prematurely. Obviously, a new side cover with round bores would solve the problem temporarily, but we wanted a permanent solution, so we made our shifter shafts a true 75° and supported them with new bearings. It's standard on our new transmissions.

Extension Housing

If you've been looking, you know that good extensions for thirty-year old Muncies are hard to come by. When we set out to eliminate that little problem, we also thought about what you're planning to do with it. We added a backbone rib, stiffened the reverse shift tower, and enlarged the oil seal shroud. This housing is produced with a passenger side speedometer drive housing. So whether all you need is an extension better than yours or you're thinking your monster motor might need the big output to handle all that torque, you can stop looking. We've got you covered.

INTERNAL FEATURES

Gearsets

For over fifty years Auto Gear has delivered the highest quality manual transmission gears. Our Muncie M22 gearset is typical. Some vendors purchase the "unimportant" gears in India or China. They must be smarter than we are — we think they are all important, so all six of our gears are manufactured for us in Italy by Antonio Masiero S.p.A. For General Motors cars from 1963-74, we offer the most complete range of Muncie gearing available. Every piece meets our standards before we put our name on it. You can buy cheaper gears elsewhere, but you can't buy better gears anywhere.

Roller 1st Gear Option

When you're not in low (and how much time is that?) your gearbox is spinning your 1st gear on the shaft. That's horsepower that's not going to your tires, and for years racers have minimized this loss by supplanting a bearing between modified 1st gears and sleeves, an expensive, one piece at a time solution. Our Roller 1st gear set uses a special cut gear and sleeve for the ultimate in accuracy, coolest running, and lowest cost. It's standard in our new transmissions.

Note: Not for use in drag racing applications, or street use when hard launches will be the normal or even occasional driving style.

Ductile Iron Mid-plate

Every time you shift your Muncie's heavy main shaft assembly is thrown back and forth, restrained only by two support rings and a mid-plate. That's a lot of it as a slide hammer and it'll be no surprise that many aluminum mid-plates are distorted at the mounting groove. We make the mid-plate you should be hammering on... our mid-plate is made from shock resistant ductile iron. It's standard in our new transmissions.

Borg Warner

Muncie

Saginaw

The Ultimate SuperCase Muncie 4-Speed

These are exotic transmissions designed for quarter miles or circle tracks, but if your Muscle Car sees city streets or country lanes you need a heavy-duty, synchronized, close ratio gearbox with a helical gear set and, to be honest, until now you haven't had too many good options. Each new Auto Gear transmission is built from genuine Auto Gear parts — the highest quality available — and includes all the goodies: SuperCase, ductile iron mid-plate, your choice of three heavy-duty gearsets (each with roller 1st) and a roller side cover. Best of all, it's ready-to-install and it's available at a less than exotic price. No core required!

Note: All transmissions are special order and must be prepaid. Special shipping rate applies.

SuperCase with M22 Gearset with 2.20 1st

If your only concern is taming the biggest, meanest motor on the block, you want an M22 based gearset. All three of our feature the legendary 'Rock-Crusher' gear geometry and run with the signature whine. And, while they cost a little more, most owners find that they raise the value of their automobile by the difference or more. The M22 is an GM intended and was originally paired with a 4.11 axle. Street cars used only in the wide open flat places may successfully run something faster. This approach off loads more of the 1st gear stress onto the axle and makes the gearbox more durable, but the fuel economy is frightening.

SuperCase with M22W Wide Ratio Gearset with 2.56 1st

The M22W is our answer to the price of gas. Pair it with a faster axle, say a 3.54 for street or a 4.11 for the strip, and you'll have a competitive combo that'll show your wallet a little mercy. It's a little less strong, but it's far from weak.

Transmission Conversions

5-Speed Driveline Conversion Set

American Powertrain ProFit Conversion combo sets include the components required to convert your vehicles manual driveline to a modern Tremec TKO 5-speed manual overdrive transmission. Each combo includes a TKO500/600 5-speed transmission rated at 500/600 ft lbs, with 3 available editions to choose from, (Quick Launch, Road Race and Street/Strip). Transmissions feature offset shifter mechanism, and include bolt-in crossmember, slip yoke, speedometer solution (mechanical or electronic), transmission mount, conversion pilot bearing, weather seal reverse light and VSS wiring harness, tunnel patch and template, shift knob, hardware, and instructions. Compatible with OE console or non-console applications.

Important: Compatible with 4-speed bellhousing. Requires 26 spline clutch disc (not included).

Note: Transmission set contents vary by model. Special order, must be prepaid. Some modifications may be necessary. Photos for illustration purposes only. Shipped overweight.

6-Speed Tremec Transmission

New high-performance Tremec Magnum 6 speed features most Nova models. These premier T-56 transmissions offers two different setup gear ratio and double overdrive ratio, rated at 700 lb ft torque capacity and for up to 700HP applications. With multiple shifter locations for various console applications. Bolts directly to most LS style T-56 bellhousing, wide alloy gears, 26 spline input and 31 spline output shafts, upgraded internals for stronger, longer-lasting transmission, electric and mechanical speedometer pickups. Modern technology for much greater performance capabilities.

Important: Some modifications may be required.

Note: Special order, must be prepaid. Photos for illustration purposes only. Shipped overweight.

6-Speed Conversion Set

American Powertrain Conversion sets include the components required to convert your vehicles manual driveline to a high-performance Tremec T56 Magnum 6-speed overdrive transmission. Magnum T56 offers two different gear ratio setups, double overdrive ratios, and are rated at 700 ft lbs torque. Combo includes T56 Magnum transmission, offset shifter mechanism, bolt-in crossmember, slip yoke, reverse light/lockout and VSS wiring harnesses, transmission mount, conversion pilot bearing, tunnel patch and template, shift knob, hardware and instructions. Compatible with OE console or non-console applications.

Important: Requires engine specific bellhousing or bell adapter and 26 spline clutch disc (not included).

Note: Transmission set contents vary by model. Special order, must be prepaid. Some modifications may be necessary. Photos for illustration purposes only. Shipped overweight.

T56 Super Magnum 6-Speed Manual Transmission

Chevrolet Performance high torque capacity TREMEC six-speed manual designed for custom, retro-fit installations with Chevrolet Performance crate engines. 700 ft lb maximum torque capacity, exterior case similar to fourth generation F-Body transmission with the stronger, high-capacity gears, input shaft and output shaft used in the TREMEC TR6060. Features include 26 spline input shaft, 31 spline output shaft, Gear ratios: 2.66 (1), 1.78 (2), 1.30 (3), 1.00 (4), 0.80 (5), 0.63 (6). Slip yoke design, 40 tooth reducer ring that's necessary for use with electronic vehicle speed sensors used with Chevrolet Performance controllers. Two position shifter plate included, with third position built into the transmission. Kit includes shifter handle and Chevrolet Performance logo ball type shift knob. Measures approximately 33.6 inches long with bellhousing attached. Bellhousing and installation kits are sold separately.

Important: Some modifications may be required.

Note: Special order, must be prepaid.

1968-78 Modular Trans. Crossmembers

Swap nearly any GM transmission into your 1968-71 Chevy II/Nova with a conversion crossmember from BMR! These modular crossmembers provide 9-3/4" of adjustment to accommodate Powerglide, TH350, Muncie 4-speed, TH400, TH700R4, 4L60E, T-56, TR6060, Magnum, and 4L80E transmissions. Manufactured from 1-1/4" diameter heavy wall tubing and 1/4" laser cut mounting plates. This crossmember provides a bolt-in solution to upgrading your transmission for modern fuel economy and gear ratios. Includes polyurethane transmission mount and Grade 8 hardware. Made in USA.

Kevlar Pilot Bushing

Kevlar has a long history of durability in industrial applications, and now RAM offers pilot bushings in this amazing material. By using Kevlar for the pilot bearing, wear is significantly reduced over time versus bronze or needle bearing bushings that can lose lubrication over time, causing wear. Kevlar bushings are self-lubricating and offer low susceptibility to damage from heat while maintaining their dimensional stability.

BU656K	1967-77	49.99 ea
--------	---------	----------

Roller Pilot Bearing

Replacement pilot bearing for use on all 1964-79 V8 Chevy II/Nova models. Worn pilot bearings can cause hard shifting and increase transmission wear. When changing your clutch be sure to use a new pilot bearing for best results. This bearing should be used in high-performance vehicles and is a significant upgrade from the stock bronze bushing.

Bellhousings

1962-79 Muncie & Saginaw Safety Housing

Fits 1962-79 Chevrolet, most V8 and 90 degree V6 engines with block mounted starter. Designed for mechanical clutch linkage and includes special pilot bearing. Fits Muncie, Saginaw, and BorgWarner T-10 transmissions. Bore diameter 4.684". Depth with block plate 6.45". Fork opening 2.125" x 3.300".
LW15000 1962-79 Muncie & Saginaw 593.99 ea

1964-67 Install a STEEL Bellhousing!

SFI approved safety bellhousing is required for vehicles running 11.49 seconds or quicker in quarter mile competition. Built in the USA from high strength, hydro formed, and stress relieved steel to ensure uniform wall thickness. This bellhousing is precision machined and Blanchard ground to tight tolerances for maximum bolt and bore alignment. The bellhousing is heat treated for added strength and certified to SFI 6.1W specifications. Durable powder coated finish for years of corrosion free service. The block plate and Grade 8 hardware is included. Approved by all major sanctioning bodies.
Important: Not for use as a safety bellhousing.
LW15050 1964-67 573.99 ea

1966-79 LS Aluminum Bellhousing

This bellhousing is modeled after the famous '62'1' model and designed to bolt to Gen III LS engines. This bellhousing, along with a 168 tooth flywheel and 11" clutch, allows the use of an original 4-speed Saginaw, Muncie, or BorgWarner transmission, including the original clutch linkage and starter. Made from CNC-machined heavy cast aluminum, heat treated to and reinforced with extensive thick webbing, this is one of the strongest cast aluminum bellhousings available. Made in USA.
Important: Pivot ball sold separately.
621113 1966-79 11" 329.99 ea

1968-79 11" Aluminum Bellhousing

A reproduction "62'1" 11" bellhousing used on various Chevrolet models with big block or small block engines equipped with an 11" clutch. This high-performance option aluminum bellhousing featuring the casting number and GM mark will look and fit just like original. Accepts Saginaw, Muncie, BorgWarner and Tremec TKO/T56 transmissions with a 4-11/16" pilot bore. Fits up to 11" clutch on a 168 tooth flywheel. Also fits 153 tooth flywheel when used in conjunction with the proper starter.
Important: Pivot ball sold separately.

14053 1971 all big block 169.99 ea
14053 1971-79 all small block 169.99 ea

1968-79 11" HD Aluminum Bellhousing

Looking to replace a cracked or damaged original "62'1" bellhousing, or converting to a 4-speed? This reproduction bellhousing is a permanent mold, low pressure casting from A356.2 aluminum that is thicker, weighing 3 pounds heavier than the original, while maintaining a factory appearance. CNC-machined and heat treated to T6 specifications, this bellhousing features extensive reinforced webbing, clutch fork opening, threaded pivot bolt hole and GM casting number. Accepts Saginaw, Muncie, BorgWarner and Tremec TKO/T56 transmissions with a 4-5/8" pilot bore. Fits up to 11" clutch on a 168 tooth flywheel. Also fits 153 tooth flywheel when used in conjunction with the proper starter. Made in USA.
Important: Pivot ball sold separately.

3899621 1971 all big block 329.99 ea
3899621 1971-79 all small block 329.99 ea

Install a Steel Bellhousing!

Designed to replace the stock aluminum bellhousing, this bellhousing/transmission adapter is made from 25" thick hydro-formed steel for extra strength and is perfect for engine swaps. Fits most Chevrolet V8 and 90 degree V6 applications with block mounted starters and conventional clutch linkage. Accepts the standard GM Muncie, Saginaw, and BorgWarner T-10 transmissions.
Important: Not for use as a safety bellhousing. Does not meet SFI specifications.
HY717150 573.99 ea

QuickTime Bellhousing

Designed for circle track, strip, and street applications. QuickTime bellhousings are built from high grade steel, with a spun cone, not rolled or stamped. This allows QuickTime bellhousings to be the most dimensionally stable and accurate for today's high-performance vehicles. Made in USA.
Important: Pivot ball sold separately.

Flywheels

11501

1964-79 True Balance Billet Steel Flywheel

Ram True Balance billet steel flywheels are the ideal replacement for factory cast flywheels in high-performance and racing vehicles. Cast flywheels are not explosion proof and can be dangerous when used in high-performance applications at higher RPMs. Ram billet steel flywheels are CNC-machined from certified materials and exceed SFI specifications. After machining, the flywheels are Blanchard ground parallel to the crankshaft mounting surface, ensuring minimum run out and an optimum mating surface for the variety of friction materials offered. Use steel flywheels in heavier drag race cars or for the best drivability in street driven vehicles.

Important: For Ram clutch sets only.

22501

1964-02 True Balance Aluminum Flywheel

The ultimate choice for most all-out competition vehicles! Ram True Balance aluminum flywheels are CNC-machined from certified materials and exceed SFI specifications. A well tuned competition clutch system has a predetermined amount of slippage at launch and during gear changes. The Ram True Balance aluminum flywheel has a 1/4" steel friction insert to give it enough mass to absorb the heat generated by slippage without distortion, ensuring maximum clutch life and consistent performance. The steel insert remains flatter and dissipates heat better than thinner inserts that can warp and lift, causing uneven engagement across the clutch disc. Each True Balance flywheel is precision ground after the steel insert is installed to ensure the friction surface is parallel with the crankshaft flange for minimum run out and to provide the optimum mating surface for your choice of clutch disc.

Important: For use with Ram Clutch sets only.

Clutch Housing/Flywheel Cover - 11"

Reproduction of the original style clutch housing and flywheel cover plate designed for use on a variety of GM models. Manufactured in stamped steel to original specifications that replicate the original cover. The clutch housing flywheel cover plate which is located on the back of the engine block and is used to cover the flywheel. For use on most big blocks and high-perf small blocks with a heavy-duty clutch and a 11" bellhousing. Contains a large 2-7/8" diameter round hole.

Note: For models with Chevrolet 621 or similar

11" bellhousing.

The word is out, RAM Street Dual System is in!

902100

902120

1955-06 Street Dual Disc System

The "on/off switch" clutches for your high horsepower street machines are a thing of the past. Your muscle car may have been built with technology from the 60's, but that doesn't mean your clutch has to be! The RAM Street Dual Disc clutch system makes use of 30 years of drag racing experience to become the ultimate clutch system for your high horsepower muscle car. Wrap your bellhousing around super strong dual clutch discs with an aluminum flywheel, easy pedal effort diaphragm pressure plate, 300 series friction material, and a special floator plate and retainer that virtually eliminate floator plate rattle. Even though the capacity for this clutch system is 1000 HP and 900 lb ft of torque, the engagement is silky smooth thanks to the 300 series friction material.

Important: The dual disc system works with mechanical linkage on older cars and hydraulic and cable systems on late models. LS1 applications require an adjustable master cylinder. A safety bellhousing is strongly advised, and some modifications may be required to pivot ball configurations in cable and mechanical release applications, as well as hydraulics. *With 1 piece main.

Clutch Components

HY85105

1962-79 Street Perform Pressure Plate

An excellent upgrade from the stock unit, the Hays street performance pressure plate far exceeds OE specifications in material, construction and performance. Light pedal pressure and quick release make the Hays diaphragm pressure plate the most popular choice for today's street driven vehicles.

Important: Stock clutch linkage may require reinforcement.

Increase performance without sacrificing streetability!

HY85112 - organic friction material

HY85111

1962-79 Street Clutch

An excellent upgrade from the stock unit, the Hays Street Clutch far exceeds OE specifications in material, construction and performance. Light pedal pressure and quick release make the Hays diaphragm pressure plate the most popular choice for today's street driven vehicles. Hays Street discs feature organic friction material that is riveted to a Marcel backing which acts as a shock absorbing material. The spring center hub absorbs driveline torque, eliminating shock and vibration to ensure chatter free engagement. The Hays high-performance throwout bearing has been developed to withstand the high spring pressure and high RPM operation common to performance clutches. Each bearing face is heat treated and Blanchard ground to ensure trueness. The collars are heat treated for strength and machined to close tolerances for secure bearing fork attachment. The ball bearing race is packed with heat resistant moly-based grease for better lubrication and longer life. A nylon liner and bearing retainer is also featured for cooler and quieter operation. Hays Street Clutch sets include a Hays performance pressure plate (light pedal pressure and quick release make the Hays diaphragm pressure plate the most popular choice for today's street driven vehicles), Hays performance clutch disc (features organic friction material that is riveted to a Marcel backing which acts as a shock absorbing material), Hays performance throwout bearing (withstands the high spring pressure and high RPM operation common to performance clutches), bolt kit, and a handy splined clutch pilot tool to aid in installation of set.

Important: Stock clutch linkage may require reinforcements.

HY91102

1962-79 Street 450 Clutch Set

The Street 450 single disc set is an excellent upgrade from your stock clutch and designed handle mildly modified engines up to 450 horsepower. It is a great clutch where driveability is the most important factor. Our clutch features 30% greater clamping force than a stock clutch allowing you to put more power to the ground and high-quality disc material allows for smooth, no-chatter engagement. Each set includes: pressure plate, clutch disc, throwout bearing, alignment tool, and instructions.

Important: Stock clutch linkage may require reinforcement. Check the number of splines on the input shaft of the transmission you are using before ordering.

Clutch Components

Hydramax Hydraulic Clutch Set

The American Powertrain Hydramax hydraulic clutch sets include the components required to convert your vehicles mechanical linkage system to smooth hydraulic system. Sets are design to work with OE or custom pedals. Includes adjustable firewall mount, pre-bleed 3/4" bore master cylinder, plastic reservoir kit remote or local mount (billet upgrade available), steel braided lines, concentric slave bearing, pedal rod (specific by model), fittings, hardware, and instructions. Available for most OE 4-speed, Muncie, T10, Saginaw, Richmond, Tremec TKO 5/6-speed series, GM/Mopar Magnum T56 or Viper/LS 6-speed manual transmissions.

Note: Set contents vary by model. Some modifications may be necessary. Photos for illustration purposes.

1998-02 LS1 Adjustable Master/Slave

An adjustable master cylinder is required for installation of the RAM Street Dual on any LS application so you can limit your clutch travel and avoid shifting problems. When installing the new clutch hydraulics, it is essential to flush the system of old fluid and rebleed with new fluid. Bleeding MUST be done by vacuum method or using a power bleeder such as a Mityvac.

RA520 1998-02 slave cylinder... 161.99 ea

1968-74 Hydraulic Clutch Master & Throwout Assembly - LS1

Factory hydraulic master assemblies are too long to bolt up to the original pedals used on the 1968-74 models. This assembly will resolve that issue by machining up a new pushrod sleeve. The hydraulic assembly is designed to fit your 1968-74 model in conjunction with part #AT1011 firewall bracket.

AT1014 1968-74 419.99 kit

1968-74 Adjustable Hydraulic Clutch Master and Slave Assembly - LT1

Factory hydraulic master assemblies are too long to bolt-up to the original pedals used on the 1968-74 models. This assembly will resolve that issue by machining up a new pushrod sleeve, complete with an adjustable rod end to shorten the overall length of the master. The hydraulic assembly is designed to fit your 1968-74 model in conjunction with part #AT1011 firewall bracket.

G13109 1968-74 167.99 ea

Hydraulic Release Bearing

Hydraulic release bearing for stock style and multi-disc clutch applications designed for transmissions utilizing the 1.375" collar size. The bearing requires a minimum 3/4" bore master cylinder and a -4AN feed line to run from the master to the bearing. The RAM bearing will provide up to .600" travel using a 3/4" bore master cylinder. T56 models include the necessary fittings and hoses to connect with the factory master cylinder and provide increased travel plus full adjustability of starting position to accommodate most single and dual disc clutches.

Hydraulic Bearing Pedal Adjustment System

With the RAM HSA system, you can adjust the pedal position lower to the floor and also eliminate over travel of the release bearing which can cause damage to the hydraulic bearing, or cause higher RPM shifting problems due to over centering of the diaphragm spring. The RAM HSA valve plumbs inline between your master cylinder and release bearing, whether factory or aftermarket. Once in place, simply re-bleed the system and adjust the screw position to achieve the optimum pedal position and travel. The kit includes: the HSA valve, tee fitting for installation, and a 12 inch Teflon braided line. For factory bearing installations, an adapter fitting is available to enable connection.

1962-79 Throwout Bearing

Hays High-Performance

Throwout Bearings have been developed to withstand the high spring pressure and high RPM operation common to racing clutches. Each bearing face is heat treated and blackhard ground to ensure trueness. The collars are heat treated for strength and machined to close tolerances for secure bearing fork attachment. The ball bearing race is packed with heat resistant moly based grease for better lubrication and longer life. A nylon liner and bearing retainer is also featured for cooler and quieter operation.

1962-79 Self-Aligning Throwout Bearing

Hays Designed specifically for

installations with clutch to transmission misalignment resulting in noise and vibration, the Hays self-aligning throwout bearing minimizes these conditions. Clutch alignment can also vary due to normal wear and tear. Self-aligning bearings with their rugged performance characteristics are also a functional upgrade from standard bearings on older cars, when applicable.

1976-79 Clutch Throwout Bearing

ACDelco Authentic GM clutch

throwout bearings. When replacing the clutch in your Nova, it is recommended that you replace the throwout bearing at the same time. Even if the bearing appears to be in good shape, it is not worth the risk of trying to save money now only to incur additional costs in the long run when the throwout bearing goes bad.

G8548 1976-79 8 cylinder 54.99 ea

HAYS

McLeod

Adjustable Throwout Bearing

This adjustable throwout bearing is the perfect replacement for any bearing. Replaces all of GM's three different bearings by simply removing one of the rings. With all three rings on the bearing you have the long bearing. Remove one ring and you will have the mid-length bearing and if you remove all three rings you will have the short bearing.

16505 adjustable 99.99 ea

Billet Clutch Reservoir

This billet clutch reservoir will add some high tech look under the hood. Machined from 6061-T6 billet aluminum. Replaces the stock GM plastic clutch reservoir for hydraulic clutches. Accepts 1/8" NPT to AN fitting. Includes mounting bracket and 5/16" nickel-plated hose barb fitting. Available in natural, black, and gray finish. Reservoir can be used for many custom applications.

BY12010 - top view

1962-76 Reproduction Delco Energizer® Battery

Give your Nova total originality with a reproduction maintenance-free hard top Delco Energizer® battery, manufactured with the original tooling using today's technology. These 780 CCA batteries are correct in every detail for each respective year. The early style screw-in caps have Delco lettering and are the correct color for each year, while the later style push-in caps reproduce the "split ring" logo and include one "Delco-Eye" hydrometer cap. Each battery case is manufactured in the original dimensions with correct texture, featuring "Delco" lettering and reproduction assembly line battery decals where applicable. These maintenance-free reproduction batteries are shipped ready to use, and are an excellent choice for finishing the engine compartment of your restoration. Don't forget to check the condition of your battery tray and cables for rust and corrosion.

CAUTION: Maintenance-free batteries are Gel-Cell type batteries and DO NOT require adding electrolyte (battery acid).

Note: Batteries carry a 48-month manufacturer's warranty. Shipped overweight.

Yellow Top Battery

With premium cranking power, low internal resistance, and unparallelled cycling capability (rechargeability), the Yellow Top AGM battery is a true dual purpose automotive battery. It handles deep power drains and recharges to full capacity so it can power plenty of electronics and still start the engine time after time. Perfect for vehicles with multiple electronic systems or high demand audio.

Battery Relocation Set

Moroso battery installation set. This set includes enough 2 gauge copper wire to relocate the battery to the trunk on most vehicles. The high grade cable features a rugged PVC insulation provides unrestricted current flow. Set includes: all the terminals, 12 gauge leads, grommets, insulated clamps, and shrink sleeving to do the job.

MS74055 blue..... 174.99 set

Battery Cables

1962-72 Spring Ring Battery Cable

If you want to restore your Chevy II/Nova to exact factory specifications, these OEM type cables are what you need! Each cable is reproduced exactly as original using the same OEM type spring terminals and connectors. The terminal end includes the word "SPRING RING" in the correct type style and size. Each cable is produced for authenticity and includes the original wire markings. Positive and negative cables are sold separately, due to the various variety of cables which were used for different applications. Each reproduction includes the correct length cable and spring ring terminal end, except as noted on 1970 and later models with side mount battery cables.

Universal Battery Cables

Underhood or trunk mount battery cable sets. Each cable is 1 gauge and features lead die-cast top post terminals with a steel ring insert. This feature prevents cracking or breaking the terminal due to tightening. Each version comes in either top post or side post sets. Trunk mount sets measure 18" while underhood sets measure 6" in length. Negative cables feature pre-assembled 36" long 6 gauge secondary lead. Each set includes: crimping tool, extra lugs and shrink tubing.

PAIRLESS

Remote Mount Battery Cable Set

Perfect for trunk mounted batteries. Both positive and negative cables are 1 gauge and 16 feet in length which allows for them to be attached to the engine for maximum starting current. Helps prevent voltage drop to the engine. Eliminates the need for heavy cable connections between the engine and frame. Set includes side post adapters and high amp crimp ring terminals with heat shrink.

40105 universal 132.99 set

New!

PAIRLESS

Battery Cable Set

This set has only the highest quality components. Set comes complete with 16 feet of red #1 gauge positive cable and 3 feet of black #1 gauge cable, both with heavy-duty battery terminals already installed capable of handling over 250 amps. Set includes side post adapters and high amp crimp ring terminals.

10626

SBT1

Battery Cable Terminal

Due to the corrosive nature of battery electrolyte, the original lead cast positive and negative terminal ends usually require replacement every few years. We offer these replacement style late model OEM type terminals for top or side post batteries.

10626	top post terminal.....	2.99 ea
SBT1	side post terminal with bolt.....	2.99 ea

Side Terminal Adapters

If you are converting a side terminal battery to top post cable usage, we offer this convenient set which allows you to install and operate your replacement battery without unnecessary cutting of your cables.

RCP3L positive and negative 4.99 set

Quick Release Battery Cable Bolts

These handy quick release bolts replace standard 5/16" battery clamp bolts used for most top post batteries. The cam lever action tightens and loosens the bolts without tools. They're constructed from anti-corrosive stainless steel and padded with color coded red and black polypropylene.

W20251 top post 5/16" bolts 9.99 pr

Battery Terminal Protectors

Prevent corrosion buildup on the battery terminals with these color coded black and red anti-corrosion battery terminal protectors. Made of chemically treated polyester fiber.

Battery Accessories & Tools

Priority Start! Battery Protector

The Priority Start! 12 Volt ProMax has a surge "spike" protection circuit that adds additional protection to the electrical system. Transient voltage "spikes" can cause damage to computers, 2 way radios, MDT equipment, cameras, and a host of other electrical equipment. The ProMax can be used on all 12 Volt vehicles including those with such aftermarket accessories.

PS1002 104.99 ea

130 Amp Heavy-Duty Battery Load Tester

Applying a powerful 130 amp load, this heavy-duty battery tester delivers more accurate results than conventional testers. Determine a battery's state of charge as well as cranking and charging Volts. Large, easy-to-read display. Unique clamp design for side and top post batteries. Multi-mount bracket for easy storage on a wall or tool box.

AC7614 61.99 ea

Deluxe Relay Tester

No need to pierce wires or connect multiple jumper wires with this relay test kit. Features jumpers that have tabs for clamping and flat pads to place test leads on. Includes test lead kit for easily and securely connecting relay test jumpers to a multimeter. Jumper wire may be used between common and open to close the relay circuit for testing and has a test port to easily check voltage. Also provides access for a clamp-on amp meter. Relay pulper pliers easily remove electrical relays without damage to the relay or electrical box.

Smart Battery Charger 800

The OER® Authorized Smart Charger 800 battery charger and maintainer for classic cars and trucks provides high frequency automatic intelligent charging for 12V lead acid, flooded, or sealed maintenance-free (AGM and Gell Cell) batteries. Microprocessor controlled unit plugs into 120V AC current and provides 0.8 amp output through a 4 stage charging program. Features 4 safety functions: over load, over heat, short circuit and reverse polarity, and is spark proof. Designed to be used with ring terminal output or with the optional clamp set as a portable unit. Has GS/CE/ETL/CEC Certifications. Ideal for cold weather battery maintenance, or vehicle storage.

T70782 1971-76 side post 59.99 ea

Battery Carrying Strap

This handy tool is a must for your tool box. Allows you to easily carry bulky automotive batteries without getting acid on your clothes and hands. Each end is marked and sized to fit the positive or negative terminals allowing a secure, tight fit onto the post. Battery acid won't harm the strap! For top post batteries only.

X205 carries top mount 6.99 ea

Battery Mat — Acid Neutralizer

The Battery Mat offers protection against undetected battery acid leaks. Once installed, the mat will trap and neutralize any battery acid that leaks from the terminals or top side of the battery, preventing corrosion and expensive damage. Each mat is made of super absorbent polypropylene needle punch felt, with one side heat treated to give it additional strength. The mat is inserted under the battery between the battery and the battery tray. It can easily be installed at any time either when replacing the battery tray or battery.

BM2427 yellow mat 6.99 ea
BM2428 black mat 6.99 ea

Battery Lifesaver — Corrosion Remover

Lead acid batteries will discharge, deteriorate and die without regular use or recharging because of corrosion and sulfates on the plates. This module, developed specifically for vehicles that are not driven on a regular basis to keep their battery fully charged, will actually recover lost battery capacity by removing plate corrosion, and in turn, extend battery life up to double or triple the normal life span!

BLS1 29.99 ea

Battery Accessories & Tools

Protect Your Vehicle from Corrosive Battery Acid!

Prolong battery life and protect your vehicle's battery tray, underhood and radiator support area with the world's only acid-neutralizing heat barrier mat. It reflects over 90% of radiant heat, traps and neutralizes battery acid, protects against corrosion, is recyclable, protects the environment, and is inexpensive and easy-to-install. The Battery Heat Barrier™ set is completely safe to handle before and during installation. So effective, it is used by all branches of the United States military. Set consists of: one 8" x 40" acid absorbing/neutralizing felt and one adhesive backed 8" x 40" aluminumized thermal barrier to wrap around the battery, plus an 8" x 12" acid absorbing/neutralizing pad to put beneath the battery. Install one on your vehicle NOW, before it's too late.

TT1001 battery heat shield..... 28.99 set

Battery Switch

These battery switches are easy-to-install on the negative battery post and disconnect the battery by simply loosening the knob a few turns. To reconnect just tighten the knob. The knob can be removed completely to deter theft. Rated at 500 amps surge and 125 continuous at 12 Volts. Available with a 15 amp fused bypass that maintains computer settings, radio, clock etc., while the battery is disconnected.

W20309 top post with fused bypass 11.99 ea
W20308 top post w/o fused bypass... 11.99 ea

Lifeline Memory Retention System

The Lifeline enables users of a Master Disconnect Switch to retain a small amount of power for memory circuits common in fuel injection computers, radio presets and clocks. The Lifeline is a memory circuit retainer that will automatically reset after the electrical load is significantly reduced or if the Master Disconnect Switch has been switched to the on position. Available for standard or remote battery disconnects.

500778 standard disconnect..... 22.99 ea
500837 remote disconnect..... 29.99 ea

Quick-Disconnect Battery Terminal

This brass, quick-disconnect battery terminal isolates the vehicle's battery, allowing the clock, radio etc., to remain functional when combined with a fused bypass. Designed for both round and square battery lugs.

W203507 9.99 ea

Master Disconnect Battery Switch

Taylor's 2 post battery disconnect switch completely shuts off all of the current from the battery in the event of an accident or electrical short. The 2 post switch is rated at 180 amps continuous capacity and is especially useful when charging the battery. Includes vinyl on/off decal.

Note: The NHTSA requires a master battery disconnect switch on all modified and super stock class vehicles to comply with their rule 8-4.

TP1032 180 amps..... 37.99 ea

Battery Cutout Switch

Make sure your battery maintains the precious power you need by disconnecting the battery from the car during storage. Your choice of an inexpensive standard duty cutout or a heavy-duty unit. Works on any 12 Volt system or vehicle. Splices into positive battery cable to provide a switch for turning power on or off.

W203047 standard duty 24.99 ea
T4988 heavy-duty 86.99 ea

Disconnect Position Ring

For disconnect switches to identify the correct position of the switch (ON or OFF). Eliminates the question of which direction is the safe one.

BC900705 4.99 ea

Water Resistant Master Switch

This water resistant master switch is rated to 1000 amps continuous, 1000 amps surge at 12 Volts, and 50 amps surge at 24 Volts. 2-1/4" dia. x 2-1/2" deep and 1-1/4" deep behind panel. Features two 3/16" dia. mounting holes. Includes 2 keys and a water resistant terminal.

Tremec T-56 All-In-One Harness

The All-In-One harness solution for the Tremec T-56 Magnum transmission comes equipped with all the connectors pre-wired into one harness for a simple installation and ease of use. The small epoxy sealed controller is mounted to the VSS output using the existing bolt, and once the unit is powered up you will be able to connect via Bluetooth to your Apple or Android smartphone using (Bowler Transmissions) free APP. The APP will give you the ability to customize the input and output settings for each feature to ensure proper operation in your vehicle. This harness eliminates the need for any additional equipment to operate the reverse lockout or generate the correct speedometer signals coming from your Tremec T-56 Magnum.

OE Style Wiring Harnesses

OE Style Reproduction Wiring Harness

Reproduced using the original General Motors schematics and feature the correct attachment connectors and wire in the correct gauge sizes and coloration (when available) to match your original and maintain authenticity. When ordering wiring harnesses it is essential to supply as much information as possible regarding your Nova's optional equipment including the year, engine size, transmission type, or any and all factory options. This will ensure you are getting the correct harness for your particular application.

OE Style or Universal?

Wiring harnesses are labeled either OE style or universal. OE style are reproduced using the original General Motors schematics and feature the correct attachment connectors and wire in the correct gauge sizes and coloration (when available) to match your original and maintain authenticity. Universal may not be reproduced in this manner, and may require modification to fit your specific application.

A 1962-74 OE Style Under Dash Wiring Harnesses

Classic Industries® now offers an under dash wiring harness to completely replace your existing dash harness. Includes everything you need for applications listed below. No more searching the wrecking yards for a harness that might work! Get exactly what you need without the guess work. All under dash harnesses are manufactured specifically for your Nova.

Note: *With seat belt warning. **Includes back-up light.

B Rear Body Lamp Harnesses

These reproduction rear body light harnesses are produced to exact factory specifications including the correct color wiring and factory connectors. Each harness will replace the original exactly and bring your rear lighting section including the tail lamps and side marker lamps (where required) back to showroom condition. We offer a comprehensive selection of rear body light harnesses for 1962-74 Chevy II and Nova models.

Important: 1963-68 models with manual trans requires the use of a back-up switch wiring harness, sold separately. 1969-72 models require the use of a jumper harness to complete the rear body light harness.

Note: *With under dash courtesy lights (sockets not included).

1963-76 Console Wiring Harness

If you are rewiring your console lamps, or neutral safety switch, these harnesses will let you do it the easy way, with one complete harness. Each of these console gauge harnesses is a perfect duplication of the original, including the correct color and gauge wires. Perfect for replacing damaged originals or as part of a console gauge conversion for a Nova not originally equipped with gauges.

Important: In order to correctly convert your Nova to console gauges, you must also replace your under dash, engine and front light harnesses.

Wire Crimping Tool

Needed for F-type terminals included in Classic Update and universal harnesses. Wire sizes ranging from 10 gauge to 18 gauge, or terminals requiring a 2 wire connection.

CA510586		91.99 ea
----------	--	----------

Universal Wiring Harnesses

Instrument cluster wiring is designed with a "cluster harness disconnect" system for easy service and adjustment. All original terminals, connectors, and light sockets are also supplied for original cluster gauges. Any aftermarket gauge system can be easily and neatly wired in.

Engine wiring includes connectors for points type and HEI distributors. Power and tach connectors supplied for GM HEI distributors. Alternator connectors supplied for GM "S" series internal regulator alternators.

Engine wiring includes starter and gauge sender leads for water pump, oil pressure, and tach. Heavy 8 gauge alternator leads are supplied. Power circuits are fusible link protected.

Fuse box and custom mounting plate are designed for a bolt-in under dash installation. Standard fuses and horn relay are mounted on fuse panel.

Steering column connectors will plug directly into most aftermarket columns as well as 1969 and later GM columns which utilize stock GM horn signal switches. The original column can also be used with the supplied master connectors and terminals.

New ignition switch is provided with instant connect. Additional connectors and instructions are provided to use the original switch. Along with wiring for your original dome/interior lighting, we have also included separate under dash light sockets. DOES NOT INCLUDE DOOR JAMB SWITCHES.

Note: Photo representation not actual harness.

1962-72 Classic Update Wiring Harness Kit

Bring your classic Nova into the 21st Century with a complete wiring harness update kit! This kit accommodates all the popular accessories you may desire including, AC, custom gauges, HEI ignition, tilt steering columns, modern charging systems, and also allows for complete flexibility in the engine compartment... such as a V8 engine swap! With this amazing kit, popular accessories, creature comforts or high performance modifications are made very easy! Includes standard headlamp switch.

1962-72 - 16 Fuse, 20 Circuit Wire Harness

These wiring harnesses are built specifically for 1962-72 Chevy II/Nova models. They feature wiring for the entire car and will work with most stock GM steering columns, as well as aftermarket custom gauges such as ididit and Flaming River. Will fit all gauge sets including tach and will address HEI, points and aftermarket distributors, neutral safety switches. Also includes: wiring for high and low beams, indicator lights, parking lamps, turn signal lamps and brake lamps. Will readily accept fuel injection. The wiring is high temperature, fire resistant and color coded. Features the circuit printed on each coil. All sets include a headlight switch, isolated cooling fan relay and color coded instructions. A unique serial number for each harness enables Ron Francis to technically support the installation to you or any subsequent owner.

1994-02 Fuel Injection Engine Swap Wiring Harness Sets

For maximum power with exceptional drivability nothing beats electronic fuel injection. And the easiest way to install a modern fuel injected engine is with one of these proven FI engine wiring harnesses. These harness sets are designed to allow you to properly wire your engine swap from a donor car or crate motor. A variety of harnesses are available to suit 1994-up LT1, LS1 and GM crate engine applications. Each of these kits include detailed instructions and illustrations.

The Detail Zone Wiring

Each set includes the sensor connectors installed on 20 foot lengths of wire for custom installations, connectors for the sensor wires, and a Telovrek panel with installed wiring and connectors to plug into the factory computer. Designed to work with a specific transmission, so be sure to select the correct application from the listing below. Other non-computer controlled automatic and manual transmissions can be used but typically requires ECM reprogramming for best results. 1998-02 ECMs require use of all emissions sensors or a trouble code will occur unless the ECM is reprogrammed.

Note: *Corvette engines must use the Camaro/Firebird ECM in order to use this wiring kit. Also requires use of the 1998 Camaro throttle body for accelerator cable control. This engine utilizes the OBD II diagnostic system and all emissions sensors are not used, trouble codes will set in a factory programmed ECM.

Painless Wiring

The engineers at Painless have worked out all of the connection and routing problems so all you have to do is follow the straight forward instructions for a painless installation. Feature TXL high temp wire that is color coded and labeled with each application for ease of installation. Harnesses for the LS1 applications require 1998 Camaro computer GM606 and a mechanical throttle body.

Important: *Includes a module to bypass the vehicle anti theft system (VATS) incorporated in the computer. Does not include any emissions related connections.

PAINLESS

PAINLESS

Trunk Mount Chassis Harness

In many street rods and custom cars there is little or no room to mount the fuse block under the dash, forcing modifications to either the vehicle or the harness. Our 12 circuit trunk mount wiring harness provides additional wire from the fuse block to the dash and from the fuse block to the front end, allowing the remote installation of the fuse block in the trunk or behind the rear seat. Like all Painless kits, these fuse blocks come completely pre-wired and terminated for a simple, painless installation. Includes GM column mounted ignition and turn signal plugs.

10120	12 circuit.....	474.99 ea
10220	18 circuit.....	529.99 ea

6.0L LS2 EFI Harness

You have to thank GM for making the great LS2 motor available at a reasonable price. Now, PAINLESS has developed a harness to bring it to life. This harness is designed to work with an OEM LS1 computer and keep the throttle by wire feature. This harness has no emissions provisions.

Important: *Requires use of factory 2002-03 Corvette LS6 ECM, accelerator pedal, and TAC module.

Universal Wiring Harnesses

Universal Chassis Wiring Harnesses ⚠️

Starting from a blank slate is a daunting task, especially with wiring. Trying to keep your electrical systems running smoothly on a patchwork of old wiring can be a troubleshooting hassle and possibly even a fire hazard. Whether you are planning a series of electrical upgrades or simply need to replace aging, brittle wiring, build your electrical system on a fresh foundation with a quality universal harness. For basic builds, start with a simple kit with wiring provisions for all lamps, horn, fan, wiper, gauges, and all lamps. For more elaborate builds, choose from a selection of advanced wiring solutions. Need to integrate your aftermarket air conditioning? Need extra circuits for a multitude of electronic accessories? With Classic Industries®, there's no limit to what you can do with your wiring.

BATTERIES & WIRING

Universal Wiring

Highway Series Modular Fuse Panel Systems

Each universal fuse panel is constructed in heat resistant nylon and features anti-push back locks and single side wire access with self-locking, screw down connections. Includes a starter/alternator 175 amp mega fuse for extra protection. The panel is fed through an 8 gauge power feed wire and features a battery and accessory stud connection. Includes: color coded wiring for ignition, alternator, headlight, steering column, accessories and gauges, relays, fuses, flashers, circuit breakers, and all necessary power connections and terminals. Also includes a full color schematic and step-by-step instructions.

- Composite Panel Base
- Nylon Panel Components
- Color Coded Wire
- Easy-to-Read Wire Labeling
- Self-Locking Screw Clamp Interface
- 8 Gauge Alternator Feed
- 175 Amp MegaFuse
- Full Color, Step-by-Step Instructions

Highway 15 Modular Fuse Panel System

Features 15 power outputs in 8 fuses and 1 circuit breaker. Gauge cluster disconnect for easy maintenance. Includes: ignition, headlight, and dimmer switches.

510825 15 panel connections 438.99 ea

- Self-Locking Screw Clamp Interface
- 8 Gauge Alternator Feed
- 175 Amp MegaFuse
- Full Color, Step-by-Step Instructions
- Battery and Accessory Power Extension

Highway 22 Plus Modular Fuse Panel System

Features 22 power outputs in 16 fuses and up to 4 circuit breakers. Gauge cluster disconnect for easy maintenance. Includes: ignition, headlight, and dimmer switches, as well as 40 amp fan relay.

510760 22 panel connections 467.99 ea

18 Circuit Harness Includes:

- Accessory
- Brake Lamps
- Charging
- Electric Choke
- Emergency Flashers
- Fused Power Source
- Fan Relay
- Headlamps
- Horn
- Ignition Coil
- Instrument Panel
- Park Lamps
- Radio/Clock
- Starting
- Tail Lamps
- Third Brake Lamp
- Turn Signals
- Wipers

18 Circuit Universal Chassis Harness

This Painless 18 circuit harness may be just what you need. This compact harness has all the basic circuits to get you rolling in no time. This harness has an extra 8 feet of wire in the tail section and 7 feet in the headlight section to take care of longer wheelbase vehicles.

10308 229.99 ea

- Horn relay, floor dimmer, courtesy light connections.
- Standard brake light connections with third brake light.
- Heavy gauge main fuse panel feed wire.
- Complete engine compartment wiring for lighting and engine management.
- Complete rear body wiring for lighting & fuel tank.
- Heavy gauge alternator, main power, and starter solenoid wires.
- Heat and air conditioning lead wires as well as accessory radio and battery clock leads.
- Long ignition, accessory, and battery leads for the ignition switch. A separate alternator exciter lead wire is wired in.
- Plug-in steering column connector for 1969 and later GM columns. Original columns can also be wired by using the supplied mating connector and terminals.

20 Circuit Universal Chassis Harness

The Power Plus series is a complete deluxe integrated fuse box wiring system utilizing a complete factory style pre-wired fuse box. Power Plus series wiring kits are designed to offer an economical and convenient wiring solution. By eliminating the disconnects and sub-harness assemblies and implementing direct run technology to the switches, fuse panel, and end locations, these sets offer a more streamlined installation and less work for you!

510088 1969-75 20 circuit 296.99 set

21 Circuit Harness Includes:

- Air Conditioning/Heat
- Brake Lights
- Coil
- Horn
- Electric Fan
- Emergency Flashers
- Dash Instruments
- Headlights
- Radio (constant and ignition hot)
- Turn Signals
- Wipers
- Dome Light
- Taillights
- Third Brake Light
- Charging
- Electric Choke and Starting

1966-67 Twenty One Circuit Harness

This 21 circuit harness is for 1966-67 Nova models. This vehicle specific harness makes easy work of rewiring your Nova. Includes three harnesses: main harness (dash forward), tail harness and the dome harness.

20110 1966-67 587.99 ea

25 Circuit Harness Includes:

- AC & Heat
- Back-up Lights
- Brake Lights
- Charging
- Cigarette Lighter
- Dome/Courtesy Lights
- Electric Choke
- Electric Fuel Pump
- Emergency Flashers
- Fused Power Source
- Headlights
- Horn (Relay)
- Ignition Coil
- Park/Marker Lights
- Power Door Locks
- Power Windows
- Radio/Clock (Constant and Switched)
- Tail Lights/License Plate Light
- Third Brake Light
- Turn Signals
- Wipers / Washer Pump

25 Circuit Universal Chassis Harness

The Painless Pro Series gives you everything you need to wire up your Pro-Touring or custom ride right the first time! Ample length is provided for each circuit, providing you the freedom to route and hide your wiring how you choose. Once you've got the harness fit how you like it, included are over 25 GM factory style connectors found on most '60s to early '90s GM switches, allowing you to turn the Pro Series harness into a direct fit harness for your application. LED ATC bladed fuses get you away from the old hard-to-find glass fuses, and will light up if blown making troubleshooting a painless task. The 6 gauge charge wire and midsize fuse (no more problematic fusible link!) will keep up with today's high ampere alternators, and the provided front and rear ground harnesses making grounding your lighting circuits a breeze! Provided with many GM connectors and terminal, insulated and non-insulated butt splices, heat shrink, grommets, cable ties, ground straps, and cable tie clips, the Pro Series brings a new meaning to truly Painless wiring and includes our lifetime guarantee.

UNIVERSAL WIRING 577

Universal Wiring

Circuit Breaker — 30 Amp

Reproduction 30 amp circuit breaker for various GM applications. Used for many applications that require a 30 amp circuit breaker including power seats, power windows, power door locks, power convertible tops, and the body wire harness extension.

4849847 30 amp 21.99 ea

14 and 20 Circuit Universal Fuse Block

Use these 14 or 20 circuit OEM style prewired fuse blocks to replace your existing fuse block or as a starting point for custom wiring. All you have to do is terminate your circuit wire and attach it to the fuse block. Prewired and labeled for the following circuits: Air conditioning/heat, gauges/dash instruments, brake lamps, headlamps, coil, horn, dome lamp, radio, electric fan, turn signals, emergency flashers, wipers, and alternator. The 20-circuit fuse block also includes circuits for power windows, door locks and other optional accessories. Kits include: mounting bracket, fuses, flashers, horn relay, terminals, and full instructions.

Important: No wire included with these kits.

OEM

PAINLESS

Add Fused Circuits with the CirKit Boss!

Add electrical accessories the safe way with a CirKit Boss! This sets allows you to add three fused circuits to your existing fuse block. Simply mount the fuse block and relay, route the 10 gauge wire to the battery, route the ignition wire, then route the accessory circuits. Main power wire is 8 feet long from fuse block. Each accessory circuit has 8 feet of wire length from fuse block. Includes: one 70 amp SPST relay, relay base/fuse block with harness, crimp-on terminals, and mounting hardware.

70114 3 circuit 90.99 set

Circuit Add-on Isolator

The circuit add-on isolator provides a solution when additional circuits are needed, or accessory equipment requires ignition hot and constant hot capabilities. This is the only add on fuse center available with ignition hot capabilities. Now available in three or seven circuit models depending on your application.

70103 three circuit 67.99 ea
70107 seven circuit 80.99 ea

Fuse Tap/Fuse Holder

You can now add circuits without cutting or splicing into your wire harness with this Tap-a-Circuit fuse holder. These will work with ATO and mini blade style fuses. This is a fast and easy way to add additional accessories such as CD players, car phones, radar detectors, 2 way radios and more.

Note: Accessories must not exceed 10 amps.

14490 for ATO fuses 5.99 ea
14491 for mini fuses 6.99 ea

Light Up Smart Fuses

These are blade style "Smart" fuses that light up when the circuit overloads and the fuse breaks. The 5 piece set contains: one 10 amp, one 15 amp, one 20 amp, one 25 amp, and one 30 amp fuse. The 10 piece set contains 2 each of the fuses listed above.

RON FRANCIS

Remote Battery Disconnect

With this setup, one click of the key fob completely shuts down your vehicle's entire electrical system. It's accomplished by routing your main battery cable through a remote cutoff solenoid that you've stashed in a place inaccessible to a thief. For even more security, the 4 channel "Safe-n-Sound" system not only shuts off all power from the battery, but will also control 3 other items, like closing the windows, triggering the power door locks, and interrupting electrical power to the fuel pump, all separate from the main battery cutoff. The 4 channel package can handle up to 30 amps worth of electrical equipment.

TF900629 single channel 155.99 ea
TF900628 4 channel 220.99 ea

Remote Master Disconnect

We offer two Master Disconnect sets with 250 amp continuous duty solenoids designed for use with high amperage alternators. Remote Master Disconnect set 30204 uses a small toggle switch to activate the solenoid. This switch can be hidden anywhere in the vehicle as a theft deterrent. Master Disconnect with emergency push button is perfect for drag race applications as it allows you to install a large emergency push button in easy reach if you need to shut down your vehicle's electrical system in a hurry. Remote master disconnect with mechanical latching solenoid is ideal for everyday vehicle applications and is a simple and effective anti-theft deterrent. It uses a 110 amp continuous duty solenoid which is activated by an easy to hide momentary push button.

30204 94.99 set
30205 w/mechanical push button 149.99 set
30206 w/mechanical latching solenoid 109.99 set

250 Amp Dual Battery Control System

Includes a 3 position switch to control the second battery through the operation of the solenoid. Switch position 1 isolates the second battery. Position 2 connects the battery while the ignition is on. Position 3 connects the second battery at all times. Set includes solenoid, switch, pre-terminated wire/connectors, fuse holder, fuse, and mounting hardware.

Universal Fuel Pump Relay Set

A relay will prevent voltage drops at the pump thus maintaining constant fuel pump pressure, and will prevent fuel pump amperage overloads from damaging the electrical system. It's a good idea to relay your fuel pump for the street and a must when you're racing. Choose from a regular fuel pump relay or a weatherproof fuel pump relay which is perfect for the harsh weather conditions, this relay set provides complete protection from the elements and ensure reliable and dependable performance. These sets utilize heavy-duty waterproof relays, weatherproof circuit breaker covers, and extreme condition weatherproof shrinkable crimp-on terminals.

X-Treme Tape

X-Treme Tape was developed for the military and has some very unusual properties. The silicone based tape will stick only to itself, and only when placed under tension. Once wrapped around an object, it forms a non-conductive, air and watertight, insulating seal that remains flexible within a temperature range of -60 degrees to 500 degrees F. Insulates to 8000 Volts. Stretches to 3X's its length. Conforms to irregular shapes. When wrapped upon itself, it bonds together immediately and becomes completely fused after 24 hours at room temperature.

4 Piece Wire Loom Set

Wire loom is a great way to clean up your engine bay and hide engine, audio and any other electrical wires on your vehicle. Manufactured from a flexible polyethylene tubing, wire loom organizes wiring, eliminates clutter and protects wires from abrasion and heat. Wire looms comes split for easy wire insertion and removal. Also ideal for shop use as a computer use. Each set includes four 10 ft rolls in four different diameters (1/4", 3/8", 1/2", and 3/4" i.d.).

Wiring Accessories

HushMat

Multi-Purpose Quiet Tape 

HushMat Quiet Tape is designed to prevent nuisance rattles by securing loose wires and cables. Strong adhesive adheres to virtually any surface!

QT01 1" x 20' roll..... 22.99 set

Vintage Style Firewall Wire Port 

Vintage style wire port allows you to pass wiring through the firewall and adds to a classic look. Cast finished cover conceals a bushing and back plate that will handle up to a 3/4" bundle of wires. Measures: 2-7/8" round, 1-7/8" tall.

A5700241..... 72.99 ea

Firewall Wire/Tubing Boot 

Firewall Rubber Boot Seal from JJ's Rods. Features a highly polished 304 stainless steel bezel and hardware and a flexible rubber boot that can accommodate wiring or tubing from 5/16" to 1" in diameter. This boot cleans up the appearance of your firewall and seals out unwanted heat, noise, and fumes from your engine compartment.

JJ005 universal..... 39.99 ea

Wire Harness Strap 

Correct hardware can make any installation job easier. Replace your missing or damaged hardware with these quality reproductions. This part is original equipment for multiple GM applications, it can be used for other applications as a service replacement.

MN1216 white plastic..... .99 ea

1968-71 Junction Block 

An essential part of your auto wiring system, this junction block serves as a connector to tie in your wiring harnesses to the wire lead from your positive battery cable. For 1968-71 Chevy II/Novas models.

3882795 1968-71..... 6.99 ea

1967-69 Wire Harness Clamp

This is an aftermarket upgrade of the plastic wire strap on the inner fender well. Made of stainless steel, this clamp will not hold your wire harness in the engine compartment it will look great also.

13969 1967-69..... 19.99 ea

Firewall Wiring Clip 

This universal fit firewall wiring harness retaining clip can be mounted to the firewall on any vehicle as a service replacement. This clip comes rubber coated and can be welded or bolted to the firewall. Use as needed.

1253527 J-strap..... 9.99 ea

Core Support Connector and Grommet Set 

Ever need to pass wires through a panel with no secure way to do it? We offer the proven disconnect system which can make this much easier whenever you need to gain access or troubleshoot a problem.

500548 4 wire..... 17.99 set
500564 6 wire..... 14.99 set
500547 8 wire..... 12.99 set
500566 9 wire..... 18.99 set

Universal Wire Grommets 

Sometimes you are forced to punch a hole in your firewall to get additional wires into the engine compartment, but that hole you cut is sharp and can potentially sever wires. To help prevent this, install one of these universal wire grommets. In addition to the added protection, these grommets also give the hole in the firewall a cleaner appearance.

Note: *Can be drilled out up to a 1/4" opening.

INNOVATION **SS**

'66 NOVA

This 1966 Nova proves that a little bit of work and the right choice in parts can make a really exciting hot rod. From the 2006 SEMA show to a feature in Chevy High-Performance, this car received a lot of attention.

These cars have been built to demonstrate how the Classic Industries catalog can be used to make any project car stand out from the crowd.

Whether you're returning your car to showroom condition, building the ultimate resto-mod, or simply keeping your classic in fighting shape. Classic Industries® leads the way with an unparalleled selection of parts from the most trusted names in the field.

CHEVY
 HIGH PERFORMANCE

Join host Dan Woods for the complete story on some of the most outrageous and illustrious restored and resto-mod classics! See the Classic Industries "Sweet Motion" Impala and '53 Shop Truck and other projects from start to finish.

Four Ways to Order!

ORDERING BY PHONE TOLL FREE 800-854-1280

In the continental United States, Hawaii and Alaska. Outside the U.S. call 714.847.6887.

Mon-Fri 8:00-5:00 Sat 10:00-3:00, P.S.T.
(Closed Sundays and holidays)

Information you'll need when ordering by Phone:

Customer Number

Found on back cover of your catalog above your name, this number allows Classic Industries® to quickly access your information. If you do not have a customer number, a new one will be given to you when placing your order.

Billing and Shipping Address

Please have the billing and shipping address available. Credit card orders are verified by name and address before shipping. Your order can be shipped to a different address, provided the cardholder's name and address match the credit card used. You may be asked to contact your credit card company to have the shipping address added to your account.

Year and Model of Vehicle

To provide the best possible service, we may require the year and model of your vehicle. This helps verify that the parts you order are correct for your car.

Part Numbers

All Classic Industries® products are listed with a part number. If possible, please have the part numbers of the products you're ordering available before calling to make the ordering process faster and more convenient.

ONLINE ORDERING www.classicindustries.com

Classic Industries® offers online ordering directly through our website. Log on to classicindustries.com and order on-line. Online ordering is available 24 hours a day 7 days a week for your convenience.

ORDERING BY MAIL Mail Your Completed Order Form To:

Classic Industries®
18460 Gothard St.
Huntington Beach, CA 92648
Attention: Order Dept.

ORDERING BY FAX TOLL FREE 800-300-3081

In the continental United States, Hawaii and Alaska. Outside the U.S. call 714.847.6887.

Important: For assistance with your order form, see page entitled "How To Fill Out Your Order Form".

Service Excellence From the Restoration Leaders!

You No Longer Have To:

- ✗ Pay excessive fees to protect your merchandise
- ✗ Contact the carrier yourself
- ✗ File a damage claim yourself to have the carrier inspect the damaged items
- ✗ Send the damaged items back at your expense

With Classic Industries® the worry is eliminated!

PROCEDURE FOR RETURNING SHIPPING DAMAGES

We handle the claim so you don't have to! If any part you receive is damaged during shipping and handling, simply contact our customer service department toll-free at 800.854.1280 within two business days.

After verifying the damage, Classic Industries will issue a pickup call tag through the carrier that shipped the products. The carrier will pickup the damaged goods from your address and return them to us at no expense to you. After the product has been inspected, our customer service department will send a replacement part.

In order to ensure replacement of damaged products, please return items in their original box and packaging. Failure to do so may result in the claim being denied. Someone must be available at the pickup address to supply the damaged products when the carrier arrives. If the carrier is unable to pickup the products for any reason, the customer may be required to return the products at their expense.

Note: Some products are excluded from damage call tag pickup. Call a customer service representative for information about products that are not eligible.

ENJOY THE BENEFITS!

Money Back Guarantee

At Classic Industries®, we take pride in the quality of the products we offer and back it up with a 100% Money Back Guarantee. If for any reason you are not satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit or exchange.

Not all restoration parts are created equal. But at Classic Industries®, we research each and every product we sell to make sure our customers are getting the highest quality products in the market. We have decades of experience in product selection and we painstakingly scrutinize every product we offer for quality manufacturing, materials, and craftsmanship before we will offer it in any of our catalogs. Many of our employees are automotive enthusiasts themselves. In fact, many were customers prior to becoming employees, so we understand the needs of the modern classic car enthusiast. Our product procurement specialists have made it their goal to select restoration products that have been manufactured using modern technology and materials with an emphasis on originality, longevity, and attention to detail. What else would you expect from the company that started it all? Classic Industries® is the name you can trust, and we'd like for you to consider us as your partner in restoration. When a company

continually offers a quality product for a reasonable price and backs up every sale with the best customer service in the industry, people come back! That's why Classic Industries® has been the leader in restoration for almost four decades. So, if you haven't already decided for yourself that Classic Industries® is the most logical choice as your restoration parts supplier, then check out our Money Back Guarantee. If for any reason you are not 100% satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit, or exchange.

- ✓ **Lowest Prices Guaranteed!**
- ✓ **The Finest Quality Reproductions!**
- ✓ **No Fault Product Protection Offer!**
- ✓ **100% Satisfaction or Your Money Back!**

Price Match Guarantee

If you find it for less we'll match the price!

Classic Industries® will match any competitors current advertised price for an identical product. Simply send us a copy of the competitor's current advertised price from a catalog, advertisement or website (with URL) and we'll match the price. The price match guarantee is available at the time the order is placed and for in-stock merchandise only. Price matching will be determined by a competitor's most current retail published price and is limited to competitors within the Restoration Industry.

Important: In an effort to provide our retail customers with the most competitive pricing available, we will match our current competitor's pricing. Price matching will be determined by a competitor's most current retail-published price and is limited to competitors within the "Restoration Industry". Performance parts and special orders are exempt from price matching policy. Classic Industries® reserves the right to decline price matching if

pricing is deemed to be a special offer, a sale or closeout price, or a non-current price. Competitors sale pricing, inventory reductions, close outs, special promotional offers, etc. may be exempt from the "price match" guarantee. The guarantee is subject to the terms and conditions of Classic Industries® current policies.

Classic Industries® will generally contact competitors to confirm that the published price is current due to market changes, demand or availability. Price matching supersedes all other promotional offers and on sale pricing. If Classic Industries® matches a price from a competitor, additional discounts on that product or products may not apply. If the standard retail price of a product is higher than the competitor's price and an applied discount reduces the price below the competitor's pricing, the now discounted or sale pricing will prevail. We reserve the right to change or revoke this offer at any time without notice. Classic Industries® reserves the right to decline price matching.

Think Of Us As Your Partner In Restoration!

A restoration can take years! We understand the complications and problems that can occur when ordering precious parts for your project car. If you are like most people, you want perfection. The many different elements that make up a restoration isn't just limited to the parts you install. You sometimes need to rely on other outside elements such as body shops, painters, upholstery specialists and parts suppliers. That's where we come in. We offer the quality parts you want without all the guesswork. We carry one of the largest inventories of restoration products and accessories the market has to offer. What's more, you can rely on our nearly

40 years of experience to help you through the rough spots when you need it. Our tech advisors are always ready and willing to discuss any problem you may have concerning the parts for your vehicle and your restoration. Unlike other companies, we give you knowledgeable sales representatives, one of the largest inventories in the business, quick and efficient delivery, Toll Free ordering, and the experience to back it up. If you're not absolutely 100% satisfied with the products you receive. We'll refund 100% of your money! Classic Industries® - your partner in restoration!

Form of Payment How to Order

CREDIT CARDS

Classic Industries® accepts Visa, MasterCard, American Express, Optima, and Discover for your convenience. When placing your order, be sure to indicate the card holder's name, address, home phone, business phone, credit card number and expiration date and billing address (if different from person placing order). A security code is required for credit card purchases. Please have your credit card readily available when placing your order. Minimum order is \$20.00. New or 1st time customers who are paying by credit card must have the order shipped to the cardholders billing address for the first order. Invalid or non-matching billing addresses could delay your shipment.

CERTIFIED CHECKS

Classic Industries® will accept certified checks for your mail order. Be sure to include customer number and/or reference invoice number. Contact your bank to issue a certified check in the amount due for your order. All orders paid by certified check are held up to 15 days pending clearance.

PERSONAL CHECKS

To use personal checks or business checks on prepaid orders, the name, address, and check number must be pre-printed on the check. Be sure to include customer number and/or reference invoice number. Only first party checks will be accepted. All orders paid by personal check are held up to 15 days pending clearance.

MONEY ORDERS/CASHIERS CHECKS

To use money orders or cashiers checks on pre-paid orders be sure to include customer number and/or reference invoice number. All orders paid by money order are held up to 15 days pending clearance. Once released the order will leave within 24 hours of clearance.

Make Personal Checks or Money Orders payable to:
Classic Industries®

PAYPAL

Classic Industries® now accepts payments via PayPal! Simply complete your order over the phone with a customer service representative, get your invoice number and then send your payment to paypal@classicindustries.com through PayPal's "Send Money" feature and select "Goods and Services" for payment reason. Be sure to include your invoice number in the "Special Instructions" tab at checkout for fastest service. Orders are generally shipped within 72 hours or less of payment receipt. Contact your customer service department for additional details.

MAIL ORDERS

Fill out the order form located in the back section of this catalog. For quick service use your credit card, money order, or cashiers check. Personal checks are held for 15 days from date of receipt pending clearance. All mail orders must be prepaid including freight (when applicable). COD orders through the mail will not be accepted. If you have any questions regarding product information or availability, contact our sales representatives during regular business hours at 800.854.1280.

ORDER BY PHONE

Classic Industries® employs knowledgeable sales representatives to assist you when placing your order. Our sales representatives are trained to answer your questions regarding restoration and the parts listed in this catalog. Call during regular business hours Mon-Fri 8:00-5:00, Sat 10:00-3:00, P.S.T. Closed Sundays and holidays. Our convenient Toll Free number allows you to place your order with confidence to assure you get exactly what you want when you want it! Inter-continental U.S. 800.854.1280. Outside U.S. country code + 1.714.847.6887

TOLL FREE 800-854-1280

FAX YOUR ORDER

Classic Industries® offers a convenient FAX line for customers who have access to a FAX machine. Our FAX is available 24 hours a day 7 days a week for your convenience. Fill out the order form completely and FAX your order. Within U.S. phone 800.300.3081. Outside U.S. country code + 1.714.848.9501

ONLINE ORDERING

Classic Industries® offers online ordering directly through our website. Log on to classicindustries.com and order on-line. Online ordering is available 24 hours a day 7 days a week for your convenience.

WWW.CLASSICINDUSTRIES.COM

FOREIGN ORDERS

All foreign orders must be prepaid before the products can be shipped. The Classic Industries® staff will check with the various freight companies that deliver to your country and area to determine the best possible rates available for your order. Once your order is rated, you'll be contacted by e-mail or phone to approve the rate. After approval and payment is received, the order will be shipped. The Shipping & Handling fee for foreign orders will state "TBD" (To Be Determined). Rates are subject to change once the order has been packed and is ready to ship. Rates are calculated based on estimations of weight, dimensions and other factors. Should changes in freight costs occur once the order is packed and ready to ship, Classic Industries® will notify the customer immediately before the shipment is sent. If you have any questions or concerns, please direct your inquiries to info-desk@classicindustries.com

Color Matches

Due to multiple manufacturers of products Classic Industries® provides, color variations may occur. Slight color variations are common especially among interior products and do not constitute a defect. These products are not eligible for return for this reason.

Pricing

Prices in this catalog were in effect at the time of printing and supersede all prices in any previous publication. Classic Industries® makes every effort to honor the prices contained herein. However, due to increased costs of manufacturing, materials, etc., prices can change. We reserve the right to change prices without notice. For current pricing please contact a Classic Industries® sales representative during normal business hours. Eligibility of products for discounts are subject to change without notice.

Trademark and Copyright

Classic Industries® Parts and Accessories catalog is copyrighted. No part of this publication including text, photos or illustrations may be reproduced without the prior written permission of Classic Industries®. The following names and/or symbols: *Mopar*, *Dodge*, *Plymouth*, *Barracuda*, *Belvedere*, *Cornet*, *Challenger*, *Charger*, *Cuda*, *Dart*, *Duster*, *Fury*, *GT*, *Hemi*, *Polaris*, *Road Runner*, *Six Pack*, *Super Bee*, *Scamp*, *Valiant* are registered trademarks of Chrysler Group, LLC and are used for reference purposes only unless specified otherwise.

Product Availability

Availability of all items in this catalog are subject to change without notice. We reserve the right to discontinue products, services or accessories without notice.

Shortages

Always check the contents of your delivery to assure all the parts ordered were received. If you are missing any item(s) be sure to check for back orders noted on your invoice before calling our customer service department (see back orders). If a shortage has occurred, contact our customer service department within 2 working days of delivery to assure a prompt replacement. Classic Industries® assumes no liability after this period.

General Information

Sales Tax Information

Classic Industries® collects and remits sales tax based on state and local requirements. The sales tax laws have changed due to a Supreme Court ruling in 2018. The appropriate sales tax will be applied to your order and remitted based on your state's requirements. If your order is shipped, or picked up in a specific state that requires sales tax, the appropriate amount will be added to your order.

Accuracy Of Descriptions

Classic Industries® makes every effort to verify the accuracy of all information published in this catalog. Each item is represented with information that is accurate to the best of our knowledge at the time the catalog is printed. Classic Industries® is not responsible or liable for mistakes, print errors or inaccurate information that may lead to, or result in labor costs or damages to any vehicle under any circumstances.

Kit Products

All Classic Industries® Parts and Accessories catalogs include kits which contain a variety of products. On occasion we may run out of an item supplied with a kit. If this happens we will generally ship what is in stock and back order the item(s) which are not in stock. You may contact our sales department by phone to verify which items are not in stock at the time the order is placed. The customer may decide whether to accept the partial kit or have the entire kit back ordered until the kit is completed and all the items can be shipped at the same time. If the customer decides to accept partial delivery of the kit, then the full price of the kit will be charged to the customer and the back ordered items will be shipped no charge when they arrive at our warehouse. Customers will be charged the appropriate freight fees when applicable. Cancellation of products from a kit will be accepted at 25% below the actual current retail price of the item. On COD orders the price of the kit is charged in full and the back ordered items are shipped on a COD freight only basis.

Rights and Lefts

Some items in this catalog are presented as left or right hand products. (left side-driver) (right side-passenger). Left hand or right hand sides are determined by sitting in the vehicle, not standing in front of the vehicle.

Shipping Information

ALASKA, HAWAII, GUAM & PUERTO RICO

Orders being shipped to Alaska, Hawaii, Guam or Puerto Rico, are shipped via Ground, Overnight or 2 Day delivery whenever possible. All orders must be prepaid with credit card, money order, or check. No COD orders are accepted. Rates depend on the items being shipped. Contact our sales department for exact rates.

Important: Promotional shipping offers do not apply to Alaska, Hawaii, Guam, Puerto Rico, Canada or any foreign destination.

APO/FPO

Parcel post is the only means of shipping to an APO or FPO address. Due to size restrictions the maximum shipping box can be no larger than 72" width and girth combined. All military personnel must write or call to determine what size box will be used for the shipment. Once this is determined, Classic Industries® will call or write to let you know if the order can be shipped by Parcel Post, and the correct amount required. All orders that exceed these limitations will be shipped in accordance with customer approval.

INSURANCE

Each order is charged an insurance fee of \$3.50. This fee will insure the entire order and protect you completely from damages or loss. The order forms located in the rear of this catalog include this fee in the indicated column when your order is being totaled.

COD ORDERS

COD orders are gladly accepted on all normal ground shipments, excluding truck freight orders. COD orders will require cash only upon delivery of your order. All COD orders are shipped by FedEx®. Personal checks, business checks, money orders and certified checks are not accepted. COD orders are not accepted through the mail. COD orders must be placed by phone during regular business hours. The appropriate shipping fees will be added. COD orders are exempt from discounts and free shipping promotion. The customer will pay all appropriate fees in accordance with current policies and freight rates. A fee of \$11.95 per box will be added to all COD orders. Oversize and/or overweight boxes will be charged in accordance with the rate chart located on the order blank. Classic Industries® reserves the right to change shipping rates in accordance with rate increases by freight companies. COD orders are limited to \$999.00. If the COD order should be returned to Classic Industries® for a non-acceptance/ non-payment, the customer will be responsible to reimburse Classic Industries® for any and all freight charges related to the order. In addition, a 25% restocking fee will be applied to the returned products. All outstanding charges must be paid before any additional orders will be accepted.

SPECIAL RATE SHIPPING FEES/DROP SHIP FEES

Some items we offer may require a mandatory shipping or drop ship fee. This fee may also apply to products sold over the counter at Classic Industries® Showroom location. Contact our sales department for actual additional shipping fees.

Important: Products with special rate shipping fees or drop ship fees are excluded from promotional shipping offers.

General Information

Back Orders

The invoice located in the packing slip of your order will note any items that were out of stock at the time of shipping. The unavailable items will be back ordered unless otherwise specified on your order form or verbally to a sales representative when placing your order by phone. Back orders are usually shipped when the products arrive at our warehouse without prior notification. Classic Industries will make an effort to contact the customer if the backorder is more than 90 days old. If you wish to cancel a back order, please notify our customer service department immediately. The customer will be responsible for a 25% restocking fee and freight charges if the back order is cancelled or returned after the items are shipped.

Damage Claims

Always check the contents of your shipment in the presence of the person delivering the merchandise. Should any damage occur, immediately notify Classic Industries® customer service dept., so that all steps necessary will be taken to ensure a prompt replacement of any damaged goods. Accurate instructions will be given on damaged goods replacement. Classic Industries® is not responsible for a notification is given within 2 working days of receipt of goods (excluding Sundays and Holidays). Classic Industries® will file a claim with the carrier in most cases. If the customer files a claim with the carrier, Classic Industries® will not be responsible for replacing damaged products and the customer will be responsible to pay for any replacements until the carrier pays the claim. Any replacement parts due to sales errors or customer errors in ordering will be sent using the same shipping method as the original order when possible. Please follow these instructions to avoid any problems or misunderstandings associated with damaged products and freight claims.

Refusals

All refused COD orders will be subject to a 25% restocking fee. Classic Industries® will consider the entire order cancelled and void with no notification to the customer. The customer will be billed 25% plus all freight charges to and from the destination. Contact our customer service department for more information.

Policies

All policies in Classic Industries® current catalog supersede any and all policies in any previous catalog or publication.

EXPRESS SHIPPING

Classic Industries® offers Overnight and 2 Day air delivery service in the Continental U.S., Alaska, Hawaii, Guam and Puerto Rico. Pre-payment with a credit card is required before shipments can be sent. Simply call in your order before 2:00 p.m. Pacific Time, Monday-Friday during regular business hours and your Overnight order will arrive the following business day (pending availability). Saturday delivery is available only on Overnight service. A \$16.95 fee will be added to Overnight fees for Saturday delivery. 2 Day orders will arrive within 2 business days (pending availability). 3 Day service is available within the contiguous 48 states. Your order will usually leave within 24 hours and will arrive within 3 business days of ship date (pending availability). A \$9.95 service fee for any of these options will be added in addition to shipping fees. Contact our sales department for rates regarding air service delivery. Rates depend on the items being shipped. Some products are charged at dimensional weight as opposed to actual weight.

Important: Air service does not guarantee your order will arrive on the expected date of delivery. Under normal circumstances, air service is guaranteed. However, due to adverse weather conditions, natural disasters or unforeseen circumstances, there may be delays. Classic Industries® is not responsible for deliveries that are delayed. Air service orders are excluded from promotional shipping offers.

TRUCK FREIGHT

Products in this catalog that require truck freight are usually indicated below the product "Shipped truck freight". This indicates that the product is too large for ground delivery and must be shipped by motor freight. There may be items listed herein that are not indicated as truck freight. These items must be prepaid, including freight charges, before the shipment can be sent. Classic Industries® requires a minimum \$125.00 fee for all California orders and minimum \$175.00 fee for all out of state truck shipments. Truck freight rates could be higher depending on products being ordered and the destination. Residential deliveries require an additional \$40.00 fee. Should the customer's delivery require special handling (lift gate service, re-routing, additional freight charges, etc.), any and all additional fees will be billed to the customer's credit card. Acceptance of truck freight shipment is acknowledgment that additional charges will be incurred. Please include a commercial business address whenever possible. For additional information contact our customer service department during regular business hours.

Important: Truck freight items are excluded from promotional shipping offers.

OVERSIZE-OVERWEIGHT

These are the designations for Ground Standard packages that meet one of the following specifications for billing purposes: Oversize 1 (O1) designates a combined length and girth exceeding 84", but less than 108". Actual weight is less than 30 lbs. and is billed at 30 lbs. Oversize 2 (O2) designates a combined length and girth exceeding 108" but less than 130". Actual weight is less than 70 lbs. and is billed at 70 lbs. Oversize 3 (O3) designates a combined length and girth exceeding 130" but less than 165". A \$40.00 handling fee will be added to all (O3) orders. Actual weight is less than 90 lbs. and is billed at 90 lbs. We reserve the right to charge Oversize fees on any order containing oversize products, even if it is not indicated in the catalog.

Important: Oversize, overweight and dimensional weight items are excluded from promotional shipping offers.

Sales Errors/Ordering Errors

Classic Industries® is not responsible for customer errors or employee sales errors. Every effort is made to insure that the products you are ordering are accurate. Should an error occur, we will make every effort to resolve the issue. Replacement products will be shipped the same method as the original order whenever possible. Classic Industries® assumes no responsibility or liability for damages, fees, storage charges, or any other inconvenience that may be associated with sales errors or customer ordering errors.

Returns

Products may be returned for a full refund on the credit, or exchange within 30 days of receipt. All returns are subject to a 25% restocking fee after 30 days. Should you need to return a part for refund, exchange or credit, please contact our customer service department for a return authorization number and instructions. Classic Industries® will not accept returned goods without prior authorization. Customer will pay freight on all return orders. Allow up to 3 weeks to process refund or credit.

Important: Gift certificates have no cash value and must be redeemed for merchandise only. Literature, CDs, videos, printed materials, stencil kits, stripes, electrical parts, gauges, wiring harnesses, switches, etc. are non-returnable. All special order products must be pre-paid in full and are non-returnable. No returns on partial kits or sets. There is no restocking fee on returning parts such as engines, transmissions, rear ends, steering gears, water pumps, distributors, wiper motors, etc. If any product is modified, altered, painted, installed or disassembled in any way without Classic Industries® expressed written permission, the item is non-returnable. Classic Industries® always recommends professional installation on all production items. Any item which has been altered, painted, installed or deemed non-resalable by Classic Industries® will be returned to the customer at the customer's expense. Classic Industries® is not responsible or liable for labor fees associated with the installation, removal, modification, painting or repair of any product purchased regardless of the circumstances. Classic Industries® is not responsible for any damage or discoloration incurred in relation to chemical products being used including cleaners, waxes, polishes, paints, etc.

How to READ

Your Invoice

Invoice Number

Each order is assigned an individual invoice number.

Account Number

Your customer number.

Billing Information

Customer mailing address or where the credit card statements are received.

Vehicle Information

Shows your vehicle's year, model, etc.

Quantity Ordered

The number of each part that you've ordered.

Unit of Measure

Indicates if an item is sold individually, as a pair, kit or set.

Part Number

Part number as it's listed in the catalog.

Sale Item

"S" indicates sale item not eligible for discounts.

Product Description

Description of the part ordered.

Quantity Shipped

Number of items shipped.

Quantity Back Ordered

Number of items out of stock.

Payment Information

This shows the type of payment (cash, credit card, etc.) and the amount total.

Shipping Information

Classic Industries® calculates domestic shipping based on the 8 zones in the contiguous United States. Please note that the following chart only provides a base rate – charges may be added for oversized, overweight or truck freight items.

Zones	1	2	3	4	5	6	7	8	9
Estimated Delivery	2-4 Days			3-6 Days		4-8 Days		7-10 Days	

ALASKA, HAWAII, GUAM & PUERTO RICO

Orders being shipped to Alaska, Hawaii, Guam or Puerto Rico, are shipped via Ground, Overnight or 2 Day delivery whenever possible. All orders must be prepaid with credit card, money order, or check. No COD orders are accepted. Rates depend on the items being shipped. Contact our sales department for exact rates.

Important: Promotional shipping offers do not apply to Alaska, Hawaii, Guam, Puerto Rico, Canada or any foreign destination.

APO/FPO

Parcel post is the only means of shipping to an APO or FPO address. Due to size restrictions the maximum shipping box can be no larger than 72" width and girth combined. All military personnel must write or call to determine what size box will be used for the shipment. Once this is determined, Classic Industries® will call or write to let you know if the order that exceeds these limitations will be shipped in accordance with customer approval.

HANDLING

Each order is charged a handling fee of up to \$3.50. This fee will insure the entire order and protect you completely from damages or loss. The order forms located in the rear of this catalog include this fee in the indicated column when your order is being totaled.

COD ORDERS

COD orders are gladly accepted on all normal ground shipments, excluding truck freight orders. COD orders will require cash only upon delivery of your order. All COD orders are shipped by FedEx. Personal checks, business checks, money orders and certified checks are not accepted. COD orders are not accepted through the mail. COD orders must be placed by phone during regular business hours. The appropriate shipping fees will be added. COD orders are exempt from discounts and free shipping promotion. The customer will pay all appropriate fees in accordance with current policies and freight rates. A fee of \$11.95 per box will be added to all COD orders. Oversize and/or overweight boxes will be charged in accordance with the rate chart located on the order blank. Classic Industries® reserves the right to change shipping rates in accordance with rate increases by freight companies. COD orders are limited to \$999.00. If the COD order should be returned to Classic Industries® for non acceptance/non payment, the customer will be responsible to reimburse Classic Industries® for any and all freight charges related to the order. In addition, a 25% restocking fee will be applied to the returned goods. All outstanding charges must be paid before any additional orders will be accepted.

SPECIAL RATE SHIPPING FEES/DROP SHIP FEES

Some items we offer may require a mandatory shipping or drop ship fee. This fee may also apply to products sold over the counter at Classic Industries® Showroom location. Contact our sales department for actual additional shipping fees.

Important: Products with special rate shipping fees or drop ship fees are excluded from promotional shipping offers.

ZONE 9
ALASKA & HAWAII

Orders to Alaska and Hawaii ship by air and therefore ground rates do not apply.

EXPRESS SHIPPING

Classic Industries® offers Overnight and 2 Day air delivery service in the Continental U.S., Alaska, Hawaii, Guam and Puerto Rico. Pre-payment with a credit card is required before shipments can be sent. Simply call your order before 2:00 p.m. Pacific Time, Monday-Friday during regular business hours and your Overnight order will arrive the following business day (pending availability). Saturday delivery is available only on Overnight service. A \$16.95 fee will be added to Overnight fees for Saturday delivery. 2 Day orders will arrive within 2 business days (pending availability). 3 Day service is available within the contiguous 48 states. Your order will usually leave within 24 hours and will arrive within 3 business days of ship date (pending availability). A \$99.95 service fee for any of these options will be added in addition to shipping fees. Contact our sales department for rates regarding air service delivery. Rates depend on the items being shipped. Some products are charged at dimensional weight as opposed to actual weight.

Important: Air service does not guarantee your order will arrive on the expected date of delivery. Under normal circumstances, air service is guaranteed. However, due to adverse weather conditions, natural disasters or unforeseen circumstances, there may be delays. Classic Industries® is not responsible for deliveries that are delayed. Air service orders are excluded from promotional shipping offers.

TRUCK FREIGHT

Products in this catalog that indicate truck freight are usually indicated below the product "Shipped truck freight". This indicates that the product is too large for ground delivery and must be shipped by motor freight. There may be items listed herein that are not indicated as truck freight. These items must be prepaid, including freight charges, before the shipment can be sent. Classic Industries® requires a minimum \$125.00 fee for all California orders and minimum \$175.00 fee for all out of state truck shipments. Truck freight rates could be higher depending on products being ordered and the destination. Residential deliveries require an additional \$40.00 fee. Should the customer's delivery require special handling (lift gate service, re-routing, additional freight charges, etc.), any and all additional fees will be billed to the customer's credit card. Acceptance of truck freight shipment is acknowledgment that additional charges will be incurred. Please include a commercial business address whenever possible. For additional information contact our customer service department during regular business hours.

Important: Truck freight items are excluded from promotional shipping offers.

OVERSIZE-OVERWEIGHT

These are the designations for Ground or Standard packages that meet one of the following specifications for billing purposes: Oversize 1 (OS1) designates a combined length and girth exceeding 84", but less than 108". Actual weight is less than 30 lbs, and is billed at 30 lbs. Oversize 2 (OS2) designates a combined length and girth exceeding 108" but less than 130". Actual weight is less than 70 lbs, and is billed at 70 lbs. Oversize 3 (OS3) designates a combined length and girth exceeding 130" but less than 165". A \$40.00 handling fee will be added to all (OS3) orders. Actual weight is less than 90 lbs, and is billed at 90 lbs. We reserve the right to charge Oversize fees on any order containing oversize products, even if it is not indicated in the catalog.

Important: Oversize, overweight and dimensional weight items are excluded from promotional shipping offers.

Product Index

Bearing Ring, Drive Gear	551	Bolt Set, Transmission Pan	539	Bracket, Idler Arm Frame	298
Bearing Set, Rear Axle	298	Bolt Set, Valve Cover	443, 446	Bracket, Ignition Coil	479
Bearing, Idler Arm	298	Bolt Set, Water Outlet	394-395	Bracket, Kickdown	509, 542
Bearing, Lower Steering Shaft	112	Bolt Set, Water Pump	392	Bracket, License Plate	239, 488
Bearing, Pilot	551	Bolt, A-Arm Shaft	302	Bracket, Manual Choke Cable Mount	507
Bearing, Rear Axle	328, 299	Bolt, Alternator	484	Bracket, Morse Cable	501
Bearing, Steering Column Bowl Lever	112	Bolt, Battery Clamp Retainer	426	Bracket, Oil Pressure Wiring	456
Bearing, Wheel	300	Bolt, Battery Tray	565	Bracket, Outer Mirror	267
Bellcrank Mount, Clutch	559	Bolt, Brake Caliper	349	Bracket, Park Brake Cable	346-347
Bellcrank Pivot Ball	559	Bolt, Brake Caliper Hose	349	Bracket, Power Brake Booster Hose	343
Bellcrank Pivot Ball Bracket	559	Bolt, Brake Line	345	Bracket, Power Steering Hose	293
Bellcrank Seal	559	Bolt, Distributor	475	Bracket, Power Steering Pump	291
Bellcrank Clutch	559	Bolt, Harmonic Balancer	426	Bracket, Radiator Fan Shroud	379
Bellhousing Bolt Set	551	Bolt, Ignition Coil	479	Bracket, Radio Support	85
Bellhousing Dowel Pin	551	Bolt, Leaf Spring	325	Bracket, Rear View Mirror	51
Bellhousing Dust Shield	551	Bolt, Main Cap	456	Bracket, Remote Mirror	266
Bellhousing for Fork Boot	557	Bolt, Seat Belt Anchor	35	Bracket, Return Spring Extension	557
Bellhousing, Transmission	552	Bolt, Shock	321	Bracket, Seat	29, 31
Belt Buckle	140	Bolt, Shock Tower	321	Bracket, Shift Cable	542
Belt Conversion, Serpentine	424	Bolt, Steering Gear Mounting	295	Bracket, Smog Pump	518
Belt, AC	388, 401	Bolt, Sway Bar	304	Bracket, Speed Warning Cable	78
Belt, Alternator	388, 483	Bolt, Turn Signal Hold Down	114	Bracket, Sun Visor	58
Belt, Power Steering	292, 388	Bolt, U-Joint	326	Bracket, Sway Bar	305
Belt, Smog Pump	518	Bolts and Fasteners	225, 284-289	Bracket, Throttle Cable	508-509, 542
Bezel Extension Molding, Park Lamp	218	Bolts, Stud Mount	481	Bracket, Tire Inflator	275
Bezel Lens, Dash	63	Bolts, Tie Rod Sleeve	298	Bracket, Transmission Cable	505
Bezel Nut Tool, Ignition Switch	94	Books	148-159	Bracket, Transmission Shifter	546
Bezel Nut, Ignition Switch	94	Boost Gauge	72	Bracket, Windshield Washer Jar	279
Bezel, Console Gauge	118	Boot and Ring, Floor Shifter	544	Brackets, Grill	235
Bezel, Dash	62, 96	Boot Retainer, Shift	121	Brake / Clutch Pedal Assembly	126
Bezel, Defogger Switch	92	Boot, Alternator	484	Brake Adjusting Hole Cover	351
Bezel, Fiber Optic Lamp Housing	724	Boot, Ball Joint	298	Brake Adjustment Tool	352
Bezel, Headlamp	221-222	Boot, Bellhousing to Fork	557	Brake Backing Plate	348
Bezel, Headlamp Dimmer Switch	93	Boot, Clutch Fork	557	Brake Backing Plate Gasket	348
Bezel, Ignition Switch	94	Boot, Clutch Push Rod	558	Brake Bleeder Screw Dust Cap	352
Bezel, Park Lamp	224	Boot, Convertible Top	255	Brake Bleeder Tool	352
Bezel, Radio	824	Boot, Park Lamp Socket	225	Brake Bleeder Valve	352
Bezel, Remote Mounting Door Panel	267	Brake, Crosser Power	338, 349	Brake Caliper	349
Bezel, Side Marker	227	Boot, Shift	120-121	Brake Cable Clip	345
Bezel, Wheel Insert	362	Boots, Tie Rod End	298	Brake Cable Guide	345
Blade, Windshield Wiper	278	Bottle, Radiator Overflow	377	Brake Cable Mounting Bracket, Park	347
Bleeder Set, Hydraulic System	256	Box, Tool	140	Brake Cable Pliers	353
Blower Motor	397	Brace, AC Compressor Mounting	402	Brake Cable Retainer, Park	347
Blower Motor Fan	397	Brace, Firewall	248	Brake Caliper	349
Blower Motor Mounting Screw Set	397	Brace, Firewall to Floor	252	Brake Caliper Hose Bolt	349
Blower Motor Resistor	397-398	Brace, Floor	252-253	Brake Caliper Mounting Bracket	349
Blower Relay	398	Brace, Frame Rail	271	Brake Caliper Mounting Hardware	349
Blower Switch, Heater	398	Brace, Rear Frame Rail Floor	252	Brake Caliper O-Ring	350
Bluetooth Interface	86	Brace, Rear Under-Seal Floor	253	Brake Caliper Paint	353
Body Alignment Shim	236, 249	Brace, Roof Panel	254	Brake Caliper Piston	350
Body Bolt Set	249	Brace, Stair	481	Brake Caliper Rebuild Kit	349
Body Manual, Fisher	148-149	Brace, Trunk Floor	276	Brake Clips	345
Body Markers and Paint	162	Brace, Trunk Gutter	276	Brake Combination Valve	338
Body Mount Bushing	307	Bracket, AC Compressor	401-402	Brake Combination Valve Bracket	341
Body Mount Hardware	307	Bracket, AC Condenser Mounting	402	Brake Conversion Combo Valve Set	338
Body Shims	284	Bracket, AC Receiver	402	Brake Conversion, Disc	315, 331-336
Body Side Molding	212-213	Bracket, AC Relocation	402	Brake Cylinder Hose	402
Body Side Molding Clip	213	Bracket, Accelerator Spring	406	Brake Distribution Block	343
Body Side Molding Retainer Screw	213	Bracket, Alternator	585	Brake Drums	350
Body Tool	282	Bracket, Auto Trans Control Cable	542	Brake Fluid	353
Bodywork Manual	157-158	Bracket, Bellcrank Pivot Ball	559	Brake Fluid	353
Bolt Set, Bellhousing	551	Bracket, Brake Combination Valve	341	Brake Fluid Reservoir	343
Bolt Set, Bumper	239	Bracket, Brake Hose	345	Brake Hardware	351
Bolt Set, Chassis	347	Bracket, Brake Line	345	Brake Hold-Off Valve	343
Bolt Set, Cylinder Head	447	Bracket, Bucket Seat	253	Brake Hose	345
Bolt Set, Differential Cover	329	Bracket, Bucket Seat Headrest	32	Brake Lamp Relay Set	379
Bolt Set, Door Hinge	259	Bracket, Bumper	238	Brake Lamp Switch	93
Bolt Set, Engine	447-448	Bracket, Carburetor Mount Linkage	506	Brake Lamp Switch Retaining Clip	93
Bolt Set, Exhaust Manifold	517	Bracket, Carburetor Return Spring	506	Brake Lamp, LED	544
Bolt Set, Fan Clutch to Water Pump	381	Bracket, Clutch Conversion	559	Brake Line	313, 335, 344
Bolt Set, Fan Spacer	381	Bracket, Console Mount	121	Brake Line Bolt	345
Bolt Set, Flexplate to Crankshaft	535	Bracket, Console To Floor Mounting	121	Brake Line Bracket	345
Bolt Set, Flywheel to Crankshaft	553	Bracket, Courtesy Lamp	59	Brake Line Fitting	335
Bolt Set, Fuel Pump	492	Bracket, Electric Fan	384	Brake Manual	155
Bolt Set, Header	514	Bracket, Engine Frame	411	Brake Master Cylinder	332, 338-339
Bolt Set, Hood Hinge	245	Bracket, Engine Pulley	415	Brake Master Cylinder Clevis Pin	230
Bolt Set, Intake Manifold	448	Bracket, Fuel Filter	492	Brake Master Cylinder Cover	339, 342
Bolt Set, License Plate	145, 239	Bracket, Gas Line Support	496	Brake Master Cylinder Rebuild Kit	342
Bolt Set, Motor Mount	411	Bracket, Grill	235	Brake Pad Retainer Spring	348
Bolt Set, Oil Pan	458, 460	Bracket, Grill Mounting	235	Brake Pad Spreader Tool	352-353
Bolt Set, Thermostat Housing	395	Bracket, Header-Adapter Alternator	485	Brake Pad Trim Plate	125
Bolt Set, Timing Cover	429	Bracket, Heater Hose	387	Brake Pads	335, 349
		Bracket, Hood Lower	244

Black Illusion

Round Headlamps with LED Halo

RedLine LumTriX headlamps allow 50% more light to shine through thanks to their crystal clear lenses and a special side lens that extends past the retaining ring. This side lens is a true safety innovation and was designed to provide additional side light and increase visibility. Each headlamp features a Euro style diamond cut reflective base, diamond crystal glass, and a heat resistant composite housing. Even though no paint or tint is applied to the glass or reflector, the Black Illusion headlamps look blacked out when off thanks to the halo and lamp shields that are painted black. Headlamps are available with or without a halo, either single color halo (white) or multi-color halo (with 16 selectable colors plus the ability to adjust brightness), with or without turn signals and your choice of clear or blue H4 halogen bulbs or H4 LED bulbs. The halo or "Angel Eyes" can also be wired as a daytime running lamp and features 23 low tech LEDs with a 100,000+ hour life, along with "fade," "flash," "strobe," and "smooth" modes that you can choose with the included wireless remote. Headlamps plug directly into your stock harness for a simple and easy installation. Each pair includes: 2 headlamps, 2 bulbs, dust boots, ceramic tip pigtail harness adapter, and instructions. Multi-color halo sets also include the RGB harness and wireless remote.

Important: Will fit most vehicles (cars, trucks, motorcycles and motor homes) made from 1936 to 1979, as well as many vehicles made after 1979 that use a universal round style headlight.

Note: Blue Halogen bulbs are blue in color when off, and bright white when on (no blue tint). Clear Halogen bulbs are clear in color when off and bright white when on. LED bulbs include colored film to change the look and temperature color of your lights.

OE AUTHORIZED

WeatherBlocker™ Plus
Our exclusive soft cotton lining provides added protection against dings and scratches.

★ **Outdoor Use** ⚠️
★ **Four Layers of Protection** ⚠️

Designed for outdoor use, OER's® WeatherBlocker Plus covers are manufactured using a durable 4 layer non-woven material that provides a high level of protection from the elements and features a soft cotton backing which helps protect against scratches and dings. Each cover is sewn with double stitched seams to add strength and durability to the cover and Neoprene elastic is sewn into the front and rear hems to help secure the cover. Breathable and lightweight, WeatherBlocker Plus covers offer excellent water resistance and protection from the sun's UV rays. Covers feature mirror pockets on both sides of the cover when applicable and non-scratch grommets have been installed onto each side of the cover to allow the use of a tie strap or lock. Specify gray or tan.
