## The "Hot-Dot" All-in-One Ignition Switch

Convert your separate ignition switch and start button into one convenient unit with the "Hot-Dot" all-in-one ignition starter switch. Chrome recessed switch is 3/4" diameter with a colored LED ring to indicate when the ignition is "On". Push and hold the button while the starter turns over and release when the engine starts. The ignition stays "On". Push again to stop the engine. Includes installation instructions and is available with your choice of blue, green or red LED ring. Switches available separately. Can be used for positive or ground switching, rated 1 amp maximum load.

## Prestige In-Dash Gauge

These gauges have the precision and reliability with brushed aluminum centers, fully lit vintage style needles, domed lenses, and polished chrome bezels. Antique Ivory gauges have black numerals and needles, and feature an LED fully lit gauge face when illuminated at night. The Prestige Black Diamond gauges have white numerals and needles and feature through-the-dial LED lighting to illuminate the numbers, markers, and needles. Mechanical gauges include the necessary fittings and 6 feet of capillary tubing (unless otherwise specified). Electric gauges include the required sending units. 2-1/16" unless noted.

Note: \*3-3/8".

## 1955-57 HDX-Series Gauge Set

The new HDX series gauge sets from Dakota Digital brings you the best in modern instrumentation, rivaling what's offered in today's modern vehicles. Each HDX system is fully customizable, allowing you to personalize your instrument panel to complement nearly any vehicle theme. Each direct fit gauge package incorporates a speedometer, tachometer, fuel level, Volts, oil pressure, and coolant temperature gauges, along with a digital message center. The gauges are integrated into your vehicle's systems using the supplied central control box. Includes necessary sensors. Gauge faces offered in black alloy or silver alloy and are available with either standard (MPH and Fahrenheit) or metric (KM/H and Celsius) displays.

**Important:** Gauge bezel not included. Clock sold separately from gauges. Metric display (KM/H and Celsius) gauge sets are custom built by Dakota Digital, and may require a 3-5 week build time.

### HDX Gauge Sets

**Note:** Please specify option codes when ordering: 1 = standard (MPH and Fahrenheit); 2 = metric (KM/H and Celsius) and then either A = silver alloy gauge face, or B = black alloy gauge face.

**Example:** DD15801A = 1955-56 with standard display and silver alloy gauge face.

## 1955-57 RTX Gauge Set

Dakota Digital RTX Series gauge cluster for 1955-57 Tri-Five models. RTX Series gauges combine a factory style design with many of the modern features and functionality of today. Every RTX cluster features a CNC-machined housing, customizable LED backlighting, and fully electronic internals. The housing will fit stock or reproduction bezels and the entire assembly is powered by a single central control box to making installation and setup fast and easy.

**Important:** Gauge bezel and clock bezel are not included.

# Performance Gauges

## 1955-56 VHX Analog Gauge Set

Featuring fully lit needles, backlit faces, and easy-to-read LCD message centers, the VHX series is a far cry from yesterday's traditional instrumentation. Mounts directly to the stock dash bezel for simple installation. The VHX series gauges are loaded with features including micro-controlled precision stepper motors, solid state sensors for unparalleled accuracy and user customizable display feedback. Available in carbon fiber look or silver alloy face, with either red or blue backlighting.

**Important:** Gauge bezel and clock bezel are not included.

### VHX Analog Gauge Sets

DD56533	1955-56	black alloy	755.99 set

### VLC Analog Clocks

VLC series analog clocks have a traditional analog style clock face, with LED backlighting and lighted needles to match a VHX instrument system. Must be used with a VHX Instrument System (not compatible with VFD digital gauge clusters and will not operate as a stand alone gauge). They simply plug into one of the CAT-5 network jacks on the VHX controller.

## In-Dash Speedos and Tachs

Our In-Dash Speedometers and Tachometers feature our famous high-performance movements and are designed with seamless dashboard mounting in mind for the ultimate driver information center. Available in a variety of configurations and sizes to accommodate diverse applications.

## Pedestal Mount Tachometers

Mountable in every conceivable position, the versatility and durability of our Pedestal Mount Tachometers have made them a race proven favorite for over 30 years. These tachometers offer a variety of performance oriented options from shift lights to memory recall functions, coupled with a trademarked aluminum and rubber shock strap design for the best vibration protection available.

## Full Sweep Mechanical Gauges

Bronze bourdon tube 270 degree sweep movements and durable nylon gearing have made these rugged and long lasting gauges proven high-performance favorite for over 25 years. These mechanical gauges require no electrical power for operation making them an ideal choice for vehicles with no or low powered electrical systems.

## Full Sweep Electric Gauges

Powered by digital microprocessor-controlled, rugged stepper motor drives and laboratory grade sending units, Full Sweep Electric Gauges are the best gauges available. They combine extreme durability and readability of 270 degree sweep mechanical gauges with the easy installation and safe operation of short sweep electrics. Track tested and race proven, these units use precision senders to keep hazardous fluids out of the driver compartment and perform gauge calibration and sensor diagnostics at power up for extreme accuracy, every time.

## Short Sweep Electric Gauges

Advanced 90 degree air core movements and three wire installation characterize these Short Sweep Electric Gauges. Electric sending units keep hazardous fluids in the engine compartment, sending collected data via an electrical signal to quick reacting, precise air core movements to give you all the information that you need.

**Important:** Electric speedometers operate on 500-200,000 pulse/mile sending units. Use existing sender if vehicle is originally equipped with an electric speedometer. Use AM5291 to convert from mechanical drive to electric. Tachometers operate on 4, 6, or 8 cylinder engines with most factory or aftermarket ignitions. Some fuel gauges use the vehicle's stock sending unit. Measure resistance using an ohmmeter with the sending unit float in the empty and full position to determine the correct fuel gauge.

## ULTRA-LITE

ULTRA-LITE gauges feature aluminum construction that greatly reduces weight while satin anodized Super Bezels and dials with black numbering and increments. Perimeter incandescent white lighting and bright red fluorescent pointers make them easy-to-read.

Z-Series gauges feature race quality mechanisms, a black Super Bezel with black dial, white numbers and increments, bright orange pointers and perimeter incandescent lighting that make this line easy-to-read.

Phantom II gauges feature black Super Bezels and white dials with black outlined, white numbering and black increments, "through-the-dial" patented LED lighting technology and glowing red pointers for superior visibility. When illuminated, the gauges display in a reverse configuration (black dial with white numbers and markings).

NV gauges feature bright anodized Super Bezels and white dials with black numbering and increments, intense green "full dial" patented LED lighting technology and glowing orange pointers for superior visibility.

Phantom gauges are race quality mechanisms featuring a subtle black bezel with stark white dials, bright orange pointers and perimeter incandescent lighting that make this extensive high-performance line easy to read with a crisp, no-nonsense modern appearance.

C<sub>2</sub> gauges feature bright anodized Super Bezels and white dials with black numbering and increments, intense blue "full-dial" patented LED lighting technology and glowing orange pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent of your OE dash lighting.

ULTRA-LITE II gauges feature satin anodized Super Bezels and dials with black numbering and increments, white "through-the-dial" patented LED lighting technology and glowing red pointers for superior visibility. When illuminated, the gauges display in a reverse configuration (black dial with white numbers and amber accents).

ES gauges feature black satin Super Bezels and black dials with white numbering and increments, intense red "through-the-dial" patented LED lighting technology and glowing red pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent of your OE dash lighting.

## COBALT

COBALT gauges feature bright anodized Super Bezels and black dials with blue accents, white numbering and increments, cobalt blue "through-the-dial" patented LED lighting technology and glowing orange pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent of your OE dash lighting.

## Carbon Fiber

Carbon Fiber gauges give your interior the complete look of rapid acceleration even when the car isn't moving. The clean, racy look of a crisp anodized aluminum bezel, an actual carbon fiber dial face, silver pointer and yellow accents with perimeter incandescent lighting give these gauges high visibility and style for any application.

SPORT-COMP II gauges feature a satin anodized Super Bezels and black dials with white numbering and increments, "through-the-dial" patented LED lighting technology and glowing red pointers for superior visibility. The light intensity can be controlled through an LED Lighting Dimmer (available separately) independent of your OE dash lighting.

## AMERICAN MUSCLE

THE AMERICAN MUSCLE Street Rod Series features advanced hybrid dial technology combining AutoMeter's signature white Hi-Def LED illumination and fluorescent red pointers for maximum readability. The light intensity can be controlled through the optional LED Lighting Dimmer independently of your OE dash lighting (available separately).

SPORT-COMP gauges feature the trademarked competition appearance and rugged, reliable performance of a satin anodized Super Bezel with black dials with white numbers and increments, bright orange pointers and perimeter incandescent lighting that make this extensive high-performance line easy-to-read with a crisp, no-nonsense modern appearance.

## TRADITIONAL CHROME™

TRADITIONAL CHROME gauges feature the trademarked competition appearance and rugged, reliable performance of a chrome bezel with black dial, white numbers and increments, bright orange pointers and perimeter incandescent lighting that make this line easy-to-read with a crisp, no-nonsense nostalgic appearance.

## "U-Cut-to-Fit" Speedometer Cables

High-quality speedometer cables feature machined aluminum fittings and a premium housing with a specially extruded liner to extend the life of the cable. These cut-to-fit 7' speedometer cables are designed to work with factory speedometers with a 5/8"-18 male thread, or any cable driven aftermarket speedometers such as AutoMeter, Stewart Warner or VDO. The transmission end is designed to fit most transmission driven gear adaptors (not included), and the inner cable and outer housing of these cables can be cut-to-fit most GM transmissions.

# Speedometer Components

## 1957 Speedometer Grommet

Reproduction speedometer firewall grommets for 1957 models. Used to guide the speedometer cable through the firewall for protection. Made from a soft durable rubber.

TF300217 1957..... 7.99 ea

detailed side view

## Sky Drive GPS Speedometer Sender

Drive your speedometer accurately and reliably with the Sky Drive GPS Speedometer Sender. This device quickly calibrates and accurately drives any electronic programmable speedometer. The Sky Drive updates 10 times per second without any transmission signals, pulse generators, or signal converters and features an omnidirectional antenna that can be mounted virtually anywhere and in any position. No more guessing or recalibrating due to tire or gear changes. This unit requires a one time setup and you're done. Made in USA.

280665 ..... 249.99 ea

## Cable-X Speedometer Drive Converter

The Cable-X is the easy, cost efficient way to operate your stock mechanical speedometer with a transmission equipped with vehicle speed sensor for an electronic speedometer. This universal adapter will pickup the electronic speedometer signal and operate the cable driven speedometer to the corresponding speed. It's a snap to install with only three wires: hot, ground, and signal. The Cable-X is a one-of-a-kind solution to your speedometer drive problem.

1860T with thread-on cable..... 419.99 ea

**WIRELESS**

## Speed Sensor

A speed sensor is an electrical device that can sense the rotational speed of a shaft or member and transmit this information to another device, such as a readout. Sensor is 7/8"-18 thread.

60117 late TPI & early LT1 - 4 pulse 159.99 ea

## LSX Temperature Sender

This sender allows the use of a Classic Instruments temperature gauges in vehicles equipped with an LS series engine.

SN12MM LSX..... 28.99 ea

## Internal Float Fuel Sending Unit

Get reliable fuel gauge readings with this internal float fuel sending unit. This advanced design provides accurate readings without fluctuations due to fuel slosh. Because this internal float design requires no float arm, it is far more resistant to corrosion, even with racing fuels. All sending units mount to the tank with the standard 5 bolt mounting flange and are available in sizes from 4" to 24".

**Important:** Sending unit should not touch bottom of tank. When the fuel gauge reads empty, the area below the sending unit is reserve fuel.

**Note:** Sending units are available in lengths from 4" to 24" and are sold in 1" increments. Please add the desired length to the end of the part number, eg. 06 = 6", 11 = 11".

## Copper Tubing Set

For mechanical pressure gauges (except fuel, nitrous, or brake pressure gauges). Includes: 6 feet of 1/8" copper line, 1/8" NPT male to 1/8" compression fitting, 1/8" NPT female to 1/8" compression fitting, grommet, and 1/8" NPT to 1/4" NPT bushing.

AM3224 copper tubing ..... 16.99 set

## Distributorless Tach Adapter

This tach adapter is designed to adapt a standard ignition tachometer, Pro Shift light, or RPM activated module to be used with distributorless ignition systems.

AM9117 tach adapter ..... 109.99 ea

## Tachometer Signal Filter

AutoMeter tachometer signal filter. These filters are designed to correct erratic tach function by filtering out the interference or spiky pulse signals often caused by points or noisy ignition systems.

AM9116 ..... 31.99 ea

## Universal Tachometer Filter

Eliminate tach signal noise and surges caused by your ignition system with this compact and easy-to-install tachometer filter. This filter installs between the tachometer and the signal source and modifies the sharp up and down spikes into a semi-square wave signal for steady readings and faster response. This tachometer filter can be used as a direct replacement for 1975-89 GM vehicles. Measures: 2" x 3/4" x 1". Includes instructions.

Important: Recommended for vehicles running an HEI ignition with a tachometer designed for points style ignitions.  
 MG01919 ..... 34.99 ea

# Gauge Accessories

## Instrument Panel Dimmer Switch

Enhance your digital dash panel display by adding this light dimmer to adjust the dimming feature built into your instrument system for night time driving. This aluminum knob and bezel works only with the Dakota Digital Instrument Systems on the previous page, and will not dim the Odyssey or Solaris gauges on this page. Stock dimming switches will not work with Dakota Digital Instrument Systems.

## 1955-57 Column Shift Straight Column

Considering the unwavering popularity of the legendary 1955-57 Chevy, we would not be doing our jobs if we did not offer this replacement for your original column. Whether you're using the original manual gearbox, converted aftermarket power box or converting to an all new rack and pinion, we have the column for you! Don't forget your installation kit, each installation kit from ididit is specific to your Tri-Five application just be sure you know whether you have manual or power steering. Column comes standard with 3-7/8" wire plug, knob and handles, self-canceling turn signals, 4 way flashers and lower shaft of 3/4"-36. The shift pattern on the column will allow you to use either a 3-speed or 4-speed automatic transmission (except early Powerglide, because they have a reverse pattern transmission). A shift linkage will be required for installation and will attach to the lower shift arm provided on the column.

**Note:** When using the original manual box the shift will need to be cut and modified. Each ididit column is made in the USA.

## 1955-57 Column Installation Parts

Complete sets include everything needed to install your ididit steering column into your classic Chevrolet using new parts from the column to the gearbox. All you need to know is the diameter of the gearbox input shaft and the number of the splines. Sets are available for vehicles with a factory original harness and will include a 4 way flasher set. This 4 way flasher set will add the convenience of a 4 way flasher as well as convert your original harness to the 3-7/8" harness found on your ididit column. Many aftermarket wiring companies offer replacement panels that incorporate a 4 way flasher unit as well as the flat 3-7/8" harness. If you are using one of these panels, a 4 way flasher set is not necessary as it has been incorporated into the wiring panel. Components also available separately.

**Note:** Sets include all components required to install column in your classic Chevy. Individual components also available separately (not necessary if ordering an install set).

## 1955-57 Tri-Five Original Style Conversion Steering Column

Upgrade an automatic column shift vehicle to a 605/500 or Delphi 600 power steering system without chopping up a steering column. These original style steering columns feature an improved shift lever design, add clearance at the firewall, and require no exchange. Rag joint included. Hardened steel shaft and steel column tube as original.

*Note: Use neutral safety switch TF500390 when using these columns with a TH350, TH400, or 700-R4 transmission. Not suggested for use with rack and pinion steering systems.*

Pull the security cap on and you're ready

## No Wheel Security System

Remove and replace your aftermarket GM steering wheel in less than 5 seconds and secure your vehicle from theft. A patented lockout cap snaps onto the steering column to further assure the security of your vehicle. Unlike conventional alarms, this revolutionary system cannot be affected by motion. Another big advantage is that it doesn't rely on your battery. And it cannot be bypassed as many of the ignition bypasses can. This security system can only be used with Grant steering wheels. Also available is a handy nylon storage bag to protect your wheel when removed, and to store the lockout cap when the wheel is installed.

**Important:** Not for use on factory original steering wheels

## 6 Bolt Mahogany Wood Steering Wheels

Forever Sharp's popular wood steering wheels offer outstanding quality and sleek designs to match your vehicle and style! Each wheel is crafted from real mahogany wood with finger grooves on the back and steel spokes finished in smooth chrome or textured black. A urethane coating has also been applied to give the wheel a longer life and improved heat resistance on hot summer days. Wheels feature a 6 hole bolt pattern with a 1-3/4" dish depth and are available in 14" and 15" diameters. Finishes include either a light or dark hand stained finish, or either black or gray wheels painted with high-quality automotive paint.

Important: Steering wheels require mounting adapter and your choice of interchangeable horn button/cap. For use with 6 hole adapters and horn caps. Each sold separately.

## 14" Billet "Muscle" Half Wrap Series Billet Steering Wheel

Forever Sharp's popular billet "muscle" steering wheel features a interchangeable half wrap allowing you to match or change your vehicles style at any time. Half wraps are easy-to-install and interchangeable, mounting from the backside of the steering wheel with the five included screws. Choose between leather grain vinyl or wood half wraps made from real wood. The wood half wraps have been urethane coated to give the wheel a longer life and improved heat resistance. Each billet wheel is 14" in diameter and forged from aircraft standard 6061 aluminum. Wheels feature finger indentations on the backside, a 1-3/4" dish depth and 5 hole bolt pattern. Includes half wrap and billet wheel in either a polished or matte black (powder coated) finish. Replacement half wraps also available separately.

**Important:** Steering wheels require mounting adapter and your choice of interchangeable horn button/cap. For use with 5 hole adapters and horn caps. Each sold separately.

**Note:** \*Please add two digit color code to part number when ordering.

### 1955-57 Pro-Touring Sport Steering Wheel

The GT Pro-Touring Sport steering wheel was inspired by GM's optional NK4 four spoke Sport wheel installed in various models during the 1970s. This custom steering wheel offers a modern flair to an already classic design. The black anodized spoke design features a leather wrapped grip with "baseball" stitched seam. The polished spoke design features genuine mahogany wood outer grip and perforated leather inner. Horn buttons are machined from 6061 aluminum and are secured using an exclusive o-ring design that keeps it from "popping off". Each steering wheel kit includes your choice of a black anodized or polished hub with matching horn button and Grade 8 mounting hardware.

#### Polished 4-Spoke

This kit includes a 14-1/2" diameter, 2-3/4" dish, polished 4-spoke wheel with a polished adapter and your choice of an engraved or red Bow Tie horn button. The horn buttons cover the wheel mounting bolts for a clean, custom look.

#### Stock Steering Column

## AM/FM Stereo with Auxiliary Input

Do to the great success of CAM's USA-630 radio they now bring you the USA-230. This new model radio has the same cosmetics as the USA-630 which has been a huge success. If you don't need USB/MP3 or CD changer control this is the model for you. An awesome looking radio a great price. Radio has no cassette but includes auxiliary audio input. If you have a portable MP3 player or Satellite radio just plug it into the Aux input and listen to it through this radio. These exciting features include: AM-FM stereo, 200 watts (4 x 50), auxiliary input (RCA rear) RCA to 1/8" pin jack included, digital clock, electronic tuner, 16 presets (4AM-12FM), 4 channel RCA pre-outs, 4 way fader, power antenna lead.

**Important:** Exception not included.

**Chrome Face**

## 1955-57 630 Stereo

This is the pinnacle of 30 years of evolution of Custom Autosound's quest for the perfect classic car radio. This radio has large OEM push buttons that give a perfect look in a classic dash. USB input on the back of the radio allows you to plug in a USB flash drive for playback of MP3/WMA files. The jack is on an 14" extension which allows you to place it in the glove box or ashtray for easy access. The new alpha numeric display shows the song/artist/album (gd3) titles during playback of MP3/WMA files. With the built-in CD controller you have complete control (no FM modulation) of CAM's 6 disc CD changer. This same CD controller also facilitates the optional CAMKIT iPod® interface that turns your iPod® on/off and charge it while giving you control to advance songs or play list from the buttons on the radio. With 240 watts, the radio should have all the power you may need. If you want more, there are 4 pre-out jacks on the back of the radio for optional amplifiers. The back also has auxiliary audio input for satellite radio or any portable player you may wish to use. Other features are: AM-FM stereo, 240 watts, USB port for flash memory MP3/WMA playback, direct 6 CD changer control, alpha numeric iD3 display for MP3/WMA files, electronic tuning and volume control, 4 way fader, left right balance, digital clock, 2 channel RCA auxiliary input for satellite iPod® etc. 16 presets (12FM-4AM), 4 channel RCA pre-outs, separate bass and treble, USA/Euro tuner, power antenna lead.

## 1955-57 Modern Radio

These radios have the exact look and feel of your original radio, but feature the performance you'd expect from today's technology. Inside each radio case is a digital AM/FM tuner system with a 180 watt RMS power amplifier and includes RCA inputs for iPod, MP3 or satellite radio. Two powerful microprocessors monitor the interface (knobs and push buttons) and make the radio controls precisely imitate the original while pumping out a sound that is cleaner and much more powerful than any radio that was available when your 1955-57 was new. Radios fit into stock location without dash modification. Where applicable, radios include die-cast chrome knobs, faceplates, and functioning AM/FM station presets. Designed and manufactured in the USA.

## Radio Noise Suppressor

Sometimes after installing any new sound system, you may experience bothersome engine/alternator noise. Be sure to check all grounds for good connections (radio, antenna, amp, etc.). If you still hear engine/alternator "whine", our quality noise suppressor may eliminate this problem.

*Note: For use with amplified systems only. Not for use with stock radios.*

NSP1 universal type ..... 19.99 ea

## Radio Off Delay

With this new device, you can listen to your radio after you remove the key from the ignition, just like many modern luxury cars! After removing your key, this unit will keep the radio power active for 15 minutes or until a door is opened. This allows you to continue listening to the radio without leaving the electric fan or other accessories running. And you're not limited to just the radio; it could be wired to control all accessory power so you still have control of the power windows after the key is off.

RE12005 radio off delay ..... 69.99 ea

## SiriusXM Onyx Plus "Plug and Play" Receiver

Listen to SiriusXM anywhere, anytime. This kit adds satellite radio to any RetroSound radio through the auxiliary input. Includes: a built-in FM modulator to interface with any radio with FM stereo and a magnetic mount antenna, aux-in cable and all the mounting accessories you will need. The full color display features album art, channel logos and graphics. You can store up to 20 of your favorite channels for one touch access, and you can pause, rewind and replay live satellite radio and catch up on the latest sports scores with Sports Ticker. Monthly subscription required. Lock and unlock channels with mature content.

## SiriusXM Radio Tuner Set

The SiriusXM radio tuner set connects directly to any of the RetroSound satellite ready radios to provide the signal required. No need for special adapters or cables. The compact size installs easily and discreetly behind the dash for a fully integrated look.

XM300 SiriusXM ..... 69.99 set

## Play Portable MP3's or CD's on Your Factory Radio!

With the RediRad adapter music is seamlessly routed from any portable music player such as a cassette, CD or MP3 player, even satellite radio into your AM or AM/FM radio without any vehicle modifications. For simple and out-of-sight installation, it uses a standard audio plug on a six foot cable to connect to your portable player. When music is detected at the audio plug, the RediRad automatically switches from the radio broadcast to your personal player.

149223 RediRad adapter ..... 99.99 ea

## SecretAudio Sound System

SecretAudio system allows you to keep your original radio intact or hide your audio system altogether! The tuner/amp unit can be hidden out of sight and controlled by a mounted LCD panel with a RF remote control. Features an LCD display that can be mounted virtually anywhere and controlled by the compact radio frequency (RF) remote. Includes flush mount bezel and mounting bracket for your choice of LCD display mounting.

S102 ..... 328.99 set

## Bluetooth® Receiver Adapter

Now you can wirelessly stream audio and take handsfree calls from the road in your Classic Mustang! Simply plug this into your cigarette lighter, connect the cable to your radio's 3.5mm input jack, and pair your Bluetooth® enabled phone or other device... that's it! You'll be ready to wirelessly stream music from your device to your audio system. Calls and music are routed through your car's speakers for excellent sound quality. Includes Bluetooth adapter and 18" extension cable.

AR9901 Bluetooth® adapter ..... 41.99 ea

## "BLUKIT" Bluetooth Interface

Wireless interface for custom autosound CD controller radios (USA-630, Secretaudio (SST & SRMS), USA-666). This adapter plugs into the CD changer port of your custom autosound radio and gives you the ability to do handsfree calling from your Bluetooth® capable phone. Also listen to music stored on your A2DP enabled bluetooth device.

## Boom Mat Speaker Baffles

Solve the problem of rattles and vibrations caused by speakers and protect the back of speakers from damage! Boom Mat Speaker Baffles maximize speaker performance by isolating the correct frequency responses while damping reverberation in the sheet metal and panel to frame resonance. Also forms a water tight protective shell to prevent moisture intrusion. Made from a closed cell polyethylene to enhance frequency response for improved sound clarity. Easy conformability in tight spaces for a professional installation. Isolates frequency responses and prevents sound from migrating to unfavorable areas in the vehicle such as door panels.

RetroSound - Mini Antennas	PA03B	black	99.99 ea
	PA03C	chrome	99.99 ea

**Fender Mount Retractable Telescoping Antenna**

This aftermarket replacement antenna features a telescopic mast that can be pushed down/manually retracted in order to prevent it from being broken off or bent by low hanging branches, bushes, or perhaps even vandals. Designed for mounting on top of fender.

TF70467	1999	ea	14.99 ea
---------	------	----	----------

**New!** **Remote Mount Power Antenna**

The motor is mounted remotely from the mast assembly, enabling a wide variety of installations where space is limited. It features a 31" five section mast. Includes antenna cable. Operation is fully automatic: mast extends when radio is turned on and retracts when radio is switched off.

**Note:** This is not a factory replacement antenna, and may require some modification.

PA02	chrome	144.99 ea
------	--------	-----------

**OER AUTHORIZED**

**The Smart Antenna**

This antenna is an active magnetic type antenna, working on the magnetic field associated with a conductor excited by a radio wave. The product is totally self-contained using printed circuit technology and miniaturized components, coupled with high-quality manufacturing methods. You don't need an external rod, no drilling to install, no removal prior to car wash. Concealed mounting prevents theft, and it also includes a lifetime warranty! Antenna cable measures 9 feet long. Fits all years!

SA20	1999	ea	19.99 ea
------	------	----	----------

**Hidden Antenna**

The RetroSound amplified AM/FM high away antenna is a great solution for anyone who doesn't want to install a standard fender mount antenna. This hidden antenna installs in seconds using a standard antenna plug and your radio's power antenna wire. This antenna uses magnetic field circuitry for enhanced radio reception. It can be installed almost anywhere thanks to the supplied 105 inch antenna lead and power wire.

RA010	hidden antenna	29.99 ea
-------	----------------	----------

**New!** **Antenna Wrench**

The tool you need to remove antennas. Simple and compact, this tool fits most antenna bezel nuts. Compared to other tools, it is easier to carry and use, and won't damage the nut. Rugged steel construction for years of use.

## 1955-57 Casco Lighter (Housing, Element, Retainer)

Our reproduction Casco lighter assembly includes almost everything you will need to replace your Casco style lighter, except the knob. Select from 1" style which generally installs in the dash, or the shorter 7/8" style which is typically used in an ashtray or other location where space is a concern.

Note: Must re-use your original knob.

# Consoles

## Bench Seat Cruiser Console

The BC Cruiser™ console is designed to fit the contour of early bench seats. Installation is fast and simple with a nylon strap under the seat which cinches down to the front of the console. Features large drink holders, storage compartment, padded armrest, a fully lined interior compartment, a flip up lid with a plastic sleeve to hold important documents.

### BC Cruiser

Measures: 18" long, 8-1/2" wide (11" at cup holders) and 7-1/2" tall with a 10" x 6" x 3" storage compartment. Works best in vehicles where the automatic transmission selector is located on the steering column.

**Note:** Please add three digit color code when ordering.

## Low-Rider Floor Console

The Low-Rider floor console is designed to fit the transmission hump. Comes complete with 2 king size drink holders, a storage compartment with lid, and a convenient storage pouch for items like sunglasses, pens, or cell phones. The Low-Rider storage compartment is used to hold several CDs, cassette tapes, or street maps. Underneath the Low-Rider console are 2 aluminum plates that can be easily adjusted to conform to just about any transmission hump. Measures: 17" long, 8-1/2" wide (11" at cup holders) and 6" tall at cup holder, 4" tall at the front, with a 10" x 6" x 3" storage compartment.

**Note:** Please add three digit color code when ordering.

## Hump Hugger Bucket Seat Console

Made specifically for models with bucket seats, the Hump Hugger consoles look like a factory option. Constructed of automotive grade vinyl and double stitched with nylon thread, this accessory console is an extremely durable and practical way to add storage to your classic car with absolutely no modifications to your car. Features a nicely padded lift up armrest, fully lined interior and two standard sized drink holders. Measures: 21" long, 9" wide (11" at cup holders) and 12-1/2" tall with a 10" x 7" x 7" storage compartment.

**Important:** Requires 9" in between seats.  
**Note:** Please add three digit color code when ordering.  
CC135 specify color..... 129.99 ea
