## Sniper EFI Fuel Injection Conversion Sets

Holley Sniper EFI universal self-tuning fuel injection conversion sets. Converting to EFI will put an end to the cold start issues, hesitations, vapor lock, and flooding associated with most carbureted engines. Sniper sets feature numerous styles of throttle body and are available in polished, black ceramic, and classic gold finishes. Master sets include the most complete fuel system on the market. Holley just brought EFI within range and Classic Industries® carries the complete Sniper line with sets for nearly any application.

### Sniper EFI Features:

- Easy 4 Wire Hoop Up
- Throttle Body Mounted ECU
- Supports Up to 650 HP
- Integrated Ignition Timing Control & Coil Driver
- High Resolution Full Color Touchscreen
- Simple Calibration Wizard — No Laptop Needed
- OEM Style Sensors
- Clamp-on Oxygen Sensor Bung

## 4150 Four Barrel Sets

Holley 4150 four barrel sets feature dual bolt patterns (square and spread bore), an internal fuel pressure regulator, and four 100 lb injectors capable of supporting up to 650 horsepower.

***Note:*** *Spread bore/Rochester Q-jet applications require sealing plate part #H90060.*

## 1955-57 Stocker Star Shocks

QA1 offers Stocker Star shocks in your choice of fixed, single adjustable and double adjustable configuration. The fixed, non-adjustable version is a rebuildable and revalveable shock for the budget conscious owner. The single adjustable shock lets you simultaneously change the compression and rebound with one knob, choosing 18 valving options. The double adjustable shock offers 2 knobs to adjust compression and rebound separately, resulting in 324 valving options to fine tune your ride for any type of driving. All shocks have Polyurethane bushings and are sold individually. Two required per axle.

***Note:*** *Some disassembly or modification may be necessary to mount these shocks.*

## LS3 6.2L/376ci

The LS3's aluminum block is filled with a sturdy reciprocating assembly that combines with L92 type rectangular port heads to deliver 10.7:1 compression. A high lift, hydraulic roller cam complements the LS3's tremendous airflow capability and enhances its broad torque curve. Out of the crate, our LS3 includes 430HP. If that's not enough, our LS376/480 includes a hot cam and bigger valves to dial up 495HP and 473 ft lb torque. Last, but not least, the most powerful naturally aspirated LS3 we offer is the third choice on the list, our LS375/525 that comes out of the crate with 525HP and 486 ft lb of torque!

# Get The OER® Advantage. . . It's Almost Unfair!

## Authentic Quality Reproduction Parts for Classic American Muscle

**ORIGINAL QUALITY • ORIGINAL APPEARANCE**

### Original Fit

Appearance is extremely important in reproduction parts, but just as important is the way the part fits. You will appreciate OER® reproductions. Parts are designed to fit as closely to the original as possible. Each part is checked and rechecked to ensure proper fit and function.

### Superior Quality

It's one thing to manufacture a reproduction part, it's another to duplicate the quality. OER® uses the finest quality materials and workmanship to ensure the finished part meets or exceeds original equipment specifications. In fact, many OER® products are superior to the original.

### Authentic Appearance

Each OER® part is manufactured to original specifications, down to the smallest detail. Consistent quality control methods ensure an exact duplicate every time.

### OER® Officially Licensed Products

Many OER® products are officially licensed by the original manufacturers, assuring the highest quality reproductions available. Restoration Parts

OER® ORIGINAL EQUIPMENT REPRODUCTION

Manufacturing Authentic Products for The Restoration Industry

Learn more about OER online: **www.oerparts.com**

# Classic Industries® Has More To Offer!

## Service Excellence From the Restoration Leaders!

## Price Match Guarantee

***If You Find a Product for Less, We'll Match the Price!***

Classic Industries® will match any competitor's current advertised retail price for an identical product. Simply send us a copy of the competitor's current advertised price from a catalog, advertisement or website (with URL) and we'll match the price. The price match guarantee is available at the time the order is placed and for in-stock merchandise only. Price matching will be determined by a competitor's most current retail published price and is limited to competitors within the Restoration Industry.

## Money Back Guarantee

***100% Satisfaction or Your Money Back!***

We take pride in the quality of the products we offer and back it up with a 100% Money Back Guarantee. If for any reason you are not satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit or exchange.

## Online Instructional Videos

***Visit ClassicIndustries.tv to View Our Online Video Library***

Need a little guidance to help you install the restoration parts you purchased? Then cruise over to Classic Industries®' new video media website, www.classicindustries.tv where you can watch a library of how-to videos created by our own expert staff, guiding you through the installation processes for upholstery, headliners and more.

## Technical Support

***Call 1-800-854-1280, extension 5390 for more information***

Our tech representatives are ready to help you with all your restoration questions regarding parts or accessories, but we don't stop there, we can help answer questions you may have concerning the detailed areas of your restoration! Our tech representatives consist of some of the most knowledgeable restoration experts in the business. We don't claim to have all the answers but we've been doing it longer than anyone. Chances are we've heard the questions you need answered before. If nothing else, we can probably steer you in the right direction. We continually train our staff in all aspects of early and late model restoration and pass the information along to you!

## California Residents — Prop 65

Prop 65 requires businesses that manufacture and/or sell products in the State of California to inform consumers which items contain chemicals known to cause cancer and/or reproductive harm.

## Symbols of Quality

### OER® Original Equipment Reproduction

The leader in quality reproductions is here! OER® stands for Original Equipment Reproduction®. When you see the OER® logo, you can be assured that every part is manufactured to exact factory specifications and will fit and function just like the original part. What's more, many OER® products are officially licensed and carry a full one year warranty against defects and workmanship.

### OER® Authorized Products

The OER® Authorized logo represents products that meet or exceed stringent OER® quality control standards. These items have been sanctioned and approved by OER®. Most of these products are prepackaged with the OER® Authorized logo.

### OER® Premier

Count on the OER® Premier logo to denote parts that are outstanding in fit, craftsmanship, and manufacturing techniques. Each and every product displaying the Premier symbol is the best the market has to offer, and a cut above the competition. Order with confidence when you see this symbol, as OER® Premier is the true sign of originality and quality.

### The GM Restoration Parts Emblem

It's the true sign of originality and quality. You can be sure that every product you receive will look and fit exactly as the original did. Parts that display this emblem are Officially Licensed by General Motors as a genuine restoration product. Classic Industries® is currently licensed for many of the products listed in this catalog. The same products we've been manufacturing for years. We haven't changed our methods or quality and the GM Restoration Parts emblem is proof. The GM Restoration Parts emblem is a registered trademark of General Motors and used under license to Classic Industries® Inc.

### Classic Industries® The Restorer's Choice™

Count on the Classic Industries® Restorer's Choice™ symbol whenever purchasing reproduction parts and accessories. You can be sure that each and every product displaying this symbol is manufactured correctly to exact specifications and fits the way the factory intended. This Classic Industries® symbol is your assurance of quality.

### Made in USA

Classic Industries is proud to offer American products for your American classic. Wherever you see this MADE IN USA symbol, you know you're receiving the highest quality parts, sourced from the skilled craftsmen of the United States of America.

## PRODUCT EMISSIONS GUIDE

***50-State Legal:*** **These products currently have a California Air Resource Board (C.A.R.B.) Executive Order (O.E.) number. They meet the emission standard for use on pollution controlled vehicles in all of the 50 United States for the vehicles listed on the E.O.**

***For Racing Use Only:*** **These products are intended to be used on vehicles that are exclusively designated for racing use only. They are not legal for use on vehicles that are registered for street use.**

***For Use On Pre-Pollution Controlled Vehicles (PPCV):*** **These products are legal for use on pre-pollution controlled vehicles. They can be used on all vehicles that were manufactured before emissions control regulations were imposed. These are considered "uncontrolled vehicles".**

**1965 and older U.S. manufactured California Certified vehicles**
**1967 and older U.S. manufactured Federally Certified vehicles**
**1967 and older Foreign manufactured vehicles**

***Stock Replacement Part:*** **These products are manufactured to exact specifications of the Original Equipment (OE) part. They must be used on the specific year, make, and model for which it is listed.**

***Engine Swaps:*** **These products are intended to be used with engines that have been transplanted or swapped into an uncontrolled or pre-pollution controlled vehicle, as defined above. They are not legal for use on pollution controlled vehicles.**

# OER AUTHORIZED Tri-Five Car Covers

**FREE** Lock Kit and Storage Bag With Car Cover Purchase! A $20.00 Value!

*The Economical Way to Protect Your Investment!*

## Diamond Blue™

### Indoor Use
### Single Layer Material

Designed for indoor use, OER's Diamond blue covers are manufactured using an economical single layer non-woven material that offers excellent protection from dust and dirt penetration. Each cover is sewn with double stitched seams to add strength and durability to the cover and Neoprene elastic is sewn into the front and rear hems to help secure the cover. Breathable and lightweight, Diamond Blue offers basic protection from water and guards against damage from dust, dirt, over spray and similar environmental elements. Mirror pockets are featured on both sides of the cover when applicable, for vehicle originally equipped with dual sport mirrors. Covers feature non-scratch grommets installed onto each side of the cover to allow the use of a tie strap or lock.

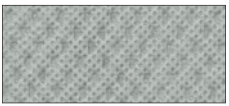
## Diamond Fleece™



### Indoor/Outdoor Use
### Triple Layer Material

Designed for indoor and occasional outdoor use, OER's Diamond Fleece cover is manufactured using a durable 3 layer non-woven material that provides excellent protection from dust and dirt penetration. Each cover is sewn with double stitched seams to add strength and durability to the cover and Neoprene elastic is sewn into the front and rear hems to help secure the cover. Breathable and lightweight, Diamond Fleece offers water resistance and prevents damage caused by the sun's UV rays. Mirror pockets are featured on both sides of the cover when applicable, for vehicle originally equipped with dual sport mirrors. Covers feature non-scratch grommets installed onto each side of the cover to allow the use of a tie strap or lock.

*Available in Gray or Tan*

*GR* *TN*

*Soft cotton lining for protection against door dings and scratches.*

### Outdoor Use
### Four Layer Material

Designed for outdoor use, OER's WeatherBlocker Plus covers are manufactured using a durable 4 layer non-woven material that provides a high level or protection from the elements and features a soft cotton backing which helps protect against scratches and dings. Each cover is sewn with double stitched seams to add strength and durability to the cover and Neoprene elastic is sewn into the front and rear hems to help secure the cover. Breathable and lightweight, WeatherBlocker Plus covers offer excellent water resistance and protection from the sun's UV rays. Covers feature mirror pockets on both sides of the cover when applicable and non-scratch grommets have been installed onto each side of the cover to allow the use of a tie strap or lock. Specify gray or tan.

# OER AUTHORIZED Tri–Five Car Covers

## Titanium™

*The Ultimate in Outdoor Protection for Your Vehicle*

*Cotton flannel car covers pamper the vehicle's finish with a soft nap underside*

- Indoor Use
- Cotton Flannel Material
- Soft Nap Underside

Favored by classic car collectors that garage their vehicles, OER's SoftShield cotton flannel car covers pamper the vehicle's finish with a soft nap underside that protects even the most delicate surfaces. Designed exclusively for indoor use, the SoftShield cover is soft on paint while providing a barrier against dust and protection against nicks and dings while the vehicle is being stored. Each cover is sewn with double stitched seams to add strength and durability to the cover and Neoprene elastic is sewn into the front and rear hems to help secure the cover. Mirror pockets are featured on both sides of the cover when applicable, for vehicle originally equipped with dual sport mirrors. Covers feature non-scratch grommets installed onto each side of the cover to allow the use of a tie strap or lock. Your choice of gray or tan flannel.

*Note: Please add 2 digit color code when ordering.*

*Lightweight highly reflective material for added protection from harmful UV rays*

- Indoor/Outdoor Use
- Silver Reflective Material
- Single Layer Extremely Lightweight

This durable, lightweight fabric is engineered to provide the best possible protection from the sun! Designed for indoor or outdoor use, Titanium™ material has a reflective water repellent 100% polyester top layer that keeps your interior cooler in sunlight and protects against harmful UV rays. Each cover is sewn with strong and durable double stitched seams and features neoprene elastic sewn into the front and rear hems to help keep the cover in place. The reflective properties of its silver construction gives Titanium™ covers the ultimate in UV protection. Its extremely lightweight construction makes this cover easy to handle and store. Each cover includes a free storage bag and lock kit.

### Car Cover Accessories

Protect your car cover with a storage bag, lock and cable kit, or antenna grommet designed to fit almost any car and truck cover. A storage bag will help to keep your cover clean and safe when not in use. A lock kit will prevent theft of your cover while in use. An antenna grommet will allow the cover to fit better over a fender or quarter panel mounted antenna, and will prevent the unintentional spread of the antenna hole.

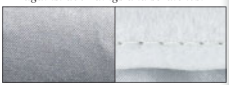
## TitaniumPlus™

*Plus soft cotton lining for protection against door dings and scratches.*



- Indoor/Outdoor Use
- Silver Reflective Material
- Double Layer Soft Cotton Inner Lining

OER's premium Titanium Plus material offers double the protection of the standard Titanium material! Engineered specifically to provide the best protection from the sun. Designed for both indoor or outdoor use, features a reflective and water repellent top layer that helps keep the interior cooler in sunlight and protects against harmful UV rays. In addition, this premium cover adds a soft padded cotton inner layer that provides extra protection against nicks and dings when your vehicle is parked in tight spaces. Each cover is sewn with double stitched seams for strength and Neoprene elastic is sewn into the front and rear hems to help secure the cover. Titanium covers offer the ultimate in UV protection. Mirror pockets are featured on both sides of the cover when applicable, for vehicle originally equipped with dual sport mirrors. Covers feature non-scratch grommets installed onto each side to allow the use of a tie strap or lock.

### Gust Guard™ Cover Clamps

The Gust Guard™ is the easy solution for keeping your car cover in place in windy conditions! If you need to leave your vehicle covered for extended periods of time (airport, vacation, etc.) in locations where wind gust could be a problem, this set is the answer. Includes: four adjustable hem clamps, two "Quick Grip" friction locks and two 7' long white cords. These components clamp to the hem in front of the front tires and behind the rear tires. When wind gets under the car cover, the Gust Guard™ helps reduce the possibility of the cover coming loose.

***FAQ:*** ***What Exactly is Mass Backing?***
As part of the manufacturing process, a special latex coating is thermo-bonded to the back of the carpet to substantially increase the insulating and sound deadening properties of the basic carpet set. Then 36 oz. jute padding is attached to the underside of the carpet. Mass backing is available as an option for molded carpets only.

Made in USA

## 1955-57 Cut & Sewn Nylon Cut Pile Carpet Sets

This all new carpet eliminates the problems of poor abrasion resistance and shedding of fibers, while providing excellent protection against color fading, offering a level of durability previously unavailable. Simply looks better and lasts longer than the original!

***Note:*** **Except Nomad. Please add 2 digit color code when ordering. Shipped oversize.*

DM250

## Custom Cut Insulation Sets

Made in USA

With the new Dynamat Custom Cut kits, you'll never be left scratching your head. Each set contains specially cut sections of Dynamat in the proper amounts to fit your vehicle exactly. Each piece is precision cut by CNC-machine to exact specifications for a perfect fit. That means no guesswork when cutting and you'll receive the right a mount of Dynamat for a quick and easy install. Custom Cut kits feature Dynamat Xtreme material with patented elastomeric VECTOR chemistry for great sound deadening. With a .060" butyl layer and a .004" thick aluminum face, Xtreme has the highest efficiency sound deadening properties on the market and is self-adhesive.

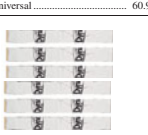
## Universal Door Insulation Set

Made in USA

Universal door damper/barrier insulation set for various 2 door models. The aluminum barrier insulation installs on the structure of the door frame and interior panel. Prevents wind, moisture, road noise, and radiant heat to your vehicle. Includes two 30" x 40" sheets of aluminum insulation, six 2" x 24" strips of Dynamat Extreme material, one roll of double sided adhesive foam tape, and illustrated instructions.

AS132 universal ..... 60.99 set



## Damper Pad Strips

Made in USA

Keep your insulation where is belongs by using these damper strips. Designed to allow placement of insulation.

AS130 6 piece, 3" x 24" each ..... 47.99 set

## Stage 1 Dynamat® Damper Pads

The first stage consists of pre-trimmed, self-adhesive, Sound Damper Pads, bonded to strategically located trouble spots on the floor pan and roof of the vehicle to control body panel vibration and noise. These spots are mapped and labeled in detailed instructions which are included in the kit.

## Stage 2 Heat Shield/Barrier Panels

The second stage uses a high-tech absorber/barrier material, bonded to the body panels, to both sound deaden and insulate the vehicle from radiant heat penetration from the engine and road. Each absorber panel is cut to the correct shape and contour and is mapped and labeled in the detailed instructions.

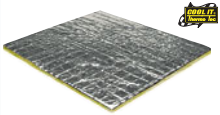
# Interior Insulation



## Insulating Mat by THERMO-TEC

Battle excessive heat and noise that penetrate the driver compartment through the firewall and floorboards. The highly reflective Mylar reflects heat away from surfaces, while the foil side is orientated away from the heat source to conduct any penetrating heat across its surface thus providing the ultimate in heat protection. The silica blanketing is a dual density composite and is the main sound insulator. Easy to trim and can be applied with the push-in fasteners provided or any weatherstrip adhesive. Two sizes to fit your individual needs.

| | | |
|---|---|---|
| TT1005 | 24" x 48" | 38.99 ea |
| TT1006 | 48" x 48" | 70.99 ea |

## Adhesive Heat Barrier™

Adhesive backed, this Heat Barrier™ protects parts and components from radiant heat. Made up of woven silica with a flexible aluminized finish. The surface of the material is capable of withstanding radiant temperatures in excess of 2000 degree F. The adhesive backed composite construction material can easily be applied to any surface or wrapped around a hose or wire to make a clean professional appearance.

| | | |
|---|---|---|
| TT1003 | 12" x 12" | 13.99 ea |
| TT1004 | 12" x 24" | 24.99 ea |
| TT1049 | 24" x 36" | 52.99 ea |
| TT1050 | 24" x 48" | 74.99 ea |

## Super Sonic Acoustical Mat

This high-quality mat offers superior sound dampening control to reduce road noise, rattles, engine noise, and any other noises that are bothersome. The high density polyethylene film with an aluminum foil composite is abrasion and tear resistant. The gray film provides structural integrity and strength, allowing the material to bend, move, and return to shape even under tension forces. The product is 70 mil in thickness, contains a high temperature adhesive backing, and is easy to trim and fit. The rubberized compound is applied with the high temperature adhesive to absorb all those out of control noises.

| | | |
|---|---|---|
| TT14700 | 12" x 12" 2 piece | 18.99 pr |
| TT14710 | 36" x 24" | 36.99 ea |
| TT14720 | 36" x 60" | 64.99 ea |

## Thermo-Guard FR

Thermo-Guard FR is a lightweight, durable shield that does everything: reduces sound, absorbs vibration, protects from radiant heat and provides an extra layer of insulated padding. The product features 100% polyester fiber felt that provides sound and comfort control and a high tech foil heat barrier that blocks more than 90% of radiant heat. Easy to apply and can be trimmed to fit anywhere. Available in two sizes with one or two foil sides. Designed to be applied with Thermo-Tec's Heavy-Duty Spray Adhesive.

| | | | |
|---|---|---|---|
| TT1055 | 24" x 48" | 1 side | 27.99 ea |
| TT1056 | 48" x 72" | 1 side | 55.99 ea |
| TT1057 | 48" x 72" | 2 side | 70.99 ea |

## Supppressor Acoustical and Heat Control Mat

The Suppressor is ideal when both sound and radiant heat control is needed. In addition to the polyethylene film, the foil surface provides direct protection from radiant heat. Great for areas like firewalls, floorboards, or doors. The Suppressor is also 70 mil in thickness, contains a high temperature adhesive backing, and is easy to trim and fit.

| | | | |
|---|---|---|---|
| TT14600 | 12" x 12" | 2 piece | 19.99 pr |
| TT14610 | 36" x 24" | | 34.99 ea |
| TT14620 | 36" x 60" | | 58.99 ea |

## Xtreme Bulk Pack

Dynamat Xtreme is the highest efficiency energy conversion sound deadener available. Xtreme unique chemistry uses a space age self-adhesive synthetic rubber with a heavy 4 mil aluminum constraining layer to absorb noise energy. At only 1/16" thick, the super sticky rubber and foil stretches and contours to fit your vehicle like a glove. Dynamat Xtreme can be also used for trunk lids, roofs, quarter panels and under the hood. The Xtreme bulk pack contains 9 sheets (18" x 32") or 36 square feet of 1/16" insulation. Made in USA.

## Boom Mat Spray-on Acoustic Insulation

Boom Mat Spray-on thermal acoustic insulation reduces unwanted noise, vibration, and heat. It can be applied in multiples layers and dries in under 6 hours. Covers approximately 20 sq. ft. and is VOC compliant in all 50 states.

| | | |
|---|---|---|
| DE050220 | 18 oz. net weight can | 14.99 ea |

## Heavy-Duty Spray Adhesive

Heavy-Duty Spray Adhesive is the answer when you need a quick drying, long-lasting spray adhesive for a high temperature application. Extra strong contact style adhesive sets quickly, and lasts even in high temperature situations. Use with Thermo-Guard FR, Cool-It Insulating Mat, Aluminized Heat Barrier and more. Comes in a large 16 oz. net weight spray can.

***Note:*** *Shipped within the continental U.S. only. Shipped ground only.*

| | | |
|---|---|---|
| TT12005 | 16 oz. net weight can | 16.99 ea |

## Seam Tape

Seam tape consist of a two layer, highly reflective foil with a special acrylic adhesion system. This flame retardant tape is highly puncture proof, tear resistant and features superior adhesion even under extreme conditions.

| | | |
|---|---|---|
| TT1124 | 2" x 30' roll | 19.99 ea |

## Ultra Insulation

**Starter Set**

Four 12" x 12" sheets available in either black or silver. 4.1 square feet (1.25 square meters). A starter set is perfect for single panel treatment or small jobs.

| | | | |
|---|---|---|---|
| HM250 | silver | 4 piece ..... | 32.99 set |
| HM251 | black | 4 piece ..... | 32.99 set |

**Door Set**

Ten 12" x 12" sheets available in either black or silver. 10.1 square feet (3.1 square meters). A door set is designed to effectively treat two doors. Treat the inside of the outer door skin, door frame and back of the door trim panel. Replace that cheap metal, rattling noise with a solid sound when you close your doors.

| | | | |
|---|---|---|---|
| HM200 | silver | 10 piece ..... | 94.99 set |
| HM201 | black | 10 piece ..... | 94.99 set |

**Trunk Set**

Ten 12" x 23" sheets available in either black or silver. 19.1 square feet (5.8 square meters). A trunk set is designed to effectively treat the trunk floor, spare tire well, quarter panels and rear deck of a vehicle. Helps reduce interior noise typically caused by performance exhaust systems.

| | | | |
|---|---|---|---|
| HM300 | silver | 10 piece ..... | 149.99 set |
| HM301 | black | 10 piece ..... | 149.99 set |

**Floor/Firewall Set**

Twenty 12" x 23" sheets available in either black or silver. 39 square feet (11.8 square meters). A floor/firewall set is designed to treat the firewall, floor panel and transmission tunnel. This eliminates vibration noise caused by the engine and road surfaces and reduces the heat transfer from the engine and transmission.

| | | | |
|---|---|---|---|
| HM400 | silver | 20 piece ..... | 179.99 set |
| HM401 | black | 20 piece ..... | 244.99 set |

**Bulk Set**

Thirty 12" x 23" sheets available in either black or silver. 58.7 square feet (17.9 square meters). A bulk set is enough to treat an entire midsize or smaller vehicle.

| | | | |
|---|---|---|---|
| HM500 | silver | 30 piece ..... | 299.99 set |
| HM501 | black | 30 piece ..... | 299.99 set |

*1/8"* *1/4"* *1/2"*

Absorbs High Frequency Airborne Noise
Lightweight Synthetic Rubber Foam
Soft, Flexible and Highly Compressible
Moisture Repellent
Thermal Insulation Up to 300 Degree F
Aggressive Adhesion
One Step Peel and Stick Application

## Sound Absorbing Foam

**1/8" Foam**

Includes: two 23" x 36" sheets of 1/8" HushMat Silencer Megabond foam. Great for glove boxes, kick panels, or pillar trim to eliminate squeaks and rattles.

HMF01 1/8" ..... 97.99 set

**1/4" Foam**

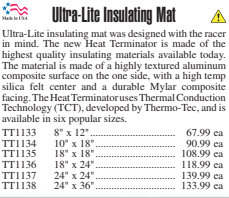
Includes: two 23" x 36" sheets of 1/4" HushMat Silencer Megabond foam. Apply directly on backs of door panels, headliners, or under package trays.

HMF02 1/4" ..... 111.99 set

**1/2" Foam**

Includes: four 12" x 23" sheets of 1/2" HushMat Silencer Megabond foam. Great for firewall, transmission tunnel, floor, and trunk applications. Makes an excellent replacement for traditional jute.

HMF03 1/2" ..... 149.99 set



*TT1133*

## Ultra-Lite Insulating Mat

Ultra-Lite insulating mat was designed with the racer in mind. The new Heat Terminator is made of the highest quality insulating materials available today. The material is made of a highly textured aluminum composite surface on the one side, with a high temp silica felt center and a durable Mylar composite facing. The Heat Terminator uses Thermal Conduction Technology (TCT), developed by Thermo-Tec, and is available in six popular sizes.

| | | | |
|---|---|---|---|

| TT1136 | 18" x 24" | ..... | 118.99 ea |
| TT1137 | 24" x 24" | ..... | 139.99 ea |
| TT1138 | 24" x 36" | ..... | 133.99 ea |

*DE050500*

***Small to Mid-Size Vehicle Set Includes:***
- 25 sq. ft. of Boom Mat Damping Material
- 35 sq. ft. of Under Carpet Lite (6 ft. x 70 in.)
- One 18 oz. can of Boom Mat Spray-On

***Full Size Vehicle Set Includes:***
- 41.7 sq. ft. of Boom Mat Damping Material
- 58.3 sq. ft. of Under Carpet Lite (10 ft. x 70 in.)
- One 18 oz. can of Boom Mat Spray-On

## Boom Mat All-In-One Interior Sets

Take the guesswork out of thermal and acoustic control with this all-in-one part number! Introducing a simple and cost effective, universal fit, sound deadening and thermal insulation set. Each set includes enough material for your vehicle. A three step process for the best interior comfort from heat and noise.

***STEP 1:*** *Apply Boom Mat vibration damping material to remove structure borne vibrations, squeaks and rattles.*

***STEP 2:*** *Apply Boom Mat Spray-On to reduce the noise and vibration in hard to reach areas such as trunk interiors, fender walls and inside doors.*

***STEP 3:*** *Apply Under Carpet Lite over damping material on firewalls and floor boards to block up to 85% of heat and for additional noise control.*

***Small to Mid-Size***

***Full Size***
DE050499 ..... 333.99 set

## Heavy Duty 20 Spray Adhesive

3M Heavy Duty 20 spray adhesive forms a powerful, permanent bond to wood, laminate, metal, plastic and more. Simply spray the adhesive on one or both surfaces, wait 15 seconds to 30 minutes, and press surfaces together to form a tight bond. Our self-contained, highly portable dispenser allows for a variable width lace spray pattern to help ensure precise placement.

***Note:*** *Ships via ground freight only and is shipped exclusively within the continental U.S. only.*

78617 13.75 oz. net weight can..... 15.99 ea

## Aerosol General Trim Adhesive

3M General Trim Adhesive bonds automotive materials such as carpeting, vinyl, fabrics, and plastics to metal and other hard, impervious surfaces. Our high-strength adhesive offers good heat and water resistance. Our clear drying, high strength adhesive delivers professional quality results when making automotive repairs. This product is commonly used for automotive restoration work. Once the adhesive sets, the bond offers good heat and water resistance.

***Note:*** *Due to current FAA regulations all aerosol spray cans must be shipped ground delivery.*

## 1955-57 One Piece Floor Mat

Lloyd Mats® custom floor mats are made with a variety of logos and colors to complement your vehicle's interior. Ultimat® mats are made with densely packed, 2-ply, 32 ounce nylon yarn enhanced by woven polypropylene backing, a water resistant latex coating and a nonslip TractionBac rubber backing for durability and long-lasting appearance. Loop floor mats are manufactured with a fade, stain, and wear resistant loop yarn that looks great in any classic car. Loop floor mats also feature multi-layer TractionBac rubber backing for traction and durability.

*Note: Please specify carpet color and embroidery color when ordering. Bel Air crest and vintage Bow Tie do not have embroidery color options. General Motors trademarked logos licensed to Lloyd Design Corporation.*

# Custom Seat & Upholstery Packages

## Heavy Sponge Rubber Backing as Original

Using quality materials is essential when replacing your interior. Although many manufacturers neglect this area, we insist on offering OEM quality upholstery which features correct high density foam backing stitched into place as original. Once installed, you'll feel the difference!

Made in USA

## The Details Matter

From the welting to the correct factory stitching pattern, careful attention is paid to every detail of the original upholstery.

*TF119111 – seat frame upholstered in 1957 Chevrolet Bel Air pattern*

## Correct Grains and Colors

Each style and color is specifically produced to match the original in weight and grain. You'll get the factory fresh appearance you want while maintaining the authenticity of your interior.

## Strong, Long-lasting Construction

Glide frames feature an all-steel construction that is powder coated for a beautiful, corrosion resistant finish. Each frame is made and assembled in the USA.

- Frames and Upholstery Proudly Made in the USA!
- Available with or without Folding Armrest.
- All-Steel Construction Featuring Non-sag Springs.
- 18 Position Seat Adjustment Plus Forward Tilting.
- Frames Bolt into Factory Location on Most Models.
- Includes Seat Foam Designed Specifically for These Frames Only.
- Upholstery Features Original Style Welting Colors, Grains and Patterns.

Upgrade the upholstery in your 1955-57 Chevy with our exclusive custom seat and upholstery package. Each front seat frame will bolt into the factory location on most models and features all steel construction, non-sag springs, 18 position reclining back, forward tilting and a powder coated finish. In two easy steps, you can get most everything you need including our exclusive custom tailored upholstery. Our convenient seat frame package includes front slider frame and front foam. The custom upholstery features the correct patterns and materials to replicate the look of the original upholstery in almost every detail. These custom tailored upholstery sets are manufactured in the USA and designed to provide an OE look for your interior while providing the modern seating comfort and seat adjustability you desire.

***Important:*** *The upholstery sets listed here will only fit our custom seat frame packages. Will not fit original factory frames or aftermarket rear seat frames.*

***Note:*** *Special order.*

PROCAR

## 1955-57 Seat Mounting Adapter

Seat adapters are designed to make the transition from original bench seats to PROCAR bucket seats easy. This seat adapter is designed to allow PROCAR buckets seats to move independently and bolts into the factory seat mount locations on all 1955-57 Chevy passenger car models. One required per vehicle.

***Note:** In applications not using a center console, the mounting adapter will be visible when installed.*

# Custom Frame & Foam Packages

*TF119114 – bucket seat frame and foam set*

## 1955-57 Bucket Seat Frame, Foam, and Slider Package

Over the years seat frames break down, need rewelding or are completely missing. Replace them with this bucket seat frame, foam and slider package from Classic Industries®. These frames will bolt into factory outer holes (inner holes need to be drilled) and each bucket seat package features: frames made with all steel construction, non-sag springs, 18 position reclining backs, forward tilting, and powder coated finish. Each package includes frame, foam, and sliders.

***Important:*** *These packages must be taken to a trim shop for custom sewn upholstery. We do not offer pre-sewn upholstery sets for this seat frame and foam package.*

***Note:*** *Special order, must be prepaid. Shipped double oversize.* 882

## 3M Heavy Duty 20 Spray Adhesive

3M Heavy Duty 20 Spray Adhesive forms a powerful, permanent bond to wood, laminate, metal, plastic and more. Simply spray the adhesive on one or both surfaces, wait 15 seconds to 30 minutes, and press surfaces together to form a tight bond. Our self-contained, highly portable dispenser allows for a variable width lace spray pattern to help ensure precise placement.

RE13005

## Dome Lamp Dimmer

Soften the interior lighting of your muscle car. The standard dome lamp dimmer keeps the lamp on an extra three seconds then slowly fades off, instead of simply switching off. The deluxe dome lamp dimmer, if the ignition power is off, the lamp delay is 10 seconds, but if the power is on, the lamp fades when the doors shut. The deluxe dome lamp dimmer can also be installed in a way that the lamp softly brightens when the doors open. These devices easily install on most applications and can be mounted in any location where electrical connections are easily accessible.

TF126105

## 1955-57 Headliner Bow Moldings

Headliner bow molding sets for the interior roof line on 1955 two door hardtop and 1955-57 Nomad models. Originally manufactured from steel and chrome-plated, these replacement moldings are manufactured from polished stainless steel for durability and a beautiful appearance.

***Note:*** **Correct for 1955 two door hardtop models only, but these can be added on to any 1955-57 two door hardtop model if using a 1955 headliner.*

| | | | |
|---|---|---|---|
| TF126104* | 1955 | 2 dr hdtop, 3 pc | 571.99 set |
| TF126105 | 1955-57 | Nomad, 7 piece | 1019.99 set |

## 1955-57 Headliner Insulation

Install this jute insulation between the headliner and roof panel to deaden sound and maintain a comfortable cabin temperature. This insulation is designed to be glued to the roof panel prior to installing a headliner. 1/8" thick paper.

TF125087 1955-57..... 28.99 ea

## Headliner/ Upholstery Tool

OER

Great for stuffing headliner or upholstery material into tedious channels without damaging materials. Easy to use around curves and near corners. Why spend wasteful hours doing it the old fashioned way! Get the headliner tool and finish the job fast!

A7672 ..... 9.99 ea

## Headliner Installation Glue

Replace your headliner easily with the correct glue application used to adhere the headliner to the roof panel. This can contains 4 fluid ounces with a handy brush for easy application of glue. You will need this special glue if you are installing the headliner yourself. Be sure to have all the equipment you need to get professional results.

K17000 ..... 8.99 ea

## Super 77 Spray Adhesive

New!

A high tack, high coverage, fast drying, transparent adhesive for permanently attaching foils, carpeting, foam, paper, cardboard, felt, cloth, etc. to painted or unpainted metals, wood, hardboard, and other base materials. High initial grab with sufficient open time to allow for positioning of materials.

***Note:*** *Due to current FAA regulations all aerosol spray cans must be shipped ground delivery.*

21210 16.75 oz. net weight aerosol..... 16.99 ea

## 3M Super Trim Adhesive

3M General Trim Adhesive creates a secure bond when gluing soft materials such as carpet, vinyl, fabric and plastic to hard impervious surfaces. Our clear drying, high strength adhesive delivers professional quality results when making automotive repairs. Once the adhesive sets, the bond offers good heat and water resistance. This trim adhesive comes in an aerosol spray that is easy to aim and control. Simply spray the adhesive onto both surfaces to be joined. The adhesive dries quickly in about one to three minutes, leaving a tacky surface behind.

***Note:*** *Ships via ground freight only and is shipped exclusively within the continental U.S., as no air shipments are permitted.*

## The "Hot-Dot" All-in-One Ignition Switch

Convert your separate ignition switch and start button into one convenient unit with the "Hot-Dot" all-in-one ignition starter switch. Chrome recessed switch is 3/4" diameter with a colored LED ring to indicate when the ignition is "On". Push and hold the button while the starter turns over and release when the engine starts. The ignition stays "On". Push again to stop the engine. Includes installation instructions and is available with your choice of blue, green or red LED ring. Switches available separately. Can be used for positive or ground switching, rated 1 amp maximum load.

## Prestige In-Dash Gauge

These gauges have the precision and reliability with brushed aluminum centers, fully lit vintage style needles, domed lenses, and polished chrome bezels. Antique Ivory gauges have black numerals and needles, and feature an LED fully lit gauge face when illuminated at night. The Prestige Black Diamond gauges have white numerals and needles and feature through-the-dial LED lighting to illuminate the numbers, markers, and needles. Mechanical gauges include the necessary fittings and 6 feet of capillary tubing (unless otherwise specified). Electric gauges include the required sending units. 2-1/16" unless noted.

*Note: *3-3/8".*

- Over 30 independent RGB color options for needle and TFT Message Center.
- 12 preset color theme options or build your own.
- Wide angle color TFT LCD Message Center(s).
- Independent day/night color selections.
- Illuminated needles and LED backlighting for the numbers and tick marks.
- "Ghosted" indicators (turn signals, high beam, check engine, cruise control engaged, parking brake, plus two that are user definable) appear only when lit.
- Bluetooth connection to tablet/smart phone.
- Easy to use app allows for quick setup, modifications, and sensor diagnosis.
- Available for iPhone and Android systems.

## 1955-57 HDX-Series Gauge Set

The new HDX series gauge sets from Dakota Digital brings you the best in modern instrumentation, rivaling what's offered in today's modern vehicles. Each HDX system is fully customizable, allowing you to personalize your instrument panel to complement nearly any vehicle theme. Each direct fit gauge package incorporates a speedometer, tachometer, fuel level, Volts, oil pressure, and coolant temperature gauges, along with a digital message center. The gauges are integrated into your vehicle's systems using the supplied central control box. Includes necessary sensors. Gauge faces offered in black alloy or silver alloy and are available with either standard (MPH and Fahrenheit) or metric (KM/H and Celsius) displays.

***Important:*** *Gauge bezel not included. Clock sold separately from gauges. Metric display (KM/H and Celsius) gauge sets are custom built by Dakota Digital, and may require a 3-5 week build time.*

### HDX Gauge Sets

***Note:*** *Please specify option codes when ordering: 1 = standard (MPH and Fahrenheit); 2 = metric (KM/H and Celsius) and then either A = silver alloy gauge face, or B = black alloy gauge face.*

***Example: DD1580A = 1955-56 with standard display and silver alloy gauge face.***

1957 shown with "White Hot" color theme

### HLC Clock

The HLC series clocks have a traditional analog style face with LED backlighting and lighted needles to match the HDX instrument system. They're designed to change their color theme along with the gauges and must be used with an HDX instrument system. They simply plug into one of the available network jacks on the HDX controller.

***Important:*** *Clock bezel not included. Please specify option code when placing order: A = silver alloy face; B = black alloy face.*

## 1955-57 VFD Gauge Set

These Dakota Digital VFD Series gauges provide a custom look and modern digital instrumentation in your classic Chevy without modification to the dash. These gauge sets include: a digital speedometer, tachometer, odometer, fuel, voltmeter, oil pressure, and coolant temperature gauges. Installs in both original or reproduction dash bezels. Available in blue or teal illumination.

***Important:*** *Gauge bezel and clock bezel are not included.*

***Complete VFD Series Gauge Set***

## 1955-57 RTX Gauge Set

Dakota Digital RTX Series gauge cluster for 1955-57 Tri-Five models. RTX series gauges combine a factory style design with many of the modern features and functionality of today. Every RTX cluster features a CNC-machined housing, customizable LED backlighting, and fully electronic internals. The housing will fit stock or reproduction bezels and the entire assembly is powered by a single central control box to making installation and setup fast and easy.

***Important:*** *Gauge bezel and clock bezel are not included.*

## 1955-56 VHX Analog Gauge Set

Featuring fully lit needles, backlit faces, and easy-to-read LCD message centers, the VHX series is a far cry from yesterday's traditional instrumentation. Mounts directly to the stock dash bezel for simple installation. The VHX series gauges are loaded with features including micro-controlled precision stepper motors, solid state sensors for unparalleled accuracy and user customizable display feedback. Available in carbon fiber look or silver alloy face, with either red or blue backlighting.

***Important:*** *Gauge bezel and clock bezel are not included.*

### VLC Analog Clocks

VLC series analog clocks have a traditional analog style clock face, with LED backlighting and lighted needles to match a VHX instrument system. Must be used with a VHX Instrument System (not compatible with VFD digital gauge clusters and will not operate as a stand alone gauge). They simply plug into one of the CAT-5 network jacks on the VHX controller.

AutoMeter COMPETITION INSTRUMENTS

## In-Dash Speedos and Tachs

Our In-Dash Speedometers and Tachometers feature our famous high-performance movements and are designed with seamless dashboard mount in mind for the ultimate driver information center. Available in a variety of configurations and sizes to accommodate diverse applications.

## Pedestal Mount Tachometers

Mountable in every conceivable position, the versatility and durability of our Pedestal Mount Tachometers have made them a race proven favorite for over 30 years. These tachometers offer a variety of performance oriented options from shift lights to memory recall functions, coupled with a trademarked aluminum and rubber shock strap design for the best vibration protection available.

## Full Sweep Mechanical Gauges

Bronze bourdon tube 270 degree sweep movements and durable nylon gearing have made these rugged and long lasting gauges a proven high-performance favorite for over 25 years. These mechanical gauges require no electrical power for operation making them an ideal choice for vehicles with no or low powered electrical systems.

## Full Sweep Electric Gauges

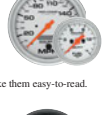
Powered by digital microprocessor-controlled, rugged stepper motor drives and laboratory grade sending units, Full Sweep Electric Gauges are the best gauges available. They combine extreme durability and readability of 270 degree sweep mechanical gauges with the easy installation and safe operation of short sweep electrics. Track tested and race proven, these units use precision senders to keep hazardous fluids out of the driver compartment and perform gauge calibration and sensor diagnostics at power up for extreme accuracy, every time.

## Short Sweep Electric Gauges

Advanced 90 degree air core movements and three wire installation characterize these Short Sweep Electric Gauges. Electric sending units keep hazardous fluids in the engine compartment, sending collected data via an electrical signal to quick reacting, precise air core movements to give you all the information that you need.

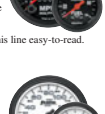
***Important:*** *Electric speedometers operate on 500-200,000 pulse/mile sending units. Use existing sender if vehicle is originally equipped with an electric speedometer. Use AM5291 to convert from mechanical drive to electric. Tachometers operate on 4, 6, or 8 cylinder engines with most factory or aftermarket ignitions. Some fuel gauges use the vehicle's stock sending unit. Measure resistance using an ohmmeter with the sending unit float in the empty and full position to determine the correct fuel gauge.*

## ULTRA-LITE



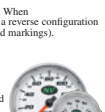
ULTRA-LITE gauges feature aluminum construction that greatly reduces weight while satin anodized Super Bezels and dials with black numbering and increments. Perimeter incandescent white lighting and bright red fluorescent pointers make them easy-to-read.

## Z-SERIES



Z-Series gauges feature race quality mechanisms, a black Super Bezel with black dial, white numbers and increments, bright orange pointers and perimeter incandescent lighting that make this line easy-to-read.

## 3rd Gen Phantom II

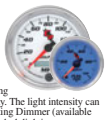


Phantom II gauges feature black Super Bezels and white dials with black outlined, white numbering and black increments, "through-the-dial" patented LED lighting technology and glowing red pointers for superior visibility. When illuminated, the gauges display in a reverse configuration (black dial with white numbers and markings).

## NV

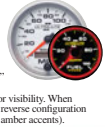
NV gauges feature bright anodized Super Bezels and white dials with black numbering and increments, intense green "full dial" patented LED lighting technology and glowing orange pointers for superior visibility.

## Phantom



Phantom gauges are race quality mechanisms featuring a subtle black bezel with stark white dials, bright orange pointers and perimeter incandescent lighting that make this extensive high-performance line easy to read with a crisp, no-nonsense modern appearance.

## C2



$C_2$ gauges feature bright anodized Super Bezels and white dials with black numbering and increments, intense blue "full-dial" patented LED lighting technology and glowing orange pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent of your OE dash lighting.

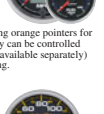
## ULTRA-LITE II

ULTRA-LITE II gauges feature satin anodized Super Bezels and dials with black numbering and increments, white "through-the-dial" patented LED lighting technology and glowing red pointers for superior visibility. When illuminated, the gauges display in a reverse configuration (black dial with white numbers and amber accents).

## ES

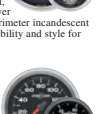
ES gauges feature black satin Super Bezels and black dials with white numbering and increments, intense red "through-the-dial" patented LED lighting technology and glowing red pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent of your OE dash lighting.

## COBALT



COBALT gauges feature bright anodized Super Bezels and black dials with blue accents, white numbering and increments, cobalt blue "through-the-dial" patented LED lighting technology and glowing orange pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent of your OE dash lighting.

## Carbon Fiber



Carbon Fiber gauges give your interior the complete look of rapid acceleration even when the car isn't moving. The clean, racy look of a crisp anodized aluminum bezel, an actual carbon fiber dial face, silver pointer and yellow accents with perimeter incandescent lighting give these gauges high visibility and style for any application.

## 3rd Gen Sport-Comp II

SPORT-COMP II gauges feature a satin anodized Super Bezels and black dials with white numbering and increments, "through-the-dial" patented LED lighting technology and glowing red pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent from your OE dash lighting.

## AMERICAN MUSCLE

The AMERICAN MUSCLE Street Rod Series features advanced hybrid dial technology combining AutoMeter's signature white Hi-Def LED illumination and fluorescent red pointers for maximum readability. The light intensity can be controlled through the optional LED Lighting Dimmer independently of your OE dash lighting (available separately).

## SPORT-COMP

SPORT-COMP gauges feature the trademarked competition appearance and rugged, reliable performance of a satin anodized Super Bezel with black dials with white numbers and increments, bright orange pointers and perimeter incandescent lighting that make this extensive high-performance line easy-to-read with a crisp, no-nonsense modern appearance.

## TRADITIONAL CHROME

TRADITIONAL CHROME gauges feature the trademarked competition appearance and rugged, reliable performance of a chrome bezel with black dial, white numbers and increments, bright orange pointers and perimeter incandescent lighting that make this line easy-to-read with a crisp, no-nonsense nostalgic appearance.

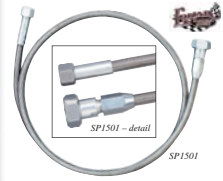
# Speedometer Components



Made in USA

## "U-Cut-To-Fit" Speedometer Cables

High-quality speedometer cables feature machined aluminum fittings and a premium housing with a specially extruded liner to extend the life of the cable. These cut-to-fit 7' speedometer cables are designed to work with factory speedometers with a 5/8"-18 male thread, or any cable driven aftermarket speedometers such as AutoMeter, Stewart Warner or VDO. The transmission end is designed to fit most transmission driven gear adaptors (not included), and the inner cable and outer housing of these cables can be cut-to-fit most GM transmissions.

| | | |

## 1955-57 Speedometer Driven Gear

These speedometer driven gears are identified by tooth count and color specifically for 1955-57 vehicle models with matching model year transmissions. They can be used to calibrate the speedometer when changing axle ratios, tire sizes, or as a replacement for a worn gear.

***Note:*** **With overdrive. **Without overdrive.*

# Speedometer Components

## 1957 Speedometer Grommet

Reproduction speedometer firewall grommets for 1957 models. Used to guide the speedometer cable through the firewall for protection. Made from a soft durable rubber.

TF300217 1957..... 7.99 ea

*detailed side view*

Made in USA

## Sky Drive GPS Speedometer Sender

Drive your speedometer accurately and reliably with the Sky Drive GPS Speedometer Sender. This device quickly calibrates and accurately drives any electronic programmable speedometer. The Sky Drive updates 10 times per second without any transmission signals, pulse generators, or signal converters and features an omnidirectional antenna that can be mounted virtually anywhere and in any position. No more guessing or re-calibrating due to tire or gear changes. This unit requires a one time setup and you're done. Made in USA.

280665 ..... 249.99 ea

*1860T*

## Cable-X Speedometer Drive Converter

The Cable-X is the easy, cost efficient way to operate your stock mechanical speedometer with a transmission equipped with vehicle speed sensor for an electronic speedometer. This universal adapter will pickup the electronic speedometer signal and operate the cable driven speedometer to the corresponding speed. It's a snap to install with only three wires: hot, ground, and signal. The Cable-X is a one-of-a-kind solution to your speedometer drive problem.

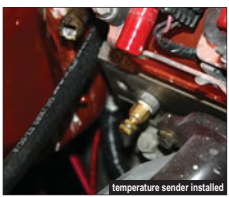
1860T with thread-on cable..... 419.99 ea

PAINLESS

## Speed Sensor

A speed sensor is an electrical device that can sense the rotational speed of a shaft or member and transmit this information to another device, such as a readout. Sensor is 7/8"-18 thread.

60117 late TPI & early LT1 – 4 pulse 159.99 ea



temperature sender installed

## LSX Temperature Sender

This sender allows the use of a Classic Instruments temperature gauges in vehicles equipped with an LS series engine.

SN12MM LSX ..... 28.99 ea

*A8101008*

## Internal Float Fuel Sending Unit

Get reliable fuel gauge readings with this internal-float fuel sending unit. This advanced design provides accurate readings without fluctuations due to fuel slosh. Because this internal float design requires no float arm, it is far more resistant to corrosion, even with racing fuels. All sending units mount to the tank with the standard 5 bolt mounting flange and are available in sizes from 4" to 24".

***Important:*** *Sending unit should not touch bottom of tank. When the fuel gauge reads empty, the area below the sending unit is reserve fuel.*

***Note:*** *Sending units are available in lengths from 4" to 24" and are sold in 1" increments. Please add the desired length to the end of the part number, eg. 06 = 6", 11 = 11".*

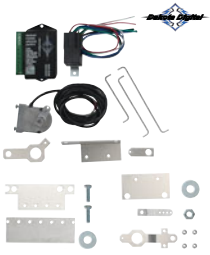
## LED Indicator Wiring Set

Designed for custom dash panels, this is a set of LED indicator lamps for turn signal, parking brake and high beams.

500626 1955-57 ..... 19.99 set



## Gear Indicator Sending Unit

Gear shift position sending unit for use with all Dakota Digital instrument systems with gear shift position indicators. This unit includes universal mounting hardware to fit Powerglide, TH350, TH400, 2004R, 700R4, 4L60, 4L60E, 4L80, and 4L80E. Easy installation and fully push button adjustable with no magnets to align! The Decoder can be mounted inside the vehicle for easy access and also features built-in neutral safety switch and back-up light circuit.

DD1000 ..... 109.99 ea

New!

## Hose Adapter Sets

AutoMeter coolant hose adapter sets for mounting gauge senders or probes directly into your heater or radiator hose. Ideal for vehicles with limited access to water passage ports on the engine. They are manufactured from solid brass or aluminum with male hose barb ends for an easy and secure installation.

| | | |

| AM2283 | 1-1/2" aluminum | 55.99 set |

New!

## Copper Tubing Set

For mechanical pressure gauges (except fuel, nitrous, or brake pressure gauges). Includes: 6 feet of 1/8" copper line, 1/8" NPT male to 1/8" compression fitting, 1/8" NPT female to 1/8" compression fitting, grommet, and 1/8" NPT to 1/4" NPT bushing.

AM3224 copper tubing ..... 16.99 set

## Distributorless Tach Adapter

This tach adapter is designed to adapt a standard ignition tachometer, Pro Shift light, or RPM activated module to be used with distributorless ignition systems.

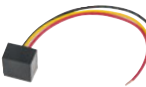
AM9117 tach adapter ..... 109.99 ea

New!

## Tachometer Signal Filter

AutoMeter tachometer signal filter. These filters are designed to correct erratic tach function by filtering out the interference or spiky pulse signals often caused by points or noisy ignition systems.

AM9116 ..... 31.99 ea



## Universal Tachometer Filter

Eliminate tach signal noise and surges caused by your ignition system with this compact and easy-to-install tachometer filter. This filter installs between the tachometer and the signal source and modifies the sharp up and down spikes into a semi-square wave signal for steady readings and faster response. This tachometer filter can be used as a direct replacement for 1975-89 GM vehicles. Measures: 2" x 3/4" x 1". Includes instructions.

***Important:*** *Recommended for vehicles running an HEI ignition with a tachometer designed for points style ignitions.*

MG019219 ..... 34.99 ea

# Gauge Accessories

## Instrument Panel Dimmer Switch

Enhance your digital dash panel display by adding this light dimmer to adjust the dimming feature built into your instrument system for night time driving. This aluminum knob and bezel works only with the Dakota Digital Instrument Systems on the previous page, and will not dim the Odyssey or Solarix gauges on this page. Stock dimming switches will not work with Dakota Digital Instrument Systems.

## 1955-57 Column Shift Straight Column

Considering the unwavering popularity of the legendary 1955-57 Chevy, we would not be doing our jobs if we did not offer this replacement for your original column. Whether you're using the original manual gearbox, converted aftermarket power box or converting to an all new rack and pinion, we have the column for you! Don't forget your installation kit, each installation kit from ididit is specific to your Tri-Five application just be sure you know whether you have manual or power steering. Column comes standard with 3-7/8" wire plug, knob and handles, self-canceling turn signals, 4 way flashers and lower shaft of 3/4"-36. The shift pattern on the column will allow you to use either a 3-speed or 4-speed automatic transmission (except early Powerglide, because they have a reverse pattern transmission). A shift linkage will be required for installation and will attach to the lower shift arm provided on the column.

***Note:*** *When using the original manual box the shaft will need to be cut and modified. Each ididit column is made in the USA.*

## 1955-57 Column Installation Parts

Complete sets include everything needed to install your ididit steering column into your classic Chevrolet using new parts from the column to the gearbox. All you need to know is the diameter of the gearbox input shaft and the number of the splines. Sets are available for vehicles with a factory original harness and will include a 4 way flasher set. This 4 way flasher set will add the convenience of a 4 way flasher as well as convert your original harness to the 3-7/8" harness found on your ididit column. Many aftermarket wiring companies offer replacement panels that incorporate a 4 way flasher unit as well as the flat 3-7/8" harness. If you are using one of these panels, a 4 way flasher set is not necessary as it has been incorporated into the wiring panel. Components also available separately.

***Note:*** *Sets include all components required to install column in your classic Chevy. Individual components also available separately (not necessary if ordering an install set).*

## 1955-57 Tri-Five Original Style Conversion Steering Column

Upgrade an automatic column shift vehicle to a 605/500 or Delphi 600 power steering system without chopping up a steering column. These original style steering columns feature an improved shift lever design, add clearance at the firewall, and require no exchange. Rag joint included. Hardened steel shaft and steel column tube as original.

***Note:*** *Use neutral safety switch TF500390 when using these columns with a TH350, TH400, or 700-R4 transmission. Not suggested for use with rack and pinion steering systems.*

TF900442 1955..... 21.99 ea
TF900443 1956..... 21.99 ea

## 1957 Turn Signal Switch

Reproduction turn signal switch for 1957 models. Located in the steering column, this reproduction switch comes with switch, cam and wiring. Replaces GM part #5948447.

5948447 1957 all..... 21.99 ea

## Turn Signal Cancel Cam

Replace the worn cancel cam in your 1955-57 Chevrolet with this exact reproduction. Be sure to use with a pair of cancel pawls or our pawl set with springs.

TF100392 1955-56..... 5.99 ea
E1153 1957..... 4.99 ea

## Turn Signal Cancel Pawls

Reproduction turn signal cancel pawls for 1955-57 models. Purchase just the cancel pawls or the complete set including springs. Springs are made from spring steel and pawls are made from a durable plastic as original.

*Pawls Only*
E1155 1955-57..... 3.99 pr

*Pawls with Springs*
K8099 1955-57..... 5.99 set

## 1955-57 Turn Signal Flasher

The 12 Volt, 20 amp, 2 prong GM service replacement flasher was used by GM on various models. Replace your non-working flasher with this unit.

G1391 1955-57..... 14.99 ea

## Turn Signal Bushing and Pads

Nylon bushings wear out over time and rubber gets hard, cracks, and deteriorates. Replace these while you are in your steering column. Used in conjunction with pawls (canceling ears).

TF100391 1955-57..... 4.99 set

## Turn Signal Housing Plate

Broken tabs on this plate may result in damage to other turn signal parts such as cancel pawls, bushings, and pads. Made from die-cast steel as original.

TF100393 1955-57..... 8.99 ea

## Turn Signal Mechanism

Replace your broken, worn turn signal mechanism. The tabs often break on these making your canceling cam bind-up. Cadmium-plated steel as original.

TF100390 1955-57..... 12.99 ea

## 1955-57 Turn Signal Bolt and Washer

Correct replacement turn signal mechanism hold down bolt and washer for various 1955-57 models. Also known as the directional signal control ring pivot screw, this screw measures 12-24 thread with a 3/4" long shoulder. Replaces GM part #5944866.

5944866 1955-57..... 18.99 ea

## Shift Indicator Return Spring

This is the correct return spring that connects inside of the speedometer housing and allows the shift indicator needle to return when the transmission is shifted back into park. These springs are designed for vehicles with Powerglide transmissions and are made of high-quality stainless steel for durability.

TF100563 1955-56..... 1.99 ea

## 1955-57 Turn Signal Lever

Replace your old worn out or pitted turn signal lever with this quality reproduction. Fits all 1955-57 models.

CX5036 1955-57..... 9.99 ea

WARNING: Cancer and Reproductive Harm- www.P65Warnings.ca.gov

# Steering Wheels

TF141028

## 1955-57 Reproduction Steering Wheel

Reproduction steering wheels for 1955-57 Chevrolet passenger cars. These high-quality 18" steering wheels are molded in durable plastic over a steel core and come finished with gloss black paint. These steering wheels accept original or reproduction horn parts.

Pull the wheel

## No Wheel Security System

Remove and replace your aftermarket Grant steering wheel in less than 5 seconds and secure your vehicle from theft. A patented lockout cap snaps onto the steering column to further assure the security of your vehicle. Unlike conventional alarms, this revolutionary system cannot be affected by motion. Another big advantage is that it doesn't rely on your battery. And it cannot be bypassed as many of the ignition bypasses can. This security system can only be used with Grant steering wheels. Also available is a handy nylon storage bag to protect your wheel when removed, and to store the lockout cap when the wheel is installed.

***Important:*** *Not for use on factory original steering wheels*

## 6 Bolt Mahogany Wood Steering Wheels

Forever Sharp's popular wood steering wheels offer outstanding quality and sleek designs to match your vehicle and style! Each wheel is crafted from real mahogany wood with finger grooves on the back and steel spokes finished in smooth chrome or textured black. A urethane coating has also been applied to give the wheel a longer life and improved heat resistance on hot summer days. Wheels feature a 6 hole bolt pattern with a 1-3/4" dish depth and are available in 14" and 15" diameters. Finishes include either a light or dark hand stained finish, or either black or gray wheels painted with high-quality automotive paint.

***Important:*** *Steering wheels require mounting adapter and your choice of interchangeable horn button/cap. For use with 6 hole adapters and horn caps. Each sold separately.*

## 14" Billet "Muscle" Half Wrap Series Billet Steering Wheel ⚠

Forever Sharp's popular billet "muscle" steering wheel features a interchangeable half wrap allowing you to match or change your vehicles style at any time. Half wraps are easy-to-install and interchangeable, mounting from the backside of the steering wheel with the five included screws. Choose between leather grain vinyl or wood half wraps made from real wood. The wood half wraps have been urethane coated to give the wheel a longer life and improved heat resistance. Each billet wheel is 14" in diameter and forged from aircraft standard 6061 aluminum. Wheels feature finger indentations on the backside, a 1-3/4" dish depth and 5 hole bolt pattern. Includes half wrap and billet wheel in either a polished or matte black (powder coated) finish. Replacement half wraps also available separately.

*Important: Steering wheels require mounting adapter and your choice of interchangeable horn button/cap. For use with 5 hole adapters and horn caps. Each sold separately.*

*Note: *Please add two digit color code to part number when ordering.*

### 1955-57 Pro-Touring Sport Steering Wheel

The GT Pro-Touring Sport steering wheel was inspired by GM's optional NK4 four spoke Sport wheel installed in various models during the 1970s. This custom steering wheel offers a modern flair to an already classic design. The black anodized spoke design features a leather wrapped grip with "baseball" stitched seam. The polished spoke design features genuine mahogany wood outer grip and perforated leather inner. Horn buttons are machined from 6061 aluminum and are secured using an exclusive o-ring design that keeps it from "popping off". Each steering wheel kit includes your choice of a black anodized or polished hub with matching horn button and Grade 8 mounting hardware.

**Polished 4-Spoke**

This kit includes a 14-1/2" diameter, 2-3/4" dish, polished 4-spoke wheel with a polished adapter and your choice of an engraved or red Bow Tie horn button. The horn buttons cover the wheel mounting bolts for a clean, custom look.

## AM/FM Stereo with Auxiliary Input

Do to the great success of CAM's USA-630 radio they now bring you the USA-230. This new model radio has the same cosmetics as the USA-630 which has been a huge success. If you don't need USB/MP3 or CD changer control this is the model for you. An awesome looking radio a great price. Radio has no cassette but includes auxiliary audio input. If you have a portable MP3 player or Satellite radio just plug it into the Aux input and listen to it through this radio. These exciting features include: AM-FM stereo, 200 watts (4 x 50), auxiliary input (RCA rear) RCA to 1/8" pin jack included, digital clock, electronic tuner, 16 presets (4AM-12FM), 4 channel RCA pre-outs, 4 way fader, power antenna lead.

***Important:*** *Faceplate not included.*

## 1955-57 630 Stereo

This is the pinnacle of 30 years of evolution of Custom Autosound's quest for the perfect classic car radio. This radio has large OEM push buttons that give a perfect look in a classic dash. USB input on the back of the radio allows you to plug in a USB flash drive for playback of MP3/WMA song files. The jack is on an 14" extension which allows you to place it in the glove box or ashtray for easy access. The new alpha numeric display shows the song/artist/album (id3) titles during playback of MP3/WMA files. With the built-in CD controller you have complete control (no FM modulation) of CAM's 6 disc CD changer. This same CD controller also facilitates the optional iCAMKIT iPod® interface that turns your iPod® on/off and charge it while giving you control to advance songs or play list from the buttons on the radio. With 240 watts, the radio should have all the power you may need. If you want more, there are 4 pre-out jacks on the back of the radio for optional amplifiers. The back also has auxiliary audio input for satellite radio or any portable player you may wish to use. Other features are: AM-FM stereo, 240 watts, USB port for flash memory MP3/WMA playback, direct 6 CD changer control, alpha numeric ID3 display for MP3/WMA files, electronic tuning and volume control, 4 way fader, left right balance, digital clock, 2 channel RCA auxiliary input for satellite/iPod® etc. 16 presets (12FM-4AM), 4 channel RCA pre-outs, separate bass and treble, USA/Euro tuner, power antenna lead.

## 1955-57 Modern Radio

These radios have the exact look and feel of your original radio, but feature the performance you'dexpect from today's technology. Inside each radio case is a digital AM/FM tuner system with a 180 watt RMS power amplifier and includes RCA inputs for iPod, MP3 or satellite radios. Two powerful microprocessors monitor the interface (knobs and push buttons) and make the radio controls precisely imitate the original while pumping out a sound that is cleaner and much more powerful than any radio that was available when your 1955-57 was new. Radios fit into stock location without dash modification. Where applicable, radios include die-cast chrome knobs, faceplates, and functioning AM/FM station presets. Designed and manufactured in the USA.

# Stereo Accessories

14612 – detail

14611

14612

## Radio Color Bar

Reproduction color bars made popular on vehicles from the 1950's through the 70's. This cool accessory can be mounted anywhere and is run through your stereo to light up and move to the music. Includes two different interchangeable lenses for different lighting affects. Mounting hardware and instructions also included.

14611 black ..... 315.99 ea
14612 chrome ..... 376.99 ea

## Radio Noise Suppressor

Sometimes after installing any new sound system, you may experience bothersome engine/alternator noise. Be sure to check all grounds for good connections (radio, antenna, amp, etc.). If you still hear engine/alternator "whine", our quality noise suppressor may eliminate this problem.

*Note: For use with amplified systems only. Not for use with stock radios.*

NSP1 universal type ..... 19.99 ea

## Radio Off Delay

With this new device, you can listen to your radio after you remove the key from the ignition, just like many modern luxury cars! After removing they key, this unit will keep the radio power active for 15 minutes or until a door is opened. This allows you to continue listening to the radio without leaving the electric fan or other accessories running. And you're not limited to just the radio; it could be wired to control all accessory power so you still have control of the power windows after the key is off.

RE12005 radio off delay ..... 69.99 ea

## SiriusXM Onyx Plus "Plug and Play" Receiver

Listen to SiriusXM anywhere, anytime. This kit adds satellite radio to any RetroSound radio through the auxiliary input. Includes: a built-in FM modulator to interface with any radio with FM stereo and a magnetic mount antenna, aux-in cable and all the mounting accessories you will need. The full color display features album art, channel logos and graphics. You can store up to 20 of your favorite channels for one touch access, and you can pause, rewind and replay live satellite radio and catch up on the latest sports scores with Sports Ticker. Monthly subscription required. Lock and unlock channels with mature content.

A910107 all ..... 79.99 ea

## SiriusXM Radio Tuner Set

The SiriusXM radio tuner set connects directly to any of the RetroSound satellite ready radios to provide the signal required. No need for special adapters or cables. The compact size installs easily and discreetly behind the dash for a fully integrated look.

XM300 SiriusXM ..... 69.99 set

## Play Portable MP3's or CD's on Your Factory Radio!

With the RediRad adapter music is seamlessly routed from any portable music player such as a cassette, CD or MP3 player, even satellite radio into your AM or AM/FM radio without any vehicle modifications. For simple and out-of-sight installation, it uses a standard audio plug on a six foot cable to connect to your portable player. When music is detected at the audio plug, the RediRad automatically switches from the radio broadcast to your personal player.

14923 RediRad adapter ..... 99.99 ea

## SecretAudio Sound System

SecretAudio system allows you to keep your original radio intact or hide your audio system altogether! The tuner/amp unit can be hidden out of sight and controlled by a mounted LCD panel with a RF remote control. Features an LCD display that can be mounted virtually anywhere and controlled by the compact radio frequency (RF) remote. Includes flush mount bezel and mounting bracket for your choice of LCD display mounting.

S102 ..... 328.99 set

## Bluetooth® Receiver Adapter

Now you can wirelessly stream audio and take handsfree calls from the road in your Classic Mustang! Simply plug this into your cigarette lighter, connect the cable to your radio's 3.5mm input jack, and pair your Bluetooth® enabled phone or other device... that's it! You'll be ready to wirelessly stream music from your device to your audio system. Calls and music are routed through your car's speakers for excellent sound quality. Includes Bluetooth adapter and 18" extension cable.

AR9901 Bluetooth® adapter ..... 41.99 ea

## "BLUKIT" Bluetooth Interface

Wireless interface for custom autosound CD controller radios (USA-630, Secretaudio (SST & SRMS), USA-66). This adapter plugs into the CD changer port of your custom autosound radio and gives you the ability to do handsfree calling from your Bluetooth® capable phone. Also listen to music stored on your A2DP enabled bluetooth device.

## Boom Mat Speaker Baffles

Solve the problem of rattles and vibrations caused by speakers and protect the back of speakers from damage! Boom Mat Speaker Baffles maximize speaker performance by isolating the correct frequency responses while damping reverberation in the sheet metal and panel to frame resonance. Also forms a water tight protective shell to prevent moisture intrusion. Made from a closed cell polyethylene to enhance frequency response for improved sound clarity. Easy conformably in tight spaces for a professional installation. Isolates frequency responses and prevents sound from migrating to unfavorable areas in the vehicle such as door panels.

## The Smart Antenna

This antenna is an active magnetic type antenna, working on the magnetic field associated with a conductor excited by a radio wave. The product is totally self-contained using printed circuit technology and miniaturized components, coupled with high-quality manufacturing methods. You don't need an external rod, no drilling to install, no removal prior to car wash. Concealed mounting prevents theft, and it also includes a lifetime warranty! Antenna cable measures 9 feet long. Fits all years!

SA20 ..... 19.99 ea

## Hidden Antenna

The RetroSound amplified AM/FM hide away antenna is a great solution for anyone who doesn't want to install a standard fender mount antenna. This hidden antenna installs in seconds using a standard antenna plug and your radio's power antenna wire. This antenna uses magnetic field circuitry for enhanced radio reception. It can be installed almost anywhere thanks to the supplied 105 inch antenna lead and power wire.

## Bench Seat Cruiser Console

The BC Cruiser™ console is designed to fit the contour of early bench seats. Installation is fast and simple with a nylon strap under the seat which cinches down to the front of the console. Features large drink holders, storage compartment, padded armrest, a fully lined interior compartment, a flip up lid with a plastic sleeve to hold important documents.

### BC Cruiser

Measures: 18" long, 8-1/2" wide (11" at cup holders) and 7-1/2" tall with a 10" x 6" x 3" storage compartment. Works best in vehicles where the automatic transmission selector is located on the steering column.

*Note: Please add three digit color code when ordering.*

# A Classic Industries® Tribute To

# Mr. Chevrolet

DICK HARRELL

## Dick Harrell, Drag Racing Legend

Classic Industries® is proud to salute Dick Harrell, drag racing pioneer and all-around good guy who earned the title of "Mr Chevrolet," for his profound contributions to the classic car hobby and muscle car culture.

Dick Harrell was born in Phoenix, Arizona and lived there until he was 5 years old. He and his family then moved to Carlsbad, New Mexico, where he resided until 1965. Cars were very much a part of Dick Harrell's early life. Dick first gained racing acclaim in the Carlsbad area at the tender age of 14 where he became deeply involved with sprint cars. He began tuning and later proved to be a capable driver, racing throughout the Southwest. At age 17, Dick started driving jalopies on a dirt track near Carlsbad. By the early 1960's, Dick Harrell was a racing champion, setting records left and right in Chevrolet cars that he had re-engineered himself. When General Motors discontinued its racing program in the mid 1960's, most racers abandoned Chevrolet in favor of Ford and Chrysler models. Undaunted by GM's decision, Dick Harrell continued racing Chevrolets even without factory support. During this period of time, if a Chevy was competing in a professional drag race, you could bet that Dick Harrell was probably involved. He was relentless against the bandwagon of factory backed racers, forging his reputation and earning the nickname "Mr. Reflexes" among others, but no nickname was more appropriate than "Mr. Chevrolet".

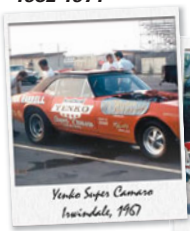
When the Camaro was newly introduced as a 1967 model, Dick Harrell teamed up with dealers such as Yenko Chevrolet to exploit the Central Office Production Order (COPO) process. Together, these early pioneers built the first COPO Camaro models, some of the most highly sought after cars of the era. Dick Harrell then used his business skill and outstanding reputation to convince the American Hot Rod Association (AHRA) to create a special Pro-Stock racing class for these COPO models and they agreed, providing that 50 of each model were sold to the public. In 1969, Chevrolet took notice and enlisted Dick Harrell's help with the development of the now famous aluminum 427ci big block V8 for Can Am racing. This very powerful, extremely lightweight engine was conservatively rated at 430 HP and would make the 1969 ZL-1 the quickest production Camaro to leave the factory for decades.

Dick Harrell solidified and built upon his reputation in the business world, but his passion for racing would never subside. As he continued his affair with the drag strip, he was always willing to share his love and knowledge of Chevrolet and drag racing with anyone and everyone who was interested. Unfortunately, on September 12, 1971, he lost his life in a crash during a race in Toronto, Canada, when a front tire explosion at 220 MPH sent Harrell into a light pole. In the aftermath of the tragic crash, speed-proven front tires were developed for funny cars to prevent similar accidents. Even in death, Dick Harrell advanced the course of drag racing.

On that unfortunate day, Dick Harrell left behind a wife, Elaine, and two daughters, Valerie and Kim. Valerie continues to keep the legacy of her father's incredible career alive by operating a forum and website dedicated to her father's memory. She has also been involved in projects that match the spirit of her father's efforts such as the 427 powered Dick Harrell Camaro tribute cars built by GMMG of Marietta, Georgia in 2003.

***Dick Harrell, "Mr. Chevrolet"***
***1932-1971***

Dick Harrell was recently inducted into the Don Garlits International Drag Racing Hall of Fame, finally getting the recognition he deserves 39 years after that fateful day in Toronto. Today, we salute him as a true innovator, enthusiast and hero in the world of high-performance racing and the automotive hobby.



Dick Harrell, the loving husband and father, is forever lost except in the private memories of his family and friends. "Mr. Chevrolet", the racing legend behind everything that made Chevy the major force that enthusiasts know and cherish today, will live on in our hearts and minds forever.

Visit www.dickharrell.com for more information on "Mr. Chevrolet".

## 1955-57 Factory Service Manuals

These factory manuals provide all the information you'll need to service your Chevrolet. Each shop manual includes procedures for maintenance and adjustments, minor service operations, removal and installation of components (excluding the body) and a wealth of General Motors service operations techniques. If there is one book devoted to the care of your Chevrolet, this is it! Whether you own a Bel Air or another Chevrolet model, these manuals will supply important and pertinent information for correct maintenance procedures. Written by General Motors.

***Note:*** *This book covers the service aspect of the mechanical operations of the vehicle. For body and interior, see the Fisher Body Service Manual.*

### 1955-57 Shop Manual

Covers procedure for maintenance and adjustments, minor service operations, removal, and installation for components, except body components.

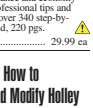
## David Vizard's How to Super Tune and Modify Holley Carburetors



Author Vizard explains the science, the function, and the tuning expertise required to get your Holley carburetor to perform its best for your performance application. This book guides you through the traditional 4150 Double Pumper, Dominator, and 4160 vacuum secondary models, as well as all the recent releases from Holley, including the Ultra Street Avenger and Ultra HP Series Carbs. Paperback, 144 pages, 8-1/2" x 11".

L9658 ..... 30.99 ea

## Rochester Carburetors

Here's the definitive book on selecting, installing, tuning and modifying conventional and electronic Rochesters. Also details design, operation, and performance modifications of current microcomputer controlled models. Includes comprehensive coverage of Quadrajet design and service from early to electronic models. Softbound, 176 pages.

L191 ..... 29.99 ea

## How to Build and Modify Quadrajet Carburetors

The book is a complete guide to selecting, rebuilding, and modifying the Q-Jet, aimed at both muscle car restorers and racers. It includes a guide to selecting and finding the right carb, instructions on how to rebuild the carb and extensive descriptions of high-performance modifications. 128 pages.

L202 ..... 30.99 ea

## Rochester Carburetor Manual

This manual includes detailed information on carburetor identification, basic trouble shooting, diagnostic checks for computer controlled carburetors, on-vehicle tuning and adjustments, step-by-step repair and overhaul, performance and economy modifications, professional tips and tricks along with over 340 photos. 200 pages.

L561 ..... 29.99 ea

## Carter/Edelbrock Carburetors

Contains photos, illustrations and diagrams, covering rebuilding, tuning and modifying Carter and Edelbrock carburetors. Also features history on the Carter company as well as the development of the AFB and the AVS since the purchase by Edelbrock. Softbound, 136 pgs, 8-1/2" x 11".

L433 ..... 27.99 ea

# Transmission Manuals

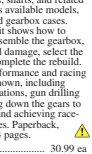
## GM Turbo 400 Transmissions

New!

Automotive technical author Cliff Ruggles guides you through the complex rebuild procedure of GM's popular rear wheel drive automatic transmission. With his proven style, Ruggles goes through the step-by-step rebuild and performance upgrade procedures in a series of full color photos. He includes instruction on removal and installation, tear down procedures, parts inspection and replacement, as well as performance mods and shift kit installation. Time saving tips are part of every buildup as well. Paperback, 8-1/2" x 11", 144 pages with 563 color photos.

L1322 ..... 30.99 ea

## Muncie 4-Speed Transmissions How to Rebuild



This is an indispensable reference to Muncie 4-speeds that guides you through each crucial stage of the rebuild process. Comprehensive i.d. information is provided, so you can positively identify the cases, shafts, and related parts. It discusses available models, parts options, and gearbox cases. Most important, it shows how to completely disassemble the gearbox, identify wear and damage, select the best parts, and complete the rebuild. Various high-performance and racing setups are also shown, including essential modifications, gun drilling the shafts, cutting down the gears to remove weight, and achieving race-specific clearances. Paperback, 8-1/2" x 11", 144 pages.

L1291 ..... 30.99 ea

## How to Rebuild & Modify GM TH400 Transmissions

Millions of GM cars and trucks have been built with Turbo 400 automatic transmissions. This book takes readers step-by-step through the complex transmission rebuild procedure as performance upgrade procedures with a series of full color photos for each of these models. Softbound, 144 pages, 8-1/2" x 11".

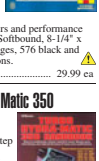
L1413 ..... 30.99 ea

## Powerglide Transmission

This complete guide to the Powerglide covers it all from a stock rebuild to an all-out race unit. Subjects covered include general transmission service, basic operation, in-car service and repairs, final assembly and much more. Includes 500 photos. 8-1/2" x 11".

L242 ..... 29.99 ea

## GM Automatic Transmission Overhaul Manual



The TH2004R, 350, 400 and 700R4 automatic transmissions are covered with complete overhaul photo sequences. Also covered are theory of operation, in-vehicle repairs and performance modifications. Softbound, 8-1/4" x 10-3/4", 240 pages, 576 black and white illustrations.

L743 ..... 29.99 ea

## Turbo Hydra-Matic 350

Clear, concise text leads you through every step of the rebuild, from transmission removal, tear down and inspection to assembly and installation. Also covers transmission identification, principles of operation and maintenance, troubleshooting and in car repairs. 8-1/2" x 11", 256 pages.

L160 ..... 29.99 ea

## GM Automatic Overdrive Transmission Builders and Swapper's Guide

This book includes information about high-performance modifications, both from the factory and the aftermarket. It also covers common installation issues such as mounting, shifters and linkages, wiring harnesses, and more. 128 pages, softbound.

# Drivetrain Manuals

## High-Perf Differentials, Axles & Drivelines

Everything you need to know about selecting the most desirable gear ratio, rebuilding differentials and other driveline components and most importantly, matching the correct driveline components to engine power output. Learn how to setup a limited-slip differential, install high-performance axle shafts, swap out differential gears and select the best available products for the driveline. Explains rear differential basics, rear differential housings, rebuilding open rear differentials, limited slip differentials and factory differentials. Sftbnd, 8-1/2" x 11", 144 pages.

New!

L1063 ..... 30.99 ea

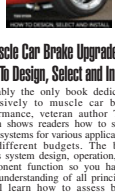
## Chevy Differentials: How To Build The 10 and 12 Bolt New!

Maybe you have found a salvage yard unit and want to rebuild it to upgrade your existing vehicle or would like to install an aftermarket 12 bolt assembly for extreme performance or racing. This is the only book dedicated solely to rebuilding, setting up, and modifying these axle assemblies for long service life and maximum performance. If you're going to rebuild a Chevy 10- or 12 bolt axle, this book delivers the essential information to get the job done right. Softcover, 8-1/2" x 11", 144 pages.

L1287 ..... 30.99 ea

# Brake Guides

New!

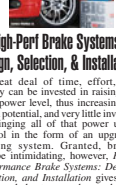


## Muscle Car Brake Upgrades: How To Design, Select and Install

Arguably the only book dedicated exclusively to muscle car brake performance, veteran author Todd Ryden shows readers how to select brake systems for various applications and different budgets. The book covers system design, operation, and component function so you have a clear understanding of all principles. You'll learn how to assess brake system requirements and select brake system kits for many popular muscle car applications form aftermarket brake leaders including Baer, Witwood, and CPP. Paperback, 144 pages, 8-1/2" x 11".

L1574 ..... 30.99 ea

New!



## High-Perf Brake Systems: Design, Selection, & Installation

A great deal of time, effort, and money can be invested in raising the horsepower level, thus increasing the speed potential, and very little invested in bringing all of that power under control in the form of an upgraded braking system. Granted, brakes can be intimidating, however, *High-Performance Brake Systems: Design, Selection, and Installation* gives you the knowledge to upgrade your brakes the right way the first time. You'll learn how to choose and install the most effective rotors, calipers, pads, and tires for your muscle car or classic vehicle. Paperback, 144 pages, 8-1/2" x 11".

L1580 ..... 27.99 ea

# Exhaust Guides

## Performance Exhaust Systems New!

To extract maximum performance, an engine needs an efficient, well-designed, and properly tuned exhaust system. This book explains exhaust system principles, function, and components. Includes how to design, fabricate, and fit exhaust systems to classic street cars as well as for special and racing applications. Air/exhaust gas flow dynamics, cam duration, and overlap are analyzed to determine how an engine breathes in air/fuel, as the exhaust must efficiently manage this burned mixture. Paperback, 8-1/2" x 11", 144 pages with 577 color photos.

SA277 ..... 27.99 ea

# Automotive DVD

## Differential Rebuilding DVD

Watch nine of the most popular differential rebuilds all in one DVD! Covered in detail is disassembly, inspection and the setup procedures for achieving a good pattern. You'll learn the different setup techniques for each unit and see the results as each shim is changed. The rebuilding and ring and pinion installation basics covered in the DVD are universal to all differentials. Approximately 120 minutes.

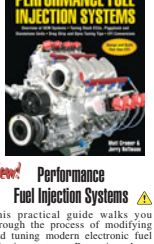
# Fuel Injection Manuals



## New! Performance Fuel Injection Systems

This practical guide walks you through the process of modifying and tuning modern electronic fuel injection systems. Presenting plenty of foundational information, you're taken on a journey that includes wiring, fuel systems, sensors, and different types of ignition systems – all geared towards building a basic understanding of fuel injection systems. The book also covers configuring a stand-alone engine management system and tuning for maximum power and drivability, and much more. Paperback, 160 pages, 8-1/2" x 10-7/8".

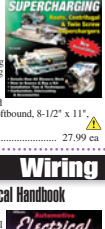
L1569 ..... 29.99 ea

## Designing And Tuning High-Perf Fuel Injection Systems New!

This book goes in-depth on the combustion basics of fuel injection as well as benefits and limitations of standalone. Includes glossary and a special resources guide with standalone manufacturers and test equipment manufacturers. Softbound, 128 pgs, 8-1/2" x 11".

L1062 ..... 30.99 ea

## Street Supercharging



This book will give information regarding all facts of supercharging, including how to install blowers, buying a kit, rebuilding manifolds, blower drives, carburetion and accessories. Softbound, 8-1/2" x 11", 128 pages.

L211 ..... 27.99 ea

## Turbocharging New!

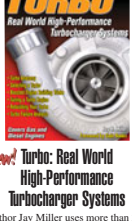
A detailed, comprehensive handbook on the theory and application of turbocharging for street and high-performance use. Covers all types of domestic, import cars, trucks and RVs. Includes detailed sections on theory, types of turbocharging components, engine considerations and aftermarket applications. Softbound, 8-1/2" x 10-7/8", 192 pages.

L317 ..... 29.99 ea

## Turbochargers

How to select and install the correct turbo for big or small horsepower gains, turbo design, sizing and matching. Improve the performance of your engine by simply getting the right information. Covers all aspects of turbocharging and includes turbo suppliers list. Stfbnd, 8-1/2" x 11", 160 pages.

L185 ..... 29.99 ea



## New! Turbo: Real World High-Performance Turbocharger Systems

Author Jay Miller uses more than 300 photos and the perfect blend of technical and common sense information to help you build boost fast and make more horsepower and torque. He discusses the various components of a turbocharger and explains how to decode complicated turbocharger model numbers, compressor maps, and other specs. If you run into problems with your turbo system, there's also a detailed chapter on failure analysis to help you figure out what went wrong and how to fix it. Softbound, 8-1/2" x 11", 160 pages.

L978 ..... 30.99 ea

# Wiring Manuals

## Automotive Electrical Manual

The manual features comprehensive information which covers basic electrical fundamentals, trouble shooting and repair for both foreign and domestic vehicles. Includes engine starting and charging systems, lights, gauges and more! Softbound, 242 pages.

L575 ..... 29.99 ea

## Automotive Wiring & Electrical

The basics of electrical principles, including voltage, amperage, resistance and Ohm's law, are revealed in clear and concise detail, so the enthusiast understands what these mean in the construction and repair of automotive electrical circuits. 8-1/2" x 11", 144 pgs, 350 photos.

L1019 ..... 30.99 ea

## Auto Electrical Handbook

Learn about basic electrical theory, how various electrical works and drawing circuit diagrams. Includes tips on electrical test equipment and troubleshooting electrical circuits. 350 photos, drawings and diagrams. Softbound, 157 pages.

L187 ..... 29.99 ea

## Automotive Wiring
### A Practical Guide to Wiring Your Hot Rod or Custom Car

The book includes numerous charts showing typical configurations and suggested installations. A troubleshooting section lends a hand in tracking down the inevitable problems that can arise. Paperback, 144 pages, 8-1/4" x 10-5/8".

L39923 ..... 26.99 ea

## How To Diagnose and Repair Automotive Electrical Systems

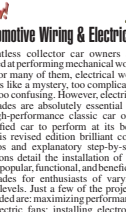
Details the various tools, such as multi-meters and test lights, that can be used to evaluate and troubleshoot any vehicle's electrical system. Several hands-on projects take readers on a guided tour of their vehicle's electrical system and demonstrate how to fix specific problems. Paperback, 160 pages, 8-5/16" x 10-5/8".

L20990 ..... 27.99 ea

## Custom Auto Wiring & Electrical

This indispensable guide to high performance and OEM automotive electrical systems covers electrical theory, wiring techniques and equipment, custom wiring harnesses for racing, hot rods and restorations, premade wiring harnesses, special electrical systems (navigational, audio, video), troubleshooting common electrical problems, dashboards and instrument and trailer wiring. Softbound, 8-1/4" x 5-1/4", 192 pages.

L1056 ..... 29.99 ea



## New! Automotive Wiring & Electrical

Countless collector car owners are skilled at performing mechanical work, but for many of them, electrical work seems like a mystery, too complicated and too confusing. However, electrical upgrades are absolutely essential for a high-performance classic car or a modified car to perform at its best. In this revised edition brilliant color photos and explanatory step-by-step captions detail the installation of the most popular, functional, and beneficial upgrades for enthusiasts of varying skill levels. Just a few of the projects included are: maximizing performance of electric fans; installing electronic gauges; upgrading charging systems; and installing a complete aftermarket wiring harness, which is no small task. Each facet is covered in amazing detail. Paperback, 8-1/2" x 11", 144 pages with 394 color photos.

# Fabrication

## Weld Like a Pro

New!

Welding is an art and skill that's essential for automotive fabrication, repair, and vehicle upgrades. It is also an important skill for countless household projects and industries. Not only will you learn these basic skills, but you'll also learn advanced welding techniques as well as with the use of aluminum, titanium, magnesium, stainless steel, and other specialty materials. Paperback, 144 pages, 8-1/2" x 11".

L1570 ..... 30.99 ea

## Automotive Machining

Machining is an essential part of high-performance engine building and stock rebuilding, as well as certain servicing procedures. Whether you're an enthusiast engine builder or prospective machining student who wants to pursue a career as an automotive machinist, this book will provide insight and in-depth instruction for performing the most common and important machining procedures. Paperback, 8-1/2" x 11", 176 pgs.

L1284 ..... 33.99 ea

## The Welder's Handbook

Excellent handbook detailing all common and not so common techniques of welding. Oxyacetylene welding and cutting, brazing and soldering. Also includes how to weld stainless steel, aluminum, magnesium and titanium. Softbound, 8-1/2" x 11".

L144 ..... 29.99 ea

## Welding Manual

This Haynes Techbook covers gas (oxyacetylene), arc, MIG and TIG welding. Soldering and flame cutting are also covered. Techniques are discussed as they relate to automotive and workshop repairs. Information on selecting equipment is also included. Sftbnd, 176 pages, 8-1/2" x 11".

L388 ..... 29.99 ea

New!

## Media Blasting & Metal Preparation: A Complete Guide

When it comes to bodywork and painting, one aspect that's overlooked is proper metal preparation. However, there's more to a great paint job than sanding and shooting. Without proper metal preparation, the paint finish can end up full of imperfections; bubbles from underneath, or simply won't last, no matter how expensive the materials were. In Media Blasting & Metal Preparation: A Complete Guide, restoration expert and veteran author Matt Joseph gives you all the tools you need to expertly prepare your vehicle for the next stages of restoration. Short cutting the process will only cost you precious time. This book provides all you need to know for a successful and long-lasting restoration. Paperback, 144 pages, 8-1/2" x 11".

L1575 ..... 30.99 ea

New!

## Metal Fabricator's Handbook

This excellent how-to guide concentrates on race and custom cars. Covers everything from adding a hood scoop or fender flares, to building complete cars. Includes a tremendous amount of useful information. 8-1/2" x 11", 176 pages, paperback, 560 illustrations.

L42 ..... 29.99 ea

## Sheet Metal Handbook

Detailed information on how to form and shape metal for competition, custom or restoration use. Chapters include hammer forming tools, terms and equipment, riveting techniques, layout, design and pattern making. Softbound, 192 pages, 8-1/2" x 11".

L243 ..... 29.99 ea

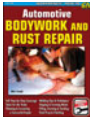
## Professional Sheet Metal Fabrication

Professional Sheet Metal Fabrication is the number one resource for sheet metal workers old and new. Dent repair and automotive patch panel fabrication are covered in detail. This is truly the most detailed enthusiast focused sheet metal how-to book on the market. Paperback, 304 pages, 8-1/4" x 10-5/8".

L44927 ..... 39.99 ea

## Automotive Bodywork & Rust Repair

New!



Whether you want to tackle a full restoration project, or just want to save money by doing minor repairs yourself, Automotive Bodywork and Rust Repair is the book to get you through it. Softbound, 8-1/2" x 11", 160 pages.

L1086 ..... 30.99 ea

## Fiberglass & Composite Materials

This informative guide covers FRP materials, fibers and fiber forms, resins, gel coats, advanced techniques, building molds and plugs, structures and materials, health and safety, tools and shop equipment. Softbound, 154 pages, b/w illustrations. 8-1/2" x 11".

L652 ..... 29.99 ea

## Fabricate Automotive Fiberglass & Carbon Fiber Parts

New!

Learn to fabricate and repair body and engine parts fabricated from fiberglass and composite materials (plastic molded or carbon fiber), in your own garage. Use glass strand mat, woven fiberglass cloth, carbon fiber cloth, and hybrid fabrics, correctly mix the typical resins (polyester, epoxy), hardeners, and gels. Use core materials, such as wood, foam, and honeycomb Nomex, are to add strength to various parts. All the relevant tools, patterns, and materials are covered in detail. This book guides the reader through each critical stage. Softbound, 160 pages, 8-1/2" x 11".

L1096 ..... 27.99 ea

## High Performance Fasteners & Plumbing

New!

High Performance Fasteners & Plumbing is a comprehensive guide that offers useful, practical information to help you choose the best fastener or plumbing solution for your project. Included are sections on types of fasteners, hose sizes, fittings, thread types and sizes, heat shielding, brake, oil, coolant and fuel lines, routing techniques, clamping loads, stress, bolt stretch, and many other tips. Softbound, 8-1/4" x 5-1/4", 176 pages.

L1053 ..... 24.99 ea

## Drag Race Chassis & Suspension

Detailed information and photos on basic chassis design, how to set ride height, tubing construction, standard axle housings, choosing gear ratios, transmission choices, bolt-on traction bars, 4-Link setups, ladder bars, anti-roll bars, steering, shocks, springs, brakes, wheels, tires, safety equipment and so much more! Softbound, 5-1/4" x 8 1/4", 160 pages.

L1052 ..... 29.99 ea

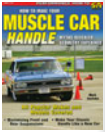
## Chassis & Suspension Handbook

First in a series of custom techniques and tips on all areas of building a street rod. Features designing and how-to procedures on building the chassis and suspension for all types of street rods. Paperback, 8-1/2" x 11", 192 pages.

New!

L248 ..... 29.99 ea

## How To Make Your Muscle Car Handle



This book defines, explores, and reviews the complete suspension system, and teaches you how to best choose your upgrades for maximum effectiveness. Softbound, 8-1/2" x 11", 144 pages, 328 color photos.

L2724 ..... 27.99 ea

WARNING: Cancer and Reproductive Harm- www.P65Warnings.ca.gov

# Paint & Body Manuals

## How To Paint Your Car

This book reveals the techniques and technology behind automotive painting through 250 color photos, detailed captions and text. You'll get the most up-to-date information about paint chemistry, the tools of the trade and safety gear that every automotive painter must know. The book covers, in step-by-step detail, how to properly prepare your car for paint, including bodywork, surface preparation and masking. 160 pages, softbound.

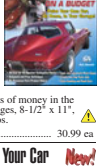
L3159 ..... 29.99 ea

## Pro Paint & Body New!

This is a revised and updated edition of one of the bestselling paint handbooks in the industry. It also has sections on hammer and dolly, paintless dent removal, patching panels, spray guns and compressors, paint prep, shooting paint, color sanding, plastic bumper repair, and custom paint tips and tricks. Paperback, 160 pages, 8-1/2" x 10-7/8".

L1573 ..... 29.99 ea

## Paint Your Car On A Budget



This book unveils dozens of secrets that will help anyone paint their own car. This book covers everything you need to know to get a great looking coat of paint on your car and save lots of money in the process. 128 pages, 8-1/2" x 11", 400 color photos.

L917 ..... 30.99 ea

## How to Paint Your Car New!

This book reveals the techniques and technology behind automotive painting through 250 color photos, detailed captions and text. You'll get the most up-to-date information about paint chemistry, the tools of the trade and safety gear that every automotive painter must know. 160 pages, softbound.

L3159 ..... 29.99 ea

# Interior Manuals

## Auto Upholstery & Interiors

A guide to performing basic upholstery and interior repairs on all kinds of automobiles written expressly for the home enthusiast. Includes helpful guides on how-to replace headliners, lay carpet, repair dashboards, reupholster seat frames and more. Stbnd, 8" x 10", 160 pages.

L1265 ..... 29.99 ea

## Automotive Upholstery

Author teaches you how to sew like an expert, and avoid costly mistakes. Learn to recover and build seats, make headliners and carpets. Materials are described with specific recommendations for vinyl, cloth, leather, Nimbus, panel board, etc. 230 pages, 8-1/2" x 11", 550 b/w photos.

L378 ..... 22.99 ea

## Custom Auto Interiors New!

More than 800 color photographs capture every detail you'll need to create your own exciting and award-winning custom interiors. Precise step-by-step instructions show you how-to turn out completely professional custom interiors. This is an advanced level book. 192 pgs, 8-1/2" x 11".

L740 ..... 26.99 ea

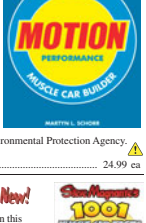
## Automotive Upholstery & Interior Restoration

After disassembling and gutting your car, it is easy to feel that you're in way over your head when it comes to the upholstery. Every photo in this book provides a hands-on approach that shows you how to repair and restore a car's interior to concours, show quality specifications. Paperback, 8-1/2" x 11", 192 pages.

L1288 ..... 33.99 ea

# Automotive Literature

## Tales Of A Motion Performance Muscle Car Builder



It was a driver's dream: Along with the full factory warranty, your car came with a guarantee of 11.5 second quarter mile times. It was also Joel Rosen's dream, and in 1964, he set out to make it a reality. First he built fast cars. Then, taking a page from Ford's "win on Sunday, sell on Monday" strategy, he built a reputation by beating all comers on drag strips and in street races. Brilliantly illustrated with period pictures and modern color photos, the book takes readers along as Cobras, Chevrolets, Oldsmobiles, even Volkswagen Beetles roll into the shop to get torn down and rebuilt into cars unbeatable on the streets and drag strips. Marty Schorr gives a first hand account of seven years of high-performance life and of how it all came to a screeching halt at the hands of the U.S. Department of Transportation and the Environmental Protection Agency. Paperback, 176 pages, 11" x 9".

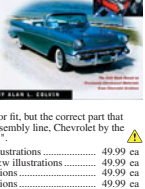
L2725 ..... 24.99 ea

## 1001 Muscle Car Facts New!

There are 1001 well researched muscle car facts in this book that even some of the most esteemed experts would be surprised to learn. Covered are all the popular GM makes including Chevy, Buick, Oldsmobile and Pontiac, Ford and Mercury cars, Chrysler, Plymouth and Dodge cars, and even facts about AMC and Studebaker as well. Fans of these collectible cars will appreciate the technical and entertaining information shared on every page about all of the great American muscle cars. Paperback, 6" x 9", 416 pages, 110 b/w photos.

L1310 ..... 27.99 ea

## 1955-75 Chevrolet by the numbers



Chevrolet by the numbers is the only authoritative reference for identifying and verifying the correct Chevrolet parts by casting number, for your exact model. Author Alan Colvin documented every casting number for every V8 Chevrolet engine and drivetrain part from 1955 through 1975, using original source material from Chevrolet's archives, including engineering blueprints, technical service bulletins and build sheets. Every engine is covered from the ultra-rare, high-performance aluminum 427 for the ZL-1, to the common 283 found in Impala station wagons. All engine blocks, cylinder heads, pistons, connecting rods, crankshafts, camshafts, manifolds and more, are listed. If you want to know the original parts for your Chevrolet drivetrain, not what will interchange or fit, but the correct part that came with your vehicle when it rolled off the assembly line, Chevrolet by the numbers has the answer. Softbound, 8-3/8" x 11".

## Hidden Car Tracker Pro Plus

Track your car easily with the BrickHouse Hidden Car Tracker Pro Plus, a completely covert GPS tracker. This powerful tracker puts you in total control of individual vehicles or fleets, and drivers will never know it's there unless you tell them. Enjoy an unlimited power supply while the vehicle is running and, when the vehicle is off, the internal back-up battery continues to provide location data for up to 12 hours – ideal for recovering stolen or lost vehicles.

- Hard wired, no batteries required
- Location updates every 10 seconds
- External antenna for superb accuracy
- 12 hour continuous back-up battery

Through BrickHouse Security's easy to use GPS platform, you can receive instant speed or location based alerts via text or e-mail, based on custom parameters. View the tracker's location in real time on three customizable map views, or access detailed location history reports. All of these features can be accessed from any smartphone, tablet, or computer with an internet connection; no special apps or software are necessary. This device requires a $29.99 per month fee for unlimited GPS tracking, billed every 30 days (billing starts 7 days after purchase).

***Note:** If service is inactive for 60 days or more reactivation will require a new SIM card for your device and may take up to 5 business days.*

## TrackPort GPS Vehicle Tracker

The TrackPort is the easiest way to track a car or truck, and protect it against thieves. Just plug the device into your vehicle's OBD-II (On Board Diagnostic) port. Normally located under the driver side dash, this port has been standard on all vehicles sold in the United States since 1996. Use your vehicle's existing port to supply uninterrupted power to your tracking device. Unlike traditional hard wired tracking devices, an OBD GPS tracker can be easily moved from one vehicle to another with no tools and little effort. It's completely "Plug and Play".

- No installation required, just plug in and go
- Move TrackPort instantly from vehicle to vehicle
- Location updates every 30 seconds
- Powered by your vehicle – no batteries needed
- U.S. tracking only

Know where the TrackPort is at any time, view where it's been, and run reports on the vehicle's behavior from any computer, tablet, or smartphone with a web connection. Receive customizable location or speed based alerts via text message or e-mail. Purchase of this device constitutes agreeing to the monthly service fees chosen upon sale. The TrackPort requires a $29.99 per month fee for unlimited GPS tracking, billed every 30 days (billing starts 7 days after purchase).

***Note:*** *If service is inactive for 60 days or more, reactivation will require a new SIM card for your device and may take up to 5 business days.*

## Micro GPS Hidden Car Tracker

The BrickHouse Livewire Micro is a high-performance GPS tracker that's completely invisible in any car or truck - and it's one of the most affordable GPS devices available. This completely covert GPS tracker is hard wired behind your dashboard, so the driver will only know it's there if you choose to tell him. And since it gets its power from your vehicle's electrical system, you never have to worry about running out of battery life. When the vehicle is turned off, the Micro provides location updates every hour. Detailed reports of a vehicle's travel history are also available. For the most accurate tracking available, the Livewire reports location on the Verizon network, which offers the best cellular coverage in the United States. Device supports rapid tracking, Geofence alerts, and speed alerts with select service plans.

***Note:*** *This device requires a no contract service plan, available from $9.99 to $39.99 per month.*

# Inspection Approval Stamps

- Achieve complete authenticity for your vehicle by applying inspection approval stamps!
- The first and only kit designed to put inspection marks on your undercarriage and hood!
- A complete set of stamps with specially formulated paint and crayons are included to truly complete your restoration!
- Basic or deluxe kits are available depending on your restoration requirements!

Restorer's Choice™

## It's the details that make the difference!

You may have seen the letters P.T.B. on the firewall of your vehicle. The markings have specific meanings. We've offered a brief explanation to the most commonly asked questions concerning the replacement of these markings. The key between a good restoration and a great restoration is how much detail is put into it. Enter your restored vehicle in the show of your choice and maintain complete originality by obtaining the correct inspection markings. The judges will be impressed!

## Questions and Answers

**Q.** What does P.T.B. stand for?
**A.** P.T.B. means P = Paint, T = Trim, B = Body.
**Q.** Do they go in any certain order?
**A.** No. They can be mixed up in any way you like. PTB, TBP, BTP, TPB, etc. The most common way is PTB.
**Q.** Where do they go?
**A.** PTB can be on either side of the firewall but the driver side is the most common. They have also been seen on the side of the cowl behind the fender but it would be useless to put them there since they can't be seen.
**Q.** What color should they be?
**A.** They can be orange, light green, or a mixture of both. For example P=orange, T= light green, B=orange, or anyway you like. If your PTB is still intact before your restoration, do your new PTB's in the same colors. Not all vehicles included PTB's but when restoring yours we suggest you put them on.

CC12

CC13

## Factory Inspection Marking Kits ⚠

Includes the correct P.T.B. stamps with specially formulated paint to give your vehicle the final inspection marks that the factory put on. Also included are the yellow and white crayons for marking your firewall with the factory inspection marks. A must for any true restoration.

# Body Markers/Paints

## Chassis Inspection Mark Paint ⚠

Restore the many colored factory marks found on your suspension, engine and driveline components. These marks are found on most cars, and were used for inspection, parts picking codes and alignment marks. These inspection paints are color matched to original. In many cases they're supplied with technical bulletins to help you apply them in the proper locations. Supplied in 2 oz. brush top bottles.

## Firewall and Frame Marking Crayons ⚠

These are the correct "grease pencil style" crayons used for marking the factory inspection marks on your firewall, subframe, and other various sheet metal areas. Included are a yellow and a white marking crayon.

K0084 ..... 5.99 pr

PM0301 PM0302 PM0303 PM0304 PM0305

## Frame Engine and Body Marker ⚠

Automakers use these permanent markers to write codes and numbers on frames, engines and body components. Engine suffix codes were often written on the back of the cylinder heads. Job numbers were written on the firewall, frame, engine, and other components to assure the correct vehicle was being built according to the build sheet. These permanent paint markers will help you exactly duplicate the factory original marks.

# MOTHERS® – High-Performance Car Care Products

## California Gold Clay Bar Set

The clay bar system has been a closely guarded secret of professional detailers for many years. Until now they have had nearly exclusive access to this technology. Now Mothers® makes it available to you so you can gain the benefits of the system, saving time and money. Everything you need is included in this box: one 80 gram Mothers® California Gold clay bar (enough to save at least three average sized cars), one 16 oz. bottle of California Gold® Showtime® Instant Detailer (clay bar lubricant) and one 4 ounce bottle of California Gold® original formula liquid Carnauba wax to provide long-lasting protection.

M07240 ..... 24.99 set

## California Gold Original Formula Paste Wax

Genuine Brazilian Carnauba wax combined with cleaners is the secret to a superb shine and incredible protection. Original formula is created with Carnauba wax, top of the line cleaners, the highest quality polishes and finish restorers. Works great on cars, trucks, motorcycles, and airplanes. Is safe for clear coats. Gives the shine you would expect from a paste wax and is easy to use.

M05500 12 fl. oz. ..... 12.99 ea

## California Gold Natural Formula Paste Wax

This natural formula wax contains Carnauba wax and just enough modern chemistry to let you easily apply it, remove the light haze and enjoy the most spectacular shine you will ever experience. For a truly brilliant shine, accept no substitute.

M05550 12 oz. paste ..... 19.99 ea

## Mothers® Mag & Aluminum Polish

Mothers® secret formula is world renowned for providing the easiest, brightest shine for aluminum wheels, manifolds, valve covers, brass trim, all alloy parts, and accessories. Tough enough to tackle the most neglected metals, yet gentle enough to use every day.

M05100 5 oz. ..... 7.99 ea
M05101 10 oz. economy size 10.99 ea

## California Gold Car Wash

Cleans and shines like only Mothers® can. This ultra sudsy car wash contains detergent strong enough to wash away dirt, road film, bugs, bird droppings, and other contaminants, yet its exclusive PH balanced formula will not remove wax and resists water spotting.

M05600 16 oz. ..... 4.99 ea
M05632 32 oz. economy size 8.99 ea

## California Gold Pre-Wax Cleaner

Cleans like only Mothers® can. See incredible results on clear coat paints, lacquers, enamels, pearls, candies, urethanes, and all other paint types. Prepares paint for waxing or glazing by removing oxidation, dirt, stains, and old wax. Restore color and luster to your paint with Mothers® Pre-Wax Cleaner.

M07100 16 fl. oz. ..... 8.99 ea

## California Gold Sealer & Glaze

Enjoy the ultimate brilliance of a show car shine on all paint types and colors including clear coats, blacks, reds, and candies. Fills and hides scratches, swirl marks, and spider webbing. Formulated to achieve spectacular, professional results by hand or with a buffer. Will not streak, smear or fingerprint and may be used over existing wax.

M08100 16 fl. oz. ..... 8.99 ea

## California Gold Natural Formula Liquid Wax

This natural formula wax contains Carnauba wax and just enough modern chemistry to let you easily apply it, remove the light haze and enjoy the most spectacular shine you will ever experience. For a truly brilliant shine, accept no substitute.

M05750 16 fl. oz. ..... 11.99 ea

## California Gold Carnauba Cleaner Wax

The alternative to paste wax is this terrific liquid wax with cleaner. It contains Brazilian Carnauba for spectacular shine and state-of-the-art chemical film formers to lock in durable protection. Great for all paints. Restores color, removes oxidation, and is detergent resistant. Safe for clear coats too.

M05701 16 fl. oz. ..... 7.99 ea

## Carpet & Upholstery Cleaner

Carpet & Upholstery Cleaner is a must for removing stubborn dirt and stains from velour, vinyl, cloth, carpets, and sheepskin covers. Safe and effective on all automotive fabrics, yet works great for home use too. This special formula is designed to get out some of the toughest dirt you'll find. Even works great on grease, gum, and stains caused from mud.

M05422 22 fl. oz. ..... 9.99 ea

## Preserves Protectant

Provides preservation and protection for 30 days. This unique formula penetrates and bonds to block out the harmful effects of ultraviolet rays, ozone, smog and contaminants to protect, rubber, vinyl, plastic, and fiberglass. It beautifies and protects tires, bumpers, vinyl tops, dash boards, window trim, seats, household items, sporting goods, and just about everything else.

M05316 16 fl. oz. ..... 8.99 ea

## Regular Formula Wheel Mist

Rusty rims? Oxidized bumpers? Don't worry Mothers® will clean it up for you. The original, one step wire and mag wheel cleaner, formulated for chrome and rough cast aluminum. No scrubbing or elbow grease needed. Simply spray on and hose off dirt, oxidation, rust and brake dust for the best shine and the ultimate sparkle. Works great on chrome bumpers, side pipes, or any hard to clean bright metal surface.

M05824 24 fl. oz. ..... 8.99 ea

## Mothers® PowerBall

Mothers® PowerBall is the first foam polishing tool designed to revitalize billet, diamond plate, polished aluminum, stainless steel, plastic lenses, convertible top windows, and much more. When used with Mothers® PowerMetal polish, the power ball is ideal for any uncoated, polishable metal finish. Its unique and durable construction compresses to fit tight spaces, so polishing difficult, intricate metal work to a mirrorlike finish is fast and easy.

M05140 PowerBall ..... 28.99 ea

## Chrome & Glass Cleaner/Protector

Ideal for cleaning and protecting windows, mirrors, bumpers, wheels and chrome trim. Leaves surfaces clean and streak free. Unique protecting agents resist smears and fingerprints.

M05208 12 fl. oz. ..... 6.99 ea

## Mothers® Back-to-Black

Renews and protects all exterior trim. Perfect for all vinyl, rubber, plastic, flat finishes, yet surfaces need not be black to achieve superior results. Works incredibly well on both smooth and textured surfaces, bumpers, protective and decorative moldings, louvers, air vents, window trim, and wiper arms. After applying, surfaces look new again and will be protected against further oxidation or deterioration caused by harsh elements. To get back to beauty, get Back-to-Black.

M06108 8 fl. oz. ..... 6.99 ea

### OER® "Secret Formula" Clay Bar System

Heavy-duty for heavy oxidation clay pulls out all the contaminants you cannot see, but that you can definitely feel, like industrial fallout, rail dust, and brake dust. Though these contaminants are not visible, you can tell they are there because the paint will feel rough or gritty. These contaminants can cause patches of paint to appear dull, even after waxing. As these contaminants oxidize, they create rust spots within the paint. Once this happens, the oxidation is considerably harder to remove and will most likely take a good bit of paint with it. Clay will remove these contaminants and leave the surface silky smooth with a mirrorlike smooth finish. This clay will not break down or deteriorate like inferior low quality clay bars are prone to do. It is super elastic and will act as a magnet for foreign particles, literally pulling paint fouling grime from the paint. Clay lubricant is essential to the performance and lifespan of the clay. It provides the necessary slick surface for clay to glide on. Using low quality lubes or cheap detail sprays will deteriorate the bar faster and lead to poor performance.

## OER® "Secret Formula" Acryli-Shine Glaze

Glaze is a polish without any cleaning properties used primarily to improve the shine and clarity of paint. Primarily used by body shops for finishing jobs or by detail shops to bring out the brilliance of paint, glazes are also commonly used on show vehicles to achieve a "high luster or wet look". It was developed for the darker finishes, using a slightly moister formulation to enhance the difficult to wax paint finishes. The application process is forgiving, smooth, and dust free. Your moldings will not turn white. Glazes do not replace polishing. If a surface has minor swirls and imperfections, to achieve the best superior results, the surface should be polished with a polish first.

## OER® Premium Carnauba Pre-Softened Wax

OER® Secret Formula Pre-Softened Carnauba Paste Wax is in a class all its own. A pre-softened paste wax with no cleaners, it leaves a deep, brilliant long-lasting shine. It protects and beads up with a glass like gloss that lasts up to 6 months. It works beautifully on all colors, even on blacks, reds, and burgundies, filling in swirl marks. It's also super easy on and off: just wipe on in a circular motion, and take off with a microfiber immediately. No need to wait for it to dry! Leaves no white haze at all, there is no white residue to clean out of the cracks, and no need to be careful around the exterior trim – it won't leave white marks! There's no trade-off here: the easiest application in the world, and the best results! Great grape smell. For the enthusiast who demands the highest and wettest level of shine, OER® Secret Formula Pre-Softened Carnauba Paste Wax is a premium blend of genuine Carnauba wax and natural oils that makes paint "drip off of your vehicle" with a high gloss shine and shimmer that is sure to impress even the toughest critics. The 5" round microfiber applicator pads make it easy to apply waxes or rubbing compounds without scratching paint or clear coat. Simply rinse and reuse. Microfiber applicators are highly absorbent, strong yet gentle and the fabric is machine washable.

## P99 HD Interior Fabric Cleaner

New!

The beautiful thing about P99 HD: It leaves no film. After cleaning fabric, carpet, floor mats, convertible tops, vinyl tops, seat upholstery, door panels, vinyl, plastic, aluminum, you will have a clean surface free of any residue. This strong all purpose cleaner should be diluted 30:1 for light jobs, 15:1 for medium, and 5:1 for heavy dirt. Apply with a sprayer or sponge. Agitate stubborn dirt with a brush. Our P99 HD Secret Formula Interior Exterior Multi Purpose Fabric Cleaner works quickly as a spot cleaner for all color-fast fabrics. Will not stain or leave a ring around area cleaned. Apply by hand and in a matter of seconds the specially formulated cleaning agents emulsify the stain while the surfactants work to unlock the soil from the fabric and suspend the dirt within the liquid cleaner. When you blot with a clean dry cloth, the liquid containing the stain transfers to the cloth.

## Ice Super Shine High Gloss Dressing

New!

The Ice Super Shine Dressing is a thick silicone rich dressing that leaves a super high gloss, long-lasting shine on tires, rubber molding, vinyl, and plastic. For the detailer who demands the very best in appearance and weather protection. Tires renewed with Ice will repel water through repeated washings. Ice is named for its super "wet look." It looks like a coating of ice! Contains a fruity fragrance you'll love. This dual action premium dressing leaves surfaces 100% dry to the touch and shining better than new, while protecting the surface against dirt, dust and harmful UV rays. Surfaces treated with Ice Super Shine Dressing look shiny longer, require less cleaning. Maintains a 100% dry, never greasy or oily, fresh texture on vinyl, leather, plastic, rubber, tires, and more!

## Finishing Touch Matte Finish Protectant

New!

Finishing Touch is an all purpose dressing that restores the "new car look" to vinyl, rubber, leather, and plastic. It cleans, beautifies, and protects. It is preferred by many detailers for interiors for its "softer" look and non-greasy look and feel. Pleasant banana fragrance. Spray or wipe-on ready to use. Cleans, protects and beautifies in one easy step. Gently wipes away light traces of dirt while you apply. Patented UV absorber penetrates and acts as a protective barrier against harmful rays that cause premature aging, cracking, fading, and peeling. Engineered to work like a lotion to soak into new vinyl or dry vinyl to aid in prolonging and strengthening the surface. Perfect for dashboards, vinyl tops, door panels, consoles, tires, trim, bumpers, vinyl seats, moldings, and more.

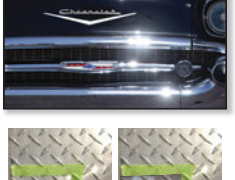
# Professional Car Care Products for the Enthusiast



## OER® Premium Metal Polish & Sealant

OER® Extreme Shine Metal Polish & Sealant cuts through layers of dulling oxides to restore a wet mirrorlike finish that outshines chrome. This outstanding polish makes chrome, copper, brass, aluminum, stainless steel and other metalwork gleam and look their absolute best. Spreads on with ease, buffs off with little effort. Great for oxidized metals and even light rust. Can be easily applied in the shade or sun. Leaves virtually no smear, dust, or powder. The most innovative metal polish ever. A 3 step product in one, this diminishing metal polish cuts fast, cleans like no other, shines like a mirror and protects like a sealant. Utilizing friction and heat OER® Extreme Shine Metal Polish cleans, restores, revives and polishes. Friction generates heat that allows the product to break down into a micro-fine polish that leaves the surface shining like a mirror. During the final phase, it breaks down to release the durable protective sealant that bonds to metal surfaces reducing corrosion and prolonging shine. Use by hand with a polisher or with your polish ball and drill.

K89483 16 oz. bottle ..... 17.99 ea

## Secret Weapon Polish Ball

The Secret Weapon Polish Ball bends and compresses enabling it to fit into tight spaces and make the cleaning and polishing of difficult, hard to reach areas like wheels, rims, and other metal work much easier. Can be attached to any handheld drill or drill-like device for fast and superior cleaning and polishing. Great for cleaning and buffing small items like mirrors, headlight lenses and trim parts. Space age Dura-foam and fiber soft materials make it the most durable tool of its kind. Comes in your choice of 2 sizes: a 2.5 inch or 3.5 inch ball. Ideal for use with your favorite wax, polish, wheel product or compound.

## OER® "Secret Formula" Wheel and Tire Care

Over the years, OER® has become the name that you have come to trust for quality restoration products. We are dedicated to bringing our valued customers the absolute best products our industry has to offer. When it comes to car care, our "Secret Formula" products are no exception! We know you have a lot invested in your classic car, so we have formulated products that not only perform at a level unmatched by any other brand, but a formula that keeps your investment in mind. Our formulas are engineered not only to keep your pride and joy looking good, but also to protect your vehicle's delicate surfaces from the elements without the use of harsh damaging chemicals.

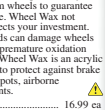
## OER® Acid Free Wheel and Tire Cleaner

Spray-on and rinse-off! Easily removes deposits of brake dust, grease, and road grime from wheels. Safe for clear coated, painted, and polished finishes. This strong non-acid formula is fortified with a citrus cleaning agent. This is an industrial strength 1:1 concentrate. Dilute with water as needed. Long time accumulations of brake dust may need light agitation with a soft brush. Unlike many alternative products, OER® Acid Free Wheel Cleaner dissolves grime and brake dust without damaging your chrome and alloy wheels. Non-acidic, spray-on wipe-off formula with no scrubbing necessary and no harsh scent.

K89614 32 oz. bottle ..... 9.99 ea
K89615 1 gallon ..... 17.99 ea

## OER® Secret Formula Wheel Wax

OER® Secret Formula Wheel Wax is formulated to safely and effortlessly clean, shine, protect and prolong all types of wheels and wheel finishes. Wheel Wax delivers a high gloss durable wet shine finish on all chrome, aluminum, stainless, powder coated, and even painted wheels. Clean, polish, shine, protect, and prolong in one easy step. Extremely easy to use and apply, utilizing accurate micro-size synthetic beads that gently and effortlessly lift and polish away oxidation and road film from wheels to guarantee a scratch free perfect surface. Wheel Wax not only enhances shine, it protects your investment. Harmful degreasers and acids can damage wheels reducing shine and causing premature oxidation and deterioration of wheel. Wheel Wax is an acrylic sealant that bonds instantly to protect against brake dust, heat, acid raid, water spots, airborne fallout, and road contaminants.



K89486 8 oz. jar..... 16.99 ea

## OER® TNT Extended Life Tire & Trim Dressing

This unique formula quickly penetrates rubber trim and tires to hydrate and provide lasting protection. TNT Extended Life gel by OER® finally delivers on that promise. Simply wipe on using a pad and TNT gel restores the look of faded tires, trim, bumpers, seals and weatherstrip. What's more, OER® TNT gel lasts for many months, not days. Our exclusive no-streak, no-run, and non-drip formula works to repel water and detergents and helps keep tire walls hydrated and supple as well as looking brand spanking new. Prepare your trim for a product unlike any other. A true premium trim restorer and protectant, that will not drip, dry out, or destroy surfaces. Provides unmatched durability, ease of application and a superior "new look" shine that lasts through numerous washes. Non-greasy, non-tacky and simply amazing.

# Professional Car Care Products For The Enthusiast!

*Grit Guard insert keeps the wash water clean and scratch free!*

*K89743*

## Grit Guard Wash Systems

This unique wash bucket provides a convenient way to store or transport all of your car cleaning supplies while doubling as an extremely effective finish protecting wash tool. The Grit Guard insert sits in the bottom of the pail to extract particles and contaminants from mitts and brushes. Gravity causes sand and dirt to settle below the guard so the wash water stays clean and scratch free.

### Basic Wash System

The basic wash system includes a black pail with a yellow sealing lid and a Grit Guard insert.

| | | |
|---|---|---|
| K89740 | 3.5 gallon | 28.99 ea |
| K89741 | 5 gallon | 32.99 ea |

### Grit Guard Deluxe Wash Bucket Sets

This superb washing system features a Grit Guard insert, a heavy-duty bucket, a seat cushion and a dolly that turns the washing system into a rolling stool, so you can sit down and detail your car comfortably. Five heavy-duty smooth rolling casters roll over cracks without tipping. Two locking casters hold your washing system in place while working on inclines. The convenient spin-on lid creates a perfectly sealed storage compartment for all of your favorite cleaning supplies. Supports up to 250 pounds.

***Deluxe Washing System***

| | | |
|---|---|---|
| K89742 | 3.5 gal. black pail w/yellow top | 64.99 set |
| K89743 | 5 gal. yellow pail w/black top | 67.99 set |

***Individual Components***

| | | |
|---|---|---|
| K89744 | Grit Guard insert | 9.99 ea |
| K89745 | 5 caster dolly | 36.99 ea |
| K89746 | cushion/kneeling pad | 11.99 ea |
| K89750 | Gamma seal lid | 11.99 ea |
| K89751 | 5 gal. yellow pail w/black insert | 29.99 ea |

### Dual Wash Bucket System

This system includes two dollies, two Grit Guard inserts, two sealing lids, a dual bucket connector plate and a seat cushion. The idea behind a two bucket wash is simple: two buckets means double the protection from swirl marks and scratches. With a designated rinse bucket, all the dirt and grime from your vehicle stays out of the clean, soap filled wash bucket and off your prized possessions.

| | | |

| K89748 | 5 gallon dual wash | 134.99 set |

## Protection from Moisture During Storage

Sta-Dri pouches significantly reduce humidity and moisture inside of your vehicle safely and conveniently. Pouches can be regenerated up to 3 times. Use 1-2 pouches per vehicle. Depending on humidity level, one pouch can last up to a year of continuous storage, though it is recommended that you check every month and regenerate as necessary. Non-toxic and non-corrosive, remains dry to the touch even when fully saturated.

| | | |
|---|---|---|
| BF1001 | 2 lb pouch | 11.99 ea |
| BF1002 | two 2 lb pouches | 21.99 pr |
| BF1003 | four 2 lb pouches | 43.99 set |

## Buffing Pad Wash Bucket

When you hand wash pads, the backing pad gets wet, oversaturating the foam. The universal pad washer keeps the backing pads dry and extends the life of your pads. No more throwing away perfectly good pads because the backing pad has torn off. Your buffing pads, buffing bonnets, polishing tools and accessories clean up so well you'll think they're new! Condition, clean, and dry all in one system. The universal pad washer extracts contaminants trapped deep inside your buffing pads. No cross contamination worries when switching buffing compounds. O-ring seal lid provides water tight portability. Wash and dry in under 30 seconds!

| | | |

## Protect Your Wheels from Harmful Over Spray

The RIM PRO™ wheel protector is foldable and includes a handy pouch lending itself to easy storage and accessibility in your vehicle or out. The perfect product to help shield your wheels from tire shine over spray, allowing your wheels to stay clean and free of damage from harsh chemicals. Using this device will help you to save time by virtually eliminating the need to wipe the wheels after applying tire shine products to your tires. Not only that, but it will also prevent the buildup of dust and dirt on your wheels created by the over spray from these grime collecting chemicals. Hand washable. Available in 13", 14", 16", 18", and 20" sizes, buy one for each of your vehicles.

## Park Perfectly Every Time

The Park Smart Mat helps guide you into your garage space letting you know exactly when to stop. Perfect for getting your classic or collectible car into the correct position in a crowded garage. As you feel yourself driving over the first bump, the second bump tells you that you have driven far enough forward. Measures: 27-1/2" x 12" x 1/2". Includes a manufacturer's limited lifetime warranty. Buy one for each of your vehicles.

ACP101 Park Smart Mat..... 21.99 ea

## Trailer Ramps

Is your trailer door too steep to get your vehicle to the race track or autocross? Are you tired of busting up your nose? Race Ramps has just the solution for you: simply place the trailer door on the notch of these specially designed trailer and decrease your angle of approach to as little as 4 degrees. These hassle free, lightweight ramps work for vehicles weighing up to 6000 pounds. Trailer ramps are ideal for low ground clearance vehicles with extra wide tires.

*Note: For increased safety, use Wheel Chocks with all Race Ramp products.*

RR104 5"..... 299.99 pr
RR105 8"..... 299.99 pr

## Wheel Chocks

Wheel Chocks are ideal for use with all Race Ramp products, providing additional safety in the working environment. Made from solid rubber composite with an extra grip bottom, they each weigh 3 pounds. Set of 4.

*Note: For increased safety, use Wheel Chocks with all Race Ramp products.*

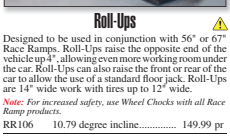
RR109 6" x 4" x 5"..... 64.99 set

## Wheel Cribs

Wheel Cribs are a safe, lightweight alternative to jack stands. They cradle the tire 10" off the ground, providing unobstructed access underneath the vehicle. Each crib supports 1500 pounds (3000 pounds per set) and weighs only 5 pounds. Wheel Cribs also can be used for vehicle display.

*Note: For increased safety, use Wheel Chocks with all Race Ramp products.*

RR108 15" x 10" x 12"..... 132.99 pr



## Roll-Ups

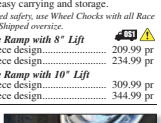
Designed to be used in conjunction with 56" or 67" Race Ramps. Roll-Ups raise the opposite end of the vehicle up 4", allowing even more working room under the car. Roll-Ups can also raise the front or rear of the car to allow the use of a standard floor jack. Roll-Ups are 14" wide work with tires up to 12" wide.

*Note: For increased safety, use Wheel Chocks with all Race Ramp products.*

RR106 10.79 degree incline..... 149.99 pr

## Race Ramps

Race Ramps are ideal for vehicles with tires up to 10" wide. With an incline of only 10.75 degrees, they lift your vehicle up 8" or 10" and hold up to 3000 pounds per set while weighing only 10 pounds per ramp. Will not slide across a garage floor, dig into an asphalt driveway, or scratch or otherwise damage a cement or painted floor. They can be used on grass, dirt, or almost any other flat surface, and they will never rust. Race Ramps come complete with straps for easy carrying and storage.



*Note: For increased safety, use Wheel Chocks with all Race Ramp products. *Shipped oversize.*

# Spray-On Insulation

*Buy the Complete Set & Save!*

## BEFORE APPLICATION

## AFTER APPLICATION

## Shared Benefits:

- Easy spray-on application
- Continuous protective moisture barrier
- Fast clean up with soap and water
- Environmentally friendly solution
- Applicable to interior or exterior of vehicle
- Non-toxic and class A fire rated
- Both are paintable
- Coverage is approximately 50 ft?2 gallons

## Sound Control Benefits:

- Provides non-combustible thermal insulation
- Able to withstand temperatures up to 500 degrees F
- Interior temperature reduced by 30 degrees F
- Offers a protective, seamless membrane

## Ceramic Insulation Benefits:

- Protects surface from moisture and rust
- Dampens annoying rattles, vibrations and road noise
- Impressive damping to weight ratio
- Coating can withstand temperatures up to 300 degrees F

## Sound Control and Ceramic Insulation

Get the comfort of premium grade insulation without the extra weight! These environmentally safe formulas from LizardSkins can be used as a one part coating or as a two stage system for a cooler, quieter driving experience. The Sound Control formula dampens unwanted engine and road and noise, while the Ceramic Insulation formula cools your vehicle up to 30 degree F or more creating a more comfortable ride. Designed for floors, roofs, firewalls, fenders, transmission tunnels, door panels, trunks, and more, all at a combined cured weight of 52 lbs for four gallons. Insulating a vehicle has never been this easy, thanks to a custom designed application gun made specifically to handle the thick density of the coatings with ease. Order the individual components or buy a complete kit and save!

***Important:*** *For two stage applications, Sound Control coating should be used as the base. Four gallons of each coating are required to encapsulate a typical interior and trunk area of 1 vehicle, and 1 gallon of Sound Control when applied as undercoating.*

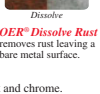
# OER® Rust Removal & Prevention

## Remove Rust

### OER® Dissolve Rust



Dissolve

■ ***OER® Dissolve Rust*** removes rust leaving a bare metal surface.

OER® Chemical Restoration Dissolve Rust returns rusted surfaces to bare metal without harming the integrity of the metal. The viscous formula is reusable and will not harm plastic, rubber, seal, soft metals, or non-oxide coatings such as paint and chrome. OER® Chemical Restoration Dissolve Rust works like an acid, but is safe for you and the environment. OER® Chemical Restoration Dissolve Rust is ideal for removing rust from any part or surface that can remain damp with the product until the rust is gone!

K86110 quart ..... 16.99 ea

## Treat Rust

### OER® Etch Metal

Etch

■ ***OER® Etch Metal*** removes light surface rust and leaves a coating that bonds paint to the metal surface.

OER® Chemical Restoration Etch Metal inhibits rust and promotes paint adhesion for bare metal surfaces. This specially formulated liquid gently etches the metal, then leaves a zinc coating that helps chemically bind paint to the surface. OER® Chemical Restoration Etch Metal is non-toxic, non-flammable and reusable. Ideal for application on bare metal parts after sandblasting or using OER® Chemical Restoration Dissolve Rust.

K86114 quart ..... 16.99 ea

## Convert Rust

### OER® Convert Rust

Convert

■ ***OER® Convert Rust*** turns rust into a black, paintable polymeric coating that's ready for primer or top coat.

OER® Chemical Restoration Convert Rust instantly neutralizes rust and converts the rusted surface, leaving a protective dark polymer coating. The inert coating provides an excellent primer base that seals out moisture to prevent future rust and corrosion. Protected surface can then be top coated with most paints. OER® Chemical Restoration Convert Rust can be applied with a brush, trigger bottle or a spray gun. Brush – A common household paint brush or foam applicator. Spray Gun – HVLP or conventional spray gun using a 1.0-1.4 nozzle at low pressure. Available in quart bottles.

### RustSeal® Corrosion Barrier Coating

OER® Authorized RustSeal is a superior one part, ready-to-use, high-solids content, rust preventive, corrosion barrier coating, that is actually hardened by exposure to moisture. It is impervious to road salts and most every chemical. RustSeal flows out to a beautiful, rock-hard, tough ceramic-like coating that is tough to chip or scratch, and will not crack or peel. RustSeal is an incredible, single component, ready-to-use, high solids content, rust preventive coating with exceptional sealing properties. RustSeal is the most permanent cost effective solution for stopping rust and corrosion anyplace where it is a problem: home, automotive, industry, fleet, farm, and more! RustSeal is an enhancement that lasts. Water and air are locked out, therefore oxidation, the precursor to rust, cannot take hold. RustSeal is not intended for use as a final finish. To protect against unwanted cosmetic changes, top coat RustSeal with any opaque (solid color) paint system. After removing or treating rust on floors, subframes, or other under vehicle components, RustSeal Corrosion Barrier Coating works by isolating the surface from moisture and oxygen. This single component, high solids, rust stopping coating seals out the ultimate causes of rust, creating a rock hard non-porous barrier between the metal and rust promoting elements. Will not crack, chip, flake, or peel, and no hardeners or activators are needed. RustSeal is completely unaffected by salt, gasoline, oils, battery acids, hydraulic fluids, solvents, chemicals, or corrosives.

**RustSeal® Coating**

Available in your choice of a wide variety of colors and sizes. Select the part number for the size of the can you need, then add the 2 digit numerical color code to the end of the part number to specify your desired color when ordering.

# Rust Removal & Prevention

## BlackTop® Top Coat

BlackTop is a permanent, moisture cured, UV stable coating primarily used for top coating surfaces previously sealed with RustSeal® or any other paint/primer application. BlackTop is a high-performance protective coating specifically formulated to withstand dulling and fading caused by prolonged sunlight exposure. BlackTop may be used alone as a resilient coating but offers the ultimate rust protection when used in combination with the RustSeal corrosion barrier coating as step 1. For the best stop rust and ultraviolet protection, first apply RustSeal to permanently seal the surface and then top coat with BlackTop for an incredibly tough and professional looking finish. Like RustSeal, BlackTop dries to a rock hard yet flexible coating that can be readily applied to chassis, coil springs, and lightweight panels. BlackTop also has high heat resistance and can be applied to almost all automotive applications except exhaust systems. BlackTop is intended as a final finish for parts that have been coated with RustSeal. BlackTop will retain its color and sheen even after repeated or prolonged exposure to direct UV light and will not degrade.

*with satin finish* *with Diamond Finish*

## DiamondFinish® Clear Coat

DiamondFinish Gloss Clear Top Coat is a permanent, moisture cured, UV stable coating primarily used for top coating surfaces previously sealed with RustSeal®, for top coating direct to metal, or to coat over any other paint/primer application. The clear coat formula can be applied direct to metal or over other coatings. This high gloss clear coat remains permanently flexible and is able to perform in the toughest environments without yellowing, cracking, or peeling. Apply directly to painted surfaces with minimal surface prep. Incredibly tough and hard like no other clear coat on the market. Can be applied with a brush (without leaving any brush marks), roller and conventional spray gun. Unlike two part coatings, no hardener is needed with DiamondFinish. Just stir and go. DiamondFinish clear coat will cure without heat or UV lights in temperatures from 50 to 86 degrees Fahrenheit. Able to withstand the harshest of chemicals including fuels, solvents, battery acid, brake fluid, Ethanol, Methanol, MEK, Hydrochloric Acid, fertilizers, and Acetone. Graffiti resistant: because of its chemical resistance, graffiti just won't stick and can be removed simply with a solvent soaked rag. Great for high temperature automotive applications including the use on cylinder heads, engine blocks, brake components and even inlet manifolds, without yellowing up to 300 degree Fahrenheit.

*water based asphalt undercoat – non-paintable* *solvent based asphalt undercoat – non-paintable* *solvent based rubberized undercoat – paintable*

## Water Based and Solvent Based Undercoating

Whether you choose our water based or solvent based undercoat formulas, each produces a very tough, yet flexible film with excellent adhesion, and helps prevent road salt from eating away at your vehicle's metal and/or fiberglass. Offers excellent adhesion to metal or painted surfaces. Provides economical paintable durability, plus moisture resistance and corrosion resistance, all in a matte black finish. Also provides sound deadening by reducing road noise and vibration. You can attach the quart size can directly to a Schutz applicator type spray gun or contents may be poured into a clean container pot that fits the applicator gun of your choice. Part #20018 undercoat gun is offered separately.

***Water Based Asphalt Undercoat – Non-Paintable***

Our VOC friendly water based undercoating provides protection in wheel wells, gas tanks, frames, and floor pans. Being an asphalt base, it is not designed to be painted over. Dry to touch in one hour, fully cures in 24 hours. Excess coating may be removed with soap and water.

| | | | | |

OER

### OER® Premium Quality 1955-57 Aerosol Interior Paint ⚠

OER's revolutionary formula provides 40% more coverage than standard dyes and lacquers, and actually penetrates and molecularly bonds to the surface to permanently seal in the color. Dries to the touch in 45 seconds, forms a complete bond in just 10 minutes. UV stable and color fast, it will not crack, flake, or peel. For use on vinyl, leather, ABS plastic, polycarbonate, polypropylene, polyurethane, acrylic, lexan, fiberglass, and recycled plastics. When only the best will do, use OER® Premium Quality Interior Paint. Available in your choice of a convenient 16 oz. aerosol can (net wt. 12 oz.) or for bigger jobs where a spray gun is required, we offer quart cans.

## OER® Metal Mimic FX Coating

OER® Metal Mimic FX high-performance coatings were developed to mimic the appearance of bare metal so that you can refinish and protect all of the components that were originally left unpainted by the factory. Items such as cast iron housings, aluminum housings, stainless steel parts, galvanized parts and even chrome can now be coated with a "factory correct" looking finish that is extremely durable and amazingly close to the original color.

***Note:*** *Ships ground only. No air shipment.*

## OER® Factory Black Coatings

OER

OER® factory black coatings are available in a variety of sheen levels to help you achieve the correct factory look for your restoration. Our Ultra Flat sheen is an extremely flat non-glare finish. The next level up is our low gloss formula followed by the semi-gloss and finally our exclusive high gloss formulation. Whatever you are spraying, we have the correct sheen for an original factory black look.

***Note:*** *Ships ground only. No air shipment.*

**Factory Black Set – Contains All Four Formulations**

Buy the complete OER® Factory Black set and you will have all the necessary sheen levels for a correct factory look no matter what component you are spraying.

| | | |
|---|---|---|
| K89550 | 4 can set, all four sheens | 59.99 set |

**Ultra Flat Factory Black**

Extremely flat non-glare finish that is perfect for a variety of uses including underhood items like hood hinges, latches, carburetor parts, seat adjusters, pulleys, linkage, nuts, bolts, washers, screws, clips, brackets, and more. Provides a durable flat black zinc phosphate look without the high cost of black zinc phosphate plating.

# OER® Aerosol Coatings

## OER® Rubberized Undercoating

A black, rubberized undercoating for all automobile under surfaces. Sprays evenly and dries completely to a smooth consistency. Can be top coated with any type of automotive finish. Prevents rust, reduces road noise, seals out water, fumes, road chemicals, and dust. Special formula greatly reduces lingering odor associated with most other brands of undercoating. No "bleed through" when top coated. Use on undersides of panels, hoods and deck lids, trunk interiors, section repairs, weld joints, rust holes, or on chassis parts. 20 oz. aerosol can (net wt. 18 oz.) or buy a case and save! ⚠

***Note:*** *Ships ground only. No air shipment.*

| | | |
|---|---|---|
| K89570 | 20 oz. can | 13.99 ea |
| K89669 | case of six cans | 86.99 cs |

## OER® Black Wrinkle Finish

A durable and long-lasting finish which has a unique wrinkled texture. Excellent hiding qualities provides an excellent finish for hiding surface imperfections such as pitting, scratches, or chips. Extremely durable formula resists oil, gas, and grease. Can be used where harsh conditions break down conventional coatings. Comes in 12 oz. net wt. aerosol can. Great for valve covers, air cleaners, dash components, and more. 16 oz. aerosol can (net wt. 12 oz.) or buy a case and save! ⚠

***Note:*** *Ships ground only. No air shipment.*

## OER® Professional Grade PBE Primers ⚠

OER® is pleased to offer our professional grade primers specifically formulated to meet the performance needs of body shop personnel but conveniently packaged for the automotive enthusiast. Tough and dependable, these primers adhere extremely well, prevent rust and corrosion and enhance the quality and appearance of the finished product. Large fan spray head gives a professional looking application. Eliminates the need for a spray gun for small repairs, reduces cleanup time.

***Note:*** *Ships ground only. No air shipment.*

### OER® Self-Etching Sanding Primers

Manufactured with a modified acrylic resin to give you excellent adhesion to all types of metal, aluminum and prepared surfaces. Drys to the touch in 10 minutes. Dry to sand or top coat in 15 minutes. Available individually in 20 oz. cans or in case of six.

***Individual 20 oz. Aerosol Can (Net Weight 15 oz.)***

| | | |
|---|---|---|
| K89560 | gray | 14.99 ea |

### OER® Zinc Phosphate Primers

Specially formulated primer that is chromate free and chemically bonds with iron, steel and aluminum to form a hard, highly adherent coating. It has exceptional corrosion resistance. Ideal for spot repair of damaged coatings. Exceptional protection against rust and corrosion. Compatible under two component coatings. Forms a hard, highly adherent, water resistant coating that can be painted or left as is. Drys to the touch in 10 minutes. Available individually in 12 oz. cans or in case of six.

***Individual 16 oz. Aerosol Can (Net Weight 12 oz.)***

### OER® Spray Galvanizing Weld-Thru™ Coating

A smooth, cold galvanizing compound that chemically fuses to bare steel and forms a extremely rust resistant barrier. Perfect for application on the inside of newly installed panels where rust prevention of new metal is important, but where the part treated will not be painted. Fast dry, sag free spray that is abrasion resistant. Stops rust creepage, resists chemicals and is rust inhibitive. Apply it to sheet metal pieces before installation, then weld as usual. The coating will not affect the quality of the weld, and will retain is rust preventative properties. Available individually in 12 oz. cans or in case of six.

# OER® Aerosol Coatings

## OER® Factory Wheel Coating

OER® factory wheel coatings are available in a variety of original colors so you can achieve the correct factory look on the restoration of your wheels. Eliminates the need for expensive custom paint mixing and greatly simplifies the restoration process by providing spray gun results without the hassle and mess of a spray gun or the need for an air compressor.

*Note: Ships ground only. No air shipment.*

### Rally Wheel Argent Silver

Correct color and sheen for the restoration of Rally I, Rally II, and Super Sport wheels. Makes your wheels look like they just rolled out of the factory.

| | | |
|---|---|---|
| K89320 | 16 oz. aerosol can (net wt. 12 oz.) | 16.99 ea |
| K89321 | case of six cans | 89.99 cs |

### Rally Wheel Argent Silver/Green

Correct color and sheen for the restoration of 1968-74 Rally wheels that call for Argent Silver with a slight green hue.

| | | |
|---|---|---|
| K89325 | 16 oz. aerosol can (net wt. 12 oz.) | 16.99 ea |
| K89326 | case of six cans | 89.99 cs |

### Low Luster Gray Wheel Paint

Correct color and sheen for the restoration of Rally, Super Sport, Honeycomb and Z28 5-spoke mag wheels that call for a unique shade of gray. This gray was used on the backside and in some cases both sides of steel factory sport wheels. Can also be used on jack mechanism and jack base on some models.

| | | |
|---|---|---|
| K89410 | 16 oz. aerosol can (net wt. 12 oz.) | 16.99 ea |
| K89411 | case of six cans | 89.99 cs |

### Rally II Wheel Insert Paint – Charcoal Gray Metallic

Charcoal gray metallic paint for the restoration of the pie-shaped wheel insert area on Rally II wheels. Correct color, tone, and luster for a factory fresh appearance.

| | | |
|---|---|---|
| K89330 | 16 oz. aerosol can (net wt. 12 oz.) | 16.99 ea |
| K89331 | case of six cans | 89.99 cs |

### Z28 5-Spoke Mag Wheel Paint – Shadow Gray

Correct color, sheen and texture for the restoration of 1970-81 Z28 5-spoke mag wheels also known as "Trans Am", "high-performance" or "5-spoke Rally" wheels. Correct for 1970 Chevelle and El Camino 5-spoke factory wheels as well.

| | | |
|---|---|---|
| K89310 | 16 oz. aerosol can (net wt. 12 oz.) | 16.99 ea |
| K89311 | case of six cans | 89.99 cs |

### Honeycomb Wheel Paint – Daytona Gold or Simulated Magnesium

Correct color, sheen and texture for the restoration of 1970-76 Pontiac Trans Am, Firebird, GTO, Formula or Oldsmobile 1972-74 Super Stock IV wheels. Your choice of Daytona Gold or Simulated Magnesium.

*Daytona Gold*

| | | |

## OER® Trunk Spatter Paint

Restoration grade spatter paint for the discriminating restorer who wants to accurately replicate the original texture and finish in their trunk. Produced by the original manufacturer for an authentic texture and color match. These water soluble paints are designed to be applied with a paint gun and do not require a clear coat. One quart required per vehicle. Includes instructions.

*Important: Originally applied trunk spatter paint with a Binks 2100 gun with a 200 tip and a 66 fluid nozzle with an internal mix air cap.*

*K86130*

| | | | |
|---|---|---|---|
| K86130 | quart | black and aqua | 99.99 ea |
| K86131 | quart | gray and white | 99.99 ea |

## OER® Underhood Detail Paint

The perfect alternative to expensive zinc phosphate plating. A variety of choices are available to correctly refinish underhood items such as hood hinges, hood latch and safety catch, carbs, pulleys, linkage, nuts, bolts, brackets, clips, screws, and more with a durable flat or non-gloss finish that mimics the appearance of zinc phosphate plating. 16 oz. aerosol can (net wt. 12 oz.).

## OER® Clear Enamel

Provide extra durability and color depth on a variety of surfaces. OER® Clear Enamel will enhance the appearance of engine components, wheels, suspension components, and other painted and unpainted surfaces where a gloss clear top coat is desired. Withstands rust, gas, oil grease, salt and intermittent temperatures up to 400 degrees F. 16 oz. aerosol can (net wt. 12 oz.).

*Note: Ships ground only. No air shipment.*

| | | | |
|---|---|---|---|
| K89265 | gloss clear..... | 16.99 ea |

## Experience Spray Gun Control!

Transform your aerosol container into a versatile spray gun. Using it's unique "lock-on" device, simply snap it on and spray! You'll experience better control for applying steady even coats, easy handling and comfort, all adding up to reduced fatigue. Use with paints, lubricants, cleaners, craft sprays, and more! Universal fit for most aerosols.

| | | | |
|---|---|---|---|
| 81005 | can gun ..... | 7.99 ea |

*A9250101*

## Decal Application Cleaner Gel and UV Protectant

New!

3391O

Don't make an expensive mistake by trying to put on your decals the hard way! Help ensure a safe application by a proper preparation of the vehicles painted surface with Pre App® surface cleaner. The Slide-on® Application Gel is specially formulated for applying automotive stripe kits by eliminating air bubbles and helps temporarily overcome the tack of pressure sensitive materials during installation. Slide-over® UV Protectant was designed to give an optically enhanced appearance by repelling dirt, oils, tree sap, smudges, and stains.

*Note: Applicator is not included*

***Application Gel and UV Protectant Sold as a Kit, Buy Both and Save!***

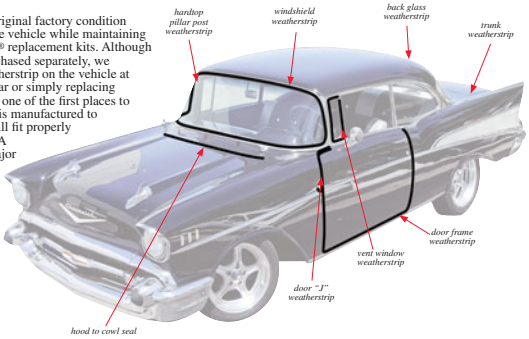
DC83 1955-57 ..... 6.99 ea

# Weatherstrip Kits

Bring your weatherstrip back to original factory condition and improve the overall look of the vehicle while maintaining originality with Classic Industries® replacement kits. Although each item in these kits can be purchased separately, we recommend replacing all the weatherstrip on the vehicle at one time. If you are painting the car or simply replacing worn out parts, the weatherstrip is one of the first places to check. Each weatherstrip product is manufactured to exact factory specifications and will fit properly and function exactly as designed. A complete kit will replace every major weatherstrip component for your 1955-57 model depending on the applications below. The kit includes all of the basic weatherstrip required to help keep the problem areas from leaking and causing damage or rust to the interior or sheet metal. See the listing below for availability. Please be sure to check your vehicle carefully before ordering.

***Note:** Image is for illustration purposes only and does not indicate completeness of kits.*



*1957 two door hardtop*

## Window-Weld Ribbon

Window-Weld ribbon sealer is a "tape type" sealer which is used in the replacement of windshields and rear windows on all "gasketless" models. Its unique feature of controlled compressibility allows easy installation yet will not squeeze out to allow glass to contact pinch weld. One 15 foot roll is sufficient material to replace one windshield or rear window. 3/8" x 15' rolls.

## Weatherstrip Application Lubricant

New!

Precision

Precisions' weatherstrip lubricant significantly reduces friction, thereby reducing the installation force required to assemble parts and fittings. This is a non residue lubricant, once it dries it becomes invisible.

## Emblem and Trim Adhesive

Applying metal and plastic emblems and trim requires an adhesive that creates a permanent bond that won't loosen over time. 3M Plastic Emblem and Trim Adhesive creates a strong adhesion that resists environmental exposure such as water and heat. Quick-acting adhesive sets in about 15 minutes and fully cures in 24 hours. Adhesive dries clear and can also be used for bonding transparent or translucent plastics

# Tools and Adhesives

## Multi Wedge Prying and Scraping Tools

Multi Wedge is an amazing automotive restoration tool that will replace screwdrivers, pry bars and all other metal tools that can cause damage and marring to delicate surfaces! The soft, orange wedge set and the jumbo wedge are made from a high tech, specially blended polyethylene that is incredibly ductile so they won't break or snap. The hard, black wedge set is made from a high tech, specially blended polycarbonate for the heavy-duty jobs like oil pan covers, timing covers or valve covers. Each 3 piece set includes one 4° curved end, one 4° straight blade and one 3° straight blade. Buy both sets and save! The jumbo wedge is 14° in length and 2° wide, making it perfect for the big jobs.

| | | |
|---|---|---|
| MW01 | orange wedges, soft – set of 3.. | 12.99 set |
| MW02 | black wedges, hard – set of 3... | 13.99 set |
| MW03 | both wedges, soft&hard – set of 6 | 19.99 set |
| MW04 | jumbo wedge | 12.99 ea |

**Soft Duty – Delicate prying or wedging**
**Medium Duty – Sturdy prying or wedging**
**Heavy-Duty – Very strong and durable**

## Prying and Scraping Tools

Available in 3 different fiberglass reinforced plastics, the soft duty tools are good for jobs where a minimum amount of force is needed to remove objects. The medium duty tools are better for the objects that require a little more force to remove, and the heavy-duty tools are for the objects that are real stubborn and just do not want to be separated from their current position. All these tools are strong enough to pry yet soft enough to do interior and exterior automotive jobs without the damage that metal tools can do.

*7 Piece Prying and Wedging Tools*

| | | |
|---|---|---|
| T2300S | soft duty | 24.99 set |
| T2300M | medium duty | 24.99 set |

| T2302 | 1-15mm | 4.99 ea |

## Premium Auto Trim Removal Tool Kit

This 11 piece kit was designed for the removal of door panels, dashboard, trim strips, interior panels, and window moldings. Made of impact resistant plastic that will not mar surfaces like metal tool will. Included for the tools is a heavy-duty nylon pouch.

TX2684 ..... 23.99 ea

## Glass Molding Clip Installing Tool

Reduce the risk of chipped glass and scratches by using this handy tool for replacing your front or rear window glass molding. This tool is specifically designed to fit trim clips over the studs and virtually eliminates glass breakage.

A13574 ..... 29.99 ea

## Weatherstrip Ball End Hook Tool

This hook tool has a small, round steel ball on the end. Once the steel ball is inserted down into the rubber gasket, it is very difficult for it to come out. If it should slip out of the gasket, there is less of a chance you will scratch the paint of the vehicle.

153823 ..... 11.99 ea

## Glass Seal Rope-in Tool

Use the rope in tool when working with rubber gasket set glass. The unique counter grip plastic handle injects the rope through its stem as it is pulled around the gasket. There is plenty of enough durable rope to fit around even the largest truck window.

153813 ..... 12.99 ea

## Universal Molding Release Tool

The ultimate tool for cleanly releasing moldings. Slide tool left or right under the molding until it hooks a retaining clip, then just rock the tool with a twist of the wrist to release the clip. Heat treated, high carbon steel.

S21500 ..... 6.99 ea

## Windshield/Back Glass Molding Removal Tool

Excellent tool used to remove the molding from the retaining clips on windshield and back window glass.

A7914 ..... 14.99 ea

## Windshield/Back Glass Molding Pliers

Specialty pliers for removing door handle clips and chrome molding on most windshields and rear glass. Jaws slip under door handle without damage to panel material, and offset handle permits easy access to molding clips.

Y35200 ..... 8.99 ea

## Windshield Removal Tool

Professional windshield removal tool for all vehicle applications. Features an aluminum handle with diamond cut pattern for added grip. Heavy-duty braided wire secures the pull handle to the cutting blade.

153811 ..... 17.99 ea

## 3M Super Fast Urethane

A rapid curing adhesive/sealant intended for all flush mounted and bonded windshield or back glass replacements. Provides the necessary strength for automotive glass replacement. 10 fl. oz. cartridge.

08609 ..... 28.99 ea

## J-B Weld ClearWeld Epoxy

J-B Weld ClearWeld is a multi-purpose epoxy that provides a strong and lasting bond on most surfaces including tile, most plastics, ceramic, glass, wood, and metal. Sets in 5 minutes, cures in 1 hour. Cure color is clear. Made in USA.

JB50112 25ml syringe ..... 5.49 ea

## 7" High/Low H4 Headlamp Bulb

7" headlamp with glass lens and replaceable H4 Halogen bulb replaces H6014/H6024, high and low beam function. H4 bulb included.

| | | |
|---|---|---|
| CP500127 | | 22.99 ea |

## Diamond Cut Headlamp Technology

Replace your standard "yellow light" headlamps with these unique looking Halogen diamond cut headlamps for increased visibility, safety and a unique custom look. These headlamps install much like a standard sealed beam unit, but they allow the use of an H4 Halogen bulb in your choice of color and wattage. For your conversion, we recommend using our wiring harness upgrade set sold separately.

***Note:*** *Some modifications may be required.*

## Round Headlamps with LED Halo

RedLine LumTronix headlamps allow 50% more light to shine through thanks to their crystal clear lenses and a special side lens that extends past the retaining ring. This side lens is a true a safety innovation and was designed to provide additional side light and increase visibility. Each headlamp features a Euro style diamond cut reflective base, diamond crystal glass, and a heat resistant composite housing. Even though no paint or tint is applied to the glass or reflector, the Black Illusion headlamps look blacked out when off thanks to the halo and lamp shields that are painted black. Headlamps are available with or without a halo, either single color halo (white) or multi-color halo (with 16 selectable colors plus the ability to adjust brightness), with or without turn signals and your choice of clear or blue H4 Halogen bulbs or H4 LED bulbs. The halo or "Angel Eyes" can also be wired as a daytime running lamp and features 23 low temp LEDs with a 100,000+ hour life, along with "fade", "flash", "strobe", and "smooth" modes that you can choose with the included wireless remote. Headlamps plug directly into your stock harness for a simple and easy installation. Each pair includes: 2 headlights, 2 bulbs, dust boots, ceramic tip pigtail harness adapter, and instructions. Multi-color halo sets also include the RGB harness and wireless remote.

***Important:** Will fit most vehicles (cars, trucks, motorcycles and motor homes) made from 1936 to 1979, as well as many vehicles made after 1979 that use a universal round style headlight.*

***Note:** Blue Halogen bulbs are blue in color when off, and bright white when on (no blue tint). Clear Halogen bulbs are clear in color when off and bright white when on. LED bulbs include colored film to change the look and temperature color of your lights.*

## Headlamp Wiring Harness Upgrade

Our wiring harness set upgrades the thin stock headlamp wiring on your vehicle, providing your new bulbs with maximum power and decreasing the chance of overloading (and possibly melting) your stock wiring and headlamp connectors. Power will be drawn directly from your battery, eliminating voltage drops and ensuring headlamp system reliability. Two 30 amp relays provide added protection for your headlamp switch and wiring harness.

PAINLESS

## Halogen Headlamp Harness

To get maximum power from your headlamps, it is recommended to have the shortest possible distance between the power source and the bulbs. Resistance in small gauge wire or in the switch will lower the output at the lamp. Be Safe! Our headlamp harnesses draw power directly from the battery, through a relay, to the headlamps, providing full power to your Halogen sealed beams. They can also be used to relocate headlamps to a remote location. They are made with TXL high temp wire, weather resistant 30 amp fuse, and two 40 amp weather resistant relays capable of handling up to 150 watts. #30816 is for use on vehicles with a 2 headlamp system using dual filament sealed beams. #30817 is for use on vehicles with a 9005 and 9006 bulb on each side.

## Universal Hood Insulation

Dynamat hoodliners will protect your vehicle's paint and reduce irritating underhood noise. Made from 3/4" acoustic sound soaker foam with a reinforced, aluminized skin that is oil and water resistant. The hoodliner has a high tack pressure sensitive adhesive for easy peel and stick application. For those who prefer black, there is also Dynaliner, which boasts the highest heat blocking properties available in a single layer synthetic foam. Dynaliner is available in 1/4" and 1/2" thick. Use the thickest one your space will allow. All hood insulation sheets measure 32" x 54".

## Adjustable Hood Prop

Constructed of high-quality aluminum and stainless steel, these adjustable hood props offer great looks as well as functionality on your ride. When the hood is raised, the hood prop will automatically lock itself into position. A quick release allows the hood to be opened to its max for easy engine access. A three position and a six position option allows the hood to be set at various levels. Each level of the 6 position prop increases the opening of the hood by approximately 6°. Each level of the 3 level prop increases the opening of the hood by approximately 12°. They also works great for cooling your engine in the staging lanes.

WARNING: Cancer and Reproductive Harm- www.P65Warnings.ca.gov

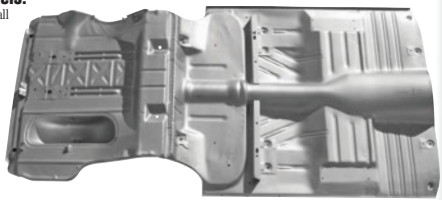
# Important Information Before Attempting to Install Sheet Metal!

## Regarding Minor Imperfections in Panels:

The sheet metal you receive may have scratches, dings, small dents and other minor imperfections which are considered normal sheet metal characteristics due to the nature of the product. These minor imperfections will be easily corrected during the filling, priming, and sanding phase of your sheet metal installation. Classic Industries® does not consider dings, scratches, minor dents or other imperfections on the sheet metal to be defects in the panel nor are they considered damaged. All sheet metal panels will require some sort of preparation and manipulation during installation. Every panel that we sell is inspected and then carefully packaged to protect against damage that may occur during transit.



## Test Fit All Panels Prior to Paint and Installation:

Classic Industries® recommends test fitting all sheet metal panels prior to final paint and installation. Minor modifications including elongating mounting holes, adding additional shims, etc. are normal and may be necessary when installing sheet metal. It is important to note that hard driving conditions, like racing, can twist bodies and frames out of original tolerances. Poor body work from previous collisions can cause problems with the body structure that the panels are attached to. Some vehicles were manufactured with a unitized body (no frame) thus causing even the most minor accident to twist the body creating a situation that would cause sheet metal panel misalignments. Take into consideration that tolerances on classic vehicles are not nearly as exact as they are on modern vehicles. This is primarily due to the hand fitting of panels at the factory on most antique and classic cars as opposed to the robotics used in today's modern factories. All of these factors will affect the way your new reproduction sheet metal will install and fit on the car. There is really no such thing as a direct fit body panel when it comes to older vehicles.

## Returns and Defects:

Prior to returning any defective body panel or sheet metal item to Classic Industries®, please contact our customer service department. Classic Industries® will not replace a panel, nor will we be responsible for freight on returns should it be deemed that the panel is not defective. See policies for more information.

## For Best Results, Hire a Professional to Install the Panels:

Classic Industries® recommends that you hire a professional paint and body technician that has the skills, knowledge and experience necessary to install the new panels on your vehicle. A professional body technician will be able to prepare the panels for installation and repair any imperfections.

## When Welding Sheet Metal Products . . .

Save time when replacing sheet metal by using Classic Industries® new, innovative "Weld-Thru™" primed sheet metal products. Our all new coating process is designed to eliminate the unnecessary process of grinding or sanding the EDP coating off to ensure a solid and rust free weld. This "Weld-Thru™" Primer requires minimal preparation and eliminates corrosion problems between overlapped panels and layered spot welds. It also minimizes heat zone problems, reduces panel distortion, and allows better penetration into the dense replacement steel to compensate for the older metal's impurities. Look for the "Weld-Thru™" logo when purchasing sheet metal products to save time during installation of weld-on sheet metal repair panels.

## Some Guidelines on EDP Coating

Many sheet metal products are delivered with a black electrophoretically deposited coating (EDP, or E-coat) for superior long-term corrosion protection, while others use a similar lacquer based coating designed to provide protection for storage and shipping. Before panel installation, Classic Industries® recommends applying lacquer thinner with a shop towel to determine the type of coating. If the coating is removed by lacquer thinner, then it should be completely stripped from the product before any primer or paint is applied. If the lacquer thinner does not remove the EDP coating, it can simply be prepped, primed and painted without stripping.

## Classic Industries® The Restorer's Choice™

Count on the Classic Industries® Restorer's Choice™ symbol whenever purchasing reproduction parts and accessories. You can be sure that each and every product displaying this symbol is manufactured correctly to exact specifications and fits the way the factory intended. Products denoted throughout the catalog with this symbol are officially approved by Classic Industries® as a genuine restoration product. Look for the Restorer's Choice™ logo. The Classic Industries® symbol is your assurance of quality.

## Made in the USA

Look for the "Made in USA" logo for products that are proudly manufactured in the United States.

## 1955-57 Power Door Lock and Trunk Lock Conversion Set with Alarm

This power conversion system has everything! It includes all you need to add remote power door locks, remote power trunk release, and a high security alarm. This fully integrated system allows you to control door locks, trunk release and alarm, and activate them from up to 100 feet through a single 4 button remote.

PDL5165 1955-57 with alarm ... 187.99 set

*GSE2100A*

Made in USA

## Electronic Exterior Door Handles

Elevate your vehicle's style with these electronic exterior door handles from Lokar! Each billet door handle utilizes a weatherproof 12 Volt pressure pad switch to supply power to an electronically actuated door latch (door popper). Its 2 piece design and available 0 degree or 10 degree mounting surface allows the insert to be removed, and door handle positioned for ultimate customization. The XL design provides 7/8" of clearance between the door and the switch, allowing for easier mounting and less modifications to the door. Made in the USA from 6061-T6 billet aluminum.

***Important:*** *This requires electronic door latch actuators, which are not included.*

***Note:*** **Installation requires hand pocket for clearance.*

## 1955-57 Nomad Lift Gate Anti-Rattle Set

1955-57 Nomad lift gate anti-rattle set replaces the factory 3 piece lift gate striker plate with a custom 1 piece design. This eliminates the rivets for the center striker plate, which is the primary cause of lift gate rattling. Features 14 gauge polished stainless steel stamped with factory bends, polished CNC-machined stainless striker and includes adjustment plate on the backside for the striker. Our stainless striker will not break or chip like original pot metal strikers. Comes ready-to-install with all stainless hardware and Dynamat attached to the plate for additional sound deadening. Made in USA.

## Fiberboard Tire Cover

Reproduction style spare tire cover manufactured with the correct aqua/black houndstooth, gray/white herringbone or gray/white crowsfoot patterns. Each tire cover is specifically designed for either a 14" or 15" spare. This cover offers a tight fit because of the stiff fiberboard support. These covers also include an elastic bottom to wrap around the spare tire cover. Recommended for use with the vinyl trunk mat. Made in USA.

## 1955-57 Custom Deep Tub Floor Components

Adding mini-tubs to a vehicle that needs a complete floor pan has never been this easy! Add up to 12 inches of clearance with our custom deep tub components for 1955-57 models. Manufactured for an OE appearance while providing the added clearance needed for bigger tires. All items feature correct gauge steel, and factory style contours. The passenger floor and trunk panels come pre-notched and flanged with the spare tire well deleted. All parts are EDP coated for rust prevention, and are available as an assembly that includes front passenger area floor pan with trunk floor or just the trunk floor with mini tubs included. Trunk floor and mini-tubs are also available separately.

***Important:*** *Must use rear spring pocket kit in order to achieve 13 inches of clearance. Convertible models require modification. Will not fit wagon models.*

11093

## Premium Spotweld Cutters

When you have a lot of spotwelds to remove, step up to the premium spotweld cutters for longer life in today's high strength body steels. These cutters have a heavier wall (.090") for extreme durability and two step geometry that splits the chips and helps clear them. Premium spotweld cutters have a fast cutting action and lasts for hundreds of spotwelds. They are for use in 3/8" or larger drill chucks. The spotweld cutters are available individually or in sets containing arbor, 3 cutters, your choice of 2 skip proof or 2 standard pilots.

***Spotweld Cutter Set***

## Stick Lubricant

Ideal for all Blair hole cutters. Softer than standard stick lubricants, it provides superior adhesion to the tool and can be used in place of cutting fluids on ferrous and non-ferrous metals to increase tool life, improve cutting performance and easier slug removal.

| | | |
|---|---|---|
| 11750 | 1.68 oz. | 5.99 ea |

13224

## Double-End Spotweld Cutter

Double-end spotweld cutters makes removing body panels fast and easy. Their hollow design cuts around the spotweld so weld hardness does not affect tool sharpness. When one end becomes dull, simply unscrew the cutter and flip it over using the new teeth on the other end. An adjustable depth rod sets the tool so only the outer panel is cut, leaving the underlying panel undamaged.

## Holcutter

Produce holes 3 times faster and cleaner than hole saws in sheet metal up to 1/8" thick and have dramatically extended tool life. Holcutters produce holes from 11/16" up to 3" diameter in sheet metal, rubber, gasket or fiber materials, and some plastics. Ideal for aftermarket installations, custom fabrication, trailers, or gauge installation. Arbor fits 3/8" drill chucks. Holcutters have a new, patented Quad-Lead Thread System for quick cutter changes. Buy the set and save! Holcutter set includes: arbor, hex washer, extra pilot and the following sizes of cutters, 7/8", 1-1/8", 1-1/4", 1-3/8", 1-3/4", 2", and 2-1/2".

*Note: D.O.C = depth of cut. Arbors and cutters sold separately.*

## Rotabroach Cutter Sets

Blair New!

11007 arbor with 11356 cutter

Rotabroach annular cutters are ideal for sheet metal fabrication, paintless dent removal and for cutting rustproofing access holes without clogging. Unlike hole saws and twist drills that push and tear through materials, these cutters will make hundreds of holes in steel, sheet metal or plastics up to 1/2" thick with no deforming of stock, jagged edges or out-of-round holes. Arbors for Rotabroach cutters fit 3/8" and 1/2" hand held drill chucks and use either spring loaded pilots or skip proof pilots which eliminate predrilling operations. Each set includes: arbor, Hex wrench, center punch, extra pilot and a variety of cutters as listed.

*Note: D.O.C = depth of cut. Arbors and cutters sold separately.*

***Rotabroach Cutter Set***

# Body Tools

## The Filler Detective!

The Filler Detective will find hidden body damage and body filler on a car, truck, or motorcycle. It will tell you where body filler is and how deep it is. This simple one-button tool lights up and sounds when it detects body filler and features a visual alert with bright, daylight visible LEDs. The meter doesn't miss and it indicates exactly where the body filler is and includes a test plate to confirm accuracy. Never again wonder whether or not a vehicle has been in a wreck! The Filler Detective solves the mystery every time.

FDA0100 red ..... 79.99 ea

## EZ Rest Door Hanger

The EZ Rest door hanger enables a single person to quickly remove and/or install vehicle doors. The padded, removable side rails and plastic, ribbed base inserts allow for accurate positioning of the door. The easy on/off design quickly adapts to most floor jacks with a removable saddle and 30mm (1.18") diameter saddle hole.

***Note:** Floor jack is not included.*

S21870 ..... 145.99 ea

## Door Spring Tool

Compresses spring for easy safe removal. Slides safely over spring. Constructed of heat treated, high carbon steel.

S21900 ..... 22.99 ea

## Door Hinge Adjuster Tool

You can now easily adjust the hinges without the aggravation of trying to align by eyesight with this handy tool. Specifically designed to help adjust the hinges so they help to align the door.

Y65800 ..... 45.99 ea

## New! Door Bushing Tool

If you've ever tried removing a door hinge bushing with just a regular punch, you know it's a hassle. Luckily, now there's the specially designed door bushing tool. Its special design makes it easy to punch out bushings and align bushings when reinstalling. Offset design allows for easy access to all door hinges. Super tough alloy steel construction.

S21825 ..... 19.99 ea

## New! Door Aligning Bar

Finally, a convenient door aligning tool that will fit in your tool drawer! Features a Hex stub to use with a breaker bar and socket for additional leverage.

S21845 ..... 38.99 ea

## Pro Paint Gauge

The Pro Gauge is a device which measures paint thickness. Factory paint is usually 4-5 mils in thickness. By using the Pro Gauge you can determine if the vehicle has been repainted. For instance, you can take measurements of about 4.5 mil around the vehicle but the hood may read seven mils on the Pro Gauge. That tells you the hood has been repainted.

PG2437 ..... 84.99 ea

## Eliminator Rust Remover

Before touching up paint, you first must remove all rust, wax and dirt or the rust will return and the paint won't adhere. This unique tool will scrub away all dirt, rust and wax. The results are touch up paint adheres, seals and blends smoothly into the rest of the paint.

E3437 ..... 9.99 ea

X2290

## Body Dent Removal Tools

Pulls dented sheet metal back into place with our convenient tools. 13" long shaft with 1/2"-13 UNC thread screw on our slide hammer permits high pulling force.

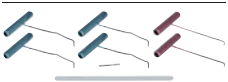
X2290 slide hammer set ..... 44.99 set
X2290-76 replacement nose nut ..... 8.99 ea

## New! Spot Weld Chisel

Chisel tool to separate panels after the spot weld has been drilled out. Drive the blade with a hammer from the end or the side through the panel seam. Panels are separated without damage. The blade is sharpened on three sides, and offset for clearance.

***Note:** The sharpened edges will wear with use. Resharpen on a grinding wheel.*

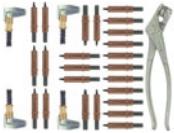
Y51900 ..... 14.99 ea



## Body Dent Removal Tools

The pull rod set includes: 4 pull rods with formed shank, 2 pick pulls with straight shank, straight edge, and HS split point drill bit.

S20000 pull rods ..... 47.99 set



X9858

## Cleco Sheet Metal Fastener Kit

Everything you need to secure sheet metal panels during the fit and alignment stage. The pliers can be used with all standard spring loaded fasteners and clamps. The kit contains: one pair of Cleco pliers, twenty-five 1/8" Kwik-Lok clecos and four side grip fastener clamps. Also available are individual components so you can add to your kit as necessary.

***Complete Kit***

## Trunk and Floor Pan Repair Set

The KBS trunk and floor pan repair set allows you to restore your floor pan, trunk pan, or pickup truck bed back to new without producing any ugly weld seams. Our included step-by-step instructions make it easy and simple to use. After cleaning the area with KBS Klean (an industrial strength water based cleaner/degreaser), and KBS RustBlast (a powerful rust remover/metal etch), simply use the included BackBone reinforcing mesh and NuMetal epoxy putty to fill any small pin holes. Last, finish it off with a coat of RustSeal® for a restored finish without any weld seams. Each set includes: 1 gal. KBS Klean, 1 gal. RustBlast, 1 qt. RustSeal®, 1 lb NuMetal epoxy putty, 1 sq. yard BackBone Reinforcing Mesh, 8 oz. #1 Thinner, KBS paint spout, Nitrile gloves, mask, two brushes, stir stick and complete and detailed instructions.

## 1955-57 SB Power Steering Pump Set

Replacement power steering pump set for 1955-57 models with small block engines. Replaces the factory power steering pump and generator assembly when upgrading to an alternator. Fits small block with front mounts, short water pump and small balancer. Includes: remanufactured pump with new reservoir and cap, new pulleys, brackets belts, and hardware. Compatible with original style power steering, 605 steering boxes, and rack and pinion conversions.

| | | | |
|---|---|---|---|
| TF500124 | | short water pump..... | 449.99 set |

TF500091

## 1955-57 500 Series Power Steering Set

The 500 Series power steering boxes are key components to a high-performance modern style power steering system. An open centered, rotary type valve provides smooth operation throughout the steering range while retaining excellent road feel. The late model internal steering components are like having rack and pinion steering in a compact, easy to replace steering box! The steering box has a 1 piece housing, which eliminates the need for an additional conversion mounting bracket and is an easy replacement for the factory manual steering box or the outdated 605 power steering box. This box works with the factory pitman arm, uses inverted flare hoses (pressure fitting is 7/16" tube – 11/16"-18 inverted flare; return fitting is 3/8" tube – 5/8"-18 inverted flare) and uses 3/4"-30 splined steering coupler. Sets include: 500 Series steering box, power steering pump, pump mounting brackets, and power steering hoses. Comes finished in black.

| KW799B | all long water pump | 31.99 ea |

## Small Block Power Steering Bracket Set

These power steering brackets are designed for the later power steering pump on engines that have the motor mounts on the side of the block. These are great for a power steering conversion or when installing an alternator and your vehicle has the old style power steering. Set includes all mounting brackets for small block V8 engines with long water pump.

| | | |
|---|---|---|
| KW799 | long water pump | 69.99 set |

## Small Block Power Steering Pump Bracket

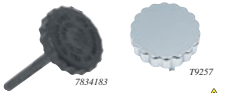
This convenient 1/4" steel power steering bracket set is designed for mounting non-metric GM Saginaw power steering pumps, with integral reservoir, to small block Chevy engines. Can be used on most pre-1969 pumps, as well as later model V8 pumps up to 1985, with either a single or double groove pulley. Most short water pump applications use a crankshaft power steering pulley that bolts over the existing pulley. This should align with the power steering pump pulley.

| | | |
|---|---|---|
| 153658 | short water pump | 49.99 set |

## 1955-57 Power Steering Pump Bracket

Reproduction power steering pump bracket set for 1955-57 models with front motor mounts. Utilizes existing holes in the block. Functions best when the generator or alternator is in the stock location. For both short or long water pumps.

| | | | |
|---|---|---|---|
| 153659 | 1955-57 | small block | 49.99 set |



7834183 T9257

## 1955-57 Power Steering Pump Caps

These quality aftermarket caps fit perfectly on original and reproduction power steering pump reservoirs. Add a chrome cap cover for a mild custom look in your engine bay.

| | | | |
|---|---|---|---|
| 7834183 | 1955-57 | black cap | 5.99 ea |
| T9257 | 1955-57 | chrome cap cover | 4.99 ea |

## Max EZ Power Steering Fluid

Max EZ is an advanced power steering fluid designed to maximize the life and performance of all power steering units. Max EZ is formulated with a blend of select synthetic base oils plus Royal Purple's proprietary Synerlec additive technology, which is proven to make equipment run cooler, smoother, longer, quieter and more efficiently. Max EZ is compatible and can be mixed with conventional power steering fluids and has excellent seal compatibility.

| | | | |

| RP12326 | case of 12 – 12 oz. bottles | | 64.99 cs |

## 1955-57 Saginaw Power Steering Pulley

This aluminum single groove power steering pump pulley is designed to solve clearance issues between the fan and pulleys when adding V-belt accessories like power steering and AC to short water pump applications. This pulley fits all Saginaw keyway style pumps that accept bolt-on pulleys with a 5/8" diameter shaft. No fan spacer required when using stock "low-pitch" 17" fan blades. 1/8" fan spacer recommended when using "high-pitch" 17" performance or flex fans. Aligns with second groove on harmonic balancer pulley. Allows for use of first groove on balancer pulley for water pump and alternator and third groove for AC compressor. Fits small block and big block Chevrolet motors equipped with a short water pump.

***Important:*** *Not for use on engines with a long water pump.*

| | | | |
|---|---|---|---|
| RD600267 | 1955-57 | Saginaw pumps | 104.99 ea |

## Power Steering Pulley Nut

This chrome-plated self-locking nut is designed for aluminum performance power steering pulleys. It can also be used with OE and aftermarket pulleys on Saginaw power steering pumps with a 9/16"-18 threaded shaft.

| | | |
|---|---|---|
| MP645 | chrome pulley nut | 1.99 ea |

## Power Steering Fluid

Get the race winning experience of Joe Gibbs under your hood with Joe Gibbs power steering fluid. This fully synthetic power steering fluid is specially formulated to avoid foaming at high temperatures to create superior cooling properties. The higher thermal stability also offers less pressure drop. One quart or case of 12.

| | | | |

## Warning: Concerning Steering Pump Pulleys

Stock replacement, aftermarket stamped steel or cast iron pulleys are not designed to exceed 400 horsepower or 6000 RPM. Using reproduction pulleys on engines in excess of these limits may result in catastrophic disintegration of the pulley causing severe damage to the engine, cooling system, and body parts. Classic Industries® assumes no liability for damages caused by improper usage of pulleys. Please be sure to install the pulley properly to avoid damages that could occur from improper installation or exceeding the recommended RPM limitations.

## 1955-57 Delphi 600 PS Gearbox

This remanufactured Delphi 600 series power steering box represents the latest generation of steering gearbox technology with a modern power steering feel, feedback, and a sporty 12.7:1 ratio. This box has been designed to bolt directly to the factory mounting location and to fit the stock pitman arm. The box has an 18mm double-D input shaft. Vehicles with factory power steering will require a center link adapter (sold separately).

*Important:* *Steering column modifications required if not using an aftermarket steering column. Instructions indicate that this is for floor shifter applications only. Vendor suggests using an ididit floor shift column. CPP offers TF500188 column shift steering column for 1955-56 Chevy or TF500189 column shift steering column for 1957 Chevy.*

*Note:* *Shipped overweight.*

### *Delphi 600 Power Steering Box*

TF500366 1955-57 ..... 413.99 ea

### *Installation Components*

#### Steering Column Shaft

Upper steering shaft is for 1955-57 Chevy model with 605 or other gearboxes requiring a rag joint or other couplers when stock column is to be retained. It is 31" long has 3/4"-36 splines on steering gearbox end.

TF500358 1955-57 ..... 36.99 ea

#### Rag Joints

We offer two rag joint styles: an 18mm DD x 3/4" for stock columns with modified shaft, and an 18mm DD x 1" DD for aftermarket columns. The steering column shaft must be used when retaining the original steering column. Shaft has a 3/4" x 36 spline end for a 3/4" x 36 spline end rag joint. The 18mm DD x 3/4" with 36 spline is the correct for the modified stock column with the TF500366 power steering box.

## 1955-57 500 Series Steering Box

500 Series power steering boxes are the key to a high-performance power steering system. An open centered, rotary type valve provides smooth operation throughout the steering range while retaining excellent road feel. The late model internal steering components are like having rack and pinion steering in a compact, easy to replace steering box! This unit has a 1 piece housing, which eliminates the need for an additional conversion mounting bracket and is an easy replacement for the factory manual steering box or a 605 power steering box. This box works with factory pitman arm, use inverted flare hoses (pressure fitting is 7/16" tube (11/16"-18 inverted flare), return fitting is 3/8" tube (5/8"-18 inverted flare) and uses 3/4"-30 splined steering coupler. Steering ratio is 14:1. Available painted black or finished in chrome.

TF500004 1955-57 chrome..... 1219.99 ea

## 1955-57 Power Assist to Power Steering Box Conversion Center Link

This center link conversion is required when converting from the old power assist power steering to a 605 series gearbox or to simply convert the original power steering box to manual steering. Requires a pitman arm with a ball on the end rather than the style that has a tapered tie rod hole.

153648 1955-57..... 99.99 ea

TF500292

TF500370

## 1955-57 Power Steering Drag Link Adapter

This adapter screws onto the end of the drag link in place of factory power steering or manual steering. Allows for simple conversion from factory power or manual steering to 500, 600, or 605 Series power steering boxes. Works with factory pitman arm.

## Steering Box to Frame Mounting Bolt Set

Reproduction steering box to frame mounting bolt set for 1955-57 models. Includes: three 3/8"-24 x 3-3/4" bolts with correct carriage bolt head and 3 nuts and lock washers.

TF500006 1955-57 ..... 9.99 set

## 1955-57 Ram Cylinder Frame Bracket

The power steering Ram cylinder bracket is for 1955-57 Chevy models with factory power steering. Bracket bolts to the frame and the end of the power steering ram attaches to the bracket providing a pressure point for the ram. This is an essential bracket when adding factory power steering to your classic.

TF500356 1955-57..... 16.99 ea

## Power Steering Ram Cylinder Bolt

Power steering Ram cylinder shouldered bolt works on any 1955-57 Chevy with original style power steering. This bolt joins the steering Ram shaft to the center link.

TF500276 TF500285 FR1625

## 1955-57 Rack and Pinion with Tilt Steering Column

Flaming River has engineered popular rack and pinion cradle systems for the 1955-57 Chevy. This system replaces the early long shaft steering box with an optional new tilt column. This fixture welded cradle mounts between the frame rails and bolts into the original location. Mounting the rack on the cradle system not only reinforces the chassis, but also increases ground clearance. Requires no suspension modification and installs easily with hand tools. All mounting hardware, pump, bracket, reservoir, and universal joints are included.

***Important:*** *Power steering hoses sold separately.*

***Note:*** *Shipped double oversize.*

## 1955-57 Power Rack and Pinion Set

Power rack and pinion steering set for 1955-57 Chevy models. Available with black or chrome finish, this set includes a Saginaw rack and pinion with bracket customized for a direct fit. The new bracket bolts to the factory steering mounting points and places the steering linkage on the same plane as the stock unit. Set also includes: outer tie rod ends, brackets, mounting hardware, new steering arms, and -6AN banjo line fittings for an easy installation. Features a 16mm-DD steering shaft and 2.65 turns lock to lock.

***Important:*** *Original column modification required. Cannot retain column shift with original columns. Big block applications require customer to supply their own shaft and U-joints and may require custom headers.*

***Note:*** *Shipped oversize.*

## Power Rack and Pinion Shafts

These sets are designed to work with the power steering rack and pinion conversion and are available for the stock steering column or an aftermarket steering column. For models with small block engines with header clearance. The set for the stock column includes two stainless U-joints; one already welded to the long section of the smooth shaft and a second U-joint to finish the installation after the shaft is cut to the proper length. Set includes instructions for modifying steering column and included bearing placement. The other set is for 1" DD x 3/4"-36 aftermarket steering columns. Set includes: stainless U-joints, shaft column adaptors, and instructions.

## Wheel Bearing Packer

Special tool designed to pack the bearings so they stay where they belong. Works on most cars and trucks.

Y65250 universal bearing packer ..... 8.99 ea

## Super Grease

This silicone based grease will reduce squeaking and keep your polyurethane bushings quiet. This waterproof, high temperature, high pressure formula is ideal for use in grease guns.

H3101 14 oz. tube ..... 41.99 ea

## Formula Five Prelube

Energy Suspension Formula Five Prelube is a versatile, waterproof, non-melting grease containing PTFE. This forms a tough, durable, chemical resistant film of lubricant and also prevents metal to metal contact even under severe shock loads. Only small amounts are required to properly lubricate bushings and metal components and to prevent corrosion. Use this when assembling your polyurethane bushings to your suspension.

***Important:*** *Only small amounts of this prelube are needed when assembling components.*

# Steering/Suspension Parts

## 1955-57 Modular 2" Drop Spindles

The strongest drop spindles on the market, these forged spindles feature 4140 chromoly CNC-machined pins, accept the factory ball joints and stock steering arms, making them the best drop spindle to use when using a rack and pinion conversion. The modular design of the drop spindle also allows a variety of brake options, from small off the shelf rotor and calipers to big brake sets such as Wilwood and Baer Brakes.

***Important:*** *Can be used with drum to disc brake conversion kits. If not using a kit with brackets use TF500268 for smaller calipers and rotors. For use with large rotors (13" +) use 5564BBK large caliper brackets.*

***Note:*** *A minimum 15" disc brake wheel is required. Not for use with drum brakes or disc brake conversions for stock spindles.*

## 1955-57 Modular Drop Spindle Brackets

Disc brake conversion caliper mounting brackets are for the enthusiast who enjoys searching places where used parts hide; finding and restoring them to put on his favorite ride. The mounting brackets are the one part you can not find used on a vehicle. These mounting brackets include: mounting hardware, a rotor, caliper, bearing and seal application list for you to source the parts, and instructions. Brackets are designed to work with existing stock spindles and with most 14" disc brake wheels.

***Note:*** *Will not clear original 14" wheel due to caliper clearance. Not for use with drum brakes.*

***Use with Malibu Rotors and Calipers***

## 1955-57 Chevrolet 2" Drop Spindles

These steel drop spindles reduce vehicle ride height by 2" without altering steering geometry or requiring realignment. The caliper brackets allow a wide variety of brake options. For GM rotors and calipers, use 1979-81 G-Body rotors. Compatible with stock and Heidt's control arms.

***Use with 1969-72 GM Cast Iron Calipers***

TF500222 1955-57 ..... 496.99 pr

***Use with 1978-84 GM Metric Calipers***

TF500223 1955-57 ..... 482.99 pr

## 1955-57 Disc Brake 2" Drop Spindles

This 2" drop spindle set is compatible with most aftermarket single piston disc brake kits. These spindles use stock steering arms and also correct bump steer issues common to other drop spindles. Sold as a pair.

***Note:*** *For vehicles with disc brakes only. Not compatible with drum brakes.*

153637 1955-57 ..... 244.99 pr

## 1955-57 Cast 2" Drop Spindles

These 1 piece spindles allow you to lower vehicle ride height 2" without altering steering geometry or suspension travel. This eliminates the need for bolt-on caliper brackets. Cast from the highest quality ductile iron with chromoly CNC-machined pins, these are compatible with factory ball joints and tie rod ends. Fits most 14" wheels and will allow use of 1979-81 Malibu rotors and 1982-93 S-10 calipers.

***Note:*** *Not for use with drum to disc brake conversion kits.*

# Sway Bar Sets

## Sway Bars and Your Tri-Five

Sway bars tie your suspension together to help with body roll when cornering. When turning, the vehicle will "roll" as it transfers its weight to the outside wheels. This causes the front end to "plow" or understeer. An aftermarket sway bar will help keep your vehicle and the load even and assists in steering response. Sway bars sets come complete with everything required for installation. The diagram illustrates the expected effect of installing an upgraded sway bar.

## 1955-57 Sway Bar End Link Set

Designed to replace 1955-57 front sway bar end links. Replacement set designed to eliminate sway bar end movement with rubber bushings. Includes: 4 bushings, 1 bolt, 1 nut, 4 washers, and 1 spacer. 2 required.

| | | | |
|---|---|---|---|
| 18060 | 1955-57 | | 11.99 set |

## Sway Bar End Links

Front sway bar end links maintain a tight hold between your sway bar and the rest of your suspension. A sway bar is designed to react to changes in the roll of a vehicle. If the sway bar isn't connected with rigid sway bar end links, it will not perform effectively. A soft sway bar end link means that your vehicle has to roll further off center before your sway bar engages. Polyurethane sway bar end links will provide a fast engagement of your sway bar and ensure that your sway bar is working as it was designed to work. Made in USA.

## 1955-57 gStreet Suspension

Chassisworks line of bolt-on front suspension systems and components is an excellent choice for improving performance and stance of factory subframe equipped vehicles. Easy install... great results.

***Important:*** *Coilover shocks and control arms will lower the car 1 to 2 inches and when used with a drop spindle, the drop could be 3-4 inches total. Also the tire size will affect ride height. Recommend putting stock height spindles on and check the ride height. Positions front crossmember approximately 6-3/4" (+or- 1/2") above ground with 12" rolling radius tire. Available with single (Q1) or double (Q2) adjustable shocks.*

***Note:*** *Shipped overweight.*

### 1955-57 Chassisworks gStreet Coilover Front Suspension

Includes: VariShock billet aluminum coilovers with 16 position, adjustable valving, tubular upper and lower control arms with bonded rubber or poly bushings, depending upon vehicle application. True coilover shocks with pivot stem top and COM-8 lower mounts, not modified OEM shocks with tapered springs, maximizes shock control and improves response to valve adjustment. Lower A-arms feature dropped mounts, allowing longer travel shocks with additional suspension travel. Ships with powder coated finish.

- Front Musclebar
- HQ Series Shocks.

## 1955-57 StreetGrip System

This is a direct replacement for factory suspensions without any modifications. StreetGrip System is designed for 1955-57 Chevy models. It is a direct replacement for factory suspensions without additional modifications required. Radical improvement to ride quality and handling performance. Dual rate front and rear coil springs offer ride quality and crisp handling. Delrin front control arm bushings eliminate unwanted movement and static friction in front suspension. Tall ball joints improve OEM camber curve for a more stable feel through the corners. Larger front and rear sway bar minimizes body roll. Delrin sway bar bushings eliminate movement and static friction in the sway bar to improve ride quality and handling performance. RideTech HQ series rebound adjustable shocks offer the ultimate in ride quality and handling performance. Drop spindles allow for lowered stance without compromising compression travel.

***Important:*** *Recommend the ridetech bushing installation/removal tool #850000009 for those who do not have a press to remove and install bushings.*

***Note:*** *Shipped oversize.*

## 1955-57 Front Coil Spring Insulator OER

Molded rubber coil spring insulators that mount between the coil springs and the subframe. These insulators will keep the springs from riding on the frame, metal to metal, and will give you a better ride. Coil spring insulators were not original on all vehicles. Measures: 5-5/16" o.d., 3-3/4" i.d., 1/4" thick.

***Note:*** *These insulators will increase ride height equal to the thickness of the insulator.*

## 1955-57 Pro Coilover Shock System

Coilover shocks are the most tunable suspension you can use, and we offer the best from QA1. Billet shock bodies with a 5/8" chrome steel rod and silver powder coated springs in different spring rates are the ticket. These shocks are fully adjustable with just a turn of a knob in both compression and rebound for full performance tuning. Ride height is also tunable with adjustment rings. A spanner wrench and replacement adjustor ring thrust bearings are available separately.

***Important:*** *Must use spanner wrench and thrust bearing set when installing coilover shocks.*

## 1955-57 Stocker Star Shocks

QA1 offers Stocker Star shocks in your choice of fixed, single adjustable and double adjustable configuration. The fixed, non-adjustable version is a rebuildable and revalveable shock for the budget conscious owner. The single adjustable shock lets you simultaneously change the compression and rebound with one knob, choosing 18 valving options. The double adjustable shock offers 2 knobs to adjust compression and rebound separately, resulting in 324 valving options to fine tune your ride for any type of driving. All shocks have Polyurethane bushings and are sold individually. Two required per axle.

***Note:*** *Some disassembly or modification may be necessary to mount these shocks.*

## 1955-57 Drag Shocks

Lakewood drag shocks feature state-of-the-art 10 stage valve design which provides excellent starting line reaction and stable high speed operation, superior to any other shock on the market today. These shocks feature multiple valve stages, as the vehicles speed increases, the characteristics of the shock change. All Lakewood drag shocks will mount in the stock location without modification.

**90/10 Series Front – Race Only**

Will let the front end rise quickly to provide as much weight transfer as possible to the rear wheels on initial launch. Works best on vehicles where maximum rear wheel traction is required.

***Important:*** *Race shocks are not designed for street use.*

| | | | |
|---|---|---|---|
| LW40101 | 1955-57 | front 90/10 Series .. | 76.99 ea |

**70/30 Series Front – Street and Strip**

Used for overall improved handling on the strip or when quick front end lift is not needed. Works best on medium to high horsepower vehicles with wide tires and low to medium horsepower vehicles with slicks. This is the perfect shock for vehicles that are driven both on the street and on the strip.

| | | | |
|---|---|---|---|
| LW40121 | 1955-57 | front 70/30 Series .. | 76.99 ea |

**50/50 Series Rear – Street and Strip**

Used to properly load the rear wheels and prevent over reaction and wheel hop. This shock is the best overall choice for vehicles that are driven both on the street and the strip. Use with leaf or coil springs.

CALVERT RACING Products

***Features:***

- Cost Effective
- Light Weight Design
- Lightning Quick Separation

## 1955-57 CF Series Front 90-10 Shocks

Calvert Racing Suspensions offers a shock specifically designed for maximum weight transfer. Built with the softest rate on rebound on the market today, allowing the front end of your race car to come up as easy as possible! This equates to better weight transfer and more weight over your rear tires. Dual stage valving on compression allows the vehicle to settle on the top end. Every application is closely evaluated for best length assuring that each vehicle would have sufficient travel for maximum traction. This is a missed area by most manufactures as their shocks are designed after the factory length shocks. Due to a slightly larger diameter shock body, some slight trimming or clearancing may be required on the lower control arm. Sold in pairs.

*Note: Not for street use.*

## 1955-57 Gas Pressure Shocks

Bilstein's shock bodies are precision formed through a unique seamless extrusion process for superior strength along with high finish tolerances. The finished body is then mated with a solid, induction hardened steel, chrome-plated and polished shaft, machined valving components and highest quality seals. With extreme attention to detail, Bilstein provides you with the closest thing to a hand built shock available today. Conventional shocks slowly lose efficiency and eventually fail over a period of time causing excessive tire and suspension wear. Bilstein Gas Pressure Shock Absorbers are the least expensive way to dramatically improve the ride, handling and control of your vehicle. With Bilstein's limited lifetime warranty, you may never have to purchase shock absorbers again. Bilstein shocks fit sedan and wagon models, including Nomad.

# Performance Rear Ends

- All-New Heavy-Duty 9" Housing
- 3" o.d., 1/4" Wall Tubing
- New Housing Ends Welded to Heavy Wall Tubing
- Custom Alloy Axles with Pressed Bearings
- 28, 31, 33 or 35 Spline Axles
- Spring or Arm Brackets Installed

Made in USA

## 9" Ford Bolt-in Housing and Axle Package

All Moser 9" Ford housings are made with new heavy-duty housing cores, seamless steel tubing (3" o.d., 1/4" wall), new brackets, new housing ends, and new bushings. Bolt-in housing and axle packages include new housing, custom alloy axles (28, 31, 33, or 35 spline), ball bearings, up to 1/2" studs and heavy-duty retainer plates. Made in USA.

***Important:*** *Original, factory style brakes are not compatible with these housings. Aftermarket rear drum or disc brake conversion is required.*

***Note:*** *Special order, must be prepaid. Shipped double oversize.*

M12156 1955-57 ..... 1034.99 ea

*In competitive racing, you can't leave anything to chance.*

Made in USA

## 9" Ford Bolt-in Housing

Moser Engineering uses only the best materials when producing these 9" housings in competitive racing, you can't leave anything to chance. The proper setup using quality high-performance parts is the only way to ensure that the time you spend setting up your vehicle is not wasted. Why waste money on a new engine that could power a rocket to the moon, then turn around and buy an old rusted out rear end that is probably going blow up in the water box? Doesn't make much sense. Our heavy-duty banjos are reinforced in critical stress point areas, thickened up considerably when compared to it's OEM counterpart. New, seamless housing tube is essential in assuring ultimate housing strength, which our 3" diameter tubing is not only seamless, but also a 1/4" thick. We also use newly stamped high strength brackets that are considerably thicker than OEM. Each housing produced includes newly forged housing ends.

***Important:*** *Original, factory style brakes are not compatible with these housings. Aftermarket rear drum or disc brake conversion is required.*

***Note:*** *Special order, must be prepaid. Shipped double oversize.*

M12154 1955-57 ..... 549.99 ea

Made in USA

## 9" Housing and Axle Set

This housing is designed and built to go into your muscle car with a minimal amount of effort. It is setup with the Aftermarket Brake Configuration Standard which is: 2-1/2" brake space with late model big Ford housing ends, and a 2.80 center hole in the drum or rotor. Axles include 5 on 4-3/4" bolt pattern with installed 7/16" wheel studs 1/4" thick heavy-duty bearing retainer plates, and tapered Timken set 20 wheel bearings pressed on. Includes: CURRIE "9-Plus" Housing (3" x .188 wall tubing) with brackets and the CURRIE 31 Spline Performance Axle set. Made from USA steel in the USA.

***Note:*** *Shipped double oversize.*

## Rear Axle 11" Rotor Disc Brake Set with Parking Brake

This disc brake set includes black powder coated backing plates and caliper brackets, with the drum style parking brake, hardware installed, calipers loaded with pads, and mounting bolts. For use on Currie rear axle housings and housings with 2-1/2" brake space, late model big Ford housing ends, and an axle register of 2.800". All parts are 100% new.

CE601252 5 x 4-3/4" bolt pattern ..... 574.99 set

## Driveshaft Safety Loop

Required and approved by all major racing sanctioning bodies. This universal driveshaft safety loop is fully adjustable to fit most vehicles. The 4 piece design is manufactured from 1/4" thick, 2" wide mild steel, bright zinc-plated and comes with all necessary hardware.

LW18000 all ..... 46.99 ea

## 1955-57 Universal Joint

Replacement driveshaft universal joint for 1955-57 models. Features outside snap rings. Includes caps and clips for installation.

369 1955-57 front/rear.. 7.99 ea

## U-Joint U-Bolt Kit

Replace faulty U-joint bolts with these reproduction bolts. 1-3/16" center to center stud with a 5/16" - 18 thread.

R6046 universal 4 piece 12.99 kit

## Handy Packer Bearing Packer

The Handy Packer works on bearings up to 3-1/2" o.d. To pack a bearing, place the bearing on the piston. Press down on the cap until the old grease is forced out and the new grease shows on top of the bearing with less mess.

CE931A

***All 3rd Members Include:***

- Nodular Iron "Sportsman" Gear Case with 3.062" Caps
- Nodular Iron Big Bearing Pinion Support
- Nodular Iron 1330 Series Short Yoke
- Nodular Iron Traction Lock, Trutrac, or Detroit Locker
- New Ring and Pinion in These Ratios: 3.00, 3.25, 3.50, 3.70, 3.89, 4.11, or 4.30
- Timken Bearings and Performance Oil Seals
- Professionally Setup, Ready-to-Install

## 9-Plus 31 Spline 3rd Members

Made in USA

These are built and ready-to-install in your 9" rear end. Choices of carriers are: Traction Lock, TrueTrac, and Detroit Locker.

***Important:*** *For ratio choices add a letter to the end of the part number. Ratios are: A = 3.00, B = 3.25, C = 3.50, D = 3.70, E = 3.89, F = 4.11, G = 4.30.*

### Traction Lock

Traction Lock is the same as Posi Traction or limited-slip. It uses heavy plate style clutches to help your traction and put power to the ground.

CE931 31 spline ..... 1641.99 ea

### TrueTrac

The Detroit TrueTrac is a helical gear style performance differential that maximizes wheel traction and enhances driving and handling characteristics. The TrueTrac operates as a standard or open differential under normal driving conditions, allowing one wheel to spin faster or slower as necessary. Operation of the TrueTrac is smooth, quiet and automatic. The unit will engage without any driver knowledge or action required. It also has no wearable parts and requires no maintenance, meaning less time in the garage and more on the road.

CE932 31 spline ..... 1715.99 ea

### Detroit Locker

Detroit Locker is a 100% automatic locking differential that provides ultimate traction for mild to extreme vehicle applications. During straight line driving, the Detroit Locker captures 100% of available torque and sends it equally to both wheels. In turns and maneuvers, the internal components unlock to allow one wheel to spin faster or slower as necessary (free wheel). When the vehicle returns to a straight line driving path, the components re-engage and provide power to both wheel ends. Parts are maintenance free.

***Note:*** *Tires will chirp when making turns as the locker unlocks and locks.*

CE933 31 spline ..... 1741.99 ea

## Positive Locking Differential

Made in USA

The Lock Right system offers a revolutionary design that is exceptionally rugged and yet ingeniously simple! Just replace the existing spider gears with a pair of Lock Right driver and coupler gears in your existing stock, open differential assembly. Installs in 1-2 hours. No extra modification or setup since the ring and pinion gears are unaffected and no special tools, calibration equipment or fixtures are needed! Made in USA.

***Important:*** *Not for use with Posi Traction or Limited-Slip differentials, use in stock, open differentials only.*

## High-Performance Limited-Slip Differential

Made in USA

Auburn Gear's high-performance series limited-slip differentials outperform standard OEM differentials delivering more traction and faster engagement for controlled power transfer and lightning fast reaction to changing load conditions. Superior performance is achieved through an innovative cone clutch design which transfers more power to the high traction wheel for quick acceleration and tight cornering. Compatible with ABS and electronic controls. Differentials are C-lock axle. Made in USA.

## Max-Gear Oil

ROYAL PURPLE SYNTHETIC OIL

Max-Gear is an ultra-tough automotive gear oil. It makes gears run smoother, quieter, cooler, and longer without overhauls. Max-Gear is recommended for use in front or rear differentials and manual transmissions that specify use of an API GL-5 or GL-4 fluid. All viscosities of Max-Gear are formulated with hypoid friction modifiers necessary for use in clutch or cone type differentials. No additional additives are necessary.

## DynaPro 6 Big Front Brake Set

DynaPro 6 Series front hub sets feature forged billet calipers combined with 12.19" diameter rotors for this group of traditional non-ABS spindles on American muscle cars. The enhanced brake capacity and pad performance is due to six heavy wall stainless steel pistons, an intermediate level alternative to the bigger six piston sets. Wilwood's low dust, low noise improved friction formula brake pads are retained with exclusive Wilwood Quick-E clips for simplified pad service without caliper removal. 12.19" vented iron rotors are manufactured from premium grade carbon iron to provide long wear with high thermal stability and resistance to distortion thus add stopping power and cooling capacity over smaller diameter OE rotors. These sets compliment wheel, tire, and suspension upgrades on all types of custom show and high-performance street/strip machines. A full range of caliper finishes and rotor designs enable the builder to personalize the style and optimize the brake performance for each individual application. DynaPro sets can be used with either manual or power assisted master cylinders.

***Important:*** *May fit some 15" wheels, check wheel clearance diagram in installation instructions at www.wilwood.com before purchase. All front hubs feature 1/2"-20 wheel studs.*

***Notes:*** *Shipped overweight.*

## Dynapro Low Profile Rear Brake Sets with Parking Brake

Dynapro low profile rear disc brake sets provide a complete solution for popular muscle car rear axles that require a parking brake assembly and extra clearance for 14" and 15" wheels. Forged billet Dynapro low profile 4 piston calipers 11.00" one piece hat and rotor assemblies, and high friction pads provide optimized and balanced braking. The hidden internal parking brake shoe system provides a clean installation and superior static holding power for parking. Optional caliper finishes and rotor designs enable the builder to personalize the style and optimize brake performance. Calipers are available anodized black or powder coated red.

# Disc Brake Conversions

## Electronic Disc Brake Conversion Sets

### Remote Electric Hydraulic Pump Provides Power

#### Eliminates the Bulky Original Booster

Gain valuable clearance in the firewall area by doing away with the unsightly, inefficient vacuum power booster. Sleek billet aluminum master cylinder takes its place for an improved appearance and performance.

#### Increases Braking Pressure and Performance

This electronic system runs on brake fluid, is self-contained and consistently provides 1400-2500 psi of braking pressure at the wheel. A perfect upgrade for engines with low vacuum due to a performance cam.

#### True Bolt-on — Requires No Vacuum

Replaces your OEM brake master cylinder as a direct bolt-on (no drilling required). Adjustable pedal rod to allow for correct pedal height.

PB10700

### 1955-57 Electronic Disc Brake System

Looking for a big brake upgrade for your 1955-57 Chevy? These sets are a great solution. These conversions from ABS Power Brake are a true bolt-on and mount to the OEM brake spindles (12" rotors require 16" or larger wheels, 13" rotors require 18" wheels). This complete system includes all necessary brackets and a Power Brake Electric High Power Master cylinder (an EHPM offers cars with big cams added braking capacity and additional valve cover clearance).

***Note:*** **With 2" drop spindles. Shipped overweight.*

PB10125

### 1955-57 Bolt-on Rear Disc Upgrade Set

Looking for a rear disc brake upgrade for your 1955-57 Chevy? This rear disc conversion is the answer. Available either with 10-1/2" OEM size rotors on GM 10 and 12 bolt rear ends, or 10-3/4" on Ford 9" rear ends (works with OEM size wheels), or as a big brake upgrade with 12" rotors (requires 16" or larger wheels). Designed as a true bolt-on, this ABS Power Brake setup mounts to the OEM differential housing. Each system includes all necessary brackets, calipers, parking brake cables, and all hardware for a complete install.

***Important:*** **Requires 16" or larger wheels.*

***Note:*** *Shipped double oversize.*

### 1955-57 Disc Brake System with Booster

Looking for a bolt-on front disc brake setup for your 1955-57 Chevy? This system from ABS Power Brake is the answer. Designed to bolt up to the OEM spindles, each system includes all necessary brackets, a new 8" Dual Power Brake Booster Combo, master cylinder and proportioning valve so you can select the correct combination (disc/drum or disc/disc). Available with 10-3/4", 12" or 13" rotors and regular or chrome-plated Dual Brake Booster Combo. Rotors are cross drilled/slotted.

***Important:*** **Requires 16" or larger wheels. **Requires 18" or larger wheels.* ***Note:*** *Special order, must be prepaid. Shipped double oversize.*

### 1955-57 Zero Offset Disc Brake System

This disc brake system is the answer to lost braking power caused by large camshafts and the solution to valve cover clearance issues. This bolt-on solution from ABS Power Brake mounts to the OEM brake spindles and works with 14" OEM style wheels. These sets include: 10-3/4" cross drilled and slotted rotors, all necessary brackets, and the Electric High Power Master cylinder.

***Note:*** *Shipped double oversize.*

### Electric High Power Master Cylinder

The most innovative system on the market today, this bolt on solution replaces the OEM brake booster/master cylinder with a compact billet aluminum master cylinder that does not rely on vacuum for power assist. Complete with a remotely mounted power supply, this fully self contained unit allows the master cylinder to provide between 1400 and 2500 psi. Measures: 8-3/4" long and 3-1/2" wide.

## 1955-57 Original Offset Wheel Brake Set

This is a true original offset brake set for 1955-57 Chevrolet models. These sets use forged billet aluminum hubs with slip-on drilled and slotted rotors and large GM calipers. Get the disc brake advantage without wheel clearance issues. (Many disc brake sets will push your wheels out 7/8" per side or more, causing clearance and safety concerns.) Includes: stainless steel hoses, all brackets, and hardware.

*Note:* *Shipped overweight.*

| | | | |

TR102111

## 1955-57 Disc Brake Conversion

Four wheel disc brake conversion set that includes: rotors, master cylinder, proportioning valve and brake booster. Available in manual or power brake systems and come standard with plain rotors and black powder coated calipers or upgrade to cross drilled/slotted rotors or add a chrome master cylinder (and booster on power systems). Cross drilled/slotted rotor sets also include braided stainless flex hoses.

*Note:* *With chrome booster/master. Shipped overweight.

## 1955-57 Complete Stock Height Front Disc Brake Set

Improve your vehicle's stopping power and retain stock ride height with a complete front disc brake set. These sets offer the least possible offset using off the shelf rotors (many disc brake sets will push your wheels out towards the fender 7/8" per side or more, causing clearance and safety concerns). Requires minimum 14" disc brake style wheels. These complete sets include: rotors, loaded Big Bore calipers and brackets, brake hoses and hard lines, bearings, seals, and 8" booster set.

*Important:* *This set moves the hub out 3/8" per side from stock location.*

*Note:* *Shipped overweight.*

## 1955-57 Standard Rear Disc Brake Set

Increase stopping power at the rear wheels with this rear disc brake conversion for your original rear end. This bolt-on set includes everything needed for installation: rotors, caliper mounting brackets and axle spacers, loaded calipers, brake hoses, pre-bent hard lines, axle studs, emergency brake cables, and mounting hardware. Installation instructions are included. Available with plain rotors and rubber hose or drilled rotors and stainless steel hose.

*Note:* *Shipped overweight.*

## 1955-57 Complete 2" Drop Spindle Front Disc Brake Set

Improve the braking of your vehicle and lower your front end with a complete front disc brake set with drop spindles. Provides the least possible offset using off the shelf rotors (many disc brake sets will push your wheels out towards the fender 7/8" per side or more, causing clearance and safety concerns). Set includes: rotors, calipers and brackets, hard lines, hoses, 2" drop spindles, bearings, seals, 8" booster, master cylinder, and proportioning valve set. Requires minimum 15" disc brake wheels.

*Important:* *This set moves the hub out 3/8" per side from stock location.*

*Note:* *Stainless steel hoses. Shipped overweight.*

## 1955-57 Front and Rear Big Brake Set

This brake system for 1955-57 models uses cross drilled, gas slotted, zinc washed rotors mounted to an anodized aluminum hub. The calipers mount to the original spindles with custom brackets and feature twin 52mm pistons. Includes all components and hardware to complete installation. Requires 17" wheels or larger.

*Important:* *This set moves the hub out 3/8" per side from stock location.*

*Note:* *Shipped overweight.*

## 1955-57 Rear Big Brake Set

This rear brake system maximizes stopping power at the rear wheels with 12" cross drilled gas slotted and zinc washed rotors. Longer studs attach the rotors to the factory axle while calipers are mounted with custom brackets. Set includes: rotors, calipers, brake lines, brackets, cables, hoses, clips, hardware, and instructions to assure hassle free installation. This set requires disc brake type wheels, 15" diameter or larger. Available with raw steel or red powder coated calipers.

## Remaster Master Cylinder

Baer Brakes introduces the Remaster master cylinder. The Remaster is a direct replacement for GM bolt patterns. Left or right hand port configurations and compact design to make fitment easier. Master cylinders are available in these bore sizes: 15/16" for manual, 1" for power, 1-1/8" for hydroboost brakes. Provides the best balance between pressure and volume for great braking performance with reasonable brake pedal effort. A mount is machined into the bottom of the master cylinder for a Baer billet bracket/adjustable proportioning valve (sold separately).

| PB1108 | with pre-bent lines & bracket | 114.99 ea |

26013783

26013784

## Residual Pressure Valve

A 2 pound valve is used in disc brake systems where the master cylinder is mounted below the horizontal plane of the calipers and fluid drain back occurs from gravity and vibration, thereby causing excessive caliper piston retraction and a longer brake pedal stroke. A 10 pound valve is used with drum brake vehicles to compensate for return spring tension in the drums. Fittings are included.

***2 Pound Valve – Blue***

### B) Parking Brake Pulley Roller and Bolt

Reproduction molded nylon parking brake pulley roller and bolt for 1955-57 models. There are two pulley rollers in brackets on the firewall and provides smooth operation of the front parking brake cable.

TF100343 1955-57 pulley roller..... 11.99 pr
TF100411 1955-57 pulley roller bolt... 5.99 pr

### C) Front Parking Brake Cable

Reproduction front park brake cables for 1955-57 Chevrolet models. Manufactured to exact specifications to ensure an original fit and appearance.

TF100342 1955-57 convertible..... 17.99 ea
TF100341 1955-57 exc. convertible .... 20.99 ea

### D) Parking Brake Clevis Set

Reproduction parking brake clevis set for 1955-57 models. The clevis attaches the front parking brake cable to the idler lever.

TF126151 1955-57 all models..... 22.99 set

### E) Parking Brake Idler Lever

Reproduction parking brake idler lever for 1955-57 models. This lever actuates the rear parking brake cables.

TF126152 1955-57 exc. convertible .... 17.99 ea
TF126153 1955-57 convertible..... 17.99 ea

### F) Parking Brake Cable Spring

Reproduction parking brake cable springs for 1955-57 models. This cable spring provides tension for the idler lever and keeps the parking brake cable system functioning.

TF100339 1955-57 exc. convertible ..... 7.99 ea
TF126156 1955-57 convertible..... 7.99 ea

### G) Rear Parking Brake Cable

Reproduction rear park brake cables for 1955-57 Chevrolet models. Manufactured to exact specifications to ensure a quality part with an original fit and appearance. We have a rear parking brake cable for vehicles with 9" rear ends.

TF100340 1955-57 all models..... 28.99 ea
TF500371 1955-57 with 9" rear end.... 68.99 ea

### H) Parking Brake Equalizer

Reproduction parking brake equalizer set for 1955-57 models. The equalizer tensions the rear parking brake cable and connects it to the idler lever.

TF126154 1955-57 exc. convertible .... 17.99 ea
TF126155 1955-57 convertible..... 17.99 ea

### 1955-57 Parking Brake Spreader Bar

Reproduction parking brake spreader bar for 1955-57 models. Mounts inside the brake drum. 2 required per vehicle.

BRS001 1955-57..... 14.99 ea

### 1955-57 Brake Cable Clips

Parking brake cable clips for 1955-57 models. Replace your missing or rusted brake cable clips with these fine reproductions. Attaches parking brake cable. 1 pair required per vehicle.

BH400113 1955-57..... 9.99 pr

### 1955-57 Parking Brake Roller Set

Reproduction metal parking brake roller set for 1955-57 Chevy models. Includes rollers and hardware. These rollers are located on the outside firewall on 2 brackets and the front parking brake cable rides on them. Replacing these will improve the parking brake operation.

TF138210 1955-57..... 26.99 set

### Parking Brake Cable Boot

Replacement rubber boot for the emergency brake cable on 1955-57 models.

472597 1955-57..... 2.99 ea

### Parking Brake Cable

Complete the installation of your Wilwood parking brake set. These cable sets are compatible with all of Wilwood's internal drum parking brake sets including the Dynalite and Superlite sets. This cable will connect Wilwood's parking brake mechanism to your vehicle's OE equalizer assembly. The cables are simple to install and adjust and the cable housing's black finish disappears under the vehicle for a clean looking undercarriage.

## Push Button Parking Brake

The E-Stopp is the perfect E-brake for stock or custom vehicles. It not only frees up room on the chassis and in the cab but doubles as an anti-theft device when the button is hidden. It works with any kind of brake system that can accept an E-brake cable. Includes the actuator, the control box with switch and wire connectors. It replaces hand, pedal or lever brake and mounts conveniently under the vehicle's carriage. The E-Stopp® attaches directly to your current E-brake cable and has a micro-computer that regulates the proper amount of pressure to your braking system – it will only pull up to 600 lbs before its locked down. The detachable head button allows for an easy install and for visual and audible recognition. For safety, the brake is inoperable while the ignition is on. It can be hooked up to the parking brake warning light. Made in USA.

***Important:*** *If your brake cables are old, we recommend purchasing Lokar's Universal Rear Parking Brake Cables. You have a choice of a black housing BC80B or a Stainless Steel Housing BC80. It will make the installation easier and cleaner.*

## Big Bore Caliper Set

All new design to replace the popular small piston GM metric (S10) caliper. The bore size has been increased (2-3/4" piston) to offer more than a 20% increase in stopping power. This new caliper is universal and can used on the left and right sides. The casting has been cleaned up to make chrome, powder coat, or custom painting look even better. This caliper is lighter, stronger, has more stopping power, and fits any application that uses the small GM metric (S10) caliper. Calipers have all new parts, loaded with standard D154 brake pads, clips, slide pins, banjo bolts, washers, and bleeder screws (banjo and bleeder are 10mm-1.50). These calipers can replace D154 type GM metric calipers (1978-88 mid-size and 1983-02 S10) included on most Mustang II conversions. These are included in CPP Big Bore Caliper Disc Brake Conversions.

***Note:*** *Mounting pin to mounting pin is 5-1/2".*

## BP-10 Brake Pads

Wilwood's exclusive BP-10 is a type of metallic composite friction pad compound. BP-10 exhibits the medium to high temperature friction characteristics of a semi-metallic based race compound with the low temperature response, quiet engagement and lowered dust levels normally associated with ceramic based street performance pads. The combination of these characteristics make it the perfect choice for your street machine, auto crosser, or drag racer.

## 1955-57 OEM Style Steel Wheel

These new OE style Chevy steel wheels designed specifically for the 1955, 1956, and 1957 Chevy. Wheels have sufficient clearance for most basic disc brake kits, so it's a great upgrade over your stock wheels.

***Important:*** *For radial tires use 6" and wider wheels for best fitment.*

***Note:*** *Please test fit wheels for brake and wheel cap clearance before you mount or paint them, Returns for credit or refund must be in new, unaltered condition.*

## High Crown Chrome Lug Nut Set OER AUTHORIZED

OER® Authorized correct reproduction of the original early design 7/16" high crown acorn lug nuts used with all 1967-81 Pontiac Rally I wheels, Rally II, or Honeycomb wheels. The design of the nut has been improved for longevity. Rather than having a chrome or stainless steel cap as originally designed, this nut is solid in design to prevent splitting or damaging the nut when using an impact wrench to tighten lugs.

## "Hex Style" Wheel Center Cap

Designed exactly like the original as a two piece screw-on style cap that includes the ABS center cap, steel retainer and Phillips head screw. Originally installed on American Racing wheels of the 1960's and 70's including the 200S Daisy wheel, T70, and T70R 5-spoke alloy wheels, but they may fit other aluminum wheels of the era that have a 2-1/2" center bore. Center caps are sold individually, 4 required per vehicle. Cap will accept a 1-3/4" emblem.

## "Launcher" Wheel

Blast down the strip with the Rocket "Launcher"! This is a front runner 10-spoke gasser wheel. The 1950's and 1960's, was the Golden Age of Drag Racing, the 10- and 12-spoke Gasser front runners could be found on everything from "run-what-you-brung" roadsters to full blown and supercharged Altereds and Gassers. Back then, the 15" x 4" size fronts were only available as spindle mounts on straight axles. The Rocket "Launcher" preserves the original nostalgic Gasser design and perfects it with a much safer 5 lug bolt-on design. The Rocket Launcher is precision-crafted, designed and is tested to meet or exceed U.S. DOT Requirements and SAE Standards. Available with gray painted center and machined lip, fully polished or "As Cast".

RG156350G RG156350P

## "Igniter" Wheel

At the dawn of the hot rod age, a handful of gear heads in hopped up roadsters streaked across Southern California dry lake beds in a quest for speed and glory. Back in the glory days of vintage racing, these style 5 window kidney bean wheels could be found from the strip/street to the salt flats. Those lake beds eventually became test sites for top secret rocket planes that set world speed records. Now you can prepare your ride for launch with the style that started it all with the Rocket Igniter. This painted Salt Flats style wheel which was inspired by Vintage Drags and Bonneville Dry Lakes Land Speed Racing. Available fully polished, "As Cast" and painted gray centers with machined lip.

RN154225A RN1510375P

## "Injector" Wheel

As soon as Rocket released the Launcher Series "front runner" wheels, Rocket was overwhelmed by enthusiast demand for a hard core traditional hot rod wheel that could be matched with the Launcher for the perfect staggered combo. Rocket's Scientists accepted the challenge and created this wheel to revive this classic design from drag racing's golden age. Reminiscent of the testosterone pumping Fuelie wheels of the 1960's absolutely complete the big and little combo look. Rocket Injector wheels are sculpted to perfection and hold true to the greatest era of Detroit automotive performance. Available fully polished or in its natural "As Cast" finish.

CRAGAR Classic Wheels

# Classic Wheels

## S/S Super Sport Wheel

The Cragar S/S wheel was first introduced in 1964. By 1974 the Cragar S/S had become one of the most popular wheels of the muscle car era. Because it was chrome-plated rather than polished aluminum, it held its shine and was easier to keep clean. Instead of requiring time consuming polishing, the Cragar S/S was ready to show with a simple hosing off and wiping down. Available in a variety of sizes and configurations, these wheels are now back in vogue with muscle car enthusiasts who prefer a custom look, but wish to keep their vehicle "period correct". Chrome aluminum center cap is included with each wheel. Lug nuts sold separately.

| WK55 | 7/16" bulged acorn lugs | 39.99 set |
| WK56 | 1/2" bulged acorn lugs | 39.99 set |

## 32 Series Keystone Klassics

By the mid 1960's, aftermarket wheel swaps were commonplace among car enthusiasts. One of the most widely chosen aftermarket wheels available during the muscle car era was the Cragar Keystone Klassic. Popular for their composite design, the chrome-plating on the Keystone Klassics made them much easier to clean than aluminum or mag wheels because they required no polishing. Cleaning them was a breeze by just hosing them down and wiping them off. These wheels are now back in vogue with muscle car enthusiasts who prefer a custom look, but wish to keep their car "period correct". Chrome aluminum center cap is included with each wheel. Lug nuts sold separately.

CRAGAR Classic Wheels

# Classic Wheels

## 390 Street Pro

The style of the Cragar Street Pro is reminiscent of the Halibrand Sprint which was made famous on the circle track cars of the 60's. The similarities stop there, however. Unlike the Halibrand which was made of magnesium and required constant polishing to retain its shine, the Cragar street pro is manufactured of a chrome-plated steel rim with a chrome-plated aluminum center. They clean up easily and retain their shine with a simple hosing off and wiping down. The price of original 60's era Halibrands has been pushed up by collectors and the new Halibrand wheels are also very pricey. So, if you'd like the look of a legend at about 1/4 of the price, the Cragar Street Pro is definitely the way to go. Chrome aluminum center cap is included with each wheel. Lug nuts sold separately.

American Racing Custom Wheels

## Classic 200S Polished Daisy

One of the most popular wheels ever made by American Racing Equipment was the 200S, also known as the "Daisy Wheel". These wheels were originally cast at a foundry in Portland, Oregon until the late 1970's. The Daisy Wheel is a great alternative to the more common Torque Thrust wheel. Includes center cap. Polished Alloy.

*Note: Special order, must be prepaid.*

American Racing Custom Wheels

## The Outlaw

In the 1980's the modular wheel became the hot ticket on any late 70's or 80's muscle car. The wheels were called modular because they consisted of three elements... an aluminum wheel center (in various styles), an inner rim and an outer rim. The combination of these "modules" allowed for an unlimited range of possibilities when it came to wheel specifications. The true modulars, however, where a bit pricey for the average Joe. This soon led to an influx of modular copies and 1 piece wheels built with a modular look. This modular style wheel is manufactured by American Racing. It is a 1 piece machined alloy wheel with a modular look. It comes clear coated and includes center cap. It's a good choice if you're looking for a period correct wheel design at a great price.

## 1955-57 Crossflow Aluminum Conversion Module

Be Cool radiators are designed to provide the added cooling capacity required by high horsepower engines. These are complete module cooling systems that include the polished aluminum radiator with radiator cap, dual electric fans, vented coolant recovery tank, aluminum fan mounting brackets, electric fan wiring harness, and all necessary installation hardware. These mount in front of the core support and must use short water pumps. Can be used with any engine combination.

*Note: Upper and lower hose, and transmission line modification necessary to use crossflow upgrade. Shipped double oversize.*

## 1955-57 Polished Aluminum Radiator

These polished high-performance radiators are manufactured from TIG welded aircraft grade aluminum with brazed aluminum cores and billet filler necks. Each radiator offers high capacity cooling with louvered fins and 3/8" spacing between core tubes. Designed for direct fit installation. Radiator cap is included.

***Important:*** *All radiators have built-in automatic transmission coolers and can be used in both automatic and manual transmission applications. Core size dimensions listed below.*

***Note:*** *Shipped oversize.* 081

## 1955-57 Aluminum Radiator

Improve the cooling capacity of your engine with Cold-Case performance radiators for 1955-57 Chevy models. Feature an all aluminum construction that is good at dissipating heat and saving energy, with 2 oversized cooling rows, and polished stamped tanks. All Cold-Case radiators are 100% TIG welded, pressure tested, and includes OE style fittings for both automatic and manual applications. All radiators manufactured by Cold-Case are guaranteed to be free from material and workmanship defects for the life of your installation.

***Note:*** *For Straight 6, position mount IN FRONT of radiator support. For V8 position mount BEHIND radiator support.*

## J-B Weld Cold Weld

Made in USA

New!

JB8265

J-B Weld is a great alternative to welding, soldering and brazing. This two part system is mixed at a ratio of 1:1, it forms a permanent bond and can be shaped, tapped, filed, sanded, painted and drilled after curing. Cold weld will bond to most clean and dry surfaces and sets in 1-2 hours and will fully cure in 16-24 hours. Waterproof, petroleum, chemical, and acid resistant when fully cured. Non-toxic and temperature resistant up to 600 degrees F. Cure color is dark gray. Made in USA.

JB8265 2 x 1 oz. tubes ..... 5.49 ea
JB8280 2 x 5 oz. tubes ..... 15.99 ea

## Super Coolant

Purple Ice is a high-performance, synthetic, radiator coolant additive. It reduces engine heat by reducing the surface tension of the radiator fluids for improved heat transfer. Purple Ice fosters optimum coolant flow by helping to prevent formation of scale deposits in the radiator. Purple Ice is recommended for any water/glycol pressurized cooling system, including those using the traditional green silicate based glycols or the newer OAT or HOAT based glycols.

RP01600 12 oz. bottle ..... 11.99 ea
RP12600 case of 12 - 12 oz. bottles .. 129.99 ea

## Coolant System Protector

Impurities in well water can cause rust and corrosion inside the radiator, water pump, and cylinder heads. Over time, this can lead to a loss of cooling efficiency. Joe Gibbs Driven Coolant System Protector stops the adverse effect of hard water to help prevent cooling system damage.

JG1330 12 oz. bottle ..... 8.99 ea

# Cooling Fans

## 1955-57 Fan Blade

Correct reproduction fan blade for all 1955-57 V8 and 6 cylinder engines. Measures 17-1/2" in diameter and is an exact replacement of your missing or damaged original.

***Note:*** *Not for use with a fan clutch.*

| | | | |
|---|---|---|---|
| B1017 | 1955-57 | all 6 cyl and V8 | 42.99 ea |

***Features:***

- Standard Rotation
- 3" and 3-1/4" Dual Clutch Pattern
- Aluminum Blades
- Premium Silver Finish
- Not for Use with Severe Duty Clutch

## OE Style Fan Blades

Reproduction of the original style fan blade used for most Tri-Five models. Our standard replacement fans are manufactured by Flex-a-lite for performance and reliability, these OE style fan blades are to be used with a fan clutch. These rigid fan blades are built to sustain higher RPM than standard OE fans yet conform to most race specs requiring metal belt driven fans. Standard rotation and feature universal mounting pattern.

***Important:*** *This fan blade is not to exceed 4000 RPM.*

***For Use with Fan Clutches***

## Stainless Steel Flex Fans

Flex-a-lite fan blades are designed to flex or flatten out as the RPM's climb, helping to reduce engine drag for better performance and improved fuel economy. Fan features a premium, high tech silver coating that won't degrade or lose its luster in the harsh environment of an engine compartment. Available in standard or reverse rotation along with four different diameters and six or seven blades.

***Important:*** *Must be used with a Flex-a-lite spacer or warranty will be voided. Fans features 5/8" pilot hole with a 1-3/4" to 2-1/2" slotted bolt pattern.*

## Fan Spacers

These are the correct replacement fan spacers for use on various applications. Belt driven fans work best when they are 3/4" to 1" from the radiator's surface. Whenever you convert to a flex fan, you need to add a spacer to bring your new fan back into the "sweet spot" in the fan shroud opening. If necessary, multiple spacers may be used up to a maximum of 3 inches. See the listings below for correct thickness to fit your application.

## Syclone Electric Fan

The amazing Flex-a-lite Syclone electric fan is the most efficient S-Blade fan blade on the market! This quiet fan mounts to the core and can be used to push or pull air through the radiator. The higher torque (17 amp) motor produces 2500 cfm of air flow, making these fans strong enough to replace your belt driven fan and fan clutch to gain more horsepower and torque. The sweep style blades squeeze out the maximum air flow possible. 16-5/8" x 15-3/4" x 4" mount. Universal mounting brackets are included.

| | | | |

| FL398 | 16" fan | ..... | 131.99 ea |

## Black Magic S-Blade

If your vehicle is still running the factory engine driven fan, you're losing vital horsepower and not even getting the full cooling effect you should! By replacing your engine driven fan with an efficient electric unit, you can reduce unneeded drag on your engine to free up horsepower and improve your fuel economy. An engine driven fan can cost up to 17 HP to operate! This universal fit Flex-a-lite electric fan features computer engineered blades that are extremely quiet and efficient, and moves 3000 cfm of air to provide consistent cooling, regardless of engine RPM. Ring fans like this provide better blade support for impact resistance. This electric fan fits vehicles with 16" or wider radiator cores, and requires a mounting surface of 18" x 16" x 4-1/4" for an easy, bolt-in installation. Universal mounting brackets are included.

## Improves Horsepower, Extends Water Pump Life and Cools Faster!

Used as a primary fan, this unit frees up wasted horsepower and increases fuel mileage by eliminating drag caused by your standard engine mounted fan. Also increases water pump life by reducing strain on the water pump bearing assembly. When mounted in front of the radiator and used as an auxiliary fan in addition to your stock belt driven fan, this electric fan provides better cooling in any engine prone to overheating.

# Cooling Fan Components

## 16" Fan Mounting Gasket

SPAL fan gasket is a specifically designed rubber gasket for use exclusively with the 16" fan line. The gasket provides an additional 1/4" clearance from the cooler core and is ideal for mounting our pusher style fans.

***Note:*** *Will not fit SP2056 and SP2057.*

SP2070 16" ..... 16.99 ea

## Cooling System Zinc Anode

Used in heavy-duty and marine applications to protect the cooling systems and its many components from damage due to electrolysis or coolant additive failure/breakdown. The introduction of the zinc anode will protect your cooling system from galvanic action as it "eats" the zinc rather than your cooling system. To be installed in the radiator as a replacement for the drain petcock in radiators that are equipped with a 1/4" NPT hole or any 1/4" NPT hole that is available in the cooling system.

FL32060 ..... 12.99 ea

*MF109*

## Fan Temperature Sending Unit

The temperature sending unit screws into the side of the cylinder head or on the intake manifold to operate the Champion or Challenger Series fans.

MF108 185° for carbureted engines..... 23.99 ea
MF109 195° for fuel injection engines 23.99 ea

## Temperature Sending Wire Cloth Insulator

This 3/16" i.d., 5/16" o.d. replacement cloth insulator, keeps your temperature sender harness well insulated from engine heat. Sold per foot. 2-3 feet required per vehicle.

K0163 ..... 1.99 ft

## Temperature Sending Unit Wiring Set

Reproduction wiring which extends from the front light harness to the temperature sending unit. Includes correct 24" insulator cover and 30" green wire with bullet, blade or button type terminals included.

CA34620 ..... 12.99 set

## Universal Fan Mounting Bracket

SPAL universal fan mounting bracket. It can be used with most aftermarket and OEM radiator types. It is adjustable and features a black powder coated finish. Includes 1 metal strap bracket and 1 plastic foot. Requires 4 for proper installation.

SP2072 ..... 3.99 ea

## Universal Fan Mounting Rod

SPAL universal mounting rod brackets attach directly to the fan shroud. Manufactured from lightweight steel and plastic. Includes mounting clip. 4 required for proper installation.

SP2071 ..... 5.99 ea

## Plastic Mounting Bracket

*SP2074*

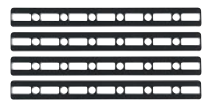
SPAL plastic fan mounting foot bracket. Four mounting brackets are required to complete proper installation. Sold individually. Available in either flat or raised design.

SP2073 flat ..... 1.99 ea
SP2074 raised..... 1.99 ea

## Billet Aluminum Fan Brackets

Use this premium billet aluminum bracket set to mount your 14" or 16" Champion or Challenger Series fan. The set features four adjustable side angle brackets that attach to the side flange of the radiator. Mounting hardware is included.

MF105 billet aluminum fan brackets.. 53.99 set



## Universal Fan Bracket Strip Set

This bracket set is used to mount your Champion or Challenger Series fan. Install the fan's 90 degree mounting feet (included with fan) to these four 7-1/4" long strips for solid support. Mounting hardware is included.

MF104 universal fan bracket strips.... 22.99 set

## Adjustable Fan Temperature Sensor

Turn your electric fan on at whatever your desired temperature is with this adjustable temperature sensor. Sensor adjusts from 180-240 degrees F and helps prevent overheating in performance vehicles when driving at low speeds or when idling for long periods.

346932 180-240 degrees F ..... 42.99 ea

*MF102*

## Electric Fan Controllers

These sets are designed to operate Champion or Challenger Series electric fans. Includes: a heavy gauge wire harness, relay, weatherproof fuse, and electrical connectors.

***Fixed Switch Fan Controllers***

MF102 with 185 degree temp. sender 71.99 set
MF103 with 195 degree temp. sender 71.99 set

MF110 adjustable switch only..... 23.99 set

*SP2068*

## Fan Harness Set

SPAL wiring harness sets are a must-have when installing an electric fan. Designed to safely integrate with OEM wiring harness. Feature a waterproof 40 amp relay, stainless steel switch with optional switched override capability along with printed wires which aid in installation. Thermo switch, fuse holder, connectors 1/2" adapter, and instructions are included.

SP2068 185 degrees harness ..... 64.99 set
SP2069 195 degrees harness ..... 65.99 set

## Dual Fan Wire Harness with Relay

When installing an electric engine cooling fan, a wire harness with a relay is required. This dual fan wire harness with relay will allow safe control of 2 fans while using either an on-off switch or an adjustable temperature sensor. Switch and sensor not included.

40080 wire harness with relay..... 30.99 ea

WARNING: Cancer and Reproductive Harm- www.P65Warnings.ca.gov

# Cooling System

30117

## Dual Fan — Dual Activation Fan Relay Set

The dual activation cooling fan relay set by Painless Performance is exactly what you need to run dual fans off of a thermostatic switch and when your AC is on. Installation takes just a few minutes and your cooling fan will come on when the engine reaches the preset temperature of the thermostatic switch or when the AC is turned on. Set includes: three 40 amp relays with mounting bases, one fuse holder with 70 amp fuse, pre-terminated and printed wire harness, and your choice of thermostatic switch on/off temperatures (thread size: 3/8"-18 NPT), 1/2" NPT to 3/8"NPT adapter, mounting hardware and insulated terminals and detailed instructions.

| | | |
|---|---|---|

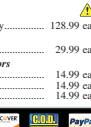
| 30101 | standard | 25.99 set |
| 30130 | weatherproof | 38.99 set |
| 30128 | weatherproof w/195°/185° switch | 66.99 set |
| 30129 | weatherproof w/185°/175° switch | 55.99 set |

## Electric Fan Controller



DD2700

Includes a 70 amp relay and will work with your existing water temperature gauge, operating from the temperature sending unit already installed. A dedicated sending unit can be installed for applications without a water temperature gauge. Operating range of 150-250 degrees F and features fully programmable "fan on" and "fan off" temperature functions to suit any application. This also gives you the capability to leave the electric fan operating after the engine has been shut down for a user adjustable period of time. High-quality LED readout displays current temperature readings.

***Important:*** *Must use second relay, either part #DD2701 30 amp relay or DD2702 70 amp relay for dual fan or 2-speed fan operation.*

| | | |
|---|---|---|

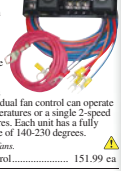
JT60600

## 1983-95 Fan Switch

The JET fan switch turns on the vehicle's cooling fan at a lower temperature than stock for improved performance and engine longevity. Cooler operating temperatures increase horsepower by providing a denser air/fuel mixture. Installation is simple replacement of the stock sensor. The JET fan switch turns on at 195 degrees and turns off at 185 degrees.

| | | | |
|---|---|---|---|
| JT60600 | 1983-92 | all V8 | 47.99 set |
| FK1000 | 1993-95 | 350 LT1 | 69.99 set |

## "Ice Box" Cooling Fan Control



Available as a dual fan/2-speed fan control unit. The sensor is simply tightened under an intake or water pump bolt. It can then be adjusted to your exact preference for on and off temperature. It is equipped with an AC Request system to turn the cooling fan on whenever the AC Compressor engages (this feature does not have to be used). The dual fan control can operate two fans at different temperatures or a single 2-speed fan at different temperatures. Each unit has a fully adjustable operating range of 140-230 degrees.

***Note:*** *With Walker 2-speed fans.*

| | | |
|---|---|---|
| TF900635 | dual control | 151.99 ea |

## Delayed Cooling System Shutdown

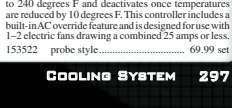
Timed cooling system shutdown features adjustable relays that keep power to the cooling fan and electric water pump (if equipped) when the key is shut off. This reduces the block temperature as much as possible without the risk of killing the battery. This is a timed circuit and does not use a thermostat or other fan control to operate.

| | | |
|---|---|---|
| TF900632 | | 151.99 ea |

## Cooling Fan Shutdown

This cooling fan shutdown kit shuts down your electric cooling fan above 50-60 MPH to improve engine cooling by preventing the electric fan from fighting airflow through the radiator at highway speeds. The unit is adjustable and may be overridden by using the supplied dash mounted toggle switch. This kit is designed to be used with the supplied signal generator which must be installed into the speedometer cable.

| | | |
|---|---|---|
| TF900627 | | 193.99 ea |



## Fan Controller Set

The Mishimoto fan controller set is applicable to any 12V electric fan and includes all necessary components for installation. Features adjustable activation from 150 to 240 degrees F and deactivates once temperatures are reduced by 10 degrees F. This controller includes a built-in AC override feature and is designed for use with 1–2 electric fans drawing a combined 25 amps or less.

## High Flow Water Pumps

For over 20 years, Stewart Components has focused on the development and production of high-performance water pumps, resulting in innovations like special high strength castings, larger flow passages, more efficient impellers, and stronger bearings. Every pump is designed to exacting tolerances for reliable, long-term performance, offering maximum flow with minimum power consumption. These pumps deliver up to 180 gpm (gallons per minute) of coolant flow at 8000 RPM, yet consume just 2.26 horsepower at 4000 RPM! Each Stewart pump is hand assembled and tested at 10,000 RPM.

### Stage 1 Cast Iron Water Pumps

These Stage 1 pumps use brand new, original equipment iron castings are internally engineered for performance and reliability. These water pumps feature a 3/4" heavy-duty bearing. Available for V-belt or serpentine belt systems.

## Electric Water Pump Relay

These relays provide maximum battery voltage to maximize cooling efficiency and to protect the main electrical system from damaging amperage overloads. Choose from a standard water pump relay or a weatherproof water pump relay which is perfect for the harsh weather conditions, this relay set provides complete protection from the elements and ensure reliable and dependable performance. These sets utilize heavy-duty waterproof relays, weatherproof circuit breaker covers and extreme condition weatherproof shrinkable crimp-on terminals.

30132 weatherproof..... 33.99 ea

## Electric Water Pump Drive Set

Electric water pump drive set designed to alleviate the power drag produced by conventional pulley drive units. A heavy-duty electric motor, turning at approximately 1500 RPM, is more than adequate to fulfill cooling needs without draining precious horsepower from the engine. This unit can be turned on and off manually, during a run, or before and afterwards, even with engine off. The set is complete with: motor mounting bracket, extra long bolts, spline pulleys, drive belt, wiring, and switch. You supply the fan of your choice.

## Warning: *concerning water pump pulleys*

Stock replacement, aftermarket stamped steel or cast iron pulleys are not designed to exceed 400 horsepower or 6000 RPM. Using reproduction pulleys on engines in excess of these limits may result in catastrophic disintegration of the pulley causing severe damage to the engine, cooling system and body parts. Classic Industries® assumes no liability for damages caused by improper usage of pulleys. Please be sure to install the pulley properly to avoid damages that could occur from improper installation or exceeding the recommended RPM limitations.

## Water Outlet Restrictors

If coolant travels too fast, it doesn't absorb enough heat inside the engine or properly cool down as it passes through the radiator. That's why it is still important to restrict coolant flow in applications where a thermostat isn't desired. These restrictors come in a set of three with a 5/8", 3/4", and 1" hole to allow adjustment for optimum cooling. Each 2-1/8" plate is made from anodized aluminum and fits under the water outlet in place of the thermostat.

263440 restrictor plates ..... 11.99 ea

# Air Conditioning

## Keep Your Tri-Five COOL with Air Conditioning Sets from Classic!

If you own a 1955-57 Chevy, you can install a complete behind the dash air conditioning system, including a heater and defroster, while preserving an original appearance. Feel the comfort of cool air without sacrificing the original look of your dash! The all-new, Vintage Air Gen-IV, SureFit Tri-Five air conditioning, heating and defrost systems are a giant leap forward in performance aftermarket climate control systems. The Gen-IV systems feature all electronic controls requiring no cables, capillary tube or vacuum connections. They are truly "fly-by-wire" systems that use separate heating and cooling coils for superior performance. The internal air control doors are servo operated to provide infinite dash, floor, and defrost blending.

961057

### System Features:

- Fly-By-Wire Fully Electronic Servo Motor Controls No Cables or Capillary Tube to Route
- Infinite "Just Right Temperature" Air Blending
- Infinite Blower Fan Speed Adjustment (3-Speed Fan for '57)
- High Volume Dehumidified Defrost Mode
- Separate High Capacity Aluminum Plate and Fin Cooling Coils
- Copper/Brass Cuprobraze™ Parallel Flow Heater Coil
- Mounts Behind the Dash
- AC Exits Through Center and Side Vents
- Uses Your Factory System Controls with Vintage Air's Exclusive Electronic Cable Converters
- Flat Steel Firewall Cover Panel (Stamped OEM Style on 57)

## 1955-57 Gen IV Electronic Sure Fit System

Get cool air for your hot ride! This comprehensive set features fully electronic fly-by-wire controls, high capacity plate and fin cooling coil, brass parallel flow heater coil, and an evaporator assembly that mounts completely behind the stock dash. Comes with SuperFlow condenser, compressor, mounting brackets, dryer, safety switch, preformed aluminum lines, firewall cover plate and all mounting hardware... Everything you need to give your classic a modern AC and heating system. These Sure Fit sets are designed to install with minimal drilling and no fabrication required. Available as a complete set with center vent or a complete set with 4 vents (no molded center vent – allows use of 4 individual louver locations).

***Note:** Special order, must be prepaid. Shipped double oversize.*

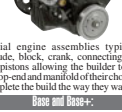
CHEVROLET PERFORMANCE VEHICLES / PARTS / RACING

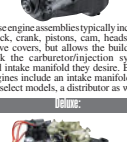
## Levels of Assembly to Choose from . . .

**Partial:**



Partial engine assemblies typically include, block, crank, connecting rods and pistons allowing the builder to add the top-end and manifold of their choice to complete the build the way they want it!.

**Base and Base+:**



Base engine assemblies typically include, block, crank, pistons, cam, heads, and valve covers, but allows the builder to pick the carburetor/injection system and intake manifold they desire. Base+ engines include an intake manifold and on select models, a distributor as well.

**Deluxe:**

The deluxe crate engines are essentially ready to fire up, as they ship with the distributor installed, harmonic balancer bolted on and the carburetor in the crate. All you need to do is put the parts together and go!

**Turn-Key:**

We told our engineers to have some fun and assemble engines the way they think it should be done… we then took their combinations, built them up and put them in a crate that ships right to your dealer. The Turn-Key engines represent an outstanding value, and they are perfect for enthusiasts who have built a chassis and need reliable power to get it down the road.

# Chevrolet Performance Crate Engines

Chevrolet Performance, the pioneer in factory-engineered crate engines offers approximately 50 crate engines, including small block, big block, LS, LT, LSX, and E-Rod engines, offer nearly limitless possibilities for new-school and old-school projects, as well as race cars. Additionally, our engine accessories, transmission components, and controllers help take the guesswork out of powering your project. Our E-ROD emissions compliant systems make several of our crate engines legal for installation in millions of pre-1996 vehicles in California. More than choice, Chevrolet Performance are factory designed and engineered to the same standards as production vehicle components, while additional supplied parts and accessories meet the same rigorous standards. That means you can trust the parts will fit and perform like they were factory installed.

***Important:*** *Not for use in pollution controlled vehicles. Computer controlled vehicles may need updated chips or other modifications.*

***Note:*** *For a limited time, this item ships for only $0.01 (one cent) to any address within the contiguous USA! Add item # LG65 for lift gate service. An additional fee is required for lift gate service on a residential delivery.*

Features a 24-Month / 50,000 Mile Limited Warranty!

### 383ci Stroker Crate Engines

When it comes to cranking serious torque from the classic small block, it's hard to beat the 383 stroker combination, which uses a long 3.800 inch stroke with 4.005 inch bores to generate exceptional low end pulling power and high RPM horsepower. Chevrolet Performance's stroker crate engine is designed for optimal performance where more torque and power are what you are looking for. It features Vortec iron heads with 64cc chambers, and 1.940 intake valves over 1.500 inch exhaust valves. Your choice of partial engine without heads, or Base+ engine with intake manifold. Has right side dipstick.

### Big Torque Stroker! 383/435HP w/Aluminum Heads

Chevrolet's stroker crate engine is designed for optimal performance where more torque and power are what you are looking for. It features lightweight aluminum cylinder heads based on the proven Fast Burn design, with large intake runners and 2.00/1.55 inch valves. Beehive style valve springs enable great high RPM performance and durability, allowing the SP383 to rev higher and build more horsepower. The result is 435 exhilarating horsepower and 445 ft lb of seat tugging torque. Like all of our 350 based crate engines, it is built with a cast iron block with 4 bolt mains. It also features a forged steel crankshaft, an aggressive hydraulic roller camshaft and a high flow aluminum intake manifold. Use the Holley 770 cfm 4 barrel carburetor (part #19170093) to achieve the listed horsepower and torque ratings.

### The Ultimate ZZ 350-based Crate Engine from Chevrolet Performance!

Chevrolet Performance's ZZ6 is one of the most powerful 350 based crate engines in the more than 25 year history of the ZZ crate engine lineup. It uses aluminum Fast Burn cylinder heads equipped with LS style beehive valve springs for greater high RPM performance. Choose from our carbureted designs rated at 405HP and 406 ft lb of torque, or our EFI equipped engines that are rated at 420HP and 408 ft lb of torque… more than any Gen I small block engine ever offered in a production Chevrolet muscle car or Corvette! Chevrolet Performance's ZZ6 EFI crate engine blends the timeless style of the classic 350 small block with modern, electronically controlled port fuel injection. The key is the unique induction system, which features port injectors mounted on an aluminum intake manifold that has the appearance of a carbureted intake. A fuel injection throttle body mounted in place of the carburetor allows a traditional air cleaner to be installed on the engine. The ZZ6 uses an aggressive hydraulic roller camshaft that supports the engine's high RPM airflow capability while maintaining excellent low speed drivability. A simple "Plug and Play" control system rounds out the EFI package to get the engine running in your project without the need for third party tuning.

## Big Block Performance Engines

PERFORMANCE VEHICLES / PARTS / RACING

### 454 Big Block Power!

### 454 Big Block Engines

Our 454 crate engine features a latest generation block casting with 4 bolt main is the engine's foundation and features an all-forged rotating assembly for strength and durability. A hydraulic roller cam provides for excellent drivability and a broad performance range. Your choice of iron rectangular port heads to produce 438HP or aluminum oval-port heads for 469HP. Or, order the partial engine without heads or intake!

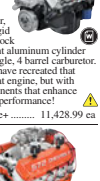
| G13041 | 469HP base+.. | 7947.99 ea |

### ZZ427/480 Deluxe



The L88 427 was the ultimate expression of Chevy's production big block power, combining a rigid iron cylinder block with lightweight aluminum cylinder heads and a single, 4 barrel carburetor. Our engineers have recreated that classic, raspy rat engine, but with updated components that enhance drivability and performance!

| | | |
|---|---|---|
| G13053 | base+ ..... | 11,428.99 ea |

### ZZ572 Rat King

The ZZ572/620 is built with huge 4.560 inch bores and a 4.375 inch stroke to help it deliver 621HP and a stunning 645 ft lb of grunt! This engine is available as a base or deluxe engine. If that's not powerful enough for you, our ZZ572/720R deluxe engine pumps out 727HP and 680 ft lb of torque!

| G13050 | deluxe 727HP | 16,020.99 ea |

### 502 Big Block Engines

To support all that torque, we build this big block with our latest generation block casting with 4 bolt main caps and complemented with an all-forged rotating assembly for exceptional strength and durability. A hydraulic roller camshaft is used for excellent drivability and a broad performance range. We offer iron oval port heads to produce 406HP, iron rectangular port heads for 461HP, aluminum oval port heads for 508HP. Order our base, base+, or deluxe engines, or get the partial engine without heads or intake..., your choice!

## LSX

### LSX376

Chevrolet takes the economical LSX Bow Tie block and combines it with the LS3's high flow L92 style heads and mostly internal components we swap the pistons for forged parts), to create the affordable, high revving LSX376. If your plans are for up to 8psi of maximum boost, we have the LSX376-B8. For up to 15 psi of boost, select the LSX376/B15.

| G13171 | LSX376/B8.... | 7390.99 ea |
| G13170 | LSX376/B15... | 9197.99 ea |

### LSX454

A 454 with the latest technology! Lighter and more compact than an original big block 454. Delivers an output of 627HP and 586 ft lb, but requires no more space under the hood than a production LS engine. All-forged, super tough rotating assembly and features a pair of our deep breathing LSX 6 bolt heads. Includes orange powder coated valve covers with engraved "LSX454" logos.

| | | |

## LT Series Performance Engines

### LT1 6.2L Crate Engines

Introduced on the seventh generation Corvette Stingray, the LT1 6.2L opened the next chapter in the long, historic legacy of the small block engine – and gives your project vehicle a high tech heart transplant with an unprecedented balance of performance and efficiency! The LT1 is architecturally similar to the LS family of engines, but with a unique block casting, cylinder head design, oiling system and more. It also combines advanced technologies including direct injection, Active Fuel Management (cylinder deactivation) and continuously variable valve timing to support an advanced combustion system. Our LT1 6.2L crate engine is rated at 455-460 horsepower and 455-465 ft lb of torque; and it is offered with a wet sump oiling system. A controller specially designed for retrofit application using an automatic transmission is available.

*Note: Chevrolet Performance control kits do not utilize the AFM components on this crate engine.*

***Installation Notes:***

- Engines shipped with high-pressure direct-injection fuel pump installed
- Assembly does not include any electronics
- Use LT1 Controller Kit, P/N 19303137 for engine operation. Kit includes electronic throttle pedal, which is required for throttle input to the ECU
- Intended for pre-1976 street vehicles, or any off-road vehicle
- Not intended for marine applications
- Front-End Accessory Drive Kit, P/N 19329990, can be ordered separately
- For LT1 G13165 (GM P/N 19355405) use P/N 12678595 FEAD w/o air and P/N 12678596 AC add-on kit
- 8 bolt crankshaft flange
- Shipped with 14" flexplate

| G13165 | wet sump..... | 8471.40 ea |

### LT4/650HP Crate Engines

As the heart of the Corvette Z06, the supercharged LT4 6.2L SC is the most powerful engine ever offered in a regular production Chevrolet. It features a more efficient, more compact 1.7L Eaton R1740 TVS supercharger, which spins at up to 20,000 RPM. That's enough to generate more than 9 pounds of boost and help produce 650 horsepower and 650 ft lb of torque. The LT4 is based on the same Gen V small block architecture as the LT1 engine, with several unique features designed to support its higher output and the greater cylinder pressures created by forced induction. They include Rotocast A356T6 aluminum cylinder heads that are stronger and handle heat better than conventional castings, lightweight titanium intake valves and stronger forged aluminum pistons. Your choice of dry sump or wet sump versions.

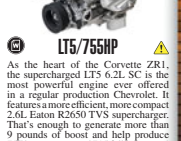
|---|---|---|
| G13167 | dry sump.... | 16,301.99 ea |
| G13168 | wet sump.... | 14,817.99 ea |

### LT5/755HP



As the heart of the Corvette ZR1, the supercharged LT5 6.2L SC is the most powerful engine ever offered in a regular production Chevrolet. It features a more efficient, more compact 2.6L Eaton R2650 TVS supercharger. That's enough to generate more than 9 pounds of boost and help produce 755 horsepower and 715 ft lb of torque!

# Hi Performance Crate Engines from ATK ⚠

ATK has been building engines for over 75 years and has assembled a line of dyno-proven crate engine packages to power up your car. Classic Industries® dedication to bringing the highest quality products on the market, combined with ATK's industry leading warranty make these Chevy ATK crate engines an obvious choice. Available in various configurations including a complete, "Ready-to-Run" package for those who want to bolt their engine into their GM muscle car and hit the road. For the ultimate in Chevy crate engines, there's no better source than ATK from Classic Industries®.

***Important:*** *Not for use in pollution controlled vehicles. Computer controlled vehicles may need updated chips or other modifications*

***Note:*** *Special order, prepaid only. Not eligible for No Fault Gold Warranty Program.*

ATK by VEGE
ENGINES • HEADS • TRANSMISSIONS

**Features a 24-Month/Unlimited-Mile Warranty!**

## Three Stages of Performance!

### From Tried-and-True . . .

**Stage 1:**

The ATK Stage 1 package is the basic building block of performance. Each Stage 1 motor comes with oil pump, oil pan, timing cover, and valve covers installed. Choose your own intake, fuel system, and ignition components.

**Stage 2:**

The ATK Stage 2 package builds on the basics of the Stage 1, adding the distributor, a performance intake manifold, water pump, flexplate, and harmonic balancer. Add the carburetor and spark plugs and ignition wires of your choice.

### . . . To Tire-Melting!

**Stage 3:**

The ATK Stage 3 package is high-performance in a crate, with oil pan and pump, spark plugs and wires, timing and valve covers, distributor, performance intake manifold, carburetor, fuel pump, water pump, flaxplate, and balancer all preinstalled.

## Stage 1 Performance Engines

### 350/292HP TBI

The 350ci TBI engine produces 292 HP and 373 lbs of torque in a late style hydraulic roller block. Includes: oil pump, black painted oil pan and chrome timing cover and valve covers installed. Just add your own fuel and ignition components.

***Note:*** *Price includes a core charge of $310.00.*

***Specifications:***
**HP:** 292
**Torque:** 373
**Engine Type:** Chevy small block V8
**Displacement:** 350ci
**Block:** 4 bolt main
**Crankshaft:** OE 1 piece seal
**Bore/Stroke:** up to 4.030 x 3.480
**Rods:** powder metal
**Pistons:** hypereutectic
**Rings:** moly
**Camshaft Type:** HYD roller
**Camshaft Lift:** .435 in x .462 ex
**Duration @ .50:** 198 in x 210 ex
**Cylinder Heads:** OE cast iron TBI
**Chamber Size:** 67cc
**Valve Size:** 1.94 in x 1.50 ex
**Intake Runner Volume:** OE
**Compression Ratio:** 9.6:1
**Rocker Arms:** 1.5:1 stamped steel
**Recommended Fuel:** 92 octane
**Ign. Timing:** 36 degrees total advance
**Max RPM:** 5800

HP31 350/292HP..... 3236.99 ea

### 350/351HP Vortec

The 350ci Vortec engine produces 351 HP and 400 lbs of torque when used with a performance carburetor and manifold combination. Includes: oil pump, black painted oil pan and chrome timing cover and valve covers installed. Just add your own fuel and ignition components.

***Important:*** *Not intended for EFI.*

***Note:*** *Price includes a core charge of $310.00.*

***Specifications:***
**HP:** 351
**Torque:** 400
**Engine Type:** Chevy small block V8
**Displacement:** 350ci
**Block:** 4 bolt main/roller
**Crankshaft:** OE 1 piece seal
**Bore/Stroke:** 4.030 x 3.480
**Rods:** powder metal
**Pistons:** hypereutectic
**Rings:** moly
**Camshaft Type:** HYD roller
**Camshaft Lift:** .405 in x .502 ex
**Duration @ .50:** 220 in x 224 ex
**Cylinder Heads:** OE cast iron Vortec
**Chamber Size:** 64cc
**Valve Size:** 1.94 in x 1.50 ex
**Intake Runner Volume:** OE
**Compression Ratio:** 9.6:1
**Rocker Arms:** 1.5:1 stamped steel
**Recommended Fuel:** 92 octane
**Ign. Timing:** 36 degrees total advance
**Max RPM:** 5800

HP32 350/351HP..... 3343.99 ea

### 383/320HP TBI Stroker

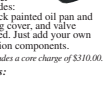
This 383ci TBI stroker engine produces 320 HP and 395 lbs of torque with an upgraded hydraulic roller cam. Includes: oil pump, black painted oil pan and chrome timing cover, and valve covers installed. Just add your own fuel and ignition components.

***Note:*** *Price includes a core charge of $310.00.*

***Specifications:***
**HP:** 320
**Torque:** 395
**Engine Type:** Chevy small block V8
**Displacement:** 383ci
**Block:** 4 bolt main
**Crankshaft:** nodular steel 1 piece seal
**Bore/Stroke:** 4.030 x 3.750
**Rods:** 4340 I-beam
**Pistons:** hypereutectic
**Rings:** moly
**Camshaft Type:** HYD roller
**Camshaft Lift:** .435 in x .462 ex
**Duration @ .50:** 198 in x 210 ex
**Cylinder Heads:** OE cast iron TBI
**Chamber Size:** 67cc
**Valve Size:** 1.94 in x 1.50 ex
**Intake Runner Volume:** OE
**Compression Ratio:** 9.5:1
**Rocker Arms:** 1.5:1 stamped steel
**Recommended Fuel:** 92 octane
**Ign. Timing:** 30 degrees total advance
**Max RPM:** 5800

HP05 383/320HP..... 4318.99 ea

### 350/375HP with Alum. Heads



Produces 375 HP and 415 lbs of torque with the help of Pro-Filer aluminum heads and a hydraulic roller cam lifter combo. Includes: oil pump, black painted oil pan and chrome timing cover, and valve covers installed. Just add your own fuel and ignition components.

***Note:*** *Price includes a core charge of $310.00.*

***Specifications:***
**HP:** 375
**Torque:** 415
**Engine Type:** Chevy small block V8
**Displacement:** 350ci
**Block:** 4 bolt main/roller
**Crankshaft:** OE 1 piece seal
**Bore/Stroke:** 4.040 x 3.480
**Rods:** powder metal
**Pistons:** hypereutectic
**Rings:** moly
**Camshaft Type:** HYD roller
**Camshaft Lift:** .528 in x .536 ex
**Duration @ .50:** 220 in x 224 ex
**Cylinder Heads:** Pro-Filer aluminum
**Chamber Size:** 64cc
**Valve Size:** 2.02 in x 1.60 ex
**Intake Runner Volume:** 195cc
**Compression Ratio:** 10.0:1
**Rocker Arms:** 1.6:1 steel
**Recommended Fuel:** 91 octane
**Ign. Timing:** 36 degrees total advance
**Max RPM:** 5800

HP89 350/375HP..... 3860.99 ea

### 383/379HP Vortec Stroker

This 383ci Vortec stroker performance engine produces 379 HP and 461 lbs of torque when used with a performance carburetor and manifold combination. Includes: oil pump, black painted oil pan and chrome timing cover and valve covers installed. Just add your own fuel and ignition components.

***Note:*** *Price includes a core charge of $310.00.*

***Specifications:***
**HP:** 379
**Torque:** 461
**Engine Type:** Chevy small block V8
**Displacement:** 383ci
**Block:** 4 bolt main/roller
**Crankshaft:** Scat nodular steel 1 piece seal
**Bore/Stroke:** 4.030 x 3.750
**Rods:** Scat 4340 I-beam
**Pistons:** hypereutectic
**Rings:** moly
**Camshaft Type:** HYD roller
**Camshaft Lift:** .495 in x .500 ex
**Duration @ .50:** 220 in x 224 ex
**Cylinder Heads:** OE cast iron Vortec
**Chamber Size:** 64cc
**Valve Size:** 1.94 in x 1.50 ex
**Intake Runner Volume:** OE
**Compression Ratio:** 9.5:1
**Rocker Arms:** 1.5:1 stamped steel
**Recommended Fuel:** 92 octane
**Ign. Timing:** 36 degrees total advance
**Max RPM:** 5800

HP33 383/379HP ..... 4572.99 ea

# Hi Performance Crate Engines from ATK

## Stage 2 Performance Engines

### 350/408HP with Alum. Heads

This 350ci engine produces 408HP and 414 lbs of torque on pump gas with the help of an Edelbrock Performer intake manifold and aluminum heads. Includes: an oil pan, valve covers, timing cover, distributor, intake manifold, water pump, flexplate, and balancer installed.

*Note: Price includes a core charge of $310.00.*

*Specifications:*
**HP:** 408
**Torque:** 414
**Engine Type:** Chevy small block V8
**Displacement:** 350ci
**Block:** 4 bolt main/roller
**Crankshaft:** Scat nodular steel 1 piece seal
**Bore/Stroke:** 4.030 x 3.480
**Rods:** Scat 4340 I-beam
**Pistons:** hypereutectic
**Rings:** moly
**Camshaft Type:** HYD roller
**Camshaft Lift:** .528 in x .536 ex
**Duration @ .50:** 220 in x 224 ex
**Heads:** Edelbrock aluminum
**Chamber Size:** 70cc
**Valve Size:** 2.02 in x 1.60 ex
**Intake Runner Volume:** 185 cc
**Compression Ratio:** 10.0:1
**Rocker Arms:** 1.6:1 roller tip
**Recommended Fuel:** 92 octane
**Ign. Timing:** 36 degrees total advance
**Max RPM:** 5800

HP34M 350/408HP .. 5772.99 ea

### 383/429HP Alum. Head Stroker

This 383ci stroker engine produces 429 HP and 459 lbs of torque on pump gas with the help of an Edelbrock Performer manifold and aluminum heads. Includes: an oil pan, valve covers, timing cover, distributor, intake manifold, water pump, flexplate, and balancer installed.

*Note: Price includes a core charge of $310.00.*

*Specifications:*
**HP:** 429
**Torque:** 459
**Engine Type:** Chevy small block V8
**Displacement:** 383ci
**Block:** 4 bolt main/roller
**Crankshaft:** Scat nodular steel 1 piece seal
**Bore/Stroke:** 4.030 x 3.750
**Rods:** Scat 4340 I-beam
**Pistons:** KB forged
**Rings:** moly
**Camshaft Type:** HYD roller
**Camshaft Lift:** .528 in x .536 ex
**Duration @ .50:** 220 in x 224 ex
**Heads:** Edelbrock RPM aluminum
**Chamber Size:** 70cc
**Valve Size:** 2.02 in x 1.60 ex
**Intake Runner Volume:** 185cc
**Compression Ratio:** 10.0:1
**Rocker Arms:** 1.6:1 roller tip
**Recommended Fuel:** 92 octane
**Ign. Timing:** 36 degrees total advance
**Max RPM:** 5800

HP36M 383/429HP.... 5772.99 ea

### 454/525HP Big Block

This 454ci engine with performance aluminum heads produces 525 HP and 550 lbs of torque on pump gas. Includes: an oil pan, valve covers, timing cover, distributor, performance intake manifold, water pump, flexplate, and balancer installed.

*Note: No mechanical fuel pump provision. Price includes a core charge of $450.00.*

*Specifications:*
**HP:** 525
**Torque:** 550
**Engine Type:** Chevy big block V8
**Displacement:** 454ci
**Block:** OEblock 1991-95 GenV 4 bolt main
**Crankshaft:** OE cast externally balanced
**Bore/Stroke:** 4.310 x 4.000
**Rods:** OE steel 6.135" stock bolts
**Pistons:** hypereutectic **Rings:** moly
**Camshaft Type:** HYD roller
**Camshaft Lift:** .595 in x .601 ex
**Duration @ .50:** 225 in x 235 ex
**Heads:** Edelbrock aluminum E-Street
**Chamber Size:** 110cc
**Valve Size:** 2.19 in x 1.88 ex
**Intake Runner Volume:** 290cc
**Compression Ratio:** 10.1:1
**Rocker Arms:** 1.7:1 full roller
**Recommended Fuel:** 92 octane
**Ignition Timing:** 34-36° total advance
**Max RPM:** 5800

HP451PM 454/525HP 7462.99 ea

## Stage 3

### 383/480HP Stroker

This 383ci street/strip stroker engine with 480+ HP and 470+ lbs of torque in a "Ready-to-Run" pump gas package. Includes: oil pan, timing cover, valve covers, distributor with spark plugs and wires, a performance intake manifold, performance carburetor, fuel pump, water pump, flexplate, and balancer all preinstalled.

*Note: Price includes a core charge of $310.00.*

*Specifications:*
**HP:** 480+
**Torque:** 470+
**Engine Type:** Chevy small block V8
**Displacement:** 383ci
**Block:** 4 bolt main/roller
**Crankshaft:** Scat 4340 forged
**Bore/Stroke:** 4.040 x 3.750
**Rods:** Scat 4340 H-beam
**Pistons:** forged
**Rings:** moly
**Camshaft Type:** HYD roller
**Camshaft Lift:** custom
**Duration @ .50:** custom
**Cylinder Heads:** Pro-Filer aluminum
**Chamber Size:** 64cc
**Valve Size:** 2.02 in x 1.60 ex
**Intake Runner Volume:** 195 cc
**Compression Ratio:** 10.1:1
**Rocker Arms:** 1.6:1 full roller
**Induction:** carbureted
**Recommended Fuel:** 92 octane
**Ignition Timing:** 36 degrees total advance
**Max RPM:** 5800

HP55C 383/480HP..... 8289.99 ea

## Stage 3 Performance Engines

### 540/600HP Dart Big Block

This ATK monster Stage Three 540ci Dart Big "M" engine produces over 600 HP and 600 lbs of torque in a dyno-tested and tuned package. All Stage Three motors are dyno proven, built from top quality parts and includes oil pan, timing cover, valve covers, distributor with spark plugs and wires, a performance intake manifold, performance carburetor, fuel pump, water pump, flexplate, and balancer all preinstalled.

*Specifications:*
**HP:** 600+
**Torque:** 600+
**Engine Type:** Dart Big "M" Block V8
**Displacement:** 540ci
**Block:** Dart 9.8" deck height
**Crankshaft:** Scat 4340 forged steel
**Bore/Stroke:** 4.500 x 4.250
**Rods:** Scat H-beam
**Pistons:** forged
**Rings:** moly
**Camshaft Type:** HYD roller
**Camshaft Lift:** custom
**Duration @ .50:** custom
**Heads:** Dart Pro Series 1
**Chamber Size:** 119cc
**Valve Size:** 2.25 in x 1.88 ex
**Intake Runner Volume:** 325cc
**Compression Ratio:** 10.1:1
**Rocker Arms:** 1.7:1 full roller
**Induction:** carbureted
**Recommended Fuel:** 92 octane
**Ignition Timing:** 36 degrees total advance
**Max RPM:** 5800

HP42C 540/600HP... 12,998.99 ea

### Supercharged 350/500HP

This 350ci supercharged engine produces 500+ HP and 494 lbs of torque in a "Ready-to-Run" package. Includes: oil pan, timing cover, valve covers, distributor with spark plugs and wires, a performance intake manifold, performance carburetor, fuel pump, water pump, flexplate, and balancer all preinstalled.

*Note: Price includes a core charge of $310.00.*

*Specifications:*
**HP:** 500+
**Torque:** 494
**Engine Type:** Chevy small block V8
**Displacement:** 350ci
**Block:** 4 bolt main/roller
**Crankshaft:** 4340 forged steel
**Bore/Stroke:** 4.030 x 3.480
**Rods:** H-beam
**Pistons:** forged
**Rings:** moly
**Camshaft Type:** HYD roller
**Camshaft Lift:** .535 in x .560 ex
**Duration @ .50:** 231 in x 239 ex
**Cylinder Heads:** aluminum
**Chamber Size:** 70cc
**Valve Size:** 2.02 in x 1.60 ex
**Intake Runner Volume:** 170cc
**Compression Ratio:** 8.5:1
**Rocker Arms:** 1.6:1 full roller
**Induction:** Weiand 177 supercharger/carb
**Recommended Fuel:** 92 octane
**Ignition Timing:** 36 degrees total advance
**Max RPM:** 5800

HP38C 350/500HP.... 10,708.99 ea

### 488/565HP Stroker

This 489ci stroker big block offers 565 HP and 595 lbs of torque in "Ready-to-Run" package. Includes: oil pan, timing cover, valve covers, distributor with spark plugs and wires, a performance intake manifold, performance carburetor, fuel pump, water pump, flexplate, and balancer all preinstalled.

*Note: No mechanical fuel pump provision. Price includes a core charge of $450.00.*

*Specifications:*
**HP:** 565
**Torque:** 595
**Engine Type:** Chevy big block V8
**Displacement:** 489ci
**Block:** OEblock 1991-95 GenV 4 bolt main
**Crankshaft:** Scat nodular steel
**Bore/Stroke:** 4.310 x 4.250
**Rods:** Scat 4340 Forged I Beam ARP bolts
**Pistons:** Forged Small Dome
**Rings:** moly
**Camshaft Type:** HYD roller
**Camshaft Lift:** .635in x .640ex
**Duration @ .50:** 237 in x 245 ex
**Heads:** Edelbrock aluminum E-Street
**Chamber Size:** 110cc
**Valve Size:** 2.19 in x 1.88 ex
**Intake Runner Volume:** 290cc
**Compression Ratio:** 10.1:1
**Rocker Arms:** 1.7:1 Full roller
**Recommended Fuel:** 92 octane
**Ignition Timing:** 34-36° total advance
**Max RPM:** 5800

## 1955-57 Modernized Engine Mounts

Once these frame mounts are welded in properly, you'll be able to fit any Chevrolet V8 without additional welding! Starting with a small block but have hopes for a big block some day? Simply flip the frame mounts from side to side to move your future motor forward to clear any distributor you can throw at it. Dreaming of a LS motor on a small block budget? Pick these up now and you'll be ready when the day comes! Order a set of LS adapters and your ready to race with no additional welding. Easily replaceable high-quality urethane bushings will hold up to 1000 horsepower. All Grade 8 hardware and detailed instructions included.

***Note:*** *572 and some large aftermarket blocks may require modification to the mounts.*

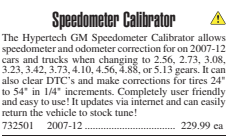
# Specialty Engine Tools

## Power Programmer

This CARB-approved power programmer can give your 2007-12 gas or diesel vehicle an extra 10 to 40 horsepower. The Max Energy GM power programmer allows countless adjustments from shift points to speedometer calibrations for a wide range of gear ratios and tire sizes. It allows up to 1000 RPM adjustments of the rev limiter, the ability to change the top speed limiter and can be used to read and clear DTC's. It updates via internet and can easily return the vehicle to stock tune, if necessary.

32501 2007-12 ..... 384.99 ea



## Speedometer Calibrator

The Hypertech GM Speedometer Calibrator allows speedometer and odometer correction for on 2007-12 cars and trucks when changing to 2.56, 2.73, 3.08, 3.23, 3.42, 3.73, 4.10, 4.56, 4.88, or 5.13 gears. It can also clear DTC's and make corrections for tires 24" to 54" in 1/4" increments. Completely user friendly and easy to use! It updates via internet and can easily return the vehicle to stock tune!

732501 2007-12 ..... 229.99 ea

## Vacuum Switch Socket

New!

Removes and installs ported vacuum switches on most domestic and some foreign vehicles as well. Includes special 7/8" socket with cutaway slot to provide clearance for parts. Provides adequate depth to fit over switch. Heat treated alloy steel. Use with 3/8" square drive.

Y12000 ..... 12.99 ea

## Max-Tuff Assembly Lube

ROYAL PURPLE SYNERGY

Ultra tough, synthetic lubricant designed for use in reassembling repaired equipment. Utilizes durable synthetic molecules that adhere to metal surfaces and create an extremely strong barrier between surfaces minimizing the possibility of metal-to-metal contact while providing excellent protection against rust and corrosion to both ferrous and non-ferrous metals. Formulated with Royal Purple's proprietary Synslide additive technology.

RP01335 8 oz. bottle ..... 18.99 ea
RP12335 case of 12 ..... 215.99 cs

## AutoTroubleshooter

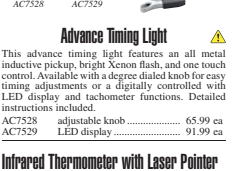
This ingenious tool features automatic reverse polarity indication, automatic zero adjustment for Volts and amps for accurate measurements and overload protection on all ranges. Performs all standard electrical tests for on-car and bench troubleshooting. Locate faulty wiring, test electrical components, engine sensors, ignition and fuel systems and your starting/charging system.

AC7677 ..... 55.99 ea

## AutoAnalyzer Digital Multimeter

Pinpoint problem area and determine which components are faulty! Performs standard electrical tests for on-car and pm bench to locate faulty wiring, test electrical components, engine sensors, ignition and fuel systems and starting/charging system voltage. Features 19 ranges and automatic zero adjustment for Volts, amps, and battery tests, as well as an easy-to-read backlit LCD. Includes: color coded detachable test leads, alligator clips, and a comprehensive user manual.

AC7665 ..... 35.99 ea



AC7528 AC7529

## Advance Timing Light

This advance timing light features an all metal inductive pickup, bright Xenon flash, and one touch control. Available with a degree dialed knob for easy timing adjustments or a digitally controlled with LED display and tachometer functions. Detailed instructions included.

AC7528 adjustable knob ..... 65.99 ea
AC7529 LED display ..... 91.99 ea

## Infrared Thermometer with Laser Pointer

Aim this IR thermometer at the target, press a button, and read the temperature display. Verify the temperature in your AC system or find an overcharge in your electrical systems. System On-Chip technology creates a compact, lightweight design with a measurement range of -58 degree F to +932 degree F (-50 degree C to +500 degree C). Includes two AAA batteries and belt holster.

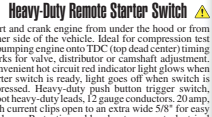
AC7876 ..... 65.99 ea

## Remote Starter Switch

Made in USA

Allows one person to start or crank engine from under the hood. Ideal for compression test or bumping engine onto TDC (top dead center) timing marks for valve, distributor or camshaft adjustment. Power tool type trigger switch for regular use with medium currents. Heavy-duty Neoprene leads. 10 amp, medium current clips open to 1/2". Protective rubber boots prevent electrical shorts. Ergonomic handle. One-year warranty. Made in USA.

AC7853 ..... 12.99 ea



Made in USA

## Heavy-Duty Remote Starter Switch

Start and crank engine from under the hood or from either side of the vehicle. Ideal for compression test or bumping engine onto TDC (top dead center) timing marks for valve, distributor or camshaft adjustment. Convenient hot circuit red indicator light glows when starter switch is ready, light goes off when switch is depressed. Heavy-duty push button trigger switch, 5 foot heavy-duty leads, 12 gauge conductors, 20 amp, high current clips open to an extra wide 5/8" for easy hook up. Protective rubber boots prevent electrical shorts. Soft, non-slip rubber grip. Made in USA.

AC7854 ..... 52.99 ea

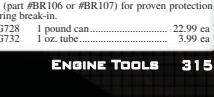
Made in USA

## Remote Starting Switch

Excellent tool allowing easy engine starting from under the hood. Features heavy gauge, rubber covered copper wire. Simply depress the button to jog or start the engine. Made in USA.

Y20750 ..... 17.99 ea

Joe Gibbs Driven Racing Oil



AG728 AG732

## Engine Assembly Grease

Used by Joe Gibbs Racing during the assembly of every NASCAR Sprint Cup and Nationwide Series engine. Unique formula dissolves in oil. Can be applied to ring lands in order to prevent micro welding during initial break-in. Combine with the Joe Gibbs BR break-in oil (part #BR106 or #BR107) for proven protection during break-in.

## 1993-02 Performance Modules

JET Performance modules offer the most horsepower available for your car when using a donor engine and computer system from a crate engine! Add up to 23 horsepower instantly with simple, plug-in installation! Only JET Performance programming provides exclusive, full range dynamic spectrum tuning of the air/fuel ratio, ignition advance, transmission and various other parameters. Each program is track and dyno-tested to ensure the most possible horsepower and drivability from each application. 50 state smog legal!

### Stage 1

Is for stock or mildly modified vehicles. Fuel and timing curves are modified for optimal performance and mileage using less expensive, lower octane fuels. Programming is designed to burn fuel at peak efficiency, which results in improved performance and mileage. Daily drivers can use lower cost regular fuel for potential mileage gains, but for optimal performance gains use of mid-grade or better is recommended.

| JT10114 | 2001-02 | AT | 249.99 ea |

### Stage 2

Is designed for the performance enthusiast, the Stage 2 features more aggressive programming to make the most horsepower and torque available. Fuel and timing curves are extensively modified for peak performance and drivability. Requires use of 91 octane fuel, 180 degree thermostat and free flow exhaust. Also works well with aftermarket intake systems, mass air sensors, TBI spacers, etc.

## 1999-02 LS1 Performance Programmer

The JET Performance Programmer lets you take control and program your own vehicle computer just the way you like it. Modify air and fuel ratios, ignition timing, shift points, shift firmness, speed limiter, and rev limiter settings. Exclusive JET Tri-Power tuning technology lets you tune for economy using lower cost regular fuel, or tune for performance using mid-grade or premium fuels. All three modes are designed to operate the engine at peak efficiency to maximize horsepower and mileage for the given octane level. The programmer will also correct your speedometer and turn off the ABS system trouble light if you change tire size or gear ratios, modify the temperature that the cooling fan turns on and bypasses the skip shift mechanism on manual transmissions. A built in scan tool reads and clears diagnostic codes when your check engine light comes on, saving you a trip to the dealer.

## Power Chips

Hypertech power chips increase performance and, in most cases, increase fuel efficiency in stock, unmodified vehicles. Simply replace the stock chip with the Hypertech Power Chip. Street Runner chips are designed to maximize street performance. Thermo Power chips are designed for high heat environments and high competition driving.

***Important:*** *All Hypertech chips require premium unleaded fuel of 91 octane or higher. Not legal for emissions controlled vehicles. Check local laws and regulations before ordering.*

***Note:*** *Thermo Master chips require a low temperature thermostat (160 degrees or 180 degrees recommended). Special order only. 9th digit of VIN required when ordering.*

## Motor Coater Engine Refinishing Set

KBS Motor Coater engine paint set has everything you need to do a superior job when you paint your engine, and even includes the step-by-step instructions needed to help you do it right. Motor Coater is easy to apply, offers superb coverage and yields a self-leveling professional looking finish brushed or sprayed. These engine enamels provide deep, rich pigmented colors for excellent coverage. Your engine will be a show stopper at this DIY price... too bad it's kept under the hood! First, KBS special engine cleaner and degreaser eliminates all dirt, grease and oil. Next, use the RustBlast to dissolve rust and prep the metal. Then, rustproof and top coat your engine with KBS Motor Coater. All of this comes in one convenient set with thinner, gloves, a brush and a stir stick.

## LS3 6.2L/376ci

The LS3's aluminum block is filled with a sturdy reciprocating assembly that combines with L92 type rectangular port heads to deliver 10.7:1 compression. A high lift, hydraulic roller cam complements the LS3's tremendous airflow capability and enhances its broad torque curve. Out of the crate, our LS3 includes 430HP. If that's not enough, our LS376/480 includes a hot cam and bigger valves to dial up 495HP and 473 ft lb torque. Last, but not least, the most powerful naturally aspirated LS3 we offer is the third choice on the list, our LS375/525 that comes out of the crate with 525HP and 486 ft lb of torque!

## LS376/515 Carbureted

Using the LS3 engine as its foundation, the LS376/515 crate engine adds Chevrolet Performance's racing derived ASA Hot Cam and a carbureted intake system to produce 533 horsepower at a high revving 6600 RPM and 477 ft lb of torque at 5200 RPM. It's a great engine for resto-mod classic and late model muscle cars. The assembly includes an SS oil pan and LS3 cylinder heads, with high flow, rectangular port intake passages, as well as our unique, spider-type carburetor intake manifold. It's a great engine for resto-mod classic and late model muscle cars.

## DR525 LSX Racing Engine

The DR525 is designed as the spec engine for NMCA's LS Stock racing class in the LSX Showdown Challenge Series. The 6.2L (376 cubic inches) naturally aspirated engine is rated at 525 horsepower with 498 ft lb torque, and features several tamper-proof seals to ensure class compliance. And while it is the spec engine for the LS Stock class, it is legal in other NMCA/LSX Showdown Challenge classes and other drag racing series. It is offered with 2 part #s: G13176 includes Chevrolet Performance's fourth generation F-Body oil pan while G13177 includes the muscle car oil pan for earlier models... your choice!

***Important:*** *This Chevrolet Performance racing crate engine is purpose built for racing only, and has no warranty.*

## E-Rod Crate Engine Systems

Chevrolet Performance's lineup of E-Rod high-performance crate engine systems are eligible for installation in millions of 1995 and earlier smog controlled vehicles. E-Rod crate engines have been granted an official California Air Resources Board (CARB) E.O. number. That means you can build the car or truck of your dreams with 50 state street legal power! E-Rod crate engines include complete emissions equipment, engine controller and harness needed to get your engine running.

***Important:*** *Additional components necessary to complete assembly and get vehicle running.*

## ZL1 Supercharger

Get more power out of your LS engine with a 1.9L supercharger lifted straight from the ZL1 production line! This supercharger is original equipment for the 6.2L LSA powered 2012-13 Camaro ZL1 and will bolt onto any LS engine using rectangular L92 heads. Produces approximately 9 pounds of boost on a 6.2L engine.

***Important:*** *Requires a liquid cooling system with heat exchanger, coolant pump, and coolant tank, as well as a high pressure high volume fuel pump, and reprogramming or replacing the engine management system. Not legal for highway use on pollution controlled vehicles in all 50 States.*

***Note:*** *Special order, must be prepaid.*

| | | |
|---|---|---|
| G19300 | | 8398.99 ea |

## LSA Supercharger

Add horsepower to any LS engine with rectangular port L92 style heads! This is the same 1.9L supercharger found on the 6.2L LSA, in the CTS-V and Camaro ZL1 with a slightly different intercooler cover. A pair of Eaton four lobe high helix rotors makes this unit extremely efficient at lower RPM but sustains the output into high RPM. On a 6.2L engine it produces about 9 lbs of boost but boost pressure may vary with engine displacement and compression ratio. Set includes: intake, fuel injectors, cast cover, intercooler, front pulley, throttle body, and gaskets. Installation requires proper tuning of the vehicle computer system along and a high pressure, high volume fuel pump. Intercooler requires a liquid cooling system consisting of a heat exchanger, a coolant tank and a coolant pump.

***Important:*** *May not be legal for highway use in all 50 states.*

## Front Runner Drive

Vintage Air's front runner drive features include a block mounted truss CNC-machined from T-6061 billet aluminum available in a bright finish with machined finished truss or black hard coat finish. The black hard coat sets include black hard coated pulleys and black anodized bracket, clutch and tensioner covers. Exclusive Front Runner spring tensioner provides continuous SAE-spec static and dynamic belt tensioning for OEM quality belt life. Hard coated aluminum pulleys are precision machined, reduce weight and wear like steel. Pulley sizes are engineered and matched for optimum component speeds. This is a very compact package that does not have any of the accessories hanging way past the engine. Each drive uses the compact GM Type II power steering pump (if applicable), high-performance water pump and GM 140 amp alternator. The Vintage Air TiteFit line/compact compressor package is perfect for that nice tight and clean look.

***Important:*** *Not compatible with any LT1 engine.*

***Note:*** *Shipped oversize.* 981

## 1955-57 LS Engine Conversion Headers

Made in USA

These headers are designed for the LS engine mounting sets and are available in a variety of sizes and styles. A silver ceramic coating keeps temperature under control and provides long-lasting good looks. Each set is designed to clear the factory AC box, power steering, and power brakes. Mid-length headers have a 3" ball socket collector, while the long tube headers have a slip-on collector. Limited lifetime manufacturer's warranty. Made in USA.

***Important:*** *Column shift vehicles may require shifter linkage modification for header clearance. Minor trimming of the bellhousing may be required when installing long tube headers with 4L80E and 4LS5E transmissions.*

***Note:*** *Headers are designed specifically for use with Muscle Rod conversion sets and the LH8 oil pan, they will not fit correctly with other conversions. Shipped oversize.*

## Aluminum LS Thermostat Housings

Made in USA

Billet Specialties aluminum thermostat housings for Chevy LS with 1-1/2" radiator hose. These water necks are precision machined from 6061-T6 billet aluminum to accommodate LS style thermostats and seals. Available in straight or 15 degree swivel designs and in polished or black anodized finishes. Made in USA.

## LS1, LS2, LS3, LS6 Two Piece Timing Chain Cover

This 2 piece aluminum timing chain cover will fit any LS1, LS2, LS3, LS6 engine. With 2 pieces you can change cams without taking off the harmonic balancer. Includes mounting hardware. You can reuse the cover gasket. Sold as a set. Available in polished or black.

***Important:*** *Set does not include the crankshaft seal. Use G13214 LS Front Crankshaft Seal – All LS Engines.*

***Note:*** *Covers will not fit the LS7 engines.*

# LS Conversion Components

## LS1 and LS6 Intake Manifold

Boost horsepower and low end torque with this intake manifold from BBK. Designed for LS1 and LS6 engines, this intake improves the Z06 Corvette intake design with an 85mm straight through throttle inlet with rounded low restriction intake runners to allow an 18-24 horsepower increase on a base LS1 engine. Features a titanium powder coat finish, uses factory rubber o-ring gaskets, and includes mounting hardware with instructions. Made in USA.

***Emissions Note:*** **This BBK performance part is NOT currently C. A. R. B. (California Air Resources Board) emissions certified. CARB EO is pending. This Part cannot be shipped to California.*

## LS Cast Iron Exhaust Manifolds

These Hooker cast iron exhaust manifolds are designed to hug the engine block closely so they will work with a variety of LS engine swaps or as a replacement. The contoured shape increases flow and performance over stock manifolds with a traditional look. Fits all LS engines up to 500 horsepower except LS7 and LS9 and have been proven to fit 1970-81 F-Bodies, 1982-88 G-Bodies, and 1968-72 A-Body vehicles. Made from hi-silicon ductile iron for years of durability and corrosion resistance. Available in a range of different finishes.

***Important:*** *Not CA.R.B. certified and may not be legal for use in some states on pollution controlled vehicles.*

| G9363 | 2003-06 | C/K truck | 169.99 ea |

## 1998-02 LS1 Alternator Mounting Set

Eliminate excess belt length and tensioner. This set mounts the alternator with a shorter, manually adjusted belt. To use smaller pulleys, simply change belts. Black anodized aluminum construction. Includes hardware. For use with electric water pump without ps or AC.

| | | | |
|---|---|---|---|
| BX50004 | 1998-02 | | 189.99 set |

## Alternator Conversion Adaptor

This easy to use alternator conversion harness is designed to adapt your wire harness to upgrade your charging system with a later model, internally regulated alternator. This harness adapts external regulator harnesses to 1985 and earlier "SI" type alternators

| | | | |
|---|---|---|---|
| CA27555 | ext. to int. reg | | 18.99 ea |

## Adjustable LS Motor Mount Adapter Set

Adapter allows the installation of LS engines into 1958-72 full size models using a standard 3 bolt motor mount. Position the engine in either the original location or 1"-2" forward to allow for transmission bellhousing clearance. Mounting locations allow proper driveline alignment and an additional 1/2" of adjustment. Includes: engine mounting plates, adjuster plates, hardware, and instructions.

***Note:*** *Some aftermarket motor mounts may require mounting holes enlarged to 7/16". Some OEM style mounts may require additional clearance of the cast rubber portion to allow full front to back adjustment of the adapter. Not for use with "clamshell" type mounts.*

| | | | |
|---|---|---|---|
| A9750010 | adapter | | 171.99 set |

## Fitrite™ LS Engine Mount Set

This set is made to assist you with swapping a LS series engine into your 1955-57 Tri-Five models. These mounts are designed to move the engine forward and backward for ease of fitment. The long adapter set allows the engine to move from 1/2" rearward (great for oil pan to crossmember clearance) up to 3-1/2" forward for a full 3-1/2" of travel with a completely custom range of positions. The short adapter set is a smaller, more compact version, moving the engine from 2-1/4" forward to 3-3/4" forward for a total of 1-1/2" of travel. This exclusive design no-weld brackets are CNC laser cut steel and features a durable black powder coated finish. FitRite™ sets include POLYPLUS™ engine mounts.

***Note:*** *The short adapter works well with the low mounted air compressor.*

***Long Adapter***

| | | | |
|---|---|---|---|
| LS700200 | 1/2" rear – 3-1/2" forward | | 129.99 set |

## LS1/LS6/Vortec Engine Mount Plates

These engine mount plates are needed when installing an LS1, LS6, or Vortec engine into a vehicle that was originally equipped with a small block engine. Available in a 4 piece set that includes the plates and motor mount pads or the plates can be purchased separately. Includes Grade 8 hardware.

| | | | |

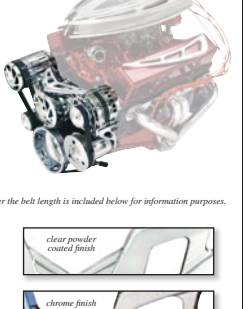
# March Performance Pulleys

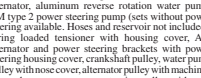
## "Ultra Drive" Front Mount Serpentine Sets ⚠

This system has been designed to mount accessories below the valve covers and between the width of the heads. Precision CNC-machined from 6061-T6 aluminum for strength and perfect fit, hard coated on high wear areas and clear coated to eliminate polishing in those hard to reach places to look great for years to come. Set is designed to fit Ram Jet, TPI, Single and multi-carb engines and includes an oversize crank pulley that aids in driving your alternator, AC and water pump at idle, where it counts.



*Note: Serpentine belts are not included in any of the sets, however the belt length is included below for information purposes. All sets include short reverse water pump.*

MARCH Performance Pulleys



## Serpentine Belt Custom Sets

Includes non-polished AC compressor, non-polished 140 amp alternator, aluminum reverse rotation water pump, GM type 2 power steering pump (sets without power steering available. Hoses and reservoir not included), spring loaded tensioner, AC, alternator, and power steering brackets, crankshaft pulley, water pump pulley, power steering pulley, alternator pulley with standard steel bladed fan, wing cross emblem, AC line fittings, and Grade 8 mounting hardware.

## "Revolver" Serpentine Sets for Short Water Pump ⚠

This serpentine conversion offers the same combination of style and low price as the popular Style Track alternator, AC and power steering set, but cool Revolver styling. The highly styled 1 piece bracket provides a rigid support for the alternator and AC compressor. A separate bracket allows the option of power steering or no power steering. The Revolver uses a unique, easy to use belt tension adjustment tool. Once the belt tension has been set, the adjustment tool is easily removed and stowed away until the next time the belt requires adjustment. The Revolver offers a much cleaner appearance as a result. Includes all instructions and hardware. Features maintenance-free clear, black or black onyx powder coated or chromed. Includes chrome AC compressor, chrome 105 amp alternator, aluminum reverse rotation water pump, GM type 2 power steering pump (hoses and reservoir not included) or chrome Saginaw pump, AC, alternator and power steering brackets, crankshaft pulley, water pump pulley, AC compressor nose cover, alternator pulley with machined fan and nose cover, power steering pulley and cover, belt tensioning tool, and Grade 8 mounting hardware.

***Note:*** *No cylinder head accessory holes needed for mounting. Serpentine belt is not included with any set. Length of belt is listed below, and is also included in the instructions.*

## Small Block Revolver Serpentine Sets

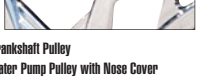
# March Performance Pulleys

## "Mid Mount" Alternator and Power Steering Serpentine Conversion Ultra Sets for Long Water Pump

Simple yet exceptionally styled, this new "Mid Mount" Alternator and Power Steering serpentine set from March Performance offers an exciting new look. A new higher mounted power steering pump bracket helps clear the steering gear box in some vehicles. Retains your standard rotation water pump. Available with performance pulleys which increase horsepower or high water flow ratio pulleys for increased cooling. CNC-machined from solid billet 6061-T6 aluminum for a spectacular machined finish with perfect fit and extra high strength. Designed for a great appearance from any angle, these brackets are even machined on the engine facing side. All billet pulleysand brackets have a "No Polishing" maintenance-free clear powder coating. Also available black powder coated.

***Note:*** *Serpentine belts are not included with sets. Length of belt is listed below, and is listed in the instructions also. All alternator belts are 6 rib. Shipped overweight.*



- Crankshaft Pulley
- Water Pump Pulley with Nose Cover
- Alternator Pulley with Fan and Nose Cover
- Alternator Bracket with Relocation Arm
- Alternator Bracket Adjustment Tool
- Stainless Steel Tensioning Rod

## Serpentine Systems

Made in USA

All American Billet serpentine sets are a great way to clean up any engine compartment. You have a choice of machined finished, polished, or black silverline – black anodized with machined highlights for an aggressive modern look. Sets include high-performance accessories and are made in the USA. Brackets and pulleys are made from 6061-T6 aluminum.

## Front Runner Drive

Vintage Air's Front Runner Drive provides the ease of a modern serpentine belt system. This engineered package solves issues with premature belt failures caused by mechanical tensioning, excessive belt length runs, awkward component placement, and cylinder head mount bolt variations. Features include a block mounted truss CNC-machined from T-6061 billet aluminum available in a bright finish with machined finished truss or black hard coat finish. The black hard coat sets include black hard coated pulleys and black anodized bracket, clutch and tensioner covers. Exclusive Front Runner spring tensioner provides continuous SAE-spec static and dynamic belt tensioning for OEM quality belt life. Hard coated aluminum pulleys are precision machined, reduce weight and wear like steel. Pulley sizes are engineered and matched for optimum component speeds. This is a very compact package that does not have any of the accessories hanging way past the engine. Each drive uses the compact GM Type II power steering pump (if applicable), high-performance water pump and GM 170 amp alternator. The Vintage Air TheFit Line/compact compressor package is perfect for that nice tight and clean look.

***Important:*** *On Chevy ZZ4 engine, composite timing cover mounting bolt must be modified or timing cover may be replaced with steel cover (GM part #12523317 or equivalent), for standard short water pump clearance. Not compatible with any LT1 engine.*

***Note:*** Shipped oversize. 081

## Warning Concerning Crankshaft Pulleys

Stock replacement, aftermarket stamped steel or cast iron pulleys are not designed to exceed 400 horsepower or 6000 RPM. Using reproduction pulleys on engines in excess of these limits may result in catastrophic disintegration of the pulley causing severe damage to the engine, cooling system and body parts. Classic Industries® assumes no liability for damages caused by improper usage of pulleys. Please be sure to install the pulley properly to avoid damages that could occur from improper installation or exceeding the recommended RPM limitations.

## Performance V-Belt Pulley Sets

March Performance underdrive V-belt pulleys can free up 12-15 horsepower at the rear wheels. March performance pulleys eliminate belt throwing and reduce accessory drag. They also aid in cooling by increasing water pump speed. Designed with "no polishing needed" clear powder coated. All sets include: crank pulley, water pump pulley, and alternator pulley with cover.

***Important:*** **Requires 1989's style water pump for clearance or any aftermarket water pump.*

## V Drive Pulley System

Complete V Drive systems for small block Chevrolets with power steering pump with attached billet aluminum reservoir or attached plastic reservoir or power steering for remote reservoir, with or without AC, and alternator. Includes all new components: Tuff Stuff short water pump, Maval power steering pump, Sanden style SD7 AC compressor, Powermaster 140 amp alternator, Gates V-belts, and all necessary stainless steel fasteners. Polished sets include a polished finish AC compressor and alternator. Colored sets come with natural cast finished components. Specify finish wanted, the finishes offered are in bright polished, gloss black anodized, gloss black powder coated, clear anodized, clear coat and matte black powder coated finish. All brackets and pulleys are made of CNC-machined billet aluminum.

*Note: *Please specify finish when ordering: C – gloss black powder coated, E – clear coat, F – matte black. Shipped overweight.*

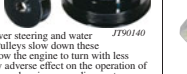
## 1985-97 Underdrive Pulley Set

The JET Underdrive Pulley Set reclaims lost horsepower and mileage by reducing the drag placed on the engine to drive the accessories such as the air conditioning, power steering and water pump. The JET Pulleys slow down these accessories to allow the engine to turn with less effort without any adverse effect on the operation of AC, power steering, charging or cooling systems. Installation consists of simple bolt-on replacement of the stock pulleys. Sets include: 2 pulleys, hardware, complete instructions and part number for new serpentine belt (most sets will require use of smaller size belt).



JT90140

***Important:** Applications are based on Camaro model engines. Belt is not included with sets.*

# Harmonic Balancers

1620101 1720101 1720111 1800101

## Performance Harmonic Damper

Fluidampr performance harmonic balancers and dampers contain no rubber or elastomers. Instead, they are filled with a viscous silicone based liquid that doesn't wear out after time. The liquid absorbs virtually all torsional harmonic vibrations at almost any frequency and constantly adjusts itself for optimum performance at all RPM ranges. Fluidampr products are made from CNC-machined and balanced steel with a black zinc chromate finish. All dampers are SFI 18.1 certified and are designed to last a lifetime without being rebuilt. Made in USA.

***Note:*** *Small block dampers are not for use with 1992 and later LT1 engines.*

## Chevrolet Harmonic Damper

Pro/Race high-performance harmonic dampers are direct replacements for factory cast iron units which may fracture or disintegrate at high RPM. Pro/Race dampers are ideal for the additional torque loads from belt driven superchargers. The STREET damper features special splines to enhance bonding between the elastomer, inner hub, and outer ring to prevent any outer ring radial movement, perfect for engines making between 350 to 400 horsepower. On the RACE damper, the elastomer is bonded to the steel hub and ring to endure sustained high RPM conditions. Externally balanced balancers feature weights bolted in place which may be removed for neutral or internally balanced application. Internally balanced balancers can be used on an external application simply by ordering the correct engine specific weights and bolting them in place.

***Important:*** *Pro/Street or Pro/Sport Counterweights are not interchangeable with Pro/Race Counterweights.*

***Note:*** **HD100016 and HD100019 are NOT drilled to accept counterweights.*

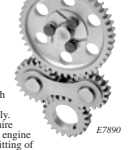
## Accu-Drive® Camshaft Gear Drives

Edelbrock

Made in USA

Replace Your Stock Timing Chain with a Precision Gear Drive System from Edelbrock! The Accu-Drive® camshaft gear drive set replaces a stock timing chain with a precision gear drive system. The gear drive can be easily installed. Just replace the stock crank and camshaft sprockets with Accu-Drive® gears and slip in the idler assembly. Most Accu-Drives require no modifications to the engine block, although some fitting of the axles and front cover may be required. The Accu-Drive® gear system transmits power from the crankshaft gear to a full floating main idler gear which drives the camshaft gear. A unique feature of the Edelbrock Accu-Drive® system is the ability of the main idler gear to float to an optimum position between the crankshaft and camshaft gears.



E7890

***Important:*** *Not for stock Chevy hydraulic roller lifter cam equipped engines. Accu-Drive® gears are not recommended for use above 7000 RPM or on computer controlled vehicles with knock sensors. On some late model small block engines, it will be necessary to check clearance behind the cam gear at the engine block at the 12 o'clock position. Make sure gear clears oil gallery bosses on block when in the most rearward position. Grind or machine block for clearance.*

| | | | |
|---|---|---|---|
| E7890 | 1957-95 | small block | 250.99 set |
| E7891 | 1965-90 | big block | 265.99 set |

## Small Block Chevy Timing Belt System

Get more performance out of your small block with these Magnum timing belt systems! These systems absorb crankshaft harmonics. The Magnum belt drive system is ideal for street performance and budget minded race applications.

***Note:*** *Minor block modification may be required.*

**Dry Timing Belt System**

This system is more durable and more accurate than traditional timing chains or aftermarket gear drive systems, especially at high RPM. Make quick timing modifications at the track without the hassle of removing a timing chain cover! Includes: main plate, gears, belt, shims, mounting hardware, and instructions.

| | | |
|---|---|---|
| 61100 | dry timing belt system | 600.99 set |
| 61100B | replacement timing belt | 68.99 set |

**Wet Timing Belt System**

This system keeps the timing accurate with virtually no fluctuation. It is also more durable than traditional timing chains or aftermarket gear drive systems, especially at high RPM. Designed to work with billet timing cover #21101 but works with most late model flat covers. Includes: upper and lower timing gears, belt, cam timing bushings, shims, cam button, mounting hardware, and instructions.

# Make a Big Statement with Die-Cast Air Cleaner Emblems!

Install these beautiful chrome-plated die-cast emblems for an upscale custom look for your big block! These emblems capture the appearance of the air cleaner decals originally installed on big block vehicles of the era. Manufactured from die-cast metal, these colorful triple chrome-plated emblems are specifically designed to fit the contours of the stock 1967-73 big block 14" diameter open element air cleaner lid. Installation is simple! Each emblem is adhesive backed for easy peel-and-stick application.

## 11" Stainless Steel Air Cleaner

This air cleaner is perfect when high-performance is desired but space is at a premium. 5-1/8" flange fits all popular 4 barrel carburetors. Your choice of 4 element heights are offered to fit a wide variety of applications. 3/4" vent kit is included. Total height listed below is the minimum clearance needed above the carburetor flange. Top is made of long-lasting polished stainless steel while bottom is an attractive chrome finish.

## Air Cleaner Elements

A K&N air filter element can be washed up to 25 times before it is considered no longer serviceable. Even though the filter may not show outward signs of deterioration, it should be replaced after 25 washings. Excessive washings will deplete the tiny cotton hairs that crisscross the openings. The resulting damage will allow tiny dust particles to pass through. The elements listed below are designed for use with our K&N chrome and stainless steel air cleaner assemblies.

# K&N PERFORMANCE FILTERS

## PRECHARGER Filter Wrap

The K&N PRECHARGER is a specially designed filter wrap made to extend the length of time between cleanings. A great idea when operating off-road or in very dusty conditions. They are made from a durable polyester material containing uniform micron openings. The PRECHARGER will stop small particles, yet add little restriction to the airflow of the filter. The PRECHARGER is designed to be run dry and can be cleaned with K&N Filter Cleaner. Double stitched elastic openings keep the PRECHARGER securely in place. Each comes silk screened with the K&N logo. Choose from black, blue, red, or yellow.

***Important:*** *Please specify black, blue, red, or yellow when you place your order.*

## XStream Air Flow Top and Assembly

If your engine still has its stock style filter element and air cleaner assembly, it most likely is not realizing its full horsepower potential. Restrictive elements combined with the turbulence inside a stock filter housing tend to choke off critical airflow. Put an end to this dilemma with K&N's XSTREAM air flow top or the XSTREAM air flow assembly and feed your engine all the air it can use. The result will be maximum horsepower! Choose from the complete assembly or just add the top to your existing round filter. Either way, you'll enjoy the benefits of a high flow element that cuts turbulence. Cleanable and reusable just like our other filters. Total height listed below is the minimum clearance needed above the carburetor flange.

## Air Filter Oil & Clean/Degreaser Set!

K&N Air Filter Oil and Cleaner/Degreaser is the only oil and cleaner/degreaser specially formulated to work in combination with the cotton fabric in the K&N filter. The use of any other could void the filter's warranty and potentially harm the air filter's cotton material. The cleaner/degreaser works to dissolve the dirt buildup and old oil filter oil and can be washed away with water. It is environmentally friendly, and when used as directed, is safe on paint, chrome, cast aluminum, plastic, rubber and vinyl. Each set includes oil, cleaner/degreaser, and service decal. Your choice of 6-1/2 oz. aerosol spray or 8 oz. squeeze oil bottle is offered.

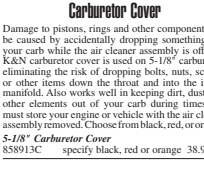
C676 14" x 3" element..... 8.99 ea
T2287 14" x 5" element..... 16.99 ea



## Carburetor Cover

Damage to pistons, rings and other components can be caused by accidentally dropping something into your carb while the air cleaner assembly is off. The K&N carburetor cover is used on 5-1/8" carburetors eliminating the risk of dropping bolts, nuts, screws, or other items down the throat and into the intake manifold. Also works well in keeping dirt, dust, and other elements out of your carb during times you must store your engine or vehicle with the air cleaner assembly removed. Choose from black, red, or orange.

***5-1/8" Carburetor Cover***

858913C specify black, red or orange 38.99 ea

## Air Filter Sealing Grease

K&N Air Filter Sealing Grease seals the air cleaner assembly, eliminating the possibility of dirt, dust and other particles from entering your carburetor from between the air filter element and air cleaner assembly. This is especially important if you will be operating your vehicle off-road or in extremely dusty conditions such as construction sites, etc. K&N Air Filter Sealing Grease resists heat and will not melt or run off.

990704 6 ounce tube..... 9.99 ea

## 1958-90 Clear Vue Valve Covers

Clear Vue valve covers show off your valvetrain to make any custom motor unique. These covers are manufactured from a heat resistant clear material that will not warp, haze, or become yellow over time. Oil sheets off after high RPM in about 30 seconds. These valve covers are NHRA certified for Sportsman Gas Class vehicles. Sets include: 2 clear valve covers, 2 stainless steel deflector plates, and 2 chrome breather caps with grommets. Made in USA.

***Important:*** *Spreader bars are recommended for installation.*

***Note:*** *Bolts and spreader bars are not included.*

## Vintage Series SB Valve Covers

Vintage Series valve covers are designed to fit all 1977-86 small block Chevrolet engines with perimeter bolt patterns. The die-cast aluminum construction ensures superb detail and reduces the chance of warped valve cover flanges and oil leaks. The valve covers stand 3-1/2" tall with pre-installed internal oil baffles on emission compliant models. The oil fill and PCV grommets are also included.

***Note:*** *If your engine has non-standard valvetrain components, such as a high lift camshaft, roller-tip rocker arm, higher lift ratio rocker arms, stud girdles, etc., there may be insufficient clearance.*

## LS Aluminum Slant Edge Valve Covers

Cast aluminum slant edge valve covers for GM LS V8 motors. PROFORM has developed a full lineup of valve covers that will give your stock LS a totally personalized look. These valve covers are taller than stock valve covers, and can accommodate a wide variety of large valvetrain applications. The covers are available in different styles, including raised and recessed emblems. Unique mounting studs and oil restricting baffles are included. Threaded mounting holes for integrated ignition coil brackets are included. The passenger side valve cover has an oil filler hole (we suggest oil filler cap part #D141630). PROFORM also suggests using Fel-Pro valve cover gaskets for best seal, our part #A9700110. Valve covers are sold in pairs.

***Important:*** *LSX-DR owners will need to purchase a LSX-DR mounting bolt kit part #D66330.*

***Note:*** *The following rocker configurations will require the valve cover to be slightly modified: Jesel part #KSS-317070, KSS-317575, and KSS-318080.*

## Bow Tie Chevrolet Valve Covers

These valve covers are made of heavy gauge steel, 20% thicker than typical aftermarket valve covers, greatly reducing the likelihood of leakage around the valve cover flange area caused by fasteners being over torqued. All valve covers bear the powerful Bow Tie and Chevrolet emblems. Valve covers are sold in pairs, equipped with air breather and PCV grommets.

## Valve Cover Specialty Grommet

This is a rubber oil baffle and breather grommet all in one! The angled slots on the bottom and foam insert stop oil seepage and act as a baffle. Installs on all steel valve covers with 1-1/4" diameter breather holes. Utility plug manufactured in rubber for valve covers with 1-1/4" diameter holes. Will plug up the opening hole when not using PCV or oil filler cap applications.

## Dual Flow Adjustable PCV Valve

Does your PCV valve match your engine? Stock PCV valves are not designed to work with modified high-performance engines due to their altered vacuum profiles. A mismatched PCV valve can cause oil to push out of your breathers, cause oil leaks, or contaminate your oil with piston blow-by gasses. Now you can manage your crankcase pressure with this fully 6061-T6 billet aluminum dual flow PCV valve. Once adjusted, the valve will provide sufficient crankcase ventilation during both idle and cruise. Valve fits 3/4" i.d. valve cover grommets and 3/8" i.d. PCV lines. An available adapter allows for installation on 3/8" i.d. inline applications. PCV valve set includes valve, vacuum gauge fitting, Allen wrench, and detailed instructions. Made in USA.

*Note: Not intended for use on pollution controlled vehicles.*

## 1955-93 PCV Valve

PCV valve conversion kit is designed for 1955-61 Chevy's with 265 and 283 ci engines that have factory draft tube. It can also be used on 1958-64 Chevrolet 348 and 409 ci engines. Commonly complained about by owners are fumes coming from the draft tube. This PCV kit is designed to reroute those fumes back inside the motor. Features a brass fitting.

PCV76

PCV159

## 1966-93 PCV Valve

PCV valve is a vacuum-controlled metering device that regulates the flow of crankcase fumes in the positive crankcase ventilation system by allowing more flow at high speed than at low speed. These valves act as a system shutoff in case of engine backfire to prevent an explosion in the crankcase. It is recommended to replace your PCV valve during every tune-up.

| PCV159 | 1991-93 | 305, 350 ..... | 7.99 ea |

## Universal Crankcase Evacuation System

This universal crankcase evacuation system is designed for high-performance and racing applications. It replaces the standard PCV to air cleaner system by connecting to the exhaust system allowing exhaust pressure to pull the from the crankcase. Includes two simple pipes with one way valves that weld to the header collectors and are connected to dual valve cover breathers.

*Note: Not for use on pollution controlled vehicles. For valve covers with 1-1/4" holes. Hoses are not included.*

| | | |
|---|---|---|

# Valve Cover Hardware

## 1955-57 AC Valve Cover Bolts

Vehicles with factory air conditioning had special valve cover bolts on the passenger side valve cover. These bolts were used due to the size of the evaporator box, which made it difficult to access the lower two bolts for removal and installation of the valve cover.

TF700621 1955-57..... 15.99 pr

## 1969-74 Valve Cover Bolt Set

This set includes reproductions of the original "M" bolts which were stock on all 1969-74 models that used the black powder coated aluminum or the polished aluminum valve covers. These bolts were slightly longer than the standard valve cover hold down bolts which allowed correct installation onto the cylinder heads. Each retaining bolt features the original "M" in circle markings for an authentic appearance. Set of 8.

## Chevy V8 Engine Fastener Set

Dress your engine with OEM style bolts in stainless steel or high polished chrome. Each set will contain the correct bolts for the application you choose. The bolts included in the small block set are: The intake manifold, valve cover, water neck, water pump, timing cover, fuel pump, oil pan distributor hold down, and exhaust manifold.

***Note:*** *For use with single or dual exhaust without headers.*

## Engine Bolt Set

Each engine bolt set contains 12 groups of fasteners: intake manifold bolts, valve cover bolts, thermostat housing bolts, alternator bracket bolts, distributor bracket bolts, motor mount bolts, oil pan bolts, coil bracket bolts, header bolts, front cover bolts, water pump bolts and fuel pump bolts. Your choice of Hex head or 12 point bolts in black oxide or polished stainless steel finish.

# Intake Manifolds

## Performer EPS Vortec Manifold

Available for small block Chevrolet with Vortec or Edelbrock E-Tec cylinder heads, the performer EPS dual plane manifold is optimized to deliver superior performance with Edelbrock square bore Performer Series or Thunder Series AVS carburetors. The runner design is "tuned" for peak torque around 3500 RPM on a 350 inch engine and it's ideal for off idle through 5500 RPM. Dyno-tests showed gains averaging 5+ ft lbs of torque from 3000 to 4500 RPM for more performance where you need it most.

E27161 SB Vortec, natural finish..... 283.99 ea

*H8120*

## 1955-86 Black Ceramic Coated Intake

This carbon black ceramic coated intake provides the added benefits of corrosion protection, heat resistance and ease of cleaning. These dual plane, square bore, non-EGR manifolds fit 262-400 small block Chevrolet engines. The Street Warrior manifold is 3-1/2" in the front and 4-1/2" in the rear and has a power band from idle – 5500 RPM. The Speed Warrior manifold is a high rise that is 4.19" in the front and 5.27" in the rear and has a power band from 1500-6700 RPM.

## 1958-90 Intake Manifold Gaskets

These gaskets are matched to Edelbrock Performer, Performer RPM and Victor Jr. cylinder heads and manifolds and designed to optimize performance and flow. New micropore synthetic fiber composite construction makes these gaskets impervious to most chemicals with high recovery under compression. They will conform to imperfections on sealing surfaces at lower flange pressures and include a nitrile bead around each port opening for a durable seal. Made in USA.

***With 1.28" x 2.09" Ports***

## Stovebolt Thermostat Housing Spacer

This thermostat housing spacer adds a water outlet to the front of the engine just by installing it. Made from 3/8" CNC-machined aluminum with a barbed brass fitting. Made in USA.

***Note:*** *Gaskets and mounting hardware not included.*

4010003 spacer with water outlet ..... 41.99 ea

*AJ5315*

## Fenton Dual Intake Manifold

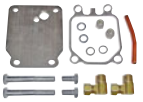
This classic Fenton dual carburetor intake manifold set adds power and performance to any 1953-62 235 and 261 cid 6 cylinder engine. Set includes: manifold, fuel lines, and fuel line fittings.

AJ5315 ..... 229.99 set

***Fenton Intake Linkage Set***

This set includes all of the necessary linkage components to complete the installation of a Fenton 6 cylinder dual carburetor intake system. All components are made of high-quality stainless steel. Set includes: the bellcrank, pushrod to carbs, return spring clip, and accelerator return spring.

AJ5316 ..... 77.99 set



## Fenton Intake Manifold Heater

The Fenton intake manifold heater set directs heat to the intake manifold for better fuel atomization. The heater is designed to be used with the Fenton intake manifold AJ5315 and Fenton dual headers AJ5312 on 1953-62 models with 235 and 261 cid 6 cylinder engines. Set includes: intake plate, gasket, hardware, tubing, and fittings for installation.

AJ5317 ..... 58.99 ea

*109216* *109999*

## Stovebolt Intake Manifold Heat Plate

Installing aftermarket exhaust manifolds or headers on 194-292ci 6 cylinder engines requires an intake manifold heating system for proper performance. This manifold heater plate using temperature regulated coolant circulated through the cooling system, rather than extremely hot exhaust gas. CNC-machined from 3/8" heavy gauge aluminum and includes barbed brass fittings and instructions. Made in USA.

***Note:*** *Gaskets and mounting hardware not included.*

# Edelbrock Intake Manifolds

E5419

## Three-Deuce Intake Manifold

Designed for 1955-86 262-400ci small block Chevrolet engines, this manifold features a balanced 180 degree firing order port runner arrangement, an exhaust gas heat riser, and offers excellent performance potential. Carb center to center: 5-1/2". Accepts E4803 oil fill tube and breather. Made in USA.

***Important:*** *Carb. Recommendations: Rochester 2GC (small 1-7/16" bore) for E5419, Stromberg, Holley, Demon 3 bolt (with 1-1/4" bore) for E5418. Not for HEI.*

E2104

## Performer Manifolds

Edelbrock Performer manifolds are dual plane, low rise intake manifolds with a patented runner design that you won't find on other brands. This patented design greatly improves throttle response and torque over a wide RPM range, especially from idle through the mid-range. Manifolds are offered in EGR and non-EGR versions for most GM V8s, and most Performer intakes are 50 state street legal when used with the correct carb and application. Made in USA.

### 1955-86 Small Block

## Performer EPS

This manifold has a revolutionized runner design that is tuned for peak power around 3500 RPM on a 350 V8, and has a solid power range off idle to 5500 RPM. Match it with a Performer Series carb for maximum performance gains. For non-EGR applications. Made in USA.

***Important:*** *Not for 1987 and later cast iron Chevrolet Bow Tie cylinder heads. Will fit 1987 and later stock aluminum cylinder heads.*

| | | | |
|---|---|---|---|
| E2701 | 262-400ci | natural finish.. | 159.99 ea |

E7101

## Performer RPM Manifolds

Performer RPM manifolds are dual plane, high rise intake manifolds with a 180 degree firing order to produce incredible top end horsepower while retaining good throttle response. Their larger plenums and runners match the free flowing exhaust, and high lift cams and other modifications of a high output engine. Intended for high-performance street or competition engines that run up to 6500 RPM. Not intended for emissions controlled vehicles. Made in USA.

### 1955-86 Small Block

# Engine Components

## Small Block Heads

*E60909*

### 1955-86 Small Block Performer Heads

Designed for 1955-86 small block Chevys, these heads have the same powerful design and combustion chambers as the straight plug Performer RPM heads plus an exhaust crossover passage for emissions equipment compatibility. These are 50 state street legal heads. Performer heads with 64cc combustion chambers improve performance and retain stock compression ratio on 1970 and earlier small blocks. Hardened pushrods required. Made in USA.

***Important:*** *When using hot air choke carburetors and Performer manifolds with these heads, choke set E1932 is required. When using stock rockers on these heads .100" longer pushrods are required. These heads may not be used on engines with less than 4" bore except with cams having less than .450" valve lift.*

***Note:*** *Shipped overweight.*

### 1987-95 Small Block Performer Center Bolt Heads

Designed for 1987-95 5.7L Chevy engines (except LT-1, LT-4, and LT-5) originally equipped with center bolt valve covers and the 1987 and later intake manifold bolt pattern. The high velocity intake runner is designed to work with either TBI or TPI systems. The 60cc combustion chambers maintain stock compression ratio when used with the recommended gaskets. These are 50 state street legal heads. Hardened pushrods required Available in straight plug configuration only. Made in USA.

***Important:*** *When using stock rockers on these heads, 1.000" longer pushrods are required. These heads may not be used on engines with less than 4" bore except with cams having less than .450" valve lift.*

***Note:*** *Shipped overweight.*

### 1955-86 Small Block Performer RPM Heads

Designed for non-emissions 1955-86 small block Chevys. Performer RPM heads with 64cc combustion chambers improve performance and retain stock compression ratio on 1970 and earlier small blocks. Available in straight plug configuration to clear all types of exhaust headers or in angled plug configuration. Hardened pushrods required. Made in USA.

***Important:*** *When using stock rockers on these heads .100" longer pushrods are required. These heads may not be used on engines with less than 4" bore except with cams having less than .450" valve lift.*

### E-210 Small Block Cylinder Heads

The new E-210 cylinder head for small block Chevy engines feature larger runners for increased airflow, revised exhaust ports and larger diameter springs for higher lift camshafts, making them ideal for a spec series racer and larger displacement engines. The exhaust port flange is in the stock location to allow for the use of off-the-shelf headers and hardware, while the enlarged valves and ports support the power needed to compete at engine speeds of up to 6500 RPM. The E-210 cylinder head is capable of supporting more than 500 naturally aspirated horsepower, and even more in forced induction applications. Made in USA.

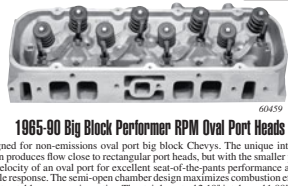
## Big Block Heads



*60459*

### 1965-90 Big Block Performer RPM Oval Port Heads

Designed for non-emissions oval port big block Chevys. The unique intake port design produces flow close to rectangular port heads, but with the smaller port size and velocity of an oval port for excellent seat-of-the-pants performance and crisp throttle response. The semi-open chamber design maximizes combustion efficiency with streetable compression ratios. The stainless steel 2.19" intake and 1.88" exhaust valves have smaller than stock 11/32" valve stems to promote excellent flow and lighter valve weight. The deck surface and water jackets were specially designed to work with all big block Chevy engines. Heads include high-quality ARP rocker studs, bronze guides, and hardened ductile iron valve seats. Hardened pushrods required. Made in USA.

***Note:*** *Shipped overweight.*

### 1965-90 Big Block Performer RPM Rectangular Port Heads

Performer RPM rectangular port heads have specially designed intake and exhaust ports for increased flow and velocity over stock big block heads. These heads feature a highly efficient 118cc open style combustion chamber and high velocity 315cc long/300cc short intake ports. Designed for street/high-performance big blocks operating from 2500 to 7000 RPM. Stainless steel hardened tip 2.19" intake/1.88" exhaust valves have 11/32" valve stems for excellent flow and lighter weight. Heads include top quality ARP rocker studs, bronze guides, and hardened ductile iron valve seats. Hardened pushrods required. Made in USA.

***Important:*** *The spark plug has been moved closer to the center of the bore and will interfere with high dome pistons designed for stock Chevy open chamber heads.*

***Note:*** *Shipped overweight.*

### 1967-69 Z28 302 Hypereutectic High-Performance Pistons

Precision machined high-performance pistons with original dome design and floating wrist pin for 2nd design 1968 and 1969 stock compression 302 engines (11:1 with 64cc heads). These hypereutectic pistons will also fit 1967 and 1st design 1968 engines with no modifications, and are available in standard, .030", .040", and .060" overbore sizes. Cast with 16-18% silicon alloy, and T-6 hardened for performance applications, new tooling was specifically made for these pistons featuring an exclusive computer designed under structure allowing dome machining (0.143") to safely reduce the compression ratio to 10:1 while maintaining balance. Wrist pin and spiro-lock retainers are included. Individually plastic sleeved after factory sorting in sets of eight by size and weight to balance and blueprint tolerances (+/- .0004" and 1.5 grams or better). Warranted for 2 full years in street cars. Set of 8 pistons with pins and locks.

***Note:*** *Piston rings not included. Not recommended for extreme performance engines.*

## Chevy 409 Serpentine Conversion

If you are looking for the high tech race look for your Chevy 409 cubic inch V8, consider this March Performance serpentine conversion. This one piece alternator and air conditioning bracket provides a rigid support for the alternator and AC compressor, a separate bracket allows the option of power steering or no power steering. Four separate idlers guarantee the ultimate in belt to pulley contact area for sure "no slip" operation. Like all our Style Track sets it makes use of a unique easy to use belt tension adjustment tool. Once the belt tension has been set, the adjustment tool is easily removed and stowed away until the next time the belt requires adjustment. As a result, the Style Track displays a much cleaner appearance. Comes complete with: alternator, an alternator pulley with fan and nose cover, a AC compressor and nose cover, a water pump with pulley and nose cover, a crank pulley and the alternator/AC bracket, complete with the belt tensioning tool. Sets with power steering include a chrome Saginaw style power steering pump and the power steering pump pulley with nose cover. Features maintenance-free clear powder coating.

***Note:*** *Engine and valve covers not included.*

## Performer RPM "W Series" 348/409 Intake Manifold

Designed for 1958-65 Chevrolet 348/409 "W Series" big block engines, these Performer RPM intake manifolds are specifically engineered to deliver improved performance in the mid to high RPM range, especially when combined with Edelbrock carburetors. 2 versions are available, 1 for small port cast iron heads and the other for factory large port or with Edelbrock Performer RPM "W Series" heads part #E60819. They both also feature a front mounted oil fill tube (not installed) and matching push-in breather cap. For square bore carburetors only. Made in USA.

## Performer RPM Dual Quad 348/409 Intake Manifold

Performer RPM Dual Quad intake manifold is designed to fit 1958-65 Chevrolet 348/409 "W" Series factory large port or with Edelbrock Performer RPM W-series heads part #E60819. This manifold delivers performance improvements in the 1500-6500 RPM range with Edelbrock Performer Series or Thunder Series AVS dual quad carburetors and they accept Edelbrock dual quad accessories including fuel lines, throttle linkage, and air cleaners. Includes: oil fill tube (not installed) and matching push-in breather. Carb center to center measurement is 6-7/16". Made in USA.

## 348/409 Performer RPM Cylinder Head

Looking to boost the performance of your vintage 348/409ci Chevy? The Edelbrock Performer RPM 348/409 Chevy cylinder heads were specifically designed for 1961-65 Chevy "W Series" 348/409 big block engines. These high-performance heads feature CNC port matched 220cc intake ports and 115cc exhaust ports and are assembled with 2.19" intake valves and 1.72" exhaust valves. Furthermore, valve port design has also been improved for better flow. Also designed for convenient bolt-on installation, these heads also feature original port locations and valve angles. Includes: hardened spring cups, screw-in rocker studs, and hardened guide plates. Made in USA.

***Important:*** **For E60819 cylinder heads.*

## Your Choice of Four Convenient Sets to Meet Your Specific Needs!

***Important:*** *On small block applications, High Energy™ Cams may be used with stock valve springs and lifters. However these components must be in good operating condition. In order to protect your camshaft warranty and for maximum performance benefit, we recommend replacing stock valve springs and lifters with a high-performance set from Classic Industries®.*

### A – Camshaft Only

*The camshaft only set includes camshaft, instructions, assembly lube and decals.*

### B – Cam and Lifters

*Order the cam and lifter set to add a matched set of lifters to your camshaft.*

### C – Small Set

*Order the small set for cam and lifter set plus timing chain and gear.*

### D – Full Set

*Full set includes cam, lifters, timing chain and gear valve springs and retainers, valve locks, valve stem seals.*

## High Energy™ Cams for Your Daily Driver!

All High Energy™ designs are totally streetable cams. They will produce 10 to 30% more power than a stock cam throughout the RPM range. Each cam has a particular RPM range in which it works best. By selecting the cam that best suits your driving needs, exceptional power increases can be expected. High Energy™ Cams work great for everyday driving without the "bad" side effects normally found with other cams. High Energy™ cams produce more power, are more efficient, and do not affect the engine's idle characteristics to the point of making your car undriveable. High Energy™ Cams will not affect any vacuum or power accessories such as power brakes, air conditioning or steering.

| Item # | Application | RPM Range | Adv. Dur. | Lift | A – Camshaft | B – Cam & Lifters | C – Small Set | D – Full Set |

## Factory Muscle Cams Replicate Original GM Cams of the Era!

Give your stocker a dose of factory muscle with a Muscle Car™ cam from COMP CAMS®. Designed to replicate the original GM cams of the era, The Muscle Car Cams™ produce the power and performance your vehicle missed out on. Each set includes: camshaft, lifters, assembly lube, instructions, and decals.

### 300HP/327ci Factory Muscle Cam

Referred to by GM as part #3863151, this is Comp Cams' version of the hydraulic cam that provided 350HP to the 327 from 1965-68.

| Item # | Description | GM Item # | Adv Dur | Lift | Price |
|---|---|---|---|---|---|
| 222051A | camshaft | 3863151 | 222° | .447" | 143.99 ea |

### Z28 Solid Lifter Factory Muscle Cam

This is the solid lifter cam that GM installed in the 67-69 Z28 Camaro's 302, providing it with 290HP. In 1964-65, it provided the Corvette 327 with 365-375 HP.

| Item # | Description | GM Item # | Adv Dur | Lift | Price |
|---|---|---|---|---|---|
| 222052A | camshaft | 3849346 | 254° | .485" | 146.99 ea |

### 375HP/396ci Solid Lifter Factory Muscle Cam

This solid lifter cam provided 375HP to the 1967-69 396ci engine, 375HP to the 1970 402ci engine and 425/435HP to the 1967-69 427ci engine. Then in 1970, the LS6 454ci engine used this cam to produce 450/465HP!

| Item # | Description | GM Item # | Adv Dur | Lift | Price |

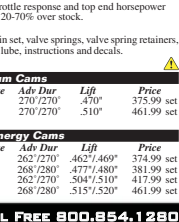
| 222053D | full set | 3863143 | 242° | .520" | 469.99 set |

## CAMS for your High-Performance Street Machine!



The Magnum™ Cam is a great cam for high-performance driving in street machines. Provides 30-70% more horsepower and a rough and ready to rumble idle in small block or big block Chevy applications. The Magnum™ will not affect power accessories, but should be used with headers. This is the perfect cam for cruising.

Xtreme Energy™ Cams are Comp Cams® series of hydraulic cams. They are designed to take advantage of the latest improvements in valve train components and the newest developments in camshaft design. Xtreme Cams can be used in any street or street/strip application where both throttle response and top end horsepower are desired. Increases horsepower from 20-70% over stock.

***Full Set*** – includes camshaft, lifters, chain set, valve springs, valve spring retainers, valve locks, valve stem seals, assembly lube, instructions and decals.

# For Computer Controlled Engines!

If you have a late model computer controlled engine, you have to be VERY CAREFUL when selecting a high-performance aftermarket cam! The wrong cam could "throw off" the computer, spelling real trouble for your vehicle's driveability and performance.

Comp Cams® has engineered this line of camshafts specifically for these engines, ensuring that you get a camshaft that works WITH your computer, providing exceptional performance and driveability out of your late model Chevy engine!

## Camshaft Only

*The camshaft only set includes camshaft, instructions, assembly lube and decals.*

## Cam and Lifters

*Order the cam and lifter set to add a matched set of lifters to your camshaft.*

## Full Set

*Full set includes cam, lifters, timing chain and gear valve springs and retainers, valve locks, valve stem seals.*

## Cams for Your TBI/Crossfire or Carbureted Late Model!

Designed for use with throttle body, or crossfire injected and carbureted 305ci engines. Your choice of 3 sets to suit your specific needs, Camshaft only, Cam and lifters, or full set. The full set includes: camshaft, lifters, chain set, valve springs, valve spring retainers, valve locks, valve stem seals, assembly lube, instructions, and decals.

| Item # | Description | RPM Range | Adv Dur | Lift | Price |
|---|---|---|---|---|---|
| 222008A | camshaft | 1000-5000 | 252°/260° | .425"/.440"... | 156.99 ea |

| 222008D | full set | 1000-5000 | 252°/260° | .425"/.440"... | 458.99 set |

## Cams for Your 1987-98 Tuned Port Injection Engine!

Designed for use with TPI 305, 350ci engines (except LT1 and LT4). This cam is designed for 1987-98 engines originally equipped with hydraulic roller camshaft. Your choice of 3 sets to suit your specific needs, camshaft only, cam and lifters or full set. The full set includes: camshaft, lifters, chain set, valve springs, valve spring retainers, valve locks, valve stem seals, assembly lube, instructions, and decals. Applications are available for use with stock computer or modified computer.

***Important:*** *This cam will not work with stock valvetrain components. To retain your camshaft warranty and prevent damage to your engine, you must replace the stock components with a matched set from COMP Cams®.*

## Performer Plus Camshaft Sets

Designed for optimum torque from the low end to the mid-range, Performer®-Plus camshaft packages match with Performer® manifolds for vehicles operating from idle to 5500 RPM. They are smooth idling cams that provide for a major improvement in throttle response and torque. All camshafts come with hydraulic lifters, assembly lube and instructions. Most Performer® cams are 50 state street legal. Made in USA.

***Note:*** **These cams are 50 state legal. **Not for use on 1965-66 396 or 427 Chevy's requiring a grooved rear cam journal.*

| Item # | Year | Application | Duration | Lift | Price |

## Performer RPM Camshaft Kit

Designed for street high-performance applications, Performer® RPM cams provide power from 1500 to 6500 RPM. These hydraulic lifter camshafts are dyno-matched to Performer® RPM manifolds for high RPM horsepower while maintaining acceptable low end torque. With 10-12 inches of manifold vacuum at idle, Performer® RPM cams have more lift and duration than most street camshafts.

| Item # | Year | Application | Duration | Lift | Price |

## Rollin' Thunder Performer Plus Camshaft

Designed for street high-performance applications, Performer® RPM cams provide power from 1500 to 5500 RPM. These hydraulic roller lifter camshafts reduce friction, virtually eliminate break-in problems and permit higher valve velocities for increased performance. Intended for use with OEM or Edelbrock hydraulic roller lifters sold separately.

MR7100

T4324

T4364

## Replacement Engine Gaskets

If you have a Chevy engine to reassemble, you will need new gaskets. Made from durable materials that meet or exceed OE specifications, these gaskets are perfect for stock or mild performance vehicles. Sets include gaskets for cylinder heads, intake, exhaust, valve covers, oil pan, timing cover, and water pump. Valve seals, rear main seals and front timing cover seals are also included, along with all necessary gaskets and seals for their listed applications. Individual gaskets are also available. Sets do not include carburetor or FI intake plenum gaskets.

## Performance Head Gaskets for Chevrolet Engines

Mr. Gasket head gaskets are one of the most advanced, tested and proven in the performance market today and earned the respect of many professional engine builders. A variety of gasket materials are available to meet your specific needs.

### Mr. Gasket Ultra-Seal

The Ultra-Seal head gasket has a five layer composite construction and is coated with high temperature silicone to ensure seal of engine fluids. It's graphite core has excellent thermo-conductivity; transfers heat away from hot spots in head to coolant passages, preventing gasket burn out. The Ultra-Seal head gasket provides excellent stability, compressibility, high temperature endurance and will not Brinell (indent) aluminum cylinder heads.

*.028" Comp. Thickness*
71134 1977-91 305-350, 4.130" bore ... 46.99 ea

*.038" with Steam Holes*

*.038" Comp. Thickness*
75804 1991-99 454-502, 4.520" bore ... 55.99 ea

### Mr. Gasket MLS (Multi-Layered Steel)

The MLS head gasket is manufactured from Viton rubber coated stainless steel layers and is stress formed embossments seal extreme cylinder pressure. The MLS head gasket provides excellent stability and reduces cylinder bore distortion. Ideal for supercharged, turbo charged, nitrous and extreme compression ratios.

*.040" Comp. Thickness*
73130 1955-91 283-350, 4.060" bore ... 88.99 ea

73146 1997-03 346 LS1, 4.125" bore... 88.99 ea

### Mr. Gasket Steel Shim

The Steel Shim head gasket is manufactured from .020" steel shim stock and is stress formed embossments seal extreme cylinder pressure. Made thinner than OE head gasket, increases engine compression and coated with high temperature silicone to ensure seal of engine fluids.

*Note: Do not use with lightweight 305 heads.*

*.020" Comp. Thickness*
71130 1955-91 283-350, 4.100" bore ... 25.99 ea
71131 1965-90 396-454, 4.370" bore ... 25.99 ea

### Mr. Gasket Copper (Dead Soft)

The Copper head gasket is manufactured from dead soft solid copper. Provides excellent stability and reduces cylinder bore distortion and can be used with or without stainless steel o-rings. The Copper head gasket is ideal for supercharged, turbo charged, nitrous and extreme compression ratios.

*Note: Do not use with lightweight 305 heads.*

*.020" Comp. Thickness*
71052 1955-91 283-350, 4.140" bore ... 63.99 ea

## Gasket Maker

Makes reliable formed in place gaskets that resist cracking, shrinking and migrating. Coats precut gaskets to increase reliability. Resists auto and shop fluids. Great for use on valve covers, intake manifold end seals, timing covers, water pumps, and thermostat housings. 3 oz. tube.

S80022 blue #6B ..... 3.99 ea
S81160 red #26B ..... 4.99 ea

## Ultra Copper Gasket Maker

For use with turbo-charged engines or high-performance models. The most advanced, hi-temperature silicone gasket available. Sensor safe, low odor, non-corrosive. Outstanding oil resistance and joint movement values. Temperature range -75 to 700 degrees F intermittent. Recommended for pre-1980 six cylinder and V8 engines. Great for use on: exhaust manifolds/headers, valve covers, intake manifold end seals, oil pans, timing covers, water pumps, thermostat housings. 3 oz. tube.

S81878 copper #101B ..... 5.99 ea

## Form-a-gasket Sealant

Slow drying, non-hardening sealant designed for sealing cut gaskets and stamped parts. Allows for easy disassembly if required. Has a temperature range of -65 to 400 degrees F. Use where sealing is more important than adhesion. Resists shop fluids and fuels. Great for valve cover gaskets and oil pan gaskets

S80016 3 oz..... 3.99 ea

## Super Silicone Sealant

Excellent for use with all types of gaskets. A rapid curing adhesive/sealant can also be used as a sealant between flanges, hose connectors, and similar close fitting parts.

08661 clear 3 oz. tube..... 10.99 ea
08662 black 3 oz. tube..... 11.99 ea

## Replacement Lifter

When rebuilding an engine, it is essential to replace your lifters during camshaft replacement. The usage of the original lifters may cause undue damage on your new camshaft or possibly your entire engine. These lifters will fit 1963-91 small block or big block engines and are offered in your choice of hydraulic or mechanical depending on your particular application.

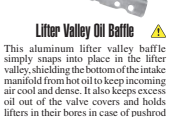
## Stamped Rocker Arm Set

Stamped steel rocker arms featuring long slots for cams that have lift specs higher than stock for additional clearance at the rocker stud. Easy installation requiring no special tools and will fit under stock valve covers. Fits small blocks through 1986 with stock 1.5:1 pivot ratio and 3/8" rocker studs. Set of 16 rockers with pivot balls and nuts, or, add a set of 16 stock length, high-performance 5/16" pushrods with welded ball ends and save.

*Note: Check for pushrod clearance and alignment, spring coil bind, piston to valve clearance and valve timing when modifying the valve train to exceed factory specs.*

***1.5:1 Ratio for 3/8" Stud***

66905 ..... 76.99 set
66923C with pushrods ... 94.99 set



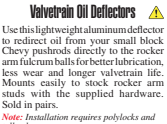
225050

## Lifter Valley Oil Baffle

This aluminum lifter valley baffle simply snaps into place in the lifter valley, shielding the bottom of the intake manifold from hot oil to keep incoming air cool and dense. It also keeps excess oil out of the valve covers and holds lifters in their bores in case of pushrod or rocker arm failure.

*Note: Due to minor variations in block castings minor trimming may be required. Not for use with roller lifters.*

225050 SB baffle ..... 50.99 ea
225100 BB baffle ..... 50.99 ea



## Valvetrain Oil Deflectors

Use this lightweight aluminum deflector to redirect oil from your small block Chevy pushrods directly to the rocker arm fulcrum balls for better lubrication, less wear and longer valvetrain life. Mounts easily to stock rocker arm studs with the supplied hardware. Sold in pairs.

*Note: Installation requires polylocks and tall valve covers.*

267700 SB oil deflectors 40.99 pr

## Aluminum Stud Girdles

Aluminum stud girdles are designed to reduce flexing of the rocker arm studs and help reduce part breakage under high stress. For use on small blocks through 1986 with full roller rockers. Includes 2 girdles and 16 specially designed poly locks.

66950 for 3/8" studs .... 119.99 set
66951 for 7/16" studs .. 112.99 set

66906C

## Stamped Roller Rocker Set

Stamped steel rocker arms feature roller tips for reduced friction, and long slots for cams that have lift specs higher than stock for additional clearance at the rocker stud. Available in the stock 1.5:1 pivot ratio, or, a performance enhancing 1.6:1 ratio for increased horsepower and torque. Easy installation requiring no special tools and will fit under stock valve covers. Fits small blocks through 1986 with 3/8" rocker studs. Set of 16 rockers with pivot balls and nuts.

*Note: Check for pushrod clearance and alignment, spring coil bind, piston-to-valve clearance and valve timing when modifying the valvetrain to exceed factory specs.*

66906C 1.5:1 ratio..... 92.99 set
66922C 1.6:1 ratio..... 113.99 set

66907C

## Early Aluminum Roller Rockers

The race proven needle bearing fulcrum and roller tip not only unleash horsepower, they also lengthen valve train component life and reduce wear and tear on valve stem tips. Small block sets include your choice of sixteen 1.5:1 stock ratio arms, sixteen performance enhancing 1.6:1 ratio arms or a mixture of eight 1.5:1 stock ratio arms and eight 1.6:1 ratio arms to allow greater air flow on either the intake or exhaust ports, depending on your needs. Big block sets include sixteen 1.7:1 ratio arms. Easy installation requiring no special tools. Applications are available to fit small blocks through 1986 with 3/8" or 7/16" rocker studs and big blocks through 1984.

*Note: Check for pushrod clearance and alignment, spring coil bind, piston to valve clearance and valve timing when modifying the valvetrain to exceed factory specs.*

## 1965-76 Big Block Oil Pump Cover

Genuine GM big block oil pump cover. This original GM cover installs correctly onto any 1967 through 1976 big block engine. For big block models only.

| | | | |
|---|---|---|---|
| G7289 | 1965-76 | without high perf. .... | 44.99 ea |

## 1965-76 Oil Pump Intake Screen

A screened oil pump pickup protects the oil pump gears against damage from metal fragments which may have found there way into the oil pan. This pickup also prevents the formation of a vortex in the oil sump.

| | | | |
|---|---|---|---|
| G8637 | 1965-76 | big block..... | 24.99 ea |

## Chevrolet V8 Oil Pump Primer

Don't start your engine after a rebuild or major engine disassembly without first making sure there is oil at all the critical friction points such as main, rod and cam bearings, rings and cylinders, as well as the lifters and camshaft. Starting your engine without any oil in these places can create the need for another engine rebuild. This oil pump primer can help get oil to all of these crucial areas before you start your fresh engine. Simply drop the oil pump primer down your distributor opening into the oil pump drive, attach a drill motor, and spin up the oil pump. It's that simple!

| | | | |

## 1955-57 Seven Quart LS Oil Pan

This oil pan allows the installation of newer LS series motors into 1955-57 passenger car models. Using heavy-duty steel and double thick pan rails, it is still 5.5 pounds lighter than the factory LS series oil pan. The increased oil capacity and control provides consistent pressure under heavy usage. The additional oil filter kit (required) includes brass fittings and 3 feet of 10 AN, 250 psi line. Accommodates up to a 4" stroke with steel Carillo or Eagle style rods.

***Note:*** *Requires remote oil filter kit part #21575.*

## Attach Your Oil Pan Like a Pro!

Undoubtedly the most professional method of attaching an oil pan is through the use of Milodon's pan stud and nut set which includes heat treated studs with rolled threads and special nuts with built in serrated washer face. The set provides easy pan installation, prolongs gasket life and the special serrated nuts guard against pan loosening during operation.

## 1955-86 Stock Replacement Oil Pan

These stock replacement oil pans feature a distinctive gold-plating that is not only cosmetic, but also provides long lasting protection against corrosion, inside and out. Every pan is 100% leak checked and block checked to assure the high standard of quality that Milodon is famous for. Flat, unwarped pan rails and proper bolt hole alignment provide for a fit and function that is unmatched in the industry. All pans are specifically designed for use only with Milodon gaskets, sold separately. Sold separately is Milodon's "crushproof" gasket seal set, item #40100 for 1955-85 small block or item #40200 for 1964-90 big block. Also offered is Milodon's new 1 piece gasket item #41000 for 1955-85 small block or item #41001 for 1986-02 small block. For use with original stock oil pickup screen also sold separately.

## Street/Strip Dipstick

Made in USA

This dipstick assembly has a unique sleek design, as well as many functional benefits. All dipstick hardware is CNC-machined from billet stainless steel. Fittings, stick, and hose are all stainless steel so they will stay bright and rust-free even with the use in everyday driver. It uses an o-ring sealed top to positively seal against water or dirt and provides a very efficient seal for race cars running an internal vacuum pump or vac-u-pan system. Made in USA.

# Oiling Components

238315

## Small Block Rear Seal Adapter

Planning to use an older style crankshaft in a small block Chevy engine newer than 1986? You'll need this billet aluminum adapter to convert to the original two piece rear seal design. Available for 1986 or newer style oil pans with the driver side dipstick or for pre-1980 oil pans with the passenger side dipstick. Includes installation hardware.

238315 adapter for 1986 or newer ..... 224.99 ea
238415 adapter for pre-1980..... 250.99 ea

## 1955-79 Small Block Oil Pan Baffle

This semi-circular oil splash shield (windage tray) separates the oil in the pan sump from the rapidly spinning crank assembly. It reduces aeration of the oil, aids in oil control and minimizes oil slosh under hard braking or quick turns.

G7287 1955-79 small block ..... 40.99 ea

## 1956-67 Oil Filter Adapter

This adapter will convert all 1956-67 small block Chevrolet V8 engines (except Chevy II) that came with a canister style oil filter to a spin on type filter. It includes a 13/16"-16 nipple which will accept a PH-30 or equivalent Chevrolet spin on type oil filter.

***Note:*** *This requires the use of the OEM bypass valve.*

T1059 1956-67 ..... 25.99 ea

## 1968-92 Oil Filter Adapter

Genuine GM replacement oil filter adapter for all 1968-92 small block and big block models. The adapter is essential because the oil filter attaches directly to this item. The adapter also includes the filter bypass valve.

G7300 1968-92 V8 ..... 62.99 ea

## 1964-72 Oil Filter Connector

Correct replacement of the connector that installs on the engine block which the oil filter cartridge attaches to. Improperly fitted oil filters can cause engine problems and make for a nasty cleanup. 13/16"-16 x 1/2" on one end, 1"-12 x 7/16" on the other.

G9147 1964-72 ..... 10.99 ea

## Oil Pan Battery Cable Clip

OER® reproduction of the original oil pan battery cable clip designed for use on various 1955-57 models. Manufactured in stamped steel with a plastic coating that protects the cable. Installs between the oil pan bolt and the oil pan to guide the battery cable to the starter. Helps to keep the battery cable in place.

C2555 ..... 6.99 ea

## Magnetic Oil Pan Drain Plug

A magnetic drain plug is cheap insurance for a high-performance engine. This plug will catch and hold small pieces of metal before they cause damage. Fits all V8 engines. 1/2"-20 magnetic.

ML17000 Milodon ..... 5.99 ea

## No-Mess Drain Plug

Replacement oil pan drain plug designed to help eliminate the messy aspects of draining your oil. Includes a special gasket on the end of the plug to help keep the oil where it belongs while draining.

66960 1/2"-20 ..... 5.99 ea

## Oil Pan Drain Plug Gasket

This is a correct GM replacement gasket which is used to seal the oil pan drain plug and keep it from leaking.

# Oil System Components

FL500021 FL700021

## Engine Oil Coolers

Engine oil is designed to act as a coolant as well as a lubricant for your motor. If the engine oil is allowed to get too hot, horsepower drops, varnishes form, and the oil starts to break down, which can lead to premature engine wear. Flex-a-lite heavy-duty oil coolers can help prevent this by keeping oil temperatures down, helping to ensure longer-life to engines and components, and reduce the stress created by high-performance engine modifications. Also suitable as a heavy-duty transmission fluid cooler. Includes -8, -10, and -12 interchangeable AN fittings with o-rings.

***Important:*** *Depending on application and setup, additional fittings or adapters may be required.*

***Note:*** *Dimensions: width = 11"; depth without fan = 1-3/4", with fan = 4-1/4"; variable height, see height below in the line listings. *Dual 6-1/2" fans.*

## AC Delco Oil Filters

Genuine AC Delco oil filters for Chevrolet engines. Designed with a steel core and a traditional mounting plate, each filter offers enhanced efficiency and consistent flow management to provide exceptional filtering performance for classic vehicles. Features a anti-drain back valve to keep the oil cooler full of oil (on cooler equipped vehicles). This way oil is in the cooler upon start up without waiting for the cooler to refill and pressurize. The Classic Series filters offer you the original size and specifications of the original filter, but with a modern day, blue AC Delco canister. The Professional Series is the modern day, blue AC Delco filter currently being offered by GM.

## Oil Filter

The K&N Performance Gold® oil filter has been constructed from the ground up to satisfy the vehicle owner who wants the very best oil filter available. Metal top end caps are used instead of paper to ensure that no unfiltered oil can get back into the system. High volume positive oil flow with low restriction coupled with exacting engineering standards results in the right balance between engine protection and low oil pump drag.

## HR Conventional High-Performance Oil

From the leader in racing lubricants, now comes a oil designed specifically for high-performance engines. Joe Gibbs Driven HR Oils build on our original formula while adding critical additives to protect engines when they are not running. Our formula uses the same additive technology developed for the U.S. Military for storing and shipping. It protects against rust and corrosion so your engine is protected even when it's not running. It features higher levels of Zinc than regular passenger car oils to deliver proper anti-wear protection for older style pushrod and flat tappet engines.

## Break-In Oil

BR is used by Joe Gibbs Racing to break-in and dyno all their NASCAR Nextel Cup and Busch Series engines. This petroleum based oil provides superior break-in properties for flat-tappet engines. The special additive package promotes ring seal and provides maximum protection for cams and lifters during initial break-in. BR can also be used to break in roller cam engines, and as a general purpose dyno oil. Available in 5W30 or 15W50 weights.

## Synthetic Oil

Delivers superior protection and improves performance in four cycle gasoline and diesel engines. Increase horsepower and torque, save fuel and reduce heat, wear and emissions! It has unsurpassed oxidation stability that allows for extended oil drains and fewer oil changes, which saves time, money and reduces the impact on the environment. Royal Purple's motor oils for passenger cars and trucks are API licensed. Performance advantages come from a blend of synthetic oils plus Royal Purple's proprietary Synerlec technology. Compatible with other mineral and synthetic motor oils.

## Engine Break-In Oil

Royal Purple has developed an engine break-in oil formulated to allow optimal ring seal and protect rotating assembly components from initial start up wear. Combines highly refined mineral oil, preferred for engine break-in, with advanced additives containing high levels of zinc and phosphorus to optimize protection in flat-tappet and roller engines. Does not require the use of any other chemical additives. Royal Purple recommends using their high-performance motor oils after the engine is broken in for maximum engine performance.

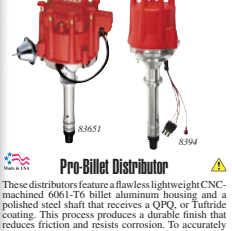
# Ignition Products



## Pro-Billet Distributor

Made in USA

These distributors feature a flawless lightweight CNC-machined 6061-T6 billet aluminum housing and a polished steel shaft that receives a QPQ, or Tuffride coating. This process produces a durable finish that reduces friction and resists corrosion. To accurately guide this shaft, MSD uses a sealed ball bearing located at the top of the housing. At the bottom of the housing, an extra long sintered bushing controls the shaft. This combination keeps the shaft spinning smooth and accurately throughout 10,000+ RPM. Other features include an iron drive gear, Rynite® distributor cap with brass terminals and a high output magnetic pickup to trigger the ignition. Choose from the "standard" Pro-Billet distributors that utilize the MSD 6, 7, 8 or 10 series ignition control box or from our "Ready-to-Run" distributors that are internally controlled. "Ready-to-Run" distributors do not require an external controller and are the "Plug and Play" alternative to more expensive computer controlled systems. Made in USA.

### "Standard" Pro-Billet Distributor

For use with MSD 6, 7, 8, or 10 series ignition.

## 6A/6AL Ignition Control

MSD's new Digital 6A is the base model of the capacitive discharge multiple spark 6 Series design. Features the same footprint as the traditional 6A and 6AL, but with a lower profile for a sleek look. Like all MSD 6 Series Ignitions, the 6A will work with virtually any vehicle as long as it has a 12-18 Volt electrical system. It can be triggered using breaker points, a magnetic pickup or the output of an electronic amplifier. All necessary parts and wiring instructions are included. Will work on 4, 6, and 8 cylinder engines. The new Digital 6AL shares the same proven circuitry of the Digital 6A with the addition of a built-in adjustable rev limiter with two top mounted rotary dials. The combination of powerful sparks with the safety of a rev control is what makes the Digital 6AL the most popular ignition control in the world.

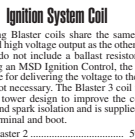
| 64253 | Digital 6AL | black | 305.99 ea |



## Ignition System Coil

Made in USA

The following Blaster coils share the same special windings and high voltage output as the other Blaster 2 coils, but do not include a ballast resistor. When you are using an MSD Ignition Control, the ignition is responsible for delivering the voltage to the coil so a ballast is not necessary. The Blaster 3 coil features an extra tall tower design to improve the coil wire attachment and spark isolation and is supplied with a 90 degree terminal and boot.

| | | | |
|---|---|---|---|
| 8202 | Blaster 2 | | 59.99 ea |
| 8223 | Blaster 3 | | 61.99 ea |

## Blaster Performance Coil

Made in USA

With a stock points style ignition, a ballast resistor must be placed in-line with the positive terminal of the coil. The following Blaster coils are supplied with a 0.8 Ohm ballast resistor plus a terminal and boot to fit most applications. Mallory Unilite applications also require the ballast resistor. Available in chrome or red.

***Important:*** *The ballast is not necessary if an MSD 6 or 7 series ignition control is being used with the points distributor.*

| | | | |
|---|---|---|---|
| 8200 | Blaster 2 | chrome | 62.99 set |
| 8203 | Blaster 2 | red | 67.99 set |

***Features:***

- Timing based on engine RPM and gear value
- Advanced individual cylinder timing based on gear or time
- Five retard stages for nitrous
- Four steps of RPM limits for burnout, spool, launch and over rev
- Output switch set on RPM, pressure or time
- Shift light settings for each gear
- Ignition data acquisition accepts multiple runs
- Crank trigger system highly recommended

## New! Power Grid Systems

The Power Grid System is the next evolution of programmable ignition controls. The grid incorporates an efficient 32 bit micro-controller and an all new software program, called MSD View, and is USB compatible. The Power Grid Controller is the brains behind the entire system and can be used with any MSD ignition or the Pro Mag to provide advance ignition tuning capabilities. While it is compatible with all MSD boxes, the new Power Grid System Controller has been specially designed to mount to the Power Grid-7 ignition box sold separately. Includes: View software, wiring harness, micro-SD card and mounting hardware.

***Note:*** *To use any modules with the Power Grid Ignition System, (7720 and 7730), users MUST plug the modules into a 4 Connector CAN-Bus Hub (7740) to be attached to the Power Grid System Controller.*

## Blaster SS Coil

Made in USA

The efficient E-core windings are designed to produce high amounts of current without sacrificing the voltage output. In fact, when used with an MSD 6 Series Ignition, the Blaster SS produces 300 milliamperes with a maximum voltage output of 40,000 Volts. The secondary windings are wound on a segmented bobbin which reduces the chance of voltage breakdown between the primary and secondary windings. For more protection, these windings are encased in a polyurethane compound for complete protection against vibration. The Blaster SS features brass terminals and a sturdy Rynite housing. It is supplied with a 90 degree boot, terminal and vibration mounts.

# Ignition Products

35051

3506 3507 3508

## Pro-Crimp Tool

Made in USA

The Pro-Crimp features interchangeable jaws allowing for a variety of different style crimps with one heavy-duty tool. The Pro-Crimp features a hardened steel frame with comfortable molded hand grips. The slick ratchet action provides secure, factory quality crimps every time. The tool is supplied with precision crimping/stripping jaws for MSD's spark plug wire terminals.

***Pro-Crimp Tool***

3508 plug wire terminal dies..... 35.99 ea
3509 weather tight terminal dies..... 53.99 ea
3510 Deutsch terminal dies..... 53.99 ea

## Coil Wire

If you're changing a coil or cap to a new design, you could find yourself searching for different terminals for the coil wire. MSD offers these 2 style coil wires to make the change easy. Also, remember that the coil wire sees 8 times the use of each plug wire so changing the coil wire as a maintenance through the race season is recommended.

***Important:** *18" long, straight female socket coil terminal and boot on one side with a straight female socket distributor cap socket terminal and boot on the other. **18" long, 90 degree male coil terminals and boots are installed on both sides to connect to an HEI style terminal. A terminal adapter is also supplied to adapt to a female socket style distributor cap.*

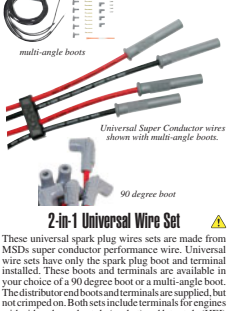
84039** 8.5mm super conductor, red.... 19.99 ea
84033** 8.5mm super conductor, black 20.99 ea

## Noise Filter

Made in USA

If you experience radio noise after installing the MSD Ignition, you may need to install an MSD Noise Filter. Electro Magnetic Interference (EMI) is occasionally generated from the MSD power cables and can be easily eliminated by installing the Noise Filter on the heavy power supply wires coming from the MSD. It is recommended that the Noise Filter be used on installations with the MSD 7 and 8 Series Ignitions to prevent this interference. Includes noise filter cover. Made in USA.

8830 MSD noise filter with cover..... 51.99 ea



*multi-angle boots*

*Universal Super Conductor wires shown with multi-angle boots.*

*90 degree boot*

## 2-in-1 Universal Wire Set

These universal spark plug wires sets are made from MSDs super conductor performance wire. Universal wire sets have only the spark plug boot and terminal installed. These boots and terminals are available in your choice of a 90 degree boot or a multi-angle boot. The distributor end boots and terminals are supplied, but not crimped on. Both sets include terminals for engines with either the early style (socket) and late style (HEI) distributor caps. The wires are extra long so they can be cut-to-fit any application. Each set includes a MSD mini-stripper crimper for easy installation. Available with wires in either black or red.

***90 Degree Angle***

31233 black..... 129.99 set
31239 red..... 129.99 set

***Multi-Angle***

31193 black..... 129.99 set
31199 red..... 129.99 set

## 6 Series Vibration Mounts

In performance applications such as off-road, racing, and marine applications, strong vibrations can be transmitted through the chassis to the MSD unit. To protect the MSD from excessive vibration, we recommend this vibration mount set.

8823 ..... 19.99 set

## Spark Guard

MSD's spark guard is a dielectric grease that solves many common ignition troubles. It stops voltage leaks, eases boot removal, prevents moisture buildup inside the spark plug wire boots, and even helps protect against radio noise (EMI). It also simplifies the installation of MSD universal spark plug wire sets. Spark guard will not dry up or harden so it will retain its spark isolating capabilities indefinitely.

8804 ..... 22.99 ea

8920 8910E

## Tachometer Adapter

Made in USA

MSD tach adapters will correct the operation of most voltage triggered tachometers or fuel injection systems that do not work directly off the tach output terminal of the MSD ignition unit. If you are triggering an MSD Blaster, 5, 6, SCI, or 7 series ignition with its white wire or points terminal, you will need item #8910 or #8910E. For applications using green and violet wires for magnetic pickup input, use item #8920.

***Important:** *For non-current limiting ignitions, originally equipped with a ballast resistor. **For use on current limiting ignitions, not originally equipped with a ballast resistor.*

8910* points or amplifier..... 65.99 ea
8910E** points or amplifier..... 67.99 ea

## Digital Shift Light

MSD universal and easy to use programmable shift light. Can be installed with distributors, coil packs or on 1 cylinder engines up through 12 cylinders on stock ignitions or high power aftermarket systems. Programmable from 100-15,900 RPM down to 10 RPM increments and features six bright LEDs for easy to view anytime. Includes GMR pickup.

89631 all models..... 219.99 ea

8990

8991

## Timing Lights

These timing lights are designed and built for superior accuracy and ease of use. Solid state circuitry provides stable and accurate timing signals up to 8000 RPM. A battery powered version, accurate up to 5000 RPM, is also available. Each durable lightweight timing assembly has a super bright strobe that makes timing adjustments simple, even in direct sunlight. Both include a detachable inductive pickup for easy storage.

8990 standard timing light..... 206.99 ea

## Power Pack Ignition System

This ignition system includes everything needed for a dependable high-performance ignition in one package. The system included a Pro Billet distributor which features a billet aluminum housing with adjustable collar, sealed ball bearings, mechanical advance with extra springs for multiple curves and a multi-polymer distributor cap with brass contacts. The system also includes a 50 kV power coil and a high output digital 6AL multiple spark capacitive discharge power box with adjustable rev limiter.

***Note:*** *Not for use with 348-427 W-series engines.*

A7700203 Chevrolet 262-454ci V8 .... 340.99 ea

## 1957-74 E-Spark Conversion Set

Are you tired of constantly having to adjust and replace points in your distributor? Eliminate those pesky points altogether with Mallory's new, low cost E-Spark conversion sets. This self-contained conversion set fits neatly within a stock GM or Mallory distributor cap, so it looks like original from the outside. Thanks to specialized electronic circuitry and an infrared signal, you'll never again have moving parts to wear out, and you gain better performance, drivability, and throttle response, plus improved fuel efficiency!

***Delco Distributor***
61001M 1957-74 all w/window cap .... 97.41 set

## Unilite Conversion for GM Distributors

Unilite conversion sets for point distributors put an end to high maintenance point ignition systems by installing a proven Mallory Unilite ignition conversion set. By utilizing specialized electronic circuitry and an infrared signal, ignition timing is stable from 1 RPM through 10,000! Features include more accurate ignition timing than any other type of system, improves performance and fuel efficiency, easy-to-install with simple hand tools, reduced maintenance (never change points again) and latest thermal clad based surface mount construction for maximum dependability and long-life.

501 1957-74 8 cylinder. ..... 90.99 set

## Performance Coil

Replace your stock coil with a Mallory high-performance coil for increased performance, longer life and maximum dependability. A variety of applications are available for your classic Chevrolet engine.

***External Ignition Coil for HEI Ignition***
5526 1987-93 V8 w/FI exc. LT-1 51.99 ea

## Power Coil

The TSP power coil is capable of delivering a longer and hotter spark with up to 70% more spark energy than stock ignition coils. Its convenient design easily mounts to fire walls, core supports and fender wells. It features an aluminum heat sink keeping it cooler for more efficient energy output at lower temperatures. Coils have an HEI style output tower and are rated at 50 kV maximum voltage with 260 mA peak current with 0.35 Ohm primary resistance. Coils include installation hardware, a coil wire boot with terminal and a wiring harness.

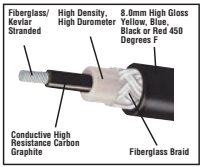
# ACCEL Performance Ignition

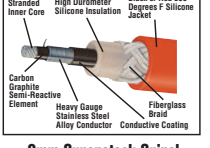


## Superstock

**Applications:** Performance upgrade to OE type/replacement type.
**Features:** Silicone spark plug boots, yellow, blue, red, and black silicone wire, zinc-plated steel spark plug terminals.
**Benefits:** Efficient transmitter of ignition energy, popular priced performance, oversized upgrade where OE is 7mm.
**Construction:** 8mm, 450 degree F silicone and EPDM rubber construction with a fiberglass braid.
**Core:** Carbon/graphite conductive material, high resistance suppression, fiberglass/Kevlar, 3000-7000 Ohms per foot resistance.

*Note: Available in yellow, blue, black, or red. Specify color when ordering.*

| | | | |
|---|---|---|---|
| 4040 | 8mm | specify color | 50.99 set |
| 4041 | 8mm | specify color | 50.99 set |

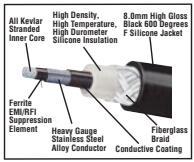


## 8mm Superstock Spiral

**Applications:** Late model coverage.
**Features:** Color matched silicone spark plug boots, high gloss blue, black, red, and yellow wire, stainless steel spark plug terminals.
**Benefits:** Increased ignition energy due to lower resistance, oversized upgrade where OE is 7mm.
**Construction:** 8mm, 550 degrees F double silicone construction with a fiberglass braid.
**Core:** Spiral wound stainless steel alloy conductor, magnetic suppression and semi-reactive material, fiberglass/Kevlar core, 500 Ohms per foot resistance.

*Note: Available in yellow, blue, black, or red. Specify color when ordering.*

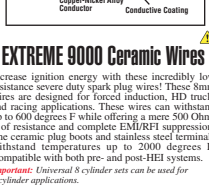
| | | | |
|---|---|---|---|
| 5040 | 8mm | specify color | 66.99 set |
| 5041 | 8mm | specify color | 71.99 set |



## 300+ Race Wire

**Applications:** Race engine configurations.
**Features:** Silicone spark plug boots, black wire, stainless steel spark plug terminal.
**Benefits:** Maximum energy to spark plug, heaviest gauge conductor in the industry, 8.8mm oversized racing wire, complete suppression of EMI/RFI (radio noise).
**Construction:** 8.8 mm, 600 degrees F double silicone construction with a fiberglass braid.
**Core:** HD gauge spiral wound copper/nickel alloy conductor, magnetic suppression and fully reactive ferrite material, all Kevlar core, 150 Ohms per foot resistance.

| | | | |
|---|---|---|---|
| 7030 | 8.8mm | spiral core – black | 134.99 set |



## EXTREME 9000 Ceramic Wires

Increase ignition energy with these incredibly low resistance severe duty spark plug wires! These 8mm wires are designed for forced induction, HD truck, and racing applications. These wires can withstand up to 600 degrees F while offering a mere 500 Ohms/ft of resistance and complete EMI/RFI suppression. The ceramic plug boots and stainless steel terminals withstand temperatures up to 2000 degrees F. Compatible with both pre- and post-HEI systems.

*Important: Universal 8 cylinder sets can be used for 6 cylinder applications.*

## 8.8mm Wire

This ACCEL 8.8mm wire set feature a carbon/graphite element that virtually eliminate RFI noise while providing maximum conductivity for ultimate performance in any race or street application. Double silicon insulation eliminates leakage and misfire.

**Applications:** Performance street/strip.
**Features:** 8.8mm oversized wire, oversized 8.8mm silicone spark plug boots, high gloss yellow wire, stainless steel spark plug terminals.
**Benefits:** True performance upgrade, increased ignition energy due to lower resistance.
**Construction:** 8.8mm, 550 degrees F double silicone construction with a fiberglass braid.
**Core:** Spiral wound stainless steel alloy conductor, magnetic suppression, semi-reactive material, fiberglass/Kevlar core, 500 Ohms per foot resistance.

# Performance Ignition

NEVER CHANGE POINTS AGAIN!

by Pertronix

PX1181

## IGNITOR

Eliminates points and moving parts that wear out, while delivering twice the voltage to the spark plugs over stock to increase horsepower, fuel economy and plug life! Optimal performance can be achieved when used with the Flame-Thrower 40,000 Volt coil. Ignitor is concealed entirely within the distributor so you have no unsightly black box to clutter up your engine compartment. Easily installs in minutes with no complex wiring, is compatible with 12 Volt negative ground systems, and it's smog legal in all 50 states and Canada! Includes a 30-month warranty.

*6 Cylinder*

*8 Cylinder with Hall-Effect Style Sensor*

| | | | |
|---|---|---|---|
| PX1181 | 1957-74 | 8 cylinder..... | 78.99 set |

## Ignitor II

The Ignitor II electronic ignition goes an extra step beyond for even more power and efficiency! It senses levels of current in the coil, and uses a powerful micro controller to adjust the dwell to maintain peak energy throughout the entire RPM range. As engine RPM and operating conditions change, dwell time is increased or decreased to provide more energy at higher RPM, reducing misfires while improving engine performance. Ignitor II develops nearly 4 times more available energy between 3000 and 5000 RPM, and double the available plug voltage! The Ignitor II's higher RPM performance is maximized when used with the new Flame-Thrower II super low resistance (0.6 Ohms) 45,000 Volt coil, but the system is compatible with any induction coil. It comes with a 30-month warranty and is emissions legal in all 50 states and Canada!

|---|---|---|---|
| PX91181 | 1957-74 | 8 cylinder..... | 113.99 set |

## Ignitor III

Ignition box performance without the box. The Ignitor III is the most advanced points replacement set. It is literally an ignition box inside your distributor. It features multiple sparks throughout the entire RPM range and a REV limiter accurate to +/- 50 RPM which is set by you with an LED user feedback for rev limit confirmation. The Ignitor III module generates 5 times more spark than points. This means more spark energy creating more horsepower and better mileage. The Ignitor III features include: adaptive dwell which maintains peak energy throughout the entire RPM range, reducing misfires while improving engine performance. Peak current level is reached just prior to spark for maximum energy without the heat buildup, increasing coil performance and module reliability. Legal in all 50 states and Canada. Fits GM V8 single point type distributors.

***Note:*** *Not available for 6 cylinder.*

| | | | |
|---|---|---|---|
| PX71181 | 1957-74..... | | 149.99 ea |

## 50,000 Volt HEI Coil

An optimized winding design to maximize spark gap current and available voltage. When teamed with the Flame-Thrower module, they produce 100% more energy across the spark plug gap compared to the OEM coil. Select the matching Flame-Thrower module for your application to create a proven performance combo!

## Performance Coil

Complete your ignition upgrade with a Flame-Thrower high-performance coil. Best when used with the Ignitor Electronic Ignition Conversion, the Flame-Thrower high-performance coil fits existing coil brackets for a clean, factory look. Enables larger plug gaps for greater fuel efficiency and more power. Available with either a chrome or black finish. Choose from a variety of voltages and primary resistance ratings.

PX45001

PX45011

## HV 60,000 Volt Coil

The Flame-Thrower HV (high voltage) coil have an E-Core design which is rated at a sizzling 60,000 Volts and operates with no degradation of energy throughout the temperature ranges. Made from 6063-T5 aluminum, it efficiently transfers heat to optimize energy output, and the housing is black anodized for increased corrosion resistance. Available in 3 different resistances for compatibility with most points and electronic ignition systems. Standard threaded connections and mounting hardware are included.

## HC 60,000 Volt Coil

The Flame-Thrower HC (high current) coils have an E-Core design which is rated at 60,000 Volts with an ultra low .32 primary resistance and has a high current design for a rapid charge rate. Made from 6063-T5 aluminum, it efficiently transfers heat to optimize energy output. The housing is black anodized for increased corrosion resistance and has a precision machined male high tension terminal and brass primary terminals. It is compatible with Ignitor II and Ignitor III systems as well as most capacitive discharge boxes. Standard threaded connections and mounting hardware are included.

## HEI Distributor

HEI systems rely on a great module and a great coil. Available in machined or cast finishes. Operates without misfires beyond 7500 RPM. That's 3000 RPM higher than most enthusiasts report with their stock HEI. Produces 67% more energy in the coil, delivers twice the energy across the spark gap allowing wider plug gaps (.050-.055). 12-month limited warranty.

## "Plug and Play" Billet Distributor

"Plug and Play" billet distributors are designed for maximum ignition performance and easy installation, all at a price that you can afford. Replace your outdated points or electronic distributor with this performance proven distributor. This vacuum advance standard deck height distributors feature the patented Ignitor II electronics and a CNC-machined 6061-T6 billet housing. Fits Chevrolet small block or big block engines.

## Billet Slip-Collar Distributor

These Flame-Thrower billet slip collar distributors are designed to give maximum ignition performance and easy installation. Designed for small block or big block Chevrolet engines, these distributors provide all the features and benefits that the complete line of Flame-Thrower distributors offer. The slip collar design fits either standard deck or tall deck applications.

| 66946C | | 18.99 ea |

## Magnetic Trigger Billet Distributor

These magnetic triggering billet distributors for SB/BB Chevy engines contain a precision magnetic pickup coil and reluctor that produce a strong crisp signal even at extremely low RPM. The over molded pickup coil has excellent corrosion resistance and a standard Tyco mate-plug for easy wiring. This distributor is compatible with most capacitive discharge and magnetically triggered ignition systems. Distributors have a mechanical centrifugal advance. Available with black or red caps.

## Cast Stock Look Distributor

These Flame-Thrower distributors are disguised as stock point type distributors. Featuring a hardened precision ground gear with adjustable vacuum advance and a tailored advance curve, these distributors are built to last. Available with standard Ignitor ignition or with the high-performance Ignitor III high energy multi-spark module with adjustable RPM limiter. Includes brass contact high dielectric cap and rotor. 50 state legal. Made in USA.

## 1955-57 Spark Plug Wire Set

Classic Industries® stocks reproduction Delco Packard plug wires used on 1955-57 Chevrolet models. Each wire includes the original style lettering with the wording Packard TVR Suppression. Wiring sets are produced for Chevrolet's with original exhaust manifolds.

*Note: These are not for use with aftermarket type headers or aftermarket manifolds. Wiring may be applicable for use with other manifolds or headers but are not guaranteed to fit. 3-Q dated plug wires may be correct for use on vehicles manufactured in the first months of the succeeding years production.*

- Available for 1955 through 1957 models
- Correct Packard TVR Suppression markings
- Officially Licensed by General Motors

## 1955-74 – 7.0mm Plug Wires

Made in USA

Flame-Thrower Plug Wires are manufactured in original 7mm size jackets to fit stock wiring looms. With no markings or script of any kind on the wire, they maintain a stock appearance yet give you all the benefits of a high-performance wire set including: 2 current paths – spiral wound stainless steel alloy winding and carbon impregnated fiberglass center core, low 500 Ohm per foot resistance, silicone jackets to resist high temperatures, moisture, oil and chemicals. They also have EPDM rubber inner insulation for superior heat resistance and prevention of arcing and voltage leaks. Fiberglass reinforcing braid is added for strength and flexibility. Lifetime Warranty – Made in USA.

## 8.5mm Super Conductor Spark Plug Wires

Made in USA

The MSD 8.5mm Super Conductor is the ultimate performance wire. It's extremely low resistance combined with the ability to suppress electro magnetic interference is a combination that defies the common laws of physics. Less resistance means more energy is going to make it to the spark plug to ignite the air/fuel mixture. The Super Conductor uses a copper alloy conductor resulting in less than 50 Ohms per foot of wire. This ensures that the most energy possible makes it to the spark plug. This combination is encased in a heavy-duty sleeve that will withstand abrasion and high temperatures. Cap off each end with our dual crimp terminals. Made in USA.

*Important: *With wires over valve covers.*

## 1955-86 E3 Spark Plug

E3 has created a spectacular new spark plug that creates the industry's fastest spark growth and fastest combustion pressure rise, meaning it burns fuel more efficiently to give you more power and increased fuel economy. E3's patented design forces the spark discharge from one sharpened edge to another, and projects the spark forward into the combustion chamber, unlike traditional spark plugs, for the most consistent, powerful and efficient burn possible! Sold individually.

## 1955-97 Shorty Spark Plug

Accel's patented race proven spark plugs are now available in a "shorty" configuration. The overall length of each plug has been reduced 1/4" to 3/8" (depending on the specific spark plug) to gain critical Air Gap space between the spark plug boot and the exhaust manifold or header tube. This helps eliminate burning the spark plug boot or dimpling the header tube. The shorter spark plug length also can make it easier to install and remove the spark plugs in certain applications where there is not a lot of room to work with a socket or wrench.

***Note:*** *Standard U-Groove header plugs are sold in sets of 8. P526S Double Platinum plugs are sold individually.*

## Spark Plug Wire Heat Shield

Made in USA

This heat shield offers spark plug wires and boots the ultimate protection from conductive and radiant heat. The dual purpose sleeving has an aluminized outer surface that reflects 90% of radiant heat, up to 2000 degrees F, with a formulated silica based fabric inside that prevents conductive heat from penetrating.

## Plug Wire Sleeves

Easy-to-install Cool It nonflammable plug wire sleeves can be used in any temperature environment from street vehicles to race cars. Enhance performance, reduce misfires and extend plug wire life! Will not react with petroleum products. The double wall construction keeps the wire and boot cooler in a high temperature engine. Universal size fits most boots. Sleeves are available in packs of 4 or 6.

## Street Fire HEI Distributor

Introducing the Street Fire value line brand of MSD Ignition. Street Fire components will offer a quality designed alternative to the bottom bargain parts that are springing up all over. We're so assured with the quality of our new Street Fire HEI Distributor that we provide a one-year warranty with it! We know the importance of a centrifugal advance in a distributor so our engineers made sure that the Street Fire received an advance assembly with coated weights and welded weight pins (not just pressed in like other models). Another area that you can not afford to scrimp on is with a distributor gear. The Street Fire is fit with the same gear that is used on our Pro-Billet models. The metallurgy of this gear has been refined for years to perform through the harshest conditions. Inside, the ignition module and coil work together to produce a stout spark to light the fuel mixture for great performance. The high voltage is transferred through a new rotor to the brass terminals of the distributor cap and out to the plugs. The Street Fire Distributor is the first product to come from our new value branded ignition line. Made in USA.

## Pro Billet Distributor with Vacuum Advance

This distributor features a flawless lightweight CNC-machined 6061-T-6 billet aluminum housing and a polished steel shaft with a QPQ coating. This process produces a durable finish that reduces friction and resists corrosion. To accurately guide the shaft, MSD uses a sealed ball bearing located at the top of the housing. At the bottom of the housing, an extra long sintered bushing controls the shaft. This combination keeps the shaft spinning smooth and accurately throughout 10,000+ RPM. Other features include an iron drive gear, Rynite® distributor cap with brass terminals and a high output magnetic pickup to trigger the ignition. "Ready-to-Run" distributors do not require an external controller and are the "Plug and Play" alternative to more expensive computer controlled systems. Made in USA.

## 1959-80 Vacuum Advance

A primary component of your vehicle's ignition system is the vacuum advance. The vacuum advance is a mechanism attached to the distributor which moves the breaker point or pickup coil plate when it receives vacuum generated by the engine. Over time, the vacuum advance can become worn or the diaphragm can become brittle and crack causing the vehicle to run poorly.

## 1957-74 Quality Tune-Up Kit

When you want ignition components that are one step above OE quality, go for the gold! Classic Industries® is proud to offer this premium line of ignition components. World-Class manufacturing technology, high performance design and premium quality compounds make this tune-up kit the ultimate choice for longer life and trouble-free service. Why replace just one component when you can buy peace of mind and save money at the same time! Our kits come complete with premium quality distributor cap, rotor, points, and condenser.

# Ignition Components

## Correct Remanufactured Ignition Coil

K6006E

Remanufactured ignition coils are now available for the discriminating restorer or purist who is looking for an ignition coil to correctly match his engine build date. These V8 coils are remanufactured using new windings and new ceramic insulators. They feature new cans embossed with the correct part number along with an original Delco-Remy top.

***Important:** 3 digit # represents the last 3 digits of the GM casting number.*

G7244

## Genuine GM Rebuilt High Torque Starter

Genuine GM remanufactured starter motor. Replace your original worn out starter with a Genuine GM starter. We now offer these original style rebuilt starters for 1st or 2nd generation models. Maintain originality along with the reliability of a factory replacement. Aftermarket starters are good but they don't offer a cosmetically correct appearance. Each starter is completely remanufactured and tested before leaving the factory. If you are unsure or do not see the listing for your vehicle call in or go to our website at www.classicindustries.com.

*Note: Staggered bolt pattern with 168 tooth flywheel.*

# Starter Components

## Starter Heat Shield™ Set

In today's high heat environment, starters take in a lot of damaging heat that destroys the windings of the starter and solenoid. To combat this problem, we offer a non-conductive strap-on heat shield with a highly reflective Mylar surface. The Starter Heat Shield™ will reflect over 90% of radiant heat, adding life to the starter and assuring reliable starts. The Starter Heat Shield™ is a universal set that fits all starters.

## 1955-57 Electrical I.D. Tag Fasteners

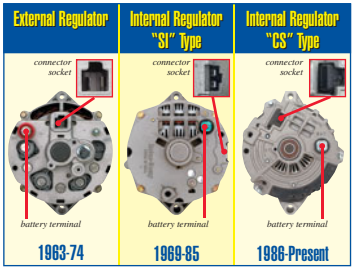
These fasteners are reproductions of the ones used to attach identification tags to starters, generators and distributors. Fasteners are sold in sets of six.

TF700620 1955-57 ..... 2.69 set

WARNING: Cancer and Reproductive Harm- www.P65Warnings.ca.gov

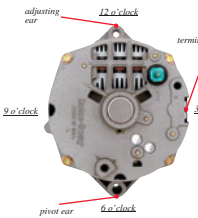
# Alternators

## Internal and External Regulator Alternator Identification Guide



## Clocking Position Identification Guide

The Delco SI series alternators are manufactured so that the rear half of the alternator case can be assembled to the front half of the case in any one of four positions. These positions are referred to as the "clock" positions. Clock positions are determined by viewing the alternator from the rear with the threaded mounting hole (adjusting ear) straight up. With this view, the terminal socket for the two wire, plug-in connector will point to any one of the four available "clock" positions. Straight up is 12 o'clock, to the right is 3 o'clock, straight down is 6 o'clock and to the left is 9 o'clock. Having the different clock positions allows for the alternator to be mounted on the left side or right side of the engine. It can also be mounted right side up or upside down depending on the clock position. This allows for the SI series alternator to be used on many different applications.



### Smooth Look Alternator

This is a beautiful new look in alternators. The sharp lines on the back of most alternators have been replaced with a smooth domed surface. The sharp lines around the side have been eliminated and the air vents have been reworked to optimize cooling and surface finish. This chrome alternator is sure to brighten up your engine compartment. This all new alternator will add a custom appearance to your Nova while maintaining a high degree of dependability and performance.

| | | | |
|---|---|---|---|
| S674611 | chrome | 140 amp, one wire | 224.99 ea |

### Restore Your Charging System with a Remanufactured Alternator!

Direct replacement for your worn out or non-working original alternator. These quality remanufactured alternators will install and function as original. We offer a wide selection of different applications depending on your year and model. If your late model Chevrolet is not listed here, check our listings for brand new units.

*Note: Part numbers with a "U" suffix followed by a number refers to a clock position of the terminal socket on the alternator case. Looking at the back of the alternator with the pivot ear at the bottom, or 6 o'clock position, note the clock position of the terminal socket on your original alternator, and match it to the replacement listings.*

## 1983-88 Brand New Alternator

Direct replacements for your original alternator. These brand new (NOT remanufactured) alternators will install and function as original. We offer a wide selection of different applications depending upon your year and engine. Appearance may differ slightly from original.

*Note: Part numbers with a "U" suffix followed by a number refers to a clock position of the plug-in terminal on the alternator case. Looking at the back of the alternator with the pivot ear at the bottom, or 6 o'clock position, note the clock position of the plug-in terminal on your original alternator, and match it to the replacement listings.*

## 1958-68 Alternator Bracket for Headers

Exhaust headers often use extra thick flanges and tight bends, making it difficult to mount an alternator bracket. These ceramic coated steel alternator brackets mount to either side of the engine to close mount the alternator toward the vehicle center line without interference. A billet aluminum spacer is offered separately for those who wish to retain the original alternator position and belt routing. Three spacer styles are offered with either a polished or satin finish.

# Fuel Tank Replacements

## OEM AUTHORIZED

These reproduction fuel tanks are manufactured to factory specifications from stamped steel and are available in a variety of finishes to suit your build. Basic zinc coated steel tanks are a great value, offering strong corrosion resistance at a reasonable price. Ni-terne steel tanks provide an OE quality appearance for discerning restorers. For show quality builds, stainless steel tanks offer superior corrosion resistance with a spectacular polished finish.

## Zinc Coated Fuel Tanks ★★★

- Quality Replacement Tank
- Standard Corrosion Resistance
- Manufactured to Factory Specifications

## Ni-Terne Steel Fuel Tanks ★★★★

- OE Quality Reproduction Tank
- Exceptional Corrosion Resistance
- Manufactured to Factory Specifications

## Stainless Steel Fuel Tanks ★★★★★

- Show Quality Replacement Tank
- Superior Corrosion Resistance
- Stainless Steel Polished Finish
- Manufactured to Factory Specifications

## Aluminum Fuel Tank

Featuring an all new design, this baffled aluminum fuel tank is a high capacity replacement for the factory fuel tank. This fuel tank mounts to the frame and not the trunk floor, allowing for a firm anchor point and also retains use of the factory spare tire well. Our newly redesigned aluminum gas tanks fit between the frame rails, are fully baffled and have an internal fuel trap. They can run an internal or external fuel pump, there is an extra fuel port into the fuel trap so they work great either with carburetor or with fuel injection. Tank measures 28" x 34" x 9-1/2" and includes frame mount cross bar, fuel filler hose, and hardware. Requires use of screw-on style sender part #TF500021 sold separately (compatible with your factory fuel gauge).

***Important:*** *Will not work on wagon models. Some drilling to the frame is required. Some vehicles with a 1 piece filler tube may need to shorten the filler tube for the filler hose.*

***Note:*** **For aftermarket non-factory style fuel tank. Shipped double oversize.*

# Fuel Tank Replacements

A9719109

## Features/Benefits:

- Tanks are coated galvanized steel then powder coated silver for total corrosion protection
- 255 lph fuel pump with hanger assembly gives you the fuel you need with in-tank quietness. Tank holds 18 gallons of fuel. Sender has NPT Supply and Return line ports for easy fuel line connection and a barbed vent fitting
- NPT Supply and Return line ports for easy fuel line connection and a barbed vent fitting
- Fuel level sender included with the correct Ohm range for your factory gauges
- Fuel pump and sender are recessed in the tank to provide an easy installation with no modification to your car
- EFI style tank baffling includes a large 4.3 liter internal fuel tray to prevent fuel pump starvation
- Fits and looks like an OE tank when installed Complete bolt in solution for your EFI conversion
- Complete EFI fuel tank solution in one box!

## EFI Conversion Fuel Tanks with Fuel Pump

Holley and Sniper are here to help you to complete your EFI swap with new EFI conversion fuel tanks. Each tank is a direct fit for your application -no modifications necessary. The kit includes the tank, a 255 lph fuel pump, internal baffling, a correct Ohm range fuel level sender, and the filler neck. The tank is powder coated for corrosion resistance and great looks. These tank kits are a complete solution for your EFI project!

## Gold Standard Fuel Tank Sealer Set

Our 3 step fuel tank sealer set contains almost everything you might need to seal a tank of up to 25 gallons. The Gold Standard Tank Sealer is specifically formulated to stop rust and corrosion by forming a tough, fuel impervious coating while simultaneously sealing small pinholes and weld seams. The prep products are formulated to extend storage times by leaving a zinc phosphate film that prevents rust until you have a chance to seal the tank with the sealer. Complete set and individual items available.

**3 Step Fuel Tank Sealer Set**

Buy our fuel tank sealer set and save! Each fuel tank sealer set includes: 2 quarts of Klean (a water based, heavy-duty, cleaner/degreaser), 1 quart RustBlast (a powerful rust remover/metal etch), 1 quart Gold Standard Tank Sealer, gloves, instructions, and a stir stick.

71564 liquid filled gauge..... 51.99 ea

## Driven Carb Defender

Driven Carb Defender Fuel Additive has been formulated to protect against harmful ethanol deposits and corrosion in fuel and the induction system. Special inhibitors resist expensive damage and reduced performance from moisture accumulation from modern ethanol blended gasoline. This additive controls combustion chamber residue, cleaning and protecting fuel system and intake tract surfaces to keep carburetors functioning properly. Carb Defender is ideal for everyday drivers or classics that spend time in storage between cruises and special events. One bottle treats up to 25 gallons of ethanol blended fuel.

JG1341 case of 6 – 4.5 oz. bottles.... 53.99 cs

## Fuel System Cleaner

Max-Clean targets and cleans deposit buildup in the intake system and combustion chamber and is effective on the entire spectrum of engines on the road. Deposit buildup is a natural consequence of fuel combustion, but can have significant effects on the performance and reliability of your engine. Royal Purple's Max-Clean can restore internal engine surfaces, recovering lost fuel economy and performance.

RP11723 case of 6 – 20 oz. cans..... 86.99 cs

## Defender+Booster Fuel Additive

New!

Raises the octane in unleaded fuels, reduces valve seat wear and protects against the corrosion deposits common with today's gasoline. Like Driven Carb Defender and Injector Defender Fuel Additives, this product features corrosion inhibitors that control combustion chamber residue, as well as clean and preserve surfaces of the fuel system. By cleaning and controlling combustion chamber and intake valve deposits, Defender + Booster Fuel Additive protects against detonation and improves fuel economy. The additive is ideal for all carbureted and fuel injection vehicles, including motorcycles and marine engines. Each 10 ounce bottle treats up to 25 gallons of gasoline, and regular use has been proven to lower emissions.

JG1342 10 oz. bottle..... 9.99 ea
JG1344 case of 6 – 10 oz..... 53.99 cs

## J-B Weld Gas Tank and Radiator Repair

New!

AutoWeld is a hand mixable, steel reinforced, non-rusting epoxy putty that quickly repairs or rebuilds anything made of metal. After mixing, it forms an industrial strength polymer compound that can be molded into shapes or used to buildup, patch and repair steel components. AutoWeld sets in 5 minutes and after 60 minutes, can be drilled, tapped, machined, ground, filed, and painted. Cures dark gray. Made in USA.

## Chrome Fuel Pump

Holley triple chrome-plated fuel pump. Each high volume mechanical fuel pump flows 60 gallons per hour at 7-1/2 psi. Features include an adjustable lower housing allowing 360 degree rotation of fuel inlet-outlet fittings for custom installations. Applications to fit small block and big block engines. 3/8" NPT inlet and outlet.

E1721

## Performer RPM 110 GPH Fuel Pump

Designed for all Edelbrock carburetors used in Performer or Performer RPM applications. These high-performance street fuel pumps feature a high-quality three stage polished finish. The unique valve design improves flow quantity and quality, and will support engines up to 600 HP. High volume, 3/8" NPT inlet and outlet surpasses the capacity of conventional models. Produces 6 psi and does not require a regulator. For gasoline only. Clockable lower housing can be rotated for best inlet/outlet alignment.

- No diaphragms or mechanical parts to wear out
- Hose barbs fit 5/16" fuel hose

## Micro Electric Fuel Pump

This compact electric fuel pump features a solid state design that has a low current draw of around one amp and makes a good stand alone pump or booster pump. Designed for carbureted vehicles with a 12 Volt negative ground electrical system, this pump supports 4-7 psi at up to 35 gph. Includes: fittings, mounting hardware, and instructions.

***Note:*** *Not for diesel applications.*

| | | | |
|---|---|---|---|
| 71211 | | ..... | 48.99 ea |

New! PAINLESS

## Perfect Flow Fuel Delivery System

The Perfect Flow fuel delivery system is a fuel pump system designed to support up to 1000 horsepower in naturally aspirated engines. It can also be configured as a main and secondary pump to support up to 500 horse power in situations where a redundant fuel delivery system is needed, such as off-road or racing. Set includes: 2 sealed and fused 40 amp relays, terminals, and mounting hardware.

***Important:*** *Due to the many possible plumbing options no fittings are included with this set.*

# Electric Fuel Components

Edelbrock

## Fuel Pressure Regulator

This fuel pressure regulator is machined from aircraft quality aluminum with fluorosilicone diaphragm material for high temperature protection and extended life. This fuel pressure regulator has a single 3/8" NPT inlet and dual 3/8" NPT outlets for carbureted applications and is adjustable from 5 psi to 10 psi, providing extremely consistent pressure regulation. Compatible with all grades of gasoline and methanol, and has a 1/8" NPT gauge port. Includes mounting brackets and hardware. 160 gph.

E1727 ..... 150.99 ea

Edelbrock

E1728

E1729

## Fuel Pressure Regulator

For those who want the best! These fuel pressure regulators are machined from aircraft quality aluminum and have fluorosilicone diaphragm material for high temperature protection and extended life. The E1728 features dual -6AN inlet ports, a single -6AN outlet and a -6AN external bypass. The E1729 has a longer body and dual -10AN inlet ports, a single -10AN outlet and a -6AN external bypass. Compatible with all grades of gasoline and methanol fuels. Adjustable from 35 psi to 90 psi and has 1/8" NPT gauge ports. 180 gph.

New! Aeromotive

## EFI Bypass Regulator

Performance EFI regulator designed for medium to high horsepower applications. This regulator features Aeromotive's high flow design, superb pressure control and legendary durability. Features base pressure adjustable from 40-75 psi, gasoline and alcohol compatible, fuel pressure rises on a 1:1 ratio with boost, 1/8" National Pipe Thread taper (NPT) gauge port. Includes 2 o-ring boss fittings (ORB-06) inlet ports and 1 o-ring boss fitting (ORB-06) return port.

A9713109 adjustable with EFI..... 198.99 ea

New! Aeromotive

## Universal Bypass Regulator

A dual purpose, universal regulator for EFI or for Carbureted street/strip applications. Features pressure adjustable from 3 to 20 psi with standard spring, (installed) or from 20 to 60 psi with high pressure spring (included). Offers the full flow and rock steady fuel pressure that only a dynamic, Aeromotive bypass regulator provides. Capable of regulating any fuel pump between 100 and 250 gph, fuel pressure rises on a 1:1 ratio when referencing boost. All ports are 3/8" National Pipe Thread taper (NPT), with one inlet and three outlets on the main body and one return port on the bottom. Bypass design provides the ultimate, dynamic fuel pressure control.

***Note:** Requires a return line to be installed from the bottom of the regulator to the top of the tank.*

***3 Port 3/8" NPT***

A9713301 ..... 191.99 ea

New! Aeromotive

## Carbureted Bypass Regulator

For use when converting from fuel injection to carburetion using the EFI pump in a carbureted application. Perfect for naturally aspirated or 'blow-through' supercharged engines. Features base fuel pressure adjustable from 3-15 psi, 1 o-ring boss fitting (ORB-10) inlet port and 1 o-ring boss fitting (ORB-08) return port, fuel pressure rises on a 1:1 ratio when referencing boost, bypass design provides the ultimate, dynamic fuel delivery system, ideal for converting from fuel injection to carburetion using the stock, in-tank pump, EFI conversions will require a larger than stock return line for proper low pressure control. Includes two o-ring boss fittings (ORB-06) outlet ports and 1/8" National Pipe Thread taper (NPT) gauge port.

***Note:** Requires Army/Navy fitting (AN-08) return line from bottom of regulator back to top of the tank.*

A9713204 2 port ..... 206.99 ea

## Fuel Pump Safety Switch

This safety feature is a must have for any electric fuel pump vehicle. This safety switch monitors the tach signal to limit when an electric pump can operate. When the key is first turned on, the fuel pump is allowed to run for three seconds, priming the fuel system. After that, it only operates if the engine is running. If the engine stops, so does the fuel pump. No plumbing into the oil lines or no extra priming button under the dash is required.

RE12003 ..... 69.99 ea

## Fuel Pump Safety Switch

This fuel pump safety switch shuts off fuel flow whenever oil pressure drops below 15 psi. This adds a safety factor in case of an accident or engine stall. Designed for 12 Volt electrical systems and can be teed into the oil pressure sending unit with an 1/8" NPT tee.

77872 ..... 25.99 ea

Edelbrock

## Fuel Pump Relay

This universal fuel pump relay will ensure proper wiring which reduces the risk of damaging the fuel pump, and offers consistent fuel pressure. This relay is used with fuel pump part #E1791 or #E1792.

E1795 universal relay ..... 64.99 ea

# Performance Carburetors

## Street Series Carb

Street carburetors are constructed of lightweight aluminum, including provisions for a choke assembly and changeable idle air bleeds for easy, non-permanent calibration changes if necessary. Fine tuning is accomplished by simply changing air bleeds, not opening up calibration restrictions with a drill bit! These dual fuel feed inlet carburetors are hand assembled in the U.S. using the PROFORM high flow carburetor main body, durable billet metering blocks, aluminum fuel bowls, and a high-performance billet throttle base plate.

New! PROFORM

67208

**Carburetor Main Body Features:**

Lightweight Aluminum – Not Heavy Zinc
High Flow Center Section Design
Flat Surfaces: CNC Precision Finish
Changeable Screw-in Idle Air Bleeds
Changeable Screw-in High Speed Bleeds
High-Performance Down Leg Boosters except 650 cfm
Electric Choke on Mechanical Secondary and Vacuum Secondary Models

**Billet Throttle Base Plate Features:**

Adjustable Secondary Housing on Vacuum Secondary Models
Easy Access Secondary Idle Air Flow Adjustment
Strong, Lightweight Billet Aluminum
Corrosion Resistant Black Anodized Appearance
Button Torx Head Throttle Plate Screws
Power Valve Blow Out Protection
Slip Link Linkage on Mechanical Secondary Models

**Fuel Bowl Features:**

Lightweight Die-Cast Aluminum
Fuel Level Sight Windows
Externally Adjustable Needle and Seat
Dual Feed Fuel Inlet
Notched Secondary Float

**Billet Metering Block Features:**

Strong, Lightweight Billet Aluminum
Four Corner Idle System on Mechanical Secondary Models
Changeable Idle Feed Restrictions
Durable, No Warping or Porosity Problems
Secondary Jet Extensions on Mechanical Secondary Models
Non-stick Gaskets

## Slayer Series Carburetor

QUICK FUEL TECHNOLOGY

The 600 and 750 cfm Slayer Series carburetors are designed with the same engineering and innovations featured on all QFT products. These affordable, vacuum secondary street carburetors feature all aluminum construction and hand built quality. They are designed with a secondary metering plate with changeable jets, eliminating the need for a costly secondary metering block. Get QFT race winning innovation for your vehicle at a great price.

CB710600

*Note This product is not CARB exempt. Products that are not CARB exempt are legal in most states, but may not be used in California or states with similar emissions laws except on pre-1976 vehicles.*

- Changeable idle air and high speed bleeds
- 3 Stage emulsion circuits in primary metering block
- Changeable primary idle feed restrictions and power valve channel restrictions
- QFT QuickSet adjustment on the vacuum secondary housing that provides external adjustment of the diaphragm without changing springs
- Notched secondary float for use with jet extensions
- Secondary metering plate with changeable jets
- Fully adjustable electric choke
- Polished finish for superior good looks

## Hot Rod Series Carburetor

QUICK FUEL TECHNOLOGY

The Hot Rod Series of carburetors is designed for street applications. Made from lightweight aluminum castings and packed full of features, these carburetors are sure to make your hot rod run its best! Hand assembled and engine tested in the USA! Available in both vacuum and mechanical secondary configurations.

CB711650

*Note This product is not CARB exempt. Products that are not CARB exempt are legal in most states, but may not be used in California or states with similar emissions laws except on pre-1976 vehicles.*

- Quick Set electric choke with one wire hookup for years of trouble-free starting.
- Dual inlet fuel bowls with Quick Set sight windows on both fuel bowls for safe and easy float level adjustment.
- Vacuum secondary carburetors have a Quick Set housing that is adjustable by simply turning a screw – no more spring assortments to keep up with or torn diaphragms.
- 4 corner idle for smooth and efficient idle quality.
- Screw-in air bleeds for quick and unsurpassed tuning capability.
- Screw-in idle feed restrictions.
- Non-stick gaskets throughout for easy service.
- The QFT 4 door™ power valve with a strong diaphragm and blow-out protection in the throttle body.
- Universal throttle lever with sealed throttle shafts for years of smooth operation.
- Full vacuum accessory ports for PCV, power brakes and timed spark advance.

# Performance Carburetors

## Thunder Carburetors

Edelbrock

The Thunder Series carburetors share all the performance advantages of the popular Performer Series but with innovative new features. The Quick-Tune secondary air valve can be easily adjusted to match your needs. Whether you want the secondaries to "kick in" early or late, you can set the air valve using standard tools, with no extra springs. Its a quick and simple process. These carburetors include all of the performance features of the Performer Series carburetors and also include distinctive black hardware, dual fuel inlets (shipped with left side plugged), lightweight ball burnished and CNC profiled body, and the Quick-Tune secondary. They're available in 650 cfm and 800 cfm sizes with manual or electric choke. There's even an 800 cfm version specifically designed for off-road vehicles. These Edelbrock carburetors bolt-on and run right out of the box! Simply dependable, proven performance for almost any carbureted vehicle. All Edelbrock carburetors include an installation kit and owners manual.

## Performer Carburetors

Edelbrock

Performer Series carburetors complete the Edelbrock Power Package System for a smooth running and great performing "no guesswork" parts combination. By design, Performer Series square bore carburetors are refined to provide the widest possible torque range when matched with Edelbrock Performer, Performer RPM, RPM Air Gap or Torker II manifold and camshaft combinations. However, these carburetors are not limited to these applications, they also match well with most stock and other manifolds of similar design. Performer Series square bore carburetors are all aluminum, ball burnished and lightweight. There are no power valves to blow out or plastic parts to break. The 2 piece construction resists warping and the metering rods can be changed in seconds without removing the carburetor. These Edelbrock carburetors bolt-on and run right out of the box! Simply dependable, proven performance for almost any carbureted vehicle. All Edelbrock carburetors include an installation kit and owners manual.

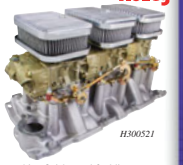
## 650 CFM Carburetor

This Holley 4150 Series 650 cfm 4 barrel carburetor is ideal for most moderate performance small block V8 engines. It features center hung float bowls, a universal throttle lever, vacuum secondaries, and an electric choke. This is one of the simplest ways to get more performance from your engine.

| | | | |
|---|---|---|---|
| H80783 | 650 cfm | electric choke | 582.99 ea |

## 1955-86 Chevrolet Tri-Power



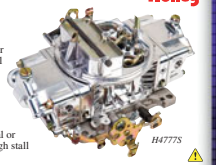
Holley Tri-Power intake manifold and carburetor system for small block Chevy engines. It was factory equipment under the hood of the legendary big block L71 and L89 Corvettes. With a Tri-Power system you can cruise around economically on the 350 cfm center carburetor or unleash all 1000 cfm at wide open throttle to truly have the best of both worlds. Systems include a dual plane medium rise 3 x 2 Weiand intake manifold, three Holley 2 barrel carburetors (one 350 cfm center carb with electric choke and two 325 cfm outboard carbs) in either a dichromate or cast shiny finish, steel fuel lines, progressive throttle linkage and reusable air filters with polished housings.

*H300521*

***Note:*** *Carburetors do not have a provision to connect an automatic transmission kick down cable or linkage. Overall height is 11-1/2" front and 12-1/2" rear with air cleaners installed. HEI distributors will need to use a standard cap style small body distributor, the large caps with coils on top are too large to fit.*

| | | | |
|---|---|---|---|
| H300521 | | cast dichromate finish | 2364.99 ea |
| H300522 | | cast shiny finish | 2244.99 ea |

## Polished Double Pumper Carburetor



Holley 4150 Series double pumper carburetors are available in several sizes and with manual or electric choke. These carburetors feature mechanical secondaries, center hung float bowls and power valve blow-out protection. The double pumper is designed for use on lightweight vehicles with a manual or automatic transmissions with a high stall and low rear end gears.

## Street Series Avenger Carburetor

The Holley 4150 Series Street Avenger™ Series carburetors are the first true performance carbs specifically designed, dyno-tested, and calibrated for performance on the street. They feature the No Trouble™ adjustable vacuum secondary, four vacuum ports, electric choke, external float adjustment, and the new Gen IV Power Valve. If you're looking for better throttle response, quicker acceleration, enhanced fuel economy, and superior driveability, the Street Avenger™ carbs are your answer.

## Transfer Tube O-Ring Seals

These fuel resistant o-rings will help prevent dangerous fuel leaks at your carburetors fuel transfer tube. Both old and new style o-rings are available.

H2637 old style..... 7.99 pr
H10897 new style ..... 8.99 pr

## Carburetor Needle and Seat

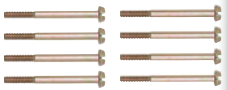
We offer several needle and seat assemblies for Holley carburetors. The seat size determines how much fuel can flow at a certain pressure. Larger sizes flow more fuel. Tune your Holley carburetor to flow the right amount of fuel at the proper pressure with a new Viton-tipped needle and seat.

H6506 .97 adjustable..... 17.99 ea
H6504 .110 adjustable..... 18.99 ea
H6518 .120 adjustable..... 32.99 ea
H6513 .97 off-road ..... 32.99 ea

## Accelerator Pump Cam Set

This set will allow you to "tailor" accelerator pump performance to the engine's actual requirements. Each cam has a different shape to give different results. The shape of each cam directly affects the accelerator pump stroke and pump capacity. A steeply rising cam shape will give a fast, heavy fuel shot right off idle. Conversely, a gentle sloping ramp will spread the pump action over a longer period of time.

H2012 includes 8 pump cams..... 33.99 set



## Carburetor Float Bowl Screws

These are reproductions of the screws for Holley dual float carburetor bowls. This is a set of eight 2-1/2" flat blade screws. A must when rebuilding your Holley dual float carburetor.

14305 ..... 14.99 set

## Float Adjustment Tool

No more slight-of-hand tricks! Easily adjust your carburetor float level with this hand float adjustment tool. 5/8" socket and built-in screwdriver blade protects your engine and hands from fuel spray.

## 1957 Single Quad Carburetor Choke Cover

Reproduction carburetor choke cover for 1957 models.

TF700511 1957..... 59.99 ea

## 1957 Carburetor Complete Choke Assembly

To provide the rich fuel mixture required to sustain operation at low engine temperatures, a choke is used to restrict the flow of air at the entrance to the carburetor, before the venturi. With this restriction, extra vacuum is developed in the carburetor barrel, which pulls extra fuel through the main metering system to supplement the fuel being pulled from the idle and off idle circuits. This complete choke assembly includes 170AB238S choke cap set (see part #TF700490). Choke cap made from thermoplastic as original.

TF700491 1957..... 89.99 set

## 1957 Carburetor Throttle Plates

Chevrolet passenger car carburetor throttle plates. As the throttle is gradually opened from the fully closed position, the throttle plate uncovers additional area behind the throttle plate where a low pressure area is created. This allows more fuel to flow and compensates for the reduced vacuum that occurs when the throttle is opened, thus smoothing the transition in fuel flow metering through the regular open throttle circuit. Made from steel as original.

## 2 x 4 Carb. Fast Idle Screw and Spring Set

Chevrolet passenger car AFB, WCFB 2 x 4 carburetor fast idle screw and spring set. Fast idle serves as a way to help the engine warm up quickly, giving a more stable idle in cold temperatures by increasing airflow throughout the intake system to better atomize the cold fuel. Made from steel as original.

TF700487 ..... 4.99 set

## 2 x 4 Carb Air/Fuel Ratio Brass Mixture Screws Set

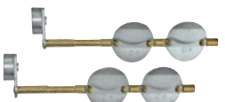
Chevrolet passenger car carburetor air/fuel ratio brass mixture screws set. These small brass screws are needed to adjust the air fuel mixture in your carburetor. Set includes 2 brass screws and 2 springs for 2 x 4 barrel carburetors.

TF700486 1956-57 ..... 11.99 set

## 1957 2 x 4 Carburetor Fast Idle Cam

This 1957 Chevrolet passenger car 2 x 4 carburetor fast idle cam prevents the throttle plate from closing fully while the choke is in operation, causing the engine to idle at a higher speed. Fast idle causes the engine to warm up quickly. Includes: fast idle cam with secondary lockout, choke release link, rod, and shaft clip. Made from steel as original.

TF700468 1957 2 x 4 barrel ..... 59.99 ea



TF700469

## 1958-57 Passenger Car 2 x 4 Carburetor Secondary Air Valve Set

These 1956-57 Chevrolet passenger car 2 x 4 carburetor secondary air valves are connected by a cam and linkage to the secondary fuel metering rods. As airflow increases through the secondary bores, the air valves are pushed down, rotating a cam that lifts the secondary metering rods. The position of the air valve will control both fuel and air flow. These are available for 1956 and early 1957 with a short arm and lightweight and for 1957 with a short arm and a heavyweight both include a set of two butterflies. Made from steel as original.

TF700469 1956-57 2 x 4 barrel ..... 149.99 set

## Throttle Cable Brackets

Lokar throttle cable brackets are available for a variety of different motors including carbureted setups, LS1, Ram Jet 350, 502, and more. Finishes include stainless steel, black stainless steel, and billet aluminum were available. Carburetor brackets only fit Holley, Edelbrock, AFB, Quadrajet, Demon, and In-line Dual Quad carbs and mounts to the rear. Brackets for Tuned Port Injection are available with a single hole stud for throttle only, a dual hole stud for throttle and kick down, and a triple hole stud for a throttle, kick down and cruise control cables. Made in USA.

***Important:*** *Ram Jet 350 uses LS1 throttle cable TC30036 or TC30048.*

***Note:*** **Cruise control bracket set only.*

# Electronic Fuel Injection

2900

## Atomic EFI Set

The MSD Atomic EFI set fits all engines making up to 525 horsepower at the crankshaft. The annular ring charge injection design produces a better air/fuel mixture and distributes it evenly among the cylinders. As a result, engines idle, start and drive better with the Atomic EFI set. Throttle bodies feature 80 lb injectors and a self-calibrating throttle position sensor. They also feature an internal fuel rail for no-leak, no-hassle fuel delivery. The master set is complete and ready to use out of the box. It includes the EFI throttle body, electric fuel pump, fuel line and filter with hardware, power module with wide band O2 sensor and handheld controller. Also available are the throttle body set which includes everything except for the fuel system components. Or purchase the fuel components separately.

***Note:*** *Atomic EFI sets are California emissions approved for carbureted General Motors vehicles 1987 and older. E.O. number D-722.*

***Atomic EFI Master Set***

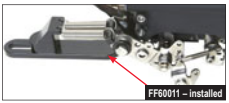
***Go EFI 4 Master Set with Inline Pump***
FF31001 bright aluminum ..... 1236.99 set
FF31002 matte black ..... 1236.99 set



## Throttle Return Spring

This set will provide a throttle return spring for any FiTech 4 barrel throttle body. Includes: bracket, springs, and mounting hardware.
FF60011 ..... 31.99 set

H120510

## Sniper EFI Air Cleaner Base

Holley Sniper EFI air cleaner 1" drop base for 14" air cleaners. This base was specifically designed for use with the Sniper EFI 4 barrel throttle body. It features two reliefs stamped into the steel to clear the Snipers dual fuel inlets. Compatible with -6AN to 3/8" 90 degree fittings and available in chrome or black.
H120510 all V8 chrome ..... 29.99 ea
H120511 all V8 black ..... 23.99 ea

## EFI Fuel Return Adapter

This adapter creates a return system simply by cutting a 2-3/4" section out of any standard 2" fuel filler tube. Made from aluminum with a 3/8" fitting that points 90 degrees downward to direct fuel back to the bottom of the tank. Each set includes the adapter with two Buna rubber sleeves and four stainless steel clamps for a leakproof seal.
265385 ..... 60.99 set

# EFI Conversion Sets

New!

## Sniper EFI Fuel Injection Conversion Sets

Holley Sniper EFI universal self-tuning fuel injection conversion sets. Converting to EFI will put an end to the cold start issues, hesitations, vapor lock, and flooding associated with most carbureted engines. Sniper sets feature numerous styles of throttle body and are available in polished, black ceramic, and classic gold finishes. Master sets include the most complete fuel system on the market. Holley just brought EFI within range and Classic Industries® carries the complete Sniper line with sets for nearly any application.

### Sniper EFI Features:

- Easy 4 Wire Hook Up
- Throttle Body Mounted ECU
- Supports Up to 650 HP
- Integrated Ignition Timing Control & Coil Driver
- High Resolution Full Color Touchscreen
- Simple Calibration Wizard – No Laptop Needed
- OEM Style Sensors
- Clamp-on Oxygen Sensor Bung

## 4150 Four Barrel Sets

Holley 4150 four barrel sets feature dual bolt patterns (square and spread bore), an internal fuel pressure regulator, and four 100 lb injectors capable of supporting up to 650 horsepower.

***Note:** Spread bore/Rochester Q-jet applications require sealing plate part #19V0060.*

***Standard Sets***

| | | |
|---|---|---|
| H550510 | polished/shiny | 1070.99 set |

| H550516K | classic gold | 1404.99 set |

## Quadrajet 4 Barrel Sets

New!

Holley Quadrajet 4 barrel sets are designed to deliver that Rochester roar at wide open throttle. They feature a spread bolt pattern and multiple fuel inlet configurations that allow for a stock appearing installation under the stock air cleaner. Includes a GM brake booster adapter, throttle lever provisions for TH350/TH400 and 200R4/700R4 transmissions, and a kick down bracket. Capable of supporting up to 500 horsepower. Brake booster adapter also included, if required.

***Note:** Requires external fuel pressure regulator.*

| | | |
|---|---|---|
| H550867 | polished/shiny | 1336.99 set |

New!

## Terminator TBI Sets

Holley Terminator EFI 4 barrel throttle body fuel injection system with transmission control. This high-performance system includes a 950 cfm 4150 flanged throttle body based on Holley's Nascar TBI with four 80 lb/hr injectors. The Terminator ECU is virtually maintenance-free and fully self-tuning – no laptop required. The base sets include a 4150 style square bore throttle body, a Terminator ECU, a handheld EFI monitor, and with or without transmission control. Master sets include the most complete fuel system on the market.

***Stealth Base Sets***

| | | |
|---|---|---|
| H550405 | polished/shiny | 2471.99 set |

## Terminator Stealth 4 Barrel Sets

New!

Holley Terminator Stealth EFI conversion sets. The Terminator Stealth EFI system has the same great self-tuning features as other Terminator EFI systems but with the stealthier looks of a carburetor. This system is easy-to-install and tunes itself – no laptop required. The base sets include a 4150 style square bore throttle body, a Terminator ECU, a handheld EFI monitor, and with or without transmission control. Master sets include the most complete fuel system on the market. The ECU is fully upgradable to laptop control for more advanced tuning options.

# Chevrolet Headers

## 1955-57 Patriot Headers

PATRIOT Exhaust Products

These headers accommodate the GM 605 power steering box conversion and fit most motor mounts. Extra ground clearance makes "slammed" vehicles driveable and above frame rail exhaust system installation easy. Available in raw finish for individual customizing or with Patriot's metallic ceramic coating. Unlike paint or chrome, metallic ceramic coating is easy to keep clean, resist rust and corrosion and will not discolor. Metallic ceramic coating also reduces underhood temperatures. All Patriot headers include installation hardware, collector reducers, gaskets, and instructions.

*Note: Be sure to read the important notes listed on the bottom of this page pertaining to each header system for correct application. Shipped oversize.*

#### Patriot Header Notes

*1) Does not fit angle plug heads.*
*3) Fits with stock or 605 steering boxes, aftermarket side engine mounts and rear trans crossmember.*
*4) Fender well exit.*
*5) Shorty design for maximum ground clearance.*
*11) Universal block hugger design.*
*13) May require smaller front tires to avoid contact.*
*14) 1955-57 Chevy applications require alteration of emergency brake rod.*
*15) Can be used with most oil filter systems or transmission and starter combination.*
*17) Fits most angle plug heads.*
*19) Check motor mount position before ordering.*
*23) Will not fit if engine is more than 3/4" forward for HEI firewall clearance.*
*36) Fits D-Port cylinder heads including ZZ4 crate engines.*
*37) Fits standard deck big blocks only.*
*54) Fits with manual and auto trans floor shifts only.*
*60) Will not work with 168 tooth flywheels or kick out aftermarket starters.*
*76) Fits with either 3/4" forward or stock location side mounts, rear transmission mount or equivalent and stock or 605 steering box. Stock mid-mount and ears on the frame must be removed.*
*85) O2 bungs are welded on both collectors.*
*92) Will fit most angle plug heads including factory Chevrolet "Bow Tie" heads.*
*105) Original bellhousing frame mounts must be removed.*
*106) Requires use of Street & Performance (or equivalent) billet aluminum adaptors, along with D & P classics (or equivalent) Chevy frame stands.*
*107) LS1/LS6 engines require the use of a LS1 oil pan for proper header fit.*
*108) Will fit with 605 power steering box.*
*192) Header is designed to fit cars using original V8 pitman arm not 6 cylinder pitman arm. Aftermarket pitman arms must be same as OE for proper header fit.*
*211) Designed to fit with Maval/Unisteer rack and pinion steering systems.*
*212) Will not fit manual transmission vehicles with factory Z bar clutch linkage.*

#### Patriot Emission Notes

*3) Legal only for off-highway use (except in California or states that have adopted California emission standards), racing use or for use on pre-emission controlled motor vehicles/motor vehicle engines (pre-1974 domestic vehicles certified to California standards, pre-1974 domestic vehicles certified to federal standards and all pre-1974 foreign vehicles), per the manufacturer's application guide.*

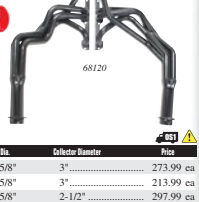
## 1955-57 Hedman Hedders™

Classic Industries® stocks a full line of Hedman Hedders™ for 1955-57 Chevrolet passenger car models. These units are designed to replace the heavy and restrictive factory manifolds with tubular steel headers. Hedman Hedders™ are not only lighter, but will also increase your Chevrolet's performance. Tork-Step headers feature an innovative design that allows for and increased overall torque curve. Sets are complete and ready to bolt on. Includes collector and header to head gaskets, collectors, and bolts. Get more performance from your Chevrolet without breaking the bank and do it with a name you can trust in the header business "Hedman™".



68120

***Note:*** *Available in black. Be sure to read the important notes listed on the bottom of this page pertaining to each header system for correct application. Shipped oversize.*

### Hedman Hedder Notes

*1) Without smog injection or injection heads.*
*3) Front motor mounts only.*
*6) Modification to stock exhaust required to retain catalytic converter.*
*15) Shortie Hedder (Max. ground clearance).*
*25) Engine swap, all parts must be factory stock.*
*103) Will fit with angle plug heads – Chevrolet aluminum only.*
*208) Due to aluminum cylinder heads on GEN VI engines, 502 BB Chevy will have clearance problems on some applications. Bottom of header flanges may hit head bolts. Notching may be necessary.*

### Hedman Hedder Emissions Notes

*C) For vehicles 1964 through 1974 without A.I.R. system, considered as OE replacement parts when existing emission controls are not removed from vehicle.*

## 1955-57 Doug's Headers

Header design and development is complex and requires a substantial amount of time and resources to do the job right. Doug's has made that commitment, and their name has become synonymous with quality. There's no compromise at Doug's. Every header is tuned with the proper tube size and length to efficiently remove all the exhaust from each cylinder, reducing pumping losses for dramatic gains in horsepower and torque. Doug's headers are carefully developed on the vehicles they are intended to fit and are checked and rechecked numerous times during the design and manufacturing process. Doug's headers are available for 1955-57 Chevrolet passenger car models with small block or big block V8 engines and console or column shifters as noted. Once you check the heavy-duty 1/2" to 5/8" thick machined and finished header flanges, the smooth mandrel bent tubes, and the attention paid to assembly, you'll want Doug's. Metallic Ceramic Thermal Barrier Coating (MCTBC) is simply the best header finish on the market, and is the standard finish on all Doug's headers. MCTBC protects and extends the life of headers by creating a thermal barrier that significantly lowers underhood temperatures, while protecting substrate metal from thermal fatigue. Doug's finishes their headers with a vibratory finishing process that compresses and activates the coating, significantly increasing surface hardness to produce a coating 60% more corrosion resistant than standard header coating. This coating is easy to maintain and will not change color under normal operating conditions. Once you check the options, you'll buy Doug's.

## Wedge Locking Header Bolts

Wedge locking header bolts were designed to keep bolts from backing off. These bolts feature special washers with hardened serrated teeth. The washers bite into the bolt head and the top surface of the header. After being self-locked in this manner, any loosening rotation is blocked by a wedge locking action. They are reusable and you can count on them to not fail. Grade 8.

***3/8"-16 Thread Diameter – 3/4" Long***

## LS Cast Iron Exhaust Manifolds

These Hooker cast iron exhaust manifolds are designed to hug the engine block closely so they will work with a variety of LS engine swaps or as a replacement. Their contoured shape aims exhaust gases for increased flow and performance over stock manifolds with a traditional old school look. Fits all GM LS engines up to 500 horsepower except LS7 and LS9's and have been proven to fit 1970-81 F-Bodies, 1982-88 G-Bodies, and 1968-72 A-Body vehicles. Made from high silicon ductile iron for years of durability and corrosion resistance. Available in a range of different finishes.

***Important:*** *Not C.A.R.B. certified and may not be legal for use in some states on pollution controlled vehicles.*

## Oxygen Sensor Fitting

Weld-in oxygen sensor fitting for all fuel injection systems. Fits TBI, TPI, CMFI, LT1, LSX, 5.0L, and most other oxygen sensors.

***Important:*** *This part requires welding for installation. Professional installation is recommended.*

60406 ..... 7.99 ea

## Oxygen Sensor Plug

Many headers for late model engines are equipped with a oxygen sensor bung in each header. When retrofitting a carburetor on late model engines, an oxygen sensor is not necessary. This plug seals the oxygen sensor bung on headers and exhaust manifolds. Made from trivalent chromium-plated steel with a M-18 thread size to fit most stainless headers.

222734 M-18 thread oxygen sensor plug 11.99 ea

## Oxygen Sensor Socket

Removes and installs oxygen sensors on most domestic and some foreign vehicles as well. Includes special 7/8" socket with cutaway slot to provide clearance for wire harness. Provides adequate depth to fit over sensor. Heat treated alloy steel. Use with 3/8" square drive or 1" wrench.

Y12000 ..... 12.99 ea

## Dual Drive Oxygen Sensor Wrench

Tool includes both 1/2" and 3/8" drive. Attach a 1/2" breaker bar on the end of the tool to initially loosen stuck sensors. Use a 3/8" ratchet on the top for fast removal and installation. Fits oxygen sensor applications with a heat shield. Slotted body allows clearance for wire harness. Forged, heat treated steel with six point design will withstand high torque removal applications.

12390 ..... 18.99 ea

# Exhaust Components

## Tru-X and Y-Pipes

The more gentle radius of these X- and Y-pipes allow for better exhaust gas scavenging, noise cancellation and better balance between cylinder banks. The result is a significant increase in power and torque, but a reduction in dB sound levels.

***X-Pipe***

*P1065*

*P1067*

## Tunnel X-Crossover

Since a V8 fires alternately, exhaust exits in pulses rather than a steady flow. While one pipe is filled with pressure the other pipe is relatively pressureless, but connecting the two pipes in a Siamese pattern allows pressure to be equalized between the two tailpipes. This action allows the exhaust to pass through quicker for better breathing that increases horsepower. The Pypes crossover product line is defined by a high-quality, exceptionally versatile design. They are a proven winner when it comes to bumping up the horsepower of your daily driver or race car. Pypes tunnel X-crossover fits 1955-57 Tri-Five models with easy installation. All crossovers are made of 409 stainless steel with dual reinforcement plates at the welds where they are needed most. All pipes are mandrel bent to allow for the maximum flow of exhaust gasses, which boosts acceleration. Limited lifetime warranty.

***Important:*** *If using stock, cast iron manifolds, add a set of down pipes to connect your original manifolds to the header back system.*

***Note:*** *Shipped oversize.*

## Low Line Lake Pipes... The Look is Back!

Get the retro look with a set of chrome lake pipes on your vehicle! This look was popular in the late 1950's and early 1960's. When setup as a functional feature, it allowed the racer to uncap or "dump" the exhaust for increased exhaust flow when racing. The use of a cap was allowed for quieter operation during street driving. It also provided the vehicle with a lower "lead sled" look. These pipes do not incorporate any silencing materials and are recommended for nonfunctional use only. Choose from three styles – slanted outlet without cap, triple outlet with caps or single outlet with cap. Available in 3 lengths to suit your needs. Chrome pipe measures 2" in diameter. Mounting clamps sold separately.

***Note:*** *Shipped oversize.*

| | | |
|---|---|---|
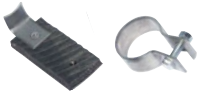
| TF700103 | 1955-57 | 14.99 ea |



## 1955-57 Universal Tailpipe Hanger

When it comes to a variety of exhaust hangers, Classic Industries® has the best selection!

| | | | |
|---|---|---|---|
| 35458 | 1956-57 | 6 cylinder | 6.99 ea |
| 35458 | 1956-57 | 8 cylinder | 6.99 ea |

## Tailpipe Expander

Used to remove clamp grooves and round out crushed or bent exhaust pipes to ensure a tight fit, eliminating exhaust leaks. The Hex end allows the use of a combination wrench to remove clamp grooves or small imperfections, or an impact wrench to expand pipes. Imperfections are forced outward rather than forward, eliminating possible damage to component parts. No holding fixture is necessary.

| | | |
|---|---|---|
| X3442 | 1-13/16" to 2-1/2" pipes | 35.99 ea |

## Exhaust and Tailpipe Cutter

Cuts pipes 3/4" to 3" (19mm to 76mm) in diameter. 15 blades effectively cut pipe so only 1/4" turn is needed for complete cut. Works great in hard to reach areas.

| | | |
|---|---|---|
| X2031 | | 51.99 ea |

## Exhaust Repair Kit

Complete Permatex exhaust repair kit for repairing cracks and splits in mufflers tailpipes and exhaust pipes. Withstands temperatures over 1000 degrees F. The kit contains ready to use foil packed bandage and support wire.

| | | |
|---|---|---|
| S80334 | | 4.99 ea |

## Muffler & Tailpipe Repair

Putty and sealer seals holes and leaks in mufflers, tailpipes and around joints. Makes new installation more secure. Resists temperatures up to 2000 degrees F. Epoxy impregnated fiberglass bandage chemically welds mufflers and tailpipes. Great for mufflers, tailpipes, joints, and catalytic convertors.

| | | | |
|---|---|---|---|
| S80335 | sealer | 3 oz. tube | 2.99 ea |
| S80333 | putty | 4 oz. pouches | 4.99 ea |
| S80331 | bandage | 84 sq. in. | 2.99 ea |

# Mufflers

## Pypes Performance Stainless Steel Mufflers

Through extensive research and feedback from customers, Pypes has learned that no one muffler design is best. Every car is different, and everyone has different requirements. Different performance modifications change the sound and functionality of a muffler, so it's nice to have several different proven designs to choose from! One thing that is consistent with all Pypes mufflers is that they are high-quality, precision engineered and constructed which allow us to include a lifetime warranty!

409 stainless steel

Street Pro™

LIFETIME WARRANTY

### Street Pro Muffler

Don't let the looks of this muffler fool you. At idle, you may cause passengers to grab for their seat belts, but upon acceleration, the smooth, authoritative tone turns apprehension into reassured confidence. This is a great street/strip muffler that will maintain its rich sound qualities for the life of the muffler because there is no filler to burn off. Recommended for stock to medium modified vehicles where an aggressive sound is appreciated without demanding undesirable attention. Muffler shell measures 4" x 9" x 14". Limited lifetime warranty.

304 polished stainless

Race Pro™

LIFETIME WARRANTY

### Race Pro Muffler

Sometimes you just have to have the best of everything. When it comes to flow, you just can't get anything better than our Race Pro Muffler. This baby features a 'straight through' path with throughput that can flow 95% as efficiently as a straight pipe! The throaty sound is surprisingly tame considering the absence of any impedance when you look down its barrel. At idle and low RPM cruising, you will not draw much attention, but upon acceleration, bystanders lookout! The Race Pro's aggressive sound is the result of applying a layer of stainless mesh around a unique internal perforated tube, accompanied by a healthy stuffing of basalt insulation before the unit is sealed. Highly recommended for the track where every tenth counts. Of course, there are plenty of these mufflers hidden under some fine street machines, too! Muffler shell measures 4" x 9" x 14". Limited lifetime warranty.

409 stainless steel

Violator™

LIFETIME WARRANTY

### Violator Muffler

The Pypes Violator muffler has quickly gained acceptance and praise in the marketplace. It flows as much air as the Race-Pro muffler but has an incredibly distinctive chambered sound! The Violator's aggressive sound is the result of a unique internal louvered tube with mini sound deflector chambers. Finally, a muffler that flows like a straight through muffler but sounds like a chambered muffler. If you want to be noticed, then this is your muffler! Muffler shell measures 4" x 9" x 14". Limited lifetime warranty.

Smithy's

H3010

## The Sound of the Fabulous Fifties!

The world's oldest performance muffler, a Smithy's glasspack is now available for your full size Chevrolet passenger car! Get the muffler your dad used to impress his friends, and yes, it's still guaranteed not to blow out or leak. Double end cap construction and 3-1/2" hammertone finished cases assure the original Smithy look. A great tone for your fifties or sixties sled.

FLOWMASTER

# Performance Mufflers

## Super 40 American Thunder

The Super 40 5" x 10" case design gives you a deeper tone that retains our classic 40 Series sound and feel. Increased flow path radius for optimum internal flow using the latest in Delta Flow technology. Flowmaster state-of-the-art robot assembly technology assures a product that exceeds OEM auto manufacturers' specifications. To achieve such critical quality, Flowmaster performs extensive R&D at the track and in-house with our own engine and chassis dyno facilities. Flowmaster Super 40 is aluminized, black in color and is the most aggressive, deepest sounding street two chamber muffler they've ever built. Enjoy some American Thunder today!

## Super HP-2 Muffler

Designed for street rods, customs and vehicles where undercarriage space is tight, the Flowmaster Super HP-2 provides the exhaust performance you need in a compact package that fits wherever you need it. The Super HP-2 has a moderate tone with the appearance, durability, and sound control to suit daily drivers, weekend cruisers, and world-class show vehicles. Available with a 409S stainless steel case or polishable 304S stainless steel case in sizes from 2", 2-1/4", and 2-1/2". Made in USA.

## Super 10 Series Stainless Steel Muffler

Looking for the most aggressive sound available? Flowmaster's new Super 10 series mufflers are so aggressive, they aren't recommended for street driven vehicles. Best suited to racing applications, these feature the same performance technology used in the Super 40 and Super 44 series Flowmaster mufflers. These short, single chamber mufflers deliver the closest thing to open pipe sound possible. If you want high impact sound, the Super 10 series mufflers are the answer. Measures: 6-1/2" x 9-1/2" x 4".

*F842515*

***Note:*** *These mufflers are recommended for off highway use, not for street driven vehicles.*

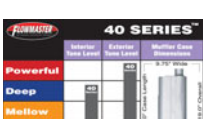
| F8430152 | 3"/2-1/2" | center inlet/dual outlet | 89.99 ea |

## FLOWMASTER 40 Series Performance Mufflers



- Aluminized Steel
- Original Flowmaster Tone
- Deep Tone Inside Vehicle
- Street or Strip

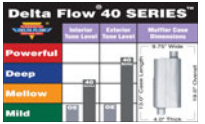
*F42441*

## 40 Series — Original Flowmaster Tone

This is the most "aggressive" sounding street/strip muffler that Flowmaster offers. If you're looking for attention, this one will get you noticed. The standard 40 series has an "aggressive rumble" and will generally resonate inside the vehicle around 1800-2000 RPM's, and again at 2400-2600 RPM's. Constructed of 16 gauge aluminized steel and fully MIG welded for maximum durability

| | | | |
|---|---|---|---|
| F42441 | 2-1/4" | offset inlet/center outlet | 89.99 ea |
| F42541 | 2-1/2" | offset inlet/center outlet | 89.99 ea |
| F42442 | 2-1/4" | center inlet/offset outlet | 114.99 ea |
| F42542 | 2-1/2" | center inlet/offset outlet | 114.99 ea |
| F42443 | 2-1/4" | offset inlet/offset outlet | 89.99 ea |
| F42543 | 2-1/2" | offset inlet/offset outlet | 89.99 ea |
| F430402 | 3"/2-1/2" | center inlet/dual outlet | 89.99 ea |

## FLOWMASTER Delta Flow 40 Performance Mufflers



- T409 Stainless Steel
- Powerful Aggressive Tone
- Lower Interior Resonance
- Street or Strip

## Delta Flow 40 Series — Reduced Interior Resonance

This two chamber design incorporates Flowmasters patented "Delta Flow" technology. The "Delta" deflectors result in increased scavenging for better performance and reduced interior resonance over the standard 40 series with a nice growl outside the vehicle. Sounds great on late model performance cars with catalytic converters. Constructed of 16 gauge steel and fully MIG welded for maximum durability.

| | | | |

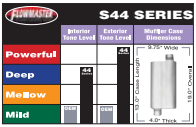
# Performance Mufflers

## FLOWMASTER Super 44 Delta Flow Mufflers



F942446

### Super 44 Delta Flow

The Super 44 is the most aggressive, deepest toned street and strip muffler Flowmaster has ever made! The Super 44's offer maximum performance, an improved flow path radius, and generates more torque and more power than ever before! If you really want to hear your exhaust system inside as well as outside, the Super 44 is for you!

| | | | |
|---|---|---|---|

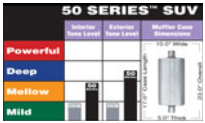
## FLOWMASTER 50 Series SUV-Performance Mufflers



F52556

- Large Displacement Street Cars
- Early Era Muscle Cars
- Deep Tone Outside of Vehicle

### 50 Series SUV — Performance

The SUV/Performance muffler is a larger version of Flowmasters 50 Series Delta Flow muffler and is specially designed for trucks, light SUVs and high horsepower vehicles. The larger H-chamber reduces interior resonance to a minimum. Constructed of 16 gauge aluminized steel and fully MIG welded for maximum durability.

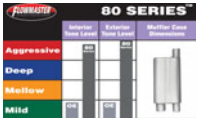
## FLOWMASTER 80 Series Performance Mufflers



F42583

- Aluminized Steel
- Aggressive Performance Sound
- Higher Interior Resonance
- Transverse Mounting

### Cross Flow 80 Series — Transverse Mounting

The 80 Series is designed for applications where the muffler must be mounted transversely (crossflow) behind the rear end. It provides an aggressive muscle car sound both inside and outside the vehicle. Constructed of 16 gauge aluminized steel and fully MIG welded for maximum durability.

| | | | |

# Exhaust Systems

SC63006

## Original Style Exhaust System — Aluminized

OE style aluminized exhaust systems for 1955-57 Chevrolet passenger car models. These original style exhaust systems are manufactured in heavy 16 gauge aluminized steel (mufflers aluminized inside and out) in correct size 23" body for 1955 Chevrolet models and 1955-57 convertibles and 29" body size for 1957 (except convertibles). All systems feature notched tip tailpipes as-original and all exhaust systems are mandrel bent for improved performance and exhaust flow. Each system includes the exhaust header pipes and two header pipe flange gaskets as required.

***Important:*** *1957 exhaust pipes do not have the crossover holes drilled in the pipe. This allows the customer to decide if they want the exhaust to flow through the crossover pipe or not.*

***Note:*** *Clamp and hanger set sold separately. Special rate shipping charges apply.*

## Original Style Exhaust System — Stainless Steel

OE style replacement exhaust systems for all 1955-57 Chevrolet passenger car models. Manufactured in 304 grade stainless steel, each replacement exhaust system is designed to closely duplicate and replace the original system. The mufflers are correct size 23" body for 1955 Chevrolet models and 1955-57 convertibles and 29" body size for 1957 (except convertibles). All systems feature notched tip tailpipes as-original and all exhaust systems are mandrel bent for improved performance and exhaust flow. Each system includes header pipes and two header pipe flange gaskets as required.

***Important:*** *1957 exhaust pipes do not have the crossover holes drilled in the pipe. This allows the customer to decide if they want the exhaust to flow through the crossover pipe or not.*

***Note:*** *Clamp and hanger set sold separately. Special rate shipping charges apply.*

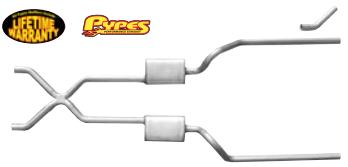
# Exhaust Systems



## 1955-57 Tri-Five Crossmember Back Exhaust System

The classic of all classics. You should be proud of it but don't short change the ultimate classic with anything but the ultimate exhaust system. Upgrade your exhaust system! Performance exhaust system for your Chevrolet Tri-Five is a treat for the eyes when you see how easy it is to install, your ears when you fire it up and your ego when you step on the gas. These systems include an X-Pipe or X-Change pipe that has side dumps that you may install electric cutouts for "flip of the switch" convenience, performance matched mufflers or without mufflers, stainless steel hangers, and a set of tailpipes that allow for straight out the back or side exit.

*Note: Shipped double oversize.*

## 1955-57 Crossmember Back Performance Exhaust

Every performance mod for your Chevrolet model is designed for one thing. To put more power to the ground! Magnaflow's Chevrolet systems start with mufflers specifically designed with internal paths that ensure fast, equalized exhaust flow so that both sides flow the same. The Crossmember back systems are built with fast flowing mandrel bent stainless steel tubing that feature Magnaflow's Tru-X crossover pipe. Plus, Magnaflow's wide open performance mufflers outflow OEM chamber style mufflers by as much as 167%, all of which reduces engine heat and back pressure and improves exhaust scavenging from the combustion chamber for much stronger performance. These complete systems minimize the power robbing effects of the OEM system to maximize torque and horsepower from the engine. These exhaust systems offer multiple exit options. Magnaflow is the wide open performance muffler with a smooth, deep tone!

# Performance Exhaust

## Universal Dual Electric Cutout Set

The optional electric exhaust cutouts and make uncorking your exhaust as easy as flipping a switch. Electric cutout set includes: 2 valves, wire harness, switch, mounting hardware and 2 gaskets. Limited lifetime warranty. Available with or without Y-pipes. Made in USA.

***Note:*** **Connects to any 2.5" exhaust with a straight section of approximately 12" in length and enough clearance for the motor/valve assemblies.*

***For use with 2-1/2" or 3" Y-Pipes (Dump Legs)***

P1074 cutout set only ..... 406.99 set

***Includes 2-1/2" Y-Pipes (Dump Legs)***

P1074K* cutout set with Y-pipes ..... 523.99 set

## Stainless Steel Electric Cutout

Made in USA

These cutouts feature a rugged 12 Volt DC motor and rotating gate for a leak proof seal every time the cutout is opened and closed. When fully opened, these cutouts do not create exhaust flow obstructions that can create a leaky gasket sound, unlike butterfly style cutouts. A prewired harness with an illuminated rocker switch is supplied for easy installation. Uncork your exhaust with the flip of a switch from your dash. The cutouts are ideal for race tracks that don't require mufflers. Available individually, in pairs, or in complete kits with Y-Pipes for easy installation. Made in USA.

***Important:*** *Not recommended for vehicles equipped with catalytic converters.*

***Note:*** *May not be legal for highway use or use on emission controlled vehicles.*

***2-1/2" Cutouts***

## Stainless Steel Cutout Turndown

Easily route your cutout exhaust flow away from the floor boards or in any direction with these easily installed 304 stainless steel turn downs. These turndowns are made specifically for Doug's electric cutouts and included stainless band clamps for weld free attachment. Made in USA.

25058 2-1/2" turndown pipe ..... 47.99 ea
25059 3" turndown pipe ..... 47.99 ea

## Electric Exhaust Cutout

Don't crawl under your vehicle to uncork your exhaust ever again by switching to electric cutouts. Keep them closed and quiet for the street, wide open for the strip, or anywhere in between with the flip of a switch. You control the volume and the power! Available in sizes 2-1/4" to 4" and a low profile oval design for applications with limited ground clearance. Fits 2-1/4" to 3" round exhaust pipe. Built with high-quality materials CNC 6061 aluminum body and motor plate, stainless steel shaft and butterfly plate, high torque DC gear driven motor, weather tight wiring connectors, and custom illuminated toggle switch.

***Note:*** *Match valve size with cutout size for optimal fit and performance.*

### Xtreme Temperature Primer

XTC Silicone Zinc Primer prevents corrosion of metal surfaces exposed to high heat, high humidity, condensation, and salt air. It functions much like galvanizing as it locks itself to bare metal surfaces leaving a perfect primed surface for top coating. Available in a wide variety of sizes.

| | | | |
|---|---|---|---|
| KB65100 | 12 oz. net weight | primer | 19.99 ea |
| KB65400 | one quart | primer | 113.99 ea |
| KB65500 | one gallon | primer | 389.99 ea |

## Hi-Heat Coating

The coating will protect the wrap from abrasion and harmful liquid spills. Extra resins and binders toughen the surface, extend the life of wrap by protecting it from friction, and seal the pores to minimize the penetration of harmful liquids. The coating also works excellent as a paint directly on metal surfaces.

***Note:*** *Shipped within the continental U.S. only. Shipped ground only.*

## Thermo-Sleeve

Thermo-Sleeve is the combination of a high temperature fabric laminated to a highly reflective Mylar foil. It provides protection from radiant heat for hoses and wires. Thermo-Sleeve's ultra lightweight construction provides more insulation than traditional bulky rubber coated fiberglass. The aluminized sleeve reflects more than 90% of radiant heat, plus it is fireproof and oil resistant! Thermo-Sleeve is available in 3' or 12' lengths.

# Exhaust Components

## Reduce Underhood Temperatures!

Increased exhaust scavenging is produced, along with lower intake temperatures. Exhaust Insulating Wrap™ withstands continuous heat up to 2000 degrees F, and contains no asbestos. Will not over insulate a system when properly installed due to a proprietary coating developed by Thermo-Tec® Thermal Conduction Technology (TCT) that conducts heat across the wrap's surface. The 1/16" thick wrap is available in 1 inch or 2 inch widths in 15' or 50' rolls. Choose from off-white or graphite black.

***Off-White Exhaust Wrap***

| | | |
|---|---|---|
| TT1009 | 1" x 15' short roll | 10.99 ea |
| TT1011 | 2" x 15' short roll | 15.99 ea |
| TT1010 | 1" x 50' long roll | 33.99 ea |
| TT1012 | 2" x 50' long roll | 46.99 ea |

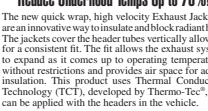
***Graphite Black Exhaust Wrap***

| | | |
|---|---|---|
| TT1053 | 1" x 15' short roll | 11.99 ea |
| TT1054 | 2" x 15' short roll | 16.99 ea |
| TT1013 | 1" x 50' long roll | 30.99 ea |
| TT1014 | 2" x 50' long roll | 46.99 ea |

## Reduce Underhood Temps Up to 70%!

The new quick wrap, high velocity Exhaust Jackets™ are an innovative way to insulate and block radiant heat. The jackets cover the header tubes vertically allowing for a consistent fit. The fit allows the exhaust system to expand as it comes up to operating temperatures without restrictions and provides air space for added insulation. This product uses Thermal Conduction Technology (TCT), developed by Thermo-Tec®, and can be applied with the headers in the vehicle.

| | | |
|---|---|---|
| TT1015 | 4-6 cylinder | 70.99 ea |
| TT1016 | 8 cylinder | 84.99 ea |



## This Flexible Heat Shield Clips Into Place!

The Header Manifold Blanket provides excellent heat retention for exhaust headers and manifolds. This flexible heat shield simply clips into place on the upper portion of the header. The fabric side of the material should be facing the heat source, and the aluminized side facing away – offering protection from abrasion and harmful liquid spills. The Header Manifold Blanket is available in 2 sizes: two 20" by 24" blankets for V6 and V8 applications, and one 36" by 40" blanket for straight 6 and 4 cylinder engines.

| | | |
|---|---|---|
| TT1017 | V6-V8 applications | 78.99 pr |
| TT1018 | straight 6 or 4 cyl models | 73.99 ea |

*black* *natural*

## Vermiculite Coated Header Wrap

Insultherm Header Wrap is an extremely high temperature resistant wrap used to insulate hot gases in automotive exhausts. Manufactured from texturized fiberglass yarns that are woven into a strong, flexible wrap with vermiculite coating. Resists gasoline and engine chemicals and withstands temperatures up to 1200 degrees F (maximum continuous temperature of 1000 degrees F). Available in black or natural in 50' or 25' rolls.

## Turbo Insulating Set

The turbo insulating set is designed to protect and improve performance of the turbo. This universal set will help reduce turbo lag. The cut-to-fit set includes a substantial amount of material to cover turbos from the smallest automotive application to heavy-duty truck applications.

| | | |
|---|---|---|
| TT15002 | 6 or 8 cylinder set | 102.99 set |
| TT15003 | turbo insulation cover only | 40.99 ea |

## Shield Plastic or Rubber Hoses and Wiring from Radiant Heat!

Thermo-Shield™ protects hoses and wires from radiant heat. Unprotected, rubber hoses and plastic or rubber insulated wiring can dry out, melt or crack over time. Thermo-Shield™ is used in applications where it is difficult or not practical to disconnect one end of the hose or wire. The adhesive backed composite construction tape can easily be wrapped around the hose or wire to make a clean, professional appearance. Reflects radiant heat up to 2000 degrees F. Provides a barrier against the extreme conditions that underhood components are exposed to. Wrap your fuel lines and say good-bye to vapor lock.

| | | |
|---|---|---|
| TT1019 | 1-1/2" x 15' feet | 20.99 ea |
| TT1051 | 2" x 50' feet | 44.99 ea |

## An Extremely Versatile Heat Barrier™!

The Aluminized Heat Barrier™ is made up of woven silica with a flexible aluminized finish. The highly reflective surface of the material is capable of withstanding radiant temperatures in excess of 2000 degrees F. Installed using standard rivets with a backup washer, or with weather strip adhesive. The Snap Straps (sold separately) can be used to hold the blanket in place for manifolds or exhaust systems.

| | | |
|---|---|---|
| TT1008 | 36" x 40", 10 sq. ft. | 78.99 ea |

## Keep Cool! Reflect Radiant Heat!

The Muffler/Catalytic Converter Heat Shield™ is made up of woven silica with a flexible Mylar finish. The highly reflective heat shield can be installed between the catalytic converter, muffler, or any other component to reflect radiant heat away from the undercarriage of the vehicle. Kit includes one 24" x 40" Mylar heat shield and all necessary fasteners.

| | | |
|---|---|---|
| TT1007 | muffler heat shield | 69.99 ea |

## Clamp-On Heat Shield

*TT11600*

The flexible Clamp-On Heat Shield blocks more than 90% of damaging radiant heat from the exhaust. Silica based clamp-on shields are available in 1', 2', and 3' lengths Clamp-On Shields are available in 1', 2', and 3' lengths. Sets come complete with all clamps and install easily in minutes.

***Silica Based Fabric Clamp-On Heat Shield***

# B&M Fifty Years of Expertise!

B&M has been building transmissions for extreme duty use for almost 5 decades. From the famous B&M Hydrostick of the 50's to the Torkmasters and Clutchflites of the 60's, B&M has been the yardstick to which all other performance automatics have been measured. Transmissions unequalled in quality, features and durability.

*Note: All transmissions are special order, must be prepaid.*

## Street/Strip TH350 & TH400

B&M's Street/Strip Transmission is a complete "Ready-to-Run" unit (less converter) for high-performance street and mild strip use. The transmission provides firm shifts and features a standard shift pattern. These are the finest available for street/strip use.

## Street TH-700-R4/4L60

This transmission is suitable for use behind engines producing up to 450 ft lb of torque, which covers most small blocks and mild big blocks. A low first gear ratio and overdrive 4th make these very desirable units.

*Note: Will not replace 4L60E applications (post 1993).*

## Traveler Transmissions

This is a rugged model and has a medium/firm shift compared to the hard shift of the Street/Strip model. The Traveler features increased oil flow which provides for cooler operation under heavy-duty use. The Traveler would be a good selection for towing applications.

***GM TH350 Key Features:***

- 2.52:1 first gear ratio, 1.52:1 second gear.
- Extra wide direct drum bushing.
- Machined forward and direct pistons.
- All new B&M high-performance friction plates.
- New intermediate roller clutch.
- New kick down band with welded anchors.
- All new thrust bearings and races.
- New adjustable modulator.
- New detent control link w/new breather & filter.
- Recalibrated valve body.

*Note: Shipped truck freight.*

223030A Street/Strip with 6" tail shaft ..... 1427.99 ea

***GM TH400 Key Features:***

- 2.48:1 first gear ratio, 1.48:1 second gear.
- Rebuilt front pump utilizes B&M pressure regulator spring and shims.
- All new B&M high-performance friction plates.
- New intermediate roller clutch.
- New kick down band with welded anchors.
- Machined center support w/new case saver ring.
- All new thrust bearings and races.
- New adjustable modulator and silencer ring.
- New external electric connector and kick down solenoid.
- Recalibrated valve body.

*Note: Shipped truck freight.*

223031A Street/Strip with large diameter bushing, for use with large 1-7/8" diameter yoke..... 1469.99 ea

***GM TH700-R4/4L60 Key Features:***

- 4-speed GM transmission.
- 3.06:1 first gear ratio, 1.63:1 second, 1:1 third and 70:1 overdrive ratio.
- Rebuilt front pump and governor with new gear.
- New thrust washer kit, races, thrust bearings bushings, and 2–4 band.
- All new B&M high-performance friction plates.
- New overdrive sprag assembly.
- High-performance reaction carrier assembly.
- Corvette 2-4 servo assembly.
- New external electric connector.
- Recalibrated valve body

*Note: Shipped truck freight.*

27161

***Includes:***
- TCI 6X Transmission
- Transmission Cooler
- Max Shift Transmission Fluid
- EZ-TCU Controller and Harness
- Handheld Programmer
- Outlaw Shifter (optional)
- Paddle Shifter (optional)
- Dipstick and Tube

## 6X Transmission Package

The innovative TCI 6X six-speed automatic transmission, based on the 4L80E, is designed for Chevy small block, big block, and LS engines to handle both everyday driving and race vehicles up to 850 HP. Six forward gears allow breakneck acceleration as well as fuel efficient low RPM cruising, while a handheld programmer allows shift point adjustment. Each transmission is Dyno-tested and supplied with a serial numbered spec sheet with performance test scores.

***Important:*** *4-speed automatic shifter is required for standard operation. Electronic manual shifting requires the optional paddle shifter or TCI Outlaw Shifter. Paddle shifter is designed for 5 or 6 bolt steering wheel adaptors.*

***Note:*** *Some modification may be required. Special order, must be prepaid. Shipped truck freight.*

A9800100

- 1-year warranty
- New clutches, seals, and gaskets
- Updated boost valve system
- New overdrive & lower roller sprag
- Updated servo piston
- Hardened forward clutch hub
- 300M billet input shaft
- Updated shift valve springs
- Wide kick down band
- Electronic speed sensor
- New valve body separator plate
- Improved lubrication system
- All new Torrington bearings
- All new thrust washers
- New fill tube and indicator
- Energy suspension transmission mount
- Custom billet internals stall converter
- Bowler dependability and durability

## 4L80E 4-Speed Automatic Transmission

If your GM produces 650 to 1000 ft lbs of torque, you need a Bowler custom 4L80E performance transmission. Bowler transmissions are built to order, tailored to your specifications, and unlike assembly built transmissions, every Bowler unit is built by an individual technician start to finish and dyno-tested before shipping. Includes flexplate, converter, computer, and accessories. Modifications may be needed for fitment. Please allow 4 to 6 weeks for your custom transmission to be built.

***Important:*** *Does not come with driveshaft or crossmember.*

***Note:*** *Special order, must be prepaid. Shipped truck freight.*

# Torque Converters

## Chevrolet Performance SuperMatic™ Torque Converter

CHEVROLET PERFORMANCE VEHICLES / PARTS / RACING

Performance SuperMatic Torque Converters from Chevrolet Performance are designed to provide long life when matched with a SuperMatic Transmission. Each converter incorporates the following features: steel billet front cover, custom stator, fully furnace brazed pump and turbine, heavy-duty lockup clutch, all internal components static balanced, fully vector balanced as an assembly, designed for Chevrolet Performance crate engines and automatic transmissions, no external adapters needed to fit Chevrolet Performance crate engines.

G13160

***Note:*** **Will not fit 153 tooth flexplate.*

## B&M 1965-98 Tork Master™ Torque Converter

Similar in performance characteristics to the HoleShot™ series, the Tork Master™ is B&M's lowest cost performance torque converter. The Tork Master™ is an excellent all-around performance street converter for small block Chevy. The Tork Master™ torque converter is not recommended for big block or supercharged applications.

## B&M 1965-98 HoleShot™ Torque Converter

A higher than stock stall speed as delivered by the HoleShot™ converter will provide several advantages and benefits in vehicles with modified engines. Big cams tend to reduce low end power and torque. The high stall converter allows the engine to launch the vehicle at higher RPM where more torque is available. The HoleShot™ is a very good choice for the typical street car that is looking for better launch capability. Not recommended for N2O equipped engines. Stall speed listings are based on engines producing 230 ft-lb of torque at 2500 RPM. More torque at 2500 RPM will give you a higher stall speed, less torque at 2500 RPM will give you a lower stall speed than the stall speed ratings indicated.

***Note:*** **Items denoted with asterisk require small 10-3/4" bolt circle flexplate or dual pattern flexplate.*

## Transmission Torque Converter

AC14220

These converters offer a slightly higher stall speed that will allow greater torque bands at medium and high speeds, and increased lockup at higher RPM ranges. The 10° converter is recommended for vehicles in excess of 450HP. Thus, named Heavy-Duty Super Torque Converter. You'll get 52 extra horsepower over stock converters with the HD Super Torque converter.

***12" Diameter Torque Converters, 2200-2400 Stall***

| | | | |
|---|---|---|---|
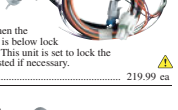
| AC16040 | TH700-R4 | Super Torque HD 30 spl, non-lock, dual pattern | 589.99 ea |

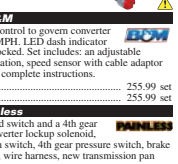
## Torque Converter Lockup



For 700R4 transmissions with square 4 pin connectors. Can be used without the factory computer (ECM). This unit is electronic, NOT vacuum controlled. It reads speed of the vehicle through a sensor that attaches to the speedometer cable. Transmissions with factory internal speed generators must be converted to cable drive to use this unit. This system locks up the converter at a set speed and unlocks it when the signal generator senses the vehicle speed is below lock up speed or when the brakes are applied. This unit is set to lock the converter at 42-47 MPH and can be adjusted if necessary.

| | | |
|---|---|---|
| TF900630 | | 219.99 ea |

## Torque Converter Lockup Controls



223308

These units provide control over torque converter lockup through vehicle speed on GM transmissions with a lockup converter. These are designed for use on carbureted engines. Eliminate converter lock cycling and unwanted converter lockup avoiding engine lugging and spark knock. Allows lockup at highway speeds for fuel economy. Can be used when converting a non-lockup equipped vehicle to a lockup style transmission and converter.

***B&M***

The B&M set provides a dash mounted control to govern converter lockup at any speed between 30 and 90 MPH. LED dash indicator displays when converter is locked or unlocked. Set includes: an adjustable control box with locked and unlock indication, speed sensor with cable adaptor for mechanical speedometer, wiring, and complete instructions.

| | | | |
|---|---|---|---|
| 223308 | TH200, TH350 | | 255.99 set |
| 223308 | 700R4, 4L60, 200R4 | | 255.99 set |

***Painless***

The Painless set uses a vacuum controlled switch and a 4th gear pressure switch to control the torque converter lockup solenoid, locking it into 4th gear. Includes: vacuum switch, 4th gear pressure switch, brake switch, torque converter lockup solenoid, wire harness, new transmission pan gasket, mounting hardware, and instructions.

| | | | |
|---|---|---|---|
| 60110 | TH200-4R | | 209.99 set |
| 60109 | TH700-R4 | | 209.99 set |

***Bowler***

The Bowler lockup set uses a pressure switch, not vacuum like Painless or a speed sensor like B&M. Their set allows engine to regain proper RPM before allowing the converter to lockup. Usually lockup occurs immediately after shifting into 4th gear, which can lug down the engine and cause poor performance. Module works off of pressure to allow a 8-12 second delay after shifting into 4th gear before the converter locks up. Converter locks up with adequate RPM gain after 4th gear and unlocks automatically with down shift or touch of brake. It will not allow lockup in any gear except 4th. Set includes: single wire lockup control module, 4th gear pressure switch, new internal wiring harness with lockup solenoid for 700-R4 and 200-4R, brake switch, pan gasket and filter with detailed instructions.

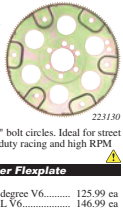
# Transmission Components

## 1955-97 Flexplate



B&M SFI spec 29.1 approved flexplates ensure that the ring gear or flexplate center will not fail (explode) at high RPMs. Dual bolt patterns accommodate a variety of transmission applications. 153 tooth flexplates feature 10-3/4" bolt circle. 168 tooth flexplates feature both 10-3/4" and 11-1/2" bolt circles. Ideal for street applications to extreme duty racing and high RPM use, above 6000 RPM.

## 1965-93 Transmission in a Box!

This is the most comprehensive kit available. Provides parts or necessary part numbers to upgrade your transmission into a true performance transmission. Kits available for TH350, TH400, 375, 375B, M40, M38 and TH700R4. The TH700R4 is a desirable transmission due to it's extra low ratio first gear (for better off the line performance) and overdrive fourth gear for better fuel economy. Includes instruction sheets that provide the do-it-yourselfer with all the information needed to completely overhaul a TH700R4 to B&M specs.

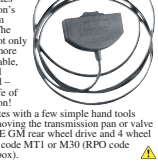
## Switch-On High-Performance Driving Fun!



Adjustable with a simple flip of a switch, ShiftPlus™ simply recalibrates your transmission's hydraulic system electronically. The shift firmness not only makes driving more fun and pleasurable, but slippage and heat are reduced – extending the life of your transmission! Installs in minutes with a few simple hand tools and without removing the transmission pan or valve body. Fits 4L60E GM rear wheel drive and 4 wheel drive with trans code MT1 or M30 (RPO code found in glove box).

223101 4L60E transmissions..... 62.99 ea

223071

***Key Features:***

- Provides crisp shifts on any stock AT.
- Eliminates soft sluggish shifts, shift overlap, and excess wear on clutches and bands due to slippage.
- Improves transmission life.
- Transmission removal not required.

## 1965-01 Shift Improver Kit

The B&M Shift Improver Kit™ is the easiest way to get the stout performance you've always wanted out of your automatic transmission and you get two modes of performance to select from: Heavy-Duty, or Street/Strip.

***Stage 1-Heavy-Duty –*** Firm positive shifts without loss of driver comfort for improved performance in all street vehicles. Recommended for regular passenger vehicles.

***Stage 2-Street/Strip –*** Provides very positive shifts for high-performance street use or for competitive events. This model is for the enthusiast who wants the hardest, quickest possible shift.

223095

***Key Features:***

- Select the mode that best suits your application.
- Improves transmission life.
- Transmission removal not required.

## 1965-01 Transpak

The next step up from the Shift Improver Kit™ is the Transpak™. It has all the features in the Shift Improver Kit™, plus it provides additional driver manual control (TH400, TH350 only). With the Transpak™, you can downshift at any speed, and you can hold the transmission in first gear to any speed that you want!

***Stage 1 Heavy-Duty –*** For street rods, normal passenger vehicles or other heavy-duty use. Firmer shift feel but not harsh. Improves transmission performance and life dramatically without loss of comfort. Normal automatic operation when in "Drive".

***Stage 2 High-Performance Street*** – For full performance street use. Essentially the same as Heavy-Duty mode except shift is much quicker. Retain full automatic features and standard shift points with selector in "Drive".

## Pour-In Performance!

B&M

Trick Shift™ was originally developed by B&M for racing applications. It's become so successful that it's the most popular high-performance fluid on the street also! Not an additive, this is the best performance ATF available! A scientific blend of foam inhibitors, pressure agents and shift modifiers that will provide extended transmission life and drastically improved shift feel. Trick Shift™ is the easiest way to measurably improve the transmission performance of your vehicle. Trick Shift™ works with all automatic transmissions when a firmer shift is desired. "Pour in Performance" isn't just a catchy phrase – it's reality! It can be mixed with stock type transmission fluids, however to attain maximum improvement you should use Trick Shift™ exclusively. Ideal for towing, light trucks and RV applications as well as racing.

## Cast Aluminum Transmission Oil Pan

Fight high transmission temperatures with these specially cast transmission oil pans. The sand cast aluminum construction features raised heat sink fins for improved cooling, its 3/16" thick wall construction to add strength to the transmission case, and it includes a special 3/8" thick gasket flange that will not bend as the bolts are tightened. The gasket surface is also machined for a secure seal, and the transmission pan is designed with a magnetic drain plug for easy maintenance. Available in either standard capacity or deep sump for added capacity and powder coated black, "As Cast", or polished. There is a pan to suit every need. Each transmission pan includes all necessary mounting hardware.

***Note:*** *Gasket and filter not included.*

FL600017

## Transmission Fluid Coolers

Transmission fluid is designed to act as a coolant as well as a lubricant for your transmission. If the transmission fluid is allowed to get too hot, performance drops, varnishes form, and the fluid starts to break down, which can lead to premature wear. Flex-a-lite heavy-duty coolers can help prevent this by keeping the temperatures down, helping to ensure longer life to transmissions and components, and reduce the stress created by high-performance transmissions. Also suitable as a power steering cooler.

***Important:*** *Depending on application and setup, additional fittings or adapters maybe required.*

***Note:*** *Dimensions: width = 11"; depth without fan = 3/4", with fan = 3-1/4"; height varies.*

## Transmission Oil Cooler/Filter

This automatic transmission oil cooler and filter combination assembly uses a finned aluminum heat sink design to dissipate heat in racing applications. It can also be used as an inline auxiliary cooler in conjunction with the stock cooler. It's compact one pound 3" x 12" aluminum body gives it excellent heat transfer capabilities. An internal filter with magnet traps particles over 5 microns to reduce transmission wear. Includes filter cartridge and two 1/4" NPT to 3/8" line fittings.

241200 transmission filter cooler assembly ..... 129.99 ea

## Hi-Tek Transmission Cooler

The Hi-Tek automatic transmission cooler is perfect for demanding street/strip and even towing applications. At 175 degrees, a thermal switch activates the high flow 12 Volt 7" electric fan. Durable, oven brazed aluminum construction promises years of performance. The 1/2" NPT fittings are easily adaptable to AN fittings and steel-braided cooler lines, or can be used with standard rubber or steel lines. Measures 10" x 7-1/2" x 4" and includes electrical connectors and detailed instructions.

70298 transmission cooler ..... 373.99 ea.

New!

## Automatic Transmission Aluminum Cooler

Keep your transmission temperatures down with this universal cooler from Mishimoto. Cooler temperatures means less fluid breakdown to keep your transmission working the way it should, longer. Another benefit of using this transmission cooler is that you can use any Mishimoto radiators, with or without a built in trans cooler. Made from 100% aluminum tube and fin design and includes installation hardware.

MM13061 aluminum cooler ..... 90.99 set

## Automatic Transmission Cooler Lines

Keep your transmission cool by replacing your rusty, cut up or leaky original transmission cooler lines with these fine reproductions. These lines are pre-bent in the correct configuration and will replace originals, which often have been cut when doing engine or transmission repairs. Each line features the correct flare nut fitting and original thread sizes to fit and install as original. For a "show quality" look, choose from galvanized material for originality or new long-lasting stainless steel for a custom look.

***Note:*** **Radiator mounted in front of the core support. Shipped oversize.*

## 1955-57 Transmission Crossmember

Works with Turbo-Hydra-Matic 350, 400, 700-R4, 4L80E, and Muncie 4-speed transmissions. Includes hardware and brackets.

***Hardtop, Sedan, and Wagon***

TF800166 1955-57..... 60.99 set

## 1955-57 Totally Tubular Transmission Crossmember

This crossmember is designed with a unique drop to allow oversized exhaust pipes to tuck up high between the frame rail. The balanced no-weld design eliminates the need to juggle the mounts, crossmember, transmission, and brackets at the same time, simply rest the crossmember and brackets on the frame and transmission on the crossmember. Bolt in place once it is in and centered between rails. Fits all GM transmissions with the popular 2 bolt rubber/Poly-Plus mount.

***Hardtop, Sedan, and Wagon***

TF800031 1955-57..... 95.99 ea

## 1955-57 Transmission Crossmember

This custom transmission crossmember is designed to fit 1955-57 Chevrolet convertible frames to provide a rear transmission mounting location when upgrading to TH350, TH400 or Muncie 4-speed transmission.

***Convertible***

# Automatic Shifters

*Key Features:*
- Unique multi-positioned trigger for user comfort in various shifter positions.
- Base can be trimmed to custom fit any floor.
- Reverse lockout feature meets NHRA and IHRA requirements.
- Neutral safety switch, back-up light switch, lighted gear indicator, polished aluminum T-handle and cable.
- Can be used with a reverse pattern valve body.

## The Most Comfortable Shifter We Offer!

The B&M Hammer™ shifter may just be the most comfortably operated automatic shifter you can buy. Grab the handle of a Hammer™ shifter and it feels like it was molded to your hand. The unique design easily fits small to large hands and provides the appropriate wrist angle. The multi-position trigger is spoon shaped for easy finger operation in a multitude of grip positions. Ratchet shifter for TH400, 350, 250, 200, 700R4, 200-4R, 3- and 4-speed automatic transmissions.

***Important:*** *Not for original consoles.*

223016 Hammer™ shifter ..... 283.99 ea

*Key Features:*
- Universal floor mount application. Base can be trimmed to custom fit any floor.
- Cable operated for quick installation and accurate shifting.
- Neutral safety switch, back-up light switch, lighted gear indicator, polished aluminum T-handle, and cable.
- Can be used with a reverse pattern valve body.

## High-Performance Ratchet Action!

The Megashifter™ is one of B&M's all-time classic designs due to it's timeless good looks and high-performance ratchet action. And, it's ideally suited for most popular universal applications. For TH400, 350, 250, 200, 700R4, 200-4R 3- and 4-speed automatic transmissions.

***Important:*** *Not for original consoles.*

223017 Megashifter™ shifter ..... 412.99 ea

*Key Features:*
- Universal floor mount application. Base can be trimmed to custom fit any floor.
- Neutral safety switch, back-up light switch, lighted gear indicator, chrome knob and cable.
- Can be used with a reverse pattern valve body

## Classic Style & Stout Performance!

You want style and stout performance wrapped up in a classic package? The B&M QuickSilver™ shifter is your answer! This top of the line ratchet action shifter provides performance shifting without a trigger. To get into park or reverse from drive, just lift the knob/stick assembly and move it forward into position! And it's cable operated for easy installation and precise shifting. For TH400, 350, 250, 200, 700R4, 200-4R 3- and 4-speed automatic transmissions.

***Important:*** *Not for original consoles.*

223018 QuickSilver™ shifter ..... 373.99 ea

*Key Features:*
- Base can be trimmed to custom fit any floor.
- Neutral safety switch, back-up light switch, lighted gear indicator, black T-handle and cable.

## The Perfect Shifter for Your Daily Driver!

The Sport Shifter™ may be a low cost alternative to B&M's top of the line MegaShifter™ – but it performs as if it was twice the price! The Sport Shifter™ is not a ratchet shifter and not intended for racing applications, but it makes a perfect addition to any street machine – making daily driving something to look forward to. Utilizing a simple detent action between first, second, high, and neutral, it features a lighted gear indicator, black plastic T-handle, neutral safety switch, back-up light switch, and flat aluminum stick. For TH400, 350, 250, 200, 700-R4, 200-4R, 3- and 4-speed automatic transmissions.

***Important:*** *Not for original consoles.*

223019 Sport Shifter™ shifter ..... 275.99 ea

## Transmission Shift Lever

This universal shift lever replaces the original detent on the side of GM transmissions to allow installation of B&M shifters. Compatible with: TH200, TH250, TH350, TH400, TH200-4R, TH700R4, 4L60E, and 4L80E transmissions.

223313 ..... 18.99 ea

*Key Features:*
- Base can be trimmed to custom fit any floor.
- Reverse lockout feature meets NHRA and IHRA requirements.
- Neutral safety switch and polished aluminum T-handle and cable.

## Straight Line Detent Shifter

The B&M StarShifter is one versatile 3- speed automatic shifter – wrapped up in a clean, timelessly styled package! In the normal mode the StarShifter is a straight line detent shifter. When the lever is in low, lift the trigger all the way and pull the stick back to convert to ratchet action. Move the stick forward for the 1-2 and 2-3 shifts. Cannot be used with reverse pattern valve body. For TH400, 350, 250, 200 automatic transmissions.

***Important:*** *Not for original consoles.*

223020 StarShifter™ shifter ..... 256.99 ea

*Key Features:*
- Base can be trimmed to custom NHRA and IHRA requirements.
- Neutral safety switch, back-up light switch, black T-handle and cable.

## More Bang for the Buck!

The B&M Z-Gate™ shifter combines classic styling, performance and a popular price. If you're building a project on a budget, or just want to upgrade your automatic shifter, the Z-Gate™ is the only choice! Great for most 3-speed automatics, the patented 'Z' shaped architecture eliminates the possibility of over shifting and missing a gear. Even more, this easy to operate shifter has many of the features found in our top of the line units, and it includes a T-handle and T-trigger – so you get the most bang for your buck! For TH400, 350, 250, 200 automatic transmissions.

***Important:*** *Not for original consoles.*

223021 Z-Gate™ shifter..... 239.99 ea

## Shift Cable Bracket

When installing a B&M shifter on vehicles with a PRNDL switch it may be necessary to replace the shift cable bracket. This bracket is designed to work with 4L60E, 4L65E, 4L80E and 4L85E transmissions.

223312 B&M cable bracket..... 22.99 ea

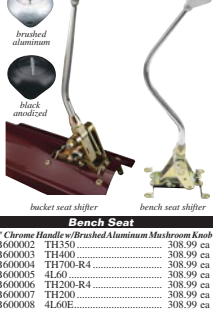
## Premium Lokar Floor Mounted Shifters for Bucket or Bench Seats!



### Floor Mount Shifter

Made in USA

Upgrade your classic with one of these premium Lokar floor mounted shifters. All shifters include a neutral safety switch with positive safety lockout in park and neutral, while the shift knobs feature a Teflon lined button for smooth operation. Designed to operate on solid adjustable linkage, each shifter also includes gold irradiated brackets. For models with bucket seats we offer the 8" handle. For bench seat models the 16" bench bend shifter is available and includes all the same features listed above. The bench bend shifters have been manufactured and shaped to clear most bench seat applications. Shifter levers are available in chrome or black and the mushroom shift knob in either brushed aluminum or a black anodized finish. All shifters include mounting hardware and instructions.

### Floor Mount Shifter Boot & Ring

Made in USA

Floor mount shifter boots and retaining ring are the perfect match for Lokar's floor mount shifters. Available with a stunning stainless steel, brilliant billet aluminum, or beautiful black billet aluminum mounting ring. Inner ring dimensions measure: 5-1/2" x 4". Outer ring dimensions are: 6-3/4" x 5-1/4".

### Hi-Tech TH400 Electric Kick Down

Cable operated and the electric switch is housed in a billet aluminum or black box that mounts with transmission pan bolts. Includes "U-Cut-to-Fit" stainless steel outer housing designed with a specially extruded liner for extended life of the cable, aluminum fittings, stainless steel inner wire and stainless steel mounting bracket. Outer housing available in stainless steel, black stainless steel, or black nylon. Eliminates mounting electrical switches on the carburetor, manifold, or near throttle pedal. Can be mounted in a variety of locations within 48" of the carburetor. Complete installation instructions are included. Mount the throttle end of the kick down with the stainless steel carburetor bracket and return spring set.

***Important:*** *Throttle cable bracket/spring set #SR4000 or SR4003 is required for installation.*

# Transmission Parts

## TH350 Kick Down Bracket & Cable

Standard adjustable GM detent with Lokar's stainless mounting bracket mounts onto the 2 back manifold bolts. Designed for 4 barrel type carburetors for small block Chevrolet engines. Includes extender for more versatility in adjusting cable length where needed.

***Important:*** *Cable housing cannot be cut-to-fit.*

KD2350 bracket and cable..... 56.99 ea

## Adjustable Transmission Shift Arm

This 3/4"-48 spline is designed for 360 degree rotation, allowing proper ratio adjustment between the transmission and the indicator on the column.

AC1802 shift arm only ..... 56.99 ea

## Turbo Hydramatic Column Shift Linkage

This shift linkage allows you to convert to the Turbo-Hydramatic 350 or 400. Contours follow the floor correctly. Plated hardware and a powder coated finish make this linkage resistant to rust and corrosion for a clean appearance and smooth shifting.

TF800033 ..... 34.99 ea

## 1955-57 Transmission Linkage Swivel

This linkage swivel connects the steering column lever to the transmission linkage rods on automatic and column shift manual transmissions. Automatic transmissions require one swivel while manual transmissions require two. Swivels include: a clamp, nut, lock washer, and a flat washer for installation.

TF800350 1955-57..... 10.99 ea

## Transmission Gate Shifter

Built for street, competition or off-road use, these extra heavy-duty shifters are made with heavy metal gates and precision engineered to enable fast, positive shifts, making it virtually impossible to jam or miss a gear. Includes all the necessary mounting hardware for easy installation and a strong marine grade cable.

AC75705 5' replacement shifter cable 59.99 ea

***Key Features:***

- Forged aluminum stick.
- CNC-Machined Billet Pistol-Grip handle.
- Snap action thumb switch for operating roll control, nitrous or trans brake.
- One hand operated, spring loaded reverse lockout mechanism.
- Factory installed neutral safety switch.
- Cable operated.
- Optional cover kits sold separately.

*3162001*

## Pistol Grip Quarter Stick Shifter!

The Hurst pistol grip quarter stick automatic shifter is designed for a firm comfortable natural grip, providing a positive feel when shifting. The pistol grip handle is CNC-machined from billet aluminum and features a precision snap action thumb switch that is ideal for operating a Hurst Roll Control, nitrous system or trans brake. Optional shifter cover can be trimmed to fit any floor pan. For a stock console look, choose the distinctive black textured plastic cover kit. Or, for a racier look, order the aluminum cover kit that attaches to the shifter with 2 quick release pins. Both are sold separately. The Hurst pistol grip quarter stick fits TH250, 350, 375, 400 transmissions.

***Important:*** *For vehicles without factory consoles.*

# Transmission Conversions

## EXTERNAL FEATURES

### SuperCase

We began with the strongest 356T6 aluminum alloy. We thickened the case walls, added additional material to support a stronger, full width 30T main drive bearing and a countershaft sealing soft plug, and we reinforced and thickened the mounting ears. As a final touch, user-friendly straight thread fill and magnetic drain plugs with sealing o-rings were added. Despite these improvements, we preserved the look of a 1960's design so our new case won't look out of place under your classic muscle car. No flex, no leaks, no broken ears.

### Roller Side Cover

We noticed that we sell more side cover oil seals for Muncies than synchronizer rings, and although the oil seals are inexpensive and easy to replace, this bothered us. When we investigated we discovered that the shifter shafts in many high mile side covers are running in elongated bores, causing new oil seals to fail prematurely. Obviously, a new side cover with round bores would solve the problem temporarily, but we wanted a permanent solution, so we made our shifter shafts a true .750" and supported them with needle bearings. It's standard on our new transmissions.

### Extension Housing

If you've been looking, you know that good extensions for thirty-year old Muncies are hard to come by. When we set out to eliminate that little problem, we also thought about what you're planning to do with it. We added a backbone rib, stiffened the reverse shift tower, and enlarged the oil seal shroud. This housing is produced with a passenger side speedometer drive housing. So whether all you need is an extension better than yours or you're thinking your monster motor might need the big output to handle all that torque, you can stop looking. We've got you covered.

## INTERNAL FEATURES

### Gearsets

For over fifty years Auto Gear has delivered the highest quality manual transmission gears. Our Muncie M22 gearset is typical. Some vendors purchase the "unimportant" gears in India or China. They must be smarter than we are – we think they're all important, so all six of our gears are manufactured for us in Italy by Antonio Masiero S.p.A. For General Motors cars from 1963-74, we offer the most complete range of Muncie gearing available. Every piece meets our standards before we put our name on it. You can buy cheaper gears elsewhere, but you can't buy better gears anywhere.

### Roller 1st Gear Option

When you're not in low (and how much time is that?) your gearbox is spinning your 1st gear on the shaft. That's horsepower that's not going to your tires, and for years racers have minimized that loss by squeezing a bearing between modified 1st gears and sleeves, an expensive, one piece at a time solution. Our roller 1st upgrade uses a specially cut gear and sleeve for the ultimate in accuracy, coolest running, and lowest cost. It's standard in our new transmissions.

***Note:*** *Not for use in drag racing applications, or street use when hard launches will be the normal or even occasional, driving style.*

### Ductile Iron Mid-plate

Every time you shift your Muncie's heavy main shaft assembly is thrown back and forth, restrained only by two snap rings and your mid-plate. Think of it as a slide hammer and it'll be no surprise that many aluminum mid-plates are distorted at the snap ring groove. We make the mid-plate you should be hammering on... our mid-plate is made from shock resistant ductile iron. It's standard in our new transmissions.

*Muncie*

*BorgWarner* *Saginaw*

## The Ultimate SuperCase Muncie 4-Speed

There are exotic transmissions designed for quarter miles or circle tracks, but if your Muscle Car sees city streets or country lanes you need a heavy-duty, synchronized, close ratio gearbox with a helical gearset and, to be honest, until now you haven't had too many good options. Each new Auto Gear transmission is built from genuine Auto Gear parts – the highest quality available – and includes all the goodies: SuperCase, ductile iron mid-plate, your choice of three heavy-duty gearsets (each with roller 1st) and a roller side cover. Best of all, it's ready-to-install and it's available at a less than exotic price. No core required!

***Note:*** *All transmissions are special order and must be prepaid. Special shipping rate applies.*

**SuperCase with M22 Gearset with 2.20 1st**

If your only concern is taming the biggest, meanest motor on the block, you want an M22 based gearset. All three of ours feature the legendary 'Rock-Crusher' gear geometry and run with the signature whine. And, while they cost a little more, most owners find that they raise the value of their automobile by the difference or more. The M22 is as GM intended and was originally paired with a 4.11 axle. Street cars used only in the wide open flat places may successfully run something faster. This approach off loads more of the 1st gear stress onto the axle and makes the gearbox more durable, but the fuel economy is frightening.

| TR1014 | 1970-74 | 26/32 spl | | 2499.99 ea |

**SuperCase with M22W Wide Ratio Gearset with 2.56 1st**

The M22W is our answer to the price of gas. Pair it with a faster axle, say a 3.54 for street or a 4.11 for the strip, and you'll have a competitive combo that'll show your wallet a little mercy. It's a little less strong, but it's far from weak.

## 1955-57 Five- and Six-Speed Driveline Conversion Sets

American Powertrain ProFit Conversion combo sets include the components required to convert your vehicles models manual driveline to a modern Tremec TKO 5-speed or Magnum 6-speed manual overdrive transmission. Each combo includes with your choice of a TKO-500/600 5-speed or Magnum T-56 6-speed transmission, offset shifter mechanism, bolt-in crossmember, slip yoke, speedometer solution (mechanical or electronic), transmission mount, conversion pilot bearing, weather seal reverse light/lockout and VSS wiring harness, shift knob, hardware, and instructions. Compatible with OE console or non-console applications.

***Important:*** *Compatible with 4-speed bellhousing. Requires bell adapter or engine specific bellhousing and 26 spline clutch disc (not included).*

***Note:*** *Transmission set contents vary by model. Special order, must be prepaid. Some modifications may be necessary. Photos for illustration purposes only. Shipped overweight.*

## Six-Speed Tremec Transmission

New high-performance Tremec Magnum 6-speed for most Tri-Five models. These premier T-56 transmissions offers two different setup gear ratio and double overdrive ratio, rated at 700 ft lb torque capacity and for up to 700HP applications. With multiple shifter locations for various console applications. Bolts directly to most LS style T-56 bellhousing, wide alloy gears, 26 spline input and 31 spline output shafts, upgraded internals for stronger, longer-lasting transmission, electric and mechanical speedometer pickups. Modern technology for much greater performance capabilities.

***Important:*** *Some modifications may be required.*

## T56 Super Magnum Six-Speed Manual Transmission

Chevrolet Performance T-56 Super Magnum 6-speed transmissions offer the most in combined strength, versatility, and control. Plus, they are able to withstand an unbelievable torque capacity – 700 ft lbs – while providing crisp shifts! These beefed up versions of the TR6060 will certainly fill your craving for high-performance with larger components. Chevrolet Performance T-56 Super Magnum 6-speed transmissions combine greater strength with precision engineering to feed the passions of cruisers and track racers alike. Able to withstand 700 ft lbs torque while providing unbelievably crisp shifts, the Super Magnum T56 Transmission is the kingpin of Tremec's high-performance lineup. No other manual transmission offers as much combined strength, ease of use, and versatility as the T56 Magnum. This high torque capacity TREMEC 6-speed manual is specially designed for custom, retro fit installations with Chevrolet Performance crate engines. The exterior case similar to fourth generation F-Body transmission with the stronger, high capacity gearsets, input shaft and output shaft used in the TREMEC TR6060. It also features a 40 tooth reluctor ring that's necessary for use with electronic vehicle speed sensors used with Chevrolet Performance controllers. Get your new T56 Magnum on the road with Chevrolet Performance's T56 Super Magnum installation kit that includes: bellhousing, flywheel, clutch, clutch release bearing, pressure plate, dust covers, and hardware.

***Important:*** *Some modifications may be required.*

# Bellhousings

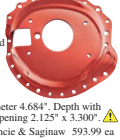
## 1955-57 Full Size Safety Bellhousing

Lakewood safety bellhousing's are designed for maximum performance and durability. They are laser cut to improve speed and accuracy of manufacturing. They are rotobrated after welding and hydro-formed to relieve any stress created during manufacturing. T hey are S.F.I. 6.1 certified. Durable powder coated finish for years of corrosion free service. This 6.45 in deep bellhousing is designed to fit the 1955-57 Chevy with mechanical linkage. Fits the 168 tooth flywheel with 11 in clutch. Fits Muncie, BWT 10 and Tremec TKO transmission. Block plate, frame mounts and Grade 8 hardware included. Other applications available.

LW15003 1955-57 ..... 678.99 ea

## 1955-57 Muncie & Saginaw Safety Housing

New!



Fits 1962-79 Chevrolet, most V8 and 90 degree V6 engines with block mounted starter. Designed for mechanical clutch linkage and includes special pilot bearing. Fits Muncie, Saginaw, and BorgWarner T-10 transmissions. Bore diameter 4.684". Depth with block plate 6.45". Fork opening 2.125" x 3.300".

LW15000 1955-57 Muncie & Saginaw 593.99 ea

## 1966-79 LS Aluminum Bellhousing

This bellhousing is modeled after the famous "621" model and designed to bolt to Gen III LS engines. This bellhousing, along with a 168 tooth flywheel and 11" clutch, allows the use of an original 4-speed Saginaw, Muncie, or BorgWarner transmission, including the original clutch linkage and starter. Made from CNC-machined heavy cast aluminum, heat treated to and reinforced with extensive thick webbing, this is one of the strongest cast aluminum bellhousings available. Made in USA.

Made in USA

***Important:*** *Pivot ball sold separately.*

621113 1966-79 11" ..... 329.99 ea

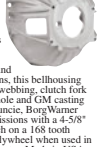
## 11" Aluminum Bellhousing

A reproduction "621" 11" bellhousing used on various Chevrolet models with big block or small block engines equipped with an 11" clutch. This high-performance option aluminum bellhousing will look and fit just like original. Accepts Saginaw, Muncie, BorgWarner and Tremec TKO/T56 transmissions with a 4-11/16" pilot bore. Fits up to 11" clutch on a 168 tooth flywheel. Also fits 153 tooth flywheel when used in conjunction with the proper starter.

***Important:*** *Pivot ball sold separately.*

14053 1955-57 ..... 169.99 ea

## 11" HD Aluminum Bellhousing



Made in USA

Looking to replace a cracked or damaged original "621" bellhousing, or converting to a 4-speed? This reproduction bellhousing is a permanent mold, low pressure casting from A356.2 aluminum that is thicker, weighting 3 pounds heavier than the original, while maintaining a factory appearance. CNC-machined and heat treated to T6 specifications, this bellhousing features extensive reinforced webbing, clutch fork opening, threaded pivot bolt hole and GM casting number. Accepts Saginaw, Muncie, BorgWarner and Tremec TKO/T56 transmissions with a 4-5/8" pilot bore. Fits up to 11" clutch on a 168 tooth flywheel. Also fits 153 tooth flywheel when used in conjunction with the proper starter. Made in USA.

***Important:*** *Pivot ball sold separately.*

## Install Set for T56 to GM Crate Engines

Chevrolet Performance install set/attachment packages for T56 Super Magnum 6-speed manual transmission to a variety of different Chevrolet Performance crate engines. Each set includes: the bellhousing, clutch release bearing, flywheel, high strength clutch disc, pressure plate, dust covers, pilot bearing, hardware, and instructions. Does not include transmission or clutch master cylinder.

# Bellhousing Components

LW15940

## Offset Bellhousing Dowel Pins

These offset dowels are essential for accurately dialing in the bellhousing. Adjustable dowel pins correct for improper register bore alignment of the bellhousing to the engine crankshaft center line. Available in different offsets as well as stock configuration.

| | | | |
|---|---|---|---|
| LW15920 | .007" offset | | 47.99 pr |
| LW15930 | .014" offset | | 28.99 pr |
| LW15940 | .021" offset | | 30.99 pr |

## Adjustable Bellhousing Dowel Pins

These adjustable offset dowels pins are easy to use and install! No need to pound the pins in and out trying to adjust correctly. They slip into the engine block dowel pin holes with ease and are designed to easily turn with an open-end wrench. No drilling, welding, or thread tapping required. Available in 3 different offsets and are longer than stock so block plates can be used.

| | | | |
|---|---|---|---|
| LW15907 | .007" offset | | 125.99 pr |

## Roller Pilot Bearing

Replacement pilot bearing for all Chevrolet V8 models. Worn pilot bearings can cause hard shifting and increase transmission wear. When changing your clutch be sure to use a new pilot bearing for best results. This bearing is a significant upgrade from the stock bronze bushing and is recommended for high-performance vehicles.

| | | | |

## 1959-72 Flywheel Cover

OER® flywheel cover for various 1959-72 GM models with manual transmissions. Manufactured from stamped steel to factory specifications and black EDP coated for rust prevention. For use on most big blocks and high-performance small blocks with a heavy-duty clutch and a 11" bellhousing. This cover protects the flywheel and helps to keep water and other road debris from entering the flywheel area.

*Note: For use with Chevrolet 621 or similar 11" bellhousing. Not for use with GM truck 11" bellhousings.*

| | | | |

| JG617 | 5 gallon pail | | 359.99 ea |

## Max-Gear MT Fluid

Max-Gear outperforms other gear oils because it combines the highest quality synthetic oils with Royal Purple's proprietary Synslide® additive technology. Max-Gear is recommended for use in truck, motor home/RV, and automotive front or rear differentials, manual transmissions, and lower gear units of marine engines that specify use of an API GL-5 or GL-4 fluid. All viscosities of Max-Gear are formulated with hypoid friction modifiers necessary for use in clutch or cone type differentials. No additional additives are necessary.

# Transmission Components

## True Balance Billet Steel Flywheel

Ram True Balance billet steel flywheels are recommended as a replacement for factory cast iron flywheels in high-performance and racing vehicles. Ram billet steel flywheels are CNC-machined from certified materials and exceed SFI specifications. After machining, the flywheels are blanchard ground parallel to the crankshaft mounting surface ensuring minimum run out and the optimum mating surface for the Ram Clutch friction materials offered. Use steel flywheels for the best driveability in street driven vehicles. For vehicles with V8 engine only.

## True Balance Billet Aluminum Flywheel

The choice for most all-out competition vehicles, Ram True Balance billet aluminum flywheels are CNC-machined from certified materials and exceed SFI specifications. A key feature of a Ram aluminum flywheel is a 1/4" steel friction insert. A well tuned competition clutch system has a predetermined amount of slippage at launch and at the gear changes. The flywheel insert must have enough mass to absorb the heat generated by slippage without distortion, ensuring maximum clutch life and consistent performance. Thinner inserts can warp and lift causing uneven engagement across the clutch disc. The thicker insert remains flatter and dissipates the heat better. Each flywheel is precision ground after the steel insert is installed to ensure the friction surface is parallel with the crankshaft flange for minimum run out and to provide the optimum mating surface for your choice of clutch disc.

## 1955-57 Aluminum Flywheel

Get faster throttle response, quicker acceleration, and smoother shifting with a Fidanza billet aluminum flywheel! Fidanza billet aluminum flywheels are CNC-machined from the highest quality 6061-T6 aluminum to deliver optimum tensile strength, heat dissipation and weight reduction. The replaceable friction surface is made from 1050 steel and attached with military grade aerospace fasteners for smooth engagement and durability. Fidanza billet aluminum flywheels also feature a 1050 heat treated steel ring gear that's pressed on and secured with Grade 8 button screws.

## 1955-57 Street 450 Clutch Set

The Street 450 single disc set is an excellent upgrade from your stock clutch and designed handle mildly modified engines up to 450 horsepower. It is a great clutch where driveability is the most important factor. Our clutch features 30% greater clamping force than a stock clutch allowing you to put more power to the ground and high-quality disc material allows for smooth, no-chatter engagement. Each set includes: pressure plate, clutch disc, throwout bearing, alignment tool, and instructions.

*Important: Stock clutch linkage may require reinforcement. Check the number of splines on the input shaft of the transmission you are using before ordering.*

*Increase performance without sacrificing streetability!*

HAYS

New!

*HY85112 – organic friction material*

## 1955-57 Street Clutch

An excellent upgrade from the stock unit, the Hays Street Clutch far exceeds OE specifications in material, construction and performance. Light pedal pressure and quick release make the Hays diaphragm pressure plate the most popular choice for today's street driven vehicles. Hays Street discs feature organic friction material that is riveted to a Marcel backing which acts as a shock absorbing material. The sprung center hub absorbs driveline torque, eliminating shock and vibration to ensure chatter free engagement. The Hays high-performance throwout bearing has been developed to withstand the high spring pressure and high RPM operation common to performance clutches. Each bearing face is heat treated and Blanchard ground to ensure trueness. The collars are heat treated for strength and machined to close tolerances for secure bearing fork attachment. The ball bearing race is packed with heat resistant moly-based grease for better lubrication and longer life. A nylon liner and bearing retainer is also featured for cooler and quieter operation. Hays Street Clutch sets include a Hays performance pressure plate (light pedal pressure and quick release make the Hays diaphragm pressure plate the most popular choice for today's street driven vehicles), Hays performance clutch disc (features organic friction material that is riveted to a Marcel backing which acts as a shock absorbing material), Hays performance throwout bearing (withstands the high spring pressure and high RPM operation common to performance clutches), bolt kit, and a handy splined clutch pilot tool to aid in installation of set.

*The word is out, RAM Street Dual System is in!*

*902120*

## 1955-57 Street Dual Disc System

The "on/off switch" clutches for your high horsepower street machines are a thing of the past. Your muscle car may have been built with technology from the 60's, but that doesn't mean your clutch has to be! The RAM Street Dual Disc clutch system makes use of 30 years of drag racing experience to become the ultimate clutch system for your high horsepower muscle car. Wrap your bellhousing around super strong dual clutch discs with an aluminum flywheel, easy pedal effort diaphragm pressure plate, 300 series friction material, and a special floater plate and retainer that virtually eliminate floater plate rattle. Even though the capacity for this clutch system is 1000 HP and 900 ft lbs of torque, the engagement is silky smooth thanks to the 300 series friction material.

***Important:*** *The dual disc system works with mechanical linkage on older vehicles and hydraulic and cable systems on late models. LS1 applications require an adjustable master cylinder. A safety bellhousing is strongly advised, and some modifications may be required to pivot ball configurations in cable and mechanical release applications, as well as hydraulics.*

# Clutch Components

## LS1 Clutch Master/Slave Cylinder

An adjustable master cylinder is required for installation of the RAM Street Dual on any LS application so you can limit your clutch travel and avoid shifting problems. When installing the new clutch hydraulics, it is essential to flush the system of old fluid and re-bleed with new fluid. Bleeding MUST be done by vacuum method or using a power bleeder such as a Mityvac.

| | | |
|---|---|---|
| RA510 | LS1 adj. master cylinder..... | 194.99 ea |
| RA520 | LS1 slave cylinder ..... | 161.99 ea |

## Hydraulic Release Bearing

Hydraulic release bearing for stock style and multi-disc clutch applications designed for transmissions utilizing the 1.375" collar size. The bearing requires a minimum 3/4" bore master cylinder and a -4AN feed line to run from the master to the bearing. The RAM bearing will provide up to .600" travel using a 3/4" bore master cylinder. T56 models include the necessary fittings and hoses to connect with the factory master cylinder and provide increased travel plus full adjustability of starting position to accommodate most single and dual disc clutches.

## 1955-57 Clutch Release Bearing with Collar

Reproduction clutch release bearing with collar for 1955-57 models. This clutch release bearing and collar should be replaced every time your clutch is serviced. Fits all 6 and 8 cylinder models, except with 10.4" clutch.

| | | |
|---|---|---|
| TF800096 | 1955-57 ..... | 14.99 ea |

## Hydraulic Bearing Pedal Adjustment System

With the RAM HSA system, you can adjust the pedal position lower to the floor and also eliminate over travel of the release bearing which can cause damage to the hydraulic bearing, or cause higher RPM shifting problems due to over centering of the diaphragm spring. The RAM HSA valve plumbs inline between your master cylinder and release bearing, whether factory or aftermarket. Once in place, simply re-bleed the system and adjust the screw position to achieve the optimum pedal position and travel. The kit includes: the HSA valve, tee fitting for installation, and a 12 inch Teflon braided line. For factory bearing installations, an adapter fitting is available to enable connection.

| | | |

## 1955-57 Throwout Bearing

Hays high-performance throwout bearings withstand the high spring pressure and high RPM operation common to racing clutches. Each bearing face is heat treated and Blanchard ground to ensure trueness. The collars are heat treated for strength and machined to close tolerances for secure bearing fork attachment. The ball bearing race is packed with heat resistant moly-based grease for better lubrication and longer life. A nylon liner and bearing retainer is also featured for cooler and quieter operation.

HY70101 1955-57 ..... 67.99 ea

## Adjustable Throwout Bearing

This adjustable throwout bearing is the perfect replacement for any bearing. Replaces all of GM's three different bearing by simply removing one of the rings. With all three rings on the bearing you have the long bearing. Remove one ring and you will have the mid-length bearing and if you remove all three rings you will have the short bearing.

16505 adjustable ..... 99.99 ea

## Clutch Alignment Tool

This clutch replacement tool is a foolproof method for aligning your clutch. Includes seven adaptors to replace virtually any kind of automotive clutch.

Y55500 ..... 29.99 ea

## Billet Clutch Reservoir

This billet clutch reservoir will add some high tech look under the hood. Machined from 6061-T6 billet aluminum. Replaces the stock GM plastic clutch reservoir for hydraulic clutches. Accepts 1/8" NPT to AN fitting. Includes mounting bracket and 5/16" nickel-plated hose barb fitting. Available in natural, black, and gray finish. Reservoir can be used for many custom applications.

# Batteries & Battery Boxes

## Modern Technology with an Authentic OE Appearance!

BY12016

RESTORER'S CHOICE™

### 1955-57 Delco® Energizer Battery

The ultimate in underhood detailing! After hundreds of hours of rebuilding, scrubbing, painting, and sanding why settle for an ugly modern battery from one of those big national chain stores? Turn back the hands of time and restore the appearance of your Tri-Five to stock by replacing a period incorrect battery with this original style reproduction. Manufactured by the nation's leading antique auto battery experts, these authentic reproduction Delco Energizer® batteries offer you true "tar top" appearance, using a special patented Poly-Tar® formulation, while eliminating the sticky hot weather disadvantages of a tar-top! Each battery is correct in every detail including acid resistant, screw-in or push-in type caps featuring Delco lettering or circles and are finished in the proper trim. Classic Industries® restoration professionals have a keen eye for originality, so we've ensured that all batteries have the correct caps and the exclusive "Delco-Eye" feature that was used to check electrolyte fluid level on applicable units. Each case has been manufactured to OEM dimensions, which vary depending on model ordered. Other details include: reproductions of the assembly line battery decal, featuring white label with red text attached to the battery post as well as correct Delco Energizer® lettering on the top casing! These reproduction batteries are the professional Restorer's ChoiceTM in engine compartment detailing for the street or concours restorations!

***CAUTION:*** *Maintenance-Free batteries are Gel-Cell type batteries and DO NOT require adding electrolyte (battery acid). Don't forget to check the battery tray for rust or corrosion, replacement now will ensure cleaner battery installation.*
**Includes six screw-in yellow caps with "Delco" lettering. All batteries measure 10-1/4" x 6-3/4" x 9".*

***Note:*** *Batteries carry a 48-month manufacturer's warranty. Shipped overweight.*

### Yellow Top Battery

With premium cranking power, low internal resistance, and unparalleled cycling capability (rechargeability), the Yellow Top AGM battery is a true dual purpose automotive battery. It handles deep power drains and recharges to full capacity so it can power plenty of electronics and still start the engine time after time. Perfect for vehicles with multiple electronic systems or high demand audio.

# Battery Trays & Hardware

New! TAYLOR

## Aluminum Relocation Battery Box Set

Taylor's aluminum relocation battery box is constructed from .040" thick aluminum and features a removable top to allow easy access to the battery. Battery mounts to the frame of the box with the supplied 3/8" bolts and includes a heavy-duty 1 piece battery hold down along with mounting hardware. Measures: 13-1/2" x 9-1/2" x 10".

***Note:*** *Complies with NHRA rule 8:1 for installations where there is no firewall between the driver and the battery.*

TP48100 aluminum ..... 93.99 set

New! MOROSO

## Sealed Battery Box

Moroso black polyethylene sealed battery box. The external venting makes it ideal for relocating a battery to the rear of any race, street, or off-road vehicle with or without a rear firewall. It features closed cell foam gasket lid to prevent battery gasses from escaping into the vehicle, and includes 3/8" hold down rods, mounting hardware, vent tube and grommets. Fully approved for racing by NHRA, IHRA, and SCCA. Holds a Series 21, 24, 26, 34, 42, 54, 55, 56, 61, 62, 63, 85, 86, 96R battery with either top post or side post terminals.

## Battery Carrying Strap

This handy tool is a must for your tool box. Allows you to easily carry bulky automotive batteries without getting acid on your clothes and hands. Each end is marked and sized to fit the positive or negative terminals allowing a secure, tight fit onto the post. Battery acid won't harm the strap! For top post batteries only.

X205 carries top mount ..... 6.99 ea

## Battery Mat — Acid Neutralizer

The Battery Mat offers protection against undetected battery acid leaks. Once installed, the mat will trap and neutralize any battery acid that leaks from the terminals or top side of the battery, preventing corrosion and expensive damage. Each mat is made of super absorbent polypropylene needle punch felt, with one side heat treated to give it additional strength. The mat is inserted under the battery between the battery and the battery tray. It can easily be installed at any time either when replacing the battery tray or battery.

## Battery Lifesaver — Corrosion Remover

Lead acid batteries will discharge, deteriorate and die without regular use or recharging because of corrosion and sulfates on the plates. This module, developed specifically for vehicles that are not driven on a regular basis to keep their battery fully charged, will actually recover lost battery capacity by removing plate corrosion, and in turn, extend battery life up to double or triple the normal life span!

# Battery Accessories & Tools

## Protect Your Vehicle from Corrosive Battery Acid!

Prolong battery life and protect your vehicle's battery tray, underhood and radiator support area with the world's only acid-neutralizing heat barrier mat. It reflects over 90% of radiant heat, traps and neutralizes battery acid, protects against corrosion, is recyclable, protects the environment, and is inexpensive and easy-to-install. The Battery Heat Barrier™ set is completely safe to handle before and during installation. So effective, it is used by all branches of the United States military. Set consists of: one 8" x 40" acid absorbing/neutralizing felt and one adhesive backed 8" x 40" aluminized thermal barrier to wrap around the battery, plus an 8" x 12" acid absorbing/neutralizing pad to put beneath the battery. Install one on your vehicle NOW, before it's too late.

TT1001 battery heat shield..... 28.99 set

W20309

## Battery Switch

These battery switches are easy-to-install on the negative battery post and disconnect the battery by simply loosening the knob a few turns. To reconnect just retighten the knob. The knob can be removed completely to deter theft. Rated at 500 amps surge and 125 continuous at 12 Volts. Available with a 15 amp fused bypass that maintains computer settings, radio, clock etc. while the battery is disconnected.

## Lifeline Memory Retention System

The Lifeline enables users of a Master Disconnect Switch to retain a small amount of power for memory circuits common in fuel injection computers, radio presets and clocks. The Lifeline is a memory circuit retainer that will automatically reset after the electrical load is significantly reduced or if the Master Disconnect Switch has been switched to the on position. Available for standard or remote battery disconnects.

| 500837 | remote disconnect..... | 30.99 ea |

## Quick-Disconnect Battery Terminal

This brass, quick-disconnect battery terminal isolates the vehicle's battery, allowing the clock, radio etc., to remain functional when combined with a fused bypass. Designed for both round and square battery lugs.

W203507 ..... 9.99 ea

## Master Disconnect Battery Switch

Taylor's 2 post battery disconnect switch completely shuts off all of the current from the battery in the event of a accident or electrical short. The 2 post switch is rated at 180 amps continuous capacity and is especially useful when charging the battery. Includes vinyl on/off decal.

*Note: The NHRA requires a master battery disconnect switch on all modified and super stock class vehicles to comply with their rule 8:4.*

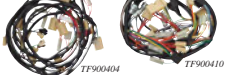
## Tremec T-56 All-In-One Harness

The All-in-One harness solution for the Tremec T-56 Magnum transmission comes equipped with all the connections pre-wired into one harness for a simple installation and ease of use. The small epoxy sealed controller is mounted to the VSS output using the existing bolt, and once the unit is powered up you will be able to connect via Bluetooth to your Apple or Android smartphone using (Bowler Transmissions) free APP. The APP will give you the ability to customize the input and output settings for each feature to ensure proper operation in your vehicle. This harness eliminates the need for any additional equipment to operate the reverse lockout or generate the correct speedometer signals coming from your Tremec T-56 Magnum.

A9800226 ..... 268.99 ea



## 1955-57 Dash/Instrument Panel Harness

The most essential section of wiring on any vehicle is the under dash harness. Virtually every other wiring harness is connected to this one, which also happens to be responsible for all dash instrumentation. Designed using original GM schematics and produced using correct color wiring and factory style connectors for authenticity, each harness duplicates your original in appearance, fit, and function.

***Note:** *6 metal and 2 plastic light sockets.*

## 1955-57 Classic Update Wiring Harness Set

Designed to make wiring "that easy", Classic Update Wiring Harness sets allow you to easily convert to HEI ignition, use modern audio equipment, add power windows or even add AC to your vehicle. Engineered for specific year, make and model configurations, these update harnesses include all of the original style lamp bulb sockets, connectors and terminals. This wiring harness set boasts 19 features, making these one of the most advanced systems of their kind.

## 1955-57 Tri-Five Chassis Wiring Harness

This 27 circuit kit is designed to fit the 1955-57 Tri-Five model series passenger vehicle. In addition to factory circuits, this kit includes additional circuits for modern day power options and accessories. This harness features a factory location mounting plate for the fuse block, front and rear lighting sockets, factory and aftermarket instrument cluster harness, and dash and turn signal connectors. This harness utilizes GM color coded high grade TXL wire with the circuit identification printed on it for easy installation. The kit includes a 150 page installation manual written specifically for Tri-Five installation.

| | | | |
|---|---|---|---|
| TF900220 | 1955-57 | | 549.99 ea |

## 1955-57 20 Circuit Wiring Harness Set

RON FRANCIS

These wiring harnesses are built specifically for 1955-57 passenger car models. They feature wiring for the entire car and will work with most stock GM steering columns, as well as aftermarket columns such as ididit and Flaming River. Will wire full gauge sets including tach and will address HEI, points and aftermarket distributors, neutral safety switches. Also includes wiring for high and low beams, indicator lights, parking lamps, turn signal lamps, and brake lamps. Will readily accept fuel injection. The wiring is high temperature, fire resistant and color coded. Features the circuit printed on each wire. All sets include a headlight switch, isolated cooling fan relay and color coded instructions. A unique serial number for each harness enables Ron Francis to technically support the installation to you or any subsequent owner.

## 1994-02 Fuel Injection Engine Swap Wiring Harness Sets

For maximum power with exceptional driveability nothing beats electronic fuel injection. And the easiest way to install a modern fuel injected engine is with one of these proven FI engine wiring harnesses. These harness sets are designed to allow you to properly wire your engine swap from a donor car or crate motor. A variety of harnesses are available to suit 1994-up LT1, LS1 and GM crate engine applications. Each of these sets include detailed instructions and illustrations.

### The Detail Zone Wiring

RON FRANCIS

Each set includes the sensor connectors installed on 20 foot lengths of wire for custom installations, connectors for the sensor wires, and a Telorvek panel with installed wiring and connectors to plug into the factory computer. Designed to work with a specific transmission, so be sure to select the correct application from the listing below. Other non-computer controlled automatic and manual transmissions can be used but typically requires ECM reprogramming for best results. 1998-02 ECMs require use of all emissions sensors or a trouble code will occur unless the ECM is reprogrammed.

*Note: *Corvette engines must use the Camaro/Firebird ECM in order to use this wiring kit. Also requires use of the 1998 Camaro throttle body for accelerator cable control. This engine utilizes the OBD II diagnostic system and if all emissions sensors are not used, trouble codes will set in a factory programmed ECM.*

### Painless Wiring

PAINLESS

The engineers at Painless have worked out all of the connection and routing problems so all you have to do is follow the straight forward instructions for a painless installation. Feature TXL high temp wire that is color coded and labeled with each application for ease of installation. Harnesses for the LS1 applications require 1998 Camaro computer 58606 and a mechanical throttle body.

*Important: *Includes a module to bypass the vehicle anti theft system (VATS) incorporated in the computer. Does not include any emissions related connections.*

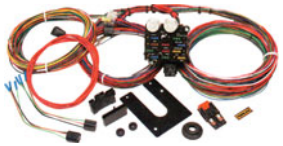
# Universal Wiring Harnesses

## Universal Chassis Wiring Harnesses ⚠



Starting from a blank slate is a daunting task, especially with wiring. Trying to keep your electrical systems running smoothly on a patchwork of old wiring can be a troubleshooting hassle and possibly even a fire hazard. Whether you are planning a series of electrical upgrades or simply need to replace aging, brittle wiring, build your electrical system on a fresh foundation with a quality universal harness. For basic builds, start with a simple kit with wiring provisions for all lamps, horn, fan, wiper, gauges, and all lamps. For more elaborate builds, choose from a selection of advanced wiring solutions. Need to integrate your aftermarket air conditioning? Need extra circuits for a multitude of electronic accessories? With Classic Industries®, there's no limit to what you can do with your wiring.

# Universal Wiring

## Highway Series Modular Fuse Panel Systems

Each universal fuse panel is constructed in heat resistant nylon and features anti-push back locks and single side wire access with self-locking, screw down connections. Includes a starter/alternator 175 amp mega fuse for extra protection. The panel is fed through an 8 gauge power feed wire and features a battery and accessory stud connection. Includes: color coded wiring for ignition, alternator, headlight, steering column, accessories and gauges, relays, fuses, flashers, circuit breakers, and all necessary power connections and terminals. Also includes a full color schematic and step-by-step instructions.

New!

- Composite Panel Base
- Nylon Panel Components
- Color Coded Wire
- Easy-to-Read Wire Labeling
- Self-Locking Screw Clamp Interface
- 8 Gauge Alternator Feed
- 175 Amp MegaFuse
- Full Color, Step-by-Step Instructions

### Highway 15 Modular Fuse Panel System

Features 15 power outputs in 8 fuses and 1 circuit breaker. Gauge cluster disconnect for easy maintenance. Includes: ignition, headlight, and dimmer switches.

### 25 Circuit Universal Chassis Harness

The Painless Pro Series gives you everything you need to wire up your Pro-Touring or custom ride right the first time! Ample length is provided for each circuit, providing you the freedom to route and hide your wiring how you choose. Once you've got the harness fit how you like it, included are over 25 GM factory style connectors found on most '60s to early '90s GM switches, allowing you to turn the Pro Series harness into a direct fit harness for your application. LED ATC bladed fuses get you away from the old hard-to-find glass fuses, and will light up if blown making troubleshooting a painless task. The 6 gauge charge wire and midi fuse (no more problematic fusible link!) will keep up with today's high amperage alternators, and the provided front and rear ground harnesses making grounding your lighting circuits a breeze! Provided with many GM connectors and terminal, insulated and non-insulated butt splices, heat shrink, grommets, cable ties, ground straps, and cable tie clips, the Pro Series brings a new meaning to truly Painless wiring and includes our lifetime guarantee.

### 28 Circuit Harness Includes:

- GM Engineered Fuse Block and Painless Mounting Bracket
- GM Steering Column Ignition Switch Connection
- GM Steering Column Turn Switch Connectors
- Two Headlight Pigtails
- 10SI and 12SI Alternator Connectors
- Dimmer Switch Connector
- HEI Power and Tach Connectors
- 20 Extra 56 Series Terminals

### 1955-57 Twenty-Eight Circuit Harness

This 28 circuit kit includes most all the power accessory circuits you have been looking to add to your vehicle. This universal harness will work on carburetted or any stand alone fuel injected engine with any type transmission.

## 14 and 20 Circuit Universal Fuse Block

Use these 14 or 20 circuit OEM style prewired fuse blocks to replace your existing fuse block or as a starting point for custom wiring. All you have to do is terminate your circuit wire and attach it to the fuse block. Prewired and labeled for the following circuits: Air conditioning/heat, gauges/dash instruments, brake lamps, headlamps, coil, horn, dome lamp, radio, electric fan, turn signals, emergency flashers, wipers, and alternator. The 20 circuit fuse block also includes circuits for power windows, door locks and other optional accessories. Kits includes: mounting bracket, fuses, flashers, horn relay, terminals, and full instructions.

***Important:*** *No wire included with these kits.*

## Remote Battery Disconnect

With this setup, one click of the key fob completely shuts down your vehicle's entire electrical system. It's accomplished by routing your main battery cable through a remote cutoff solenoid that you've stashed in a place inaccessible to a thief. For even more security, the 4 channel "Safe-n-Sound" system not only shuts off all power from the battery, but will also control 3 other items, like closing the windows, triggering the power door locks, and interrupting electrical power to the fuel pump, all separate from the main battery cutoff. The 4 channel package can handle up to 30 amps worth of electrical equipment.

## Remote Master Disconnect

We offer two Master Disconnect sets with 250 amp continuous duty solenoids designed for use with high amperage alternators. Remote Master Disconnect set 30204 uses a small toggle switch to activate the solenoid. This switch can be hidden anywhere in the vehicle as a theft deterrent. Master Disconnect with emergency push button is perfect for drag race applications as it allows you to install a large emergency push button in easy reach if you need to shut down your vehicle's electrical system in a hurry. Remote master disconnect with mechanical latching solenoid is ideal for everyday vehicle applications and is a simple and effective anti-theft deterrent. It uses a 110 amp continuous duty solenoid which is activated by an easy to hide momentary push button.

XT100 XT101 XT102 XT103

## X-Treme Tape

X-Treme Tape was developed for the military and has some very unusual properties. The silicone based tape will stick only to itself, and only when placed under tension. Once wrapped around an object, it forms a non-conductive, air and watertight, insulating seal that remains flexible within a temperature range of -60 degrees to 500 degrees F. Insulates to 8000 Volts. Stretches to 3X's its length. Conforms to irregular shapes. When wrapped upon itself, it bonds together immediately and becomes completely fused after 24 hours at room temperature.

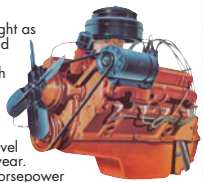
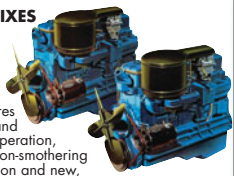
## Everything's NEW!

### GREAT NEW V8



The valve in head eight as only the valve in head leader can build it! 162 horsepower with an 8-to-1 ultra high compression ratio! Highly efficient oversquare design means less piston travel ... less friction and wear. Exceptionally high horsepower per pound. The new Chevrolet V8 brings you brilliant performance, surprisingly high gas mileage, and extra long life.

### TWO NEW SIXES



The great new valve in head six teamed with Powerglide delivers full 136 HP. And it features new efficiency and smoothness of operation, with new vibration-smothering 4 point suspension and new, more efficient cooling and lubrication systems. The spirited new 123 HP six, offered in gearshift models, brings you these same new advances.

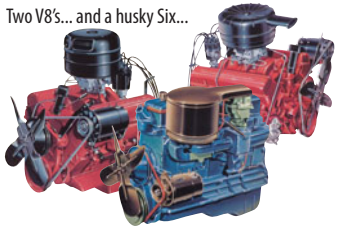
## THREE GREAT ENGINES . . .

Two V8's... and a husky Six...



The magnificent heart of every Chevrolet is its engine and for 1956 you can choose from three of the most brilliant and advanced powerplants ever created. There's the ultra compact 170 HP. "Turbo-Fire V8" (162 HP with Synchro-Mesh or Overdrive) that sets the standard for all V8's in its field... its performance mate, the astonishing 205 HP. "Super Turbo-Fire V8" with four barrel carburetor and dual exhausts... and for supreme economy and durability, Chevrolet has created the new 140 HP. "Blue-Flame 140" the pinnacle of more than a quarter century's experience building valve-in-head six cylinder engines.

### INTRODUCING THE SUPER TURBO-FIRE 283

The valve-in-head leader has done it again! Brilliant new silk-smooth performance can now be yours to enjoy in Chevrolet's advanced new 220 HP 283 cubic inch V8. You'll experience outstanding acceleration...

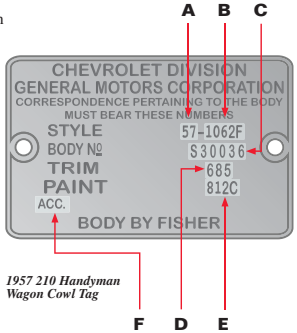
Also for 1957, Chevrolet announces two lower cost versions of "Turbo-Fire V8" design . . . running mates engineered for sparkling performance, high torque and efficient horsepower. Both share the same compact design that converts fuel energy into rear wheel driving thrust so efficiently that it has won the acclaim of automotive engineers throughout the industry!

### WORLD STANDARD OF SIX CYLINDER POWER!

The highly refined valve in head six offers low cost motoring pleasure combined with exceptional power and performance. But performance and economy are not all – it is a leader for dependability and efficiency, too. And for '57 its time-proved design has been perfected as never before – making the 140 HP "Blue-Flame" Six is the greatest six cylinder engine ever built by Chevrolet, the valve in head leader!

# 1955-57 Cowl Tag Identification

1955-57 Chevrolet cowl tags or trim plates were attached to the right hand side of the cowl panel. The plates represented a vehicle's most basic body characteristics to Fisher Body, the coachworks contracted to build vehicles for Chevrolet Motor Division. Codes listed include Model Year, Model Identification Code, Assembly Plant, Interior Trim Code, Paint Color Code and Vehicle Option Codes. The cowl tag provides invaluable information to the car's original paint color, interior color and material, and the location of the plant at which the vehicle was built.



*1957 210 Handyman Wagon Cowl Tag*

## A Model Year Code

The first two digits of the style number represent the model year. For Tri-Five Chevy models, there will either be a "55", "56" or "57" .

| Code | Model Year |
|---|---|
| 55 | 1955 |
| 56 | 1956 |
| 57 | 1957 |

## B Model Identification Code

The second set of digits in the style number code represents the style of the vehicle's bodywork. Within this code, the first two numbers represent the Series Identification – "10" for 210 or Bel Air, "12" indicating 150 Series. The last two numbers represent the bodywork style of the vehicle. A detailed list can be found below.

*Note: Up to two letters can also be found after the four numbers. A "D" as the first letter represents a Bel Air Series model while an "F" in either location represents a station wagon model. Example: 1062DF can be identified as a Bel Air 4 door wagon.*

| Code | Body Style |
|---|---|
| 1211 | 150 2 Door Sedan |
| 1219 | 150 4 Door Sedan |
| 1263 | 150 2 Door Wagon |
| 1271 | 150 2 Door Sedan Delivery |
| 1011 | 210 and Bel Air 2 Door Hardtop |
| 1011A | 210 Del Ray Club Coupe |
| 1037 | 210 and Bel Air 2 Door Hardtop |
| 1019 | 210 and Bel Air 4 Door Sedan |
| 1039 | 210 and Bel Air 4 Door Hardtop |
| 1062 | 210 and Bel Air 4 Door Wagon |
| 1063 | 210 2 Door Wagon |
| 1064 | Bel Air Nomad 2 Door Wagon |
| 1067 | Bel Air 2 Door Convertible |

## C Assembly Plant Code

The assembly plant code is a combination of two codes, a letter representing the assembly plant location and a sequence number. The list below details the letter code. The numbers after the assembly plant code provide a sequence number indicating the specific assembly plant's sequence or rotation number and should not be confused with the V.I.N. sequence.

| Code | Assembly Plant |
|---|---|
| F | Flint, Michigan |
| T | Tarrytown, New York |
| S | St. Louis, Missouri |
| K | Kansas City, Missouri |
| O | Oakland, California |
| A | Atlanta, Georgia |
| N | Norwood, Ohio |
| B | Baltimore, Maryland |
| L | Lansing, Michigan |
| J | Janesville, Wisconsin |
| VN | Van Nuys, California |
| CL | Cleveland, Ohio |

## D Interior Trim Code

This three digit number represents the interior color and materials for a given vehicle. Codes and patterns are different for each year, but color combinations may cross over. See next page for a detailed list of interior trim codes for each year.

## E Paint Color Code

The paint color code represented in three numbers the exterior paint colors and their locations on the vehicle. Two-tone paint schemes were available from 1955-57 and because of this, separate codes were offered for each color combination. From 1956-57, a letter would sometimes follow the three digit code. An "A" would represent a single paint color and a "B", "C", "D" or "E" represented a two-tone paint scheme. Please see the chart on the next page for a detailed list of exterior color codes by model year.

## F Vehicle Options

If a particular vehicle was to be built with optional equipment, the codes for these extras would be stamped below the exterior paint color code. However, even vehicles with options sometimes did not have a stamping on the cowl tag. Minor options were not indicated on the cowl tag. Major options, such as a partial list below, were included.

| Code | Vehicle Option |
|---|---|
| AC | Air Conditioning |
| CP | Padded Dash |
| WS | Power Windows and Seats |
| EZI | Tinted Glass |

# 1955-57 Interior Trim Codes

Interior trim codes indicate the color and material combination for a given vehicle. This list offers a reference for owners who wish to restore their interior trim to original specifications. No guarantee of completeness or correctness is offered. Some data supplied by "Chevy Cowl Tags 1950-1975: Factory Trim Tag Code Guide", by Mark S. Allen.

# 1955–57 V.I.N. Identification

The Vehicle Identification Number (V.I.N.) plate on all 1955-57 models is located on the left front door hinge pillar post. This number represents the vehicle's unique serial number for use with government agencies and vehicle model identification. Below is a guide for decoding your V.I.N.

### A V8 Model

In addition to the Series and Model Identification letter, models equipped with a V8 from the factory will contain a "V" before the Series and Model ID. Models originally equipped with a 6 cylinder engine did not feature this "V" at the beginning of the V.I.N.

### B Series and Model

The second letter in the V.I.N. sequence is the Series and Model Identification digit. Each Series received a unique letter.

| Code | Series | Model |
|---|---|---|
| A | 1500 | 150 Models |
| B | 2100 | 210 Models |
| C | 2400 | Bel Air Models |

### C Model Year

The first set of numbers in the V.I.N. sequence represents the model year of the vehicle.

| Code | Model Year |
|---|---|
| 55 | 1955 |
| 56 | 1956 |
| 57 | 1957 |

### D Assembly Plant

The final letter of the V.I.N. represents the assembly plant at which the vehicle was built. Between 1955-57, ten primary assembly plants manufactured passenger cars. Oakland, CA used the plant code "O", which can sometimes cause confusion with the sequence number, especially in 1955-56 models where the sequence begins with a zero.

| Code | Assembly Plant |
|---|---|
| A | Atlanta, Georgia |
| B | Baltimore, Maryland |
| F | Flint, Michigan |
| J | Janesville, Wisconsin |
| K | Kansas City, Missouri |
| L | Los Angeles, California |
| N | Norwood, Ohio |
| O | Oakland, California |
| S | St. Louis, Missouri |
| T | Tarrytown, New York |

### E Production Number

The production number sequence represents the basic serial number given at the assembly plant. This six digit long sequence began with "001001" in 1955-56, while in 1957 the sequence began with "100001". Each plant used their own unique sequence numbers.

# Four Ways to Order!

### ORDERING BY PHONE

**TOLL FREE 800•854•1280**

In the continental United States, Hawaii and Alaska.
Outside the U.S. call 714.847.6887.

**Mon-Fri 8:00-5:00** **Sat 10:00-3:00, P.S.T.**
(Closed Sundays and holidays)

*Information you'll need when ordering by Phone:*

**Customer Number**
Found on back cover of your catalog above your name, this number allows Classic Industries® to quickly access your information. If you do not have a customer number, a new one will be given to you when placing your order.

**Billing and Shipping Address**
Please have the billing and shipping address available. Credit card orders are verified by name and address before shipping. Your order can be shipped to a different address, provided the cardholder's name and address match the credit card used. You may be asked to contact your credit card company to have the shipping address added to your account.

**Year and Model of Vehicle**
To provide the best possible service, we may require the year and model of your vehicle. This helps verify that the parts you order are correct for your car.

**Part Numbers**
All Classic Industries® products are listed with a part number. If possible, please have the part numbers of the products you're ordering available before calling to make the ordering process faster and more convenient.

### ON-LINE ORDERING

**www.classicindustries.com**

Classic Industries® offers on-line ordering directly through our website. Log on to classicindustries.com and order on-line. On-line ordering is available 24 hours a day 7 days a week for your convenience.

### ORDERING BY MAIL

**Mail Your Completed Order Form to:**

Classic Industries®
18460 Gothard St.
Huntington Beach, CA 92648
Attention: Order Dept.

### ORDERING BY FAX

**TOLL FREE 800•300•3081**

In the continental United States, Hawaii and Alaska.
Outside the U.S call 714.847.6887.

**Important: For assistance with your order form, see page entitled "How To Fill Out Your Order Form".**

# Service Excellence from the Restoration Leaders!

## You No Longer Have To:

- Pay excessive fees to protect your merchandise
- Contact the carrier yourself
- File a damage claim yourself to have the carrier inspect the damaged items
- Send the damaged items back at your expense

**With Classic Industries® the worry is eliminated!**

# PROCEDURE FOR RETURNING SHIPPING DAMAGES

**We handle the claim so you don't have to! If any part you receive is damaged during shipping and handling, simply contact our customer service department toll-free at 800.854.1280 within two business days.**

**After verifying the damage, Classic Industries® will issue a pickup call tag through the carrier that shipped the products. The carrier will pickup the damaged goods from your address and return them to us at no expense to you. After the product has been inspected, our customer service department will send a replacement part.**

**In order to ensure replacement of damaged products, please return items in their original box and packaging. Failure to do so may result in the claim being denied. Someone must be available at the pickup address to supply the damaged products when the carrier arrives. If the carrier in unable to pickup the products for any reason, the customer may be required to return the products at their expense.**

***Note:** Some products are excluded from damage call tag pickup. Call a customer service representative for information about products that are not eligible.*

ENJOY THE BENEFITS!

# Money Back Guarantee

***At Classic Industries®, we take pride in the quality of the products we offer and back it up with a 100% Money Back Guarantee. If for any reason you are not satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit or exchange.***

Not all restoration parts are created equal. But at Classic Industries®, we research each and every product we sell to make sure our customers are getting the highest quality products in the market. We have decades of experience in product selection and we painstakingly scrutinize every product we offer for quality manufacturing, materials, and craftsmanship before we will offer it in any of our catalogs. Many of our employees are automotive enthusiasts themselves. In fact, many were customers prior to becoming employees, so we understand the needs of the modern classic car enthusiast. Our product procurement specialists have made it their goal to select restoration products that have been manufactured using modern technology and materials with an emphasis on originality, longevity, and attention to detail. What else would you expect from the company that started it all? Classic Industries® is the name you can trust, and we'd like for you to consider us as your partner in restoration. When a company continually offers a quality product for a reasonable price and backs up every sale with the best customer service in the industry, people come back! That's why Classic Industries® has been the leader in restoration for almost four decades. So, if you haven't already decided for yourself that Classic Industries® is the most logical choice as your restoration parts supplier, then check out our Money Back Guarantee. If for any reason you are not 100% satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit, or exchange.

- ✓ **Lowest Prices Guaranteed!**
- ✓ **The Finest Quality Reproductions!**
- ✓ **No Fault Product Protection Offer!**
- ✓ **100% Satisfaction or Your Money Back!**

OEM ORIGINAL EQUIPMENT REPRODUCTIONS · GM Restoration Parts · Factory Five Racing · Hemmings CHOICE™

# Price Match Guarantee

**If you find it for less we'll match the price!**

Classic Industries® will match any competitors current advertised price for an identical product. Simply send us a copy of the competitor's current advertised price from a catalog, advertisement or website (with URL) and we'll match the price. The price match guarantee is available at the time the order is placed and for in-stock merchandise only. Price matching will be determined by a competitor's most current retail published price and is limited to competitors within the Restoration Industry.

**Important:** In an effort to provide our retail customers with the most competitive pricing available, we will match our current competitor's pricing. Price matching will be determined by a competitor's most current retail published price and is limited to competitors within the "Restoration Industry". Performance parts and special orders are exempt from price matching policy. Classic Industries® reserves the right to decline price matching if pricing is deemed to be a special offer, a sale or closeout price, or a non-current price. Competitors sale pricing, inventory reductions, close outs, special promotional offers, etc. may be exempt from the "price match" guarantee. The guarantee is subject to the terms and conditions of Classic Industries® current policies.

Classic Industries® will generally contact competitors to confirm that the published price is current due to market changes, demand or availability. Price matching supersedes all other promotional offers and on sale pricing. If Classic Industries® matches a price from a competitor, additional discounts on that product or products may not apply. If the standard retail price of a product is higher than the competitor's price and an applied discount reduces the price below the competitor's pricing, the now discounted or sale pricing will prevail. We reserve the right to change or revoke this offer at any time without notice. Classic Industries® reserves the right to decline price matching.

# Think Of Us As Your Partner In Restoration!

A restoration can take years! We understand the complications and problems that can occur when ordering precious parts for your project car. If you are like most people, you want perfection. The many different elements that make up a restoration isn't just limited to the parts you install. You sometimes need to rely on other outside elements such as body shops, painters, upholstery specialists and parts suppliers. That's where we come in. We offer the quality parts you want without all the guesswork. We carry one of the largest inventories of restoration products and accessories the market has to offer. What's more, you can rely on our nearly 40 years of experience to help you through the rough spots when you need it. Our tech advisors are always ready and willing to discuss any problem you may have concerning the parts for your vehicle and your restoration. Unlike other companies, we give you knowledgeable sales representatives, one of the largest inventories in the business, quick and efficient delivery, Toll Free ordering, and the experience to back it up. If you're not absolutely 100% satisfied with the products you receive. We'll refund 100% of your money! Classic Industries® – your partner in restoration!

# Form of Payment

## CREDIT CARDS

Classic Industries® accepts *Visa*, *Mastercard*, *American Express*, *Optima*, and *Discover* for your convenience. When placing your order, be sure to indicate the card holders name, address, home phone, business phone, credit card number and expiration date and billing address *(if different from person placing order)*. A security code is required for credit card purchases. Please have your credit card readily available when placing your order. Minimum order is $20.00. New or 1st time customers who are paying by credit card must have the order shipped to the cardholders billing address for the first order. Invalid or non-matching billing addresses could delay your shipment.

## CERTIFIED CHECKS

Classic Industries® will accept certified checks for your mail order. Be sure to include customer number and/or reference invoice number. Contact your bank to issue a certified check in the amount due for your order. All orders paid by certified check are held up to 15 days pending clearance.

## PERSONAL CHECKS

To use personal checks or business checks on prepaid orders, the name, address, and check number must be preprinted on the check. Be sure to include customer number and/or reference invoice number. Only first party checks will be accepted. All orders paid by personal check are held up to 15 days pending clearance.

## MONEY ORDERS/CASHIERS CHECKS

To use money orders or cashiers checks on prepaid orders be sure to include customer number and/or reference invoice number. All orders paid by money order are held up to 15 days pending clearance. Once released the order will leave within 24 hours of clearance.

**Make Personal Checks or Money Orders payable to:**

**Classic Industries®**

## PAYPAL

Classic Industries® now accepts payments via Paypal! Simply complete your order over the phone with a customer service representative, get your invoice number and then send your payment to paypal@classicindustries.com through Paypal's "Send Money" feature and select "Goods and Services" for payment reason. Be sure to include your invoice number in the "Special Instructions" tab at checkout for fastest service. Orders are generally shipped within 72 hours or less of payment receipt. Contact our customer service department for additional details.

# How to Order

## MAIL ORDERS

Fill out the order form located in the back section of this catalog. For quick service use your credit card, money order, or cashiers check. Personal checks are held for 15 days from date of receipt pending clearance. All mail orders must be prepaid including freight *(when applicable)*. COD orders through the mail will not be accepted. If you have any questions regarding product information or availability, contact our sales representatives during regular business hours at 800.854.1280.

## ORDER BY PHONE

Classic Industries® employs knowledgeable sales representatives to assist you when placing your order. Our sales representatives are trained to answer your questions regarding restoration and the parts listed in this catalog. Call during regular business hours Mon-Fri 8:00-5:00, Sat 10:00-3:00, P.S.T. Closed Sundays and holidays. Our convenient **Toll Free** number allows you to place your order with confidence to assure you get exactly what you want when you want it! Inter-continental U.S. 800.854.1280. Outside U.S. country code + 1.714.847.6887

**TOLL FREE 800•854•1280**

## FAX YOUR ORDER

Classic Industries® offers a convenient FAX line for customers who have access to a Fax machine. Our FAX is available 24 hours a day 7 days a week for your convenience. Fill out the order form completely and FAX your order. Within U.S. 800.300.3081. Outside U.S. country code + 1.714.848.9501

**TOLL FREE 800•300•3081**

## ON-LINE ORDERING

Classic Industries® offers online ordering directly through our website. Log on to classicindustries.com and order online. Online ordering is available 24 hours a day 7 days a week for your convenience.

**WWW.CLASSICINDUSTRIES.COM**

## FOREIGN ORDERS

All foreign orders must be prepaid before the products can be shipped. The Classic Industries® staff will check with the various freight companies that deliver to your country and area to determine the best possible rates available for your order. Once your order is rated, you'll be contacted by e-mail or phone to approve the rate. After approval and payment is received, the order will be shipped. The Shipping & Handling field for foreign orders will state "TBD" (To Be Determined). Rates are subject to change once the order has been packed and is ready to ship. Rates are calculated based on estimations of weight, dimensions and other factors. Should changes in freight costs occur once the order is packed and ready to ship, Classic Industries® will notify the customer immediately before the shipment is sent. If you have any questions or concerns, please direct your inquiries to info-desk@classicindustries.com.

# General Information

## Sales Tax Information

Classic Industries® collects and remits sales tax based on state and local requirements. The sales tax laws have changed due to a Supreme Court ruling in 2018. The appropriate sales tax will be applied to your order and remitted based on your state's requirements. If your order is shipped, or picked up in a specific state that requires sales tax, the appropriate amount will be added to your order.

## Accuracy Of Descriptions

Classic Industries® makes every effort to verify the accuracy of all information published in this catalog. Each item is represented with information that is accurate to the best of our knowledge at the time the catalog is printed. Classic industries® is not responsible or liable for mistakes, print errors or inaccurate information that may lead to, or result in labor costs or damages to any vehicle under any circumstances.

## Kit Products

All Classic Industries® Parts and Accessories catalogs include kits which contain a variety of products. On occasion we may run out of an item supplied with a kit. If this happens we will generally ship what is in stock and back order the item(s) which are not in stock. You may contact our sales department by phone to verify which items are not in stock at the time the order is placed. The customer may decide whether to accept the partial kit or have the entire kit back ordered until the kit is completed and all the items can be shipped at the same time. If the customer decides to accept partial delivery of the kit, then the full price of the kit will be charged to the customer and the back ordered items will be shipped no charge when they arrive at our warehouse. Customers will be charged the appropriate freight fees when applicable. Cancellation of products from a kit will be accepted at 25% below the actual current retail price of the item. On COD orders the price of the kit is charged in full and the back ordered items are shipped on a COD freight only basis.

## Rights and Lefts

Some items in this catalog are presented as left or right hand products (left side – driver) (right side – passenger). LH or RH sides are determined by sitting in the vehicle, not standing in front of the vehicle.

## Color Matches

Due to multiple manufacturers of products Classic Industries® provides, color variations may occur. Slight color variations are common especially amongst interior products and does not constitute a defect. These products are not eligible for return for this reason.

## Pricing

Prices in this catalog were in effect at the time of printing and supersede all prices in any previous publication. Classic Industries® makes every effort to honor the prices contained herein. However, due to increased costs of manufacturing, materials, etc., prices can change. We reserve the right to change prices without notice. For current pricing please contact a Classic Industries® sales representative during normal business hours. Eligibility of products for discounts are subject to change without notice.

## Trademark and Copyright

Classic Industries® Parts and Accessories catalog is copyrighted. No part of this publication including text, photos or illustrations may be reproduced without the prior written permission of Classic Industries®. The following names and/or symbols: *Mopar, Dodge, Plymouth, Barracuda, Belvedere, Coronet, Challenger, Charger, 'Cuda, Dart, Duster, Fury, GTX, Hemi, Polara, Road Runner, Six Pack, Super Bee, Scamp, Valiant* are registered trademarks of Chrysler Group, LLC and are used for reference purposes only unless specified otherwise.

## Product Availability

Availability of all items in this catalog are subject to change without notice. We reserve the right to discontinue products, services or accessories without notice.

## Shortages

Always check the contents of your delivery to assure all the parts ordered were received. If you are missing any item(s) be sure to check for back orders notated on your invoice before calling our customer service department *(see back orders)*. If a shortage has occurred, contact our customer service department within 2 working days of delivery to assure a prompt replacement. Classic Industries® assumes no liability after this period.

# Shipping Information

## ALASKA, HAWAII, GUAM & PUERTO RICO

Orders being shipped to Alaska, Hawaii, Guam or Puerto Rico, are shipped via Ground, Overnight or 2-Day delivery whenever possible. All orders must be prepaid with credit card, money order, or check. No COD orders are accepted. Rates depend on the items being shipped. Contact our sales department for exact rates.

*Important: Promotional shipping offers do not apply to Alaska, Hawaii, Guam, Puerto Rico, Canada or any foreign destination.*

## APO/FPO

Parcel post is the only means of shipping to an APO or FPO address. Due to size restrictions the maximum shipping box can be no larger than 72" width and girth combined. All military personnel must write or call to determine what size box will be used for the shipment. Once this is determined, Classic Industries® will call or write to let you know if the order can be shipped by Parcel Post, and the correct amount required. All orders that exceed these limitations will be shipped in accordance with customer approval.

## INSURANCE

Each order is charged an insurance fee of $3.50. This fee will insure the entire order and protect you completely from damages or loss. The order forms located in the rear of this catalog include this fee in the indicated column when your order is being toted.

## COD ORDERS

COD orders are gladly accepted on all normal ground shipments, excluding truck freight orders. COD orders will require cash only upon delivery of your order. All COD orders are shipped by FedEx. Personal checks, business checks, money orders and certified checks are not accepted. COD orders are not accepted through the mail. COD orders must be placed by phone during regular business hours. The appropriate shipping fees will be added. COD orders are exempt from discounts and free shipping promotion. The customer will pay all appropriate fees in accordance with current policies and freight rates. A fee of $11.95 per box will be added to all COD orders. Oversize and/or overweight boxes will be charged in accordance with the rate chart located on the order blank. Classic Industries® reserves the right to change shipping rates in accordance with rate increases by freight companies. COD orders are limited to $999.00. If the COD order should be returned to Classic Industries® for non-acceptance/ non payment, the customer will be responsible to reimburse Classic Industries® for any and all freight charges related to the order. In addition, a 25% restocking fee will be applied to the returned products. All outstanding charges must be paid before any additional orders will be accepted.

## SPECIAL RATE SHIPPING FEES/DROP SHIP FEES

Some items we offer may require a mandatory shipping or drop ship fee. This fee may also apply to products sold over the counter at Classic Industries® Showroom location. Contact our sales department for actual additional shipping fees.

*Important: Products with special rate shipping fees or drop ship fees are excluded from promotional shipping offers.*

## EXPRESS SHIPPING

Classic Industries® offers Overnight and 2-Day air delivery service in the Continental U.S., Alaska, Hawaii, Guam and Puerto Rico. Pre-payment with a credit card is required before shipments can be sent. Simply call in your order before 2:00 p.m. Pacific Time, Monday-Friday during regular business hours and your Overnight order will arrive the following business day (pending availability). Saturday delivery is available only on Overnight service. A $16.95 fee will be added to Overnight fees for Saturday delivery. 2-Day orders will arrive within 2 business days (pending availability). 3-Day service is available within the contiguous 48 states. Your order will usually leave within 24 hours and will arrive within 3 business days of ship date (pending availability). A $9.95 service fee for any of these options will be added in addition to shipping fees. Contact our sales department for rates regarding service delivery. Rates depend on the items being shipped. Some products are charged at dimensional weight as opposed to actual weight.

*Important: Air service does not guarantee your order will arrive on the expected date of delivery. Under normal circumstances, air service is guaranteed. However, due to adverse weather conditions, natural disasters or unforeseen circumstances, there may be delays. Classic Industries® is not responsible for deliveries that are delayed. Air service orders are excluded from promotional shipping offers.*

## TRUCK FREIGHT

Products in this catalog that require truck freight are usually indicated below the product *"Shipped truck freight"*. This indicates that the product is too large for ground delivery and must be shipped by motor freight. There may be items listed herein that are not indicated as truck freight. These items must be pre-paid, including freight charges, before the shipment can be sent. Classic Industries® requires a *minimum $125.00* fee for all California orders and *minimum $175.00* fee for all out of state truck shipments. Truck freight rates could be higher depending on products being ordered and the destination. Residential deliveries require an *additional $40.00* fee. Should the customer's delivery require special handling (lift gate service, re-routing, additional freight charges etc.), any and all additional fees will be billed to the customer's credit card. Acceptance of truck freight shipment is acknowledgment that additional charges will be incurred. Please include a commercial business address whenever possible. For additional information contact our customer service department during regular business hours.

*Important: Truck freight items are excluded from promotional shipping offers.*

## OVERSIZE-OVERWEIGHT

These are the designations for Ground or Standard packages that meet one of the following specifications for billing purposes: Oversize 1 (OS1) designates a combined length and girth exceeding 84", but less than 108". Actual weight is less than 30 lbs, and is billed at 30 lbs. Oversize 2 (OS2) designates a combined length and girth exceeding 108" but less than 130". Actual weight is less than 70 lbs, and is billed at 70 lbs. Oversize 3 (OS3) designates a combined length and girth exceeding 130" but less than 165". A $40.00 handling fee will be added to all (OS3) orders. Actual weight is less than 90 lbs, and is billed at 90 lbs. We reserve the right to charge Oversize fees on any order containing oversize products, even if it is not indicated in the catalog.

*Important: Oversize, overweight and dimensional weight items are excluded from promotional shipping offers.*

# General Information

## Back Orders

The invoice located in the packing slip of your order will notate any items that were out of stock at the time of shipping. The unavailable items will be back ordered unless otherwise specified on your order form or verbally to a sales representative when placing your order by phone. Back orders are usually shipped when the products arrive at our warehouse without prior notification. Classic Industries® will make an effort to contact the customer if the backorder is more than 90 days old. If you wish to cancel a back order, please notify our customer service department immediately. The customer will be responsible for a 25% restocking fee and freight charges if the back order is cancelled or returned after the items are shipped.

## Damage Claims

Always check the contents of your shipment in the presence of the person delivering the merchandise. Should any damage occur, immediately notify Classic Industries® customer service dept. so that all steps necessary will be taken to ensure a prompt replacement of any damaged goods. Accurate instructions will be given on damaged goods replacement. Classic Industries® is not responsible if no notification is given within 2 working days of receipt of goods (excluding Sundays and Holidays). Classic Industries® will file a claim with the carrier in most cases. If the customer files a claim with the carrier, Classic Industries® will not be responsible for replacing damaged products and the customer will be responsible to pay for any replacements until the carrier pays the claim. Any replacement parts due to sales errors or customer errors in ordering will be sent using the same shipping method as the original order when possible. Please follow these instructions to avoid any problems or misunderstandings associated with damaged products and freight claims.

## Refusals

All refused COD orders will be subject to a 25% restocking fee. Classic Industries® will consider the entire order cancelled and void with no notification to the customer. The customer will be billed 25% plus all freight charges to and from the destination. Contact our customer service department for more information.

## Policies

All policies in Classic Industries® current catalog supersede any and all policies in any previous catalog or publication.

## Sales Errors/Ordering Errors

Classic Industries® is not responsible for customer errors or employee sales errors. Every effort is made to insure that the products you are ordering are accurate. Should an error occur, we will make every effort to resolve the issue. Replacement products will be shipped the same method as the original order whenever possible. Classic Industries® assumes no responsibility or liability for damages, fees, storage charges, or any other inconvenience that may be associated with sales errors or customer ordering errors.

## Returns

Products may be returned for a full refund on the product, credit or exchange within 30 days of receipt. All returns are subject to a 25% restocking fee after 30 days. Should you need to return a part for refund, exchange or credit, please contact our customer service department for a return authorization number and instructions. Classic Industries® will not accept returned goods without prior authorization. Customer will pay freight on all return orders. Allow up to 3 weeks to process refund or credit.

*Important: Gift certificates have no cash value and must be redeemed for merchandise only. Literature, CDs, videos, printed materials, stencil kits, stripes, electrical parts, gauges, wiring harnesses, switches, etc. are non-returnable. All special order products must be purchased in full and are non-returnable. No returns on partial kits or sets. There is no guarantee on moving parts such as engines, transmissions, rear ends, steering gears, water pumps, distributors, wiper motors, etc. If any product is modified, altered, painted, installed or disassembled in any way without Classic Industries® expressed written permission, the item is non-returnable. Classic Industries® always recommends professional installation on all products. Any item which has been altered, painted, installed or deemed non-resalable by Classic Industries® will be returned to the customer at the customers expense. Classic Industries® is not responsible or liable for labor fees associated with the installation, removal, modification, painting or repair of any product purchased regardless of the circumstances. Classic Industries® is not responsible for any damage or discoloration incurred in relation to chemical products being used including cleaners, waxes, polishes, paints, etc.*

*lightweight highly reflective material for added protection from harmful UV rays*

**OER AUTHORIZED**

## Titanium™ Car Covers

This durable lightweight fabric is engineered to provide the best protection from the sun! Designed for indoor or outdoor use, Titanium Plus© has a reflective water repellent 100% polyester top layer that keeps your interior cool when in sunlight and protects against harmful UV rays. Each cover is sewn with double-stitched seams that are strong and durable. Neoprene elastic is sewn into the front and rear hems to help secure the cover in place. With it's silver reflective properties, Titanium© covers offer the ultimate UV protection in a material that is extremely lightweight so it is easy to handle and easy to store. Each cover includes a free storage bag and lock kit. Non-scratch grommets are installed on each cover to allow the use of your tie strap or lock.

## Pickup Layers of Dust with One Sweep!

An easy way of keeping your vehicle clean and free of dust, looking like it was just washed. It's specially treated cotton fibers lift dust off the surface without scratching the paint, even delicate lacquers. The more you use it, the better it works! Regular use can significantly reduce the frequency of washings.
