## EFI Conversion Fuel Tanks with Fuel Pumps

Each Holley Sniper EFI conversion fuel tank is a direct fit for your application with no modifications necessary. The kit includes: the tank, a 67 gph fuel pump, internal baffling, a correct Ohm range fuel level sender, and the filler neck. The tank is powder coated for corrosion resistance and great looks. These tank kits are a complete solution for your EFI project!

Note: Shipped double oversize.

## 1967-89 Mini-Tub Fuel Tank

These bolt-in narrowed 19 gallon stainless steel fuel tank are designed for DSE's Mini-Tub set. Available for carbureted or fuel injected engines. Carbureted tanks have a 1/2" NPT fuel pickup fitting compatible with -8 AN and -10 AN lines. Fuel injection tanks include in-tank pumps to deliver the pressure required by late model engines. All tanks are baffled and pressure tested and include stainless fuel tank straps.

Important: Requires universal 5 bolt single wire 90 Ohm fuel sending unit D80201.

Note: Shipped double oversize.

## 1970-81 Fuel Tank with Internal Pump

By placing the fuel pump inside the tank, hot fuel issues such as vapor lock and cavitation are eliminated. These steel tanks feature a durable silver powder coated finish, an internally baffled system with an in-tank performance fuel pump capable of supporting up to 1000HP. Deep sump tanks include new fuel tank straps.

**Important:** \*1 inch deeper than stock.

**Note:** Shipped double oversized.

## 1967-73 Fuel Injection Fuel Tank

Stainless steel gas tanks are a direct replacement for the OE tanks. Each tank is hand formed from 304 Grade stainless steel and TIG welded. All tanks feature a unique baffle system running front to rear, side-to-side, and around the fuel pickups to eliminate fuel starvation during acceleration and hard braking. All fittings and mounting flanges are CNC-machined from 304 stainless steel stock to a thickness of 3/8" to ensure a proper seal. All tanks include an installed fuel pump, stainless mounting straps and hardware. All tanks have a brushed finish for easy up keep.

**Important:** Fuel sending unit is not included with tank.

**Note:** Shipped double oversized.

## Holley

## 1967-78 Chrome Fuel Pump

Replace your original fuel pump with genuine Holley chrome fuel pumps. Each mechanical fuel pump is triple chrome-plated and holds 60 gallons per hour at 7-1/2 psi. Includes an adjustable lower housing allowing 360 degree rotation of fuel inlet-outlet fittings for custom installation.

12834	1967-78	small block	109.99 ea
12835	1967-76	big block	109.99 ea

## Performer RPM 110 GPH Fuel Pump

Designed for all Edelbrock carburetors used in Performer or Performer RPM applications. These high-performance street fuel pumps feature a high-quality three stage polished finish. The unique valve design improves flow quantity and quality, and will support engines up to 600 HP. High volume, 3/8" NPT inlet and outlet surpasses the capacity of conventional models. Produces 6 psi and does not require a regulator. For gasoline only. Clockable lower housing can be rotated for best inlet/outlet alignment.

E1721	small block	163.99 ea
E1722	big block	174.99 ea

## 1967-87 Fuel Pump Mounting Plate

Used to mount fuel pumps on 1967-87 Camaro models. Features a 1 large slot and 4 mounting attachment holes. For all V8 small block engines. Includes chrome plate to block gasket.

Mounting Plate	G6990	1967-87	all V8 SB	4.99 ea

## 1982-02 Electric Fuel Pump

The fit and form of a fuel pump is critical to getting the job done right. Our direct replacement electric fuel pumps feature cutting edge turbine technology, which makes them quieter, more tolerant of debris, and more efficient. They also exceed manufacturer's tolerances for the ethanol found in today's fuel blends. Buy with confidence, these fuel pumps are backed by a manufacturer's 12-month/12,000-mile warranty for defects a workmanship.

**Note:** New strainers must be used on electric pumps for warranty compliance. Fuel pump strainers are included on electric pumps without notation. If a strainer is listed in the pump description, you must order it separately. Due to electrical requirements on certain fuel pumps, models denoted with 1 or 2 asterisks (\* or \*\*) require a strainer and wire harness adapter for installation. \*Use S20194 strainer and S88536 wire harness. \*\*Use S20197 strainer and S88536 wire harness.

# Electric Fuel Components

**Holley**

H128011

## Electric Fuel Pump

We offer externally mounted Holley electric fuel pumps. They all feature the proven rotor and vane design and are available in ratings from 97 gph to 140 gph. The 97 gph "red" pump is set at 7 psi and does not require a regulator. The 110 gph "blue" pump is set at 14 psi and includes a regulator. The 140 gph "black" pump is also set at 14 psi and can be used for gas or alcohol fuel.

62531

## Electric Fuel Pump

These externally mounted electric fuel pumps are ideal for most street and strip applications. Proven rotary vane technology provides high flow and stable pressures with minimal vibration and sound. Each pump features 3/8" NPT inlets and outlets along with an externally accessible pressure relief valve.

*Note: Not for fuel injected engines. Pumps that produce more than 7 psi should be used with a pressure regulator.*

## In-Line Electric Fuel Pump

This in-line electric fuel pump is continuous duty rated and is ideal for EFI applications that require additional pumping capabilities for upgraded modifications. Works superbly as either an in-line booster pump or as a stand alone unit. Use with EFI regulator part #E1728 for adjustability from 35 to 90 psi. 57 gph, 3/8" hose barb fittings. E3594 ..... 298.99 ea

**Edelbrock**

E1792

## Quick-Flo Electric Fuel Pump

State-of-the-art electric fuel pumps offer maximum performance in a compact package for carbureted applications. Anodized aluminum housing and high-quality internals make it both strong and extremely durable. The E1791 electric fuel pump is factory set to 6.5 psi and does not require a regulator. 3/8" inlet/outlet, 120 gph free flow, up to 600 HP. The E1792 electric fuel pump is preset to 12 psi and requires an external regulator. 1/2" inlet-outlet, 160 gph free flow, up to 1000 HP.

*Important: For proper installation and voltage requirements, use fuel pump relay E1795.*

E1791 6.5 psi ..... 271.99 ea

E1792 12 psi ..... 275.99 ea

**Edelbrock**

## Quick-Flo Electric Fuel Pump

This anodized aluminum EFI fuel pump offers maximum performance in a compact package. The in-line design keeps the pump motor and components cool even under harsh conditions. Features -10AN inlet/outlet with a flow rate of up to 80 gph at 45 psi for high HP fuel injection applications. This fuel pump supports 835 HP at 12 Volts with a current draw of 12 amps at 45 psi. 10AN inlet/outlet 80 gph at 45 psi.

*Important: Dimensions: 6-7/8" x 3-1/4".*

E1790 ..... 774.99 ea

**Edelbrock**

## Micro Electric Fuel Pump

This compact electric fuel pump features a solid state design that has a low current draw of around one amp and makes a good stand alone pump or booster pump. Designed for carbureted vehicles with a 12 Volt negative ground electrical system, this pump supports 4-7 psi up to 35 gph. Includes: fittings, mounting hardware, and instructions.

*Note: Not for diesel applications.*

71211 ..... 51.99 ea

## Fuel Pump Safety Switch

This safety feature is a must have for any electric fuel pump vehicle. This safety switch monitors the tach signal to limit when an electric pump can operate. When the key is first turned on, the fuel pump is allowed to run for three seconds, priming the fuel system. After that, it only operates if the engine is running. If the engine stops, so does the fuel pump. No plumbing into the oil lines or no extra priming button under the dash is required.

RE12003 ..... 69.99 ea

## Fuel Pump Safety Switch

This fuel pump safety switch shuts off fuel flow whenever oil pressure drops below 15 psi. This adds a safety factor in case of an accident or engine stall. Designed for 12 Volt electrical systems and can be tied into the oil pressure sending unit with an 1/8" NPT tee.

77872 ..... 27.99 ea

## Fuel Pump Relay

This universal fuel pump relay will ensure proper wiring which reduces the risk of damaging the fuel pump and offers consistent fuel pressure. This relay is used with fuel pump part #E1791 or #E1792.

E1795 universal relay ..... 76.99 ea

E1728

## Fuel Pressure Regulator

These fuel pressure regulators are machined from aircraft quality aluminum and have fluorosilicone diaphragm material for high temperature protection and extended life. Fully adjustable.

## Fuel Pump Lines

New!

## EFI Bypass Regulator

Performance EFI regulator designed for medium to high horsepower applications. This regulator features Aeromotive's high flow design, super-pressure control and legendary durability. Features base pressure adjustable from 40-75 psi, gasoline and alcohol compatible, fuel pressure rises on a 1:1 ratio with boost, 1/8" National Pipe Thread taper (NPT) gauge port. Includes two o-ring boss fittings (ORB-06) inlet ports and one o-ring boss fitting (ORB-06) return port.

A9713109 adj. w/EFI..... 203.99 ea

New!

## Universal Bypass Regulator

A dual purpose, universal regulator for EFI or Carbureted street/strip applications. Features pressure adjustable from 3 to 20 psi with standard spring, (installed) or from 20 to 60 psi with high pressure spring (included). Offers the full flow and rock steady fuel pressure that only a dynamic, Aeromotive bypass regulator provides. Capable of regulating any fuel pump between 100 and 250 gph, fuel pressure rises on a 1:1 ratio when referencing boost. All ports are 3/8" National Pipe Thread taper (NPT), with one inlet and three outlets on the main body and one return port on the bottom. Bypass design provides the ultimate, dynamic fuel pressure control.

Note: Regulator is return line to be installed from the bottom of the regulator to the top of the tank.

A9713301 3 Port 3/8" NPT..... 196.99 ea

New!

## Carbureted Bypass Regulator

For use when converting from fuel injection to carburetion using the EFI pump in a carbureted application. Perfect for naturally aspirated or "blow-through" supercharged engines. Features base fuel pressure adjustable from 3-15 psi, 1-o-ring boss fitting (ORB-10) inlet port and 1 o-ring boss fitting (ORB-08) return port, fuel pressure rises on a 1:1 ratio when referencing boost, bypass design provides the ultimate, dynamic fuel delivery system, ideal for converting from fuel injection to carburetion using the stock, in-tank pump. EFI conversions will require a larger than stock return line for proper low pressure control. Includes two o-ring boss fittings (ORB-06) outlet ports and 1/8" National Pipe Thread taper (NPT) gauge port.

Note: Requires Army/Navy fitting (AN-08) return line from bottom of regulator back to top of the tank.

A9713204 2 port..... 212.99 ea

## 1967-81 EFI Fuel Pump/Sender Modules

Holley 255 lph OEM style in-tank fuel pump conversion modules are designed as a direct replacement for the factory pickups and sending units in 1967-81 Camaro models. These modules will install exactly like the factory assembly with no modifications required. This system is hands down the simplest way to convert a fuel tank for electronic fuel injection. They are internally regulated to 58 psi and capable of supporting engines up to 550 horsepower.

H12301 1970-73..... 406.99 ea  
H12304 1974-81..... 406.99 ea

## In-Tank Fuel Pump Retrofit Set

Holley 450 lph universal in-tank return less retrofit fuel module. Use this module to convert to an in-tank EFI fuel system with no welding or fabrication. Installs in any fuel tank from 7" to 12" deep. Includes a low profile die-cast pump hanger bracket to control pump vibration low profile and an integrated fuel pump capable of supporting up to 875 EFI or 100 carb HP. This is the easiest way to convert your vehicle to an in-tank EFI fuel system, ideal for Terminator EFI, Sniper EFI, MSD Atomic EFI, or any TBI of EFI conversion.

## 1982-02 Fuel Pump Relay

A defective fuel pump relay can be the cause of starting problems in your Camaro. When you turn the key to the "on" position, you should hear the fuel pump "whirr" for a few moments as it pressurizes the system. If not, (and the pump is good) that may be an indication that you have a bad fuel pump relay. We now offer these Genuine GM or reproduction fuel pump relays for 1982-02 models.

## Driven Defender+Booster

Raises the octane in unleaded fuels, reduces valve seat wear and protects against the corrosion deposits common with today's gasoline. This product features corrosion inhibitors that control combustion chamber residue, as well as clean and preserve surfaces of the fuel system. By cleaning and controlling combustion chamber and intake valve deposits, Defender + Booster Fuel Additive protects against detonation and improves fuel economy. The additive is ideal for all carbureted and fuel injection vehicles, including motorcycles and marine engines. Each 10 ounce bottle treats up to 25 gallons of gasoline, and regular use has been proven to lower emissions.

E206SS	1969	stainless steel.....	69.99 set

## 1968-69 Cross Ram

### Intake Systems and Components

The ultimate Camaro induction system is available as a reproduction. This system is correct in every detail and includes a GM licensed intake manifold, cast from the original tooling with correct part number and Winters Foundry markings, twin Holley carburetors with correct list and part numbers, Heim jointed throttle linkage and throttle cable, throttle cable bracket, cable type throttle pedal arm, gaskets, all fuel lines and Y-block, oil filler tube, air cleaner elbow, complete oval or wide base style air cleaner with hood seal, heater hose fittings, throttle return spring, and bracket. This is a perfect recreation of the original Cross Ram intake setup manufactured in original detail. Assembly required.

*Note: Cross Ram hood is available separately. See hood section for details.*

## Thunder Series Carburetor

Edelbrock Thunder Series carburetors share all the performance advantages of the popular Performer Series but with innovative new features. These carburetors include all of the performance features of the Performer Series carburetors and also include distinctive black hardware, dual fuel inlets (shipped with left side plugged), lightweight ball burnished and CNC profiled body, and the Quick-Tune secondary. They're available in 650 cfm and 800 cfm sizes with manual or electric choke. There's even a 650 cfm version specifically designed for off-road vehicles. These Edelbrock carburetors bolt-on and run right out of the box! Simply dependable, proven performance for almost any carbureted vehicle. All Edelbrock carburetors come with an installation kit and owners manual.

### Standard Finish

E1906	650 cfm	electric choke.....	433.99 ea
E1913	800 cfm	electric choke.....	474.99 ea

## Performer Series Carburetors

By design, Performer Series square bore carburetors are refined to provide the widest possible torque range when matched with Edelbrock Performer, Performer RPM, RPM Air Gap or Torker II manifold and camshaft combinations. However, these carburetors are not limited to these applications, they also match well with most stock and other manifolds of similar design. Performer Series square bore carburetors are all aluminum, ball burnished and lightweight. There are no power valves to blow out or plastic parts to break. The 2 piece construction resists warping and the metering rods can be changed in seconds without removing the carburetor. All Edelbrock carburetors come with an installation kit and owners manual.

*Note: \*50 state legal for all 1980 and earlier GM V8 engines.*

# Performance Carburetors

**Holley**

## Chevrolet Small Block Tri-Power

Holley Tri-Power intake manifold and carburetor system for small block Chevy engines. It was factory equipment under the hood of the legendary big block L71 and L89 Corvettes. With a Tri-Power system you can cruise around economically on the 350 cfm center carburetor or unleash all 1000 cfm at wide open throttle to truly have the best of both worlds. Systems include a dual plane medium rise 3 x 2 W/air intake manifold, three Holley 2 barrel carburetors (one 350 cfm center carb with electric choke and two 325 cfm outboard carbs) in either a dichomate or cast shiny finish, steel fuel lines, progressive throttle linkage, and reusable air filters with polished housings.

*Note: Carburetors do not have a provision to connect an automatic transmission kick-down cable or linkage. Overall height is 11-1/2" front and 12-1/2" rear with air cleaners installed. HEI distributor will need to use a standard cap style small body distributor, the large caps with coils on top are too large to fit.*

H300521 cast dichomate finish..... 2483.99 ea  
H300522 cast shiny finish..... 2357.99 ea

**Holley**

## 390 CFM Carburetor

This Holley 4160 Series 390 cfm 4 barrel carburetor is ideal for small displacement V8 or V6 engines. It features side hung float bowls, a universal throttle lever, vacuum secondaries, and an electric choke. This is one of the simplest ways to get more performance from your engine.

# Carburetor Parts

## 1967 Rochester Carburetor Repair Set

You've got the original carburetor but it needs work. What do you do? You get a carburetor repair kit and fix it! This OE style repair kit is fabulous for repairing minor problems associated with original Rochester carburetors. Each repair kit includes: gaskets, pump, needle and seat, float gauge, guide, ball, spring and return. Perfect for off the vehicle repair.

K385 1967 MT with 2 barrel ..... 23.99 ea

## Street Demon TPS Set

When using an electronic overdrive transmission, such as a 4L60E, with a carbureted engine, the transmission control unit requires a throttle position signal. This sensor bolts on to the carburetor and sends the proper signal to the computer. The simple design allows for easy calibration and voltage adjustments. Includes all necessary installation hardware. Made in USA.

D1951 Street Demon TPS ..... 206.99 set

## Throttle Solenoid

Some vehicles require a throttle solenoid to be used with Holley carburetors. This is a replacement unit manufactured by Holley. Also available are the solenoid bracket #H209, and nut #H2657.

H4674 Holley throttle solenoid ..... 111.99 ea  
H209 bracket ..... 12.99 ea

## Jet Assortment Set

The Holley jet assortment set is the professional way to track tune your Holley carburetor for top performance. The set consists of 2 each of 36 different jet sizes ranging from #64 to #99. The jets are contained in a plastic case that keep them separated and make them easily accessible. Jet sizes selected will give the broadest range of adjustment and performance for most performance carburetor applications.

## Carburetor Spacer Set

Easily optimize the flow rates of air and fuel in your car with this modular 1" carb spacer set! Since various engine combinations have different fuel and air delivery requirements for maximum performance, each spacer set includes 1 frame and 2 popular inserts: open, 4 hole, and tapered 4 hole. This way, you can dial in exactly the right flow to get the most from your motor.

67160 carburetor spacer..... 31.99 set

## 5-1/8" Diameter Carburetor Cover

Keep dirt and contaminants out of your carburetor while working on your engine with the air cleaner removed.

Produced using tough plastic construction. For use on all 4 barrel carburetors. 5-1/8" diameter.

T2012 1967-86 4 barrel..... 6.99 ea

## Carburetor Wedge Plate

During hard acceleration the float bowls in a carburetor become uneven, causing moderate fuel starvation. This aluminum spacer tilts the carburetor forward 5-degrees to help keep it level. This spacer measures .830" at its thickest point and has a dual bolt pattern for standard Holley, Carter AFB, and Edelbrock carburetors.

*Note: Not legal for use on pollution controlled vehicles.*

265030..... 43.99 ea

## Carburetor Linkage Plate

Each plate is triple chrome-plated for a beautiful finish. For GM cables. Can be used with part #T2334.

T2333 Holley/AFB..... 30.99 ea

### AUTHORIZED

## Carburetor Rod Clip

## Carburetor Float Bowl Screws

These are reproductions of the screws for Holley dual float carburetor bowls. This is a set of eight 2-1/2" flat blade screws. A must when rebuilding your Holley dual float carburetor.

14305..... 14.99 set

## Float Adjustment Tool

No more slight-of-hand tricks! Easily adjust your carburetor float level with this hand float adjustment tool. 5/8" socket and built-in screwdriver blade protects your engine and hands from fuel spray.

67443..... 32.99 ea

# Carburetor Parts

## Accelerator Pump Cam Set

**Holley**

This set will allow you to "tailor" accelerator pump performance to the engine's actual requirements. Each cam has a different shape to give different results. The shape of each cam directly affects the accelerator pump stroke and pump capacity. A steeply rising cam shape will give a fast, heavy fuel shot right off idle. Conversely, a gentle sloping ramp will spread the pump action over a longer period of time.

H2012 includes 8 pump cams ..... 35.99 set

**Holley**

## Secondary Spring Set & Housing

Make changing your vacuum secondary spring a simple job with this quick change housing and set of adjusting springs. It is simple to install on any vacuum secondary Holley carburetor. The seven color coded spring set from light to heavy will allow you to adjust the opening of your secondaries.

H2059 housing ..... 24.99 set  
H2013 springs ..... 18.99 set

## Air Cleaner Studs

OE's replacement carburetor air cleaner stud for many Camaro models.

## 1992-97 Performance Throttle Bodies

With larger ports in the throttle body your engine will receive a greater volume of air which will allow it to make more potential horsepower and less likely to be a restriction in the system. This is why we offer the 52mm and 58mm high flow throttle bodies. Designed for outstanding throttle response and wheel spinning torque, these throttle bodies have been meticulously cast and flow bench tested for optimum airflow. It provides superior power when mated with high flow intake systems, exhaust systems, headers, or superchargers. 50 state legal.

*Note: No core required.*

## Universal Throttle Cable

All Lokar throttle cables are designed with a specially extruded liner to extend the life of the cable. Cables are equipped with aluminum fittings and aluminum ferrule to eliminate fraying. These cut-to-fit cables are available in 24", 36", or 48" lengths with a stainless steel inner wire, and your choice of a stainless steel, black stainless steel, or black nylon housing. Clevis is designed to eliminate cotter pins and set screws. Includes installation instructions.

**Important:** Remember to pull inner wire out before cutting outer housing.

Note: For 1988-93 EFI use TC1002A.

## Duo-Pak Throttle Cable Set

Lokar Duo-Pak throttle cable sets will easily adapt to most gas pedals and throttle assemblies. Sets feature Lokar's Hi-Tech throttle cable, stainless steel carburetor bracket, and return spring kit. Cables designed with aluminum fittings and aluminum ferrules to eliminate fraying and feature a "U-Cut-to-Fit" stainless inner wire and outer housing. Available in your choice of stainless steel, black stainless steel, or black nylon.

Note: Duo-Pak only available for carbureted applications with Holley, Edelbrock, AFB, Quadrajt and In-Line Dual Quad carbs.

## Throttle Cable Brackets

Lokar throttle cable brackets are available for a variety of different motors including carbureted setups, LS1, Ram Jet 350, 502, and more. Finishes include stainless steel, black stainless steel, and billet aluminum were available. Carburetor brackets only fit Holley, Edelbrock, AFB, Quadrajt, Demon, and In-Line Dual Quad carbs and mounts to the rear. Brackets for Tuned Port Injection are available with a single hole stud for throttle only, a dual hole stud for throttle and kick down, and a triple hole stud for a throttle, kick down and cruise control cables. Made in USA.

Important: Ram Jet 350 uses LS1 throttle cable TC3003C or TC3004B.

Note: \*Cruise control bracket set only.

# Electronic Fuel Injection

## Atomic EFI Set

The MSD Atomic EFI set fits all engines making up to 525 horsepower at the crankshaft. The annular ring charge injection design produces a better air/fuel mixture and distributes it evenly among the cylinders. As a result, engines idle, start, and drive better with the Atomic EFI set. Throttle bodies feature 80 lb injectors and a self-calibrating throttle position sensor. They also feature an internal fuel rail for no-leak, no-hassle fuel delivery. The master set is complete and ready to use out of the box. It includes the EFI throttle body, electric fuel pump, fuel line and filter with hardware, power module with wide band O2 sensor, and handheld controller. Also available are the throttle body set which includes everything except for the fuel system components. Or purchase the fuel components separately.

*Note: Atomic EFI sets are California emissions approved for carbureted General Motors vehicles 1987 and older. E.O number D-722.*

## Sniper Returnless EFI Master Set

Sniper EFI master sets, with a returnless retrofit fuel module. This contains combines the Sniper EFI self-learning throttle body, with an easy to install in-tank retrofit returnless module, 20 ft of Earl's vapor guard fuel hose, and the required fittings. The included fuel system places a 340LPH fuel pump in the tank, which can easily be accomplished with basic hand tools. The drop-in master sets make plumbing your Sniper EFI installation as hassle free as possible, simply cap the regulator on the Sniper EFI throttle body with the provided -6an cap, safely route the vapor guard fuel line along the chassis back to the die-cast fuel hat, and the job is finished.

# EFI Conversion Sets

## Sniper EFI

H550510

H550511K

## Sniper EFI Fuel Injection Conversion Sets

Holley Sniper EFI universal self-tuning fuel injection conversion sets. Converting to EFI will put an end to the cold start issues, hesitations, vapor lock, and flooding associated with most carbureted engines. Sniper sets feature numerous styles of throttle body and are available in polished, black ceramic, and classic gold finishes. Master sets include the most complete fuel system on the market. Holley just brought EFI within range and Classic Industries® carries the complete Sniper line with sets for nearly any application.

## Sniper EFI Features:

- Easy 4 Wire Hoop Up
- Throttle Body Mounted ECU
- Supports Up to 650 HP
- Integrated Ignition Timing Control & Coil Driver
- High Resolution Full Color Touchscreen
- Simple Calibration Wizard — No Laptop Needed
- OEM Style Sensors
- Clamp-on Oxygen Sensor Bung

## 4150 Four Barrel Sets

Holley 4150 four barrel sets feature dual bolt patterns (square and spread bore), an internal fuel pressure regulator, and four 100 lb injectors capable of supporting up to 650 horsepower.

*Note: Spread bore/Rochester Q-jet applications require sealing plate part #H90060.*

# Exhaust Headers

## 1967-02 Hedman Hedders

Classic Industries® stocks a full line of Hedman Hedders for 1967-02 Camaro models. These units are designed to replace the heavy restrictive factory manifolds with tubular steel manifolds to increase horsepower and torque. Includes collector and header to head gaskets, collectors, and bolts. We offer Hedman Hedders™ for or without air injection (smog tubes). Get more performance from your Camaro without breaking the bank and do it with a name you can trust in the header business "Hedman".

**Important:** Available in black. Be sure to read the important notes listed on the bottom of this page pertaining to each header style for correct application.

**Note:** Shipped oversize.

### Hedman Hedder Notes

- Without smog injection or injection heads.
- Includes parts necessary to retain emission devices. (50 state)
- With A.L.R. system.
- Modification to stock exhaust required to retain catalytic converter.
- Shorvic Header (Max. ground clearance).
- Not recommended for aluminum heads.
- 70 or later only - AC equipped vehicles require bracket #201110. (A6 compressor).
- Not legal for sale or use in California on pollution controlled motor vehicles.
- Will not fit Saginaw close ratio PS with 825 power steering box, 1967-69.
- Will fit with angle plug heads (Chevy aluminum only)
- It may be necessary to remove 2 hours (SS).
- Dual exhaust only. Limited ground clearance.
- Must modify rotary AC bracket.
- Transmission limited to 700R4 and TH350.
- Replace V-pipe available.
- 140) Complete with pipe to single catalytic converter.
- 167) Must use 21107 oxygen sensor reducers, not supplied with Hedders.

### Hedman Hedder Notes

- Due to cylinder heads (aluminum) generation 6 engines, 502 BB Chevy will have clearance problems with some applications. Bottom of Header flanges may hit head bolts. Nothing may be necessary.

### Hedman Emission Notes

- Not applicable or intended for street or highway use. Legal only for racing vehicles which may never be used upon a street or highway.
- Currently in E.O. approval processing and not currently covered by any existing E.O. number at this time.
- For vehicles 1964 through 1974 without A.L.R. system, considered as OE replacement parts when existing emission controls are not removed from vehicle.
- Not legal for sale or use in California.
- For vehicles 1964 through 1974 with A.L.R. system, considered as OE replacement parts and do not require an E.O. number when existing emission controls are not removed from vehicle.
- 1975-80 265-400 cid without A.L.R., non-feedback only.
- 1975-80 396-454 cid without A.L.R., non-feedback only.
- 1975-80 396-454 cid non-feedback only.

## 1967-69 Camaro Big Block Headers

Pypes big block headers feature large 2" primary tubes and 3-1/2" collectors which include stainless collector reducers, premium hardware, and gaskets. Big block frame mounts and motor mounts must be used to ensure proper engine location and header fitment. Fits 6-speedZF transmission and standard 5-speed Chevy 502 big block generation 6 engines with aluminum cylinder heads will have clearance problems on some applications. Bottom of header flanges may hit head bolts requiring notching to clear the bolts.

**Note:** Will not fit Saginaw close ratio power steering with 825 power steering box.  
A9700106 1967-69 396-502 ..... 731.99 set

## 1967-69 LS Engine Swap Headers

Headers are for 4.8L, 5.3L, and 6.0L LS engine swaps. A silver ceramic coating keeps temperatures under control and provides a great long-lasting appearance. Designed to clear the factory AC box, power steering, power brakes, crossmember, and oil pan when installed with a LS conversion set. Made in USA.

**Note:** Some modification may be necessary when used with 4LR80 transmissions or column shifters. Not legal on pollution controlled vehicles.

### Mid-Length Headers

453661 1967-69 1-3/4" ..... 629.99 set

### Long Tube Headers

454061 1967-69 1-7/8" to 2" ..... 939.99 set

## Exhaust Headers

## 1967-81 Doug's Headers

Doug's headers are carefully developed to fit each specific vehicle application. Doug's headers are available for 1967-81 Camaro models with small block or big block V8 engines, with and without air injection ports, and with console or column shifters. Heavy-duty machined and finished header flanges, the smooth mandrel bends tubes, and a protective Metallic Ceramic Thermal Barrier Coating (MCTBC) make Doug's Headers an excellent choice for exhaust system performance.

**Important:** These headers are intended for off-highway use only and are not designed for California vehicles with pollution control devices. Be sure to read the important notes listed on the bottom of this page pertaining to each header system for correct application. **Note:** Shipped overze.

## Doug's Headers Notes

- Shorly design for maximum ground clearance.
- Fit D-port cylinder heads including Z24 crane engines.
- Will not fit w/ Saginaw close ratio 825 steering box.
- Does not fit 1967-69 Camaro with 69.
- Big block frame struts and motor mounts must be used to insure proper engine location and header fit.
- Will fit most angle plate heads including factory Chevrolet "Bow Tie" heads.
- Requires removal or modification of locking steering columns if equipped.
- Reducers available with O2 sensor fittings.
- Installation requires a left side AC bracket 7608, 1979 and later vehicles with stock compressor can use the stock bracket.

- Tri-Y design.
- Does not fit with power glide transmission.
- Will fit with Detroit Speed & Engineering frame with rack and pinion steering.
- Must use non-shell type motor mounts.
- Will fit with Saginaw close ratio 825 steering box.

A) The product accompanying this document is legal only for off-highway use (except in California or states that have adopted California emission standards), racing use, or pre-emission controlled motor vehicles/motor vehicle engines (pre-1974 domestic vehicles certified to California standards, pre-1974 domestic vehicles certified to federal standards and all pre-1974 foreign vehicles), per the manufacturer's application guide.

## 1998-02 Full Length Stainless Steel Racing Headers

ARR full length stainless steel header and Y-pipe sets for 1998-02 Chevrolet Camaro. The headers are fabricated from aircraft quality T304 stainless steel and feature 3/8" thick round port flanges with hand ported inlets and fully welded custom sized merge collectors with scavenger with spikes standard. American Racing Headers will provide excellent ground clearance and are a direct bolt-in installation for General Motors 4th Generation F-Body vehicles. Includes: gaskets, clamps, O2 extension harness, and hardware.

## LS Cast Iron Exhaust Manifolds

These Hooker cast iron exhaust manifolds are designed to hug the engine block closely so they will work with a variety of LS engine swaps or as a replacement. Their contoured shape aims exhaust gases for increased flow and performance over stock manifolds with a traditional old school look. Fits all GM LS engines up to 500 horsepower except LS7 and LS9's and have been proven to fit 1970-81 F-Bodies, 1982-88 G-Bodies, and 1968-72 A-Body vehicles. Made from high silicon ductile iron for years of durability and corrosion resistance. Available in a range of different finishes.

Important: Not C.A.R.B. certified and may not be legal for use in some states on pollution controlled vehicles.

## 1967-72 BB Exhaust Manifolds

Reproduction exhaust manifolds for 1967-72 Camaro big block models. These extremely high-quality manifolds are designed and manufactured to exact original specifications including the correct casting numbers for 1967-72 models. The manifolds are also correct for 1971-72 big blocks with the exception of the casting numbers, which were different. Reproduction manifolds were "outflow" tested to ensure factory equivalent specifications. We now offer your choice of manifolds for early models not equipped with air injection tubes, or manifolds with correct air injection tube hole locations. Manifolds are sold in pairs only.

## Wedge Locking Header Bolts

PROFORM Grade 8 (12.9 steel). Hex type header bolts were designed to keep bolts from backing off. These permanently assembled bolts feature special washers with super hardened serrated teeth that, when sufficiently torqued, the washers bite into and grab the bottom of the bolt head and the top surface of the header. After being self-locked in this manner, any bolt loosening rotation is blocked by a wedge locking action created by the washers interfacing, matching cams. Engine vibration increases the tension, making them even more secure! They are reusable and you can count on them to not fail. Available in different sizes.

Note: Image for illustration purposes. 1979-earlier, small block 265-400. \*\*Big block 396-502/see 348, 409.

## Header Bolt Sets

The compact 12 point version lets you easily slip a socket close to the pipe. Each ARP bolt set includes the specific number of parts for your application, plus premium quality washers and Hex or 12 point nuts, as required. Each small block set contains 12 bolts and each big block set contains 16 bolts. Made in USA.

## Smooth Transition Set

Now customizers can compile a system that will work and provide a clean, fully custom look. Made from high-quality stainless steel as the performance Cut-Back systems and can be adapted to fit nearly any application. These sets are offered in dual 2-1/4", 2-1/2", and 3" configurations and include a collection of hangers, flanges, J-mandrel bends, U-mandrel bends, L-mandrel bends, and straight pipes.

Note: Mufflers are sold separately.

10701 2-1/4" dual exhaust..... 730.99 set

## 1967-74 Manifold Pipes

Manifold pipes designed to fit OEM exhaust manifold and facilitate the installation of a performance exhaust system. Pipes are manufactured in corrosion resistant stainless steel. Features 2-1/2" tubing and a 3 bolt flange connection. Made in USA.

Note: Shipped oversize.

16434 1967-74 small block..... 284.99 set

## 1986-89 Manifold Y-Pipe

These Y-pipes are manufactured in 100% stainless steel and designed to complement crossmember back exhaust systems. Mates to OEM manifolds and fits to 2-1/2" tubes. Made in USA.

16450 1986-89 small block..... 259.99 ea

## Header Collector Ball Flange Set

This header collector set takes the place of messy three bolt, flange type connections and allows for a leak free and gasket free ball flange type connection.

F15923 3-1/2" collector to 3" system 142.99 set

F15925 3" collector to 2-1/2" system 133.99 set

## 1967-81 Manifold Down Pipes

Not all performance enthusiasts use collector style headers, so Pypes has designed 2-1/2" down pipes for log style, rear exit exhaust manifolds to fit your Pypes header back systems. These down pipes are made from 409 stainless steel and mandrel bent 16 gauge tube that fit directly onto factory cast iron manifolds, and slip into the header back system. Manifold flanges are already installed.

Note: Shipped double oversize.

## 1967-81 Tunnel X-Crossover

Since a V8 fires alternately, exhaust exits in pulses rather than a steady flow. While one pipe is filled with pressure the other pipe is relatively pressureless, but connecting the 2 pipes in a Siamese pattern allows pressure to be equalized between the 2 tailpipes. This action allows the exhaust to pass through quicker for better breathing that increases horsepower. The Pypes crossover product line is defined by a high-quality, exceptionally versatile design. They are a proven winner when it comes to bumping up the horsepower of your daily driver or race car. Pypes tunnel X-crossover fits a variety of 1967-81 Camaro models with easy installation. All crossovers are made of 409 stainless steel with dual reinforcement plates at the welds where they are needed most. All pipes are mandrel bent to allow for the maximum flow of exhaust gases, which boosts acceleration. Limited lifetime warranty.

**Important:** Modification to the body pan brace is required on 1967-69 convertible models. In order to utilize this X-pipe, it is necessary to either add a body pan designed to allow clearance for the X-pipe assembly, or remove the body pan and install subframe connectors. If using stock, cast iron manifolds, add a set of down pipes to connect your original manifolds to the header back system.

Note: Shipped oversize.

P1067 1967-81 3"..... 264.99 ea

## 1967-81 X-Crossover Dump Legs & Cutouts

Pypes dump legs are made to replace the front legs of the X-pipe crossover on 1967-81 Camaro models, making installation of electric exhaust cutouts simpler. Each dump leg is strategically located for maximum ground clearance and includes block-off plates and hardware, and is manufactured from 409 stainless steel with mandrel bends to allow maximum exhaust flow. Add the optional electric exhaust cutouts and make uncorking your exhaust as easy as flipping a switch. Electric cutout set includes: two electric exhaust cutouts, wiring harness with switch, stainless steel mounting hardware, extra thick gaskets, and Pypes lifetime limited warranty. Available with or without dump legs. Electric exhaust cutouts fit 2-1/2" or 3" dump legs. Made in USA.

Note: \*Connects to any 2-1/2" exhaust with an approximately 12" straight section and enough clearance for the motor/vale assemblies.

## 1969 Exhaust Hanger Mount Plate

Reproduction stamped steel exhaust hanger mount plate for 1969 Camaro models with factory dual exhaust.

This bracket mounts to the frame rail providing a mounting location for the rear exhaust hanger.

KW673 1969 LH ..... 11.99 ea

43243

## 1983-92 Super Turbo Exhaust Components

High-performance pipe which is aluminized offering a superior appearance and was designed to follow the OEM routing and mounting points exactly. This intermediate pipe runs from the muffler to the tailpipe.

Important: Your Camaro's engine is the 8th digit of the VIN.

Note: Shipped overze.

E244 2-1/4" clamp plated ..... 5.99 ea  
E245 2-1/2" clamp plated ..... 2.99 ea

## Tailpipe Expander

Used to remove clamp grooves and round out crushed or bent exhaust pipes to ensure a tight fit, eliminating exhaust leaks.

The Hex end allows the use of a combination wrench to remove clamp grooves or small imperfections, or an impact wrench to expand pipes. Imperfections are forced outward rather than forward, eliminating possible damage to component parts.

No holding fixture is necessary.

X3442 1-13/16" to 2-1/2" pipes ..... 39.99 ea

## Exhaust and Tailpipe Cutter

Cuts pipes 3/4" to 3" (19mm to 76mm) in diameter. 15 blades effectively cut pipe so only 1/4" turn is needed for complete cut. Works great in hard to reach areas.

X2031 ..... 59.99 ea

# Mufflers

## 1967-87 Transverse Dual Exhaust Muffler

Correct replacement transverse mounted dual exhaust mufflers for 1967-86 models.

## 1975-97 Ultra Flo SS Muffler

Uses a unique straight through design that maximizes flow and power. Made from all stainless steel materials for corrosion resistance. Includes high chromium content, high luster T-304 cover and heads. Continuous perf design maximizes sound absorption, minimizes turbulence and gives a deep powerful true performance sound. All universal mufflers are reversible for custom installation.

<b>1975-97 V8, 1983-92 V6</b>		
17266 2-1/2"	inlet offset/dual outlet	209.99 ea

## 1975-97 Super Turbo Muffler

Exclusive patented flow directors channel exhaust flow and eliminate turbulence, larger diameter internal tubes for maximum flow, along with fiberglass matting that delivers a mellow, true performance sound. All aluminum materials, double wrapped and arc-welded for longer life and sharper appearance. All universal mufflers are reversible for custom installation.

<b>1975-97 V8</b>		
17739 2-1/2"	inlet offset/dual outlet	99.99 ea

## 1982-92 Terminator Muffler

Flowtech's Terminator is constructed entirely of super thick, black aluminumized steel, fully welded for strength and durability with 3" inner pass tubes that reduce back pressure and increase horsepower like no other muffler can.

**Note:** Dimensions: 15" x 11" x 5".

<b>1982-92 Direct Fit</b>		
50162 2-1/2"	offset/offset dual	130.99 ea

## Transverse 80 Series Muffler

The 80 Series is designed for applications where the muffler must be mounted transversely (cross flow) behind the rear end. It provides an aggressive muscle car sound both inside and outside the vehicle. A replacement for early and late model Camaro models. Constructed of 16 gauge aluminumized steel and fully MIG welded for maximum durability.

FLOWMASTER

## Super 10 Series Muffler

Looking for the most aggressive sound available? Flowmaster's new Super 10 series mufflers are so aggressive, they aren't recommended for street driven vehicles. Best suited to racing applications, these feature the same Delta Flow performance technology used in the highly popular Super 40 and Super 44 series Flowmaster mufflers. Manufactured from durable 409S stainless steel for long-life and offered in a variety of configurations. Backed by a limited lifetime manufacturer's warranty, these short, single chamber mufflers deliver the closest thing to open pipe sound possible. If you want high impact sound, the Super 10 series mufflers are the answer. Measures: 6-1/2" x 9-1/2" x 4".

**Note:** These mufflers are recommended for off-highway use, not for street driven vehicles.

## 40 Series — Original Flowmaster Tone

This is the most "aggressive" sounding street/strip muffler that Flowmaster offers. If you're looking for attention, this one will get you noticed. The standard 40 series has an "aggressive rumble" and will generally resonate inside the vehicle around 1800-2000 RPM's, and again at 2400-2600 RPM's. Constructed of 16 gauge aluminumized steel and fully MIG welded for maximum durability.

F952445

## Super 40 Series Muffler

The Super 40 gives you a deeper tone that retains our classic 40 Series sound and feel. Increased flow path radius for optimum internal flow using the latest in Delta Flow technology. Flowmaster state-of-the-art robot assembly technology assures a product that exceeds OEM auto manufacturers' specifications. To achieve such critical quality, Flowmaster performs extensive R&D at the track and in-house with our own engine and chassis dyno facilities. Flowmaster Super 40 is aluminumized, black in color and is the most aggressive, deepest sounding street two chamber muffler they've ever built. Enjoy some American Thunder today!

## Muffler Heat Shield

Formed aluminum heat shield designed to mount on muffler for added protection in reducing heat radiated from mufflers and reducing interior noise. Attaches easily with included straps. Fits 5" x 10" x 17" mufflers. F51017 ..... 42.99 ea

# Exhaust Systems

## 1967-69 Chambered Exhaust System

For the last word in a correct show car quality restoration, we offer the final solution! We stock a complete chambered exhaust systems for your early model small block or big block Camaro.

This reproduction will replace the long ago discontinued, and highly sought after GM originals! Chambered exhausts were offered late in the 1969 model run and were optional on Z28, big block or COPO Camaro models. This "free flow" exhaust system will allow your engine to properly breathe with a minimum amount of back pressure and no performance loss! Though originally available only for special engine applications, this exhaust system can be installed on any 1967-69 V8 coupe Camaro, but will not fit convertible models! Unlike the originals, these exhaust systems are manufactured with an aluminized finish for longevity. Installation set available separately.

**Note:** Shipped truck freight.

## 1967-74 Aluminized Exhaust System

If you are seeking an original appearance with extended life in an exhaust system, then look no further! Classic Industries® now offers this high-quality, aluminized exhaust system. Aluminizing of exhaust pipes means the pipes may outlast the rest of your vehicle! This system uses the correct angle cut tips with factory styled flattened tail pipe and lead pipes and a original style transverse muffler. Available for both small block and big block applications. Not available for additional discounts.

**Important:** Aluminized exhaust sets are for coupe models only.

**Note:** Shipped truck freight.

# Performance Exhaust

## 1967-81 Header Back Crossflow System

Pypes has designed a 2-1/2" crossflow system for 1967-81 Camaro models needing maximum ground clearance. The Race Pro muffler is the first maximum flow, straight through, transverse mounted crossflow muffler system that doesn't need to sacrifice any performance or aggressive growl to give you clearance. This system also features a horsepower freeing X-pipe designed to fit into the driveshaft tunnel, which contributes to it's ability to glide over the nastiest speed bumps. Available in 409 stainless steel or 304 polished stainless, including X-pipe, muffler, intermediate pipes and tailpipes. Limited lifetime warranty.

**Important:** Modification to the body pan brace is required on 1967-69 convertible models. In order to utilize this X-pipe, it is necessary to either add a body pan designed to allow clearance for the X-pipe assembly, or remove the body pan and install subframe connectors. If using stock, cast iron manifolds, add a set of down pipes to connect your original manifolds to the header back system.

**Note:** Shipped double oversize.

P1060	1967-81	2-1/2" 409 stainless steel - 1/4 exit	693.99 set
P10601	1967-81	2-1/2" 304 polished stainless - 1/4 exit	913.99 set

## 1970-81 Crossmember Back Dual System

Pypes has designed a crossmember back dual exhaust system for 1970-81 V8 models that incorporates a 16 gauge, mandrel bent stainless steel X-pipe to maximize exhaust gas flow and boost horsepower. This system features a Siamese designed X-pipe, a pair of Street Pro, Race Pro, or Violator mufflers, tailpipes, cast-plated clamps, and hangers. The combination of the crossover and the mufflers deliver a perfect balance of sound and performance. Features 409 stainless steel X-pipe, mufflers, intermediate pipes, and tailpipes. Limited lifetime warranty.

**Important:** If using stock, cast iron manifolds, add a set of down pipes to connect your original manifolds to the header back system.

**Note:** Shipped double oversize.

25057

## Stainless Steel Electric Cutout

These cutouts feature a rugged 12 Volt DC motor and rotating gate for a leak proof seal every time the cutout is opened and closed. When fully opened, these cutouts do not create exhaust flow obstructions that can create a leaky gasket sound, unlike butterfly style cutouts. A pre-wired harness with an illuminated rocker switch is supplied for easy installation. Unhook your exhaust with the flip of a switch from your dash. The cutouts are ideal for race tracks that don't require mufflers. Available individually, in pairs, or in complete kits with Y-Pipes for easy installation. Made in USA.

**Important:** Not recommended for vehicles equipped with catalytic converters.

**Note:** May not be legal for highway use or use on emission controlled vehicles.

## Stainless Exhaust Tips

These tips add the final personal touch to your custom exhaust! The extensive line of stainless steel Pypes exhaust tips will provide years of eye-popping looks and excellent durability.

## For 2-1/2" Pipes

P1048 dual 3-1/2" splitters ..... 142.99 pr  
P1049 6" x 3" oval tip ..... 101.99 pr  
P1050 8" x 2" rectangle tip ..... 144.99 pr  
P1051 9" slash cut tip ..... 41.99 pr  
P1052 3-1/2" rolled edge tip ..... 62.99 pr  
P1053 4" x 2" oval tip ..... 112.99 pr  
P1072 2-1/2" long slash cut tip ..... 107.99 pr

## For 3" Pipes

P1082 8" x 2" rectangle tip ..... 154.99 pr  
P1083 9" slash cut tip ..... 48.99 pr  
P1085 4" x 2" oval tip ..... 128.99 pr  
P1073 3" long slash cut tip ..... 113.99 pr

## Bow Tie 8" Exhaust Tip

8" length fits 2-1/4" pipe. Universal to fit nearly any Chevrolet car or truck. The ultimate dress tip for street or show. Manufactured in the United States using .08" thick carbon steel (or 409L chrome-plated stainless steel). Choose from 2 popular materials triple chrome-plated carbon steel or triple chrome-plated 409L magnetic stainless steel. Made in USA.

## Fits 2-1/2" to 2-3/4" Tailpipe

135209 3-1/2" tip single wall ..... 87.99 ea

135210 3-1/2" tip double wall ..... 117.99 ea

## Fits 2-3/4" to 3" Tailpipe

35211 3-1/2" tip double wall ..... 117.99 ea

## J-B Weld SteelStik

J-B Weld SteelStik is a steel reinforced epoxy putty stick. This hand kneadable epoxy adhesive will plug holes and make permanent repairs on wet and dry surfaces. Cures completely submerged in gasoline or under water in 60 minutes. Can be drilled, sanded, filed, tapped, machined and painted. Works on multiple surfaces: aluminum, brass, bronze, copper, iron and stainless steel. Cure color is dark gray. Made in USA.

# Exhaust Components

12 oz aerosol can half pint (8 oz) pint quart gallon XTC primer 12 oz aerosol can

02 - jet black 05 - cast iron gray 08 - off-white 28 - pure white 10 - flame blue

03 - aluminum 06 - rocket red 07 - Pontiac metallic blue 23 - stainless steel 25 - charcoal metallic

## Xtreme Temperature Coating

XTC is a high temperature/heat resistant coating formulated specifically to protect metal surfaces operating at temperatures from 500 to 1500 degrees F. With proper preparation, XTC provides outstanding adhesion, film integrity, weathering, and thermal shock resistance throughout this entire temperature range, and is guaranteed not to burn off! Available in your choice of a wide variety of colors and sizes.

**Note:** 8 oz. will coat approximately 3 sets of automotive exhaust manifolds with 2 coats or coat a set of short headers with 2 coats. Pints will coat a set of full size headers with 2 coats or coat a complete automotive exhaust system with 2 coats.

### Xtreme Temperature Coating

**Important:** When ordering, select the part number for the size of the can you need, then add the two digit numerical color code to the end of the part number to specify your desired color.

**Jet Black, Charcoal Metallic, Flame Blue, Cast Iron Gray, or Off-White**

KB655	one gallon	specify color	279.99 ea

### Xtreme Temperature Primer

XTC Silicone Zinc Primer prevents corrosion of metal surfaces exposed to high heat, high humidity, condensation, and salt air. It functions much like galvanizing as it locks itself to bare metal surfaces leaving a perfect primed surface for top coating. Available in a wide variety of sizes.

KB65100	12 oz. aerosol can	primer	22.99 ea
KB65400	one quart	primer	125.99 ea
KB65500	one gallon	primer	439.99 ea

## Hi-Heat Coating

The coating will protect the wrap from abrasion and harmful liquid spills. Extra resins and binders toughen the surface, extend the life of the wrap by protecting it from friction, and seal the pores to minimize the penetration of harmful liquids. The coating also works excellent as a paint directly on metal surfaces.

**Note:** Shipped within the continental U.S. only. Shipped ground only.

## Thermo-Sleeve

Thermo-Sleeve is the combination of a high temperature fabric laminated to a highly reflective Mylar foil. It provides protection from radiant heat for hoses and wires. Thermo-Sleeve's ultra lightweight construction provides more insulation than traditional bulky rubber coated fiberglass. The aluminumized sleeve reflects more than 90% of radiant heat, plus it is fireproof and oil resistant! Thermo-Sleeve is available in 3" or 12" lengths.

DE010220	1/4" drive tightening tool	7.99 ea

## Heat Sleeves

Silicone coated fiberglass heat sleeving protects wires, cables and hoses from intense heat exposure, liquid spills and even occasional flame exposure. Withstands continuous 500 degrees F temperatures and short term exposure up to 2200 degrees F. Available in either silver or black, and diameters of 1/2", 3/4", and 1". Made in USA.

# Exhaust Components

## Reduce Underhood Temperatures!

Increased exhaust scavenging is produced, along with lower intake temperatures. Exhaust Insulating Wrap™ withstands continuous heat up to 2000 degrees F., and contains no asbestos. Will not over insulate a system when properly installed due to a proprietary coating developed by Thermo-Tec® Thermal Conduction Technology (TCT) that conducts heat across the wrap's surface. The 1/16" thick wrap is available in 1 inch or 2 inch widths in 15' or 50' rolls. Choose from off-white or graphite black.

### Off-White Exhaust Wrap

TT1009	1" x 15' short roll.....	12.99 ea
TT1011	2" x 15' short roll.....	16.99 ea
TT1010	1" x 50' long roll.....	28.99 ea
TT1012	2" x 50' long roll.....	45.99 ea

### Graphite Black Exhaust Wrap

TT1054	2" x 15' short roll.....	17.99 ea
TT1013	1" x 50' long roll, black.....	34.99 ea
TT1014	2" x 50' long roll, black.....	46.99 ea

## Reduce Underhood Temps Up to 70%!

The new quick wrap, high velocity Exhaust Jackets™ are an innovative way to insulate and block radiant heat. The jackets cover the header tubes vertically allowing for a consistent fit. The fit allows the exhaust system to expand as it comes up to operating temperatures without restrictions and provides air space for added insulation. This product uses Thermal Conduction Technology (TCT), developed by Thermo-Tec®, and can be applied with the headers in the vehicle.

TT1015	4-6 cylinder.....	76.99 ea
TT1016	8 cylinder.....	91.99 ea

## This Flexible Heat Shield Clips Into Place!

The Header Manifold Blanket™ provides excellent heat retention for exhaust headers and manifolds. This flexible heat shield simply clips into place on the upper portion of the header. The fabric side of the material should be facing the heat source, and the aluminumized side facing away—offering protection from abrasion and harmful liquid spills. The Header Manifold Blanket™ is available in 2 sizes: two 20" by 24" blankets for V6 and V8 applications, and one 36" by 40" blanket for straight 6 and 4 cylinder engines.

TT1017	V6-V8 applications.....	82.99 pr
TT1018	straight 6 or 4 cyl models.....	78.99 ea

## Vermiculite Coated Header Wrap

Insultherm Header Wrap is an extremely high temperature resistant wrap used to insulate hot gases in automotive exhausts. Manufactured from texturized fiberglass yarns that are woven into a strong, flexible wrap with vermiculite coating. Resists gasoline and engine chemicals and withstands temperatures up to 1200 degrees F (maximum continuous temperature of 1000 degrees F). Available in black or natural in 50' or 25' rolls.

### 1" Header Wrap

HW19301	black	1" x 50'	19.99 ea
HW19302	natural	1" x 50'	18.99 ea

HW19304	natural	1" x 25'	8.99 ea

### 2" Header Wrap

HW19311	black	2" x 50'	26.99 ea
HW19312	natural	2" x 50'	25.99 ea
HW19313	black	2" x 25'	16.99 ea
HW19314	natural	2" x 25'	15.99 ea

## Turbo Insulating Set

The turbo insulating set is designed to protect and improve performance of the turbo. This universal set will help reduce turbo lag. The cut-to-fit set includes a substantial amount of material to cover turbos from the smallest automotive application to heavy-duty truck applications.

TT15002	6 or 8 cylinder set.....	110.99 set
TT15003	turbo insulation cover only.....	48.99 ea

## Shield Plastic or Rubber Hoses and Wiring from Radiant Heat!

Thermo-Shield™ protects hoses and wires from radiant heat. Unprotected, rubber hoses and plastic or rubber insulated wiring can dry out, melt or crack over time. Thermo-Shield™ is used in applications where it is difficult or not practical to disconnect one end of the hose or wire. The adhesive backed composite construction tape can easily be wrapped around the hose or wire to make a clean, professional appearance. Reflects radiant heat up to 2000 degrees F. Provides a barrier against the extreme conditions that underhood components are exposed to. Wrap your fuel lines and say good-bye to vapor lock.

TT1019	1-1/2" x 15' feet.....	18.99 ea
TT1051	2" x 50' feet.....	48.99 ea

DE101408

DE050501

## Floor and Tunnel Shield II

Ten mil aluminum bonded to woven glass fiber with a hi-temp adhesive backing. Designed to withstand temperatures up to 1750 degrees F. The adhesive backing adheres to almost anything while withstanding temperatures over 450 degrees F. Ideal for firewalls, floor pans, transmission tunnels, and under hoods.

**Note:** Cool-Teap recommended for seams and edges.

## An Extremely Versatile Heat Barrier!

The Aluminumized Heat Barrier™ is made up of woven silica with a flexible aluminumized finish. The highly reflective surface of the material is capable of withstanding radiant temperatures in excess of 2000 degrees F. Installed using standard rivets with a backup washer, or with weather strip adhesive. The Snap Straps (sold separately) can be used to hold the blanket in place for manifolds or exhaust systems.

TT1008	36" x 40", 10 sq. ft.....	79.99 ea
--------	---------------------------	----------

## Keep Cool! Reflect Radiant Heat!

The Muffler/Catalytic Converter Heat Shield™ is made up of woven silica with a flexible mylar finish. The highly reflective heat shield can be installed between the catalytic converter, muffler, or any other component to reflect radiant heat away from the undercarriage of the vehicle. Kit includes one 24" x 40" Mylar heat shield and all necessary fasteners.

TT1007	muffler heat shield.....	65.99 ea
--------	--------------------------	----------

## Clamp-On Heat Shield

The flexible Clamp-On Heat Shield blocks more than 90% of damaging radiant heat from the exhaust. Silica based clamp-on shields are available in 1', 2', and 3' lengths Clamp-On Shields are available in 1', 2', and 3' lengths. Sets come complete with all clamps and install easily in minutes.
