DashMat Custom Dash Cover

The Original Carpet DashMat is a tried-and-true favorite over the decades which is why it has a lifetime warranty. Designed to fit the contours of your dashboard perfectly while protecting your factory dashboard from cracking, fading, or deteriorating. Each custom dash cover will have exact cutouts for all vents and sensors. Let Covercraft help protect your re-sale value while adding an upgraded style to your vehicle. Even if your dashboard is already cracking our custom-fit dash covers are a great way to hide those unsightly cracks.

Note: Please specify two digit color code when ordering.

New! JW Speaker

JW05B

JW05C

Shallow 7" LED Headlamps

JW Speaker Model 8730 Shallow 7" round LED Headlight will effectively light your way during the night and enable safe driving while giving your vehicle a signature look. They are designed to fit in vehicles that are tight on space and require a shorter depth than standard headlights. Dual Burn™ technology combines high and low beam when turning on your high beam for an extra punch of light down the road while maintaining the widespread of the low beam. ComfortLite™ technology provides a more powerful punch down the road but also delivers additional illumination above the horizon.

Get The OER[®] Advantage. . . It's Almost Unfair!

Authentic Quality Reproduction Parts for Classic American Muscle

ORIGINAL QUALITY • ORIGINAL APPEARANCE

Original Fit

Appearance is extremely important in reproduction parts, but just as important is the way the part fits. You will appreciate OER[®] reproductions. Parts are designed to fit as closely to the original as possible. Each part is checked and rechecked to ensure proper fit and function.

Superior Quality

It's one thing to manufacture a reproduction part, it's another to duplicate the quality. OER[®] uses the finest quality materials and workmanship to ensure the finished part meets or exceeds original equipment specifications. In fact, many OER[®] products are superior to the original.

Authentic Appearance

Each OER[®] part is manufactured to original specifications, down to the smallest detail. Consistent quality control methods ensure an exact duplicate every time.

OER[®] Officially Licensed Products

Many OER[®] products are officially licensed by the original manufacturers, assuring the highest quality reproductions available.

Classic Industries® Has More To Offer!

*Service Excellence
From the Restoration Leaders!*

Price Match Guarantee

If You Find a Product for Less, We'll Match the Price!

Classic Industries® will match any competitor's current advertised retail price for an identical product. Simply send us a copy of the competitor's current advertised price from a catalog, advertisement or website (with URL) and we'll match the price. The price match guarantee is available at the time the order is placed and for in-stock merchandise only. Price matching will be determined by a competitor's most current retail published price and is limited to competitors within the Restoration Industry.

Money Back Guarantee

100% Satisfaction or Your Money Back!

We take pride in the quality of the products we offer and back it up with a 100% Money Back Guarantee. If for any reason you are not satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit or exchange.

Online Instructional Videos

Visit ClassicIndustries.tv to View Our Online Video Library

Need a little guidance to help you install the restoration parts you purchased? Then cruise over to Classic Industries® new video media website, www.classicindustries.tv where you can watch a library of how-to videos created by our own expert staff, guiding you through the installation processes for upholstery, headliners and more.

Technical Support

Call 1-800-854-1280, extension 5390 for more information

Our tech representatives are ready to help you with all your restoration questions regarding parts or accessories, but we don't stop there, we can help answer questions you may have concerning the detailed areas of your restoration! Our tech representatives consist of some of the most knowledgeable restoration experts in the business. We don't claim to have all the answers but we've been doing it longer than anyone. Chances are we've heard the questions you need answered before. If nothing else, we can probably steer you in the right direction. We continually train our staff in all aspects of early and late model restoration and pass the information along to you!

California Residents — Prop 65

Prop 65 requires businesses that manufacture and/or sell products in the State of California to inform consumers which items contain chemicals known to cause cancer and/or reproductive harm.

Symbols of Quality

DER® Original Equipment Reproduction

The leader in quality reproductions is here! DER® stands for Original Equipment Reproduction®. When you see the DER® logo, you can be assured that every part is manufactured to exact factory specifications and will fit and function just like the original part. What's more, many DER® products are officially licensed and carry a full one year warranty against defects and workmanship.

DER® Authorized Products

DER AUTHORIZED

The DER® Authorized logo represents products that meet or exceed stringent DER® quality control standards. These items have been sanctioned and approved by DER®. Most of these products are prepackaged with the DER® Authorized logo.

DER® Premier

DER Premier

Count on the DER® Premier logo to denote parts that are outstanding in fit, craftsmanship, and manufacturing techniques. Each and every product displaying the Premier symbol is the best the market has to offer, and a cut above the competition. Order with confidence when you see this symbol, as DER® Premier is the true sign of originality and quality.

Classic Industries® The Restorer's Choice™

Count on the Classic Industries® Restorer's Choice™ symbol whenever purchasing reproduction parts and accessories.

You can be sure that each and every product displaying this symbol is manufactured correctly to exact specifications and fits the way the factory intended. This Classic Industries® symbol is your assurance of quality!

Made in USA

Classic Industries is proud to offer American products for your American classic. Wherever you see this MADE IN USA symbol, you know you're receiving the highest quality parts, sourced from the skilled craftsmen of the United States of America.

PRODUCT EMISSIONS GUIDE

Please visit help.classicindustries.com/en/emissions-compliance-guide for more details.

1

CARB EO Compliant (50 States) – This product is covered under a CARB EO and is legal for sale and use in all 50 states.

Products that have completed the CARB EO process belong in this category. EPA recognizes the CARB EO as a reasonable basis demonstration, therefore products can be considered legal by both CARB and EPA.

2

Legal in U.S. (Excludes California) – This product is covered under the Emissions certification or has otherwise met the requirements of the EPA's Tampering Policy and is legal for sale in states that do not mandate Executive Order (EO).

Products that have demonstrated a reasonable-basis emissions compliance either through engineering evaluation or testing, but do NOT have a CARB EO. For example: Testing has been completed and paperwork submitted to CARB but the EO has not yet been issued. The product meets the reasonable basis standard but may not meet CARB's criteria for an EO. Testing has been performed but decided not pursue a CARB EO.

3

Non-CARB Compliant – This product is not legal for street use on an emissions-controlled vehicle. It may be used on a dedicated competition or pre-pollution-controlled vehicles only.

Some products can never be legal for use on pollution-controlled vehicles (both for use on the road and off-road), but they do have legitimate use on racing vehicles and vehicles that predate emissions regulations. Pre-certification means: 1965 and older domestic vehicles in California, 1968 imports in California and both domestic and imports under EPA jurisdiction.

4

Non-Emissions – This product does not require an EO in California. By nature of its design, it is legal for sale and use in all 50 states. Replacement parts included.

Products that have little or no impact on emissions, such as drop-in air filters or exhaust components downstream of the last emissions component (such as the catalytic converter, DPF, or exhaust gas sensors). Also included are devices that plug into the OBD port to monitor information, but do not alter the vehicle's electronics.

- Available in Original Factory Colors
- Color Keyed Heel Pad
- Dimmer Switch Hole Grommet (when applicable)

Available with or without Mass Backing!

FAQ: What Exactly is Mass Backing?

As part of the manufacturing process, a special latex coating is thermo-bonded to the back of the carpet to substantially increase the insulating and sound deadening properties of the basic carpet set. Then 36oz. jute padding is attached to the underside of the carpet. Mass backing is available as an option for molded carpets only.

HushMat

#1 Rated
 Made in the USA

- #1 Rated Automotive Thermal & Sound Insulation
- Reduces Firewall/Tunnel Heat By Over 40%
- Blocks Exhaust Drone from Entering Interior
- HushMat Ultra Bonds to Every Surface
- Creates A 10 dB Barrier to Road & Engine Noise
- Performs In Temperatures Up to 550 Degrees F
- One Step Peel and Stick Application
- Flexible in All Climates - Molds & Contours Easily

Ultra Insulation

Starter Set

Four 12" x 12" sheets available in either black or silver. 4.1 square feet (1.25 square meters). A starter set is perfect for single panel treatment or small jobs.

HM250 silver 4 piece 37.99 set

HM251 black 4 piece 37.99 set

Door Set

Ten 12" x 12" sheets available in either black or silver. 10.1 square feet (3.1 square meters). A door set is designed to effectively treat two doors. Treat the inside of the outer door skin, door frame and back of the door trim panel. Replace that cheap metal rattling noise with a solid sound when you close your doors.

HM200 silver 10 piece 97.99 set

HM201 black 10 piece 97.99 set

Trunk Set

Ten 12" x 23" sheets available in either black or silver. 19.1 square feet (5.8 square meters). A trunk set is designed to effectively treat the trunk floor, spare tire well, quarter panels and rear deck of a vehicle. Helps reduce interior noise typically caused by performance exhaust systems.

HM300 silver 10 piece 157.99 set

HM301 black 10 piece 157.99 set

Floor/Firewall Set

Twenty 12" x 23" sheets available in either black or silver. 39 square feet (11.8 square meters). A floor/firewall set is designed to treat the firewall, floor panel and transmission tunnel. This eliminates vibration noise caused by the engine and road surfaces and reduces the heat transfer from the engine and transmission.

HM400 silver 20 piece 174.99 set

HM401 black 20 piece 174.99 set

Bulk Set

Thirty 12" x 23" sheets available in either black or silver. 58.7 square feet (17.9 square meters). A bulk set is enough to treat an entire midsize or smaller vehicle.

HM500 silver 30 piece 322.99 set

HM501 black 30 piece 322.99 set

New!

Quiet Foam Tape

HushMat products are the #1 rated sound deadening and thermal insulation material available. Simple to use, cuts with scissors and just peel and stick. HushMat's incredible adhesive technology makes this product a must in every tool box. Even better - you can unwind the tape after use and reuse it without loss of adhesion!

111280300 1" x 20' roll 19.99 ea

- Absorbs High Frequency Airborne Noise
- Lightweight Synthetic Rubber Foam
- Soft, Flexible and Highly Compressible
- Moisture Repellent
- Thermal Insulation Up to 300 Degree F
- Aggressive Adhesion
- One Step Peel and Stick Application

Sound Absorbing Foam

1/8" Foam

Includes: two 23" x 36" sheets of 1/8" HushMat Silencer Megabond foam. Great for glove boxes, kick panels, or pillar trim to eliminate squeaks and rattles.

HMF01 1/8" 112.99 set

1/4" Foam

Includes: two 23" x 36" sheets of 1/4" HushMat Silencer Megabond foam. Apply directly on backs of door panels, headliners, or under package trays.

HMF02 1/4" 149.99 set

1/2" Foam

Includes: four 12" x 23" sheets of 1/2" HushMat Silencer Megabond foam. Great for firewall, transmission tunnel, floor, and trunk applications. Makes an excellent replacement for traditional jute.

HMF03 1/2" 172.99 set

Ultra-Lite Insulating Mat

Ultra-Lite insulating mat was designed with the racer in mind. The new Heat Terminator is made of the highest quality insulating materials available today. The material is made of a highly textured aluminum composite surface on the one side, with a high temp silica felt center and a durable Mylar composite facing. The Heat Terminator uses Thermal Conduction Technology (TCT), developed by Thermo-Tec, and is available in six popular sizes.

TT1133 8" x 12" 71.99 ea

D-Mat Sound Absorbent Insulation

DEI D-Mat advanced thermal acoustic insulation. This flexible and compressible material withstand temperatures up to 365 degrees and can be installed nearly anywhere in the interior of your vehicle. Use behind headliners, sail panels, and package trays and see up to a 65% reduction in heat transfer.

DE050410 40" x 60" 26.99 ea

DE050411 70" x 60" 46.99 ea

REGAL Interior

Insulating Mat by THERMO-TEC

Battle excessive heat and noise that penetrate the driver compartment through the firewall and floorboards. The highly reflective Mylar reflects heat away from surfaces, while the foil side is orientated away from the heat source to conduct any penetrating heat across its surface thus providing the ultimate in heat protection. The silica blanketing is a dual density composite and is the main sound insulator. Easy to trim and can be applied with the push-in fasteners provided or any weatherstrip adhesive. Two sizes to fit your individual needs.

TT1005	24" x 48"	35.99 ea
TT1006	48" x 48"	67.99 ea

Adhesive Heat Barrier™

Adhesive backed, this Heat Barrier™ protects parts and components from radiant heat. Made up of woven silica with a flexible aluminized finish. The surface of the material is capable of withstanding radiant temperatures in excess of 2000 degree F. The adhesive backed composite construction material can easily be applied to any surface or wrapped around a hose or wire to make a clean professional appearance.

TT1003	12" x 12"	11.99 ea
TT1004	12" x 24"	21.99 ea
TT1049	24" x 36"	55.99 ea
TT1050	24" x 48"	76.99 ea

Super Sonic Acoustical Mat

This high-quality mat offers superior sound dampening control to reduce road noise, rattles, engine noise, and any other noises that are bothersome. The high density polyethylene film with an aluminum foil composite is abrasion and tear resistant. The gray film provides structural integrity and strength, allowing the material to bend, move, and return to shape even under tension forces. The product is 70 mil in thickness, contains a high temperature adhesive backing, and is easy to trim and fit. The rubberized compound is applied with the high temperature adhesive to absorb all those out of control noises.

TT14710	36" x 24"	1 piece.....	33.99 ea
TT14720	36" x 60"	1 piece.....	70.99 ea

Thermo-Guard FR

Thermo-Guard FR is a lightweight, durable shield that does everything: reduces sound, absorbs vibration, protects from radiant heat and provides an extra layer of insulated padding. The product features 100% polyester fiber felt that provides sound and comfort control and a high tech foil heat barrier that blocks more than 90% of radiant heat. Easy to apply and can be trimmed to fit anywhere. Available in two sizes with one or two foil sides. Designed to be applied with Thermo-Tec's Heavy-Duty Spray Adhesive.

TT1055	24" x 48"	1 foil side.....	29.99 ea
TT1056	48" x 72"	1 foil side.....	55.99 ea
TT1057	48" x 72"	2 foil sides.....	81.99 ea

Suppressor Acoustical and Heat Control Mat

The Suppressor is ideal when both sound and radiant heat control is needed. In addition to the polyethylene film, the foil surface provides direct protection from radiant heat. Great for areas like firewalls, floorboards or doors. The Suppressor is also 70 mil in thickness, contains a high temperature adhesive backing, and is easy to trim and fit.

TT14600	12" x 12"	2 piece.....	15.99 pr
TT14610	36" x 24"	1 piece.....	32.99 ea
TT14620	36" x 60"	1 piece.....	67.99 ea

Under Carpet Heat Shield & Sound Deadener

Make the inside of your Regal quieter and cooler with this under carpet combination heat shield and sound deadener. Made from fire resistant and sound absorbing fibers, then covered with heat reflecting foil these add a great deal of comfort to your vehicles interior. Cut-to-fit with household scissors.

Note: This is a recommended addition when purchasing a new carpet kit.

CMD1003	4' x 6'	35.99 ea

Xtreme Bulk Pack

Dynamat Xtreme is the highest efficiency energy conversion sound deadener available. Xtreme unique chemistry uses a space age self-adhesive synthetic rubber with a heavy 4 mil aluminum constraining layer to absorb noise energy. At only 1/16" thick, the super sticky rubber and foil stretches and contours to fit your vehicle like a glove. Dynamat Xtreme can be also used for trunk lids, roofs, quarter panels, and under the hood. The Xtreme bulk pack contains 9 sheets (18" x 32") or 36 square feet of 1/16" insulation. Made in USA.

CORBEAU

Sportline RRB, RRX, and RRS Racing Seats

The new Sportline series of seats by Corbeau have a look and feel that is second to none. RRB seats feature thigh bolsters that come into contact with the back of the seat. This gives you that racing bucket look of a fixed back seat, while maintaining the convenience of a reclining seat. The RRX and RRS seats feature a perfect blend of aggressive lateral bolster support but with the comfort of a daily driver. Each seat has a base height of only 2-1/2" between the floor and where you would sit. This is ideal for minimal headroom applications or for drivers wearing helmets. Seats will fit up to a 38" waist. Sold in pairs.

Note: Mounting brackets with seat tracks sold separately. Shipped double oversize.

Sportline Evolution X Racing Seats

The new Sportline series of seats by Corbeau features superior comfort, style, and support, plus top of the line injection molded foam, bolsters that hold you in the right spots, and harness capability. Inspired by the C5/C6 Corvette where seating options are limited due to the small cockpit area, the Evolution X was designed to be a bit narrower, allowing it to fit in smaller vehicles. Each seat has a base height of only 2-1/2" between the floor and where you would sit. This is ideal for minimal headroom applications or for drivers wearing helmets. Seats feature black vinyl with carbon vinyl accents and are handcrafted with your choice of red or black offset stitching.

Note: Mounting brackets with seat tracks sold separately. Shipped double oversize.

Classic Race Seat

The Classic Bucket fixed back race seats are ideal for classic and vintage style automobiles. They are designed to provide a classic look and feel without compromising comfort and fitment. Designed to fit the driver with definitive support and the vehicle with classic style. Most classic or vintage style vehicles have limited space so we tried to make this seat small enough to fit most vehicles but not so small that it won't fit the driver. Seats will fit up to a 36" waist. Weight is 15 lbs per seat. Sold individually.

PROCAR

1978-87 Seat Mounting Adapter

Seat adapters are designed to make the transition from original bucket seats to Procar seats easy by replacing the original seat track in your 1978-87 Regal. The Procar adapter attaches to the seat track sliders, which are bolted on the base of the Procar seat. Once the adapters are attached to the sliders, you can bolt them to the floor. Fits LH or RH sides. Sold individually. 2 required per vehicle.

Note: Fits models with OEM bucket seats only.

- Retractors measure 3" wide by 2" tall
- Webbing measures 1-7/8" wide
- 135" of webbing on retractor side, 27" on buckle side
- Buckles measure 2-3/8" x 2-1/2"

3 Point Aviation Style Seat Belt

RetroBelt's retractable lap and shoulder seat belts with classic chrome aviation style buckles are available in 11 colors to match the interior of your classic vehicle. The webbing and its stitching are color matched to the retractors, and the belt ends are chromed. The retractor holds 96 inches of webbing, with 39 inches of webbing outside for a total of over 111 feet of seat belt webbing. The buckle side is 27 inches long and is fully adjustable for maximum installation flexibility. This system uses an advanced inertia retractor that locks to support both the upper and lower parts of the body in the event of a sudden stop. The retractor may be mounted in either the horizontal or vertical positions.

Important: Fabrication skills may be required to establish shoulder anchor point - please consult a professional installation specialist. Seat belts are not designed to work with vehicles that have electric seat belt warning systems.

Note: Please specify 2 digit color code when ordering.

3 Point or 4 Point Seat Belt

Corbeau 3 point, 2" harness belts are an affordable way to upgrade your vehicle to harness belts. The Corbeau 3 point, 2" retractable harness belts are unique in two ways. The most exciting part of this belt is the retractable feature. The second thing that makes this belt unique is the double release feature, which allows you to disconnect the rear strap with the simple push of a button. With the 4 point, 2" harness belts the 2 shoulder straps go over your shoulders and through the harness slots in your seats. After they go through the harness slots these straps then mount in the rear area of your vehicle. Your choice of black, blue, or red.

- Oil Pressure 1/8" NPT solid state sensor with a 10 ft harness.
- Cable Driven Speed Sensor/Generator replaces GM style speedometer cables with a 10 ft harness. (Tremec style adaptors available on request).
- Bushings kit includes 1/8" to 1/4", 3/8", and 1/2" NPT bushings along with bushings for 12mm and 16mm x 1.5 threads.

1984-87 Buick VFD Gauge System

Dakota Digital Series 3 instrument system offers the latest technology and features for 1984-87 Regal models. These complete high visibility vacuum fluorescent digital conversion sets include: gauges for oil pressure, water temperature, fuel level, voltage as well as a speedometer, odometer, and tachometer. Includes: both blue and teal lenses, and available with the option of integrated vacuum/boost gauge. All sets are backed by a manufacturer's limited lifetime warranty. This sets are designed to install directly into your original dash bezel for a complete, and easy installation.

Note: Vacuum/boost sensor and pressure module not included, sold separately.

1984-87 Buick VHX Gauge System

Dakota Digital's VHX instrumentation system will modernize your Buick Regal or Grand National with the latest technology and styling. Featuring fully lit needles, backlit faces and easy-to-read LCD message centers, the VHX series is a far cry from yesterday's traditional instrumentation. This gauge system mounts directly to the stock dash housing for simple installation. Made in USA.

Note: Requires the use of the factory gauge bezel, that is not included.

1984-87 Digital Instruments

Looking to get a fresh, modern look for your gauge panel? The Intellitronics digital dash gives you Regal the precision of digital readouts under the elegance of a smoked gauge lens. This direct fit digital instrument cluster works with your factory fuel, oil pressure, and cruise control sending units and includes a printed circuit board, smoked faceplate, temperature sending unit, a speedometer sender (for vehicles without electronic transmission), and instructions! Bezel not included. Made in USA.

Note: When ordering, please add the correct suffix: B = black, G = green, R = red, or W = white.

Full Sweep Electric Gauges

Powered by digital microprocessor-controlled, rugged stepper motor drives and laboratory grade sending units, Full Sweep Electric Gauges combine extreme durability and readability of 270 degree sweep mechanical gauges with the easy installation and safe operation of short sweep electrics. Track tested and race proven, these units use precision senders to keep hazardous fluids out of the driver compartment and perform gauge calibration and sensor diagnostics at power up for extreme accuracy, every time.

Short Sweep Electric Gauges

Advanced 90 degree air core movements and three wire installation characterize these Short Sweep Electric Gauges. Electric sending units keep hazardous fluids in the engine compartment, sending collected data via an electrical signal to quick reacting, precise air core movements to give you all the information that you need.

REGAL Styling & Restoration

Retro Tachometer

Carefully reproduced to match original dimensions. 360 degree lighting avoids uneven spots for better night visibility. These tachometers will put the finishing touches on your restoration project. Tachometer measures 3-3/8" and has 8000 RPM limit.

Important: *With adjustable red line. Tachometers operate on 1,2,4,6,8, or 10 cylinder engines with most factory or aftermarket ignition systems.

ST802* full sweep..... 154.99 ea

Super Tach II

Bosch's Super Tach II features internal dial lighting, accurate air coil meters, 250 degree dial sweep, 8000 RPM limit and adjustable red line pointer. Works on 4, 6, or 8 cylinder engines. Functions with breaker point, electronic and most after market ignition systems except magnetos. Includes mounting hardware. Available in 3-3/8" or 2-5/8".

3-3/8" Super Tach II

Chrome Bezel
ST7911 white dial..... 42.99 ea

Super Tach III

Solid metal casing with a striking reflective chrome finish. Features a blue shift light. Vibration proof air-core meter construction. 0-10,000 RPM. Internal settings for 2, 4, 6, and 8 cylinder engines. Pointer return to zero feature. Adjustable swivel mounting foot for mounting at any angle. Tachometer measures 5".
ST7905 black dial chrome bezel.... 129.99 ea

Dixco Style Hood Tachometer

These Dixco style 8000 RPM tachometers were installed by builders for super car vehicles such as Yenko, Baldwin Motion, and Big Daddy Garfis. Fits all vehicles. This tachometer works with factory points and GM HEI distributors.

Note: Tachometer adapter required for aftermarket ignitions.

200-4R Speedometer Drive Gear

The drive gear is part of the governor assembly, which is located inside the transmission oil pan. The gear can be replaced separately by removing the retainer clip on the governor shaft. The 10 tooth is for the lower gears (i.e., 4.10 ratio). The 12 tooth is for the higher gears (i.e., 3.23 ratio).

"U-Cut-To-Fit" Speedometer Cable

High-quality speedometer cables feature machined aluminum fittings and a premium housing with a specially extruded liner to extend the life of the cable. These cut-to-fit 7' speedometer cables are designed to work with factory speedometers with a 5/8" - 18 male thread, or any cable driven aftermarket speedometers such as AutoMeter, Stewart Warner, or VDO. The transmission end is designed to fit most transmission driver gear adaptors (not included), and the inner cable and outer housing of these cables can be cut-to-fit most GM transmissions.

PAINLESS

Speed Sensor

A speed sensor is an electrical device that can sense the rotational speed of a shaft or member and transmit this information to another device, such as a readout. Sensor is 7/8"-18 thread.

60117 late TPI & early LTI - 4 pulse 159.99 ea

Cable-X Speedometer Drive Converter

The Cable-X is the easy, cost efficient way to operate your stock mechanical speedometer with a transmission equipped with vehicle speed sensor for an electronic speedometer. This universal adapter will pickup the electronic speedometer signal and operate the cable driven speedometer to the corresponding speed. It's a snap to install with only three wires: hot, ground, and signal. The Cable-X is a one-of-a-kind solution to your speedometer drive problem.

152779B

152779G

1/2" Steering Wheel Spacer

Bring your steering wheel closer with this 1/2" spacer. Manufactured from CNC-machined aluminum with counter sunk mounting holes to the hub and a universal 6 bolt mounting pattern.

152779B	black	27.99 ea
152779G	silver	27.99 ea

152786GL

Quick Lock System

A perfect complement to the Quick Release Systems, these units quickly and easily disable the steering hub by preventing the placement of a steering wheel onto the hub. Manufactured from solid steel and utilizing a ball-lock design and key mechanism. Available in various color finishes.

Note: Must use with either the 2.0 or 2.8 quick release system.

152785GM	gunmetal	125.99 ea
152786GL	polished	125.99 ea
152786MB	matte black	125.99 ea

152772B

Quick Tilt/Lock System

By allowing the steering wheel tilt/out of the way in one quick motion and combining a patented locking system to secure the wheel once the tilt is engaged, this system provides an added layer of anti-theft security without sacrificing convenience.

Note: Requires short hub adapter. Not compatible with quick lock or quick release units.

REGAL Audio & Accessories

Play Portable MP3's or CD's on Your Factory Radio!

You now have the freedom to listen to your favorite music using a modern MP3 Player, iPod or CD player in your classic with the RediRad adapter, the only portable music adapter specially designed for older vehicles. The music is seamlessly routed from any portable music player such as a cassette, CD or MP3 player, even satellite radio into your stock AM or AM/FM radio without any vehicle modifications. Designed for simple and out-of-sight installation, it uses a standard audio plug on a six foot cable to connect to your portable player. When music is detected at the audio plug, the RediRad automatically switches from the radio broadcast to your personal player. The radio will return to normal operation after switching off your personal player. Made in USA.

14923 RediRad adapter 128.99 ea

Bluetooth® Receiver Adapter

Now you can wirelessly stream audio and take handsfree calls from the road in your Classic Regal! Simply plug this into your cigarette lighter, connect the cable to your radio's 3.5mm input jack, and pair your Bluetooth® enabled phone or other device... that's it! You'll be ready to wirelessly stream music from your device to your audio system. Calls and music are routed through your vehicle's speakers for excellent sound quality. Includes Bluetooth adapter and 18" extension cable.

UNDERCOVER I Stealth Speaker

This speaker system is designed specifically for under seat or horizontal wall installations. The compact ABS housing contains one 5-1/2" woofer and Piezo tweeter in each enclosure and is only 2-7/8" x 8" x 11". This system sounds very good and can handle up to 120 watts. For a great sound combine these with one of our DVC (dual voice coil) speakers in the dash and you'll have a great system without any vehicle modifications.

S5060 6 Ohm 134.99 pr

UNDERCOVER II Upgrade Speakers

We have developed the UNDERCOVER II with an 8" woofer and 2 Piezo tweeters in each box. This system can be mounted in many of the same locations as the regular UNDERCOVER. With the 8" woofer in UNDERCOVER II you get a much fuller deeper sound. These are a great addition to our Concours series radios with their 200 watt capacity. Sold in pairs. Measures: 11" x 12-1/2" x 3".

Note: These speakers have a 4 Ohm rating. Check for compatibility with your audio system.

Boom Mat Speaker Baffles

Solve the problem of rattles and vibrations caused by speakers and protect the back of speakers from damage! Boom Mat Speaker Baffles maximize speaker performance by isolating the correct frequency responses while damping reverberation in the sheet metal and panel to frame resonance. Also forms a water tight protective shell to prevent moisture intrusion. Made from a closed cell polyethylene to enhance frequency response for improved sound clarity. Easy conformably in tight spaces for a professional installation. Isolates frequency responses and prevents sound from migrating to unfavorable areas in the vehicle such as door panels.

Bench Seat Drinkster Console

The BD Drinkster™ console is designed to fit the contour of early bench seats. Installation is fast and simple with a nylon strap under the seat which cinches down to the front of the console. Features large drink holders, storage compartment, padded armrest, a fully lined interior compartment, a flip up lid with a plastic sleeve to hold important documents.

BD Drinkster

This longer version uses the entire depth of the seat (front-to-back) and in some cases will slightly hang over the front edge of the seat. For this reason, the BD Drinkster works best in vehicles where the gear selector is located on the steering column.

Note: Please add three digit color code when ordering.

CCI141 specify color 209.99 ea

BD Shorty Drinkster

This shorter version uses less depth (measured front to back). Also, if you have a manual transmission where the shifter comes close to touching the front of your seat then this console is the best option for you.

Note: Please add three digit color code when ordering.

CCI142 specify color 194.99 ea

GM G-Body Performance Upgrades 1978-1987

The GM G-Body platform covers the Chevrolet Malibu, Monte Carlo, and El Camino; the Buick Regal, Grand National, and GNX; the Oldsmobile Cutlass Supreme; the Pontiac Grand Prix, and more. Author Joe Hinds has compiled this information into a single book, outlining the best suspension, brakes and chassis upgrades, including a complete LS engine swap! There is also great information for use when shopping for a G-Body, including what areas to be aware of or check for possible corrosion, what options to look for, and what should be avoided. No other book on the performance aspects of a GM G-Body has been published until now, and this book will serve as the bible to G-Body enthusiasts for years to come. Paperback, 8-1/2" x 11", 144 pages.

New Old Stock 1986 Buick Performance Brochure

1986 was one of Buick's best years for performance. Buick was capitalizing on the 3.8 Turbo, as it was definitely a force to be reckoned with. This New Old Stock (NOS) brochure details each Buick turbo offered that year - from every T-Type to the Grand National. Paperback, 8-1/2" x 11", 27 pages.

L0986P 7.99 ea

How to Port & Flow Test

Porting heads is an art and science. Porting demands the right tools, skills, and application of knowledge. The book covers blending the bowls, a basic porting procedure, and also covers pocket porting, porting the intake runners, and many advanced procedures. These advanced procedures include unshrouding valves, porting a short side turn from the floor of the port down toward the valve seat, and developing the ideal port area and angle. Softbound, 8-1/2" x 11", 160 pages.

L1402 32.99 ea

Souping the Stock Engine

Reprint of the 1950 classic, this true hotrodder's guidebook provides effective methods for tuning all types of stock engines from the conservative road car to full race capability. Includes: general engine performance, stock engine characteristics, and basic planning for modifications.

L2051 19.99 ea

Engine Manuals

How to Build Buick Engines

How to Build Max-Performance Buick Engines is the first performance engine book ever published on the Buick factory of engines. This book covers everything from the Nailheads of the '50s and early '60s, to the later evolutions of the Buick V-8 through the '60s and '70s, through to the turbo V-6 models of the '70s and '80s. Buick owner Jefferson Bryant supplies the most up-to-date information on heads, blocks, cams, rotating assemblies, interchangeability, and oiling system improvements and modifications, along with details on the best performance options available, avenues for aftermarket support, and so much more. Paperback, 8-1/2" x 11", 144 pages.

L963 35.99 ea

Small Block Chevy 1955-1996

The small block Chevy is widely known as the most popular engine of all time. Produced in staggering numbers and boasting huge aftermarket support, small blocks are the engine of choice for a large segment of the performance community. This book continues to be the best power source book for small block Chevy. Extensive chapters explain proven techniques for preparing blocks, crankshafts, connecting rods, pistons, cylinder heads, and much more. Softbound, 8-1/2" x 11", 110 pages.

L203 35.99 ea

Chevy Small-Block Cylinder Heads

Any professional performance engine builder will likely tell you the most powerful and important component in an engine are cylinder heads. If you can afford to invest serious money in one component for a street engine, in most cases it should be a set of cylinder heads. This book taps into some of the best small block Chevy cylinder head resources this country has to offer with a combination of insight and best estimates, because much of what we know about port design and airflow management falls under the category of art rather than science. Paperback, 8-1/2" x 11", 144 pages.

L920 35.99 ea

How To Build Chevy Small-Blocks On A Budget

Know the ins and outs of building serious horsepower small block Chevy engines on a budget. Included are details of factory part numbers, easy do-it-yourself cylinder head modifications, inexpensive but effective aftermarket parts, etc. 144 pages, 300 b/w illus.

L857 36.99 ea

How to Rebuild the Small-Block

This book covers virtually every small block engine. Includes easy step-by-step approach, helps avoid costly and time consuming mistakes, select the right parts, master mechanical tips and the ins and outs of quality machine work. Softbound, 146 pages, 100 illustrations.

L278 36.99 ea

Rebuilding the Small-Block Chevy Step-By-Step Videobook

Rebuilding the Small-Block Chevy: Step by Step Videobook is a quality, step-by-step Workbook Book and DVD combination that shows you how to build a street or racing small-block Chevy in your own garage. The DVD includes more than two hours of coverage showing in detail all the procedures that the book describes. This is a step-by-step Workbook Books and DVD combination that shows you how to build a street or racing small block Chevy. 160 pages, 8-1/2" x 11, Paperback, 650 color photos.

L661 49.99 ea

Chevrolet Engine Book

This book covers bolt-ons, tuning tips and power secrets for the engines of the 60's and 70's. Book includes 180 illustrations in 100 pages and will give you the information you always wanted to know about Chevrolet small block and big block engines.

L351 23.99 ea

Chevy Engine Overhaul Manual

This Haynes manual includes detailed information on the complete engine overhauling. Information includes engine identification, tools and equipment, diagnosis, cylinder head servicing, engine removal and installation, step by step procedures, tips from professionals, performance and economy modifications and more! Covers 262, 265, 267, 283, 302, 305, 307, 327, 350, 396, 400, 402, 427, and 454 cubic inch V8 engines. Softbound. Approximately 275 pages.

L565 29.99 ea

How to Build Horsepower

Proven methods for increasing horsepower in any engine. High-performance street and race engine builders are always looking for the latest techniques and combination of parts to build a better, stronger, more powerful engines. This all-new edition of Vizard's top-selling How to Build Horsepower explains the latest and most effective engine building techniques and strategies. The reader is treated to the secrets and methods for building virtually any automotive engine. Paperback, 8-1/2" x 11", 144 pages.

L606 29.99 ea

Engine Management: Advanced Tuning

As tools for tuning modern engines have become more powerful and sophisticated in recent years, the need for in-depth knowledge of engine management systems and tuning techniques has grown. This book explains how the EFI system determines engine operation and how the carburetor can change the controlling parameters to optimize actual engine performance. Engine Management: Advanced Tuning takes engine tuning techniques to the next level. It is a must have for tuners and calibrators and a valuable resource for anyone who wants to make horsepower with a fuel injected, electronically controlled engine. Paperback, 8-1/2" x 11", 128 pages.

L435 29.99 ea

Modern Engine Blueprinting

Four cylinder, V-8, American or import, the performance of all engines is greatly improved by balancing and blueprinting. Dedicated enthusiasts and professional racers balance and blueprint their engines because the engines will produce more horsepower and torque, more efficiently use fuel, run cooler and last longer. This book explains and illustrates the most discriminating engine building techniques, so the engine is perfectly balanced, matched, and optimized. Balancing and blueprinting is a time consuming and exacting process, but the investment in time pays off with superior performance. Softbound, 8-1/2" x 11", 144 pages.

L1101 32.99 ea

Carburetor Manuals

Holley Carburetor How

To Rebuild

You often need to replace gaskets, worn parts, and jets for the prevailing weather/altitude conditions or a different engine setup. This book details how to select parts then disassemble, assemble, and calibrate all of the major Holley carburetors. Softcover, 8-1/2" x 11", 144 pages.

L1280 29.99 ea

Holley Carburetors, Manifolds & Fuel Injection

This manual covers high performance and stock replacement 1, 2, and 4 barrel Holley carburetors and Holley manifolds for the street or strip. Also includes sections on the operation and installation of Holley's Pro-Jection fuel injection systems and a special section on Z-28's. Softbound, 8-1/2" x 11", 192 pages.

L40 29.99 ea

Holley Carburetor Handbook

This handbook covers the fuel inlet system, idle system, main metering system, power system, accelerator pump system, secondary system, choke system, metering blocks, repair and adjustment, and more! Softbound, 6" x 9", 80 pages.

L559 19.99 ea

Holley Carburetor Manual

Information includes carburetor identification, basic trouble shooting, diagnostic checks for computer controlled carburetors, on-vehicle tuning and adjustments, step-by-step repair and overhaul, performance and economy modifications, professional tips and tricks along with over 340 step-by-step photos. Softbound, 220 pages.

L564 29.99 ea

David Vizard's How to Super Tune and Modify Holley Carburetors

Author Vizard explains the science, the function, and the tuning expertise required to get your Holley carburetor to perform its best for your performance application. This book guides you through the traditional 4150 Double Pumper, Dominator, and 4160 vacuum secondary models, as well as all the recent releases from Holley, including the Ultra Street Avenir and Ultra HP Series Carbs. Paperback, 144 pages, 8-1/2" x 11".

L9658 29.99 ea

How to Build and Modify Quadrajel Carburetors

The book is a complete guide to selecting, rebuilding, and modifying the Q-Jet, aimed at both muscle car restorers and racers. It includes a guide to selecting and finding the right carb, instructions on how to rebuild the carb and extensive descriptions of high-performance modifications. 128 pages.

L202 29.99 ea

Rochester Carburetor Manual

This manual includes detailed information on carburetor identification, basic trouble shooting, diagnostic checks for computer controlled carburetors, on-vehicle tuning and adjustments, step-by-step repair and overhaul, performance and economy modifications, professional tips and tricks along with over 340 photos. 200 pages.

L561 29.99 ea

Carter/Edelbrock Carburetors

Contains photos, illustrations and diagrams, covering rebuilding, tuning and modifying Carter and Edelbrock carburetors. Also features history on the Carter company as well as the development of the AFB and the AVS since the purchase by Edelbrock. Softbound, 136 pages, 8-1/2" x 11".

L433 34.99 ea

Transmission Manuals

GM Turbo 400 Transmissions

Automotive technical author Cliff Ruggles guides you through the complex rebuild procedure of GM's popular rear wheel drive automatic transmission. With his proven style, Ruggles goes through the step-by-step rebuild and performance upgrade procedures in a series of full color photos. He includes instruction on removal and installation, tear down procedures, parts inspection and replacement, as well as performance mods and shift kit installation. Time saving tips are part of every build up as well. Paperback, 8-1/2" x 11", 144 pages with 563 color photos.

L1322 39.99 ea

Muncie 4-Speed Transmissions

This is an indispensable reference to Muncie 4-speed that guides you through each crucial stage of the rebuild process. Comprehensive I.D. information is provided, so you can positively identify the cases, shafts, and related parts. It discusses available models, parts options, and gearbox cases. Most important, it shows how to completely disassemble the gearbox, identify wear and damage, select the best parts, and complete the rebuild. Various high-performance and racing setups are also shown, including essential modifications, gun drilling the shafts, cutting down the gears to remove weight, and achieving race specific clearances. Paperback, 8-1/2" x 11", 144 pages.

L1291 29.99 ea

How to Rebuild & Modify GM TH400 Transmissions

Millions of GM cars and trucks have been built with Turbo 400 automatic transmissions. This book takes readers step-by-step through the complex transmission rebuild procedure as performance upgrade procedures with a series of full color photos for each of these models. Softbound, 144 pages, 8-1/2" x 11".

L1413 27.99 ea

Powerglide Transmission

This complete guide to the Powerglide covers it all from a stock rebuild to an all-out race unit. Subjects covered include general transmission service, basic operation, in-car service and repairs, final assembly and much more. Includes 500 photos. 8-1/2" x 11".

L242 29.99 ea

GM Automatic Transmission Overhaul Manual

The TH200R4, 350, and 700R4 and 700R4 automatic transmissions are covered with complete overhaul photo sequences. Also covered are theory of operation, in-vehicle repairs and performance factors. Softbound, 8-1/4" x 10-3/4", 240 pages, 576 black and white illustrations.

L743 29.99 ea

Turbo Hydra-Matic 350

Clear, concise text leads you through every step of the rebuild, from transmission removal, tear down and inspection to assembly and installation. Also covers transmission identification, principles of operation and maintenance, troubleshooting and in vehicle repairs. 8-1/2" x 11", 256 pages.

L160 29.99 ea

GM Automatic Overdrive Transmission Builders and Swapper's Guide

This book includes information about high-performance modifications, both from the factory and the aftermarket. It also covers common installation issues such as mounting, shifters and linkages, wiring harnesses, and more. 128 pages, softbound.

L1996 29.99 ea

Drivetrain Manuals

High-Perf Differentials, Axles & Drivelines

All too often, when an enthusiast builds a high-performance engine, swaps a more powerful engine into a car, or mounts sticky tires, the driveline components simply can't handle the added torque and fail. In addition, differential, axles, and driveline parts have a limited life span under the power of a high-performance engine. This book covers everything you need to know about selecting the most desirable gear ratio, rebuilding differentials and other driveline components and most importantly, matching the correct driveline components to engine power output. Learn how to setup a limited-slip differential, install high-performance axle shafts, swap out differential gears and select the best available products for the driveline. Explains rear differential basics, rear differential housings, rebuilding open rear differentials, limited-slip differentials, and factory differentials. 516pp, 8-1/2" x 11", 144 pages.

L1063 29.99 ea

Chevy Differentials: How To Build The 10 and 12 Bolt

In this step-by-step guide, you learn how to completely disassemble the differential, evaluate components, and select replacement parts. You're also shown all of the up-to-date techniques for re-assembling the differential and axle. Informative sections on axle identification and replacement parts are also provided. Maybe you have found a salvage yard unit and want to rebuild it to upgrade your existing vehicle or would like to install an aftermarket 12 bolt assembly for extreme performance or racing. This is the only book dedicated solely to rebuilding, setting up, and modifying these axle assemblies for long service life and maximum performance. If you're going to rebuild a Chevy 10- or 12 bolt axle, this book delivers the essential information to get the job done right. Softcover, 8-1/2" x 11", 144 pages.

L1287 29.99 ea

Brake Guides

Muscle Car Brake Upgrades: How To Design, Select and Install

Arguably the only book dedicated exclusively to muscle car brake performance, veteran author Todd Ryden shows readers how to select brake systems for various applications and different budgets. The book covers system design, operation, and component function so you have a clear understanding of all principles. You'll learn how to assess brake system requirements and select brake system kits for many popular muscle car applications from aftermarket brake lines including Baer, Wilwood, and CPP. Paperback, 144 pages, 8-1/2" x 11".

L1574 29.99 ea

High-Perf Brake Systems: Design, Selection, & Installation

A great deal of time, effort, and money can be invested in raising the horsepower level, thus increasing the speed potential, and very little invested in bringing all of that power under control in the form of an upgraded braking system. Granted, brakes can be intimidating, however, *High-Performance Brake Systems: Design, Selection, and Installation* gives you the knowledge to upgrade your brakes the right way the first time. You'll learn how to choose and install the most effective rotors, calipers, pads, and tires for your muscle car or classic vehicle. Paperback, 144 pages, 8-1/2" x 11".

L1580 35.99 ea

Exhaust Guides

Performance Exhaust Systems

To extract maximum performance, an engine needs an efficient, well-designed, and properly tuned exhaust system. This book explains exhaust system principles, function, and components. Includes how to design, fabricate, and fit exhaust systems to classic street cars as well as for special and racing applications. Air/exhaust gas flow dynamics, cam duration, and overlap are analyzed to determine how an engine breathes in air/fuel, as the exhaust must efficiently manage this burned mixture. Paperback, 8-1/2" x 11", 144 pages with 577 color photos.

Fuel Injection Manuals

Performance Fuel Injection Systems

This practical guide walks you through the process of modifying and tuning modern electronic fuel injection systems. Presenting plenty of foundational information, you're taken on a journey that includes wiring, fuel systems, sensors, and different types of ignition systems – all geared towards building a basic understanding of fuel injection systems. The book also covers configuring a stand-alone engine management system and tuning for maximum power and drivability, and much more. Paperback, 160 pages, 8-1/2" x 10-7/8".

L1569 26.99 ea

Designing And Tuning High-Perf Fuel Injection Systems

This book goes in-depth on the combustion basics of fuel injection as well as benefits and limitations of stand-alone. Includes glossary and a special resources guide with stand-alone manufacturers and test equipment manufacturers. Softbound, 128 pgs, 8-1/2" x 11".

L1062 29.99 ea

Street Supercharging

This book will give information regarding all facts of supercharging, including how to install blowers, buying a kit, rebuilding manifolds, blower drives, carburetion and accessories. Softbound, 8-1/2" x 11", 128 pages.

L211 33.99 ea

Turboccharging

A detailed, comprehensive handbook on the theory and application of turboccharging for street and high-performance use. Covers all types of domestic, import cars, trucks and RVs. Includes detailed sections on theory, types of turboccharging components, engine considerations and aftermarket applications. Softbound, 8-1/2" x 10-7/8", 192 pages.

L317 29.99 ea

Turbo: Real World High-Performance Turbocharger Systems

Author Jay Miller uses more than 300 photos and the perfect blend of technical and common sense information to help you build boost fast and make more horsepower and torque. He discusses the various components of a turbocharger and explains how to decode complicated turbocharger model numbers, compressor maps, and other specs. If you run into problems with your turbo system, there's also a detailed chapter on failure analysis to help you figure out what went wrong and how to fix it. Softbound, 8-1/2" x 11", 160 pages.

L978 29.99 ea

Wiring Manuals

Automotive Electrical Manual

The manual features comprehensive information which covers basic electrical fundamentals, trouble shooting and repair for both foreign and domestic vehicles. Includes engine starting and charging systems, lights, gauges and more! Softbound, 242 pages.

L575 29.99 ea

Auto Electrical Handbook

Learn about basic electrical theory, how various electrical works and drawing circuit diagrams. Includes tips on electrical test equipment and troubleshooting electrical circuits. 350 photos, drawings and diagrams. Softbound, 157 pages.

L187 29.99 ea

How To Diagnose and Repair Automotive Electrical Systems

Details the various tools, such as multi-meters and test lights, that can be used to evaluate and troubleshoot any vehicle's electrical system. Several hands-on projects take readers on a guided tour of their vehicle's electrical system and demonstrate how to fix specific problems. Paperback, 160 pages, 8-5/16" x 10-5/8".

L20990 27.99 ea

Automotive Wiring & Electrical

Countless collector car owners are skilled at performing mechanical work, but for many of them, electrical work seems like a mystery, too complicated and too confusing. However, electrical upgrades are absolutely essential for a high-performance classic car or a modified car to perform at its best. In this revised edition, brilliant color photos and explanatory step-by-step captions detail the installation of the most popular, functional, and beneficial upgrades for enthusiasts of varying skill levels. Just a few of the projects included are: maximizing performance of electric fans; installing electronic gauges; upgrading charging systems; and installing a complete aftermarket wiring harness, which is no small task. Each fact is covered in amazing detail. Paperback, 8-1/2" x 11", 144 pages with 394 color photos.

L1323 29.99 ea

Automotive Wiring & Electrical

The basics of electrical principles, including voltage, amperage, resistance and Ohm's law, are revealed in clear and concise detail, so the enthusiast understands what these mean in the construction and repair of automotive electrical circuits. 8-1/2" x 11", 144 pgs, 350 photos.

L1019 29.99 ea

Automotive Wiring A Practical Guide to Wiring Your Hot Rod or Custom Car

The book includes numerous charts showing typical configurations and suggested installations. A troubleshooting section lends a hand in tracking down the inevitable problems that can arise. Paperback, 144 pages, 8-1/4" x 10-5/8".

L39923 29.99 ea

Custom Auto Wiring & Electrical

This indispensable guide to high performance and OEM automotive electrical systems covers electrical theory, wiring techniques and equipment, custom wiring harnesses for racing, hot rods and restorations, pre-made wiring harnesses, special electrical systems (navigational, audio, video), troubleshooting common electrical problems, dashboards and instrument and trailer wiring. Softbound, 8-1/4" x 5-1/4", 192 pages.

L1056 29.99 ea

Fabrication

Weld Like a Pro

Welding is an art and skill that's essential for automotive fabrication, repair, and vehicle upgrades. It's also an important skill for countless household projects and industries. Not only will you learn advanced welding techniques as well as with the use of aluminum, titanium, magnesium, stainless steel, and other specialty materials. Paperback, 144 pages, 8-1/2" x 11".

L1570 39.99 ea

The Welder's Handbook

Excellent handbook detailing all common and not so common techniques of welding. Oxyacetylene welding and cutting, brazing and soldering. Also includes how to weld stainless steel, aluminum, magnesium and titanium. Softbound, 8-1/2" x 11".

L144 29.99 ea

Welding Manual

This Haynes Techbook covers gas (oxyacetylene), arc, MIG and TIG welding. Soldering and flame cutting are also covered. Techniques are discussed as they relate to automotive and workshop repairs. Information on selecting equipment is also included. Softbound, 176 pages, 8-1/2" x 11".

L388 29.99 ea

Media Blasting & Metal Preparation: A Complete Guide

When it comes to bodywork and painting, one aspect that's overlooked is proper metal preparation. However, there's more to a great paint job than sanding and shooting. Without proper metal preparation, the paint finish can end up full of imperfections; bubbles from underneath, or simply won't last, no matter how expensive the materials were. In Media Blasting & Metal Preparation: A Complete Guide, restoration expert and veteran author Matt Joseph gives you all the tools you need to expertly prepare your vehicle for the next stages of restoration. Short cutting the process will only cost you precious time. This book provides all you need to know for a successful and long-lasting restoration. Paperback, 144 pages, 8-1/2" x 11".

L1575 29.99 ea

Metal Fabricator's Handbook

This excellent how-to guide concentrates on race and custom cars. Covers everything from adding a hood scoop or fender flares, to building complete cars. Includes a tremendous amount of useful information. 8-1/2" x 11", 176 pages, paperback, 560 illustrations.

L42 29.99 ea

Sheet Metal Handbook

Detailed information on how to form and shape metal for competition, custom or restoration use. Chapters include hammer forming tools, terms and equipment, riveting techniques, layout, design and pattern making. Softbound, 192 pages, 8-1/2" x 11".

L243 29.99 ea

Professional Sheet Metal Fabrication

Professional Sheet Metal Fabrication is the number one resource for sheet metal workers old and new. Dent repair and automotive patch panel fabrication are covered in detail. This is truly the most detailed enthusiast focused sheet metal how-to book on the market. Paperback, 304 pages, 8-1/4" x 10-5/8".

L44927 39.99 ea

Automotive Bodywork & Rust Repair

Whether you want to tackle a full restoration project, or just want to save money by doing minor repairs yourself, Automotive Bodywork and Rust Repair is the book to get you through it. Softbound, 8-1/2" x 11", 160 pages.

L1086 29.99 ea

Drag Race Chassis & Suspension

How to Build a Winning Drag Race Chassis and Suspension is a comprehensive guide to help you hook up. Inside you'll find detailed information and photos on basic chassis design, how to set ride height, tubing construction, standard axle housings, choosing gear ratios, transmission choices, bolt-on traction bars, 4-Link setups, ladder bars, anti-roll bars, steering, shock absorbers, brakes, wheels, tires, safety equipment and so much more! Softbound, 5-1/4" x 8-1/4", 160 pages.

L1052 29.99 ea

Fabricate Automotive Fiberglass & Carbon Fiber Parts

Learn to fabricate and repair body and engine parts fabricated from fiberglass and composite materials (plastic/molded or carbon fiber), in your own garage. Use glass strand mat, woven fiberglass cloth, carbon fiber cloth, and hybrid fabrics, correctly mix the typical resins (polyester, epoxy), hardeners, and gels. Use core materials, such as wood, foam, and honeycomb Nomex, are used to add strength to various parts. All the relevant tools, patterns, and materials are covered in detail. This book guides the reader through each critical stage. Softbound, 160 pages, 8-1/2" x 11".

L1096 38.99 ea

Fiberglass & Composite Materials

This informative guide covers FRP materials, fibers and fiber forms, resins, gel coats, advanced techniques, building molds and plugs, structures and materials, health and safety, tools and shop equipment. Softbound, 154 pages, b/w illustrations, 8-1/2" x 11".

L652 29.99 ea

How to Make Your Muscle Car Handle

This book defines, explores, and reviews the complete suspension system, and teaches you how to best choose your upgrades for maximum effectiveness. Softbound, 8-1/2" x 11", 144 pages, 328 color photos.

L2724 35.99 ea

Paint & Body Manuals

Pro Paint & Body

This is a revised and updated edition of one of the bestselling paint handbooks in the industry. It includes current information on HVLP paint guns and equipment and waterborne paint technology. It also has sections on hammer and dolly, paintless dent removal, patching panels, spray guns and compressors, paint prep, shooting paint, color sanding, plastic bumper repair, and custom paint tips and tricks. Paperback, 160 pages, 8-1/2" x 10-7/8".

L1573 29.99 ea

Paint Your Car On A Budget

This book unveils dozens of secrets that will help anyone paint their own car. This book covers everything you need to know to get a great looking coat of paint on your car and save lots of money in the process. 128 pages, 8-1/2" x 11", 400 color photos.

L917 29.99 ea

How to Paint Muscle/Show Cars

Author Tony Thacker and award-winning painter Mick Jenkins to bring you this complete guide to show quality painting. Included is all the information on how to create a show quality finish, including chapters on making a plan, the tools needed for the job, complete disassembly information, repair versus replacement decisions, metal prep, the latest and best paint products, application, custom finishes, and more. Paperback, 144 pages, 8-1/2" x 11".

L1334 32.99 ea

How to Paint Your Car

This book reveals the techniques and technology behind automotive painting through 250 color photos, detailed captions and text. You'll get the most up-to-date information about paint chemistry, the tools of the trade and safety gear that every automotive painter must know. 160 pages, softbound.

Automotive Literature

Fifties Flashback **New!**

Was the 50's your decade? Relive the memories, the optimism, the cars and the lifestyle of those early, more innocent years. Or, experience for the first time the custom car craze, the horsepower race, when Detroit built terrific cars and America was the greatest country in the world! Rediscover the nostalgic history of the way things were in the 1950's. The cars we drove, clothes we wore, the movies, the drive-ins, service stations, car shows, car clubs, what we read, drag races, street racing, rapping pipes and more are all highlighted in this book. Hubcaps, squirrel knobs, blue dots, and flammars all get their time in the spotlight. Softbound, 8-1/2" x 11", 264 pages.

L1332 19.99 ea

How to Build/Modify GM

GM's muscle cars of the '60s and '70s were great for their time but what they did best was go in a straight line. Today's performance cars have it all though: speed, handling, and comfort. This book shows you how to build a Pro-Touring machine: a classic muscle car that accelerates, stops, corners, and rides like Detroit's best new high-performance cars. Author Tony E. Hunter goes through a car's major systems: drivetrain, chassis, suspension, body, and interior and shows you how to upgrade that classic muscle car to make it a modern performer. Paperback, 8-1/2" x 11", 128 pages.

L914 33.99 ea

Selling The American Muscle Car

As the muscle car was developed in the early 1960s, auto manufacturers scrambled to find catchy marketing campaigns to entice the buying public into their dealerships. General Motors, Ford, and Chrysler, with all their divisions, as well as AMC and Studebaker, inevitably sank billions of dollars into one-upmanship in an effort to vie for the consumer's last dollar. Manufacturers poured millions into racing programs, operating under the principle of "Win on Sunday, Sell on Monday." Cars were given catchy nicknames, such as The GTO Judge, Plymouth Roadrunner, Cobra, and Dodge Super Bee. Selling the American Muscle Car: Marketing Detroit from in the 60's and 70's takes you back to an era when options were plentiful and performance was cheap. You will relive or be introduced to some of the cleverest marketing campaigns created during a time when America was changing every day. Hardback, 10" x 10", 192 pages, 290 color, 145 black and white photos.

Interior Manuals

Auto Upholstery & Interiors

A guide to performing basic upholstery and interior repairs on all kinds of automobiles written expressly for the home enthusiast. Includes helpful guides on how-to replace headliners, lay carpet, repair dashboards, reupholster seat frames and more. Sfbnd, 8" x 10", 160 pages.

L1265 29.99 ea

Custom Auto Interiors

More than 800 color photographs capture every detail you'll need to create your own exciting and award-winning custom interiors. Precise step-by-step instructions show you how-to turn out completely professional custom interiors. This is an advanced level book. 192 pgs, 8-1/2" x 11".

L740 26.99 ea

Automotive Upholstery

Author teaches you how to sew like an expert, and avoid costly mistakes. Learn to recover and build seats, make headliners and carpets. Materials are described with specific recommendations for vinyl, cloth, leather, Nimbus, panel board, etc. 230 pages, 8-1/2" x 11", 550 bw photos.

L378 22.99 ea

Automotive Upholstery

After disassembling and gutting your car, it is easy to feel that you're in way over your head when it comes to the upholstery. Every photo in this book provides a hands-on approach that shows you how to repair and restore a car's interior to concours, show quality specifications. Paperback, 8-1/2" x 11", 192 pages.

L1288 23.99 ea

Muscle Cars

The 1960's and early 1970's were the age of raw American automotive power. Whether it was a classic Hemi 'Cuda, Pontiac GTO, Charger, or Boss Mustang, big engines were king at local drag strips and cruises. Muscle Cars explores this era and the current models with a broad survey of classic muscle and today's new machines. Each chapter is organized around a theme (milestones, factory racers, etc), each model getting a multi-page spread of full color photography, performance stats, trivia, and more. Photos and stories from the people who built and raced these amazing machines make the book a must read for any fan of American muscle. Paperback, 240 pages, 6-1/2" x 8-1/4".

UltraTect Car Cover

Covercraft custom car covers provide a custom-fit design produced against OEM standards to ensure that their car covers will fit each vehicle with precision. Covercraft Ultra[™] car covers are made for durable outdoor protection with high-performance fabric at a moderate price. Developed from the need for a cover that would retain its color and strength in extended outdoor exposure, while providing a high degree of water resistance and UV protection at a reasonable price. Ultra[™] is made from a solution dyed WeatherMax[®]SL fabric which means each fiber is a solid color and not just surface dyed.

Tan Flannel Car Cover

Covercraft custom car covers provide a custom-fit design produced against OEM standards to ensure that their car covers will fit each vehicle with precision. Constructed of a durable poly cotton blend with a napped underside finish these vehicle covers are 50% heavier than most standard poly cotton covers. Perfect for providing long wear and durability. Specially treated to resist moisture, rot, and mildew. Traditional automotive enthusiasts just love a good basic vehicle cover with a soft touch for the vehicle finish. These custom car covers provide superior breathability and ding protection with basic dust protection for indoor use.

sunbrella

Sunbrella Car Cover

Covercraft custom car covers provide a custom-fit design produced against OEM standards to ensure that their car covers will fit each vehicle with precision. Custom Sunbrella® car covers are best for intense sun environments like the southwestern United States. Thanks to the unique construction process Sunbrella® vehicle covers provide the ultimate protection and years of coverage in areas with intense sun climates. The acrylic fibers are solution dyed, before the fabric is woven, to assure the color goes all the way through the fabric. Using a special finish process, the heavy-duty acrylic material is then softened for use as a car cover fabric. This creates a fabric that is exceptionally strong and UV resistant that is soft on your vehicle's finish.

Note: Please add 2 digit color code when ordering.

5-Layer Softback All Climate Cover

Covercraft custom car covers provide a custom-fit design produced against OEM standards to ensure that their car covers will fit each vehicle with precision. This all-climate soft back car cover fabric features 5 layers of protection to provide the best defense against the elements while being smooth against your paint finish. Each custom car cover also features reinforced non-scratch grommets with a soft felt backing, durable overlapped double stitched seams, and urethane elastic sewn into the front and rear hems for easy installation. The robust car cover layers also help add privacy to help keep prying eyes out of your vehicle while also serving as a theft deterrent. If parking in a garage this car cover works as a superior dust top to keep your vehicle looking its best. The softback lined pairing with the robust multi-layer design also helps to reduce scuffs and minor dings from accidental bumps or garage accidents. Protect your vehicle with this premium soft back all-climate car cover from Covercraft.

Hidden Car Tracker Pro Plus

Track your vehicle easily with the BrickHouse Hidden Car Tracker Pro Plus, a completely covert GPS tracker. This powerful tracker puts you in total control of individual vehicles or fleets, and drivers will never know it's there unless you tell them. Enjoy an unlimited power supply while the vehicle is running and, when the vehicle is off, the internal back-up battery continues to provide location data for up to 12 hours - ideal for recovering stolen or lost vehicles.

- Hard wired, no batteries required
- Location updates every 10 seconds
- External antenna for superb accuracy
- 12 hour continuous back-up battery

Through BrickHouse Security's easy to use GPS platform, you can receive instant speed or location based alerts via text or e-mail, based on custom parameters. View the tracker's location in real time on three customizable map views, or access detailed location history reports. All of these features can be accessed from any smartphone, tablet, or computer with an internet connection; no special apps or software are necessary. This device requires a \$29.99 per month fee for unlimited GPS tracking, billed every 30 days (billing starts 7 days after purchase).

Note: If service is inactive for 60 days or more reactivation will require a new SIM card for your device and may take up to 3 business days.

Make Sure Your Vehicle is Safe and Secure!

TrackPort GPS Vehicle Tracker

The TrackPort is the easiest way to track a car or truck, and protect it against thieves. Just plug the device into your vehicle's OBD-II (On Board Diagnostic) port. Normally located under the driver side dash, this port has been standard on all vehicles sold in the United States since 1996. Use your vehicle's existing port to supply uninterrupted power to your tracking device. Unlike traditional hard wired tracking devices, an OBD GPS tracker can be easily moved from one vehicle to another with no tools and little effort. It's completely "Plug and Play".

- No installation required, just plug in and go
- Move TrackPort instantly from vehicle to vehicle
- Location updates every 30 seconds
- Powered by your vehicle - no batteries needed
- U.S. tracking only

Know where the TrackPort is at any time, view where it's been, and run reports on the vehicle's behavior from any computer, tablet, or smartphone with a web connection. Receive customizable location or speed based alerts via text message or e-mail. Purchase of this device constitutes agreeing to the monthly service fees chosen upon sale. The TrackPort requires a \$29.99 per month fee for unlimited GPS tracking, billed every 30 days (billing starts 7 days after purchase).

Note: If service is inactive for 60 days or more, reactivation will require a new SIM card for your device and may take up to 5 business days.

Micro GPS Hidden Car Tracker

The BrickHouse Livewire Micro is a high-performance GPS tracker that's completely invisible in any car or truck - and it's one of the most affordable GPS devices available. This completely covert GPS tracker is hard wired behind your dashboard, so the driver will only know it's there if you choose to tell him. And since it gets its power from your vehicle's electrical system, you never have to worry about running out of battery life. When the vehicle is turned off, the Micro provides location updates every hour. Detailed reports of a vehicle's travel history are also available. For the most accurate tracking available, the Livewire reports location on the Verizon network, which offers the best cellular coverage in the United States. Device supports rapid tracking. Geofence alerts, and speed alerts with select service plans.

Note: This device requires a no contract service plan, available from \$9.99 to \$39.99 per month.

- A complete set of stamps with specially formulated paint and crayons are included to truly complete your restoration!
- Basic or deluxe kits are available depending on your restoration requirements!

It's the details that make the difference!

You may have seen the letters P.T.B. on the firewall of your vehicle. The markings have specific meanings. We've offered a brief explanation to the most commonly asked questions concerning the replacement of these markings. The key between a good restoration and a great restoration is how much detail is put into it. Enter your restored vehicle in the show of your choice and maintain complete originality by obtaining the correct inspection markings. The judges will be impressed!

Questions and Answers

- Q What does P.T.B. stand for?
A. P.T.B. means P = Paint, T = Trim, B = Body.
 Q Do they go in any certain order?
A. No. They can be mixed up in any way you like. PTB, TBP, BTP, TPB, etc. The most common way is PTB.
 Q Where do they go?
A. PTB can be on either side of the firewall but the driver side is the most common. They have also been seen on the side of the cowl behind the fender but it would be useless to put them there since they can't be seen.
 Q What color should they be?
A. They can be orange, light green, or a mixture of both. For example P=orange, T=light green, B=orange, or anyway you like. If your PTB is still intact before your restoration, do your new PTB's in the same colors. Not all vehicles included PTB's but when restoring yours we suggest you put them on.

Body Markers/Paints

Chassis Inspection Mark Paint

Restore the many colored factory marks found on your suspension, engine and driveline components. These marks are found on most cars, and were used for inspection, parts picking codes and alignment marks. These inspection paints are color matched to original. In many cases they're supplied with technical bulletins to help you apply them in the proper locations. Supplied in 2 oz. brush top bottles.

Firewall and Frame Marking Crayons

These are the correct "grease pencil style" crayons used for marking the factory inspection marks on your firewall, subframe, and other various sheet metal areas. Included are a yellow and a white marking crayon.

K0084	8.99 pr
-------	-------	---------

Frame Engine and Body Marker

Automakers use these permanent markers to write codes and numbers on frames, engines and body components. Engine suffix codes were often written on the back of the cylinder heads. Job numbers were written on the firewall, frame, engine, and other components to assure the correct vehicle was being built according to the build sheet. These permanent paint markers will help you exactly duplicate the factory original marks.

We offer the highest quality car care formulas at any price, without the hype of expensive advertising and high dollar packaging. No fancy bottles or labels to pay for, our product speaks for itself!

Secret Formula Wash and Wax Products

Super Suds High Foaming Car Wash

This super suds thick, high foaming shampoo is formulated for extra duty cleaning. Chelating agents counteract hard water mineral deposits while foam stabilizers provide longer lasting sudsing action than regular duty shampoos. Its pH balanced to gently clean surface, but not remove existing wax or polymer coatings. Concentrated 100:1 for economy. Available in grape or cherry fragrance. Biodegradable, phosphate-free, NPE-free, VOC compliant.

Reflect-It Correction Creme and Swirl Eliminator Polish

This light cut correction creme restores depth of gloss and color while leaving a surface free of swirls or compound haze on all types of paint finishes. Formulated using an advanced blend of diminishing, micro synthetic silica abrasives, Reflect-It™ quickly removes 2000 - 3000 grit sand scratches, cobweb scratches, swirl marks, water spots, and other paint imperfections. Swirl eliminator is a ultra gloss polish uses extremely fine polishing agents to eliminate swirl marks and hairline scratches while preparing a blemish free surface for final finishing. Provides longer buffing time to create an exceptionally high gloss, glass-like appearance. Safe for all types of paint finishes. For hand or machine use. Contains no wax.

SECRET® "Secret Formula" Clay Bar System

Clay pulls out all the contaminants you cannot see, but that you can definitely feel, like industrial fallout, rail dust, and brake dust. Though these contaminants are not visible, you can tell they are there because the paint will feel rough or gritty. These contaminants may cause patches of paint to appear dull, even after waxing. As these contaminants oxidize, they create rust spots within the paint. Once this happens, the oxidation is considerably harder to remove and will most likely take a good bit of paint with it. Clay bar will remove these contaminants and leave the surface silky smooth with a mirror-like smooth finish. One premium professional duty bar is enough to do 8-10 vehicles. Our clay will not break or deteriorate into small particles like inferior low quality clay bars. Super elastic to remove harmful particles quickly and effectively. Acts as a magnet to foreign particles, literally pulling the paint fouling grime away from the surface of the paint. Clay lubricant is essential to the performance and safety of clay. It provides the necessary slick surface for clay to glide on. Using low quality clay lubes or cheap detail sprays will deteriorate your bar and lead to poor clay bar performance. Also beware of soapy water as a clay lube, detergent or surfactant based soaps will cause the clay to deteriorate.

DER® Premium Carnauba Pre-Softened Wax

DER® Secret Formula Pre-Softened Carnauba Paste Wax is in a class all its own. A pre-softened paste wax with no cleaners, it leaves a deep, brilliant long-lasting shine. It protects and beads up with a glass like gloss that lasts up to 6 months. It works beautifully on all colors, even on blacks, reds, and burgundies, filling in swirl marks. It's also super easy on and off: just wipe on in a circular motion, and take off with a micro-fiber immediately. No need to wait for it to dry! Leaves no white haze at all, there is no white residue to clean out of the cracks, and no need to be careful around the exterior trim - it won't leave white marks! There's no trade-off here: the easiest application in the world, and the best results! Great grape smell. For the enthusiast who demands the highest and wettest level of shine, DER® Secret Formula Pre-Softened Carnauba Paste Wax is a premium blend of genuine Carnauba wax and natural oils that makes paint "drip off of your vehicle" with a high gloss shine and shimmer that is sure to impress even the toughest critics. The 5" round microfiber applicator pads make it easy to apply waxes or rubbing compounds without scratching paint or clear coat. Simply rinse and reuse. Microfiber applicators are highly absorbent, strong yet gentle and the fabric is machine washable.

DER® "Secret Formula" Acryli-Shine Glaze

Glaze is a polish without any cleaning properties used primarily to improve the shine and clarity of paint. Primarily used by body shops for finishing jobs or by detail shops to bring out the brilliance of paint, glazes are also commonly used on show vehicles to achieve a "high luster or wet look". It was developed for the darker finishes, using a slightly moister formulation to enhance the difficult to wax paint finishes. The application process is forgiving, smooth, and dust free. Your moldings will not turn white. Glazes do not replace polishing. If a surface has minor swirls and imperfections, to achieve the best superior results, the surface should be polished with a polish first.

P99 HD Interior Fabric Cleaner

The beautiful thing about P99 HD: It leaves no film. After cleaning fabric, carpet, floor mats, convertible tops, vinyl tops, seat upholstery, door panels, vinyl, plastic, aluminum, you will have a clean surface free of any residue. This strong all purpose cleaner should be diluted 30:1 for light jobs, 15:1 for medium, and 5:1 for heavy dirt. Apply with a sprayer or sponge. Agitate stubborn dirt with a brush. Our P99 HD Secret Formula Interior Exterior Multi Purpose Fabric Cleaner works quickly as a spot cleaner for all color-fast fabrics. Will not stain or leave a ring around area cleaned. Apply by hand and in a matter of seconds the specially formulated cleaning agents emulsify the stain while the surfactants work to unlock the soil from the fabric and suspend the dirt within the liquid cleaner. When you blot with a clean dry cloth, the liquid containing the stain transfers to the cloth.

Professional Car Care Products for the Enthusiast

OER® Premium Metal Polish & Sealant

OER® Extreme Shine Metal Polish & Sealant cuts through layers of dulling oxides to restore a wet mirrorlike finish that outshines chrome. This outstanding polish makes chrome, copper, brass, aluminum, stainless steel and other metalwork gleam and look their absolute best. Spreads on with ease, buffs off with little effort. Great for oxidized metals and even light rust. Can be easily applied in the shade or sun. Leaves virtually no smear, dust, or powder. The most innovative metal polish ever. A 3 step product in one, this diminishing metal polish cuts fast, cleans like no other, shines like a mirror and protects like a sealant. Utilizing friction and heat OER® Extreme Shine Metal Polish cleans, restores, revives and polishes. Friction generates heat that allows the product to break down into a micro-fine polish that leaves the surface shining like a mirror. During the final phase, it breaks down to release the durable protective sealant that bonds to metal surfaces reducing corrosion and prolonging shine. Use by hand with a polisher or with your polish ball and drill. **⚠️**

OER® "Secret Formula" Wheel and Tire Care

Over the years, OER® has become the name that you have come to trust for quality restoration products. We are dedicated to bringing our valued customers the absolute best products our industry has to offer. When it comes to car care, our "Secret Formula" products are no exception! We know you have a lot invested in your classic car, so we have formulated products that not only perform at a level unmatched by any other brand, but a formula that keeps your investment in mind. Our formulas are engineered not only to keep your pride and joy looking good, but also to protect your vehicle's delicate surfaces from the elements without the use of harsh damaging chemicals.

OER® Acid Free Wheel and Tire Cleaner

Spray-on and rinse-off! Easily removes deposits of brake dust, grease, and road grime from wheels. Safe for clear coated, painted, and polished finishes. This strong non-acid formula is fortified with a citrus cleaning agent. This is an industrial strength 1:1 concentrate. Dilute with water as needed. Long time accumulations of brake dust may need light agitation with a soft brush. Unlike many alternative products, OER® Acid Free Wheel Cleaner dissolves grime and brake dust without damaging your chrome and alloy wheels. Non-acidic, spray-on wipe-off formula with no scrubbing necessary and no harsh scent. **⚠️**

K89614 32 oz. bottle..... 16.99 ea
K89615 1 gallon..... 24.99 ea

OER® Secret Formula Wheel Wax

OER® Secret Formula Wheel Wax is formulated to safely and effortlessly clean, shine, protect and prolong all types of wheels and wheel finishes. Wheel Wax delivers a high gloss, durable wet shine finish on all chrome, aluminum, stainless, powder coated, and even painted wheels. Clean, polish, shine, protect, and prolong in one easy step. Extremely easy to use and apply, utilizing accurate micro-size synthetic beads that gently and effortlessly lift and polish away oxidation and road film from wheels to guarantee a scratch free perfect surface. Wheel Wax not only enhances shine, it protects your investment. Harmful degreasers and acids can damage wheels reducing shine and causing premature oxidation and deterioration of wheel. Wheel Wax is an acrylic sealant that bonds instantly to protect against brake dust, heat, acid, road, water spots, airborne fallout, and road contaminants. **⚠️**

K89486 8 oz. jar..... 16.99 ea

OER® TNT Extended Life Tire & Trim Dressing

This unique formula quickly penetrates rubber trim and tires to hydrate and provide lasting protection. TNT Extended Life gel by OER® finally delivers on that promise. Simply wipe on using a pad and TNT gel restores the look of faded tires, trim, bumpers, seals and weatherstrip. What's more, OER® TNT gel lasts for many months, not days. Our exclusive no-streak, no-run, and non-drip formula works to repel water and detergents and helps keep tire walls hydrated and supple as well as looking brand spanking new. Prepare your trim for a product unlike any other. A true premium trim restorer and protectant, that will not drip, dry out, or destroy surfaces. Provides unmatched durability, ease of application and a superior "new look" shine that lasts through numerous washes. Non-greasy, non-tacky and simply amazing. **⚠️**

Professional Car Care Products For The Enthusiast!

Grit Guard Wash System 

This unique wash bucket provides a convenient way to store or transport all of your car cleaning supplies while doubling as an extremely effective finish protecting wash tool. The Grit Guard insert sits in the bottom of the pail to attract particles and contaminants from mitts and brushes. Gravity causes sand and dirt to settle below the guard so the wash water stays clean and scratch free.

Basic Wash System

The basic wash system includes a black pail with a yellow sealing lid and a Grit Guard insert.

K89740 3.5 gallon..... 28.99 ea

Buffing Pad Wash Bucket

When you hand wash pads, the backing pad gets wet, oversaturating the foam. The universal pad washer keeps the backing pads dry and extends the life of your pads. No more throwing away perfectly good pads because the backing pad has torn off. Your buffing pads, buffing bonnets, polishing tools and accessories clean up so well you'll think they're new! Condition, clean, and dry all in one system.

The universal pad washer extracts contaminants trapped deep inside your buffing pads. No cross contamination worries when switching buffing compounds. O-ring seal lid provides water tight portability. Wash and dry in under 30 seconds!

Includes a manufacturer's limited lifetime warranty. Buy one for each of your vehicles.

ACP101 Park Smart Mat..... 21.99 ea

Trailer Ramps

Is your trailer door too steep to get your vehicle to the race track or autocross? Are you tired of busing up your nose? Race Ramps has just the solution for you: simply place the trailer door on the notch of these specially designed trailer and decrease your angle of approach to as little as 4 degrees. These hassle free, lightweight ramps work for vehicles weighing up to 6000 pounds. Trailer ramps are ideal for low ground clearance vehicles with extra wide tires.

Note: For increased safety, use Wheel Chocks with all Race Ramp products.

RR104 5"..... 411.99 pr
RR105 8"..... 410.99 pr

Wheel Chocks

Wheel Chocks are ideal for use with all Race Ramp products, providing additional safety in the working environment. Made from solid rubber composite with an extra grip bottom, they each weigh 3 pounds. Set of 4.

Note: For increased safety, use Wheel Chocks with all Race Ramp products.

RR109 6" x 4" x 5"..... 75.99 set

Wheel Cribs

Wheel Cribs are a safe, lightweight alternative to jack stands. They cradle the tire 10" off the ground, providing unobstructed access underneath the vehicle. Each crib supports 1500 pounds (3000 pounds per set) and weighs only 5 pounds. Wheel Cribs also can be used for vehicle display.

Note: For increased safety, use Wheel Chocks with all Race Ramp products.

RR108 15" x 10" x 12"..... 169.99 pr

Roll-Ups

Designed to be used in conjunction with 56" or 67" Race Ramps, Roll-Ups raise the opposite end of the vehicle up 4", allowing even more working room under the vehicle. Roll-Ups can also raise the front or rear of the vehicle to allow the use of a standard floor jack. Roll-Ups are 14" wide work with tires up to 12" wide.

Note: For increased safety, use Wheel Chocks with all Race Ramp products.

RR106 10.79 degree incline..... 194.99 pr

Race Ramps

Race Ramps are ideal for vehicles with tires up to 10" wide. With an incline of only 10.75 degrees, they lift your vehicle up 8" or 10" and hold up to 3000 pounds per set while weighing only 10 pounds per ramp. Will not slide across a garage floor, dig into an asphalt driveway, or scratch or otherwise damage a cement or painted floor. They can be used on grass, dirt, or almost any other flat surface, and they will never rust. Race Ramps come complete with straps for easy carrying and storage.

Note: For increased safety, use Wheel Chocks with all Race Ramp products. *Shipped oversized.

Spray-On Insulation

Buy the Complete Set & Save!

BEFORE APPLICATION

AFTER APPLICATION

Shared Benefits:

- Easy spray-on application
- Continuous protective moisture barrier
- Fast clean up with soap and water
- Environmentally friendly solution
- Applicable to interior or exterior of vehicle
- Non-toxic and class A fire rated
- Both are paintable
- Coverage is approximately 50 ft²/2 gallons

Sound Control Benefits:

- Provides non-combustible thermal insulation
- Able to withstand temperatures up to 500 degrees F
- Interior temperature reduced by 30 degrees F
- Offers a protective, seamless membrane

Ceramic Insulation Benefits:

- Protects surface from moisture and rust
- Dampens annoying rattles, vibrations and road noise
- Impressive damping to weight ratio
- Coating can withstand temperatures up to 300 degrees F

Sound Control and Ceramic Insulation

Get the comfort of premium grade insulation without the extra weight! These environmentally safe formulas from LizardSkin can be used as a one part coating or as a two stage system for a cooler, quieter driving experience. The Sound Control formula dampens unwanted engine and road and noise, while the Ceramic Insulation formula cools your vehicle up to 30 degree F or more creating a more comfortable ride. Designed for floors, roofs, firewalls, fenders, transmission tunnels, door panels, trunks, and more, all at a combined cured weight of 52 lbs for four gallons. Insulating a vehicle has never been this easy, thanks to a custom designed application gun made specifically to handle the thick density of the coatings with ease. Order the individual components or buy a complete kit and save!

Important: For two stage applications, Sound Control coating should be used as the base. Four gallons of each coating are required to encapsulate a typical interior and trunk area of 1 vehicle, and 1 gallon of Sound Control when applied as undercoating.

OER® Rust Removal & Prevention

Remove Rust

OER® Dissolve Rust

OER® Chemical Restoration Dissolve Rust returns rusted surfaces to bare metal without harming the integrity of the metal. The viscous formula is reusable and will not harm plastic, rubber, seal, soft metals, or non-oxide coatings such as paint and chrome. OER® Chemical Restoration Dissolve Rust works like an acid, but is safe for you and the environment. OER® Chemical Restoration Dissolve Rust is ideal for removing rust from any part or surface that can remain damp with the product until the rust is gone!

K86110 quart..... 19.99 ea

Dissolve

■ **OER® Dissolve Rust** removes rust leaving a bare metal surface.

Treat Rust

OER® Etch Metal

OER® Chemical Restoration Etch Metal inhibits rust and promotes paint adhesion for bare metal surfaces. This specially formulated liquid gently etches the metal, then leaves a zinc coating that helps chemically bind paint to the metal. OER® Chemical Restoration Etch Metal is non-toxic, non-flammable and reusable. Ideal for application on bare metal parts after sandblasting or using OER® Chemical Restoration Dissolve Rust.

K86114 quart..... 16.99 ea

Etch

■ **OER® Etch Metal** removes light surface rust and leaves a coating that bonds paint to the metal surface.

Convert Rust

OER® Convert Rust

OER® Chemical Restoration Convert Rust instantly neutralizes rust and converts the rusted surface, leaving a protective dark polymer coating. The inert coating provides an excellent primer base that seals out moisture to prevent future rust and corrosion. Protected surface can then be top coated with most paints. OER® Chemical Restoration Convert Rust can be applied with a brush, trigger bottle or a spray gun. Brush - A common household paint brush or foam applicator. Spray Gun - HVLP or conventional spray gun using a 1.0-1.4 nozzle at low pressure. Available in quart bottles.

K86112 quart..... 35.99 ea

Convert

■ **OER® Convert Rust** turns rust into a black, paintable polymeric coating that's ready for primer or top coat.

RustSeal® Corrosion Barrier Coating

OER® Authorized RustSeal is a superior one part, ready-to-use, high-solids content, rust preventive, corrosion barrier coating, that is actually hardened by exposure to moisture. It is impervious to road salts and most every chemical. RustSeal flows out to a beautiful, rock-hard, tough ceramic-like coating that is tough to chip or scratch, and will not crack or peel. RustSeal is an incredible, single component, ready-to-use, high solids content, rust preventive coating with exceptional sealing properties. RustSeal is the most permanent cost effective solution for stopping rust and corrosion anywhere where it is a problem: home, automotive, industry, fleet, farm, and more! RustSeal is an enhancement that lasts. Water and air are locked out, therefore oxidation, the precursor to rust, cannot take hold. RustSeal is not intended for use as a final finish. To protect against unwanted cosmetic changes, top coat RustSeal with any opaque (solid color) paint system. After removing or treating rust on floors, subframes, or other under vehicle components, RustSeal Corrosion Barrier Coating works by isolating the surface from moisture and oxygen. This single component, high solids, rust stopping coating seals out the ultimate causes of rust, creating a rock hard non-porous barrier between the metal and rust promoting elements. Will not crack, chip, flake, or peel, and no hardeners or activators are needed. RustSeal is completely unaffected by salt, gasoline, oils, battery acids, hydraulic fluids, solvents, chemicals, or corrosives.

RustSeal® Coating

Available in your choice of a wide variety of colors and sizes. Select the part number for the size of the can you need, then add the 2-digit numerical color code to the end of the part number to specify your desired color when ordering.

Rust Removal & Prevention

BlackTop® Top Coat

BlackTop is a permanent, moisture cured, UV stable coating primarily used for top coating surfaces previously sealed with RustSeal® or any other paint/primer application. BlackTop is a high-performance protective coating specifically formulated to withstand dulling and fading caused by prolonged sunlight exposure. BlackTop may be used alone as a resilient coating but offers the ultimate rust protection when used in combination with the RustSeal corrosion barrier coating as step 1. For the best top rust and ultraviolet protection, first apply RustSeal to permanently seal the surface and then top coat with BlackTop for an incredibly tough and professional looking finish. Like RustSeal, BlackTop dries to a rock hard yet flexible coating that can be readily applied to chassis, coil springs, and lightweight panels. BlackTop also has high heat resistance and can be applied to almost all automotive applications except exhaust systems. BlackTop is intended as a final finish for parts that have been coated with RustSeal. BlackTop will retain its color and sheen even after repeated or prolonged exposure to direct UV light and will not degrade.

with Diamond Finish

DiamondFinish® Clear Coat

DiamondFinish® Gloss Clear Top Coat is a permanent, moisture cured, UV stable coating primarily used for top coating surfaces previously sealed with RustSeal®, for top coating directly to metal, or to coat over any other paint/primer application. The clear coat formula can be applied directly to metal or over other coatings. This high gloss clear coat remains permanently flexible and is able to perform in the toughest environments without yellowing, cracking, or peeling. Apply directly to painted surfaces with minimal surface prep. Incredibly tough and hard like no other clear coat on the market. Can be applied with a brush (without leaving any brush marks), roller and conventional spray gun. Unlike two part coatings, no hardener is needed with DiamondFinish®, just stir and go. DiamondFinish® clear coat will cure without heat or UV lights in temperatures from 50 to 86 degrees Fahrenheit. Able to withstand the harshest of chemicals including fuels, solvents, battery acid, brake fluid, Ethanol, Methanol, MEK, Hydrochloric Acid, fertilizers, and Acetone. Graffiti resistant: because of its chemical resistance, graffiti just won't stick and can be removed simply with a solvent soaked rag. Great for high temperature automotive applications including the use on cylinder heads, engine blocks, brake components and even inlet manifolds, without yellowing up to 300 degree Fahrenheit.

Water Based and Solvent Based Undercoating

Whether you choose our water based or solvent based undercoat formulas, each produces a very tough, yet flexible film with excellent adhesion, and helps prevent road salt from eating away at your vehicle's metal and/or fiberglass. Offers excellent adhesion to metal or painted surfaces. Provides economical paintable durability, plus moisture resistance and corrosion resistance, all in a matte black finish. Also provides sound deadening by reducing road noise and vibration. You can attach the quart size can directly to a Schultz applicator type spray gun or contents may be poured into a clean container pot that fits the applicator gun of your choice. Part #2018 undercoat gun is offered separately.

Water Based Asphalt Undercoat - Non-Paintable

Our VOC friendly, water based undercoating provides protection in wheel wells, gas tanks, frames, and floor pans. Being an asphalt base, it is not designed to be painted over. Dry to touch in one hour, fully cures in 24 hours. Excess coating may be removed with soap and water.

KB78400	one quart	covers up to 25 square feet	22.99 ea

OER® Aerosol Coatings

Notes Apply to All OER® Spray Cans

Important: Due to variances in factory vinyl material, paint could have up to a 10% variation color difference from original.

Note: Shipped within the continental U.S. only. Shipped ground only.

OER® Premium Quality Aerosol Interior Paint

OER's revolutionary formula provides 40% more coverage than standard dyes and lacquers, and actually penetrates and molecularly bonds to the surface to permanently seal in the color. Dries to the touch in 45 seconds, forms a complete bond in just 10 minutes. UV stable and color fast, it will not crack, flake, or peel. For use on vinyl, leather, ABS plastic, polycarbonate, polypropylene, polyurethane, acrylic, lexan, fiberglass, and recycled plastics. When only the best will do, use OER's Premium Quality Interior Paint. Available in your choice of a convenient 16 oz. aerosol can (net wt. 12 oz.) or for bigger jobs where a spray gun is required, we offer quart cans.

OER® AEROSOL COATINGS

OER® Aerosol Coatings

OER® Rubberized Undercoating

A black, rubberized undercoating for all automobile under surfaces. Sprays evenly and dries completely to a smooth consistency. Can be top coated with any type of automotive finish. Prevents rust, reduces road noise, seals out water, fumes, road chemicals, and dust. Special formula greatly reduces lingering odor associated with most other brands of undercoating. No "bleed through" when top coated. Use on undersides of panels, hoods and deck lids, trunk interiors, section repairs, weld joints, rust holes, or on chassis parts. Use on aerodynamic (net wt. 18 oz.) or buy a case and save!

Note: Ships ground only. No air shipment.

OER® Spray Galvanizing Weld-Thru™ Coating

A smooth, cold galvanizing compound that chemically fuses to bare steel and forms a extremely rust resistant barrier. Perfect for application on the inside of newly installed panels where rust prevention of new metal is important, but where the part treated will not be painted. Fast dry, sag free spray that is abrasion resistant. Stops rust creepage, resists chemicals and is rust inhibitive. Apply it to sheet metal pieces before installation, then weld as usual. The coating will not affect the quality of the weld, and will retain its rust preventative properties. Available in a 16 oz. aerosol can (net wt. 12 oz.) or buy the case of six cans and save!

Individual 16 oz. Aerosol Can (Net Weight 12 oz.)

OER® Aerosol Coatings

OER® Factory Wheel Coating

OER® factory wheel coatings are available in a variety of original colors so you can achieve the correct factory look on the restoration of your wheels. Eliminates the need for expensive custom paint mixing and greatly simplifies the restoration process by providing spray gun results without the hassle and mess of a spray gun or the need for an air compressor.

Note: Ships ground only. No air shipment.

Rally Wheel Argent Silver

Correct color and sheen for the restoration of Rally I, Rally II, and Super Sport wheels. Makes your wheels look like they just rolled out of the factory.

K89320 16 oz. aerosol can (net wt. 12 oz.) 19.99 ea
K89321 case of six cans 89.99 cs

Low Luster Gray Wheel Paint

Correct color and sheen for the restoration of Rally, Super Sport, Honeycomb, and Z28 5-spoke mag wheels that call for a unique shade of gray. This gray was used on the backside and in some cases both sides of steel factory sport wheels. Can also be used on jack mechanism and jack base on some models.

K89410 16 oz. aerosol can (net wt. 12 oz.) 19.99 ea
K89411 case of six cans 89.99 cs

Charcoal Gray Metallic

Charcoal gray metallic paint for the restoration of the pie-shaped wheel insert area on Rally II wheels. Correct color, tone, and luster for a factory fresh appearance.

K89330 16 oz. aerosol can (net wt. 12 oz.) 19.99 ea
K89331 case of six cans 89.99 cs

Z28 5-Spoke Mag Wheel Paint - Shadow Gray

Correct color, sheen and texture for the restoration of 1970-81 Z28 5-spoke mag wheels also known as "Trans Am", "high-performance" or "5-spoke Rally" wheels. Correct for 1970 Chevelle and El Camino 5-spoke factory wheels as well.

K89310 16 oz. aerosol can (net wt. 12 oz.) 19.99 ea
K89311 case of six cans 89.99 cs

OER® Trunk Spatter Paint

Restoration grade spatter paint for the discriminating restorer who wants to accurately replicate the original texture and finish in their trunk. Produced by the original manufacturer for an authentic texture and color match. These water soluble paints are designed to be applied with a paint gun and do not require a clear coat. One quart required per vehicle. Includes instructions.

Important: Originally applied trunk spatter paint with a Binks 2100 gun with a 200 tip and a 66 flaut nozzle with an internal mix air cap.

K86130 quart black and aqua 109.99 ea
K86131 quart gray and white 109.99 ea

OER® Underhood Detail Paint

The perfect alternative to

expensive zinc phosphate plating. A variety of choices are available to correctly refinish underhood items such as hood hinges, hood latch and safety catch, carbs, pulleys, linkage, nuts, bolts, brackets, clips, screws, and more with a durable flat or non-gloss finish that mimics the appearance of zinc phosphate plating.

16 oz. aerosol can (net wt. 12 oz.) 19.99 ea

REGAL Restoration Tools

Multi Wedge Prying and Scraping Tools

Multi Wedge is an amazing automotive restoration tool that will replace screwdrivers, pry bars and all other metal tools that can cause damage and mar to delicate surfaces! The soft, orange wedge set and the jumbo wedge are made from a high tech, specially blended polyethylene that is incredibly ductile so they won't break or snap. The hard, black wedge set is made from a high tech, specially blended polycarbonate for the heavy-duty jobs like oil pan covers, timing covers or valve covers. Each 3 piece set includes one 4" curved end, one 4" straight blade and one 3" straight blade. Buy both sets and save! The jumbo wedge is 14" in length and 2" wide, making it perfect for the big jobs.

T2300M (7 piece)

T2302

Soft Duty - Delicate prying or wedging
Medium Duty - Sturdy prying or wedging
Heavy-Duty - Very strong and durable

Prying and Scraping Tools

Available in 3 different fiberglass reinforced plastics, the soft duty tools are good for jobs where a minimum amount of force is needed to remove objects. The medium duty tools are better for the objects that require a little more force to remove, and the heavy-duty tools are for the objects that are real stubborn and just do not want to be separated from their current position. All these tools are strong enough to pry yet soft enough to do interior and exterior automotive jobs without the damage that metal tools can do.

Glass Molding Clip Installing Tool

Reduce the risk of chipped glass and scratches by using this handy tool for replacing your front or rear window glass moldings. This tool is specifically designed to fit trim clips over the studs and virtually eliminates glass breakage.

A13574 34.99 ea

Glass Seal Rope-in Tool

Use the rope in tool when working with rubber gasket set glass. The unique counter grip plastic handle injects the rope through its stem as it is pulled around the gasket. There is plenty of enough durable rope to fit around even the largest truck window.

153813 19.99 ea

Seam Strip Caulk

This seam sealer also known as strip caulk can be used to adhere a variety of parts; air ducts, body openings, door panels water shields, emblems, fenders, floor plugs, kick panels, fuel tank, filler neck, firewall openings, heater box, quarter trim panel water shields, seat mounts, valance, and window moldings. Five 13 ft. roll x .19" thick beads.

B11608 13 ft. roll 5 x .19" beads 22.99 ea

Don't forget the weatherstrip adhesive!
Classic Industries® recommends 3M brand adhesive for all your weatherstrip needs!

3M Super Weatherstrip Adhesive

A black colored adhesive used for bonding and sealing weatherstripping to trunk and doors. An excellent general purpose adhesive which is fast drying, waterproof, flexible (rubbery). Also resists oil, grease, and solvents.

08008 5 oz. tube black..... 12.99 ea
 08001 5 oz. tube yellow..... 11.99 ea

Weatherstrip Application Lubricant

Precisions' weatherstrip lubricant significantly reduces friction, thereby reducing the installation force required to assemble parts and fittings. This is a non-residue lubricant, once it dries it becomes invisible.

LED7 Projector Headlamps

Dapper Lighting 7" LED projector headlamps provide the classic look while substantially upgrading the quality and spread of light. These replacement bulbs feature OE style glass lenses, Bi-LED projectors, and a slim flat base design (3.2" deep without bulb).

These features eliminate the extra wiring and bucket modifications associated with HID lighting. They offer a quick and clean install and a significant increase in performance, reliability, and safety. Available with chrome or black housings and with or without halos. The halos are available in solid, dashed, and HDR styles.

Note: RGB halos require a controller sold separately.

Rectangular Headlamps with LED Halo

RedLine LumTronix headlamps allow 50% more light to shine through thanks to their crystal clear lenses and a special side link that extends past the retaining ring. This side lens is a true safety innovation and was designed to provide additional side light and increase visibility. Each headlamp features a Euro style diamond cut reflective base, diamond crystal glass, and a heat resistant composite housing. Headlamps are available with either a single color halo (white) or multi-color halo (with 16 selectable colors plus the ability to adjust brightness), and blue H4 Halogen bulbs. The halo or "Angel Eyes" can also be wired as a daytime running lamp and features 23 low temp LEDs with a 100,000+ hour life, along with "fade", "flash", "strobe", and "smooth" modes that you can choose with the included wireless remote. Headlamps plug directly into your stock harness for a simple and easy installation. Each pair includes: 2 headlamps, 2 bulbs, dust boots, ceramic tip pigtail harness adapter, and instructions. Multi-color halo sets also include the RGB harness and wireless remote.

Important: Will fit most vehicles (cars, trucks, motorcycles, and motor homes) that use a universal rectangular style headlight. **Note:** Blue Halogen bulbs are blue in color when off, and bright white when on (no blue tint).

H4 LED Headlight Bulbs

Upgrade your stock Halogen bulbs with a pair of premium LED headlight bulbs from RedLine LumTronix. With a 50,000 hour lifespan, you won't have to change the bulbs as frequently, meaning you'll spend more time on the road than in the garage. Each bulb is 300% brighter than your stock Halogen bulbs as well as a direct-fit, "Plug and Play" upgrade that requires no modification to your electrical wiring. LED bulbs include colored film to change the look and temperature color of your lights.

Shallow 7" LED Headlamps

JW Speaker Model 8730 Shallow 7" round LED Headlight will effectively light your way during the night and enable safe driving while giving your vehicle a signature look. They are designed to fit in vehicles that are tight on space and require a shorter depth than standard headlights. Dual Burn® technology combines high and low beam when turning on your high beam for an extra punch of light down the road while maintaining the widespread of the low beam. ComfortLite® technology provides a more powerful punch down the road but also delivers additional illumination above the horizon.

Holley

Features:

- "Plug & Play" - Plugs into factory headlight harness for easy installation
- Superior - Over 2X the light output of Halogens to keep you and your classic safe
- Low Draw/Extended Life - Less current draw and 6X the life of Halogen sealed beams
- Stronger - UV Treated Polycarbonate Lens won't shatter and is 10X stronger than glass or standard plastic

RetroBright LED Headlight

Holley RetroBright LED Headlights offer a number of advantages over traditional sealed beam headlights such as "Plug and Play" compatibility, better visibility, and 6 times longer life. LED bulbs take up less space, create far less heat, and use less power than other headlights.

The low profile housing design fits most shallow headlight buckets found on classic cars without the hassle of cutting or drilling. Euro yellow lens utilizes 5700K bulb inside. "Classic White" (3000K bulb) for a warm classic hue. "Modern White" (5700K bulb) for a clean modern look. Sold individually.

PAINLESS

Halogen Headlamp Harness

To get maximum power from your headlights, it is recommended to have the shortest possible distance between the power source and the bulbs. Resistance in small gauge wire or in the switch will lower the output at the lamp. Our headlamp harnesses draw power directly from the battery, through a relay, to the headlamps, providing full power to your H4 conversion headlamps or Halogen sealed beams. They are made with TXL high temp wire, weather resistant 30 amp fuse, and two 40 amp weather resistant relays capable of handling up to 150 watts.

Headlamp Wiring Harness Upgrade

Redline Lumtrox wire harness kit upgrades the stock headlamp wiring on your vehicle to provide your new bulbs with maximum power and decrease the chance of overloading the stock wiring and connectors. Power will be drawn directly from your battery, eliminating voltage drops and ensuring headlamp system reliability. The upgrade kit installs easily in 5-10 minutes without any cutting or splicing. Simply plug into your factory headlamp sockets, attach positive connectors to battery terminal and ground wires to the body of your vehicle. Two 30 amp relays provide added protection for your headlamp switch and wiring harness.

Adjustable Hood Prop

Constructed of high-quality aluminum and stainless steel, these adjustable hood props offer great looks as well as functionality on your ride. When the hood is raised, the hood prop will automatically lock itself into position. A quick release allows the hood to be opened to its max for easy engine access. There are two versions of this hood prop, a three position and a six position. This will allow the hood to be set at various levels without unsightly objects holding it up. Each level of the six position prop increases the opening of the hood by approximately 6". Each level of the three level prop increases the opening of the hood by approximately 12". They also work great for cooling your engine in the staging lanes.

Clinched Fender Flares

Add an aggressive, wide body look to your muscle car with clinched flares universal fender flare sets. These versatile flares can be installed on most makes and models with minor modifications. Flares are made from automotive grade, impact resistant 3mm ABS plastic for great looks and durability. Each set includes: 1 pair of flares, rubber gaskets, and type 3 installation hardware. Flares can be blended in with your fenders or left off when open. Available in a variety of styles and sizes to suit any virtually any build.

Note: Installs with rivets/bolts and will require drilling/cutting of the fender/quarter panels in order to install. Lowered suspension and wider wheels are suggested to achieve the right stance. Dimensions are approximate.

Classic Style

Classic style features "pointy" tips and work very well not just on the classics but also on the more modern cars where the owners are going for a more subtle look.

1981-87 Complete Lock Set

This comprehensive set will allow you to replace all the major lock cylinders (ignition, doors, trunk and glove box). Each set is a convenient and easy way of replacing your original locks without going through the trouble of taking your cylinders to a locksmith for re-keying. Available with bright or black face finish.

Note: T-tops models have their own pair of locks and keys, sold separately. Sets use one square key that opens all 3 cylinders.

Shaved Doors - Emergency Entry

Installing shaved doors? You'll need a way to get into your ride if the power fails. Electric-Life billet emergency kit are just what you need. Just connect the end of the cable to the door lock, pass the cable through the door, through the post, and exit through the fender well or the floorboard. Then attach the billet pull knob and you've got a way to enter your vehicle no matter what.

1978-87 Two Door Power Window Conversion Set

Electric-Life power window conversion sets are the best way to bring power window convenience to your vehicle! They completely replace the manual units for a fit and finish just like the original equipment. They use OEM style regulators and motors to completely replace the original crank handle, and their large, powerful motors fit completely inside the door panel to provide a "factory" finish. They conform to ISO 9002 specifications for quality and they bolt right in, with no extensive modifications needed to install them. Wiring set includes one dual and one single GM style switch, "Plug and Play" wiring harness, and instructions.

Double-End Spotweld Cutter

Double-end spotweld cutters make removing body panels fast and easy. Their hollow design cuts around the spotweld so weld hardness does not affect tool sharpness. When one end becomes dull, simply unscrew the cutter and flip it over using the new teeth on the other end. An adjustable depth rod sets the tool so only the outer panel is cut, leaving the underlying panel undamaged.

Holcutter

Produce holes 3 times faster and cleaner than hole saws in sheet metal up to 1/8" thick and have dramatically extended tool life. Holcutters produce holes from 1/16" up to 3" diameter in sheet metal, rubber, gasket or fiber materials, and some plastics. Ideal for aftermarket installations, custom fabrication, trailers, or gauge installation. Arbor fits 3/8" drill chucks. Holcutters have a new, patented Quad-Lead Thread System for quick cutter changes. Buy the set and save! Holcutter set includes: arbor, Hex washer, extra pilot, and the following sizes of cutters, 7/8", 1-1/8", 1-1/4", 1-3/8", 1-3/4", 2", and 2-1/2".

Note: D.O.C. = depth of cut. Arbors and cutters sold separately.

Rotabroach Cutter Set

Rotabroach annular cutters are ideal for sheet metal fabrication, painless dent removal and for cutting rustproofing access holes without clogging. Unlike hole saws and twist drills that push and tear through materials, these cutters will make hundreds of holes in steel, sheet metal or plastics up to 1/2" thick with no deforming of stock, jagged edges or out-of-round holes. Arbors for Rotabroach cutters fit 3/8" and 1/2" handled drill chucks and use either spring loaded pilots or skip proof pilots which eliminate predrilling operations. Each set includes: arbor, Hex wrench, center punch, extra pilot, and a variety of cutters as listed.

Note: D.O.C. = depth of cut. Arbors and cutters sold separately.

Premium Spotweld Cutters

When you have a lot of spotwelds to remove, step up to the premium spotweld cutters for longer life in today's high strength body steels. These cutters lift a heavier wall (.090") for extreme durability and two step geometry that splits the chips and helps clear them. Premium spotweld cutters have a fast cutting action and lasts for hundreds of spotwelds. They are for use in 3/8" or larger drill chucks. The spotweld cutters are available individually or in sets containing arbor, 3 cutters, your choice of 2 skip proof or 2 standard pilots.

Stick Lubricant

Ideal for all Blair hole cutters. Softer than standard stick lubricants, it provides superior adhesion to the tool and can be used in place of cutting fluids on ferrous and non-ferrous metals to increase tool life, improve cutting performance and ease slug removal.

11750 1.68 oz. 5.99 ea

REGAL Body Tools

The Filler Detective!

The Filler Detective will find hidden body damage and body filler on a car, truck, or motorcycle. It will tell you where body filler is and how deep it is. This simple one-button tool lights up and sounds when it detects body filler and features a visual alert with bright, daylight visible LEDs. The meter doesn't miss and it indicates exactly where the body filler is and includes a test plate to confirm accuracy. Never again wonder whether or not a vehicle has been in a wreck! The Filler Detective solves the mystery every time. 

FDA0100 red..... 79.99 ea

EZ Rest Door Hanger

The EZ Rest door hanger enables a single person to quickly remove and/or install vehicle doors. The padded, removable side rails and plastic, ribbed base inserts allow for accurate positioning of the door. The easy on/off design quickly adapts to most floor jacks with a removable saddle and 30mm (1.18") diameter saddle hole.

Note: Floor jack is not included.

S21870 169.99 ea

Door Spring Tool

Compresses spring for easy safe removal. Slides safely over spring. Constructed of heat treated, high carbon steel.

S21900 24.99 ea

Door Hinge Adjuster Tool

You can now easily adjust the hinges without the aggravation of trying to align by eyesight with this handy tool. Specifically designed to help adjust the hinges so they help to align the door.

Y65800 59.99 ea

Door Bushing Tool

If you've ever tried removing a door hinge bushing with just a regular punch, you know it's a hassle. Luckily, now there's the specially designed door bushing tool. Its special design makes it easy to punch out bushings and align bushings when reinstalling. Offset design allows for easy access to all door hinges. Super tough alloy steel construction.

S21825 19.99 ea

Door Aligning Bar

Finally, a convenient door aligning tool that will fit in your tool drawer! Features a Hex stub to use with a breaker bar and socket for additional leverage.

S21845 44.99 ea

Pro Paint Gauge

The Pro Gauge is a device which measures paint thickness. Factory paint is usually 4-5 mils in thickness. By using the Pro Gauge you can determine if the vehicle has been repainted. For instance, you can take measurements of about 4.5 mil around the vehicle but the hood may read seven mils on the Pro Gauge. That tells you the hood has been repainted.

PG2437 84.99 ea

Eliminator Rust Remover

Before touching up paint, you first must remove all rust, wax and dirt or the rust will return and the paint won't adhere. This unique tool will scrub away all dirt, rust and wax. The results are touch up paint adheres, seals and blends smoothly into the rest of the paint.

E3437 9.99 ea

Spot Weld Chisel

Chisel tool to separate panels after the spot weld has been drilled out. Drive the blade with a hammer from the end or the side through the panel seal. Panels are separated without damage. The blade is sharpened on three sides, and offset for clearance.

Note: The sharpened edges will wear with use. Resharpen on a grinding wheel.

Y51900 15.99 ea

Body Dent Removal Tools

The pull rod set includes: 4 pull rods with formed shank, 2 pick pulls with straight shank, straight edge, and HS split point drill bit.

S20000 pull rods..... 44.99 set

Cleco Sheet Metal Fastener Kit

Everything you need to secure sheet metal panels during the fit and alignment stage. The pliers can be used with all standard spring loaded fasteners and clamps. The kit contains: one pair of Cleco pliers, twenty-five 1/8" Kwik-Lok clecos and four side grip fastener clamps. Also available are individual components so you can add to your kit as necessary.

REGAL Power Steering

1973-87 Power Steering Pump

These economical service replacement pumps for 1973-87 Regal models, are thoroughly reconditioned, and carefully remanufactured! The replacement reservoirs may be cosmetically different than the original. For example, a pump that was originally equipped with a "banjo style" reservoir, may include an "A Style" reservoir due to short supply of rebuildable cores. If functionality is more important to you than original cosmetic appearance, these remanufactured units are an extremely good value. Cap, nut, and pulley are not included. These units are priced outright, meaning the core charge is built into the price. For that reason, it is not necessary to return your original core.

NO CORE CHARGE!

Note: *With one return line. **With two return lines. †With 1 mounting hole in reservoir. ††With 2 mounting holes/ studs in reservoir.

1973-87 OE Style Power Steering Pump

Thoroughly remanufactured, these OER* Authorized pumps are carefully inspected and meticulously restored to OEM appearance and function! Reservoirs are reconditioned GM parts in the exact original configuration for complete authenticity! Careful attention is paid to reservoir reconditioning to ensure an authentic appearance. This is a good choice for restorations when an original appearance and superior quality is desired. Cap, nut, and pulley are not included. These units are priced outright, meaning the core charge is built into the price. For that reason, it is not necessary to return your original core.

NO CORE CHARGE!

Note: Cap, nut, and pulley are not included. *With 1 mounting hole in reservoir. **With 2 mounting holes/ studs in reservoir.

REGAL Power Steering

1973-87 Power Steering Pressure/Return Line

Replacing the worn out or leaking hoses can eliminate problems with the entire power steering system. Protect your power steering parts by replacing the line. A leak in your power steering system can lead to a very serious and possibly dangerous situation. Leaking hoses can cause a loss of steering. Replace your worn out or cracked power steering hoses before big problems occur. The pressure hose connects from the power steering pump to the control valve/gear inlet. The return hose connects from the control valve/gear outlet to the power steering pump.

Note: All power steering return lines are cut-to-fit.

1978-87 Bump Steer Adjuster Set

1978-87 Regal bump steer set is designed to reduce or eliminate toe change during suspension travel (also known as "bump steer"). Reduction of bump steer improves handling and straight line stability and enhances overall precision of the steering system. These direct-bolt-in sets allow the builder to relocate the outer tie rod end lower than stock (or higher if necessary).

1987-87 Tubular Upper Control Arms

The Detroit Speed upper control arms are a bolt on enhancement for 1978-87 Regal models. Suspension geometry is improved over stock by increasing camber gain and improving roll center. The control arms have CNC stainless steel cross shafts which incorporate DSE's "Caster Tuner Bushings". These aluminum bushings adjust caster without adding alignment shims. This unique caster adjustment design is engineered to be precise and permanent. The DSE-designed bushings are greasable aluminum/Delrin bushings for increased stiffness over stock. This provides more consistent and precise handling. The arms are powder coated gloss black and are assembled with ball joints. Two sets of "Caster Tuner Bushings" are included. Made in USA.

Emissions Note: Ⓢ Non-emissions (50 state legal).

D30107 1978-87 799.99 pr

1978-87 Tubular Lower Control Arms

Detroit Speed lower control arms are a bolt on enhancement for 1978-87 Regal. These tubular lower control arms include low ball joints, steering stops, and are ready-to-install on your vehicle. Features include a robust tubular design with gussets and cross brace, Delrin bushings with steel housings and cross tubes, and a black powder coated finish. Made in USA.

Emissions Note: Ⓢ Non-emissions (50 state legal).

1978-87 Tubular Control Arms

CPP's quality upper and lower tubular control arms are welded for maximum strength and visual impact. The lower control arms have a helical stamped coil spring mount, just like they did from the factory, which secures the coil spring into the lower control arm. The coil mount has been improved to make installation even easier. The lower shock mount is incorporated into the stamped coil plate and will also accept QA-1 coilover and RideTech Shockwave™ units as well. This stamping is welded around its entire perimeter. All arms that contain cross shafts are pre-assembled with the cross shafts and pivot sleeves and have a safety feature that captures both sides of the bushing, unlike the originals that were only retained on the one side of the bushing under the head of the bolt. This unique feature allows full control and virtually no flex on the control arm when cornering. Available in black powder coated.

Note: GN11365 is shipped overweight.

1978-87 Lower Boxed Control Arms

Rear boxed control arms include the Energy Suspension polyurethane bushings which are an excellent improvement over OEM rubber bushings, while adding ride improvements they also work excellent to reduce traction loss. These control arms are a direct bolt-on replacement designed to minimize wheel hop, improve cornering and help track consistency. Each control arm features the correct provisions for adding a stock or aftermarket sway bar. Sway bar holes are reinforced with a 0.120" wall thickness steel sleeve TIG welded and sanded into place. The construction of the control arms features 0.120" wall thickness rectangular tubing with CNC-machined drawn over mandrel bushing holders and MIG welded end caps to keep out unwanted road debris.

GN11057

1978-87 Double Adjust Lower Control Arms

UMI adjustable control arms feature off-set aluminum bushings and smaller diameter tubing that place the control arm inward for additional clearance when running large tires. This type of setup is also needed when running a mini-tub to achieve the most clearance as possible. The supplied aluminum step bushings place the control arm inward 3/8 of an inch further than our standard control arm version. These double adjustable control arms are designed for light duty street use. The spherical rod ends offer a solid foundation and work excellent as a solid bushing control arms while eliminating rear suspension bind. Allows adjustments of 1" longer or 1" shorter and are supplied pre-set to factory length.

GN11047

1978-87 Roto Joint Lower Control Arms

UMI's tubular lower control arms utilize our Roto Joint technology for a bind free performance and quiet comfortable ride quality. The Roto Joint design is a pivot ball lined with a greasable Delrin race designed to offer 28 degrees of total unrestricted movement, more than adequate for a bind free, low friction operation. The Roto Joint design improves performance over the factory rubber and aftermarket polyurethane bushings by allowing the suspension to articulate correctly, and provide precision handling. Sway bar holes are reinforced with a 0.120" wall thickness steel sleeve that is TIG welded and sanded into place. All bushing ends and Roto Joints are greasable and low maintenance making an excellent street setup for your cruiser!

REGAL Control Arms

Includes:

- Billet aluminum upper control arms
- Energy Suspension polyurethane bushings
- Energy Suspension polyurethane bushings for the differential cars
- High grade mounting hardware
- Detailed installation instructions

1978-87 High-Perf Upper Control Arms

The upper control arm is comprised of a precision machined aluminum block housing a threaded steel pinion, a heavy-duty zinc-plated adjuster, and a precision welded and powder coated clevis. This can be installed as a direct replacement for the factory control arms and offers the benefits of in-car adjustability. Require no disassembly for adjustment. They are preset to factory specifications and does not require any adjustment for installation. Sold as set. Made in USA.

GN11102 1978-87 292.99 set

1978-87 High-Perf Lower Control Arms

These high-performance lower control arms for the Regal are CNC-machined from 6061-T6511 billet aluminum for unsurpassed strength and precision fit. These are designed to be installed as a direct replacement for the factory control arms, but offer the benefits of the dramatically stronger billet design. Each bushing has a grease fitting for long term, noise free service. The arms are machined to accept the factory rear sway bar (or aftermarket equivalent) and require no modifications to the vehicle for installation. Sold as a set. Made in USA.

GN11101 1978-87 279.99 set

1978-87 Rear Lower Control Arms

GN111018 - detail

Tubular rear lower control arms provide superior strength over boxed or square arms. Spherical roller bearings on the frame side and a Del-A-Lum bushing on the rear end side. The maintenance is low and the bushings are quiet. They also have a lifetime warranty to the original purchaser. Sold in pairs.

Important: On anybody vehicles only, road noise may be heard a little more. Do not recommend using a Panhard rod with this application. Bind will occur if used.

GN111018 1978-87 side mount sway bar 382.99 pr

1978-87 Adjustable Control Arms

This adjustable rear upper control arm has a rubber bushing on the rear end side and a spherical bearing on the frame side. The arm allows you to adjust pinion angle without using the old style shims. The spherical bearing swivels and allows for the twisting action of the arm when the rear end goes over bumps and as the chassis rolls, reducing the load on the frame bracket and frame crossmember. Includes mounting hardware.

GN111012 1978-87 black pdr coated 305.99 pr

1978-87 g-Bar Rear Upper Control Arms

Our adjustable length control arms directly replace OEM style arms and allow for easy adjustment of pinion angle. Both have a 11-1/8" center length. Made of 1-1/4" o.d., .156" wall tubing, with heavy-duty, 1" billet front end rod and urethane bushings. Made in USA.

Poly Adjustable
K5820710 1978-87 244.99 pr

1978-87 Strong Arms

Finish off your rear suspension with these tubular control arms from Ridetech! These arms have adjustable rod ends. The articulating rod end helps eliminate bushing bind (which can hinder ride quality and performance).

1132699 1978-87 rear upper 314.99 pr

1978-87 Lower Control Arms

Rectangular arms are constructed from strong, 1-1/2" x 3" x .120" wall tubing to eliminate flex and include fluted, greaseable, graphite/Polyurethane bushings. The tubular arms are made from 1-1/4" diameter x .120" wall steel for lighter weight without sacrificing strength and use a spherical ball assemblies on the chassis end to prevent bind and allow better control. Gloss black powder coated. Mounting hardware sold separately.

EF5204 1978-87 rectangular 336.99 pr

1978-87 Rear Trailing Arms

New stock style upper and lower rear control arms for 1978-87 Buick Regal models. These are made from heavy gauge steel and black powder coated and have the stock look. Feature OE Style rubber bushings.

REGAL Suspension

Sway Bars and Your Regal

Sway bars tie your suspension together to help with body roll when cornering. When turning, the vehicle will "roll" as it transfers its weight to the outside wheels. This causes the front end to "plow" or understeer. An aftermarket sway bar will help keep your vehicle and the load even and assists in steering response. Sway bars sets come complete with everything required for installation. The diagram illustrates the expected effect of installing an upgraded sway bar.

Before

After

GLOBAL WEST'S
SUSPENSION

1978-87 Front and Rear Sway Bars

Sway bars are tuning devices and should not be considered the whole suspension. Oversized sway bars are not the answer. Suspension geometry, springs, shocks, tire and wheel combinations and driving styles all effect cornering capability and should be addressed accordingly. Global West's approach is different than most companies. They fix the geometry in the front and make the vehicle turn into the corner, so traction isn't reduced in the rear. Depending on the front end's capability, installing a rear sway bar in some cases will give the vehicle less grip in a corner.

1978-87 Regal Anti-Roll Bar and Chassis Brace Set

Our tubular 1-3/8" front anti-roll bar is designed to address the shortcomings of the small factory Regal anti-roll bar. The DSE anti-roll bar set includes greasable polyurethane bushings, mounts and endlinks. Extensive testing revealed improvement on vehicles with stock suspension and optimal improvement on vehicles fitted with other DSE components. The set also includes the chassis brace set provided to triangulate the front crossmember and reduce friction within the front section of the chassis. Made in USA.

1978-87 Rear Anti-Roll Bar

Unlike the factory bar, this attaches to the rear end housing and to the chassis crossmember as opposed to the stock lower control arm mounted bar. By using the chassis to stabilize the rear axle, this minimizes deflection under a heavy cornering load. DSE bars mount with a low friction ball style end link for free articulation. Split lock collars positively locate the anti-roll bar in the correct location. The anti-roll bars offer dual rate adjustment for increased vehicle tuning. Choose either the 1" tubular bar for most street applications, or 1-1/8" anti-roll bar for a more competitive nautured vehicle. Mounting hardware included. Powder coated in a high gloss black finish. Made in USA.

Note: Shipped oversize.

1978-87 TVS Stage 2

For the ultimate handling GM Regal car nothing beats the Hotchkis Sport Suspension Stage 2 TVS. This set has been rigorously designed and tested on the track yet is very comfortable for your local cruising. Every aspect of the suspension has been re-engineered for the maximum performance and is being offered in a complete tuned package. Package includes: Tubular Upper and Lower Control Arms which increase caster and improve the camber curve increasing front end grip and traction. Heavy-duty tie rod sleeves hold the alignment while 1" lowered sport springs and Hotchkis Tuned/FOX shocks improve vehicle control and stance. A massive 1-3/8" front sway bar and 1" adjustable rear sway bar reduce body roll and improve handling. To improve traction and reduce wheel hop the rear receives a upgrade of massive 1-1/2" in adjustable upper trailing arms allow for pinion angle changes to improve launches while the super strong 1-1/2" rectangular tube lower trailing arms maximize traction by reducing flex. Grade 8 hardware and greasable bushings are included along with special trailing arm mount braces designed to stiffen the chassis and reduce flex. This system provides a 1" drop from original factory ride height and is for small block vehicles. Made in USA.

----------	---------	-------	----------

1978-87 Cornering Max Set

1978-87 Regal comprehensive system with our best corner carving parts under one easy to find part number. The Corner Max system combines geometry corrected A-arms with tall ball joints, higher rate springs, UMI rebound adjustable mono-tube shocks, heavy-duty sway bar and a bump steer kit. The foundation of the set includes our coilover only lower A-arms featuring caster improvement, tall ball joints, and the ability to remove the spring and shock without taking the spindle apart. The upper A-arm features rod ends for smooth operation and the ability to adjust without shims. The 1-1/4" sway bar upgrade complete with UMI's fabricated end links reduces body roll and helps speed transitions. Racing coilover springs are paired with UMI's rebound adjustable coilover mono-tube shocks. Fine tuning is accomplished with a UMI bump steer kit. The Corner Max set is built to make the stock GM clip work as well as it possibly can with a true bolt-on set.

- Bilstein front and rear shocks

1978-87 Level 1 Handling Package

Improve overall handling in your 1978-87 Buick Regal with a Level 1 Handling Performance Package from BMR Suspension. BMR tubular sway bars add increased sway bar rate, which decreases body roll. BMR springs are constructed from high tensile silicone chromium spring wire and includes a lifetime warranty against spring sag. The Bilstein shocks offer high levels of performance and a great ride on any road. The Level 1 Handling Package (HPP047) will lower the center of gravity, decrease body roll, and dramatically increase the cornering capabilities of your Regal. All components also sold separately. Sway bars are available in black hammertone or red powder coated finishes. Installation is 3-4 hours. Proudly designed and manufactured in the USA. When performance is a must, rely on BMR Suspension!

Note: Shipped oversize.

- Polyurethane Differential Bushings
- All the needed hardware

1978-87 Rear Suspension Set

Launch harder, reduce wheel hop, and add cornering consistency on your 1978-87 Buick Regal with a BMR rear suspension set. The set uses greasable, 95 durometer, internally fluted polyurethane bushings, which add a more responsive feel over the factory rubber bushings. Designed to work well for street performance, drag race, and handling applications, the heavy-duty construction of the upper and lower control arms eliminate flex, giving you much improved repeatability on the street, starting line, or in the corners. This set is the perfect upgrade for the enthusiast looking to improve performance, while maintaining acceptable NVH and ride quality. Installation time is 5-6 hours. Available in black hammertone or red powder coated. Proudly made in the USA!

1978-87 Coilover Conversion

The Aldan American coilover set makes it easy-to-install custom coilovers on your 1978-87 Regal models. Custom coilovers help maximize performance, improving handling on the track and the street while allowing for full adjustability. Choose single or double adjustable shocks and then add the spring rate for your vehicle. Coilover sets include coilovers that are expertly matched to the proper spring rates needed for front or rear applications and are fully assembled — ready to bolt-in and go. Also includes polyurethane shock bushings with both 5/8" and 1/2" bore steel sleeves and a WR11241 adjustable spanner wrench for easy ride height adjustment. Made in USA.

REGAL Suspension

ridetech  Coilover Systems

Do You Like Curves?

With RideTech's engineered coilover suspension system, you don't need to ask any other questions of your coilover suspension. Each component is designed to fit correctly and accurately with all other components, and will install into stock suspension mounting locations. Updating your suspension shouldn't be a hassle. And with RideTech, it doesn't have to be.

1978-87 Air Suspension Package 

RideTech has developed an air suspension package that will include everything you need to provide modern performance vehicle handling and ride quality. The front includes Tru-Turn system, HQ Series Shockwaves, and MuscleBar sway bar. Made in USA. The rear includes lower and upper Strong Arms, HQ Series Shockwaves, and MuscleBar sway bar. Made in USA.

Important: Compressor system must be purchased separately. Choose RideTech compressor package or build your own.

Note: Shipped double overize.

1132298 1978-87 no compressor sys 5634.99 set

1978-87 Coilover Shocks 

Get control of your RideTech suspension with the right set of coilover shocks. RideTech offers 3 different series of coilover shocks for Strong Arm systems. Non-adjustable RQ (Ride Quality) series: Great entry level solution to optimize ride quality without the guess work. Single adjustable HQ (Handling Quality) series: Features an adjustment knob to dial in the rebound force of the shock. Triple adjustable TQ (Track Quality) series: Remote reservoir shocks allow rebound adjustment and a dual stage (high speed and low speed) compression adjustment, providing the ultimate solution for adjusting between daily driving and trips to the track. All coilovers are rebuildable and include springs. Coilovers include 2 coilover shocks and 2 springs with proper spring rate. Made in USA.

Important: For use with RideTech strong arms only.

1973-87 Bolt-In Spring Adapter

Bolt-in adapter for stock springs for lower control arms using factory springs instead of coilovers. Includes 2 bolt-in spring adapters and hardware.

E7720168	1973-87..... 111.99 pr
----------	------------------------

Front Coil Spring Insulator

Molded rubber coil spring insulators that mount between the coil springs and the frame. These insulators will keep the springs from riding on the frame metal to metal and will give you a better ride. Coil spring insulators were not original on all vehicles. Measures: 5-5/16" o.d., 3-3/4" L., 1/4" thick.

Note: This insulator will increase ride height equal to the thickness of the insulator.

W1006	LH or RH..... 12.99 ea
-------	------------------------

1973-87 Coil Spring Isolators

It doesn't take long before soft suspension rubber begins to deteriorate. Polyurethane is impervious to deterioration caused by oil, grease, and the elements, giving you firm, confident handling that lasts.

1978-87 Coil Springs

Buick Regal models have excessive roll and oscillation, especially after bumps. Shocks and sway bars can help reduce the problem, but to correct the problem entirely, correct springs are required. These coil springs have been measured and tested to provide proper spring rates to eliminate the bobble and bounce, delivering a great ride with responsive handling. These springs will reduce the ride height by approximately 1" and give the vehicle a slight nose down attitude. Sold in pairs.

1978-87 Regal Sport Coil Springs

Enhance the handling prowess of your Regal with a set of sport coil springs from Hotchkis! These springs lower the center of gravity by reducing ride height and enhance suspension control. These springs lower the vehicle approximately 1". These springs are precision wound for exact spring tension from high-quality steel and feature a gray powder coated finish. The set of four includes a pair of front, or pair of rear springs. Pair these with a set of high-performance shocks for optimal handling performance. Made in USA.

Note: Lowers vehicle 1" from factory ride height.

1973-87 Rear Single Adjustable Shocks

Aldan American TruLine shocks are designed to work with factory or aftermarket rear end shock absorber setups. The shocks feature 2" bodies machined from 6061 T-6 billet aluminum providing a lightweight, high strength solution for reducing unsprung weight. They use factory shock mounting locations for an OEM quality fit. Gain improved handling and better ride quality with Aldan American TruLine rear shocks. Made in USA.

100110 1973-87 single adj shock 478.99 pr

1975-87 Rear Shock

If you've never experienced the exhilaration of driving a vehicle equipped with Bilstein Shocks, you're in for a pleasant surprise. You'll soon discover there is quite literally, nothing like it. Bilstein's shock bodies are precision formed through a unique seamless extrusion process. This provides superior strength along with high finish tolerances that are usually associated with surgical instruments. The finished body is then mated with a solid, induction hardened steel chrome-plated and polished shaft, machined valving components and highest quality seals. Combined with extreme attention to detail, Bilstein provides you with the closest thing to a hand built shock available today. Conventional shocks slowly lose efficiency and eventually fail over a period of time causing excessive tire and suspension wear. Of all your suspension components, nothing works harder than your shock absorbers, making it critical you pick the right ones for your vehicle. Bilstein gas pressure shock absorbers are the least expensive, fastest way to dramatically improve the ride, handling and control of your vehicle. Plus, with Bilstein's limited lifetime warranty, you may never have to purchase shock absorbers again.

1973-87 Drag Shock

Lakewood drag shocks feature state-of-the-art 10 stage valve design which provides excellent starting line reaction and stable high speed operation, superior to any other shock on the market today. These shocks include polyurethane bushings. The chrome-plated piston rod will resist corrosion and limit premature seal wear. Lakewood shocks are assembled using only high-quality components including specially formulated anti-foaming hydraulic fluid for precise and consistent drag strip operation regardless of temperature. All Lakewood drag shocks will mount in the stock location without modification.

Note: 90/10 series shocks are not designed for street use.
Emissions Note: ④ Non-emissions (50 state legal).

Front Shocks

90/10 Series - Race Only
Will let the front end rise quickly to provide as much weight transfer as possible to the rear wheels on initial launch.

---------	---------	-------------

1978-87 Driveshaft Loop

This one piece driveshaft safety loop is custom designed to fit the floor pan of the 1978-87 GM Regal. The ring is made from seamless DOM (Drawn Over Mandrel) steel in an oversize dimension to accommodate lowered vehicles and aftermarket driveshafts. The loop is physically the largest ring that will fit the Regal tunnel at 6.50" o.d. The flanges are laser cut from heavy-duty steel and the assembly is precision-welded in a fixture. The finished loop is powder coated black and packaged with installation instructions and high grade hardware. Made in USA.

GN11100	1978-87	106.99 ea
---------	---------	-----------

1978-87 Driveshaft Loop

This NHRA legal driveshaft safety loop is a bolt-in application for the 1978-87 Regal. Bolts to existing floor pan holes with no welding required! This is a must for tracks that require a safety loop for cars running faster than 13.99 in the quarter mile. The entire loop is constructed of 0.250" thick mild steel, CNC-machined mounting points for a superb fit and fully MIG welded for outstanding strength.

GN11013	1978-87	79.99 ea
GN11014	1978-87	79.99 ea

1978-87 Driveshaft Loop

This driveshaft loop/tunnel brace is a direct bolt-on to the 1978-87 Regal models. The 1/4" thick by 2" wide steel loop meets NHRA requirements. This features a stamped steel brace that adds stiffness to the center tunnel of the vehicle. Includes black powder coating and all new hardware. Made in USA.

Emissions Note: • Non-emissions (50 state legal).

- Nodular Iron "Sportsman" Gear Case w/3.062" Caps
- Nodular Iron Big Bearing Pinion Support
- Nodular Iron 1330 Series Short Yoke
- Nodular Iron TwinTrac
- New Ring and Pinion in These Ratios: 3.00, 3.50, 3.70, or 4.11
- Timken Bearings and Performance Oil Seals
- Professional Setup, Ready-to-Install

USA 9-Plus 31 Spline 3rd Members

These are built and ready-to-install in your 9" rear end. The Detroit TwinTrac is a helical gear style performance differential that maximizes wheel traction and enhances driving and handling characteristics. The TwinTrac operates as a standard or open differential under normal driving conditions, allowing one wheel to spin faster or slower as necessary. Operation of the TwinTrac is smooth, quiet and automatic. The unit will engage without any driver knowledge or action required. It also has no wearable parts and requires no maintenance, meaning less time in the garage and more on the road.

Differential Bearing Set for 10 Bolt

This set is designed to replace the differential bearings on 1973-87 Regal models. Super master bearing set includes differential bearings and races, gasket (or RTV silicone), washers, nuts, ring gear bolts, rear axle bearings and seals for a complete replacement.
 UR10853 10 bolt 8-1/2" 148.99 set

1973-87 Positive Locking Differential

These new positive locking differentials are a breakthrough in differential technology that prevents wheel "spin-up" and delivers extreme traction with smooth, silent efficiency, while providing full differential operation! The Lock Right system is a rugged, simple design that replaces the existing spider gears with a pair of Lock Right driver and co-driver gears in your stock open differential assembly. Requires no special tools, calibration equipment or fixtures, or extra modification because the ring and pinion gears are unaffected. Designed for fail safe operation and manufactured from ultra resilient, heat tempered steel alloys for maximum toughness.

Note: Not for use with postraction or Limited-Slip differentials, use in stock, open differentials only.

1978-87 ECTED Max

The ECTED Max is a revolutionary traction technology product that switches between limited-slip and locker mode on the fly. When "off" the ECTED Max functions as a performance limited-slip differential. When "on" current is sent to an electromagnetic coil on a non-rotational bearing cap bolts, pulling a pilot cone into engagement with the differential case, ultimately compressing the clutch pack and creating locker solid axle assembly. ECTED gives you the advantage at the drag strip and on twisty tracks, all in one package.

Note: The bearing set includes 2 Timken cones and 2 Timken cups.

Max-Gear Oil

Max-Gear is an ultra-tough automotive gear oil. It makes gears run smoother, quieter, cooler, and longer without overhauls. Max-Gear is recommended for use in front or rear differentials and manual transmissions that specify use of an API GL-5 or GL-4 fluid. All viscosities of Max-Gear are formulated with hypoid friction modifiers necessary for use in clutch or cone type differentials. No additional additives are necessary.

Baer Disc Brake Sets

Baer Brakes are known for exceptional braking performance and outstanding quality. Offering many upgrade and conversion brake sets that far exceed OE equipment performance. Baer Brakes have several sets available to choose from for your specific Regal models, SS4+, Track 4, Pro+, Extreme+, stock GM 10/12 bolt rear and SS4 with a variety of performance levels to fit your driving conditions and

requirements. Baer Brakes also offers rear disc brake sets with the same quality and performance as the front. Baer rear systems include a unique billet backing plate that not only act as a caliper mount, but also houses the banksia (1 piece) park shoe setup.

Note: Shipped overweight.

4301348B

1973-87 Front Disc Brake Set

Important: *Brake system has no track width change over stock. Drop spindles might change track width. **These brake sets will fit stock Grand National and F-type wheels. 4301467 and 4301448 brake system designed to be used with stock spindles.

Note: R = red, B = black, S = silver. Photo for illustration purposes only, set contents may vary. Additional parts may be needed for installation.

SS4+

This set features the S4 four piston calipers, 11" two piece slot, drill, zinc-plated rotors, stainless steel brake hoses, fully assembled aluminum hubs with spindles, mounting brackets, and hardware included.

Note: 15" minimum wheel size for 11" rotor. Uses common 4 piston pad (#DR1).

REGAL Disc Brake Sets

1979-87 Front Brake Set

Wilwood disc brake sets for 1979-87 models. Each set features rotors, calipers, pads, and all hardware necessary to mount them onto stock spindles. Available with plain or drilled and slotted rotors and red or black calipers.

Important: Always check the wheel to caliper clearance before installation.
Notes: Specify DR = red, D = black when ordering. 1/2" - 20 wheel studs. Shipped overweight.

Forged Dynalite Pro Series - 4 Piston

Most sets fit inside most popular 15" disc brake wheels. These sets can be used with either manual or power boost master cylinders. Includes: 11" rotors and black powder coated 4 piston calipers, and hardware.

Important: Fits 11" rotor spindles only. Requires modifications to original spindle. Always check the wheel to caliper clearance before installation. *12.19" diameter rotors. **Mustang II style spindles.

1978-87 Brake Booster

Having trouble with your power brakes? If your vacuum draw is weak, at a level less than 18 in. of Hg, you may need to replace your power brake booster. Over time, the internal rubber components of the booster can deteriorate, especially if rich gasoline fumes enter the vacuum lines. Replace defective brake boosters and make sure your vehicle has the power to stop safely!

Important: The listings below are for the power brake booster only and do not include the master cylinder assembly (sold separately). Boosters are not currently available in original OEM color.

Booster Repair Set

Reproduction brake booster repair set. Set includes the necessary components to bring your booster back to factory specifications. Fits Delco-Moraine brake boosters.

PB100103 1978-79 with 11" booster 150.99 set

REGAL Master Cylinders

1978-87 Hydra Stop Hydraulic Assist System

We offer a high-quality direct bolt-in hydraulic brake booster set designed to upgrade manual or vacuum assisted brakes with a powerful and compact modern hydraulic assist unit. System includes the components you need to install into your vehicle. Most installations can be accomplished in an afternoon, using common hand tools, with average mechanical skill levels. Consisting of a direct fit high-performance, hydraulic brake assist unit with steel firewall mounting bracket, aluminum Corvette style master cylinder, side mounted Prop and Stop block set, rubber pressure and return hoses and all necessary fittings and hardware for installation. Bare units are hydraulic assist only, master cylinder and hoses are not included. Using all new parts, this unit puts out an amazing 1800 psi at the wheels!

Electronic Vacuum Pump Set

It takes 16" of vacuum to properly activate your vehicle's power brake booster. Sometimes, big cammed or supercharged engines don't create enough vacuum to operate the booster, making it more difficult to stop. This vacuum pump will supply the booster with the needed vacuum so your brakes will function properly.

Remaster Master Cylinder

Baer Brakes introduces the Remaster master cylinder. The Remaster is a direct replacement for GM bolt patterns. Left or right hand port configurations and compact design to make fitment easier. Master cylinders are available in the bore sizes: 15/16" for manual, 1" for power, 1-1/8" for hydroboost brakes. Provides the best balance between pressure and volume for great braking performance with reasonable brake pedal effort. A mount is machined into the bottom of the master cylinder for a Baer billet bracket/adjustable proportioning valve (sold separately).

Electric High Power Master Cylinder

Is the big cam in your Regal causing a lack of braking, or do you have valve cover clearance issues? Classic Industries® has the answer—the most innovative system on the market today. This is a bolt-on solution that replaces your OEM brake booster/master cylinder with a compact billet aluminum master cylinder that does not rely on vacuum for power assist, and a remotely mounted power supply. The fully self-contained unit allows the master cylinder to provide between 1400 and 2500 psi. Measures: 8" long and 3-1/2" wide.

Brake System Power Bleeder

Bleed your hydraulic brake system like the pros with this high capacity brake bleeder system. This is a simple, 1 person operation with no external power source needed. Includes a precision pressure gauge for safe operation and you can flush the entire hydraulic system without frequently refilling the reservoir. This unit features a large reservoir that holds up to 2 quarts of brake fluid. Complete system includes: reservoir with gauge, hoses, fittings, instructions as well as 2 adapters that will fit most master cylinders from 1947-91.

Mityvac Brake Bleeder

The Mityvac Brake Bleeding set can be used on virtually all hydraulic systems including most ABS systems. It's rugged, low cost professional tool which enables one person to efficiently bleed brakes, clutches, or other hydraulic systems. Choose from our sturdy polymer plastic bleeder, designed for occasional use, or step up to the heavy-duty model designed for the professional mechanic.

04000 "professional" model..... 139.99 set
06820 "do-it-yourselfer" model..... 54.99 set

One Man Brake Bleeder

Loosen the bleeder screw and fill with brake fluid. Pump the brakes until the hose is free of bubbles. Everything is included to quickly bleed brakes with no mess. Plastic bottle collects discharged fluids. Complete instructions included.

Y19200..... 8.99 set

Brake Bleeder Wrench

These will ensure that you don't strip the bleeder nuts on your calipers or cylinders. Check size before ordering.

JG1211 12 - 14 oz. cans..... 71.99 cs

REGAL Replacement Brake Parts

1978-87 2" Drop Spindle Set

Drop spindle set for a variety of GM vehicles to provide a 2" drop. Set is manufactured in cast iron and comes finished in black. Drop spindles are the best way to lower your vehicle while maintaining a stock ride and handling. Replaces LH and RH sides.

154953 1978-87 149.99 pr

1978-87 GM Spindle

Stock replacement spindle for a variety of GM vehicles. Identical to the stock GM spindle, this replacement spindle is manufactured in cast iron and comes finished in black. Replaces OE #18060563 for the LH (driver) side and OE #18060564 for the RH (passenger) side.

18060563 1978-87 LH 99.99 ea
18060564 1978-87 RH 99.99 ea

1978-87 C5 Stock Height Spindle

1978-87 Buick Regal bolt-on C5 spindles use C5 bearing hubs with sealed bearing packs to eliminate spindle pin flex. The design maintains the drum brake offset while improving geometry to allow better chamber change during suspension movement.

CP30016 1978-87 318.99 set

1978-87 Stock Height Spindle

Brand new replacement stock height spindles for various 1978-87 Regal models.

Note: Will work with stock brake and rotors and with CPP's standard brake kit or upgraded kit with drilled and slotted rotors.

GN111350 1978-87 278.99 pr

1978-87 2" Drop Spindle Set

Lower your vehicle's front end the right way. These superior quality drop spindles do just that while retaining full suspension travel and correct suspension geometry. Uses 1981-92 S-10 calipers and 1979-81 Malibu rotors. Drop spindles lower the center of gravity while maintaining the full suspension travel. This will drastically improve the ride, braking, steering and handling.

Note: Will work with stock brake and rotors and with CPP's standard brake kit or upgraded kit with drilled and slotted rotors.

GN111349 1978-87 278.99 pr

1978-87 Wheel Bearing and Seal Kit

Quit searching for all the individual components you need when replacing your worn out wheel bearings and seals. Buy the complete kit and save time and money! Our complete wheel bearing and seal kit has everything you need to do the job correctly the first time around including 1 inner and 1 outer wheel bearing with races, 1 wheel seal, 1 spindle washer, 1 spindle nut, 1 cotter pin and a grease cap.

Note: 1 kit required per wheel.

Hi-Temp Wheel Bearing Grease

When replacing or just repacking your wheel bearings, don't use ordinary grease. Protect those bearings with a high-quality, high temperature bearing grease. This is a very stable aluminumized complex thickened grease used for the lubrication of wheel bearings, chassis ball joints and other bearing applications operating under severe conditions. This product assures high temperature protection from excessive heat generated by disc brakes. And... a special tool designed to pack the bearings so they stay where they belong. Works on most cars and trucks.

1973-77 Sport Rotor

Sport rotors are 1 piece, slotted discs for your factory brake system for 5 x 4-3/4", with 9-1/2" rear drums. Sport Slot Rotors feature a signature "short slot" design, which improves performance by wiping away the debris of used friction material that otherwise accumulates between the rotor and pad. This keeps fresh pad material exposed to the rotor surface and helps prevent pad glazing. By providing an escape path for water, slotted rotors can also improve initial brake response under wet conditions. Power Slot Cryo High-Performance slotted rotors are given a cryogenic treatment. Deep cryogenic treatment is a one-time process that permanently improves the performance and service life of metal components. The rotor is cooled to -300 degrees, then gradually heated to +300 degrees before being slowly returned to room temperature. Although not apparent to the naked eye, the improvements to the rotor are significant. The cryogenic treatment process redistributes residual stress in the rotor giving it extra protection against thermal distortion, extending the wear life of the brake disc.

REGAL Replacement Calipers

New! **OE AUTHORIZED**

1973-87 Front Caliper Set

Brand new reproduction (not rebuilt) brake caliper that was factory-installed for many years on a wide variety of GM mid-size vehicles. This caliper will fit any bracket/spindle designed for the large GM calipers with the 7" mount width. Features include a 7/16"-20 inlet so you can use the readily available brake hoses and hardware from Pre-1978 GM midsize models. Supplied without brake pads so you can select the pad type of your choice. Sold as a pair.

Note: Depending on the spindle and rotor size it will not fit most applications running 14" wheels, nor will it fit on most 15" drum brake wheel applications.

BP-10 Brake Pads

Wilwood's exclusive BP-10 is an all new type of metallic composite friction pad compound. BP-10 exhibits the medium to high temperature friction characteristics of a semi-metallic based race compound with the low temperature response, quiet engagement, and lowered dust levels normally associated with ceramic based street performance pads. The combination of these characteristics make it the perfect choice for your street machine, auto crosser, or drag racer.

OER® TNT Extended Life Tire & Trim Dressing

This unique formula quickly penetrates rubber trim and tires to hydrate and provide lasting protection. TNT Extended Life gel by OER® finally delivers on that promise. Simply wipe on using a pad and TNT gel restores the look of faded tires, trim, bumpers, seals and weatherstrip. What's more, OER® TNT gel lasts for many months, not days. Our exclusive no-streak, no-run, and non-drip formula works to repel water and detergents and helps keep tire walls hydrated and supple as well as looking brand spanking new. A true premium trim restorer and protectant, that will not drip, dry out, or destroy surfaces. Provides unmatched durability, ease of application and a superior "new look" shine that lasts through numerous washes.

1973-77 Slim-Fit Radiator

PROFORM is upending the radiator industry with the introduction of its new Slim-Fit Integrated Radiator System! No more cobbling together a core, a fan, and possibly a shroud, and gobbling up 8" of valuable front-to-back underhood space, sometimes leading to clearance problems. The radiator, fan, thermostat, and shroud can come together seamlessly to create a unified radiator system that is under 4" thick (core/shroud), looks and works great, and is pre-assembled right out-of-the-box, ready for direct fit into your American V8 muscle car! Combined with a high-performance fan blade inserted into a smooth aluminum shroud, the result is the industry's narrowest, most streamlined look. The PROFORM Slim-Fit Integrated Radiator includes a shroud, electric fan with adjustable thermostat, wiring harness, and radiator cap.

Emissions Note: Non-emissions (50 states legal).

Finned Aluminum Overflow Tank

Although it's often overlooked, a durable coolant overflow tank is a crucial component of any cooling system. Leaks within the overflow system can result in air entry into your coolant, which ultimately leads to overheating. Upgrade your plastic overflow tank with Mishimoto's universal 1 quart coolant overflow tank. Tank is constructed from durable 3mm thick aluminum, featuring stunning precision TIG welds. In addition, this overflow tank includes a sight tube, which provides an accurate look at your fluid level. This sight tube is removable and can be installed on either end of the tank, which is helpful when installing in a cramped engine compartment.

OER AUTHORIZED

Radiator Overflow Hose

"3 rib" correct replacement hose for the radiator overflow. It is produced with correct 3/8" i.d. OEM style thin walled hose as original. This is an often overlooked hose which is notorious for deterioration. The hose is extra long so that it can be routed and cut for a perfect fit.

B0056 universal 4.99 ea

REGAL Cooling Fans

FL2016

- 16-19 inch 6 Blades Stainless Steel Flex Fan
- Premium silver finish
- Reduces engine drag at higher RPM for better performance and fuel economy
- Standard rotation

Stainless Steel Flex Fan

Flex-a-lite fan blades are designed to flex or flatten out as the RPM's climb, helping to reduce engine drag for better performance and improved fuel economy. Fan features a premium, high tech silver coating that won't degrade or lose its luster in the harsh environment of an engine compartment. Available in standard or reverse rotation along with three different diameters and six blades.

Important: Must be used with a Flex-a-lite spacer or warranty will be voided. Fans feature 5/8" pilot hole with a 1-3/4" to 2-1/2" slanted bolt pattern.

Fan Spacer

These are the correct replacement fan spacers for use on various applications. Belt driven fans work best when they are 3/4" to 1" from the radiator's surface. Whenever you convert to a flex fan, you need to add a spacer to bring your new fan back into the "sweet spot" in the fan shroud opening. If necessary, multiple spacers may be used up to a maximum of 3 inches. See the listings below for correct thickness to fit your application.

MARADYNE

Rubber Fan Spacer

Rubber spacers are used with Champion Series electric fans for proper spacing from the radiator.

MF112 5.99 set

Fan Clutch Specifications:

- 2-3/4" shaft (mounting plate to edge of clutch)
- 2-1/8" water pump bolt spacing
- 3-1/4" fan bolt spacing.

OEM Style 7-1/4" Fan Clutch

Reproduction of the application specific, factory style fan clutch designed for Regal models. Each fan clutch is designed to replicate the original in design, appearance, and fitment.

342754 high-performance 129.99 ea

New!

1974-87 Fan Clutch

Reproduction of the application specific, factory style thermal fan clutch for 1974-87 Regal models. Fan clutch is designed to replicate the original in design, appearance, and fit. Includes mounting hardware. Features an Eaton style coil type thermostatic element. Measures 7" diameter, 1-3/4" bolt pattern at water pump, 1-1/2" depth from fan to where it bolts to pump, 3-1/4" bolt pattern for fan. Replaces a wide variety of original OE part #'s including 1236786, 1245632, and others.

1236786 OE style 129.99 ea

Cooling System Zinc Anode

Used in heavy-duty and marine applications to protect the cooling systems and its many components from damage due to electrolysis or coolant additive failure/breakdown. The introduction of the zinc anode will protect your cooling system from galvanic action as it "eats" the zinc rather than your cooling system. To be installed in the radiator as a replacement for the drain petcock in radiators that are equipped with a 1/4" NPT hole or in 1/4" NPT hole that is available in the cooling system.

FL32060 14.99 ea

SPAL

16" Fan Mounting Gasket

SPAL fan gasket is a specifically designed rubber gasket for use exclusively with the 16" fan line. The gasket provides an additional 1/4" clearance from the cooler core and is ideal for mounting our pusher style fans.

Note: Will not fit SP2056 and SP2057.

SP2070 16" 16.99 ea

Fan Temperature Sending Unit

The temperature sending unit screws into the side of the cylinder head or on the intake manifold to operate the Champion or Challenger Series fans.

Sycloane Electric Fan

The amazing Flex-a-lite Sycloane electric fan is the most efficient S-Blade fan blade on the market! This quiet fan mounts to the core and can be used to push or pull air through the radiator. The higher torque (17 amp) motor produces 2500 cfm of air flow, making these fans strong enough to replace your belt driven fan and fan clutch to gain more horsepower and torque. The sweep style blades squeeze out the maximum air flow possible. 16-5/8" x 15-3/4" x 4" mount. Universal mounting brackets are included.

FL398 16" fan.....	174.99 ea
--------------------	-----------

Black Magic S-Blade

If your vehicle is still running the factory engine driven fan, you're losing vital horsepower and not even getting the full cooling effect you should! By replacing your engine driven fan with an efficient electric unit, you can reduce unnecessary drag on your engine to free up horsepower and improve your fuel economy. An engine driven fan can cost up to 17 HP to operate! This universal fit Flex-a-lite electric fan features computer engineered blades that are extremely quiet and efficient, and moves 3000 cfm of air to provide consistent cooling, regardless of engine RPM. Ring fans like this provide better blade support for impact resistance. This electric fan fits vehicles with 16" or wider radiator cores, and requires a mounting surface of 18" x 16" x 4-1/4" for an easy, bolt-in installation. Universal mounting brackets are included.

FL160.....	344.99 ea
------------	-----------

Fan Switch

SPAL replacement temperature fan switch. Manufactured from stainless steel, hermetically sealed and features a 308 NPT. Operating switch range 35 degrees F to 480 degrees F and max current/voltage 3 amp, 32 VDC and grounded case only.

SP2067 on 195°/off at 175°.....	55.99 ea

Improves Horsepower, Extends Water Pump Life and Cools Faster!

Used as a primary fan, this unit frees up wasted horsepower and increases fuel mileage by eliminating drag caused by your standard engine mounted fan. Also increases water pump life by reducing strain on the water pump bearing assembly. When mounted in front of the radiator and used as an auxiliary fan in addition to your stock belt driven fan, this electric fan provides better cooling in any engine prone to overheating.

"Ice Box" Cooling Fan Control

This Ice Box cooling fan control setup from Ron Francis Wiring is a dual fan control can operate two fans at different temperatures or a single two speed fan at different temperatures. Adjustable operating range of approximately 140 to 23 degree F with their exclusive lug sensor that mounts under almost any engine bolt. A creative solution to reduce electrical surges on your alternator and engine. Works with or without AC request. Fan control comes complete with heavy gauge crosslinked wire heavy enough to carry the load of the cooling fans.

Note: With Walker 2-speed fans.

TF900635	dual control.....	169.99 ea
----------	-------------------	-----------

Delayed Cooling System Shutdown

Timed cooling system shutdown features adjustable relays that keep power to the cooling fan and electric water pump (if equipped) when the key is shut off. This reduces the block temperature as much as possible without the risk of killing the battery. This is a timed circuit and does not use a thermostat or other fan control to operate.

TF900632	169.99 ea
----------	-------	-----------

Cooling Fan Shutdown

This cooling fan shutdown set shuts down your electric cooling fan above 50-60 MPH to improve engine cooling by preventing the electric fan from fighting airflow through the radiator at highway speeds. The unit is adjustable and may be overridden by using the supplied dash mounted toggle switch. This set is designed to be used with the supplied signal generator which must be installed into the speedometer cable.

JOE GIBS DRIVEN RACING OIL

Coolant System Protector

Impurities in well water can cause rust and corrosion inside the radiator, water pump, and cylinder heads. Over time, this can lead to a loss of cooling efficiency. Joe Gibbs Driven Coolant System Protector stops the adverse effect of hard water to help prevent cooling system damage.

REGAL Water Pumps

New!
1973-74 Buick 455 Water Pump

Keep your engine cool with this new water pump to maximize the power and performance of your Buick big block 455 cubic inch engine. This water pump is manufactured to EO specifications with quality bearings, seals, and brand new precision machined housing.

58113 1973-74 57.99 ea

1973-87 Performance Water Pump ⚠️

These "super cooling" pumps are computer designed to deliver more flow at a higher velocity. They're the ideal choice to prevent overheating in any performance vehicle. Precision cast metal impellers have extra large vanes for the maximum flow rate possible, ensuring adequate pressure and volume even at lower engine speeds. They feature a 5/8" pilot shaft. Choose from three popular finishes for Chevy small block engines.

Emissions Note: ⚠️ Non-emissions (50 states legal).

EH811 1973-87 long cast 298.99 ea
 EH821 1973-87 long polished 399.99 ea
 EH8113 1973-87 long black 336.99 ea

1978-80 Mechanical Water Pump ⚠️

PROFORM's new high flow small block mechanical water pumps feature heavy-duty ball bearings for up to 40 percent more coolant flow giving you real performance value for your dollar. Aluminum construction reduces front end weight.

Emissions Note: ⚠️ Non-emissions (50 states legal).

1978-80 Chrome Water Pump **New!**

Tuff Stuff cast iron standard flow water pump is handmade from premium quality new components - not remanufactured and are quality built in the USA. Precision made ball/roller bearings and spin balanced fan hub sustain higher RPMs. This new cast iron chrome water pump features a new casting with high-quality bearing and excellent sealing. This unit features the highest quality triple chrome-plating of any pump on the market. Adds a dash of flash to your engine! Includes hose connector fitting pre-installed.

WP1449 1978-80 small block 147.99 ea

Small Block Electric Water Pump ⚠️

Eliminates unnecessary weight and impeller-drag experienced at high RPM, pumps up to 35+ gallons of water per minute, and delivers the cooling that can make the difference between a win and second place! Durable, but lightweight die-cast aluminum, epoxy powder coated for corrosion resistance in the color of your choice. Race or street. Draws 6 amps. Mounting hardware and fitting for water pump is included.

Emissions Note: ⚠️ Non-emissions (50 state legal).

66225B blue 174.99 ea
 66225BK black 174.99 ea

The Original Electric Water Pump Drive Set ⚠️

The electric water pump drive set was designed to alleviate the power drag produced by conventional pulley drive units. A heavy-duty electric motor, turning at approximately 1500 RPM, is more than adequate to fulfill cooling needs without draining precious horsepower from the engine. This unit can be turned on and off manually, during a run, or before and afterwards with engine off. The set is complete with motor mounting bracket, extra long bolts, spline pulleys, drive belt, wiring, and switch. You supply the fan of your choice.

MR4333 V8 and 90 degree V6 133.99 set

Electric Water Pump Relay ⚠️

These relays provide maximum battery voltage to maximize cooling efficiency and to protect the main electrical system from damaging amperage overloads. Choose from a regular water pump relay or a weatherproof water pump relay which is perfect for the harsh weather conditions, this relay set provides complete protection from the elements and ensure reliable and dependable performance. These sets utilize heavy-duty waterproof relays, weatherproof circuit breaker covers and extreme condition weatherproof shrinkable crimp-on terminals.

50106 standard 25.99 ea
 30132 weatherproof 33.99 ea

1978-87 Chrome Water Pump Pulley ⚠️

Chrome single or double groove water pump pulleys for 1978-87 Regal models. Available for small block engines with long water pumps.

Small Block Chevrolet

Warning: concerning water pump pulleys

Stock replacement, aftermarket stamped steel or cast iron pulleys are not designed to exceed 400 horsepower or 6000 RPM. Using reproduction pulleys on engines in excess of these limits may result in catastrophic integration of the pulley causing severe damage to the engine, cooling system and body parts. Classic Industries® assumes no liability for damages caused by improper usage of pulleys. Please be sure to install the pulley properly to avoid damages that could occur from improper installation or exceeding the recommended RPM limitations.

REGAL Thermostat

1955-86 Water Pump Spacers

These handy spacers adapt an earlier short style water pump for proper pulley alignment in later long water pump applications. These are also great when using an aftermarket racing timing chain cover where water pump clearance is an issue. Made from satin finished aluminum. Bolts and gaskets included.

Emissions Note: ④ Non-emissions (50 state legal).

H8207 1955-86 SB Chevrolet 110.99 set

1978-87 Water Pump to Block Gasket

Replacement water pump to block gasket for early small block engines. Sold individually. 2 required per vehicle.

AR49741 12 point 4.99 set

High Flow Thermostat

These high flow thermostats are engineered to warm the engine to a proper operating temperature without making it run hot enough to lose power. The "balance sleeve" design equalizes the pressures exerted on the thermostat, which counters the tendency of high volume water pumps to hold a thermostat closed. Fits 1967-92 Pontiac or Chevrolet engines.

Emissions Note: ④ Non-emissions (50 state legal).

16400 1967-92 160 degrees 38.99 ea
16401 1967-92 180 degrees 38.99 ea

1973-87 High-Performance Thermostat

These high-performance thermostats are designed to resist variations in coolant pressure, opening and closing only at the correct temperature, regardless of engine RPM. Thermostats are made from brass and copper with a high grade steel frame for years of worry free operation. Fits 1967-92 Pontiac or Chevrolet engines.

Emissions Note: ④ Non-emissions (50 state legal).

43631 1973-86 160 degrees 21.99 ea
43641 1973-87 180 degrees 21.99 ea

1983-87 V8 Thermostat

Consistent control of engine temperature allows an engine to operate at its peak efficiency no matter what the driving conditions. The factory 195 degree thermostat simply cycles open and closed; this reduces cooling efficiency in any engine. With the JET 180 degree thermostat you get consistent engine cooling and a precise metering of water throughout the engine. Constructed of stainless steel.

JT10170 1983-87 all 15.99 ea

Water Outlet Restrictors

These restrictors come in a set of three with a 5/8", 3/4", and 1" hole to allow adjustment for optimum cooling. Each 2-1/8" plate is made from anodized aluminum and fits under the water outlet in place of the thermostat.

263440 3 restrictor plates 16.99 set

REGAL Heating & AC

1973-87 Heater Core

1986-87 Gen-IV Sure Fit Electric Climate Control Set

The Gen IV is Vintage Air's most powerful and intelligent climate control system. The Gen IV uses an exclusive fully electronic microprocessor control system that eliminates cables or vacuum connections. Separate high capacity copper parallel flow heat coil and aluminum plate and fin cooling coils provide outstanding performance and instant temperature adjustments. Complete set including everything in the evaporator kit, plus all underhood components such as compressor, engine brackets, condenser with brackets, preformed refrigerant lines, dryer, fittings, hardware, and installation instructions.

965085 1986-87 Grand National 2194.99 set

Universal Tinary Switch

Combine low and high pressure clutch cut-off functions and electric fan engagement signal at 254 psi. The low pressure cut off of this tinary switch is 30 psi and the high pressure cut off is 406 psi.

REGAL Specialty Engine Tools

Auto Troubleshooter

This ingenious tool features automatic reverse polarity indication, automatic zero adjustment for Volts and amps for accurate measurements and overload protection on all ranges. Performs all standard electrical tests for on-car and bench troubleshooting. Locate faulty wiring, test electrical components, engine sensors, ignition and fuel systems and your starting/charging system.

AC7677 \$3.99 ea

AutoAnalyzer Digital Multimeter

Pinpoint problem area and determine which components are faulty! Performs standard electrical tests for on-car and pm bench to locate faulty wiring, test electrical components, engine sensors, ignition and fuel systems and starting/charging system voltage. Features 19 ranges and automatic zero adjustment for Volts, amps, and battery tests, as well as an easy-to-read backlit LCD. Includes: color coded detachable test leads, alligator clips, and a comprehensive user manual.

AC7665 \$2.99 ea

Advance Timing Light

This advance timing light features an all metal inductive pickup, bright Xenon flash, and one touch control. Available with a degree dial knob for easy timing adjustments or a digitally controlled with LED display and tachometer functions. Detailed instructions included.

AC7528 adjustable knob 99.99 ea
AC7529 LED display 92.99 ea

Infrared Thermometer with Laser Pointer

Aim this IR thermometer at the target, press a button, and read the temperature display. Verify the temperature in your AC system or find an overcharge in your electrical systems. System On-Chip technology creates a compact, lightweight design with a measurement range of -58 degree F to +932 degree F (-50 degree C to +500 degree C). Includes two AAA batteries and belt holster.

AC7876 \$4.99 ea

Vacuum Switch Socket

Removes and installs ported vacuum switches on most domestic and some foreign vehicles as well. Includes special 7/8" socket with cutaway slot to provide clearance for parts. Provides adequate depth to fit over switch. Heat treated alloy steel. Use with 3/8" square drive.

Y12000 \$2.99 ea

Max-Tuff Assembly Lube

Ultra tough, synthetic lubricant designed for use in reamblending repaired equipment. Utilizes durable synthetic molecules that adhere to metal surfaces and create an extremely strong barrier between surfaces minimizing the possibility of metal-to-metal contact while providing excellent protection against rust and corrosion to both ferrous and non-ferrous metals. Formulated with Royal Purple's proprietary Synslide additive technology.

Motor Coater Engine Refinishing Set

KBS Motor Coater engine paint set has everything you need to do a superior job when you paint your engine, and even includes the step-by-step instructions needed to help you do it right. Motor Coater is easy to apply, offers superb coverage and yields a self-leveling professional looking finish brushed or sprayed. These engine enamels provide deep, rich pigmented colors for excellent coverage. Your engine will be a show stopper at this DIY price... too bad it's kept under the hood! First, KBS special engine cleaner and degreaser eliminates all dirt, grease and oil. Next, use the RustBlast to dissolve rust and prep the metal. Then, rustproof and top coat your engine with KBS Motor Coater. All of this comes in one convenient set with thinner, gloves, a brush, and a stir stick.

Crate Engines from **ATK**

Classic Industries® dedication to bringing the highest quality products on the market, combined with ATK's industry leading warranty make these Chevy ATK crate engines an obvious choice. Available in various configurations including a complete, "Ready-to-Run" package for those who want to bolt their engine into their GM muscle car and hit the road.

Important: Not for use in pollution controlled vehicles. Computer controlled vehicles may need updated chips or other modifications.

Note: Special order, prepaid only. Not eligible for No Fault Gold Warranty Program.

— Features a 24-Month/Unlimited-Mile Warranty! —

Mid-Dressed Performance

The ATK Mid-Dress package builds on the basics of the Base Engine, adding the distributor, a performance intake manifold, water pump, flexplate, and harmonic balancer. Add the carburetor and spark plugs and ignition wires of your choice.

350/325HP

This 350ci engine produces 325 HP and 375 lbs of torque on pump gas with the help of an duel plane intake manifold and aluminum heads. Includes: an oil pan, valve covers, timing cover, distributor.

Note: Price includes a core charge of \$410.00.

Specifications:

HP: 325
Torque: 375 lb-ft
Engine Type: Chevy small block V8
Displacement: 350ci
Block: 4 bolt main
Crankshaft: OE cast crank 1 piece seal
Bore/Stroke: 4.030 x 3.480
Rods: OE power metal 5.7000" stock bolts
Pistons: hypereutectic
Rings: moly
Camsshaft Type: hydraulic flat tappet
Camsshaft Lift: .465 in x .488 ex
Duration @ .50: 224 in x 234 ex
Heads: Dart cast iron
Chamber Size: 75cc
Valve Size: 1.94 in x 1.50 ex
Compression Ratio: 9:1:1
Rocker Arms: 1.5:1 stamped steel
Recommended Fuel: 91+ octane
Ign. Timing: 36 degrees total advance
Max RPM: 5800
HP291PM 350/325HP 3770.99 ea

383/415HP Stroker

This 383ci engine with performance aluminum heads produces 415 HP and 460 lbs of torque on pump gas. Includes: an oil pan, valve covers, timing cover, distributor.

Note: Price includes a core charge of \$410.00.

Specifications:

HP: 415
Torque: 460
Engine Type: Chevy small block V8
Displacement: 383ci
Block: OE 4 bolt main
Crankshaft: OE cast externally balanced
Bore/Stroke: 4.040 x 3.750
Rods: Scat 430 forged I-beam 5.700" ARP 8740 Bolts
Pistons: hypereutectic
Rings: moly
Camsshaft Type: hydraulic roller
Camsshaft Lift: .528 in x .536 ex
Duration @ .50: 220 in x 224 ex
Heads: ATK Hi-Performance aluminum
Valve Size: 2.020 in x 1.600 ex
Compression Ratio: 9:1:1
Rocker Arms: 1.6:1 billet aluminum full roller
Recommended Fuel: 91+ octane
Ignition Timing: 34-36" total advance
Max RPM: 5800
HP094M 383/415HP 5332.99 ea

350/390HP Aluminum Head

This 350ci stroker engine produces 390 HP and 420 lbs of torque on pump gas with the help of an ATK duel plane manifold and aluminum heads. Includes: an oil pan, valve covers, timing cover, distributor.

Note: Price includes a core charge of \$410.00.

Specifications:

HP: 390
Torque: 420 lb-ft
Engine Type: Chevy small block V8
Displacement: 350ci
Block: 4 bolt main 1 piece seal
Crankshaft: OE cast steel
Bore/Stroke: 4.040 x 3.480
Rods: OE power metal 5.7000" stock bolts
Pistons: Hypereutectic flat top
Rings: moly
Camsshaft Type: hydraulic roller
Camsshaft Lift: .528 in x .536 ex
Duration @ .50: 220 in x 224 ex
Heads: ATK Hi-performance aluminum
Chamber Size: 70cc
Valve Size: 2.02 in x 1.60 ex
Compression Ratio: 10.1:1
Rocker Arms: Billet alum. 1.6:1 full roller
Recommended Fuel: 91+ octane
Ign. Timing: 36 degrees total advance
Max RPM: 5800
HP89M 350/390HP 4884.99 ea

350/350HP Fitech EFI

This 350ci engine produces 350 HP and 400 lbs of torque on pump gas with the help of Fitech's EFI and cast iron Vortec heads.

Note: Price includes a core charge of \$410.00.

Specifications:

HP: 350
Torque: 400 lb-ft
Engine Type: Chevy small block V8
Displacement: 350ci
Block: 4 bolt main 1 piece seal
Crankshaft: OE cast steel

Performance Harmonic Damper

Fluidmtr performance harmonic balancers and dampers contain no rubber or elastomers. Instead, they are filled with a viscous silicone-based liquid that doesn't wear out after time. The liquid absorbs virtually all torsional harmonic vibrations at almost any frequency and constantly adjusts itself for optimum performance at all RPM ranges. Fluidmtr products are made from CNC-machined and balanced steel with a black zinc chromate finish. All dampers are SFI 181 certified and are designed to last a lifetime without being rebuilt. Made in USA.

Note: Small block dampers are not for 1992 and later LTJ engines.

GN110773 1986-87 tensioner 150.99 ea

1973-87 Accu-Drive® Camshaft Gear Drives

The Accu-Drive® gear system transmits power from the crankshaft gear to a full floating main idler gear which drives the camshaft gear. A unique feature of the Edelbrock Accu-Drive® system is the ability of the main idler gear to float to an optimum position between the crankshaft and camshaft gears.

Important: Not for use on stock Chevy hydraulic roller/lifter cam equipped engines. Accu-Drive® gears are not recommended for use above 7000 RPM or on computer controlled vehicles with knock sensors. On some late model small block engines, it will be necessary to check clearance behind the cam gear at the engine block at the 12 o'clock position. Make sure gear clears oil gallery boxes on block when in the most rearward position. Grind or machine block for clearance.

Emissions Note: (1) Non-CARB compliant (not legal for emission controlled vehicles).

Buick V6 Valve Covers

MADE IN USA

Edelbrock Signature Series Valve Covers for Buick 3.8L and 4.1L V6 1977 and later. Engineered for function and styled for great looks, Signature Series valve covers have stock style breather baffles that prevent oil passage to the PCV valve. The Edelbrock Signature Series valve covers are designed for Buick 3.8L and 4.1L V6 1977 and later applications. Engineered for function and styled for great looks, Signature Series valve covers have stock style breather baffles that prevent oil passage to the PCV valve. These quality valve covers accept all emissions equipment, including PCV valve holes. Rubber grommets for the breather and PCV valve holes are included. Matching breathers sold separately.

Note: Will not fit turbo engine.

Emissions Note: (3) Non-emissions (50 state legal).

Edelbrock

E4263 - oil fill hole detail

Elite Series II Valve Covers

Features a design that is influenced by the original Elite Series released in 1985, but with a new modern take on this classic look. They're made from heavy gauge, die-cast aluminum and are finished off with a show quality high luster polished finish. The raised fins are accented by a contrast gloss black finish between the fins for the definitive Elite Series look. Edelbrock's tall profile valve covers are 2" taller than stock, and clear most roller rockers and valvetrain components. Our low profile valve covers clear all air conditioning, alternator brackets and aluminum rockers. Overall height is measured from gasket flange to top at the highest point.

Emissions Note: (3) Non-CARB compliant (not legal for emission controlled vehicles).

Vintage Series Small Block Valve Covers

Designed to fit all 1955-86 small block Chevrolet engines with perimeter bolt patterns. Die-cast aluminum construction ensures superb detail and reduces the chance of warped valve cover flanges and oil leaks. 3-1/2" tall with pre-installed internal oil baffles on emission compliant models. Includes oil fill and PCV grommets.

Note: If your engine has non-standard valvetrain components, such as a high lift camshaft, roller tip rocker arm, higher lift ratio rocker arms, stud girdles, etc., there may be insufficient clearance.

Emissions Note: ⚠ Non-CARB compliant (not legal for emission controlled vehicles).

Ball Milled Billet Aluminum Breather Cap

Ball milled billet aluminum breathers for 1-1/4" valve cover holes. Manufactured from high grade aluminum, CNC-machined, and polished to a quality finish.

B20920 standard 51.99 ea

B21920 PCV 52.99 ea

Features:

- Machined for a precise fit
- Silicone o-ring to prevent oil seepage at the base of breather
- Removable filter element for cleaning and reuse
- Reduces unwanted accumulation of crankcase pressure

1986-87 V6 Turbo Valve Cover Breather

This valve cover breather assembly replaces the original oil fill tube found on the driver side valve cover of the 1986-87 Buick Regal turbo. This has a unique base which allows the installed filter to be level, much like the factory oil fill cap the unit replaces. This breather will reduce crankcase pressure which helps reduce oil seal leaks. Available for factory or aftermarket valve covers. Made in USA.

Note: This breather will reduce the effectiveness of the vehicle's PCV system, and it is NOT emissions legal.

Emissions Note: (2) Legal in U.S. (excludes California).

Push-In Style for Aftermarket Valve Cover

GN11105 1986-87..... 48.99 set

1986-87 Breather Oil Fill Tube

Custom made oil fill tube for 1986-87 turbo models. Designed for the stock/original valve cover. Includes a chrome-plated top breather and a silicone seal.

GN110751 1986-87 left side..... 39.99 ea

1986-87 Breather Bypass Set

Passenger side valve cover breather for 1986-87 Turbo models. This breather eliminates the OEM pipe and the danger of oil going through your system. Available with a chrome-plated cap, and rubber plug to close off the Turbo inlet bell.

Note: This breather bypass kit may not be legal for sale or use on pollution controlled vehicles in California and other states.

Emissions Note: (2) Non-CARB compliant (not legal for emission controlled vehicles).

--------	----------------------------------	-----------

Air Cleaner Element

A K&N air filter element can be washed up to 25 times before it is considered no longer serviceable. Even though the filter may not show outward signs of deterioration, it should be replaced after 25 washings. Excessive washings will deplete the tiny cotton hairs that crisscross the openings. The resulting damage will allow tiny dust particles to pass through. The elements listed below are designed for use with our K&N chrome and stainless steel air cleaner assemblies.

Emissions Note: * Non-emissions (50 state legal).
 E1650 3" height, 14" diameter 79.99 ea

XStream Air Flow Top and Assembly

If your engine still has its stock style filter element and air cleaner assembly, it most likely is not realizing its full horsepower potential. Restrictive elements combined with the turbulence inside a stock filter housing tend to choke off critical airflow. Put an end to this dilemma with K&N's XSTREAM Air flow top or the XSTREAM Air flow assembly and feed your engine all the air it can use. The result will be maximum horsepower! Choose from the complete assembly or just add the top to your existing round filter. Either way, you'll enjoy the benefits of a high flow element that cuts turbulence. Cleanable and reusable just like our other filters. Total height listed below is the minimum clearance needed above the carburetor flange.

Air Filter Sealing Grease

K&N Air Filter Sealing Grease seals the air cleaner assembly, eliminating the possibility of dirt, dust, and other particles from entering your carburetor from between the air filter element and air cleaner assembly. This is especially important if you will be operating your vehicle off-road or in extremely dusty conditions such as construction sites, etc. K&N Air Filter Sealing Grease resists heat and will not melt or run off.

REGAL Performance Filters

PRECHARGER Filter Wrap

The K&N PRECHARGER is a specially designed filter wrap made to extend the length of time between cleanings. A great idea when operating off-road or in very dusty conditions. They are made from a durable polyester material containing uniform micron openings. The PRECHARGER will stop small particles, yet add little restriction to the airflow of the filter. The PRECHARGER is designed to be run dry and can be cleaned with K&N Filter Cleaner. Double stitched elastic openings keep the PRECHARGER securely in place. Each comes silk screened with the K&N logo. Choose from black, blue, red, or yellow.

Important: Please specify black, blue, red, or yellow when you place your order.

Air Filter Oil & Clean/Degreaser Set!

K&N Air Filter Oil and Cleaner/Degreaser is the only oil and cleaner/degreaser specially formulated to work in combination with the cotton fabric in the K&N filter. The use of any other could void the filter's warranty and potentially harm the air filter's cotton material. The cleaner/degreaser works to dissolve the dirt buildup and old oil filter oil and can be washed away with water. It is environmentally friendly, and when used as directed, is safe on paint, chrome, cast aluminum, plastic, rubber and vinyl. Each set includes oil, cleaner/degreaser, and service decal. Your choice of 6-1/2 oz. aerosol spray or 8 oz. squeeze oil bottle is offered.

Carburetor Cover

Damage to pistons, rings and other components can be caused by accidentally dropping something into your carb while the air cleaner assembly is off. The K&N carburetor cover is used on 5-1/8" carburetors eliminating the risk of dropping bolts, nuts, screws, or other items down the throat and into the intake manifold. Also works well in keeping dirt, dust, and other elements out of your carb during times you must store your engine or vehicle with the air cleaner assembly removed. Choose from black, red, or orange.

REGAL Gasket Sets

Performance Head Gasket for Chevrolet Engines

Mr. Gasket head gaskets are one of the most advanced, tested and proven in the performance market today and earned the respect of many professional engine builders. A variety of gasket materials are available to meet your specific needs.

Emissions Note: (N) Non-emissions (50 state legal).

Mr. Gasket Ultra-Seal

The Ultra-Seal head gasket has a five layer composite construction and is coated with high temperature silicone to ensure seal of engine fluids. It's graphite core has excellent thermo-conductivity; transfers heat away from hot spots in head to coolant passages, preventing gasket burn out. The Ultra-Seal head gasket provides excellent stability, compressibility, high temperature endurance and will not Brinell (indent) aluminum cylinder heads.

.028" Comp. Thickness
71134 1977-80 305-350, 4.130" bore... 51.99 ea

Mr. Gasket MLS (Multi-Layered Steel)
The MLS head gasket is manufactured from Viton rubber coated stainless steel layers and is stress formed embossments seal extreme cylinder pressure. The MLS head gasket provides excellent stability and reduces cylinder bore distortion. Ideal for supercharged, turbo charged, nitrous, and extreme compression ratios.

.040" Comp. Thickness
73130 1977-87 283-350, 4.060" bore... 97.99 ea

Mr. Gasket Steel Shim

The Steel Shim head gasket is manufactured from .020" steel shim stock and is stress formed embossments seal extreme cylinder pressure. Made thinner than OE head gasket, increases engine compression and coated with high temperature silicone to ensure seal of engine fluids.

Note: Do not use with lightweight 305 heads.

.020" Comp. Thickness
71130 1977-80 283-350, 4.100" bore... 28.99 ea

Mr. Gasket Copper (Dead Soft)

The Copper head gasket is manufactured from dead soft solid copper. Provides excellent stability and reduces cylinder bore distortion and can be used with or without stainless steel o-rings. The Copper head gasket is ideal for supercharged, turbo charged, nitrous, and extreme compression ratios.

Note: Do not use with lightweight 305 heads.

.020" Comp. Thickness
71052 1977-80 283-350, 4.140" bore... 69.99 ea

Edelbrock

Intake Manifold Gaskets

These gaskets are matched to Edelbrock Performer, Performer RPM and Victor Jr. cylinder heads and manifolds and designed to optimize performance and flow. Made of a new micro-pore synthetic fiber composite, they are impervious to most chemicals and provide high recovery under compression. They will conform to imperfections on sealing surfaces at lower flame pressures and include a nitrate bead around each port opening for a durable seal. Made in USA.

Emissions Note: (N) Non-emissions (50 state legal).

E7201 1955-86 w/1.28" x 2.09" ports 25.99 set

Freeze Plugs

Avoid the chance of rusted leaking freeze plugs with this brass freeze plug set. Perfect for vehicles that sit for long periods and are a superior material for the every day driver. Gold plugs are 1-1/2" diameter and the silver plug is 2" diameter.

Emissions Note: (N) Non-emissions (50 state legal).

64812 Chevy small block..... 32.99 set

Gasket Maker

Makes reliable formed in place gaskets that resist cracking, shrinking and migrating. Coats pre-cut gaskets to increase reliability. Resists auto and shop fluids. Great for use on valve covers, intake manifold end seals, timing covers, water pumps, and thermostat housings. 3 oz. tube.

S80022 blue #6B..... 3.99 ea
S81160 red #26B..... 5.99 ea

Ultra Copper Gasket Maker

For use with turbo-charged engines or high-performance models. The most advanced, hi-temperature silicone gasket available. Sensor safe, low odor, non-corrosive. Outstanding oil resistance and joint movement values. Temperature range -75 to 700 degrees F. Inter-convertible. Recommended for pre-1980 six cylinder and V8 engines. Great for use on: exhaust manifolds/headers, valve covers, intake manifold end seals, oil pans, timing covers, water pumps, thermostat housings. 3 oz. tube.

S81878 copper #101B..... 5.99 ea

Form-a-gasket Sealant

Slow drying, non-hardening sealant designed for sealing cut gaskets and stamped parts. Allows for easy disassembly if required. Has a temperature range of -65 to 400 degrees F. Use where sealing is more important than adhesion. Resists shop fluids and fuels. Great for valve cover gaskets and oil pan gaskets.

S80016 3 oz. tube..... 3.99 ea

Super Silicone Sealant

Excellent for use with all types of gaskets. A rapid curing adhesive/sealant can also be used as a sealant between flanges, hose connectors, and similar close fitting parts.

08661 clear 3 oz. tube..... 14.99 ea
08662 black 3 oz. tube..... 16.99 ea

REGAL Intake Manifolds

Edebrock

Buick 455 B-4B Manifold

A resurrection of the popular B-4B manifold made in the late 1960s for street 400-430-455 c.i.d. Buick V8's. The only change to the original design is the addition of our proven Performer-style cast pad that accepts either square-bore or spread-bore casters, making this manifold an excellent choice for both restoration and performance-minded Buick fans. Made in USA.

Emissions Note: Ⓢ Non-CARB compliant (not legal for emission controlled vehicle).

E2515 1973-74 400-455 V8 529.99 ea

Edebrock

Performer Manifold

E2146

Dual plane, low rise intake manifolds with a 180 degree firing order and patented runner design. Improves torque over a wide RPM range, especially from off idle through the mid-range. There are EGR and non-EGR versions available for most GM V8s, and most intakes are 50 state street legal when used with the correct carburetor and on the correct application. Available in natural finish.

Emissions Note: Ⓢ Non-CARB compliant (not legal for emission controlled vehicle).

1967-76 Buick Big Block 400-455

E2146 without EGR 524.99 ea

1955-86 Chevrolet Small Block

Important: Will also fit 1987 and later stock aluminum cylinder heads. Will not fit Chevrolet Bow-Tie cast iron cylinder heads.

E2101 non-EGR 249.99 ea

E3701 with EGR 329.99 ea

1987-95 Small Block w/Cast Iron Heads

Important: Not for 1987 and later stock aluminum cylinder heads. Will not fit Chevrolet Bow Tie or LTI cylinder heads.

E3706 with EGR 369.99 ea

Edebrock

Performer EPS

Runner design that is tuned for peak power around 3500 RPM on a Chevrolet 350 V8, and has a solid power range off idle to 5500 RPM.

Important: Not for 1987 and later cast iron Chevrolet Bow Tie cylinder heads. Will fit 1987 and later stock aluminum cylinder heads.

Emissions Note: Ⓢ Non-CARB compliant (not legal for emission controlled vehicle).

Natural Finish

E2701 non-EGR 189.99 ea

Edebrock

Buick V6 Performer Intake

Edebrock Performer Buick V6 intake manifold is designed for 1979 and later street 231/252 c.i.d. (252 c.i.d. 1980-84 only) Buick V6 engines with late-model cylinder heads. Manifold will not fit pre-1979 engines. Manifold not equipped with EGR. Not compatible with C-3 and C-4 electronic fuel management systems Made in USA.

Emissions Note: Ⓢ Non-CARB compliant (not legal for emission controlled vehicle).

E5486 3.8L/4.1L natural 369.99 ea

Edebrock

Performer RPM

Dual plane, high rise intake manifolds with a 180 degree firing order to produce incredible top end horsepower while retaining good throttle response. Their larger plenums and runners match free flowing exhaust, and high lift cams and other modifications of a high output engine. They are intended for high-performance street or competition engines that run up to 6500 RPM. Not for emissions controlled vehicles.

Important: Will fit cast iron Chevrolet Bow Tie cylinder heads, but will not fit 1987 and later cast iron cylinder heads.

Emissions Note: Ⓢ Non-CARB compliant (not legal for emission controlled vehicle).

Natural Finish

E7101 non-EGR square bore 272.99 ea

Edebrock

Performer RPM Air Gap

This award winning design incorporates the same race winning technology that's been used by Edelbrock competition intakes for years. The Air Gap design features an open air space that separates the runners from hot engine oil, resulting in a cooler, denser intake charge that delivers more power. RPM Air Gap manifolds are modeled after Performer RPM intakes for street power from 1500 to 6500 RPM.

Emissions Note: Ⓢ Non-CARB compliant (not legal for emission controlled vehicle).

Natural Finish

E7501 non-EGR 345.99 ea

1967-76 Buick Big Block Performer Head

Edebrock Performer RPM cylinder heads are designed for 400, 430, and 455 c.i.d. Buick engines. This cylinder head includes adjustable rocker stud and guide plate setup for use with small block Chevy style adjustable 1.6:1 ratio rockers. The large 68cc combustion chambers produce 9.2:1 compression ratio with stock pistons. Performer RPM head is perfect for daily drivers where seat-of-the-pants performance is needed.

Note: Shipped overweight.

Emissions Note: Ⓢ Non-CARB compliant (not legal for emission controlled vehicle).

60049 1967-76 68cc chambers 1474.99 ea

1955-86 SB Performer Head

Designed for 1955-86 small block Chevrolets, these heads have the same powerful design and combustion chambers as the straight plug Performer RPM heads plus an exhaust crossover passage for emissions equipment compatibility. Performer heads with 64cc combustion chambers improve performance and retain stock compression ratio on 1970 and earlier small block. Hardened pushrods required.

Important: When using hot air choke carburetors and Performer manifolds with these heads, choke set E1932 is required. When using stock rockers on these heads, 100" longer pushrods are required. These heads may not be used on engines with less than 4" bore except with cams having less than .450" valve lift.

Note: Shipped overweight.

Emissions Note: Ⓢ CARB EO compliant (50 states legal).

60759 1955-86 70cc chambers 984.99 ea

60909 1955-86 64cc chambers 979.99 ea

1986-87 V6 Vacuum Block Off Plate

This block off plate is used when relocating the vacuum lines originally on top of the manifold to a different location. Plate includes sealing o-ring and mounting screws. Made in USA.

GN110327 1986-87 natural aluminum 35.99 ea

Intake Manifold Buick Power 6 Emblem

Reproduction round Power 6 emblem is internally mounted on top of the intake manifold. Manufactured of enameled metal and coated with colors.

GN110882 Power 6 45.99 ea

Your Choice of Four Convenient Sets to Meet Your Specific Needs!

Important: On small block applications, High Energy™ Cams may be used with stock valve springs and lifters. However, these components must be in good operating condition. In order to protect your camshaft warranty and for maximum performance benefit, we recommend replacing stock valve springs and lifters with a high-performance set from Classic Industries®.

A – Camshaft Only

The camshaft only set includes camshaft, instructions, assembly lube and decals.

B – Cam and Lifters

Order the cam and lifter set to add a matched set of lifters to your camshaft.

C – Small Set

Order the small set for cam and lifter set plus timing chain and gear.

D – Full Set

Full set includes cam, lifters, timing chain and gear valve springs and retainers, valve locks, valve stem seals.

High Energy™ Cams for Your Daily Driver!

All High Energy™ designs are totally streetable cams. They will produce 10 to 30% more power than a stock cam throughout the RPM range. Each cam has a particular RPM range in which it works best. By selecting the cam that best suits your driving needs, exceptional power increases can be expected. High Energy™ Cams work great for everyday driving without the "bad" side effects normally

found with other cams. High Energy™ cams produce more power, are more efficient, and do not affect the engine's idle characteristics to the point of making your vehicle undriveable. High Energy™ Cams will not affect any vacuum or power accessories such as power brakes, air conditioning or steering.

CAMS for your High-Performance Street Machine

The Magnum™ Cam is a great cam for high-performance driving in street machines. Provides 30-70% more horsepower and a rough and ready to rumble idle in small block Chevy applications. The Magnum™ will not affect power accessories, but should be used with headers. This is the perfect cam for cruising.

Xtreme Energy™ Cams are Comp Cams series of hydraulic cams. They are designed to take advantage of the latest improvements in valve train components and the newest developments in camshaft design. Xtreme Cams can be used in any street or street/strip application where both throttle response and top end horsepower are desired. Increases horsepower from 20-70% over stock.

Full Set - includes camshaft, lifters, chain set, valve springs, valve spring retainers, valve locks, valve stem seals, assembly lube, instructions and decals.

Cams for Your Carbureted Chevrolet Small Block

If you have a late model computer controlled engine, you have to be VERY CAREFUL when selecting a high-performance aftermarket cam! The wrong cam could "throw off" the computer, spelling real trouble for your vehicle's drivability and performance. Comp Cams has engineered this line of camshafts specifically for these engines, ensuring that you get a camshaft that works WITH your computer, providing exceptional performance and drivability out of your late model 1978-80 Chevy engine! This cam is designed for carbureted 305/350ci computer controlled Chevrolet engines.

Important: This cam will work with stock valve train components, but in order to retain your camshaft warranty and for maximum performance benefit, we suggest replacing the stock components with a matched set from Comp Cams.

Oil System Components

Engine Oil Cooler

Engine oil is designed to act as a coolant as well as a lubricant for your motor. If the engine oil is allowed to get too hot, horsepower drops, varnishes form, and the oil starts to break down, which can lead to premature engine wear. Flex-a-lite heavy-duty oil coolers can help prevent this by keeping oil temperatures down, helping to ensure longer-life to engines and components, and reduce the stress created by high-performance engine modifications. Also suitable as a heavy-duty transmission fluid cooler. Includes -8, -10, and -12 interchangeable AN fittings with o-rings.

Important: Depending on application and setup, additional fittings or adapters may be required.

*Note: Dimensions: width = 11"; depth without fan = 1-3/4", with fan = 4-1/4"; variable height, see height below in the line listings. *Dual 6-1/2" fans.*

Oil Filter

The K&N Performance Gold® oil filter provides up to 550 psi hydrostatic burst, and helps reduce the risk of rock or stone damage. The inner filter element traps contaminants as small as 10 to 20 microns in size. Metal top end caps are used instead of paper to ensure that no unfiltered oil can get back into the system. High volume positive oil flow with low restriction coupled with exacting engineering standards results in the right balance between engine protection and low oil pump drag.

High-Performance Synthetic Engine Oil

Delivers superior protection and improves performance in four cycle gasoline and diesel engines. Increase horsepower and torque, save fuel and reduce heat, wear and emissions! It has unsurpassed oxidation stability that allows for extended oil drains and fewer oil changes, which saves time, money and reduces the impact on the environment. Royal Purple's motor oils for passenger cars and trucks are API licensed. Performance advantages come from a blend of synthetic oils plus Royal Purple's proprietary Synerlec technology. Compatible with other mineral and synthetic motor oils.

REGAL Ignition Products

MSD

Features:

- Timing based on engine RPM and gear valve
- Advanced individual cylinder timing based on gear or timing
- Five retard stages for nitrous
- Four steps of RPM limits for burnout, spool, launch and over rev
- Output switch set on RPM, pressure or time
- Shift light settings for each gear
- Ignition data acquisition accepts multiple runs
- Crank trigger system highly recommended

Power Grid System

The Power Grid System is the next evolution of programmable ignition controls. The grid incorporates an efficient 32 bit micro-controller and an all new software program, called MSD View, and is USB compatible. The Power Grid Controller is the brains behind the entire system and can be used with any MSD ignition or the Pro Mag to provide advance ignition tuning capabilities. While it is compatible with all MSD boxes, the new Power Grid System Controller has been specially designed to mount to the Power Grid-7 ignition box sold separately. Includes: View software, wiring harness, micro-SD card and mounting hardware.

Note: To use any modules with the Power Grid Ignition System, (7720 and 7730), users **MUST** plug the modules into a 4 connector CAN-Bus Hub (7740) to be attached to the Power Grid System Controller.

Emissions Note: * CARB EO compliant (50 state legal). ** Non-CARB compliant (not legal for emission controlled vehicles). ** Non-emissions (50 state legal).

Coil Wire

If you're changing a coil or cap to a new design, you could find yourself searching for different terminals for the coil wire. MSD offers these 2 style coil wires to make the change easy. Also, remember that the coil wire sees 8 times the use of each plug wire so changing the coil wire as a maintenance through the race season is recommended.

Important: *18" long, straight female socket coil terminal and boot on one side with a straight female socket distributor cap socket terminal and boot on the other.

**18" long, 90 degree male coil terminals and boots are installed on both sides to connect to an HEI style terminal. A terminal adapter is also supplied to adapt to a female socket style distributor cap.

Emissions Note: * Non-emissions (50 state legal).

6A/6AL Ignition Control

MSD's new Digital 6A is the base model of the capacitive discharge multiple spark 6 Series design. Features the same footprint as the traditional 6A and 6AL, but with a lower profile for a sleek look. Like all MSD 6 Series Ignitions, the 6A will work with virtually any vehicle as long as it has a 12 volt electrical system. It can be triggered using breaker points, a magnetic pickup or the output of an electronic amplifier. All necessary parts and wiring instructions are included. Will work on 4, 6, and 8 cylinder engines. The new Digital 6AL shares the same proven circuitry of the Digital 6A, with the addition of a built-in adjustable rev limiter with two top mounted rotary dials. The combination of powerful sparks with the safety of a rev control is what makes the Digital 6AL the most popular ignition control in the world.

Emissions Note: * CARB EO compliant (50 state legal).

90 degree boot multi-angle boots

2-in-1 Universal Wire Set

These universal spark plug wire sets are made from MSD's super conductor performance wire. Universal wire sets have only the spark plug boot and terminal installed. These boots and terminals are available in your choice of a 90 degree boot or a multi-angle boot. The distributor end boots and terminals are supplied, but not crimped on. Both sets include terminals for engines with either the early style (socket) and late style (HEI) distributor caps. The wires are extra long so they can be cut-to-fit any application. Each set includes a MSD mini-stripper crimper for easy installation. Available with wires in either black or red.

Emissions Note: * Non-emissions (50 state legal).

Spark Guard

MSD's spark guard is a dielectric grease that solves many common ignition troubles. It stops voltage leaks, eases boot removal, prevents moisture buildup inside the spark plug wire boots, and even helps protect against radio noise (EMI). It also simplifies the installation of MSD universal spark plug wire sets. Spark guard will not dry up or harden so it will retain its spark isolating capabilities indefinitely.

Emissions Note: * Non-emissions (50 state legal).

HyperSpark Ignition Coil

Sniper EFI HyperSpark ignition coil from Holley Performance.

This coil features an innovative connector and integrated bracket for a secure connection and simplified mounting. Its powerful 135MJ of spark ensure complete combustion and improved performance. Like the rest of the HyperSpark line of ignition products, this coil is designed to be "Plug and Play" with Sniper EFI Systems.

Emissions Note: ④ Non-CARB compliant (not legal for emission controlled vehicles).

H556152 46.99 ea

HyperSpark CD Ignition Box

Sniper EFI HyperSpark ignition box from Holley Performance.

This box features a sealed and powder coated housing, and an external LED to verify 12V, cranking RPM, and low battery voltage. Its powerful 135MJ of spark ensure complete combustion and improved performance. Like the rest of the HyperSpark line of ignition products, this box is designed to be "Plug and Play" with Sniper EFI Systems.

Emissions Note: ④ Non-CARB compliant (not legal for emission controlled vehicles).

H556151 V8 315.99 ea

Power Coil

The TSP power coil is capable of delivering a longer and hotter spark with up to 70% more spark energy than stock ignition coils. Its convenient design easily mounts to fire walls, core supports and fender wells. It features an aluminum heat sink keeping it cooler for more efficient energy output at lower temperatures. Coils have an HEI style output tower and are rated at 50 kV maximum voltage with 260 mA peak current with 0.35 Ohm primary resistance. Coils include installation hardware, a coil wire boot with terminal and a wiring harness.

8mm Superstock Spiral Plug Wires

ACCEL's SuperStock Spiral Core 5000 Series wire sets. With only 500 Ohms per foot of resistance, more ignition energy can reach the spark plug, producing a longer-lasting, hotter spark flame kernel. This 8mm wire's double silicone construction is rated to 550 degrees F. The high gloss wire jacket resists moisture, chemicals, and heat extremes for longer life and great looks. Stainless steel plug terminals. High RFI suppression for street and strip use. Universal wire sets include standard socket and HEI boots with the appropriate terminals. Made in USA.

Core: Spiral wound stainless steel alloy conductor, magnetic suppression and semi-reactive material, fiberglass/Kevlar core, 500 Ohms per foot resistance.

Note: Universal fit 8 cylinder wire sets can be used for 6 cylinder applications.

Emissions Note: Ⓢ Non-emissions (50 state legal).

8.8mm Spiral Suppression Plug Wires

These ACCEL 8.8mm wires feature a carbon/graphite core that virtually eliminates RFI noise while providing maximum conductivity for ultimate performance in any race or street application. Double silicon insulation eliminates leakage and misfire. Wire set includes standard socket boots with the appropriate terminals for points style distributor cap. Made in USA.

Core: Spiral wound stainless steel alloy conductor, magnetic suppression, semi-reactive material, fiberglass/Kevlar core, 500 Ohms per foot resistance.

Note: Universal fit 8 cylinder wire sets can be used for 6 cylinder applications.

Pro-Billet Distributor

These distributors feature a flawless lightweight CNC-machined 6061-T6 billet aluminum housing and a polished steel shaft that receives a PQP, or Turfride coating. This process produces a durable finish that reduces friction and resists corrosion. To accurately guide this shaft,

MSD uses a sealed ball bearing located at the top of the housing. At the bottom of the housing, an extra long sintered bushing controls the shaft. This combination keeps the shaft spinning smooth and accurately throughout 10,000+ RPM. Other features include an iron drive gear, Rymite® distributor cap with brass terminals and a high output magnetic pickup to trigger the ignition. Choose from the "standard" Pro-Billet distributors that utilize the MSD 6, 7, 8, or 10 series ignition control box or from our "Ready-to-Run" distributors that are internally controlled. "Ready-to-Run" distributors do not require an external controller and are the "Plug and Play" alternative to more expensive computer controlled systems. Made in USA.

Emissions Note: Ⓢ CARB EO compliant (50 states).

ⓈⓈ Non-emissions (50 state legal).

1975-80 Vacuum Advance

A primary component of your vehicle's ignition system is the vacuum advance. The vacuum advance is a mechanism attached to the distributor which moves the breaker point or pickup coil plate when it receives vacuum generated by the engine. Over time, the vacuum advance can become worn or the diaphragm can become brittle and crack causing the vehicle to run poorly.

8.5mm Super

Conductor Spark Plug Wires

The MSD 8.5mm Super Conductor is the ultimate performance wire. It's extremely low resistance combined with the ability to suppress electro magnetic interference is a combination that defies the common laws of physics. Less resistance means more energy is going to make it to the spark plug to ignite the air/fuel mixture. The Super Conductor uses a copper alloy conductor resulting in less than 50 Ohms per foot of wire. This ensures that the most energy possible makes it to the spark plug. This combination is encased in a heavy-duty sleeve that will withstand abrasion and high temperatures. Cap off each end with our dual crimp terminals. Made in USA.

Important: With wires over valve covers.

Emissions Note: Non-emissions (50 state legal).

1/4" to 3/8" shorter

1973-87 Spark Plugs

Acdelco's patented race proven spark plugs are now available in a "shorty" configuration. The overall length of each plug has been reduced 1/4" to 3/8" (depending on the specific spark plug) to gain critical air gap space between the spark plug boot and the exhaust manifold or header tube. This helps eliminate burning the spark plug boot or dimpling the header tube. The shorter spark plug length also can make it easier to install and remove the spark plugs in certain applications where there is not a lot of room to work with a socket or wrench.

Note: Sold in sets of four. Two sets requires for 8 cylinder applications.

Emissions Note: Non-emissions (50 state legal).

REGAL Alternators

Internal and External Regulator Alternator Identification Guide

External Regulator	Internal Regulator "SI" Type	Internal Regulator "CS" Type
connector socket	connector socket	connector socket
battery terminal	battery terminal	battery terminal
1963-74	1969-85	1986-Present

Clocking Position Identification Guide

The Delco SI series alternators are manufactured so that the rear half of the alternator case can be assembled to the front half of the case in any one of four positions. These positions are referred to as the "clock" positions. Clock positions are determined by viewing the alternator from the rear with the threaded mounting hole (adjusting ear) straight up. With this view, the terminal socket for the two wire, plug-in connector will point to any one of the four available "clock" positions. Straight up is 12 o'clock, the right is 3 o'clock, straight down is 6 o'clock and to the left is 9 o'clock. Having the different clock positions allows for the alternator to be mounted on the left side or right side of the engine. It can also be mounted right side up or upside down depending on the clock position. This allows for the SI series alternator to be used on many different applications.

DynaForce Alternator

DynaForce blue printed alternators cover your electrical needs whether it's a high output Street Series unit for a high feature street rod, or a low output, low drag Track/Racing unit for a purpose built race car. Street Series alternators are offered with chrome or black finishes and are designed to fit most GM bracket systems from the 1960's to the 80's with a simple one wire hook up. Racing alternators are available in a 50 amp Denso style or 100 amp GM style and are compatible with 12 and 16 Volt electrical systems thanks to an adjustable voltage regulator. They feature the same one wire hook up and a red wrinkle finish. Every alternator assembly is tested and is delivered with proof of performance. Made in USA.

Note: Some models require the reuse of original pulleys.

Emissions Note: Non-emissions (50 state legal).

1973-87 Quality Remanufactured Alternator

We offer a huge selection of remanufactured alternators, but sometimes it is more cost effective on late model vehicles to replace with a brand new unit. For this reason, we have chosen not to list remanufactured units on these late model vehicles. If your late model is not listed here, check our listings for brand new alternators. Remanufactured and tested to OE Specifications! No Core Charge!

Note: For proper identification, you may need to check your VIN code on listings with suffixes after the engine size.

*HBW = Heated Back Window defroster.

1973-87 Performance Alternator

MADE IN USA

Classic offers quality replacement alternators for 1973-87 Buick Regal models. We also offer performance alternators that offer higher amp output than stock replacements. Each alternator includes a tag attached with the amps it put out when tested. Made in USA.

Note: 1973-85 alternators are 12SI and can be used as 1 or 3 wire alternator. All alternators are clocked at 3 o'clock. Other clocking positions are available, please call for a quote. Polished and stan. finishes are available.

1973-87 Voltage Regulator

A voltage regulator is an electrical device used to control the output of a generator or alternator. Regulators are either external or internal. External regulators are normally located on the fender wall in the engine compartment. Internal regulators are mounted in the alternator housing. Fits 1973-87 Regal models.

Starter Heat Shield Set

Starters take in a lot of damaging heat that destroys the starter and solenoid. To combat this problem, we offer a non-conductive strap-on heat shield with a highly reflective Mylar surface. Starter Heat Shield will reflect over 90% of radiant heat, adding life to the starter and assuring reliable starts.

TT1002 universal 27.99 set

1973-87 Buick Regal Starter

Remanufactured or brand new starters for Buick engines. Manufactured to correct specifications and will install and function as original. No core required.

Note: *With aluminum drive end housing.
**With cast iron drive end housing.

1978-87 Buick Regal Fuel Tank

Holley Sniper EFI conversion fuel tank system for select 1978-87 Regal models. Each tank is galvanized and then powder coated to maximize corrosion resistance. They feature OEM style internal baffling, including an extra large internal fuel tray to promote optimal fuel pump performance. These tanks are a direct, bolt-in install for select most applications, capable of supporting 550 HP. The system includes the tank, a 255 lph fuel pump, a fuel level sender, and the filler neck. Sender operates at the same 0-90 Ohms as the factory GM fuel level gauge. Fuel capacity: 17 gal.

Note: Shipped double oversize.

H19145	1978-87	2 door	709.99 ea
--------	---------	--------	-----------

Emissions Note: Non-CARB compliant (not legal for emission controlled vehicles).

- Perfect for EFI and carbureted engines
- OEM appearance and 17 gallon capacity
- Silver powder coated finish
- EFI style internal baffling
- 0-90 Ohm universal fuel level sending unit
- Black anodized pump hanger assembly
- 340 Stealth in-tank fuel pump
- 3 ports: outlet, return and vent
- Fuel pump supports up to 700 HP EFI forced induction, 850 HP EFI naturally aspirated, and over 900 HP carbureted engines

1978-87 Performance Fuel Tank with Pump

Upgrade the fuel tank in your 1978-87 Regal model with this performance Stealth fuel tank from Aeromotive. Features an innovative baffle and tray design to control fuel slosh, ensuring good street drivability even at lower fuel levels. This powder coated steel tank includes a 0-90 Ohm sending unit, 340 Stealth pump with pre-pump filter sock for protection, a billet hat with robust electrical bulkhead connections, ORB-06 outlet, return, and vent ports, ensuring high flow capacity and a positive, leak free seal at any pressure. Fuel capacity: 17 gallons.

Note: Stealth fuel tanks are not engineered for competition drag racing or road racing applications where extreme acceleration and cornering will occur with fuel levels lower than 1/2 tank. Fuel tank dimensions: 40" x 11" x 33". Shipped oversize.

Gold Standard Fuel Tank Sealer Set

Our 3 step fuel tank sealer set contains almost everything you might need to seal a tank of up to 25 gallons. The Gold Standard Tank Sealer is specifically formulated to stop rust and corrosion by forming a tough, fuel impervious coating while simultaneously sealing small pinholes and weld seams. The prep products are formulated to extend storage times by leaving a zinc phosphate film that prevents rust until you have a chance to seal the tank with the sealer. Complete set and individual items available.

3 Step Fuel Tank Sealer Set

Buy our fuel tank sealer set and save! Each fuel tank sealer set includes: 2 quarts of Klean (a water based, heavy-duty, cleaner/degreaser), 1 quart RustBlast (a powerful rust remover/metal etch), 1 quart Gold Standard Tank Sealer, gloves, instructions, and a stir stick.

Driven Carb Defender

Driven Carb Defender Fuel Additive has been formulated to protect against harmful ethanol deposits and corrosion in fuel and the induction system. Special inhibitors resist expensive damage and reduced performance from moisture accumulation from modern ethanol blended gasoline. This additive controls combustion chamber residue, cleaning and protecting fuel system and intake tract surfaces to keep carburetors functioning properly. Carb Defender is ideal for everyday drivers or classics that spend time in storage between cruises and special events. One bottle treats up to 25 gallons of ethanol blended fuel.

JG1341	case of 6 - 4.5 oz. bottles..	147.99 cs

Fuel System Cleaner

Max-Clean targets and cleans deposit buildup in the intake system and combustion chamber residue as effective on the entire spectrum of engines on the road. Deposit buildup is a natural consequence of fuel combustion, but can have significant effects on the performance and reliability of your engine. Royal Purple's Max-Clean can restore internal engine surfaces, recovering lost fuel economy and performance.

RP11722	20 oz. can.....	15.99 ea
RP11723	case of 6 - 20 oz. cans.....	91.99 cs

Defender+Booster Fuel Additive

Raises the octane in unleaded fuels, reduces valve seat wear and protects against the corrosion deposits common with today's gasoline. Like Driven Carb Defender and Injector Defender Fuel Additives, this product features corrosion inhibitors that control combustion chamber residue, as well as clean and preserve surfaces of the fuel system. By cleaning and controlling combustion chamber and intake valve deposits, Defender + Booster Fuel Additive protects against detonation and improves fuel economy. The additive is ideal for all carbureted and fuel injection vehicles, including motorcycles and marine engines. Each 10 ounce bottle treats up to 25 gallons of gasoline, and regular use has been proven to lower emissions.

--------	--------------------	----------

J-B Weld Gas Tank and Radiator Repair

AutoWeld is a hand mixable, steel reinforced, non-rusting epoxy putty that quickly repairs or rebuilds anything made of metal. After mixing, it forms an industrial strength polymer compound that can be molded into shapes or used to buildup, patch and repair steel components. AutoWeld sets in 5 minutes and after 60 minutes, can be drilled, tapped, machined, ground, filed, and painted. Cures dark gray. Made in USA.

Holley

1977-80 Chrome Fuel Pump

Replace your original fuel pump with genuine Holley chrome fuel pumps. Each mechanical fuel pump is triple chrome-plated and flows 60 gallons per hour at 7-1/2 psi. Includes an adjustable lower housing allowing 360 degree rotation of fuel inlet-outlet fittings for custom installation. For models with a Chevrolet small block engine.

Emissions Note: (N) Non-emissions (50 states legal).

12834 1977-80 small block Chevy... 115.99 ca

Edelbrock Performer RPM 110 GPH Fuel Pump

Designed for all Edelbrock carburetors used in Performer or Performer RPM applications. This high-performance street fuel pumps feature a high-quality three stage polished finish. The unique valve design improves flow quantity and quality, and will support engines up to 600 HP. High volume, 3/8" NPT inlet and outlet surpasses the capacity of conventional models. Produces 6 psi and does not require a regulator. For gasoline only. Clockable lower housing can be rotated for best inlet/outlet alignment.

Emissions Note: (N) Non-emissions (50 states legal).

Electric Fuel Pump

These externally mounted electric fuel pumps are ideal for most street and strip applications. Proven rotary vane technology provides high flow and stable pressures with minimal vibration and sound. Each pump features 3/8" NPT inlets and outlets along with an externally accessible pressure relief valve.

Note: Not for fuel injected engines. Pumps that produce more than 7 psi should be used with a pressure regulator.
Emissions Note: * ④ Non-CARB compliant (not legal for emission controlled vehicles).

Quiet-Flo Electric Fuel Pump

State-of-the-art electric fuel pumps offer maximum performance in a compact package for carbureted applications. Anodized aluminum housing and high-quality internals make it both strong and extremely durable. The E1791 electric fuel pump is factory set to 6.5 psi does not require a regulator; 3/8" inlet/outlet. 120 gph free flow, up to 600 HP. The E1792 electric fuel pump is preset to 12 psi and requires an external regulator; 1/2" inlet-outlet, 160 gph free flow, up to 1000 HP.

Important: For proper installation and voltage requirements, use fuel pump relay E1795.

Emissions Note: ④ Non-emissions (50 states legal).

Aeromotive

EFI Bypass Regulator

Performance EFI regulator designed for medium to high horsepower applications. This regulator features Aeromotive's high flow design, superb pressure control and legendary durability. Features base pressure adjustable from 40-75 psi, gasoline and alcohol compatible, fuel pressure rises on a 1:1 ratio with boost, 1/8" National Pipe Thread taper (NPT) gauge port. Includes 2 O-ring boss fittings (ORB-06) inlet ports and 1 O-ring boss fitting (ORB-06) return port.

A9713109 adjustable with EFI..... 209.99 ea

Aeromotive

Universal Bypass Regulator

A dual purpose, universal regulator for EFI or for Carbureted street/strip applications. Features pressure adjustable from 3 to 20 psi with standard spring, (installed) or from 20 to 60 psi with high pressure spring (included). Offers the full flow and rock steady fuel pressure that only a dynamic, Aeromotive bypass regulator provides. Capable of regulating any fuel pump between 100 and 250 gph, fuel pressure rises on a 1:1 ratio when referencing boost. All ports are 3/8" National Pipe Thread taper (NPT), with one inlet and three outlets on the main body and one return port on the bottom. Bypass design provides the ultimate, dynamic fuel pressure control.

Note: Requires a return line to be installed from the bottom of the regulator to the top of the tank.
3 Port 3/8" NPT
A9713301 209.99 ea

Aeromotive

Carbureted Bypass Regulator

For use when converting from fuel injection to carburetion using the EFI pump in a carbureted application. Perfect for naturally aspirated or "blow-through" supercharged engines. Features base fuel pressure adjustable from 3-15 psi, 1 O-ring boss fitting (ORB-10) inlet port and 1 O-ring boss fitting (ORB-08) return port, fuel pressure rises on a 1:1 ratio when referencing boost, bypass design provides the ultimate, dynamic fuel delivery system, ideal for converting from fuel injection to carburetion using the stock, in-tank pump. EFI conversions will require a larger than stock return line for proper low pressure control. Includes two O-ring boss fittings (ORB-06) outlet ports and 1/8" National Pipe Thread taper (NPT) gauge port.

Note: Requires Army/Navy fitting (AN-08) return line from bottom of regulator back to top of the tank.
A9713204 2 port..... 219.99 ea

Fuel Pump Safety Switch

This safety feature is a must have for any electric fuel pump vehicle. This safety switch monitors the tach signal to limit when an electric pump can operate. When the key is first turned on, the fuel pump is allowed to run for three seconds, priming the fuel system. After that, it only operates if the engine is running. If the engine stops, so does the fuel pump. No plumbing into the oil lines or no extra priming button under the dash is required.

REI2003 64.99 ea

Fuel Pump Safety Switch

This fuel pump safety switch shuts off fuel flow whenever oil pressure drops below 15 psi. This adds a safety factor in case of an accident or engine stall. Designed for 12 Volt electrical systems and can be tuned into the oil pressure sending unit with an 1/8" NPT tee.

Emissions Note: ④ Non-emissions (50 states legal).
77872 28.99 ea

Edelbrock

Fuel Pump Relay

This universal fuel pump relay will ensure proper wiring which reduces the risk of damaging the fuel pump, and offers consistent fuel pressure. This relay is used with fuel pump part #E1791 or #E1792.

Emissions Note: ④ Non-emissions (50 states legal).
E1795 universal relay..... 76.99 ea

REGAL Performance Carbs

Edelbrock

Thunder Carburetors

The Thunder Series carburetors share all the performance advantages of the popular Performer Series but with innovative new features. The Quick-Tune secondary air valve can be easily adjusted to match your needs. Whether you want the secondaries to "kick in" early or late, you can set the air valve using standard tools, with no extra springs. Its a quick and simple process. These carburetors include all of the performance features of the Performer Series carburetors and also include distinctive black hardware, dual fuel inlets (shipped with left side plugged), lightweight ball burnished and CNC profiled body, and the Quick-Tune secondary. They're available in 650 cfm and 800 cfm sizes with manual or electric choke. There's even an 800 cfm version specifically designed for off-road vehicles. These Edelbrock carburetors bolt-on and run right out of the box! Simply dependable, proven performance for almost any carbureted vehicle. All Edelbrock carburetors include an installation kit and owners manual.

---------	---------	----------------	-----------

Edelbrock

Performer Carburetors

Performer Series carburetors complete the Edelbrock Power Package System for a smooth running and great performing "no guesswork" parts combination. By design, Performer Series square-bore carburetors are refined to provide the widest possible torque range when matched with Edelbrock Performer, Performer RPM, RPM Air Gap or Torker II manifold and camshaft combinations. However, these carburetors are not limited to these applications, they also match well with most stock and other manifolds of similar design. Performer Series square bore carburetors are all aluminum, ball burnished and lightweight. There are no power valves to blow out or plastic parts to break. The 2 piece construction resists warping and the metering rods can be changed in seconds without removing the carburetor. These Edelbrock carburetors bolt-on and run right out of the box! Simply dependable, proven performance for almost any carbureted vehicle. All Edelbrock carburetors include an installation kit and owners manual.

E1405

500 CFM Carburetor

Recommended for small cubic inch Performer and dual quad applications. Includes both timed and full vacuum ports for ignition advance.

Emissions Note: ③ Non-CARB compliant (not legal for emission controlled vehicles).

REGAL Performance Carbs

Street Series Carburetor

Street carburetors are constructed of lightweight aluminum, including provisions for a choke assembly and changeable idle air bleeds for easy, non-permanent calibration changes if necessary. Fine tuning is accomplished by simply changing air bleeds, not opening up calibration restrictions with a drill bit! These dual fuel feed inlet carburetors are hand assembled in the U.S. using the PROFORM high flow carburetor main body, durable billet metering blocks, aluminum fuel bowls, and a high-performance billet throttle base plate.

Emissions Note: Ⓢ Non-CARB compliant (not legal for emission controlled vehicles).

● Carburetor Main Body Features:

Lightweight Aluminum - Not Heavy Zinc
High Flow Center Section Design
Flat Surfaces: CNC Precision Finish
Changeable Screw-in Idle Air Bleeds
Changeable Screw-in High Speed Bleeds
High-Performance Down Leg Boosters except 650 cfm
Electric Choke on Mechanical Secondary and Vacuum Secondary Models

● Fuel Bowl Features:

Lightweight Die-Cast Aluminum
Fuel Level Sight Windows
Externally Adjustable Needle and Seat
Dual Fuel Feed Inlet
Notched Secondary Flare

Slayer Series Carburetor

The 600 and 750 cfm Slayer Series carburetors are designed with the same engineering and innovations featured on all QFT™ products. These affordable, vacuum secondary street carburetors feature all aluminum construction and hand built quality. They are designed with a secondary metering plate with changeable jets, eliminating the need for a costly secondary metering block. Get QFT™ race winning innovation for your vehicle at a great price.

Emissions Note: Ⓢ Non-CARB compliant (not legal for emission controlled vehicles).

- Changeable idle air and high speed bleeds
- 3 Stage emulsion circuits in primary metering block
- Changeable primary idle feed restrictions and power valve channel restrictions
- QFT™ QuickSet™ adjustment on the vacuum secondary housing that provides external adjustment of the diaphragm without changing springs
- Notched secondary flate for use with jet extensions
- Secondary metering plate with changeable jets
- Fully adjustable electric choke
- Polished finish for superior good looks

Street Demon Calibration Set

This calibration set allows fine tuning of Street Demon carburetors. Although the carburetors are already fine tuned other adjustments and modifications may be necessary for optimal performance in built engines with large cams. This set includes an assortment of primary jets, metering rods, and step-up springs along with secondary jets all in a convenient plastic storage case.

Emissions Note: Non-emissions (50 states legal).

D1921 108.99 set

Carburetor Calibration Set

These sets include a selection of metering rods, jets, and step up springs that allow fine tuning and calibration of Edelbrock Performer and Thunder Series carburetors for mildly to extremely built motors, especially motors with performance camshafts that cause low intake manifold vacuum. Made in USA.

Note: Not legal for pollution controlled vehicles.

Emissions Note: Non-emissions (50 states legal).

Jet Assortment Set

The Holley jet assortment set is the professional way to track tune your Holley carburetor for top performance. The set consists of 2 each of 36 different jet sizes ranging from #64 to #99. The jets are contained in a plastic case that keeps them separated and make them easily accessible. Jet sizes selected will give the broadest range of adjustment and performance for most performance carburetor applications.

Emissions Note: Non-emissions (50 states legal).

Atomic EFI Set

The MSD Atomic EFI set fits all engines making up to 525 horsepower at the crankshaft. The annular ring charge injection design produces a better air/fuel mixture and distributes it evenly among the cylinders. As a result, engines idle, start and drive better with the Atomic EFI set. Throttle bodies feature 80 lb injectors and a self-calibrating throttle position sensor. They also feature an internal fuel rail for no-leak, no-hassle fuel delivery. The master set is complete and ready to use out of the box. It includes the EFI throttle body, electric fuel pump, fuel line and filter with hardware, power module with wide band O2 sensor and handheld controller. Also available are the throttle body set which includes everything except for the fuel system components. Or purchase the fuel components separately.

Note: Atomic EFI sets are California emissions approved for carbureted General Motors vehicles 1987 and older. E.O. number D-722.

Emissions Note: * CARB EO compliant (50 states legal). ** Non-CARB compliant (not legal for emission controlled vehicles).

MSD

Atomic EFI High Horsepower Fuel Set

High horsepower fuel components set for MSD Atomic EFI sets. This set supports 620 horsepower at the crankshaft and supplies more fuel to the Atomic EFI throttle body than the standard Atomic EFI fuel pump. Includes: 15' of 3/8" fuel line, in-line electric fuel pump, fuel filter, brackets and EFI specific fuel line clamps.

Emissions Note: * Non-CARB compliant (not legal for emission controlled vehicles).

Sniper EFI Fuel Injection Conversion Set

Holley Sniper EFI universal self-tuning fuel injection conversion sets. Converting to EFI will put an end to the cold start issues, hesitations, vapor lock, and flooding associated with most carbureted engines. Sniper sets feature numerous styles of throttle body and are available in a classic gold finish. Master sets include the most complete fuel system on the market. Holley just brought EFI within range and Classic Industries® carries the complete Sniper line with sets for nearly any application.

Sniper EFI Features:

- Easy 4 Wire Hoop Up
- Throttle Body Mounted ECU
- Supports Up to 650 HP
- Integrated Ignition Timing Control & Coil Driver
- High Resolution Full Color Touchscreen
- Simple Calibration Wizard – No Laptop Needed
- OEM Style Sensors
- Clamp-on Oxygen Sensor Bung

4150 Four Barrel Set

Holley 4150 four barrel sets feature dual bolt patterns (square and spread bore), an internal fuel pressure regulator, and four 100 lb injectors capable of supporting up to 650 horsepower.

Note: Spread bore/Rochester Q-jet applications require sealing plate part #919060.

Emissions Note: Ⓢ Non-CARB compliant (not legal for emission controlled vehicles).

REGAL Headers

1978-87 Hedman Headers

Hedman Headers™ for 1978-87 Buick models. These units are designed to replace the heavy, and restrictive factory manifolds with tubular steel manifolds. These Headers are not only lighter, but will also increase your Buick's performance. Standard duty uncoated headers feature an innovative design that allows for an increased overall torque curve. Sets are complete and ready to bolt on. Includes: gaskets, collectors, and hardware. Get more performance from your Buick without breaking the bank, and do it with a name you can trust in the header business... "Hedman".

Important: Be sure to read the important notes listed on the bottom of this page pertaining to each header system for correct application.

Note: For Chevrolet engines only. Shipped oversize.

60406 7.99 ea

Exhaust and Tailpipe Cutter

Cuts pipes 3/4" to 3" (19mm to 76mm) in diameter. 15 blades effectively cut pipe so only 1/4" turn is needed for complete cut. Works great in hard to reach areas.

X2031 59.99 ea

Oxygen Sensor Socket

Removes and installs oxygen sensors on most domestic and some foreign vehicles as well. Special 7/8" socket with cutaway slot to provide clearance for wire harness. Adequate depth to fit over sensor. Heat treated alloy steel. Use with 3/8" square drive or 1" wrench.

Y12000 12.99 ea

Dual Drive Oxygen Sensor Wrench

Tool includes both 1/2" and 3/8" drive. Attach a 1/2" breaker bar on the end of the tool to initially loosen stuck sensors. Use a 3/8" ratchet on the top for fast removal and installation. Fits oxygen sensor applications with a heat shield. Slotted body allows clearance for wire harness. Forged, heat treated steel with six point design will withstand high torque removal applications.

12390 19.99 ea

Wedge Locking Header Bolt Set

Wedge locking header bolts were designed to keep bolts from backing off. These bolts feature special washers with hardened serrated teeth. The washers bite into the bolt head and the top surface of the header. After being self-locked in this manner, any loosening rotation is blocked by a wedge locking action. They are reusable and you can count on them to not fail. Grade 8.

Note: Image for illustration purposes.

REGAL Mufflers

Street Pro P1021

Race Pro P1030

Violator P1038

409 Stainless Muffler

Pypes Street Pro mufflers are chambered to maintain rich sound without resonance, Sound Rating = 7.0-7.5/10. When it comes to flow, you just can't get anything better than our Race Pro Muffler. Race Pro mufflers have a straight through design, Sound Rating = 7.0/10. Violator mufflers have an internal louvered tube with mini sound deflector chambers, making it flow like a straight through muffler but with the sound of a chambered muffler, Sound Rating = 9.0/10. Each muffler case measures: 4" x 9" x 14".

Emissions Note: ④ Non-emissions (50 state legal).

MWA High Performance Muffler

The Gibson MWA Muffler delivers maximum sound and the best muffler flow period! This straight-thru design promotes exhaust gases to flow at the highest rates flowing only 3 cm less than a 3" straight pipe, improving power potential while keeping interior drone to a minimum. The MWA muffler has no internal packing or weak baffles, allowing it to maintain a lightweight design with a unique and powerful sound. The MWA muffler is Made in the USA and is constructed of high-quality stainless steel. When its time to make your Hot Rod or Sport Truck sound and perform as good as its looks, there is no other choice than Gibson's MWA, "Muffler With Attitude".

Emissions Note: ④ Non-emissions (50 state legal).

CTF Superflow Muffler

Gibson's CTF Superflow muffler with Convergent Flow Technology actually tunes your exhaust by using resonance chambers, directional louvered tuning ports and angular induction to draw exhaust gases into the muffler and expel it at a higher velocity. The result is a muffler that doesn't have packing to wear out, yet delivers more power and a performance sound. This muffler features a chambered and louvered core, to ensure no sound degradation overtime, and fully welded solid internal construction. This result delivers more power with a deep tone.

Emissions Note: ④ Non-emissions (50 state legal).

FLOWMASTER
PERFORMANCE MUFFLERS

Performance Mufflers

Super 10 Series — Stainless Steel Muffler

Looking for the most aggressive sound available? Flowmaster's new Super 10 series mufflers are so aggressive, they aren't recommended for street driven vehicles. Best suited to racing applications, these feature the same Delta Flow performance technology used in the highly popular Super 40 and Super 44 series Flowmaster mufflers. Manufactured from durable 409S stainless steel for long-life and offered in a variety of configurations. Backed by a limited lifetime manufacturer's warranty, these short, single chamber mufflers deliver the closest thing to open pipe sound possible. If you want high impact sound, the Super 10 series mufflers are the answer. Measures: 6-1/2" x 9-1/2" x 4".

Note: These mufflers are recommended for off-highway use, not for street driven vehicles

Emissions Note: Ⓢ Non-emissions (50 state legal).

Super 40 — American Thunder

The Super 40 5" x 10" case design gives you a deeper tone that retains our classic 40 Series sound and feel. Increased flow path radius for optimum internal flow using the latest in Delta Flow technology. Flowmaster state-of-the-art robot assembly technology assures a product that exceeds OEM auto manufacturers' specifications. To achieve such critical quality, Flowmaster performs extensive R&D at the track and in-house with our own engine and chassis dyno facilities. Flowmaster Super 40 is aluminumized, black in color and is the most aggressive, deep-sounding 2-chamber muffler they've ever built. Enjoy some American Thunder today!

FLOWMASTER 40 Series Performance Mufflers

AMERICAN THUNDER

- Aluminumized Steel
- Original Flowmaster Tone
- Deep Tone Inside Vehicle
- Street or Strip

40 Series — Original Flowmaster Tone

This is the most "aggressive" sounding street/strip muffler that Flowmaster offers. If you're looking for attention, this one will get you noticed. The standard 40 series has an "aggressive rumble" and will generally resonate inside the vehicle around 1800-2000 RPM's, and again at 2400-2600 RPM's. Constructed of 16 gauge aluminumized steel and fully MIG welded for maximum durability.

Note: * = 409S Stainless Steel.

Emissions Note: Ⓢ Non-emissions (50 state legal).

FLOWMASTER Delta Flow 40 Performance Mufflers

FLOWMASTER DELTA FLOW TECHNOLOGY

- T409 Stainless Steel
- Powerful Aggressive Tone
- Lower Interior Resonance
- Street or Strip

Delta Flow 40 Series — Reduced Interior Resonance

This two-chamber design incorporates Flowmasters patented "Delta Flow" technology. The "Delta" deflectors result in increased scavenging for better performance and reduced interior resonance over the standard 40 series with a nice growl outside the vehicle. Sounds great on late model performance cars with catalytic converters. Constructed of 16 gauge steel and fully MIG welded for maximum durability.

Emissions Note: Ⓢ Non-emissions (50 state legal).

REGAL Exhaust Cutouts

Universal Dual Electric Cutout Set

The optional electric exhaust cutouts and make uncorking your exhaust as easy as flipping a switch. Electric cutout set includes: 2 valves, wire harness, switch, mounting hardware, and 2 gaskets. Limited lifetime warranty. Available with or without Y-pipes. Made in USA.

Note: *Connects to any 2-1/2" exhaust with a straight section of approximately 12" in length and enough clearance for the motor/valve assemblies.

Emissions Note: Ⓢ Non-emissions (50 states legal).

For use with 2-1/2" or 3" Y-Pipes (Dump Legs)
P1074 cutout set only 428.99 set

Includes 2-1/2" Y-Pipes (Dump Legs)
P1074K* cutout set with Y-pipes 550.99 set

Stainless Steel Electric Cutout

These cutouts feature a rugged 12 Volt DC motor and rotating gate for a leak proof seal every time the cutout is opened and closed. When fully opened, these cutouts do not create exhaust flow obstructions that can create a leaky gasket sound, unlike butterfly style cutouts. A pre-wired harness with an illuminated rocker switch is supplied for easy installation. Uncork your exhaust with the flip of a switch from your dash. The cutouts are ideal for race tracks that don't require mufflers. Available individually, in pairs, or in complete kits with Y-Pipes for easy installation. Made in USA.

Important: Not recommended for vehicles equipped with catalytic converters.

Note: May not be legal for highway use or use on emission controlled vehicles.

Emissions Note: Ⓢ Non-emissions (50 states legal).

Stainless Steel Cutout Turndown

Easily route your cutout exhaust flow in any direction with these easily installed 304 stainless steel turndowns. These turndowns are made specifically for Doug's electric cutouts and included stainless band clamps for weld free attachment. Made in USA.

Emissions Note: Ⓢ Non-emissions (50 states legal).

25058 2-1/2" turndown pipe 54.99 ea
25059 3" turndown pipe 54.99 ea

Electric Exhaust Cutout

Don't crawl under your vehicle to uncork your exhaust ever again by switching to electric cutouts. Keep them closed and quiet for the street, wide open for the strip, or anywhere in between with the flip of a switch. You control the volume and the power! Available in sizes 2-1/4" to 4" and a low profile oval design for applications with limited ground clearance. Fits 2-1/4" to 3" round exhaust pipe. Built with high-quality materials CNC 6061 aluminum body and motor plate, stainless steel shaft and butterfly flap, high torque DC gear driven motor, weather tight wiring connectors, and custom illuminated toggle switch.

Note: Match valve size with cutout size for optimal fit and performance.

Emissions Note: Ⓢ Non-CARB compliant (not legal for emission controlled vehicles).

Thermo-Sleeve

Thermo-Sleeve is the combination of a high temperature fabric laminated to a highly reflective Mylar foil. It provides protection from radiant heat for hoses and wires. Thermo-Sleeve's ultra lightweight construction provides more insulation than traditional bulky rubber coated fiberglass. The aluminumized sleeve reflects more than 90% of radiant heat, plus it is fireproof and oil resistant! Thermo-Sleeve is available in 3' or 12' lengths.

J-B Weld SteelStik

J-B Weld SteelStik is a steel reinforced epoxy putty stick. This hand kneadable epoxy adhesive will plug holes and make permanent repairs on wet and dry surfaces. Cures completely submerged in gasoline or under water in 60 minutes. Can be drilled, sanded, filed, tapped, machined and painted. Works on multiple surfaces: aluminum, brass, bronze, copper, iron, and stainless steel. Cure color is dark gray. Made in USA.

JB8267 2 oz. 6.99 ea

Exhaust Components

XTC primer 12 oz. net weight can half pint (8 oz.) pint

02 - jet black 05 - cast iron gray 08 - off-white

28 - pure white 10 - flame blue 03 - aluminum

06 - rocket red 07 - Pontiac metallic blue 23 - stainless steel 25 - charcoal metallic

Xtreme Temperature Coating

XTC is a high temperature/heat resistant coating formulated specifically to protect metal surfaces operating at temperatures from 500 to 1500 degrees F. With proper preparation, XTC provides outstanding adhesion, film integrity, weathering, and thermal shock resistance throughout this entire temperature range, and is guaranteed not to burn off! Available in your choice of a wide variety of colors and sizes.

Note: 8 oz. will coat approximately 3 sets of automotive exhaust manifolds with 2 coats or coat a set of shory headers with 2 coats. Pints will coat a set of full size headers with 2 coats or coat a complete automotive exhaust system with 2 coats.

Xtreme Temperature Coating

Important: When ordering, select the part number for the size of the can you need, then add the two digit numerical color code to the end of the part number to specify your desired color.

Hi-Heat Coatings

ThermoTec exhaust insulating products work excellent as a paint directly on metal surfaces and can handle continuous temperatures up to 1200°F. It is also recommended for coating exhaust insulating wrap. The coating will protect the wrap from abrasion and harmful liquid spills. Extra resins and binders toughen the surface and extend the life of the wrap.

Note: Shipped within the continental U.S. only. Shipped ground only.

Exhaust Components

Reduce Underhood Temperatures!

Increased exhaust scavenging is produced, along with lower intake temperatures. Exhaust Insulating Wrap withstands continuous heat up to 2000 degrees F, and contains no asbestos. Will not over insulate a system when properly installed due to a proprietary coating developed by Thermo-Tec® Thermal Conduction Technology (TCT) that conducts heat across the wrap's surface. The 1/16" thick wrap is available in 1 inch or 2 inch widths in 15' or 50' rolls. Choose from off-white or graphite black.

Off-White Exhaust Wrap	
TT1009	1" x 15' short roll..... 8.99 ea
TT1011	2" x 15' short roll..... 16.99 ea
TT1010	1" x 50' long roll..... 28.99 ea
TT1012	2" x 50' long roll..... 43.99 ea
Graphite Black Exhaust Wrap	
TT1053	1" x 15' short roll..... 9.99 ea
TT1054	2" x 15' short roll..... 16.99 ea
TT1013	1" x 50' long roll, black..... 34.99 ea
TT1014	2" x 50' long roll, black..... 48.99 ea

Reduce Underhood Temps Up to 70%!

The new quick wrap, high velocity Exhaust Jackets® are an innovative way to insulate and block radiant heat. The jackets cover the header tubes vertically allowing for a consistent fit. The fit allows the exhaust system to expand as it comes up to operating temperatures without restrictions and provides air space for added insulation. This product uses Thermal Conduction Technology (TCT), developed by Thermo-Tec®, and can be applied with the headers in the vehicle.

This Flexible Heat Shield Clips Into Place!

The Header Manifold Blanket® provides excellent heat retention for exhaust headers and manifolds. This flexible heat shield simply clips into place on the upper portion of the header. The fabric side of the material should be facing the heat source, and the aluminumized side facing away - offering protection from abrasion and harmful liquid spills. The Header Manifold Blanket® is available in two sizes: 20" by 24" blankets for V6 and V8 applications, and one 36" by 40" blanket for straight 6's and 4 cylinder engines.

Shield Plastic or Rubber Hoses and Wiring from Radiant Heat!

Thermo-Shield® protects hoses and wires from radiant heat. Unprotected, rubber hoses and plastic or rubber insulated wiring can dry out, melt or crack under time. Thermo-Shield® is used in applications where it is difficult or not practical to disconnect one end of the hose or wire. The adhesive backed composite construction tape can easily be wrapped around the hose or wire to make a clean, professional appearance. Reflects radiant heat up to 2000 degrees F. Provides a barrier against the extreme conditions that underhood components are exposed to. Wrap your fuel lines and say good-bye to vapor lock.

TT1051	2" x 50' feet..... 45.99 ea

Vermiculite Coated Header Wrap

Insultherm Header Wrap is an extremely high temperature resistant wrap used to insulate hot gases in automotive exhausts. Manufactured from texturized fiberglass yarns that are woven into a strong, flexible wrap with vermiculite coating. Resists gasoline and engine chemicals and withstands temperatures up to 1200 degrees F (maximum continuous temperature of 1000 degrees F). Available in black or natural in 50' or 25' rolls.

An Extremely Versatile Heat Barrier™!

The Aluminumized Heat Barrier™ is made up of woven silica with a flexible aluminumized finish. The highly reflective surface of the material is capable of withstanding radiant temperatures in excess of 2000 degrees F. Installed using standard rivets with a backup washer, or with weather strip adhesive. The Snap Straps (sold separately) can be used to hold the blanket in place for manifolds or exhaust systems.

REGAL Transmission

Key Features:

- 11" 2500 RPM Stall Converter
- High-Performance Racing Clutches
- Street Strip Valve Body
- Heavy-Duty Sprag (TH400)
- Hardened Race (TH350)
- Aluminum Pan with Drain

TH350 and TH400 Street Smart System Transmission

Performance Automatic Racing offers heavy-duty TH350 and TH400 performance transmissions. Street Smart 3-speed automatic transmissions are built from the best cores and highest quality parts available on the market today. Every transmission is Dyno-tested for function, performance, and calibration. Includes: a converter, dipstick with filler tube, transmission mount, inspection cover, and bolt package along with a manufacturer's lifetime warranty.

Note: Special order, must be prepaid. Shipped truck freight.

P35104 TH350 +550 HP, Street Smart stage 2 system..... 2628.99 ea

Key Features:

- 12" 2400 RPM lock up stall converter
- High performance racing clutch
- High performance band/servo pack
- High performance 10 vane pump
- Larger booster valve
- Valve body shift package

TH200-4R and 700R4 Street Smart System Transmission

Performance Automatic Racing's Street Smart transmissions aren't your run of the mill gearboxes. Street Smart transmissions are remanufactured from the best parts available. Each is Dyno-tested for function, performance, and calibration. Includes: torque converter, dipstick with filler tube, transmission mount, TV cable, inspection cover, and bolt package. Backed by a manufacturer's lifetime warranty.

Note: Special order, must be prepaid. Shipped truck freight.

223050

Features:

- Quicker launches and harder acceleration
- New precision alloy steel pump tube
- Fully balanced and pressure tested
- B&M quality and durability

1973-87 Tork Master™ Torque Converter

Similar in performance characteristics to the HoleShot™ series, the Tork Master™ is B&M's lowest cost performance torque converter. Includes: New alloy steel pump drive tube, Needle thrust bearing when factory equipped, and New thrust washer between turbine and cover when required. The Tork Master™ is an excellent all-around performance street converter for small block Chevy. The Tork Master™ torque converter is NOT recommended for big block or supercharged applications.

Emissions Note: Ⓢ Non-emissions (50 state legal).

223054 1973-87 TH350/400..... 455.99 ea

1973-87 HoleShot™ Torque Converter

223058

A higher than stock stall speed as delivered by the HoleShot™ converter will provide several advantages and benefits in vehicles with modified engines. Big cams tend to reduce low end power and torque. The high stall converter allows the engine to launch the vehicle at higher RPM where more torque is available. The HoleShot™ is a very good choice for the typical street car that is looking for better launch capability. NOT recommended for N20 equipped engines. Stall speed listings are based on engines producing 230 ft lb of torque at 2500 RPM. More torque at 2500 RPM will give you a higher stall speed, less torque at 2500 RPM will give you a lower stall speed than the stall speed ratings indicated.

*Note: Not recommended for N20 equipped engines. *Items denoted with asterisk require small 10-3/4" bolt circle flexplate or dual pattern flexplate.*

Emissions Note: Ⓢ Non-emissions (50 state legal).

New!

Features:

- Furnaced brazed fins, needle bearings, hardened pre-ground pump hub, computer balanced, installation hardware included
- Higher RPM launches, quicker reaction times, lower elapsed times, better low- and mid-range power, 1500+ RPM increase in stall over stock.
- With heavy-duty front anti-ballooning plate for nitrous applications

TC

1973-81 Street Fighter Torque Converter

Designed with the street/strip application in mind, this torque converter benefits more radically prepared street machines (those with performance cams, aftermarket carbs and higher compression ratios) to bring the launch RPM in line with the performance enhancements. The Street Fighter lets you take advantage of horsepower gains found in higher RPM ranges.

Finned Aluminum Converter Cover

Add a durable, custom touch to your vehicle with a polished and finned aluminum dust cover on your transmission. Heavy gauge polished aluminum construction will not break easily, like plastic, or be vulnerable to rust like steel.

86071 TH350/TH400..... 87.99 ea

Torque Converter Lockup Control

These units provide control over torque converter lockup through vehicle speed on GM transmissions with a lockup converter. These are designed for use on carbureted engines. Eliminate converter lock and unlock cycling and premature unwanted converter lockup avoiding engine lugging and spark knock. Provides lockup at highway speeds for fuel economy. Can be used for converter lockup operation when converting a non-lockup equipped vehicle to a lockup style transmission and converter. Uses a vacuum controlled switch and a 4th gear pressure switch to control the torque converter lockup solenoid. Includes vacuum switch, 4th gear pressure switch, brake switch, torque converter lockup solenoid, wire harness, new transmission pan gasket, mounting hardware, and instructions.

Pour-In Performance!

Trick Shift™ was originally developed by B&M for racing applications. It's become so successful that it's the most popular high-performance fluid on the street also! Not an additive, this is the best performance ATF available! A scientific blend of foam inhibitors, pressure agents and shift modifiers that will provide extended transmission life and drastically improved shift feel. Trick Shift™ is the easiest way to measurably improve the transmission performance of your vehicle. Trick Shift™ works with all automatic transmissions when a firmer shift is desired. "Pour in Performance" isn't just a catchy phrase - it's reality! It can be mixed with stock type transmission fluids, however to attain maximum improvement you should use Trick Shift™ exclusively. Ideal for towing, light trucks and RV applications as well as racing.

Important: Not recommended for electronically controlled automatic transmissions.

Emissions Note: Ⓢ Non-emissions (50 state legal).

----------	---------	----------	------------

1973-87 Transmission in a Box!

This is the most comprehensive kit available. Provides parts or necessary part numbers to upgrade your transmission into a true performance transmission. Kits available for TH350, TH400, 375, 375B, M40, M38 and TH-700R4. The TH-700 is a desirable transmission due to it's extra low ratio first gear (for better off the line performance) and overdrive fourth gear for better fuel economy. Includes instruction sheets that provide the do-it-yourselfer with all the information needed to completely overhaul a TH-700R4 to B&M specs. Easy to understand even if you have no experience in this area!

Emissions Note: Ⓢ Non-emissions (50 state legal).

Key Features:

- Same quality and components used in a B&M Street/Strip Transmission in a do-it-yourself kit.
- Transpak modification components including special replacement valves and springs.
- Improved shift feel, retains full automatic features.
- Complete overhaul gasket set and Drain plug.

TH400, 375, M40 Super Transkit	223080	1974-87	348.99 set

1973-87 Transpak

The next step-up from the Shift Improver Kit™ is the Transpak™. It has all the features in the Shift Improver Kit™, plus it provides additional fair manual control (TH400, TH350 only). With the Transpak™, you can downshift at any speed, and you can hold the transmission in first gear to any speed that you want!

Stage 1 - Heavy-Duty

For street rods, normal passenger vehicles or other heavy-duty use. Firmer shift feel but not harsh. Improves transmission performance and life dramatically without loss of comfort.

Emissions Note: Ⓢ Non-emissions (50 state legal).

Stage 2 - Hi-Performance Street

For full performance street use. Essentially the same as Heavy-Duty mode except shift is much quicker. Retain full automatic features and standard shift points with selector in "Drive".

Key Features:

- Select the mode that best suits your application.
- Improves transmission life.
- Transmission removal not required.

1973-87 Shift Improver Kit

The B&M Shift Improver™ set is the easiest way to get the stout performance you've always wanted out of your automatic transmission, and you get two modes of performance to select from: Heavy-Duty or Street/Strip. Eliminates soft sluggish shifts, shift overlap, and excess wear on clutches and bands due to slippage. Improves transmission life. Transmission removal not required.

Emissions Note: Ⓢ Non-emissions (50 state legal).

Stage 1 - Heavy-Duty

Firm positive shifts without loss of driver comfort for improved performance.

Stage 2 - Street/Strip
Provides very positive shifts. This model is for the enthusiast who wants the hardest, quickest possible shift.

Key Features:

- Provides crisp shifts on any stock automatic transmission.
- Elimination of soft sluggish shifts, shift overlap, and excess wear on clutches and bands due to slippage.
- Improves transmission life.
- Transmission removal not required.

1978-81 Back-Up Lamp Switch

Mounted on the transmission, the back-up lamp switch for 1978-81 models is an open switch that prevents voltage from being applied to the back-up lamps until the vehicle is put in reverse. Putting the vehicle in reverse closes the contact and applies power to the rear back-up lamps.

Transmission Fluid Cooler

Transmission fluid is designed to act as a coolant as well as a lubricant for your transmission. If the transmission fluid is allowed to get too hot, performance drops, varnishes form, and the fluid starts to break down, which can lead to premature wear. Flex-a-lite heavy-duty coolers can help prevent this by keeping the temperatures down, helping to ensure longer life to transmissions and components, and reduce the stress created by high-performance transmissions. Also suitable as a power steering cooler.

Important: Depending on application and setup, additional fittings or adapters may be required.

Note: Dimensions: width = 11", depth without fan = 3/4", with fan = 3-1/4"; height varies.

MISHIMOTO

Transmission Fluid Cooler

Keep your transmission temperatures down with this universal cooler from Mishimoto. Cooler temperatures means less fluid breakdown to keep your transmission working the way it should, longer. Another benefit of using this transmission cooler is that you can use any Mishimoto radiator, with or without a built-in transmission cooler.

MM13061 aluminum cooler 96.99 set

Hi-Tek Transmission Cooler

The Hi-Tek automatic transmission cooler is perfect for demanding street/strip and even towing applications. At 175 degrees, a thermal switch activates the high flow 12Volt 7" electric fan. Durable, oven brazed aluminum construction promises years of performance. The 1/2" NPT fittings are easily adaptable to AN fittings and steel braided cooler lines, or can be used with standard rubber or steel lines. Measures 10" x 7-1/2" x 4" and includes electrical connectors and detailed instructions.

Emissions Note: Non-emissions (50 state legal).

New!

Hi-Tek SuperCooler

Our B&M Hi-Tek Super Coolers feature a stacked plate design which is up to 30% more efficient than tube and fin designs and have 15% less flow restriction resulting in maximum cooling efficiency. The cooler features built-in attachment points, making mounting the cooler a breeze and the cooler is suitable for many fluids including transmission fluids, engine oil, and power steering fluid. The hose barb fitting size for this cooler is 11/32" and can be mounted with fittings located up, down or sideways. The SuperCooler features durable brazed aluminum construction and is pressure tested to 200 PSI. Includes mounting hardware and hose.

Emissions Note: Non-emissions (50 state legal).

Transmission Oil Cooler/Filter

This automatic transmission oil cooler and filter combination assembly uses a finned aluminum heat sink design to dissipate heat in racing applications. It can also be used as an inline auxiliary cooler in conjunction with the stock cooler. It's compact one pound 3" x 12" aluminum body gives it excellent heat transfer capabilities. An internal filter with magnet traps particles over 5-microns to reduce transmission wear. Includes filter cartridge and two 1/4" NPT to 3/8" line fittings.

REGAL Transmission Shifters

Key Features:

- Unique multi-positioned trigger for user comfort in various shifter positions.
- Base can be trimmed to custom fit any floor.
- Reverse lockout feature meets NHRA and IHRA requirements.
- Neutral safety switch, back-up light switch, lighted gear indicator, polished aluminum T-handle and cable.
- Can be used with a reverse pattern valve body.

The Most Comfortable Shifter We Offer!

The B&M Hammer™ shifter may just be the most comfortably operated automatic shifter you can buy. Grab the handle of a Hammer™ shifter and it feels like it was molded to your hand. The unique design easily fits small to large hands and provides the appropriate wrist angle. The multi-position trigger is spoon shaped for easy finger operation in a multitude of grip positions. Ratchet shifter for TH400, 350, 250, 200, 700R4, 200-4R, 3- and 4-speed automatic transmissions.

Important: Not for original consoles.

Emissions Note: ④ Non-emissions (50 state legal).

223016 Hammer™ shifter 313.99 ea

Key Features:

- Universal floor mount application. Base can be trimmed to custom fit any floor.
- Cable operated for quick installation and accurate shifting.
- Neutral safety switch, back-up light switch, lighted gear indicator, polished aluminum T-handle, and cable.
- Can be used with a reverse pattern valve body.

High-Performance Ratchet Action!

The Megashifter™ is one of B&M's all-time classic designs due to it's timeless good looks and high-performance ratchet action. And, it's ideally suited for most popular universal applications. For TH400, 350, 250, 200, 700R4, 200-4R 3- and 4-speed automatic transmissions.

Important: Not for original consoles.

Emissions Note: ④ Non-emissions (50 state legal).

223017 Megashifter™ shifter 455.99 ea

Key Features:

- Universal floor mount application. Base can be trimmed to custom fit any floor.
- Neutral safety switch, back-up light switch, lighted gear indicator, chrome knob and cable.
- Can be used with a reverse pattern valve body.

Classic Style & Stout Performance!

You want style and stout performance wrapped up in a classic package? The B&M QuickSilver™ shifter is your answer! This top of the line ratchet action shifter provides performance shifting without a trigger. To get into park or reverse from drive, just lift the knob/stick assembly and move it forward into position! And it's cable operated for easy installation and precise shifting. For TH400, 350, 250, 200, 700R4, 200-4R 3- and 4-speed automatic transmissions.

Important: Not for original consoles.

Emissions Note: ④ Non-emissions (50 state legal).

223018 QuickSilver™ shifter 412.99 ea

Key Features:

- Base can be trimmed to custom fit any floor.
- Neutral safety switch, back-up light switch, lighted gear indicator, black T-handle and cable.

The Perfect Shifter for Your Daily Driver!

The Sport Shifter™ may be a low cost alternative to B&M's top of the line MegaShifter™—but it performs as if it was twice the price! The Sport Shifter™ is not a ratchet shifter and not intended for racing applications, but it makes a perfect addition to any street machine—making daily driving something to look forward to. Utilizing a simple detent action between first, second, high, and neutral, it features a lighted gear indicator, black plastic T-handle, neutral safety switch, back-up light switch, and flat aluminum stick. For TH400, 350, 250, 200, 700-R4, 200-4R, 3- and 4-speed automatic transmissions.

Important: Not for original consoles.

Emissions Note: ④ Non-emissions (50 state legal).

223019 Sport Shifter™ shifter 304.99 ea

Transmission Shift Lever

This universal shift lever replaces the original detent on this side of GM transmissions to allow installation of B&M shifters. Compatible with: TH200, TH250, TH350, TH400, TH200-4R, TH700R4, 4L60E, and 4L80E transmissions.

Emissions Note: ④ Non-emissions (50 state legal).

223113 19.99 ea

Key Features:

- Base can be trimmed to custom fit any floor.
- Reverse lockout feature meets NHRA and IHRA requirements.
- Neutral safety switch and polished aluminum T-handle and cable.

Straight Line Detent Shifter

The B&M StarShifter is one versatile 3- speed automatic shifter—wrapped up in a clean, timeless styled package! In the normal mode the StarShifter is a straight line detent shifter. When the lever is in low, lift the trigger all the way and pull the stick back to convert to ratchet action. Move the stick forward for the 1-2 and 2-3 shifts. Cannot be used with reverse pattern valve body. For TH400, 350, 250, 200 automatic transmissions.

Important: Not for original consoles.

Emissions Note: ④ Non-emissions (50 state legal).

1978-87 4-Speed Auto Shorty Shifter

Reproduction of the original style shorty shifter designed for use with 1978-87 Buick Regal models with 4-speed. This shorty shifter is 2" shorter than a factory unit. It feels strange for about 5 minutes. Then after you have used it you realize, wow, this is the perfect height. For use with all 1978-87 Buick Regal, T-Type, Grand National, and GNX models with 4-speed shifters. Great for stock or using a trans brake.
GN110812 1978-87 270.99 ea

Key Features:

- Attractive black textured console with chrome-plated cover.
- Can be trimmed to fit any floor contour.
- Cable operated to provide for your choice of mounting locations.
- Progressively illuminated gear position indicator.
- Incorporates a neutral safety and reverse light switch assembly.
- Full forward and reverse ratchet action for use with standard or reverse pattern valve body.

Ratchet Action! Ideal for Street or Strip!

The Hurst Pro-Matic 27M Ratchet Action Shifter is quality engineered for years of precise, trouble-free operation. The Pro-Matic 27M gives a custom appearance to any vehicle and is ideal for street or strip performance. Fits TH350 or TH400 transmissions.

Important: For vehicles without factory consoles.

Emissions Note: (4) Non-emissions (50 state legal).
3838500 TH350, TH400 388.99 ea

Floor Mount V-Matic Shifter

Hurst V-Matic performance automatic shifter. The V-Matic is designed for most 3- and 4-speed automatic transmissions (TH200/250/350/375/400, 700R4, 200-4R, 4L60E, 4L65E, A727, and A904). The universal floor mount design is trimmed to fit any floor. This shifter features a forward exit cable for quick installation and accurate shifting and a park and reverse lock trigger for smooth and flawless ratcheting through the forward gears. The reverse lockout trigger feature meets NHRA and IHRA requirements. The shifter also includes neutral safety switch, back-up light switch, a lighted gear indicator, and brushed aluminum Hurst T-handle.

Important: For vehicles without factory consoles.

Key Features:

- Forged aluminum stick.
- One hand operated, spring loaded reverse lockout mechanism.
- Factory installed neutral safety switch.
- Cable operated.
- Reverse lockout

REGAL Battery Cables

1987-87 Heavy-Duty Positive Cable Set

This specially built set is designed to relocate the fuse links from the starter location to a location in the engine bay for easy access. Allow for easy attachment of accessories to the battery positive terminal. Add extra fuse links so that each power feeder in the vehicle has its own fuse link. Provide a junction box for remote mounting of the battery (trunk location).

Note: This set is used when a heavy-duty 200 amp alternator is being used.

GN110607 extender set..... 92.99 set

1984-87 Positive Battery Cable

Exact replacement positive battery cable. Attaches to the starter stud, alternator and ECM MEM feed thru a special fuse linked connector. Frequently a problem due to leaking battery acid onto the lug. This harness assures full battery power to the critical components on your vehicle.

GN110175 1984-85..... 82.99 ea
GN110176 1986-87..... 82.99 ea

1986-87 Positive Cable Set

Eliminate problems with factory positive cable and fuse link cables with the OEM setup. This custom designed relocation set provides a convenient junction for the positive battery cable and relocates the fuse links from the starter stud to the junction box. Red junction box is located near the radiator overflow bottle. Alternator feed, battery cable, MEM connector and fuse links are placed there at that location. Provides easy access to positive battery connection. Designed to attach to battery in the stock location.

GN110606 1986-87..... 92.99 set

Negative Battery Cable

Eliminate electrical problems with a new cable. Negative cable is manufactured to OEM specifications using the new slip-over terminal cover design or the universal cable. Secondary ground pigtail wire included.

GN110177 1984-87 terminal cover .. 33.99 ea
N430 universal 30"..... 17.99 ea

1986-87 High Current Battery Cable

Similar to our standard replacement battery cable, except the alternator feed is 6 gauge cable. This cable is utilized when the alternator is upgraded to 175-200 amp unit. Design includes an added 3-1/2" of length to the starter cable, to prevent contact with aftermarket down pipes.

GN110604 1986-87..... 92.99 ea

Universal Battery Cables

Underhood or trunk mount battery cable sets. Each cable is 1 gauge and features lead die-cast top post terminals with a steel ring insert. This feature prevents cracking or breaking the terminal due to tightening. Each version comes in either top post or side post sets. Trunk mount sets measure 18" while underhood sets measure 6' in length. Negative cables feature pre-assembled 36" long 6 gauge secondary lead. Each set includes crimping tool, extra lugs and shrink tubing.

Cell Saver Battery Insulation Kit

DEI cell saver battery insulation kit is designed to solve the problem of heat soak into batteries preventing premature failure due to heat. Batteries are very susceptible to heat and vibration that could cause premature failure and hazardous leaks. Cell Saver is very capable of damping vibration and will absorb and neutralize any damaging leaky battery acids. Cell Saver is easy-to-install and excess material can be trimmed to accommodate batteries of most sizes and shapes. Measures: 40" x 7".

DEI010480 21.99 ea

Protect Your Vehicle from Corrosive Battery Acid!

Prolong battery life and protect your vehicle's battery tray, underhood and radiator support area with the world's only acid-neutralizing heat barrier mat. It reflects over 90% of radiant heat, traps and neutralizes battery acid, protects against corrosion, is recyclable, protects the environment, and is inexpensive and easy-to-install. The Battery Heat Barrier™ set is completely safe to handle before and during installation. So effective, it is used by all branches of the United States military. Set consists of: one 8" x 40" acid absorbing/neutralizing felt and one adhesive backed 8" x 40" aluminumized thermal barrier to wrap around the battery, plus an 8" x 12" acid absorbing/neutralizing pad to put beneath the battery. Install one on your vehicle NOW, before it's too late.

GN110584 power brake harness 41.99 ea

1986-87 14 Gauge Fuel Injector Harness

Factory appearing fuel injector harness using 14 gauge wire, recommended for use in high-performance racing applications where low impedance injectors are used.

GN110521 1986-87 102.99 ea

1986-87 V-Plus Volt Booster

Your alternator is designed to put out a specific voltage to your electrical system, typically 13.2 Volts. The car battery can then be continuously charged while the engine is running. The problem with this system is when there is a greater demand on the electrical system during wide open throttle the alternator tends to fall short on delivery. Decreased system voltage, when you need it most, causes less than adequate fuel pump flow and ignition spark. The V-Plus booster overcomes that inadequacy by increasing the system voltage by 2.2 Volts at approximately 70% throttle. The result increased fuel delivery, hotter spark, and greater overall performance.

GN110590 1986-87 72.99 ea

1986-87 Field Fix Harness

This simple "Plug and Play" harness is designed to assure uninterrupted charging system function on your Grand National. It provides back-up current to the field of the alternator in case the engine system fails, assuring a fully charged battery. Plugs into waste gate connector and alternator.

GN110593 1986-87 41.99 ea

1986-87 Engine Harness Connector

A common failure due to heat drying out the plastic and making them brittle. This connector is used on the engine wiring harness side leading to injector harness on turbo vehicles.

Note: This harness is not the injector harness side.

Universal Wiring Harnesses

Universal Chassis Wiring Harnesses

Starting from a blank slate is a daunting task, especially with wiring. Trying to keep your electrical systems running smoothly on a patchwork of old wiring can be a troubleshooting hassle and possibly even a fire hazard. Whether you are planning a series of electrical upgrades or simply need to replace aging, brittle wiring, build your electrical system on a fresh foundation with a quality universal harness. For basic builds, start with a simple kit with wiring provisions for all lamps, horn, fan, wiper, gauges, and all lamps. For more elaborate builds, choose from a selection of advanced wiring solutions. Need to integrate your aftermarket air conditioning? Need extra circuits for a multitude of electronic accessories? With Classic Industries®, there's no limit to what you can do with your wiring.

- Power Door Locks
- Power Windows
- Radio/Clock
- (Constant and Switched)
- Tail Lights/ License Plate Light
- Third Brake Light
- Turn Signals
- Wipers / Washer Pump

25 Circuit Universal Chassis Harness

The Painless Pro Series gives you everything you need to wire up your Pro-Touring or custom ride right the first time! Ample length is provided for each circuit, providing you the freedom to route and hide your wiring how you choose. Once you've got the harness fit how you like it, included are over 25 GM factory style connectors found on most '60s to early '90s GM switches, allowing you to turn the Pro Series harness into a direct fit harness for your application. LED ATC bladed fuses get you away from the old hard-to-find glass fuses, and will light up if blown making troubleshooting a painless task. The 6 gauge charge wire and mid fuse (no more problematic fusable link!) will keep up with today's high amperage alternators, and the provided front and rear ground harnesses making grounding your lighting circuits a breeze! Provided with many GM connectors and terminal, insulated and non-insulated butt splices, heat shrink, crimpets, cable ties, ground straps, and cable tie clips, the Pro Series brings a new meaning to truly Painless wiring and includes our lifetime guarantee.

- Tail/Back-up/ Parking Lamps
- Third Brake Lights
- Turn signals
- Wipers

21 Circuit Harness

This 21 circuit universal harness is adaptable to fit the 1960-80's GM, and Chrysler muscle cars where a bulkhead connector is required. Some minor bulkhead modification may be required. Included with this harness are the following parts: GM turn signal and column mounted ignition switch connectors, pre-wire plugs for the headlights and dimmer switch. Each wire is custom printed with the circuit identification as well as using GM color codes for easy installation.

28 Circuit Harness Universal Kit

This 28 circuit universal kit is great for hot rod or street rod builds, but you'll find that it's easily adaptable to almost any vehicle and has enough length to handle full size and muscle cars. To pass through the firewall, a bulkhead connector is utilized, giving you the ability to disconnect the engine/headlight section wiring at the firewall. The provided-to-scale post and stick template makes firewall trimming easy. This harness includes open-ended ignition switch wires that can easily be adapted to any ignition switch out there. Included with this harness are the following parts: a GM engineered fuse block and bulkhead connector, GM turn signal connectors, pre-wired plugs for the headlights and dimmer switch. Each wire is printed with the circuit identification as well as using GM color codes for easy installation.

1994-02 Fuel Injection Engine Swap Wiring Harness Set

For maximum power with exceptional drivability nothing beats electronic fuel injection. And the easiest way to install a modern fuel injected engine is with one of these proven FI engine wiring harnesses. These harness sets are designed to allow you to properly wire your engine swap from a donor car or crate motor. A variety of harnesses are available to suit 1994-up LTI, LSI and GM crate engine applications. Each of these sets include detailed instructions and illustrations. The engineers at Painless have worked out all of the connection and routing problems so all you have to do is follow the straight forward instructions for a painless installation. Feature TXL high temp wire that is color coded and labeled with each application for ease of installation. Harnesses for the LSI applications require 1998 Camaro computer G8606 and a mechanical throttle body.

Important: Includes a module to bypass the vehicle anti theft system (VATS) incorporated in the computer. Does not include any emissions related connections.

Trunk Mount Chassis Harness

In many street rods and custom cars there is little or no room to mount the fuse block under the dash, forcing modifications to either the vehicle or the harness. The 21 circuit trunk mount wiring harness provides additional wire from the fuse block to the dash and from the fuse block to the front end, allowing the remote installation of the fuse block in the trunk or behind the rear seat. Like all Painless kits, these fuse blocks come completely pre-wired and terminated for a simple, painless installation. Includes GM column mounted ignition and turn signal plugs.

Remote Battery Disconnect

With this setup, one click of the key fob completely shuts down your vehicle's entire electrical system. It's accomplished by routing your main battery cable through a remote cutoff solenoid that you've stashed in a place inaccessible to a thief. For even more security, the 4 channel "Safe-n-Sound" system not only shuts off all power from the battery, but will also control 3 other items, like closing the windows, triggering the power door locks, and interrupting electrical power to the fuel pump, all separate from the main battery cutoff. The 4 channel package can handle up to 30 amps worth of electrical equipment.

--------	----------------	---------

Relay Puller Pliers

Pliers for removing electrical relays on most domestic and import vehicles. Offset handle and thin tips allow access to relays in confined areas. Specially designed tips are angled to fit slots or edge of relay cover.

46950		18.99 ea
-------	--	----------

1984-87 TR-6 Relocation Harness

TR-6 relocation harness for 1984-87 models. This harness is available if you plan on moving or relocating your vehicles TR-6 coil box.

Note: Make sure you have the adapter harness that includes your TR-6 box.

GN110589	1984-87	69.99 ea
----------	---------	----------

1984-85 MAT Upgrade Harness

This harness makes it easy to do the conversion over to the later style ECM (GM 1227148) on early turbo model vehicles. Installation of the MAT sensor wire into the 1984-85 turbo Regal harness to allow for the 87 ECM.

Note: Special PROM chip should be used when installing the newer ECM on 1984-85 turbo Regals. Manifold Air Temperature sensor (MAT).

GN110551	1984-85	39.99 ea
----------	---------	----------

1984-85 Fuel Injector Harness

Reproduction fuel injector harness for 1984-85 models. Fits under the lower intake, connects to all injectors, and main connector, under coil pack. This is OEM quality, and is no longer available from GM.

GN110523	1984-85	92.99 ea
----------	---------	----------

1984-85 Injector Harness Connectors

Replacement injector harness connectors for 1984-85 models. These connectors mate to the injectors harness.

GN110524	1984-85	25.99 pr
----------	---------	----------

1984-87 Fuel Pump Hot Wire Harness

Increases fuel pump volume by 15% or more. This "Plug and Play" 12 gauge hot wire kit uses a weather tight sealed 30 amp relay, and sealed OEM factory connectors throughout. Includes: sealed fuse, braided gas tank ground strap, and hardware for easy installation.

GN110529	1984-87	51.99 ea
----------	---------	----------

1984-87 Fuel Tank Connectors

Replaces damaged connectors for fuel pump/sender. Pair of two mating black connectors. Available for 1984-87 turbo Regal.

GN110533	1984-87	27.99 pr
----------	---------	----------

1986-87 Fuel Injector Dyno Harness

Used in dyno applications where the lengths of each connector are equal. Also can be used for sheet metal intake applications.

GN110520	1986-87	102.99 ea
----------	---------	-----------

High Current Fuel Injection Harness

This harness is designed to feed low impedance injectors in race applications. Using direct feed from the positive bus, the system provides minimal power loss to the injectors and ensures full injector control. Includes relay and harness.

GN110528	1986-87	113.99 ea
----------	---------	-----------

REGAL Fuel & Tach Connectors

1986-87 Injector Harness Connector ⚠

Female 7 cavity connector with male pins used on the injector harness. This is the injector harness used for 1986-89 models.

GN110526 1986-87 injector side 23.99 ea

Heated 4 Wire O2 Sensor ⚠

Four wire heated O2 sensor. High tolerance to impurities and additives in the fuel system, last considerably longer than non-heated sensors. Also more tolerant to lead poisoning, and gets your vehicle into closed loop quicker.

GN110537 61.99 ea

1984-85 Fuel Pump Test Tap ⚠

This connector is found behind the alternator, single black connector with gray wire. Used to override ECM control of the fuel pump relay.

Note: This connector should not be plugged into the nearby green connector.

GN110532 1984-85 8.99 ea

1984-87 Fuel Pump Relay Upgrade ⚠

Upgrade the fuel pump relay on 1984-87 Grand National with this kit. Includes relay and splice connector.

GN110527 1984-87 33.99 ea

1984-85 Fuel Pump Test Mating ⚠

Not found on the factory harness, this connector mates with the fuel tap connector (108018) located behind the alternator. Typical application is to use a switch attached to this connector, and to the alternator stud. You can then manually run the fuel pump, to remove fuel from the tank, set fuel pressure, etc.

GN110531 1984-85 8.99 ea

Heavy-Duty Fuel Pump/Fan Relay Set ⚠

Fan relay set for high current applications such as high power cooling fans, high flow fuel pumps and any other load switching which requires an SPDT 40 amp relay. Sealed relay is packaged with sealed connector, three 12/10 gauge pull to seat terminals for the relay contacts, and two 18/16 gauge terminals for the relay coil.

Note: Proper crimp tool required for proper installation.

GN110519 23.99 set

1984-87 Oil Pressure Sensor Connector ⚠

Replaces the original molded on oil pressure switch connector which is frequently burned or damaged because of its location. Three wire connector with proper color wires.

Note: Connector is not a sealed connector.

GN110573 1984-87 8.99 ea

1988-87 Throttle Enhancer ⚠

"Plug and Play" unit inserts between your TPS sensor and wiring harness. It has two functions: It allows you to calibrate the idle voltage of the TPS and assures full power enrichment at wide open throttle. Locks into full TPS voltage at 70% throttle, and maintains consistent TPS voltage at all times. Compensates for element wear. LED display indicates functions.

GN110554 1986-87 979.99 ea

1984-87 Tach Harness Side Connector ⚠

Located behind the alternator, this green connector has two white wires, and single male terminal. Frequently a problem when the terminal corrodes rendering the tachometer inoperative.

Note: The black connector nearby should not be plugged into this green connector.

GN110568 1984-87 8.99 ea

1986-87 Turbo Relay Nameplates ⚠

Custom relay name plates for 1986-87 turbo Buick models. These nameplates eliminate the guesswork when trying to figure out what each relay controls. Feature 3M adhesive for simple installation.

GN110386 1986-87 28.99 pr

VDO Converter Tach Module ⚠

Plug-in device amplifies tach signal from CCCI ignition system which would otherwise not drive a typical aftermarket tachometer. Common uses include interfacing VDO or OEM tachometers. Can also be used to amplify a digital (Hall Effect) speedometer signal. Designed to operate from 5 to 15 Volts DC.

GN110591 converter module 32.99 ea

1984-87 Tach Tap Connector ⚠

This connector is used to tap into the tach signal, to add an aftermarket tachometer.

GN110574 1984-87 8.99 ea

1983-87 Knock Sensor Connector ⚠

Replace broken or missing knock sensor pigtail. Found under coil module, single cavity oval connector, blue wire. Plugs into knock sensor on engine block.

GN110580 1983-87 8.99 ea

Wire Crimping Tool ⚠

Needed for F-type terminals included in Classic Update and universal harnesses. Wire sizes ranging from 10 gauge to 18 gauge, or terminals requiring a two wire connection.

CA510586 112.99 ea

REGAL AC & Heater Connectors

1986-87 Radiator Fan Connector [⚠]

Replacement radiator fan connector for 1986-87 models. This connector has three female terminals and 12 gauge wires.

GN110500 1986-87..... 16.99 ea

1986-87 Coolant Sensor Connector [⚠]

Frequently damaged due to its location and fragile design, it is a critical connection because of the resistance type temperature sensor it plugs into. Utilizes the correct black and yellow wires. Commonly used on GM vehicles.

GN110501 1986-87..... 8.99 ea

1986-87 High/Low Fan Switch [⚠]

Control your vehicles cooling fan from the driver seat. "Plug and Play" harness, with 3 position miniature toggle switch. Allows you to set your cooling fan to high or low speed at any time. Center position is normal (chip) control. Simple installation, plug-in adapter included.

GN110512 1986-87..... 41.99 ea

1978-87 Fan Delay Relay Connector [⚠]

Unsealed connectors usually shows signs of corrosion, and heat damage. Fan delay relay located on drivers side inner fender well has 2 connectors. Replace 1 or 2 connectors.

GN110503 C1 splice..... 10.99 ea
GN110504 C2 splice..... 8.99 ea

1978-87 Low Speed Fan Relay Connector [⚠]

Replaces low speed fan relay connector, located on driver side inner fender well. This connector has 2 red 12 gauge wires, 1 brown wire, 1 black/pink wire, and a solid green wire on the terminal.

GN110505 1978-87..... 16.99 ea

1978-87 High Speed Fan Relay Connector [⚠]

Replaces high speed fan relay connector on driver side inner fender well. Unsealed connector has one 12 gauge red wire.

GN110506 1978-87..... 16.99 ea

1984-87 Blower Resistor Connector [⚠]

This replacement blower resistor connector for 1984-87 models.

GN110507 1984-87..... 8.99 ea

1984-87 Hot Engine Switch Connector [⚠]

Plugs into the switch located in front of the intake, near the radiator hose inlet. Switch actuates the "HOT" light on dash.

GN110508 1984-87..... 8.99 ea

1984-87 High Temp Switch Connector [⚠]

This connector is found directly under the throttle linkage attached to the high temp switch that controls the delay relay. Single green/yellow stripe wire.

GN110509 1984-87..... 8.99 ea

1984-87 AC Relay Upgrade Set [⚠]

Upgrade the AC relay on 1984-87 Grand National with this set. Includes: relay, splice connector, and heat shrink sleeves.

GN110510 1984-87..... 30.99 set

1986-87 Coolant Fan Harness [⚠]

Located on cooling fan assembly. Connects to fan motor and low speed resistor. Includes the three wires with ring terminals.

GN110502 1986-87..... 30.99 ea

1986-87 SPAL Dual Fan Adapter [⚠]

"Plug and Play" adapter to provide connections to SPAL dual fan system using the stock 1986-87 turbo engine harness connection. Runs both fans continuously when vehicle calls for either low or high fan.

GN110511 1986-87..... 30.99 ea

REGAL Alt. & Brake Connectors

1984-87 AC Pressure Line Connector

AC pressure line connector, found on the driver side AC lines, behind the alternator. Gray 3 cavity connector.

GN110513 1984-87..... 8.99 ea

1986-87 AC Compressor Switch Pigtail

AC compressor switch round connector with 2 wires, found on AC compressors. This switch allows clutch control only when there is adequate pressure in the system.

GN110514 1986-87..... 8.99 ea

1984-87 AC Heater Fan Connector

Replacement AC heater fan connectors for 1984-87 Buick Regal/Grand National models.

GN110517 1984-87..... 19.99 ea

NEW! **ALP AUTHORIZED**

1980 HVAC/Compressor Motor Relay

Reproduction 2 terminal wiring connector with pigtail to fit GM models. Plastic housing includes a short pigtail that can be spliced into harness for a factory appearance. Perfect solution to replace cracked, broken, melted or missing connectors.

A17690 1980 HVAC electrical..... 7.99 ea
A17690 1980 AC compressor..... 7.99 ea

1984-87 AC Compressor Connector

Replacement AC compressor connector for 1984-87 models. This connector has an integral diode installed.

GN110518 1984-87..... 21.99 ea

1984-87 Boost Switch Connector

Located near the fuel, and AC relays, passenger side fender well. Brown connector has 2 wires, plugs into the boost switch that illuminates the orange and red lights on the digital dash.

GN110555 1984-87..... 8.99 ea

1984-87 IAT Sensor Connector

Replacement IAT sensor connector for 1984-87 models. Includes two 17" wires and two heat shrink butt splices.

Note: Intake Air Temperature sensor (IAT).

GN110581 1984-87..... 8.99 ea

1986-87 Crank Sensor Connector

Replacement crank sensor connector for 1986-87 models. Common problem is loss of contact tension on terminals, causing intermittent ignition related codes or stalling. Located at bottom driver side of engine at crank sensor. Susceptible to road grime and water damage.

GN110556 1986-87 turbo models.... 8.99 ea

1986-87 Alternator Connector

Replacement alternator connector for 1986-87 vehicles using a newer version CS series alternator model.

GN110576 1986-87..... 8.99 ea

1986-87 Powermaster Brake Connector

This connector (not found on the original engine harness) is a mating connector which connects to the factory 3 cavity Powermaster brake unit connector. Used for diagnostic purposes and homemade extensions.

GN110585 1986-87..... 8.99 ea

Powermaster Pump Motor Connector

These mating connectors replace the 4 cavity connector found on the lower relay connection at the Powermaster brake pump motor.

GN110587 1986-87 pump side..... 8.99 ea
GN110588 1986-87 harness side... 8.99 ea

1973-87 Back-Up/Neutral Safety Switch

Located on the lower steering column or the floor shifter of automatic transmission vehicles, or behind the clutch pedal of manual transmission vehicles. Applications to fit various 1973-87 Regal models.

Automatic Transmission	
Column Shift	
DR418 1973.....	17.99 ea
DR419 1974-77.....	14.99 ea
DR403 1978-87.....	14.99 ea

1986-87 Brake Switch Connector

Replacement brake switch connector for 1986-87 models. Located at the top of the Powermaster brake unit connected to the brake pressure switch.

GN110586 1986-87..... 8.99 ea

1984-87 C-100 Bulkhead Connector

This critical feeder connector is located on the driver side, directly below the power brake system. Part of the main wiring harness, it connects thru the firewall and contains all feeders. Body wiring connector attaches to the open half. Since it is unsealed, it is subject to corrosion and overload damage.

GN110558 1984-87..... 33.99 ea

REGAL Electronic Connectors

1984-87 Wastegate Solenoid Splitter

Designed to add an additional wastegate solenoid to the existing control connector on turbo applications. Additional solenoid gives better control on high boost applications.

Note: Requires boost controller for full control.

GN110597 1984-87 30.99 ea

1984-87 TCCS Connector

Replaces damaged TCCS connector on harness side. Colors of connector match OEM.

Note: Torque Converter Clutch Solenoid (TCCS).

GN110599 1984-87 8.99 ea

1984-87 VSS Converter

Module works in conjunction with VSS Hall-Effect sender which threads to transmission. Electronically converts 16 pulse sender to 2 pulse per revolution requirements for the 1984-87 Buick ECM. Provides accurate road speed signal in custom conversions and engine transplants.

Note: VSS sender (102045) required for complete installation.

GN110592 1984-87 converter 81.99 ea

1984-87 MAF Connector

Replacement MAF connector for 1984-87 models. With extra length, add some slack to the already stretched plug eliminating future potential connection problems.

Note: Mass Air Flow sensor/meter (MAF).

GN110582 1984-87 8.99 ea

GN110534

GN110535

1984-87 EGR Solenoid Connector

EGR solenoid connector for 1984-87 models. This connector is found at the rear of the driver side intake, plugged into the EGR solenoid valve. 4 wire metric-pack connector.

GN110534 1986-87 9.99 ea

GN110535 1984-85 8.99 ea

1984-87 MAP Sensor Connector

Splice plug-in connector for GM style MAP sensors. Green wire signal, black wire ground, gray wire positive Volt.

Note: Manifold Absolute Pressure sensor (MAP).

GN110579 1984-87 8.99 ea

1984-87 MAF Diagnostic Connector

This connector is diagnostic purposes. It plugs into the engine harness where the harness would normally plug into the MAF sensor. Not a part of the original engine wire harness.

Note: Mass Air Flow sensor/meter (MAF).

GN110583 1984-87 16.99 ea

GN110543

GN110542

1984-87 O2 Sensor Connector

Oxygen sensor pigtail/connector for sensor and harness side splice for 1984-89 Regal models.

GN110543 1984-87 sensor side 8.99 ea

GN110542 1984-87 harness side 8.99 ea

3 Wire to 4 Wire Sensor Adapter

Mates with heated O2 harness to allow use of AFS74 or similar GM 3 wire sensor. The adapter plugs into the sensor connector, and also to the male connector common to early GM heated 3 wire sensors.

GN110544 19.99 ea

O2 Retrofit Sensor Connector

O2 sensor connector for various applications. This plug-in adapter is used when installing a heated oxygen sensor into a retrofit application where a one wire sensor was originally used. Plugs into the 3 wire connector on the AFS-74 sensor and provides 2 heater feed wires, 1 red and 1 black. Wires must be spliced into existing positive feed and ground.

Note: AFS-74 is common AC Delco 3 wire O2 sensor.

GN110538 19.99 ea

GN110564

GN110563

1984-87 TPS Breakout Adapter

This breakout adapter is used when you need to tap into the TPS sensor for any particular reason. Plug and play design uses sealed OEM connectors and proper color wire for Buick turbo models. 1984-85 models have grey wire in cavity C and 1986-87 models have grey wire in cavity A.

Note: Throttle Position Sensor (TPS).

GN110564 1984-85 19.99 ea

GN110563 1986-87 19.99 ea

REGAL Electronic Connectors**1984-87 TPS Connector** ⚠️

Exact TPS connector replacement. Frequently found damaged with a broken latch. Proper OEM color wires. 1984-85 models have black wire in cavity A and 1986-89 models gray wire in cavity A.

Note: Throttle Position Sensor (TPS).

GN110565	1986-87	8.99 ea
GN110566	1984-85	8.99 ea

**1986-87 TPS Diagnostic Connector** ⚠️

This connector plugs into the connector that originally plugs into the TPS (Throttle Position Sensor) sensor. Wire color in cavity A is gray. Used for diagnostic purposes and home made extensions. This connector is NOT found on the original engine harness.

GN110567	1986-87	8.99 ea
----------	---------	---------

**1984-87 IAC Relocator** ⚠️

This adapter allows you to extend the terminals on an IAC motor, frequently a problem when installing large inlet pipe on turbo.

Note: Idle Air Control (IAC).

GN110570	1984-87	12.99 ea
----------	---------	----------

**IAC Adapter** ⚠️

This adapter converts your early GM wiring harness to the late model IAC found on later GM throttle bodies. "Plug and Play" 4 wire adapter is about 5" long.

Note: Idle Air Control (IAC).

GN110571		23.99 ea
----------	--	----------

**1984-87 IAC Extender** ⚠️

Use this extension when you need to access IAC (Idle Air Control) connector without removing turbo inlet pipe. Makes access to the connection easy.

GN110572	1984-87	16.99 ea
----------	---------	----------

**1984-87 C-437 Mating Pair** ⚠️

Located under throttle linkage, on top of lower intake. Attaches to hi temp switch, green wire with yellow stripe, controls high speed relay, and delay relay.

GN110560	1984-87	30.99 ea
----------	---------	----------

**OBD-I Port Connector** ⚠️

OBD-I port used when you need to dedicate a scan tool to your data stream.

GN110548		12.99 ea
----------	--	----------

**1987 GNX PC/Telltale Board** ⚠️

This kit contains specially designed PC boards used on the GNX dash cluster. The HI, LH, RH, PC boards uses bright blue and green LEDs and is designed to fit a triangle section of the dash, between the two, tach and speedometer gauges. The (idiot light) telltale is designed to fit directly into the factory OEM telltale housing without modification. It contains bright white LEDs two for each indicator section. Also includes the ALT load resistor to ensure alternator field current.

GN110549	1987	49.99 ea
----------	------	----------

**1984-87 ESC Module Connector** ⚠️

Replace damage or missing connector on the ESC (Electronic Spark Control) module. Located on passenger side inner fender well.

GN110547	1984-87	16.99 ea
----------	---------	----------

**1984-87 C-437 Connector** ⚠️

For the do-it-yourselfers, this connector assembly is the actual harness connector found on the dash harness which mates with the two connectors on the engine harness, near the ECM. Ideal if you are creating your own custom harness.

Note: Proper crimp tool required for proper installation.

GN110559	1984-87	with terminals 25.99 ea
----------	---------	-------------------------

**1986-87 CCCI Connector** ⚠️

Replacement CCCI (Computer Control Coil Ignition) connector for 1986-87 models.

GN110550	1986-87	35.99 ea
----------	---------	----------

**1984-87 CCCI Connector** ⚠️

This connector assembly is the actual harness connector used on the CCCI (Computer Control Coil Ignition) module. Black connector comes complete with 14 pull to seat 16 gauge terminals and seals. Ideal if you are creating your own custom harness.

Note: Proper crimp tool required for proper installation.

GN110561	1984-87	26.99 ea
----------	---------	----------

**C-100 Connector Seal** ⚠️

Make sure you add a new gasket seal to your connector, keep moisture and corrosion away.

GN110562		22.99 ea

Easy Loom Master Set
DEI00663 master set..... 105.99 set

Thermo-Flex Hose and Wiring Covering

The combination of aluminum, silica, and stainless steel is combined to produce a sleeve that is flexible lightweight, and strong. The aluminum-silica combination can be slit for applications such as wire looms or hose covering, without disconnecting the ends of the wire or hoses. Thermo-Flex aluminum can withstand extreme temperatures up to 750 degrees F.

Semi-Rigid Wrappable Split Braided Tube

Clean up and protect any wiring harness with this black braided wrap wire. The semi-rigid tube opens along a lateral split to accommodate a variety of harness configurations, then simply closes without any need for fasteners. A 25% overlap ensures complete coverage. Retains shape and rigidity from -94 degrees to 257 degrees F. For 18-14 gauge wire.

Express Sleeve

Express sleeving is a combination of a high temperature insulation material and a highly reflective Mylar foil with a Velcro closure. The sleeving is designed to simply and effectively protect wire, hoses, and cables from harmful effects of radiant heat. Just pull apart the Velcro, wrap around the wire, and re-close the sleeve. Express Sleeves reflect over 90% of radiant heat bursts up to 2000 degrees F, and can easily withstand direct temperatures up to 750 degrees F.

X-Treme Tape

X-Treme Tape was developed for the military and has some very unusual properties. The silicone based tape will stick only to itself, and only when placed under tension. Once wrapped around an object, it forms a non-conductive, air and watertight, insulating seal that remains flexible within a temperature range of -60 degrees to 500 degrees F. Insulates to 8000 Volts. Stretches to 3X its length. Conforms to irregular shapes. When wrapped upon itself, it bonds together immediately and becomes completely fused after 24 hours at room temperature.

W3095 connector set 24 piece..... 21.99 set

Universal Wire Grommet

Sometimes you are forced to punch a hole in your firewall to get additional wires into the engine compartment, but that hole you cut is sharp and can potentially sever wires. To help prevent this, install one of these universal wire grommets. In addition to the added protection, these grommets also give the hole in the firewall a cleaner appearance.

Note: *Can be drilled out up to a 1/4" opening.

Automotive enthusiasts seeking personal service have always been invited and encouraged to visit our location in Huntington Beach, California. We have recently expanded our showroom facility to make the experience worth the trip for our customers and their families.

More than mere parts counter, our new showroom has something for everyone. A rotation of show cars is on display, including award-winning Classic Industries restorations such as the "TWISTED" Duster, "CAMOTION" Camaro, and "INNOVATION" Nova. Information kiosks let you browse electronically while our entertainment center keeps spouses and younger enthusiasts occupied. Naturally, the latest gift and apparel items are presented along with the newest reproduction parts. Our friendly, knowledgeable staff is ready and able to help with questions and ideas to make your restoration project smooth and easy.

NEW SHOWROOM!

Bring the Family!

Step past the featured display car and take a seat in front of our entertainment center, designed to create a comfortable atmosphere for enthusiasts, their children, and their significant others. Let the stream of interesting automotive content hold their attention while you check out our unparalleled product line.

Discover Our Products

Browse our unparalleled selection of restoration and performance parts and accessories at these convenient computer terminals. Discover more about the latest great products available for your automotive project from Classic Industries®.

Save on Shipping with Will Call

Want to pick up your order at the showroom and save the shipping costs? We'll be happy to have your order ready for pickup. After all, with our immense inventory of parts, we are SoCal's biggest parts store for classic GM and Mopar models.

THE ALL NEW

www.classicindustries.com

▶ Improved Account Management!
Managing your account couldn't be simpler! Update your information, track your orders, build up and modify your wish list, and more, all at your convenience.

▶ All New Shopping Experience!
Our redesigned website is much more than just a sleek new look. Improved usability and a streamlined checkout process eliminate the hassle of ordering parts for your project!

▶ More Product Detail!
Multiple product views give you the full picture of what you're ordering. "Also Fits" information and the "Ask a Tech" feature ensure that you get the right part for your project!

▶ Improved Product Search!
New search capabilities make it easier than ever to browse our product line! "Shop by Brand" lets you check out the latest from the names you know and the brands you trust!

▶ Social Media Integration!
Social media updates, news, videos and articles are easily accessible right from the main page! See posts from our upcoming Classic Industries® blog site blog.classicindustries.com/!

▶ At A Glance!
Scroll through the most popular items Classic Industries® has to offer using our new *Most Popular*, *Top Sellers* and *Most Viewed* tabs!

The screenshot shows the Classic Industries website homepage. At the top, there's a navigation bar with "Home", "Products", "Shop By Brand", and "News And Media". Below this is a search bar with "Any Year / Any Model" and a search icon. The main content area features a large image of a classic car with the text "CLASSIC INDUSTRIES Making you build your dream one project at a time". Below the car image are sections for "Featured Brands" (listing brands like ARP, Holley, MSD, etc.), "New & Noteworthy" (featuring a 15% off coupon), and "Latest News from Classic Industries".

This section displays three columns of product listings. Each column has a title "Exclusive from Classic Industries®", a product image, and a detailed description.

- Column 1:** "Collector and the Classic Car" - Describes a classic car project and includes an image of a yellow classic car.
- Column 2:** "1970-1973 Corvair/Pre-Corvair Complete Four Pin Kit" - Describes a suspension kit for Corvairs and includes an image of the kit.
- Column 3:** "Nova Parts 1968 Nova Headlamp Bracket" - Describes a headlamp bracket for a 1968 Nova and includes an image of the bracket.

This section shows a horizontal carousel of automotive parts. The tabs are "Most Popular", "Top Sellers", and "Most Viewed". The carousel displays five items: a battery, an engine, a suspension component, a carburetor, and a spark plug.

Four Ways to Order!

ORDERING BY PHONE TOLL FREE 800-854-1280

In the continental United States, Hawaii and Alaska. Outside the U.S. call 714.847.6887.

Mon-Fri 8:00-5:00 Sat 10:00-3:00, P.S.T.
(Closed Sundays and holidays)

Information you'll need when ordering by Phone:

Customer Number

Found on back cover of your catalog above your name, this number allows Classic Industries® to quickly access your information. If you do not have a customer number, a new one will be given to you when placing your order.

Billing and Shipping Address

Please have the billing and shipping address available. Credit card orders are verified by name and address before shipping. Your order can be shipped to a different address, provided the cardholder's name and address match the credit card used. You may be asked to contact your credit card company to have the shipping address added to your account.

Year and Model of Vehicle

To provide the best possible service, we may require the year and model of your vehicle. This helps verify that the parts you order are correct for your car.

Part Numbers

All Classic Industries® products are listed with a part number. If possible, please have the part numbers of the products you're ordering available before calling to make the ordering process faster and more convenient.

ONLINE ORDERING

www.classicindustries.com

Service Excellence From the Restoration Leaders!

You No Longer Have To:

- ✗ Pay excessive fees to protect your merchandise
- ✗ Contact the carrier yourself
- ✗ File a damage claim yourself to have the carrier inspect the damaged items
- ✗ Send the damaged items back at your expense

With Classic Industries® the worry is eliminated!

PROCEDURE FOR RETURNING SHIPPING DAMAGES

We handle the claim so you don't have to! If any part you receive is damaged during shipping and handling, simply contact our customer service department toll-free at 800.854.1280 within two business days.

After verifying the damage, Classic Industries® will issue a pickup call tag through the carrier that shipped the products. The carrier will pickup the damaged goods from your address and return them to us at no expense to you. After the product has been inspected, our customer service department will send a replacement part.

In order to ensure replacement of damaged products, please return items in their original box and packaging. Failure to do so may result in the claim being denied. Someone must be available at the pickup address to supply the damaged products when the carrier arrives. If the carrier is unable to pick up the products for any reason, the customer may be required to return the products at their expense.

Note: Some products are excluded from damage call tag pickup. Call a customer service representative for information about products that are not eligible.

ENJOY THE BENEFITS!

Money Back Guarantee

At Classic Industries®, we take pride in the quality of the products we offer and back it up with a 100% Money Back Guarantee. If for any reason you are not satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit or exchange.

Not all restoration parts are created equal. But at Classic Industries®, we research each and every product we sell to make sure our customers are getting the highest quality products in the market. We have decades of experience in product selection and we painstakingly scrutinize every product we offer for quality manufacturing, materials, and craftsmanship before we will offer it in any of our catalogs. Many of our employees are automotive enthusiasts themselves. In fact, many were customers prior to becoming employees, so we understand the needs of the modern classic car enthusiast. Our product procurement specialists have made it their goal to select restoration products that have been manufactured using modern technology and materials with an emphasis on originality, longevity, and attention to detail. What else would you expect from the company that started it all? Classic Industries® is the name you can trust, and we'd like for you to consider us as your partner in restoration. When a company

continually offers a quality product for a reasonable price and backs up every sale with the best customer service in the industry, people come back! That's why Classic Industries® has been the leader in restoration for almost four decades. So, if you haven't already decided for yourself that Classic Industries® is the most logical choice as your restoration parts supplier, then check out our Money Back Guarantee. If for any reason you are not 100% satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit, or exchange.

- ✓ **Lowest Prices Guaranteed!**
- ✓ **The Finest Quality Reproductions!**
- ✓ **No Fault Product Protection Offer!**
- ✓ **100% Satisfaction or Your Money Back!**

Price Match Guarantee

If you find it for less we'll match the price!

Classic Industries® will match any competitor's current advertised price for an identical product. Simply send us a copy of the competitor's current advertised price from a catalog, advertisement or website (with URL) and we'll match the price. The price match guarantee is available at the time the order is placed and for in-stock merchandise only. Price matching will be determined by a competitor's most current retail published price and is limited to competitors within the Restoration Industry.

Important: In an effort to provide our retail customers with the most competitive pricing available, we will match our current competitor's pricing. Price matching will be determined by a competitor's most current retail published price and is limited to competitors within the "Restoration Industry". Performance parts and special orders are exempt from price matching policy. Classic Industries® reserves the right to decline price matching if

pricing is deemed to be a special offer, a sale or closeout price, or a non-current price. Competitors sale pricing, inventory reductions, close outs, special promotional offers, etc. may be exempt from the "price match" guarantee. The guarantee is subject to the terms and conditions of Classic Industries' current policies.

Classic Industries® will generally contact competitors to confirm that the published price is current due to market changes, demand or availability. Price matching supersedes all other promotional offers and on sale pricing. If Classic Industries® matches a price from a competitor, additional discounts on that product or products may not apply. If the standard retail price of a product is higher than the competitor's price and an applied discount reduces the price below the competitor's pricing, the now discounted or sale pricing will prevail. We reserve the right to change or revoke this offer at any time without notice. Classic Industries® reserves the right to decline price matching.

Think Of Us As Your Partner In Restoration!

A restoration can take years! We understand the complications and problems that can occur when ordering precious parts for your project car. If you are like most people, you want perfection. The many different elements that make up a restoration isn't just limited to the parts you install. You sometimes need to rely on other outside elements such as body shops, painters, upholstery specialists and parts suppliers. That's where we come in. We offer the quality parts you want without all the guesswork. We carry one of the largest inventories of restoration products and accessories the market has to offer. What's more, you can rely on our nearly

40 years of experience to help you through the rough spots when you need it. Our tech advisors are always ready and willing to discuss any problem you may have concerning the parts for your vehicle and your restoration. Unlike other companies, we give you knowledgeable sales representatives, one of the largest inventories in the business, quick and efficient delivery, Toll-free ordering, and the experience to back it up. If you're not absolutely 100% satisfied with the products you receive, We'll refund 100% of your money! Classic Industries® - your partner in restoration!

Form of Payment

CREDIT CARDS

Classic Industries® accepts Visa, MasterCard, American Express, Optima, and Discover for your convenience. When placing your order, be sure to indicate the cardholders name, address, home phone, business phone, credit card number and expiration date and billing address (if different from person placing order). A security code is required for credit card purchases. Please have your credit card readily available when placing your order. Minimum order is \$20.00. New or 1st time customers who are paying by credit card must have the order shipped to the cardholders billing address for the first order. Invalid or non-matching billing addresses could delay your shipment.

CERTIFIED CHECKS

Classic Industries® will accept certified checks for your mail order. Be sure to include customer number and/or reference invoice number. Contact your bank to issue a certified check in the amount due for your order. All orders paid by certified check will be held up to 15 days pending clearance.

PERSONAL CHECKS

To use personal checks or business checks on prepaid orders, the name, address, and check number must be preprinted on the check. Be sure to include customer number and/or reference invoice number. Only first party checks will be accepted. All orders paid by personal check are held up to 15 days pending clearance.

MONEY ORDERS/CASHIERS CHECKS

To use money orders or cashiers checks on prepaid orders be sure to include customer number and/or reference invoice number. All orders paid by money order are held up to 15 days pending clearance. Once released the order will leave within 24 hours of clearance.

Make Personal Checks or Money Orders payable to:
Classic Industries®

PAYPAL

Classic Industries® now accepts payments via PayPal! Simply complete your order over the phone with a customer service representative, get your invoice number and then send your payment to paypal@classicindustries.com through PayPal's "Send Money" feature and select "Goods and Services" for payment reason. Be sure to include your invoice number in the "Special Instructions" tab at checkout for fastest service. Orders are generally shipped within 72 hours or less of payment receipt. Contact our customer service department for additional details.

How to Order

MAIL ORDERS

Fill out the order form located in the back section of this catalog. For quick service use your credit card, money order, or cashiers check. Personal checks are held for 15 days from date of receipt pending clearance. All mail orders must be prepaid including freight (when applicable). COD orders through the mail will not be accepted. If you have any questions regarding product information or availability, contact our sales representatives during regular business hours at 800.854.1280.

ORDER BY PHONE

Classic Industries® employs knowledgeable sales representatives to assist you when placing your order. Our sales representatives are trained to answer your questions regarding restoration and the parts listed in this catalog. Call during regular business hours Mon-Fri 8:00-5:00, Sat 10:00-3:00, P.S.T. ONLINE ORDERING

Classic Industries® offers online ordering directly through our website. Log on to classicindustries.com and order online. Online ordering is available 24 hours a day 7 days a week for your convenience.

WWW.CLASSICINDUSTRIES.COM

FOREIGN ORDERS

All foreign orders must be prepaid before the products can be shipped. The Classic Industries® staff will check with the various freight companies that deliver to your country and area to determine the best possible rates available for your order. Once your order is rated, you'll be contacted by E-mail or phone to approve the rate. After approval and payment is received, the order will be shipped. The Shipping and Handling field for foreign orders will state "TBD" (To Be Determined). Rates are subject to change once the order has been packed and is ready to ship. Rates are calculated based on estimations of weight, dimensions and other factors. Should changes in freight costs occur once the order is packed and ready to ship, Classic Industries® will notify the customer immediately before the shipment is sent. If you have any questions or concerns, please direct your inquiries to info-desk@classicindustries.com

General Information

Sales Tax Information

Classic Industries® collects and remits sales tax based on state and local requirements. The sales tax laws have changed due to a Supreme Court ruling in 2018. The appropriate sales tax will be applied to your order and remitted based on your state's requirements. If your order is shipped, or picked up in a specific state that requires sales tax, the appropriate amount will be added to your order.

Accuracy of Descriptions

Classic Industries® makes every effort to verify the accuracy of all information published in this catalog. Each item is represented with information that is accurate to the best of our knowledge at the time the catalog is printed. Classic Industries® is not responsible or liable for mistakes, print errors or inaccurate information that may lead to, or result in labor costs or damages to any vehicle under any circumstances.

Kit Products

All Classic Industries® Parts and Accessories catalogs include kits which contain a variety of products. On occasion we may run out of an item supplied with a kit. If this happens we may generally ship what is in stock and back order the item(s) which are not in stock. You may contact our sales department by phone to verify which items are not in stock at the time the order is placed. The customer may decide whether to accept the partial kit or have the entire kit back ordered until the kit is completed and all the items can be shipped at the same time. If the customer decides to accept partial delivery of the kit, then the full price of the kit will be charged to the customer and the back ordered items will be shipped no charge when they arrive at our warehouse. Customers will be charged the appropriate freight fees when applicable. Inclusion of products from a kit will be accepted at 25% below the actual current retail price of the item. On COD orders the price of the kit is charged in full and the back ordered items are shipped on a COD freight only basis.

Lefts and Rights

Some items in this catalog are presented as left or right hand products (left side - driver), right side - passenger). Left hand or right hand sides are determined by sitting in the vehicle, not standing in front of the vehicle.

Color Matches

Due to multiple manufacturers of products Classic Industries® provides, color variations may occur. Slight color variations are common especially among interior products and do not constitute a defect. These products are not eligible for return for this reason.

Pricing

Current product pricing and our pricing policy can be found by visiting our website. Prices in this catalog were in effect at the time of printing and supersede all prices in any previous publication. Classic Industries® makes every effort to honor the prices contained herein. Due to constantly changing costs in raw materials, supply chain issues, and unforeseen circumstances, pricing on products are subject to change. We reserve the right to change prices without notice. For current pricing, please go to ClassicIndustries.com, or contact a Classic Industries® sales representative during normal business hours. Eligibility of products for discounts are subject to change without notice.

Trademark and Copyright

Classic Industries® Parts and Accessories catalog is copyrighted. No part of this publication including text, photos or illustrations may be reproduced without the prior written permission of Classic Industries®. The following names and/or symbols: Mopar, Dodge, Plymouth, Barracuda, Belvedere, Coronet, Challenger, Charger, Cuda, Dart, Duster, Fury, GTX, Hemi, Polara, Road Runner, Six Pack, Super Bee, Scamp, Valiant are registered trademarks of Chrysler Group, LLC and are used for reference purposes only unless specified otherwise.

Product Availability

Availability of all items in this catalog are subject to change without notice. We reserve the right to discontinue products, services or accessories without notice.

Shortages

Always check the contents of your delivery to assure of the parts ordered were received. If you are missing any item(s) be sure to check for back orders noted on your invoice before calling our customer service department (see back orders). If a shortage has occurred, contact our customer service department within 2 working days of delivery to assure a prompt replacement. Classic Industries® assumes no liability after this period.

ALASKA, HAWAII, GUAM & PUERTO RICO

Orders being shipped to Alaska, Hawaii, Guam or Puerto Rico, are shipped via Ground, Overnight or 2-Day delivery whenever possible. All orders must be prepaid with credit card, money order, or check. No COD orders are accepted. Rates depend on the items being shipped. Contact our sales department for exact rates.

Important: Promotional shipping offers do not apply to Alaska, Hawaii, Guam, Puerto Rico, Canada or any foreign destination.

APO/FPO

Parcel post is the only means of shipping to an APO or FPO address. Due to size restrictions the maximum shipping box can be no larger than 72" width and girth combined. All military personnel must write or call to determine what size box will be used for the shipment. Once this is determined, Classic Industries® will call or write to let you know if the order can be shipped by Parcel Post, and the correct amount required. All orders that exceed these limitations will be shipped in accordance with customer approval.

INSURANCE

Each order is charged an insurance fee of \$3.50. This fee will insure the entire order and protect you completely from damages or loss. The order forms located in the rear of this catalog include this fee in the indicated column when your order is being totaled.

COD ORDERS

COD orders are gladly accepted on all normal ground shipments, excluding truck freight orders. COD orders will require cash only upon delivery of your order. All COD orders are shipped by FedEx. Personal checks, business checks, money orders and certified checks are not accepted. COD orders are not accepted through the mail. COD orders must be placed by phone during regular business hours. The appropriate shipping fees will be added. COD orders are exempt from discounts and free shipping promotion. The customer will pay all appropriate fees in accordance with current policies and freight rates. A fee of \$11.95 per box will be added to all COD orders. Oversize and/or overweight boxes will be charged in accordance with the rate chart located on the order blank. Classic Industries® reserves the right to change shipping rates in accordance with rate increases by freight companies. COD orders are limited to \$999.00. If the COD order should be returned to Classic Industries® for non acceptance/non payment, the customer will be responsible to reimburse Classic Industries® for any and all freight charges related to the order. In addition, a 25% restocking fee will be applied to the returned products. All outstanding charges must be paid before any additional orders will be accepted.

SPECIAL RATE SHIPPING FEES/DROP SHIP FEES

Some items we offer may require a mandatory shipping or drop ship fee. This fee may also apply to products sold over the counter at Classic Industries® Showroom location. Contact our sales department for actual additional shipping fees.

Important: Products with special rate shipping fees or drop ship fees are excluded from promotional shipping offers.

General Information

Back Orders

The invoice located in the packing slip of your order will note any items that were out of stock at the time of shipping. The unavailable items will be back ordered unless otherwise specified on your order form or verbally to a sales representative when placing your order by phone. Back orders are usually shipped when the products arrive at our warehouse without prior notification. Classic Industries® will make an effort to contact the customer if the backorder is more than 90 days old. If you wish to cancel a back order, please notify our customer service department immediately. The customer will be responsible for a 25% restocking fee and freight charges if the back order is cancelled or returned after the items are shipped.

Damage Claims

Always check the contents of your shipment in the presence of the person delivering the merchandise. Should any damage occur, immediately notify Classic Industries® customer service dept, so that all steps necessary will be taken to ensure a prompt replacement of any damaged goods. Accurate instructions will be given on damaged goods replacement. Classic Industries® is not responsible if no notification is given within 2 working days of receipt of goods (excluding Sundays and Holidays). Classic Industries® will file a claim with the carrier in most cases. If the customer files a claim with the carrier, Classic Industries® will not be responsible for replacing damaged products and the customer will be responsible to pay for any replacements until the carrier pays the claim. Any replacement parts due to sales errors or customer errors in ordering will be sent using the same shipping method as the original order when possible. Please follow these instructions to avoid any problems or misunderstandings associated with damaged products and freight claims.

Refusals

All refused COD orders will be subject to a 25% restocking fee. Classic Industries® will consider the entire order cancelled and void with no notification to the customer. The customer will be billed 25% plus all freight charges to and from the destination. Contact our customer service department for more information.

Policies

All policies in Classic Industries® current catalog supersede any and all policies in any previous catalog or publication.

EXPRESS SHIPPING

Classic Industries® offers Overnight and 2-Day air delivery service in the Continental U.S., Alaska, Hawaii, Guam and Puerto Rico. Prepayment with a credit card is required before shipments can be sent. Simply call in your order before 2:00 p.m. Pacific Time, Monday-Friday during regular business hours and your Overnight order will arrive the following business day (pending availability). Saturday delivery is available only on Overnight service. A \$16.95 fee will be added to Overnight fees on Saturday delivery. 2-Day orders will arrive within 2 business days (pending availability). 3-Day service is available within the contiguous 48 states. Your order will usually leave within 24 hours and will arrive within 3 business days of ship date (pending availability). A \$9.95 service fee for any of these options will be added in addition to shipping fees. Contact our sales department for rates regarding air service delivery. Rates depend on the items being shipped. Some products are charged at dimensional weight as opposed to actual weight.

Important: Air service does not guarantee your order will arrive on the expected date of delivery. Under normal circumstances, air service is guaranteed. However, due to adverse weather conditions, natural disasters or unforeseen circumstances, there may be delays. Classic Industries® is not responsible for deliveries that are delayed. Air service orders are excluded from promotional shipping offers.

TRUCK FREIGHT

Products in this catalog that require truck freight are typically indicated with a "Truck Freight" icon. This indicates that the product is too large for ground delivery and must be shipped by motor freight. There may be items listed herein that are not indicated as truck freight. These items must be prepaid, including freight charges, before the shipment can be sent. Truck freight rates may vary depending on products being ordered, fuel surcharges, and the shipping destination. Residential deliveries require an additional fee assessed by the carrier due to the additional coordination and transit outside of normal routes. Some Truck Freight shipments may require special handling (e.g., lift gate service, re-routing, additional freight charges, etc.). Acceptance of truck freight shipment, rate and applicable fees is acknowledged at time of order. For additional information visit online at help.classicindustries.com or contact our customer service department during regular business hours.

Important: Truck freight items are excluded from promotional shipping offers.

OVERSIZE-OVERWEIGHT

These are the designations for Ground or Standard packages that meet one of the following specifications for billing purposes. Oversize 1 (OS1) designates a combined length and girth exceeding 84", but less than 108". Actual weight is less than 30 lbs. and is billed at 30 lbs. Oversize 2 (OS2) designates a combined length and girth exceeding 108" but less than 130". Actual weight is less than 70 lbs. and is billed at 70 lbs. Oversize 3 (OS3) designates a combined length and girth exceeding 130" but less than 165". A handling fee will be added to all (OS3) orders. Overnight 1, 2, and 3 designates actual weight is less than 90 lbs. and is billed at 90 lbs. In appropriate. We reserve the right to charge Oversize and Overweight fees on any order containing oversize and overweight products, even if it is not indicated in the catalog. For additional information visit us online at help.classicindustries.com or contact our customer service department during regular business hours.

Important: Oversize, overweight and dimensional weight items are excluded from promotional shipping offers.

Sales Errors/Ordering Errors

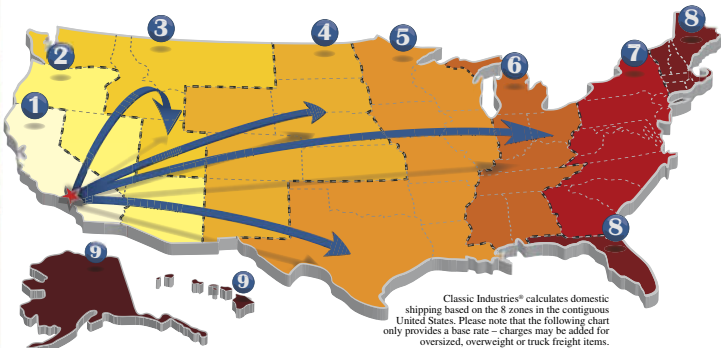

Classic Industries® is not responsible for customer errors or employee sales errors. Every effort is made to insure that the products you are ordering are accurate. Should an error occur, we will make every effort to resolve the issue. Replacement products will be shipped the same method as the original order whenever possible. Classic Industries® assumes no responsibility or liability for damages, fees, storage charges, or any other inconvenience that may be associated with sales errors or customer ordering errors.

Returns

Products may be returned for a full refund on the product, credit or exchange within 30 days of receipt. All returns are subject to a 25% restocking fee after 30 days. Should you need to return a part for refund, exchange or credit, please contact our customer service department for a return authorization number and instructions. Classic Industries® will not accept returned goods without prior authorization. Customer will pay freight on all return orders. Allow up to 3 weeks to process refund or credit.

Important: Gift certificates have no cash value and must be redeemed for merchandise only. Literature, CDs, videos, printed materials, stencil kits, stripes, electrical parts, gauges, wiring harnesses, switches, etc. are non-returnable. All special order products must be pre-paid in full and are non-returnable. No returns on partial kits or sets. There is no guarantee on moving parts such as engines, transmissions, rear ends, steering gears, water pumps, distributors, wiper motors, etc. If any product is modified, altered, painted, installed or disassembled in any way without Classic Industries® expressed written permission, the item is non-returnable. Classic Industries® always recommends original installation on all products. Any item which has been altered, painted, installed or deemed non-resalable by Classic Industries® will be returned to the customer at the customer's expense. Classic Industries® is not responsible or liable for labor fees associated with the installation, removal, modification, painting or repair of any product purchased regardless of the circumstances. Classic Industries® is not responsible for any damage or discoloration incurred in relation to chemical products being used including cleaners, waxes, polishes, paints, etc.

Shipping Information

Classic Industries® calculates domestic shipping based on the 8 zones in the contiguous United States. Please note that the following chart only provides a base rate – charges may be added for oversized, overweight or truck freight items.

Zones	1	2	3	4	5	6	7	8	9
Estimated Delivery	2-4 Days			3-6 Days		4-8 Days		7-10 Days	

ALASKA, HAWAII, GUAM & PUERTO RICO

Orders being shipped to Alaska, Hawaii, Guam or Puerto Rico, are shipped via Ground, Overnight or 2 Day delivery whenever possible. All orders must be prepaid with credit card, money order, or check. No COD orders are accepted. Rates depend on the items being shipped. Contact our sales department for exact rates.

Important: Promotional shipping offers do not apply to Alaska, Hawaii, Guam, Puerto Rico, Canada or any foreign destination.

APO/FPO

Parcel post is the only means of shipping to an APO or FPO address. Due to size restrictions the maximum shipping box can be no larger than 72" width and girth combined. All military personnel must write or call to determine what size box will be used for the shipment. Once this is determined, Classic Industries® will call or write to let you know if the order can be shipped by Parcel Post, and the correct amount required. All orders that exceed these limitations will be shipped in accordance with customer approval.

HANDLING

Each order is charged a handling fee of up to \$3.50. This fee will insure the entire order and protect you completely from damages or loss. The order forms located in the rear of this catalog include this fee in the indicated column when your order is being totaled.

COD ORDERS

COD orders are gladly accepted on all normal ground shipments, excluding truck freight orders. COD orders will require cash only upon delivery of your order. All COD orders are shipped by FedEx. Personal checks, business checks, money orders and certified checks are not accepted. COD orders are not accepted through the mail. COD orders must be placed by phone during regular business hours. The appropriate shipping fees will be added. COD orders are exempt from discounts and free shipping promotion. EXPRESS SHIPPING

Classic Industries® offers Overnight and 2 Day air delivery service in the Continental U.S., Alaska, Hawaii, Guam and Puerto Rico. Pre-payment with a credit card is required before shipments can be sent. Simply call in your order before 2:00 p.m. Pacific Time, Monday-Friday during regular business hours and your Overnight order will arrive the following business day (pending availability). Saturday delivery is available only on Overnight service. A \$16.95 fee will be added to Overnight fees for Saturday delivery. 2 Day orders will arrive within 2 business days (pending availability). 3 Day service is available within the contiguous 48 states. Your order will usually leave within 24 hours and will arrive within 3 business days of ship date (pending availability). A \$9.95 service fee for any of these options will be added in addition to shipping fees. Contact our sales department for rates regarding air service delivery. Rates depend on the items being shipped. Some products are charged at dimensional weight as opposed to actual weight.

Important: Air service does not guarantee your order will arrive on the expected date of delivery. Under normal circumstances, air service is quantified. However, due to adverse weather conditions, natural disasters or unforeseen circumstances, there may be delays. Classic Industries® is not responsible for deliveries that are delayed. Air service orders are excluded from promotional shipping offers.

TRUCK FREIGHT

Products in this catalog that require truck freight are usually indicated below the product "Shipped truck freight". This indicates that the product is too large for ground delivery and must be shipped by motor freight. There may be items listed herein that are not indicated as truck freight. These items must be prepaid, including freight charges, before the shipment can be sent. Classic Industries® requires a minimum \$125.00 fee for all California orders and minimum \$175.00 fee for all out of state truck shipments. Truck freight rates could be higher depending on products being ordered and the destination. Residential deliveries require an additional \$40.00 fee. Should the customer's delivery require special handling (lift gate service, re-routing, additional freight charges, etc.), any and all additional fees will be billed to the customer's credit card. Acceptance of truck freight shipment is acknowledgment that additional charges will be incurred. Please include a commercial business address whenever possible. For additional information contact our customer service department during regular business hours.

Important: Truck freight items are excluded from promotional shipping offers.

OVERSIZE-OVERWEIGHT

These are the designations for Ground or Standard packages that meet one of the following specifications for billing purposes: Oversize 1 (OS1) designates a combined length and girth exceeding 84", but less than 108". Actual weight is less than 30 lbs, and is billed at 30 lbs. Oversize 2 (OS2) designates a combined length and girth exceeding 108" but less than 130". Actual weight is less than 70 lbs, and is billed at 70 lbs. Oversize 3 (OS3) designates a combined length and girth exceeding 130" but less than 165". A \$40.00 handling fee will be added to all (OS3) orders. Actual weight is less than 90 lbs, and is billed at 90 lbs. We reserve the right to charge Oversize fees on any order containing oversize products, even if it is not indicated in the catalog.

Important: Oversize, overweight and dimensional weight items are excluded from promotional shipping offers.

ZONE 9
ALASKA & HAWAII

Orders to Alaska and Hawaii ship by air and therefore ground rates do not apply.

How to READ

Your Invoice

Invoice Number

Each order is assigned an individual invoice number.

Account Number

Your customer number.

Billing Information

Customer mailing address or where the credit card statements are received.

Vehicle Information

Shows your vehicle's year, model, etc.

Quantity Ordered

The number of each part that you've ordered.

Unit of Measure

Indicates if an item is sold individually, as a pair, kit or set.

Part Number

Part number as it's listed in the catalog.

Sale Item

"S" indicates sale item not eligible for discounts.

Product Description

Description of the part ordered.

Quantity Shipped

Number of items shipped.

Quantity Back Ordered

Number of items out of stock.

Payment Information

This shows the type of payment (cash, credit card, etc.) and the amount owed.

FourSix Projector Headlamps

Dapper Lighting FourSix projector headlamps are the slimmest 4" x 6" projector headlamp design on the market. Designed to be a replacement for stock sealed beams, these lights fit into most classic car headlight buckets without any modification. The wiring plugs right into your OEM socket and there's no need to modify your existing wiring. They feature a 10,000 RPM cooling system and adaptive power control for increased longevity, performance, and visibility. The factory original look is achieved with their unique curved glass partial Fresnel lens with a special clear center to ensure the output is clean and crisp. If you are looking for stock replacements, you can't go wrong with a FourSix.

Hi-Tek SuperCooler

Our B&M Hi-Tek SuperCoolers feature a stacked plate design which is up to 30% more efficient than tube and fin designs and have 15% less flow restriction resulting in maximum cooling efficiency. The cooler features built-in attachment points, making mounting the cooler a breeze and the cooler is suitable for many fluids including transmission fluids, engine oil, and power steering fluid. The hose barb fitting size for this cooler is 11/32" and can be mounted with fittings located up, down or sideways. The SuperCooler features durable brazed aluminum construction and is pressure tested to 200 PSI. Includes mounting hardware and hose.

OER AUTHORIZED

Our exclusive soft cotton lining provides added protection against dings and scratches.

TitaniumPlus Car Covers

OER's premium Titanium Plus material offers double the protection of the standard Titanium material. Engineered specifically to provide the best protection from the sun and designed for indoor and outdoor use, the Titanium Plus features a reflective and water repellent top layer that helps keep the interior cooler in sunlight and protects against harmful UV rays. In addition, this cover also has a soft padded cotton inner layer for extra protection against nicks and dings when your Regal is parked in tight spaces. Each cover is sewn with double stitched seams to add strength and durability to the cover and has neoprene elastic sewn into the front and rear hems to help keep the cover in place. This cover offers the ultimate in UV protection in a material that's easy to handle and store.
