## "U-Cut-To-Fit" Speedometer Cable

High-quality speedometer cables feature machined aluminum fittings and a premium housing with a specially extruded liner to extend the life of the cable. These cut-to-fit 7' speedometer cables are designed to work with factory speedometers with a 5/8"-18 male thread, or any cable driven aftermarket speedometers such as AutoMeter, Stewart Warner, or VDO. The transmission end is designed to fit most transmission driven gear adaptors (not included), and the inner cable and outer housing of these cables can be cut-to-fit most GM transmissions.

## 1960-66 Chevy Truck Gauge

The 1960-66 Chevy truck direct fit clusters feature a speedometer, tachometer, fuel, oil, temperature, Volt gauges, and a 12V quartz clock decked out in one of four color schemes: black, tan, white, or gray. Choose black for a near stock appearance or select one of the other color options to suit your project! The all-electric cluster with easy snap-in wiring harness arrives ready to install directly into the stock dash of 1960-66 truck models; no cutting or alterations necessary. Perhaps the best feature: the cluster includes Classic Instruments' Zeus Speedometer Technology built right in, which means no external control boxes are needed. It is designed to reuse the factory dash bezel to maintain the original styling of the vehicle, but has been upgraded with bright LED lighting for even illumination and clear nighttime readability. Includes a scratch resistant acrylic lens and necessary sending units. No need to worry about fuel sending unit compatibility either: the cluster features a fuel sending unit selector switch to set it for compatibility with the existing/factory fuel sending unit, no new sending unit necessary.

## 1967-72 Instrument Panel Gauge Clusters

High-quality precision gauge clusters for 1967-72 GM truck models. These clusters are available as a set for a quick replacement of the cluster assembly, or for models that were not originally equipped with a tachometer and gauges. Included in the most complete set is a reproduction tach, speedometer, temp, amp, oil, and vacuum gauges, oil and vacuum gauge backing plate, temp and amp gauge backing plate, instrument cluster lens, instrument lens bumpers, inner and outer gauge housings, turn signal and high beam indicators, tach wiring harness, printed circuit board and dash bezel/bulbs. Tachometer and vacuum gauge are optional to the basic gauge cluster. This gauge cluster comes pre-assembled. Your choice of 5000 RPM or 8000 RPM versions.

**Note:** Tachs are not for use with HEI distributors. Oil line kit, vacuum line kit, and temp sending unit are not included. If your truck was not originally equipped with gauges, a front light harness, engine harness and under dash harness are recommended for proper installation of the gauges.

## 1967-72 Gauge Assembly

Enhance the appearance of your 1967-72 GM truck with Classic Instruments CT gauge package. Each set comes complete with electronic 140MPH speedometer, electronic 8000 RPM tachometer, electronic quartz clock, fuel, temp, Volt and oil gauges and polished stainless bezels all in a high-quality reproduction dash housing. What's more, this assembly also features turn signals in stock location, a blue LED high beam indicator in the speedometer, 0-90 Ohm fuel sending gauge to match the stock fuel tank and wiring harness with GXL18 color coded wires and connector. Each assembly includes all necessary mounting hardware and sending units. Available in your choice of twelve sleek face styles. Made in USA.

## 1973-87 Direct Fit Gauge Set

Classic Instruments direct fit gauge cluster for 1973-87 Chevy/GMC trucks. They are designed for use in the factory dash bezel feature a speedometer, tachometer, fuel, oil, water temperature, and Volt gauges in an injection molded light blue housing for a factory appearance. These all-electric clusters are ready-to-install directly into the stock dash of any 1973-87 truck, Suburban, or Blazer models with no cutting or alterations necessary. The turn signals are in the stock location and it is designed so light reaches the gear indicator. Everything needed to install the package is provided in the set including a new lens and all necessary sending units. The cluster is designed to reuse the stock fuel sending unit or any aftermarket fuel sender (purchased separately) with the built-in Ohm range selector switch.

**Note:** Fuel sending unit not included, fuel gauge is calibrated to stock 0-90 Ohm.

### USA 1947-59 HDX-Series Gauge Set

The new HDX series gauge sets from Dakota Digital brings you the best in modern instrumentation, rivaling what's offered in today's modern vehicles. Each HDX system is fully customizable, allowing you to personalize your instrument panel. Each direct fit gauge package incorporates a speedometer, tachometer, fuel level, Volts, oil pressure and coolant temperature gauges, along with a digital message center. The gauges are integrated into your vehicle's systems using the supplied central control box. Includes necessary sensors. Gauge faces offered in black alloy or silver alloy and are available with either standard (MPH and Fahrenheit) or metric (KM/H and Celsius) displays.

**Important:** Gauge bezel not included. Metric display (KM/H and Celsius) gauge sets are custom built by Dakota Digital, and may require a 3-5 week build time.

**Note:** Please specify option codes when ordering:  
1 - standard (MPH and Fahrenheit); 2 - metric (KM/H and Celsius) and then specify either: A - silver alloy gauge face, or B - black alloy gauge face.

**Example:** DD15821A - 1947-53 with standard display and silver alloy gauge face.

## 1973-87 Six Gauge Custom Instrument Panel

These panels feature the larger style 5" speedometer and tach and 2-1/16" oil pressure, water temp, fuel level, and Volt gauges in your choice of styles mounted in an ABS panel. Features 160 MPH speedometer and 10,000 RPM tach. Includes wire harness and LED indicators.

**Important:** SPORT-COMP features mechanical gauges.

ULTRA-LITE, Phantom and Carbon Fiber gauge sets include a wire harness and LED indicators.

**Note:** Specify panel finish with the suffix: 1 for black, 2 for brushed aluminum, 4 for carbon fiber.

## Prestige In-Dash Gauge

These gauges have the precision and reliability with brushed aluminum centers, fully lit vintage style needles, domed lenses, and polished chrome bezels. Antique Ivory gauges have black numerals and needles, and feature an LED fully lit gauge face when illuminated at night. The Prestige Black Diamond gauges have white numerals and needles and feature through-the-dial LED lighting to illuminate the numbers, markers, and needles. Mechanical gauges include the necessary fittings and 6 feet of capillary tubing (unless otherwise specified). Electric gauges include the required sending units. 2-1/16" unless noted.

Note: \*3-3/8".

## Chrono Series In-Dash Gauge

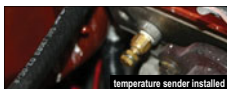

AutoMeter Chrono Series electric gauges with race proven digital stepper motor movement for unmatched accuracy. Electronic senders can be used for a variety of applications and keep unwanted fluids out of the driver compartment. The Chrono Series features a three dimensional concave dial design, "through-the-dial" LED lighting, and over 320 degrees of pointer movement. All gauges have both metric and imperial scalings and are 12 and 16 Volt compatible.

## SCX PRO and SCX Series Gauges

SCX Pro gauges feature one touch peak recall and programmable high and low full dial warning. There is also an external alarm output (12V, 500mA) that can be used to activate an external warning light when an alarm condition exists. Superior amber and white through-the-dial lighting and illuminated pointer. All SCX and SCX Pro fuel senders work with 0-80, 240-33, 73-10, 20-150, and 0-30 Ohm senders. SCX Series 5" tachometers feature a slimline case design (only 2" deep).

## In-Dash Speedometers and Tachs

Our In-Dash Speedometers and Tachometers feature our famous high-performance movements and are designed with seamless dashboard mount for the ultimate driver information center. Available in a variety of configurations and sizes.

**Important:** Electric speedometers operate on 500-2000 counts/pulse/mile sending units. Use existing sender if vehicle is originally equipped with an electric speedometer. Use AM5291 to convert from mechanical drive to electric. Tachometers operate on 1/6, 5/8, or 3/4" timing with a contact factory or aftermarket ignitions. Some fuel gauges use the vehicle's stock sending unit. Measure resistance using an ohmmeter with the sending unit fuel tank empty, and full position to determine the correct fuel gauge.

## Full Sweep Electric Gauges

Powered by digital microprocessor-controlled, rugged stepper motor drives and laboratory grade sending units, Full Sweep Electric Gauges combine extreme durability and readability of 270 degree sweep mechanical gauges with the easy installation and safe operation of short sweep electricals. Track tested and race proven, these units use precision senders to keep hazardous fluids out of the driver compartment and perform gauge calibration and sensor diagnostics at power up for extreme accuracy, every time.

## Short Sweep Electric Gauges

Advanced 90 degree air core movements and three wire installation characterize these Short Sweep Electric Gauges. Electric sending units keep hazardous fluids in the engine compartment, sending collected data via an electrical signal to quick reacting, precise air core movements to give you all the information that you need.

DASH COMPONENTS

# Gauge Accessories

## Super Tach II

Super Tac II features internal dial lighting, accurate air coil meters, 250 degree dial sweep, 8000 RPM limit and adjustable red line pointer. Works on 4, 6, or 8 cylinder engines. Functions with breaker point, electronic and most aftermarket ignition systems except magnetos. Includes mounting hardware.

**3-3/8" Super Tach II**  
 ST7903 white dial chrome bezel... 54.99 ea

## Dixco Style Hood Tachometer

These Dixco style 8000 RPM tachometers were installed by builders for super car vehicles such as Yenko, Baldwin Motion, and Big Daddy Garlits. Fits all vehicles. This tachometer works with factory points and GM HEI distributors.

**Note:** Tachometer adapter required for aftermarket ignitions.  
 A9100101 all... 199.99 ea

## Distributorless Tach Adapter

This tach adapter is designed to adapt a standard ignition tachometer, Pro Shift light, or RPM activated module to be used with distributorless ignition systems.

AM9117 tach adapter... 129.99 ea

## Universal Tachometer Filter

Eliminate tach signal noise and surges caused by your ignition system with this compact and easy-to-install tachometer filter. This filter installs between the tachometer and the signal source and modifies the sharp up and down spikes into a semi-square wave signal for steady readings and faster response. This tachometer filter can be used as a direct replacement for 1975-89 GM vehicles. Includes instructions.

**Important:** Recommended for vehicles running an HEI ignition with a tachometer designed for points style ignitions.  
 MG019219 2" x 3/4" x 1"... 39.99 ea

## Tachometer Signal Filter

AutoMeter tachometer signal filter. These filters are designed to correct erratic tach function by filtering out the interference or spiky pulse signals often caused by points or noisy ignition systems.

AM9116... 30.99 ea

## Instrument Panel Dimmer Switch

Enhance your digital dash panel display by adding this light dimmer to adjust the dimming feature built into your instrument system for night time driving. This aluminum knob and bezel works only with the Dakota Digital Instrument Systems and will not dim the Odyssey or Solarix gauges. Stock dimming switches will not work with Dakota Digital Instrument Systems.  
 DD1045... 35.99 ea

## Universal Gear Indicator Sending Unit

Gear shift position sending unit for use with all Dakota Digital Instrument Systems with gear shift position indicators. This unit includes universal mounting hardware to fit Powerglide, TH350, TH400, 2004R, 700R4, 4L60, 4L60E, 4L80 and 4L80E. Easy installation and fully push button adjustable with no magnets to align! The Decoder can be mounted inside the vehicle for easy access and also features built-in neutral safety switch and back-up light circuit.  
 DD1000... 128.99 ea

**New!**

## 1930-08 OBD-II Interface Module

This OBD-II / CAN Interface allows you to plug directly into the engine diagnostic port, extracting engine data from the OBD-II computer (ECU) and porting it to your Dakota Digital gauge cluster. This module will output the following information to Dakota Digital Instrument Systems: speed, tachometer, engine temp, intake air temp (if data is available), transmission temp (if data is available), ambient air temp (if data is available), gear position (if data is available), and oil pressure.

Incandescent replacement bulb T1-3/4 Wedge, 1.3W, for 5" Monster Tach.

AM3218 bulb..... 7.99 ea

AM3219 bulb and socket..... 11.99 ea

## 1967-81 Dash Lamp Socket & Bulb

Dash instrument cluster lamp socket for various GM truck models. Each bayonet style lamp socket is 5/8" diameter and is manufactured to factory specifications.

CX1807 1967-91 1 socket with bulb..... 3.49 ea

A9100305 1967-91 socket only..... 1.99 ea

194 1967-91 bulb only..... 1.99 ea

## Universal Fuel Tank Sending Unit

Universal fuel tank sending units for various GM models that require a 30 or 90 Ohm sender. Designed for use with OE or aftermarket 0-30 or 0-90 Ohm gauges. Includes the sending unit, float rod, gasket, hardware, and instructions. Since fuel tank senders only read resistance-to-ground, this sender will work on all 6-24 Volt systems with positive or negative ground.

*Note: These sending units do NOT have a pickup tube built into it like some original senders do. Will work with most aftermarket fuel tanks from 6" to 24" deep.*

CX5041	0-30 Ohm	39.99 ea
CX5042	0-90 Ohm	39.99 ea

## Fuel Tank Sender

This universal type fuel sender is used with gauges that require 240 Ohm empty and 33 Ohm full and can be adjusted for tanks from 5" to 24" deep. Universal 5 bolt fuel sending unit for use with AutoMeter universal fuel gauges. This unit is not included with the gauge packages and must be purchased separately. Made in USA.

*Important: As this is a universal-fit product, some modification to the tank may be necessary for installation.*

AM3262	fuel sender	54.99 ea
--------	-------------	----------

## Internal Float Fuel Sending Unit

Get reliable fuel gauge readings with this internal float fuel sending unit. This advanced design provides accurate readings without fluctuations due to fuel slosh. Because this internal float design requires no float arm, it is far more resistant to corrosion, even with racing fuels. All sending units mount to the tank with the standard 5 bolt mounting flange and are available in sizes from 4" to 24".

*Important: Sending unit should not touch bottom of tank. When the fuel gauge reads empty, the area below the sending unit is reserve fuel.*

*Note: Sending units are available in lengths from 4" to 24" and are sold in 1" increments. Please add the desired length to the end of the part number, eg 06-6" 11 = 11"*

<b>0-90 Ohm</b>

## Gauge Mount Angle Rings

AutoMeter 2-1/16" and 2-5/8". These quality molded black composite rings angles AutoMeter 2-1/16" and 2-5/8" gauges 15 degrees for easier viewing. Sold in package of three.

*Note: Gauge brackets must be modified to fit.*

AM2234 2-1/16" ..... 18.99 set

AM3244 2-5/8" ..... 23.99 set

## Gauge Pillar and Pod

Full pillar pods and standard gauge pods are the easiest way of adding additional gauges while maintaining a factory look. They easily attach to your existing stock pillar. These pillar pods are available in black ABS and can be painted to match the color of your interior. The full pillars feature mounting holes for triple or dual 2-1/16" gauges. Available in dual 2-1/16", single 2-1/16", or single 2-5/8" configurations.

*Note: Gauges sold separately.*

## 1947-87 USA-630 AM/FM Stereo

Custom Autosound's USA-630 is designed to provide the best in audio technology wrapped in a classic car stereo look. It will fit your vehicle's stock dash without any modifications required. Modern features like a USB input for flash drives to playback MP3/WMA song files and a dock for your iPod. When connected to these devices the radio's digital display will show artist, song, album titles and allow song navigation through the radio itself. The USA-630 is compatible with our optional BLUKIT which enables bluetooth music streaming from your enabled phone as well as handsfree mobile calling through the vehicle's speakers and BLUKIT's built-in microphone. With 300 watts peak the radio provides plenty of power but additionally contains four RCA pre-outs for optional amplifiers. It also comes with Auxiliary inputs for satellite radio tuners, iPhones or any portable player you may wish to use.

**Important:** For BLUKIT see part #A910300.

**Note:** \*Add suffix letter code to part number when ordering: B - Chevy Bow Tie Logo or G - GMC Logo.

## 1947-86 USA-230 AM/FM Stereo

Custom Autosound's USA-230 is an excellent choice for classic truck enthusiasts looking for a more affordable radio without sacrificing quality electronics and a classic stereo look. It has been designed to fit in the stock dash without any modifications required. The USA-230 has the same appearance as all of the features offered in our USA-630 model simply without USB port, iPod dock and CD changer control. The USA-230 does provide an auxiliary input which can connect to iPods, iPhones, satellite radio tuners or any other device with a headphone jack. It also boasts 4 Channel RCA pre-outs and a digital display with electronic tuner, 16 station pre-sets and a 4 way fader. With 200 watts peak, (4 x 50).

## USA4 - DIN Radio/CD Player

Custom Autosound's USA4-DIN radio is a great choice for any classic car or truck with a "DIN" radio opening (approximately 7.2" x 2.11"). This includes most foreign and domestic vehicles from 1984 onward. Also fits perfectly in classic cars, trucks, and street rods with dashes cut for DIN radios. The USA4-DIN has a full featured digital display that flips down to reveal a CD player underneath. Features a built-in USB 2.0 input and auxiliary input behind small closed doors in the front panel. With built in Bluetooth you have several ways to listen to your favorite music. With the RDS tuner you will see the artist's name and the title of the music playing. Features 160 (4 x 40) watts of power, and one pair of RCA pre-outs for rear amplifier.

------	----------------	-------	----

## Radio Off Delay

With this new device, you can listen to your radio after you remove the key from the ignition, just like many modern luxury cars! After removing their key, this unit will keep the radio power active for 15 minutes or until a door is opened. This allows you to continue listening to the radio without leaving the electric fan or other accessories running. And you're not limited to just the radio; it could be wired to control all accessory power so you still have control of the power windows after the key is off.

## SiriusXM Radio Tuner Set

The SiriusXM radio tuner set connects directly to any of the RetroSound satellite ready radios to provide the signal required. No need for special adapters or cables. The compact size installs easily and discreetly behind the dash for a fully integrated look.

XM300 SiriusXM ..... 59.99 set

## Play Portable MP3's or CD's on Your Factory Radio!

You now have the freedom to listen to your favorite music using a modern MP3 player, iPod or CD player in your classic with the RediRad adapter, the only portable music adapter specially designed for older vehicles. The music is seamlessly routed from any portable music player such as a cassette, CD or MP3 player, even satellite radio into your stock AM or AM/FM radio without any vehicle modifications. Designed for simple and out-of-sight installation, it uses a standard audio plug on a six foot cable to connect to your portable player. When music is detected at the audio plug, the RediRad automatically switches from the radio broadcast to your personal player. The radio will return to normal operation after switching off your personal player. Made in USA.

14923 RediRad adapter ..... 128.99 ea

## Bluetooth® Receiver Adapter

Now you can wirelessly stream audio and take handsfree calls from the road in your Classic Impala! Simply plug this into your cigarette lighter, connect the cable to your radio's 3.5mm input jack, and pair your Bluetooth® enabled phone or other device...that's it! You'll be ready to wirelessly stream music from your device to your audio system. Calls and music are routed through your car's speakers for excellent sound quality. Includes Bluetooth adapter and 18" extension cable.

AR9901 Bluetooth® adapter ..... 42.99 ea

## Bluetooth Interface

Wireless interface for custom autostand CD controller radios (USA-630, Secretaudio (SST & SRMS), USA-66). This adapter plugs into the CD changer port of your custom autostand radio and gives you the ability to do handsfree calling from your Bluetooth® capable phone. Also listen to music stored on your A2DP enabled bluetooth device.

A910300 ..... 109.99 ea

## 6 to 12 Volt Converter

Now you can operate a 12 Volt radio in your classic 1947-54 six Volt truck model. High current 10 amp model. TK1210C 10 amp negative ground .... 69.99 ea

## 1947-55 Universal Voltage Drop

Designed to take a 12 Volt input and provide an output of two 6 Volt/6 amp accessory terminals for use with heaters, fog lights, and small motors that draw between 5-6 amps. CX2042 1947-55™ ..... 41.99 ea

## Boom Mat Speaker Baffles

Solve the problem of rattles and vibrations caused by speakers and protect the back of speakers from damage. Boom Mat speaker baffles maximize speaker performance by isolating the frequency responses while damping reverberation. Also forms a water tight protective shell to prevent moisture intrusion. Made from a closed cell polyethylene to enhance frequency response for improved sound clarity. Easy conformably in tight spaces for a professional installation.

NEW

## Remote Mount Power Antenna

The motor is mounted remotely from the mast assembly, enabling a wide variety of installations where space is limited. It features a 31" five section mast. Includes antenna cable. Operation is fully automatic; mast extends when radio is turned on and retracts when radio is switched off.

*Note: This is not a factory replacement antenna, and may require some modification.*

- PA02 chrome..... 94.99 ea

**AUTORIZED**

## The Smart Antenna

This antenna is an active magnetic type antenna, working on the magnetic field associated with a conductor excited by a radio wave. The product is totally self-contained using printed circuit technology and miniaturized components, coupled with high-quality manufacturing methods. You don't need an external rod, no drilling to install, no removal prior to car wash. Concealed mounting prevents theft, and it also includes a lifetime warranty! Antenna cable measures 9 feet long. Fits all years!

- SA20..... 19.99 ea

NEW!

## Hidden Antenna

The RetroSound amplified AM/FM hide away antenna is a great solution for anyone who doesn't want to install a standard fender mount antenna. This hidden antenna installs in seconds using a standard antenna plug and your radio's power antenna wire. This antenna uses magnetic field circuitry for enhanced radio reception. It can be installed almost anywhere thanks to the supplied 105 inch antenna lead and power wire.

- RA010 hidden antenna..... 29.99 ea

## 1955-72 Antenna Gasket

This is the correct gasket which mounts between the fender and the antenna bezel. Manufactured from molded EPDM rubber as original.

## The "Hot-Dot" All-In-One Ignition Switch

Convert your separate ignition switch and start button into one convenient unit with the "Hot-Dot" all-in-one ignition starter switch. Chrome recessed switch is 3/4" diameter with a colored LED ring to indicate when the ignition is "On". Push and hold the button while the starter turns over and release when the engine starts. The ignition stays "On". Push again to stop the engine. Includes installation instructions and is available with your choice of blue, green, or red LED ring. Switches also available separately. Can be used for positive or ground switching, rated 1 amp maximum load.

# Steering Column Components

## 1947-59 Tilt Steering Column

These tilt steering columns include levers and knobs and are wired for self-canceling turn signals, 4 way flashers, and horn. Compatible with 1969 and newer GM steering wheels. Most aftermarket steering wheels attach with an adapter. 1947-59 tilt columns include new under dash and floor mounting brackets. Column shift units include a neutral safety switch. An optional cable shift control set that attaches to the lower shift arm on the column is available for automatic applications.

**Important:** Column shift units do not include a gear selector indicator. Column shift pattern allows the use of a 3 or 4-speed automatic transmission. Not for use with pre-1969 factory steering wheels. 1955-59 models with turn signals require an adapter. New U-joint/coupler, steering shaft, rag joint, and harness adapter are recommended.

## 1960-78 Tilt Steering Column

These tilt steering columns include levers and knobs and are wired for self-canceling turn signals, 4 way flashers, and horn. Compatible with 1969 and newer GM steering wheels. Most aftermarket steering wheels attach with an adapter. For 1960-72 columns, the original mounts and hardware must be reused. Column shift units include a neutral safety switch. An optional cable shift control set that attaches to the lower shift arm on the column is available for automatic transmission applications.

**Important:** Column shift units do not include a gear selector indicator. Column shift pattern allows the use of a 3 or 4-speed automatic transmission. Not for use with pre-1969 factory steering wheels. New U-joint/coupler, steering shaft, rag joint, and harness adapter are recommended.

## 1967-72 Tilt Steering Column

CPP's new premium steering columns are designed from the ground up, and feature all new 5 way tilt mechanisms with tight tolerances that give that high-quality performance drivers want. Likewise, the shift handle and collar have positive shift points with no excess play. These premium steering columns also feature new turn signal and neutral safety switches that are top notch and designed to enhance your steering experience. Columns feature 3/4"-36 output shafts. Includes: column assembly, levers, column to dash seal, column to floor seal and wiring harness adapter.

**Note:** Our 1-1/2" shorter columns work great with our new 15" diameter stock appearance steering wheels.

## 1960-72 Steering Column Install Set

These sets include items needed to install your ideal steering column from the column to the gearbox. All you need to know is the diameter of the gearbox input shaft and the number of the splines. The sets for factory harness equipped vehicles will include the adapter harness to convert to a later model GM or ideal steering column to the factory wiring. The sets for aftermarket wiring harness do not include the adapter harness as it will not be necessary for installation.

**Important:** All these sets include a new U-joint/coupler, rag joint and steering shaft. When using your original wiring harness, an adapter harness with 4 way flasher is included.

# Steering Column Components

## 1947-87 Tilt Steering Column

These tilt steering columns feature all-new components including a 1 piece cast upper housing design. These tilt steering columns are designed to bolt into the place of the original column. Each Flaming River tilt column comes complete with turn signals, hazards and a horn. The shift lever with shift indicator are included on column shift applications. Manufactured using 304 grade stainless steel either in paintable milled finish or polished or black powder coated as listed.

**Important:** 1960-66 power steering models - early power uses 13/16"-36 spline, late power uses 3/4"-30 spline.  
**Note:** \*Shift indicator not included.

## Tilt Column Steering Wheel Adapter

These ididit steering wheel adapters allow you to bolt most aftermarket wheels to your new tilt column. They feature close tolerances and virtually no gap between the adapter and column. Available in 3, 5, 6, and 9 bolt configurations.

**Important:** The 9 bolt short adapter moves the steering wheel 2" closer to the dash and away from your body for more clearance.

## 1960-07 Steering Shaft

Direct replacement heavy-duty steering shaft assemblies for 1960-07 full size trucks are a huge improvement over stock shafts. They consist of a telescoping shaft, needle bearing U-joint and a rag joint. These heavy-duty assemblies will fix that loose and wandering steering for good! Extreme duty shafts feature a two joint design that eliminates the factory rag joint. These are designed for extra heavy-duty, off-roading or for trucks with body lifts.

## Universal Cruise Control Unit

Universal cruise control units available for both computerized and non-computerized engines. For computerized engines, this Rostra unit gathers information from your vehicle's computer, so no external sensors are required. Adjustable for 2000, 4000, or 8000 pulses per mile. For non-computer engines, this unit uses solid state electronics for accuracy and reliability. Units include pulse generator and either a black column mounted handle or black dash mounted control.

## 1967-72 Simulated Wood Steering Wheel Kit

This walnut steering wheel kit is a popular custom add-on that is sure to add nostalgia and style to any custom 1967-72 Chevrolet truck build. The simulated walnut plastic grip steering wheel was available by ordering the optional N34 package on various 1967-68 Chevrolet car models. Even though the N34 option was not originally available for Chevrolet truck models, it looks right at home and like a factory original steering wheel when installed. Each kit includes: a 16" diameter walnut steering wheel, center mounting hub, horn cap with Bow Tie emblem, and hardware set.

## GT Rally

## Signature Series Steering Wheel

The Grant GT Rally steering wheel is patterned after the popular "Rally Car" look, with a solid 3-spoke design. The molded cushion grip is contoured to the shape of the hand with a leather grain finish for added comfort and control. This steering wheel features silver anodized aluminum alloy spokes and includes a black matte rubber sleeve. It measures 13" in diameter and is 3" deep with the adapter. Includes mounting kit. Will work with or without tilt column.

*Important:* For models without driver air bag. Will work with or without tilt column.

## Generation 2.0 Quick Release System

These 2.0 Quick Release units feature many options that conventional ball-lock Quick Release systems do not offer, such as specially designed raised sections to prevent hub stretches and a self-locking mechanism. These units are manufactured from highest quality aircraft aluminum with style and function that are designed to last.

**Note:** Must use in conjunction with the short hub adapter.

### 5 Bolt - 2.0 Quick Release

Compatible with all 5 bolt Grant steering wheels, and others with 5 x 70mm bolt pattern.

152784BK

## Generation 2.8 Quick Release System

The Gen 2.8 Quick Release provides all the benefits of the 2.0 Generation Systems ball-locking quick release system with the added benefit of an upgraded Diamond Cut flared ring. This provides leverage and grip for the pull ring allowing much easier release of the steering wheel. Perfect for race applications where gloves are required. Choose from a selection of colors.

**Note:** Must use in conjunction with the short hub adapter.

### 6 Bolt - 2.8 Quick Release

Compatible with all 6 bolt steering wheels with 6 x 70mm or 6 x 74mm bolt patterns.

152784BK	black.....	144.99 ea
152784GM	gunmetal.....	144.99 ea
152784GL	silver.....	144.99 ea

## Short Hub Adapter

This short hub unit was designed to mount an aftermarket steering wheel/quick release combination close to the original orientation. Manufactured from the highest quality aluminum using a solid, 1 piece design for maximum strength and durability.

**Note:** Must use with one of our Quick Release or tilt systems.

152780	black.....	125.99 ea
--------	------------	-----------

152779B

152779G

## 1/2" Steering Wheel Spacer

Bring your steering wheel closer with this 1/2" spacer. Manufactured from CNC-machined aluminum with counter sunk mounting holes to the hub and a universal 6 bolt mounting pattern.

## 1960-72 Billet Aluminum Pedal Assembly

Direct replacement billet aluminum pedal assemblies for 1960-72 GM truck models. Each throttle assembly has been designed to eliminate the factory rod linkage and mount into the stock location utilizing a modern Lokar throttle cable system. The arms are spined and can be switched for right or left adjustment. The traditional flat style throttle pad is spring loaded and measures 2" x 5". Lokar's curved brake, clutch and parking brake pedal pads add style and function to your classic car. Designed with hidden screws, these pads are curved to match and bolt directly to the factory steel pedal. Available in a brushed or black finish with rubber inserts on the pad. Made in USA.

*Note: Short pad - 4" (top of pad) 3-1/16" (bottom of pad) x 3-1/8" high. Long pad - 5-7/8" (top of pad) 5-1/8" (bottom of pad) x 3-1/8" high.*

## Under Dash Park Brake Pedal Assembly

This foot operated park brake assembly gives you ease of operation along with a clean, out of the way appearance. Available in 2 styles and 3 different finishes, these pedal assemblies feature dash to firewall adjustability, adaptable mounting location capability, and hidden, heat treated gears and mechanisms for an uncluttered finish. They also include a rubber stop for quiet pedal return, as well as complete hardware and instructions. Connector cables sold separately.
