## 1947-66 Chevrolet Truck Radiator

OER® Authorized radiators for 1947-66 Chevrolet truck, panel, and Suburban are manufactured from durable copper and brass materials and are based on the original GM style core with 1/2" tubes on 9/16" centers. All radiators feature factory style stamped tanks in the original configuration. If you want an original appearance and OE equivalent durability, then this is the radiator for you. Each radiator mounts using original style mounting brackets or top retainer brackets as applicable. These radiators are produced in 3 and 4 row configurations. Dimensions listed are for the radiator core only.

**Important:** To ensure that the proper radiator is selected, only measure the core of the radiator.  
**Note:** Shipped oversize.

**1947-72 High Efficiency Aluminum Radiator**

Reduce the heat in your engine by installing one of these high efficiency Desert Cooler aluminum radiators. These are non-polished aluminum radiators that offer up to 15% better cooling over common brass/copper radiators. These bolt-in, direct fit radiators feature an efficient 2 row design of large, 1" wide cooling tubes for increased water flow.

**Important:** Core sizes on aluminum radiators may differ from cores on original copper/brass radiators, but will bolt-in just like original.

**Note:** Shipped oversize.

## 1947-12 Performance Aluminum Radiator

Improve the cooling capacity of your engine with Cold-Case performance radiators for 1947-12 Chevrolet/GMC truck models. Feature an all aluminum construction that is good at dissipating heat and saving energy, with 2 oversized 1-1/4" cooling rows, and polished stamped OE style tanks. All Cold-Case radiators are 100% TIG welded, pressure tested, and feature 16 fins per inch, corrugated fins that give more surface area and more thermal transfer. All radiators include OE style fittings for automatic applications. All radiators manufactured by Cold-Case are guaranteed to be free from material and workmanship defects for the life of your installation.

Note: Shipped oversize.

## 1955-87 Performance Aluminum Cooling System

Be Cool radiators are designed to provide the added cooling capacity required by high horsepower engines. These all-aluminum radiators can be up to 40% lighter than traditional copper/brass radiators and feature high-quality aluminum welds to enhance the appearance of your vehicle. Includes: aluminum radiator, radiator cap, electric fan(s), vented coolant recovery tank, aluminum fan mounting brackets, electric fan wiring harness, and installation hardware. Dimensions listed below are core size.

Important: Module sets with radiator cores 22" or smaller will include a single fan, sets with radiator cores 24" or larger will include a dual fan.

Note: \*Some modification necessary to upper/lower hoses and transmission lines for cross flow conversion radiator upgrade. Shipped double oversize.

- Northern Direct-Fit Aluminum Radiators
- All welded aluminum construction
- 2 rows of high capacity cooling tubes
- Machined billet filler neck for better pressure control
- Lightweight aluminum construction features a significant weight savings over traditional copper brass radiators

## 1955-83 Performance Aluminum Radiator

Upgrade your cooling system with a high-performance bolt-in aluminum radiator from Northern! Manufactured with race proven technology, these radiators feature a 2 row, 1" core tube design for maximum cooling efficiency. Northern fan and shroud assemblies are also available for a matched cooling system.

**Important:** Dimensions listed include the radiator, tanks, and brackets.

**Note:** Shipped oversize.

## 1947-87 Polished Aluminum Radiator

These polished high-performance radiators are manufactured from TIG welded aircraft grade aluminum with brazed aluminum cores and billet filler necks. Each radiator offers high capacity cooling with lowered fins and 3/8" spacing between core tubes. Designed for direct fit installation. Radiator cap is included.

**Important:** All radiators have built-in automatic transmission coolers and can be used in both automatic and manual transmission applications. Core size dimensions listed below.

**Note:** \* Does not have transmission cooler. Shipped oversize.

# Radiators and Components

ALL AFCO radiators offer a furnace brazed sealed core without the use of epoxy, and are all 100% tested before shipping.

AR80243N1

## 1967-87 Performance Aluminum Radiator

Constructed of 100% polished aluminum, using no epoxy for trouble-free service. This radiator fits in the factory mounting location and features TIG welded, laser cut tanks and high-performance, dual 1" core tubes. The factory fan shroud can be reused without modifications while the inlet and outlet are in the stock locations so the factory style radiator hoses can be used. Available with a built in transmission cooler with the correct dimensions to use the factory transmission lines. For use with both small block and big block engines.

**Note:** Shipped oversize.

## 1947-86 Performance Aluminum Radiator

Mishimoto performance radiators for 1947-86 models are made with 100% aluminum construction which provides greater heat and pressure tolerance, better heat dissipation, increased durability, improved cooling efficiency, and improved structural rigidity. All radiators feature a 3 row brazed aluminum core with an internal transmission cooler to provide optimal fluid temperatures for automatic transmissions. Each radiator includes a Mishimoto radiator cap, magnetic drain plug, and is backed by a manufacturer's lifetime warranty.

**Important:** Radiators will work with automatic or manual transmission vehicles.

## Economy Replacement Aluminum Radiator

Don't be fooled by the price of these radiators. These quality lightweight aluminum radiators stand up to the demands of everyday driving with excellent cooling properties. These replacement radiators vary in appearance from the originals, but fit in the factory mounting locations and work with original fan shrouds. All radiators feature an automatic transmission cooler, but can be used in manual transmission vehicles.

**Important:** The core is slightly smaller than the original, this will not lessen cooling capabilities. Measure your core. Hose adapters are included.

**Note:** \*With raised filler neck. Shipped oversize.

A9600249	black	80.99 set

## Finned Aluminum Overflow Tank

Upgrade your plastic overflow tank with Mishimoto's universal 1 quart coolant overflow tank. Tank is constructed from durable 3mm thick aluminum, featuring stunning precision TIG welds. In addition, this overflow tank includes a sight tube, which provides an accurate look at your fluid level. This sight tube is removable and can be installed on either end of the tank, which is helpful when installing in a cramped engine compartment.

# Fan Shrouds

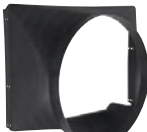

## 1947-55 Custom Fan Shroud Panel

Having a fan shroud on your GM truck with air conditioning will enhance cooling system performance and help eliminate overheating. This fan shroud assembly is designed to substantially lower engine temperatures and lower air conditioning head pressures. This will also improve your AC system's efficiency at the same time. Measures: 19-3/4" x 19" x 2" thick.

Note: Must cutout the fan hole.

## Stainless Steel Flex Fan

Flex-a-lite fan blades are designed to flex or flatten out as the RPM's climb, helping to reduce engine drag for better performance and improved fuel economy. Fan features a premium, high tech silver coating. Available in standard or reverse rotation along with 4 different diameters and 6 or 7 blades.

**Important:** Must be used with a Flex-a-lite spacer or warranty will be voided. Fans feature 5/8" pilot hole.

## 1963-86 Fan/Shroud Assembly

Keep your 1963-86 truck cool with the Mishimoto performance fan shroud assembly! This unique electric fan shroud setup completely eliminates the stock, failure prone mechanical fan. The shroud mounts exclusively to Mishimoto's performance radiators and includes a single 16" or dual 14" high-flow electric fans that produce over 1300 cfm of airflow.

**Important:** Will only work with Mishimoto radiators.

## Black Magic S-Blade

This universal fit Flex-a-lite electric fan features computer engineered blades that are extremely quiet and efficient, and moves 3000 cfm of air to provide consistent cooling, regardless of engine RPM. This electric fan fits vehicles with 16" or wider radiator cores, and requires a mounting surface of 18" x 16" x 4-1/4" for an easy, bolt-in installation. Universal mounting brackets and wiring are included.

FL160	.....	319.99 ea
-------	-------	-----------

## Low Profile Electric Fan Assembly

This complete electric fan kit includes all the components for installation. Provides for better cooling and gas mileage without robbing horsepower. Dual electric S-blade fan system moves 2500 cfm of airflow. Shroud measures: 26-1/4" x 15-1/2". Made in USA.

## Syclone Electric Fan

The Flex-a-lite Syclone electric fan is the most efficient S-Blade fan blade on the market! This quiet fan mounts to the core and can be used to push or pull air through the radiator. The higher torque (17 amp) motor produces 2500 cfm of air flow, making these fans strong enough to replace your belt driven fan and fan clutch to gain more horsepower and torque. The sweep style blades squeeze out the maximum air flow possible.

Feature a waterproof 40 amp relay, stainless steel switch with optional switched override capability along with printed wires which aid in installation. Thermo switch, fuse holder, connectors 1/2" adapter, and instructions are included.

SP2068 185 degrees harness..... 118.99 set  
SP2069 195 degrees harness..... 125.99 set

## Cooling Fan Shutdown

This cooling fan shutdown set shuts down your electric cooling fan above 50-60 MPH to improve engine cooling by preventing the electric fan from fighting airflow through the radiator at highway speeds. The unit is adjustable and may be overridden by using the supplied dash mounted toggle switch. This set is designed to be used with the supplied signal generator which must be installed into the speedometer cable.

TF900627 ..... 214.99 set

## "Ice Box" Cooling Fan Control

Available as a single fan control or dual fan/2-speed fan control unit. The sensor is simply tightened on an intake or water pump bolt. It can then be adjusted to your exact preference for on and off temperature. It is equipped with an AC request system to turn the cooling fan on whenever the AC compressor engages (this feature does not have to be used). The dual fan control can operate 2 fans at different temperatures or a single 2-speed fan at different temperatures. Features exclusive lug sensor that mounts under almost any engine bolt. Each unit has a fully adjustable operating range of 140-230 degrees.

Note: With Walker 2-speed fans.

TF900635 dual control..... 172.99 ea

## Delayed Cooling System Shutdown

Timed cooling system shutdown features adjustable relays that keep power to the cooling fan and electric water pump (if equipped) when the keys is shut off. This reduces the block temperature as much as possible without the risk of killing the battery. This is a timed circuit and does not use a thermostat or other fan control to operate.

TF900632 ..... 172.99 ea

# Fan Controllers/Temp Senders

## Electric Fan Controller

Includes a 70 amp relay and will work with your existing water temperature gauge, operating from the temperature sending unit already installed. A dedicated sending unit can be installed for applications without a water temperature gauge. Operating range of 150-250 degrees F and features fully programmable "fan on" and "fan off" temperature functions to suit any application. This also gives you the capability to leave the electric fan operating after the engine has been shut down for a user adjustable period of time. High-quality LED readout displays current temperature readings.

## 1980-11 Coolant Temperature Sensor

The coolant temperature sensor sends a signal to the electronic control unit relative to the coolant temperature in a computerized engine control system. Located under the hood, mounted to the front driver side of the intake manifold. Triggers many engine functions. Faulty sensors can cause a variety of cold performance problems as well as emissions failures. Symptoms of a bad sensor may include poor cold idle, stalling, cold hesitation or stumble, or poor fuel mileage.

 AM2283 1-1/2" aluminum ..... 72.99 set

## Water Pump/Intake Hose Fittings

Reproduction heater hose fittings which screw into water pump and intake manifold. These fitting sets are 1/2" pipe thread, used on GM vehicles from 1957-91.

Note: 1/2" pipe thread fits 3/4" diameter hole 1957-91.  
 1/2" NPT, for One 5/8" and One 3/4" I.D. Hose  
 K0149A small block ..... 19.99 pr

## Water Pump/Intake Hose Fittings

Reproduction heater hose fittings which screw into water pump and intake manifold. These fitting sets are 1/2" pipe thread, used on GM vehicles from 1957-91.

Note: 1/2" pipe thread fits 3/4" diameter hole 1957-91.  
 1/2" NPT, for One 5/8" and One 3/4" I.D. Hose  
 K0150 big block ..... 19.99 pr

## Water Pump Bypass Hose Fitting

Reproduction slotted nipple heater hose fitting for 1958-81 truck models. This replacement fitting can be threaded into the water pump or intake manifold to provide heater hose or bypass hose attachment points. Measures: 1/2" NPT- 3/4" i.d. x 1-5/8" L.

1/2" NPT for 5/8" I.D. Hose  
 K0151 1958-81 slotted style ..... 19.99 pr

## Water Pump Bypass Hose Fitting

Correct reproduction bypass pipe fitting, steel press-in type. Use with 3/4" hose.

Note: 1/2" pipe thread fits 3/4" diameter hole 1957-91.  
 1/2" NPT for 5/8" I.D. Hose  
 392195 1965-69 press fit ..... 9.99 ea

## GM Heater Hose Fitting

Genuine GM service replacement fitting which screws into water pump. This fitting is for attaching heater hose to the water pump. 1-3/4" long x 5/8" id fitting.

1/2" NPT for 5/8" I.D. Hose  
 G9746 1-3/4" long ..... 14.99 ea

## "Liquid Chill" Engine Coolant and Additive

Mishimoto's Liquid Chill is a universal, synthetic coolant that will provide premium cooling and protection for your vehicle. One gallon jugs are available in full strength or 50/50 blend. For up to 30 degrees F cooler over just coolant alone, the universal Liquid Chill additive is available in 4 oz. bottles.

MM13065 full strength coolant ..... 75.99 ea  
 MM13066 50/50 mix coolant ..... 48.99 ea  
 MM13067 additive ..... 18.99 ea

## J-B Weld Cold Weld

J-B Weld is a great alternative to welding, soldering and brazing. This two part system is mixed 1:1, it forms a permanent bond and can be shaped, tapped, filed, sanded, painted and drilled after curing. Cold weld will bond to most clean and dry surfaces and sets in 1-2 hours and will fully cure in 16-24 hours. Waterproof, petroleum, chemical, and acid resistant when fully cured. Non-toxic and temperature resistant up to 600 degrees F. Made in USA.

JB8265 two 1 oz. tubes ..... 9.99 ea  
 JB8280 two 5 oz. tubes ..... 15.99 ea

## Purple Ice Super Coolant

Purple Ice is a high-performance, synthetic, radiator coolant additive. It reduces engine heat by reducing the surface tension of the radiator fluids for improved heat transfer. It also lubricates the water pump seals. Purple Ice should always be used in conjunction with anti-freeze in regions where freezing temperatures occur. Purple Ice is recommended for any water/glycol pressurized cooling system.

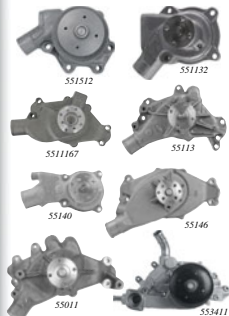

16 oz. Bottle  
 RP01600 ..... 10.99 ea  
 Case of 12 - 16 oz. Bottles  
 RP12600 ..... 131.99 ea

## Coolant System Protector

Joe Gibbs Driven Coolant System Protector removes impurities in well water that can cause rust and corrosion inside the radiator, water pump, and cylinder heads. Over time, this can lead to a loss of cooling efficiency. Joe Gibbs Driven Coolant System Protector stops the adverse effect of hard water to help prevent cooling system damage. Offers protection for both cast iron and aluminum components.

12 oz. Bottle  
 JG1330 ..... 11.99 ea

# Water Pumps

## 1947-02 New OE Style Water Pump

These 100% new water pumps actually perform better and last longer than conventional new water pumps because they're engineered with insight. Developed with advanced 3D modeling and design software tools to deliver dimensional precision. Unitized seals produced with superior materials. Bearing type and materials meet or exceed original specifications.

## Electro

## Aluminum High Flow Water Pump

These "super cooling" pumps are computer designed to deliver more flow at a higher velocity. They're the ideal choice to prevent overheating in any performance vehicle. Precision cast powdered metal impellers have extra large vanes for the maximum flow rate possible, ensuring adequate pressure and volume even at lower engine speeds. They feature a 5/8" pilot shaft.

# High Flow Water Pumps

## Cast Iron High Flow Water Pump

These high-performance, high volume water pumps feature balanced distribution and improved efficiency, close tolerance impellers that increase coolant flow up to 30%. This increases the pressure within the block to help prevent hot spots and steam pockets, as well as improves coolant flow through the radiator. Use in conjunction with a non-restrictive, high flow thermostat to enable the pump to work to its highest capability.

## Electric Water Pump Relay

These relays provide maximum battery voltage to maximize cooling efficiency and to protect the main electrical system from damaging amperage overloads. Chose from a regular water pump relay or a weatherproof water pump relay which is perfect for the harsh weather conditions, this relay set provides complete protection from the elements and ensure reliable and dependable performance. These sets utilize heavy-duty waterproof relays, weatherproof circuit breaker covers and extreme condition weatherproof shrinkable crimp-on terminals.

## Water Pump Pulley Warning

Stock replacement, aftermarket stamped steel or cast iron pulleys are not designed to exceed 400 horsepower or 6000 RPM. Using reproduction pulleys on engines in excess of these limits may result in catastrophic disintegration of the pulley causing severe damage to the engine, cooling system and body parts. Classic Industries' assumes no liability for damages caused by improper usage of pulleys.

# Fan Belts/Belt Tensioners

## V-Belt Style Fan Belt

Classic Industries® offers a wide variety of new fan belts designed to replace your original. Make sure your belts are in top condition before starting off on your next road trip. Belts can be inexpensive, yet are an often overlooked component of a daily driver. Replace your weathered belts before you get left stranded due to overheating, dead battery, etc. Better yet, buy a new set to install and keep a spare set just in case you should have a broken belt while on the road with your classic vehicle.

## Serpentine Style Fan Belt

Make sure your belts are in top condition before starting off on your next road trip. Belts can be inexpensive, yet are an often overlooked component of a daily driver. Replace your weathered belts before you get left stranded due to overheating, dead battery, etc. Better yet, buy a new set to install and keep a spare set just in case you should have a broken belt while on the road with your classic vehicle.

6009C	90 degree	SB and BB	37.99 ea

# Thermostats

**MOBRO**

## Water Outlet Restrictors

If coolant travels too fast, it doesn't absorb enough heat inside the engine or properly cool down as it passes through the radiator. That's why it is still important to restrict coolant flow in applications where a thermostat isn't desired. These restrictors come in a set of 3 with a 5/8", 3/4", and 1" hole to allow adjustment for optimum cooling. Each 2-1/8" plate is made from anodized aluminum and fits under the water outlet in place of the thermostat.

263440 restrictor plate set ..... 16.99 set

## 1955-87 Water Neck O-Ring

Avoid water leaks which can compromise your cooling system.

Reseal your water neck with this replacement "O" ring. For use on various GM models.

## 1967-72 Inner Heater Box without AC

Reproduction inner (under dash) heater box assembly for 1967-72 Chevrolet, GMC truck and SUV models without factory AC. Stamped steel to the correct factory original GM configuration for a proper fit and authentic appearance.

T71056 1967-72 without AC..... 369.99 ea

## 1967-72 Outer Heater Box

Reproduction outer heater box for 1967-72 pickup models without air conditioning. Installs in the engine compartment against the firewall. Manufactured to OE specifications for an original fit.

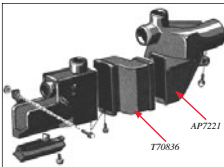

17183 1967-72 without AC..... 185.99 ea

## 1967-90 AC Delete Cover

This item allows you to remove your existing air conditioning evaporator unit while maintaining the heater functions. This AC delete cover is manufactured from molded fiberglass with a black gel coat and is designed to mount to the firewall where the stock AC evaporator core and case are normally located. This cover will allow more space for large valve covers and headers as well as big block engines while keeping the heater unit intact.

**AC, HEATER & COOLING SYSTEM**

# Air Conditioning Systems

## Hurricane Air Conditioning Retrofit Systems

Old Air Products' AC systems are manufactured for R-134a or R-12 refrigerant as desired. It will be necessary to specify your preference when ordering. Vehicles that have an electric radiator fan but no condenser fan must have the electric radiator fan wired with a pressure switch or compressor clutch relay to engage the fan when the AC system is activated (AC head pressure will increase much faster than coolant temperature, which can cause damage to your AC system). Complete AC systems include: custom evaporator/heater/blower unit with mounting bracket, duct hose, vents, glove box (when necessary), integrated switches, wiring harness, control cables, heater valves, AC compressor, compressor mounting brackets, high/low pressure safety switch, AC hose kit, receiver/dryer, custom condenser tubes, condenser, necessary hardware, and complete illustrated instructions.

**Important:** Systems do NOT include additional pulleys, belts, or refrigerant necessary.  
**Note:** Special order; must be prepaid.

## 1947-55<sup>1st</sup> Hurricane AC System with Under-Dash Controls

Uses original firewall mounting and pass through holes. Retains factory cowl vent, handle, and majority of glove box. Available in five different switching configurations.

**Note:** Shipped double oversize.

# Air Conditioning Components

## 1962-86 Aluminum AC Compressor

This is a 10 cylinder "bolt-in" direct replacement for the GM Fridgidaire/Harrison A-6 compressor. This new design is specifically engineered to fit the A-6 mounting brackets and AC hose assemblies. This highly efficient compressor offers a smoother, quieter operation, creating less vibration and engine drag, increased fuel mileage, improved engine and cooling system performance. The aluminum body is 52% lighter than the original A-6 and displaces 210cc. Designed to accept both superheat and high pressure safety switches. Includes a single groove clutch and oil; compatible for R12 or R134A. Fits 1962 and later models with the A-6 compressor. Hardware and instructions included.

## Sanden AC Compressor Manifold

Custom AC compressor manifold for March Performance Pulley sets with 7176 compressors. It reroutes the compressor lines downward where they are less visible and less vulnerable to exhaust heat. Manifolds are available polished, chrome, or black.

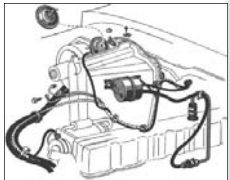

MP4181	polished.....	169.99 ea
MP4182	chrome.....	149.99 ea
MP4183	black.....	132.99 ea

## 1967-72 Compressor Control Switch

When your AC system is not functioning properly, the problem could be any one of many different components. The compressor button switch is one of these critical components. We now offer quality reproductions to replace your broken or missing original.

AP0517	1964-66	on evaporator case	38.99 ea
AP0534	1967-72	behind glove box...	44.99 ea

## 1967-72 AC Vacuum Tank

This vacuum reservoir accumulates pressure from the intake manifold for the vacuum AC and heater selection switch. Replace your old cracked vacuum ball and restore proper function to your AC system with this high-quality vacuum canister.

# Air Conditioning Components

## 1967-72 Evaporator Set

Vintage Air SureFit air conditioning evaporator set for 1967-72 Chevrolet and GMC pickup trucks with factory AC. Evaporator set includes all the interior components including mounting brackets, duct hoses, wiring harness, cable converters or new dash control panel, louvers (when required), and hardware. They exclude the under hood equipment such as the compressor, condenser, refrigerant lines, and dryer. These systems are great for vehicles already equipped with crate engines or previously installed AC components.

754170 1967-72 with AC..... 1099.99 set

## 1967-72 Evaporator Conversion Set

Convert your old style, bulky receiver/dryer, expansion valve, POA valve system to a more compact and efficient accumulator, orifice tube system as found on most later model GM vehicles. Includes: a new evaporator coil, accumulator, pressure cycling switch, o-rings, liquid line, receiver/dryer delete tube, wiring harness, orifice tube, and detailed instructions.

AP7228 1967-72..... 427.99 set

## 1964-72 Evaporator Core

You can replace your leaking or corroded evaporator core with a quality reproduction. They are available for 1964-72 GM truck models.

AP6600 1964-66..... 254.99 ea  
AP6204 1967-72..... 289.99 ea

## 1964-66 Evaporator Thermostatic Switch

Quality reproduction switch which is used to sense the evaporator temperature and regulate the expansion valve.

AP0355 1964-66..... 42.99 ea

## 1967-72 Evaporator Core Grommet

Reproduction of the evaporator core cable grommet for 1967-72 truck models. Manufactured in the correct rubber material.

152860 1967-72..... 5.99 ea

## 1960-72 Evaporator Core Outlet Tube Clamp

Genuine GM service replacement clamp designed to support the evaporator outlet tube. For use with various applications from 1960-72. Use as needed.

G9794 1960-72 all..... 5.99 ea

## 1959-90 Evaporator Case Drain Tube

Reproduction evaporator drain tube. This tube stops airflow from pushing condensation back into the evaporator case, causing the evaporator to freeze up. Designed for 1959-90 GM vehicles.

AP5002 1959-90..... 6.99 ea

## 1964-72 Receiver/Dryer

When restoring your AC system you may find it necessary to replace your original receiver/dryer. We now offer a quality aluminum replacement which will work properly with R-12 or R-134A refrigerants.

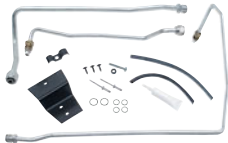

AP0015 1964-72 all refrigerants..... 72.99 ea

## 1964-72 Receiver/Dryer Mounting Bracket

Reproduction brackets used to mount your receiver/dryer unit on 1964-72 GM truck models.

AP7225 1964-72 2 required..... 7.99 ea

## 1967-72 Condenser/Receiver Tube Set

Replace your missing or broken condenser and receiver lines with this quality reproduction set. This 3 piece set includes pre-bent metal lines for the condenser and receiver/dryer assembly.

AP7220 1967-72..... 48.99 set

## 1967-72 AC Line Support Bracket

This AC line support bracket mounts to the bottom of the battery tray and is used in conjunction with most aftermarket AC conversion kits. This bracket set is added to a non-AC style battery tray to support the AC condenser and receiver hard lines.

AP7202A 1967-72..... 10.99 ea

## 1967-72 Condenser/Dryer Tube Grommet

Reproduction of the condenser inlet/dehydrator outlet tube grommet for 1967-72 truck models. Manufactured out of rubber like the original and features the 2 correctly sized holes. 1-9/16" o.d. with one 5/16" hole and one 5/16" hole.
