

# Replacement Fuel Tanks

## GM Truck and SUV Fuel Tanks

These reproduction fuel tanks are manufactured to factory specifications from stamped steel and are available in a variety of finishes to suit your build. Basic zinc coated steel tanks are a great value, offering strong corrosion resistance at a reasonable price. Ni-terne steel tanks provide an OE quality appearance for discerning restorers.

## 1949-53 Chevy/GMC Fuel Tank Petcock

Reproduction brass fuel tank petcock/fuel line connector for 1949-53 Chevy and GMC truck models. For use with bottom feed fuel tanks only.

A5700120 1949-53..... 34.99 ca

H19154

Fuel pump and sender are recessed in the tank for an easy installation.

## 1973-87 EFI Fuel Tank System

Holley Sniper EFI conversion fuel tank systems for 1973-87 truck models. Each tank is galvanized and then powder coated to maximize corrosion resistance. They feature OEM style internal baffling, including an extra large internal fuel tray to promote optimal fuel pump performance. These tanks are a direct, bolt-in install for most applications and capable of supporting 750HP. The system includes the tank, a 255 lph fuel pump, a fuel level sender, and the filler neck. Sender operates at the same 0-90 Ohms as the factory GM fuel level gauge.

Note: Shipped double oversize.

Emissions Note: Ⓢ Non-CARB compliant (not legal for emission controlled vehicles).

## Universal Fuel Tank Anti-Squeak Insulator

Universal style anti-squeak cushions are designed to install between the gas tank and the gas tank straps. These fuel tank anti squeak pads cushion the gas tank from the body and straps to reduce noise caused by metal to metal contact. Replacing or adding the anti squeak pads can help eliminate noise or friction between the fuel tank straps and the body. Prepackaged in OER® poly tube.

### 24" Anti-Squeak Set

Set contains: two 24" x 2" x .060" anti-squeak strips, two 24" x 1-1/4" molded fuel strap cushions, and one 5-1/4" x 2" x 1/2" neoprene anti-rattle pad.

K915 universal..... 24.99 set

### 36" Anti-Squeak Set

## J-B Weld Gas Tank and Radiator Repair

TankWeld is a hand mixable, steel reinforced, non-rusting epoxy putty that quickly repairs or rebuilds anything made of metal. After mixing, it forms an industrial strength polymer compound that can be molded into shapes or used to buildup, patch and repair steel components. TankWeld sets in 5 minutes and after 60 minutes, can be drilled, tapped, machined, ground, filed, and painted. Cures dark gray. Made in USA.

## 1947-66 Fuel Tank Filler Hose

Fuel tank filler hose for various applications including 1947-48 Chevrolet and GMC pickup models with tank mounted on the RH side under the bed or for 1947-66 Chevrolet and GMC truck models with cab mounted fuel tank. Measures approximately 6" in length x 2-1/4" i.d. Measures 6" in length. Use wherever a 2-1/4" i.d. fuel hose is required.

CB102	6" x 2-1/4" i.d.	cloth wrapped	7.99 ea
609085	6" x 2-1/4" i.d.	nitrile rubber	14.99 ea

## 1949-59 Fuel Filler and Vent Hose Set

1949-59 Chevrolet and GMC truck fuel filler hose and vent hose set for cab mounted gas tanks. Pre-cut sections of hose measure approx. 4-1/2" in length. The 1-1/4" i.d. filler neck hose is produced in the original cloth wrapped texture. The 1/2" i.d. vent hose is produced in modern nitrile rubber material. Comes as a 2 piece set to connect filler tube between tank and cab.

## Pop-Top Fuel Filler Cap

Manufactured from aluminum with a smooth and polished finish. To open the cap you press the center, turn slightly counter clockwise and the cap will pop up. The dimensions are 2-1/2" in diameter and 3/32" above the mounting surface and uses a 1-3/4" i.d. filler hose. This keeps your bed looking great when relocating your fuel tank!

**Important:** A 1/8" hole may be drilled in center of plastic cap for a vent which is located on back of aluminum cap.  
T78087 ..... 154.99 ea

## Flush Mount Fuel Filler

This universal flush mount fuel filler set can be used on various applications. The polished stainless steel filler is ideal for your under bed fuel tank conversion. Features a tethered cap, cap key, and 3 mounting holes for an easy installation. 1-1/2", non-vented.

## 1947-71 Sprocket Gas Cap

Vintage style custom sprocket gas cap will help make your 1947-71 Chevrolet or GMC truck stand out from the rest. Measures: 3-3/8" round. Machined from aluminum and polished to show quality. Made in USA.  
A5700249 1947-71 polished..... 74.99 ea

## Gas Cap with Polished Finned Top

Gas caps are usually just a way to cover the fuel filler hole. Why not make a statement with this gas cap and polished custom finned top. The U.S. made casting is of A-356 aluminum alloy and polished to a show quality finish. Each gas cap and top is shipped as 2 parts so that you can align the fins properly during installation. Features a vented gas cap and fits 1947-71 GM models. Polished top is cast in the USA.

**Note:** We recommend using JB weld for installation see part #JB8265.

## 1955-90 Fuel Pump Mounting Plate

Small block fuel pump mounting plate for 1955-90 GM truck models with a small block or diesel V8 engine. This plate must be mounted to the block before a fuel pump can be installed. Includes gasket.

Emissions Note: Non-CARB compliant (not legal for emission controlled vehicles).

R2310	1955-90	6.99 ea
-------	---------	---------

## Bow Tie Fuel Pump Block Off Plate

The Bow Tie never goes out of style and neither do these official Chevrolet chrome block off plates. Covers the hole on engine where fuel pump normally goes when using a tank mounted fuel pump. Available for big blocks and small blocks. Includes gasket.

D141210	small block	11.99 ea
D141211	big block	11.99 ea

## 1987-90 Fuel Pump Gasket

This Genuine GM fuel pump gasket mounts between the fuel pump and the mounting plate or engine block. For use with 6 cylinder, small block, or big block.

G6993	1947-90	2.99 ea
-------	---------	---------

## 1987-03 Fuel Pump Relay

A bad fuel pump relay can be the cause of a hard starting problem in your 1987-03 truck. If you turn the key into the on position, you should hear the fuel pump activate for a few moments as it pressurizes the system. If fuel pump does not activate, that may be an indication that you have a bad fuel pump or relay.

New!

## 1955-57 Fuel Line to Fuel Pump Hose

Reproduction fuel line to fuel pump hose for 1955-57 Chevrolet and GMC models. This hose connects from the hard fuel line to the fuel pump.

TF700051	1955-57	5/16"	14.99	ea
----------	---------	-------	-------	----

## 1965-80 Single Line Fuel Hose Set

Replacement fuel hose for models equipped with a 4 barrel carburetor. Includes 13" length of 3/8" hose with 2 mounting clamps.

K0061	1965-80	3/8"	5.99	set
-------	---------	------	------	-----

## 1965-80 Fuel Hose Set

Replacement fuel line hoses designed for various Chevrolet/GMC models. Includes 12" x 3/8" forward fuel line hose (near fuel pump) and 5" x 3/8" rear fuel line hose (near fuel tank) with 4 clamps.

*Note: Can be used for custom applications and conversions that require 5/8" fuel hoses.*

K0152	1965-80	3/8"	9.99	set
-------	---------	------	------	-----

## 1970-80 Double Line Fuel Hose Set

Replacement fuel hose set for models equipped with a 4 barrel carburetor and vapor return line. Includes: 13" and 6" lengths of 3/8" fuel hose and an 18" length of 1/4" vapor return line hose and 4 mounting clamps.

K0096	1970-80	10.99	set
-------	---------	-------	-----

## 1947-59 Intermediate Fuel Hose

Reproduction intermediate fuel hose for 1947-59 Chevrolet and GMC models. This hose connects from the hard fuel line to the fuel tank behind the seat.

CX4821	1947-53	5/16"	18.99	ea
CX4822	1955-59	3/8"	18.99	ea

## 1947-72 Fuel Tank Floor Grommet

Protect your wiring and fuel lines as they pass through the floor. New grommets protect sensitive lines and wiring from the sheet metal.

J1123	1947-59	sending unit wire	2.99	ea
J1125	1960-72	fuel line grommet	2.99	ea

# Fuel Filters & Components

## Fuel & Vacuum Pinch Hose Clamp

Correct style pinch clamp used on various GM vehicles. Most commonly used on 1961-82 vehicles on fuel and vacuum hoses.

## 1968-72 Fuel Filter Spring

Replacement spring which fits the Rochester carburetor body and keeps the fuel filter in the fuel line. Will fit the 1966-71 two barrel and 1966-72 four barrel carburetors.

JT16001	1966-72	1.99 ea
---------	---------	---------

New!

## Universal Plastic Fuel Filter Assembly

Replacement fuel filter set for various models. This set includes the filter, 2 pieces of rubber hose, and 4 clamps. Used to mount an inline filter in factory hard fuel lines.

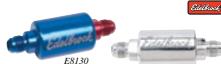

9155B	5/16" inlet/outlet	6.99 set
9155F	3/8" inlet/outlet	6.99 set

## Fuel Filter and Mount

Billet Specialties aluminum in-line fuel filters for carbureted applications. This compact 4-1/2" x 1-3/8" design is available with smooth and ribbed housing and with a 3/8" barb or -6AN fittings.

B42320	3/8" inlet and outlet	41.99 ea
B42520	mounting bracket	21.99 ea

## Inline Fuel Filter

Edelbrock fuel filters are manufactured of billet aluminum. This fuel filter is 3" long by 1-1/4" in diameter and includes a 40-micron disc element with a -6 AN male inlet/outlet.

E8130	blue anodized	37.99 ea
E8129	polished	40.99 ea

## Clear Chrome Fuel Filter

Visually inspect the condition of the element. Features a glass tube and chrome-plated end fittings.

**Note:** Not for use with fuel injection systems.

T9247	5/16" inlet and outlet	11.99 ea
T9245	3/8" inlet and outlet	11.99 ea

## Bronze Element Chrome Fuel Filter

3/8" diameter straight through inlet and outlet with a free flowing replaceable bronze element. High-quality triple chrome-plating. Includes filter and clamps.

**Note:** Not for use with fuel injection systems.

**Emissions Note:** Non-CARB compliant (not legal for emission controlled vehicles).

T9407	3/8" inlet and outlet	14.99 ea
-------	-----------------------	----------

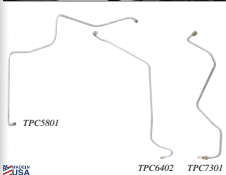

## Universal Chrome Fuel Filter

Disposable in-line filter with chrome housing and paper element. Dress-up your engine compartment and protect your carburetor from harmful contaminants.

**Note:** Not for use with fuel injection systems.

T9212	5/16" inlet and outlet	7.99 ea
T9177	3/8" inlet and outlet	7.99 ea

## Return Line Fitting Conversion Set

If you are installing an in-line fuel pump or an aftermarket fuel injection setup but are using an original fuel tank not originally provisioned for a return line, this universal return line fitting set is a simple and inexpensive way to add one to your existing setup without having to go through the hassle of pulling your old tank and installing an expensive, brand new tank. This fitting can also be used for other applications such as adding a vent line or power steering return line, whatever you might need where a return line was not originally installed. Works on material up to 1/4" thick.

# Electric Fuel Components

## Inline Fuel Pressure Gauge

Set and monitor fuel pressure with these easy to use gauges! Simply splice into the existing carburetor line to with the anodized aluminum fuel block and 3/8" nipples. Each gauge measures 1-1/2" in diameter with a 0-15 psi range in 1/2 lb increments. Gauges are available in standard form or liquid filled for better vibration resistance and readability.

71560 standard gauge..... 61.99 ea  
71564 liquid filled gauge..... 61.99 ea

## Fuel Pump Vacuum/Pressure Tester

Tests for fuel line pressure and vacuum leaks. Check for leaky valves, timing, fuel pump, vacuum, and gas line leakage. Easy-to-read gauge with 3 foot hose and vacuum hose adapter fitting. Measures vacuum from 0 to 28" HG in 1" increments. (0 to 700mm HG in 50mm increments). Measures pressure from 0 to 15 psi in 1/2 psi increments (0-1Kg/cm2 in .1 Kg/cm2 increments).  
Y20300 ..... 27.99 ea

## Fuel Line Disconnect Tool Set

Easily disconnect fuel injection quick connect fuel lines in hard-to-reach locations. 3/8" and 5/16" adapters.  
34750 ..... 16.99 set

## Max-Clean Fuel Cleaner

Max-Clean targets and cleans deposit build up in the intake system and combustion chamber and is effective on the entire spectrum of engines on the road. Royal Purple's Max-Clean can restore internal engine surfaces, recovering lost fuel economy and performance.

RP11723 case of 6 - 20 oz. cans..... 95.99 cs

## Electric Fuel Pump

We offer externally mounted Holley electric fuel pumps. They all feature the proven rotor and vane design and are available in ratings from 97 gph to 140 gph. The 97 gph "red" pump is set at 7 psi and does not require a regulator. The 110 gph "blue" pump is set at 14 psi and includes a regulator. The 140 gph "black" pump is also set at 14 psi and can be used for gas or alcohol fuel.

Red Pump	97 gph	175.99 ea
H128011		
Blue Pump	110 gph	217.99 ea

Black Pump	140 gph	269.99 ea
H128151		
Regulator	4-1/2 to 9 psi	46.99 ea
H12803		

## Electric Fuel Pump

These externally mounted electric fuel pumps are ideal for most street and strip applications. Proven rotary vane technology provides high flow and stable pressures with minimal vibration and sound. Each pump features 3/8" NPT inlets and outlets along with an externally accessible pressure relief valve.

**Note:** Not for fuel injected engines. Pumps that produce more than 7 psi should be used with a pressure regulator.  
**Emissions Note:** \* Non-CARB compliant (not legal for emission controlled vehicles).

Chrome Housing		
100 gph 62531C	7 psi	92.99 ea
120 gph 62541C	14 psi	91.99 ea

120 gph 62541	14 psi	124.99 ea
140 gph 62561	9 psi	69.99 ea

## Quiet-Flo Electric Fuel Pump

State-of-the-art electric fuel pumps offer maximum performance in a compact package for carbureted applications. Anodized aluminum housing and high-quality internals make it both strong and extremely durable. The E1791 electric fuel pump is factory set to 6.5 psi does not require a regulator. 3/8" inlet/outlet, 120 gph free flow, up to 600 HP. The E1792 electric fuel pump is preset to 12 psi and requires an external regulator. 1/2" inlet-outlet, 160 gph free flow, up to 1000 HP.

**Important:** For proper installation and voltage requirements, use fuel pump relay E1795.

E1791 6.5 psi ..... 280.99 ea

E1792 12 psi ..... 284.99 ea

## Quiet-Flo Electric Fuel Pump

This anodized aluminum EFI fuel pump offers maximum performance in a compact package. The in-line design keeps the pump motor and components cool even under harsh conditions. Features -10AN inlet/outlet with a flow rate of up to 80 gph at 45 psi for high HP fuel injected applications. This fuel pump supports 835 HP at 12 Volts with a current draw of 12 amps at 45 psi. 10AN inlet/outlet 80 gph at 45 psi.

**Important:** Dimensions: 6-7/8" x 3-1/4".

E1790 ..... 798.99 ea

## In-Line Electric Fuel Pump

This in-line electric fuel pump is continuous duty rated and is ideal for EFI applications that require additional pumping capabilities. Works superbly as either an in-line booster pump or as a stand alone unit. Use with EFI regulator part #E1728 for adjustability from 35 to 90 psi. 5/7 gph, 3/8" hose barb fittings. Includes mounting bracket and 3/8" hose barb fittings.

E3594 ..... 307.99 ea

FUEL & EXHAUST

# Performance Carburetors

## Thunder Series Carburetor

**Edelbrock**

Edelbrock Thunder Series carburetors share all the performance advantages of the popular Performer Series but with innovative new features. These carburetors include all of the performance features of the Performer Series carburetors and also include distinctive black hardware, dual fuel inlets (shipped with left side plugged), lightweight ball burnished and CNC profiled body, and the Quick-Tune secondary.

They're available in 650 cfm and 800 cfm sizes with manual or electric choke. There's even a 650 cfm version specifically designed for off-road vehicles. These Edelbrock carburetors bolt-on and run right out of the box! Simply dependable, proven performance for almost any carburetable vehicle. All Edelbrock carburetors include an installation kit and owners manual.

**Emissions Note:** \* Non-CARB compliant (not legal for emission controlled vehicles).

### Standard Finish

E1913*	800 cfm	electric choke...	489.99 ea

E1906

## Performer Series Carburetor

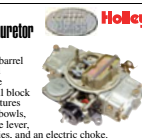

By design, Performer Series square bore carburetors are refined to provide the widest possible torque range when matched with Edelbrock Performer, Performer RPM, RPM Air Gap or Torker II manifold and camshaft combinations. However, these carburetors are not limited to these applications, they also match well with most stock and other manifolds of similar design.

Performer Series square bore carburetors are all aluminum, ball burnished and lightweight. There are no power valves to blow out or plastic parts to break. The 2 piece construction resists warping and the metering rods can be changed in seconds without removing the carburetor. All Edelbrock carburetors come with an installation kit and owners manual.

**Emissions Note:** \* CARB EO compliant (50 states legal); \*\* Non-CARB compliant (not legal for emission controlled vehicles); † Black power coated.

**PROFORM**

## 750 CFM Carb Main Body

Direct replacement components to turn a street carburetor into a high-performance carb; get that extra performance out of your ride in less than 30 minutes! Add up to 25-50 HP with PROFORM's 100% new, high-performance carburetor main body (no re-build components). Easy swap-in, swap-out installation utilizing existing metering blocks, fuel bowls, and baseplate. Involves only 14 screws. Has adjustable screw-in air bleeds, high-performance down-leg boosters. Get maximum air flow with no air horn, choke tower, or choke control. Includes: instructions, all necessary non-stick replacement gaskets, and high-performance jet kit.

**Note:** Main body does not retain vacuum advance port in original metering block.

**Emissions Note:** \* Non-CARB compliant (not legal for emission controlled vehicles).

H37754	750 cfm 4160 ..... 41.99 set

With Mechanical Secondaries	
H37485	4150 double pump carbs ..... 58.99 set

### Performance Rebuild Set

This set contains all the parts you'll need to perform a complete rebuild on your Holley vacuum secondary or double pump carburetor. Plus it's got extra parts related to carburetor calibration that are required to accomplish a real performance tune. These include accelerator pump discharge nozzles, accelerator pump cams, vacuum secondary springs, and extra gaskets. A carburetor exploded view and detailed tuning guide are also included.

 JG1341 case of 6..... 147.99 cs

## Street Demon Calibration Set

This calibration set allows fine tuning of Street Demon carburetors. Although the carburetors are already fine tuned other adjustments and modifications may be necessary for optimal performance in built engines with large cams. This set includes an assortment of primary jets, metering rods and step-up springs along with secondary jets all in a convenient plastic storage case.

D1921 ..... 124.99 set

## Carburetor Calibration Set

These sets include a selection of metering rods, jets, and step-up springs that allow fine tuning and calibration of Edelbrock Performer and Thunder Series carburetors for mildly to extremely built motors, especially motors with performance camshafts that cause low intake manifold vacuum. Made in USA.

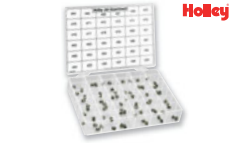

**Emissions Note:** Ⓢ Non-CARB compliant (not legal for emission controlled vehicles).

## Jet Assortment Set

The Holley jet assortment set is the professional way to track tune your Holley carburetor for top performance. The set consists of 2 each of 36 different jet sizes ranging from #64 to #99. The jets are contained in a plastic case that keep them separated and make them easily accessible. Jet sizes selected will give the broadest range of adjustment and performance for most performance carburetor applications.

H36181 jet assortment..... 88.99 set

## H122 47 = Main Jet Size #47

## Carburetor Main Jets

Holley jets are the professional way to track tune your Holley carburetor for top performance. They are sold in sets of 2 and are available in jet sizes ranging from #40 to #110. The jets will give the broadest range of adjustment to get the most performance out of your Holley carburetor.

**Important:** Please specify jet size at the end of the part number when ordering. See chart above for more information.

H122 specify jet size, #40 to #110..... 11.99 pr

## Power Valves and Installation Tool

The power valve is a key component of the power enrichment system of Holley performance carburetors. These power valves incorporate "power valve blow out protection". Power valve installation tool is also available, and sold separately.

## Carburetor Spacer Set

Easily optimize the flow rates of air and fuel in your vehicle with this modular 1" carb spacer set! Since various engine combinations have different fuel and air delivery requirements for maximum performance, spacer set includes 1 frame and 2 popular inserts: open, 4 hole, and tapered 4 hole. This way, you can dial in exactly the right flow to get the most from your motor.

67160 carburetor spacer..... 31.99 set

## 5-1/8" Diameter Carburetor Cover

Keep dirt and contaminants out of your carburetor while working on your engine with the air cleaner removed. Produced using tough plastic construction. For use on all 4 barrel carburetors. 5-1/8" diameter.

T2012 1967-86 4 barrel..... 8.99 ea

## Carburetor Wedge Plate

During hard acceleration the float bowls in a carburetor become uneven, causing moderate fuel starvation. This aluminum spacer tilts the carburetor forward 5 degrees to help keep it level. This spacer measures .830" at its thickest point and has a dual bolt pattern for standard Holley, Carter AFB, and Edelbrock carburetors.

**Emissions Note:** Non-CARB compliant (not legal for emission controlled vehicles).

## 1965-69 OE Style Accelerator Rod

OEI® reproduction accelerator pedal rods are designed for use with 302, 327 or 350 engines with 4 bbl carburetors. This rod is the essential link between the accelerator pedal lever and the carburetor. Each rod is manufactured to correct specifications and replaces the worn original rod exactly.

*Note: \*Can also be used as a service replacement for most 1965-69 small block applications using a low rise intake and a Quadrajet carburetor, or for custom/aftermarket intake and carburetor applications. \*\*Can also be used for custom/aftermarket intake and carburetor applications using a single four barrel high rise intake and Holley carburetor.*

## 1965-69 Small Block Accelerator Rod

Reproduction 1967 accelerator pedal rod for 327 or 350 engines with 4 bbl carburetors. Can also be used as a service replacement for most 1965-69 small block applications using a low rise intake and a Quadrajet carburetor, or for custom or aftermarket intake and carburetor applications. Replaces original GM part #3909981 rod, and #3899075 swivel.

Low Rise Intake/Quadrajet KW6361 1967 small block.....	26.99 ea
---	----------

## 1965-69 Big Block Accelerator Rod

Reproduction 1965-67 big block style accelerator rod and swivel assembly. This piece is commonly bent or broken after years of use and should be replaced to maintain maximum efficiency. For use on models equipped with cast iron intake and Quadrajet carburetor. Can also be used as a service replacement for most 1965-69 big block applications using a low rise intake and a Quadrajet carburetor, or for custom or aftermarket intake and carburetor applications.

Low Rise Intake/Quadrajet C848684 1965-69 big block.....	35.99 ea

## Universal Throttle Cable

All Lokar throttle cables are designed with a specially extruded liner to extend the life of the cable. Cables are equipped with aluminum fittings and aluminum ferrule to eliminate fraying. These cut-to-fit cables are available in 24", 36", or 48" lengths with a stainless steel inner wire, and your choice of a stainless steel, black stainless steel, or black nylon housing. Clevis is designed to eliminate cotter pins and set screws. Includes installation instructions.

**Important:** Remember to pull inner wire out before cutting outer housing.

**Note:** For 1986-93 EFI use TC10024.

## Ultimate TPI Standalone EFI System

Bring your GM TPI system up-to-date with the FiTech Ultimate SBC standalone EFI system. These were popular engine swaps years ago, but the electronics and tuning capabilities left a lot to be desired. This set is based on their proven, self-learning EFI technology and will improve the performance and drivability of your TPI equipped small block and give you more custom settings for your application and even the lockup of the 700-R4 or 200-4R converter.

**Emissions Note:** Ⓢ Non-CARB compliant (not legal for emission controlled vehicles).

## Sniper 2 EFI 4 Barrel

The #1 EFI conversion system just got better! Introducing Sniper 2 EFI, a self-tuning, easy-to-install, EFI conversion for common 4 barrel (4150 flange) style carburetors. We took everything that we learned from the original Sniper EFI system and added 14 new features that will make your EFI conversion more simple, reliable, and modern. Like all Sniper EFI systems, Sniper 2 is designed to work with the Sniper Ecosystem that includes Hyperspark ignition, complete fuel systems, multiple user interfaces/dash displays, and more.

**Emissions Note:** Ⓢ Non-CARB compliant (not legal for emission controlled vehicles).

## Quadrajet 4 Barrel EFI

Holley Quadrajet 4 barrel sets are designed to deliver that Rochester roar at wide open throttle. Features a spread bolt pattern and multiple fuel inlet configurations that allow for a stock appearing installation under the stock air cleaner. Includes a GM brake booster adapter, throttle lever provisions for TH350/TH400 and 2008R/700R4 transmissions, and a kickdown bracket. Capable of supporting up to 500 horsepower. Brake booster adapter also included, if required.

**Note:** Requires external fuel pressure regulator.

**Emissions Note:** Ⓢ Non-CARB compliant (not legal for emission controlled vehicles).

## Stealth 4150 4 Barrel EFI

H550870

Holley's Sniper Stealth 4150 master set gives you carburetor styling but functions just like the Sniper! A 4150 stealth is a great way to upgrade your ride to fuel injection in a cost efficient way with just 4 simple connections required. Take your build to the next level and take advantage of improved engine performance, better MPG's and easier starting. This set supports up to 650HP naturally aspirated and 600HP boosted with four 1000 lb/hr injectors!

**Emissions Note:** Ⓢ Non-CARB compliant (not legal for emission controlled vehicles).

## Sniper EFI 2GC 2BBL

Eliminate the hassles with your Rochester 2GC carburetor with a Holley 2GC two barrel carburetor to fuel injection conversion. This a bolt on electronic fuel injection system offers superior throttle response and WOT power over the carburetor and may even increase fuel economy! Put an end to cold start issues, hesitations, vapor lock, and flooding with the accuracy of EFI. You can also use the Sniper EFI 2GC to control the ignition timing. These systems are capable of supporting 350 HP on naturally aspirated engines.

**Note:** Please check your carburetor size before ordering. Some applications may differ listings below.

**Emissions Note:** Ⓢ Non-CARB compliant (not legal for emission controlled vehicles).

 HEDDERS**

# Hedman Hedders

**HEMDEK  
 HEDDERS**

Hedman Hedders has the largest selection of headers for the entire range of 1955-91 Chevy/GMC trucks and SUVs. If you have a 1/2 or 3/4 ton pickup truck, Blazer, or Suburban, Hedman manufactures a header to meet your specific needs. Full length designs that squeeze out the very last foot pound of torque. A variety of tube diameters and smog configurations are also available. Many are 50 state legal while others are for use on vehicles which may not be used on highways. Hedman Street Hedders come uncoated or with a choice of HTC Polished Silver Ceramic or Black Maxx Satin Black ceramic coatings for improved durability and performance. More applications are available online!

**Emissions Note:** † CARB EO compliant (50 states legal). \* † Non-CARB compliant (not legal for emission controlled vehicles).

Hedman Hedder Emission Notes

- A) Not applicable or intended for street or highway use. Legal only for racing vehicles which may never be used upon a street or highway.
- B) 281-400 small block Chevrolet with D-port heads
- C) This Hedder has been submitted to the California Air Resources Board for criteria and exemption approval. Pending approval, the EO # should be available soon.
- D) For vehicles 1964 through 1974 without AIR system, considered as OE replacement parts when existing emission controls are not removed from vehicle.
- E) Not legal for sale or use in California.
- F) For vehicles 1964 through 1974 with AIR system, considered as OE replacement parts and do not require an EO #, when existing emission controls are not removed from vehicle.

- N) 1975-81 only, 50 state legal for these years.
- O) 1975-82 only, 50 state legal for these years.
- P) 1975-86 only, 50 state legal for these years.
- T) 1982 only, 50 state legal for these years.
- U) 1982-86 only, 50 state legal for these years.
- X) TEMS (Tubular Exhaust Manifold Systems) are 50 state legal for years listed in catalog only.

Hedman Hedder Notes

- 0) TEMS (Tubular Exhaust Manifold System)
- 1) Without smog injection or injection heads.
- 4) Includes parts necessary to retain emission devices. (50 State).
- 5) With AIR system.
- 6) Modification to stock exhaust required to retain catalytic converter.
- 15) Shortie Hedder (Max. ground clearance).
- 16) Tail shaft Style crossmember only. Not bellhousing style crossmember.
- 16) Check Non-Tork Step listings for same part number replacing last digit with a 0. Pay special attention to emission footnotes.
- 26) AC equipped vehicles require bracket #201110. (A6 compressor).
- 14) Not legal for sale or use in California on pollution controlled motor vehicles.
- 47) Some vehicles may encounter clutch shaft interference when cross shaft location is under or behind the driver side rear exhaust port. Use #69092 without AIR. Use #69093 with AIR.
- 48) Will not fit torsion bar suspension.
- 51) Under chassis exit
- 75) 4 x 4 manual transmission with hydraulic clutch. Does not work with slave cylinder.
- 103) Will fit with angle plug heads (Chevy alum. only)
- 112) Must use all factory big block hardware and mounts.
- 121) Must modify rotary AC bracket.
- 122) Late model only. Engine oil to passenger side of vehicle.
- 127) Dual outlet.
- 139) Must use 1975 and later model clutch linkage located at rear of engine.
- 144) Complete with Y-Pipe to single catalytic converter.
- 160) Early chassis only.
- 208) Due to aluminum cylinder heads on GEN VI engines, 502 big block Chevy will have clearance problems on some applications. Bottom of Hedder flanges may hit head bolts. Nothing may be necessary.

HEADERS**

# DOUG'S HEADERS

The original  
**DOUG'S  
HEADERS**

Every Doug's header set includes all the necessary mounting hardware, collectors, premium gaskets, and detailed installation instruction sheets. The extra thick gaskets are rated up to 1100 degrees F, and are designed for an exact port match with Doug's headers. Utilize 3/8" flanges on light duty applications and 1/2" to 5/8" flanges on heavy-duty applications, such as motor homes and tow vehicles. Thicker flanges hold up to heat better and are less likely to warp. Metallic Ceramic Thermal Barrier Coating (MCTBC) is simply the best header finish on the market and now comes standard on all Doug's headers. It protects and extends the life of headers by creating a thermal barrier that significantly lowers underhood temperatures and protects the substrate metal from thermal fatigue. After MCTBC is applied, it is polished with a vibratory finishing process that produces a high lustre aluminum appearance and compresses and activates the coating, which increases the surface hardness to produce a finish that is 60% more corrosion resistant.

8372

**Emissions Note:** Non-CARB compliant (not legal for emission controlled vehicles).

### Doug's Headers Notes

- 36) Fit D-Port cylinder heads including ZZ4 crate engines.  
 69) Big block frame stands and motor mounts must be used to insure proper engine location and header fit.  
 82) Better ground clearance than 8372.  
 92) Will fit most angle plug heads including factory Chevrolet "Bow Tie" heads.  
 93) Requires removal or modification of locking steering columns if equipped.  
 94) Non catalytic converter equipped.  
 96) Installation requires a left side AC bracket 7608. 1979 and later vehicles with short compressors can use the stock bracket.  
 126) Y indicates Tri-Y design.  
 133) Does not fit with power glide transmission.

- 137) Will not fit 4-speed applications with bellhousing mounts.  
 141) Available with optional smog pump provision. Dual smog pump applications add DP to the end of header part number. Single smog pump applications add SP to end of header part number.  
 A) The product accompanying this document is legal only for off-highway use (except in California or states that have adopted California emission standards), racing use or for use on pre-emission controlled motor vehicle/motor vehicle engines (pre-1974 domestic vehicles certified to California standards, pre-1974 domestic vehicles certified to federal standards and all pre-1974 foreign vehicles), per the manufacturer's application guide.

# Exhaust Headers

## 1947-82 Fenton 6 Cylinder Header

Classic Fenton high-performance headers are here. These quality cast iron headers split single 6 cylinder exhaust systems into a high flow, high-performance dual exhaust system. Fits all 1947-62 Chevrolet 6 cylinder 216, 235, and 261ci engines.

Note: Shipped oversize.

## 1963-72 LS Conversion Set

We've got just what you need to finish off that motor and get it into your ride. These sets will work on all LS motors (except LS7) and 2000 and newer Vortec motors. Set includes: engine mounts perches and adapters, engine pads, full length ceramic coated headers, transmission crossmember, and all mounting hardware and will work for your truck.

Note: These sets must also use Lokar dipstick #EDS020 for 1997 and later vehicle LS or #EDS021 for 1999 and later truck LS engines. Shipped oversize.

## Chevrolet Wedge Locking Header Bolts

Grade 8 (12.9 steel), Hex type header bolts were designed to keep bolts from backing off. These permanently assembled bolts feature special washers with super hardened serrated teeth that, when sufficiently torqued, the washers bite into and grab the bottom of the bolt head and the top surface of the header. After being self-locked in this manner, any bolt loosening rotation is blocked by a wedge locking action created by the washers interfacing, matching cams. Engine vibration increases the tension, making them even more secure! They are reusable and you can count on them to not fail.

Note: Image for illustration purposes.

## Header Bolt Set

ARP manufactures premium grade bolt sets to facilitate installation of exhaust headers in both stainless steel or 8740 chromoly steel. The Stainless 300 material is not affected by corrosion or extreme heat, making it ideal for the application. The compact 12 point head version lets you easily fit a socket close to the pipe. Each ARP set includes the specific number of bolts for your application, plus premium quality washers with Hex of 12 point heads, as required. The black oxide finished chromoly bolts and stainless steel fasteners are nominally rated at 170,000 psi tensile strength. Small block sets contain 12 bolts and big block sets contain 16 bolts. All bolts are 3/8" diameter.

## Low-Line Lake Pipes... The Look is Back!

Get the retro look with a set of chrome lake pipes on your vehicle! This look was popular in the late 1950's and early 1960's. When setup as a functional feature, it allowed the racer to unclog or "dump" the exhaust for increased exhaust flow when racing. The use of a cap was allowed for quieter operation during street driving. It also provided the car with a lower "lead sled" look. These pipes do not incorporate any silencing materials and are recommended for nonfunctional use only. Choose from two styles: slanted outlet without cap or triple outlet with caps. Available in two lengths to suit your needs. Chrome pipe measures 2" in diameter. Mounting clamps sold separately.

*Note: Shipped oversize.*

## Super 10 Series Stainless Steel Muffler

Looking for the most aggressive sound available? Flowmaster's new Super 10 series mufflers are so aggressive, they aren't recommended for street driven vehicles. Best suited to racing applications, these feature the same performance technology used in the Super 40 and Super 44 series Flowmaster mufflers. These short, single chamber mufflers deliver the closest thing to open pipe sound possible. If you want high impact sound, the Super 10 series mufflers are the answer. Measures: 6-1/2" x 9-1/2" x 4".

*Note: These mufflers are recommended for off highway use, not for street driven vehicles.*

# Exhaust Cutouts

## Electric Exhaust Cutout

Don't crawl under your vehicle to uncock your exhaust ever again by switching to electric cutouts. Keep them closed and quiet for the street, wide open for the strip, or anywhere in between with the flip of a switch. You control the volume and the power! Available in sizes 2-1/4" to 4" and a low profile oval design for applications with limited ground clearance. Fits 2-1/4" to 3" round exhaust pipe. Built with high-quality materials - CNC 06061 aluminum body and motor plate, stainless steel shaft and butterfly plate, high torque DC gear driven motor, weather tight wiring connectors, and custom illuminated toggle switch.

**Important:** Match valve size with cutout size for optimal fit and performance.

Note: \*Includes connector, fits 2-1/2" to 3" round pipe.  
\*\*Includes 4" three bolt flange.

### Electric Cutout Valves - Individual

## Electric Cutout Remote Control System

Remote control for your electric cutout system. When space is a premium this control box gives you the flexibility you need. Includes 2 wireless key fobs for 100% control over your cutouts at the push of a button.

MN2466	control box	99.99 set
--------	-------------	-----------

## Stainless Steel Electric Cutouts

These cutouts feature a rugged 12 Volt DC motor and rotating gate for a leakproof seal every time the cutout is opened and closed. When fully opened, these cutouts do not create exhaust flow obstructions that can create a leaky gasket sound, unlike butterfly style cutouts. A pre-wired harness with an illuminated rocker switch is supplied for easy installation. Uncork your exhaust with the flip of a switch from your dash. The cutouts are ideal for race tracks that don't require mufflers. Cutouts are available individually, in pairs, or in complete sets with Y-Pipes for easy installation. Made in USA.

**Important:** Not recommended for vehicles equipped with catalytic converters.

Note: May not be legal for highway use or use on emission controlled vehicles.

## Universal Dual Electric Cutout Set

Pypes dual electric cutout set allows you to partially or fully open both your exhausts from one switch that you can mount anywhere in the vehicle. Perfect for when a quick 10-20 horsepower is needed. Using only the highest quality materials, the housing is manufactured with 6061-T6 billet aluminum with a double sealed aluminum butterfly. The motor features a high temp o-ring to ensure a complete seal and a built-in thermal protection device to protect it from overload. Sets include: two electric exhaust cutouts, wiring harness with switch, stainless steel mounting hardware, extra thick gaskets, and Pypes lifetime limited warranty. Available with or without Y-pipes.

Note: \*Connects to any 2-1/2" exhaust with an approximately 12" straight section and enough clearance for the motor/valve assemblies.

## Hi-Heat Coatings

Thermo-Tec exhaust insulating products work excellent as a paint directly on metal surfaces and can handle continuous temperatures up to 1200°F. It is also recommended for coating exhaust insulating wrap. The coating will protect the wrap from abrasion and harmful liquid spills. Extra resins and binders toughen the surface and extend the life of the wrap.

Note: Shipped within the continental U.S. Only. Shipped ground only.

## Xtreme Temperature Coating

XTC is a high temperature/heat resistant coating formulated specifically to protect metal surfaces operating at temperatures from 500 to 1500 degrees F. With proper preparation, XTC provides outstanding adhesion, film integrity, weathering, and thermal shock resistance throughout this entire temperature range, and is guaranteed not to burn off! Available in your choice of a wide variety of colors and sizes.

Note: 8 oz. will coat approximately 3 sets of automotive exhaust manifolds with 2 coats or coat a set of shorty headers with 2 coats. Pints will coat a set of full size headers with 2 coats or coat a complete automotive exhaust system with 2 coats.

### Xtreme Temperature Coating

Important: When ordering, select the part number for the size of the can you need, then add the two digit numerical color code to the end of the part number to specify your desired color.

## Thermo-Sleeve

Thermo-Sleeve is the combination of a high temperature fabric laminated to a highly reflective Mylar foil. It provides protection from radiant heat for hoses and wires. Thermo-Sleeve's ultra lightweight construction provides more insulation than traditional bulky rubber coated fiberglass. The aluminized sleeve reflects more than 90% of radiant heat, plus it is fireproof and oil resistant! Thermo-Sleeve is available in 3' or 12' lengths.
