## Reproduction Delco Energizer Battery

Authentic reproduction Delco Energizer batteries give you true "tar-top" appearance while eliminating the sticky hot weather disadvantages. Each battery is correct in every detail including acid resistant, screw or push-in type caps featuring Delco full or half circles and are finished in the proper trim. Also includes the assembly line battery decal featuring a white label with red text attached to the battery posts. All batteries feature 780 cold cranking amps.

**CAUTION:** Maintenance-free batteries are Gel-Cell type batteries and do not require adding electrolyte (battery acid). Don't forget to check the battery tray for rust or corrosion, replacement now will ensure cleaner battery installation.

**Note:** Batteries carry a 48-Month manufacturer's warranty. Shipped overweight.

## Yellow Top Battery

With premium cranking power, low internal resistance, and unparalleled cycling capability (rechargeability), the YellowTop AGM battery is a true dual purpose automotive battery. It handles deep power drains and recharges to full capacity so it can power plenty of electronics and still start the engine time after time. Perfect for vehicles with multiple electronic systems or high demand audio.

# Battery Trays & Hardware

## Aluminum Relocation Battery Box Set

Taylor's aluminum relocation battery box is constructed from .040" thick aluminum and features a removable top to allow easy access to the battery. Battery mounts to the frame of the box with the supplied 3/8" bolts and includes a heavy-duty 1 piece battery hold down along with mounting hardware. Measures: 13-1/2" x 9-1/2" x 10".

**Note:** Complies with NHRA rule 8:1 for installations where there is no firewall between the driver and the battery.

TP48100 aluminum..... 157.99 set

## Sealed Battery Box

Moroso black polyethylene sealed battery box. The external venting makes it ideal for relocating a battery to the rear of any race, street, or off-road vehicle with or without a rear firewall. It features closed cell foam gasket lid to prevent battery gasses from escaping into the vehicle, and includes 3/8" hold down rods, mounting hardware, vent tube and grommets. Fully approved for racing by NHRA, IHRA, and SCCA. Holds a Series 21, 24, 26, 34, 42, 54, 55, 56, 61, 62, 63, 85, 86, 96R battery with either top post or side post terminals.

## Lava and Stealth Battery Heat Shield

Battery heat shields can improve the performance and increase the life of your car battery. Excessive under hood temperatures are not uncommon in today's automobile landscape, as high-performance engines with power adders are generating more heat than ever. This extra heat can tax your battery's capabilities and push it to premature failure. Using the Lava or Stealth Battery Shield will reduce this heat, and increase the longevity of your battery, as well as ensuring your battery is performing at peak levels. These car battery shields work on all types of batteries, from lead, gel, AGM, and lithium. Have the peace of mind knowing you won't be stranded by a weak performing battery.

# Battery Cables

## 1962-72 Spring Ring Battery Cable

If you want to restore your Chevy II/Nova to exact factory specifications, these OEM type cables are what you need! Each cable is reproduced exactly as original using the same OEM type spring terminals and connectors.

The terminal end includes the word "SPRING RING" in the correct type style and size. Each cable is produced for authenticity and includes the original wire markings. Positive and negative cables are sold separately, due to the various variety of cables which were used for different applications. Each reproduction includes the correct length cable and spring ring terminal end, except as noted on 1970 and later models with side mount battery cables.

# Battery Cable Components

**PAINLESS**

## Remote Mount Battery Cable Set

Perfect for trunk mounted batteries. Both positive and negative cables are 1 gauge and 16 feet in length which allows for them to be attached to the engine for maximum starting current. Helps prevent voltage drop to the engine. Eliminates the need for heavy cable connections between the engine and frame. Set includes side post adapters and high amp crimp ring terminals with heat shrink.

40105 universal ..... 165.99 set

**PAINLESS**

## Battery Cable Set

This set has only the highest quality components. Set includes 16 feet of red #1 gauge positive cable and 3 feet of black #1 gauge cable, both with heavy-duty battery terminals already installed capable of handling over 250 amps. Set also includes side post adapters and high amp crimp ring terminals.

40101 universal ..... 114.99 set

## 1962-79 Battery Cable Bolts

Reproduction battery cable and clamp bolts for 1962-79 Chevy II/Nova models. Battery bolts can strip or corrode and should be replaced to provide a tight fit for the cable clamp to the battery post. Bolts are manufactured to duplicate the original exactly.

## UltraSafe Lithium Jump Starter

Portable lithium-ion battery jump starter packs that deliver 500 to 3000 amps for jump starting a dead battery in seconds. It features a patented safety technology that provides spark-proof connections and reverse polarity protection making safe and easy for anyone to use. It's a powerful battery booster that doubles as a portable power source for recharging USB devices, like a smartphone, tablet and more, or powering 12 Volt devices, like a tire inflator, power inverter and much more. Designed for a car, boat, RV, truck and more with both gas engines up to 9.0L and diesel engines up to 7.0L.

OER AUTHORIZED

- 0.8 amps
- 4-Stage Charging Program
- Automatic Intelligent Charging
- Adjusts Amperage as Needed
- Switches to Float Mode When Fully Charged
- For 12V Applications

## Smart Charger 800

The OER® Authorized Smart Charger 800 battery charger and maintainer for classic cars and trucks provides high frequency automatic intelligent charging for 12V lead acid, flooded, or sealed maintenance-free (AGM and Gell Cell) batteries. Microprocessor controlled unit plugs into 120V AC current and provides 0.8 amp output through a 4 stage charging program. Features 4 safety functions: over load, over heat, short circuit and reverse polarity, and is spark proof. Designed to be used with ring terminal output or with the optional clamp set as a portable unit. Has GS/CE/ETL/CEC Certifications. Ideal for cold weather battery maintenance, or vehicle storage.

## Priority Start Battery Protector

The PriorityStart! 12 Volt ProMax has a surge "spike" protection circuit that adds additional protection to the electrical system. Transient voltage "spikes" can cause damage to computers, 2 way radios, MDT equipment, cameras, and a host of other electrical equipment. The ProMax can be used on all 12 Volt vehicles including those with such aftermarket accessories.

BM2428

## Battery Mat – Acid Neutralizer

The Battery Mat offers protection against undetected battery acid leaks. Once installed, the mat will trap and neutralize any battery acid that leaks from the terminals or top side of the battery, preventing corrosion and expensive damage. Each mat is made of super absorbent polypropylene needle punch felt, with one side heat treated to give it additional strength. The mat is inserted under the battery between the battery and the battery tray. It can easily be installed at any time either when replacing the battery tray or battery.

## Cell Saver Battery Insulation Kit

DEI cell saver battery insulation kit is designed to solve the problem of heat soak into batteries preventing premature failure due to heat. Batteries are very susceptible to heat and vibration that could cause premature failure and hazardous leaks. Cell Saver is very capable of damping vibration and will absorb and neutralize any damaging leaky battery acids. Cell Saver is easy-to-install and excess material can be trimmed to accommodate batteries of most sizes and shapes.

# Battery Accessories & Tools

## Protect Your Vehicle from Corrosive Battery Acid!

Prolong battery life and protect your vehicle's battery tray, underhood and radiator support area with the world's only acid-neutralizing heat barrier mat. It reflects over 90% of radiant heat, traps and neutralizes battery acid, protects against corrosion, is recyclable, protects the environment, and is inexpensive and easy-to-install. The Battery Heat Barrier™ set is completely safe to handle before and during installation. So effective, it is used by all branches of the United States military. Set consists of: one 8" x 40" acid absorbing/neutralizing felt and one adhesive backed 8" x 40" aluminized thermal barrier to wrap around the battery, plus an 8" x 12" acid absorbing/neutralizing pad to put beneath the battery. Install one on your vehicle NOW, before it's too late.

TT1001 battery heat shield..... 29.99 set

### Battery Switch

These battery switches are easy-to-install on the negative battery post and disconnect the battery by simply loosening the knob a few turns. To reconnect just retighten the knob. The knob can be removed completely to deter theft. Rated at 500 amps surge and 125 continuous at 12 Volts. Available with a 15 amp fused bypass that maintains computer settings, radio, clock etc., while the battery is disconnected.

W20309 top post with fused bypass 16.99 ea  
W20308 top post w/o fused bypass .. 11.99 ea  
W20307 side post w/o fused bypass .. 10.99 ea

### Lifeline Memory Retention System

The Lifeline enables users of a Master Disconnect Switch to retain a small amount of power for memory circuits common in fuel injection computers, radio presets and clocks. The Lifeline is a memory circuit retainer that will automatically reset after the electrical load is significantly reduced or if the Master Disconnect Switch has been switched to the on position. Available for standard or remote battery disconnects.

500778 standard disconnect ..... 32.99 ea  
500837 remote disconnect..... 41.99 ea

### Quick-Disconnect Battery Terminal

This brass, quick-disconnect battery terminal isolates the vehicle's battery, allowing the clock, radio etc., to remain functional when combined with a fused bypass.

Designed for both round and square battery lugs.

W203507 ..... 6.99 ea

### Master Disconnect Battery Switch

Taylor's 2 post battery disconnect switch completely shuts off all of the current from the battery in the event of an accident or electrical short. The 2 post switch is rated at 180 amps continuous capacity and is especially useful when charging the battery. Includes vinyl on/off decal.

*Note: The NHRA requires a master battery disconnect switch on all modified and super stock class vehicles to comply with their rule 8.4.*

TP1032 180 amps..... 45.99 ea

### Battery Cutout Switch

Make sure your battery maintains the precious power you need by disconnecting the battery from the vehicle during storage. Your choice of an inexpensive standard duty cutout or a heavy-duty unit. Works on any 12 Volt system or vehicle. Splices into positive battery cable to provide a switch for turning power on or off.

W203047 standard duty ..... 34.99 ea  
T4988 heavy-duty ..... 104.99 ea

### Disconnect Position Ring

For disconnect switches to identify the correct position of the switch (ON or OFF). Eliminates the question of which direction is the safe one.

BC900705 ..... 5.99 ea

### Water Resistant Master Switch

This water resistant master switch is rated to 100 amps continuous, 1000 amps surge at 12 Volts, and 50 amps surge at 24 Volts. 2-1/4" dia. x 2-1/2" deep and 1-1/4" deep behind panel. Features two 3/16" dia. mounting holes. Includes 2 keys and a water resistant cover.

X201 - plastic

X206 - steel

### Battery Post Cleaning Tools

This handy little device will help keep your battery posts clean and free of corrosion. Won't corrode or soften in cleaning solutions. Includes external brush for cable clamps and an internal brush for battery terminal posts.

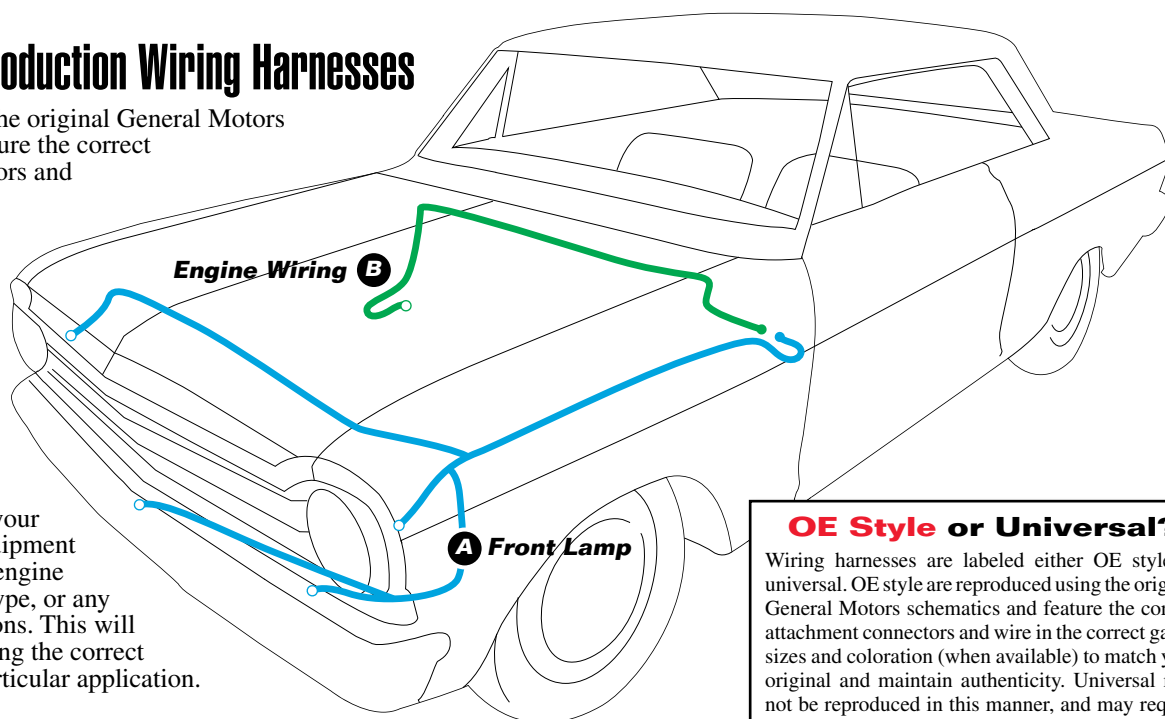

X201 high impact plastic ..... 4.99 ea  
X206 heavy-duty steel ..... 4.99 ea

# OE Style Wiring Harnesses

## OE Style Reproduction Wiring Harnesses

Reproduced using the original General Motors schematics and feature the correct attachment connectors and wire in the correct gauge sizes and coloration (when available) to match your original and maintain authenticity. When ordering wiring harnesses is it essential to supply as much information as possible regarding your Nova's optional equipment including the year, engine size, transmission type, or any and all factory options. This will ensure you are getting the correct harness for your particular application.

### OE Style or Universal?

Wiring harnesses are labeled either OE style or universal. OE style are reproduced using the original General Motors schematics and feature the correct attachment connectors and wire in the correct gauge sizes and coloration (when available) to match your original and maintain authenticity. Universal may not be reproduced in this manner, and may require modification to fit your specific application.

### A 1962-76 OE Style Front Lamp Harnesses

This harness is one of two main harnesses located in the engine compartment. It provides wiring for the main battery power lead, headlamps, parking lamps, 1968-76 side marker lamps, horn relay, alternator, voltage regulator, temperature sensor, brake warning, and ammeter gauge. These harnesses are produced as closely as possible to original specifications including correct colored wire.

Reproduced using the original General Motors schematics and feature the correct attachment connectors and wire in the correct gauge sizes and coloration (when available) to match your original and maintain authenticity. When ordering wiring harnesses is it essential to supply as much information as possible regarding your Nova's optional equipment including the year, engine size, transmission type, or any and all factory options. This will ensure you are getting the correct harness for your particular application.

### OE Style or Universal?

Wiring harnesses are labeled either OE style or universal. OE style are reproduced using the original General Motors schematics and feature the correct attachment connectors and wire in the correct gauge sizes and coloration (when available) to match your original and maintain authenticity. Universal may not be reproduced in this manner, and may require modification to fit your specific application.

### 1962-74 OE Style Under Dash Wiring Harnesses

Classic Industries® now offers an under dash wiring harness to completely replace your existing dash harness. Includes everything you need for applications listed below. No more searching the wrecking yards for a harness that might work! Get exactly what you need without the guess work. All under dash harnesses are manufactured specifically for your Nova.

**Note:** \*With seat belt warning. \*\*Includes back-up light.

### Rear Body Lamp Harnesses

These reproduction rear body light harnesses are produced to exact factory specifications including the correct color wiring and factory connectors. Each harness will replace the original exactly and bring your rear lighting section including the tail lamps and side marker lamps (where required) back to showroom condition. We offer a comprehensive selection of rear body light harnesses for 1962-74 Chevy II and Nova models.

**Important:** 1963-68 models with manual trans requires the use of a back-up switch wiring harness, sold separately. 1969-72 models require the use of a jumper harness to complete the rear body light harness.

**Note:** \*With under dash courtesy lights (sockets not included).

## 1963-76 Console Wiring Harness

If you are rewiring your console lamps, or neutral safety switch, these harnesses will let you do it the easy way, with one complete harness. Each of these console gauge harnesses is a perfect duplication of the original, including the correct color and gauge wires. Perfect for replacing damaged originals or as part of a console gauge conversion for a Nova not originally equipped with gauges.

**Important:** In order to correctly convert your Nova to console gauges, you must also replace your under dash, engine and front light harnesses.

## 1962-67 Cigarette Lighter Wiring Harness

The cigarette lighter fuse adapter includes a pre-assembled pigtail with factory connectors for both types of GM lighter sockets. Simply cut off the factory lighter connector, crimp on the supplied female terminal and plug into the adapter. Our adapter uses connectors and terminals that would have been available in 1967, so it makes for a "period correct" modification. Includes 10 amp glass fuse and installation instructions.

# Universal Wiring Harnesses

Instrument cluster wiring is designed with a "cluster harness disconnect" system for easy service and assembly. All original terminals, connectors, and light sockets are also supplied for original cluster gauges. Any aftermarket gauge system can be easily and neatly wired in.

Engine wiring includes connectors for points type and HEI distributors. Power and tach connectors supplied for GM HEI distributors. Alternator connectors supplied for GM "SI" series internal regulator alternators.

Engine wiring includes starter and gauge sender leads for water temp, oil pressure, and tach. Heavy 8 gauge alternator leads are supplied. Power circuits are fusible link protected.

## 1962-72 Classic Update Wiring Harness Kit

Bring your classic Nova into the 21st Century with a complete wiring harness update kit! This kit accommodates all the popular accessories you may desire including, AC, custom gauges, HEI ignition, tilt steering columns, modern charging systems, and also allows for complete flexibility in the engine compartment... such as a V8 engine swap! With this amazing kit, popular accessories, creature comforts or high performance modifications are made very easy! Includes standard headlamp switch.

## 1962-72 — 16 Fuse, 20 Circuit Wire Harness

These wiring harnesses are built specifically for 1962-72 Chevy II/Nova models. They feature wiring for the entire car and will work with most stock GM steering columns, as well as aftermarket columns such as ididit and Flaming River. Will wire full gauge sets including tach and will address HEI, points and aftermarket distributors, neutral safety switches. Also includes: wiring for high and low beams, indicator lights, parking lamps, turn signal lamps and brake lamps. Will readily accept fuel injection. The wiring is high temperature, fire resistant and color coded. Features the circuit printed on each wire. All sets include a headlight switch, isolated cooling fan relay and color coded instructions. A unique serial number for each harness enables Ron Francis to technically support the installation to you or any subsequent owner.

## 1994-02 Fuel Injection Engine Swap Wiring Harness Set

For maximum power with exceptional driveability nothing beats electronic fuel injection. And the easiest way to install a modern fuel injected engine is with one of these proven FI engine wiring harnesses. These harness sets are designed to allow you to properly wire your engine swap from a donor car or crate motor. A variety of harnesses are available to suit 1994-up LT1, LS1 and GM crate engine applications. Each of these sets include detailed instructions and illustrations.

### The Detail Zone Wiring

Each set includes the sensor connectors installed on 20 foot lengths of wire for custom installations, connectors for the sensor wires, and a Telorvek panel with installed wiring and connectors to plug into the factory computer. Designed to work with a specific transmission, so be sure to select the correct application from the listing below. Other non-computer controlled automatic and manual transmissions can be used but typically requires ECM reprogramming for best results. 1998-02 ECMs require use of all emissions sensors or a trouble code will occur unless the ECM is reprogrammed.

**Note:** \*Corvette engines must use the Camaro/Firebird ECM in order to use this wiring kit. Also requires use of the 1998 Camaro throttle body for accelerator cable control. This engine utilizes the OBD II diagnostic system and if all emissions sensors are not used, trouble codes will set in a factory programmed ECM.

### Painless Wiring

The engineers at Painless have worked out all of the connection and routing problems so all you have to do is follow the straight forward instructions for a painless installation. Feature TXL high temp wire that is color coded and labeled with each application for ease of installation. Harnesses for the LS1 applications require 1998 Camaro computer G8606 and a mechanical throttle body.

**Important:** \*Includes a module to bypass the vehicle anti theft system (VATS) incorporated in the computer. Does not include any emissions related connections.

## Trunk Mount Chassis Harness

In many street rods and custom cars there is little or no room to mount the fuse block under the dash, forcing modifications to either the vehicle or the harness. Our 12 circuit trunk mount wiring harness provides additional wire from the fuse block to the dash and from the fuse block to the front end, allowing the remote installation of the fuse block in the trunk or behind the rear seat. Like all Painless kits, these fuse blocks come completely pre-wired and terminated for a simple, painless installation. Includes GM column mounted ignition and turn signal plugs.

10120	12 circuit	484.99 ea
10220	18 circuit	549.99 ea

## 6.0L LS2 EFI Harness

You have to thank GM for making the great LS2 motor available at a reasonable price. Now, PAINLESS has developed a harness to bring it to life. This harness is designed to work with an OEM LS1 computer and keep the throttle by wire feature. This harness has no emissions provisions.

**Important:** Requires use of factory 2002-03 Corvette LS6 ECM, accelerator pedal, and TAC module.

60520	standard length	654.99 ea

# Universal Wiring Harnesses

## Universal Chassis Wiring Harness

Starting from a blank slate is a daunting task, especially with wiring. Trying to keep your electrical systems running smoothly on a patchwork of old wiring can be a troubleshooting hassle and possibly even a fire hazard. Whether you are planning a series of electrical upgrades or simply need to replace aging, brittle wiring, build your electrical system on a fresh foundation with a quality universal harness. For basic builds, start with a simple kit with wiring provisions for all lamps, horn, fan, wiper, gauges, and all lamps. For more elaborate builds, choose from a selection of advanced wiring solutions. Need to integrate your aftermarket air conditioning? Need extra circuits for a multitude of electronic accessories? With Classic Industries®, there's no limit to what you can do with your wiring.

#### 22 Circuit Wiring Harness

Features gauge cluster disconnect for easy maintenance. Includes ignition, headlight and dimmer switches, as well as 40 amp fan relay.

510760 ..... 676.99 ea

# Universal Wiring

## Highway Series Modular Fuse Panel Systems

Each universal fuse panel is constructed in heat resistant nylon and features anti-push back locks and single side wire access with self-locking, screw down connections. Includes a starter/alternator 175 amp mega fuse for extra protection. The panel is fed through an 8 gauge power feed wire and features a battery and accessory stud connection. Includes: color coded wiring for ignition, alternator, headlight, steering column, accessories and gauges, relays, fuses, flashers, circuit breakers, and all necessary power connections and terminals. Also includes a full color schematic and step-by-step instructions.

- Composite Panel Base
- Nylon Panel Components
- Color Coded Wire
- Easy-to-Read Wire Labeling
- Self-Locking Screw Clamp Interface
- 8 Gauge Alternator Feed
- 175 Amp MegaFuse
- Full Color, Step-by-Step Instructions

## Highway 15 Modular Fuse Panel System

Features 15 power outputs in 8 fuses and 1 circuit breaker. Gauge cluster disconnect for easy maintenance. Includes: ignition, headlight, and dimmer switches.

## Power Plus 13 Wiring System

American Autowire Power Plus 13 universal wiring harness. This complete, integrated wiring system incorporates a factory style pre-wired fuse box, GM steering column and ignition connections, headlight and floor dimmer switches, and heavy gauge alternator and main power feed connections. This set is designed to offer an economical and convenient wiring solution for vehicles requiring only basic electrical connections. This system will provide the standard feeds along with several spare circuits for items like heat, radio, AC, and an electric fan.

510004 Power Plus 13..... 425.99 set

**PAINLESS**

- Horn relay, floor dimmer, courtesy light connections.
- Standard brake light connections w/third brake light.
- Heavy gauge main fuse panel feed wire.
- Complete engine compartment wiring for lighting and engine management.
- Complete rear body wiring for lighting & fuel tank.
- Heavy gauge alternator, main power, and starter solenoid wires.
- Heat and air conditioning lead wires as well as accessory radio and battery clock leads.
- Long ignition, accessory, and battery leads for the ignition switch. A separate alternator exciter lead wire is wired in.
- Plug-in steering column connector for 1969 and later GM columns. Original columns can also be wired by using the supplied mating connector and terminals.

## 20 Circuit Universal Chassis Harness

The Power Plus series is a complete deluxe integrated fuse box wiring system utilizing a complete factory style pre-wired fuse box. Power Plus series wiring kits are designed to offer an economical and convenient wiring solution. By eliminating the disconnects and sub-harness assemblies and implementing direct run technology to the switches, fuse panel, and end locations, these sets offer a more streamlined installation and less work for you!

510008 1969-75 20 circuit ..... 436.99 ea

**PAINLESS**

## 21 Circuit Harness Includes:

- Air Conditioning/Heat
- Brake Lights
- Coil
- Horn
- Electric Fan
- Emergency Flashers
- Dash Instruments
- Headlights
- Radio (constant and ignition hot)
- Turn Signals
- Wipers
- Dome Light
- Taillights
- Third Brake Light
- Charging
- Electric Choke and Starting

## 1966-67 Twenty One Circuit Harness

This 21 circuit harness is for 1966-67 Nova models. This vehicle specific harness makes easy work of rewiring your Nova. Includes three harnesses: main harness (dash forward), tail harness and the dome harness.

20110 1966-67..... 592.99 ea

- Park/Marker Lights
- Power Door Locks
- Power Windows
- Radio/Clock (Constant and Switched)
- Taillights/ License Plate Light
- Third Brake Light
- Turn Signals
- Wipers/Washer Pump

## 25 Circuit Universal Chassis Harness

The Painless Pro Series gives you everything you need to wire up your Pro-Touring or custom ride right the first time! Ample length is provided for each circuit, providing you the freedom to route and hide your wiring how you choose. Once you've got the harness fit how you like it, included are over 25 GM factory style connectors found on most '60s to early '90s GM switches, allowing you to turn the Pro Series harness into a direct fit harness for your application. LED ATC bladed fuses get you away from the old hard-to-find glass fuses, and will light up if blown making troubleshooting a painless task. The 6 gauge charge wire and midi fuse (no more problematic fusible link!) will keep up with today's high amperage alternators, and the provided front and rear ground harnesses making grounding your lighting circuits a breeze! Provided with many GM connectors and terminal, insulated and non-insulated butt splices, heat shrink, grommets, cable ties, ground straps, and cable tie clips, the Pro Series brings a new meaning to truly Painless wiring and includes our lifetime guarantee.

MADE IN USA

## Electronic Exterior Door Handles

Elevate your vehicle's style with these electronic exterior door handles from Lokar! Each billet door handle utilizes a weatherproof 12 Volt pressure pad switch to supply power to an electronically actuated door latch (door popper). Its 2 piece design and available 0 degree or 10 degree mounting surface allows the insert to be removed, and door handle positioned for ultimate customization. The XL design provides 7/8" of clearance between the door and the switch, allowing for easier mounting and less modifications to the door. Made in the USA from 6061-T6 billet aluminum.

**Important:** This requires electronic door latch actuators, which are not included.

**Note:** \*Installation requires hand pocket for clearance.

## 14 and 20 Circuit Universal Fuse Block

Use these 14 or 20 circuit OEM style pre-wired fuse blocks to replace your existing fuse block or as a starting point for custom wiring. All you have to do is terminate your circuit wire and attach it to the fuse block. Pre-wired and labeled for the following circuits: Air conditioning/heat, gauges/dash instruments, brake lamps, headlamps, coil, horn, dome lamp, radio, electric fan, turn signals, emergency flashers, wipers, and alternator. The 20 circuit fuse block also includes circuits for power windows, door locks and other optional accessories. Kits include: mounting bracket, fuses, flashers, horn relay, terminals, and full instructions.

**Important:** No wire included with these kits.

## Remote Battery Disconnect

With this setup, one click of the key fob completely shuts down your vehicle's entire electrical system. It's accomplished by routing your main battery cable through a remote cutoff solenoid that you've stashed in a place inaccessible to a thief. For even more security, the 4 channel "Safe-n-Sound" system not only shuts off all power from the battery, but will also control 3 other items, like closing the windows, triggering the power door locks, and interrupting electrical power to the fuel pump, all separate from the main battery cutoff. The 4 channel package can handle up to 30 amps worth of electrical equipment.

30204

## Remote Master Disconnect

We offer two Master Disconnect sets with 250 amp continuous duty solenoids designed for use with high amperage alternators. Remote master disconnect set 30204 uses a small toggle switch to activate the solenoid. This switch can be hidden anywhere in the vehicle as a theft deterrent. Master disconnect with emergency push button is perfect for drag race applications as it allows you to install a large emergency push button in easy reach if you need to shut down your vehicle's electrical system in a hurry. Remote master disconnect with mechanical latching solenoid is ideal for everyday vehicle applications and is a simple and effective anti-theft deterrent. It uses a 110 amp continuous duty solenoid which is activated by an easy to hide momentary push button.

## X-Treme Tape

X-Treme Tape was developed for the military and has some very unusual properties. The silicone based tape will stick only to itself, and only when placed under tension. Once wrapped around an object, it forms a non-conductive, air and watertight, insulating seal that remains flexible within a temperature range of -60 degrees to 500 degrees F. Insulates to 8000 Volts. Stretches to 3X's its length. Conforms to irregular shapes. When wrapped upon itself, it bonds together immediately and becomes completely fused after 24 hours at room temperature.

## 1968-72 Plastic Wire Gutter

This OER® reproduction wire gutter is used to hold the engine harness as it passes against the firewall area and protects your wiring from falling into the distributor area. Each wire gutter is pre-cut to the original length assuring originality. Also includes pre-punched mounting holes for easy installation. This extremely durable item replaces your original painted over, heat warped, or missing wire gutter.
