

# Headlamp Components

## Replacement Sealed Beam Headlamp

Replacement sealed beam headlamp for your burned out original. These bulbs are just what you need to keep your headlamps operational and up-to-date with modern day lighting. All sealed beams are 7" round bulbs and function on 12 Volt electrical systems.

6014 tungsten..... 12.99 ea  
 H6024 Halogen..... 11.99 ea

## 7" Crystal Headlamp Bulb

This headlamp features reinforced multi-surfaced, aluminum reflector, rugged anti-vibration construction. Includes a Sylvania Halogen H4/HB2 12V 65/55W bulbs. Replaces H6014/H6024 bulbs. SAE approved.

Note: Headlamp bucket must be cut for replacement style fit.  
 CP500126 ..... 39.99 ea

## 7" High/Low H4 Headlamp Bulb

7" headlamp with glass lens and replaceable H4 Halogen bulb replaces H6014/H6024, high and low beam function. H4 bulb included.

CP500127 ..... 22.99 ea

## Diamond Cut Headlamp Technology

Replace your standard "yellow light" headlamps with these unique looking Halogen diamond cut headlamps for increased visibility, safety and a unique custom look. These headlamps install much like a standard sealed beam unit, but they allow the use of an H4 Halogen bulb in your choice of color and wattage. For your conversion, we recommend using our wiring harness upgrade set sold separately.

Note: Some modifications may be required.

153136 - 64mm projector with LED halo unit  
 153136 - 64mm projector with LED halo lit

## 7" Projector Style Headlamps

Embody the classic look while substantially upgrading the quality of light and eliminate "headlight dazing" on the roads! Features a Bi-Xenon projector (high and low beams) with adjustable light focus and flat light distribution to prevent blinding of oncoming traffic. Available with chrome or black housing. Bulbs and wiring included.

## Tri-Bar Custom Headlamp

Add a new look to your classic car with these custom headlamps. Manufactured with a metal housing and glass lens to meet high-quality standards. This 7" lamp features an inner 1 piece chrome glare shield with black chrome-plated center dot, and flat style lens. Dust boot and clear Halogen bulb included with each lamp.  
 152647 7" flat style glass..... 69.99 ea

## 7" Crystal Headlamp Bulb w/Auxiliary LEDs

These crystal headlamps with auxiliary LEDs give your classic ride a modern look. The aluminum reflector is a reinforced, multi-faceted design for maximum vibration resistance. A HB2/9003/65/55W 12V Halogen bulb replaces H6017/H6024 bulbs to meet DOT/SAE standards. Choose from 10 or 34 LED auxiliary lighting.

## LED Powered Headlamps

Powerful LED CREE® technology combined with Delta Tech's Prismatic lens and flow-less parabola delivers unmatched power, clarity and near daylight illumination at 1900 Lumen at both high and low beam, while drawing only 2 amps per light. Each unit features an additional LED bulb that can be wired as a driving light, turn signal, park lamp or even as a mood light. Available in your choice of classic looking convex lens or modern style flat lens.

## 1955-57 Frenched Headlamp Conversion

This convenient Frenched headlamp conversion set provides the ultimate 1950's custom look with ease. This unique set is available with your choice of chrome or paintable bare steel trim rings. Buckets are weld-in units and the lamps install from the front. Trim rings are held in place with 3 spring clips for a clean "no hardware" look. Designed to work with standard 7" sealed beams or almost any other custom aftermarket 7" lamp configuration.

**Note:** Welding is required. Professional installation is recommended. Bulbs not included.

## Round Headlamps with LED Halo

RedLine LumTronix headlamps allow 50% more light to shine through thanks to their crystal clear lenses and a special side lens that extends past the retaining ring. This side lens is a true a safety innovation and was designed to provide additional side light and increase visibility. Each headlamp features a Euro style diamond cut reflective base, diamond crystal glass, and a heat resistant composite housing. Even though no paint or tint is applied to the glass or reflector, the Black Illusion headlamps look blacked out when off thanks to the halo and lamp shields that are painted black. Headlamps are available with or without a halo, either single color halo (white) or multi-color halo (with 16 selectable colors plus the ability to adjust brightness), with or without turn signals and your choice of clear or blue H4 Halogen bulbs or H4 LED bulbs. The halo or "Angel Eyes" can also be wired as a daytime running lamp and features 23 low temp LEDs with a 100,000+ hour life, along with "fade", "flash", "strobe", and "smooth" modes that you can choose with the included wireless remote. Headlamps plug directly into your stock harness for a simple and easy installation. Each pair includes: 2 headlights, 2 bulbs, dust boots, ceramic tip pigtail harness adapter, and instructions. Multi-color halo sets also include the RGB harness and wireless remote.

**Important:** Will fit most vehicles (cars, trucks, motorcycles and motor homes) made from 1936 to 1979, as well as many vehicles made after 1979 that use a universal round style headlight.

**Note:** Blue Halogen bulbs are blue in color when off, and bright white when on (no blue tint). Clear Halogen bulbs are clear in color when off and bright white when on. LED bulbs include colored film to change the look and temperature color of your lights.

## H4 LED Headlight Bulbs

Upgrade your stock halogen bulbs with a pair of premium LED headlight bulbs from RedLine LumTronix. With a 50,000 hour lifespan, you won't have to change the bulbs as frequently, meaning you'll spend more time on the road than in the garage. Each bulb is 300% brighter than your stock halogen bulbs as well as a direct fit, "Plug and Play" upgrade that requires no modification to your electrical wiring. LED bulbs include colored film to change the look and temperature color of your lights.

## Headlamp Wiring Harness Upgrade

Our wiring harness set upgrades the thin stock headlamp wiring on your vehicle, providing your new bulbs with maximum power and decreasing the chance of overheating (and possibly melting) your stock wiring and headlamp connectors. Power will be drawn directly from your battery, eliminating voltage drops and ensuring headlamp system reliability. Two 30 amp relays provide added protection for your headlamp switch and wiring harness.

**PAINLESS**

## Halogen Headlamp Harness

To get maximum power from your headlamps, it is recommended to have the shortest possible distance between the power source and the bulbs. Resistance in small gauge wire or in the switch will lower the output at the lamp. Be Safe! Our headlamp harnesses draw power directly from the battery, through a relay, to the headlamps, providing full power to your Halogen sealed beams. They can also be used to relocate headlamps to a remote location. They are made with TXL high temp wire, weather resistant 30 amp fuse, and two 40 amp weather resistant relays capable of handling up to 150 watts. #30816 is for use on vehicles with a 2 headlamp system using dual filament sealed beams. #30817 is for use on vehicles with a 9005 and 9006 bulb on each side.

30816 for 9004 & 9007 Halogen bulbs 109.99 ea  
30817 for 9005 & 9006 Halogen bulbs 149.99 ea

## HID HeadLamp Bulbs

High Intensity Discharge (HID) headlamp bulbs are much brighter than conventional Halogen bulbs, while providing tight light focus for better light distribution. They require 35 watts and use an external regulator, but will plug into the existing light plug.

**Important:** Not for use on public roads.

## 1955-57 Aluminum Crossflow Conversion Core Support

Aluminum core supports for various 1955-57 models. These units are lighter than original steel and are configured for Be Cool crossflow radiator conversions. These core supports are designed for the radiator to mount on the front/grill side of the support (OE 6 cylinder location). This allows more room for LS engine swaps and the use of short or long water pumps on small block and short water pump on big block applications.

*Note: Can be used with other crossflow radiators by fabricating brackets from your radiator to the existing holes in the support. Shipped double oversize.*

# Important Information Before Attempting to Install Sheet Metal!

## Regarding Minor Imperfections in Panels:

The sheet metal you receive may have scratches, dings, small dents and other minor imperfections which are considered normal sheet metal characteristics due to the nature of the product. These minor imperfections will be easily corrected during the filling, priming, and sanding phase of your sheet metal installation. Classic Industries® does not consider dings, scratches, minor dents or other imperfections on the sheet metal to be defects in the panel nor are they considered damaged. All sheet metal panels will require some sort of preparation and manipulation during installation. Every panel that we sell is inspected and then carefully packaged to protect against damage that may occur during transit.

## Test Fit All Panels Prior to Paint and Installation:

Classic Industries® recommends test fitting all sheet metal panels prior to final paint and installation. Minor modifications including elongating mounting holes, adding additional shims, etc. are normal and may be necessary when installing sheet metal. It is important to note that hard driving conditions, like racing, can twist bodies and frames out of original tolerances. Poor body work from previous collisions can cause problems with the body structure that the panels are attached to. Some vehicles were manufactured with a unitized body (no frame) thus causing even the most minor accident to twist the body creating a situation that would cause sheet metal misalignments. Take into consideration that tolerances on classic vehicles are not nearly as exact as they are on modern vehicles. This is primarily due to the hand fitting of panels at the factory on most antique and classic cars as opposed to the robotics used in today's modern factories. All of these factors will affect the way your new reproduction sheet metal will install and fit on the car. There is really no such thing as a direct fit body panel when it comes to older vehicles.

## Returns and Defects:

Prior to returning any defective body panel or sheet metal item to Classic Industries®, please contact our customer service department. Classic Industries® will not replace a panel, nor will we be responsible for freight on returns should it be deemed that the panel is not defective. See policies for more information.

## For Best Results, Hire a Professional to Install the Panels:

Classic Industries® recommends that you hire a professional paint and body technician that has the skills, knowledge and experience necessary to install the new panels on your vehicle. A professional body technician will be able to prepare the panels for installation and repair any imperfections.

## When Welding Sheet Metal Products . . .

Save time when replacing sheet metal by using Classic Industries® new, innovative "Weld-Thru™" primed sheet metal products. Our all new coating process is designed to eliminate the unnecessary process of grinding or sanding the EDP coating off to ensure a solid and rust free weld. This "Weld-Thru™" Primer requires minimal preparation and eliminates corrosion problems between overlapped panels and layered spot welds. It also minimizes heat zone problems, reduces panel distortion, and allows better penetration into the dense replacement steel to compensate for the older metal's impurities. Look for the "Weld-Thru™" logo when purchasing sheet metal products to save time during installation of weld-on sheet metal repair panels.

## Some Guidelines on EDP Coating

Many sheet metal products are delivered with a black electrophoretically deposited coating (EDP, or E-coat) for superior long-term corrosion protection, while others use a similar lacquer based coating designed to provide protection for storage and shipping. Before panel installation, Classic Industries® recommends applying lacquer thinner with a shop towel to determine the type of coating. If the coating is removed by lacquer thinner, then it should be completely stripped from the product before any primer or paint is applied. If the lacquer thinner does not remove the EDP coating, it can simply be prepped, primed and painted without stripping.

## Classic Industries® The Restorer's Choice™

Count on the Classic Industries® Restorer's Choice™ symbol whenever purchasing  reproduction parts and accessories. You can be sure that each and every product displaying this symbol is manufactured correctly to exact specifications and fits the way the factory intended. Products denoted throughout the catalog with this symbol are officially approved by Classic Industries® as a genuine restoration product. Look for the Restorer's Choice™ logo. The Classic Industries® symbol is your assurance of quality.

## Made in the USA

Look for the "Made in USA" logo for products that are proudly manufactured in the United States.

### Convertible Clipster Includes:

- Floor and Trunk Pan with Braces
- Inner and Outer Rocker Panels
- Inner Quarter and Wheelhouse Assemblies
- Trunk Hinges
- Convertible Windshield Frame

## Build the Convertible You Always Wanted with The Clipster!

This is one of the least expensive ways to achieve your dream of building a classic convertible. The Clipster is designed to weld onto the cowl and firewall of your donor car (any body style) to create a true convertible body skeleton. Add quarter panels professionally installed! Finished in silver Weld-Thru™ Primer to minimize preparation time, eliminate corrosion problems between overlapped panels, and provide better welding characteristics.

**Important:** Quarter panels are not available separately and must be ordered with convertible Clipster at time of purchase.

**Note:** Special order, must be prepaid. Shipped truck freight.

## Clinched Fender Flares

Add an aggressive, wide body look to your muscle car with clinched flares universal fender flare sets. These versatile flares can be installed on most makes and models with minor modifications. Flares are made from automotive grade, impact resistant 3mm ABS plastic for great looks and durability. Each set includes: 1 pair of flares, rubber gaskets, and type 3 installation hardware. Flares can be blended in with your fenders or left with open rivets. Available in a variety of styles and sizes to suit any virtually any build.

**Note:** Install with rivets/bolts and will require drilling/cutting of the fender/quarter panels in order to install. Lowered suspension and wider wheels are suggested to achieve the right stance. Dimensions are approximate.

### Classic Style

Classic style features "pointy" tips and work very well not just on the classics but also on the more modern cars where the owners are going for a more subtle look.

Part#	A	B	C	D	Price

## Electronic Exterior Door Handles

Elevate your vehicle's style with these electronic exterior door handles from Lokar! Each billet door handle utilizes a weatherproof 12 Volt pressure pad switch to supply power to an electronically actuated door latch (door popper). Its 2 piece design and available 0 degree or 10 degree mounting surface allows the insert to be removed, and door handle positioned for ultimate customization. The XL design provides 7/8" of clearance between the door and the switch, allowing for easier mounting and less modifications to the door. Made in the USA from 6061-T6 billet aluminum.

**Important:** This requires electronic door latch actuators, which are not included.

**Note:** \*Installation requires hand pockets for clearance.

## 1955-57 Power Vent Window Set

Power vent window set for 1955-57 models. This easy-to-install set includes vent window regulators, motors, wire harness, correct switches, and instructions.

TF126138 1955-57 ..... 423.99 set

## 2 Window Power Window Switch

This universal 2 window set includes a chrome 2 switch driver's control panel, 1 individual chrome window switch, wiring harnesses, and instructions. Switches can be mounted directly over the crank hole, no additional holes necessary.

*Note: These window switches are not designed to replace the OE style switches. Modifications required to door panels and wiring for correct integration when installing. Set includes mounting retainers for the switches.*

SWK100 2 window ..... 134.99 set

## 4 Window Power Window Switch

Universal GM style power window switch and wiring set. This is a universal set, not OEM direct replacement. Bezels and buttons are made of plastic and feature a bright chrome finish. Set includes: one 4 button switch, three 1 button switches, mounting clips, and wiring with instructions.

*Note: Universal fit, not OEM replacement. Wiring needs custom integration into existing harness. Recommended for use with late model window motors.*

SWK101 4 window ..... 178.99 set

## 1955-57 Nomad Lift Gate Anti-Rattle Set

1955-57 Nomad lift gate anti-rattle set replaces the factory 3 piece lift gate striker plate with a custom 1 piece design. This eliminates the rivets for the center striker plate, which is the primary cause of lift gate rattling. Features 1/4 gauge polished stainless steel stamped with factory bends, polished CNC-machined stainless striker and includes adjustment plate on the backside for the striker. Our stainless striker will not break or chip like original pot metal strikers. Comes ready-to-install with all stainless hardware and Dynamat attached to the plate for additional sound deadening. Made in USA.

## Premium Spotweld Cutters

When you have a lot of spotwelds to remove, step up to the premium spotweld cutters for longer life in today's high strength body steels. These cutters have a heavier wall (.080") for extreme durability and two step geometry that splits the chips and helps clear them. Premium spotweld cutters have a fast cutting action and lasts for hundreds of spotwelds. They are for use in 3/8" or larger drill chucks. The spotweld cutters are available individually or in sets containing arbor, 3 cutters, your choice of 2 skip proof or 3 standard pilots.

## Stick Lubricant

Ideal for all Blair hole cutters. Softer than standard stick lubricants, it provides superior adhesion to the tool and can be used in place of cutting fluids on ferrous and non-ferrous metals to increase tool life, improve cutting performance and easier slug removal.

11750 1.68 oz..... 5.99 ea

13224

## Double-End Spotweld Cutter

Double-end spotweld cutters makes removing body panels fast and easy. Their hollow design cuts around the spotweld so weld hardness does not affect tool sharpness. When one end becomes dull, simply unscrew the cutter and flip it over using the new teeth on the other end. An adjustable depth rod sets the tool so only the outer panel is cut, leaving the underlying panel undamaged.

## Holocutter

Produce holes 3 times faster and cleaner than hole saws in sheet metal up to 1/8" thick and have a dramatically extended tool life. Holocutters produce holes from 11/16" up to 3" diameter in sheet metal, rubber, gasket or fiber materials, and some plastics. Ideal for aftermarket installations, custom fabrication, trailers, or gauge installation. Arbor fits 3/8" drill chucks. Holocutters have a new, patented Quad-Lead Thread System for quick cutter changes. Buy the set and save! Holocutter set includes: arbor, hex washer, extra pilot and the following sizes of cutters, 7/8", 1-1/8", 1-1/4", 1-3/8", 1-3/4", 2", and 2-1/2".

**Note:** D.O.C. = depth of cut. Arbors and cutters sold separately.

## Rotabroach Cutter Sets

Rotabroach annular cutters are ideal for sheet metal fabrication, painless dent removal and for cutting rustproofing access holes without clogging. Unlike hole saws and twist drills that push and tear through materials, these cutters will make hundreds of holes in steel, sheet metal or plastics up to 1/2" thick with no deforming of stock, jagged edges or out-of-round holes. Arbors for Rotabroach cutters fit 3/8" and 1/2" hand held drill chucks and use either spring loaded pilots or skip proof pilots which eliminate predrilling operations. Each set includes: arbor, Hex wrench, center punch, extra pilot and a variety of cutters as listed.

**Note:** D.O.C. = depth of cut. Arbors and cutters sold separately.

BODY COMPONENTS 13

## The Filler Detective!

The Filler Detective will find hidden body damage and body filler on a car, truck, or motorcycle. It will tell you where body filler is and how deep it is. This simple one-button tool lights up and sounds when it detects body filler and features a visual alert with bright, daylight visible LEDs. The meter doesn't miss and it indicates exactly where the body filler is and includes a test plate to confirm accuracy. Never again wonder whether or not a vehicle has been in a wreck! The Filler Detective solves the mystery every time.

FDA0100 red..... 79.99 ea

## EZ Rest Door Hanger

The EZ Rest door hanger enables a single person to quickly remove and/or install vehicle doors. The padded, removable side rails and plastic, ribbed base inserts allow for accurate positioning of the door. The easy-on/off design quickly adapts to most floorjacks with a removable saddle and 30mm (1.18") diameter saddle hole.

Note: Floor jack is not included.

S21870 ..... 145.99 ea

## Door Spring Tool

Compresses spring for easy safe removal. Slides safely over spring. Constructed of heat treated, high carbon steel.

S21900 ..... 22.99 ea

## Door Hinge Adjuster Tool

You can now easily adjust the hinges without the aggravation of trying to align by eyesight with this handy tool. Specifically designed to help adjust the hinges so they help to align the door.

Y65800 ..... 45.99 ea

## Door Bushing Tool

If you've ever tried removing a door hinge bushing with just a regular punch, you know it's a hassle. Luckily, now there's the specially designed door bushing tool. Its special design makes it easy to punch out bushings and align bushings when reinstalling. Offset design allows for easy access to all door hinges. Super tough alloy steel construction.

S21825 ..... 19.99 ea

## Door Aligning Bar

Finally, a convenient door aligning tool that will fit in your tool drawer! Features a Hex stub to use with a breaker bar and socket for additional leverage.

S21845 ..... 38.99 ea

## Pro Paint Gauge

The Pro Gauge is a device which measures paint thickness. Factory paint is usually 4-5 mils in thickness. By using the Pro Gauge you can determine if the vehicle has been repainted. For instance, you can take measurements of about 4.5 mil around the vehicle but the hood may read seven mils on the Pro Gauge. That tells you the hood has been repainted.

PG2437 ..... 84.99 ea

## Eliminator Rust Remover

Before touching up paint, you first must remove all rust, wax and dirt or the rust will return and the paint won't adhere. This unique tool will scrub away all dirt, rust and wax. The results are touch up paint adheres, seals and blends smoothly into the rest of the paint.

E3437 ..... 9.99 ea

## Body Dent Removal Tools

Pulls dented sheet metal back into place with our convenient tools. 13" long shaft with 1/2" - 13UNC thread screw on our slide hammer permits high pulling force.

X2290 slide hammer set ..... 44.99 set  
 X2290-76 replacement nose nut ..... 8.99 ea

## Spot Weld Chisel

Chisel tool to separate panels after the spot weld has been drilled out. Drive the blade with a hammer from the end or the side through the panel seam. Panels are separated without damage. The blade is sharpened on three sides, and offset for clearance.

Note: The sharpened edges will wear with use. Resharpen on a grinding wheel.

Y51900 ..... 14.99 ea

## Body Dent Removal Tools

The pull rod set includes: 4 pull rods with formed shank, 2 pick pulls with straight shank, straight edge, and HS split point drill bit.

S20000 pull rods ..... 47.99 set

## Cleco Sheet Metal Fastener Kit

Everything you need to secure sheet metal panels during the fit and alignment stage. The pliers can be used with all standard spring loaded fasteners and clamps. The kit contains: one pair of Cleco pliers, twenty-five 1/8" Kwik-Lok clecos and four side grip fastener clamps. Also available are individual components so you can add to your kit as necessary.

Complete Kit

Cleco Pliers  
 X9863 Cleco pliers ..... 12.99 ea

## Plugweld Pliers

These plugweld pliers make plug welding fast and easy. Panels won't separate and copper alloy pad prevents burn through, allows higher welding temperature and better penetration.

S23230 pliers ..... 36.99 ea  
 S23231 replacement pad ..... 9.99 ea

## Visegrip Flange Pliers

Preparing panels with an offset flange will produce a clean, flush fit. Work on up to 18 gauge sheet metal without removing panels from the vehicle. The added feature of "Visegrip" locking pliers allows for better leverage. Available with your choice of 1/2" wide non-slip jaw or wider 1" clamping surface.

13229 1/2" wide jaw ..... 39.99 ea  
 X9853 1" wide jaw ..... 41.99 ea

## Seam Buster HD Chisel

Easily separate spot welded or bonded panels. Save up to 15 minutes per panel replacement. Great for quarter panels, rocker panels and other pinch welded areas. Sharpened on two edges, the sharp end allows for penetration between panels and the side edge allows for side impact to drive the panels apart without damage. Made of super tough alloy steel. Cushioned handle absorbs shock.

## TRUNK & FLOOR PAN REPAIR KIT

New!

## Trunk and Floor Pan Repair Set

The KBS trunk and floor pan repair set allows you to restore your floor pan, trunk pan, or pickup truck bed back to new without producing any ugly weld seams. Our included step-by-step instructions make it easy and simple to use. After cleaning the area with KBS Klean (an industrial strength water based cleaner/degreaser), and KBS RustBlast (a powerful rust remover/metal etch), simply use the included BackBone reinforcing mesh and NuMetal epoxy putty to fill any small pin holes. Last, finish it off with a coat of RustSeal® for a restored finish without any weld seams. Each set includes: 1 gal. RustKlean, 1 gal. RustBlast, 1 qt. RustSeal®, 1 lb NuMetal epoxy putty, 1 sq. yard BackBone Reinforcing Mesh, 8 oz. #1 Thinner, KBS paint spout, Nitrite gloves, mask, two brushes, stir stick and complete and detailed instructions.
