The "Hot-Dot" All-in-One Ignition Switch

Convert your separate ignition switch and start button into one convenient unit with the "Hot-Dot" all-in-one ignition starter switch. Chrome recessed switch is 3/4" diameter with a colored LED ring to indicate when the ignition is "On". Push and hold the button while the starter turns over and release when the engine starts. The ignition stays "On". Push again to stop the engine. Includes installation instructions and is available with your choice of blue, green, or red LED ring. Switches available separately. Can be used for positive or ground switching, rated 1 amp maximum load.

GPS Speed Sender ⚠

New Vintage USA GPS speedometer senders are compact units that mount virtually anywhere and deliver a steady, smooth signal to any electronic programmable speedometers. So, if you need an easy way to pickup your speed signal, or have a transmission without a built-in VSS or cable output, a New Vintage USA's GPS speedometer sender may be the just the part you're looking for.

NV42181	universal	154.99 ea
---------	-----------------	-----------

Sky Drive GPS Speedometer Sender ⚠

Drive your speedometer accurately and reliably with the Sky Drive GPS Speedometer sender. This device quickly calibrates and accurately drives any electronic programmable speedometer. The Sky Drive updates 10 times per second without any transmission signals, pulse generators or signal converters and features an omnidirectional antenna that can be mounted virtually anywhere and in any position. No more guessing or recalibrating due to tire or gear changes, this unit requires a one time setup and you're done.

Internal Float Fuel Sending Unit

Get reliable fuel gauge readings with this internal-float fuel sending unit. This advanced design provides accurate readings without fluctuations due to fuel slosh. Because this internal float design requires no float arm, it is far more resistant to corrosion, even with racing fuels. All sending units mount to the tank with the standard 5 bolt mounting flange and are available in sizes from 4" to 24".

Important: Sending unit should not touch bottom of tank. When the fuel gauge reads empty, the area below the sending unit is reserve fuel.

Note: Sending units are available in lengths from 4" to 24" and are sold in 1" increments. Please add the desired length to the end of the part number, eg. 06 = 6", 11 = 11".

1955-57 Bel Air Digital Gauge Cluster

The Intellitronix digital gauge cluster gives your Bel Air the precision of digital readouts under the elegance of a smoked lens. This direct fit digital gauge cluster works with your factory fuel, oil pressure, and cruise control sending units and includes a printed circuit board, smoked plexiglass lens, temperature sending unit, a speedometer sender (for vehicles without electronic transmission), and instructions. Bezel not included.

Note: Specify color code when ordering.

New!

1955-57 OBD-II Interface Module

This OBD-II/CAN Interface allows you to plug directly into the engine diagnostic port, extracting engine data from the OBD-II computer (ECU) and porting it to your Dakota Digital gauge cluster. This module will output the following information to Dakota Digital Instrument Systems: speed, tachometer, engine temp, intake air temp (if data is available), transmission temp (if data is available), ambient air temp (if data is available), gear position (if data is available), and oil pressure.

B9333B - components

B9333B

B - blue G - green R - red W - white

Features Include:

- 2-1/16" diameter and 1-1/2" deep
- Automatic night-dimming and In-dash mounting hardware
- Absolute brightest LEDs available
- No sender needed
- Oil Pressure displays 0 to 80 PSI accuracy and universally adaptable. It is accurate, super bright, and intelligent all in one.

3 Gauge LED Bar Graph Set

With the absolute brightest LEDs available, this sharp looking 3 gauge bar graph panel features voltmeter, water temperature, and oil pressure showcased in a black bezel. Sending units and mounting hardware are included. Voltmeter is microprocessor controlled with 12.0 to 16.0 Volts accuracy.

Note: When ordering, please add the correct suffix: B - blue, G - green, R - red, or W - white.

1957 Authentic Series Gauge Set

Classic Instruments Authentic series gauges update your gauge cluster with modern instrumentation while keeping a vintage look. Designed to fit the original dash bezel of your 1957 Chevy model using OE style trim rings and attaching hardware. Each gauge set comes complete with an electronic 140 MPH speedometer, an 8000 RPM tachometer, and fuel, coolant temperature, voltmeter, and oil pressure gauges. Includes all necessary mounting hardware and sending units (0-30 Ohm fuel sender). Made in USA.

DD10701

Universal Digital Gauge Set

These Odyssey Series II and Odyssey Solarix digital gauges set give any plain dash an old school design with a modern digital display. These six piece gauge sets include: 3-3/8" speedometer and tachometer, 2-1/16" oil pressure, water temperature, voltmeter, and fuel gauge. Includes: oil pressure, water temperature, and speed senders. Fuel gauge works with most OEM and aftermarket senders. Available with chrome or black bezels.

Odyssey Series II - Non-Glare Teal Display

Digital Clock Instrument

Odyssey digital clock incorporates a 12 hour AM/PM format, ambient temperature display, and either an 8 point compass or a day/date display. Features night dimming and label illumination behind a non-glare, high contrast lens. Measures: 2-1/16" diameter x 1-1/2" housing x 2-3/8" deep (including mounting studs). Sensors included. 24-month limited warranty.

Note: Special order. Must be prepaid, non-returnable.

- Over 30 independent RGB color options for needle and TFT Message Center.
- 12 preset color theme options or build your own.
- Wide angle color TFT LCD Message Center(s).
- Independent day/night color selections.
- Illuminated needles and LED backlighting for the numbers and tick marks.

- "Ghosted" indicators (turn signals, high beam, check engine, cruise control engaged, parking brake, plus two that are user definable) appear only when lit.
- Bluetooth connection to tablet/smart phone.
- Easy to use app allows for quick setup, modifications, and sensor diagnosis.
- Available for iPhone and Android systems.

1955-57 HDX-Series Gauge Set

The new HDX series gauge sets from Dakota Digital brings you the best in modern instrumentation, rivaling what's offered in today's modern vehicles. Each HDX system is fully customizable, allowing you to personalize your instrument panel to complement nearly any vehicle theme. Each direct fit gauge package incorporates a speedometer, tachometer, fuel level, Volts, oil pressure, and coolant temperature gauges, along with a digital message center. The gauges are integrated into your vehicle's systems using the supplied central control box. Includes necessary sensors. Gauge faces offered in black alloy or silver alloy and are available with either standard (MPH and Fahrenheit) or metric (KM/H and Celsius) displays.

Important: Gauge bezel not included. Clock sold separately from gauges. Metric display (KM/H and Celsius) gauge sets are custom built by Dakota Digital, and may require a 3-5 week build time.

HDX Gauge Sets

Note: Please specify option codes when ordering: 1 – standard (MPH and Fahrenheit); 2 – metric (KM/H and Celsius) and then either A – silver alloy gauge face, or B – black alloy gauge face.

Example: DD15801A = 1955-56 with standard display and silver alloy gauge face.

In-Dash Speedos and Tachs

Our In-Dash Speedometers and Tachometers feature our famous high-performance movements and are designed with seamless dashboard mount in mind for the ultimate driver information center. Available in a variety of configurations and sizes.

Important: Electric speedometers operate on 500-200,000 pulse/mile sending units. Use existing sender if vehicle is originally equipped with an electric speedometer. Use AM5291 to convert from

Full Sweep Electric Gauges

Powered by digital microprocessor-controlled, rugged stepper motor drives and laboratory grade sending units, Full Sweep Electric Gauges combine extreme durability and readability of 270 degree sweep mechanical gauges with the easy installation and safe operation of short sweep electrics. Track tested and race proven, these units use precision senders to keep hazardous fluids out of the driver compartment and perform gauge calibration and sensor diagnostics at power up for extreme accuracy, every time.

Short Sweep Electric Gauges

Advanced 90 degree air core movements and three wire installation characterize these Short Sweep Electric Gauges. Electric sending units keep hazardous fluids in the engine compartment, sending collected data via an electrical signal to quick reacting, precise air core movements to give you all the information that you need.

Tachometer and Components

New!

AutoMeter

Monster Memory Tach — 5" Pedestal

AutoMeter 5" pedestal autogage monster memory tach 0-10,000 RPM. AutoMeter's race proven air-core electric tachometers provide quick and accurate readings with a needle so responsive it can go from 0 - full scale in 333 milliseconds. Compatible with most 4, 6, and 8 cylinder engines (2-4 pulse per revolution ignition signals) with points, electronic, and most 12V high-performance racing ignitions.

233907 silver 244.99 ea

BOSCH

Super Tac II

Bosch's Super Tac II features internal dial lighting, accurate air coil meters, 250 degree dial sweep, 8000 RPM limit and adjustable red line pointer. Works on 4, 6, or 8 cylinder engines. Functions with breaker point, electronic and most aftermarket ignition systems except magnetos. Includes mounting hardware. Available 3-3/8" with white dial.

ST7903 chrome bezel 54.99 ea

DEF

Dixco Style Hood Tachometer

This Dixco style 8000 RPM tachometer was installed by builders for super car vehicles such as Yenko, Baldwin Motion, and Big Daddy Garlits. Fits all vehicles. This tachometer works with factory points and GM HEI distributors. Tachometer features an electronic movement and reset to "0" once they receive 12 Volts of power. Works with factory points style ignition and GM HEI. Any aftermarket ignition may need a module or convertor to give correct signal.

Note: Tachometer adapter required for aftermarket ignitions.

A9100101 all 199.99 ea

Distributorless Tach Adapter

This tach adapter is designed to adapt a standard ignition tachometer, Pro Shift light, or RPM activated module to be used with distributorless ignition systems.

AM9117 tach adapter 129.99 ea

Tachometer Signal Filter

AutoMeter tachometer signal filter. These filters are designed to correct erratic tach function by filtering out the interference or spiky pulse signals often caused by points or noisy ignition systems.

AM9116 30.99 ea

DEF AUTHORIZED

Universal Tachometer Filter

Eliminate tach signal noise and surges caused by your ignition system with this compact and easy-to-install tachometer filter. This filter installs between the tachometer and the signal source and modifies the sharp up and down spikes into a semi-square wave signal for steady readings and faster response. This tachometer filter can be used as a direct replacement for 1975-89 GM vehicles. Measures: 2" x 3/4" x 1". Includes instructions.

Important: Recommended for vehicles running an HEI ignition with a tachometer designed for points style ignitions.

AM/FM Stereo with Auxiliary Input

Do to the great success of CAM's USA-630 radio they now bring you the USA-230. This new model radio has the same cosmetics as the USA-630 which has been a huge success. If you don't need USB/MP3 or CD changer control this is the model for you. An awesome looking radio a great price. Radio has no cassette but includes auxiliary audio input. If you have a portable MP3 player or Satellite radio just plug it into the Aux input and listen to it through this radio. These exciting features include: AM-FM stereo, 200 watts (4 x 50), auxiliary input (RCA rear) RCA to 1/8" pin jack included, digital clock, electronic tuner, 16 presets (4AM-12FM), 4 channel RCA pre-outs, 4 way fader, power antenna lead.

Important: Faceplate not included.

1955-57 630 Stereo

This is the pinnacle of 30 years of evolution of Custom Autosound's quest for the perfect classic car radio. This radio has large OEM push buttons that give a perfect look in a classic dash. USB input on the back of the radio allows you to plug in a USB flash drive for playback of MP3/WMA song files. The jack is on an 14" extension which allows you to place it in the glove box or ashtray for easy access. The new alpha numeric display shows the song/artist/album (id3) titles during playback of MP3/WMA files. With the built-in CD controller you have complete control (no FM modulation) of CAM's 6 disc CD changer. This same CD controller also facilitates the optional iCAMKIT iPod® interface that turns your iPod® on/off and charge it while giving you control to advance songs or play list from the buttons on the radio. With 240 watts, the radio should have all the power you may need. If you want more, there are 4 pre-out jacks on the back of the radio for optional amplifiers. The back also has auxiliary audio input for satellite radio or any portable player you may wish to use. Other features are: AM-FM stereo, 240 watts, USB port for flash memory MP3/WMA playback, direct 6 CD changer control, alpha numeric ID3 display for MP3/WMA files, electronic tuning and volume control, 4 way fader, left right balance, digital clock, 2 channel RCA auxiliary input for satellite/iPod® etc. 16 presets (12FM-4AM), 4 channel RCA pre-outs, separate bass and treble, USA/Euro tuner, power antenna lead.

CU809C

USA4 — DIN Radio/CD Player

Custom Autosound's USA4-DIN radio is a great choice for any classic car or truck with a "DIN" radio opening (approximately 7.2" x 2.11"). This includes most foreign and domestic vehicles from 1984 onward. Also fits perfectly in classic cars, trucks, and street rods with dashes cut for DIN radios. The USA4-DIN has a full featured digital display that flips down to reveal a CD player underneath. Features a built-in USB 2.0 input and auxiliary input behind small closed doors in the front panel. With built in Bluetooth you have several ways to listen to your favorite music. With the RDS tuner you will see the artist's name and the title of the music playing. Features 160 (4 x 40) watts of power, and one pair of RCA pre-outs for rear amplifier.

1955-57 Modern Radio

These radios have the exact look and feel of your original radio, but feature the performance you'd expect from today's technology. Inside each radio case is a digital AM/FM tuner system with a 180 watt RMS power amplifier and includes RCA inputs for iPod, MP3 or satellite radios. Two powerful microprocessors monitor the interface (knobs and push buttons) and make the radio controls precisely imitate the original while pumping out a sound that is cleaner and much more powerful than any radio that was available when your 1955-57 was new. Radios fit into stock location without dash modification. Where applicable, radios include die-cast chrome knobs, faceplates, and functioning AM/FM station presets. Designed and manufactured in the USA. Blue tooth compatible.

Radio Noise Suppressor

Sometimes after installing any new sound system, you may experience bothersome engine/alternator noise. Be sure to check all grounds for good connections (radio, antenna, amp, etc.). If you still hear engine/alternator "whine", our quality noise suppressor may eliminate this problem.

Note: For use with amplified systems only. Not for use with stock radios.

NSP1	universal type	37.99 ea
------	----------------	----------

Radio Off Delay

With this new device, you can listen to your radio after you remove the key from the ignition, just like many modern luxury cars! After removing they key, this unit will keep the radio power active for 15 minutes or until a door is opened. This allows you to continue listening to the radio without leaving the electric fan or other accessories running. And you're not limited to just the radio; it could be wired to control all accessory power so you still have control of the power windows after the key is off.

RE12005	radio off delay	64.99 ea
---------	-----------------	----------

Custom Trim Plates

Textured ABS plastic sheet is ideal for making custom trim plates for radios, EQs, crossovers, front panels, and more. Textured front, smooth back. Easy to trace on. Can be scored with a utility knife and snapped apart or use a band saw or table saw to cut. It is slightly conductive to reduce the effects of static electricity (dust cling). Measures: 12" x 24".

AV116	1/16" thick	4.99 ea

Play Portable MP3's or CD's on Your Factory Radio!

You now have the freedom to listen to your favorite music using a modern MP3 Player, iPod or CD player in your classic with the RediRad adapter, the only portable music adapter specially designed for older vehicles. The music is seamlessly routed from any portable music player such as a cassette, CD or MP3 player, even satellite radio into your stock AM or AM/FM radio without any vehicle modifications. Designed for simple and out-of-sight installation, it uses a standard audio plug on a six foot cable to connect to your portable player. When music is detected at the audio plug, the RediRad automatically switches from the radio broadcast to your personal player. The radio will return to normal operation after switching off your personal player. Made in USA.

14923	RediRad adapter	128.99 ea
-------	-----------------	-----------

Bluetooth® Receiver Adapter

Now you can wirelessly stream audio and take handsfree calls from the road in your Classic Tri-Five! Simply plug this into your cigarette lighter, connect the cable to your radio's 3.5mm input jack, and pair your Bluetooth® enabled phone or other device... that's it! You'll be ready to wirelessly stream music from your device to your audio system. Calls and music are routed through your car's speakers for excellent sound quality. Includes Bluetooth adapter and 18" extension cable.

Boom Mat Speaker Baffles

Solve the problem of rattles and vibrations caused by speakers and protect the back of speakers from damage! Boom Mat speaker baffles maximize speaker performance by isolating the correct frequency responses while damping reverberation in the sheet metal and panel to frame resonance. Also forms a water tight protective shell to prevent moisture intrusion. Made from a closed cell polyethylene to enhance frequency response for improved sound clarity. Easy conformably in tight spaces for a professional installation. Isolates frequency responses and prevents sound from migrating to unfavorable areas in the vehicle such as door panels.

OE AUTHORIZED

The Smart Antenna

This antenna is an active magnetic type antenna, working on the magnetic field associated with a conductor excited by a radio wave. The product is totally self-contained using printed circuit technology and miniaturized components, coupled with high-quality manufacturing methods. You don't need an external rod, no drilling to install, no removal prior to car wash. Concealed mounting prevents theft, and it also includes a lifetime warranty! Antenna cable measures 9 feet long. Fits all years!

SA20			21.99 ea
------	-------	--	--	----------

RetroSound

Hidden Antenna

The RetroSound amplified AM/FM hide away antenna is a great solution for anyone who doesn't want to install a standard fender mount antenna. This hidden antenna installs in seconds using a standard antenna plug and your radio's power antenna wire. This antenna uses magnetic field circuitry for enhanced radio reception. It can be installed almost anywhere thanks to the supplied 105 inch antenna lead and power wire.

1955-57 Column Shift Straight Column

Considering the unwavering popularity of the legendary 1955-57 Chevy, we would not be doing our jobs if we did not offer this replacement for your original column. Whether you're using the original manual gearbox, converted aftermarket power box or converting to an all new rack and pinion, we have the column for you! Don't forget your installation kit, each installation kit from ididit is specific to your Tri-Five application just be sure you know whether you have manual or power steering. Column comes standard with 3-7/8" wire plug, knob and handles, self-canceling turn signals, 4 way flashers and lower shaft of 3/4"-36. The shift pattern on the column will allow you to use either a 3-speed or 4-speed automatic transmission (except early Powerglide, because they have a reverse pattern transmission). A shift linkage will be required for installation and will attach to the lower shift arm provided on the column.

Note: When using the original manual box the shaft will need to be cut and modified. Each ididit column is made in the USA.

1955-57 Column Installation Parts

Complete sets include everything needed to install your ididit steering column into your classic Chevrolet using new parts from the column to the gearbox. All you need to know is the diameter of the gearbox input shaft and the number of the splines. Sets are available for vehicles with a factory original harness and will include a 4 way flasher set. This 4 way flasher set will add the convenience of a 4 way flasher as well as convert your original harness to the 3-7/8" harness found on your ididit column. Many aftermarket wiring companies offer replacement panels that incorporate a 4 way flasher unit as well as the flat 3-7/8" harness. If you are using one of these panels, a 4 way flasher set is not necessary as it has been incorporated into the wiring panel. Components also available separately.

Note: Sets include all components required to install column in your classic Chevy. Individual components also available separately (not necessary if ordering an install set).

Steering Column Parts

1955-57 Tri-Five Original Style Conversion Steering Column

Upgrade an automatic column shift vehicle to a 605/500 or Delphi 600 power steering system without chopping up a steering column. These original style steering columns feature an improved shift lever design, add clearance at the firewall, and require no exchange. Rag joint included. Hardened steel shaft and steel column tube as original.

Note: Use neutral safety switch TF500390 when using these columns with a TH350, TH400, or 700-R4 transmission. Not suggested for use with rack and pinion steering systems.

U-Joint with Vibration Reducer

With the more frequent use of rack and pinions and low profile performance tires, there are more road vibrations transmitted to the steering wheel than in the past. Using a Borgeson vibration reducer results in an immediate change in the steering feel and as an added benefit, this reduction in vibration has been shown to increase the overall life of the steering components.

34935	3/4" DD x 1" DD	115.99 ea
-------	-----------------	-----------

Universal Steering Shaft

Steering shafts from ididit offer a safe and inexpensive way to replace your intermediate shaft. Features mild steel construction and an installed rag joint and U-joint, locked into position with set screws. The steering shaft uses a 3/4" DD shaft design for compatibility in many different applications.

SC1058	2-5/16" long	24.99 ea
--------	--------------	----------

Steering Column Shaft Coupler

Borgeson universal steering shaft couplers can be used to extend the steering box, the RP shaft, or the column shaft. Borgeson steering shaft couplers can be welded and/or pinned to the unsplined end of the shaft and are available in many popular applications to complete your buildup. This coupler connects the intermediate shaft to the steering column on several GM models with a 1" 48 spline x 3/4" double D shape.

1955-57 Pro-Touring Sport Steering Wheel

The GT Pro-Touring Sport steering wheel was inspired by GM's optional NK4 four spoke Sport wheel installed in various models during the 1970s. This custom steering wheel offers a modern flair to an already classic design. The black anodized spoke design features a leather wrapped grip with "baseball" stitched seam. The polished spoke design features genuine mahogany wood outer grip and perforated leather inner. Horn buttons are machined from 6061 aluminum and are secured using an exclusive o-ring design that keeps it from "popping off". Each steering wheel kit includes your choice of a black anodized or polished hub with matching horn button and Grade 8 mounting hardware.

Polished 4-Spoke

This kit includes a 14-1/2" diameter, 2-3/4" dish, polished 4-spoke wheel with a polished adapter and your choice of an engraved or red Bow Tie horn button. The horn buttons cover the wheel mounting bolts for a clean, custom look.

Leather 14" Steering Wheel

Each wheel features a thick padded leather grip for driving comfort and a classic center spoke design that is reminiscent of the optional sport wheels from muscle car era. The smaller 14" diameter wheel is easier to manage and provides your dash with a unique sporty look. Each steering wheel kit includes everything you need to mount the wheel. Includes: the steering wheel, mounting hardware kit, mounting hub, and your choice of a Bow Tie or crossed flags horn cap.

Important: For models equipped with a late style steering column conversion (1969-94 style column).

Note: Must specify center type: A – brushed, B – chrome.

Wood 14" Steering Wheel

Classic styling meets sports car design with these unique custom steering wheel kits. Wheels feature a contoured wood grip and a classic center spoke design that is reminiscent of the optional wood wheels from the late 1960's muscle car era. 14" diameter wheel kit includes: steering wheel, mounting hardware kit, mounting hub, and Bow Tie or cross flags horn cap.

Important: For models equipped with a late style steering column conversion (1969-94 style column).

Montecarlo Steering Wheel ⚠

MOMO Tuning Series steering wheels are ergonomically designed for the best hands-on feel and manufactured of the highest quality materials available. These 320mm (12.6") or 350mm (13.8") Montecarlo wheels feature a triangular 3-spoke hub inspired by the famous MOMO Gran Turismo steering wheel. The brushed black anodized hub is surrounded by your choice of black leather or Alcantara leather grip with black or red stitching. A chromed MOMO logo in the center horn button provides a bright accent to the Montecarlo's black finish.

Note: Momo steering wheels use a common 6 x 70mm bolt pattern. They will bolt directly to any Momo, Sparco, Isotta, or NRG 6 bolt steering wheel adapter.
