MUFFLER WITH ATTITUDE

BM0114

BM0101

USA MWA High-Performance Muffler **!**

The Gibson MWA Muffler delivers maximum sound and the best muffler flow period! This straight-thru design promotes exhaust gases to flow at the highest rates flowing only 3cfm less than a 3" straight pipe, improving power potential while keeping interior drone to a minimum. The MWA muffler has NO internal packing or weak baffles, allowing it to maintain a lightweight design with a unique and powerful sound. The MWA muffler is Made in the USA and is constructed of high-quality stainless steel. When its time to make your Hot Rod or Sport Truck sound and perform as good as it looks, there is no other choice than Gibson's MWA, "Muffler With Attitude".

Authentic Quality Reproduction Parts for Classic American Muscle

ORIGINAL QUALITY • ORIGINAL APPEARANCE

Original Fit

Appearance is extremely important in reproduction parts, but just as important is the way the part fits. You will appreciate OER® reproductions. Parts are designed to fit as closely to the original as possible. Each part is checked and rechecked to ensure proper fit and function.

Superior Quality

It's one thing to manufacture a reproduction part, it's another to duplicate the quality. OER® uses the finest quality materials and workmanship to ensure the finished part meets or exceeds original equipment specifications. In fact, many OER® products are superior to the original.

Authentic Appearance

Each OER® part is manufactured to original specifications, down to the smallest detail. Consistent quality control methods ensure an exact duplicate every time.

OER® Officially Licensed Products

Many OER® products are officially licensed by the original manufacturers, assuring the highest quality reproductions available.

Classic Industries® Has More To Offer!

Service Excellence From the Restoration Leaders!

Price Match Guarantee

If You Find a Product for Less, We'll Match the Price!

Classic Industries® will match any competitor's current advertised retail price for an identical product. Simply send us a copy of the competitor's current advertised price from a catalog, advertisement or website (with URL) and we'll match the price. The price match guarantee is available at the time the order is placed and for in-stock merchandise only. Price matching will be determined by a competitor's most current retail published price and is limited to competitors within the Restoration Industry.

Money Back Guarantee

100% Satisfaction or Your Money Back!

We take pride in the quality of the products we offer and back it up with a 100% Money Back Guarantee. If for any reason you are not satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit or exchange.

Online Instructional Videos

Visit ClassicIndustries.tv to View Our Online Video Library

Need a little guidance to help you install the restoration parts you purchased? Then cruise over to Classic Industries® new video media website, www.classicindustries.tv where you can watch a library of how-to videos created by our own expert staff, guiding you through the installation processes for upholstery, headliners and more.

Technical Support

Call 1-800-854-1280, extension 5390 for more information

Our tech representatives are ready to help you with all your restoration questions regarding parts or accessories, but we don't stop there, we can help answer questions you may have concerning the detailed areas of your restoration! Our tech representatives consist of some of the most knowledgeable restoration experts in the business. We don't claim to have all the answers but we've been doing it longer than anyone. Chances are we've heard the questions you need answered before. If nothing else, we can probably steer you in the right direction. We continually train our staff in all aspects of early and late model restoration and pass the information along to you!

California Residents — Prop 65

Prop 65 requires businesses that manufacture and/or sell products in the State of California to inform consumers which items contain chemicals known to cause cancer and/or reproductive harm.

Symbols of Quality

OER® Original Equipment Reproduction

The leader in quality reproductions is here! OER® stands for Original Equipment Reproduction®. When you see the OER® logo, you can be assured that every part is manufactured to exact factory specifications and will fit and function just like the original part. What's more, many OER® products are officially licensed and carry a full one year warranty against defects and workmanship.

OER® Authorized Products

The OER® Authorized logo represents products that meet or exceed stringent OER® quality control standards. These items have been sanctioned and approved by OER®. Most of these products are prepackaged with the OER® Authorized logo.

OER® Premier

Count on the OER® Premier logo to denote parts that are outstanding in fit, craftsmanship, and manufacturing techniques. Each and every product displaying the Premier symbol is the best the market has to offer, and a cut above the competition. Order with confidence when you see this symbol, as OER® Premier is the true sign of originality and quality.

Classic Industries® The Restorer's Choice™

Count on the Classic Industries® Restorer's Choice™ symbol whenever purchasing reproduction parts and accessories. You can be sure that each and every product displaying this symbol is manufactured correctly to exact specifications and fits the way the factory intended. This Classic Industries® symbol is your assurance of quality!

Made in USA

Classic Industries is proud to offer American products to your American classic. Wherever you see this MADE IN USA symbol, you know you're receiving the highest quality parts, sourced from the skilled craftsmen of the United States of America.

PRODUCT EMISSIONS GUIDE

Please visit help.classicindustries.com/en/emissions-compliance-guide for more details.

1

CARB EO Compliant (50 States) – This product is covered under a CARB EO and is legal for sale and use in all 50 states.

Products that have completed the CARB EO process belong in this category. EPA recognizes the CARB EO as a reasonable basis demonstration, therefore products can be considered legal by both CARB and EPA.

2

Legal in U.S. (Excludes California) – This product is covered under the Emissions certification or has otherwise met the requirements of the EPA's Tampering Policy and is legal for sale in states that do not mandate Executive Order (EO).

Products that have demonstrated a reasonable-basis emissions compliance either through engineering evaluation or testing, but do NOT have a CARB EO. For example: Testing has been completed and paperwork submitted to CARB but the EO has not yet been issued. The product meets the reasonable basis standard but may not meet CARB's criteria for an EO. Testing has been performed but decided not pursue a CARB EO.

3

Non-CARB Compliant – This product is not legal for street use on an emissions-controlled vehicle. It may be used on a dedicated competition or pre-pollution-controlled vehicles only.

Some products can never be legal for use on pollution-controlled vehicles (both for use on the road and off-road), but they do have legitimate use on racing vehicles and vehicles that predate emissions regulations. Pre-certification means: 1965 and older domestic vehicles in California, 1968 imports in California and both domestic and imports under EPA jurisdiction.

4

Non-Emissions – This product does not require an EO in California. By nature of its design, it is legal for sale and use in all 50 states. Replacement parts included.

Products that have little or no impact on emissions, such as drop-in air filters or exhaust components downstream of the last emissions component (such as the catalytic converter, DPF or exhaust gas sensors). Also included are devices that plug into the OBD port to monitor information, but do not alter the vehicle's electronics.

Diamond Blue™

- ★ Indoor Use
- ★ Single Layer Material

Designed for indoor use, OER's Diamond Blue™ covers are manufactured using an economical single layer non-woven material that offers excellent protection from dust and dirt penetration. Each cover is sewn with double stitched seams to add strength and durability to the cover and Neoprene elastic is sewn into the front and rear hems to help secure the cover. Breathable and lightweight, Diamond Blue™ offers basic protection from water and guards against damage from dust, dirt, over spray and similar environmental elements. Covers feature non-scratch grommets installed onto each side of the cover to allow the use of a tie strap or lock.

Cotton flannel car covers pamper the vehicle's finish with a soft nap underside

- ★ Indoor Use
- ★ Cotton Flannel Material
- ★ Soft Nap Underside

Favored by classic car collectors that garage their vehicles, OER's SoftShield™ cotton flannel car covers pamper the vehicle's finish with a soft nap underside that protects even the most delicate surfaces. Designed exclusively for indoor use, the SoftShield™ cover is soft on paint while providing a barrier against dust and protection against nicks and dings while the vehicle is being stored. Each cover is sewn with double stitched seams to add strength and durability to the cover and Neoprene elastic is sewn into the front and rear hems to help secure the cover. Covers feature non-scratch grommets installed onto each side of the cover to allow the use of a tie strap or lock. Your choice of gray or tan flannel.

CUSTOM CAR COVERS

1947-74 Pickup Loop Carpet

Loop Carpet Sets

OCER AUTHORIZED

This Raylon is a revolutionary new carpet yarn utilizing modern textile chemistry to duplicate the appearance of original 80/20 rayon/nylon carpet used on classic vehicles. Carpet sets include a correct heel pad and dimmer switch loe grommet (when required). Jute padding is pre-attached to the underside of all carpet sets.

- Eliminates Shedding of Fibers
- Great Abrasion Resistance
- Prevents Color Fading
- Molded to Fit Factory Floor Pan
- Available in Original Factory Colors

FAQ: What Exactly is Mass Backing?

As part of the manufacturing process, a special latex coating is thermo-bonded to the back of the carpet to substantially increase the insulating and sound deadening properties of the basic carpet set. Then 36 oz. jute padding is attached to the underside of the carpet. Mass backing is available as an option for molded carpets only.

Includes color matched edge binding, offering an original appearance.

Molded Heel Pad
 Each set features the correct configuration in the correct matching color.

1969-91 Blazer/Jimmy Carpet

Loop Carpet Sets **OER AUTHORIZED**

Carpet sets include a correct heel pad and dimmer switch hole grommet (when required). Jute padding is pre-attached to the underside of all carpet sets.

FAQ: What Exactly is Mass Backing?

As part of the manufacturing process, a special latex coating is thermo-bonded to the back of the carpet to substantially increase the insulating and sound deadening properties of the basic carpet set. Then 36 oz. jute padding is attached to the underside of the carpet. Mass Backing is available as an option for molded carpets only.

1969-72 Blazer/Jimmy Molded Carpet

Molded full floor carpet set for 1969-72 Blazer and Jimmy models. Order "low hump" for 2 wheel drive trucks with automatic or 3-speed manual transmissions, 4-speed, TH400, and 4 wheel drive trucks use the "high hump" set. Molded without holes to accommodate all pedal and shifter configurations.

Note: Please add 2 digit color code when ordering.

Dynamat Xtreme Bulk Pack

Dynamat Xtreme is the highest efficiency energy conversion sound deadener available. Xtreme unique chemistry uses a space age self-adhesive synthetic rubber with a heavy 4 mil aluminum constraining layer to absorb noise energy. At only 1/16" thick, the super sticky rubber and foil stretches and contours to fit your vehicle like a glove. Dynamat Xtreme can be also used for trunk lids, roofs, quarter panels and under the hood. The Xtreme bulk pack contains 9 sheets (18" x 32") or 36 square feet of 1/16" insulation. Made in USA.

EVA Sound Deadener Sheet

This is a high-quality modern replacement sound deadener made from 1/8" thick Ethyl Vinyl Acetate (EVA) which is a modern upgrade to the OE type asphaltic material. Contains enough material to complete the entire floor pan section of the vehicle. Applies directly to the cab floor.

M10367	72" x 48"	41.99 ea
--------	-----------	----------

Insulating Mat

Battle excessive heat and noise that penetrate the driver compartment through the firewall and floorboards. The highly reflective Mylar reflects heat away from surfaces, while the foil side is oriented away from the heat source to conduct any penetrating heat across its surface thus providing the ultimate in heat protection. The silica blanketing is a dual density composite and is the main sound insulator. Easy to trim and can be applied with the push-in fasteners provided or any weatherstrip adhesive. Two sizes to fit your individual needs.

TT1005	24" x 48"	36.99 ea
TT1006	48" x 48"	67.99 ea

Adhesive Heat Barrier™

Adhesive backed, this Heat Barrier™ protects parts and components from radiant heat. Made up of woven silica with a flexible aluminized finish. The surface of the material is capable of withstanding radiant temperatures in excess of 2000 degree F. The adhesive backed composite construction material can easily be applied to any surface or wrapped around a hose or wire to make a clean professional appearance.

Super Sonic Acoustical Mat

This high-quality mat offers superior sound dampening control to reduce road noise, rattles, engine noise, and any other noises that are bothersome. The high density polyethylene film with an aluminum foil composite is abrasion and tear resistant. The gray film provides structural integrity and strength, allowing the material to bend, move, and return to shape even under tension forces. The product is 70 mil in thickness, contains a high temperature adhesive backing, and is easy to trim and fit. The rubberized compound is applied with the high temperature adhesive to absorb all those out of control noises.

Thermo-Guard FR

Thermo-Guard FR is a lightweight, durable shield that does everything: reduces sound, absorbs vibration, protects from radiant heat and provides an extra layer of insulated padding. The product features 100% polyester fiber felt that provides sound and comfort control and a high tech foil heat barrier that blocks more than 90% of radiant heat. Easy to apply and can be trimmed to fit anywhere. Available in 2 sizes with 1 or 2 foil sides. Designed to be applied with Thermo-Tec's Heavy-Duty Spray Adhesive.

TT1057	48" x 72"	2 side	76.99 ea

Suppressor Acoustical and Heat Control Mat

The Suppressor is ideal when both sound and radiant heat control is needed. In addition to the polyethylene film, the foil surface provides direct protection from radiant heat. Great for areas like firewalls, floorboards or doors. The Suppressor is also 70 mil in thickness, contains a high temperature adhesive backing, and is easy to trim and fit.

TT14610	36" x 24"	1 piece	29.99 ea
TT14620	36" x 60"	1 piece	62.99 ea

Heat Shield & Sound Deadener

Make the inside of your truck quieter and cooler with this combination heat shield and sound deadener. Made from fire resistant and sound absorbing fibers, then covered with heat reflective foil, these add a great deal of comfort to your interior. Each heat shield/sound deadener is 4" x 6" and can easily be cut-to-fit with household scissors.

Note: Recommended when purchasing a new carpet set.

Interior Insulation

Stage 1 Dynamat® Damper Pads

Stage 2 Heat Shield/Barrier Panels

Turn Your Truck into a "Quiet Riding Comfort Zone"

1947-06 Insulation Set

This two stage insulation and sound damping system gives vehicles the "quiet riding comfort" of modern cars. AcoustiShield sets are designed on current "state-of-the-art" auto acoustic technology to insulate and control the noise, vibration and heat in the cab. Complete sets include: floor, doors, roof, body, cowd insulation, Dynamat damper pads, spray adhesive, sealing tape, and instructions. Also available in individual sets.

Note: *Roof insulation not included. AcoustiShield sets are shipped ground only. Shipped overseas.

Molded leather grained ABS material with insulation - ready-to-install

USA 1947-81 Firewail Insulator

Each quality firewail insulator is year specific so that it fits just like the original. They are molded to fit. Sporting unmatched craftsmanship, these insulators are made with the highest quality materials available. The ABS material will not chip or peel, absorb moisture, or expand and contract in temperature extremes. Prevent engine noise, vibration, and heat from entering the cabin with this firewail insulator.

USA

1947-14 Full Floor Vinyl Floor Mats

Replacement vinyl floor covering for 1947-14 Chevrolet and GMC truck models. Many truck models did not come equipped with floor carpeting and instead feature a vinyl or rubber floor covering mat. Manufactured in vinyl and press molded to exact floor pan contours for a perfect fit. Each set also includes original style jute padding. Due to differences in options, the floor covering mat must be cut when installed.

Note: Please add 2 digit color code when ordering. Shipped oversize.

Features:

- Heavy-duty vinyl material
- Tall angled vinyl ribs keep Protector Mat in place
- Textured face provides a safe, non-skid surface
- Just hose or wipe off to clean
- Manufacturer's 1 year limited warranty against defects in design, workmanship, and materials

1967-91 Clear Protector Mats

Protector Mats™ are the perfect product for all weather protection in your vehicle without a commercial rubber appearance. Clear vinyl Protector Mats™ by Lloyd keep your vehicle's carpeting dry, while letting the vehicle's carpet color and texture show through. These durable mats are cut-to-fit for truck and SUV models. Aggressive vinyl ribs keep these mats in place and a textured surface provides non-slip safety. Your choice of 1 piece or 2 piece mats.

Note: *Models with automatic transmission only.

Custom Consoles for your Classic Truck

Classic Consoles Elevate your Cruising Experience!

Made in the USA, consoles and drink holders for your classic or late model truck. With the highest quality of craftsmanship our hand-built, custom consoles are outfitted with a variety of features: comfortable armrests, enclosed storage compartments, and drink holders. Unique and innovative console solutions.

New!

BC Shorly Cruiser for Bench Seat

The BC Shorly Cruiser™ console is shorter version designed to fit the contour of early bench seats. Installation is fast and simple with a nylon strap under the seat which cinches down to the front of the console. Features large drink holders, storage compartment, padded armrest, a fully lined interior compartment, a flip up lid with a plastic sleeve to hold important documents. Measures: 13-1/2" long, 8-1/2" wide (11" at cup holders) and 7-1/2" tall with a 6" x 6" x 3" storage compartment. If you have a manual transmission with a shift knob that comes close to touching the front of your seat then this console is a great option for you.

Note: Please add three digit color code when ordering.
 CC138 specify color..... 194.99 ea

New! King Console for the Floor

The King Console™ is a universal fit floor console primarily designed for full size trucks. It will work on most trucks with bench seats and column shift transmissions. King Consoles feature a large, covered storage area and 2 large drink holders. Installs with no tools or modifications to the vehicle. Utilizes a unique non-slip, adjustable mounting system that conforms to the contour of the transmission tunnel. Measures 16-3/4" overall long, 11-1/4" wide, 9-3/4" tall.

Important: Does not work on floor shift models.
 Note: Please add three digit color code when ordering.

King Console
 9" x 8-1/2" x 8-3/4" storage compartment.
 CC144 specify color..... 239.99 ea

King Console Speaker Console
 Speakers not included. 6-1/2" round speaker holes are built-in to the side walls of this console (holes are covered by upholstery until ready to use), speakers consume some of the space within the storage compartment.
 CC145 specify color..... 329.99 ea

BC Cruiser Console for Bench Seat

The BC Cruiser™ console is designed to fit the contour of early bench seats. Installation is fast and simple with a nylon strap under the seat which cinches down to the front of the console. Features large drink holders, storage compartment, padded armrest, a fully lined interior compartment, a flip up lid with a plastic sleeve to hold important documents. Measures: 18" long, 8-1/2" wide (11" at cup holders) and 7-1/2" tall with a 10" x 6" x 3" storage compartment. Works best in vehicles where the automatic transmission selector is located on the steering column.

Note: Please add three digit color code when ordering.
 CC137 specify color..... 209.99 ea

BD Drinker Console for Early Bench Seat

The BD Drinker™ console is designed to fit the contour of early bench seats. Installation is fast and simple with a nylon strap under the seat which cinches down to the front of the console. Features large drink holders, storage compartment, padded armrest, a fully lined interior compartment, a flip up lid with a plastic sleeve to hold important documents. Measures 7" wide 8-1/4" wide at the cup holder.

Note: Please add three digit color code when ordering.

BD Drinker

This longer version uses the entire depth of the seat (front-to-back) and in some cases will slightly hang over the front edge of the seat. Works best in vehicles where the gear selector is located on the steering column.
 CC141 specify color..... 209.99 ea

BD Drinker Console for Early Bench Seat

The BD Drinker™ console is designed to fit the contour of early bench seats. Installation is fast and simple with a nylon strap under the seat which cinches down to the front of the console. Features large drink holders, storage compartment, padded armrest, a fully lined interior compartment, a flip up lid with a plastic sleeve to hold important documents. Measures 7" wide 8-1/4" wide at the cup holder.

Note: Please add three digit color code when ordering.

BD Shorly Drinker

This shorter version uses less depth (measured front to back). Also, if you have a manual transmission where the shifter comes close to touching the front of your seat then this console is the best option for you.
 CC142 specify color..... 194.99 ea

Factory Muscle Series Bucket Seats

Give your truck the factory muscle treatment. Seat design and pleats are styled to the design of 1960's and 1970's Chevy factory muscle upholstery. Choose from black Comfortweave or black vinyl with white stripe.

Important: Seats will fit any truck model when matched with the appropriate Procar mounting adapters, sold separately.

Note: Shipped truck freight.

Touring II
Available in factory colors
Shown without headrests installed

Touring II Bucket Seats

The support, detail and value that the Touring II seats offer is simply unmatched by any other seat. Touring II seats are manufactured using the proven Procar® seat assembly and covered in high-quality, restoration grade upholstery that mimics the original designs and details. The steel seat frame is TIG welded and EDP coated for strength and durability. The seat back offers 20 reclining positions and includes an 18 position sliding seat track for a whole new level of adjustability and comfort. Seats include optional headrests (not pre-installed on seats).

Important: Vinyl colors are based off of factory colors 1967-72 interior colors. Seats will fit any truck model when matched with the appropriate Procar mounting adapters, sold separately. Add two digit color code when ordering.

Note: Shipped truck freight.

1970-71 Chevrolet/GMC Vinyl Door Panels

The 1970-71 door panels are made from Walrus grain vinyl and feature factory correct colors that match our interior upholstery and soft trim interior products. Each door panel is manufactured utilizing heat sealed horizontal pattern stitching surrounded by authentic scroll detailing. These panels are accented with wood grain trim and Mylar border located above the armrest and door handle areas. The non-assembled door panel skins are applied by using the existing door panel backing while the pre-assembled units come complete with backing and are ready-to-install.

Headliner, Upholstery Glue and Thinner

Correct adhesive formula used to adhere the headliner to the roof panel and for other vinyl upholstery jobs where a strong vinyl adhesive is required. This is specially designed for use with vinyl covered fabrics. Includes a handy brush for easy application. Solvent-based thinner reactivates dried HH-66 vinyl cement or removes unwanted HH-66 from surfaces. You also can use HH-66 thinner to clean brushes, rollers, spray guns, and other types of applicators.

Dome Lamp Dimmer

Soften the interior lighting of your muscle car. The standard dome lamp dimmer keeps the lamp on an extra three seconds then slowly fades off, instead of simply switching off. The deluxe dome lamp dimmer, if the ignition power is off, the lamp delay is 10 seconds, but if the power is on, the lamp fades when the doors shut. The deluxe dome lamp dimmer can also be installed in a way that the lamp softly brightens when the doors open. These devices easily install on most applications and can be mounted in any location where electrical connections are easily accessible.

1967-00 Door Jamb Switch

The door jamb switch activates the dome lamp, ignition warning or door ajar lamp of your full size pickup, Blazer/Jimmy, Tahoe/Yukon, or Suburban. Located on the door hinge pillar in early models and on the side of the dash panel in later models, an inoperative switch can cause your interior lighting and warning emitters to function improperly. This fine replacement will help get your interior lighting working properly.

SP1501

SP1501 - detail

"U-Cut-To-Fit" Speedometer Cable

High-quality speedometer cables feature machined aluminum fittings and a premium housing with a specially extruded liner to extend the life of the cable. These cut-to-fit 7' speedometer cables are designed to work with factory speedometers with a 5/8"-18 male thread, or any cable driven aftermarket speedometers such as AutoMeter, Stewart Warner, or VDO. The transmission end is designed to fit most transmission driven gear adaptors (not included), and the inner cable and outer housing of these cables can be cut-to-fit most GM transmissions.

SP1501 stainless steel housing..... 205.99 ea
 SP1500 black housing..... 129.99 ea

Speedometer Sending Unit

Speedometer sending unit for use with all AutoMeter electric speedometers. This unit is not included with the gauge packages and must be purchased separately.
 AMS291 sending unit..... 134.99 ea

Speed Sensor

A speed sensor is an electrical device that can sense the rotational speed of a shaft or member and transmit this information to another device, such as a readout. Sensor is 7/8"-18 thread.

60117 late TPI & early LT1 - 4 pulse ... 159.99 ea

Cable-X Speedometer Drive Converter

The Cable-X is the easy, cost efficient way to operate your stock mechanical speedometer with transmission equipped with vehicle speed sensor for an electronic speedometer. This universal adapter will pickup the electronic speedometer signal and operate the cable driven speedometer to the corresponding speed. It's a snap to install with only three wires: hot, ground, and signal. The Cable-X is a one-of-a-kind solution to your speedometer drive problem.

 1860T with thread-on cable..... 459.99 ea

Sky Drive GPS Speedometer Sender

Drive your speedometer accurately and reliably with the Sky Drive GPS speedometer sender. This device quickly calibrates and accurately drives any electronic programmable speedometer. The Sky Drive updates 10 times per second without any transmission signals, pulse generators or signal converters and features an omnidirectional antenna that can be mounted virtually anywhere and in any position. No more guessing or recalibrating due to tire or gear changes, this unit requires a one time setup and you're done.

1947-53 Dash Gauge Set

Get modern instrumentation and vintage style with Classic Instruments' 5" gauges! Featuring OE style trim rings and attaching hardware, these gauges fit the original 1947-53 Chevrolet truck dash. Each 1947-53 set includes an electronic 140 MPH speedometer, 0-30 ohm fuel, temp, volt, and oil gauges, and polished stainless bezels. Each 1954-55 set includes an quad gauge (fuel (0-30 Ohm), oil, temp, Volt). The package includes model specific trim rings with LED turn signal and high beam indicator lamps. Both are available with Speed Tacular speedometer with integrated 8000 RPM tachometer. Includes mounting hardware, wiring harness and sending units. Made in USA.

1960-66 Chevy Truck Gauge

The 1960-66 Chevy truck direct fit clusters feature a speedometer, tachometer, fuel, oil, temperature, Volt gauges, and a 12V quartz clock decked out in one of four color schemes: black, tan, white, or gray. Choose black for a near stock appearance or select one of the other color options to suit your project! The all-electric cluster with easy snap-in wiring harness arrives ready to install directly into the stock dash of 1960-66 truck models; no cutting or alterations necessary. Perhaps the best feature: the cluster includes Classic Instruments' Zeus Speedometer Technology built right in, which means no external control boxes are needed. It is designed to reuse the factory dash bezel to maintain the original styling of the vehicle, but has been upgraded with bright LED lighting for even illumination and clear nighttime readability. Includes a scratch resistant acrylic lens and necessary sending units. No need to worry about fuel sending unit compatibility either: the cluster features a fuel sending unit selector switch to set it for compatibility with the existing/factory fuel sending unit, no new sending unit necessary.

1967-72 Instrument Panel Gauge Clusters

High-quality precision gauge clusters for 1967-72 GM truck models. These clusters are available as a set for a quick replacement of the cluster assembly, or for models that were not originally equipped with a tachometer and gauges. Included in the most complete set is a reproduction tach, speedometer, temp, amp, oil, and vacuum gauges, oil and vacuum gauge backing plate, temp and amp gauge backing plate, instrument cluster lens, instrument lens bumpers, inner and outer gauge housings, turn signal and high beam indicators, tach wiring harness, printed circuit board and dash bezel/bulbs. Tachometer and vacuum gauge are optional to the basic gauge cluster. This gauge cluster comes pre-assembled. Your choice of 5000 RPM or 8000 RPM versions.

Note: Tachs are not for use with HEI distributors. Oil line kit, vacuum line kit, and temp sending unit are not included. If your truck was not originally equipped with gauges, a front light harness, engine harness and under dash harness are recommended for proper installation of the gauges.

1973-87 Direct Fit Gauge Set

Classic Instruments direct fit gauge cluster for 1973-87 Chevy/GMC trucks. They are designed for use in the factory dash bezel feature a speedometer, tachometer, fuel, oil, water temperature, and Volt gauges in an injection molded light blue housing for a factory appearance. These all-electric clusters are ready-to-install directly into the stock dash of any 1973-87 truck, Suburban, or Blazer models with no cutting or alterations necessary. The turn signals are in the stock location and it is designed so light reaches the gear indicator. Everything needed to install the package is provided in the set including a new lens and all necessary sending units. The cluster is designed to reuse the stock fuel sending unit or any aftermarket fuel sender (purchased separately) with the built-in Ohm range selector switch.

Note: Fuel sending unit not included, fuel gauge is calibrated to stock 0-90 Ohm.

1947-59 HDX-Series Gauge Set

The new HDX series gauge sets from Dakota Digital brings you the best in modern instrumentation, rivaling what's offered in today's modern vehicles. Each HDX system is fully customizable, allowing you to personalize your instrument panel. Each direct fit gauge package incorporates a speedometer, tachometer, fuel level, Volts, oil pressure and coolant temperature gauges, along with a digital message center. The gauges are integrated into your vehicle's systems using the supplied central control box. Includes necessary sensors. Gauge faces offered in black alloy or silver alloy and are available with either standard (MPH and Fahrenheit) or metric (KM/H and Celsius) displays.

Important: Gauge bezel not included. Metric display (KM/H and Celsius) gauge sets are custom built by Dakota Digital, and may require a 3-5 week build time.

Note: Please specify option codes when ordering: 1 - standard (MPH and Fahrenheit); 2 - metric (KM/H and Celsius) and then specify either: A - silver alloy gauge face, or B - black alloy gauge face.

Example: DD15821A - 1947-53 with standard display and silver alloy gauge face.

1964-94 HDX-Series Gauge Set

The new HDX series gauge sets from Dakota Digital. See 1947-59 listings for product details.

Important: Gauge bezel not included. Metric display (KM/H and Celsius) gauge sets are custom built by Dakota Digital, and may require a 3-5 week build time.

Note: Please specify option codes when ordering: 1 - standard (MPH and Fahrenheit); 2 - metric (KM/H and Celsius) and then specify either: A - silver alloy gauge face, or B - black alloy gauge face.

Example: DD15841A = 1964-66 with standard display and silver alloy gauge face.

1947-87 VHX Series Gauge Set

Add a modern appearance to your truck with these VHX gauge clusters! Six gauges provide traditional readouts while digital LCD message centers can select between clock, odometer, hour meter, 0-60 timer, 1/4 mile timer, and shift indicator. Designed to fit directly into stock instrument bezels. Available in three styles: carbon fiber, silver alloy or black alloy with either blue, red, or white backlighting (white illumination not available with carbon fiber style gauges).

Important: Shift indicator function requires sending unit DD1000. Bezels shown for illustration purposes only; instrument bezel not included. Carbon fiber style available in blue or red.

Note: When ordering, please add the correct color suffix: B = blue, G = green, R = red, or W = white.

1947-87 RTX Series Gauge

Dakota Digital RTX series gauge cluster for 1947-87 Chevy and GMC trucks. RTX series gauges combine a factory style design with many of the modern features and functionality of today. Every RTX cluster features a CNC-machined housing, customizable LED backlighting, and fully electronic internals. The housing will fit stock or reproduction bezels and the entire assembly is powered by a single central control box to making installation and setup fast and easy.

Note: Gear indicator sending unit, part #DD1000, required and sold separately for all automatic transmission models.

Prestige In-Dash Gauge

These gauges have the precision and reliability with brushed aluminum centers, fully lit vintage style needles, domed lenses, and polished chrome bezels. Antique Ivory gauges have black numerals and needles, and feature an LED fully lit gauge face when illuminated at night. The Prestige Black Diamond gauges have white numerals and needles and feature through-the-dial LED lighting to illuminate the numbers, markers, and needles. Mechanical gauges include the necessary fittings and 6 feet of capillary tubing (unless otherwise specified). Electric gauges include the required sending units. 2-1/16" unless noted.

Note: *3-3/8".

Chrono Series In-Dash Gauge

AutoMeter Chrono Series electric gauges with race proven digital stepper motor movement for unmatched accuracy. Electronic senders can be used for a variety of applications and keep unwanted fluids out of the driver compartment. The Chrono Series features a three dimensional concave dial design, "through-the-dial" LED lighting, and over 320 degrees of pointer movement. All gauges have both metric and imperial scalings and are 12 and 16 Volt compatible.

Carbon Fiber

Carbon Fiber gauges give your interior the complete look of rapid acceleration even when the vehicle isn't moving. The clean, racy look of a crisp anodized aluminum bezel, an actual carbon fiber dial face, silver pointer and yellow accents with perimeter incandescent lighting give these gauges high visibility and style for any application.

In-Dash Speedometers and Tachs

Our In-Dash Speedometers and Tachometers feature our famous high-performance movements and are designed with seamless dashboard mount and for the ultimate driver information center. Available in a variety of configurations and sizes.

Important: Electric speedometers operate on 500-2000 counts/pulse/mile sending units. Use existing sender (vehicle is originally equipped with an electronic speedometer. Use AM5291 to convert from mechanical drive to electric. Tachometers operate on 1/6, 8, or 8 1/2 RPM/engine with a factory or aftermarket ignitions. Some fuel gauges use the vehicle's stock sending unit. Measure resistance using an ohmmeter with the sending unit before the empty fuel position to determine the correct fuel gauge.

Full Sweep Electric Gauges

Powered by digital microprocessor-controlled, rugged stepper motor drives and laboratory grade sending units, Full Sweep Electric Gauges combine extreme durability and readability of 270 degree sweep mechanical gauges with the easy installation and safe operation of short sweep electricals. Track tested and race proven, these units use precision senders to keep hazardous fluids out of the driver compartment and perform gauge calibration and sensor diagnostics at power up for extreme accuracy, every time.

Short Sweep Electric Gauges

Advanced 90 degree air core movements and three point installation characterize these Short Sweep Electric Gauges. Electric sending units keep hazardous fluids in the engine compartment, sending collected data via an electrical signal to quick reacting, precise air core movements to give you all the information that you need.

Gauge Accessories

Super Tach II

Super Tac II features internal dial lighting, accurate air coil meters, 250 degree dial sweep, 8000 RPM limit and adjustable red line pointer. Works on 4, 6, or 8 cylinder engines. Functions with breaker point, electronic and most aftermarket ignition systems except magnetos. Includes mounting hardware.

Dixco Style Hood Tachometer

These Dixco style 8000 RPM tachometers were installed by builders for super car vehicles such as Yenko, Baldwin Motion, and Big Daddy Garlits. Fits all vehicles. This tachometer works with factory points and GM HEI distributors.

Note: Tachometer adapter required for aftermarket ignitions.
A9100101 all... 199.99 ea

Distributorless Tach Adapter

This tach adapter is designed to adapt a standard ignition tachometer, Pro Shift light, or RPM activated module to be used with distributorless ignition systems.

Universal Tachometer Filter

Eliminate tach signal noise and surges caused by your ignition system with this compact and easy-to-install tachometer filter. This filter installs between the tachometer and the signal source and modifies the sharp up and down spikes into a semi-square wave signal for steady readings and faster response. This tachometer filter can be used as a direct replacement for 1975-89 GM vehicles. Includes instructions.

Important: Recommended for vehicles running an HEI ignition with a tachometer designed for points style ignitions.
MG019219 2" x 3/4" x 1"... 39.99 ea

Tachometer Signal Filter

AutoMeter tachometer signal filter. These filters are designed to correct erratic tach function by filtering out the interference or spiky pulse signals often caused by points or noisy ignition systems.

Instrument Panel Dimmer Switch

Enhance your digital dash panel display by adding this light dimmer to adjust the dimming feature built into your instrument system for night time driving. This aluminum knob and bezel works only with the Dakota Digital Instrument Systems and will not dim the Odyssey or Solarix gauges. Stock dimming switches will not work with Dakota Digital Instrument Systems.
DD1045... 35.99 ea

Universal Gear Indicator Sending Unit

Gear shift position sending unit for use with all Dakota Digital Instrument Systems with gear shift position indicators. This unit includes universal mounting hardware to fit Powerglide, TH350, TH400, 2004R, 700R4, 4L60, 4L60E, 4L80 and 4L80E. Easy installation and fully push button adjustable with no magnets to align! The Decoder can be mounted inside the vehicle for easy access and also features built-in neutral safety switch and back-up light circuit.
DD1000... 128.99 ea

New!

1930-08 OBD-II Interface Module

This OBD-II / CAN Interface allows you to plug directly into the engine diagnostic port, extracting engine data from the OBD-II computer (ECU) and porting it to your Dakota Digital gauge cluster. This module will output the following information to Dakota Digital Instrument Systems: speed, tachometer, engine temp, intake air temp (if data is available), transmission temp (if data is available), ambient air temp (if data is available), gear position (if data is available), and oil pressure.

Universal Fuel Tank Sending Unit

Universal fuel tank sending units for various GM models that require a 30 or 90 Ohm sender. Designed for use with OE or aftermarket 0-30 or 0-90 Ohm gauges. Includes the sending unit, float rod, gasket, hardware, and instructions. Since fuel tank senders only read resistance-to-ground, this sender will work on all 6-24 Volt systems with positive or negative ground.

Note: These sending units do NOT have a pickup tube built into it like some original senders do. Will work with most aftermarket fuel tanks from 6" to 24" deep.

CX5041 0-30 Ohm..... 39.99 ea

CX5042 0-90 Ohm..... 39.99 ea

Fuel Tank Sender

This universal type fuel sender is used with gauges that require 240 Ohm empty and 33 Ohm full and can be adjusted for tanks from 5" to 24" deep. Universal 5 bolt fuel sending unit for use with AutoMeter universal fuel gauges. This unit is not included with the gauge packages and must be purchased separately. Made in USA.

Important: As this is a universal-fit product, some modification to the tank may be necessary for installation.

AM3262 fuel sender..... 54.99 ea

Internal Float Fuel Sending Unit

Get reliable fuel gauge readings with this internal float fuel sending unit. This advanced design provides accurate readings without fluctuations due to fuel slosh. Because this internal float design requires no float arm, it is far more resistant to corrosion, even with racing fuels. All sending units mount to the tank with the standard 5 bolt mounting flange and are available in sizes from 4" to 24".

Important: Sending unit should not touch bottom of tank. When the fuel gauge reads empty, the area below the sending unit is reserve fuel.

Note: Sending units are available in lengths from 4" to 24" and are sold in 1" increments. Please add the desired length to the end of the part number, eg 06-6" = 11 = 11"

1947-87 USA-630 AM/FM Stereo

Custom Autound's USA-630 is designed to provide the best in audio technology wrapped in a classic car stereo look. It will fit your vehicle's stock dash without any modifications required. Modern features like a USB input for flash drives to playback MP3/WMA song files and a dock for your iPod. When connected to these devices the radio's digital display will show artist, song, album titles and allow song navigation through the radio itself. The USA-630 is compatible with our optional BLUKIT which enables bluetooth music streaming from your enabled phone as well as handsfree mobile calling through the vehicle's speakers and BLUKIT's built-in microphone. With 300 watts peak the radio provides plenty of power but additionally contains four RCA pre-outs for optional amplifiers. It also comes with Auxiliary inputs for satellite radio tuners, iPhones or any portable player you may wish to use.

Important: For BLUKIT see part #A910300.

Note: *Add suffix letter code to part number when ordering:

The RetroSound Newport is the direct fit modern audio upgrade with a factory style appearance for 1989-02 models. Designed for 1.5 DIN (3" x 7") dash openings, the Newport offers the most modern high tech features including an iPod interface, Bluetooth connectivity, dual USB ports, and 2 auxiliary inputs for portable devices. Dual color (amber or green) illumination lets you match the Newport to your vehicle's backlighting and blend in to your interior.

Important: Factory Delco/Bose sound systems require an adapter to retain the factory amplified speaker system.

USA4 - DIN Radio/CD Player

Custom Autosound's USA4-DIN radio is a great choice for any classic car or truck with a "DIN" radio opening (approximately 7.2" x 2.11"). This includes most foreign and domestic vehicles from 1984 onward. Also fits perfectly in classic cars, trucks, and street rods with dashes cut for DIN radios. The USA4-DIN has a full featured digital display that flips down to reveal a CD player underneath. Features a built-in USB 2.0 input and auxiliary input behind small closed doors in the front panel. With built in Bluetooth you have several ways to listen to your favorite music. With the RDS tuner you will see the artist's name and the title of the music playing. Features 160 (4 x 40) watts of power, and one pair of RCA pre-outs for rear amplifier.

Radio Noise Suppressor

Sometimes after installing any new sound system, you may experience bothersome engine/alternator noise. Be sure to check all grounds for good connections (radio, antenna, amp, etc.). If you still hear engine/alternator "whine", our quality noise suppressor may eliminate this problem.

Note: For use with amplified systems only. Not for use with stock radios.

NSP1	universal type	37.99	ea
------	----------------	-------	----

Radio Off Delay

With this new device, you can listen to your radio after you remove the key from the ignition, just like many modern luxury cars! After removing their key, this unit will keep the radio power active for 15 minutes or until a door is opened. This allows you to continue listening to the radio without leaving the electric fan or other accessories running. And you're not limited to just the radio; it could be wired to control all accessory power so you still have control of the power windows after the key is off.

SiriusXM Radio Tuner Set

The SiriusXM radio tuner set connects directly to any of the RetroSound satellite ready radios to provide the signal required. No need for special adapters or cables. The compact size installs easily and discreetly behind the dash for a fully integrated look.

XM300 SiriusXM 59.99 set

Play Portable MP3's or CD's on Your Factory Radio!

You now have the freedom to listen to your favorite music using a modern MP3 player, iPod or CD player in your classic with the RediRad adapter, the only portable music adapter specially designed for older vehicles. The music is seamlessly routed from any portable music player such as a cassette, CD or MP3 player, even satellite radio into your stock AM or AM/FM radio without any vehicle modifications. Designed for simple and out-of-sight installation, it uses a standard audio plug on a six foot cable to connect to your portable player. When music is detected at the audio plug, the RediRad automatically switches from the radio broadcast to your personal player. The radio will return to normal operation after switching off your personal player. Made in USA.

14923 RediRad adapter 128.99 ea

Bluetooth® Receiver Adapter

Now you can wirelessly stream audio and take handsfree calls from the road in your Classic Impala! Simply plug this into your cigarette lighter, connect the cable to your radio's 3.5mm input jack, and pair your Bluetooth® enabled phone or other device...that's it! You'll be ready to wirelessly stream music from your device to your audio system. Calls and music are routed through your car's speakers for excellent sound quality. Includes Bluetooth adapter and 18" extension cable.

AR9901 Bluetooth® adapter 42.99 ea

Bluetooth Interface

Wireless interface for custom autostand CD controller radios (USA-630, Secretaudio (SST & SRMS), USA-66). This adapter plugs into the CD changer port of your custom autostand radio and gives you the ability to do handsfree calling from your Bluetooth® capable phone. Also listen to music stored on your A2DP enabled bluetooth device.

Speakers & Accessories

Drop-In Replacement Speaker

GRS AS-series replacement speakers are economical drop-in replacements for blown, damaged, or dry-rotted speakers used in many vehicle models. The moisture resistant polypropylene cone reduces the chance of fading and dry-rotting. Replace your damaged or aging automotive speakers, and restore the sound of your vehicle! Sold individually.

Note: 3-1/2" and 4" speakers are commonly found in the dashboard of many vehicles. Check your vehicle's manual or other references to verify compatibility.

AV1035 3-1/2" 7.99 ea
AV1004 4" 8.99 ea

Under Seat Custom Speakers

This speaker system is designed specifically for under seat or horizontal wall installations. For a great sound combine these with one of our DVC (dual voice coil) speakers in the dash and you'll have a great system without any vehicle modifications.

Undercover Stealth Speakers

Undercover Stealth contains one 5-1/2" woofer and Piezo tweeter in each enclosure and is 2-7/8" high x 8" x 11".

S5060 120 watt capacity 141.99 pr

Undercover II Upgrade Speakers

Undercover II contains one 8" woofer and Piezo tweeter in each enclosure and is 3" high x 11" x 12-1/2". With the Undercover II you get a much fuller deeper sound.

S5064 200 watt capacity 189.99 pr

Full Range Cab Speakers

The RetroSound R-TB8 is a ported full range speaker enclosure in a wedge shaped speaker box. Great for behind the seats of trucks and SUV's or anywhere space is a factor. Featuring an 8 inch bass driver for great low frequency response and soft dome tweeters for smooth, clear highs. Finished in a durable gray carpeting with chrome speaker terminals, these speakers will look as good as they sound. Sold as a pair.

Note: Approximate dimensions 16-1/4" wide, 13-1/2" high, 7-1/2" deep at bottom, 3-3/4" deep at top.

RB331 175 watts 199.99 pr

S-42 Round Speakers

These RetroSound 4" stereo speakers offer high quality sound at an exceptional value. Mylar tweeters produce crisp, clear highs. Treated foam surrounds offer smooth sound and remarkable durability. Speaker grills not included.

RB360 LH and RH 64.99 pr

3 Way Premium Ultra Thin Speakers

These RetroSound 6" x 9" stereo speakers are a great way to upgrade the sound in your classic. They use a Neodymium magnet structure for high power handling in a slim-mount design - mounting depth is just 2.2" (56mm). Santoprene surrounds deliver the most natural sound possible with no distortion. Mylar tweeters produce crisp, clear highs.

RS693N LH and RH 114.99 set

1955-59 Speaker Cover

Replacement speaker covers for 1955-59 truck models are available in chrome finish. Beautifully reproduced to perfection, each cover will replace the original exactly.

AUTORIZED

The Smart Antenna

This antenna is an active magnetic type antenna, working on the magnetic field associated with a conductor excited by a radio wave. The product is totally self-contained using printed circuit technology and miniaturized components, coupled with high-quality manufacturing methods. You don't need an external rod, no drilling to install, no removal prior to car wash. Concealed mounting prevents theft, and it also includes a lifetime warranty! Antenna cable measures 9 feet long. Fits all years!

SA20..... 19.99 ea

NEW!

Hidden Antenna

The RetroSound amplified AM/FM hide away antenna is a great solution for anyone who doesn't want to install a standard fender mount antenna. This hidden antenna installs in seconds using a standard antenna plug and your radio's power antenna wire. This antenna uses magnetic field circuitry for enhanced radio reception. It can be installed almost anywhere thanks to the supplied 105 inch antenna lead and power wire.

Universal Headlamp Switch

Universal fit headlamp switch for a wide variety of vehicle applications from the 1940's and beyond. Switch features 3 position push/pull functionality with knob and shaft. Requires a 3/8" diameter hole for mounting, and includes nut and escutcheon. Has a 30 amp fuse that will work with 6 Volt or 12 Volt systems. 5 terminal.

DS121 6 Volt or 12 Volt..... 8.99 ea

NEW

Universal Headlamp Switch

This is also a good switch for universal use when building a hot rod or street rod due to it's simple design and because it accepts most of the GM knobs that are sold separately in the aftermarket including the billet aluminum knobs being produced. Knob is not included.

1947-04 Stop Lamp Switch

If the brake lamps on your truck don't illuminate when you press your brake pedal, it may be time to replace a burnt out brake lamp switch. The combination of heat, electrical loads, and repetitive use often causes this switch to fail. These quality stop lamp switches will restore your brake lamps to working order.

Steering Column Components

1947-59 Tilt Steering Column

These tilt steering columns include levers and knobs and are wired for self-canceling turn signals, 4 way flashers, and horn. Compatible with 1969 and newer GM steering wheels. Most aftermarket steering wheels attach with an adapter. 1947-59 tilt columns include new under dash and floor mounting brackets. Column shift units include a neutral safety switch. An optional cable shift control set that attaches to the lower shift arm on the column is available for automatic applications.

Important: Column shift units do not include a gear selector indicator. Column shift units do not include a gear selector indicator. Column shift pattern allows the use of a 3 or 4-speed automatic transmission. Not for use with pre-1969 factory steering wheels. 1955-59 models with turn signals require an adapter. New U-joint/coupler, steering shaft, rag joint, and harness adapter are recommended.

1967-72 Tilt Steering Column

CPP's new premium steering columns are designed from the ground up, and feature all new 5 way tilt mechanisms with tight tolerances that give that high-quality performance drivers want. Likewise, the shift handle and collar have positive shift points with no excess play. These premium steering columns also feature new turn signal and neutral safety switches that are top notch and designed to enhance your steering experience. Columns feature 3/4"-36 output shafts. Includes: column assembly, levers, column to dash seal, column to floor seal and wiring harness adapter.

Note: Our 1-1/2" shorter columns work great with our new 15" diameter stock appearance steering wheels.

1960-72 Steering Column Install Set

These sets include items needed to install your ideal steering column from the column to the gearbox. All you need to know is the diameter of the gearbox input shaft and the number of the splines. The sets for factory harness equipped vehicles will include the adapter harness to convert to a later model GM or ideal steering column to the factory wiring. The sets for aftermarket wiring harness do not include the adapter harness as it will not be necessary for installation.

Important: All these sets include a new U-joint/coupler, rag joint and steering shaft. When using your original wiring harness, an adapter harness with 4 way flasher is included.

For Factory Original Wiring Harness

DASH COMPONENTS

Steering Column Components

1947-87 Tilt Steering Column

These tilt steering columns feature all-new components including a 1 piece cast upper housing design. These tilt steering columns are designed to bolt into the place of the original column. Each Flaming River tilt column comes complete with turn signals, hazards and a horn. The shift lever with shift indicator are included on column shift applications. Manufactured using 304 grade stainless steel either in paintable milled finish or polished or black powder coated as listed.

Important: 1960-66 power steering models - early power uses 13/16"-36 spline, late power uses 3/4"-30 spline.
Note: *Shift indicator not included.

Tilt Column Steering Wheel Adapter

These ididit steering wheel adapters allow you to bolt most aftermarket wheels to your new tilt column. They feature close tolerances and virtually no gap between the adapter and column. Available in 3, 5, 6, and 9 bolt configurations.

Important: The 9 bolt short adapter moves the steering wheel 2" closer to the dash and away from your body for more clearance.

1955-66 Steering Wheel Adapter Set

The ididit steering wheel adapter set is needed when installing a pre-1967 steering wheel to an ididit steering column. Set includes the necessary items for the horn to function properly and an aluminum ring used to fill the gap between the steering wheel and the column.

Note: Steering wheel modification is required.

1960-07 Steering Shaft

Direct replacement heavy-duty steering shaft assemblies for 1960-07 full size trucks are a huge improvement over stock shafts. They consist of a telescoping shaft, needle bearing U-joint and a rag joint. These heavy-duty assemblies will fix that loose and wandering steering for good! Extreme duty shafts features a two joint design that eliminates the factory rag joint. These are designed for extra heavy-duty, off-roading or for trucks with body lifts.

1954-81 Turn Signal Switch

Reproduction turn signal switches for 1954-91 truck models. Feature cosmetically correct appearance, original factory design, and produced with authentic wiring harness connector and wiring colors for originality.

1955-59: Electrical slide switch mounts under the pot metal mechanism ring, includes wiring. (1956-59 includes connectors).
 1960-62: External column mounted switches do not include the actuating cable, the wiring for this type of switch is incorporated into the dash harness.

1963-91: In-column mounted switches feature the correct color coded wiring and plastic connector for a plug-in installation.

*Note: *Includes upper steering column bearing.*

1967-72 Simulated Wood Steering Wheel Kit

This walnut steering wheel kit is a popular custom add-on that is sure to add nostalgia and style to any custom 1967-72 Chevrolet truck build. The simulated walnut plastic grip steering wheel was available by ordering the optional N34 package on various 1967-68 Chevrolet car models. Even though the N34 option was not originally available for Chevrolet truck models, it looks right at home and like a factory original steering wheel when installed. Each kit includes: a 16" diameter walnut steering wheel, center mounting hub, horn cap with Bow Tie emblem, and hardware set.

14" Padded Leather Steering Wheel Kit

Replace the outdated, uncomfortable stock steering wheel in your GM truck with one of these modern padded leather steering wheel kits. Each wheel features a thick padded leather grip for driving comfort and a classic center spoke design that is reminiscent of the optional sport wheels from the late 1960's muscle car era. The smaller 14" diameter wheel is easier to manage and provides your dash with a unique sporty look. Each steering wheel kit includes everything you need to mount the wheel including, steering wheel, mounting hardware kit, mounting hub and Bow Tie or crossed flags horn cap.

14" Contoured Wood Steering Wheel Kit

Classic styling meets sports car design with these unique custom steering wheel kits from Classic Industries®. This wheel features a contoured wood grip that fits your hand for added driving comfort and a classic center spoke design that is reminiscent of the optional wood wheels from the late 1960's muscle car era. The smaller 14" diameter wheel is easier to manage and provides your dash with a unique sporty look. Each steering wheel kit includes the steering wheel, mounting hardware kit, mounting hub and Bow Tie or cross flags horn cap.

Classic 6 Bolt Steering Wheel

Forever Sharp Classic 6 bolt steering wheels feature outstanding quality and sleek design. Wheel is crafted from real mahogany wood with finger grooves on the back and steel spokes finished in bright polished chrome-plating. A urethane coating on the mahogany grip provides for a longer life and improved heat resistance on hot summer days. 15" wheel features a 6 hole bolt pattern with a 1-3/4" dish depth. Available in a dark hand stained mahogany finish.

Important: Steering wheels require mounting adapter and your choice of horn buttons, sold separately.

Classic Deep Style 15" Wood Wheel

Forever Sharp's deep style, dark mahogany wood steering wheel offers outstanding quality and a classic design that was popular with muscle cars of the 1960's. Each wheel is manufactured from real mahogany wood and features aluminum rivets, brushed aluminum spokes, as well as finger indentations on the backside for comfort and grip. A urethane coating has also been applied to give the wheel a longer life and improved heat resistance for those hot summer days. Features a 3 hole bolt pattern, 15" (14-3/4") diameter with a 4" dish depth and decorative rivets.

Note: For use with chrome horn button/cap FS120302 and 3 bolt mounting adapter, sold separately.

1960-72 Billet Aluminum Pedal Assembly

Direct replacement billet aluminum pedal assemblies for 1960-72 GM truck models. Each throttle assembly has been designed to eliminate the factory rod linkage and mount into the stock location utilizing a modern Lokar throttle cable system. The arms are spined and can be switched for right or left adjustment. The traditional flat style throttle pad is spring loaded and measures 2" x 5". Lokar's curved brake, clutch and parking brake pedal pads add style and function to your classic car. Designed with hidden screws, these pads are curved to match and bolt directly to the factory steel pedal. Available in a brushed or black finish with rubber inserts on the pad. Made in USA.

Note: Short pad - 4" (top of pad) 3-1/16" (bottom of pad) x 3-1/8" high. Long pad - 5-7/8" (top of pad) 5-1/8" (bottom of pad) x 3-1/8" high.

Eliminator Floor Mount Gas Pedal

The Eliminator floor mount gas pedal is crafted from billet aluminum and designed to eliminate routing cables through the firewall. It includes an adjustable aluminum splined shaft and stainless steel under the floor cable mounting bracket. Can be mounted in multiple positions for various floor and toe board angles.

Important: Requires a 36" cut-to-fit Lokar throttle cable. LSI, Ranjeet and Vorlec applications require a 48" throttle cable.

1942-72 Service and Shop Manual

These factory shop manuals give you all the information you'll need for servicing your GM truck. Each manual features plenty of important information, including a brief description of construction, and thorough data on operation, care, specifications, and overhaul of major components for Chevrolet and GMC truck models. These manuals were originally written by General Motors and will not only serve as a handy reference, but also provide step-by-step procedures for most service operations. This is an invaluable reference source for anyone who owns a Chevrolet or GMC truck. Reprints of the original GM shop manuals.

1955-75 Chevrolet by the numbers

Chevrolet by the numbers is the only authoritative reference for identifying and verifying the correct Chevrolet parts by casting number, for your exact model. Every casting number for every V8 Chevrolet engine and drivetrain part from 1955 through 1975. If you want to know the original parts for your Chevrolet drivetrain, not what will interchange or fit, but the correct part that came with your vehicle when it rolled off the assembly line. Softbound, 8-3/8" x 11".

How To Restore Your Chevrolet Pickup

Learn just how to properly restore your Chevrolet or GMC pickup in this new edition of one of our most popular how-to titles. Featuring an attractive new design, significantly updated text content and beautiful full-color photography, this is one book your library shouldn't be without. Paperback, 8-1/4" x 10-5/8", 224 pages, 320 color photos. L1372 32.99 ea

Xtreme Customizing GM Full-size Pick-ups

Handy tips and tricks from the experts for all full-size GM trucks. Avoid costly mistakes—this book is a must read before you do any kind of customizing to your full-size GM pickup. Haynes manuals are written and photographed from "hands-on" experience gained by a complete tear down and rebuild of the specific vehicle. Hundreds of photographs depict repair procedures, wiring diagrams, owner maintenance, emissions systems and more. Paperback, 8-1/2" x 11", 200 pages. L9582 34.99 ea

The Yenko Era

This book by Yenko family friend Mark Gillespie sheds new light on the life and times of legendary racer, car dealer and car builder, Don Yenko. Family photos, invoices, and letters paint a picture of the man who created the Yenko sports cars and follow his exploits as a businessman and a racer until his tragic demise in 1987. A must have for any Yenko enthusiast. L976 29.99 ea

How to Build Horsepower

Proven methods for increasing horsepower in any engine. High-performance street and race engine builders are always looking for the latest techniques and combination of parts to build a better, stronger, more powerful engines. This all-new edition of Vizard's top-selling How to Build Horsepower explains the latest and most effective engine building techniques and strategies. The reader is treated to the secrets and methods for building virtually any automotive engine. Paperback, 8-1/2" x 11", 144 pages. L606 29.99 ea

Diesel Builders Guide

High-Performance Diesel Builder's Guide is the first book to explain how modern diesel engines work and how to safely enhance power and performance. The book covers airflow components, including the turbocharger and intercooler, using electronic tuners, and choosing between nitrous oxide and propane injection. Paperback, 8-1/2" x 11", 144 pages. L953 35.99 ea

How to Rebuild Your Big-Block

Comprehensive book giving excellent information on how to remove engine, tear down and inspect for wear, recondition, assemble and install. How to identify each part. Includes casting numbers and specifications. Covers all years of passenger cars and trucks, 396, 400, 402, 427, and 454. 8-1/2" x 11", 160 pages, softbound. L41 24.99 ea

Chevrolet Inline Six-Cylinder Power Manual

This Power Manual is the bible for new and experienced six-cylinder engine builders. This updated version is a must-have for any serious inliner. From soup to nuts, when you want to build the Chevy six for more power and torque than the factory could ever imagine, there is only one book the experts turn to. And now the second edition is absolutely jam packed with the latest blueprints, interviews, airflow charts, build sheets, racer and "hot dog" profiles. Thought provoking ideas will help you build the Chevy six your way! Paperback, 8-1/2" x 11", 224 pages, 291 photos, L2722 29.99 ea

How to Build Big-Inch Chevy Small Blocks

Have you been bitten by the big-cube bug? Does size really matter? Yes it does, and the quest for big cubes doesn't have to lead to a big block anymore. In this book, author Graham Hansen takes a step-by-step approach to constructing your big-inch short block and also discusses how to select the best heads, cam, intake and exhaust system, specifically for big-inch power, complete with dyno graphs. Paperback, 8-1/2" x 11", 144 pages. L916 35.99 ea

How to Swap GM LT Engines

Discover the latest GM swap technology in this all-new, comprehensive LT swapper's guide. 144 pages. SA411 32.99 ea

Rebuilding the Small-Block Chevy Step-By-Step Videobook

This is a step-by-step workbench book and DVD combination that shows you how to build a street or racing small-block Chevy. Detailed sections show how to disassemble a used engine, inspect for signs of damage, select replacement parts, check critical component fit, and much more! 160 pages, softbound. L6611 49.99 ea

How to Rebuild the Small-Block

This book covers virtually every small block engine. Includes easy step-by-step approach, help avoid costly and time consuming mistakes, select the right parts, master mechanical tips and the ins and outs of quality machine work. Softbound, 146 pages, 100 illustrations. L278 27.99 ea

Small-Block Interchange

Cataloging all 1968 to 2000 small block Chevy engines, this manual includes more than 25,000 part numbers, specs, dates and technical details on engine blocks, heads, valves, crankshafts, camshafts, pistons, manifolds, ignition systems, emission systems, and more. Softbound, 176 pgs. L1024 27.99 ea

How to Rebuild & Modify Chevy 348/409 Engines

Chevy's "W" series' 348 and 409 became legends on the street, and the track. While these engines enjoyed pop culture status in the early 1960's, the later Mark IV Chevy big blocks overshadowed these W-engines by the end of the decade. This book provides instruction for rebuilding a stock W-engine as well as directions for a sound performance build. Learn how to select a strong, clean block, the best heads and camshaft, and increase the compression ratio. All options are examined. From mild to wild, from stock to modified, the book covers everything you need to know about the legendary 348-409 engines. Softbound, 8-1/2" x 11", 144 pages, 400 color photos. L1403 39.99 ea

Automotive Literature

Chevy LS Engine

Conversion Handbook

This guide walks you through the process of installing GM's popular LSx series small block engine into just about any vehicle. Includes: an overview of the GM LSx series engine, technical details on swapping transmissions, drivetrain, fuel system, wiring and ECU, exhaust, and installation.

L1566 29.99 ea

How To Swap GM LS Engines

Complete specs, and detailed information so you can select and fit an LS engine. A section on mounting kits, explaining how to install these engines into a variety of engines using readily available motor mount kits, universal engine mounts, or fabricated mounts. 144 pages, softbound.

L1021 29.99 ea

How to Build Chevy LT1/LT4

This book guides you through the factory and aftermarket components of the LT1/LT4 engines, offering sound performance advice and recommendations. Additionally, complete engine build-up recipes are provided, along with their respective horsepower and torque levels. You can follow the advice of experts and achieve targeted results for your own project. Softbound, 8-1/2" x 11", 136 pages.

L1098 34.99 ea

LS1 Engine Installation

This useful publication provides general information on components and procedures that can be extremely useful when installing or servicing LS1 engines. Topics include installation notes, support systems, electronic engine controls, recommended accessories, parts lists and engine specs. Softbound, 36 pages.

Automotive Literature

GM Turbo 400 Transmissions

Automotive technical author Cliff Ruggles guides you through the complex rebuild procedure of GM's popular rear wheel drive automatic

transmission. With his proven style, Ruggles goes through the step-by-step rebuild and performance upgrade procedures in a series of full color photos. He includes instruction on removal and installation, tear down procedures, parts inspection and replacement, as well as performance mods and shift kit installation. Time saving tips are part of every build up as well. Paperback, 8-1/2" x 11", 144 pages with 563 color photos. **L1322** 39.99 ea

Muncie 4-Speed Transmissions How to Rebuild and Modify

This is an indispensable reference to Muncie 4-speeds that guides you through each crucial stage of the rebuild process.

Comprehensive i.d. information is provided, so you can positively identify the cases, shafts, and related parts. It discusses available models, parts options, and gearbox cases. Most important, it shows how to completely disassemble the gearbox, identify wear and damage, select the best parts, and complete the rebuild. Various high-performance and racing gears are also shown, including essential modifications, gun drilling the shafts, cutting down the gears to remove weight, and achieving race-specific clearances. Paperback, 8-1/2" x 11", 144 pages. **L1291** 29.99 ea

How to Rebuild & Modify GM TH400 Transmissions

Millions of GM cars and trucks have been built with Turbo 400 automatic transmissions.

This book takes readers step-by-step through the complex transmission rebuild procedure as performance upgrade procedures with a series of full color photos for each of these models. Softbound, 144 pages, 8-1/2" x 11". **L1413** 27.99 ea

Powerglide Transmission

This complete guide to the Powerglide covers it all from a stock rebuild to an all-out race unit. Subjects covered include general transmission service, basic operation, in-car service and repairs, final assembly and much more. Includes 300 photos. 8-1/2" x 11". **L242** 29.99 ea

GM Automatic Transmission Overhaul Manual

The TH2004R, 350, 400 and 700R4 automatic transmissions are covered with complete overhaul photo sequences.

Also covered are theory of operation, in-vehicle repairs and performance modifications. Softbound, 8-1/4" x 10-3/4", 240 pages, 576 black and white illustrations. **L743** 29.99 ea

Turbo Hydra-Matic 350

Clear, concise text leads you through every step of the rebuild, from transmission removal, tear down and inspection to various high-performance and racing gears and installation. Also covers transmission identification, principles of operation and maintenance, troubleshooting and in car repairs. 8-1/2" x 11", 256 pages. **L1160** 29.99 ea

GM Automatic Overdrive Transmission Builders and Swapper's Guide

This book includes information about high-performance modifications, both from the factory and the aftermarket. It also covers common installation issues such as mounting, shifters and linkages, wiring harnesses, and more. 128 pages, softbound. **L996** 29.99 ea

New!

How to Rebuild/Modify High-Perf Manual Transmissions

This revised edition of How to Rebuild and Modify High-Performance Manual Transmissions breaks down the disassembly, inspection, modification, upgrade and rebuilding process into detailed yet easy-to-follow steps consistent with SA Design's other Workbook series books. The latest techniques and insider tips are revealed, so an enthusiast can quickly perform a tear-down, identify worn parts, select the best components and successfully assemble a high-performance transmission. Softbound, 8-1/2" x 11", 144 pages. **L964** 29.99 ea

New!

A step by step guide to enhancing road handling ability. Topics include: center of gravity, roll center, tire technology, front and rear suspensions, brakes, shocks and springs and chassis design. This is one of the most informative books on the subject to come along. Softbound, 8-1/2" x 10-7/8", 176 pages. **L522** 24.99 ea

This book unveils dozens of secrets that will help anyone paint their own car. This book covers everything you need to know to get a great looking coat of paint on your car and save lots of money in the process. 128 pages, 8-1/2" x 11", 400 color photos. **L917** 29.99 ea

Pro Paint & Body

Revised and updated edition of one of the bestselling paint handbooks in the industry. It includes current information on HVLP paint guns and equipment and waterborne paint technology. Has sections on hammer and dolly, painless dent removal, patching panels, spray guns and compressors, paint prep, shooting paint, plastic bumper repair, and custom paint tips and tricks. Paperback, 160 pages, 8-1/2" x 10-7/8". **L1573** 29.99 ea

How to Paint Your Car

This book reveals the techniques and technology behind automotive painting through 250 color photos, detailed captions and text. You'll get the most up-to-date information about paint chemistry, the tools of the trade and safety gear that every automotive painter must know. 160 pages, softbound. **L3159** 29.99 ea

Weld Like a Pro

Welding is an art and skill that's essential for automotive fabrication, repair, and vehicle upgrades. It is also an important skill for countless household projects and industries. Not only will you learn these basic skills, but you'll also learn advanced welding techniques as well as the use of aluminum, titanium, magnesium, stainless steel, and other specialty materials. Paperback, 144 pages, 8-1/2" x 11". **L1570** 39.99 ea

Automotive Bodywork and Rust Repair

Whether you want to tackle a full restoration project, or just want to save money by doing minor repairs yourself, Automotive Bodywork and Rust Repair is the book to get you through it. Softbound, 8-1/2" x 11", 160 pages. **L1086** 29.99 ea

Portable Fire Extinguisher

Amerex portable fire extinguishers have been the industry standard for more than 50 years. ABC Dry Chemical is rated to extinguish: (A) paper, wood, and textiles, (B) flammable liquids and, (C) energized electrical hazards. Purple-K dry agent is superior for flammable liquid fires over ABC units. Halotron "clean agent" units are also effective for Class B and C fires but leaves no residue after discharge.

Professional Products For The Truck Enthusiast!

New!

Fantastic Finish Carnauba Pre-Softened Wax

For the enthusiast who demands the highest and wettest level of shine, our PDP PW1 Fantastic Finish Pre-Softened Carnauba Paste Wax is a premium blend of genuine carnauba wax and natural oils that makes paint "drip off of your vehicle" with a high gloss shine and shimmer that insure to impress even the toughest of critics. PW1 Fantastic Finish Pre-Softened Carnauba Paste Wax is in a class all its own: Pre-softened paste wax with no cleaners, it leaves a deep, brilliant long-lasting shine. Protects and beads up with a glass like gloss that lasts up to 6 months. Works beautifully on all colors, even on blacks, reds, and burgundies, filling in swirl marks. Super easy on and off: just wipe-on in a circular motion, and take off with a microfibre towel immediately. No need to wait for it to dry. Leaves no white haze at all - there is no white residue to clean out of the cracks, and no need to be careful around the exterior trim- it won't leave white marks.

Cherry Liquid Finishing Wax

PRO Cherry Finishing Wax Liquid Carnauba Cream utilizes new technology in its special blend of polymers, resins and natural Carnauba. Polishes and protects in one operation. Gently removes fine scratches, buffer marks and light oxidation. Available in your choice of 16 oz. bottle or buy the professional sized gallon jug and save!

K89624 16 oz. bottle 11.99 ea
 K89625 1 gallon 44.99 ea

Butter Wet Wax Creme Liquid Carnauba

PRO Butter Wet Wax Creme Liquid Carnauba will leave your car shining like it's still wet! Shines and polishes with no cleaners or abrasives. Will not stain plastic or rubber. Easy application either in the sun or shade. Offers long-lasting protection. It also brings out the deep shine and luster of all colors. Available in your choice of 16 oz. bottle or buy the professional sized gallon jug and save!

K89603 16 oz. bottle 9.99 ea
 K89604 1 gallon 39.99 ea

Black Beauty Paint Sealer and Wax

One-step color brightener and sealer, specially formulated for black and other dark color paints. Quickly and effectively removes fine swirl marks and cobweb scratches, while leaving a darker, more reflective finish. Contains amino functional silicones and Carnauba Wax for long term, high gloss protection. Safe for all types of paint finishes. For hand or machine use. VOC COMPLIANT.

K89535 16 oz. bottle 12.99 ea
 K89536 1 gallon 46.99 ea

OER® "Secret Formula" Clay Bar System

Clay pulls out all the contaminants you cannot see, but that you can definitely feel, like industrial fallout, rust dust, and brake dust. These contaminants may cause patches of paint to appear dull, even after waxing. As these contaminants oxidize, they create rust spots within the paint. Clay bar will remove these contaminants and leave the surface silky smooth with a mirrorlike smooth finish. Our clay will not break or deteriorate into small particles like inferior low quality clay bars. Acts as a magnet for foreign particles, literally pulling the paint fouling grime away from the surface of the paint. Clay lubricant is essential to the performance and safety of clay. It provides the necessary slick surface for clay to glide on.

200 Grams - Package of 4-50 Gram Bars per Package
 K89446 green block light oxidation 14.99 ea
 K89447 gray block moderate oxidation 14.99 ea
 K89448 red block heavy oxidation 14.99 ea

QUICKSPIFF Spray Wax/Clay Bar Lubricant

QUICKSPIFF is a high lubricity spray wax designed to easily remove dust, smudges, fingerprints, and dirt from any exterior surface of a vehicle. It cleans and polishes paint, glass, chrome, plastic, and rubber in one quick step. Just spray and wipe! You will be impressed with the total ease of use, and the slick shiny gloss it leaves on the paint and glass without any streaks or smears! It can be used as a quick spray wax or a clay bar lubricant. Available in a 32 oz. bottle or 1 gallon jug.

P99 HD Interior Fabric Cleaner

The beautiful thing about P99 HD: It leaves no film. After cleaning fabric, carpet, floor mats, convertible tops, vinyl tops, seat upholstery, door panels, vinyl, plastic, aluminum, you will have a clean surface free of any residue. This strong all purpose cleaner should be diluted 30:1 for light jobs, 15:1 for medium, and 5:1 for heavy dirt. Apply with a sprayer or sponge. Agitate stubborn dirt with a brush. Our P99 HD Secret Formula Interior Exterior Multi-Purpose Fabric Cleaner works quickly as a spot cleaner for all color fast fabrics. Will not stain or leave a ring around area cleaned. When you blot with a clean dry cloth, the liquid containing the stain transfers to the cloth.

OER® Premium Metal Polish & Sealant

OER® Extreme Shine Metal Polish & Sealant cuts through layers of dulling oxides to restore a wet mirrorlike finish that outshines chrome. This outstanding polish makes chrome, copper, brass, aluminum, stainless steel and other metalwork gleam and look their absolute best. Spreads on easy, buffs off with little effort. Great for oxidized metals and even light rust. Can be easily applied in the shade or sun. Leaves virtually no smear, dust, or powder. Utilizing friction and heat OER® Extreme Shine Metal Polish cleans, restores, revives and polishes. Friction generates heat that allows the product to break down into a micro-fine polish that leaves the surface shining like a mirror. During the final phase, it breaks down to release the durable protective shield that bonds to metal surfaces, reducing corrosion and prolonging shine. Use by hand with a polisher or with your polish ball and drill.

K89483 16 oz. bottle..... 17.99 ea

OER® "Secret Formula" OER

Acryli-Shine Glaze

Glaze is a polish without any cleaning properties used primarily to improve the shine and clarity of paint. Primarily used by body shops for finishing jobs or by detail shops to bring out the brilliance of paint, glazes are also commonly used on show vehicles to achieve a "high luster or wet look." Your moldings will not turn white. Glazes do not replace polishing. If a surface has minor swirls and imperfections, to achieve the best superior results, the surface should be polished with a polish first.

Finishing Touch Matte Finish Protectant

Finishing Touch is an all purpose dressing that restores the "new car look" to vinyl, rubber, leather, and plastic. It cleans, beautifies, and protects. It is preferred by many detailers for interiors for its "softer" look and non-greasy banana fragrance. Patented UV absorber penetrates and acts as a protective barrier against harmful rays that cause premature aging, cracking, fading, and peeling. Perfect for dashboards, vinyl tops, door panels, consoles, tires, trim, bumpers, vinyl seats, moldings, and more.

DiamondFinish® Clear Coat

DiamondFinish Gloss Clear Top Coat is a permanent, moisture cured, UV stable coating primarily used for top coating surfaces previously sealed with RustSeal®, for top coating direct to metal, or to coat over any other paint/primer application. The clear coat formula can be applied direct to metal or over other coatings. This high gloss clear coat remains permanently flexible and is able to perform in the toughest environments without yellowing, cracking, or peeling. Apply directly to painted surfaces with minimal surface prep. Incredibly tough and hard like no other clear coat on the market. Can be applied with a brush (without leaving any brush marks), roller and conventional spray gun. Unlike two part coatings, no hardener is needed with DiamondFinish. Just stir and go. DiamondFinish clear coat will cure without heat or UV lights in temperatures from 50 to 86 degrees Fahrenheit. Able to withstand the harshest of chemicals including fuels, solvents, battery acid, brake fluid, Ethanol, Methanol, MEK, Hydrochloric Acid, fertilizers, and Acetone. Graffiti resistant: because of its chemical resistance, graffiti just won't stick and can be removed simply with a solvent soaked rag. Great for high temperature automotive applications including the use on cylinder heads, engine blocks, brake components and even inlet manifolds, without yellowing up to 300 degree Fahrenheit.

RustSeal® Corrosion Barrier Coating

RustSeal is a superior one part, ready-to-use, high solids content, rust preventive, corrosion barrier coating. RustSeal flows out to a beautiful, rock-hard, tough ceramic-like coating that is tough to chip or scratch, and will not crack or peel. RustSeal is an incredible, single component, ready-to-use, high solids content, rust preventive coating with exceptional sealing properties. RustSeal is the most permanent cost effective solution for stopping rust and corrosion anywhere where it is a problem: home, automotive, industry, fleet, farm, and more! RustSeal is an enhancement that lasts. Water and air are locked out, therefore oxidation, the precursor to rust, cannot take hold. RustSeal is not intended for use as a final finish. After removing or treating rust on floors, subframes, or other under vehicle components, RustSeal Corrosion Barrier Coating works by isolating the surface from moisture and oxygen. This single component, high solids, rust stopping coating seals out the ultimate causes of rust, creating a rock hard non-porous barrier between the metal and rust promoting elements. Will not crack, chip, flake, or peel, and no hardeners or activators are needed. RustSeal is completely unaffected by salt, gasoline, oils, battery acids, hydraulic fluids, solvents, chemicals, or corrosives.

BEFORE APPLICATION AFTER APPLICATION

Shovel Benefits:

- Easy spray-on application
- Continuous protective moisture barrier
- Fast clean up with soap and water
- Environmentally friendly solution
- Applicable to interior or exterior of vehicle
- Non-toxic and class A fire rated
- Both are paintable
- Coverage is approximately 50 ft² gallons

Sound Control Benefits:

- Provides non-combustible thermal insulation
- Able to withstand temperatures up to 500 degrees F
- Interior temperature reduced by 30 degrees F
- Offers a protective, seamless membrane

Ceramic Insulation Benefits:

- Protects surface from moisture and rust
- Dampens annoying rattles and road noise
- Impressive damping to weight ratio
- Coating can withstand temperatures up to 300 degrees F

Sound Control and Ceramic Insulation

Get the comfort of premium grade insulation without the extra weight! These environmentally safe formulas from LizardSkin can be used as a one part coating or as a two stage system for a cooler, quieter driving experience. The Sound Control formula dampens unwanted engine and road noise, while the Ceramic Insulation formula cools your vehicle up to 30 degree F or more creating a more comfortable ride. Designed for floors, roofs, firewalls, fenders, transmission tunnels, door panels, trunks, and more, all at a combined curb weight of 52 lbs for four gallons. Insulating a vehicle has never been this easy, thanks to a custom designed application gun made specifically to handle the thick density of the coatings with ease. Order the individual components or buy a complete kit and save!

Important: For two stage applications, Sound Control coating should be used as the base. Four gallons of each coating are required to encapsulate a typical interior and trunk area of 1 vehicle, and 1 gallon of Sound Control when applied as undercoating.

OER® Metal Mimic FX Coating

OER® Metal Mimic FX high-performance coatings were developed to mimic the appearance of bare metal so that you can refinish and protect all of the components that were originally left unpainted by the factory. Items such as cast iron housings, aluminum housings, stainless steel parts, galvanized parts and even chrome can now be coated with a "factory correct" looking finish that is extremely durable and amazingly close to the original color.

Note: Ships ground only. No air shipment.

OER® Factory Black Coatings

OER® factory black coatings are available in a variety of sheen levels to help you achieve the correct factory look for your restoration. Our Ultra Flat sheen is an extremely flat non-glare finish. The next level up is our low gloss formula followed by the semi-gloss and finally our exclusive high gloss formulation. Whatever you are spraying, we have the correct sheen for an original factory black look.

Note: Ships ground only. No air shipment.

Factory Black Set

Buy the complete OER® Factory Black set and you will have all the necessary sheen levels for a correct factory look no matter what component you are spraying.

K89550 4 can set - all four sheens 59.99 set

Ultra Flat Factory Black

Extremely flat non-glare finish that is perfect for a variety of uses including underhood items. Provides a durable flat black zinc phosphate look without the high cost of black zinc phosphate plating.

K89540 16 oz. aerosol can (net wt. 12 oz.) 19.99 ea
K89590 case of six cans 89.99 cs

Low Gloss Factory Black

A durable low gloss coating that provides a factory fresh appearance on the frame, transmission crossmember, or anywhere else a low gloss, but not quite flat black finish is desired.

K89541 16 oz. aerosol can (net wt. 12 oz.) 19.99 ea
K89592 case of six cans 89.99 cs

Chassis Inspection Mark Paint

Restore the many colored factory marks found on your suspension, engine and driveline components.

These marks are found on most cars, and were used for inspection, parts picking codes and alignment marks. These inspection paints are color matched to original. In many cases they're supplied with technical bulletins to help you apply them in the proper locations. Supplied in 2 oz. brush top bottles.

Firewall and Frame Marking Crayons

These are the correct "grease pencil style" crayons used for marking the factory inspection marks on your firewall, subframe, and other various sheet metal areas. Included are a yellow and a white marking crayon.

K0084 2 piece 8.99 pr

Frame, Engine, and Body Marker

Auto makers use these permanent markers to write codes and numbers on frames, engines and body components. Engine suffix codes were often written on the back of the cylinder heads. Job numbers were written on the firewall, frame, engine and other components to assure the correct vehicle was being built according to the build sheet. These permanent part markers will help you exactly duplicate the factory original marks.

OER® Aerosol Coatings

OER® Rubberized Undercoating

A black, rubberized undercoating for all automobile under surfaces. Sprays evenly and dries completely to a smooth consistency. Can be top coated with any type of automotive finish. Prevents rust, reduces road noise, seals out water, fumes, road chemicals, and dust. Special formula greatly reduces lingering odor associated with most other brands of undercoating. No "bleed through" when top coated. Use on undersides of panels, hoods and deck lids, trunk interiors, section repairs, weld joints, rust holes, or on chassis parts. 20 oz. aerosol can (net wt. 18 oz.) or buy a case and save!

Note: Ships ground only. No air shipment.

K89570 20 oz. can..... 24.99 ea
 K89669 case of six cans 119.99 cs

OER® Black Wrinkle Finish

A durable and long-lasting finish which has a unique wrinkled texture. Excellent hiding qualities provides an excellent finish for hiding surface imperfections such as pitting, scratches, or chips. Extremely durable formula resists oil, gas, and grease. Can be used where harsh conditions break down conventional coatings. Comes in 12 oz. net wt. aerosol can. Great for valve covers, air cleaners, dash components, and more. 16 oz. aerosol can (net wt. 12 oz.) or buy a case and save!

Note: Ships ground only. No air shipment.

OER® Professional Grade PBE Primers

OER® is pleased to offer our professional grade primers specifically formulated to meet the performance needs of body shop personnel but conveniently packaged for the automotive enthusiast. Tough and dependable, these primers adhere extremely well, prevent rust and corrosion and enhance the quality and appearance of the finished product. Large fan spray head gives a professional looking application. Eliminates the need for a spray gun for small repairs, reduces cleanup time.

Note: Ships ground only. No air shipment.

OER® Self-Etching Sanding Primers

Manufactured with a modified acrylic resin to give you excellent adhesion to all types of metal, aluminum and prepared surfaces. Dries to the touch in 10 minutes. Dry to sand or top coat in 15 minutes. Available individually in 20 oz. cans or in case of six.

Individual 20 oz. Aerosol Can (Net Weight 15 oz.)

OER® Spray Galvanizing Weld-Thru™ Coating

A smooth, cold galvanizing compound that chemically fuses to bare steel and forms a extremely rust resistant barrier. Perfect for application on the inside of newly installed panels where rust prevention of new metal is important, but where the part treated will not be painted. Fast dry, spray free spray that is abrasion resistant. Stops rust creepage, resists chemicals and is rust inhibitive. Apply it to sheet metal pieces before installation, then weld as usual. The coating will not affect the quality of the weld, and will retain its rust preventative properties. Available individually in 12 oz. cans or in case of six.

OER® Factory Wheel Coating

OER® factory wheel coatings are available in a variety of original colors so you can achieve the correct factory look on the restoration of your wheels. Make your wheels look like they just rolled out of the factory with this spray wheel coating. Eliminates the need for expensive custom paint mixing and greatly simplifies the restoration process by providing spray gun results without the hassle and mess of a spray gun or the need for an air compressor. Available individually in 16 oz. (net weight 12 oz.) cans or in case of six.

Note: Ships via ground freight only and is shipped exclusively within the continental U.S. as no air shipments are permitted on aerosol spray cans.

Rally Wheel Argent Silver

Correct color and sheen for the restoration of Rally I, Rally II, and Super Sport wheels. Makes your wheels look like they just rolled out of the factory.

Make a Big Statement with Die-Cast Air Cleaner Emblems!

Install these beautiful chrome-plated die-cast emblems for an upscale custom look for your big block! These emblems capture the appearance of the air cleaner decals originally installed on big block vehicles of the era. Manufactured from die-cast metal, these colorful triple chrome-plated emblems are specifically designed to fit the contours of the stock 1968-72 big block 14" diameter open element air cleaner lid. Installation is simple! Each emblem is adhesive backed for simple "peel-and-stick" application.

3M Super Weatherstrip Adhesive

This adhesive is used for bonding and sealing weatherstrip to trunk, doors, roof rails etc. An excellent general purpose adhesive which is fast drying, waterproof and flexible. Also resists oil, grease, and solvents. Available in black or yellow.

08008	5 oz. tube	black	12.99 ea
08001	5 oz. tube	yellow	11.99 ea

Weatherstrip Application Lubricant

Precisions' weatherstrip lubricant significantly reduces friction, thereby reducing the installation force required to assemble parts and fittings. This is a non residue lubricant, once it dries it becomes invisible.

153812	14.99 ea

1969-91 Blazer/Jimmy Header Seal

This header weatherstrip will replace the factory installed weatherstrip perfectly. 1969-72 Blazer and Jimmy header weatherstrip is a 1 piece design. 1973-75 Blazer and Jimmy were unique because the header weatherstrip is made up of 2 separate pieces. There is an inner and an outer. On the 1976-91, the header weatherstrip is installed between the removable shell and the roof. The header seals will complete the removable top seals for the 1973-91 Blazer/Jimmy.

Glass Components

1967-86 Flush Mount Trimless Glass Set

Trimless, flush mount windshield and back glass sets for 1967-86 big window pickups. This glass is manufactured to OE standards and is fully DOT approved. It is designed to give classic trucks a more modern appearance without trim or weather stripping. The glass is simply glued in place like a modern vehicle with the adhesive hidden behind the black FRIT band around the edge of the glass. Professional installation is highly recommended. Does not include primer or adhesive.

Note: Shipped truck freight.

WEATHERSTRIP & MOLDING

Tools and Adhesives

Multi Wedge Prying and Scraping Tools

Multi Wedge is an amazing automotive restoration tool that will replace screwdrivers, pry bars and all other metal tools that can cause damage and marring to delicate surfaces! The soft, orange wedge set and the jumbo wedge are made from a high tech, specially blended polyethylene that is incredibly ductile so they won't break or snap. The hard, black wedge set is made from a high tech, specially blended polycarbonate for the heavy-duty jobs like oil pan covers, timing covers or valve covers. Each 3 piece set includes one 4" curved end, one 4" straight blade and one 3" straight blade. Buy both sets and save! The jumbo wedge is 14" in length and 2" wide, making it perfect for the big jobs.

MW01 orange wedges, soft - set of 3... 12.99 set
 MW02 black wedges, hard - set of 3... 13.99 set
 MW03 both wedges, soft/hard - set of 6... 19.99 set
 MW04 jumbo wedge... 12.99 ea

Soft Duty - Delicate prying or wedging Medium Duty - Sturdy prying or wedging Heavy Duty - Very strong and durable Prying and Scraping Tools

Available in 3 different fiberglass reinforced plastics, the soft duty tools are good for jobs where a minimum amount of force is needed to remove objects. The medium-duty tools are better for the objects that require a little more force to remove, and the heavy-duty tools are for the objects that are real stubborn and just do not want to be separated from their current position. All these tools are strong enough to pry yet soft enough to do interior and exterior automotive jobs without the damage that metal tools can do.

7 Piece Prying and Wedging Tools

Premium Auto Trim Removal Tool Kit

This 11 piece kit was designed for the removal of door panels, dashboard, trim strips, interior panels, and window moldings. Made of impact resistant plastic that will not mar surfaces like metal tool will. Included for the tools is a heavy-duty nylon pouch.

TX2684... 23.99 ea

Glass Molding Clip Installing Tool

Reduce the risk of chipped glass and scratches by using this handy tool for replacing your front or rear window glass molding. This tool is specifically designed to fit trim clips over the studs and virtually eliminates glass breakage.

A13574... 37.99 ea

Weatherstrip Ball End Hook Tool

This hook tool has a small, round steel ball on the end. Once the steel ball is inserted down into the rubber gasket, it is very difficult for it to come out. If it should slip out of the gasket, there is less of a chance you will scratch the paint of the vehicle.

153823... 14.99 ea

Glass Seal Rope-In Tool

Use the rope in tool when working with rubber gasket set glass. The unique counter grip plastic handle injects the rope through its stem as it is pulled around the gasket. There is plenty of enough durable rope to fit around even the largest truck window.

153813... 19.99 ea

Universal Molding Release Tool

The ultimate tool for cleanly releasing moldings. Slide tool left or right under the molding until it hooks a retaining clip, then just rock the tool with a twist of the wrist to release the clip. Heat treated, high carbon steel.

S21500... 6.99 ea

Lockstrip Insert Tool

The lockstrip insert tool is specifically designed for self-sealing two piece rubber weatherstripping. The eye of the tool threads locking strip into the groove and inserts it into the channel.

153818... 12.99 ea

Windshield/Back Glass Molding Removal Tool

Excellent tool used to remove the molding from the retaining clips on windshield and back window glass.

A7914... 14.99 ea

Windshield/Back Glass Molding Pliers

Specialty pliers for removing door handle clips and chrome molding on most windshields and rear glass. Jaws slip under door handle without damage to panel material, and offset handle permits easy access to molding clips.

Y35200... 8.99 ea

Windshield Removal Tool

Professional windshield removal tool for all vehicle applications. Features an aluminum handle with diamond cut pattern for added grip. Heavy-duty braided wire secures the pull handle to the cutting blade.

153811... 21.99 ea

1969-72 Body Side Molding Set

In 1969, GM offered a deluxe trim and comfort package for fleetside models called the CST (Custom Sport Truck). Later dubbed Cheyenne, this package added aluminum body side moldings running from front to back. Some models also featured a lower body side aluminum molding set with black or woodgrain fronts. These complete molding sets will restore your CST or Cheyenne to its former glory or simply give your standard model an upscale look.

Both on clips vs. adhesive clips: 1969-70 models were originally equipped with metal push-ins and screws on clips. 1971-72 models were attached by a combination of plastic retainers with adhesive and metal clips. The metal clips are usually at the ends of the moldings and the plastic retainers in the center. Holes are not drilled for the plastic retainers but are needed for the metal clips.

Note: Unless noted, moldings fit Chevy/GMC fleetside pickup, Blazer/Jimmy, and Suburban models. Does not fit stepside models.

All Metal Clips vs. Metal and Adhesive Clips: 1969-70 models were originally equipped with metal push-in and screw on clips. 1971-72 models were attached by a combination of plastic retainers with adhesive and metal clips. The metal clips are usually at the ends of the moldings and the plastic retainers in the center. Holes are not drilled for the plastic retainers but are needed for the metal clips.

1969-72 Upper Body Side Molding Retainer Set

Body side molding retainers and clips for 1969-72 Chevrolet and GMC truck models. Each set includes clips to mount both left and right side moldings.

7" High/Low H4 Headlamp Bulb

7" headlamp with glass lens and replaceable H4 Halogen bulb replaces H6014/H6024, high and low beam function. H4 bulb included. Sold individually. CP500127 7" replaces H6014/H6024 .. 25.99 ea

Diamond Cut Headlamp

These headlamps install much like a standard sealed beam unit, but they allow the use of an H4 Halogen bulb in your choice of color and wattage. You'll enjoy the extra brightness usually associated with high end luxury and expensive sports cars. The diamond cut reflector concentrates the beam on the road in front of you. Sold individually.

Note: For your headlamp conversion, we recommend using our wiring harness upgrade kit (sold separately).

Round Headlamps with LED Halo

RedLine Lum-Tronix headlamps allow 50% more light to shine through thanks to their crystal clear lenses and a special side lens that extends past the retaining ring. This side lens is a true safety innovation and was designed to provide additional side light and increase visibility. Each headlamp features a Euro style diamond cut reflective base, diamond crystal glass, and a heat resistant composite housing. Even though no paint or tint is applied to the glass or reflector, the Black Illusion headlamps look blacked out when off thanks to the halo and lamp shields that are painted black. Headlamps are available with or without a halo, either single color halo (white) or multi-color halo (with 16 selectable colors plus the ability to adjust brightness), with or without turn signals and your choice of clear or blue H4 Halogen bulbs or H4 LED bulbs. The halo or "Angel Eyes" can also be wired as a daytime running lamp and features 23 low temp LEDs with a 100,000+ hour life, along with "fade", "flash", "strobe", and "smooth" modes that you can choose with the included wireless remote. Headlamps plug directly into your stock harness for a simple and easy installation. Each pair includes: 2 headights, 2 bulbs, dust boots, ceramic tip pigtail harness adapter and instructions. Multi-color halo sets also include the RGB harness and wireless remote.

Important: Will fit most vehicles (cars, trucks, motorcycles and motor homes) made from 1936 to 1979, as well as many vehicles made after 1979 that use a universal round style headlight.

Note: Blue Halogen bulbs are blue in color when off, and bright white when on (no blue tint). Clear Halogen bulbs are clear in color when off and bright white when on. LED bulbs include colored film to change the look and temperature color of your lights.

LED Projector Headlamps

Dapper Lighting LED projector headlamps provide the classic look while substantially upgrading the quality and spread of light. These replacement bulbs feature glass lenses, Bi-LED projectors, and a slim flat base design. These features eliminate the extra wiring and bucket modifications associated with HED lighting. They offer a quick and clean install and a significant increase in performance, reliability, and safety. Available with clear or black lenses and with or without halos. The halos are available in solid, dashed, and HDR styles.

H4 LED Headlight Bulbs

Upgrade your stock Halogen bulbs with a pair of premium LED headlight bulbs from Redline Lumtronix. With a 50,000 hour lifespan, you won't have to change the bulbs as frequently, meaning you'll spend more time on the road than in the garage. Each bulb is 300% brighter than your stock Halogen bulbs as well as a direct fit, "Plug and Play" upgrade that requires no modification to your electrical wiring. LED bulbs include colored film to change the look and temperature color of your lights.

Modernize your Chevrolet truck with a set of sleek projector headlamps. For 1999-02 Silverado, 2000-06 Tahoe and Suburban GMT800 Series models. Each headlamp set utilizes the stock wiring harness, connectors and bulbs. If you wish to go one step further with your conversion, you can upgrade to a higher wattage or different color headlamp bulb. Your choice of a variety of bulbs are sold separately.

Important: If you plan to install high power bulbs, we recommend using our wiring harness upgrade kit (sold separately).

H4 Headlamp Wiring Harness Upgrade

Our wiring harness set upgrades the thin stock headlamp wiring on your vehicle, providing your new bulbs with maximum power and decreasing the chance of overloading (and possibly melting) your stock wiring and headlamp connectors. Power will be drawn directly from your battery, eliminating voltage drops and ensuring headlamp system reliability. Two 30 amp relays provide added protection for your headlamp switch and wiring harness.

EH002

Headlamp Wiring Harness Upgrade

Redline Lumtrox wire harness kit upgrades the stock headlamp wiring on your vehicle to provide your new bulbs with maximum power and decrease the chance of overloading the stock wiring and connectors. Power will be drawn directly from your battery, eliminating voltage drops and ensuring headlamp system reliability. The upgrade kit installs easily in 5-10 minutes without any cutting or splicing. Simply plug into your factory headlamp sockets, attach positive connectors to battery terminal and ground wires to the body of your vehicle. Two 30 amp relays provide added protection for your headlamp switch and wiring harness.

1994-00 Chevrolet Corner Lamps

Add a set of diamond clear front corner lamps to your Chevrolet for the custom European look. For highway use you'll want to use an amber bulb to be street legal. But during shows, you may want to change out to your choice of purple, blue, green or red bulb to match with your truck's paint scheme or style. For various 1994-00 GMT400 Series truck models. Sold as a pair. Bulbs sold separately.

Note: Fits 1994-00 C/K pickup, 1994 Blazer, 1995-00 Tahoe, and 1994-99 Suburban models.

New!

Electronic LED Lamp Flasher

Electronic LED flasher (advanced) is a simple replacement and upgrade for standard flasher relays. This electronic LED flasher is recommended for use with LED taillights. Two flashers are recommended, if you are installing both LED taillights and LED front lights (turn signals etc.)

UFM10	universal 29.99 ea
-------	--------------------------

LED Lamp Flasher

Due to the lower current draw of LED lamps, these electronic 12 Volt flashers are recommended for vehicles equipped with LED lamps. Available in 20 amp or a 25 amp, 20 amp available in two or three prong type.

Important: If installing LEDs on both the front and rear, two flashers are usually required.

Note: *Includes reverse polarity adapter.

1947-53 Front Bumper Grill Guard

Protect your classic 1947-53 Chevrolet or GMC pickup grill with this beautiful show quality chrome-plated grill guard. Mounts behind front bumpers up to 6" wide. Chrome mounting hardware included.

CP475313 1947-53 79.99 ea

1947-54 Front Bumper Grill Guard

Accessory grill guards have long been used for protection, especially on trucks. These guards can also add a unique aggressive style to an already timeless design of your 1947-54 Chevrolet pickup. Not all bumpers are created equal, so we modified this grill guard to a "one size fits all" design that will accommodate almost any stock front bumper, whether it be OEM or aftermarket. The guard mounts to the front bumper and includes all necessary hardware for easy installation. The vertical and horizontal bars are made from high-quality stamped steel and polished to a show quality finish.

Note: For use with 1955th design (early production models).

1947-55^{1st} Custom Radiator Core Support

These custom radiator supports fit 1947-55 Chevrolet truck models. The posi-align core support mounts on each frame rail and that also allows you to mount your radiator approximately 2-1/4" lower than stock, which in turn, lets you use an engine mounted fan. This is a bolt-in set and includes complete set of instructions. Once installed, you will have a core support that not only allows you to run an engine driven fan, but also has side-to-side and up and down adjustment for positive alignment of your truck's front sheet metal. When you finish, you will have a clean and professional look under your hood.

Note: *Includes custom splash apron. Shipped oversize.

Hood Components

DMI11905

DMI11102

Universal Hood Insulation

Dynamat hoodliners will protect your vehicle's paint and reduce irritating underhood noise. Made from 3/4" acoustic sound soaker foam with a reinforced, aluminumized skin that is oil and water resistant. The hoodliner has a high tack pressure sensitive adhesive for easy peel and stick application. For those who prefer black, there is also Dynaliner, which boasts the highest heat blocking properties available in a single layer synthetic foam. Use the thickest one your space will allow. All hood insulation sheets measure 32" x 54".

Hoodliner	Thickness	Price
DMI11905	3/4"	84.99 ea
Dynaliner	1/4"	80.99 ea
DMI11103	1/2"	112.99 ea

Underhood Thermal Acoustic Lining

DEI underhood thermal acoustic lining. Designed specifically for underhood applications, this lining will greatly reduce the heat, noise, and vibration coming from your engine compartment. Self-adhesive, 3/4" thick industrial acoustical grade foam with a reinforced reflective aluminum covering. 12 square feet of material is enough to insulate your entire hood.

DE050130	32" x 54"	72.99 ea
----------	-----------	----------

Underhood Black Thermal Acoustic Lining

DEI black underhood thermal acoustic lining. Designed specifically for underhood applications, this lining will greatly reduce the heat, noise, and vibration coming from your engine compartment. This black self-adhesive carbon fiber look material measures 32" x 59" (13.1 sq. ft.), enough to insulate your entire hood.

1964-72 Selecta Speed Wiper Set

This Detroit Speed wiper set provides you with the performance and convenience of a late model wiper system that easily mounts in your truck. The low profile wiper set has 3 intermittent settings, high speed, and low speed. Set includes: wiper motor, rotary selector switch, adapter plate, and wiring harness. The CNC aluminum adapter plate mounts the wiper motor to the stock firewall bolt pattern and requires no modifications to the vehicle. The supplied wiring harness uses the factory wiper grommet opening and requires no cutting of the factory harness. Factory washer pump can be replaced with the Detroit Speed washer pump set that features push button operation. Made in USA.

Note: Washer pump not compatible with DSE sets manufactured before 2015.

1973-91 Chevrolet and GMC C/K, R/V Brake Booster Reinforcement Panel

Reproduction brake booster firewall reinforcement panel for the 1973-86 Chevrolet and GMC C/K, 1987-91 R/V square body truck, 1973-91 Blazer, Jimmy, Suburban models. This panel spot welds to the firewall and cowl plenum and supports the brake booster and steering column. Made to OE specs, this reinforcement panel features the same shape, bends, curves, holes, studs and wire hold down just like original. EDP coated to protect against rust and corrosion prior to installation.

OE AUTHORIZED

1967-72 Dash and Toe "O" Panel

Reproduction of the dash and toe "O" patch panel for use with 1967-72 Chevrolet and GMC truck models. These stamped steel 13 gauge firewall panels come coated in an EDP finish and are designed to replace your truck's rusty or damaged section located behind the dash panel. The panel is trimmed to create a tight seam along the angled right side, but the lower horizontal edges actually sit on "flanges" created with metal from the original toe board.

Formula Five Pre-Lube

Energy Suspension Formula Five Pre-Lube is a versatile, waterproof, non-melting grease containing PTFE. This forms a tough, durable, chemical resistant film of lubricant. Use this when assembling your polyurethane bushings to your suspension.

Important: Only small amounts of this pre-lube are needed when assembling components.

1947-72 Altman Easy Door Latch Set

Stop slamming your doors! The Altman Easy Latch set is a vehicle specific bolt-on, bear jaw rotary claw latch set that features contoured jam plates to match the contours of your vehicles doors. These are in no way a universal application. Our bear jaw rotary claw latches are each designed to work with the exterior handles, interior handles, and the exterior door lock cylinders of the specified vehicles. Each piece of our bear jaw latches are zinc-plated to fight corrosion. The Altman Easy Latch set will have your doors opening and closing smoothly and safely. Instructions and mounting hardware is included. Manufactured in the USA.

Important: 1955-59 sets are offered in two ways: For customers retaining the look of their original steel door panels with an insert that is supplied and will fit in the recessed area, or for customers that desire to fill that area with a custom door panel.

Note: *For 1947-51 models using a Dynacorn body and 1952 door striker plates.

2007-14 Heated Power Outer Mirrors

Reproduction heated power mirrors for 2007-14 Chevrolet and GMC Suburban, Tahoe, and Yukon models. This distinctive exterior side mirror is heated to melt away snow or rain. Like many modern side mirrors, it has a power remote feature that enables you to adjust the angle of the mirror without having to stick your hand and arm out the window. Fits models with 10-head, 5 pin connector.

Note: *Paint to match.

12V Exterior Door Handles

Elevate your vehicle's style with these electronic exterior door handles from Lokar! Each billet door handle utilizes a weatherproof 12 Volt pressure pad switch to supply power to an electronically actuated door latch (door popper). Its 2 piece design and available 0 degree or 10 degree mounting surface allows the insert to be removed, and door handle positioned for ultimate customization. The XL design provides 7/8" of clearance between the door and the switch, allowing for easier mounting and less modifications to the door. Made in the USA from 6061-T6 billet aluminum.

Important: Requires electric door latch actuators, not included.

Note: *Installation requires hand pocket for clearance.

1947-87 Wood Bed Floor Cross Sill

Cross sills fit between the bed wood planks and the frame of the truck. The bed strips are bolted to the cross sills giving the bed wood strength and rigidity and providing the surface to mount the bed to the truck frame. Reinforcement strips are shorter in height and attach to the wood and bed strips only providing additional reinforcement for the models listed. Pre-punched holes in 14 gauge steel with the original bolt pattern for each year and model.

Note: *Shipped oversize. **Shipped

1947-87 Stepside Angle Strip Cover

Stepside angle strip covers are made like angle strips, but they bolt right over the existing angle strips to renew the appearance of your originals. With angle covers, you do not have to hassle with removing the old angles. The new angle covers come without holes, so you can drill your own holes to line up with the original angles. Be sure to order ribbed neck bolts for your angle covers to ensure easy assembly.

Note: Short bed strips shipped oversized. Long bed strips shipped double oversize.

Fleetside OE Style Bed Strips

1985-88 Fleetside Pickup Bed Strip Set

Bed strips hold the wood planking to the bed cross slis. Strips are 1-1/2" wide and roll formed 18 gauge steel, or 430 stainless. Feature pre-punched square holes in the original bolt pattern. Choose from raw steel, unpolished stainless steel or polished stainless steel materials as listed below. Classic Industries® offers the largest selection of bed strips anywhere!

Note: Shipped double oversize.

Complete Bed Bolt Sets

The bolts in this set are carriage bolts

polished stainless stainless steel zinc-plated

carriage bolts for the bed wood and bed strips ribbed neck bolts for the angle strips

1947-87 Bed Bolt Set

These bed bolt sets include all the correct size square shouldered carriage bolts, nuts, washers, and lock washers to install the bed wood, bed strips, and angle strips. This includes the bolt to frame bolts. The bolts in this set are carriage bolts, which means they have a smooth, rounded head and a square shoulder to fit into a square hole. Polished bolt sets are very shiny, giving them a "chrome" look.

1947-87 Custom Bed Bolt Set

These bed bolt sets include all the bolts, nuts, washers and lock washers to install the bed wood, bed strips, and angle covers, including the bed-to-frame bolts. Select this bolt set when using angle strips or angle covers without punched square holes. Includes ribbed neck carriage bolts for round holes to be drilled in angle strips or covers and standard carriage bolts for the bed strips. Polished stainless steel bolt sets are very shiny, giving them a "chrome" look.

Important: Select this bolt set when using angle strips or angle strip covers without pre-punched square holes.

1947-53 Tailgate Hidden Hinges

This set of hinges is only 1/4" wide when viewed from the rear and practically invisible from the side. An exposed 1/4" thick hinge plate is dimensionally identical to the side of the tailgate and when installed is welded to the stake pocket. When painted the same color as the bed, it virtually disappears from view. This product fits 1953 Chevrolet pickups with original style tailgates. Includes: 2 hinge plates, 2 plastic trunnions, and all necessary hardware and instructions.

BODY COMPONENTS

Body Chemicals

BlackTop Top Coat

BlackTop is a permanent, moisture cure, UV stable coating primarily used for top coating surfaces previously sealed with RustSeal or any other paint/primer application. BlackTop is a high-performance protective coating specifically formulated to withstand dulling and fading caused by prolonged sunlight exposure. BlackTop may be used alone as a resilient coating but offers the ultimate rust protection when used in combination with the RustSeal corrosion barrier coating as step 1. For the best stop rust and ultraviolet protection, first apply RustSeal to permanently seal the surface and then top coat with BlackTop for an incredibly tough and professional looking finish. Like RustSeal, BlackTop dries to a rock hard yet flexible coating that can be readily applied to chassis, coil springs, and lightweight panels. BlackTop also has high heat resistance and can be applied to almost all automotive applications except exhaust systems. BlackTop is intended as a final finish for parts that have been coated with RustSeal. BlackTop will retain its color and sheen even after repeated or prolonged exposure to direct UV light and will not degrade.

Nu-Metal Epoxy Putty

NuMetal Epoxy Putty is an easy to use, two part putty that mixes like clay but hardens like steel! No complicated weighing or measuring required. NuMetal bonds, seals, fills, insulates, anchors, caulks and waterproofs. It cures without shrinking or sagging and can be drilled, tapped, sanded, primed and painted. NuMetal will not only stick to damp surfaces, but it will cure underwater! Available in black.

15 - galvanized steel

Truck Bed and Floor Pan Repair Set

The KBS trunk and floor pan repair set allows you to restore your floor pan, trunk pan, or pickup truck bed back to new without producing any ugly weld seams. Our included step-by-step instructions make it easy and simple to use. After cleaning the area with KBS Klean (an industrial strength water based cleaner/degreaser), and KBS RustBlast (a powerful rust remover/metal etch), simply use the included BackBone reinforcing mesh and NuMetal epoxy putty to fill any small pin holes. Last, finish it off with a coat of RustSeal for a restored finish without any weld seams. Each set includes: 1 gal. KBS Klean, 1 gal. RustBlast, 1 qt. RustSeal, 1 lb NuMetal epoxy putty, 1 sq. yard BackBone Reinforcing Mesh, 8 oz. #1 Thinner, KBS paint spout, Nitrile gloves, mask, two brushes, stir stick, and complete and detailed instructions.

Body Tools

The Filler Detective

The Filler Detective will find hidden body damage and body filler on a car, truck, or motorcycle. It will tell you where body filler is and how deep it is. This simple 1 button tool lights up and sounds when it detects body filler and features a visual alert with bright, daylight visible LEDs. The meter doesn't miss and it indicates exactly where the body filler is and includes a test plate to confirm accuracy. Never again wonder whether or not a vehicle has been in a wreck! The Filler Detective solves the mystery every time.

EZ Rest Door Hanger

The EZ Rest door hanger enables a single person to quickly remove and/or install vehicle doors. The padded, removable side rails and plastic, ribbed base inserts allow for accurate positioning of the door. The easy on/off design quickly adapts to most floor jacks with removable saddle and 30mm (1.18") diameter saddle hole.

Note: Floor jack is not included.

S21870 179.99 ea

Door Spring Tool

Compress spring for easy safe removal. Slides safely over spring. Constructed of heat treated, high carbon steel.

S21900 25.99 ea

Door Hinge Adjuster Tool

You can now easily adjust the hinges without the aggravation of trying to align by eyesight with this handy tool. Specifically designed to help adjust the hinges so they help to align the door.

Y65800 52.99 ea

Door Hinge Pin Popper

The ultimate solution for removing door pins fast. Drives out even stubborn hinge pins. Works on most GM vehicles with removable hinge pins. Includes pin puller to remove loosened pins.

S21835 43.99 set

Door Bushing Tool

If you've ever tried removing a door hinge bushing with just a regular punch, you know it's a hassle. This tool makes it easy to punch out bushings and align bushings when reinstalling. Offset design allows for easy access to all door hinges.

S21825 20.99 ea

Door Aligning Bar

Finally, a convenient door aligning tool that will fit in your tool drawer! Features a Hex stub to use with a breaker bar and socket for additional leverage.

S21845 46.99 ea

Pro Paint Gauge

The Pro Gauge is a device which measures paint thickness. Factory paint is usually four to five mils in thickness. By using the Pro Gauge you can determine if the vehicle has been repainted. For instance, you can take measurements of about 4.5 mil around the vehicle but the hood may read seven mils on the Pro Gauge. That tells you the hood has been repainted.

PG2437 84.99 ea

Eliminator Rust Remover

Before touching up paint, you first must remove all rust, wax, and dirt or the rust will return and the paint won't adhere. This unique tool will scrub away all dirt, rust, and wax. The results are touch up paint adheres, seals and blends smoothly into the rest of the paint.

E3437 9.99 ea

Spot Weld Chisel

Chisel tool to separate panels after the spot weld has been drilled out. Drive the blade with a hammer from the end or the side through the panel seam. Panels are separated without damage. The blade is sharpened on three sides, and offset for clearance.

Note: The sharpened edges will wear with use. Resharpen on a grinding wheel.

Body Dent Removal Tools

The pull rod set includes: 4 pull rods with formed shank, 2 pick pulls with straight shank, straight edge and HS split point drill bit.

S20000 pull rods 47.99 set

Cleco Sheet Metal Fastener Kit

Everything you need to secure sheet metal panels during the fit and alignment stage. The pliers can be used with all standard spring loaded fasteners and clamps. The kit contains: one pair of Cleco pliers, twenty-five 1/8" Kwik-Lok Clecos and four side grip fastener clamps. Also available are individual components so you can add to your kit as necessary.

Complete Kit
X9858 29 piece 76.99 kit

Clecos
X9859 Clecos 1/8" 1.99 ea
X9860 Clecos 3/16" 1.99 ea

Side Grip Fastener Clamps

Cleco Pliers
X9863 Cleco pliers 14.99 ea

Plugweld Pliers

These plugweld pliers make plug welding fast and easy. Panels won't separate and copper alloy pad prevents burn through, allows higher welding temperature and better penetration.

S23230 pliers 43.99 ea

S23231 replacement pad 14.99 ea

Vise Grip Flange Pliers

Preparing panels with an offset flange will produce a clean, flush fit. Work on up to 18 gauge sheet metal without removing panels from the vehicle. The added feature of "Vise-Grip" locking pliers allows for better leverage. Available with your choice of 1/2" wide non-slip jaw or wider 1" clamping surface.

S23229 1/2" wide jaw 45.99 ea

X9853 1" wide jaw 41.99 ea

Seam Buster HD Chisel

Easily separate spot welded or bonded panels. Save up to 15 minutes per panel replacement. Great for quarter panels, rocker panels and other pinch welded areas. Sharpened on two edges, the sharp end allows for penetration between panels and the side edge allows for side impact to drive the panels apart without damage. Made of super tough alloy steel. Cushioned handle absorbs shock.

S20015 straight 34.99 ea

S20016 90 degree angle 40.99 ea

S20017 air hammer 56.99 ea

Sheet Metal Tools

Blaiircutter

When you don't have a lot of holes to make, Blaiircutters provide fast, accurate holes in materials up to 3/16" thick. Blaiircutters are annular cutter drills that cut around the edge of the hole and eject the center as a slug. Because they're hollow there's no dead zone as with twist drills. And unlike hole saws, that rip and tear through the material, they quickly give you a quality, virtually burr-free hole. Sold individually.

Note: D.O.C. = depth of cut. Arbors and Cutters sold separately.

Premium Spotweld Cutters

When you have a lot of spotwelds to remove, step up to the premium spotweld cutters for longer life in today's high strength body steels. These cutters have a heavier wall (.090") for extreme durability and two step geometry that splits the chips and helps clear them. Premium spotweld cutters have a fast cutting action and lasts for hundreds of spotwelds. They are for use in 3/8" or larger drill chucks. The spotweld cutters are available individually or in sets containing arbor, 3 cutters, your choice of 2 skip proof or 2 standard pilots.

Stick Lubricant

Ideal for all Blair hole cutters. Softer than standard stick lubricants, it provides superior adhesion to the tool and can be used in place of cutting fluids on ferrous and non-ferrous metals to increase tool life, improve cutting performance and easier slug removal.
11750 1.68 oz..... 12.99 ea

Double-End Spotweld Cutter

Double-end spotweld cutters make removing body panels fast and easy. Their hollow design cuts around the spotwelds with sharpness that's unaffected tool sharpness. When one end becomes dull, simply unscrew the cutter and flip it over using the new teeth on the other end. An adjustable depth rod sets the tool so only the outer panel is cut, leaving the underlying panel undamaged.

Holocutter

Produce holes 3 times faster and cleaner than hole saws in sheet metal up to 1/8" thick and have dramatically extended tool life. Holocutters produce holes from 1/16" up to 3" diameter in sheet metal, rubber, gasket or fiber materials, and some plastics. Ideal for aftermarket installations, custom fabrication, trailers, or gauge installation. Arbor fits 3/8" drill chucks. Holocutters have a new patented Quad-Lead Thread System for quick cutter changes. Buy the set and save! Holocutter set includes: arbor, hex washer, extra pilot and the following sizes of cutters, 7/8", 1-1/8", 1-1/4", 1-3/8", 1-3/4", 2", and 2-1/2".

Note: D.O.C. = depth of cut. Arbors and cutters sold separately.

Rotabroach Cutter Set

Rotabroach annular cutters are ideal for sheet metal fabrication, painless dent removal and for cutting rustproofing access holes without clogging. Unlike hole saws and twist drills that push and tear through materials, these cutters will make hundreds of holes in steel, sheet metal or plastics up to 1/2" thick with no deforming of stock, jagged edges or out-of-round holes. Arbors for Rotabroach cutters fit 3/8" and 1/2" hand held drill chucks and use either spring loaded pilots or skip proof pilots which eliminate predrilling operations. Each set includes: arbor, hex wrench, center punch, extra pilot, and a variety of cutters as listed.

Note: D.O.C. = depth of cut. Arbors and cutters sold separately.

Power Steering Pulley Nut

This chrome-plated self-locking nut is designed for aluminum performance, OE and aftermarket pulleys on power steering pumps with a 9/16"-18 threaded shaft. MP645 1.99 ea

Warning: Concerning Steering Pump Pulleys

Stock replacement, aftermarket stamped steel or cast iron pulleys are not designed to exceed 400 horsepower or 6000 RPM. Using reproduction pulleys on engines in excess of these limits may result in catastrophic disintegration of the pulley causing severe damage to the engine, cooling system and body parts. Classic Industries[®] assumes no liability for damages caused by improper use of pulleys. Please be sure to install the pulley properly to avoid damages that could occur from improper installation or exceeding the recommended RPM limitations.

Power Steering Components

1968-91 Power Steering Line

The pressure line is essential on vehicles equipped with power steering. Check the pressure line on your GM truck model for small leaks or cuts which could cause damage to your system. Reproduction return lines also available to replace damaged, cracked, or worn original lines.

Note: *Except 1978 California models.

1963-87 Tubular Control Arm Set

These CPP tubular control arms are made from thick tubing to eliminate distortion from welding and hard use, the bushings are made from self-lubricating non-squeak patented plastic that will outlast any rubber or urethane. The billet 4140 alloy steel cross shafts and sleeves have an interlocking design that prevents the hardware from ever working loose. Sets include: upper and lower arms, billet cross shafts, and ball joints.

Note: Shipped overweight.

1963-87 StrongArm Front Control Arms

RideTech has developed a control arm system for 1963-87 Chevrolet and GMC 1/2 ton models to improve ride quality and handling performance. Tubular control arms add strength, style and improved performance. Self-lubricating Delrin bushings reduce deflection and suspension bind. Increased caster dramatically improves handling and control. Adjustable ride height to fine tune the stance. Powder coated in a satin black finish and completely assembled with ball joints and bushings. Made in USA.

ADDCO

1973-83 C10/C20 Tunable Rear Sway Bar

Hellwig's high-performance 1-1/8" heat treated tunable sway bar set for 1973-83 C10/C20 models. The bar has a 3 hole design allowing the rate to be adjusted to the driving style of the owner. This set includes U-bolts and brackets to fit on axles with both 3" and 3-1/2" diameter tubes. The adjustable end links let you perfectly match the bar to your specific suspension.

Note: Shipped overize.

Coilover Conversion Sets

1963-87 Front Coilover Conversion Set

QAI's pro coil system and control arms to upgrade your C-10 front suspension. Upper and lower control arms are made of 12 gauge HSLA steel tubing for increased strength and are powder coated for long-lasting durability. They feature performance ball joints and low friction, maintenance-free polymer bushings. This set adds up to 7 degrees of caster for more stability and allows for optimum camber adjustment in a lowered truck.

Important: Sets must use spindles compatible with 1973-87 ball joints.

1988-98 Front Coilover Shocks

QAI coilover sets are engineered from the ground up to offer unmatched performance over stock suspension setups. Pro coilover systems utilize adjustable coilover shocks and springs, designed specifically for replacing the factory shocks and springs. This combination offers ride height adjustment and variable position valving adjustment (where applicable) for performance not found in other kits.

1983-87 Rear Coilover Suspension Set

QA1 engineered a unique design offering 4" to 7" drop that maximizes performance without the inherent binding issues of other 4-Link systems. With superior control over suspension movement, you can easily dial in the stance for a smooth ride and great handling characteristics. The systems include unprecedented adjustability: the panhard bar, torque arm, trailing arms, bracket mounts, and shocks are all adjustable, and they are truly independent of each other, so you don't have to worry about one adjustment affecting another.

Note: Shipped overweight.

QA10007

QA10007 - detail

1988-98 Rear Coilover Suspension Set

QA1 rear coilover conversion systems are a great upgrade to your C1500 suspension. The torque arm suspension with C-Notch bracket is manufactured from 12 gauge HSL. A steel tubing for increased strength and is powder coated for long-lasting durability. Complete with adjustable instant center, panhard bar, and pinion angle to allow you to adjust the system to your exact needs. This set will add more stability and allows for optimum camber adjustment in a lowered truck.

Note: Shipped overweight.

Axle and sway bar not included.

Features:

- RideTech single adjustable coilover shocks
- Energy Suspension polyurethane bushings
- Bolt-on torque arm differential plates
- Mounting options for 12 bolt (truck) and Ford 9"
- 1-1/2" trailing arms w/adjustable 2" Johnny Joins
- Heavy-duty rear coilover crossmember
- 1-1/4" panhard bar
- Bolt-on axle brackets
- 3 height adjustments on the axle brackets
- Bolt-on shock brackets
- Bolt-on axle mounted sway bar (optional)
- Bolt-on C-notch plates
- Black powder coated springs
- Greasable urethane bushings

1963-72 C10 Coilover Torque Arm

TCI Engineering's 1963-72 C10 torque arm assembly is engineered for Street, Autocross, and Road course applications. The torque arm rear suspension was designed to eliminate the suspension bind that occurs when cornering using the stock truck arm suspension. The torque arm features a Currie Johnny Joint and special dog bone mount at the front of the arm that rotates and telescopes as the truck goes through suspension travel and articulation. This allows the trucks handling to be controlled by the coilover shocks and the rear sway bar with no suspension binding variables. The set allows for a lowered stance, greater rear axle control, and dramatically improved handling. Made in USA.

Important: Cutting of the frame rail for C-notch is required. Notch plates are included. 12 bolt rear ends will bolt-in.

Note: Shipped overweight.

Coil Springs

SMS6454

1963-81 Front Coil Springs

A correct ride height and positive handling can only be achieved if all of your truck's suspension components are in good shape. After years of hard work and bad roads, even the coil springs can get tired and sag. Replacing the coil springs can go a long way in renewing your trucks original ride and handling. Made in USA.

Note: *1973-91 coils fit 1973-86 C, 1987-91 R, 1973-91 Blazer/Jimmy, and 1973-91 Suburban models. Shipped overweight.

Performance Shocks

**1960-72 2WD 1/2 Ton Lowered Shock**

Designed to enhance the performance and provide quick response to road conditions for your 1960-72 GM 2WD 1/2 ton truck. The 180 psi nitrogen gas cylinder was specifically built with lowered trucks in mind to give a boost in cornering performance. Great for trucks lowered 1-2" in the front, and 2-4" in the rear. Solid individually.

Important: *For use on 1960-62 stock height trucks only.

**1963-99 Gas-a-Just Shock**

KYB's Gas-a-Just shocks are designed to deliver maximum driving performance and control. Gas-a-Just's higher gas pressure keeps tires glued to the road while its high strength, mono-tube configuration provides extra rugged durability and fade free performance. For a high-performance ride purchase a set of Gas-a-Just shocks.

**1967-98 Gas Shock**

Bilstein's shock bodies are precision formed through a unique seamless extrusion process, which provides superior strength and with high finish tolerances. The finished body is then mated with a solid induction hardened steel, chrome-plated and polished shaft, machined valving components and the highest quality seals. With such extreme attention to detail, Bilstein provides you with the closest thing to a hand built shock available today. With Bilstein's limited lifetime warranty, you may never have to purchase shock absorbers again.

Shock Components

1963-72 Front & Rear Air Suspension Set

RideTech has developed a front and rear air suspension system for 1963-72 Chevrolet and GMC 1/2 Ton models. C10's look fantastic with that ultra low stance! This CoolRide System accomplishes that on a budget with front and rear air springs and HQ Series shocks attached to the factory control arms. Made in USA.

1963-72 Rear Shock Relocation Bracket

When you lower the rear of a 1963-72 truck, the geometry of the shock absorbers are changed dramatically, causing your shocks to want to lay on their side, causing poor ride and handling. This shock relocation bracket set is designed for 1963-72 Chevy trucks that have been lowered more than 3" in the rear and corrects suspension geometry by mounting the shocks at the proper angle, allowing for more shock travel and a smoother ride. Comes complete with heavy-duty Grade 8 hardware for a complete installation.

63715LB

1963-72 Aluminum Lowering Blocks

This set lowers the rear of your coil spring truck 1", 1 1/2", or 2" without affecting your ride quality. These lowering blocks sets allow the vehicle's shock angle to remain unchanged from the factory position.

Works great with lowered coils to get that slammed look without sacrificing the handling characteristics.

Performance Suspension

Stage I
traditional coil springs and shocks

1" performance sway bar included

Stage II
Billet rebound adjustable coilovers

1" performance sway bar included

1947-59 Stage 1 IFS 

This is the front coil spring independent front suspension from TCI. Based on the traditional Mustang II style spindle, it is configured for increased camber gain and anti-dive for better performance. The upper coil spring tower accommodates traditional shim alignment adjustment instead of T-bolts. The upper control arm mounts onto vertical plate. Heavy-duty ball joints and control arms and a robust one piece lower control arm mounting pin add strength and durability without increasing weight. Includes: complete sway bar, standard rotors, and big bore calipers.

- Note:** Shipped truck freight.
- 5 x 4-3/4" with 10-1/2" Rotors**

1947-59 Stage 2 IFS

Stage 2 independent front suspension from TCI. The heavy-duty ball joints and control arms are built to support the extra weight of truck applications. Steering geometry is designed to maximize cornering grip with great street manners. Alignment adjustments are a snap with offset stainless adjusters. Ride height can be modified with billet rebound adjustable coilovers. The 11" piece crossmember design makes installation simple. Available with manual or power rack and pinion steering. Choose from 3 bolt patterns. Includes 11" vented rotors and uncoated tubular control arms.

- Tubular Upper and Lower Arms
 - 11" Rotors with 4 Piston Wilwood Calipers
 - Billet Single Adjustable Coilover Shocks with Chrome Springs
 - Heidt's Mustang II Dropped Spindles which Lowers the Truck Ride Height 3"

1947-59 Superide II IFS

Heidt's SUPERIDE II IFS System is the ultimate front suspension for your 1947-59 truck models! Gain the best handling for your street or muscle truck by installing this complete suspension system! Each system uses Heidt's Mustang II dropped spindle to allow for a front street mounted rack and pinion unit and provide plenty of engine clearance. For wheel alignment, the upper control arms use threaded adjusters which will not slip or lose alignment. SUPERIDE II is designed to be straight forward to setup, and with the detailed instructions, your installation will be as smooth as your ride.

Note: Welding is required. Professional installation recommended. Sets ship unassembled. Special order. Shipped overweight.

Performance Suspension

- Tubular upper and lower control arms
- 1-7/16" front sway bar
- 4" lowered front coil springs
- 6" lowered rear coil springs
- Front and rear Hotchkis Tuned/Bilstein shocks
- Front and rear shock relocater brackets
- Rear adjustable track bar
- Rear anti-squat bracket system
- Unique blade style rear sway bar system

1963-72 C10 TVS Suspension System

Nothing beats the Hotchkis Sport Suspension Total Vehicle System. Every aspect of the C10 suspension has been re-engineered for the maximum performance and is being offered in a complete tuned package. Contains tubular upper control arms and tubular lower control arms redesigned to extend wheelbase 1.8" and add up to +9 degree caster. Includes fabricated center link and heavy-duty tie rod sleeves to eliminate bump steer. This system is a proven autocross winner and designed for maximum performance improvement in a installer friendly set. Made in USA.

Note: Shipped truck freight.

C10 - 2 Wheel Drive	586.99 set
H80390	1963-72

- Tubular trailing arms manufactured from 2" o.d. 120" wall DOM (Drawn Over Mandrel) tubing to give extra strength and flexibility.
- Contoured bolt-on C-notches strengthen frame and allow maximum suspension drop and travel without cutting bed.
- Bolt-on tubular trailing arm crossmember strengthens frame and provides more clearance.
- Adjustable panhard bar offers increased strength and allows precise centering of your rear end to optimize tire clearance.
- Will allow use of coilover shocks, or ShockWaves®

1963-70 C10 StrongArm Rear Suspension System

This C10 rear suspension system is designed to complement the RideTech C10 front suspension system. Includes: trailing arms, C-notches, shock crossmember, front crossmember, panhard assembly, and hardware. Set does not include coilover shocks or ShockWaves®. Made in USA.

Note: Shipped double overdrive.

11337199	1963-70	C10	2549.99 set
----------	---------	-----	-------------

- Features:**
- American Made!
 - 82 lbs. lighter than stock clip for better balance
 - Crossmember delivers bolt-in 5" drop
 - Custom TCI Modular HD spindle design
 - Moog heavy-duty upper and lower ball joints
 - Energy Suspension polyurethane bushings
 - Bolt-on 1" performance sway bar
 - 12" vented rotors and big bore callipers
 - Rotors, spindles, and brakes come assembled
 - 5 x 5" hot pattern
 - RideTech single adjustable coilover shocks
 - Motor mounts accept SB, BB, and LS engines
 - Reinforced 3/16" thick crossmember

1963-87 C10 Independent Front Suspension

TCI Engineering's 1963-87 C10 Pro-Touring IFS is engineered for easy installation, performance driving, and broader range of alignment adjustments. This American Made front end will provide the ultimate in handling, weight savings, and strength. Instantly turn your truck into the ground hugging, finest handling pickup you desire. This suspension set gives your truck a lower center of gravity with less body roll, drops your truck 5" while increasing suspension ground clearance. Bolt-on crossmember utilizes heavy-duty components to provide safe, long-lasting enjoyment. The upper control arm mount design provides easy camber and caster adjustments. Maximizing ground clearance and performance is the primary goal. Bolts in with no cutting or welding required. Mounting hardware included.

Important: Painting and power coating are for display purposes only, parts are shipped unpainted.

Note: Shipped overdrive.

LR1910

LR1920

LR1920 - detail

1985-00 Locking Differential

These positive locking differentials deliver the most traction possible while still providing full differential operation! Just replace the existing spider gears with a pair of Lock Right driver and coupler gears in your existing stock open differential. Designed for fail safe operation and manufactured from high strength, ultra resilient, heat tempered steel alloys for maximum toughness. Prevents wheel "spin-up", and delivers traction that puts the power down with greater efficiency. Best suited for extreme off-road to severe on-road use. Give your classic truck or SUV the extra performance edge you deserve at a price that can't be beat!

Important: *It is very important that you verify that your cross shaft has been properly hardened, prior to installation. Simply take a file and attempt to scratch it out or groove near the center of the shaft. If you have a properly hardened cross shaft, you will not be able to scratch it.

Note: Not for use with positraction or limited-slip differentials. Use in stock, open differentials only.

1963-81 Rear Axle Repair Bearing

Replacement rear axle repair bearings for 1963-91 GM truck, Suburban, Blazer, and Jimmy models. This axle repair bearing is a sealed, self-contained, pre-lubed unit, ideal for when damage has occurred to the axle shaft from a worn out bearing, this bearing is engineered to relocate the load area of the bearing from the damaged section of the axle to just outward of the damage.

Note: This should be considered a temporary fix until you can replace the damaged axle.

Disc Brake Conversion Sets

11" Rotors and Factory Style Cast Iron Calipers

BK2015

1947-59 Five Lug Front Disc Brake Conversion Set

The 5 lug disc brake set swaps the factory 6 lug drums to the GM 5 x 4-3/4" bolt pattern. This set bolts on the stock spindle, replacing the original hub. Set includes: 11" rotors, loaded calipers, caliper mount brackets, bearings, hoses, mounting hardware, and booster.

Important: 1947-50 trucks may require drilling lower spindle hole from 7/16" to 1/2". Original manual transmission may require modifications to transmission crossmember.

Note: Shipped overweight.

1967-91 Power Brake Booster

Having trouble with your power brakes? You may need to replace your power brake booster. Features: OE quality seals, diaphragms, and check valves are installed on every unit for like-new performance and reliability vacuum tested to ensure reliable performance. Exclusive rust prohibitive finishing process extends unit life. Our re-manufactured brake boosters carry a manufacturer's limited lifetime warranty.

Important: Boosters are not available in original color.

Remaster Master Cylinder

Baer Brakes introduces the remaster master cylinder. The Remaster is a direct replacement for other master cylinders and are available with GM bolt patterns. Left or right hand port configurations and compact design to make fitting easier. Master cylinders are available in these bore sizes: 15/16" for manual, 1" for power, 1-1/8" for hydro-boost brakes and provides the best balance between pressure and volume for great braking performance. A mount is machined into the bottom of the master cylinder for a Baer billet bracket and adjustable proportioning valve (sold separately).

1967-87 Brake Combination Valve

If you need a new disc brake metering valve or want the more updated look of a brake combination valve in your 1967-72 truck, or need a replacement for a 1973-87, these carefully machined reproduction brass combination valves are the perfect replacement solution. Will fit and function for all 1967-87 models with either factory disc/drum, or disc/disc brake conversions.

Combination Valve Set

AUTHORIZED

Proportioning Valve LH Mount Bracket

Universal fit brackets to mount the proportioning valve under the master cylinder or on the LH side of the master cylinder towards the driver side fender. Will fit most aftermarket 7"-11" boosters with a GM style master cylinder.

Below Master Cylinder Mount

153652B chrome-plated ... 16.99 ea
153652A zinc-plated ... 11.99 ea

LH Side Mount

153653B chrome-plated ... 14.99 set
153653A zinc-plated ... 11.99 set

Adjustable Proportioning Valve

Precision proportioning from 100 to 1000 psi. At full release, valve is capable of up to 57% reduction in line pressure. The new smaller body accommodates easy mounting in a variety of locations in conjunction with two 1/4" diameter holes on 1.00" centers. Along with standard 1/8" NPT inlet and outlet ports and two 1/8" NPT to 3/8-24 inverted flare brake line adapters included with each valve makes installation simple.
2608419 48.99 ea

Universal Proportion Valve + Block

Universal proportion valve and distribution block all in one. Features a rotary adjustment to regulate rear brake pressure and help maintain correct brake bias between front and rear. Distribution block connects to master cylinder and distributes brake fluid to all four wheels. Includes: five stainless steel fittings for 3/16" brake line, brake light switch, and wiring pigtail.
PB1107 without lines/bracket 70.99 ea
PB1108 with prebent lines/bracket 116.99 ea

Universal Adjustable Combination Valve

Universal adjustable brake combination valve. Features a rotary adjustment to regulate brake pressure. Includes five stainless steel fittings for 3/8" brake line, brake light switch, wiring pigtail, and residual valves where applicable.
PB1109 valve only 70.99 ea
PB1110 with drum/drum residual 95.99 ea
PB1112 with disc/drum residual 95.99 ea
PB1113 with disc/disc residual 85.99 ea

Adjustable Proportioning Valve

The PROP-BLOCK is a precision machined combination distribution block and adjustable proportioning valve in one. The valve connects to the master cylinder and distributes brake fluid to all 4 wheels, while the adjustable proportioning valve regulates rear brake pressure, maintaining correct brake bias between front and rear brakes. A built-in switch activates brake lights when brake pedal is depressed. *Important: This is not a direct factory replacement for original blocks and some line modifications may be necessary.*
APVDB black anodized finish 94.99 ea
APVDBC chrome finish 104.99 ea

Residual Pressure Valve

A 2 pound valve is used in disc brake systems where the master cylinder is mounted below the horizontal plane of the calipers and fluid drain back occurs from gravity and vibration, thereby causing excessive caliper piston retraction and a longer brake pedal stroke. A 10 pound valve is used with drum brake vehicles to compensate for return spring tension in the drums. Fittings are included.

2 Pound Valve - Blue
26013783 with fittings 22.99 ea
10 Pound Valve - Red
26013784 with fittings 22.99 ea

Brake Warning Socket and Wire

Pressure differential warning light socket and pigtail. Required when adding disc brake master cylinder and proportioning valve to hook up the brake warning light.
PV1530 socket and wire 15.99 ea

Proportioning Valve Bleed Tool

Proportioning valve bleed tool for all non-adjustable GM style proportioning or combination valves. Designed to replace the warning light switch during the brake bleeding process to lock the low pressure shut valve and allow fast and easy brake system bleeding.
P19842 all GM style valves 9.99 ea

Brake Hoses

1947-91 Brake Hose — 1/2 Ton ⚠️

All hoses are produced with original style fittings and plated with either a silver finish or gold cadmium finish. These hoses are extra durable and produced using DOT approved brake fluid resistant ribbed hoses.

1981-99 Braided Brake Hose Set - 1/2 Ton

Increased stopping power, better pedal feel, and improved safety are some of the qualities you can expect with stainless steel braided brake hoses. These quality brake lines are subjected to a 9 step quality assurance testing process including pressure testing each line up to 3000 psi. All lines are DOT certified and T.U.V. (Germany) approved. All sets include 3 lines.

1981-00 Braided Brake Hose Set - 3/4 & 1 Ton

Increased stopping power, better pedal feel, and improved safety are some of the qualities you can expect with stainless steel braided brake hoses. These quality brake lines are subjected to a 9 step quality assurance testing process including pressure testing each line up to 3000 psi. All lines are DOT certified and T.U.V. (Germany) approved. All sets include 3 lines.

Push Button Parking Brake

The E-Stop is the perfect E-brake for stock or custom vehicles. It not only frees up room on the chassis and in the cab but doubles as an anti-theft device when the button is hidden. It works with any kind of brake system that can accept an E-brake cable. Includes the actuator, the control box with switch and wire connectors. It replaces hand, pedal, or lever brake and mounts conveniently under the vehicle's carriage. The E-Stop® attaches directly to your current E-brake cable and has a micro-computer that regulates the proper amount of pressure to your braking system—it will only pull up to 600 lbs before its locked down. For safety, the brake is inoperable while the ignition is on. Made in USA.

Important: If your brake cables are old, we recommend purchasing Lokar's universal rear parking brake cables.

You have a choice of a black housing BC80B or a stainless steel housing BC80. It will make the installation easier and cleaner.

1947-54 "U-Cut-to-Fit" Rear Brake Cable

These are rear brake cables sets that mount on the backing plates on the rear end to the original cross shaft on the chassis for 1947-54 Chevrolet truck models. Designed with a specially extruded liner for extended life of the cable and the stainless cable resists moisture. The design allows the rear end backing plate fittings to be removed without retreating brake cables. These cables also feature two adjustable cable locks and clevis. The set includes two 4 foot outer housings that are "U-Cut-To-Fit" in either stainless steel or black housings.

STEERING, SUSPENSION, REAR END & BRAKES

Brake Tools

Brake System Power Bleeder

This is a simple, one person operation with no external power source needed. Includes a precision pressure gauge for safe operation and you can flush the entire hydraulic system without frequently refilling the reservoir. This unit features a large reservoir that holds up to 2 quarts of brake fluid. Complete system includes reservoir with gauge, hoses, fittings, instructions as well as two adapters that will fit most GM master cylinders.

1992-96 Adapter
 1108 for plastic twist-lock cap..... 29.99 ea

Mityvac Brake Bleeder

The Mityvac Brake Bleeding set can be used on virtually all hydraulic systems including most ABS systems. It's a rugged, low cost professional tool which enables one person to efficiently bleed brakes, clutches, or other hydraulic systems. Choose from our sturdy polymer plastic bleeder, designed for occasional use, or step up to the heavy-duty model designed for the professional mechanic.

- 04000 "professional" model..... 139.99 set
 06820 "do-it-yourselfer" model..... 61.99 set

One Man Brake Bleeder

Loosen the bleeder screw and fill with brake fluid. Pump the brakes until the hose is free of bubbles. Everything is included to quickly bleed brakes with no mess. Plastic bottle collects discharged fluids. Complete instructions included.

- Y19200 10.99 set

Brake Bleeder Wrench

These will ensure that you don't strip the bleeder nuts on your calipers or cylinders. Check size before ordering.

Y10950 1/4" x 3/8"..... 10.99 ea
 Y10900 5/16" x 3/8"..... 8.99 ea

Brake Adjustment Tool

Speed up star wheel adjusting on drum brakes by simply inserting the tool through the slot in drum backing plate. A different angle at each end adapts to many various models.

- Y50700 4.99 ea

Brake Spring Removal Tool

The standard tool will remove springs that are set over a post. The heavy-duty brake spring tool will remove springs installed through a hole.

- Y46750 standard tool..... 14.99 ea
 Y44800 heavy-duty (lg. brake springs)... 13.99 ea

Brake Spring Pliers

Removes and installs shock return springs on most drum brakes. Socket end removes spring from anchor stud. Notched end installs spring on anchor. Pliers remove and install the return spring to outside of brake shoe.

- X298 24.99 ea

Brake Cylinder Hone

Special abrasive pads polish the cylinder without cutting. Controlled pressure, three abrasives, and flexible driver give good stability and speed. Stones are 1" long. Range 1-1/2" to 3-1/8".

- Y10400 hone..... 25.99 ea
 Y10490 set of replacement abrasives..... 6.99 set

This unique tool makes changing disc brake pads easy. The tool compresses the disc brake piston for easy installation of pads.

- Y24400 10.99 ea

Speedy Brake Pad Spreader

The pistol grip ratcheting action and the fast acting plunger compress disc brake pistons in seconds. This makes brake pad replacement a snap.

- Y24300 single piston pad spreader 49.99 ea
 Y25750 dual piston pad spreader 64.99 ea

Double Flaring Tool Set

If your brake or fuel lines need to be flared, this is the right tool for you. This set allows the user to make single or double SAE flares to exact dimensions. Great item to keep in your tool box.

- Y13110 41.99 set

Tubing Bender

This tool make bends easy without the tube collapsing. Tube benders can be used for bending copper or steel tubing such as brake, fuel, transmission cooler, or power steering lines.

- V025700 5/16" and 3/8" lines..... 59.99 ea

Brake Fluid

Willwood offers two grades of high-performance brake fluid. Hi-Temp[®] 570 for severe heat. EXP 600 Plus for extreme performance under the high heat of professional motor sports. Always add new fluid to a clean system. Sold by the case.

- 2908478
EXP 600 Plus - 62° Boiling Point
 2908478 six 16.9 oz bottles..... 136.99 cs
Hi-Temp 570 - 570° Boiling Point

Disc Brake Rotors

Slotted
 to move gas and
 heat away from the
 braking surface.

CB2082CL

1971-91 Sport Rotor Slotted

Sport Slot rotors are given a cryogenic treatment. Deep cryogenic treatment is a one-time process that permanently improves the performance and service life of metal components. Sport Slot Rotors feature a signature "short slot" design, which improves performance by wiping away the debris of used friction material that otherwise accumulates between the rotor and pad. This keeps fresh pad material exposed to the rotor surface and helps prevent pad glazing.

Note: 12" rotor actual measurement is 11.85".

1971-91 Front Brake Rotor

These brake rotors feature machined non-friction surfaces for better balancing, creating a cleaner, more finished looking rotor to provide better stopping power, especially in repeated stopping situations. Each rotor is straddle cut and features a double disc ground finish to virtually eliminate run out disc thickness variation. This also produces a non-directional finish for better pad and rotor break-in.

Note: 12" rotor actual measurement is 11.85".

Universal Front Caliper Set

Brand new reproduction (not rebuilt) brake caliper that was factory-installed for many years on a wide variety of GM mid-size vehicles. This caliper will fit any bracket/spindle designed for the large GM calipers with the 7" mount width. Features include a 7/16"-20 inlet so you can use the readily available brake hoses and hardware from Pre-1978 GM midsize models. Supplied without brake pads so you can select the pad type of your choice. Sold as a pair.

Note: Depending on the spindle and rotor size it will not fit most applications running 14" wheels, nor will it fit on most 15" drum brake wheel applications.

154897 front..... 137.99 pr

New!

OE AUTHORIZED

Universal Front Caliper Set

Reproduction single piston metric calipers like those that were standard equipment on 1978-88 GM mid-size vehicles. Features a 2.375" single piston, shielded bottom inlet, and 5-1/2" mounting bolt spacing. The compact size will save 3-1/2 lbs. per side compared to mid-size 1969-77 calipers that are often used in performance brake conversions. IMCA approved. No core charge required since these are brand new units. Sold in pairs.

Note: Does not include brake pads, slider bolts, or bushings.

1971-91 D52 Front Caliper Upgrade Set

Wilwood's D52 front caliper set is a direct bolt-on 2 piston replacement for the factory original single calipers on many 1971-91 truck models. Forged billet aluminum bodies, stainless steel pistons, and competition style high-temperature seals put an end to the rust, bore pitting, and seal failures that plague the OE caliper design. D52 calipers mount in the stock location over stock rotors, use the original style OE D52 brake pads and an OE 7/16"-20 banjo bolt brake line mounting. Set contain Wilwood's hardened slide pins and BP-10 high friction pads.

1971-91 Disc Brake Pads

Semi-metallic brake pads are manufactured using the same methods as OE suppliers to assure consistent friction material density throughout the pad. This results in even wear and performance throughout the life of the brake pad. They are scorched to remove impurities in the friction compound and prepare the brake pad to bite right out of the box.

1980-87 C10/C20 Disc Brake Spindles

Make your disc brakes compatible with a set of CPP brake spindles. These are the same spindles sold in CPP OEM sets and upgrade sets. Cast from the highest quality ductile iron with 4140 chromoly CNC-machined pins. Accepts factory ball joints and tie rod ends. Designed to use 1971-87 1-1/4" rotors, calipers and bearings. These have the original C10 offset to keep your wheels in the drum brake location. On a factory disc brake equipped truck, the spindles will have the wheels move in almost a 1/2".

Hi-Temp Wheel Bearing Grease

When replacing or just repacking your wheel bearings, don't use ordinary grease. Protect those bearings with a high-quality, high temperature bearing grease. This is a very stable aluminum complex thickened grease used for the lubrication of wheel bearings, chassis ball joints and other bearing applications operating under severe conditions. This product assures high temperature protection from excessive heat generated by disc brakes. Also pickup the perfect tool for the mechanic who is tired of packing bearings by hand. This universal bearing packer works on most cone type bearings.

GR224	1.49 oz. can	11.99
Y65250	universal bearing packer	12.99

Handy Packer Bearing Packer

The Handy Packer works on bearings up to 3 1/2" o.d. The grease stays in the tool cavity, not on your hands. To pack a bearing, place the bearing on the piston. Press down on the cap until the old grease is forced out and the new grease shows on top of the bearing.

OLS773

The American Racing Outlaw

In the 1980's the modular wheel became the hot ticket on any late 70's or 80's muscle car. The wheels were called modular because they consisted of three elements... an aluminum wheel center (in various styles), an inner rim and an outer rim. The combination of these "modules" allowed for an unlimited range of possibilities when it came to wheel specifications. The true modulars, however, were a bit pricey for the average Joe. This soon led to an influx of modular copies and 1 piece wheels built with a modular look. This modular style wheel is manufactured by American Racing. It is a one piece machined alloy wheel with a modular look. It comes clear coated and includes a center cap. It's a good choice if you're looking for a period correct wheel design at a great price.

Note: Shipped overweight.

Era Correct Custom Wheels

61614

S/S Super Sport Wheel

The Cragar S/S wheel was first introduced in 1964 and became one of the most popular wheels of the muscle car era. Because it was chrome-plated rather than polished aluminum, it held its shine and was easier to keep clean. Instead of requiring time consuming polishing, the Cragar S/S is ready to show with a simple hosing off and wiping down. Chrome aluminum center cap is included with each wheel. Lug nuts sold separately.

Note: Shipped overweight.

3977750

397 Series Soft-8

One of the most widely chosen aftermarket wheels available, Cragar offers the 397 Series Soft-8. It's modern look immediately became a hit with the truck models. The Cragar 397 Series Soft-8 is powder coated black which makes them easy to clean by hosing them off and wiping them down. Center cap and lug nuts sold separately.

Note: Shipped overweight.

32 Series Keystone Classics

One of the most widely chosen aftermarket wheels available during the muscle car era was the Cragar Keystone Classic. Popular for their composite design, the chrome-plating on the Keystone Classics made them much easier to clean than aluminum or mag wheels because they required no polishing. Cleaning them was a breeze by just hosing them down and wiping them off. These wheels are now back in style with sport truck enthusiasts who prefer a custom look, but wish to keep their vehicle "period correct". Chrome aluminum center cap is included with each wheel. Lug nuts sold separately.

Note: Triple bolt pattern 5 x 4-1/2", 5 x 4-3/4", and 5 x 5". Shipped overweight.

1947-66 Chevrolet Truck Radiator

OER® Authorized radiators for 1947-66 Chevrolet truck, panel, and Suburban are manufactured from durable copper and brass materials and are based on the original GM style core with 1/2" tubes on 9/16" centers. All radiators feature factory style stamped tanks in the original configuration. If you want an original appearance and OE equivalent durability, then this is the radiator for you. Each radiator mounts using original style mounting brackets or top retainer brackets as applicable. These radiators are produced in 3 and 4 row configurations. Dimensions listed are for the radiator core only.

Important: To ensure that the proper radiator is selected, only measure the core of the radiator.
Note: Shipped oversize.

1947-72 High Efficiency Aluminum Radiator

Reduce the heat in your engine by installing one of these high efficiency Desert Cooler aluminum radiators. These are non-polished aluminum radiators that offer up to 15% better cooling over common brass/copper radiators. These bolt-in, direct fit radiators feature an efficient 2 row design of large, 1" wide cooling tubes for increased water flow.

Important: Core sizes on aluminum radiators may differ from cores on original copper/brass radiators, but will bolt-in just like original.

Note: Shipped oversize.

1947-12 Performance Aluminum Radiator

Improve the cooling capacity of your engine with Cold-Case performance radiators for 1947-12 Chevrolet/GMC truck models. Feature an all aluminum construction that is good at dissipating heat and saving energy, with 2 oversized 1-1/4" cooling rows, and polished stamped OE style tanks. All Cold-Case radiators are 100% TIG welded, pressure tested, and feature 16 fins per inch, corrugated fins that give more surface area and more thermal transfer. All radiators include OE style fittings for automatic applications. All radiators manufactured by Cold-Case are guaranteed to be free from material and workmanship defects for the life of your installation.

Note: Shipped oversize.

1955-87 Performance Aluminum Cooling System

Be Cool radiators are designed to provide the added cooling capacity required by high horsepower engines. These all-aluminum radiators can be up to 40% lighter than traditional copper/brass radiators and feature high-quality aluminum welds to enhance the appearance of your vehicle. Includes: aluminum radiator, radiator cap, electric fan(s), vented coolant recovery tank, aluminum fan mounting brackets, electric fan wiring harness, and installation hardware. Dimensions listed below are core size.

Important: Module sets with radiator cores 22" or smaller will include a single fan, sets with radiator cores 24" or larger will include a dual fan.

Note: *Some modification necessary to upper/lower hoses and transmission lines for cross flow conversion radiator upgrade. Shipped double oversize.

1947-87 Polished Aluminum Radiator

These polished high-performance radiators are manufactured from TIG welded aircraft grade aluminum with brazed aluminum cores and billet filler necks. Each radiator offers high capacity cooling with lowered fins and 3/8" spacing between core tubes. Designed for direct fit installation. Radiator cap is included.

Important: All radiators have built-in automatic transmission coolers and can be used in both automatic and manual transmission applications. Core size dimensions listed below.

Note: * Does not have transmission cooler. Shipped oversize.

Radiators and Components

ALL AFCO radiators offer a furnace brazed sealed core without the use of epoxy, and are all 100% tested before shipping.

AR80243N1

1967-87 Performance Aluminum Radiator

Constructed of 100% polished aluminum, using no epoxy for trouble-free service. This radiator fits in the factory mounting location and features TIG welded, laser cut tanks and high-performance, dual 1" core tubes. The factory fan shroud can be reused without modifications while the inlet and outlet are in the stock locations so the factory style radiator hoses can be used. Available with a built in transmission cooler with the correct dimensions to use the factory transmission lines. For use with both small block and big block engines.

Note: Shipped oversize.

MISHIMOTO
Mishimoto radiators are constructed of high-quality aluminum for optimal heat dissipation

detail

153515

1947-86 Performance Aluminum Radiator

Mishimoto performance radiators for 1947-86 models are made with 100% aluminum construction which provides greater heat and pressure tolerance, better heat dissipation, increased durability, improved cooling efficiency, and improved structural rigidity. All radiators feature a 3 row brazed aluminum core with an internal transmission cooler to provide optimal fluid temperatures for automatic transmissions. Each radiator includes a Mishimoto radiator cap, magnetic drain plug, and is backed by a manufacturer's lifetime warranty.

Important: Radiators will work with automatic or manual transmission vehicles.

Economy Replacement Aluminum Radiator

Don't be fooled by the price of these radiators. These quality lightweight aluminum radiators stand up to the demands of everyday driving with excellent cooling properties. These replacement radiators vary in appearance from the originals, but fit in the factory mounting locations and work with original fan shrouds. All radiators feature an automatic transmission cooler, but can be used in manual transmission vehicles.

Important: The core is slightly smaller than the original, this will not lessen cooling capabilities. Measure your core. Hose adapters are included.

Note: *With raised filler neck. Shipped oversize.

Fan Shrouds

1947-55 Custom Fan Shroud Panel

Having a fan shroud on your GM truck with air conditioning will enhance cooling system performance and help eliminate overheating. This fan shroud assembly is designed to substantially lower engine temperatures and lower air conditioning head pressures. This will also improve your AC system's efficiency at the same time. Measures: 19-3/4" x 19" x 2" thick.

Note: Must cutout the fan hole.

J AC, HEATER & COOLING SYSTEM

Molded Hoses and Clamps

Z71051

Custom Engine Coolant Plumbing

Build your own custom silicon radiator hose system using this basic set and/or these individual components! Mandrel bent tubes feature beaded ends for a positive seal with the available high-quality reinforced black silicone hoses. Hoses and tubes are available in 1-1/4" to 1-3/4" diameters.

1-1/2" Plumbing Set

Set contains one each: 90 degree, 45 degree, and a straight 1-1/2" reinforced black silicone hose. A 1-1/2" 45 degree mandrel bent and 1 straight aluminumized steel tube with beaded ends.

Z71051 6 piece 89.99 set

1963-86 Fan/Shroud Assembly

Keep your 1963-86 truck cool with the Mishimoto performance fan shroud assembly! This unique electric fan shroud setup completely eliminates the stock, failure prone mechanical fan. The shroud mounts exclusively to Mishimoto's performance radiators and includes a single 16" or dual 14" high-flow electric fans that produce over 1300 cfm of airflow.

Important: Will only work with Mishimoto radiators.

 SP2067 on 195°/off at 175° 55.99 ea

Black Magic S-Blade

This universal fit Flex-a-lite electric fan features computer engineered blades that are extremely quiet and efficient, and moves 3000 cfm of air to provide consistent cooling, regardless of engine RPM. This electric fan fits vehicles with 16" or wider radiator cores, and requires a mounting surface of 18" x 16" x 4-1/4" for an easy, bolt-in installation. Universal mounting brackets and wiring are included.

FL160 319.99 ea

USA

Low Profile Electric Fan Assembly

This complete electric fan kit includes all the components for installation. Provides for better cooling and gas mileage without robbing horsepower. Dual electric S-blade fan system moves 2500 cfm of airflow. Shroud measures: 26-1/4" x 15-1/2". Made in USA.

FL210 dual 12" 2500 cfm 396.99 ea

FL116

Trimline Electric Cooling Fan

When mounted in front of the radiator and used as an auxiliary fan in addition to your stock belt driven fan, this electric fan provides better cooling in any engine prone to overheating. Made in USA.

Note: Wire harness, temperature switch, or adjustable thermostat sold separately.

Syclone Electric Fan

The Flex-a-lite Syclone electric fan is the most efficient S-Blade fan blade on the market! This quiet fan mounts to the core and can be used to push or pull air through the radiator. The higher torque (17 amp) motor produces 2500 cfm of air flow, making these fans strong enough to replace your belt driven fan and fan clutch to gain more horsepower and torque. The sweep style blades squeeze out the maximum air flow possible.

16-5/8" x 15-3/4" x 4" Mount

RON FRANCIS

Cooling Fan Shutdown

This cooling fan shutdown set shuts down your electric cooling fan above 50-60 MPH to improve engine cooling by preventing the electric fan from fighting airflow through the radiator at highway speeds. The unit is adjustable and may be overridden by using the supplied dash mounted toggle switch. This set is designed to be used with the supplied signal generator which must be installed into the speedometer cable.

TF900627 214.99 set

RON FRANCIS

"Ice Box" Cooling Fan Control

Available as a single fan control or dual fan/2-speed fan control unit. The sensor is simply tightened on an intake or water pump bolt. It can then be adjusted to your exact preference for on and off temperature.

It is equipped with an AC request system to turn the cooling fan on whenever the AC compressor engages (this feature does not have to be used). The dual fan control can operate 2 fans at different temperatures or a single 2-speed fan at different temperatures. Features exclusive lug sensor that mounts under almost any engine bolt. Each unit has a fully adjustable operating range of 140-230 degrees.

Note: With Walker 2-speed fans.

TF900635 dual control 172.99 ea

RON FRANCIS

Delayed Cooling System Shutdown

Timed cooling system shutdown features adjustable relays that keep power to the cooling fan and electric water pump (if equipped) when the keys is shut off. This reduces the block temperature as much as possible without the risk of killing the battery. This is a timed circuit and does not use a thermostat or other fan control to operate.

TF900632 172.99 ea

Fan Controllers/Temp Senders

Electric Fan Controller

Includes a 70 amp relay and will work with your existing water temperature gauge, operating from the temperature sending unit already installed. A dedicated sending unit can be installed for applications without a water temperature gauge. Operating range of 150-250 degrees F and features fully programmable "fan on" and "fan off" temperature functions to suit any application. This also gives you the capability to leave the electric fan operating after the engine has been shut down for a user adjustable period of time. High-quality LED readout displays current temperature readings.

SU110 SU102

1980-11 Coolant Temperature Sensor

The coolant temperature sensor sends a signal to the electronic control unit relative to the coolant temperature in a computerized engine control system. Located under the hood, mounted to the front driver side of the intake manifold. Triggers many engine functions. Faulty sensors can cause a variety of cold performance problems as well as emissions failures. Symptoms of a bad sensor may include poor cold idle, stalling, cold hesitation or stumble, or poor fuel mileage.

J-B Weld Cold Weld

J-B Weld is a great alternative to welding, soldering and brazing. This two part system is mixed 1:1, it forms a permanent bond and can be shaped, tapped, filed, sanded, painted and drilled after curing. Cold weld will bond to most clean and dry surfaces and sets in 1-2 hours and will fully cure in 16-24 hours. Waterproof, petroleum, chemical, and acid resistant when fully cured. Non-toxic and temperature resistant up to 600 degrees F. Made in USA.

 JB8280 two 5 oz. tubes 15.99 ea

Purple Ice Super Coolant

Purple Ice is a high-performance, synthetic, radiator coolant additive. It reduces engine heat by reducing the surface tension of the radiator fluids for improved heat transfer. It also lubricates the water pump seals. Purple Ice should always be used in conjunction with anti-freeze in regions where freezing temperatures occur. Purple Ice is recommended for any water/glycol pressurized cooling system.

Coolant System Protector

Joe Gibbs Driven Coolant System Protector removes impurities in well water that can cause rust and corrosion inside the radiator, water pump, and cylinder heads. Over time, this can lead to a loss of cooling efficiency. Joe Gibbs Driven Coolant System Protector stops the adverse effect of hard water to help prevent cooling system damage. Offers protection for both cast iron and aluminum components.

Water Pumps

1947-02 New OE Style Water Pump

These 100% new water pumps actually perform better and last longer than conventional new water pumps because they're engineered with insight. Developed with advanced 3D modeling and design software tools to deliver dimensional precision. Unitized seals produced with superior materials. Bearing type and materials meet or exceed original specifications.

SB High Volume Aluminum Water Pump

High-performance, small block high volume aluminum water pump features balanced distribution and improved efficiency with close tolerance impellers that increase coolant flow over stock pumps. This increases the pressure within the block to help prevent hot spots. When used with a non-restrictive, high flow thermostat (sold separately) this pump to work to its highest capability. Available in natural aluminum, polished aluminum, or chrome.

Electro

Aluminum High Flow Water Pump

These "super cooling" pumps are computer designed to deliver more flow at a higher velocity. They're the ideal choice to prevent overheating in any performance vehicle. Precision cast powdered metal impellers have extra large vanes for the maximum flow rate possible, ensuring adequate pressure and volume even at lower engine speeds. They feature a 5/8" pilot shaft.

High Flow Water Pumps

Cast Iron High Flow Water Pump

These high-performance, high volume water pumps feature balanced distribution and improved efficiency, close tolerance impellers that increase coolant flow up to 30%. This increases the pressure within the block to help prevent hot spots and steam pockets, as well as improves coolant flow through the radiator. Use in conjunction with a non-restrictive, high flow thermostat to enable the pump to work to its highest capability.

Electric Water Pump Relay

These relays provide maximum battery voltage to maximize cooling efficiency and to protect the main electrical system from damaging amperage overloads. Chose from a regular water pump relay or a weatherproof water pump relay which is perfect for the harsh weather conditions, this relay set provides complete protection from the elements and ensure reliable and dependable performance. These sets utilize heavy-duty waterproof relays, weatherproof circuit breaker covers and extreme condition weatherproof shrinkable crimp-on terminals.

Water Pump Pulley Warning

Stock replacement, aftermarket stamped steel or cast iron pulleys are not designed to exceed 400 horsepower or 6000 RPM. Using reproduction pulleys on engines in excess of these limits may result in catastrophic disintegration of the pulley causing severe damage to the engine, cooling system and body parts. Classic Industries' assumes no liability for damages caused by improper usage of pulleys.

Fan Belts/Belt Tensioners

YE15445

V-Belt Style Fan Belt

Classic Industries® offers a wide variety of new fan belts designed to replace your original. Make sure your belts are in top condition before starting off on your next road trip. Belts can be inexpensive, yet are an often overlooked component of a daily driver. Replace your weathered belts before you get left stranded due to overheating, dead battery, etc. Better yet, buy a new set to install and keep a spare set just in case you should have a broken belt while on the road with your classic vehicle.

6009C	90 degree	SB and BB	37.99 ea

Thermostats

MOBRO

Water Outlet Restrictors

If coolant travels too fast, it doesn't absorb enough heat inside the engine or properly cool down as it passes through the radiator. That's why it is still important to restrict coolant flow in applications where a thermostat isn't desired. These restrictors come in a set of 3 with a 5/8", 3/4", and 1" hole to allow adjustment for optimum cooling. Each 2-1/8" plate is made from anodized aluminum and fits under the water outlet in place of the thermostat.

263440 restrictor plate set 16.99 set

1955-87 Water Neck O-Ring

Avoid water leaks which can compromise your cooling system.

Reseal your water neck with this replacement "O" ring. For use on various GM models.

Air Conditioning Systems

GEN-V SureFit Systems Feature:

- Fly-by-Wire Fully Electronic Servo Motor Controls
- No Cables or Capillary Tube to Route
- Separate High Capacity Heat and Cooling Coils
- Behind the Dash Evaporator

1947-55th Chevrolet/GMC GEN-V SureFit AC System ⚠

This complete air conditioning retrofit system features air conditioning, heating and defrost functions and is designed specifically to mount in your vehicle using existing holes in your dash and firewall. AC systems feature exclusive cable replacement modules that connect to your original control panel to operate the system as if it were original. Sets include: a compressor, evaporator, condenser and mounting brackets, dryer, all louvers, ducts, hoses, wiring, preformed aluminum lines, and complete installation instructions.

Important: Some installations may require additional engine pulleys not included with these systems. V-belts and refrigerant not included.

Note: A special shipping charges of \$59.95 applies. Special order, must be prepaid. **SP1**

J AC, HEATER & COOLING SYSTEM

Air Conditioning Systems

Hurricane Air Conditioning Retrofit Systems

Old Air Products' AC systems are manufactured for R-134a or R-12 refrigerant as desired. It will be necessary to specify your preference when ordering. Vehicles that have an electric radiator fan but no condenser fan must have the electric radiator fan wired with a pressure switch or compressor clutch relay to engage the fan when the AC system is activated (AC head pressure will increase much faster than coolant temperature, which can cause damage to your AC system). Complete AC systems include: custom evaporator/heater/blower unit with mounting bracket, duct hose, vents, glove box (when necessary), integrated switches, wiring harness, control cables, heater valves, AC compressor, compressor mounting brackets, high/low pressure safety switch, AC hose kit, receiver/dryer, custom condenser tubes, condenser, necessary hardware, and complete illustrated instructions.

Important: Systems do NOT include additional pulleys, belts, or refrigerant necessary.
Note: Special order; must be prepaid.

1947-55^{1st} Hurricane AC System with Under-Dash Controls

Uses original firewall mounting and pass through holes. Retains factory cowl vent, handle, and majority of glove box. Available in five different switching configurations.

Note: Shipped double oversize.

1947-53 Hurricane AC System with In-Dash Controls

This system features the blower switch, thermostat and L louvers that mount behind the speaker grill along with 2 rectangular under dash louvers for the right and left side of the dash. Defrost and heater valve controls mount in the original choke and throttle hole in the dash. Uses original firewall mounting and pass through holes. Retains factory cowl vent, handle, and majority of glove box.

Important: Kits listed below are for driver side compressor. For passenger side compressor add a "1" to the end of the part number.

Note: Shipped double oversize.

Air Conditioning Components

1962-86 Aluminum AC Compressor

This is a 10 cylinder "bolt-in" direct replacement for the GM Frigidare/Harrison A-6 compressor. This new design is specifically engineered to fit the A-6 mounting brackets and AC hose assemblies. This highly efficient compressor offers a smoother, quieter operation, creating less vibration and engine drag, increased fuel mileage, improved engine and cooling system performance. The aluminum body is 52% lighter than the original A-6 and displaces 210cc. Designed to accept both superheat and high pressure safety switches. Includes a single groove clutch and oil; compatible for R12 or R134A. Fits 1962 and later models with the A-6 compressor. Hardware and instructions included.

1947-87 Condenser with Dryer

Vintage Air SureFit air conditioning condenser sets for 1947-87 Chevrolet and GMC pickup truck models. This set has been custom designed to mount directly into the specific vehicle application. It includes a modern parallel flow AC condenser, a receiver/dryer, a binary safety switch, and all of the necessary hard lines and hardware for mounting into a stock configured engine compartment and core support. Detailed installation instructions are also included.

Motor Coater Engine Refinishing Set

KBS Motor Coater engine paint set has everything you need to do a superior job when you paint your engine, and even includes the step-by-step instructions needed to help you do it right. Motor Coater is easy to apply, offers superb coverage and yields a self-leveling professional looking finish brushed or sprayed. These engine enamels provide deep, rich pigmented colors for excellent coverage. Your engine will be a show stopper at this DIY price... too bad it's kept under the hood! First, KBS special engine cleaner and degreaser eliminates all dirt, grease and oil. Next, use the RustBlast to dissolve rust and prep the metal. Then, rustproof and top coat your engine with KBS Motor Coater. All of this comes in one convenient set with thinner, gloves, a brush, and a stir stick.

Crate Engines from

Classic Industries® dedication to bringing the highest quality products on the market, combined with ATK's industry leading warranty make these Chevy ATK crate engines an obvious choice. Available in various configurations including a complete, "Ready-to-Run" package for those who want to bolt their engine into their GM muscle car and hit the road.

Important: Not for use in pollution controlled vehicles. Computer controlled vehicles may need update chips or other modifications.

Note: Special order, prepaid only. Mandatory shipping charge of \$175.00. Not eligible for No Fault Gold Warranty Program.

Features a 24-Month/Unlimited-Mile Warranty!

Base Performance

The ATK Base package is the basic building block of performance. Each base engine includes oil pump, oil pan, timing cover, and valve covers installed. Choose your own intake, fuel system, and ignition components.

350/350HP Vortex

The 350ci Chevy small block engine produces 350 HP and 400 lbs of torque in a late style hydraulic roller block. Includes: oil pump, black painted oil pan and chrome timing cover and valve covers installed.

Note: Price includes a core charge of \$410.00.

Specifications:

HP: 350
Torque: 400 ft lbs
Engine Type: Chevy Small Block, P/S Dipstick
Displacement: 350ci
Block: 4 bolt main
Crankshaft: OE 1 piece seal
Bore/Stroke: up to 4.040 x 3.480
Rods: powder metal 5.700" Stock Bolts
Pistons: hypereutectic
Rings: moly
Camshaft Type: hydraulic roller
Camshaft Lift: .495 in x .502 ex
Duration @ .50: 220 in x 224 ex
Cylinder Heads: OE cast iron Vortec
Chamber Size: 67cc
Valve Size: 1.94 in x 1.50 ex
Intake Runner Volume: OE
Compression Ratio: 9.5:1
Rocker Arms: 1.5:1 stamped steel
Recommended Fuel: 92 octane
Ign. Timing: 36 degrees total advance
Max RPM: 5800
HP32 350/350HP 3808.99 ea

383/415HP Aluminum Head

The 383ci engine produces 415 HP and 460 lbs of torque when used with a performance carburetor and manifold combination. Includes: oil pump, black painted oil pan and chrome timing cover and valve covers installed.

Note: Price includes a core charge of \$410.00.

Specifications:

HP: 415
Torque: 460 ft lbs
Engine Type: Chevy small block V8
Displacement: 383ci
Block: 4 bolt main/roller
Crankshaft: OE 1 piece seal
Bore/Stroke: 4.040 x 3.750
Rods: Scat 4340 forged I-beam 5.700" w/ARP 8740 Bolts
Pistons: hypereutectic
Rings: moly
Camshaft Type: hydraulic roller
Camshaft Lift: .528 in x .536 ex
Duration @ .50: 220 in x 224 ex
Cylinder Heads: aluminum
Chamber Size: 64cc
Valve Size: 2.02 in x 1.60 ex
Intake Runner Volume: OE
Compression Ratio: 9.7:1
Rocker Arms: 1.6:1 Billet aluminum roller
Recommended Fuel: 91+ octane
Ign. Timing: 34-36 degrees total advance
Max RPM: 5800
HP94 350/351HP 5008.99 ea

Mid-Dressed

The ATK Mid-Dress package builds on the basics of the Base Engine, adding the distributor, a performance intake manifold, water pump, flexplate, and harmonic balancer. Add the carburetor and spark plugs and ignition wires of your choice.

350/325HP

This 350ci engine produces 325 HP and 375 lbs of torque on pump gas with the help of an dual plane intake manifold and aluminum heads. Includes: an oil pan, valve covers, timing cover, distributor.

Note: Price includes a core charge of \$410.00.

Specifications:

HP: 325
Torque: 375 ft lbs
Engine Type: Chevy small block V8
Displacement: 350ci
Block: 4 bolt main
Crankshaft: OE cast crank 1 piece seal
Bore/Stroke: 4.030 x 3.480
Rods: OE powder metal 5.700" stock bolts
Pistons: hypereutectic
Rings: moly
Camshaft Type: hydraulic flat tappet
Camshaft Lift: .465 in x .488 ex
Duration @ .50: 224 in x 234 ex
Heads: Dart cast iron
Chamber Size: 75cc
Valve Size: 1.94 in x 1.50 ex
Compression Ratio: 9.1:1
Rocker Arms: 1.5:1 stamped steel
Recommended Fuel: 91+ octane
Ign. Timing: 36 degrees total advance
Max RPM: 5800
HP291PM 350/325HP 4209.99 ea

383/415HP Sproker

This 383ci engine with performance aluminum heads produces 415 HP and 460 lbs of torque on pump gas. Includes: an oil pan, valve covers, timing cover, distributor.

Note: Price includes a core charge of \$410.00.

Specifications:

HP: 415
Torque: 460
Engine Type: Chevy small block V8
Displacement: 383ci
Block: OE 4 bolt main
Crankshaft: OE cast externally balanced
Bore/Stroke: 4.040 x 3.750
Rods: Scat 4340 forged I-beam 5.700" ARP 8740 Bolts
Pistons: hypereutectic
Rings: moly
Camshaft Type: hydraulic roller
Camshaft Lift: .528 in x .536 ex
Duration @ .50: 220 in x 224 ex
Heads: ATK Hi-Performance aluminum
Valve Size: 2.020 in x 1.600 ex
Compression Ratio: 9.7:1
Rocker Arms: 1.6:1 billet aluminum full roller
Recommended Fuel: 91+ octane
Ignition Timing: 34-36" total advance
Max RPM: 5800

LS Components

A700223 - installed

LS Engine Cover Kit

Take your engine bay to the next level with this customizable LS engine cover kit. Made in the USA from special temperature resistant automotive polycarbonate and features 6061 aluminum inserts. This kit is compatible with any automotive paint or hydro-dipping for endless customizing options. The LS engine cover kit is engineered to fit LS3 passenger car intakes and coil packs only. Kit includes valve covers, intake cover, cover inserts, ARP mounting hardware, billet oil filler, and aluminum stand-offs.

Note: Some trimming may be required. Must install aftermarket fuel rail HC2123.

A700223 LS3 901.99 kit

Adjustable LS Motor Mount Adapter Set

Adapter allows the installation of LS engines into 1967-72 truck models using a standard 3 bolt motor mount. Position the engine in either the original location or 1"-2" forward to allow for transmission bellhousing clearance. Mounting locations allow proper driveline alignment and an additional 1/2" of adjustment. Includes: engine mounting plates, adjuster plates, hardware, and instructions.

Note: Some aftermarket motor mounts may require mounting holes enlarged to 7/16". Some OEM style mounts may require additional clearance of the cast rubber portion to allow front to back adjustment of the adapter. Not for use with "clamshell" type mounts.

A9750010 adapter 164.99 set

FITRITE™ LS Engine Mount Set

This set is made to assist you with swapping a LS series engine into your 1947-99 GM truck. These mounts are designed to move the engine forward and backward for ease of fitment. The long adapter set allows the engine to move from 1/2" rearward (great for oil pan to crossmember clearance) up to 3-1/2" forward for a full 3-1/2" of travel with a completely custom range of positions. The short adapter set is a smaller, more compact version, moving the engine from 2-1/4" forward to 3-3/4" forward for a total of 1-1/2" of travel. This exclusive design no weld brackets are CNC laser cut steel and features a durable black powder coat finish. FitRite™ sets include POLYPLUS™ engine mounts.

Note: The short adapter works well with the low mounted air compressor.

Solid Steel Motor Mounts

These solid steel motor mounts are for high-performance engines that lift or twist under acceleration, eliminating the need for bulky torque straps and chains to stop the engine from tearing regular soft motor mounts apart. Solid mounts also stop linkage binding to transfer more of the engine's torque to the wheels.

Important: Measurements are from inside width and height from the bottom of the base to the bolt center.

T4231	2-5/8" x 1-3/4"	38.99 pr
T4230	2-3/8" x 2-1/8"	33.99 pr

Hot Rod and Historic Racers High-Performance Conventional Oil

Joe Gibbs Driven HR Oils build on our original formula while adding critical additives to protect engines when they are not running. It protects against rust and corrosion so your engine is protected even when it's not running. It features higher levels of zinc than regular passenger car oils to deliver proper anti-wear protection for older style pushrod and flat-tappet engines.

Hot Rod/Vintage/Classic High-Performance Synthetic Engine Oil

From the leader in racing lubricants, now comes a lubricant designed specifically for hot rods, street rods, and vintage cars. Designed specifically for older style historic cars and hot rod engines, Joe Gibbs Driven Hot Rod oil features high levels of zinc for wear protection as well as U.S. Military grade rust and corrosion inhibitors for storage protection.

LS30 Synthetic Engine Oil

This LS30 synthetic 5W-30 oil is specifically formulated for high-performance LS series engines such as the 6.2L LS3 found in the 5th generation Camaro SS or the 6.2L supercharged LSA under the hood of the new ZL1. LS30 delivers high temperature and high shear protection, making it ideal for high-performance LS engines.

Break-In Oil

BR is used by Joe Gibbs Racing to break-in and dyno all their NASCAR Nextel Cup and Busch Series engines. This petroleum based oil provides superior break-in properties for flat-tappet engines. The special additive package promotes ring seal and provides maximum protection for cams and lifters during initial break-in. BR can also be used to break in roller cam engines, and as a general purpose dyno oil. Available in 5W30 or 15W50 weights.

High-Performance Synthetic Engine Oil

Delivers superior protection and improves performance in four cycle gasoline and diesel engines. Increase horsepower and torque, save fuel and reduce heat, wear and emissions! It has unsurpassed oxidation stability that allows for extended oil drains and fewer oil changes, which saves time, money and reduces the impact on the environment. Royal Purple's motor oils for passenger cars and trucks are API licensed. Performance advantages come from a blend of synthetic oils plus Royal Purple's proprietary Syntec technology. Compatible with other mineral and synthetic motor oils.

1956-67 Filter Bypass Valve

Reproduction bypass valve includes gasket and mounting bolts.
1256589 1956-67 54.99 ea

1956-67 Bypass Valve Bolts

Reproduction of the correct bolts used to attach the oil bypass valve. Manufactured in grade 5 metal and include correct "Delta" headmark. Two bolts included.
1256593 1956-67 4.99 pr

Oil Bypass Eliminator

An oil bypass valve lets oil bypass the filter if pressure gets too high or the filter becomes plugged. For performance engines that often see increased oil pressure at high RPM. This anodized billet aluminum adapter eliminates the bypass valve, preserving your expensive engine. For small block and big block applications.
223775 48.99 ea

1956-67 Oil Filter Adapter

This adapter will convert all 1956-67 small block Chevrolet V8 engines (except Chevy II) that came with a canister style oil filter to a spin on type filter. It includes a 13/16"-16 nipple which will accept a PH-30 or equivalent Chevrolet spin on type oil filter.

Note: Requires the use of the OEM bypass valve.
T1059 1956-67 29.99 ea

1968-92 Oil Filter Adapter

Genuine GM replacement oil filter adapter for all 1968-92 small block and big block models. The adapter is essential because the oil filter attaches directly to this item. The adapter also includes the filter bypass valve.
G7300 1968-92 V8 70.99 ea

1967-85 Oil Filter Connector

Correct replacement connector that installs on the engine block for 6 cylinder models and vehicles with HD remote oil filters. 13/16"-16 x 1/2" on one end, 1-1/2 x 7/16" on the other.
G1247 1967-85 12.99 ea

Oil Filters & Components

1958-67 Oil Filter Canister

For the last word in a correctly restored 1958-67 engine, install this original style oil filter canister. This style canister used a larger PF141 filter for increased oil capacity. Includes correct black electrostatic powder paint and white silk screened lettering. 6-3/4" tall, uses 5-3/8" canister filter. Includes: filter, o-ring, and bolt.

Oil Filter

The K&N Performance Gold® oil filter has been constructed from the ground up to satisfy the vehicle owner who wants the very best oil filter available. Metal top end caps are used instead of paper to ensure that no unfiltered oil can get back into the system. High volume positive oil flow with low restriction coupled with exacting engineering standards results in the right balance between engine protection and low oil pump drag.

Timing Chain Covers & Components

E4240

E4241

Polished Aluminum Timing Cover

Edelbrock die-cast polished aluminum timing covers include pan seal, Allen head bolts, gaskets, and washers. These timing covers are a great way to dress any Chevy engine up. Complete the look with Edelbrock valve covers and air cleaners.

E4240 1955-86 small block..... 78.99 ea
 E4241 1965-90 big block..... 111.99 ea

Two Piece Billet Timing Cover

The sturdy two piece billet timing cover allows the camshaft to be serviced without disturbing the oil pan seal. Includes: roller cam button, cam plate, shims, a timing pointer, hardware, and instructions.

21101 1955-86 small block..... 350.99 set

E7890

Accu-Drive® Camshaft Gear Drive

Replace your stock timing chain with a precision gear drive system from Edelbrock! The Accu-Drive® camshaft gear drive set replaces a stock timing chain with a precision gear drive system. The gear drive can be easily installed. Just replace the stock crank and camshaft sprockets with Accu-Drive® gears and slip in the idler assembly.

Important: Not for stock Chevy hydraulic roller lifter cam equipped engines. Accu-Drive® gears are not recommended for use above 7000 RPM or on computer controlled vehicles with knock sensors.

Emissions Note: Non-CARB compliant (not legal for emission controlled vehicles).

Warning Concerning Crankshaft Pulleys

Stock replacement, aftermarket stamped steel or cast iron pulleys are not designed to exceed 400 horsepower or 6000 RPM. Using reproduction pulleys on engines in excess of these limits may result in catastrophic disintegration of the pulley causing severe damage to the engine, cooling system and body parts. Classic Industries* assumes no liability for damages caused by improper use of pulleys. Please be sure to install the pulley properly to avoid damages that could occur from improper installation or exceeding the recommended RPM limitations.

Harmonic Balancers

1957-74 Harmonic Balancer

Replace your worn, damaged or missing harmonic balancer and enjoy peace of mind knowing that the vibration from your engine is being controlled with parts manufactured to original factory specs.

Note: *Service replacement.

Performance Harmonic Balancers

Pro/Race harmonic balancers are direct replacements for factory cast iron units which may fracture at high RPM. The STREET damper features special spines to enhance bonding between the elastomer, inner hub, and outer ring, perfect for engines making between 350 to 400 horsepower. The PRO/SPORT balancers provide race quality performance at near replacement part prices. Externally balanced balancers include counterweight.

Note: 400 small block balancers are externally balanced.

Performance Harmonic Balancer

Fluidram performance harmonic balancers and dampers contain no rubber or elastomers. Instead, they are filled with a viscous silicone based liquid that doesn't wear out after time. The liquid absorbs virtually all torsional harmonic vibrations and constantly adjusts itself for optimum performance at all RPM ranges. Manufactured from CNC-machined steel with a black zinc chromate finish. All dampers are SFI 18.1 certified and are designed to last a lifetime without being rebuilt. Made in USA.

Note: 400 small block and 454-502 big block balancers are externally balanced. Small block balancers are not for use with 1992 and later LT1 engines.

Replacement Gasket Sets

Ultra-Seal Head Gasket

The Ultra-Seal head gasket has a 5 layer composite construction and is coated with high temperature silicone to ensure seal of engine fluids. It's graphite core has excellent thermo-conductivity; transfers heat away from hot spots in head to coolant passages, preventing gasket burn out. The Ultra-Seal head gasket provides excellent stability, compressibility, high temperature endurance and will not Brinell (indent) aluminum cylinder heads.

Cylinder Heads/Valvetrain Parts

348/409 Performer RPM Cylinder Heads

Looking to boost the performance of your vintage 348/409ci Chevy? The Edelbrock Performer RPM 348/409 Chevy cylinder heads were specifically designed for 1961-65 Chevy "W Series" 348/409 big block engines. These high-performance heads feature CNC port matched 220cc intake ports and 115cc exhaust ports and are assembled with 2.19" intake valves and 1.72" exhaust valves. Furthermore, valve port design has also been improved for better flow. Also designed for convenient bolt-on installation, these heads also feature original port locations and valve angles. Complete with hardened spring cups, screw-in rocker studs, and hardened guide plates. Made in USA.

Important: * For E0819 cylinder heads.

Emissions Note: † (E) Non-CARB compliant (not legal for emission controlled vehicles).

Aluminum Roller Rocker Arm Set

Proform Super-Street Series roller rockers! Rid your engine of internal friction with full roller rocker arm. The race-proven full cage bearing, fulcrum and roller tip not only unleash horsepower, they also lengthen valve train component life and reduce wear and tear on valve stem tips. Precision machined to insure consistency and ratio accuracy. Small block sets available in the stock 1.5:1 pivot ratio, or 1.6:1 ratio for increased horsepower and torque. 16 anodized aluminum roller rockers and 16 poly locks are included in the set.

Emissions Note: * (E) Non-CARB compliant (not legal for emission controlled vehicles).

1957-86 Small Block Sets		
For 3/8" Stud

1958-84 Big Block Set		
For 7/16" Stud		
66913C	1.7:1	210.99 set

Stamped Roller Tip Rocker Arm Set

Stamped steel rocker arms feature roller tips for reduced friction, and long slots for cams that have lift specs higher than stock for additional clearance at the rocker stud. Available in the stock 1.5:1 pivot ratio, or a performance enhancing 1.6:1 ratio for increased horsepower and torque. Easy installation requiring no special tools and will fit under stock valve covers. Fits small blocks through 1986 with 3/8" rocker studs. Set of 16 rockers with pivot balls and nuts.

Emissions Note: * (E) Non-CARB compliant (not legal for emission controlled vehicles).

G5073	1967-71	350	13.99 ea

Lifter Valley Oil Baffle

This aluminum lifter valley baffle simply snaps into place in the lifter valley, shielding the bottom of the intake manifold from hot oil to keep incoming air cool and dense. It also keeps excess oil out of the valve covers and holds lifters in their bores in case of pushrod or rocker arm failure.

Note: Due to minor variations in block castings minor trimming may be required. Not for use with roller lifters.

225050	small block baffle	52.99 ea
225100	big block baffle	52.99 ea

1958-79 Engine Valve Stem Seal Set

High-quality Fel-Pro replacement engine valve stem seal sets for 1958-79 Chevrolet engines. Built to exceed all original equipment specifications.

Camshafts

Your Choice of Four Convenient Sets to Meet Your Specific Needs!

A — Camshaft Only

The camshaft only set includes camshaft, instructions, assembly lube and decals.

B — Cam and Lifters

Order the cam and lifter set to add a matched set of lifters to your camshaft.

C — Small Set

Order the small set for cam and lifter set plus timing chain and gear.

D — Full Set

Full set includes cam, lifters, timing chain and gear valve springs and retainers, valve locks, valve stem seals.

High Energy™ Cams for Your Daily Driver!

All High Energy™ designs are totally streetable cams. They will produce 10 to 30% more power than a stock cam throughout the RPM range. Each cam has a particular RPM range in which it works best. By selecting the cam that best suits your driving needs, exceptional power increases can be expected. High Energy™ Cams work great for everyday driving without the "bad" side effects normally found with other cams. High Energy™ cams produce more power, are more efficient, and do not affect the engine's idle characteristics to the point of making your vehicle undrivable. High Energy™ Cams will not affect any vacuum or

power accessories such as power brakes, air conditioning or steering.

Important: On small block applications, High Energy Cams may be used with stock valve springs and lifters. However, these components must be in good operating condition. In order to protect your camshaft warranty and for maximum performance benefit, we recommend replacing stock valve springs and lifters with a high-performance set from Classic Industries®. **Emissions Note:** * CARB EGR compliant (50 states legal). ** Non-CARB compliant (not legal for emission controlled vehicles).

Factory Muscle Cams Replicate Genuine GM Cams of the Era!

Give your stocker a dose of factory muscle with a Muscle Car™ cam from COMP CAMS®. Designed to replicate the Genuine GM cams of the era, The Muscle Car Cams™ produce the power and performance your car needs or you. Each set includes: camshaft, lifters, assembly lube, instructions, and decals.

375HP/396ci Solid Lifter Factory Muscle Cam

This solid lifter cam provided 375HP in the 1967-69 396ci engine, 375HP to the 1970 402ci engine and 425/435HP to the 1967-69 427ci engine. Then in 1970, the LS6 454ci engine used this cam to produce 450/465HP!

CAMS for your High-Performance Street Machine!

The Magnum™ Cam is a great cam for high-performance driving in street horsepower. Provides 30-70% more horsepower and a rough and ready to rumble idle in small block or big block Chevy applications. The Magnum™ will not affect power accessories, but should be used with headers. This is the perfect cam for cruising. Xtreme Energy™ Cams are Comp Cams® series of hydraulic cams. They are designed to take advantage of the latest improvements in valve train components and the newest developments in camshaft design. Xtreme Cams can be used in any street or street/strip application where both throttle response and top end horsepower are desired. Increases horsepower from 20-70% over stock. Includes camshaft, lifters, chain set, valve springs, valve spring retainers, valve locks, valve stem seals, assembly lube, instructions, and decals.

Intake Manifolds

New!

OF1035

OF1409

1950-62 Six Cylinder Intake Manifold

Offenhauser multi-carburetor intake manifolds are ideal for situations where you want to get a nostalgic look, but still have a custom appearance. Precision machined from cast aluminum, these manifolds are designed to equalize fuel distribution to all cylinders, which improves fuel economy, and produces better power with smoother response across the RPM range. Includes throttle brackets/linkage and instructions.

Emissions Note: (3) Non-CARB compliant (not legal for emission controlled vehicles).

Dual Carburetor Intake Manifold

OF1035 1950-62 235 ci 721.99 ea

Triple Carburetor Intake Manifold

OF1409 1950-62 235 ci 631.99 ea

The Air Gap design features an open air space that separates the runners from the hot engine oil.

Performer Air Gap

Designed for 1955-86 small block Chevs, the great looks of the Performer Air-Gap along with the solid idle to 5500 RPM performance make this an ideal choice for street trucks. Fits spread-bore or square-bore carburetors. There is no provision for exhaust heated chokes or exhaust crossover. Made in USA.

Emissions Note: (3) Non-CARB compliant (not legal for emission controlled vehicles).

1955-86 Small Block

Natural Finish
E2601 262-400ci non-EGR 376.99 ea

Performer Manifold

Edelbrock Performer manifolds patented design greatly improves throttle response and torque over a wide RPM range, especially from idle through the mid-range. Manifolds are offered in EGR and non-EGR versions for most GM V8s. Made in USA.

Emissions Note: (3) Non-CARB compliant (not legal for emission controlled vehicles).

1955-86 Small Block

Important: Will also fit 1987 and later stock aluminum cylinder heads. Will not fit Chevrolet Bow Tie cast iron cylinder heads.

Natural Finish

New!

1957-86 V8 Tri-Power Intake Manifold

Offenhauser 360 degree Equal-Flow Tri-Power intake manifold makes good use of Olly's 360 degree technology to feed all cylinders evenly and make more power. That combination delivers the fuel air charge evenly to all cylinders for more power without flat spots.

Note: Accepts three large base Rochester 26C carburetors.

Emissions Note: (3) Non-CARB compliant (not legal for emission controlled vehicles).

OF524 1957-86 283-400 649.99 ea

1955-86 Weiland SB Black Intake Manifold

Holley intake manifolds in carbon black ceramic coating. Provides the added benefits of corrosion protection, heat resistance and ease of cleaning. These dual plane, square bore, non-EGR manifolds fit 262-400 small block Chevrolet engines. The Street Warrior manifold has a power band from idle - 5500 RPM. The Speed Warrior manifold has a power band from 1500 - 6700 RPM.

Emissions Note: (3) Non-CARB compliant (not legal for emission controlled vehicles).

Weiland Street Warrior - 3-1/2" Front and 4-1/2" Rear

Stovebolt Intake Manifold Heat Plate

Installing aftermarket exhaust manifolds or headers on 216-292ci 6 cylinder engines requires an intake manifold heating system for proper performance. This manifold heater plate using temperature regulated coolant circulated through the cooling system, rather than extremely hot exhaust gas. CNC-machined from 3/8" heavy gauge aluminum and includes barbed brass fittings and instructions. Made in USA.

Note: Gaskets and mounting hardware not included.

109999	230, 250, and 292ci engine	51.99 ea

Fenton Intake Manifold Heater

The Fenton intake manifold heater set directs heat to the intake manifold for better fuel atomization. The heater is designed to be used with the Fenton intake manifold AJ5315 and Fenton dual headers AJ5312 on 1953-62 models with 235 and 261 cid 6 cylinder engines. Set includes: intake plate, gasket, hardware, tubing, and fittings for installation.

Note: Can be used on most Offenhauser dual or triple carburetor and stock intake manifolds but some modification may be necessary.

USA

LS Coil Covers

Elegantly hides LS coil packs. Fits GM LS engines utilizing existing coil bracket mounting points. Has a cutout for the oil filler. Designed to fit LS crate motors and will not clear factory high mount alternators (such as those found on Corvettes) unless a cutout is fabricated or aftermarket alternator and brackets are used. Best suited for aftermarket serpentine pulley systems. Machined from 6063-T6 aluminum. Can be used with relocated coil packs for a lower profile appearance. Dimensions 19-1/2" x 5", available in black or mill finish. Made in USA.

-------	---------------------	-----------

Valve Cover Hold Downs

These innovative valve cover hold downs are ideal to prevent leakage for stamped small block Chevy valve covers. They are easy-to-install and by applying even pressure on the entire mounting flange, they'll eliminate the possibility of leaks. Hold downs with wire looms also offer the advantage of attached spark plug wire looms for an ultra clean engine compartment.

Dual Flow Adjustable PCV Valve

Stock PCV valves aren't designed for modified high-performance engines and their altered vacuum profiles. A mismatched PCV valve can cause oil leaks or oil contamination. Manage your crankcase pressure with this billet dual flow PCV valve. Once adjusted, the valve will provide optimal crankcase ventilation at all times. Valve fits 3/4" i.d. valve cover grommets and 3/8" i.d. PCV valve lines. An available adapter allows for use on 3/8" i.d. inline applications. PCV valve set includes: valve, vacuum gauge fitting, Allen wrench, and detailed instructions. Made in USA.

Note: Not intended for use on pollution controlled vehicles. *Emissions Note:* * Non-CARB compliant (not legal for emission controlled vehicles).

Street Fire HEI Distributor

We know the importance of a centrifugal advance in a distributor so our engineers made sure that the Street Fire received an advance assembly with coated weights and welded weight pins (not just pressed in like other models). The Street Fire is fit with the same gear that is used on our Pro-Billet models. The metallurgy of this gear has been refined for years to perform through the harshest conditions. Inside, the ignition module and coil work together to produce a stout spark to light the fuel mixture for great performance. One-year warranty.

Emissions Note: **Ⓢ** CARB EO compliant (50 states legal).
8362 Street Fire HEI 235.99 ea

MSD

HEI Distributor with Coil — Polished Finish

Aftermarket high-performance distributors use with HEI V8 engines. This high-performance distributor produces a 50,000 Volt spark through 7500 RPM with true spark alignment for instantaneous response, a high performance curve, a premium cap with brass terminals, and a low-saturation ignition module. Each distributor includes distributor cap, rotor, coil, and coil cover. Features a polished cast aluminum housing and iron gear.

Emissions Note: **Ⓢ** Non-CARB compliant (not legal for emission controlled vehicles).

HEI Distributor with Coil — Natural Finish

100% NEW distributors include a high power 50,000 Volt coil. High-performance distributor produces a 50,000 Volt spark through 7500 RPM with true spark alignment for instantaneous response, a high-performance curve, a premium cap with brass terminals, and a low saturation ignition module. Features cast aluminum housing in an unpolished natural finish.

Emissions Note: **Ⓢ** Non-CARB compliant (not legal for emission controlled vehicles).

HEI Distributor without Coil — Polished

If your HEI equipped Chevy V8 is having problems starting, has a rough idle or the performance is not what it use to be, it could be time to change your distributor. This distributor is specifically designed for 5.7L high output engines. This distributor may be used in most high-performance applications. Features a polished cast aluminum housing. Also available without cap or rotor so you can use the cap and rotor of your choice. Coil is not included.

Emissions Note: **Ⓢ** Non-CARB compliant (not legal for emission controlled vehicles).

HEI Distributor with Coil — Natural Finish

These premium distributors include Chevrolet Performance Parts melonized gears (U.S. & Canada) which are required on all GM Performance Parts crate engines. Sintered steel weights for lighter weight while withstanding 270 newtons min. for maximum durability, adjustable vacuum advance for fine tuning the rate, and amount of advance that will result in increased power and eliminate harmful detonation, weight springs made with stress-relieved music wire to assure biaprinted advance curve. High-performance module, engineered with low saturation for maximum spark intensity. Features cast aluminum housing in an unpolished natural finish. Your choice of a yellow, black, or red distributor cap.

Emissions Note: **Ⓢ** Non-CARB compliant (not legal for emission controlled vehicles).

141683 natural red cap..... 169.99 ea

Pro-Billet Distributor

These distributors feature a flawless lightweight CNC-machined 6061-T6 billet aluminum housing and a polished steel shaft that receives a QPQ, or Tuffride coating that reduces friction and resists corrosion. To correctly guide this shaft, MSD uses a sealed ball bearing located at the top of the housing. At the bottom of the housing, an extra long sintered bushing controls the shaft. This combination gets the shaft spinning smooth and accurately throughout 10,000 RPM. Choose from the "standard" Pro-Billet distributors that utilize the MSD 6, 7, 8, or 10 series ignition control box or from our "Ready-to-Run" distributors that are internally controlled. "Ready-to-Run" distributors do not require an external controller and are the "Plug and Play" alternative to more expensive computer controlled systems. Made in USA.

Emissions Note: **Ⓢ** CARB EO compliant (50 states legal). **ⓈⓈ** Non-CARB compliant (not legal for emission controlled vehicles).

"Standard" Pro-Billet Distributor

Performance Ignition

HEI Distributor

HEI systems rely on a great module and a great coil. Available in machined or cast finishes. Operates without misfires up to a minimum of 7500 RPM. That's 3000 RPM higher than most enthusiasts report with their stock HEI. Produces 67% more energy in the coil, delivers twice the energy across the spark gap allowing wider plug gaps (.050-.055). 12-month limited warranty.

Note: *Please specify red, blue, or black cap when ordering.

Emissions Note: Ⓢ CARB EO compliant (50 states legal).

Unilite Distributor

A legend returns - the tried and true Mallory Unilite Distributor line is back! The easy three wire hook up of the Unilite makes running a stock coil, a Mallory performance coil and even a Mallory HyFire CD ignition a snap. Supplied with a quality cap and rotor, the Mallory Unilite also provides a fully adjustable mechanical advance to dial in the perfect timing curve for a multitude of engine combinations. The Unilite features a compact housing that lends itself well to applications where space is a premium due to tight firewall clearance or blower applications.

Emissions Note: Ⓢ Non-CARB compliant (not legal for emission controlled vehicles).

------------------	-----------

HyperSpark Distributor

Sniper EFI HyperSpark distributor from Holley Performance. This high-performance billet aluminum distributor features a unique "noise free" Hall-Effect crank trigger with a welded shutter wheel for years of reliable, accurate service. Hall-Effect triggers provide a clean RPM signal required for EFI systems like the Sniper EFI. This distributor makes adding timing control to a Sniper EFI system a "Plug and Play" procedure. Includes wire retainer and a patented clear installation cap for an easy installation.

Emissions Note: Ⓢ Non-CARB compliant (not legal for emission controlled vehicles).

H565300 SBC/BBC	368.99 ea
-----------------	-----------

Holley

Dual Sync Distributor

Holley EFI Dual Sync distributor for small and big block Chevrolet engines. These high-quality "Plug and Play" distributors are constructed of CNC-machined billet aluminum and include a hardened steel distributor gear. They feature Hall-Effect sensors for cam and crankshaft position for sequential fueling operation. The precision machined shutter wheel ensures an accurate RPM signal well beyond 8000 RPM. Designed for simple "Plug and Play" installation with Holley EFI systems.

Emissions Note: Ⓢ Non-CARB compliant (not legal for emission controlled vehicles).

Magnetic Trigger Billet Distributor

These non-vacuum advance magnetic triggering billet distributors for SB/BB Chevy engines contain a precision magnetic pickup coil and reluctor that produce a strong crisp signal even at extremely low RPM. The over molded pickup coil has excellent corrosion resistance and a standard Tyco mate plug for easy wiring. This distributor is compatible with most capacitive discharge and magnetically triggered ignition systems. Distributors have a mechanical centrifugal advance. Available with black or red caps.

Note: Must be used with an ignition box.

Emissions Note: Ⓢ Non-CARB compliant (not legal for emission controlled vehicles).

PX300810 black cap	294.99 ea
PX300811 red cap	294.99 ea

MSD Tachometer Adapter

MSD tach adapters will correct the operation of most voltage triggered tachometers or fuel injection systems that do not work directly off the tach output terminal of the MSD ignition unit. If you are triggering an MSD Blaster 5, 6, SCI, or 7 series ignition with its white wire or points terminal, you will need item #8910 or #8910E. For applications using green and violet wires for magnetic pickup input, use item #8920. Made in USA.

Important: *For use on non-current limiting ignitions, originally equipped with a ballast resistor. **For use on current limiting ignitions, not originally equipped with ballast resistor.

8910*	points or amplifier	77.99 ea
8910E**	points or amplifier	81.99 ea
8920	magnetic pickup	98.99 ea

MSD Noise Filter

If you experience radio noise after installing the MSD Ignition, you may need to install an MSD Noise Filter. Electro Magnetic Interference (EMI) is occasionally generated from the MSD power cables and can be easily eliminated by installing the Noise Filter on the heavy power supply wires coming from the MSD.

8830 noise filter	61.99 ea

6A/6AL Ignition Control

MSD's new Digital 6A is the base model of the capacitive discharge multiple spark 6 Series design. Features the same footprint as the traditional 6A and 6AL, but with a lower profile for a sleek look. Like all MSD 6 Series Ignitions, the 6A will work with virtually any vehicle as long as it has a 12-18 Volt electrical system. It can be triggered using breaker points, a magnetic pickup or the output of an electronic amplifier. All necessary parts and wiring instructions are included. Will work on 4, 6, and 8 cylinder engines. The new Digital 6AL shares the same proven circuitry of the Digital 6A with the addition of a built-in adjustable rev limiter with 2 top mounted rotary dials. The combination of powerful sparks with the safety of a rev control is what makes the Digital 6AL the most popular ignition control in the world.

Emissions Note: (3) CARB EO compliant (50 states legal).

Ignition System Coil MSD

Upgrade your stock coil or complement the performance of your MSD 6 Series ignition, these coils are the right choice!

The following Blaster coils share the same special windings and high voltage output as the other Blaster 2 coils, but do not include a ballast resistor. When you are using an MSD ignition control, the ignition is responsible for delivering the voltage to the coil so a ballast is not necessary. The Blaster 3 coil features an extra tall tower design to improve the coil wire attachment and spark isolation and is supplied with a 90 degree terminal and boot. Made in USA.

Emissions Note: ① CARB EO compliant (50 states legal).

Blaster Performance Coil

With a stock points style ignition, a ballast resistor must be placed in-line with the positive terminal of the coil.

The following Blaster coils are supplied with a 0.8 Ohm ballast resistor plus a terminal and boot to fit most applications. Mallory Unilite applications also require the ballast resistor. Available in chrome or red. Made in USA.

Important: The ballast is not necessary if an MSD 6 or 7 series ignition control is being used with the points distributor. **Emission Note:** * ① CARB EO compliant (50 states legal). ** ② Non-CARB compliant (not legal for emission controlled vehicles).

HEI Ignition Coils

8.5mm Super Conductor Coil Wire

If you're changing a coil or cap to a new design, you could find yourself searching for different terminals for the coil wire. MSD offers these 2 style coil wires to make the change easy. Also, remember that the coil wire sees 8 times the use of each plug wire so changing the coil wire as maintenance is recommended.

Important: *18" long, female socket style, both ends.
**18" long, 90 degree male coil terminals and boots are installed on both sides to connect to an HEI style terminal. A terminal adapter is also supplied to adapt to a female-socket style distributor cap.

HC 60,000 Volt Coil

The Flame-Thrower HC (high current) coils have an E-Core design which is rated at 60,000 Volts with an ultra low .32 primary resistance and has a high current design for a rapid charge rate. Made from 6063-T5 aluminum, it efficiently transfers heat to optimize energy output. The housing is black anodized for increased corrosion resistance and has a precision machined male high tension terminal and brass primary terminals. It is compatible with Ignitor II and Ignitor III systems as well as most capacitive discharge boxes. Standard threaded connections and mounting hardware are included.

Emissions Note: Ⓞ CARB EO compliant (50 states legal).

HyperSpark Ignition Coil

Sniper EFI HyperSpark ignition coil from Holley Performance. This coil features an innovative connector and integrated bracket for a secure connection and simplified mounting. Its powerful 135ML of spark ensure complete combustion and improved performance. This coil is designed to be "Plug and Play" with Sniper EFI Systems.

Emissions Note: Ⓞ Non-CARB compliant (not legal for emission controlled vehicles).

H556152	universal	51.99	ea
---------	-----------	-------	----

Power Coil

The TSP power coil is capable of delivering a longer and hotter spark with up to 70% more spark energy than stock ignition coils. Its convenient design easily mounts to fire walls, core supports and fender wells. It features an aluminum heat sink keeping it cooler for more efficient energy output at lower temperatures. Coils have an HEI style output tower and are rated at 50 kV maximum voltage with 260 mA peak current with 1.5 Ohm primary resistance. Coils include installation hardware, a coil wire boot with terminal and a wiring harness.

Blaster SS Coil

Don't let the compact size of the Blaster SS coil fool you because it is packed with performance. The efficient E-core windings are designed to produce high amounts of current without sacrificing the voltage output. In fact, when used with an MSD 6 Series Ignition, the Blaster SS produces 300 milliamps with a maximum voltage output of 40,000 Volts. The secondary windings are wound on a segmented bobbin which reduces the chance of voltage breakdown between the primary and secondary windings. For more protection, these windings are encased in a polyurethane compound for complete protection against vibration. The Blaster SS features brass terminals and a sturdy Rymite housing. It is supplied with a 90 degree boot, terminal and vibration mounts. A great addition to CD ignitions and some stock applications. Made in USA.

8207 Blaster SS coil 81.99 ea

1974-01 High-Performance HEI Coil

Replace your stock coil with an Accel high-performance coil for increased performance, longer life and maximum dependability. A variety of applications are available for breaker point and breakerless ignition.

Performance Ignition

Never change points again!

PERTRONIX IGNITOR I
PERFORMANCE PRODUCTS

Eliminates points and moving parts that wear out, while delivering twice the voltage to the spark plugs over stock to increase horsepower, fuel economy and plug life! Optimal performance can be achieved when used with the Flame-Thrower 40,000 Volt coil. Ignitor is concealed entirely within the distributor. Installs in minutes, compatible with 12 Volt negative ground systems! Includes a 30-month warranty.

Emissions Note: Ⓢ CARB EO compliant (50 states legal).

6 Cylinder			
PX71168	1941-62	6 cylinder.....	162.99 set

PX1181	1957-74	8 cylinder.....	117.99 set

PERTRONIX Ignitor II

The Ignitor II electronic ignition goes an extra step beyond for even more power and efficiency! It senses levels of current in the coil, and uses a powerful micro controller to adjust the dwell to maintain peak energy throughout the entire RPM range. As engine RPM and operating conditions change, dwell time is increased or decreased to provide more energy at higher RPM, reducing misfires while improving engine performance. Ignitor II develops nearly 4 times more available energy between 3000 and 5000 RPM, and double the available plug voltage! The Ignitor II's higher RPM performance is maximized when used with the new Flame-Thrower II super low resistance (0.6 Ohms) 45,000 Volt coil, but the system is compatible with any induction coil. Includes a 30-month warranty.

Emissions Note: Ⓢ CARB EO compliant (50 states legal).

PERTRONIX Ignitor III

Ignition box performance without the box. The Ignitor III is the most advanced points replacement set. It is literally an ignition box inside your distributor. It features multiple sparks throughout the entire RPM range and a REV limiter accurate to +/- 50 RPM which is set by you with an LED user feedback for rev limiter confirmation. The Ignitor III module generates 5 times more spark than points. This means more spark energy creating more horsepower and better mileage. The Ignitor III features include: adaptive dwell which maintains peak energy throughout the entire RPM range. Peak current level is reached just prior to spark for maximum energy without the heat buildup, increasing coil performance and module reliability. Fits GM V8 single point type distributors.

Note: Not available for 6 cylinder.

Emissions Note: Ⓢ CARB EO compliant (50 states legal).

1957-74 E-Spark Conversion Set

Are you tired of constantly having to adjust and replace points in your distributor? Eliminate those pesky points altogether with Mallory's new, low cost E-Spark conversion sets. This self-contained conversion set fits neatly within a stock GM or Mallory distributor cap, so it looks like original from the outside. Thanks to specialized electronic circuitry and an infrared signal, you'll never again have moving parts to wear out, and you gain better performance, drivability, and throttle response, plus improved fuel efficiency!

Delco Distributor
61001M 1957-74 all w/window cap... 124.99 set

Unilite Conversion for GM Distributors

Unilite conversion sets for point distributors put an end to high maintenance point ignition systems by installing a proven Mallory Unilite ignition conversion set. By utilizing specialized electronic circuitry and an infrared signal, ignition timing is stable from 1 RPM through 10,000! Features include more accurate ignition timing than any other type of system, improves performance and fuel efficiency, easy-to-install with simple hand tools, reduced maintenance (never change points again) and latest thermal clad based surface mount construction for maximum dependability and long-life.

Emissions Note: Ⓢ CARB EO compliant (50 states legal).

1957-00 Replacement Spark Plug Wire Set

ACDelco quality constructed spark plug wire sets withstand fluctuating temperature extremes, ensuring long service life. Robust terminals and outstanding retention force to minimize wire damage and electrical failure. Replace faulty ignition components with OE quality parts.

Note: *With vacuum rivet. **With Federal emissions. More applications available online at www.classicindustries.com.

1953-73 Date Coded Spark Plug Wire Set

Reproductions of the original style Delco Packard plug wires used with 1953-74 GM truck models. Each wire includes the original style lettering with the wording Packard TV R Suppression. 1961-71 wires are date coded based on the production quarter of the vehicle. "1-Q" indicates the first half of the production year and "3-Q" indicates the 2nd half of the production year. Wiring sets are produced for engines equipped with original exhaust manifolds.

Note: These are not for use with aftermarket tube headers or aftermarket manifolds. 3-Q dated plug wires may be correct for use on vehicles manufactured in the first months of the succeeding years production.

Performance Wires

1957-98 Spark Plugs

ACCEL's patented race proven spark plugs are now available in a "shorty" configuration. The overall length of each plug has been reduced 1/4" to 3/8" (depending on the specific spark plug) to gain critical air gap space between the spark plug boot and the exhaust manifold or header tube. This helps eliminate burning the spark plug boot or dimpling the header tube. The shorter spark plug length also can make it easier to install and remove the spark plugs in certain applications where there is not a lot of room to work with a socket or wrench.

1950-86 Spark Plug

Want to unlock more power from your engine and actually burn less gas? Through an intensive R&D process, E3 has created a spectacular new spark plug that creates the industry's fastest spark growth and fastest combustion pressure rise, meaning it burns fuel more efficiently to give you more power and increased fuel economy. E3's patented design forces the spark discharge from one sharpened edge to another, and projects the spark forward into the combustion chamber, unlike traditional spark plugs, for the most consistent, powerful and efficient burn possible! Sold individually.

8mm Superstock Plug Wires

ACCEL's SuperStock 4000 Series 8mm spark plug wire sets are designed to upgrade an OE ignition system for high spark delivery levels for street driven applications. The 450 degree F rated high silicone jacket is extended over a tightly woven, rugged fiberglass braid. RFI suppression for street driven applications. Universal wire sets include standard socket and HEI boots with the appropriate terminals. Made in USA.

Core: Carbon/graphite conductive material, high resistance suppression, fiberglass/Kevlar, 3000-7000 Ohms per foot resistance.

Note: Universal fit 8 cylinder wire sets can be used for 6 cylinder applications.

8mm Superstock Spiral Plug Wires

ACCEL's SuperStock Spiral Core 5000 Series wire sets. With only 500 Ohms per foot of resistance, more ignition energy can reach the spark plug, producing a longer-lasting, hotter spark, flame kernel. This 8mm wire's double silicone construction is rated to 550 degrees F. The high glass wire jacket resists moisture, chemicals, and heat extremes for longer life and great looks. Stainless steel plug terminals. High RFI suppression for street and strip use. Universal wire sets include standard socket and HEI boots with the appropriate terminals. Made in USA.

Core: Spiral wound stainless steel alloy conductor, magnetic suppression and semi-reactive material, fiberglass/Kevlar core, 500 Ohms per foot resistance.

Note: Universal fit 8 cylinder wire sets can be used for 6 cylinder applications.

8.8mm Spiral Suppression Plug Wires

These ACCEL 8.8mm wires feature a carbon/graphite core that virtually eliminates RFI noise while providing maximum conductivity for ultimate performance in any race or street application. Double silicon insulation eliminates leakage and misfire. Wire set includes standard socket boots with the appropriate terminals for points style distributor cap. Made in USA.

Core: Spiral wound stainless steel alloy conductor, magnetic suppression, semi-reactive material, fiberglass/Kevlar core, 500 Ohms per foot resistance.

Note: Universal fit 8 cylinder wire sets can be used for 6 cylinder applications.

- 7.0mm to Fit Original Wiring Looms!
- Plain Black Wires without Script for a Stock Look!
- Hi-Temp Silicone Jackets!

1963-74 Spark Plug Wires

These Flame-Thrower high-performance spark plug wires were created with the classic car in mind. They are manufactured in original 7mm size jackets to fit stock wiring looms. With no markings or script of any kind on the wire, they maintain a stock appearance yet give you all the benefits of a high-performance wire set including: 2 current paths spiral wound stainless steel alloy winding and carbon impregnated fiberglass center core, low 500 Ohm per foot resistance, silicone jackets to resist high temperatures, moisture, oil, and chemicals. They also have EPDM rubber inner insulation for superior heat resistance and prevention of arcing and voltage leaks. Fiberglass reinforcing braid is added for strength and flexibility. Lifetime Warranty, Made in USA.

Thunder Volt 8.2mm Ignition Wires

Taylor Thunder Volt 8.2mm ignition wires are dyno-tested and proven to increase horsepower and torque. Designed with a Ferrite spiral wound core coated with a blend of copper/nickel bonded with a conductive acrylic cover for only 40 Ohms per foot of resistance with optimum RFI and EMI suppression. A 2 layer 100% Zimpex silicone outer jacket for heat protection up to 600 degrees. Available in black, red, or blue with grey silicone spark plug boots. Universal wire sets include both standard socket and HEI boots with the appropriate terminals. Made in USA.

Emissions Note: (2) Legal in U.S. (excludes California).

10.4mm "409-Series" Pro Race Wire Set

Taylor 409 Pro Race 10.4mm high-performance ignition wires are designed for street and track performance. Tightly woven heat treated fiberglass braid over a 100% silicone Spiro-Pro ignition wire providing a 3 layer jacket these wires have a 102,000 Volt dielectric strength and thermal protection to 600 degrees. The spiral wound core with 350 Ohm resistance per foot has excellent EMI and RFI suppression making them perfect for extreme electronic ignition systems. Universal wire sets include standard socket and HEI boots with the appropriate terminals.

Emissions Note: (2) Legal in U.S. (excludes California).

Super Conductor Spark Plug Wires

The MSD 8.5mm Super Conductor is the ultimate performance wire. It's extremely low resistance combined with the ability to suppress electro magnetic interference is a combination that defies the common laws of physics. Less resistance means more energy is going to make it to the spark plug to ignite the air/fuel mixture. The Super Conductor uses a copper alloy conductor resulting in less than 50 Ohms per foot of wire. This ensures that the most energy possible makes it to the spark plug. This combination is encased in a heavy-duty sleeve that will withstand abrasion and high temperatures. Cap off each end with our dual crimp terminals. Made in USA.

Important: Over the valve cover style, will not work on 1957-72 trucks with a small block and stock Ram Horn style exhaust manifolds.

2-in-1 Universal Wire Set

Universal wire sets have only the spark plug boot and terminal installed. These boots and terminals are available in your choice of a 90 degree boot or a multi-angle boot. Both sets include terminals for engines with either the early style (socket) and late style (HEI) distributor caps. The wires are extra long so they can be cut-to-fit any application. Each set includes a MSD mini-stripper crimper for easy installation. Available with wires in either black or red. Made in USA.

Performance Slant Edge Air Cleaner

Chevy "Bow Tie" logo Slant Edge air cleaner for 5-1/8" neck carburetors. These 14" die-cast aluminum air cleaners feature a cast-in threaded boss eliminating the need for a center nut. They are available in a variety of high-quality finishes with milled-in contrasting emblems either raised or recessed on the lid. This is an Officially Licensed Chevrolet Performance Parts product and includes a genuine GMACDelco air filter.

Emissions Note: Ⓢ Non-CARB compliant (not legal for emission controlled vehicles).

Concealed Element Air Cleaner

These "concealed" element air cleaners will give a stunning look to any engine! Finned air cleaner covers are cast in aircraft grade aluminum and polished to a gleaming shine. Cast and spun air cleaners feature a two piece shell—a spun aluminum shell with a brushed finish and a polished aluminum cap on top. Each air cleaner includes a washable, pre-oiled air filter, base, and mounting hardware. Air cleaner base has a 5-1/8" flange for all popular 4 barrel carburetors.

Emissions Note: Ⓢ Non-CARB compliant (not legal for emission controlled vehicles).

Custom Open Element Air Cleaner

The Razerback air cleaner features an aggressive radius of the top casting with bold fins cascading off the leading edge. The Comet is inspired by the wing profile of the B-17 Bomber, with steep fins on the leading edge that fade away toward the back. Both are cast in A356 aircraft alloy and polished to a show quality shine. Each air cleaner includes a platinum series washable 12" x 8" x 2" filter, featuring a neutral gray material with stainless steel mesh.

Emissions Note: Ⓢ Non-CARB compliant (not legal for emission controlled vehicles).

Edelbrock

E4266

low profile deep flange

Elite Series Air Cleaner

Designed to match the Elite Series valve covers and breathers. All Elite series air cleaners have polished aluminum finned tops with a gloss black background. All include a black anodized knurled nut and PCV adapter. For 5-1/8" carburetor necks.

Important: Deep flange raises the base for more carburetor to base clearance. Use E4266 with all Edelbrock square bore carburetors and Q-jets.

Note: If using on vehicles with electric choke carb, a spacer is required. Use part #E8092.

Emissions Note: Ⓢ Non-CARB compliant (not legal for emission controlled vehicles).

Air Cleaner Components

Air Cleaner Crankcase Vent Filter

This is a small plastic filter with a fibrous insert that fits onto the side of the air cleaner housing and helps to filtrate vapors from the engine ventilation system.
G7285 1968-88..... 3.99 ea

Air Filter Sealing Grease

K&N Air Filter Sealing Grease seals the air cleaner assembly, eliminating the possibility of dirt, dust, and other particles from entering your carburetor from between the air filter element and air cleaner assembly. This is especially important if you will be operating your vehicle off-road or in extremely dusty conditions. Resists heat and will not melt or run off.
990704 6 ounce tube..... 21.99 ea

Air Filter Oil & Clean/Degreaser Set!

K&N Air Filter Oil & Clean/Degreaser is the only oil and cleaner/degreaser specially formulated to work in combination with the cotton fabric in the K&N filter. The use of any other could void the filter's warranty and potentially harm the air filter's cotton material. The cleaner/degreaser works to dissolve the dirt buildup and old oil filter oil and can be washed away with water. Each set includes oil, cleaner/degreaser, and service decal.

995050 set w/8 oz. squeeze oil..... 17.99 set

Carburetor Cover

Damage to pistons, rings, and other components can be caused by accidentally dropping something into your carb while the air cleaner assembly is off. The K&N carburetor cover is used on 5-1/8" carburetors eliminating the risk of dropping bolts, nuts, screws, or other items down the throat and into the intake manifold.

MSD

DynaForce Starter

These MSD starters are designed for severe duty, high compression applications. The 3.4 HP motors use a 4.4:1 gear reduction to easily start even an 18:1 engine with a lower current draw than traditional starters. Red powder coated finish and nickel-plated solenoids with a three position adjustable mounting block so they can be clocked for easier installation. Small and big block models have a straight mount bolt pattern and work with 153 and 168 tooth flywheels. Made in USA.

Note: LS1/LS7 starter not compatible with GTO LS engines.

K0174

361443

1968-74 BB Starter Solenoid Heat Shield

This heat shield is used for all big block models from 1968-74. Stamped to the correct configuration and produced in galvanized steel.

361443 1968-74 heat shield 19.99 ea
K0174 1968-74 retaining nut 9.99 ea

Starter Heat Shield Set

In today's high heat environment, starters take a lot of damaging heat that destroys the windings of the starter and solenoid. To combat this problem, we offer a nonconductive strap-on heat shield with a highly reflective Mylar surface. The starter heat shield will reflect over 90% of radiant heat, adding life to the starter and assuring reliable starts. The starter heat shield is a universal set that fits all starters.

TT1002 set with straps 27.99 set

Starter/Alternator Components

Starter Wire Grommet

Reproduction starter wire grommet for 1955-59 models. Protects the wiring harness from damage. Fits 7/8" hole.
TF300248 1955-59 3.99 ea

Starter Motor Replacement Brushes

When rebuilding your original starter motor, it is usually necessary to replace the brushes. These brushes are stamped 945 and contain a 13/64" diameter hole. Set includes 4 brushes.
RX6004 1955-83 5.99 set

1998-00 Starter Relay

Reproduction starter relay designed to replace non-functional original relays.

DynaForce Alternator

Whether you need a high output alternator to power your muscle car, street rod or touring machine, MSD has you covered with the DynaForce alternator. For the street, MSD offers a 120 or 160 amp 1 wire alternator. Not only are they designed for extreme output at higher RPM, but MSD balances the current output to keep your electronic components up to speed during idle and lower RPM operation as well. Both the 120 and 160 amp alternators feature one wire installation to keep things clean, easy and effective. The charge post of the alternators is moved to the side of the housing to allow for improved clearance to the block, plus a pulley baffle is included to ensure there is never any fan to belt issues (common at high RPM on lesser alternators). The DynaForce alternators are designed for applications that require straight mounts from top to bottom. Typically found on GM vehicles from the mid 1960's through the mid 1980's. Made in USA.

Note: Some modifications to the mounting bracket might be necessary.

Small Block Alternator Relocation Set

This set allows you to mount your alternator down low on the driver side of the car. Uses the 2 bolt holes on the LH side next to the balancer. If you have trouble running tall valve covers due to alternator clearance, are trying to open up the area up top for radiator hose routing and do not have a power steering pump mounted low on the driver side of then engine, this may be the set for you. Requires use of short water pump.

NIG27	1955-72	small block	64.99 set
-------	---------	-------------	-----------

AUTHORIZED

1973-78 Alternator Bracket Set

This convenient aluminum alternator bracket set is designed for small block Chevy engines with long style water pump. Will work to mount the alternator on the RH or passenger side of the vehicle using original holes in the water pump. Will work on engines that have the power steering pump positioned on the LH or driver side of the vehicle. Hardware is included.

153663	1973-78	small block	55.99 set
--------	---------	-------------	-----------

1989-92 Alternator Brace

Genuine GM alternator brace which is used to support the alternator. Mounts to a stud on the cylinder head and the rear case of the alternator. Fits 5.0L or 5.7L V8 engines.

G7265	1989-92		5.99 ea
-------	---------	--	---------

1998-02 LS1 Alternator Mounting Set

Eliminate excess belt length and tensioners. This set mounts the alternator with a shorter, manually adjusted belt. To use smaller pulleys, simply change belts. Black anodized aluminum construction. Includes hardware. For use with electric water pump without ps or AC.

Universal Fuel Tank Anti-Squeak Insulator

Universal style anti-squeak cushions are designed to install between the gas tank and the gas tank straps. These fuel tank anti squeak pads cushion the gas tank from the body and straps to reduce noise caused by metal to metal contact. Replacing or adding the anti squeak pads can help eliminate noise or friction between the fuel tank straps and the body. Prepackaged in OER® poly tube.

24" Anti-Squeak Set

Set contains: two 24" x 2" x .060" anti-squeak strips, two 24" x 1-1/4" molded fuel strap cushions, and one 5-1/4" x 2" x 1/2" neoprene anti-rattle pad.

J-B Weld Gas Tank and Radiator Repair

TankWeld is a hand mixable, steel reinforced, non-rusting epoxy putty that quickly repairs or rebuilds anything made of metal. After mixing, it forms an industrial strength polymer compound that can be molded into shapes or used to buildup, patch and repair steel components. TankWeld sets in 5 minutes and after 60 minutes, can be drilled, tapped, machined, ground, filed, and painted. Cures dark gray. Made in USA.

Pop-Top Fuel Filler Cap

Manufactured from aluminum with a smooth and polished finish. To open the cap you press the center, turn slightly counter clockwise and the cap will pop up. The dimensions are 2-1/2" in diameter and 3/32" above the mounting surface and uses a 1-3/4" i.d. filler hose. This keeps your bed looking great when relocating your fuel tank!

Important: A 1/8" hole may be drilled in center of plastic cap for a vent which is located on back of aluminum cap.

Gas Cap with Polished Finned Top

Gas caps are usually just a way to cover the fuel filler hole. Why not make a statement with this gas cap and polished custom finned top. The U.S. made casting is of A-356 aluminum alloy and polished to a show quality finish. Each gas cap and top is shipped as 2 parts so that you can align the fins properly during installation. Features a vented gas cap and fits 1947-71 GM models. Polished top is cast in the USA.

Note: We recommend using JB weld for installation see part #JB8265.

New!

Performer RPM 110 GPH Fuel Pump

Designed for all Edelbrock carburetors used in Performer or Performer RPM applications. These high-performance street fuel pumps feature a high-quality three stage polished finish. The unique valve design improves flow quantity and quality, and will support engines up to 600 HP. High volume, 3/8" NPT inlet and outlet surpasses the capacity of conventional models. Produces 6 psi and does not require a regulator. For gasoline only. Clockable lower housing can be rotated for best inlet/outlet alignment.

1987-90 Fuel Pump Gasket

This Genuine GM fuel pump gasket mounts between the fuel pump and the mounting plate or engine block. For use with 6 cylinder, small block, or big block.

G6993	1947-90	2.99 ea
-------	---------	---------

1987-03 Fuel Pump Relay

A bad fuel pump relay can be the cause of a hard starting problem in your 1987-03 truck. If you turn the key into the on position, you should hear the fuel pump activate for a few moments as it pressurizes the system. If fuel pump does not activate, that may be an indication that you have a bad fuel pump or relay.

1947-87 Main Fuel Feed Line and Fuel Return Line

Reproduction fuel feed and return lines for 1947-87 pickup and Blazer/Jimmy models. Available for various models and configurations. Each features original style bends and are available in OE material for originality or stainless steel for long-lasting durability.

Note: Shipped oversize.

Return Line Fitting Conversion Set

If you are installing an in-line fuel pump or an aftermarket fuel injection setup but are using an original fuel tank not originally provisioned for a return line, this universal return line fitting set is a simple and inexpensive way to add one to your existing setup without having to go through the hassle of pulling your old tank and installing an expensive, brand new tank. This fitting can also be used for other applications such as adding a vent line or power steering return line, whatever you might need where a return line was not originally installed. Works on material up to 1/4" thick.

Electric Fuel Components

Inline Fuel Pressure Gauge

Set and monitor fuel pressure with these easy to use gauges! Simply splice into the existing carburetor line to with the anodized aluminum fuel block and 3/8" nipples. Each gauge measures 1-1/2" in diameter with a 0-15 psi range in 1/2 lb increments. Gauges are available in standard form or liquid filled for better vibration resistance and readability.

71560 standard gauge..... 61.99 ea
71564 liquid filled gauge..... 61.99 ea

Fuel Pump Vacuum/Pressure Tester

Tests for fuel line pressure and vacuum leaks. Check for leaky valves, timing, fuel pump, vacuum, and gas line leakage. Easy-to-read gauge with 3 foot hose and vacuum hose adapter fitting. Measures vacuum from 0 to 28" HG in 1" increments. (0 to 700mm HG in 50mm increments). Measures pressure from 0 to 15 psi in 1/2 psi increments (0-1Kg/cm2 in .1 Kg/cm2 increments).
Y20300 27.99 ea

Fuel Line Disconnect Tool Set

Easily disconnect fuel injection quick connect fuel lines in hard-to-reach locations. 3/8" and 5/16" adapters.
34750 16.99 set

Max-Clean Fuel Cleaner

Max-Clean targets and cleans deposit build up in the intake system and combustion chamber and is effective on the entire spectrum of engines on the road. Royal Purple's Max-Clean can restore internal engine surfaces, recovering lost fuel economy and performance.

Electric Fuel Pump

We offer externally mounted Holley electric fuel pumps. They all feature the proven rotor and vane design and are available in ratings from 97 gph to 140 gph. The 97 gph "red" pump is set at 7 psi and does not require a regulator. The 110 gph "blue" pump is set at 14 psi and includes a regulator. The 140 gph "black" pump is also set at 14 psi and can be used for gas or alcohol fuel.

Black Pump	140 gph	269.99 ea
H128151		
Regulator	4-1/2 to 9 psi	46.99 ea
H12803		

Electric Fuel Pump

These externally mounted electric fuel pumps are ideal for most street and strip applications. Proven rotary vane technology provides high flow and stable pressures with minimal vibration and sound. Each pump features 3/8" NPT inlets and outlets along with an externally accessible pressure relief valve.

Note: Not for fuel injected engines. Pumps that produce more than 7 psi should be used with a pressure regulator.
Emissions Note: * Non-CARB compliant (not legal for emission controlled vehicles).

Quiet-Flo Electric Fuel Pump

State-of-the-art electric fuel pumps offer maximum performance in a compact package for carbureted applications. Anodized aluminum housing and high-quality internals make it both strong and extremely durable. The E1791 electric fuel pump is factory set to 6.5 psi does not require a regulator. 3/8" inlet/outlet, 120 gph free flow, up to 600 HP. The E1792 electric fuel pump is preset to 12 psi and requires an external regulator. 1/2" inlet/outlet, 160 gph free flow, up to 1000 HP.

Important: For proper installation and voltage requirements, use fuel pump relay E1795.

E1791 6.5 psi 280.99 ea

E1792 12 psi 284.99 ea

Quiet-Flo Electric Fuel Pump

This anodized aluminum EFI fuel pump offers maximum performance in a compact package. The in-line design keeps the pump motor and components cool even under harsh conditions. Features -10AN inlet/outlet with a flow rate of up to 80 gph at 45 psi for high HP fuel injected applications. This fuel pump supports 835 HP at 12 Volts with a current draw of 12 amps at 45 psi. 10AN inlet/outlet 80 gph at 45 psi.
Important: Dimensions: 6-7/8" x 3-1/4".

E1790 798.99 ea

In-Line Electric Fuel Pump

This in-line electric fuel pump is continuous duty rated and is ideal for EFI applications that require additional pumping capabilities. Works superbly as either an in-line booster pump or as a stand alone unit. Use with EFI regulator part #E1728 for adjustability from 35 to 90 psi. 5/7 gph, 3/8" hose barb fittings. Includes mounting bracket and 3/8" hose barb fittings.

E3594 307.99 ea

FUEL & EXHAUST

Electric Fuel Components

Micro Electric Fuel Pump

This compact electric fuel pump features a solid state design that has a low current draw of around one amp and makes a good stand alone pump or booster pump. Designed for carbureted vehicles with a 12 Volt negative ground electrical system, this pump supports 4-7 psi up to 35 gph. Includes: fittings, mounting hardware and instructions.

Note: Not for diesel applications.

71211 59.99 ea

Fuel Pump Relay

This universal fuel pump relay will ensure proper wiring which reduces the risk of damaging the fuel pump, and offers consistent fuel pressure. This relay is used with fuel pump part #E1791 or #E1792.

E1795 universal relay..... 79.99 ea

Fuel Pump Safety Switch

This safety feature is a must have for any electric fuel pump vehicle. This safety switch monitors the tach signal to limit when an electric pump can operate. When the key is first turned on, the fuel pump is allowed to run for three seconds, priming the fuel system. After that, it only operates if the engine is running. If the engine stops, so does the fuel pump. No plumbing into the oil lines or no extra priming button under the dash is required.

RE12003 64.99 ea

Fuel Pump Safety Switch

This fuel pump safety switch shuts off fuel flow whenever oil pressure drops below 15 psi. This adds a safety factor in case of an accident or engine stall. Designed for 12 Volt electrical systems and can be tied into the oil pressure sending unit with an 1/8" NPT tee.

77872 30.99 ea

Fuel Pressure Regulator

These fuel pressure regulators are machined from aircraft quality aluminum and have fluorosilicone diaphragm material for high temperature protection and extended life. Fully adjustable.

160 gph
With 3/8" NPT Inlet/Dual Outlets
E1727 5-10 psi..... 181.99 ea

With -10AM Dual Inlets/Outlet, -6AN Bypass
E1729 35-90 psi..... 204.99 ea

EFI Fuel Pressure Regulator

Holley 3/8" die-cast aluminum EFI bypass fuel pressure regulators. These regulators are fully adjustable between 15-60 psi. They feature an EFI return port, an 1/8" gauge port and an 1/8" 1:1 boost reference port perfect for fuel injection conversions with or with power adders. 1/8" hose barb fitting included.

H12882 polished..... 85.99 ea
H12886 black 88.99 ea

Billet Fuel Pressure Regulator

Holley billet aluminum bypass fuel pressure regulators. Each one is precision machined from 6061-T6 billet aluminum with a black anodized base and a clear anodized top. These regulators are fully adjustable between 4-60 psi for either carbureted or fuel injected applications. They feature a dedicated bypass/return port, an 1/8" gauge port and an 1/8" 1:1 boost reference port perfect for fuel injection conversions with or with power adders. 1/8" hose barb fitting included.

H12879 3/8" inlet/outlet..... 186.99 ea
H12880 6AN inlet/outlet 186.99 ea

EFI Bypass Regulator

Performance EFI regulator designed for medium to high horsepower applications. This regulator features Aeromotive's high flow design, superb pressure control and legendary durability. Features base pressure adjustable from 40-75 psi, gasoline and alcohol compatible, fuel pressure rises on a 1:1 ratio with boost. 1/8" National Pipe Thread taper (NPT) gauge port. Includes two o-ring boss fittings (ORB-06) inlet ports and one o-ring boss fitting (ORB-06) return port.

Emissions Note: Ⓢ Non-CARB compliant (not legal for emission controlled vehicles).

A9713109 adjustable with EFI..... 216.99 ea

Universal Bypass Regulator

A dual purpose, universal regulator for EFI or for Carbureted street/strip applications. Features pressure adjustable from 5 to 20 psi with standard spring, (installed) or from 20 to 60 psi with high pressure spring (included). Offers the full flow and rock steady fuel pressure that only a dynamic, Aeromotive bypass regulator provides. Capable of regulating any fuel pump between 100 and 250 gph, fuel pressure rises on a 1:1 ratio when referencing boost. All ports are 3/8" National Pipe Thread taper (NPT), with one inlet and three outlets on the main body and one return port on the bottom. Bypass design provides the ultimate, dynamic fuel pressure control.

Note: Requires a return line to be installed from the bottom of the regulator to the top of the tank.

Emissions Note: Ⓢ Non-CARB compliant (not legal for emission controlled vehicles).

A9713301 3 Port 3/8" NPT..... 216.99 ea

Carbureted Bypass Regulator

Perfect for naturally aspirated or 'blow-through' supercharged engines. Features base fuel pressure adjustable from 3-15 psi, 1 o-ring boss fitting (ORB-10) inlet port and 1 o-ring boss fitting (ORB-08) return port, fuel pressure rises on a 1:1 ratio when referencing boost, bypass design provides the ultimate, dynamic fuel delivery system, ideal for converting from fuel injection to carburetion using the stock, in-tank pump. EFI conversions will require a larger than stock return line for proper low pressure control. Includes two o-ring boss fittings (ORB-06) outlet ports and 1/8" National Pipe Thread taper (NPT) gauge port.

Note: Requires Arm/Key fitting (AK-08) return line from bottom of regulator back to top of the tank.

Emissions Note: Ⓢ Non-CARB compliant (not legal for emission controlled vehicles).

Performance Carburetors

Thunder Series Carburetor

Edelbrock

Edelbrock Thunder Series carburetors share all the performance advantages of the popular Performer Series but with innovative new features. These carburetors include all of the performance features of the Performer Series carburetors and also include distinctive black hardware, dual fuel inlets (shipped with left side plugged), lightweight ball burnished and CNC profiled body, and the Quick-Tune secondary.

E1906

They're available in 650 cfm and 800 cfm sizes with manual or electric choke. There's even a 650 cfm version specifically designed for off-road vehicles. These Edelbrock carburetors bolt-on and run right out of the box! Simply dependable, proven performance for almost any carburetable vehicle. All Edelbrock carburetors include an installation kit and owners manual.

Emissions Note: * Non-CARB compliant (not legal for emission controlled vehicles).

Standard Finish

E1906*	650 cfm	electric choke...	446.99 ea
E1913*	800 cfm	electric choke...	489.99 ea

Performer Series Carburetor

By design, Performer Series square bore carburetors are refined to provide the widest possible torque range when matched with Edelbrock Performer, Performer RPM, RPM Air Gap or Torker II manifold and camshaft combinations. However, these carburetors are not limited to these applications, they also match well with most stock and other manifolds of similar design.

E1405

Performer Series square bore carburetors are all aluminum, ball burnished and lightweight. There are no power valves to blow out or plastic parts to break. The 2 piece construction resists warping and the metering rods can be changed in seconds without removing the carburetor. All Edelbrock carburetors come with an installation kit and owners manual.

Emissions Note: * CARB EO compliant (50 states legal); ** Non-CARB compliant (not legal for emission controlled vehicles); † Black power coated.

Carburetor Parts

Carb Dual-Feed Fuel Line

Made from aircraft quality Buna-N neoprene hose encased in braided stainless steel, this fuel line is temperature, gas and oil resistant. Made for 3/8" NPT fittings, the fuel line is adjustable between the carb bowls from 7-1/2" to 11-1/2". Includes 1/8" pipe fitting and plug for optional fuel pressure gauge, etc. Hose inlet nipple not included.

H34150

Dual Feed Fuel Line

We offer billet aluminum or chromed copper fuel lines for Holley carburetors. Billet Aluminum line is an adjustable line for Holley 4150 or 4500 carburetors. It is manufactured with a -8 AN inlet and 3/8" NPT port at the rear with 7/8"-20 threads for the fuel ball inlets. The chromed barrel lines are manufactured with seamless copper tubing and are double flared at the ends with 5/8"-18 inverted flare inlets that measure 9-1/4" center to center.

Carburetor Spacer Set

Easily optimize the flow rates of air and fuel in your vehicle with this modular 1" carb spacer set! Since various engine combinations have different fuel and air delivery requirements for maximum performance, spacer set includes 1 frame and 2 popular inserts: open, 4 hole, and tapered 4 hole. This way, you can dial in exactly the right flow to get the most from your motor.

67160 carburetor spacer..... 31.99 set

5-1/8" Diameter Carburetor Cover

Keep dirt and contaminants out of your carburetor while working on your engine with the air cleaner removed. Produced using tough plastic construction. For use on all 4 barrel carburetors. 5-1/8" diameter.

T2012 1967-86 4 barrel..... 8.99 ea

Carburetor Wedge Plate

During hard acceleration the float bowls in a carburetor become uneven, causing moderate fuel starvation. This aluminum spacer tilts the carburetor forward 5 degrees to help keep it level. This spacer measures .830" at its thickest point and has a dual bolt pattern for standard Holley, Carter AFB, and Edelbrock carburetors.

Emissions Note: Non-CARB compliant (not legal for emission controlled vehicles).

Finishes include stainless steel, black stainless steel, and billet aluminum were available. Carburetor brackets only fit Holley, Edelbrock, AFB, Quadrajets, Demon, and In-Line Dual Quad carbs and mounts to the rear. Brackets for Tuned Port Injection are available with a single hole stud for throttle only, a dual hole stud for throttle and kickdown, and a triple hole stud for a throttle, kickdown and cruise control cables. Made in USA.

Important: Ram Jet 350 uses LSI1 throttle cable TC30036 or TC30048.

Note: *Cruise control bracket set only.

In-Tank Pump Set

In-Tank Pump modules can be used on tanks with a depth of 6" to 15". The two fuel ports are threaded to accept 6-AN/O-ring boss fittings for a secure, leak-free connection. An In-Tank 340 LPH pump is included along with gaskets, terminals, and clamps.

FF50015 In-Tank..... 414.99 set

Inline Pump Set

The Go EFI Inline frame mount fuel delivery set is supplied with our heavy-duty 255 LPH external fuel pump that is suitable to support engines producing up to 600 horsepower. Set includes: 40 feet of high pressure fuel hose, 2 fuel filters including a serviceable 10-micron filter, fittings, mounts, and clamps.

FF50001 Inline Pump..... 297.99 set

Force Fuel Mini Pump Set

The compact design of the new Mini Force Fuel fits easily under the hoods of street rods and smaller engine compartments. The reservoir of the Mini is equipped with an efficient 255-LPH pump and internal regulator to deliver a consistent 58-psi of fuel pressure for your EFI system. Supplied with high pressure fuel hose, AN fittings, return line fitting bush and liquid filled gauge FF50006 Force Fuel Mini..... 479.99 set

Force Fuel Pump Set

The Force Fuel System mounts under the hood and is fed with the original mechanical or electric fuel pump then supplies the EFI system with the required high pressure through the use of an internal 340 LPH pump. Set includes: 5' of high pressure fuel hose, 10-micron fuel filter, AN fittings, return line fitting bush, and liquid filled gauge.

FF50004 Force Fuel..... 479.99 set

Hedman Hedder Emission Notes

- A) Not applicable or intended for street or highway use. Legal only for racing vehicles which may never be used upon a street or highway.
- B) 281-400 small block Chevrolet with D-port heads
- C) This Hedder has been submitted to the California Air Resources Board for criteria and exemption approval. Pending approval, the EO # should be available soon.
- D) For vehicles 1964 through 1974 without AIR system, considered as OE replacement parts when existing emission controls are not removed from vehicle.
- E) Not legal for sale or use in California.
- F) For vehicles 1964 through 1974 with AIR system, considered as OE replacement parts and do not require an EO #, when existing emission controls are not removed from vehicle.

- N) 1975-81 only, 50 state legal for these years.
- O) 1975-82 only, 50 state legal for these years.
- P) 1975-86 only, 50 state legal for these years.
- T) 1982 only, 50 state legal for these years.
- U) 1982-86 only, 50 state legal for these years.
- X) TEMS (Tubular Exhaust Manifold Systems) are 50 state legal for years listed in catalog only.

Hedman Hedder Notes

- 0) TEMS (Tubular Exhaust Manifold System)
- 1) Without smog injection or injection heads.
- 4) Includes parts necessary to retain emission devices. (50 State).
- 5) With AIR system.
- 6) Modification to stock exhaust required to retain catalytic converter.
- 15) Shortie Hedder (Max. ground clearance).
- 17) Tail shaft Style crossmember only. Not bellhousing style crossmember.
- 16) Check Non-Tork Step listings for same part number replacing last digit with a 0. Pay special attention to emission footnotes.
- 26) AC equipped vehicles require bracket #201110. (A6 compressor).
- 14) Not legal for sale or use in California on pollution controlled motor vehicles.
- 47) Some vehicles may encounter clutch shaft interference when cross shaft location is under or behind the driver side rear exhaust port. Use #69092 without AIR. Use #69093 with AIR.
- 48) Will not fit torsion bar suspension.
- 51) Under chassis exit
- 75) 4 x 4 manual transmission with hydraulic clutch. Does not work with slave cylinder.
- 103) Will fit with angle plug heads (Chevy alum. only)
- 112) Must use all factory big block hardware and mounts.
- 121) Must modify rotary AC bracket.
- 122) Late model only. Engine off to passenger side of vehicle.
- 127) Dual outlet.
- 139) Must use 1975 and later model clutch linkage located at rear of engine.
- 144) Complete with Y-Pipe to single catalytic converter.
- 160) Early chassis only.
- 208) Due to aluminum cylinder heads on GEN VI engines, 502 big block Chevy will have clearance problems on some applications. Bottom of Hedder flanges may hit head bolts. Nothing may be necessary.

HEADERS**

DOUG'S HEADERS

The original
**DOUG'S
HEADERS**

Every Doug's header set includes all the necessary mounting hardware, collectors, premium gaskets, and detailed installation instruction sheets. The extra thick gaskets are rated up to 1100 degrees F, and are designed for an exact port match with Doug's headers. Utilize 3/8" flanges on light duty applications and 1/2" to 5/8" flanges on heavy-duty applications, such as motor homes and tow vehicles. Thicker flanges hold up to heat better and are less likely to warp. Metallic Ceramic Thermal Barrier Coating (MCTBC) is simply the best header finish on the market and now comes standard on all Doug's headers. It protects and extends the life of headers by creating a thermal barrier that significantly lowers underhood temperatures and protects the substrate metal from thermal fatigue. After MCTBC is applied, it is polished with a vibratory finishing process that produces a high luster aluminum appearance and compresses and activates the coating, which increases the surface hardness to produce a finish that is 60% more corrosion resistant.

8372

Emissions Note: Ⓢ Non-CARB compliant (not legal for emission controlled vehicles).

Doug's Headers Notes

- 36) Fit D-Port cylinder heads including ZZ4 crate engines.
 69) Big block frame stands and motor mounts must be used to insure proper engine location and header fit.
 82) Better ground clearance than 8372.
 92) Will fit most angle plug heads including factory Chevrolet "Bow Tie" heads.
 93) Requires removal or modification of locking steering columns if equipped.
 94) Non catalytic converter equipped.
 96) Installation requires a left side AC bracket 7608. 1979 and later vehicles with short compressors can use the stock bracket.
 126) Y indicates Tri-Y design.
 133) Does not fit with power glide transmission.

- 137) Will not fit 4-speed applications with bellhousing mounts.
 141) Available with optional smog pump provision. Dual smog pump applications add DP to the end of header part number. Single smog pump applications add SP to end of header part number.
 A) The product accompanying this document is legal only for off-highway use (except in California or states that have adopted California emission standards), racing use or for use on pre-emission controlled motor vehicle/motor vehicle engines (pre-1974 domestic vehicles certified to California standards, pre-1974 domestic vehicles certified to federal standards and all pre-1974 foreign vehicles), per the manufacturer's application guide.

Exhaust Headers

1947-82 Fenton 6 Cylinder Header

Classic Fenton high-performance headers are here. These quality cast iron headers split single 6 cylinder exhaust systems into a high flow, high-performance dual exhaust system. Fits all 1947-62 Chevrolet 6 cylinder 216, 235, and 261ci engines.

Note: Shipped oversize.

LS Engine Conversion Headers

These headers are designed for LS engines and are available in a variety of sizes and styles. A silver ceramic coating keeps temperature under control and provides a great long-lasting appearance. Each set is designed to clear the factory AC box, power steering, and power brakes. Limited lifetime manufacturers warranty. Made in USA.

Emissions Note: (3) Non-CARB compliant (not legal for emission controlled vehicles).

1963-72 LS Conversion Set

We've got just what you need to finish off that motor and get it into your ride. These sets will work on all LS motors (except LS7) and 2000 and newer Vortec motors. Set includes: engine mounts perches and adapters, engine pads, full length ceramic coated headers, transmission crossmember, and all mounting hardware and will work for your truck.

Note: These sets must also use Lokar dipstick #EDS020 for 1997 and later vehicle LS or #EDS021 for 1999 and later truck LS engines. Shipped oversize.

Chevrolet Wedge Locking Header Bolts

Grade 8 (12.9 steel), Hex type header bolts were designed to keep bolts from backing off. These permanently assembled bolts feature special washers with super hardened serrated teeth that, when sufficiently torqued, the washers bite into and grab the bottom of the bolt head and the top surface of the header. After being self-locked in this manner, any bolt loosening rotation is blocked by a wedge locking action created by the washers interfacing, matching cams. Engine vibration increases the tension, making them even more secure! They are reusable and you can count on them to not fail.

Note: Image for illustration purposes.

Header Bolt Set

ARP manufactures premium grade bolt sets to facilitate installation of exhaust headers in both stainless steel or 8740 chromoly steel. The Stainless 300 material is not affected by corrosion or extreme heat, making it ideal for the application. The compact 12 point head version lets you easily fit a socket close to the pipe. Each ARP set includes the specific number of bolts for your application, plus premium quality washers with Hex of 12 point heads, as required. The black oxide finished chromoly bolts and stainless steel fasteners are nominally rated at 170,000 psi tensile strength. Small block sets contain 12 bolts and big block sets contain 16 bolts. All bolts are 3/8" diameter.

LS Hooker Cast Iron Exhaust Manifolds

These Hooker cast iron exhaust manifolds are designed to hug the engine block closely so they will work with a variety of LS engine swaps or as a replacement. The contoured shape increases flow and performance over stock manifolds with a traditional look. Fits all LS engines up to 500 horsepower except LS7 and LS9. Made from hi-silicon ductile iron for years of durability and corrosion resistance. Available in a range of different finishes.

Emissions Note: Non-CARB compliant (not legal for emission controlled vehicles).

Low-Line Lake Pipes... The Look is Back!

Get the retro look with a set of chrome lake pipes on your vehicle! This look was popular in the late 1950's and early 1960's. When setup as a functional feature, it allowed the racer to unclog or "dump" the exhaust for increased exhaust flow when racing. The use of a cap was allowed for quieter operation during street driving. It also provided the car with a lower "lead sled" look. These pipes do not incorporate any silencing materials and are recommended for nonfunctional use only. Choose from two styles: slanted outlet without cap or triple outlet with caps. Available in two lengths to suit your needs. Chrome pipe measures 2" in diameter. Mounting clamps sold separately.

Note: Shipped oversize.

- Slant Outlet**
- H1260 2" x 60"..... 314.99 pr
- Triple Outlet with Caps**
- H1284 2" x 80"..... 519.99 pr

Street Pro P1021

Race Pro P1033

Violator P1038

409 Stainless Muffler 

Pypes Street Pro mufflers are chambered to maintain rich sound without resonance, Sound Rating = 7.0-7.5/10. When it comes to flow, you just can't get anything better than our Race Pro muffler. Race Pro mufflers have a straight through design, Sound Rating = 7.0/10. Violator mufflers have an internal louvered tube with mini sound deflector chambers, making it flow like a straight through muffler but with the sound of a chambered muffler, Sound Rating = 9.0/10. Each muffler case measures: 4" x 9" x 14".

Performance Mufflers

FLOWMASTER
F12512409
F12418409

Super HP-2 Muffler

Designed for street rods, customs and vehicles where undercarriage space is tight, the Flowmaster Super HP-2 provides the exhaust performance you need in a compact package that fits wherever you need it. The Super HP-2 has a moderate tone with the appearance, durability, and sound control to suit daily drivers, weekend cruisers, and world-class show vehicles. Available with a 409S stainless steel case or polishable 304S stainless steel case in sizes from 2", 2-1/4", and 2-1/2". Made in USA.

FLOWMASTER
F842515

Super 10 Series Stainless Steel Muffler

Looking for the most aggressive sound available? Flowmaster's new Super 10 series mufflers are so aggressive, they aren't recommended for street driven vehicles. Best suited to racing applications, these feature the same performance technology used in the Super 40 and Super 44 series Flowmaster mufflers. These short, single chamber mufflers deliver the closest thing to open pipe sound possible. If you want high impact sound, the Super 10 series mufflers are the answer. Measures: 6-1/2" x 9-1/2" x 4".

Note: These mufflers are recommended for off highway use, not for street driven vehicles.

F843015	3"	99.99 ea

FLOWMASTER
F842541

Delta Flow 40 Series Reduced Interior Resonance

This two chamber design incorporates Flowmasters patented "Delta Flow" technology. The "Delta" deflectors result in increased scavenging for better performance and reduced interior resonance over the standard 40 series with a nice growl outside the vehicle. Sounds great on late model performance vehicles with catalytic converters. Constructed of 16 gauge 409 stainless steel and fully MIG welded.

AMERICAN THUNDER
F42441

- Aluminized Steel
- Original Flowmaster Tone
- Deep Tone Inside Vehicle
- Street or Strip

40 Series — Original Flowmaster Tone

This is the most "aggressive" sounding street/strip muffler that Flowmaster offers. If you're looking for attention, this one will get you noticed. The standard 40 series has an "aggressive rumble" and will generally resonate inside the vehicle around 1800-2000 RPM's, and again at 2400-2600 RPM's. Constructed of 16 gauge aluminized steel and fully MIG welded for maximum durability.

Exhaust Cutouts

Electric Exhaust Cutout

Don't crawl under your vehicle to uncock your exhaust ever again by switching to electric cutouts. Keep them closed and quiet for the street, wide open for the strip, or anywhere in between with the flip of a switch. You control the volume and the power! Available in sizes 2-1/4" to 4" and a low profile oval design for applications with limited ground clearance. Fits 2-1/4" to 3" round exhaust pipe. Built with high-quality materials - CNC 6061 aluminum body and motor plate, stainless steel shaft and butterfly plate, high torque DC gear driven motor, weather tight wiring connectors, and custom illuminated toggle switch.

Important: Match valve size with cutout size for optimal fit and performance.

Note: *Includes connector, fits 2-1/2" to 3" round pipe.
**Includes 4" three bolt flange.

--------	-------------	-----------

Stainless Steel Electric Cutouts

These cutouts feature a rugged 12 Volt DC motor and rotating gate for a leakproof seal every time the cutout is opened and closed. When fully opened, these cutouts do not create exhaust flow obstructions that can create a leaky gasket sound, unlike butterfly style cutouts. A pre-wired harness with an illuminated rocker switch is supplied for easy installation. Uncork your exhaust with the flip of a switch from your dash. The cutouts are ideal for race tracks that don't require mufflers. Cutouts are available individually, in pairs, or in complete sets with Y-Pipes for easy installation. Made in USA.

Important: Not recommended for vehicles equipped with catalytic converters.

Note: May not be legal for highway use or use on emission controlled vehicles.

Exhaust Tips

P1074K

Universal Dual Electric Cutout Set

Pypes dual electric cutout set allows you to partially or fully open both your exhausts from one switch that you can mount anywhere in the vehicle. Perfect for when a quick 10-20 horsepower is needed. Using only the highest quality materials, the housing is manufactured with 6061-T6 billet aluminum with a double sealed aluminum butterfly. The motor features a high temp o-ring to ensure a complete seal and a built-in thermal protection device to protect it from overload. Sets include: two electric exhaust cutouts, wiring harness with switch, stainless steel mounting hardware, extra thick gaskets, and Pypes lifetime limited warranty. Available with or without Y-pipes.

*Note: *Connects to any 2-1/2" exhaust with an approximately 12" straight section and enough clearance for the motor/valve assemblies.*

Hi-Heat Coatings

Thermo-Tec exhaust insulating products work excellent as a paint directly on metal surfaces and can handle continuous temperatures up to 1200°F. It is also recommended for coating exhaust insulating wrap. The coating will protect the wrap from abrasion and harmful liquid spills. Extra resins and binders toughen the surface and extend the life of the wrap.

Note: Shipped within the continental U.S. Only. Shipped ground only.

Xtreme Temperature Coating

XTC is a high temperature/heat resistant coating formulated specifically to protect metal surfaces operating at temperatures from 500 to 1500 degrees F. With proper preparation, XTC provides outstanding adhesion, film integrity, weathering, and thermal shock resistance throughout this entire temperature range, and is guaranteed not to burn off! Available in your choice of a wide variety of colors and sizes.

Note: 8 oz. will coat approximately 3 sets of automotive exhaust manifolds with 2 coats or coat a set of shorty headers with 2 coats. Pints will coat a set of full size headers with 2 coats or coat a complete automotive exhaust system with 2 coats.

Xtreme Temperature Coating

Important: When ordering, select the part number for the size of the can you need, then add the two digit numerical color code to the end of the part number to specify your desired color.

HW719304

Vermiculite Coated Header Wrap

Insultherm Header Wrap is an extremely high temperature resistant wrap used to insulate hot gases in automotive exhausts. Manufactured from texturized fiberglass yarns that are woven into a strong, flexible wrap with vermiculite coating. Resists gasoline and engine chemicals and withstands temperatures up to 1200 degrees F (maximum continuous temperature of 1000 degrees F). Available in black or natural in 50' or 25' rolls.

TT1012

Thermo-Tec Exhaust Insulating Wrap

Increased exhaust scavenging is produced, along with lower intake temperatures. Exhaust Insulating Wrap™ withstands continuous heat up to 2000 degrees F, and contains no asbestos. Will not over insulate a system when properly installed due to a proprietary coating developed by Thermo-Tec's Thermal Conduction Technology (TCT) that conducts heat across the wrap's surface. The 1/16" thick wrap is available in 1 inch or 2 inch widths in 15' or 50' rolls. Choose from off-white or graphite black.

Off-White Exhaust Wrap

TT1009	1" x 15' short roll	9.99 ea

TT1016

Thermo-Tec Exhaust Jacket

The new quick wrap, high velocity Exhaust Jacket™ are an innovative way to insulate and block radiant heat. The jackets cover the header tubes vertically allowing for a consistent fit. It fits the exhaust system to expand as it comes up to operating temperatures without restrictions and provides air space for added insulation. This product uses Thermal Conduction Technology (TCT), developed by Thermo-Tec®, and can be applied with the headers in the vehicle.

Thermo-Sleeve

Thermo-Sleeve is the combination of a high temperature fabric laminated to a highly reflective Mylar foil. It provides protection from radiant heat for hoses and wires. Thermo-Sleeve's ultra lightweight construction provides more insulation than traditional bulky rubber coated fiberglass. The aluminized sleeve reflects more than 90% of radiant heat, plus it is fireproof and oil resistant! Thermo-Sleeve is available in 3' or 12' lengths.

27162

27163

Includes:

- Transmission Cooler
- Max Shift Transmission Fluid
- EZ-TCU Controller and Harness
- Handheld Programmer
- Outlaw Shifter (optional)
- Paddle Shifter (optional)
- Dipstick and Tube

6-Speed Transmission

The innovative TCI 6X six-speed automatic transmission, based on the 4L80E, is designed for Chevy small block, big block, and LS engines to handle both everyday driving and race vehicles up to 850 HP. Six forward gears allow breakneck acceleration as well as fuel efficient low RPM cruising, while a handheld programmer allows shift point adjustment. Each transmission is Dyno-tested and supplied with a serial numbered spec sheet with performance test scores.

Important: 4-speed automatic shifter is required for standard operation. Electronic manual shifting requires the optional paddle shifter or TCI Outlaw Shifter. Paddle shifter is designed for 5 or 6 bolt steering wheel adaptors.

Note: Some modification may be required. Special order, must be prepaid. Shipped truck freight.

Includes:

- 27161 6X package without shifter... 8247.99 set
- 27162 6X package w/Outlaw shifter 8951.99 set
- 27163 6X package w/paddle shifter 8753.99 set

4L80E 4-Speed Transmission

If your GM produces 650 to 1000 ft lbs of torque, you need a Bowler custom 4L80E performance transmission. Bowler transmissions are built to order, tailored to your specifications, and unlike assembly built transmissions, every Bowler unit is built by an individual technician start to finish and dyno-tested before shipping. Includes flexplate, converter, computer, and accessories. Modifications may be needed for fitment. Please allow 4 to 6 weeks for your custom transmission to be built.

Important: Does not include driveshaft or crossmember.

Note: Special order, must be prepaid. Shipped truck freight.

Transmission Mounts

1942-91 Transmission Mount

If your vehicle has over 50,000 miles, or the transmission mounts have been soaked with oil, chances are they have grown weak and need replacement. If you experience a thud upon acceleration or deceleration, use a pry bar to check the mounts for movement. Our reproduction transmission mounts are an inexpensive cure for this potentially dangerous condition.

Note: *LH or RH.

CX1356

1947-59 Transmission Conversion Mount

Transmission mounts for installing a TH350 or TH400 automatic transmission in your early model pickup.

CX1355 1947-59	TH350	13.99 ea
CX1356 1947-59	TH400	13.99 ea

1947-54 Rear Trans Support Bracket

Reproduction of the often broken 1947-54 rear transmission support bracket. Fits 3-speed or 4-speed transmissions with an enclosed driveshaft. This bracket is for the original torque tube style driveline and attaches to the factory crossmember and the rear of the transmission.

14092 1947-54		99.99 ea
---------------	--	----------

1947-59 Transmission Crossmember

Transmission conversion crossmember and mounting brackets for installing an automatic transmission in 1947-59 truck models. This 3 piece heavy-duty construction adds the support you need when upgrading your drivetrain. This fits all GM transmissions with the popular 2 bolt rubber or poly mount. Easily installs between the original frame rails.

CX1354 1947-59		67.99 ea
----------------	--	----------

1965-72 Transmission Crossmember

Transmission crossmember designed specifically for slammed trucks with large diameter exhaust. Featuring simple bolt in installation, this crossmember bolts onto the lower frame rail and matches up to all engine and transmission combinations. The low profile creates plenty of room to run the exhaust high off the ground, between the frame rails. This fits all GM transmissions with the popular 2 bolt rubber or poly mount. When used with CX6372B center crossmember, you can run 3 1/2" exhaust with out any portion hanging down below the frame.

CP9427 1963-72		89.99 ea
----------------	--	----------

1978-87 Transmission Crossmember

Install your transmission for your 1978-87 GM truck in the proper position using one of these Classic Performance transmission crossmembers. The durable steel crossmember includes all necessary installation hardware.

- New precision alloy steel pump tube
- Fully balanced and pressure tested
- B&M quality and durability

Tork Master™ Torque Converter

Similar in performance characteristics to the HoleShot™ series, the Tork Master™ is B&M's lowest cost performance torque converter. The Tork Master™ is an excellent all-around performance street converter for small block Chevy. The Tork Master™ torque converter is not recommended for big block or supercharged applications.

223055

1965-96 HoleShot™ Torque Converter

A higher than stock stall speed as delivered by the HoleShot™ converter will provide several advantages and benefits in vehicles with modified engines. Big cams tend to reduce low end power and torque. The high stall converter allows the engine to launch the vehicle at higher RPM where more torque is available. Stall speed listings are based on engines producing 230 ft lb of torque at 2500 RPM. More torque at 2500 RPM will give you a higher stall speed than the stall speed ratings indicated.

Note: *Items denoted with asterisk require small 10-3/16" bolt circle flexplate or dual pattern flexplate.

New!

TCI

Features:

- Furnaced brazed fins, needle bearings, hardened pre-ground pump hub, computer balanced
- Harder launches, quicker acceleration, improved low end power, bolt-in (no modifications required)
- Special high stall unit is great for light vehicles
- With heavy-duty front anti-ballooning plate for nitrous applications

1966-81 Breakaway Torque Converter

The Breakaway is a great torque converter for moderately modified street machines and weekend racers also used as daily drivers. It provides approximately 2400 to 2600 RPM flash stall, without negatively affecting part throttle driving. Designed for efficiency at highway cruising speeds and to launch hard at wide open throttle, the Breakaway is a fantastic all-around torque converter.

TC241400 1966-91 TH350/400/425/375 580.99 ea

Features:

- Furnaced brazed fins, needle bearings, hardened pre-ground pump hub, computer balanced, installation hardware included
- Higher RPM launches, quicker reaction times, lower elapsed times, better low- and mid-range power, 1500+ RPM increase in stall over stock.
- With heavy-duty front anti-ballooning plate for nitrous applications

1965-81 Street Fighter Torque Converter

Designed with the street/strip application in mind, this torque converter benefits more radically prepared street machines (those with performance cams, aftermarket carbs and higher compression ratios) to bring the launch RPM in line with the performance enhancements. The Street Fighter lets you take advantage of horsepower gains found in higher RPM ranges.

TC242101 1965-81 TH350/375..... 657.99 ea

700R4 Torque Converter Lockup

For 700R4 transmissions with square 4 pin connectors. Can be used without the factory computer (ECM). This unit is electronic, NOT vacuum controlled. It reads speed of the vehicle through a sensor that attaches to the speedometer cable. Transmissions with factory internal speed generators must be converted to cable drive to use this unit. Locks up the converter at a set speed and unlocks it when the signal generator senses the vehicle speed is below lockup speed or when braking. This unit is set to lock the converter at 42-47 MPH and can be adjusted if necessary.

TF900630 700R4..... 269.99 ea

Torque Converter Lockup

The B&M torque converter lockup provides a dash mounted control to govern converter lockup at any speed between 30 and 90 MPH. LED dash indicator displays when converter is locked or unlocked. Set includes: an adjustable control box with locked and unlock indication, speed sensor with cable adaptor for mechanical speedometer, wiring, and complete instructions. For GM TH200, TH350, TH700R4, 4L60, and 200-4R transmissions.

60109

2004R/700R4 Torque Converter Lockup

The Painless torque converter lockup set uses a vacuum controlled switch and a 4th gear pressure switch to control the torque converter lockup solenoid, locking it into 4th gear. Includes: vacuum switch, 4th gear pressure switch, brake switch, torque converter lockup solenoid, wire harness, new transmission pan gasket, mounting hardware, and instructions.

60110 TH200-4R..... 209.99 set

60109 TH700-R4..... 209.99 set

A9800115

2004R/700R4 Torque Converter Lockup

The Bowler lockup set uses a pressure switch, not vacuum like Painless or a speed sensor like B&M. Their set allows engine to regain proper RPM before allowing the converter to lockup. Usually lockup occurs immediately after shifting into 4th gear, which can lug down the engine and cause poor performance. Module works off of pressure to allow a 8-12 second delay after shifting into 4th gear before the converter locks up. Converter locks up with adequate RPM gain after 4th gear and unlocks automatically with down shift or touch of brake. It will not allow lockup in any gear except 4th. Set includes: single wire lockup control module, 4th gear pressure switch, new internal wiring harness with lockup solenoid for 700R4 and 200-4R, brake switch, pan gasket and filter with detailed instructions.

Switch-On High-Performance Driving Fun!

ShiftPlus™ simply recalibrates your transmission's hydraulic system electronically. The ShiftPlus™ shift firmness not only makes driving more fun and pleasurable, but slippage and heat are reduced - extending the life of your transmission! Anyone can install a B&M ShiftPlus™ in minutes with a few simple hand tools. This new design allows you to improve the transmission's shifting performance without removing the transmission pan or valve body. The B&M ShiftPlus™ electronically enhances shift quality and is adjustable. A simple flip of the switch allows the transmission to operate in the performance mode. Flip it back and you are back to stock!

1995-93 Transmission in a Box!

This is the most comprehensive kit available.

Provides parts or necessary part numbers to upgrade your transmission into a true performance transmission. Kits available for TH350, TH400, 375, 375B, M40, M38 and TH-700R4. The TH-700 is a desirable transmission due to its extra low ratio first gear (for better off the line performance) and overdrive fourth gear for better fuel economy. Includes instruction sheets that provide the do-it-yourselfer with all of the information needed to completely overhaul a TH-700R4 to B&M specs. Easy to understand even if you have no experience in this area!

Key Features:

- Same quality and components used in a B&M Street/Strip Transmission in a do-it-yourself kit.
- Transpak modification components including special replacement valves and springs.
- Improved shift feel, retains full automatic features.
- Complete overhaul gasket set and Drain plug.

1965-01 Shift Improver Set

The B&M Shift Improver™ set is the easiest way to get the stout performance you've always wanted out of your automatic transmission, and you get two modes of performance to select from: Heavy-Duty or Street/Strip. Eliminates soft sluggish shifts, shift overlap, and excess wear on clutches and bands due to slippage. Improves transmission life. Transmission removal not required.

Stage 1 - Heavy-Duty

Firm positive shifts without loss of driver comfort for improved performance.

Stage 2 - Street/Strip

Provides very positive shifts. This model is for the enthusiast who wants the hardest, quickest possible shift.

223077	1993-01	4L60E	71.99 set

1965-93 Transpak Shift Set

The next step-up from the Shift Improver™ set is the Transpak™. It has all the features in the Shift Improver™ set, plus it provides additional driver manual control (TH400, TH350 only). With the Transpak™, you can downshift at any speed, and you can hold the transmission in first gear at any speed that you want!

Stage 1 - Heavy-Duty

Firmer shift feel but not harsh. Improves transmission performance and life dramatically without loss of comfort. Normal automatic operation when in "Drive".

Stage 2 - Hi-Performance Street

For full performance street use. Essentially the same as Heavy-Duty mode except shift is much quicker. Retain full automatic features and standard shift points with selector in "Drive".

Hi-Tek Deep Transmission Pan — Aluminum

Deep transmission pans are constructed from A356-T6 aluminum and are cast with thick internal and external fins, adding additional strength and increased cooling properties. Additional oil capacity means more cooling ability for your transmission. Lower temperatures coupled with proper maintenance and care will provide you years of additional service from your automatic transmission. B&M cast aluminum deep pans feature built-in drain plugs, includes the filter adapter and require no modification to the dipstick. Filters are included in TH350 and Powerglide deep pan kits only.

Important: *Filter included.

Deep Chrome Transmission Oil Pan

Additional oil capacity means more cooling ability for your transmission. Lower temperatures coupled with proper maintenance and care will provide you years of additional service from your automatic transmission. B&M chrome steel deep pans feature built-in drain plugs, includes the filter adapter and requires no modification to the dipstick. Filters are included in TH350 deep pan kits only.

Important: *Filter included.

No More Messy Oil Splash!

B&M

End the messy job of draining transmission fluid forever with a Transmission Drain Plug Kit from B&M. Only a few automatic transmissions are equipped with drain plugs from the factory. If you're not one of the lucky few, then you can install one yourself very easily. Simply remove the pan once, drill a hole, bolt the B&M Drain Plug Kit in, and eliminate messy oil splash forever. Non-magnetic. Universal fit.

Transmission Pan FilterMag

FilterMag's powerful rare earth magnets trap and hold wear inducing metal particles smaller than 40-microns down to 1-micron that the filter cannot stop. The super strong magnetic force holds FilterMag to a steel trans pan, is reusable, and will reduce maintenance costs by extending the life of your oil. The super strong automatic transmission FilterMag mounts to the outside bottom of the pan and will keep metal particles from harming your transmission.

Pour in Performance!

B&M

Trick Shift™ was originally developed by B&M for racing applications. It's become so successful that it's the most popular high-performance fluid on the street also! Not an additive, this is the best performance ATF available! Trick Shift™ is the easiest way to measurably improve the transmission performance of your vehicle. Trick Shift™ works with all automatic transmissions when a firmer shift is desired. "Pour in Performance" isn't just a catchy phrase – it's reality! It can be mixed 1:1 with stock type transmission fluids, however to attain maximum improvement you should use Trick Shift™ exclusively. Ideal for towing, light trucks and RV applications as well as racing.

Important: Not recommended for electronically controlled automatic transmissions.

Max ATF

ROYAL PURPLE

Max ATF is a synthetic, high-performance, automatic transmission fluid. Its low coefficient of friction and high film strength help to dramatically reduce heat and wear. Reduces heat to extend the life of your transmission. Max ATF is fully compatible and can be mixed with other automatic transmission fluids.

Transmission Fluid Cooler

Transmission fluid is designed to act as a coolant as well as a lubricant for your transmission. If the transmission fluid is allowed to get too hot, performance drops, varnishes form, and the fluid starts to break down, which can lead to premature wear. Flex-a-lite heavy-duty coolers can help prevent this by keeping the temperatures down, helping to ensure longer life to transmissions and components, and reduce the stress created by high-performance transmissions. Also suitable as a power steering cooler.

Important: Depending on application and setup, additional fittings or adapters may be required.

Note: Dimensions: width = 11", depth without fan = 3/4", with fan = 3-1/4"; height varies.

Transmission Oil Cooler/Filter

This automatic transmission oil cooler and filter combination assembly uses a finned aluminum heat sink design to dissipate heat in racing applications. It can also be used as an inline auxiliary cooler in conjunction with the stock cooler. It's compact one pound 3" x 12" aluminum body gives it excellent heat transfer capabilities. An internal filter with magnet traps particles over 5-microns to reduce transmission wear. Includes filter cartridge and two 1/4" NPT to 3/8" line fittings.

241200 universal 135.99 ea

Universal Transmission Cooler

Efficient compact lightweight all aluminum 18,000 GVW transmission cooler designed to keep the transmission within safe operating temperature for the budget minded. Measures: 7-1/2" x 12-3/4" x 3/4". Installation kit includes: hose, clamps, fittings, and mounting hardware.

\$20500 universal 71.99 ea

Hi-Tek Transmission Cooler

The Hi-Tek automatic transmission cooler is perfect for demanding street/strip and even towing applications. At 175 degrees, a thermal switch activates the high flow 12 Volt 7" electric fan. Durable, oven brazed aluminum construction promises years of performance. The 1/2" NPT fittings are easily adaptable to AN fittings and steel braided cooler lines, or can be used with standard rubber or steel lines. Measures 10" x 7-1/2" x 4" and includes electrical connectors and detailed instructions.

Automatic Shifters

Floor Mount Shifter

Upgrade your classic with one of these premium Lokar floor mounted shifters. All shifters include a neutral safety switch with positive safety lockout in park and neutral, while the shift knobs feature a Teflon lined button for smooth operation. Designed to operate on solid adjustable linkage, each shifter also includes gold irradiated brackets. Features 16" bench bend shifter lever. These shifters have been manufactured and shipped to clear most bench seat applications. Shifter levers are available in chrome or black and the mushroom shift knob in either brushed aluminum or a black anodized finish. All shifters include mounting hardware and instructions.

All Lokar LED gear indicator kits include a cable operated shift sensor kit

LK1715

LK1790A

LK1747B

LED Gear Indicator

Features a billet aluminum bezel or booting with LED illumination. Available with a brushed aluminum or black powder coated finish, in a vertical or horizontal orientation. Sending unit can be mounted in a variety of locations such as on the transmission, frame rail, floor pan, firewall, under the hood, or the inner fender well. A remote mounting kit is included for those out of the way locations inside the vehicle such as under the dash, behind the seat or in the trunk. Compatible with all Lokar automatic shifters and many other aftermarket shifters.

Features:

- Tall shifter stick for truck applications.
- Black textured console with chrome cover.
- Compatible with forward or reverse valve bodies
- Fits most popular 3-speed automatic transmissions
- Complete with bracket, lever and 5' shift cable
- Neutral safety and backup light switches
- Illuminated gear position indicator
- Positive reverse lockout feature
- Retro manual shifter look

Operation of Shifter from Park Position:

- Lift up handle to pull into reverse.
- From reverse, pull back to reach neutral.
- Push-down and ratchet into gear.

Pro-Matic 2 Ratchet Shifter

The Hurst Pro-Matic 2 truck ratchet shifter incorporates an extended shifter stick for ease of operation and is designed to fit most pickup trucks. On the street, you will enjoy the ride as you freely tap the stick from gear to gear. If you decide to transfer your beauty of a machine to the track, give it all you've got because this shifter is built to handle the most powerful shifts. This shifter includes all the hardware required to make installation a breeze including a 5 ft long heavy-duty shift cable and instructions.

Transmission Components

Style One - Plastic Cover Set:

- Adds a "factory option" look to your Hurst shifter.
- Textured black plastic can be trimmed to fit any floor contour.
- Mounting plate and button head screws are included.

Style Two - Aluminum Cover Set:

- Adds a "race car" look to your Hurst shifter.
- Attaches to shifter with 2 quick release pins.

Quarter Stick Shifter Cover

One of the nice features of the Hurst Quarter Stick Shifter is the ability for you to choose the finished look you want through the availability of 2 distinctive cover set designs.

1300055	plastic cover	128.99 set
1300041	aluminum cover.....	107.99 set

Key Features:

- Fired aluminum stick.
- CNC-Machined Billet Pistol Grip handle.
- Snap action thumb switch for operating roll control, nitrous or trans brake.
- One hand operated, spring loaded reverse lockout
- Factory installed neutral safety switch.
- Cable operated.
- Optional cover kits sold separately.

Pistol Grip Quarter Stick Shifter

The Hurst pistol grip quarter stick automatic shifter is designed for a firm comfortable natural grip, providing a positive feel when shifting. The pistol grip handle is CNC-machined from billet aluminum and features a precision snap action thumb switch that is ideal for operating a Hurst Roll Control, nitrous system or trans brake. Optional shifter cover can be trimmed to fit any floor pan. For a stock console look, choose the distinctive black textured plastic cover kit. Or, for a racier look, order the aluminum cover kit that attaches to the shifter with 2 quick release pins. Both are sold separately. The Hurst pistol grip quarter stick fits TH250, 350, 375, 400 transmissions.

Manual Transmissions

M22 SuperCase: We began with the strongest 356T6 aluminum alloy. We thickened the case walls, added additional material to support a stronger main drive bearing and reinforced and thickened the mounting ears. No flex, no leaks, no broken ears.

stal levers

bolt levers

1963-74 M22 SuperCase 4-Speed

These are exotic transmissions designed for quarter miles or circle tracks, but if your street truck sees city streets or country lanes you need a heavy-duty, synchronized, close ratio gearbox with a helical gearset and, to be honest, until now you haven't had too many good options. Each new Auto Gear transmission is built from genuine Auto Gear parts — the highest quality available — and includes all the goodies: SuperCase, ductile iron mid-plate, your choice of three heavy-duty gearsets (each with roller 1st) and a roller slide cover. Best of all, it's ready-to-install and it's available at a less than exotic price. No core required!

Note: 1963-68 feature threaded stud type shift levers. All transmissions are special order and must be prepaid. Special shipping rate applies.

M22 Gearset with 2.20 1st

If your only concern is taming the biggest, meanest motor on the block, you want an M22-based gearset. All three of ours feature the legendary "Rock-Crusher" gear geometry and run with the signature whine. The M22 was originally paired with a 4.11 axle. Street cars used only in the wide open flat places may successfully run something faster. This approach off loads more of the 1st gear stress onto the axle and makes the gearbox more durable, but the fuel economy is frightening.

TR1012*	1963-68	10/27 spl	2999.99 ea
TR1013	1969-70	10/27 spl	2999.99 ea
TR1014	1970-74	26/32 spl	2999.99 ea

M22W Wide Ratio Gearset with 2.56 1st

The M22W is our answer to the price of gas. Pair it with a faster axle, say a 3.54 for street or a 4.11 for the strip, and you'll have a competitive combo that will show your wallet a little mercy. It's a little less strong, but it's far from weak.

1958-96 Kevlar Pilot Bushing

RAM now produces pilot bushings which significantly reduce wear over time versus bronze or needle bearing bushing.

BL1656K 1958-96 36.99 ea

1958-96 Roller Pilot Bearing

Replacement pilot bearing for use on all 1958-96 V8 models. Worn pilot bearings can cause hard shifting and increase transmission wear. When changing your clutch be sure to use a new pilot bearing for best results. This bearing should be used in high-performance vehicles and is a significant upgrade from the stock bronze bushing.

LW15977 1958-96 56.99 ea

1955-91 Aluminum Flywheel

Get faster throttle response, quicker acceleration, and smoother shifting with a Fidanza billet aluminum flywheel! Fidanza billet aluminum flywheel is CNC-machined from the highest quality 6061-T6 aluminum to deliver optimum tensile strength, heat dissipation and weight reduction. The replaceable friction surface is made from 1050 steel and attached with military grade aerospace fasteners for smooth engagement and durability. Fidanza billet aluminum flywheel also features a 1050 heat treated steel ring gear that's pressed on and secured with Grade 8 button screws.

True Balance Billet Aluminum Flywheel

The choice for most all-out competition vehicles, Ram True Balance billet aluminum flywheels are CNC-machined from certified materials and exceed SFI specifications. A key feature of a Ram aluminum flywheel is a 1/4" steel friction surface. A well tuned competition clutch system has a predetermined amount of slippage at launch and at the gear changes. The flywheel insert must have enough mass to absorb the heat generated by slippage without distortion, ensuring maximum clutch life and consistent performance. Thinner inserts can warp and lift causing uneven engagement across the clutch disc. The thicker insert remains flatter and dissipates the heat better. Each flywheel is precision ground after the steel insert is installed to ensure the friction surface is parallel with the crankshaft flange for minimum run out and to provide the optimum mating surface for your choice of clutch disc.

Note: For use with Ram Clutch sets only.

True Balance Billet Steel Flywheel

Ram True Balance billet steel flywheels are recommended as a replacement for factory cast iron flywheels in high-performance and racing vehicles. Ram billet steel flywheels are CNC-machined from certified materials and exceed SFI specifications. After machining, the flywheels are blanchard ground parallel to the crankshaft mounting surface ensuring minimum run out and the optimum mating surface for the Ram Clutch friction materials offered. Use steel flywheels for the best driveability in street driven vehicles. For vehicles with V8 engine only.

Note: For use with Ram Clutch Sets only.

1957-84 Truck Clutch Set

Hays truck clutch sets feature a clutch disc manufactured with a durable, heat resistant woven lining riveted to a shock absorbing Marcel backing. The spring center hub absorbs driveline shock and vibration for chatter free engagement. Two types of pressure plates are available, the diaphragm pressure plate design provides light pedal pressure with a clean release for precise gear changes. All sets include: a performance throwout bearing, heavy-duty clutch cover, bolt kit, and a splined clutch pilot tool.

1963-95 Powergrip Perform Clutch Set

As engine power and torque increase you need a clutch set to stand up strong. Powergrip utilizes a unique blend of friction materials and increased clamp loads to give you the holding power you need for aggressive street driving and occasional drag strip use. With up to an 80% increase in holding power Ram's Powergrip series is a natural for the aggressive driver.

1963-88 Street Clutch Set

Light pedal pressure and quick release make the Hays diaphragm pressure plate the most popular choice for today's street driven vehicles. Hays street discs feature organic friction material that is riveted to a Marcel backing which acts as a shock absorbing material. The sprung center hub absorbs driveline torque, eliminating shock and vibration to ensure chatter free engagement. The Hays high-performance throwout bearing has been developed to withstand the high spring pressure and high RPM operation common to performance clutches. A nylon liner and bearing retainer is also featured for cooler and quieter operation. Hays street clutch sets include: performance pressure plate, performance clutch disc, throwout bearing, bolt kit and a handy spined clutch pilot tool to aid in installation.

Hydramax Hydraulic Clutch Set

The American Powertrain Hydramax hydraulic clutch sets include the components required to convert your vehicle's mechanical linkage system to smooth hydraulic system. Sets are design to work with OE or custom pedals. Includes adjustable firewall mount, pre-bled 3/4" bore master cylinder, plastic reservoir kit remote or local mount (billet upgrade available), steel braided lines, concentric slave bearing, pedal rod (specific by model), fittings, hardware, and instructions. Available for most OE 4-speed, Muncie, T10, Saginaw, Richmond, Tremec TKO 5/6-speed series, GM/Mopar Magnum T56 or Viper/LS 6-speed manual transmissions.

Note: Set contents vary by model. Some modifications may be necessary. Photos for illustration purposes.

----------------------------------	-----------------

Hydraulic Bearing Pedal Adjustment System

With the RAM HSA system, you can adjust the pedal position lower to the floor and also eliminate over travel of the release bearing which can cause damage to the hydraulic bearing, or cause higher RPM shifting problems due to over centering of the diaphragm spring. The RAM HSA valve plumbs inline between your master cylinder and release bearing, whether factory or aftermarket. Each system includes: the HSA valve, see fitting for installation, and a 12 inch Teflon braided line. For factory bearing installations, an adapter fitting is available to enable connection.

78300 HSA valve 144.99 ea
78310 factory adapter fitting 19.99 ea

Hydraulic Release Bearing

Hydraulic release bearing for stock style clutch applications. This bearing functions in GM applications utilizing the 1.375" transmission collar size. The bearing is a floating design and installation is simple and quick. Optimal uses for this bearing are for any project vehicle in which fitting a mechanical linkage is not possible. The bearing requires a minimum 7/8" bore master cylinder and a -4AN feed line to run from the master to the bearing. A remote bleeder system is available to make bleeding simple from the outside of the bellhousing.

HAYS

High-Performance Throwout Bearing

Hays High-Performance Throwout Bearings have been developed to withstand the high spring pressure and high RPM operation common to racing clutches. Each bearing face is heat treated and blanchard ground to ensure trueness. The collars are heat treated for strength and machined to close tolerances for secure bearing fork attachment. The ball bearing race is packed with heat resistant moly-based grease for better lubrication and longer life. A nylon liner and bearing retainer is also featured for cooler and quieter operation.

High-Performance Self-Aligning Throwout Bearing

Designed specifically for installations with clutch to transmission misalignment resulting in noise and vibration, the Hays self-aligning throwout bearing minimizes these conditions. Clutch alignment can also vary due to normal wear and tear. Self-aligning bearings with their rugged performance characteristics are also a functional upgrade from standard bearings on older cars, when applicable.

McLeod

Adjustable Throwout Bearing

McLeod's adjustable throwout bearing is the perfect replacement for any bearing. Replaces all of GM's three different bearing by simply removing one of the rings. With all three rings on the bearing you have the long bearing. Remove one ring and you will have the mid length bearing and if you remove all three rings you will have the short bearing.

Batteries/Battery Boxes

Reproduction Delco® Energizer Battery

Authentic reproduction Delco® Energizer batteries give you true "bat-top" appearance while eliminating the sticky hot weather disadvantages. Each battery is correct in every detail including acid resistant, screw or push-in type caps featuring Delco full or half circles and are finished in the proper trim. Also includes the assembly line battery decal featuring a white label with red text attached to the battery posts. All batteries feature 780 cold cranking amps.

CAUTION: Maintenance-free batteries are Gel-Cell type batteries and do not require adding electrolyte (battery acid). Don't forget to check the battery type for rust or corrosion, replacement now will ensure cleaner battery installation.

Note: Batteries carry a 48-month manufacturer's warranty. Shipped overweight.

1955-72 Spring Ring Battery Cable

If you want to restore your Chevy truck to exact factory specifications, these OEM type cables are what you need! Each cable is reproduced exactly as original using the same OEM type spring terminals and connectors. The terminal end includes the word "SPRING RING" in the correct type and size. Each cable is produced for authenticity and includes the original wire markings. Positive and negative cables are sold separately, due to the various variety of cables which were used for different applications. Each reproduction includes the correct length cable and spring ring terminal end.

Battery Cable Components

PAINLESS

Remote Mount Battery Cable Set

Perfect for trunk mounted batteries. Both positive and negative cables are 1 gauge and 16 feet in length which allows for them to be attached to the engine for maximum starting current. Helps prevent voltage drop to the engine. Eliminates the need for heavy cable connections between the engine and frame. Set includes side post adapters and high amp crimp ring terminals with heat shrink.

16 Foot Positive and 16 Foot Negative
40105 universal 159.99 set

PAINLESS

Battery Cable Set

This set has only the highest quality components. Set comes complete with 16 feet of red #1 gauge positive cable and 3 feet of black #1 gauge cable, both with heavy-duty battery terminals already installed capable of handling over 250 amps. Set includes side post adapters and high amp crimp ring terminals.

16 Foot Positive and 3 Foot Negative
40101 universal 109.99 set

Universal Battery Cable

Underhood or trunk mount battery cable sets. Each cable is 1 gauge and features lead die-cast top terminals with a steel ring insert. This feature prevents cracking or breaking the terminal due to tightening. Each version comes in either top post or side post sets. Trunk mount sets measure 18" while underhood sets measure 6' in length. Negative cables feature pre-assembled 36' long 6 gauge secondary lead. Each set includes: crimping tool, extra lugs, and shrink tubing.

Cell Saver Battery Insulation Kit

DEI cell saver battery insulation kit is designed to solve the problem of heat soak into batteries preventing premature failure due to heat. Batteries are very susceptible to heat and vibration that could cause premature failure and hazardous leaks. Cell Saver is very capable of damping vibration and will absorb and neutralize any damaging/leaky battery acids. Cell Saver is easy-to-install and excess material can be trimmed to accommodate batteries of most sizes and shapes.

500837

Lifeline Memory Retention System

The Lifeline enables users of a Master Disconnect Switch to retain a small amount of power for memory circuits common in fuel injection computers, radio presets and clocks. The Lifeline is a memory circuit retainer that will automatically reset after the electrical load is significantly reduced or if the Master Disconnect Switch has been switched to the on position. Available for standard or remote battery disconnects.

500778 standard disconnect 27.99 ea
500837 remote disconnect 36.99 ea

Quick-Disconnect Battery Terminal

This brass, quick-disconnect battery terminal isolates the vehicle's battery, allowing the clock, radio etc., to remain functional when combined with a fused bypass. Designed for both round and square battery lugs.

W203507 6.99 ea

Master Disconnect Battery Switch

Taylor's 2 post battery disconnect switch completely shuts off all of the current from the battery in the event of an accident or electrical short. The 2 post switch is rated at 180 amps continuous capacity and is especially useful when charging the battery. Includes vinyl on/off decal.

Note: The NHRA requires a master battery disconnect switch on all modified and super stock class vehicles to comply with their rule 8-4.

TP1032 180 amps..... 44.99 ea

W203047

T4988

Battery Cutout Switch

Make sure your battery maintains the precious power you need by disconnecting the battery from the vehicle during storage. Your choice of an inexpensive standard duty cutout or a heavy-duty unit. Works on any 12 volt system or vehicle. Splices into positive battery cable to provide a switch for turning power on or off.

W203047 standard duty 31.99 ea
T4988 heavy-duty 92.99 ea

Disconnect Position Ring

For disconnect switches to identify the correct position of the switch (ON or OFF). Eliminates the question of which direction is the safe one.

1947-72 Alternator Conversion Harness

Alternator conversion harnesses for 1947-72 Chevrolet and GMC truck models. 1947-53 harnesses convert the original 6 Volt system to 12 Volts and allows for installation of internal regulated alternator. 1955-62 harnesses convert the 12 Volt generator to an internal regulated alternator. 1963-72 wiring adapter converts external regulator to internal regulator.

Note: This is an easy conversion that can be used with 1985 and earlier SI series alternators. On vehicles where an internal regulated alternator is desired, this provides the necessary connections for the new alternator without any plug-in.

1963-72 Front Light Harness — Upgraded

These harnesses are produced as an upgrade harness which allows you to use 1969-85 SI style alternator with internal regulator on your earlier model truck for more efficient charging. One of two main harnesses located in the engine compartment. Provides wiring for the main battery power lead, headlights except for 1963-66, parking lights, side marker lights (1969 and up), horn relay, alternator, voltage regulator, temperature sensor, brake warning, and ammeter gauge.

Tremec T56 All-In-One Harness

The All-in-One harness solution for the Tremec T-56 Magnum transmission comes equipped with all the connections pre-wired into one harness for a simple installation and ease of use. The small epoxy sealed controller is mounted to the VSS output using the existing bolt, and once the unit is powered up you will be able to connect via Bluetooth to your Apple or Android smartphone using (Bowler Transmissions) free APP. The APP will give you the ability to customize the input and output settings for each feature to ensure proper operation in your vehicle. This harness eliminates the need for any additional equipment to operate the reverse lockout or generate the correct speedometer signals coming from your Tremec T-56 Magnum.

Universal Wiring Harnesses

Universal Chassis Wiring Harness

Starting from a blank slate is a daunting task, especially with wiring. Trying to keep your electrical systems running smoothly on a patchwork of old wiring can be a troubleshooting hassle and possibly even a fire hazard. Whether you are planning a series of electrical upgrades or simply need to replace aging, brittle wiring, build your electrical system on a fresh foundation with a quality universal harness. For basic builds, start with a simple kit with wiring provisions for all lamps, horn, fan, wiper, gauges, and all lamps. For more elaborate builds, choose from a selection of advanced wiring solutions. Need to integrate your aftermarket air conditioning? Need extra circuits for a multitude of electronic accessories? With Classic Industries®, there's no limit to what you can do with your wiring.

Universal Wiring Harnesses

Modular Fuse Panel Systems

Each universal fuse panel is constructed in heat resistant nylon and features anti-push back locks and single side wire access with self-locking, screw down connections. Includes a starter/alternator 175 amp mega fuse for extra protection. The panel is fed through an 8 gauge power feed wire and features a battery and accessory stud connection. Includes: color coded wiring for ignition, alternator, headlight, steering column, accessories and gauges, relays, fuses, flashers, circuit breakers, and all necessary power connections and terminals. Also includes a full color schematic and step-by-step instructions.

New!

15 Circuit Harness Includes:

- Composite Panel Base
- Nylon Panel Components
- Color Coded Wire
- Easy-to-Read Wire Labeling
- Self-Locking Screw Clamp Interface
- 8 Gauge Alternator Feed
- 175 Amp MegaFuse
- Full Color, Step-by-Step Instructions

Highway 15 Modular Fuse Panel System

Features 15 power outputs in 8 fuses and 1 circuit breaker. Gauge cluster disconnect for easy maintenance. Includes: ignition, headlight, and dimmer switches.

510825 15 panel connections 531.99 ea

New!

22 Circuit Harness Includes:

- Nylon Panel Components
- Color Coded Wire
- Easy-to-Read Wire Labeling
- Self-Locking Screw Clamp Interface
- 8 Gauge Alternator Feed
- 175 Amp MegaFuse
- Full Color, Step-by-Step Instructions
- Battery and Accessory Power Extension

Highway 22 Plus Modular Fuse Panel System

Features 22 power outputs in 16 fuses and up to 4 circuit breakers. Gauge cluster disconnect for easy maintenance. Includes: ignition, headlight, and dimmer switches, as well as 40 amp fan relay.

510760 22 panel connections 588.99 ea

Classic update kits are designed for projects that require more circuits than would have been available in an original chassis harness. Each kit includes all the basics needed to rewire a vehicle from headlight to taillight, and will accommodate popular add-on items such as electronic fuel injection, aftermarket gauges and common supporting modifications.

T500481

T510089

- An updated ATC fuse panel and fuses, along with modern GXL wire throughout. Wire functions are labeled every 3 to 5 inches.
- Pre-built dash harness and our exclusive gauge cluster disconnect system for use with stock or aftermarket instruments.
- Engine and front light harness with extra long leads for custom routing and updated engine and transmission combinations. Original style bulkhead connectors included.
- Six way power accessory plug can be used as a convenient power source for aftermarket accessories.
- A rear body wiring with extra long leads for custom routing.
- 175 amp mega fuse kit with 6 gauge charge cable to support a high output charging system and internally regulated alternator.
- Original replacement connectors, terminals, and lamp sockets.
- Headlight switch with 26 amp internal circuit breaker and new floor dimmer switch included.
- Dash harness connector for the 1969 and later GM steering column connector. A mating connector and terminals are included for easy adaptation to popular late model columns.
- Replacement ignition switch that is compatible with HEI and EFI swaps.

1947-87 Classic Update Wiring Harness

Bring your classic GM truck into the 21st Century with wiring harness update set! This kit accommodates all the popular accessories you may desire including: AC, custom gauges, HEI ignition, tilt steering columns, modern charging systems, and also allows for complete flexibility in the engine compartment... such as a V8 engine swap!

Note: *Use with T500481.

1947-80 Express 20 Circuit Wiring Set

This high temperature, fire resistant and color coded wiring harnesses are built specifically for 1947-80 GM truck models. They feature wiring for the entire truck and work with most stock and aftermarket steering columns. Includes: provisions to wire full gauge sets, works with HEI points and aftermarket distributors, and neutral safety switches. Features wiring for high and low beams, indicator lights, parking lamps, turn signal lamps, and brake lamps, and will readily accept fuel injection. All sets include a headlight switch, isolated cooling fan relay and color coded instructions. A unique serial number for each harness enables Ron Francis to support your installation.

Note: Blazers and Suburbans use corresponding year truck harness and part number. All part numbers list short and long wheelbase, 1/2 and 3/4 ton, 2WD and 4WD.

- Dome light
- Electric choke
- Electric fan relay
- Emergency flashers

19 Circuit Chevy/GMC Harness

This 19 circuit 1963-66 Chevy/GMC pickup harness has many of the factory connectors already installed on the harness out of the box. Including: the headlight connectors and switch, dimmer switch, brake switch, wiper motor and switch, horn, dash light sockets and bulbs, and warning light sockets. This harness will work with single and dual dash turn signal indicators. Each wire is custom printed with the circuit identification as well as using GM color codes for easy installation.

10112 1963-66 589.99 ea

20 Circuit Harness Includes:

- Horn relay, floor dimmer, courtesy light connections.
- Standard brake light connections w/ third brake light.
- Heavy gauge main fuse panel feed wire.
- Complete engine compartment wiring for lighting and engine management.
- Complete rear body wiring for lighting and fuel tank.
- Heavy gauge alternator, main power, and starter solenoid wires.
- Heat and air conditioning lead wires as well as accessory radio and battery clock leads.
- Long ignition, accessory, and battery leads for the ignition switch. A separate alternator exciter lead wire is wired in.
- Plug-in steering column connector for 1969 and later GM columns. Original columns can also be wired by using the supplied mating connector and terminals.

20 Circuit Universal Chassis Harness

The Power Plus series is a complete deluxe integrated fuse box wiring system utilizing a complete factory style pre-wired fuse box. Power Plus series wiring harness is designed to offer an economical and convenient wiring solution. By eliminating the disconnects and sub-harness assemblies and implementing direct run technology to the switches, fuse panel, and end locations, this harness offers a more streamlined installation and less work for you!

25 Circuit Universal Chassis Harness

The Painless Pro Series gives you everything you need to wire up your Pro-Touring or custom ride right the first time! Ample length is provided for each circuit, providing you the freedom to route and hide your wiring how you choose. Once you've got the harness fit how you like it, included are over 25 GM factory style connectors found on '60s to early '90s GM switches, allowing you to turn the Pro Series harness into a direct fit harness for your application. LED ATC bladed fuses get you away from the old hard-to-find glass fuses, and will light up if blown making troubleshooting a painless task. The 6 gauge charge wire and mid fuse (no more problematic fusable link!) will keep up with today's high amperage alternators, and the provided front and rear ground harnesses making grounding your lighting circuits a breeze! Provided with many GM connectors and terminal, insulated and non-insulated but splices, heat shrink, grommets, cable ties, ground straps, and cable tie clips, the Pro Series brings a new meaning to truly Painless wiring and includes our lifetime guarantee.

10413 1969-74 25 circuit 589.99 ea

Engine Swap Wiring Harness

The easiest way to install a modern fuel injected engine is with one of these proven FI engine wiring harnesses. These harness sets are designed to allow you to properly wire your engine swap from a donor car or crate motor. The engineers at Painless have worked out all of the connection and routing problems so all you have to do is follow the straight forward instructions for a painless installation. Feature TXL high temp wire that is color coded and labeled with each application for ease of installation. Harnesses for the LSI applications require 1998 Camaro computer G8606 and a mechanical throttle body.

Important: *Includes a module to bypass the vehicle anti theft system (VATS) incorporated in the computer. Does not include any emissions related connections.

27 Circuit Chassis Harness

Replace your old, damaged wires with this 27 circuit chassis wiring harness engineered to fit 1973-87 GM truck, Blazer, and Suburban models. It features many factory style connectors, allowing for easy mounting of the fuse block in the factory location. Includes: connectors for the headlight switch, dimmer switch, wiper motor, ignition switch, blower motor and switch, blower resistor, and instrument cluster. Supports dual tanks, power windows, and power door locks. Each wire is custom printed with the circuit identification as well as using GM color codes for easy installation. Wire your square body once and wire it right!

Note: Includes open ended headlight and taillight wiring with extra length.

20205 1973-87 chassis harness 643.99 ea

Remote Mount Chassis Harness

In many street rods and custom cars there is little or no room to mount the fuse block under the dash, forcing modifications to either the vehicle or the harness. Our remote mount wiring harness provides additional wire from the fuse block to the dash and from the fuse block to the front end, allowing the remote installation of the fuse block. Like all Painless kits, these fuse blocks come completely pre-wired and terminated for a simple, painless installation. Includes GM column mounted ignition and turn signal plugs.

1947-87 Power Window Conversion

Nu-Relics power window sets bolt directly into 1947-87 GM truck models. These model specific sets bolt directly into the factory mounting holes and can use the original glass channels. The 1 piece glass sets utilize a special scissor action regulator to keep the window level. All regulators feature 1018 cold roll steel construction with bronze oilite thrust bearings at all the pivot points and treated metal for all gears. The all new ACI motors are some of the strongest, most dependable units on the market.

Universal Wiring

Relay Block Set

Relay banks are ideal for powering accessories such as fuel pumps, water pumps, throttle stops, electric cooling fans, nitrous solenoids, etc. and for keeping the relays in a centralized location.

3 Pack Relay Block

Includes: three 40 amp SPST relays, relay bases with wire harness, one 50 amp circuit breaker, crimp-on terminals, and mounting hardware.

30107 74.99 set

6 Pack Relay Block

Includes: six 40 amp SPST relays, relay bases with wire harness, two 50 amp circuit breakers, crimp-on terminals, and mounting hardware.

30108 144.99 set

14 and 20 Circuit Universal Fuse Block

Use these 14 or 20 circuit OEM style pre-wired fuse blocks to replace your existing fuse block or as a starting point for custom wiring. All you have to do is terminate your circuit wire and attach it to the fuse block. Pre-wired and labeled for the following circuits: Air conditioning/heat, gauges/dash instruments, brake lamps, headlamps, coil, horn, dome lamp, radio, electric fan, turn signals, emergency flashers, wipers, and alternator. The 20-circuit fuse block also includes circuits for power windows, door locks and other optional accessories. Kits include: mounting bracket, fuses, flashers, horn relay, terminals, and full instructions.

Important: No wire included with these kits.

Auxiliary Fuse Block

The CirKit Boss is the first circuit isolator system available with both constant and ignition hot circuits. Sets include in-line circuit breaker, relay, relay/fuse block base with pre-terminated, mounting hardware and terminals. It protects your OEM warranty and is easy-to-install. The 3 circuit features one 30 amp constant hot and two 20 amp ignition hot circuits. The 7 circuit features two 40 amp SPST relays and two 40 amp circuit breakers.

70201 3 circuit 83.99 ea
70119 7 circuit 96.99 ea

Circuit Add-on Isolator

The circuit add-on isolator provides a solution when additional circuits are needed, or accessory equipment requires ignition hot and constant hot capabilities. This is the only add on fuse center available with ignition hot capabilities. Now available in three or seven circuit models depending on your application.

70113 3 circuit - 40 amp breaker 67.99 ea
70103 3 circuit - 50 amp breaker 67.99 ea
70107 7 circuit 80.99 ea

Weatherproof Circuit Add-on Isolator

The safe way to add electrical accessories to any vehicle is with a Painless Performance CirKit Boss. The CirKit Boss is the first circuit isolator system available with both constant and ignition hot circuits. The Isolator 7 kits include in-line circuit breaker, relay, relay/fuse block base with pre-terminated harness, mounting hardware, and terminals. The CirKit Boss protects your OEM warranty and is easy-to-install.

1987-72 Fuse Box Seal

Replacement seal for the fuse box to firewall area. This gasket will prevent dirt, water, and grime from entering the cab.

CR1080 1967-72 3.99 ea

Add Fused Circuits with the CirKit Boss!

Add electrical accessories the safe way with a CirKit Boss! This set allows you to add three fused circuits to your existing fuse block. Simply mount the fuse block and relay, route the 10 gauge wire to the battery, route the ignition wire, then route the accessory circuits. Main power wire is 8 feet long from fuse block. Each accessory circuit has 8 feet of wire length from fuse block. Includes: one 70 amp SPST relay, relay base/fuse block with harness, crimp-on terminals, and mounting hardware.

70114 3 circuit 90.99 set

Modular Blank Fuse Block

Painless Performance modular blank fuse block can be used on any vehicle where additional circuits are needed. The 4 circuit ATO fuse center works great for in-line wiring applications, such as trailer wiring or when adding vehicle accessories. Includes a 4-circuit fuse center that is comprised of black injection molded plastic and eight metal, electricity conducting connectors.

30002 blank 7.99 ea

Fuse Block Add-On

Painless Performance wiring fuse blocks for 4 or 8 circuit add-ons is a universal fit. These components include the fuse block and the terminals.

The Restorers Choice

TF900629

Remote Battery Disconnect

With this setup, one click of the key fob completely shuts down your vehicle's entire electrical system. It's accomplished by routing your main battery cable through a remote cutoff solenoid that you've stashed in a place inaccessible to a thief. For even more security, the 4 channel "Safe-n-Sound" system not only shuts off all power from the battery, but will also control 3 other items, like closing the windows, triggering the power door locks, and interrupting electrical power to the fuel pump, all separate from the main battery cutoff. The 4 channel package can handle up to 30 amps worth of electrical equipment.

TF900629 single channel	194.99 ea
TF900628 4 channel	265.99 ea

PAINLESS

30204

Remote Master Disconnect

We offer two Master Disconnect sets with 250 amp continuous duty solenoids designed for use with high amperage alternators. Remote master disconnect set 30204 uses a small toggle switch to activate the solenoid. This switch can be hidden anywhere in the vehicle as a theft deterrent. Master disconnect with emergency push button is perfect for drag race applications as it allows you to install a large emergency push button in easy reach if you need to shut down your vehicle's electrical system in a hurry. Remote master disconnect with mechanical latching solenoid is ideal for everyday vehicle applications and is a simple and effective anti-theft deterrent. It uses a 110 amp continuous duty solenoid which is activated by an easy to hide momentary push button.

Universal Wiring

Universal Rocker Switch Panel

This switch panel will easily integrate with 4, 6, or 8 way switching bank for a simple solution to all your wiring needs. Fully assembled in a .090" brushed aluminum mounting panel with 48" of GXL wire and a simple plug and play connection for one of the corresponding relay banks. Switches have a red indicator light when in use, and are setup to switch power to the supporting relay.

510919 universal 4 position.....	109.99 ea
510921 universal 6 position.....	139.99 ea
510923 universal 8 position.....	194.99 ea

Banked relay system comes fully assembled, and uses the same 6 gauge bus bars and non-conductive G10 composite base plate. Includes 48" of tough GXL wire to ensure years of reliable service. Relays can be individually configured for ground or 12 Volt operation to support a wide variety of equipment and needs. With wiring, neatness counts. Fuses, 30 amp relays, color-coordinated labels and detailed installation instructions are included.

Park/Neutral Relay Set

This set uses the stock neutral safety switch to also provide for ECM park/neutral ground signal needed when installing factory style fuel injection into older vehicles. For use with any aftermarket shifter or column mounted neutral safety switch.

60122 park/neutral relay.....	37.99 set
-------------------------------	-----------

Timed Cooling System Shutdown

Timed cooling system shutdown features adjustable relays that keep power to the cooling fan and electric water pump (if equipped) when the key is shut off. This reduces the block temperature as much as possible without the risk of killing the battery. This is a timed circuit and does not use a thermostat or other fan control to operate.

Note: Not compatible with probe style fan sensor controls that mount on the radiator or radiator support.

TFP900632 1962-79.....	172.99 ea
------------------------	-----------

Universal Fuel Pump Relay Set

A relay will prevent voltage drops at the pump thus maintaining constant fuel pump pressure, and will prevent fuel pump amperage overloads from damaging the electrical system. It's a good idea to relay your fuel pump for the street and a must when you're racing. Choose from a regular fuel pump relay or a weatherproof fuel pump relay which is perfect for the harsh weather conditions, this relay set provides complete protection from the elements and ensure reliable and dependable performance. These sets utilize heavy-duty waterproof relays, weatherproof circuit breaker covers, and extreme condition weatherproof shrinkable crimp-on terminals.

Thermo-Flex Hose and Wiring Covering

The combination of aluminum, silica, and stainless steel is combined to produce a sleeve that is flexible lightweight and strong. The aluminum-silica combination can be slit for applications such as wire looms or hose covering, without disconnecting the ends of the wire or hoses. Thermo-Flex aluminum silica can withstand extreme temperatures up to 750 degrees F.

X-Treme Tape

X-Treme Tape was developed for the military and has some very unusual properties. The silicone based tape will stick only to itself, and only when placed under tension. Once wrapped around an object, it forms a non-conductive, air and watertight, insulating seal that remains flexible within a temperature range of -60 degrees to 500 degrees F. Insulates to 8000 Volts. Stretches to 3X's its length. Conforms to irregular shapes. When wrapped upon itself, it bonds together immediately and becomes completely fused after 24 hours at room temperature.

Chevrolet Truck Identification

Need to identify a Chevrolet truck model? This handy Classic Industries® model identification guide is designed to help you through some of the basic year-to-year updates to classic Chevrolet truck models, as well as provide some GMC guidance.

1947-55 "Advance Design" Pickup Trucks

The Advance Design was GM's first postwar truck platform. This generation is usually listed as 1947-55 1st Series.

- 1947-53 models featured a horizontal bar grill design, 2 piece windshields, with angle-topped bedsides.
- 1950 saw the introduction of modern tubular shocks.
- 1951 saw the introduction of door vent windows.
- 1954-55 models received rounded tail lamps, a cross-type bull nose grill, a 1 piece curved windshield, a redesigned dashboard, and a deeper bed with flat topped bedsides.
- Chevrolet 1955 1st series models were the last to be offered with 6 volt electronics. GMC continued to offer 12 volt electronics as an option.

1955-58 "Task Force" Pickup Trucks

As Chevrolet tooled up for the "Task Force" platform, some factories continued to produce the earlier design as the 1955 1st Series, while the new design was produced as the 1955 2nd Series.

- 1955 was the first year for the optional 256ci Small Block V8.
- 1955 2nd Series models featured a wrap-around windshield.
- The rare and desirable fiberglass bed Chevrolet Cameo pickup is offered from 1955-58. 1958 trucks introduced dual headlamps.
- Fleetside pickups replaced the Cameo in late 1958.

1960-66 C/K Pickup Trucks

The 1960 redesign featured a drop center ladder frame which allowed the cab to sit lower. It also marked the introduction of the C/K designations for Chevrolet, "C" for 2 wheel drive models, "K" for 4 wheel drive models. A more sophisticated suspension design provided a more car-like ride.

- Series 10, 20, 30, and 40 (C or K) were badged as "Apache", etc.
- Series 50 and 60 series trucks were badged as "Viking".
- The largest 70, 80, and 90 series models were badged as Spartan etc.
- Chevrolet trucks were available with smooth "fleetside" or fendered "stepside" beds. GMC called these "wideside" and "fenderside".
- 1960-62 models used a torsion bar front suspension and a coil spring rear suspension.
- 1963-66 models upgraded to a coil spring front suspension.
- 1964-66 models changed to a flat windshield design.
- 1966 introduced the 327ci V8 and Turbo-Hydramatic (TH) transmission.

Chevrolet Truck Identification

1967-72 C/K Pickup Trucks

The 1967-72 Chevrolet and GMC trucks were dubbed "Action Line". Most Chevrolet trucks of this design were built with coil spring rear suspension. All 1967-72 four wheel drive trucks had leaf springs on both axles.

- 1967 was the last model year without side markers.
- In 1968, a 50th Anniversary package for Chevrolet trucks featured a distinctive white-gold-white paint scheme.
- The Longhorn 3/4 ton trucks debuted in 1968, adding an extra 6" to the bed.
- The short wheelbase K5 Blazer debuted in 1969 along with the GMC version, known as the Jimmy.
- For 1970, the 396ci big block V8 was enlarged to 402ci, yet still sold as a 396.
- 1971 introduced the Cheyenne comfort trim package for Chevrolet and the Sierra package for GMC.
- 1971 brought front disc brakes on all light duty trucks.

1973-86 C/K, 1987-91 R/V Pickup Trucks

For 1973, Chevrolet and GMC trucks were tested in a wind tunnel and designed for better aerodynamics. Wheelbase was extended and dual rear wheel option was offered on one ton pickups.

- An all-new carbon steel ladder frame designed with a "drop center" was introduced.
- The fuel tank was moved outboard of the frame rails beneath the cab floor to offer up to 40 gallons of fuel capacity.
- 1973 introduced the crew cab option with choice of 3 + 3 seating or lockable storage in the rear cab.
- Two wheel drive trucks used independent front suspension.
- Power windows and locks were offered as an option in 1977.
- 1978 introduced the first diesel engines.
- For 1987, C/K was changed to R/V to distinguish these trucks from the upcoming 4th generation models.

1988-98 C/K Pickup Trucks

All 4th generation C/K trucks, including four-wheel drive models, received independent front suspension.

- From 1990-93, a performance model called 454SS was offered with a 454ci V8, sport suspension, and quick-ratio steering.
- An updated fascia debuted along with the mandated center high mount stoplight.
- A turbo-diesel was made available beginning in 1992.
- Vortec V8's debuted in 1995 with high flow cylinder heads, new camshaft, roller valve lifters, and higher compression for increased power and efficiency.

1999-07 Silverado/Sierra Pickup Trucks

GM dropped the C/K designations for 1999, opting for Silverado for Chevrolet and Sierra for GMC, referring to the platform as GMT800.

- Chevrolet models received a new fascia and revised tail lamps in 2003.
- GMC offered an upscale trim level called Denali in 2001.
- 2001-05 Denali models offered a Quadrateer 4 wheel steering option.
- Beginning in 2003, Chevrolet offered a Silverado SS high-performance pickup. In 2006, an Intimidator SS was offered in honor of the late Dale Earnhardt.
- A gasoline/electric hybrid was offered beginning in 2004.

Four Ways to Order!

ORDERING BY PHONE TOLL FREE 800-854-1280

In the continental United States, Hawaii and Alaska.
Outside the U.S. call 714.847.6887.

Mon-Fri 8:00-5:00 Sat 10:00-3:00, P.S.T.
(Closed Sundays and holidays)

Information you'll need when ordering by Phone:

Customer Number

Found on back cover of your catalog above your name, this number allows Classic Industries® to quickly access your information. If you do not have a customer number, a new one will be given to you when placing your order.

Billing and Shipping Address

Please have the billing and shipping address available. Credit card orders are verified by name and address before shipping. Your order can be shipped to a different address, provided the cardholder's name and address match the credit card used. You may be asked to contact your credit card company to have the shipping address added to your account.

Year and Model of Vehicle

To provide the best possible service, we may require the year and model of your vehicle. This helps verify that the parts you order are correct for your car.

Part Numbers

All Classic Industries® products are listed with a part number. If possible, please have the part numbers of the products you're ordering available before calling to make the ordering process faster and more convenient.

ON-LINE ORDERING

www.classicindustries.com

Classic Industries® offers on-line ordering directly through our website. Log on to classicindustries.com and order on-line. On-line ordering is available 24 hours a day 7 days a week for your convenience.

Service Excellence from the Restoration Leaders!

You No Longer Have To:

- ✗ Pay excessive fees to protect your merchandise
- ✗ Contact the carrier yourself
- ✗ File a damage claim yourself to have the carrier inspect the damaged items
- ✗ Send the damaged items back at your expense

With Classic Industries® the worry is eliminated!

PROCEDURE FOR RETURNING SHIPPING DAMAGES

We handle the claim so you don't have to! If any part you receive is damaged during shipping and handling, simply contact our customer service department toll-free at 800.854.1280 within two business days.

After verifying the damage, Classic Industries® will issue a pickup call tag through the carrier that shipped the products. The carrier will pickup the damaged goods from your address and return them to us at no expense to you. After the product has been inspected, our customer service department will send a replacement part.

In order to ensure replacement of damaged products, please return items in their original box and packaging. Failure to do so may result in the claim being denied. Someone must be available at the pickup address to supply the damaged products when the carrier arrives. If the carrier is unable to pickup the products for any reason, the customer may be required to return the products at their expense.

Note: Some products are excluded from damage call tag pickup. Call a customer service representative for information about products that are not eligible.

ENJOY THE BENEFITS!

Money Back Guarantee

At Classic Industries®, we take pride in the quality of the products we offer and back it up with a 100% Money Back Guarantee. If for any reason you are not satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit or exchange.

Not all restoration parts are created equal. But at Classic Industries®, we research each and every product we sell to make sure our customers are getting the highest quality products in the market. We have decades of experience in product selection and we painstakingly scrutinize every product we offer for quality manufacturing, materials, and craftsmanship before we will offer it in any of our catalogs. Many of our employees are automotive enthusiasts themselves. In fact, many were customers prior to becoming employees, so we understand the needs of the modern classic car enthusiast. Our product procurement specialists have made it their goal to select restoration products that have been manufactured using modern technology and materials with an emphasis on originality, longevity, and attention to detail. What else would you expect from the company that started it all? Classic Industries® is the name you can trust, and we'd like for you to consider us as your partner in restoration. When a company

continually offers a quality product for a reasonable price and backs up every sale with the best customer service in the industry, people come back! That's why Classic Industries® has been the leader in restoration for almost four decades. So, if you haven't already decided for yourself that Classic Industries® is the most logical choice as your restoration parts supplier, then check out our Money Back Guarantee. If for any reason you are not 100% satisfied with a product or purchase, you can return the product within 30 days of receipt for a full refund, credit, or exchange.

- ✓ **Lowest Prices Guaranteed!**
- ✓ **The Finest Quality Reproductions!**
- ✓ **No Fault Product Protection Offer!**
- ✓ **100% Satisfaction or Your Money Back!**

Price Match Guarantee

If you find it for less we'll match the price!

Classic Industries® will match any competitors current advertised price for an identical product. Simply send us a copy of the competitor's current advertised price from a catalog, advertisement or website (with URL) and we'll match the price. The price match guarantee is available at the time the order is placed and for in-stock merchandise only. Price matching will be determined by a competitor's most current retail published price and is limited to competitors within the Restoration Industry.

Important: In an effort to provide our retail customers with the most competitive pricing available, we will match our current competitor's pricing. Price matching will be determined by a competitor's most current retail published price and is limited to competitors within the "Restoration Industry". Performance parts and special orders are exempt from price matching policy. Classic Industries® reserves the right to decline price matching if

pricing is deemed to be a special offer, a sale or closeout price, or a non-current price. Competitors sale pricing, inventory reductions, close outs, special promotional offers, etc. may be exempt from the "price match" guarantee. The guarantee is subject to the terms and conditions of Classic Industries® current policies.

Classic Industries® will generally contact competitors to confirm that the published price is current due to market changes, demand or availability. Price matching supersedes all other promotional offers and on sale pricing. If Classic Industries® matches a price from a competitor, additional discounts on that product or products may not apply. If the standard retail price of a product is higher than the competitor's price and an applied discount reduces the price below the competitor's pricing, the now discounted or sale pricing will prevail. We reserve the right to change or revoke this offer at any time without notice. Classic Industries® reserves the right to decline price matching.

Think Of Us As Your Partner In Restoration!

A restoration can take years! We understand the complications and problems that can occur when ordering precious parts for your project car. If you are like most people, you want perfection. The many different elements that make up a restoration isn't just limited to the parts you install. You sometimes need to rely on other outside elements such as body shops, painters, upholstery specialists and parts suppliers. That's where we come in. We offer the quality parts you want without all the guesswork. We carry one of the largest inventories of restoration products and accessories the market has to offer. What's more, you can rely on our nearly

40 years of experience to help you through the rough spots when you need it. Our tech advisors are always ready and willing to discuss any problem you may have concerning the parts for your vehicle and your restoration. Unlike other companies, we give you knowledgeable sales representatives, one of the largest inventories in the business, quick and efficient delivery, Toll Free ordering, and the experience to back it up. If you're not absolutely 100% satisfied with the products you receive. We'll refund 100% of your money! Classic Industries® - your partner in restoration!

Form of Payment

How to Order

CREDIT CARDS

Classic Industries accepts Visa, MasterCard, American Express, Optima, and Discover for your convenience. When placing your order, be sure to indicate the card holder's name, address, home phone, business phone, credit card number and expiration date and billing address (if different from person placing order). A security code is required for credit card purchases. Please have your credit card readily available when placing your order. Minimum order is \$20.00. New or 1st time customers who are paying by credit card must have the order shipped to the cardholders billing address for the first order. Invalid or non-matching billing addresses could delay your shipment.

CERTIFIED CHECKS

Classic Industries will accept certified checks for your mail order. Be sure to include customer number and/or reference invoice number. Contact your bank to issue a certified check in the amount due for your order. All orders paid by certified check are held up to 15 days pending clearance.

ON-LINE ORDERING

Classic Industries offers online ordering directly through our website. Log on to classicindustries.com and order online. Online ordering is available 24 hours a day 7 days a week for your convenience.

WWW.CLASSICINDUSTRIES.COM

FOREIGN ORDERS

All foreign orders must be prepaid before the products can be shipped. The Classic Industries staff will check with the various freight companies that deliver to your country and area to determine the best possible rates available for your order. Once your order is rated, you'll be contacted by e-mail or phone to approve the rate. After approval and payment is received, the order will be shipped. The Shipping & Handling field for foreign orders will state "TBD" (To Be Determined). Rates are subject to change once the order has been packed and is ready to ship. Rates are calculated based on estimations of weight, dimensions and other factors. Should changes in freight costs occur once the order is packed and ready to ship, Classic Industries will notify the customer immediately before the shipment is sent. If you have any questions or concerns, please direct your inquiries to info-desk@classicindustries.com.

Color Matches

Due to multiple manufacturers of products Classic Industries provides, color variations may occur. Slight color variations are common especially amongst interior products and does not constitute a defect. These products are not eligible for return for this reason.

Pricing

Current product pricing and our pricing policy can be found by visiting our website. Prices in this catalog were in effect at the time of printing and supersede all prices in any previous publication. Classic Industries' makes every effort to honor the prices contained herein. Due to constantly changing costs in raw materials, supply chain issues, and other unforeseen circumstances, pricing on products is subject to change. We reserve the right to change prices without notice. For current pricing, please go to ClassicIndustries.com, or contact a Classic Industries' sales representative during normal business hours. Eligibility of products for discounts are subject to change without notice.

Trademark and Copyright

Classic Industries Parts and Accessories catalogs copyrighted. No part of this publication including text, photos or illustrations may be reproduced without the prior written permission of Classic Industries. The following names and/or symbols: Mopar, Dodge, Plymouth, Barracuda, Belvedere, Coronet, Challenger, Charger, Chuda, Dart, Duster, Fury, GTX, Hemi, Polara, Road Runner, Six Pack, Super Bee, Scamp, Valiant are registered trademarks of Chrysler Group, LLC and are used for reference purposes only unless specified otherwise.

Product Availability

Availability of all items in this catalog are subject to change without notice. We reserve the right to discontinue products, services or accessories without notice.

Shortages

Always check the contents of your delivery to assure all the parts ordered were received. If you are missing any item(s) be sure to check for back orders noted on your invoice before calling our customer service department (see back order). If a shortage has occurred, contact our customer service department within 2 working days of delivery to assure a prompt replacement. Classic Industries assumes no liability after this period.

General Information

Sales Tax Information

Classic Industries collects and remits sales tax based on state and local requirements. The sales tax laws have changed due to a Supreme Court ruling in 2018. The appropriate sales tax will be applied to your order and remitted based on your state's requirements. If your order is shipped, or picked up in a specific state that requires sales tax, the appropriate amount will be added to your order.

Accuracy Of Descriptions

Classic Industries makes every effort to verify the accuracy of all information published in this catalog. Each item is represented with information that is accurate to the best of our knowledge at the time the catalog is printed. Classic Industries is not responsible or liable for mistakes, print errors or inaccurate information that may lead to, or result in labor costs or damages to any vehicle under any circumstances.

Kit Products

All Classic Industries' Parts and Accessories catalogs include kits which contain a variety of products. On occasion you may run out of an item supplied with a kit. If this happens we will generally ship what is in stock and back order the item(s) which are not in stock. You may contact our sales department by phone to verify which items are not in stock at the time the order is placed. The customer may decide whether to accept the partial kit or have the entire kit back ordered until the kit is completed and all the items can be shipped at the same time. If the customer decides to accept partial delivery of the kit, then the full price of the kit will be charged to the customer and the back ordered items will be shipped no charge when they arrive at our warehouse. Customers will be charged the appropriate freight fees when applicable. Cancellation of products from a kit will be accepted at 25% below the actual current retail price of the item. On COD orders the price of the kit is charged in full and the back ordered items are shipped on a COD freight only basis.

Rights and Lefts

Some items in this catalog are presented as left or right hand products (left side - driver) (right side - passenger). LH or RH sides are determined by sitting in the vehicle, not standing in front of the vehicle.

ALASKA, HAWAII, GUAM & PUERTO RICO

Orders being shipped to Alaska, Hawaii, Guam or Puerto Rico, are shipped via Ground, Overnight or 2-Day delivery whenever possible. All orders must be prepaid with credit card, money order, or check. No COD orders are accepted. Rates depend on the items being shipped.

Contact our sales department for exact rates.

Important: Promotional shipping offers do not apply to Alaska, Hawaii, Guam, Puerto Rico, Canada or any foreign destination.

APO/FPO

Parcel post is the only means of shipping to an APO or FPO address. Due to size restrictions the maximum shipping box can be no larger than 72" width and girth combined. All military personnel must write or call to determine what size box will be used for the shipment. Once this is determined, Classic Industries' will call or write to let you know if the order can be shipped by Parcel Post, and the correct amount required. All orders that exceed these limitations will be shipped in accordance with customer approval.

INSURANCE

Each order is charged an insurance fee of \$3.50. This fee will insure the entire order and protect you completely from damages or loss. The order forms located in the rear of this catalog include this fee in the indicated column when your order is being totaled.

COD ORDERS

COD orders are gladly accepted on all normal ground shipments, excluding truck freight orders. COD orders will be charged cash only upon delivery of your order. All COD orders are shipped by FedEx. Personal checks, business checks, money orders and certified checks are not accepted. COD orders are not accepted through the mail. COD orders must be placed by phone during regular business hours. The appropriate shipping fees will be added. COD orders are exempt from discounts and free shipping promotion. The customer will pay all appropriate fees in accordance with current policies and freight rates. A fee of \$11.95 per box will be added to all COD orders. Oversize and/or overweight boxes will be charged in accordance with the rate chart located on the order blank. Classic Industries' reserves the right to change shipping rates in accordance with rate increases by freight companies. COD orders are limited to \$999.00. If the COD order should be returned to Classic Industries' for non-acceptance/ non-payment, the customer will be responsible to reimburse Classic Industries' for any and all freight charges related to the order. In addition, a 25% restocking fee will be applied to the returned products. All outstanding charges must be paid before any additional orders will be accepted.

SPECIAL RATE SHIPPING FEES/DROP SHIP FEES

Some items we offer may require a mandatory shipping or drop ship fee. This fee may also apply to products sold over the counter at Classic Industries' Showroom location. Contact our sales department for actual additional shipping fees.

Important: Products with special rate shipping fees or drop ship fees are excluded from promotional shipping offers.

General Information

Back Orders

The invoice located in the packing slip of your order will note any items that were out of stock at the time of shipping. The unavailable items will be back ordered unless otherwise specified on your order form or verbally to a sales representative when placing your order by phone. Back orders are usually shipped when the products arrive at our warehouse without prior notification. Classic Industries' will make an effort to contact the customer if the backorder is more than 90 days old. If you wish to cancel a back order, please notify our customer service department immediately. The customer will be responsible for a 25% restocking fee and freight charges if the back order is cancelled or returned after the items are shipped.

Damage Claims

Always check the contents of your shipment in the presence of the person delivering the merchandise. Should any damage occur, immediately notify Classic Industries' customer service dept. so that all steps necessary will be taken to ensure a prompt replacement of any damaged goods. Accurate instructions will be given on damaged goods replacement. Classic Industries' is not responsible if no notification is given within 2 working days of receipt of goods (excluding Sundays and Holidays). Classic Industries' will file a claim with the carrier in most cases. If the customer files a claim with the carrier, Classic Industries' will not be responsible for replacing damaged products and the customer will be responsible to pay for any replacements until the carrier pays the claim. Any replacement parts due to sales errors or customer errors in ordering will be sent using the same shipping method as the original order when possible. Please follow these instructions to avoid any problems or misunderstandings associated with damaged products and freight claims.

Refusals

All refused COD orders will be subject to a 25% restocking fee. Classic Industries' will consider the entire order cancelled and void with no notification to the customer. The customer will be billed 25% plus all freight charges to a sales representative from the destination. Contact our customer service department for more information.

Policies

All policies in Classic Industries' current catalog supersede any and all policies in any previous catalog or publication.

EXPRESS SHIPPING

Classic Industries' offers Overnight and 2-Day air delivery service in the Continental U.S., Alaska, Hawaii, Guam and Puerto Rico. Pre-payment with a credit card is required before shipments can be sent. Simply call in your order before 2:00 p.m. Pacific Time, Monday-Friday during regular business hours and your Overnight and 2-Day service will arrive the following business day (pending availability). Saturday delivery is available only on Overnight service. A \$16.95 fee will be added to Overnight fees for Saturday delivery. 2-Day orders will arrive within 2 business days (pending availability). 3-Day service is available within the contiguous 48 states. Your order will usually leave within 24 hours and will arrive within 3 business days of ship date (pending availability). A \$9.95 service fee for any of these options will be added in addition to shipping fees. Contact our sales department for rates regarding air service delivery. Rates depend on the items being shipped. Some products are charged at dimensional weight as opposed to actual weight.

Important: Air service does not guarantee your order will arrive on the expected date of delivery. Under normal circumstances, air service is guaranteed. However, due to adverse weather conditions, natural disasters or unforeseen circumstances, there may be delays. Classic Industries' is not responsible for deliveries that are delayed. Air service orders are excluded from promotional shipping offers.

TRUCK FREIGHT

Products in this catalog that require truck freight are typically indicated with a "Truck Freight" icon. This indicates that the product is too large for ground delivery and must be shipped by motor freight. There may be items listed herein that are not indicated as truck freight. These items must be prepaid, including freight charges, before the shipment can be sent. Truck freight rates may vary depending on products being ordered, fuel surcharges, and the shipping destination. Residential deliveries require an additional fee assessed by the carrier due to the additional coordination and transit outside of normal routes. Some Truck Freight shipments may require special handling (e.g., lift gate service, re-orienting, additional freight charges, etc.). Acceptance of truck freight shipment, rate and applicable fees is acknowledged at time of order. For additional information visit us online at help.classicindustries.com or contact our customer service department during regular business hours.

OVERSIZE/OVERWEIGHT

These are the designations for Ground or Standard packages that meet one of the following specifications for billing purposes: Oversize 1 (OS1) designates a combined length and girth exceeding 84", but less than 108". Actual weight is less than 30 lbs. and is billed at 30 lbs. Oversize 2 (OS2) designates a combined length and girth exceeding 108" but less than 130". Actual weight is less than 70 lbs. and is billed at 70 lbs. Oversize 3 (OS3) designates a combined length and girth exceeding 130" but less than 165". A handling fee will be added to all (OS3) orders. Overweight 1, 2, and 3 designates actual weight is less than 90 lbs. and is billed at 90 lbs. as appropriate. We reserve the right to charge Oversize and/or overweight fees on any order containing oversize and/or overweight products, even if it is not indicated in the catalog. For additional information visit us online at help.classicindustries.com or contact our customer service department during regular business hours.

FOB WAREHOUSE - "FREE ON-BOARD"

All Classic Industries' orders are shipped based on FOB Warehouse. Unless otherwise specified, Classic Industries' is not responsible for freight charges, shipping charges, or damages once the shipment leaves our warehouse.

Sales Errors/Ordering Errors

Classic Industries' is not responsible for customer errors or employee sales errors. Every effort is made to insure that the products you are ordering are accurate. Should an error occur, we will make every effort to resolve the issue. Replacement products will be shipped the same method as the original order whenever possible. Classic Industries' assumes no responsibility or liability for damages, fees, storage charges, or any other inconvenience that may be associated with sales errors or customer ordering errors.

Returns

Products may be returned for a full refund on the product, credit or exchange within 30 days of receipt. All returns are subject to a 25% restocking fee after 30 days. Should you need to return a part for refund, exchange or credit, please contact our customer service department for a return authorization number and instructions. Classic Industries' will not accept returned goods without prior authorization. Customer will pay freight on all return orders. Allow up to 3 weeks to process refund or credit.

Important: Gift certificates have no cash value and must be redeemed for merchandise only. Literature, CDs, videos, printed materials, stencil kits, stripes, electrical parts, gears, wiring and harnesses, switches, etc. are non-returnable. All special order products must be prepaid in full and are non-returnable. No returns on partial kits or sets. There is no guarantee on moving parts such as engines, transmissions, rear ends, steering gears, water pumps, distributors, wiper motors, etc. If any product is modified, altered, painted, installed or disassembled in any way without Classic Industries' expressed written permission, the item is non-returnable. Classic Industries' always recommends professional installation on all products. Any item which has been altered, painted, installed or deemed non-returnable by Classic Industries' will be returned to the customer at the customer's expense. Classic Industries' is not responsible or liable for labor fees associated with the installation, removal, modification, painting or repair of any product purchased regardless of the shipping method. We will be shipped the same method as the original order when possible. Please follow these instructions to avoid any problems or misunderstandings associated with damaged products and freight claims.

WeatherBlocker™ Plus Truck Covers

Designed for outdoor use, OER's WeatherBlocker Plus covers are manufactured using a durable 4 layer non-woven material that provides a high level of protection from the elements and features a soft cotton backing which helps protect against scratches and dings. Each cover is sewn with double stitched seams to add strength and durability to the cover and neoprene elastic is sewn into the front and rear hems to help secure the cover. Breathable and lightweight, WeatherBlocker Plus covers offer excellent water resistance and protection from the sun's UV rays. Covers feature mirror pockets on both sides of the cover when applicable and non-scratch grommets have been installed onto each side of the cover to allow the use of a tie strap or lock.

Note: Please add 2 digit color code when ordering.

(mini duster)

Pickup Layers of Dust with One Sweep!

An easy way of keeping your vehicle clean and free of dust, looking like it was just washed. It's specially treated cotton fibers lift dust off the surface without scratching the paint, even delicate lacquers. The more you use it, the better it works! Regular use can significantly reduce the frequency of washings.
